If you would like to take a lesson in business administration, you should listen in when Lee Tudor and A. E. Whitehead start sparring over the purchase and sale of hay.

It starts out with a casual inquiry by Lee as to whether A. E. has any alfalfa hay for sale and gradually works up to the point where neither one knows what the hay should sell for. Lee offers ten dollars a ton and A. E. says it would be a bargain at sixteen, the argument ends up with a decision on the political proposition of immediate sale of the prospect, with the most of the story to be continued in the next issue.

It was worth the trouble, for it was the tops in anything in the way of a fowl that I have ever treated my palate to. Shorty had better put a good lock on his pheasant roost, for I'm getting hungry for more pheasant right now.

Carl Lewis gave us four quail last week and they were the best I have ever eaten. From now on, just plain things like steak, chicken and ham are going to be mighty poor food so far as I am concerned, I want pheasants and quail at least once each week.

Years ago I saw a cartoon that seems more appropriate to me each year, as the sands of time drift through the old dial. It was a picture of a weebegone old rooster, looking dolefully at a fancy feather duster. The caption was "A rooster today, a feather duster tomorrow."

With all my fond aspirations that have beset me in the past, the efforts I have made to bring some of them true, the sad results, with the best memories of things that seemed foolish at the time, it seems to me that it is best to try to get as much pleasure out of life today and let the future come down on us like an avalanche from the mountains. The old bogaboo of trying to make preparations for the future might as well be overlooked, for the twists and turns that fate will roll in over our little destinies and knock our playhouse into a cocked hat. . . . Any way you turn it comes out the same, "A rooster today, a feather duster tomorrow."

Most people who drive cars are worried about their tires, but it is my opinion that they will have something more to worry about before long and that is gasoline and oil. It is true that crude oil is still under proration, but a bountiful supply of crude oil does not mean that we will have all the gasoline we wish to burn. That crude oil lacks a great deal of being refined oil and gasoline. With thousands of airplanes going into use and thousands and thousands more in the course of manufacture, the refineries are going to be run at capacity to supply the needs of these. Where will the every-day motorist come in? We'll get what's left, if any.

"Hand me down my walking cane."

Charles Austin says that the farmers around here have been missing some good profits by not raising peanuts. Charlie planted a nice crop of peanuts and made some money off of them and has enough left to eat peanuts all winter.

It is likely that you can find Charlie and his family most every night sitting in front of the fire eating peanuts, counting.

ing money and listening to the war news.

In some newspaper I read that the Russians had ordered three million pairs of frost proof boots from the United States. Each pair of boots is to weigh four pounds. It must be that the Russians are figuring on kicking the Germans all the way to Berlin and are guarding against getting frost bitten by the Nazis, who have been sitting down on their job of taking Moscow.

Now it seems that the ladies are going to have a hard time getting exactly the right kind of Princess slips and it will not be long before they will be "showing again". This grieves me very much for there is nothing more discouraging than to see a well dressed woman strutting around with her slip showing.

And not only are women going to have a rough time with slips, but we are all scheduled to wear clothes made out of reclaimed wool or of some other material. The virgin wool will all go into army clothes and those of us who are too far gone to get in the army will have to send our old suits in to be re-treaded or patch them up ourselves. This makes it unusually hard on a newspaper man, for when we are in the throes of composing high-powered dope for the press, the squirming and twisting in a chair is very hard on the seat of the pants. There is nothing more embarrassing than to have to go around with patches on this particular part of a pair of pants, but the patches could be turned into revenue

by selling advertising space on them as we do advertising in the columns of the paper.

There are many possibilities that might be developed from war conditions and if things get much worse, I am going to look into them.

The war news keeps me very badly mixed up. With a big blare I read, or hear over the radio, that the Russians have just about taken Karkanblizy. The next day I hear or read it again, as if no mention had ever been made of it. A month later I still hear the same news. For weeks I expected the Germans to take Moscow, and from the reports of the gains the Nazis were making, my arithmetic showed that they should have been fifty miles on past Moscow, and now the Russians are capturing forty to fifty towns every day, and if my addition is not greatly off center, the Russians should be only a few inches from Berlin.

Towns that I did not know were in the world become most important war objectives, and when I go to check them on the map they turn out to be whistle stops somewhere out on the Steppes of Russia.

As to where the war is or what is going on, I am as befuddled as Robinson Crusoe, but I still read every detail about Kratzendolv or Boovyxink, as if they were Dallas or Fort Worth.

There might be some excuse for the air raiders missing Dallas in the recent blackout maneuvers, but it seems to me that the aviators should have been able to locate Fort Worth

with their noses.

