NUMBER 11

Slaton Basket Ball Team Gets Drubbed, But Is Developing Fast

The Slaton Tiger Basket Ball Team is scheduled to play a return engagement with the Southland High boys tonight at the Slaton High Gym. The Tigers and the Southland team tangled at Southland Friday night, Nov. 5th, at which time the Southland team took the game at a score of 13 to 15.

The Post High team also drubbed the newly formed Tiger team, by a score of 20 to 13, after the Tigers had led in the scoring for the first three quarters of the game.

A game between Southland and the Tigers is scheduled to be played Tuesday, Nov. 24, here in Slaton.

Professor Brasfield reports that the Slaton team is fast developing and that with more practice, should be a hard team to whip. All of the first string men are six feet or over and many of the reserves are boys who have plenty of reach. In the absence of a football squad, the basket ball should keep the athletic spirit of the local boys in fine fettle until a football squad can again take the field.

Mrs. W. E. Smart Attends Funeral

Mrs. W. E. Smart returned home from Mineral Wells Monday, where she attended the funeral of her nephew, First Class Petty Officer James Henry Hester, Jr., who died of injuries received while working on a construction project in Camp Endicot, Davisville, Rhode Island.

F. F. A. SWEETHEART TO BE CHOSEN TODAY

In a lively contest for the honor of being the Sweetheart of the F. F. A., a number of the High School girls are making final election day efforts to top the F. F. A. jacket that is to be the prize of the winner.

The votes will be counted today and the winner announced as soon as possible and it is reported that glamour, blackmail, sweet smiles and plain old electioneering are being used in the hotly contested race for the honor of being Sweetheart of the F. F. A.

Experiments Show Head Lettuce Will Grow In Slaton

Another proof that diversification is possible and most probably profitable to those who would go into truck raising in this section has been demonstrated for the past three years by G. A. Clevenger in his garden at 255 North 3rd St., where he has raised head lettuce that is equal to any that is grown in California or Colorado.

It is no more difficult to raise marketable size head lettuce in this section than it is in any other part of the United States, says Mr. Clevenger, and he believes that there are many paying crops that have been neglected and will yield far greater returns on less acreage than will cotton.

The war time food situation has encouraged many people to try out various crops of vegetables and fruits that have always been considered unsuited to this climate and conditions and many of them have proven that such species as broccoli, swiss chard, celery and other varieties, including Mr. Clevenger's experiments with head lettuce, do well here.

Autos Collide At Intersection

In a head on collision between a car driven by M. G. Grochowsky and one driven by a man from Snyder, the car owned by Mr. Grochowsky was severely damaged. The accident occurred last Monday at the corner of Lubbock and 9th Streets. Neither driver was hurt although both were severely shaken up.

Slaton T. S. G. On Rotary Program

Major Hangs, Commandant of the Texas Tech ROTC Unit, was the feature speaker at the Rotary Club yesterday when it met in regular session at the Slaton Club House. The subject of Major Hangs' address was, "The Value of Local Military Forces."

The program at the Rotary Club was under the direction of the Slaton Unit of the Texas State Guard and in connection with the Texas State Guard Week that is being observed this week. Major Hangs is now conducting an inspection tour of all of the Texas State Guard Units for the Federal Government.

Other features of the program were talks by 1st Sgt. Jerry Mudgett of the Slaton Unit of the Texas State Guard, who discussed recruit training, and by Lt. M. V. Martin and Sgt. Billy Castleberry, both of whom gave their views and told of their experiences at the State Guard School for officers at San Antonio.

Captain Wm. K. Sewell was in charge of the program and introduced the speakers. All of the members of the Texas State Guard wore their State Guard Uniforms all day yesterday in observance of Armistice Day.

TO HAVE SERVICES

Dr. W. E. Fender, Field Representative of the Presbyterian Church, Synod of Texas, from Arlington, will preach at the Presbyterian Church here this next Sunday, Nov. 14, at the regular morning service hour, 11 o'clock.

There will be an important congregational meeting at 7 p. m., Sunday, with Dr. Fender as Moderator. All members and donors are asked to be present to consider selling Domine Dell.

Two-Thirds of Local Cotton Crop Gathered; Only Half of It Sold

Newspaper Subscriptions Should Be Renewed Before Expiration Date

Subscribers to the Lubbock Avalanche and to the Fort Worth Star Telegram who receive their papers through the mails, should be sure to renew their subscriptions before expiration dates, as subscriptions that lapse may not be renewed by the publishers.

The Slatonite is still accepting both new and renewal subscriptions at \$1.50, the Star-Telegram rates are \$8.95 on renewals, no new subscriptions accepted, and the Lubbock Avalanche rate is \$6.95 for renewals and no new subscriptions accepted. We will be glad to renew any subscriptions to the Avalanche or the Star-Telegram and new or renewals for our own paper. Phone the Slatonite, No. 20, if you would like for a Slatonite representative to call upon you for any of the above subscriptions.

Furniture Co. Re-Opens Here

The re-opening of the Self Furniture that closed last summer when Mr. Carl Self was called into the Armed Forces, has been announced by Mr. Self, who was recently discharged from the Air Force because of physical disabilities.

Mr. Self has secured several large shipments of furniture, much of which is very scarce on the market, including many items that will make very desirable Christmas gifts. The new stock is in the building on North 9th St., just north of the Crow-Harral Chevrolet Co. Mr. Self reports that he expects to have a larger and more varied stock than was carried in the Self Furniture Store before he entered the Service. Not only will the Self Furniture Company deal in new furniture, but they already have many good items in used household goods.

What Shall We Name This Desert

G. H. Orr, unofficial weather recorder of this section, reports that less moisture has fallen to date in this district in 1943, than in any year of the more than twenty that he has recorded. Unless the "bottom falls out" in the next six weeks, there will be a record set for dry weather.

Here are Mr. Orr's records for 1943:

	Rain
January	3/32
February	8/32
March	20/32
April	11/32
May	411/32
June	128/32
July	113/32
August	shower
September	13/32
October	2/32
November	blank
Total	10 2/32

THERE'LL BE TURKEYS FOR THANKSGIVING

Reports from turkey raisers of this section are that there will likely be an ample supply of turkeys for Thanksgiving.

There seems to be some confusion as to the exact meaning of the OPA ceiling price on turkeys, especially on the different grades, but most of the turkey raisers seem to feel that the prices are fair to both the producers and to the public.

W. V. BRAKE NEW CITY EMPLOYEE

W. V. Brake has been appointed Assistant Water Superintendent to take the place of R. R. Gentry, who resigned last week to accept a place on the Fire Department of the Lubbock Air Base.

RATIONING Information

Gasoline—In 17 east coast states A-8 coupons are good through February 8; in states outside the east coast area A-8 coupons are good through November 22.

Sugar—Stamp No. 29 in Book Four is good for 5 pounds through January 15, 1944.

Shoes—Stamp No. 18 in Book One good for 1 pair. Stamp No. 1 on the "Airplane" sheet in Book Three good for 1 pair.

Meats, Fats—Brown stamps G, H and J good through December 4. Brown stamp K becomes good November 14 and remains good through December 4.

Processed Foods—Blue stamps X, Y, and Z good through November 20. Green stamps A, B, and C in Book Four good through December 20.

WFA Releases Canned Foods

Approximately 2700,000 cases of canned peaches, peas and tomato catsup were released to consumers recently by the War Food Administration. The canned goods probably will not reach retail shelves for several weeks. These foods were a portion of the reserves owned and held by canners to meet possible emergency requirements of the government.

Reduce Octane in Gas

Premium gasoline used by civilians will be reduced from 78 and 80-octane to 76-octane to conserve tetraethyl lead and volatile gasoline fractions, both of which are required in the manufacture of high-octane military gasoline. More than 50 million gallons of gasoline, fuel oils, lubricants, and other petroleum products are going directly to the fighting forces every day, the Petroleum Administration for War disclosed. One-third of all gasoline produced in the U. S. is now required for military purposes.

