CITY-WIDE CLEAN-UP DRIVE BE HELD JUNE 12 TO 17

Representatives of the service clubs, the Lions and the Rotarians, the Chamber of Commerce, City Health Officer, W. E. Payne, Mayor Wootton, and others met in a body at the Palace of Eats last Thursday morning and outlined plans for the coming City-wide clean-up.

The city was divided into eleven zones by this body of men and Captains were chosen for each zone. Aids will be chosen by each Captain and the clean-up will be well under way bright and early next Wednesday morning.

Trash, Tin cans and Rubbish from each home is to be carried to a central location in each alley and piled there so as to permit passageway for a truck down the center of the alley.

As the city has only one truck available to haul the rubbish, volunteers will be needed to complete the hauling. The State Guard truck and a pick-up of Chester Williams have already been volunteered. Others who wish to help are instructed to call Max Arrants at the Chamber of Commerce.

Monday week will be the deadline for your hauling. Suggestion has been made that each place deserving clean-up notice, will be given a sticker which will give notice to all that this property has passed inspection.

Mr. Joe Stanley, Lubbock City Engineer, Mayor Wootton, and Dr. Payne will make final inspection.

Captains of zones are as follows:

Zone One—Max Arrants.

Zone Two—Carl Self.
Zone Three—J. C. Champion.
Zone Four—O. Z. Ball.
Zone Five—Chester Williams.
Zone Six—Mayor Wootton.
Zone Seven—J. W. Moore.
Zone Eight—Mel Tudor.
Zone Nine—Pete Pearson.
Zone Ten—John Sims.
Zone Eleven—Bill Sledge.

A meeting of Captains is called for next Tuesday afternoon 6:30 at the Chamber of Commerce Office to get final instructions.

New Model For 1946 Introduced

Something new in the way of a birth announcement was received this week by Mr. and Mrs. Walter Savell of Slaton from their son-in-law and daughter, Mr. and Mrs. Blanton Cogburn of Colorado Springs, Colorado.

The new arrival is introduced as a 1946 model, with an illustration of an automobile on the front of a folder, the title is, "A Brand New Baby."

She is a super deluxe, put out by the Cogburn Production Company and features, Free Squealing, Economical Feed, Two Lung Motor, Scream Lined Body, Longer Lasting Body Finish, Changeable Seat Covers and they guarantee this the only model this year.

Those interested in the new Cogburn model were invited to "get one of their own."

Methodist Bible School Completed

The Methodist Bible School which ended yesterday afternoon attracted over 100 attendants with an average of over 80 attending daily.

Mrs. W. L. Lane who directed the School reported that she was greatly pleased with the fine cooperation of the students and the instructors. A Certificate of Merit was issued to each student who completed the course and it is hoped that they will prize it in the future.

he could catch him and still another intends to shot to do real damage.

Local Peeper Is Given Warning

"Someone is going to get shot around here," said a local business man who reports that a peeping Tom has been visiting his home lately. "I do not wish to hurt anyone, but I am not going to hesitate to shoot if it continues," he said.

Investigation over town substantiates the assertion of this man and several men have stated that they have found evidence that someone has been prowling around their premises.

One man said that he intended getting a bull dog if the prowling continues, another that he would fill the intruder full of birdshot if

Strange And Rare Animal Is Described By Local Hunters

Dear Mr. Jackson:
I would like to tell you about a coon hunt on Double Mountain River.

This hunt took place after midnight last Saturday about seven miles from Clairmont, Texas on the ranch owned by Mr. Mark Cave who was gracious in permitting me to take my hounds on his property and hunt cat and coon. I was accompanied on this trip by Mr. H. C. Burch of Lubbock, Texas, who can verify the story as follows:

Along about ten minutes after midnight we started back to our camp as we had decided it was too dry to hunt, the dogs struck a hot trail and on looking for tracks in the sand we were dumfounded to learn that we had struck a very rare animal and the hounds had it on the way to its native old Mexico. Years ago when I worked as a black-faced comedian on a medicine show we had an old Mexican on the show who told me some tall stories about a varment down in old Mexico that the natives called a "Bianikas."

The "Bianikas" is an animal about the shape and size of a streamlined armadillo, has six legs and a long slick tail like the possum. At the end of its tail is a bone hook that it uses as an anchor in coming to a stop. This old Mexican told me that the Bianikas eat only the Mexican Jumping bean for food.

Boy, the Bianikas sure can run. In our struggle over the bluffs and rocks to keep up with our dogs we came on to some good sized mes-

quite sapings that had been uprooted by the Bianikas hooking his tail into them trying to stop. At long last we heard the hounds barking treed and we hurried over to find the Bianikas had hooked a big Hackberry tree going by so fast that it was easy for the hounds to soon have it stretched out and killed. All of a sudden I thought of what I promised Luther Kirk about hunting on Sunday and feeling sort of a backslider we lit out for the camp and hit our bedroll.

Now if any of you folks doubt the veracity of this story I have the bone hook that I took out of the Bianikas' tail in my pocket and will be glad to show it to you anytime you meet me on the street. It is a very rare animal and I am sure proud to see one before I leave this vale of tears. My six hounds are still recuperating from that terrible fast race with that Bianikas and I only hope that they will get their wind back by Saturday night so we can hie ourselves back to Mr. Caves' ranch and try to catch its mate.

Bill Sewell and Howard Swanner both had an invitation to go with me on this hunt but they both declined and they sure did miss a chance of a lifetime in seeing this rare animal. I couldn't bring the carcass in as it had been running so fast that the carcass melted into a pile of grease right soon after I removed the bone hook from its tail.

Well, I gotta go now.
Signed:
Coon Dog Casey

Deadlock Causes Recess

PARIS, FRANCE — (Soundphoto) — Failure of "Big Four" foreign ministers to reach an agreement on peace treaties with Italy and other former Axis satellites resulted in a deadlock after three weeks, and a decision to recess until June 15th. This picture shows leading representatives of the "Big Four" powers as they met to celebrate the first anniversary of the ending of the war in Europe. Watching troops pass in review are left to right: Foreign Ministers George Bidault of France; V. M. Molotov of the Soviet Union; Ernest Bevin of Great Britain and Secretary of State Byrnes.