The war has made it very hard on the young ladies of marriageable age. Under ordinary circumstances, they can take a pencil and paper and figure out which one of their prospects will add up to the most money or the chances of his earning a fair sized helping of this world's goods, but now they do not know whether to grab off the first chance that comes along, or wait until the boys come back, and try to chase them down. Military regulations are making it doubly hard by censoring all mail, which is going to make it most difficult to keep up with a good prospect. When

the boys get back a fresh crop of young ladies will be on the market, and the old maids gunning for husbands are going to be almost as bad as the war. It's a problem that should be worked out along with all the others after the war difficulties that are being considered.

Precautions About Handling NATURAL GAS

In Case Of Air-Raid Alarms!

Natural gas is the safest fuel you could be using during an air raid. BUT, the HANDLING of natural gas is a technical matter, requiring the services of trained men who know now to avoid the hazards involved.

It is therefore extremely important that everyone should study and follow the carefully prepared instructions relating to the handling of natural gas during air raid alarms. If these instructions are not followed, serious consequences may result. **Untrained persons should not attempt to turn gas off and on at the meters.**

Following are the official instructions which have been approved and adopted by local Office of Civilian Defense. They are simple. Read them carefully. Discuss them in the family circle so all will understand. Cut them out and post them where all can see them. Above all, follow them!

**In Case Of An Air-Raid Alarm:**

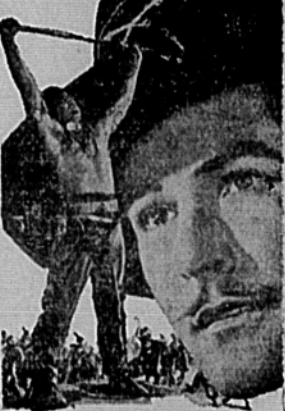

1. Make no attempt to shut off the gas at the meter.
2. Simply turn off all burners which you customarily turn on and off. **Do not** turn off pilot lights.
3. Only in case the house or building is badly damaged should the gas be turned off at the meter.
4. If, for any reason, the gas is turned off at the meter, do not turn it on again yourself. Call for a trained man.

### Our Weekly Sermon—

**Our Shelter**  
 By Dr. Henry Ostrom, of Moody Bible Institute, Chicago.  
 Text: "Shut up to faith."—Galatians 3:23.

The winds are swift, the snow is cold and crisp, the night will be colder than the day. Has the helper shut up the vegetable cellar? Has he shut up the stable for the sheep and cattle? Everything shut up then, housed from the storm and freeze!

The lesson in our text tells of the law of God shutting us up to faith. Just as truly as winter storms and cold impel us to find shelter, so the righteous law, the holy law, would storm us into perishing; it would freeze us into outright discouragement. Pity the man who tries to brave the law by "going about to establish his own righteousness."

It is thus that faith becomes our refuge. It shuts us in from the condemning storm. Instead of being a mysterious enemy, faith is our defense, our shelter.

"He that cometh to God MUST

believe that He is." Thank God, it is not that he must circumscribe or bound what He is. That would leave him to freeze in a paralysis of impossibility. But he can believe—that is, if he has evidence. Well, the evidence has resisted all storms of assault from without and within for the centuries. That evidence is a rock that cannot be blasted. God gives it and God enforces it. So, shut up to faith, we are storm-sheltered by God. "God is our refuge and strength."

But when we read that we must BELIEVE that He is, there is another MUST immediately added: we MUST believe that "He is a rewarder of them that diligently seek Him." We must believe in riches great enough to give the reward. We must believe in His willingness to give. Judgment that can find guilt and pronounce sentence cannot reach us there.

The man who thinks he has larger liberty in unbelief is really "shut up to sin." That is, he cannot, entertaining that program, become sheltered from the storm. Never speak of faith without mentioning God. And when we mention God, then all is possible, for faith gets what God does. When our Lord Jesus Christ says, "He that believeth . . . hath everlasting life," that guarantees that He gives it. His ability insures the faith. Shut up to faith assures shut up to God.

## SEVEN LUBBOCK COUNTY GIRLS ENROLLED IN T. S. C. W. AT DENTON

DENTON.—Texas State College for Women has seven Lubbock County girls among the 2,450 students enrolled this year. Again the largest residential woman's college in the United States, TSCW has students from 214 Texas counties, 27 states, and 5 foreign countries.

