SEWER CHARGES TO BE MADE ON ALL CONNECTIONS IN SLATON

A City Ordinance has been passed by the City Commissioners of Slaton which will require all persons and business firms to pay regular monthly charges for sewer services. The rates and details of the City Ordinance are published in the legal notice of this paper.

In commenting on the new regulations Mayor Wootton said that the City Commissioners have discussed and considered the idea for many months as the sewer and water situation has become critical. Many extensions of sewer services have been requested and are needed, new water mains, pumps and wells are absolutely necessary and must be installed at once. The cost of labor and materials are scarce and very high, there is no added source of revenue unless valuations on property are raised or a Bond issue voted by the people. Both of these methods would require months to put into effect and the Commissioners have decided that the sewer charges would provide easiest and best method to secure the needed money.

The Mayor said that the City Commissioners know that any plan which hits the pocket book of the citizens will cause some dissent but as this is a critical time and as critical needs must be met they decided to do as a number of other towns have done over the state.

Canning Center Will Open On Tuesday, July 16

There is enough money on hand remaining from the previous years' work to finance the canning center again this summer, according to Mr. A. C. Strickland, who has planned and helped carry on this activity in the past.

The canning center will open next Tuesday, July 16, and will be open each Tuesday and Friday afternoons from 1 to 5 o'clock, under the supervision of Mrs. Carter Shaw. She has also been in active charge of the center in the previous seasons. The center will be in operation for twelve weeks from the date of opening.

Anyone that wants to donate vegetables or fruits for foreign relief or for other charitable organizations may contact Mrs. Shaw and help will be secured to can it at the center. Anyone who wants to can may bring their materials to the center and use the equipment there for the canning. The center will accommodate a fairly large number of workers at one time.

With the increasing shortage of food at home and the great demands for the starving peoples of the war-torn countries, as well as the constantly increasing cost of food, it is more than ever necessary that all food possible be conserved for future use.

Mr and Mrs. John Steffens received a letter from their son Leonard, stating he is on his way to Italy, aboard the S. S. Julien Duburque. He embarked from Seattle, Wash., where he recently spent some time with his aunt and family. While there he attended the wedding of his cousin Mary Zipp.

Leonard Steffens spent two weeks in Slaton, last May, upon his return from France.

Milton H. Jochetz Seaman-1/e, Route 2, Slaton, was discharged July 1, at the Naval Separation Center at Norman, Okla., after having served 11 months overseas, mainly in the Pacific theatre of war. His last permanent duty station was the Naval Air Station at San Diego, Cal.

PRESIDENT OF McMURRY COLLEGE WILL VISIT SLATON JULY 17

Dr. Harold G. Cooke, president of McMurry college, will be in Slaton, on Wednesday evening July 17, at 8 to meet with the McMurry Endowment and Building fund committee of the Slaton Methodist Church.

This committee will discuss the amount of quota to be accepted as the church's share toward the building of Memorial hall, a \$250,000 dormitory for men, housing veterans to attend McMurry college. Dedicated to the memory of all of the Gold Star Methodist men of the Northwest Texas and New Mexico conferences, it will house 150 men.

It is the third structure now being built or for which the ground has been broken, it was said. The campaign seeking a total of \$1,750,000 for buildings and endowment is to be completed by July 31. At the present, approximately \$1,200,000 has been pledged.

Office Holder Issues Statement

BEDFORD CARPENTER

Bedford F. Carpenter now serving as Tax Assessor-Collector by appointment, yesterday issued the following statement regarding his candidacy for a first elective term subject to the wish of the voters at the Democratic primaries.

I want to take this opportunity to express my appreciation to the Commissioners Court for the confidence expressed in me by appointing me to this important office. I have tried to the best of my ability to warrant that confidence.

I am a native Texan and have lived for the past 27 years on the South Plains, most of this time in Lubbock County.

I am a Veteran of World War I, having voluntarily enlisted in the infantry on July 7th, 1917, shortly after war was declared and was honorably discharged on June 19th, 1919, several months after the war was over, several months of this time being spent in Europe.

For several years prior to my appointment as your Assessor-Collector, with the exception of a period of time during World War II that I worked in a Government war plant assisting in the manufacturing of bombs, I was employed in this office as a deputy.

Remembering at all times that the Tax Assessor-Collector's office belongs to you people of Lubbock County, and knowing that you are entitled to the very best of service, it has been and will continue to be, so long as I am your Assessor-Collector, my policy to render you efficient, friendly service at all times.

Sincerely pledging a continuation of the above policies, I am asking the opportunity and privilege of serving you as your Tax Assessor-Collector, and respectfully ask for a continuation of the promotion I received by being appointed to the office.

Thanks,
Bedford Carpenter

TEXAS STATE GUARDSMEN IN BIVOUAC

Slaton's Company "C," 39th Bn., for the Texas State Guard made an excellent showing at the ceremony honoring Gen. Jonathan M. Wainwright, (hero of Bataan, and survivor of the famous death march) at Floyada on 4th of July. 38 men and three officers of the unit were selected for the guard of honor, and traffic detail. General Wainwright paid them a high compliment for their services at the ceremony.

The twenty-nine Latin-American boys who constitute one platoon of Slaton Company C of the 39th Battalion deserve special recognition and commendation for the excellence of their performance at Floyada, according to Captain Moore.

The unit will spend next Sunday 21 July on the rifle range to select the best riflemen, two of whom will go to the state meet next month and represent Co. C, in States competition, at Dallas, and Camp Mabry, near Austin. All members of the Company are urged to attend practice at the range next Sunday so that the best men available may be selected. Transportation will be furnished to and from the range.

CLEAN-UP INSPECTION POSTPONED FOR A TIME

The inspection, as a follow-up to the clean-up campaign in Slaton has been temporarily postponed, according to Mayor Wootton. The inspection committee is composed of Mayor Wootton, County Health Officer W. E. Payne, and a sanitary engineer from Lubbock. The sanitary engineer is now on vacation, and the inspection will take place as soon as he returns to his duties in Lubbock.

George W. Brassell, Jr., Is New President of Lions Club

The newly-elected officers of the Lions Club, who were elected at the June 27th meeting, will take over the duties of their respective offices at the meeting on July 11. George W. Brassell, Jr., will lead the Club during the ensuing year. In addition to George Brassell as president, the following officers were selected: Chester L. Williams, first vice-president; Clark Self, second vice-president; J. O. Watkins, third vice-president; Bart Jones, secretary; William Sledge, Leon Tamer; H. C. Maxey, Jr., Tail Twister; and Directors are C. E. Willis, Johnnie Collins, Melvin Tuller, E. T. Hillen, and Elbert Wilson.