Study Of Bible Well Under Way

Bible School, which opened at the Church of Christ last Monday, is receiving excellent attendance and much good is being accomplished according to reports. Classes are being conducted daily under the direction of J. Lloyd Moyer, Min. The School program will close the night of June 14, at which time the students will receive diplomas for work well done.

Those who have missed this first week of Bible Study are invited to visit the school as there are classes for all ages.

THE WEATHER

Weather recordings for the month of May as taken by G. H. Orr, are as follows:

The coldest day was May 11 when the reading was 40 degrees; the warmest was May 27, when 96 was reached. Light showers fell on May 7, 9, and 28 gave this section twenty-one thirty seconds of an inch of rain.

PRESBYTERIAN CHURCH TO HAVE SERVICES

Rev. Frank D. Travis, Director of the Restoration Fund for the Synod, will speak on the Restoration Fund next Sunday evening, June 9 at the First Presbyterian Church. The time is 8 o'clock.

Personals

Sgt. and Mrs. Ellis Schmid of Ft. Sill were week-end guests of Mrs. R. H. Bailey.

Mrs. Niehoff has returned home from Ft. Worth where Mr. Niehoff has been receiving care of a leg, broken some four weeks ago. Mr. Niehoff has now been taken to the Veterans Hospital in Amarillo. Mrs. Bob Brinker and daughter Carolyn, of San Antonio, accompanied Mrs. Niehoff to Slaton.

Jimmy Doyle Henry, Elec. Mate 2/c, who has been serving on the USS Burlington, has recently received his discharge from service and has returned to his home.

Notice has been received in this office that Glenn H. Seroggins, Y2c, received his discharge from the navy, May 31st and will be at home to friends at 705 South 5th Street.

James C. Powers, fireman, second class, 200 East Lubbock st., Slaton, Texas, is serving aboard the USS Hank, a destroyer which will carry officers and men of the Organized Reserve on training cruises.

The Hank, using Charleston as a permanent port, also will carry Midshipmen from Annapolis and will help these trainees and reservists keep in touch with naval affairs and techniques.

Delmer Trimble of Southland is home on boot leave from San Diego, where he is stationed in the navy. His twin brother Elmer will be home tomorrow.

Pvt. Charlie E. Barnes, son of Mr. and Mrs. Ortis J. Barnes, of 1150 S. 9th, has been assigned to the 30th Signal Heavy Construction Bn. a unit of the Peninsular Base Section, the Army Service Force in Italy.

PBS served and supplied Fifth Army and the ground crews of the U. S. Air Forces and Navy during the entire Italian campaign. The Base is commanded by Brigadier General Francis H. Oxx.

After arrival in Naples Port, Pvt. Barnes, was transported to the 7th Replacement Depot for processing according to Army skill and civilian specialty. At the depot, he was provided with bed and mattress, adequate blankets and Post Exchange supplies in buildings of the "college" area in Bagnoli. Within thirty six hours he boarded coach trains to Leghorn. Enroute here, the train stopped at Rome where a hot meal was served. At Grosseto, almost mid-way between Rome and Leghorn, coffee and doughnuts were provided in a railroad station club of the American Red Cross. Upon arrival at Leghorn, the soldier went to the 1st Staging Area to be transferred to his assigned unit in the near vicinity.

Bus Station Manager Offers To Come Get Lost Customers

A couple of weeks ago the Slatonite carried a comment by a subscriber stating that Slaton needs a bus station. Mr. Bob Bain, local manager of the bus terminal in Slaton has the following to say in answer to the plea made by the Slatonite subscriber:

Ladies and Gentlemen of Slaton, Texas,

I am very sorry you can't find the Bus Station. It is one block North of the City Hall.

If you can't find it PHONE NUMBER 9517, and I will send a cab after you. So Please Wake Up. Slaton already has a bus station.

Garland To Add Softball Teams

There is a suggestion made which seems to gain in favor with participating teams, that the softball season be split and two teams added who are anxious to mix it with the league contenders. Those ready to jump into play are the spirited players of Robertson and an American Legion Team.

A number of small boys have reported that they would like to have a try at playing softball and are to be permitted use of the diamond in twilight affairs if a league can be organized. Those ready to enter play should report to Mr. Chick Garland to complete organization.

Please notice that the softball field is not to be used for play or practice on Sundays. Mr. Garland reports that many have wanted the field on Sunday but that it is not to be used on that day.

Standings of teams as of June 4th.

MR. J. B. HUCKABAY RECEIVES G. I. LOAN

Mr. J. B. Huckabay has just received completion of a G. I. Loan to buy a Slaton home, according to word received in this office. Sale was completed by the Pember Insurance Agency, who have been working to the interests of a number of other ex-G. I.'s in securing Government loans to buy homes.

Mr. Huckabay bought the residence property at 935 So. 10th St. Mr. Pember reports that a number of other G. I. Loans are expected to be completed in the near future. The above loan is the first completed in Slaton so far as this office has been able to determine.

Vocational School To Start Soon

A veterans Vocational Agricultural School is being organized under the auspices of the Veterans Administration and the State Board of Vocational Education. This school is under the direction of the Lubbock County Board of Education. In order for a Word War II Veteran to be qualified for this school he must be a bona fide farmer, rancher, operator renter, partner or equivalent thereof.

This Lubbock County Vocational School on May 27, 1946, was approved by the State Veterans Approval Committee as being equipped to furnish training to Veterans under Public Law 3466, 78th Congress (G. I. Bill of Rights). The first class will begin on August 1, 1946.

Mr. and Mrs. Blanton Cogburn are the parents of a daughter, Karen Kay, born May 29, at St. Francis Hospital, Colorado Springs Colo. She weighed 8 lbs. 2 oz. Mrs. Cogburn was formerly Miss Lucille Savell.

Responsibility Is Recognized By Tom Gordon In District Race

Tom Gordon, Lubbock lawyer, announced today that he was a candidate for the office of district attorney, 72nd Judicial district composed of Lubbock, Hockley, Crosby and Cochran counties.