Lubbock County students include Miss Mary Emily Darwin of Slaton; Misses May Vaughn Caswell, Harriett Ellen Jarrett, Mary Lu Johnson, Jean Estelle Holt, and Jean Young of Lubbock; and Miss Dortha Faye Blanton of Idalou.

The growth of TSCW in the short span of 38 years to a place of prominence among the nation's colleges is attributed by authorities to the ability of the college to anticipate the needs of women in the world today and to prepare them to best meet these needs.

## Subdebs Meet On Saturday

The Delta Sigma Subdeb Club met Saturday, January 17, at the home of Misses Gerry and Maxine McMillin.

President Connie Henry presided at the business meeting and the election of officers for the coming year. Miss Henry was re-elected for President; Gwendolyn Hanna is Vice President; Wilda Hannah, Secretary - Treasurer; Corinne Cates, Reporter and Phyllis McReynolds, Parliamentarian. Plans were made for a cake sale to be held Saturday, January 24, at the Texas-New Mexico Utilities office.

Refreshments were served by the hostesses.

## Stop That Coughing — and Stop It NOW

Pour yourself a teaspoon of Buckley's CANADIOL Mixture—let it lie on your tongue a moment then swallow slowly. Feel its quick powerful effective action spread through throat, head and bronchial tubes. Acts like a flash. Right away it starts to loosen thick, choking phlegm and open up clogged bronchial tubes. Over 10 million bottles sold in cold wintry Canada. A single sip will tell you why. Spend 45 cents today at Teague Drug Store or any drug store for a bottle of Buckley's CANADIOL Mixture.

## New Members Elected To Study Club Personnel

Misses Reba Pool and Mary Lee Thompson were elected as new members of the Daughters of Pioneer Study Club, at a regular meeting, Monday evening, January 19, at the home of Mrs. G. W. Brassell.

A business meeting preceded the program, at which time the new members were elected. The program subject was "Health and Safety". Mr. John C. Jenkins presented a picture show for the group. The selection and presentation of the movie was in charge of Mrs. G. W. Privett and Miss Naidene Smith.

Those present were Mesdames Oree Glasscock, J. P. Hallburton, Warren Henry, Odie A. Hood, Charles Marriott, John Hardy Morgan, Privett, Earl Reasoner, R. A. Singer, Harmon Thompson, Melvin Tudor, Ralph Stevenson, and Misses Smith, Myrtle Teague, Mary Watkins, and the hostess, Mrs. Brassell.

The next regular club meeting will be Monday, February second.

## MR. KAVANAUGH SPEAKS ON P. T. A. PROGRAM

The Parent Teachers Association of West Ward and Junior High school had its regular monthly meeting last Wednesday afternoon at the Junior High building.

Miss Ura Mae Haggard introduced the speaker, Mr. M. S. Kavanaugh, superintendent of Slaton Public Schools, to the group. Mr. Kavanaugh talked on "What American People Can Do To Aid Defense." The program was preceded by a business meeting conducted by the president, Mrs. Roy C. Matthews. The program was closed with a salute to the flag.

The program for February is a Founders Day program, with Mrs. J. G. Wilhite, chairman of the program committee.

## MEMBERS OF SLATON CLUB HAVE TEST

Mrs. J. F. Henry gave the Slaton Home Demonstration Club members a test on foods at the meeting Wednesday afternoon. The meeting was at the club house. As a result of the test the members learned that bird's nest soup is a Chinese delicacy made from the substance certain birds use to cement their nests together.

Miss Clara Pratt, County Home Demonstration Agent, told the group that early hatched pullets lay larger and more high priced late summer, fall and winter eggs. Early hatched chicks are hatched by the middle of March.

The following were present: Mrs. W. H. Long, Mrs. C. E. Lilley, Mrs. I. C. Tucker, Mrs. J. F. Henry, Mrs. R. C. Hall, Mrs. Roy Collins, Mrs. P. M. Wheatley, Mrs. J. L. Collins, Mrs. Lucyle McEver, Mrs. E. E. Wilson, Mrs. Henry Robinson and Miss Clara Pratt.

The club will meet Wednesday, February 4, at 2:00 p. m., at the clubhouse.

Mrs. Luther Faulkner and daughter, Wilma, left today for Biloxi, Mississippi, where they will visit Luther, Jr., who is stationed there with the United States Air Corps.

## Purposes Of Civic Organization Expressed By Active Member

Mrs. C. Z. Fine, who is active in the Slaton Home Demonstration Club, has outlined and submitted the purposes of the organization.

The Home Demonstration club women of Lubbock county are putting their shoulders to the wheel and striving bravely to do their utmost in the herculean task that confronts the country in preparing for national defense.