Plenty Of Turkeys

The civilian turkey supply, just starting to come on the market, will be almost as large as last year, according to the Department of Agriculture. However, this year's demand will probably be much larger as shoppers will be wise to put in orders early. Men and women on duty in the American armed forces, at home and abroad, will be served a pound of turkey at dinner Thanksgiving Day and will have all the traditional "fixins."

Raise Hamburger Point Value

The ration point value of hamburger has been increased from seven to eight point per pound. OPA has also broadened its definition of hamburger to include additional smaller cuts of the lower grades of beef.

Increase Civilian Food Supply

More peas, beans, rice and macaroni are going to be available for civilian consumption. Supplies have been increased by the removal or reduction of government set-aside orders. Present conditions indicate there will be enough dry beans to provide about 10.4 pounds per capita for civilian

★ Sidelights on the War ★

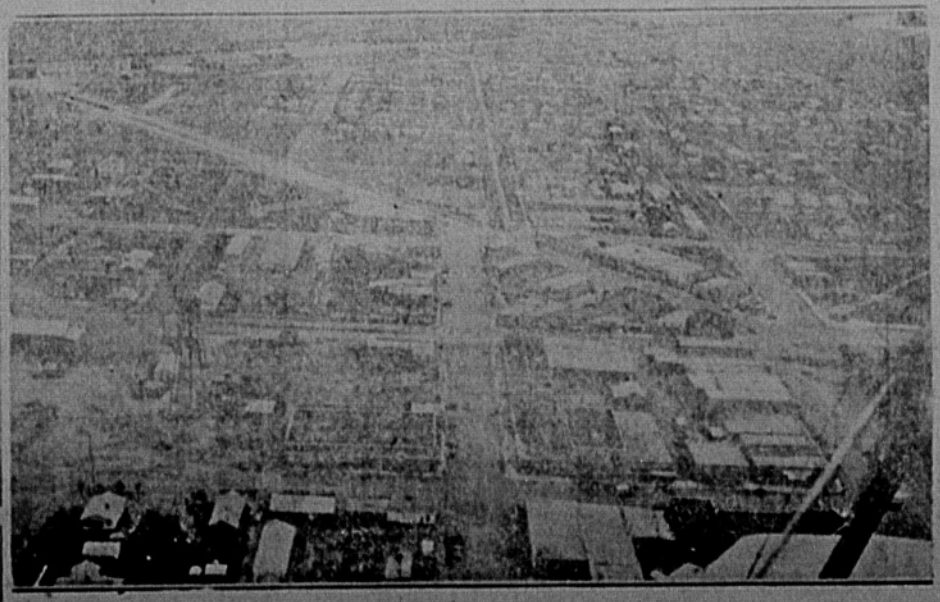

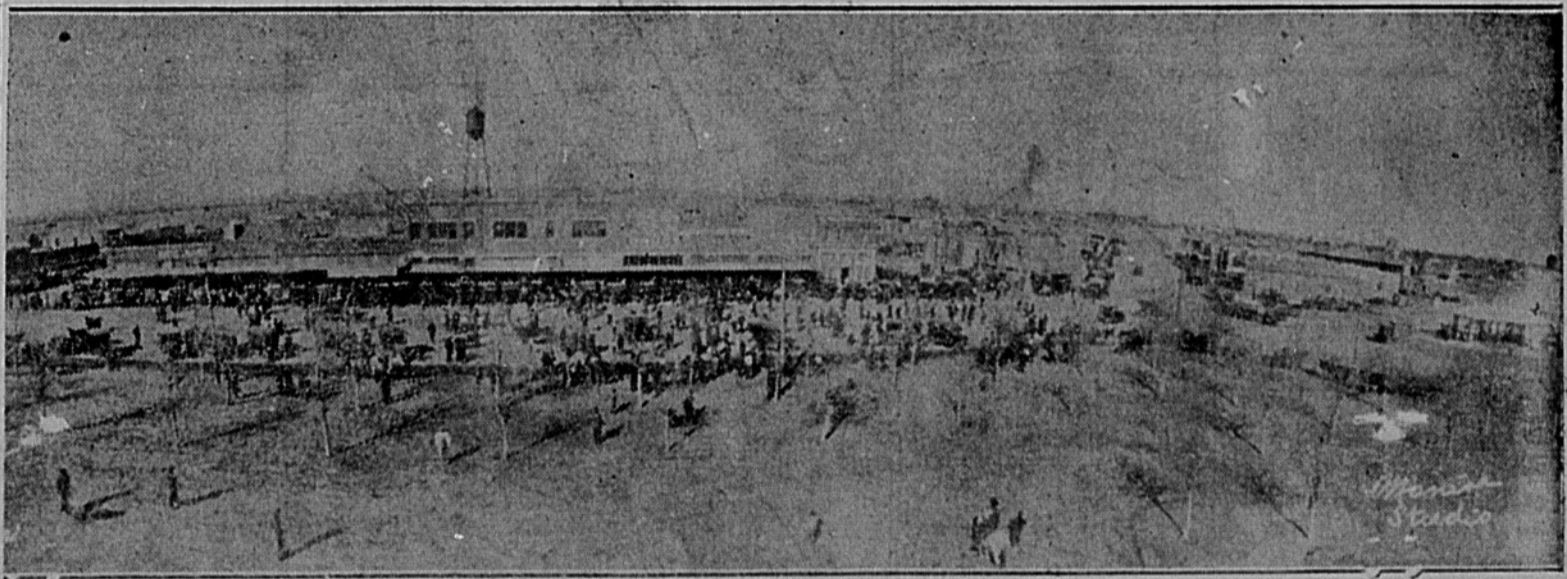

The United Nations Relief and Rehabilitation Administration was formally established at a ceremony of signature at the White House November 9 and begins its work this week in a conference in Atlantic City. Thirty-three United Nations invited to sign the agreement were: Australia, Belgium, Bolivia, Brazil, Canada, China, Costa Rica, Cuba, Czechoslovakia, Dominican Republic, El Salvador, Ethiopia, Great Britain, Greece, Guatemala, Haiti, Honduras, India, Iran, Iraq, Luxembourg, Mexico, Netherlands, New Zealand, Nicaragua, Norway, Panama, Philippines, Poland, Union of South Africa, Union of Soviet Socialist Republics, United States, and Yugoslavia. Ten nations associated with the United Nations in this war, also invited to sign, were: Chile, Colombia, Ecuador, Egypt, Iceland, Liberia, Paraguay, Peru, Uruguay, and Venezuela. The French Committee of National Liberation was also invited to sign.

An American division in the Italian mountains became the envy of others when it received 300 large mules to pack supplies and ammunition. As soon as the Germans realized that American infantrymen were using the animals, they began a systematic slaughter of all the Italian mules they could find.

Members of the Eighth Army Air Force in England have opened a hobby shop. Here the boys spend their spare time making toys for English children—model tanks, fire trucks, cradles, toy-guns, little wooden locomotives, racing automobiles, with real windshields. The boys go to the schools in poorer districts and ask the teacher which children need things and what they like the most. The boys set a goal of 2,400 toys to be made and stuffed with candy and gum from their weekly rations.

When the Danish Admiral Vedel had given his order that the fleet

(Continued on Page 8).

Slaton Today and Yesterday Is The Foundation of Our Tomorrow

The above illustrations give a vivid demonstration of the growth and progress of Slaton in her comparative brief life as far as towns go.