The committee chairmen for the ensuing year are H. C. Maxey, Jr., attendance committee; Dr. C. E. Darby, constitution and by-laws; Ben Mansker, convention; Clark Self, finance; Ray W. Cudd, Lions education; C. E. Willis, membership; E. T. Hillen, program, J. C. Watkins, publicity; Johnnie Collins, boys and girls activities; Jerry Mudgett, citizenship and patriotism; Max Atrants, civic improvement; John Richey, community betterment; Carl Sartain, education; Otis Gunter, health and welfare; Ray Mudgett, safety and Chester Williams, sight conservation and the blind.

Retiring Lions Club Officers, President C. E. Willis and Secretary Elbert Wilson, have been responsible, in a large measure, for the growth and success of the Lions Club thus far. Under their guidance the foundation has been laid for a stronger and better Club in the coming fiscal year. The entire Lions Club extends to them a vote of thanks for a job well done.

The Lions Club is one of the outstanding men's international service clubs and is dedicated to civic and community betterment. One of the major projects of the club is sight conservation for school children. The club provides handicapped school children with glasses, provides canes for the blind and seeing-eye dogs when-

ever they are necessary.

SERVICES TO BE HELD AT CHRISTIAN CHURCH

Rev. Patrick Henry of Fort Worth, President of the State Mission Board of Christian Churches, will conduct services at the First Christian Church Sunday morning, July 14.

All are cordially invited to attend the service.

Notice! Veterans Of World War II

The War Assets Administration with offices in the Legion Hall located at 910 Texas Avenue, Lubbock, announces that surplus war goods will be on sale Thursday and Friday, July 11 and 12; Thursday and Friday, July 25 and 26; and Thursday and Friday, August 8 and 9. Bring your discharge papers with you.

ever they are necessary.

The Slaton Lions Club was organized in January of this year, and plans to double its membership within the next few months. The organization and functioning of this service club is another evidence of civic growth and development in Slaton.

What Happened In Slaton a Year Ago

Rationing was a featured item in the news a year ago today, with an emphasis on the scarcity of sugar, especially candy sugar. One year later, with the war over, sugar is the only item of food still rationed and the amount is even less than it was last year. The water problem made the front page in the July 6 issue of the Slatonite. A pipe line was under construction to the site of a well to be dug near the city limits on North Ninth street.

Another of our almost forgotten war-time measures was featured in a statement that the local post office had sold \$6,000 worth of Motor Vehicle Stamps which amount was \$200 more than for the preceding year.

Agricultural interests too were in the news. The canning center was to open on Tuesday, July 10, and a reminder as to the need to conserve more food for home use was emphasized. In the same issue farmers were urged to attend the soil conservation meeting to be held July 9 in order to determine how many farmers in this vicinity wanted assistance in planning a long-range program for preventing wind and rain erosion.

Another item that reminds us of the war years is the issuance of a statement that the vast amount of first class mail and the limited shipping space made it necessary for the Navy to restrict the mailing of newspapers and magazines to Navy, Coast Guard, and Marine personnel overseas. A Slaton man, Cpl. Homer E. Jones, was shown in a picture captioned "North

Southland Still Maintains Lead In Local Softball League

Southland is the top-ranking team of the softball league, with the Wilson and the Santa Fe tied for second place. The Bakery is next to the bottom, and the Oilers are on the bottom at this stage in the last round robin.

On Thursday of last week Posey defeated the Oilers by forfeit and the Santa Fe defeated Wilson 8-7 in a contested game. Friday saw Southland defeat the Bakery 11-9, and Posey the Santa Fe 8-3.

In Monday's game the Vibrators defeated the Hardware 12-9, and Wilson the Oilers, 10-0. Tuesday's games resulted in Southland defeating Posey 3-2, and Wilson defeating the Vibrators 11-6.

The schedule for the remainder of the week call for the Bakery to meet the Santa Fe and Hardware the Oilers on Thursday, Friday it is Southland versus Wilson and Posey versus the Vibrators.

This round robin ends July 23, having started June 27 with seven more nights for play in this series. A new series is contemplated to start August 1, with Wilson, Posey, Southland, and two outstanding teams from the Slaton group to constitute the group, to which will probably be added teams from

New High School Principal For Slaton Arrives

C. S. Harris, who will be principal for Slaton High school for the ensuing year, has arrived in town with his family to make their home in Slaton.

Mr. Harris has been superintendent of the Highland school near Roscoe for the past four years; previous to that he taught at Iradell, and has had a total of sixteen years' experience in public school work.

Mr. Harris was born in Oregon, but has lived in Texas since early childhood. Mrs. Harris is also an experienced teacher. They have three children, two of whom will be in school this year.

The Harrises come well-recommended, and will no doubt make a contribution to the community life of Slaton, as well as to the school.

Candace Ann is the name of the daughter born to Mr. and Mrs. W. H. Mudgett, Thursday, July 11, at 8:10 a. m. Mrs. Mudgett was formerly Elizabeth Stokes.

A NEW LOCATION IS MADE IN THE PHD AREA OF GARZA

Another location has been made by the Honolulu Oil Corporation and the Devonian Oil Company as a northwest outpost to the PHD pool in northwest Garza County.

It is designated as the Payton No. 4, and is a half mile northwest of the Payton No. 1, the first producer in the area. It is scheduled to get under way July 10.

CITY IS NOW USING WATER FROM NEW WELL

The new water well was tied out to the city water works system last Friday, according to Mayor Wootton, and water is being supplied by this well at the present. It is adequate to relieve the water situation at the present time, and probably will continue to be adequate if there is not an unusual amount of hot, dry weather.

American Terror Fliers," which had been clipped from a German newspaper. The picture was of a group of American prisoners. Jones had been a German prisoner-of-war. Still another Slaton man made news in the war area as reported in the Slatonite of a year ago today. Pfc. Joe B. Fondy rescued a five-day-old Filipino baby and a three-year-old Filipino child from frontline gunfire as he led a twelve man patrol.

Acuff, Robinson, and Grassland, comprising the eight-team league. On July 23 play-offs will be started between the four top teams in the present league, in order to choose those to play in the new league.

Present standing of the teams up until now in this round robin is given as follows:

Southland	3	2	.600
Santa Fe	2	2	.500
Wilson	2	2	.500
Vibrators	2	3	.400
Posey	2	3	.400
Hardware	2	3	.400
Bakery	1	3	.250
Oilers	0	4	.000

Congressman George Mahon Offers His Formal Announcement To Voters

GEORGE MAHON

The Slatonite has been informed by Congressman George Mahon that he has returned to the District and will spend the brief time between now and the July primary visiting among the people of the 19th District in the interest of his candidacy for re-election.

