F you are not yet a Camel smoker you have a grand treat in store when first you enjoy the benefits of the Humidor Pack.

The three things in a cigarette that can make it sting the tongue and unkindly burn the throat are safely eliminated from Camels.

There are no harsh parched-dry tobaccos-the fine Turkish and mild Domestic tobaccos of which Camels are blended require no overheating to make them palatable.

There is no peppery dust to irritate the throat-that's whisked away by a special vacuum-cleaning process. There is no staleness nor loss of fragrance-made fine, Camels are kept fine wherever you buy them, thanks to the Humidor Pack.

This scientific germ-safe wrapping-not plain ordinary Cellophane, but moisture-proof Cellophane which costs nearly twice as much-seals in all the aroma and freshness, scals it so tightly that wet weather cannot make Camels damp, nor drought weather make them dry.

If you want to know what that means in throat-friendliness and smoking-pleasure, try Camels for just one day, then leave them-if you can.