Slaton came into existence in the gay and lusty year of 1911, when railroads were in their growing stage. Slaton has had her ups and downs, but her growth and development has been along permanent lines and those who have called Slaton home in her 32 years praise Slaton for her hospitality and modern development. Slaton has more paved streets, better water, more parks and a better Club House, that make Slaton a town which any citizen should be glad to call home. Let's do all that is possible to make it an even better town for our boys, who are on far flung battlefields, to come back to. Slaton has a brilliant future and an excellent start toward making a truly good, American home town.

HOWARD SWANNER SAYS YEAR HAS BEEN GOOD

Howard Swanner, who has been connected with the banking business in Slaton since 1930 and who has been familiar with the farming conditions in this section since 1924, reports that he estimates that two-thirds of the cotton crop has been harvested and that practically all of the crop will have been gathered by Christmas, if the weather conditions stay favorable and no further difficulties develop in securing farm help.

While the larger part of the crop has been gathered, only about half of the cotton has been sold and unless adequate shipping facilities are provided, there will be a lot of cotton that will be left on the farmers' hands for some time. The cotton is the best grade and the shortest staple that this section has produced in many years. Mr. Swanner reports that he believes the reasons to be the extremely hot weather during late July and all of August and the fact that very little moisture fell during the growing season of the cotton to get the fibre discolored or trashy.

A number of cotton farmers in this section have purchased cotton picking machines of several different types and a few cotton growers have sledged their cotton and a large number of the farmers are preparing to sled rather than pay the high prices of picking on the second gathering.

Mr. Swanner says this has been a good year for most of the farmers in this section although there have been a good many years in which the yield of cotton has been greater.

Shipping facilities for cotton are still restricted, but a limited number of grain cars have been released to move the grain crop from this section.

Like the cotton crop, the grain crop in this section is reported much better than had been expected, the price of grain has been good and the farmers of this part of Lubbock County are in better financial condition than they have been in many years.

Briggs Robertson, Sr., reports that his son, Briggs, Jr., is with task force somewhere in the Pacific. Briggs, Jr., sent his father several excellent group photographs of the men with whom he is serving in the Navy and reported that he is in the action zone.

Robert Scott, who has been home a short visit, left last week for an Diego, California, where he joined the Marines.

In a phone message to his father, R. W. Ragsdale, Jr., from his son, R. W. Ragsdale, Jr., from Louisiana, Dick, Jr. reported that he had received an appointment to Pharmacy's Mate and will report for duty with the Navy this week.

Sgt. James E. Haliburton of Pampa Army Air Field was here visiting his wife over the week end.

Pvt. James G. Tucker of the U. S. Marines is suffering a broken jaw. He is in a hospital somewhere in New Zealand but writes he hopes to be out very soon.

Sgt. Weldon Moore and wife are on a furlough, visiting in the Haliburton home.

Pvt. Jack B. Clark, son of Mr. and Mrs. O. C. Clark, has left New

Early Mailing Being Urged

Delivery of the annual flood of Christmas gifts and cards on time, always a serious problem, "will be more than a problem this year -- it will be an impossibility -- unless Christmas mailings are made largely in November," Postmaster

General Frank C. Walker warned today. "Transportation facilities are burdened to the limit with war materials and personnel, and the Postal Service has sent more than thirty-one thousand experienced employees into the Army and Navy," Mr. Walker said. "The only solution to the Christmas problem is: MAIL IN NOVEMBER. Mark your parcels, 'Do Not Open Until Christmas.' That is the only way to avoid disappointment on Christmas Day not only for many civilians but also for millions of the armed forces who are still in this country.

"It is also the only way to avoid the possibility of a Christmas emergency in the transportation and postal services. If the public will cooperate by mailing their Christmas parcels during November, we can handle a small volume of light, last-minute mailings, such as cards, up to December 10—but we can do that and avoid an emergency only if November is really 'Christmas Mailing Month'."

Postal officials pointed out that the volume of mail now is far

above any previous records, that railway cars by the hundreds have been diverted to war service and that the air lines have only about half as many planes as they once operated.

More than two hundred thousand extra temporary employees normally are employed to help with the holiday postal rush. This year, the extra employees will be largely women and high school boys and girls who are unable to work the long hours usually required and whose work will be relatively slow.

To deliver the Christmas mails on time, therefore, it is necessary that mailings be spread out over a longer period so that available transportation equipment and postal personnel can be used during more weeks. It will be utterly impossible to make the deliveries by Christmas if mailers wait until the last three weeks before the holiday, as in normal years.

There is another reason for shopping and mailing earlier than ever before. Retail stores are short-handed. Purchasers can avoid shopping in crowded stores, long waits for service, and other inconveniences of late shopping if they buy now. They will also doubtless have a better choice of merchandise than will be available later.

Postmaster General Walker observed that his warning is not an attempt to tell the public what to do; it is only an advance notification of what will happen if they mail late. He feels that the public is entitled to the facts, and that when they know them, they will decide to MAIL IN NOVEMBER.

OUR WEEKLY SERMON Famous Handwriting

By the Rev. Warren Filkin, Ph. D., Member of Faculty, Moody Bible Institute, Chicago.

Sometime ago I saw an advertisement that said, "Write like this," and then the reproduction of a beautiful piece of penmanship. My handwriting is neither good nor famous. Speaking of famous handwriting reminds me that a school in Illinois has recently acquired the original copy of Lincoln's Gettysburg address. I have a replica of the original copy of the Declaration of Independence with the signatures of all sixty

signers. This too is famous handwriting.

But there is handwriting more famous and of more lasting value than any of this. I am thinking now of three pieces of handwriting in the Bible. Moses was coming down from the mountain with the two tables of the law written with the finger of God. When Moses saw the people naked and dancing before the golden calf that Aaron had made, he cast the tables of the law out of his hands and broke them. This is an object lesson of how men through the ages have sinned and come short of the glory of God. They have all broken God's law.

I think of another famous piece of handwriting. Belshazzar was having a party. The big men of the land—a thousand of them—with all of their wives and concubines were having a licentious, drunken "good time." In the midst of the revelry the party stopped. Everybody stared at a hand that had suddenly appeared and was writing on the wall. According to Daniel's interpretation the writing meant, in part, "Thou art weighed in the balances and art found wanting." If the handwriting on the stones represents God's righteousness as unattainable, then the handwriting on the wall represents God's righteousness as inescapable, for in that night Belshazzar, king of the Chaldeans, was slain. Judgment that was not expected came upon Belshazzar and the judgment that men today do not anticipate

from God is none-the-less sure. "So, then, every one of us shall give account of himself before God." (Rom. 14:12).

The third handwriting to which I would refer is that on the cross when Jesus was crucified—"Jesus of Nazareth, the King of the Jews." By the handwriting on the cross, every man is a sinner before God. By the handwriting on the wall, inescapable judgment is before every one in this world. But by the handwriting on the cross, the love of God is made clear to a world under the condemnation and guilt of sin. The handwriting on the cross shows God's love unfathomable. The cross of Jesus Christ reaches to every lost sinner in this world, and makes a way of redemption and pardon for him.

Over 185,000 children under the age of 18 were receiving benefits under the Social Security Act at

Keep The Heat On Hitler! Don't Waste It at Home...