Mr. Mahon states that it will be impossible to thoroughly cover the 25-county district and to see all of the quarter million people of the great area which he represents in Congress.

George Mahon is one of the top members of the powerful House Appropriations Committee. He advocates abundant expenditures to keep America strong and of the support of the program for veterans, but rigid economy in the regular departments of Government.

Mr. Mahon is the ranking majority member on the War Department Appropriations Committee where he works for National Security, a greater program of research, and development, R.O.T.C. the National Guard, and superior Air Forces. The members of this eight-man committee were accorded national recognition for their work in sponsoring the Atomic Bomb Project, which saved untold American lives, enabling us to out-strip enemy nations that were seeking to perfect the bomb.

The Congressman is the number two man in the House of Representatives charged with handling of all appropriations for Veterans and Public Roads. He was able to co-operate with Veteran's Administration at Lubbock to serve West

Wire Fence Is To Be Built At Softball Park

The Chamber of Commerce decided at its regular meeting Tuesday night to build a wire fence at the ball park along the first and third base lines in front of the seats recently erected. As soon as this work is completed and the contributions by mail to the drive to secure money for the erection of the seats and the fence are tabulated, the Chamber of Commerce will make a financial report on the amount secured in the drive and the expenditures for the park.

Slaton Rotary Club Meets

At the regular meeting of Slaton Rotary Club on July 11, Lloyd Moyer, local minister, and Nat Heaton, local attorney, discussed the topic, "Compulsory Military Training." At the next meeting of the Club, which will be July 18, Howard Hoffman will talk on the "Trend of World Communism."

PRESBYTERIANS TO HAVE CHURCH SERVICE

Rev. A. B. Haynes of Littlefield, will fill the pulpit at the First Presbyterian church this Sunday evening at 7 o'clock. The public is invited.

Texas. The only other such offices in Texas are at Dallas, Waco, San Antonio, and Houston.

The 19th District Congressman is chairman of the sub-committee which is charged with appropriating the money and approving the programs of the government for the next two years' support prices and loans on cotton, wheat, and other basic crops important to West Texas producers.

Since Congress operates under the seniority system, Mahon, by his seniority, is slated to become Chairman of the Texas Congressional Delegation next year. There are 435 members of the House, all of whom are competing for power and influence in order to serve their Districts better. Mahon outranks, in point of service, 317 members.

Mr. Mahon, who is known to thousands of constituents as "George," takes pride in trying to serve the people small and great. "As your hired man in Congress I have been confronted with many different problems."

"Our District is one of the great agricultural districts of the nation. I was born and reared on the farm, and I know something about the benefits of soil conservation, the need for REA, full parity income, the need for the kind of government that will promote the well-being of all our people."

URGENT APPEAL FOR KNITTERS IS MADE

An urgent appeal is being made by Mrs. J. H. Brewer, knitting chairman of Red Cross in Slaton.

Mrs. Brewer has received yarn for thirty "walking cast toe socks." These socks are needed by boys in hospitals that are having to wear casts on their legs.

Anyone who is willing to help in this worthy cause, please call for thread at the J. H. Brewer Insurance office. Directions for knitting will be given with the thread.

COMMITTEE TO MEET ON JOHNSON GRASS

The Lubbock County Johnson Grass Control committee has scheduled a FIELD DEMONSTRATION for Monday afternoon, July 15th from 2:00 to 5:00 o'clock. The demonstration may be located on the Tahoka highway to the Nelson Heights Addition on the West side of the highway.

The purpose of the demonstration is to show the different types of machinery and equipment, sprays and chemicals which have proven effective in controlling Johnson grass. The committee will appreciate any type of equipment (large or small) that you will exhibit. We hope to have a large display of spraying equipment and the new chemicals which are recommended as weed-killers.

The Johnson Grass Committee is endeavoring to enlist the active participation of every person who would like to see Lubbock county free of noxious weeds. You can support the program by demonstrating your ideas in weed control.

Chief Topics

The Senate Committee on Interstate Commerce recommended passage of the Bulwinkle Bill on June 14 after adopting amendments to meet objections to the bill as it was passed by the House of Representatives by a vote of 277 to 45 on December 10, 1945.

In view of these developments, it is important that shippers, organizations and others who favor the bill immediately communicate with their respective senators for two distinct purposes, both of which are important. First that they favor the bill as it was reported by the Committee; and second, that they take whatever proper action is within their power to obtain consideration of the bill by the Senate before its adjournment.

One of the principal amendments added by the Senate Committee to the House Bill is a more precise statement of the standards governing the Commission in granting or withholding approval of agreements submitted by the carriers.

As a further safeguard, the Committee adopted an amendment to give the I.C.C. the right to call for reports from carriers' rate conferences and other organizations which require its approval, and the right to inspect their books, accounts, files and records.

Another amendment adopted is designed to make clearer than in the House bill that no agreement shall be approved unless "there shall be accorded to each party the free and unrestrained right to act, contrary to and independently of the determination" of a carriers' conference or other organization.

THIS WEEK'S LESSON

"Sacrament" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 14.

The Golden Text is: "The cup of blessing which we bless, is it not the communion of the body of Christ?" (1 Corinthians 10:16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For we are all the children of God by faith in Christ Jesus" (Galatians 3:26).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, Science and Health with Key to the Scriptures by Mary Baker Eddy: "Christian Science demonstrates that none but the pure in heart can see God, as the gospel teaches. In proportion to his purity is man perfect; and perfection is the order of celestial being which demonstrates Life in Christ, Life's spiritual ideal" (page 337).