More than a "talking" job, theirs is real participation in such activities as Red Cross sewing, serving as officers in the Texas Farm Federation on the Land Use Planning Committees; cooperating with the County Health Unit in home nursing and first aid training courses, and with the National Federation in the fight against diseases.

Taking as one of their principal responsibilities, that of aiding in the building of better bodies of young Americans, Clubs are laying more stress on proper nutrition.

The fact that many of the young men have and are failing to pass physical examinations, has caused mothers to awaken from their lethargy. As a practical means of achieving proper nutrition for all, the Texas Food Standard has been adopted as a guide in planning, preparing, and preserving food by members of these clubs.

That the lessons given by the Home Demonstration agent have wrought improvement is shown by the fact that a majority of the prizes won at the Panhandle-South Plains Fair this fall were won by home demonstration club women. Appreciation of the government's help in supplying agents to assist in the work is evidenced by the number of letters sent to congressmen asking that this service not be curbed and that an increased number of counties be supplied with agents.

The clubs are 100% in pledging a greater increase of food production for 1942.

They have contributed to the aluminum drive; have saved old papers, saved garden seeds; inaugurated more cold storage food lockers for the preservation of fresh meats, fruits and vegetables; they are devising more means of preparing left over foods and they are continuing studies for a diet adequate with vitamins and minerals.

For this year, special programs are planned on patriotism, woman's part in defense, and other phases of life that have a tendency to increase the love of country and the morale of the whole nation.

The American Legion Ladies' Auxiliary will meet Monday night January 26, at the American Legion Hall at 7:30 p. m. The auxiliary is striving to complete the membership drive and urge all members to pay dues by that time.

## HATCHING SEASON TO HAVE BRIGHT OUTLOOK

Mr. W. S. Stevenson, manager of Driver's Hatchery, stated in a recent interview, "Well, we are starting another hatching season, with the outlook brighter than any season in a long time, for the poultry man that is going to raise pul-

## WHY NOT HEED THE SUGGESTION OF YOUR AUTO MECHANIC

Do you have ignition trouble on your car? Do you have generator trouble? What about your brakes? These are things we hear all the time from machinists and mechanics. Did you ever stop to realize, however, that they may have something there? Perhaps they are looking out for the good of your automobile, just as you should do. If the bearings in your generator should wear out and cause the battery to become dead, you can see that it would be necessary to have the generator repaired and the battery charged, or maybe a new battery, where, if you heeded the suggestion of your auto mechanic and had your generator and other car parts checked, it would save you money.

Carl Sartain specializes in generator, ignition, and brake lining repairs and general auto repairing. Mr. Sartain is one of the most dependable men in the business and attends to this work personally. Drop in at his shop to secure prices and information concerning repairing.

## TIME TO THINK OF POULTRY PRODUCTION

It will not be long until the time for setting eggs arrives. You should make sure you are ready to take care of this. If your poultry are in the best condition and are well fed and laying properly to furnish an adequate supply of eggs for setting hens, you have nothing to worry about. Good feed is one of the most important things to consider at this time of year, when you are thinking of brooding your hens.

Lee Tudor, at the Slaton Grain and Coal Company, carries a complete line of nationally advertised feeds and growing and laying mash for your poultry. Not only does Lee offer you good feed, but the most for your money at reasonable prices.

If you need a supply of coal, Mr. Tudor will deliver it to you. He has a large stock on hand and is going to raise fryers for the market."

The egg market on dressed fowl holds steady for this time of year. We are taking orders for chicks to be delivered in February at prices slightly higher than last year's prices, if you intend to buy chicks in February or March, please book your orders now, and remember that baby chicks are guaranteed to please when they come from Driver's hatchery.

"We also have just received a car of that good Burrus feed and our turnover is fast enough that we may keep you in fresh feeds at all times. You may purchase these Burrus Texo Feeds at the H. G. Schuette Grocery, Gentry Grocery in Posey or here at the Driver's Hatchery," said Mr. Stevenson.

## Local Drug Firm Gets Agency For Hoyt's Compound

Large Shipment Of This New Medicine Has Arrived At Teague's Drug Store

Police Officer W. R. Thomas of 2303 West Second Street, Amarillo, Texas, states: "For 25 years, I was employed by railroad companies and for the past two years have been with the Amarillo Police Force. For a long time I had spells of indigestion. Immediately after meals, my food soured in my stomach and there was a sour taste in my mouth. Gas formed in my stomach causing pressure around my heart. My stomach felt like there was a big, solid lump in it. I had dizzy spells, my knees, arms and shoulders pained me terribly. At times I could hardly walk. My kidneys bothered me a great deal and I had to arise several times each night.