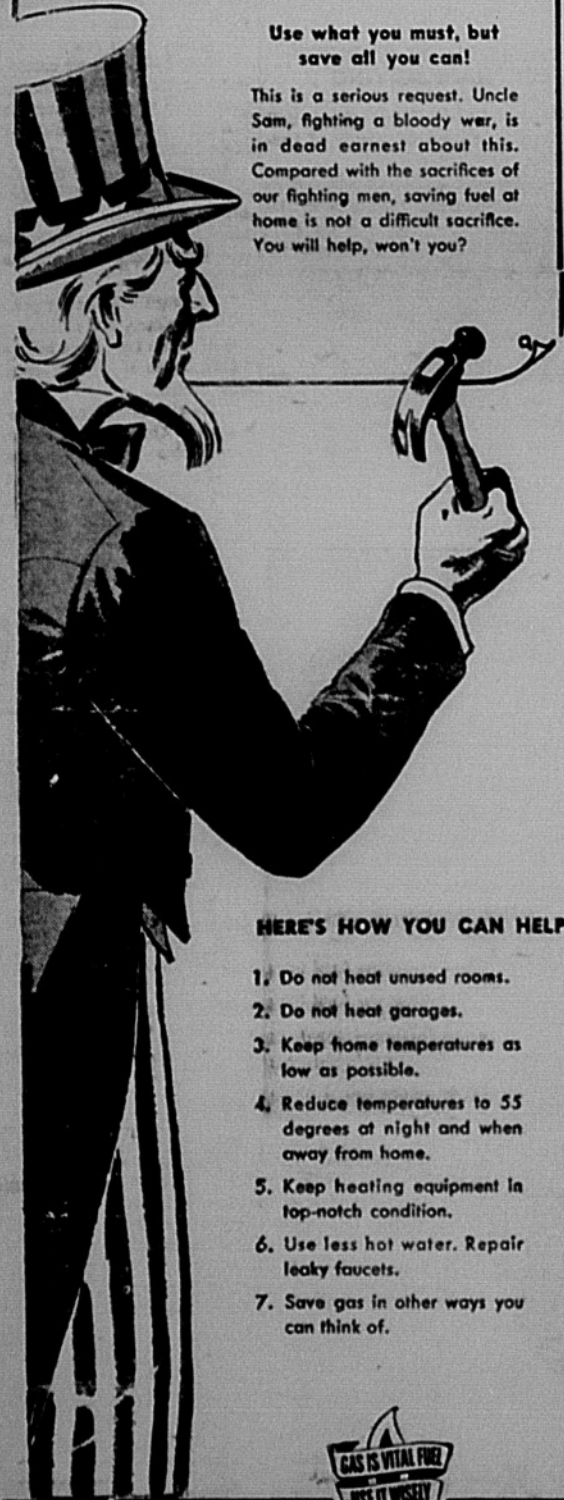

Use Less Natural Gas

Your government is striving to meet a grave wartime shortage of vital fuels, including natural gas.

Every man, woman and child, at home or place of business, is asked to voluntarily conserve the use of natural gas.

Use what you must, but save all you can!

This is a serious request. Uncle Sam, fighting a bloody war, is in dead earnest about this. Compared with the sacrifices of our fighting men, saving fuel at home is not a difficult sacrifice. You will help, won't you?

HERE'S HOW YOU CAN HELP

1. Do not heat unused rooms.
2. Do not heat garages.
3. Keep home temperatures as low as possible.
4. Reduce temperatures to 55 degrees at night and when away from home.
5. Keep heating equipment in top-notch condition.
6. Use less hot water. Repair leaky faucets.
7. Save gas in other ways you can think of.

THIS WEEK'S LESSON

"Mortals and Immortals" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 14.

The Golden Text is: "If ye live after the flesh, ye shall die: but if ye through the Spirit do mortify the deeds of the body, ye shall live" (Romans 8:13).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For in Him we live, and move, and have our being; as certain also of your poets have said, For we are also His offspring" (Acts 17:28).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Immortal man is not and never was material, but always spiritual and eternal" (page 336).

JUST TALK

by

A.M.J.

Mrs. C. M. Earton, who came into the office last week to renew her subscription to the Slatonite, which is duly appreciated, said that she noted my comments on and my curiosity concerning what might be in one of those queer looking bags that hang so perilously on the edge of a WACA shoulder. Mrs. Barton is not nearly as curious as I am, concerning what is in the WACA bags, for she believes she has a very good idea, but she said she had wondered for years what some of the railroad men carry in the big satchels that they lug on every trip they make.

From the way most of them carry the luggage, we believe they must be full of pig iron or spare parts for a switch engine, but it had also entered her mind that most railroad men have corns, and that the bags have extra pairs of shoes in them.

Mrs. Barton also had the following contribution to make for this week's paper: "A gossip is one who gets the benefit of the dirt."

Along this line I recently took an invoice of what I have had, at the time, in my pockets. Here is a list: One fountain with no ink in it, two stub pencils about two inches long with the lead worn down so short that neither one would write, a pocket knife, three dirty handkerchiefs, a broken toothpick, a packet of limber gopher matches, six little pieces of paper with names and addresses written on them, none of which were familiar to me, a button that had come off my vest and a bill fold with both ears worn off and stuffed as full as a Christmas turkey. The bill fold contained poll

ON A WING AND A PRAYER

tax receipts for the past five years, none of which gave my correct age, a pass to Buffalo Lake for 1942, my Social Security card, driver's license, A and B Gas Ration Cards, American Legion and Rotary Club membership cards dated 1939, a bill for \$3.75 from the Rotary Club of Slaton dated 1943, and in the back compartment a one dollar bill with one corner almost gone. Several times I have been almost tempted to endeavor to invoice my wife's every-day purse, the one that flattens out like a broken egg when she dumps it on the table but a look into its conglomerated contents has always more or less frightened me off. When she wants something out of her purse she stirs its contents like she were ladling soup and sure enough, what she is looking for usually turns up. Women are funny folks.

The paving of Garza street by the Chamber of Commerce and the City Commissioners at no expense to the property owners, is a nice feature and it would be nice if these two organizations would pave all of the streets on the same basis, but, I still think that the most important action that should be taken by our City Officials is to form some kind of traffic rules and enforce them.

It is admittedly difficult to launch any kind of improvement without running into some kind of war restrictions but I do believe that "No Parking" signs of some kind could be secured and placed in zones that should be restricted and that some designation as to what kind of rules should be followed in driving on the streets around the square, can and should be inaugurated and enforced. The way the traffic should be governed is important but the enforcement of the rules is far more important. At this time of the year when our streets are so

crowded it is most dangerous to walk or drive on our main streets and it is doubly so by people who double park, most of whom are women. Let us hope that it does not take a terrible tragedy to wake us up to our own selfishness and carelessness.

It seems that all is not as rosy as I thought on the farm front and the price of grain and the frozen price on hogs and cattle have messed things all up. Grady Wilson says that it is costing him more to keep a hog and cow in good style than his wife and child in just moderate circumstances. He feels his bank roll shrink every time a cow or hog takes a big bite.

Did you see that picture in Life magazine several weeks ago, showing mountains of packages that had been improperly wrapped before being mailed to the men in Service?

The illustration showed barrels of cookies that had been dumped on the floor, good clothing that had come out of the wrappings, knives, radios and every kind of item that a soldier gets as gifts. None of these things ever reached the men for whom they were intended and thousands more packages will not reach their destinations because of improper wrapping.

This is particularly unfortunate at a time when all merchandise is scarce and should be put to use. If you are sending gifts this year, be sure to wrap them securely.

By the time Congress gets the laws passed concerning

drafting of fathers, all of the fathers will be in the Armed Forces. It seems to me that our representatives in Washington should start immediately considering what is to be done about the grandfathers and the draft, it is too late now to do anything about the fathers.

At the end of 1942, the records of the Social Security Board showed that over 71,000 widows, with minor children in their care, were receiving monthly benefits under the Old-Age and Survivors Insurance provisions of the Social Security Act.

You know you're right when you give
Van Heusen Shirts

with the Van Heusen Collar attached

Take Santa's tip when you buy shirts for your men. More and more men are switching to this famous shirt with the one and only Van Heusen collar attached. They like the perfect fit of the collar that's actually woven to fit the neck. They like the way this collar can take a beating all day and still retain early morning unwilted freshness. They like the generous fullness and the fine workmanship. They'll like your judgment when you give them Van Heusens!