CARDUI
CARDUI, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. CONOCO Nth MOTOR OIL
OIL-PLATES YOUR ENGINE
Breathes there an American who isn't checking on cars? Chief question is, "What's different for '46?" An OIL-PLATED engine brings you this swell difference: it will escape lots of carbon and sludge by escaping lots of wear. That special type of wear-defense—internal OIL-PLATING—will likewise favor your oil and gasoline mileage.
You can have an OIL-PLATED engine in any car—in the newest or oldest—just simply by making sure to use Conoco Nth motor oil; that's all.
The difference in Conoco Nth oil—patented—is its added ingredient that OIL-PLATES. This is done in a magnet-like manner—by making metals attract and hold lubricant. And that's what puts inner engine surfaces under cover of OIL-PLATING. It stands in wear's way; acts to prolong that new car feeling. . . . And it will act to prolong any older car's usefulness. So if that's your particular problem, change now to Conoco Nth oil—at Your Mileage Merchant's Conoco station. Continental Oil Company

**CITY ORDINANCE NO. 105
STATE OF TEXAS
COUNTY OF LUBBOCK
CITY OF SLATON**

AN ORDINANCE PROVIDING FOR THE CONNECTION OF ALL HOUSES, FOR HUMAN OCCUPANCY, TO THE SANITARY SEWER LINE WHERE THE PROPERTY LINE OF SUCH HOUSES ARE LOCATED WITHIN 150 FEET OF THE CITY SANITARY SEWER MAIN, SETTING RATES FOR SEWER CHARGES, FIXING PENALTY FOR NON PAYMENT OF SEWER SERVICE CHARGE, PROVIDING FOR THE CONSTRUCTION OF CHEMICAL TOILETS OR CONCRETE VAULT TOILETS WHERE PROPERTY LINE OF HOUSE IS IN EXCESS OF 150 FEET OF CITY SANITARY SEWER LINE, FIXING MINIMUM STRUCTURAL REQUIREMENTS FOR SUCH TOILETS, DESIGNATING ALL EXISTING PRIVIES, THAT DO NOT COME UP TO THE REQUIREMENTS OF THIS ORDINANCE, AS PUBLIC NUISANCES AND FIXING PENALTY FOR NON COMPLIANCE OF ANY SECTION OF THIS ORDINANCE.

Be it ordained by the City Commission of the City of Slaton, Texas:

Section I

That on or before October 1, 1946, every owner of every building intended for human habitation or occupancy, and located on any lot within the city, corporate limits the property line of which extends within 150 feet of any sanitary sewer line, and every person in any way responsible for such building, whether agent or occupant, is hereby required to equip such building with sanitary water flush closets and connect same with the city sewer, under the supervision of the City Water Department.

It shall thereafter be the duty of such property owners, agents

and/or occupants of such buildings, to maintain said water closets and the connection thereof with the sewer in good working condition, free from all defects and obstructions.

Thereafter, should any additional sewer line be built or extended, the said owners, agents and/or occupants of any such building on any lots the property line of which is within 150 feet of such new or extended sewer line shall, within 60 days from the date of completion of such sewer, construct or cause to be constructed water closets on said property and connect same with sewer.

Section II

On and after Sept. 1, 1946, the owner, agent and/or occupant of every building containing any water closet connection with the City sanitary sewer shall pay the City for such connection and use, monthly, as follows:

- a. For each private residence \$1.00
- b. For each business house with one toilet 1.50
- c. For each additional toilet in excess of one for each business house .50
- d. For each cafe 2.00
- e. For each hotel 3.00
- f. For each laundry 3.00
- g. For each wash rack 2.00
- h. For each depot 3.00
- i. For each school while in session 3.00
- j. For each apartment building with two connections 2.00
- k. For each toilet in excess of two in each apartment building .50

All payments due the City under the provision of this ordinance shall be paid in the same time and manner as provided in City Ordinance No. 63, passed by the City Commission August 23, 1929; all penalties provided in said ordinance for failure of any person to make prompt payment shall apply, and

the deposit required by said ordinance No. 63 shall secure all payments due the City under the provisions of this ordinance.

Section III

That on and after October 1, 1946, every owner of every building within the city corporate limits intended for human habitation or occupancy and located on any lot the property lines of which are all in excess of 150 feet from any city sanitary sewer line and not equipped with sanitary flush water closet, and every person responsible for such building, whether agent or occupant, shall construct or cause to be constructed on such lot either a chemical toilet or concrete vault toilet or sanitary pit privy; the minimum structural requirements and specifications of every such pit privy shall be as follows:

- a. It shall be constructed in such manner that human excreta shall not fall upon the surface of the ground, but shall fall into a pit or excavated chamber with a minimum inside width of three feet, a minimum inside length of four feet and a minimum depth from the ground surface of four feet.
- b. Such pit shall be provided with box curbing, fitted closely to the side of the pit, so as to exclude from the pit at all times all flies, fowls or small animals.
- c. Over the pit shall be placed a fly-tight seat, which shall be ventilated with a flue extending from the pit to eight inches above the roof of the building and be screened with wire of 16 meshes per inch.
- d. Self-closing lids shall be provided for each unit.
- e. Such pit privies shall be kept in a clean condition at all times; shall be used only for the deposit of human excreta, and not for the deposit of wash water, garbage, trash or any other matter.

Section IV

All privies existing or main-

tained within the corporate limits of the City of Slaton after this ordinance becomes effective which do not conform to the minimum requirements of this ordinance as to the construction and maintenance shall be, and are hereby declared to be a nuisance and a menace to public health, and the City of Slaton shall have the authority to abate such nuisances in accordance with local and general law.

Section V

That any and all ordinances or parts of ordinances in conflict with ordinance be, and are hereby, repealed. Should any part of this ordinance be held invalid such invalidity shall not affect the remaining parts.

Section VI

Any person, firm or corporation who shall violate, or fail or refuse to comply with any provision of this ordinance shall upon conviction thereof, be punished by fine not exceeding Two Hundred (\$200.00) Dollars.

Mrs. Floy King

Mrs. Annie Landers, who has been in California visiting her children, returned Wednesday. While there her son, Ralph Landers and Miss Margie Hilgard were married June 27, at The First Presbyterian Church of San Diego. Ralph's brother-in-law, Willis, was best man and Margie's twin sister, Mrs. Mollie Slean was maid of honor. Only relatives and friends were present. They will be at home in San Diego, where Ralph has been since shortly after returning home from service. DIRECT FROM BIKINI:

An Eye Witness Account Of Atomic Bomb Blast

Damage from the atomic bomb test blast is shown here as the light carrier USS Independence is pictured burning after bomb explosion.

By WALTER A. SHEAR, WNU Washington Correspondent.

ABOARD USS APPALACHIAN. OPERATIONS CROSSROADS.—From a military standpoint the explosion of the fourth atomic bomb was a huge success but as a spectacle worth traveling 8,000 miles to see it did not live up to its advance billing. From the standpoint of efficiency and precision the plutonium bomb was dropped squarely in the target area. The advance weather predictions held true. It was dropped on time to the second. The air drones were sent through the cloud area and shepherded back by their mother ships. The boat drones were sent into the area of radio activity and brought back via radio control. The cameras clicked and the instruments built especially to measure the results of the blast worked.

But to those of us here aboard the Appalachian, who had been oriented and lectured day after day for the past two weeks, who had interviewed scientists and scientific writers, the bomb burst and the atomic cloud were a disappointment.