MR. W. R. THOMAS

"I decided to try Hoyt's Compound and now I am no longer bothered with indigestion and can eat anything. Hoyt's is a wonderful medicine and the results from it are almost unbelievable. My kidneys are functioning normally now, and I rest undisturbed through the night. The misery is gone from my shoulders and arms,

and I can walk as fast as I like without my knees and legs bothering me. I feel like an entirely different person. I am happy to make this statement hoping that others may read it and be benefited by the use of Hoyt's."

If you, too, are suffering from a similar cause, why not come to Teague's Drug Store today and get a bottle of the new medicine? Hoyt's Compound is also sold by druggists elsewhere. Be sure to get genuine Hoyt's Compound. Accept no substitutes.

### COOPER NEWS

Kathryn Robertson, Correspondent

Mose P. James, 61, a farmer in the Cooper community the past 18 years, died in St. Mary's hospital at 2:55 o'clock Tuesday afternoon, after a long illness.

Death was caused by circulatory collapse, a physician said.

Mr. James came to Lubbock from Paris. Survivors include the wife, six sons, Howard, Mose, Jr., Marvin and Andrew of Sundown, and Paul and Chandler, Arizona; five daughters, Mrs. Vera McFarland, Cooper; Mrs. Annie Mae Waldrip, Sundown; and Misses Susie Pearl, Rose and Edna Earl, all of route 4, 10 grandchildren and two sisters, Mrs. Minnie Jordan and Mrs. Fannie Hope, both of Dallas.

Funeral services were conducted in Plains Funeral home chapel at 4 o'clock, Wednesday afternoon, with Rev. Mont M. Walker, pastor of Assembly of God church, officiating. Burial was in the Wolf-forth cemetery.

School was dismissed at 2 o'clock Wednesday, in order that those who desired could attend the funeral.

Wallace Phillips, son of H. B. Phillips of Cooper, and a former employee in the office of the county tax assessor-collector, is now with the army on the West Coast. He wrote friends a letter, received Tuesday. He was formerly at Jefferson Barracks, Mo.

hair nets, cigarettes (except where tin foil has been eliminated).

Essential war chemicals, including chlorine, phenol and glycerin, are used to make cellophane and similar transparent materials derived from cellulose.

**Sugar Schedule.**

An amendment to the refined sugar price schedule, raising by 20 cents per hundred pounds the maximum prices that refiners and other primary distributors may charge for cane and beet sugar sold for direct consumption, has been announced by Leon Henderson, Administrator of the U. S. Office of Price Administration.

This upward revision reflects the recent increase in the wholesale price of raw cane sugar.

"This action should have no immediate effect upon the price of refined sugar at retail," Mr. Henderson said, "since retailers are now selling supplies which they acquired at lower prices. I am confident that retailers can be depended upon to delay any price increase until their present stocks on hand are exhausted and they must pay higher wholesale prices for replacement supplies."

**Victory Bicycles.**  
Plans to produce this year approximately 750,000 "Victory Model" bicycles, designed to meet adult civilian requirements, have been made by the national bicycle industry.

The bicycles, stripped almost completely of critical materials, gadgets and bright work, weigh only 34 pounds, compared with an average weight of 55 pounds for

bicycles made last year. About 10,000,000 bicycles are now in operation in this country. Of these about 85% are used by children. The "Victory Model" is designed solely for essential adult requirements.

### JUNIOR HIGH SPORTS.

The Junior High Cubs are very proud of their new red and black basketball uniforms, though they have not yet played in the complete uniforms, as they have just received the jerseys this week. The team wishes to thank Mr. Herschel Crawford for letting the boys sponsor a movie to pay for the suits. The team also wishes to thank everyone who purchased a ticket or contributed anything.

The Cubs played two games last week, winning from the Freshmen 22-20, and beating Wilson High school juniors 13-12. Boys playing were: Grady Barnet, Grady Elder, Dwayne Walters, Bobby Stevenson, Earl Roberts, Kenneth Jobe, W. A. Sikes, Roland McCormick, and Tommy Davis. The next game is with the Lubbock Juniors, at Lubbock. This team will play in Slaton next Thursday night, when the Cubs and the Slaton Freshmen play two teams from Lubbock.

### SALE OF DEFENSE STAMPS.

The sale of Defense Stamps began at the Junior High School last Thursday, and on that day \$35.00 worth were sold. A total of sales through Wednesday, January 21, was \$85.00 worth.