2.25

For safe picking...
Van Heusen Neckwear

The old "I hope he likes them" feeling doesn't hold when the gift ties you select are by Van Heusen. The colors and patterns in this collection were made up expressly for Van Heusen neckwear stylists. There are ties in this group to suit every taste.

WSCS Meets In R. H. Todd Home

Mrs. M. L. Abernathy gave the lesson from the study, "We Who Are America," when the Women's Society of Christian Service met Monday afternoon with Mrs. R. H. Todd.

Mrs. S. H. Adams led the devotional, the 23rd Psalm, and Mrs. L. W. Smith sang the hymn, "Savior, Like a Shepherd Lead Us," accompanied by Mrs. H. C. Gordon. Mrs. Lula Loveless presided at the silver tea service.

Next meeting will be with Mrs. Abernathy.

P. T. A. To Meet Tuesday, Nov. 16

The Slaton Elementary Schools Parent - Teacher Association is holding an informal tea this afternoon at the Club House from 4 to 6 o'clock. Mrs. T. J. Settle is in charge of entertainment and Mrs. W. L. Davis is chairman of the decorating committee.

On next Tuesday, November 16, the regular meeting of the P. T. A. will be held at the High School at 3:30 p. m., at which time Supt. M. S. Kavanaugh is to speak on "Freedom In Learning."

Presbyterian Auxiliary Holds Regular Meeting With Mrs. Howard

The Presbyterian Auxiliary met Monday at 3 p. m., in the home of Mrs. H. E. Howard, with eight members present.

Mrs. Gus Cleverger, who was the delegate to Presbyterian in Amarillo on Oct. 27, gave a brief report of the meeting. Plans were made for sending a gift of money to the Presbyterian Home for Children in Amarillo for Thanksgiving.

Mrs. S. A. Peavy had charge of the program for the afternoon, "Pilgrim Ways." As her devotional text, she used words from an inscription on the Statue of Liberty, "I left my lamp beside the golden door." For the lesson, she reviewed the book, "We Who Are America," by Ken D. Miller.

The next meeting will be held on December 13th in the home of Mrs. Tess Bruner, with Mrs. Tom Settle as program leader.

SHD To Elect Officers Wed.

The Slaton Home Demonstration Club will have a covered dish luncheon at Mrs. Douglas Wilson's home Nov. 17.

All members are urged to be present, as election of officers for the coming year will be held.

Have your prescriptions filled at **TEAGUE'S DRUG STORE** by a registered pharmacist.

PATTY WEST PLEDGES DELTA GAMMA

From Boulder, Colorado, comes word that Miss Patty West has been pledged to Delta Gamma, social sorority. Patty is the daughter of Mr. and Mrs. J. C. West, 900 South 10th St.

MRS. ARTHUR DENNIS IS BLUEBONNET HOSTESS

At the meeting of the Bluebonnet Club Wednesday afternoon in the home of Mrs. Arthur Dennis, plans were completed for the annual banquet to be given members and their husbands. This banquet will be at the Club House next Thursday evening, Nov. 18, at 7:30.

Names were drawn for a gift exchange for the Christmas party. Mrs. Dennis carried out the Thanksgiving theme in her decorations and salad plate.

Next meeting will be the Christmas party, Dec. 15, with Mrs. Henry Jarman, 825 S. 10th.

Slatonite Want Ads get Results.

Urgent Call For Refugee Sweaters

A special call is being made for those who are making refugee sweaters. It is urgent that these sweaters be sent off now, so please turn them in to Mrs. J. H. Brewer.

The Surgical Dressing Rooms will be closed temporarily, because they are out of material, states Mrs. Ben Mansker, chairman of this project. She wants to thank those who have given so much of their time to this work.

Public Notice

The City of Slaton will receive bids for a three year cash lease for farming and pasture purposes on 160 acres of land located two miles northeast of Slaton. Cash to be paid annually in advance, beginning January 1, 1944. Bids may be filed with City Secretary for consideration by the City Commission at its regular meeting to be held November 22, 1943. City reserves the right to reject any or all bids.

Junior Civic and Culture Club Meets With Mrs. T. J. Settle

Junior Civic and Culture Club was entertained Tuesday evening in the T. J. Settle home at 455 W. Lubbock.

Roll Call was answered with each member giving her "Favorite Beauty Hint." Mrs. Jimmie Wright conducted the evening's program, presenting Mrs. Roy Boyd in a talk on "Tornado in a Box", condensed from Science News Letter, written by J. D. Ratcliff; Mrs. Chas. Walton, in a review of, "Now That We Have The Freezing Unit," taken from Christian Science Monitor.

Miss Elizabeth Bostick gave the Hobby Talk, by telling of her own hobby, which is collecting handkerchiefs. She displayed them and the Club agreed that she had a most unique and interesting collection.

Mrs. Settle served refreshments to Misses Helen Argo, Elizabeth Bostick, Lucille Doherty, Gertrude King, Lilac Yeats; Mesdames F. L. Barton Roy Boyd, Vasker Browning, Willard Childers, E. J. Kenney, Yates Key, E. B. Morgan, Otis Neil, J. B. Stevens, Jack Shepard, Chas. Walton, Joe Wicker, J. A. Wright, Robert Hall and two guests, Mrs. H. E. Howard and Mrs. G. T. Baldwin.

Names were exchanged for the annual Christmas party, to be next month. Mrs. Roy Boyd will be the next Club hostess, with Mrs. Browning and Miss Doherty giving the Reader's Digest Topics and Miss King presenting the Hobby Talk.

RUTH CIRCLE

The Ruth Circle of the Baptist W. M. U. met with Mrs. R. M. Champion Monday, Oct. 8. Seven members were present. Mrs. Fred Stephens brought a good lesson from the Book of Luke.

Next meeting will be with Mrs. Dick Skelton, on 10th St.

FORREST BIBLE STUDY

Ora Forrest Bible Study will meet at 3:30 p. m., Tuesday at the Methodist Church. Memory verse, Micah 6:8.

Lesson: Studies in the Book of Judges, Chapters 1 and 2.

1. What is the secondary name given to the Book of Judges?
2. Name a striking contrast between the Book of Joshua and the Book of Judges.
3. Tell two great lines of truth which are taught in Judges.
4. What is the key verse of Judges?
5. How many chapters has the Book of Judges? How many great divisions?
6. Who, probably, wrote the Book of Judges?
7. About how much time is covered by the Book of Judges?
8. What are some great lessons which the Church may learn from the history of the Judges?
9. How many judges were there?
10. How many great oppressions are recorded in this Book?

Movie Reporter.

You'll laugh your head off at the giddy goings-on of a merry group of gals and guys who wake up a ghost town with a bang! See them tear it apart with dancing . . . an-music . . . and crazy clowning in Columbia's new smash hit musical, "What's Buzzin' Cousin?" will be shown at the Peace Theatre preview Saturday night, Sunday and Monday.

It's all a mad mix-up of mirth and melody, romance and rhythm, gangsters and gold rushes! Ann Miller, the whirlwind tapster, Rochester, that funny fellow, Freddy Martin and his smooth, hot music All get together to give you the swellest evening's fun you've had in two blue moons!

"What's Buzzin' Cousin?" is a rollicking round of revelry.

Other members of the cast include Leslie Brooks, Jeff Donnell, Carol Hughes and Theresa Harris. Charles Barton directed from a script by Harry Sauber.

The fighting sons of Texas A. & M. College, who inspired "We've Never Been Licked," the Walter Wanger Production at the Palace Theatre Tuesday, Wednesday and Thursday, appear as themselves in the new Universal picture. Thousands of "Aggies," training to be U. S. Army officers, are seen during thrilling sequences of the film which was, the most part, photographed in Texas.

Richard Quine, in the leading role, portrays an A. & M. cadet officer who is suspected of disloyalty to America. He is, on the contrary, carrying out a perilous mission which results in the ultimate destruction of an enemy fleet. Ann Gwynne, Noah Beery, Jr.,

Martha O'Driscoll Harry Davenport and other notables are in the large cast. The picture was directed by John Rawlins.