The recapitulation of the damage showed the troop transports Gilliom and Carlisle sunk; the destroyer Lamson capsized; heavy damage was done to the submarine Skate, the light cruiser Pensacola, the carrier Independence, the Jap cruiser Sakawa, and the German pocket battleship Prinz Eugen. Light to negligible damage was caused on the Jap battleship Nagata, the battleship Nevada, the oiler No. 160 and LCM No. 1. Small fires were started and later extinguished on the destroyer Wilson, the Pensacola, the transport Briscoe, the Nevada, the carrier Saratoga and transports Niagara, Bladen, Banta, Butte, Cortland, Bracken and Faun and the battleship New York. Heaviest damage was caused on the Independence and the fire which burst into flames on her stern was more dramatic to watch than the bomb burst insofar as this writer was concerned.

Because the atomic cloud did not reach the heights achieved in previous drops was not considered as reflection upon the efficiency of the bomb. Reasons for the relatively low cloud given were that water absorbed much of the heat energy and the difference in atmospheric structure caused a slower rise.

It may be that those of us who stood along the starboard rail of the Appalachian were expecting too much. We had been led to believe from many sources to expect drama and adventure and excitement. Let me assure you there was no drama and certainly no excitement. I confess that as I pulled the polarized plastic goggles over my eyes as we heard the signal "bomb away" I did feel excited and tense as I awaited the blast. It came as I saw it, well above the horizon, a huge orange ball.

It might have been a fireworks display on the Fourth of July, although not near so dazzling. I watched the cloud appearing like nothing more than a huge cherry ice cream soda. Cream white on the surface but deep inside the hues were pink and rose, and it boiled and seethed up through a cumulous natural cloud which hid it from our view. I felt a slight "pff" in my ears but felt no heat blast. Seconds later the sound of detonation came like a distant peal or roll of thunder that's all, but then we were 18 miles away.

Ten minutes after the blast the cloud had mushroomed up to a height of 20,000 feet and was approximately 12,000 feet across the

held at MacKenzie Park July 4. Those present were Rev. R. C. Hallman and family and Mr. and Mrs. Bill Martin and family of Lubbock, Mr. and Mrs. H. C. Hallman and daughter and Mr. and Mrs. O. F. Hallman, Edson, A. V. Hallman, another member of the family was unable to attend.

Don and Tommie Mayfield spent the week with the Stotts boys. Miss Lois Howell, a former Southland girl, daughter of Mr. and Mrs. C. R. Howell of Lubbock and Carl Thurman Jr. of Ropesville were married June 19. The bridegroom is the son of Mr. and Mrs. Carl Thurman of Ropesville. Rev. G. A. Elrod officiated. The couple took a wedding trip to Carsbad, N. M. Mr. Thurman was discharged from the navy June 5, after serving 18 months overseas. Mr. and Mrs. Lewis Williams and

family, Bobby and Ramon Lewis Hale all of Draco, spent the weekend and through Sunday with the Rev. Emmett Brooks family. These people are from the church where Rev. Brooks left for Southland.

Mrs. Nellie Mathis and Carolyn Sue attended the annual Mathis reunion which is held each year on the First Sunday after the 4th of July at Mackenzie Park.

Mr. and Mrs. Fred Cockerel spent the week end with her parents the R. O. Rankins.

Mrs. C. W. Gary and children and her brother, A. J. Whittington returned from New Mexico, Monday where they had visited another brother.

Mr. and Mrs. Curley Taunton and baby, returned from visiting his parents in Alabama. His cousin, Clayton Dean, accompanied them

home. Mr. and Mrs. Bill Gregory of Crane, Mrs. Orven of Seymour, and Joe Bob Thompson of San Antonio, came to visit with their mother and grandmother Bartlett.

Mr. and Mrs. Roy Williams and son Billie went to Trent and Fort Worth last week.

Wilmeth Hewlett's brother Jack, Estes of Delhi, Oklahoma, is visiting here.

Duane Gilliland left Monday for Hereford.

Mr. and Mrs. C. G. Spurlock and Marka have returned from San Saba where they attended the family reunion on the 4th.

Ivy Gets the Gun

Determined not to have her vacation spoiled, "Miss Photo-Flash of 1946" happily kills poison ivy plants by spraying them with a new scientific weed killer. Weed-No-More is a product of Sherwin-Williams research developed from 2, 4-Dichlorophenoxy-acetic acid, a war-born chemical hormone originally intended for war use. Today it is being used to make summers happier for poison ivy and hay fever victims, but unhappy for ugly weeds that infest lawns and gardens.

JUST TALK by A.M.J.

small business man, the white collar worker and the professional people are across a barrel and it seems to me that when the smoke of battle clears that we'll all be powder burned.

Just to prove how contrary folks are who own and operate farms, I said to J. H. Brewer that another good rain would help things and he immediately got his front hair up. "Why, it is just now getting dry enough to get into the fields for planting," howled J. H.

It seems that a number of heavy showers have fallen in the section where J. H. has his farms. I am going to have to call my shots if I am going to clamor for rain, in other words, I'll have to find out first just where the rain is needed and drop it on limited spaces. It's gonna be a queer set of weather we are going to have if it comes as most of the farmers of this section seem to want.

With no intentions of discrediting either school teachers or ministers, it has been proven over and over again that they are not usually good business men. This is not to their discredit but otherwise, as it demonstrates that financial gain is not their goal, but it seems to me that it would be a dangerous thing to turn the financially important job of managing the State Government to a man whose past experiences have been mainly in the pulpit and the ministry. He must not have been very happy in either one of these lines of endeavor or he would have continued in them. It would be a very expensive experiment for the people of Texas to have an ex-school teacher and minister at the helm of our Government.

It takes a long time for the fact to sink into the minds of most of us that things gradually change and will never be exactly like they were in the past. We have to judge the future on the past and such things as the Atomic Bomb, jet propulsion and Government control are things so different from the experiences of the past that few of us can even imagine what effect these things and many others that will affect our lives will have on us.

Perhaps the United States will never get back into mass production of many items that came off the assembly lines before the war such as automobiles, electric refrigerators, furniture and many other items, perhaps the manufacturers have secretly agreed never to enter into the steep competition in which they engaged before the war, it could easily be done, perhaps our boasted high standard of living has reached its peak and we may never again have the things we had before the war. It would seem reasonable to suppose that if the Government is going to meddle in everything we do and endeavor to control every action of every citizen that free enterprise will be stifled. We are now under the seige of big business and Unionized Labor, the

There is definitely a limit to the amount of ice cream any one person should attempt to consume and while I do not know the exact stopping place I do know that five helpings on July 4th, four on July 5, and two on July 6th, is too many even if it is made at home by Donkey powder.