Gordon has been practicing law since 1938, and served four years in the office of the Attorney General of Texas — two years as a legal investigator and two years as an assistant attorney general.

Upon leaving the Attorney General's department in 1939, he moved to West Texas, and practiced law in Hockley county, Texas, until 1942, when he enlisted as a private in the army of the United States. He served for three and one-half years and received an honorable discharge on March 13, 1946.

In seeking the office of the district attorney, Gordon states that he is aware of the importance and responsibility of the office. The district attorney is called upon to represent the people in the more

serious type cases in the district courts as where a man's life or liberty is at stake; necessarily, such responsibilities cannot and should not be taken lightly. The great growth of this district in the past few years has increased the work of the office of District Attorney and requires his full attention all hours of the day and night. Gordon pledges that he will give all of his time and efforts to such office and the preparations of cases under its jurisdiction. Gordon said he favored the suspended sentence law and its application in proper cases.

Gordon declared that he knows that every person living in the four counties that compose the 72nd Judicial district is proud of the reputation that this district bears for law enforcement and of the clean, record as to crime. He will strive diligently to maintain as well as better this reputation and record.

If elected district attorney, it will be his policy to faithfully perform the duties of the district attorney always bearing in mind the protection of the individual rights of every citizen if infringed upon and the full prosecution of those who violate the laws.

Gordon is married, resides at 2405 Twenty-first, Lubbock, and is a member of the Methodist church. His office address is 614 Lubbock National Bank building.

He requests that if upon inquiry of his record, you feel that he is worthy of the honor of being your district attorney, he will appreciate your support and influence in the coming election.

THIS WEEK'S LESSON

"God the Only Cause and Creator"
is the subject of the Lesson-
Sermon which will be read in all
Churches of Christ, Scientist, on
Sunday, June 9.

The Golden Text is: "The Lord
is the true God, he is the living
God, and an everlasting king: . . .
He hath made the earth by his
power, he hath established the
world by his wisdom, and hath
established the world by his wis-
dom, and hath stretched out the
heavens by his discretion" (Jer-
emiah 10:10,12).

Among the citations which com-
prise the Lesson-Sermon is the
following from the Bible: "In the
beginning God created heaven and
the earth" (Genesis 1:1).

The Lesson-Sermon also includes
the following passages from the
Christian Science textbook, "Sci-
ence and Health with Key to the
Scriptures" by Mary Baker Eddy:
"All that is made is the work of
God, and all is good" (page 521).

TWO TEXAS BOYS AND TWO GIRLS ARE TO BE 4-H CLUB DELEGATES

The two girls and two boys who have been chosen to represent Texas as 4-H Clubs at the National 4-H Club encampment in Washington, D. C., June 11-18, have been announced by Lorene Stevens and James W. Potts, 4-H Club specialists for the Texas A. and M. College Extension Service. The winners are: Eddie Virginia King, Howard, Lamar County; Lanelle Riedel, Buda, Travis County; Billie P. Hancock, Lakeview, Hall County; and Jackie Gene Brock, Floyd County.

Usually an annual affair, the

1946 Encampment will be the first to be held since 1941. Objectives of the camp are to help 4-H delegates study at first hand the work of the U. S. Department of Agriculture and the other government departments, to gain a better understanding of the national government and the important part that can be played by each citizen, and to confer together regarding the development of a stronger rural leadership and a richer and fuller life for all those living in the country.

The Texas boys and girls will be accompanied to Washington by Miss Stevens and Mr. Potts, and the Texas and New Mexico groups will travel together by automobile.

But, the fact that they still perform marriages in this country is proof positive that this is the land of the brave.

PIGGLY WIGGLY

I Give You Texas

By Boyce House

Won't it be great when you can again order a ham sandwich and get ham—and not "pressed ham"?

Rambling over Texas:

Near Springtown, a road-runner scurrying across the highway, the first one this observer had seen in a long time; and, south of Sweetwater, a hawk so big he looked like an eagle—he sat on a fence post and disdained to stir as the car whirled past.

Near Hondo, a vast field of yellow stubble with hundreds of red and white cows grazing—in the distance, a solid line of jagged mountains veiled in blue.

At Yoakum, chickens peering out of second and third story windows of a building—a poultry establishment, of course.

And in Abilene, a sign: "Frisky minnows."

Your columnist is a candidate for Lieutenant Governor of Texas. It would be deeply appreciated if you would say a kind word to

your friends about Boyce House. With your help, we can win.

Why is a lawyer's brief called "brief"?

There was a little discussion in this space a few weeks ago about whether it was ungrammatical to use a preposition to end a sentence with. E. Roberts of the Andrews County News sends in a story about a boy who was sick and asked his nurse to read to him from "Robinson Crusoe" but she brought in "Swiss Family Robinson" instead and he demanded, "What did you bring me that book to be read out of to from for?"

COOPERATOR

A man received a big check for services rendered, and discovered that it was one penny short. A stickler for detail, he insisted that the difference be paid—and in due course received another check for the single penny. He presented it for payment at his bank.

The teller examined it closely and then asked, "How would you like this, sir? Heads or tails?"

—Rotary Bulletin, Launceston.

BACK TO JACK—Dennis Day, honorably discharged after two years in the Navy, sings again on NBC's "Jack Benny Show." The tenor, a former lieutenant j.g., served in the Pacific area.

A sailor tossed a message in a bottle from a ship near Honolulu and it was found on the west coast of Africa seven years and one day later.

Seven of the nine teachers and officers, were present at Sunday School. Only Mr. and Mrs. Robertson the two teachers of the adult classes were absent. Mr. and Mrs. Robertson are visiting in Eastern Texas and will teach at Fieldton, Lamb County, next year. They will probably remain in the Posey community for several weeks.

Karen and Kenneth Havis of Lubbock, children of Mr. and Mrs. Melvin Havis visited their grandparents Mr. and Mrs. A. L. Havis for several days of the past week.

Mrs. W. A. Gumm of Causey, New Mexico, visited relatives near Posey Monday.