Horror, amplified by dramatic suspense and a spectacular wild

animal exhibition, is the chief element of "Captive Wild Woman," Universal's latest shudder-success which opens today at the Palace Theatre. For spine-chilling thrills, the new film establishes a few pre- (Continued on Page 5).

For obvious reasons, this illustration is merely an artist's imaginative composition of the many thousands of pipes, valves, and gauges, in the 90,000,000 pound Butadiene Plant operated by Phillips Petroleum Company

1943 RUBBER TREE

CARE FOR YOUR CAR—FOR YOUR COUNTRY

YESTERDAY'S RUBBER TREES were 10,000 miles away in Far Eastern plantations. Today's rubber trees are right in our own front yard.

Only a punctuation mark here separates the two simple sentences above. Actually between them are more than a decade of intensive research, hundreds of millions of dollars, and an almost unbelievable plant-construction program to meet our relentless wartime needs for rubber.

Because Phillips and other American scientists devoted themselves to the problem, the Nation is today, in its hour of need, harvesting a multi-million-ton crop of home-grown rubber!

The butadiene (basic ingredient of synthetic rubber) which Phillips produces is a synthetic chemical. So likewise is Phillips 100 octane gasoline. From petroleum chemicals, too, come explosives... plastics... medicines and anesthetics. The list is almost endless because petroleum and petroleum gases are an overflowing storehouse of hydrocarbons, the chemical raw materials for making an almost limitless number of products.

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasoline, lubricants, and fuel oils, are also gigantic chemical plants, pouring out weapons for victory.

Southland News

MRS. FLOY KING.

Southland Seniors and Juniors played the Slaton Seniors and Juniors Friday night and Southland won both games.

Olive Davies, who is in college at Abilene, was home this week end.

Mrs. Whited has returned from Kalls, where she stayed a few days with her daughter, Mrs. Johnson, while Mr. Johnson was in Fort Worth.

The Virgil Young residence was moved away from Southland last Thursday. The Youngs have moved to the lumber yard until they can get possession of their home at Bonham, Texas.

Roy Oakley, Mr. Jack Oak-

ley's brother from East Texas, is here visiting and looking for a location, so he can move his family here.

Leon King writes that he sees Bruce Payton quite often and to tell Bruce's mother that he is well and not to worry about him. Leon says he is ok, only a little farther away.

E. L. King and family spent the day after church Sunday with Harry King and family.

Arthur Voight has returned from Taft, where he was employed at the gin.

Mr. Ben Catchins and family were in Lubbock Saturday.

Roella Rankin wasn't able to go to school Monday.

Mr. Wilke is driving a new Farmall these days.

Gerald Draper spent the night with his grandparents, the W. W. Gillilands, Friday night, returning on the bus Saturday morning.

Cleon Moore was home on Thursday of last week. Cleon is employed at the Hilton Hotel in Lubbock.

We notice Grady King has been swapping a little these days, trading his car for a pick-up, and we notice the (trade) in the weather and the writer doesn't like the change, but don't know what to do but just take it like it comes.

Sammie Hendrix and wife from California stopped over for a little visit and rest with their parents, the John Leakes of Southland, and Mrs. Hendrix of Lubbock, formerly of Southland, before completing their move to Houston. Bobbie Leake, who is stationed in Louisiana, is also home on a few days leave.

Joe N. Childress and wife, formerly Miss Pauline Gilliland, have returned to Laredo, where Joe is stationed, after a two weeks stay with their parents.

Mr. and Mrs. Roy Williams and son and Mrs. Williams' niece, Chalfene, met Mrs. Williams' brother, who is stationed at Brownwood, in Trent last week.

Charles Sokoll, who is stationed in New Mexico, arrived home Saturday morning on a surprise visit. This is Charles's second leave this year.

Mrs. W. W. Gilliland and Mrs. Everett Samples were in Lubbock shopping Saturday.

Eva Faye Truelock, who is employed in Lubbock, spent the week

GUATEMALA

GUATEMALA IS LARGEST IN POPULATION AND SECOND IN SIZE OF THE CENTRAL AMERICAN REPUBLICS (304,650 POP., 45,492.50 MILES²)

CITY PLANNING WAS PRACTICED BY MARIAN TRUJANDS IN GUATEMALA 3,000 YEARS AGO. WITHOUT METAL TOOLS OR BEASTS OF BURDEN, THEY BUILT HUGE PLANNED CITIES OF TEMPLLES, PUBLIC BUILDINGS, STEAM BATHS.

BEAUTIFUL LAKE ATITLAN, HIGH IN THE GUATEMALAN MOUNTAINS IS SURROUNDED BY 12 PICTURESQUE VILLAGES—EACH NAMED FOR ONE OF THE 12 APOSTLES.

THE CONJUNTS OVER THE MOON IN GUATEMALA BECAUSE OF DIFFICULT TRAVEL ACROSS MOUNTAINS, RAIN STORMS AND MACHINERY WAS TRANSPORTED TO MANY PARTS OF THE COUNTRY BY PLANE!

GUATEMALAN COFFEE, FAMED FOR ITS SUPERIOR QUALITY, GROWS ONLY IN THE SHADE AND AT ALTITUDES FROM 1500 TO 8,000 FEET. IT ACCOUNTS FOR 70% OF GUATEMALA'S EXPORTS.

CONTINENTAL DIVIDE! IN THE MOUNTAIN CITY OF CHAMALTEPEQUE WATER FROM A BEAUTIFUL FOUNTAIN FLOWS FROM ONE SIDE INTO THE ATLANTIC... FROM THE OTHER, INTO THE PACIFIC!

If present experiments in cinchona culture in Guatemala meet with success, that country may in the future become one of the world's leading producers of quinine. As it does today, the United States after the war will need great quantities of quinine to prevent the spread of malaria when the soldiers return from the tropical war fronts. Quinine is only one of the many tropical crops Guatemala and the other Middle American republics supply to aid the war effort of the United States.

GUATEMALA IS THE HOME OF THE "HARMONY" A MUSICAL INSTRUMENT PLAYED BY 4 TO 9 PLAYERS. THE TONAL QUALITIES ARE DERIVED FROM STUNNING BLOCKS OF POLISHED WOOD AND DIFFERENT-SIZED COURDS

Santa Fe CHIEF TOPICS

College Station, Nov. 8.—(Special) Nineteen members of Four-H Clubs throughout Texas are preparing today for their visit to Chicago and participation in the National Congress by virtue of the educational awards provided by the Santa Fe Railway.

Winners announced by L. L. Johnson, State Club leader, are: Sherman Famuliner, Morton; Edward Bennett, Hart; Leon Crisson, Farwell; Jackie Jean Brock, Floydada; Billy Joe Snodgrass, Tokio; Henry Kyeaton, Abernathy; Udell Adams, Tulla; Alvin G. Davis, Post; John Spearman, Pampa; Billy Shelton, Vernon; Herbert Sherwood, El Paso.

Ralph Frasher, Argyle; Edward L. Jenkins, Powderly; Jerry Dusek, Vanecurt; G. P. Smith, Longview; Wayne Robinson, Wheelock; E. J. Harrison, Cleburne; Sonny Warnock, Ft. Stockton; Clarents Hausler, Needville.

In addition to receiving the educational award permitting them to attend the National convention with all expenses paid by the Railway, each will receive a certificate of merit for Four-H activity from E. J. Engel, president of the Santa Fe.

The winners will leave for the Chicago educational gathering prior to November 28.

TEAGUE DRUG STORE

Call All Poultry Says Strickland

One of the surest ways poultry producers can make the best of available feed supplies is to cull all non-layers and low producers from their flocks, says A. C. Strickland, agriculture teacher.

With feed supplies short, rigid culling of the flock is more important than ever before, he said. "By removing the low-producing

and unprofitable birds, the owner will have relatively more feed for the higher producing hen and in this way can get more eggs from his feed supply."

To get rid of poor layers, first remove all birds that are sick or otherwise unsound. A cripple or weak hen will not pay, and eventually will come down with disease. It is important, therefore, to remove birds that are sick or lame, decidedly undersized or underweight, or that have deformities or weaknesses of their backs, legs, breasts or wings.

Good culling also calls for removing all mature hens that are

UNION NEWS

MRS. M. D. GAMBLE

Rev. E. A. Todd filled his usual first Sunday appointment here Sunday. Several attended both morning and evening services.

Mrs. Pat Patterson's mother of Post visited in her home Monday. Most everyone around here has almost completed the gathering of cotton. However, the cotton that was still in the field last Sunday was damaged by the sand.

The gin at Woodrow had a very narrow escape when the cotton house caught fire and burned, although the gin was not damaged. The fire department of Lubbock was called to the rescue.

Mr. and Mrs. J. A. Russell visited in the home of his parents, Mr. and Mrs. A. J. Russell of Slaton, Sunday.

Visiting in the home of Mr. and Mrs. B. E. Stephenson Sunday were Mr. and Mrs. D. D. Stacy and daughter, Linda Jane, of White, Mr. and Mrs. H. M. White and son, Glenn Darrell, and Mr. and Mrs. Joe Gamble.

Mr. Charles Lee Roy Cade visited in the home of his grandparents, Mr. and Mrs. Horace Smith in Slaton, over the week end.

Pfc. Floyd Reynolds returned to his camp in California. He was home with his parents, Mr. and Mrs. M. W. Reynolds, on a twelve day furlough.

Mr. R. M. Cade and Mr. Otho Doyle have gone on a hunting trip. This is a deer hunting for Thanksgiving.

Mrs. Otho Doyle has gone to Vernon to visit with her parents. She will remain there while her husband has gone hunting.

Mrs. Grey, the history teacher of Cooper, resigned last Friday. All of the students will miss her very much.

Rev. and Mrs. E. A. Todd and children visited in the home of Mr. and Mrs. F. H. Griffin and family, Sunday.

Students, are you working extra on Saturdays or after school? Most jobs are covered by the Social Security Act, so be sure to get your social security card and show it to your employer.

JUST TALK

Short Tale

One reason why a dog is such a loving creature is that his tail wags instead of his tongue. —Clipped

Most of the Time

"What are you doing here, dear?"

"Looking for a husband."

"But you've got one!"

"That's the one I'm looking for."

Dog's Life

A stranger was standing on the platform of a small railroad station when the Northern express flashed past. Into the whirl of dust raised by the train leaped the station-master's dog, and tore madly up the track in pursuit.

"Does your dog often do that?" asked the stranger of the station-master.

"Yes, sir. Every time the express passes by, the dog is after it like a hare."

"That's queer," commented the stranger. "Why does he do it?"

"I don't know," replied the dog's owner, scratching his head thoughtfully. "What worries me is what he's going to do with it after he catches it." —Clipped

Teasing the Neighbors

Late one evening Pat was working in the yard. His wife called to him loud enough for all the neighbors to hear:

Wife: "Come to supper—steak and potatoes and hot rolls and coffee!"

Pat (coming in with his mouth watering): "Nora, you're kidding me, aren't you?"

Wife: "No, I'm just kidding the neighbors." —Clipped

Get This

My lady, be wary of Cupid
And list to the lines of verse:
To let a fool kiss you is stupid,
To let a kiss fool you is worse. —Clipped

Fact

Gather your kisses while you may,
For time brings only sorrow;
The girls who are so free today
Are chaperones tomorrow. —Clipped

Landscape Helps Build Morale

COLLEGE STATION, Nov. 11.—4-H Club members of Texas have been given the privilege of naming a Liberty Ship, in recognition of their remarkable war-food production record.

Members will make their nominations during the month of November, according to Onah Jacks and L. L. Johnson, state 4-H Club agents for the A. and M. College Extension Service. Boys and girls are being asked to nominate one deceased person in Texas history who contributed much to the improvement of country life. The name of the person receiving the most votes in a county will be submitted to state Extension headquarters along with a 100-word biographical sketch of the person selected.

When reports are collected from over the state, the names of five persons receiving the largest number of votes will be submitted to the U. S. Maritime Commission for the final selection.

A similar opportunity is being offered 4-H boys and girls in other states.

In a letter addressed to all 4-H Club members of the United States, Chairman Emory S. Land of the U. S. Maritime Commission asked them to help name a Liberty Ship and congratulated them on the work they "are doing to bring to the world peace and human freedom."

Meat Circles May Continue

COLLEGE STATION, Nov. 11.—Farm families who have been operating as a "meat circle" or "club," can continue to slaughter their own meat without obtaining a farm slaughter permit and without exchanging points among themselves.

It's necessary to keep records of the division of meat, however, warns Mrs. Winifred J. Leverenz of the A. and M. College Extension Service. And, too, it is mandatory that one in the group had raised the animal which is killed. These families—or others who slaughter animals they raised themselves—can store this meat in freezer lockers without giving up ration points to the locker operators. The same is true if their own animals are custom slaughtered or if their own meat is cured, ground, or made into sausage, for use at home—no points need be given up.

Families also may consume meat without giving up ration points if they owned the livestock for a period of 60 days prior to slaughtering it or if the weight of the animal increased at least 35 per cent between the time it was acquired and the time it was slaughtered. Another requirement the producer must meet is to have resided on the farm which he operates for more than six months of the past year.

These rulings from the Office of Price Administration should encourage farm families to can, cure, or freeze considerable amounts of meat for their own use, Mrs. Leverenz believes. As specialist in food preservation she predicts a big increase in home conservation of meat this winter.

Regulations are entirely different for families who sell any meat. In this instance, the slaughterer must obtain a permit from his County USDA War Board and he must grade it, tag or stamp each cut with the grade and permit number, sell at no higher than legal prices, and collect the correct number of points for all meat sold or given away.

Texas 4-H Clubs To Name Ship

COLLEGE STATION. — The morale building value of beauty in the landscape recently was impressed upon a Calhoun County demonstrator, Sadie Hatfield, of the A. and M. College Extension Service staff who reports that this woman's homesick soldier wrote and asked that every nook and corner of the home landscape be photographed and sent to him. He had helped to level the lawn and plant shrubs when his family undertook the demonstration a few years ago.

Landscape, too, has a favorable reaction upon families with sons at the front. Miss Hatfield, who is the specialist in landscape gardening, quotes a member of a home demonstration club that while her son was fighting in Africa she relieved the low-spirited hours by working in her yard.

Although winter usually is the best time to plant trees and shrubs it never is too early to make arrangements for improving the home landscape. And from the morale angle, Miss Hatfield believes that yard beautification will give returning soldiers pleasure and also give families pleasure in doing the improving.

Miss Hatfield suggests as helpful in planning home landscaping to visit other homes where trees and shrubs have been used for beautification and also nurseries or the woods to study plants. On these trips of inspection it will be profitable to observe where to plant for beauty, utility and convenience, how many plants to put near the house, and how far apart and where shade trees should be placed.

With the many things people have to do in wartime the specialist believes it would be well to choose only such shrubs as will require little care. Bulletins and advice on landscaping may be obtained at the offices of County Extension Agents.

tions, lice, mites, or intestinal worms.

Ability to cull is easily acquired but it is best learned through actual handling of birds under experienced guidance. Poultry owners who cannot cull satisfactorily should call upon some neighbor or other experienced person to help them get the needed skill.

... V ...