Have you noticed that the fly population in Slaton had decreased

considerably since DDT has been sprayed around the alleys and that the mosquito citizenship has shown a remarkable increase.

It is estimated by several experts that if the people attending the soft ball games had given as much blood during the war, for blood plasma, as they have to the mosquitos that there would be enough blood plasma, if laid end to end, to reach from here to Tombstone, Arizona. It seems that there is always something to make life unpleasant in the summer time.

The following account of a birth was taken from the weekly paper in Abernathy. Good proof readers like Howard Swanner and Bill Sewell, who call my attention to errors in the Slatonite when ever they find them, should get quite a kick out of the error in this account.

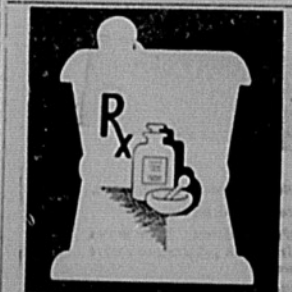

"A baby son, weighing 7 pounds, was born to me and Mrs. Garvin Hailey June 22 at the Plainview hospital. He has been named Scottie Newt. His father is a farmer, who lives north of Hale Center."

When charged with being drunk and disorderly, and asked what he had to say for himself, the prisoner gazed pensively at the magistrate, smoothed down a remnant of gray hair, then said, "Your Honor, 'Man's inhumanity to man makes countless thousands mourn.' I'm not so debased as Swift, as profligate as Bryon, as dissipated as Poe, as debauched as . . ."

"That will do!" thundered the magistrate. "Ten days. And, officer take a list of these names and run them in. They're evidently as bad a lot as he is!"

Make Your Own Mayonnaise

Half a cup of salad oil makes two cups of cooked mayonnaise in an easily prepared recipe. Add chili sauce and other ingredients for Thousand Island variation.

Cooked mayonnaise can be tucked away in the refrigerator and dressed up to suit the salad with which it is to be used.

With the addition of eggs, olives and chili sauce it becomes Thousand Island Dressing. It can be made into fruit salad dressing by adding fruit juice. Use it "as is" on fish. The big advantage of cooked mayonnaise is that it doesn't require tedious, drop-by-drop beating.

Cooked Mayonnaise
(Makes 2 cups)

- 1 tablespoon table fat
- 4 tablespoons flour
- 1/2 cup boiling water
- 1 egg yolk
- 1/2 teaspoon dry mustard
- 1/2 teaspoon salt

- Dash paprika
- Dash cayenne pepper
- 2 tablespoons lemon juice
- 1/2 cup bottled salad oil

Melt table fat, add flour and blend thoroughly. Gradually add water and mix until smooth. Cook over low heat, stirring constantly until mixture is thick and smooth. Combine egg yolk, mustard, salt, paprika, cayenne pepper, lemon juice and bottled salad oil. Beat until blended. Add the cooked mixture and beat with a rotary beater until smooth and creamy. Cool.

Thousand Island Dressing: To cooked mayonnaise, add hard-cooked eggs, stuffed olives and pickles (all finely chopped) and bottled chili sauce. This dressing is very good on Tomato Aspic Salad.

DOIN' THE DO-SE-DO—Try this, jitterbug! The step that "National Barn Dance" stars Lulu Belle and Scotty are executing for Arkie the Arkansas Woodchopper is known as the Do-Se-Do, or the Back-to-Back, of the repopularized square dance.

Rom. 1:16 1 Cor. 9:16 Gal. 1:8 Subject: DID YOU KNOW?

These articles are designed to get people to THINK and Study for themselves. Concerning the study of the Bible, the world has of the Bible, the world has assumed a spirit of general indifference and carelessness; holding to the idea that it makes no difference anyway what one believes and practices as long as he is honest and sincere in it. We believe that a person may be both honest and sincere, and at the same time be MISTAKEN. We believe that not knowing the scriptures will cause one to be mistaken. Jesus once said, "Ye do err not knowing the scriptures..." (Matt. 22:29) The apostle John said, "Beloved believe NOT every spirit, BUT TRY THE SPIRITS WHETHER THEY ARE OF GOD because many false prophets are gone out into the world." (1 John 4:1) Too many, in this modern age, have assigned all Bible study and examination of the scriptures to some preacher; and accept almost anything taught by a man who poses as a Bible scholar. This is not pleasing to God. Therefore, if these articles cause some to read and study the Bible, they will have accomplished their aim.

I sincerely hope you will take time to look up each of the scriptures used in this lesson. Then you will not be taking what man says about it, but what God says.

DID YOU KNOW:

- That Jesus purchased the Church with his blood? (Acts 20:28)
- That the expression, "join the church" is not in the Bible?
- That the Lord adds people to His church? (Acts 2:47)
- That the word "Reverend" appears in the Bible ONLY ONE time, (Psalms. 111:9) and that it applies to God and NOT man?
- That in our spiritual relationship, Jesus said, "Call NO man your father upon the earth: FOR ONE IS YOUR FATHER, which is in heaven. (Matt. 23:9)
- That the early church met on the first day of the week TO BREAK BREAD? (Acts 2:42)
- That the Bible says baptism saves us? (1 Peter. 3:21)
- That baptism is a command? (Acts 10:48)
- That only those who obey the commands have a right to enter heaven? (Rev. 22:14)
- That we are BURIED with Christ in baptism? (Rom. 6:4; Col. 2:12)
- That the scholarship of the world agree that the ancient practice of baptizing was by immersion?
- That man must obey the gospel or be lost? (2 Thess. 1:7-9)

A cordial invitation is extended to all. We would be happy for you to attend any of the services of — The church of Christ in Slaton.

A Year Ago

Postal receipts had advanced substantially in Slaton being \$3,537.71 up until June 30, 1945, as compared with \$11,046.81 for the entire year of 1934. The Slaton post office was graded higher each year for the last three years, because of the growth of business.

The Slaton Chamber of Commerce completed plans during the week to receive bids for the erection of the transient labor camp.

Funeral services were held for a leader, Mrs. Laura Rhodes, on July 2 following an extensive illness. Interment was in Wellington, Kansas, where she had made her home previous to her moving to Slaton in 1928.

Acute Gas Pains Stomach Distress ?