Veretta and Melva Gail Johnson of Lubbock were Sunday School visitors.

Soft ball is creating more interest at Posey in the form of a girl's team which has been organized. They played a team from Robertson at Slaton Saturday night. The girl's team has also challenged a team which will be composed of the younger matrons of the community. Members of the

NEFF CONTENDER FOR ATT. GENERAL POST

Pat M. Neff, jr., towering candidate for Attorney General of Texas, is already hitting the high spots in what he avers will be a vigorous statewide campaign.

Next week his planned itinerary includes the following stops:

Monday (June 10)—Humble, Cleveland, Coldspring, Livingston, Corrigan, Diboll, Lufkin.

Tuesday—Alto, Rusk, Mt. Enterprise, Henderson, Kilgore, Longview.

Wednesday—Carthage, Center, San Augustine, Nacogdoches.

Thursday—Zavalla, Woodville, Jasper, Newton, Kirbyville, Silsbee.

Friday—Liberty, Dayton, Houston.

Saturday—Hempstead, Navasota, Bryan, Hearne, Bremond, Marlin, Waco.

Neff plans a statewide radio broadcast the night of June 14, he said.

team which played a stronger Robertson team are Vernell Campbell, Betty Jo Vannoy, Betty Ross Maeker, Elizabeth Guttersloh, Rachel Gebert, Laverne Gentry, Neva Ruth Belcher, Allie Mae Belcher, and Louise Gentry who serves as manager.

The Wild Cats won two of three games played this past week and soon hope to challenge the leadership of Wilson, also Southland and the Santa Fe teams.

R. B. Boyd reported squares on some of his cotton during the month of May, which is a very advanced stage of growth for cotton in this section.

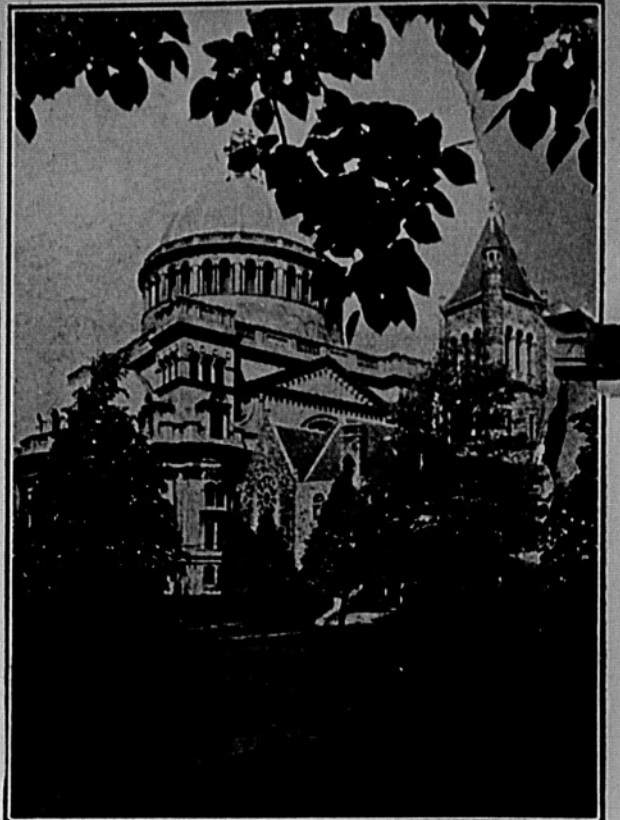

Mrs. J. M. Shafer and Mrs. M. P. Gentry teachers of the younger groups in the Sunday School, will soon have a group singing class and also a quartet.

Pfe. Oscar Lee Johnson who volunteered for service about six months ago and has been stationed for the past several weeks near Pittsburg, California is expecting a transfer soon.

The Birch family who have been living on Mrs. Cranfill's farm have moved to Lubbock where Mr. Birch owns a home.

Miss Frances and Linda Hart visited Allie Belle and Betty Lou Johnson Monday afternoon.

There are still a lot of cheap people in this high-priced world.

Announcement of the appointment of Luther Phillips Cudsworth, C. S. B., of Boston, as President of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, was made today by The Christian Science Board of Directors.

Mr. Cudsworth at various times has served as Purchasing Agent of The Christian Science Publishing Society, a Director of Christian Science Welfare Activities in Portsmouth (New Hampshire) Nava Prison, Committee on Publication for the State of Oregon, and as First Reader of First Church of Christ, Scientist, Marsh-

field Massachusetts.

He is a native of Iowa, receiving his early education in the public schools of St. Paul, Minnesota, and later attending Harvard University and its College of Business Administration. Before devoting his entire time to Christian Science activities, he was associated with the printing and publishing business in St. Paul, and with the Portland, Oregon, Railway, Light and Power Company.

He received instruction in the Normal class of the Board of Education in 1943, and since that time has taught classes in Christian Science annually.

Peanut Pie Has High Taste Appeal

For a sweet, crunchy dessert that is delightfully different, try Peanut Pie, advises Marjorie Griffin, Rural Home editor of Capper's Farmer. The nutty flavor from chopped peanuts has high taste appeal, she writes in the nationally circulated farm magazine.

Just before serving the pie, top it lavishly with whipped cream. Arrange it around the edge of the dark filling in a ring of snowy peaks.

PEANUT PIE

2 tbsp. sugar 3 eggs
1/4 C. sugar 1 lb. shortening
1/2 tsp. salt 1 C. peanuts
1/2 C. cold water 1 unbaked pie shell
1 C. dark corn sirup

Combine flour, sugar and salt; add water and corn sirup and blend well. Boil gently for 3 to 5 minutes. Then slowly pour mixture into slightly beaten eggs, stirring continuously. Add shortening. Spread chopped peanuts over bottom of 9-inch pie shell. Pour filling into crust. Bake in hot oven (425° F.) for 10 minutes; reduce heat to 350° F. and continue baking 35 minutes. When silver knife inserted in center of filling comes out clean, pie is done. Before serving, top with whipped cream. Serves 6.

JUST TALK
by
A.M.J.