Nazi occupation authorities in Holland have even cut the Dutch horse meat ration one-third. The weekly meat ration coupons, which used to be good for 150 grams of horse meat, now are good for only 100 grams or about two ounces, according to a report published in a German language daily in Holland.

Feeding Tips To Dairymen

COLLEGE STATION, Nov. 11.—The current deficit in the supply of protein supplements makes it imperative for dairy and livestock men to get full value from every pound fed. It is false economy for a dairyman to spread a limited amount over a herd too large for each cow to receive its maximum, says C. W. Thompson, dairyman for the A. and M. College Extension Service. In that case the sensible and profitable thing to do is to cull the herd to fit the feed supply.

The experience of a Williamson County dairyman supports this. He culled the seven lowest producers from his herd of 14 and fed the roughage the 14 had been receiving to the remaining seven. Within two weeks the latter were producing 100 pounds of milk daily as against 70 for the 14 cows on limited feed.

Thompson says that the best way to put the finger on the low producers is to keep records or become a member of a herd improvement association. If D. H. I. A. membership isn't possible, the individual dairyman should weigh the milk and feed of each cow in his herd weekly, or at least once monthly. The findings will identify the profitable and unprofitable cows, and permit him to feed according to production.

The only sound basis for culling a herd is accurate records, the specialist explains. It has been found that some cows thought to be the best in a herd were proved by D. H. I. A. testing to be the most unprofitable. Likewise, some considered not so good proved to be the most profitable. A dairyman who culls by guess may make costly mistakes.

Dairy herd improvement association testing has proved that more cows do not necessarily mean more production, and certainly not more profit. It also has shown that good producing cows are prof-

POULTRY

(Continued from Page 6)

yellow-legged and fat. Vigorous birds with red combs and wattles, bleached legs and beak, and a thin pliable abdomen, are usually in production.

In culling, cautioned Strickland, consideration should be given as to whether the birds have had a fair chance to lay. Low production may be caused by improper feeding, crowded or unsanitary condi-

Overweight Motor Oil Proved Non-Essential

See how safe and economical a surprisingly Light grade can be with your engine Winter OIL-PLATED

A motorist who kept a record for a month averaged only 2.7 miles between stops. Maybe you average twice that. Yet the "coupon shortage" means short runs—lots of stopping and starting. That's extra bad for your oil. The first hardships of Winter will find it unfit. This year, of all years, the height of economy is to change your oil promptly.

The lightest suitable oil you can use is best for your engine—your battery—your gasoline economy...best for lengthening your car's future! You needn't risk any overweight grade...not when you have your engine OIL-PLATED for Winter by changing to economical Conoco Nth motor oil.

The "magnetic attraction" that seems set up by a certain synthetic in Conoco Nth oil—patented—enables it to OIL-PLATE. All good plating forms a staunch protective surface, and that gives you the idea of OIL-PLATING. Now think of any OIL-PLATED part in your engine facing another OIL-PLATED part...double OIL-PLATING in between—plus Conoco Nth oil's regular-type liquid film that's extra strong! You can't get more protection than that, while with overweight oil you'd only invite needless drag and dangerous "absentee" lubrication in starting cold. Don't risk it. Consult Your Conoco Mileage Merchant for your lightest grade of Nth, and face Winter fully confident, with your engine OIL-PLATED. Continental Oil Co.

Don't Be A Wartime Casualty!

Train now for a post-war position.

When "V-Day" brings victory and new opportunities, you will want to be prepared for employment security and future advancement, rather than just hunting for a job.

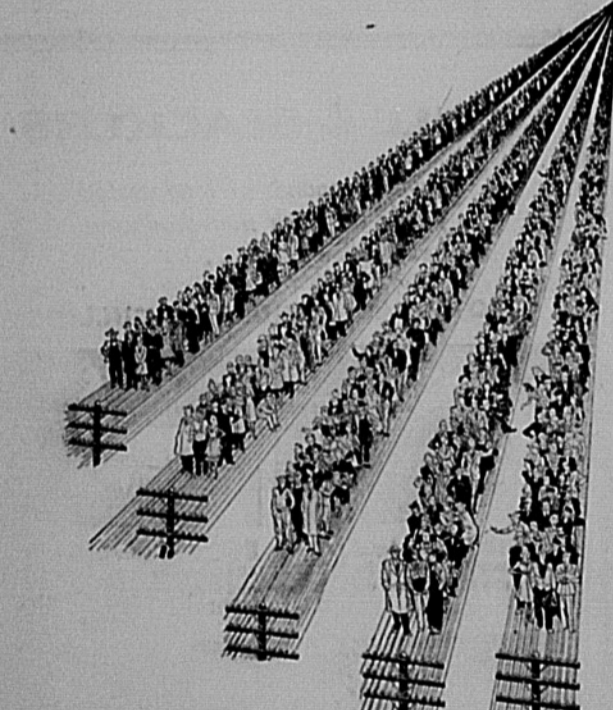

NOW is the time to start. Make your plans to attend. Mid-Winter Classes begin soon.

Mail coupon below for complete information. No obligation. See the publisher of this paper about a Special Scholarship.

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

Peculiar Cloud Over Slaton

What caused a very peculiar cloud to form in the sky about five-thirty last Tuesday evening is still a mystery to many people in Slaton. Mrs. Ben Mansker phoned into the Slatonite office and asked if our office had any information on the phenomenon, but to date we have not had it explained. The cloud was a narrow strip of white vapor and was very similar to those made by an airplane sky writer, however, the cloud formation did not make any definite figure or message. It hung in the air for more than an hour. Perhaps it means that the war is coming to an end, that the drought will soon be broken or that, "it ain't gonna rain no more."

RATIONING

(Continued From Page 1)
consumption in the 1943-44 marketing season, compared to 8.6 pounds in 1942-43. Tire Situation Tightens Operators of passenger cars may find it impossible to obtain used tires because commercial vehicles delivering essential goods are now eligible to receive used passenger and truck tires of sizes smaller than 7.50-20 to replace tires no longer serviceable. November quotas recently released by OPA for new passenger and truck tires show 30 percent fewer for trucks and 14 percent fewer for passenger cars. No More Issue Of Books I or II No more copies of War Ration Books One or Two can be issued by local rationing boards for any purpose whatsoever. All stamps in the two books have expired except stamp 18 in Book One, for shoes, and blue stamps X, Y and Z in Book Two, when may be used to buy processed foods through November 20. OPA said the covers of the two books may be thrown away when the stamps have been used or have expired. Ration-Free Children's Shoes Some relief from the shortage of youngster's shoes will be provided about the first of the year by a new supply of children's non-leather shoes for general wear, to be sold ration-free, OPA has announced. In general, children up to about eight years of age will benefit. The shoes will have canvas uppers and soles made from remnants and heavy woven fabric, reinforced with vulcanized rubber. Shoes of this type larger than misses' and youths' size three will be rationed.

SIDELIGHTS

(Continued From Page One)
was to be either scuttled or sailed to Sweden, a detachment of German marines succeeded in getting on board the Danish naval ship "Ingolf". The German commander demanded 10 hostages as guarantee that the ship would not be blown up nor scuttled. The captain of the "Ingolf" said, "I can't prevent you from taking the hostages but I must call your attention to the fact that the sea-cocks are already open." The Germans put their ten hostages in a row on the deck, when suddenly a signal sounded, the whole Danish crew, hostages and all, jumped overboard and deafening explosions shook the ship. Many of the Germans were killed or wounded but all the Danes escaped. This report came from the Stockholm newspaper, Dagens Nyheter. "The refugees offer a possibility for personal contact and a foundation for friendly Swedish-Norwegian relations that may be far more decisive for the future than theoretical political plans," the article commented. "There is growing proof of the faith, number and strength, and the activity of (French) patriots," said the Commissioner of the Interior of the French National Lib-