Try Hot Water To Which A Little Neutraacid Has Been Added At the first sign of distress smart men and women now know just what to do. They put a teaspoonful of Neutraacid in half a glass of real hot water and drink it after meals, that's all. Neutraacid is new—it's made especially for the symptomatic relief of gastric hyperacidity. Nothing quite like Neutraacid to bring fast, quick relief to the sufferer of stomach distress, acid indigestion, gas pains, heartburn, burning sensation, and other conditions when caused by excessive stomach acidity. Ask for Neutraacid at all druggists. TEAGUE DRUG STORE

Acid Indigestion

Builders—Not Drifters

Many men work hard but fail to get far ahead in life because they lack the training to qualify for better-paid, more responsible jobs and become "drifters."

Your son, one of Tomorrow's Builders, must be trained to make best use of his opportunities. Help his chances for success... lift him above the ranks of drifters... by investing a small sum each month in a Woodmen Educational Endowment or Success Builder life insurance certificate to provide funds for his college or vocational training.

Taking part in Boys of Woodcraft's fraternal and social activities also will help him to develop character and qualities for leadership and success.

Call the local Woodmen representative today. Let him give you the facts about Boys of Woodcraft and the Woodmen juvenile life insurance certificate that meets your son's needs.

UNION NEWS

MRS. M. D. GAMBLE

Most all the farmers celebrated the 4th, working after the rain. They were busy planting and working the crops that were up. Several families met in the late afternoon and enjoyed making Ice Cream.

Mrs. Tompson of Lubbock, spoke at the Methodist church, both Sunday morning and night in the absence of the Pastor, Brother Clarence Stephens, who is attending school for two weeks in Abilene.

Mr. and Mrs. Bob Usery, of Dallas, visited with old friends here, last week.

Mrs. Otho Doyle, visited with Mrs. Parks, last Friday.

Mr. and Mrs. Joe Gamble and daughter, spent Sunday in Hale Center with her brother, Mr. and Mrs. I. B. Stephenson.

Mr. and Mrs. Herbert Cade were honored Saturday night at their home, on their Twenty-fifth wedding anniversary, with a covered dish dinner. Garden flowers were placed in all rooms. Mesdames A. M., R. M., and V. L. Cade, were hostesses.

The table was laid with a linen cloth, and was centered with a two tiered cake, embossed with tiny sugar pastel pink and blue flowers and lettered "25th Happy anniversary to Mom and Dad."

Mrs. R. M. Cade met the guests, Mrs. A. M. Cade showed the guests to the bedroom, where gifts of silver were displayed. Guests were close friends of Mr. and Mrs. Cade.

Those attending were: Messrs. and Mesdames Gene Evans, George Eklund, Clifford Young, Gene Cade, Leslie Greene, V. L. Cade, R. M. Cade and A. M. Cade, Mesdame J. G. Fixing Up the Farm
by BURTON WILLIAMS

Plugging Bossy's Guns

A DOMINEERING cow and a vicious set of horns is a nuisance in an otherwise docile herd of good dairy animals. Her aggressiveness is disturbing enough, but the danger of injury to other cows is always present.

Horns on domestic animals are useless, except for ornamental value in the show and sales rings. Since the great majority of farmers raise cows for production, de-horning is becoming a more common practice. Many farmers perform this operation on calves when they are one to two weeks old. During this period the "horn buttons" can be destroyed easily and without injury to animals if ordinary precautions are taken.

For those who like attractive horns, a simple device is illustrated above which often takes the "fight" out of bossy by removing much of the effectiveness of her weapons. It's like plugging a gun barrel. The value of the device is psychological as well as practical. The rubber hose should be long enough and the hole big enough so the guard can extend at least half way down each horn.

Lake City, Utah, and Denver, Colorado. They report a wonderful trip and lots of fish to eat, the five days they were in the Park.

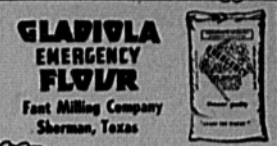

Mr. and Mrs. H. D. Doyle had several of their guests this week, their daughter and three children, from Dallas.

Mr. and Mrs. H. D. Doyle had several relatives as their guests, last week, including his mother and Mrs. Doyle's mother, a nephew, and several others. They enjoyed a picnic at Mackenzie State Park, Sunday.

POSSUM FLATS . . . "GOOD BISCUITS SAVE THE DAY!"

Saddles
By GEORGE S. BENSON
President of Harding College
Searcy, Arkansas

Looking Ahead

Casper, Wyo., boasts a saddle maker who has been at the business for 40 years in that city. Not long ago I visited his shop as a prospective customer, the Harding College stable being in need of saddles. He was no better able to supply us than shops nearer home but he gave me some facts I had not learned while shopping in other cities.

A good saddle is built on a wooden frame called a tree, much as a shoe is built on a wooden last, except that the tree is built into the saddle and becomes a permanent part of it. Saddle trees are made by men of a highly specialized craft. Trees have to be shaped right, no bulkier and no heavier than strength and design require. Men able to do such things with wood are scarce.

Building DURING the war Uncle Sam needed a skillful saddle-tree men in the construction of gliders. "The government employed most of them at about \$160 a week," the saddler declared. Good saddles, not being made any more, might have skyrocketed in price but the Office of Price Administration fixed a ceiling to stop it. Stocks of new saddles soon were bought up by users.

Now the glider business is slack. Wonders have been done with gliders and they are not being forgotten, but fewer are being built. Unemployed saddle-tree men would like to start building saddle trees again—there's quite

a demand. Living costs have built up, however, and they think they ought to have \$120 a week. That's \$6,000 a year and 25% under their defense-plant scale of pay.

A Fair SADDLE manufacturer, Figure like the one in Casper, want trees because—no trees, no saddles. They would be willing to pay tree builders \$120 a week if saddles might be sold at prices they would easily bring. I guess there are thousands of customers besides me who are ready to pay more for a saddle than it would have cost in the months immediately before the war.

"If today I engaged a good tree builder," said the Wyoming saddler, "paid him \$120 a week in return for his most competent work, and then sold the total product at ceiling prices, it would pay about three-fourths of the wages of the man who made the trees." Obviously it is out of balance. Craftsmen, manufacturers, dealers and users are all waiting for ceilings to lift.

The saddle business is small and many small business men are smothering for sales that are tied up by O.P.A. Plants, employing less than 1,000 men, provide jobs for 78% of industrial workers. Carried too far, this price policy can bring panic and poverty. Liquidating some war-year bureaus would help balance the national budget and help clear the way for new and much needed production.

Mothers spend months trying to teach their babies to talk; then spend years trying to keep them quiet.

Wonder why they always put "pull" on the city hall doors?

Are you PALE? WEAK? from loss of BLOOD-IRON?