With all the expense of building these days and the agony of those who plan homes I would like to start a campaign to do away with dining rooms, fireplaces, hedges and chimneys.

The folks who have a great big dining room such as Nat Heaton, Ray Ayers or Leonard Harral, figure it quite an event when they get to eat off the dining room table, perhaps once or twice a year. The equipment for a dining room sets a bank account back for somewhere close to a thousand dollars and a dining room with all the fancy furniture naturally calls for sterling silver and sterling silver naturally needs china ware of suitable expense to go with it and it takes more money to keep a dining room up than it does to play the stock market. My advice is to do away with the dining rooms and be satisfied with the cracked dishes in the kitchen or the inexpensive equipment that fits into a breakfast room.

Then look at the fireplace, what do young folks of today know about a fireplace, it's as useless in a country where we all burn natural gas, as a sox would be to a rooster. The fireplace does not even bring back the nostalgia of bygone days to the younger generation for they never depended upon a fireplace to roast their face and freeze their rear elevation or visa versa, it's just a big pile of masonry in the center of the room.

And of what use is a chimney, they cost a ton of money to construct and do no good whatever, they are no more good than a mother-in-law. Then think of a hedge if you have ever watched one grow six inches overnight and either lacerated every finger on your hands and blistered both of them while clipping one of the blamed things or paid a hired hand six dollars to give it a hair cut you will understand what I mean. If there are any folks contemplating the construction of a home I invite them to come see me first. I can save them considerable money with some fatherly advice from experiences that have made me a nervous wreck.

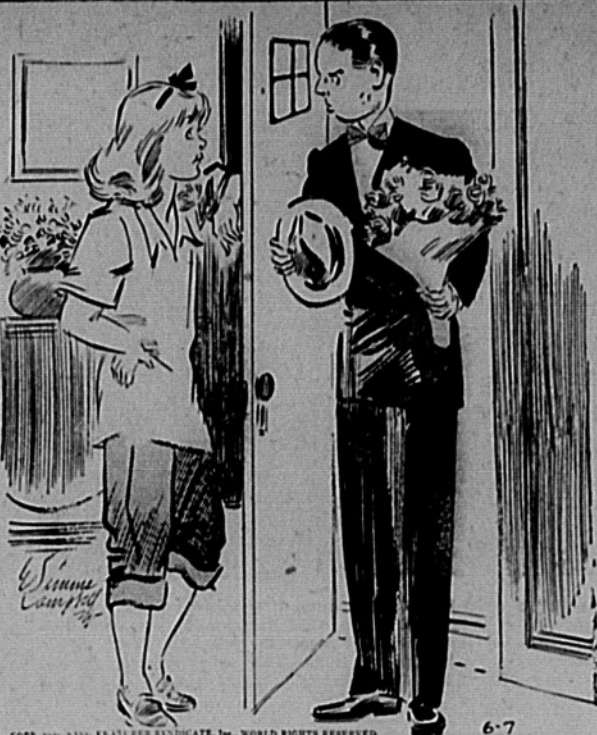

For the last month I have been making the rounds with dire predictions as to what is going to happen. The drought, the shortage of paper, soap and meat has had me in a high state of sorrow for nearly two years. It has been my

habit to encourage people to hoard sugar, potatoes, soap and canned goods and I am still in a high fever over these things, but to date I have not seen a single soul who has been dirty because of the lack of soap, although I have had my suspicions about some of them being dirty for other reasons, nor any one who has lost weight on account of not getting enough sugar, potatoes or meat. The daily papers have had to cut down the size of their publications but no one has gone ignorant of the latest crimes or strike news on account of this fact. I'm beginning to wonder if some of us would not be better off without some of the stuff we have become so accustomed.

J. Lloyd Moyer was in the office last week after having escaped from the hospital. He still looked haggard from having swallowed a stomach pump and he said that the Doctors had told him that he has stomach ulcers. "Oh, well," said the Minister, "I'll have to go on a diet but it might be good for me, for I am told that most preachers dig their graves with a fork, and I have been mighty handy with a fork lately."

Communities have personalities just as individuals do—they may be friendly, wholesome and pro-

gressive, or slow, retarded and unsightly to the eye. Miss Jeanie Pinckney, sponsor of in-service training of group workers for the Extension Division of the University of Texas, has as her special job showing groups how they can make their communities attractive and interesting.

Along this line it seems to me that the people of Slaton should stop and analyze what kind of personality we as a town have developed.

If we could see both our weaknesses and our good points we could improve the good and try to blot out the bad ones.

The biggest problem is "how can we act as a unit?" and not as just individuals who see many faults, but because of the lack of organization, can do nothing about it. Slaton needs several industries and may need them more in the

future than now. Proper co-operation could bring them here or our own people could develop them if we could build up the proper organization and leadership. Our future depends a great deal on what we do now.

Miss Pinckney has been counseling groups in Kerrville for several months and she can chalk off a half dozen towns, and literally hundreds of individuals whom she has guided in community planning.

An acceptable and responsive way of living during the summer months is the goal of a program Kerrville is to have this summer. Miss Pinckney said. Schools, churches, encampments, business and professional groups have planned a unified community program which will include both individuals and families.

"A playground program is evolving out of the desire to make

the program progressively sound and to guide each individual in getting something very satisfying out of his experience," she said. "Craft and other classes are built almost around leaders who are stimulating an interest among citizens in the different groups and areas of the community. While there is a place for each child and adult, the program also provides a place for the entire family to enjoy their leisure together if they choose.

"It is very interesting to stimulate the groups to have goals in their planning and to show originality; it's more interesting to see them get into action, and still more interesting to help them get around some of the obstacles they did not anticipate," Miss Pinckney said. "But the most fascinating thing of all is to see the individual in the group accept his or her role and carry it to completion.

"When that occurs, the program is getting phases and the individual is creating a place for himself in the community. Such summer programs as the one in Kerrville helps a community express its personality through creative group experiences."

Cold Wave Permanents Found Harmful In Scientific Tests

Cold wave preparations are definitely harmful to the scalp and hair, according to the results of exhaustive scientific tests recently completed.

New home permanent waves are also likely to be dangerous for the same reasons, the tests show.

The tests were made by the laboratory of Good Housekeeping magazine in response to many requests from women as to the merit of the cold wave permanent.

"In the case of every cold wave preparation we have so far examined, our laboratory has advised us: 'This cannot be considered entirely safe,' an article in the June issue of the magazine states in part. The reasons back of the decision were:

"The cold-wave solutions we have examined contained thioglycollate, an ingredient widely used in depilatories and likely to be highly irritating to the skin. In patch tests we conducted on a group of people, too many developed irritations for us to regard it as entirely safe.

"The laboratory further found

that these products tend to decompose standing on the dealers shelves and in beauty shops. As they decompose they develop compounds that are potentially dangerous.

"Because thioglycollate is a depilatory with a destructive action on hair, it is extremely important to stop its action by treating the hair with an arresting solution at just the right point. The hair must be plastic enough to wave, but not damaged. In actual practice this is not easy. Frequently the hair keeps on breaking, so that the owner thinks, 'My hair is falling out or thinning.' A typical complaint is that of a reader who says: 'I had a cold wave a few weeks ago. It cost \$20 and did not last at all.'

Cotton Classing Service is Free

Deadline dates for filling application for Smith-Doxey service are August 1, east of the 100th meridian and August 15, for counties entirely or for the most part west of the 100th meridian, according to F. E. Lichte, cotton gin specialist, Texas A. and M. College Extension Service.

While these are the deadline dates, the USDA Production Marketing Administration, which provides the service, has set up goal dates of July 1, and July 10. Applications cannot be filed until cotton is planted, but should be sent in as soon as acreage for a given cotton group can be determined.

The Smith-Doxey Act, now in its ninth year of operation, provides free classing service so that farmers will know the actual grade and staple of their cotton as a guide for selling it. Samples from each bale of cotton raised by members of organized groups are sent to central points by cooperating ginners for classing by government employees. A market news service gives the market price for the various grades and staples.

In 1945 a total of 1422 gins, or 62 percent of those in the state, signed up for the program as a service to their customers, and 43 percent of the cotton grown in Texas was classed under the Smith-Doxey Act. Almost five million acres of cotton produced by 96,626 farmers, were covered by the 1945 applications.

Instruction and application blanks may be obtained from county agricultural agents or from

PMA branch offices at Abilene, Austin, Dallas, El Paso, Galveston and Lubbock, Lichte said.

SILK STOCKINGS NOW GROWING IN TEXAS

The Lone Star State is out to end Japan's silk monopoly and provide America with a new major industry!

The enterprising citizens of Mineral Wells believe that within five years Texas will have about 1,000,000 acres devoted to sericulture—the production of silk. In a June CORONET article, SILK STOCKINGS FOR YOU—FROM TEXAS! Willard C. Haselbush tells that with this revolutionary impetus from Texas, silk will become a No. 1 American enterprise.

The new industry will provide jobs for thousands of wounded and incapacitated war veterans, for the crippled and the blind. CORONET also prophesies that there will be a huge cash for farmers who can plant anything from a few rows to hundreds of acres of mulberry trees.

Mineral Wells' unique venture began in 1944—and by last December they had acquired 63,000 leaf producing trees, raised more than 1,000,000 worms, turned out hosiery made of Texas silk, and wound up the year with corporate assets \$6,000 greater than the initial investment.

HOW TO MAKE BREAD AND MUFFINS QUICKLY

Many housewives these days are faced with the problem of making quick bread for breakfast when they are unable to buy bread for the usual toast. Edith Lawrence, specialist in food preparation for the A. and M. College Extension Service, says that hot biscuits or muffins can be prepared with almost as little effort as toast if one learns the secret.

A biscuit mix which can be stored in the refrigerator and quickly made into biscuits or muffins is Miss Lawrence's answer. The recipe is: 12 cups sifted flour, 1/3 cup double-acting baking powder, 4 teaspoons salt, and 1 to 1 1/2 cups fat. Sift flour and measure. Add baking powder and salt and sift the three together. Cut in fat until mixture has a fine even crumb. Place in a closed container and keep in a cool place, refrigerator preferred.

For roll biscuit, combine about 2/3 cup milk (enough to make a soft dough) with 2 cups of mix. Turn out on slightly floured board. Knead very lightly about 18 strokes, roll to 1/2 inch thickness, cut with biscuit cutter first dipped into flour, place on baking sheet either ungreased or only

only slightly so, and bake in hot oven (450 to 485 F.) for about 12 minutes.

For drop biscuit: Combine about 3/4 cup milk (enough to make a little softer dough than above) with 2 cups of mix. Mix lightly. Drop from a spoon about an inch apart on baking sheet. Bake as for roll biscuit.

For muffins: Combine 1 slightly beaten egg, 1 cup milk, and 2 tablespoons sugar. Add to 2 cups biscuit mix and stir only until dry ingredients are moist. Fill well-greased muffin tins about 2/3 full. Bake in hot oven (400 to 425 F.) about 20 minutes.

This recipe makes about 1 gallon of mix which will keep in the refrigerator at least a month. Whole wheat flour may be substituted for white flour.

ON Firestone DeLuxe CHAMPIONS

THE thrilling Indianapolis 500-mile Sweepstakes is equal to 50,000 miles of ordinary driving. And this year, for the twenty-third consecutive time, Firestone Tires were on the winning car.

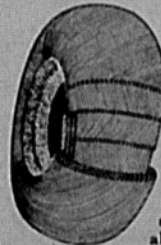

Imagine the punishment those tires took as they pounded and pulled over the grinding, tearing, blistering pavement at speeds far faster than you will ever drive! Could you ask for any more convincing evidence of extra safety and extra wear? Could there be any greater proof of the superiority of Firestone's patented and exclusive construction features? What a triumph for Firestone Research, for Firestone "know-how," for Firestone precision workmanship!

When you buy new tires, remember that your life may depend on their safety. Why take chances when Firestone De Luxe Champions cost no more than ordinary tires? Come in and see the new rayon cord Firestone De Luxe Champion Tires today.

"You Can't Go to Town in a Bathtub"

How the automobile began to revolutionize American life fifty years ago is shown being re-enacted in preparation for the Automotive Golden Jubilee, which will be observed in communities throughout the country with the key national celebration staged at Detroit, May 29 through June 9. Says Lieut. General William S. Knudsen, chairman of the national industry committee for the Jubilee: "Typical of the automobile put an entire nation on wheels is the answer of the farm wife who was asked by a Government investigator why the family owned an automobile, but not a bathtub. She exclaimed in surprise, 'Why you can't go to town in a bathtub!'"

What's Enough?

By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

WHAT will John Q. Public pay for what he wants. He will pay every cent he thinks it is worth to him. Ultimately he will be willing to pay more, if he finds out the item is worth more than he first thought. On the other hand he will kick at the price and refuse to pay it as soon as he finds out the thing is worth less to him than the money he paid for it.

These statements are so plain and simple that any schoolboy is able to understand them. You would hardly think anybody could get these facts mixed-up, but they do. Under them is hid the 1946 labor-management problem which is the most serious one that ever confronted this nation. What lies behind all the headlines telling about strikes?

Idea BRIEFLY, union laborers are asking their employers for more pay—more wages than the employers (for some reason) are willing to lay out. All trades, especially farmers, want laborers to draw high wages because that's the key to good times. Farmers enjoy good markets when labor prospers. Why not pay working men whatever they ask?

Answer: The workers' wages, just like the owner's profits, come out of what John Q. Public will pay for what he wants. If the price is too steep for John, then there's no sale and no profits and presently no wages. If the price

is reasonable, John buys. That makes profits and wages. It makes better jobs and more of them, and prosperity.

Higher IN MOST cases, when wages advance prices must advance also to cover the expense. There is no other way to raise wages except by boosting prices unless the prices already in force are fictitious and unfair, something competition seldom permits. Customers object to wage increases only when they call for price increases to cover them. But even then, Mr. Public is not always right.

Many a wage increase is sound even when prices have to be raised immediately to cover them. Raising prices to pay better wages is good business, up to a point. But what point? Up to the point that John Q. Public quits buying. So long as volume stays large; the price is sound. When volume drops off and prices are boosted to pay for the blunder, that's un-sound.

There are experts in every business who estimate accurately how many of this-or-that will sell for some stipulated price. They know long before the first one is made. This year, when steady jobs at good pay are so vital, prices should be set in advance to get volume sales and make jobs. Labor, as well as industry, should be interested in the right prices.

**Tech Planning
Much Expansion**

Texas Technological College is asking the State Board of Control and the Legislature for funds to raise salaries, enlarge the teaching staff and to erect several new buildings, President W. M. Whyburn disclosed in his address at the Texas Tech Ex-Student association banquet May 30.

He urged support of construction amendments which will permit Texas Tech and other state-supported schools to secure part of the unused Confederate pension fund for building purposes. He said Texas Tech would have available \$3,000,000 for construction on final passage of one of the amendments.

President Whyburn said that "through the notable efforts of our own Tech alumnus, Representative Preston Smith, assisted by a group of educationally-minded members of the 49th Legislature, there was built up a great legislative consciousness of the urgent need for substantial building programs on the campuses of most of our state institutions."

Dr. Whyburn declared American

colleges are leaders in meeting post-war problems and Texas Tech record deserves praise. He said during the present academic year Tech has instructed 1500 war veterans.

Construction of four new dormitories at Texas Tech has been started and is moving rapidly. Ground was broken two weeks ago and the first steel is on hand. The contractor has been asked to complete the housing units, to care for 1420 persons, by the fall of 1947 and has announced he will do so if not delayed by the lack of materials. The recent railroad strike delayed the initial steel shipment several days.

The dormitories, when completed will double campus living quarters, giving men and women four units each. Joint kitchens will serve the two new dormitories for men and women and the two for men. Each double room assigned students will have an outside exposure, while lounges and recreation rooms will be included in the buildings.

A MESSAGE TO INSPIRE CHRISTIAN UNITY

J. Lloyd Moyer. Phone Res. 239 J Office 333
Box 583, Slaton, Texas

SUBJECT: "THE SIN OF DIVISION AND ITS CURE—No. 2"

Before showing that there is a cure for the sin of division, we must convince people that division IS A SIN. Just because some thank God for division and do everything in their power to foster it, does not make the thing right in the sight of God. The Bible says that one of the seven things that God hates is "He that soweth discord among brethren" (Prov. 6:19). From this we see that God desires that brethren dwell together in unity. Anyone who contributes to the division of God's people is doing that which causes God to hate them.

Our Savior taught against the sin of division;

Let us notice part of His prayer, as recorded in (Jno. 17:20-21).

"Neither pray I for these (apostles) alone, but for them also which shall believe on me through their words; That they ALL may be ONE; as thou, Father, are in me, and I in thee, that they also may be ONE in us; that the world may believe that thou hast sent me."

Jesus here prayed that ALL that believe on him through the words of the apostles would be ONE. Yet there are many people today who believe on Christ, who are NOT one. The believers are so divided that they almost destroy each other.

Jesus prayed that all might be one AS HE AND THE FATHER are one. Can you imagine God and Christ divided over the name that the church should wear, over the mode of baptism or what one should do in order to be saved? Surely not. Did God teach that the church should wear one name and Christ teach that it should wear another? Did God have one mode of baptism and Christ another? Did they teach two different plans of salvation?

To ask these questions is to answer them. Jesus said that he spake the words of the Father. Therefore whatever he taught that was God's teaching. In other words they taught the same thing. And Jesus prayed that ALL believers be as he and God. Hence all Believers must teach the same thing to fulfill the prayer of our Saviour.

It is evident that division is a sin against the prayer of Jesus. Not only this, but it hinders the salvation of souls. Division is one of the most prolific sources of infidelity in the world. Jesus realized this when he said "That the world may believe thou hast sent me."

The world will never embrace Christianity as long as we are divided as we now are. The only way we can ever hope to become victorious over Satan is for the believers to present a united front against him. If the Devil

can just keep his missionaries on earth and sow the seed of discord, and keep the people divided, religiously, he will hinder greatly the salvation of souls.

Many people who contribute to the divided state, which now exists, do not realize that they are working for Satan rather than Christ. The Bible teaches that "a house divided against itself cannot stand."

Paul teaches that we are to "mark them that cause division, and void them." (Rom. 16:17). Division is so great a sin that we are to void those who sow the seed of division or discord. Division violates the prayer of Jesus, it is contrary to the teaching of the apostles, it hinders the progress of souls, causes envy, jealousy, and hate.

In view of all this does it not seem strange that people will thank God for as many churches or for this divided condition? Would it not be better for all religious teachers to determine what the will of God is, and then all teach the same thing?

If all will "speak as the oracles of God" (1 Peter 4:14) they will all speak the same thing. No one need sacrifice any truth. But all will have to give up some pet theories. In the next article we shall study the cure for the sin of division.

My mail from our District indicates widespread approval of the quick action of the House of Representatives in passing legislation to stop the paralyzing railroad strike. Within two hours after the President addressed the joint session of Congress we had passed the bill requested by him.

The railroad unions are made up of the very highest type of American Citizens. They did a great job during the war. The union organizations were 18 to 20 against the strike. It was principally the stubbornness of one man, Mr. Whitney, that produced this disastrous situation. A country that cannot protect itself against utter chaos is in a bad shape. I am convinced that the quick action of the House gave hope and encouragement to a great majority of the American people.

The American people have been kicked around by such tyrants as John L. Lewis until their patience is threadbare. People generally do not have time and opportunity to read the Congressional Record and they cannot understand why more effective action was not taken against racketeers in industry and labor months ago.

The fact is that before the war, during the war, and since the war, the House of Representatives passed legislation to meet the situation but the legislation has usually died in the Senate. However, the Senate has now passed the Case Bill which was approved months ago by the House, and the bill has gone to the White House.

Those of us who voted for the bill to stop Mr. Whitney's paralyzing railroad strike have been threatened by Mr. Whitney, and he has also insulted the American people. In commenting on those of us who voted for the bill, Mr. Whitney, according to the Associated Press, said:

"My board of Directors already has authorized me to spend \$2,500,000 to defeat the members of Congress who have voted for the shackling labor legislation Mr. Truman has proposed. We mean to defeat every member of Congress who voted for that bill."

The C. I. O. continues to breathe out threats against those who have advocated and are advocating remedial legislation. What we desperately need in America today is government pressure groups who threaten legislators and insult the intelligence and patriotism of the people. Minority groups are entitled to be heard in America and they are entitled to a fair deal and every legitimate right, but they are not entitled to run roughshod over the majority.

There is no perfect answer to all the problems which beset our Country. But one thing is sure—this Nation cannot safely go forward without the adoption of a more clear-cut and workable Labor-Industry policy—a policy which will safe guard the best interests of the American people.

Howdy Folks; We heard about a dog catcher who had a wooden leg. At first, it was hard to imagine how a dog catcher with a wooden leg could catch many dogs.

We mentioned it to one of the boys in the barber shop and he suggested that perhaps the dog catcher just stood on the corner and waited for the dogs to come to him.

The Farmer

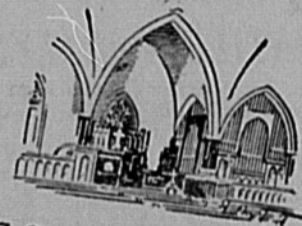

Free furrowed by the springs of hard ploughing. Skin bronzed by sun-scoped summers, beard whitened with the hoar frost of country winters. Eyes that glisten as the early morning dew. A smile that glows with kindly light like the first sliver of the harvest moon.

The farmer . . . one of the giants in the earth!

He knows what it is to plant and pray . . . to work and hope and trust . . . to scan golden acres without false pride and blighted fields without bitterness. He knows both victory and defeat; but neither vanity nor despair. And when the crops are in the barn—in good years and in poor—he raises thanks to a gracious God, and plans for another spring.

The simple, courageous faith of the farmer is the faith of his pioneer forefathers . . . of men who came to these shores to worship God in freedom . . . of men who, with ploughs and harrows, carved a nation from a wilderness.

In the churches of our great, free land that faith is still making giants . . . Christians equal to the challenging problems of modern life.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday.

CO. C WORLD WAR VETS ARE GOOD WITH RIFLE

Slaton's new Guard Unit made an excellent showing in the 39th Infantry's Rifle Meet, and spring maneuvers last Saturday and Sunday. S-Sgt. Moore, an ex-Marine, finished up on the 200 yard range ONE POINT behind the Champion of the 39th Battalion, 1st Lt. Orville D. Click, who just recently won the bronze medal for third place out of over 150 guardsmen at Camp Mabry. Lt. Click had a score of 164 out of 200, in four positions - Standing, Sitting, Prone and Kneeling.

S-Sgt. L. H. Moore, Co. C, Slaton, had a score of 163 out of 200, as above. Other Co. C. Vets making a good score were, A. Golding, Gordon, Burton. These veterans had never fired the 30 cal. Infield rifle before, and with just a little more practice with this rifle Slaton should make the other units sit up and take notice. The Slaton com-

pany is made up of ex-Marines, Sailors, Soldiers, and Coast Guardsmen of World War II, and High School boys of Slaton, Southland, and Wilson. The local company will have regular practice on the range and will have one of the best rifle teams in Texas.

The officers for the new unit are: Capt. Jay W. Moore, Commanding Officer, 1st Lt. Kay K. Moore, a Captain in regular U. S. Infantry World War II, and has the order of the Purple Heart, Silver and Bronze Star, and other citations for services in Gen. Patton's 3rd Army. Lt. Moore, is Plans and Training Officer of the Slaton Co., having served as U. S. Army instructor prior to going overseas. Second Lieutenant Joe L. Doyle, Mess and Supply Officer.

The Slaton Company will join other units of the 39th Infantry Battalion in a motor convoy to Post Wednesday evening, to take part in the Rodeo parade and to assist