Here's One Of The Best Home Ways To Build Up Red Blood!

You girls who suffer from simple anemia or who lose so much during monthly periods that you are pale, feel tired, weak, "dragged out"—this may be due to low blood-iron—

So start today—try Lydia E. Pinkham's TABLETS—one of the greatest blood-iron tonics you can buy to help build up red blood to give more strength and energy—in such cases.

Pinkham's Tablets help build up the red quality of the blood (very important) by reinforcing the haemoglobin of red blood cells.

Just try Pinkham's Tablets for 30 days—then see if you, too, don't remarkably benefit. All druggists.

POSEY ITEMS

R. L. BOYD
 The Misses Sherell and Mitzi Jackson of Fort Worth are spending about a month visiting their aunt, Mrs. B. L. Woods.
 Mrs. Calvin Willis has gone to Springfield, Mass. to be with her husband, Pfc. Calvin Willis who has been in the army for several months.
 About fifty were present at Sunday School including two visitors and one new member. Six of the nine officers and teachers were present. Supt. George Hayes announced that Posey will be the location of the next Methodist Conference which will be under the direction of Rev. Lipscomb of Lubbock.
 The third place Posey Wild Cat Soft Ball team played three games this past week of which two were won and another was tied with Wilson team. On Saturday night, July 13, the Wilson-Posey game is scheduled to be replayed at which time the largest crowd of the season to date is expected to be present.

Miss Virginia Robertson of Lubbock is now staying at the teacherage while her parents have gone to Fort Worth.
 Sunday night's high wind and sand destroyed some cotton acreage and the land has been replanted in feed.
 Mrs. C. E. Birdwell has returned from Houston where she had gone for about a ten day visit with relatives.
 Joe and Andrew Loke have been playing with the Hardware team in the Slaton League.
 Edwin Meyer who lived near Posey several years is now one of the nine adjusters working for the AAA office in Lubbock County. He visited the community on Friday attending to insurance business.
 Most of the Posey farmers have been busy this past week in crop cultivation some of whom worked all day July 4.
 Mrs. Calvin Willis who left June 10 to visit her husband in New England, has written that she and her son Lydel have been making several interesting trips one of

which was to Canada.
 Weldon Gebert who has been with the army in Germany has received his discharge and is now at home.
 Miss Ruby and Betty Willis and Ed spent the past week visiting Mr. and Mrs. M. P. Gentry.
 Mr. and Mrs. H. D. Carroll spent the Fourth of July with Mr. and Mrs. J. G. Harper. The party passed the day with an outing and picnic and enjoyed a picnic lunch at which ice-cream was served.
 Mr. and Mrs. J. O. Pfoff and daughter of Borger who recently visited Mr. Pfoff's uncles, S. N., M. P. and W. T. Gentry were called to Oklahoma on account of the death of Mr. Pfoff's father.
 Mrs. Bert Dorland and girls, Donna Rhea, Lavon and Beatrice have returned to their home at Caballo, N. M. after visiting with relatives.
 H. D. Carrol, a former navy man who recently spent two weeks at Hot Springs, N. M., has returned to his work as a jeweler in Lubbock. H. D. said that the two preceding 4th of Julys were spent on the island of Guam.
 Visitors of Mrs. A. J. Boyd Sunday afternoon were Mr. and Mrs. J. F. Fullingim, W. G. Boyd and Mrs. Nan Rhudy.
 At least one member of the State Guard who lives near Posey was present at Floydada, July 4th, for the celebration.

Over the Wire!

A survey of most merchants and business men over Slaton shows that most of them believe some kind of Price Control laws will be passed by Congress.
 J. S. Edwards returned from one of his semi-weekly fishing expeditions to New Mexico, last Friday. He said that accommodations are scarce and high, the fish are biting, the mosquitoes are plentiful and he is planning on taking a tent and eiderdown sleeping bag with him on his next trip.

This section will produce one of the biggest peach crops in many years if hail or June bugs do not get them. If there is anyone who can give a method for destroying the June bugs or any method for keeping them off the peach trees this paper will be glad to publish the instructions.

Mayor Lee Wootton killed a \$36 bug last week. He went fishing at Buffalo Lakes, felt a bug crawling on his ear slapped it off and at the same time knocked his spectacles into the lake. The spectacles recently put a dent in his hip pocket for \$36.00.

From all indications the interest in County and State elections is less than it has been in many years. To date few of the candidates have visited Slaton, none have made talks and it seems that there will be fewer votes cast than in any County election in several decades.

Kirby Scudder who has been experimenting for the past several years on growing vegetables for the market says that his experiments have proven successful and he hopes to gradually expand and try out some items that have never been grown commercially in this area.

Investigation at the City Hall does not show many building permits for Slaton, however a tour of the town demonstrates that considerable construction is under way in medium size homes. Real estate exchanges have been slow for several weeks but the prices being asked are still high.

FAITH IN THE FUTURE

We have faith in the future, too—faith in the future of the territory we serve.

This profound faith of ours is shown in the huge expansion program now under way by your Public Service Company.

New transmission lines, begun even before V-J Day, are now bringing electric services to hundreds of homes. More lines will help to serve the new homes now going up with the joy and convenience of electric cooking, electric refrigeration, good lighting and the many other efficiencies of low-cost electricity. The future looks good for everybody—electrically!

This Boy is Happy!

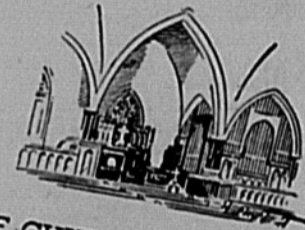

For him, happiness is a simple formula. He must eat good food, drink pure water, splash in his bath, wear warm clothes, and sleep.

And then his eyes are merry, his grin mischievous. Life is a wonderland of new corners and drawers to pull open and boxes and balls and chairs and spoons and noises. His physical wants filled, he revels, and nothing disturbs his joyful wonderland.

Until he falls and bumps his head! Then his wonderland crashes with cruel suddenness, and in frenzied distress he seeks Mother or Daddy. For they alone can be his comforters.

As he grows, this boy will learn that happiness depends upon more than physical wants. As he early learned that parental love is the only great solace, so shall he learn that a Greater Love can ease the bumps that will disquiet his growing mind.

The time comes when that Greater Love must complement parental love. Wise and loving parents know this. They teach their children early the way to the Church, the place where men gather to worship a God of love and comfort, a place where confused thinking is brought into harmony with God's great plan of life.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For his own sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday.

This advertisement contributed to the cause of the Church by the following patriotic citizens and business establishments:
