West Texas Roundup

Bank deposits in Canyon hit the highest point in history Monday when the First National Bank reported a total of \$4,172,781.29 in deposits.

—Canyon News

The paper situation is no better. In fact the situation seems more critical than during the war for many lines of paper.

Printing machinery is running 18 months to three years behind on delivery.

—Canyon News

Steps for the initiation of a weekly "Trades Day" in Seagraves were taken this week with the appointment of a trades day committee by Jimmy Thornhill, president of the chamber of commerce.

—Gaines County News

"The water situation is still critical and we must do all in our power to conserve it. Therefore, the following instructions are being issued for water conservation. The watering of shrubs, lawns and flowers—all irrigation—is strictly prohibited except during the hours of 6 p. m. to 8 p. m. If these instructions are disregarded more drastic measures will be necessary. Please comply in the best interest of all and conserve what water we have."

—Colorado Record

The City Commission, in a special meeting Tuesday night with the Post Chamber of Commerce Board of Directors and others interested, made the first major move to accomplish city ownership of the water works and sewage disposal system, expansion of the sewer system and acquisition of more paving for the city.

—Post Dispatch

Garza County's reported 70,000 acres of cotton is expected to yield 31,000 bales according to a report issued recently by K. N. Clapp, manager of the Lubbock office of Anderson-Clayton and Company, cotton dealer.

—Post Dispatch

With ninety-three students participating, the summer band program sponsored by the local school and taught by Everett Maxwell, band director, is off to a good start. The work is scheduled to go on for six weeks, and is designed to start a group of beginners and to improve the musicianship of the present band members.

—The Andrews County News

Wheat harvest in this county was nearly 90 per cent complete at mid-week as farmers wound up one of the biggest harvests in the history of the county.

With planted acreage in this county estimated at between 430,000 and 450,000 acres in wheat, the county yield is nearing the staggering total of nine million bushels.

—The Hereford Branch

Construction of 110 blocks of new paving will start within fifteen days by J. R. Fanning, successful bidder on the project. Included in the contract is reconditioning of 24 blocks of old pavement.

Contract was let Tuesday night at a meeting of the Levelland City Commission.

—The Hockley County Herald

Hockley bank deposits for the first six months of this year increased \$823,335.16 over a like period in 1946. Reports issued by the three banking institutions in the county revealed this week.

Citizens State bank of Anton, a newcomer to financial circles in the county, added \$271,203.00 to the total deposits.

In Levelland, the First National

(Continued to last page)

Slaton Family Needs Assistance

Due to the fact that Slaton has no funds to help unfortunate people in the city and because other charity organizations are limited as to the kind of help that can be given, two men of Mexican extraction, are in critical condition and need assistance, according to Ollie D. Livingston, of the State Department of Public Welfare.

Manuel Edward Gomez, Jr., has a dislocated vertebrae in his back that has permanently disabled him. Through the efforts of Dr. Elbert Loveless the youth was sent to the Baylor Hospital in Dallas and treated but their report was that he would never be able to walk. The father, Manuel Edward Gomez will soon be under treatment in Dallas at the Baylor Hospital. He is suffering from an infected leg that may have to be amputated. The Gomez family is in dire distress according to Dr. Loveless as they have been living on what food that neighbors have been able to provide.

The State Department of Public Welfare has no funds to help people in distress directly but they do provide education for disabled people and Mr. Livingston proposes to train the younger Gomez in some trade as soon as he is physically able to work but until he has proper food and care he could not take the educational course.

Gomez Sr. is a hard working, intelligent man and has done his best to provide for his family and Mr. Livingston has contacted Max Arrants and Dr. Loveless and it is planned to use some of the money that was collected to help the Mexican who died after being treated for virulent tuberculosis. There is not enough of this money to help very long and an effort will be made to create a fund to help any one in Slaton who needs help.

Rites Held For Mrs. Mattie House

Mrs. Mattie House, 85, of Sterling City, died Monday evening at the home of her daughter, Mrs. Ben Mansker. Mrs. House who was visiting here, became ill Sunday afternoon.

Mrs. House was born in Ellis county and had been a resident of Sterling city for 75 years. Her husband, the late M. Z. House, was a pioneer Sterling county rancher.

Survivors include three daughters, Mrs. Mansker, Mrs. W. T. Brown of Albany, and Mrs. J. H. Reeves of Amarillo; four sons, W. W. and R. R. House of Tucumcari, R. B. of Breckenridge, and J. A. of Odessa; 17 grandchildren and 17 great-grandchildren.

Funeral services were conducted Tuesday afternoon at the First Methodist Church in Sterling City with Rev. Ed Lovelace, pastor, officiating.

Williams Funeral Home directed burial at Sterling City.

Whew!!!!

The thermometer readings at the West Texas Gas Company for this week show maximum readings as follows:

Sunday 101
Monday 102
Tuesday 103
Wednesday 106.

BIRTHS

Born July 13 at Mercy Hospital to Mr. and Mrs. Travis Mann a girl. Weight 5 pounds 12 ounces.
Born July 15 at Mercy Hospital to Mr. and Mrs. Dell Lawrence a girl. Weight 5 pounds 8 ounces.
Born July 15 at Mercy Hospital to Mr. and Mrs. Bennie J. Moeller a boy. Weight 7 pounds 2 ounces.
Guy Everett is the name of a son born to Mr. and Mrs. E. G. Reese at Jackson, Texas, July 4. Weight 7 pounds and 8 1/2 ounces.

Over the Wire

Several more new business ventures for Slaton are being considered and may be announced in the near future. The construction of the new building on the West side of the square is nearly ready to start and when it gets going the owners expect it to go up at a rapid rate.

Even with the extreme hot weather it is reported that considerable damage has been experienced in some localities from leaf hoppers on the cotton and some of the farmers have started dusting poison. On the sandy land J. H. Brewer reports that the wind has done some damage down in the Canyon and that some replanting is still being done.

Harry Stokes has been in Kansas City as a representative from this district at a Ford National meeting. Harry was representing all of the small town dealers in a wide area.

The building material dealers report unusual activity in remodeling in both homes and business buildings and although more building materials are available the shortages are still with us on many items.

The poorest fishing season for many years is the report of most of the men who go in for the sport and many of them have given up until the fall season starts.

Several citizens have expressed their hopes that the DDT sprayer owned by the City of Lubbock would be used in the alleys and in the rear of the business buildings in Slaton. It has been reported that the Lubbock sprayer is being loaned out to other towns in the section so that the danger of polio could be kept at a minimum. The weeds and tall grass over Slaton need the attention of the property owners as they are more prolific this year than they have been in many seasons.

College Station, Texas, July 14. — Housewives—are your coffee or tea cups stained when you delay washing them?

If so, home management specialists at Texas A&M College advise, rub the stain with a moist cloth dipped in baking powder. Better yet rinse the cups immediately after using.

(Dallas News Editors note: Still better, use paper cups.)

(Slaton Editors note: Better still, drink lemonade.)
Mrs. J. L. Colston, who is very fond of dogs, reports that a dog that appeared to be some kind of trained hound, possibly a blood hound, was wandering around at Buffalo Lakes this week. The dog was evidently hunting for its master for it seemed to be distressed.

Services Conducted For Mrs. Basinger

Funeral services for Mrs. Dora Emma Basinger, 75, were conducted Sunday at 4:30 p. m. in the Southland Methodist Church with Rev. Elmer Crabtree of Crosbyton officiating, assisted by Rev. T. E. Rutledge, the Southland pastor. Burial was in the Southland Cemetery.

Survivors include five sons, G. W., W. A., and T. H. Basinger all of Southland, and Paul and Albert Basinger, both of Lubbock; a daughter, Mrs. Thelma Winterrowd of Southland; two sisters, Mrs. Cass Kerby of Bethel Springs, Tenn., and Mrs. Cora Morton of Odessa; 27 grandchildren and 15 great grandchildren.

MINISTER HOLDS MEETINGS
Lloyd Moyer, pastor of the Church of Christ, will be holding meetings at Petersburg and New Home for the next four weeks. During his absence, the pulpit will be filled by his brother, Forrest D. Moyer of Childress.

Sundown Invades Slaton Sunday

Last Sunday the Levelland Refiners took the ball game from the Slaton team by a score of 6 to 5 on the home diamond.

Next Sunday the league-leading Sundown Oilers will be the guests of the Slaton team at 3 p. m.

Slaton Streets Being Repaired

Although materials like asphalt are difficult to get, the city of Slaton began repair jobs on several local streets the past few days.

Streets being repaired are as follows: Eleventh from Division to Jean Street; Eleventh from Lubbock to Division; Twelfth from Lubbock to Division; Scurry from Tenth to Eleventh; Lynn from Tenth to Thirteenth; West Panhandle from Lynn to Dawson; Eighth from Scurry past Knox.

The repairs are a sealcoat job of asphalt and gravel.

Local Group Goes To R.A. Encampment

Mrs. Dudley Berry and Mrs. Bertha Stottlemire are sponsoring the attendance of a local group at the encampment of the R. A. (Royal Ambassadors of the Baptist Church) of Lubbock county at MacKenzie park Tuesday through Thursday.

An area in the park near the community center is set aside for the group and many of the activities will take place in this center. There will be periods for vespers services, morning watch, stunts, singing, recreation, and religious services under the direction of Rev. Joe Mosenbocker of Idalou and Mrs. Helen Hardman of Albuquerque, a missionary to the Indians.

Approximately 175 boys from all the Baptist Churches in Lubbock will attend. Boys going from Slaton are Jerry Forbes, Jerry Lemon, Joe Neill Sparkman, and Lyle Berry.

Principals Are Elected for School

Supt. Lee Vardy reports that the opening date for the Slaton public schools has been set September 1.

J. H. Freeland has been elected as high school principal and James O. McLeod as grade school principal. Homes have not been located for these people, but they and their families hope to be able to move to Slaton early in August.

Mr. Vardy also reports that further repair work is being done on all buildings.

FIVE COURT CASES FILED

According to Chief Ward only six cases were filed in City court over the week-end. Five cases were for drunkenness; the other was for traffic violation.

Portrait home permanent kit 2.00 size 1.25 plus tax at Fitzgerald Drug.

Local Banker Says Fall Outlook Good

According to H. T. Swanner, bank deposits in Slaton show no appreciable gain since the bumper cotton crop of 1944. Since that date crop failures caused by weather conditions have kept the deposits near the 2.6 million mark.

The vicinity has the largest cotton acreage in years, says Mr. Swanner; and with rain by August 1, this year's crop should be a record breaker.

As for loan collections, Mr. Swanner says they are surprisingly good. More real estate loans are out this year because of returning veterans and the housing shortage; farm loans are about the same with the average rate of collections.

Barring some unforeseen disaster to the present cotton crop, Mr. Swanner thinks that Slaton bank deposits should show a very definite gain by the close of the ginning season this fall.

Last Rites Held For T. S. Williams

Word has been received in Slaton of the death Saturday of T. S. Williams, husband of Mrs. Mabel Greer Williams formerly of Slaton. Burial was Monday at Morales, Texas.

Mr. Williams who had been ill at his home for several months, is survived by his wife and five children by former marriages.

C. S. Greer, Jr., flew from Michigan to be with his mother during her bereavement.

Services Conducted For S. W. Potter

Funeral services for S. W. Potter, 87, were held Thursday at 4:30 p. m. in the Southland Church of Christ with Dean Brookshire, former pastor of Slaton, officiating.

Mr. Potter, who died Tuesday night of a heart attack at his home in Southland, had been a resident there for more than 32 years. He had been a Mason for approximately 65 years.

Survivors include his wife, Eldora Potter, and an only sister, Mrs. Essie Shultz of Illinois.

Pallbearers were E. D. Jackson, Roy Williams, Fay Collins, Hansell Hallman, Leonard Whited, and Hub Hare.

Burial was under the direction of Williams Funeral Home.

Commissioners and Managers to Meet

A meeting is being called of the managers of the four top teams of the softball league and the commissioners in the Slaton Chamber of Commerce office Saturday morning, July 19, at 10:00 o'clock.

The purpose of the meeting is to arrange for the play-off games of the league to the satisfaction of all concerned. The play-off games are scheduled for July 21.

Over a Million New Drivers Are on the Highway This Year

Do you remember the furor created over the nation when the New London school was destroyed? Suppose the Slaton high school student body of 225 should be suddenly blotted out. Yet 271 were killed in traffic crashes during the recent week-end holidays and little notice has been taken.

Last year 33,500 were killed in traffic accidents—almost as many people as live in Lubbock. The number injured was about 17 times as many as are in Lubbock county. The estimated economic loss for last year equalled three times the total valuation of Dallas county or almost 400 times the total income of Lubbock county. Such figures are difficult for the average person to conceive.

Roscoe L. West, chairman of the National Commission on Safety Education, estimates a million and a half new drivers behind the wheel this year—teen-agers in the third and fourth year in high school. He also says young drivers are involved in five times as many fatal accidents and urges the parents and schools to teach these drivers the intelligent and safe use of the automobile.

A serious traffic problem in Slaton, says Mr. Ward, is teen-agers playing with cars at night—cutting corners, racing, chasing, speeding, turning, etc., in a sort of tag game. Heavy, high-speed cars are definitely not playthings.

Curbing such a practice seems to be chiefly the problem of the parents. When the teen-ager is permitted to use the car, the parents assume the responsibility for all accidents. Certainly it is the parents who are called on to "foot the bill" for any damages.

The traffic problem cannot be solved by regulation or any general device of the law-makers. The secret lies in the individual's attitude toward accidents and general traffic safety. That attitude is fostered in the home and through reading.

The fourth number of the traffic series contains some pertinent facts about traffic safety well worth the time of reading.

Methodists To Hold Fellowship Night

The Wesleyan Guild of the Methodist Church is holding a fellowship night Friday evening on the church lawn at 7:30 p. m.

There will be a social hour with directed games for those who wish to stay for an evening's entertainment.

Homemade ice cream and cake will be served at a nominal charge. The proceeds will go to a fund to provide flowers for the church each Sunday.

Everyone is invited including members of other churches and their friends.

Softball Schedule Nears Its Close

In an effort to provide summer recreation for Slaton citizens the Slaton Chamber of Commerce has helped to finance the softball league, which Max Arrants says operates at a loss every evening because of the poor collections. There has been no gate fee, contributions being left to the will of the spectators. The games have been good, the crowds large, but Max is quite discouraged over the operating losses.

Two teams, Southland and State Guards, have finished their schedule, leaving eight teams to play the four games July 17 and 18. The four top teams will then have the play-off Monday night, July 21. The results for last week are as follows:

July 10	Ayers 9; Robertson 3
Wilson 9; Guards 0 (forfeit)	
July 11	Southland 5; Sears 0
Drive-In 9; Guards 0 (forfeit)	
Pleasant Valley 4; Drive-In 3 (a rained-out game)	
July 14	Pleasant Valley 6; Robertson 3
Ayers 13; Santa Fe 3	
July 15	Wilson 13; Lub. Bar. Col. 9
Southland 9; Guards 0 (forfeit)	
The standing of the teams on July 16 was as follows:	

	Won	Lost
Ayers	14	3
Southland	13	5
Drive-In	12	5
Pleasant Valley	11	6
Sears	10	7
Wilson	9	8
Robertson	8	9
Lub. Bar. Col.	5	12
Santa Fe	4	13
Guards	0	18

Young People go to Lutheran Rally

July 12 and 13 the Lubbock Federation of Luther Leagues held its young people's rally in Salem Lutheran Church of Roscoe. The topic for the rally was "Youth of the Church Serving the Master."

Participating in the program were Ludell Foerster, who served on the nominating committee, Rev. Schulte, who served as Choral Union director, and Floyd Foerster, who gave the third number of a panel discussion Sunday afternoon.

From the 13 or 14 congregations represented, 216 young people attended. A distinct honor came to the Posey Church when Hugo Hildebrand was elected president for next year.

Attending from Posey were Rev. and Mrs. Schulte and Elizabeth, Mr. and Mrs. Hugo Hildebrand, Arnold Hildebrand, Vernon Ehlo, Lillian, Eugene, Luther and Floyd Foerster, and Mr. and Mrs. Emil Foerster.

Slaton Lions To Have Speaker

For the next meeting of the Slaton Lions Club, July 22, a special program has been arranged.

Mary and Martha Cudd and Betty Jo Gentry, accompanied by Mrs. Allen Ferrell, will present musical numbers. The program committee plans to have a special speaker for the occasion.

At a recent meeting Mrs. Ferrell and William Sewell presented a musical program.

Mr. and Mrs. T. A. Turner left Wednesday for Oklahoma City to visit their son Joe, who is in a hospital there. They will also visit their daughter, Mrs. Harry Nelson.

Mrs. J. W. Chenoweth is still in Dallas with Mr. Chenoweth and reports that he is improving as much as can be expected. He may be able to return home in ten days or two weeks.

Decorative Glass Streamlines Modern Room

Glass blocks around a fireplace surmounted by a mirror add sparkle to large, modern living rooms.

"WHETHER you're planning to build or remodel, you'll be interested in the new ways glass can bring beauty into your home," says Betty Swan in an article in Capper's Farmer, a leading farm magazine.

"Glass blocks and decorative flat glass, now so popular, may be used to streamline any room," she de-

clares.

"As windows, doors, partitions or partial screens they are practical as well as ornamental. They let in light from outdoors, or another room but cannot be seen through readily. They are easy to clean.

"Used as a semipartition or in archways, glass blocks give a modern touch and reflect light."

Vaccinate For Pox, 'Laryngo'
Each fall and winter fowl pox and fowl laryngotracheitis break out on numberless poultry farms in the U. S., causing extensive losses in egg production and some deaths. This damage occurs in spite of the fact that pox and 'laryngo' are two poultry diseases for which there are positive methods of prevention.

Effective Prevention
Once one of the diseases breaks out on a particular farm or area, it is likely to occur again about the same time the following year unless birds are protected by vaccination. On farms where either of the diseases is known to be a threat, there is little excuse for running the risk of an outbreak—for vaccination is not only an effective preventive method but a cheap one.

The proper time to vaccinate is when birds are between six and twelve weeks of age. In some areas poultry raisers vaccinate at even earlier ages. Early vaccination gives the flock plenty of time to establish immunity before laying age and before the period of danger when the disease threat is at its height.

Flocks which have reached laying age without being immunized, may be vaccinated for fowl pox with pigeon pox vaccine, which induces a milder reaction and sets up temporary immunity. Chief advantage gained from using pigeon pox is that it does not have the marked effect on egg production that results when fowl pox vaccine is used. Usually the temporary pigeon pox immunity is enough to tide birds over the critical period when an outbreak is threatening.

How to Vaccinate
Pox vaccinations may be accomplished by one of two methods. In the "feather follicle" method, a number of feathers are plucked from the bird's leg and the vaccine is applied to the open follicles. In the wing-web or "stab" method, a double-prong needle dipped in vaccine is punched through the skin of the web of the wing. Laryngotracheitis vaccinations are performed by the "feather follicle" method and also by the "vent" method in which vaccine is applied to the upper part of the vent.

MARKET NEWS

As of July 14
Most southwest farm products found fully steady to strong markets last week, but many fruits and vegetables and a few livestock sold lower, according to the Production and Marketing Administration, U. S. Department of Agriculture.

After early-week declines, spot cotton scored sharp advances following the July 7 acreage report, and netted gains of \$8.50 to \$11.00 per bale. Medium and higher grades found strong demand in light trade. Texas crops made good growth.

Grain markets developed generally strong tendencies last week. Sorghum prices soared again, gaining 60 cents per hundred, as South Texas movement reached full volume, and the July 10 crop report indicated smallest production since 1939. Corn netted little change, for cash premium reductions offset future market rises. An average crop of 2.6 billion bushels is forecast—675 million less than last year.

Butcher hogs and sows sold 50 cents to \$1.75 higher at southwest markets last week, while stocker and feeder pigs dropped mostly \$1 to \$2. Good and choice barrows and gilts topped at \$25 at San Antonio, \$25.50 at Fort Worth, \$26.75 at Oklahoma City, \$26.35 at Wichita, and \$26.25 at Denver.

Only minor weak spots marred a generally advancing cattle market last week. Houston paid \$25 for choice club yearlings, and \$14 to \$20 for common to medium steers and yearlings. San Antonio bought average medium to low good grass steers at \$24, and common to medium steers at \$16 to \$22. Medium to good steers and yearlings brought \$18 to \$24.75 at Fort Worth, and \$20 to \$23 at Wichita. Good fed yearlings drew \$26.50 at Oklahoma City, and steers mostly \$23.50 to \$27.50 at Denver.

By-Products From Sheep
Not only wool but meat, cheese and skins are valuable products of the sheep. Before men learned to shear their animals and convert the fiber into cloth, sheep pelts were used as protection against the weather. Even today, sheepskin is extensively employed as a lining for heavy coats, cold weather boots, rugs and sport coats. In Australia secret processes recently have been developed which are said to give short fiber sheepskins the appearance of superior animal fur.

Mr. and Mrs. V. A. Eblen and Mrs. Hartman and daughter have gone to visit relatives in San Angelo.

Miss Gwendolyn Hanna has been home on a visit and had Miss Ann Boyer of Anson for her house guest.

Mrs. W. D. White of Avoca is visiting her daughter, Mrs. G. W. Smith.

Mr. Vic Payne and his grandson, Vic III, are fishing near Abilene.

FAMILY PROBLEM — Edgar Stehli, veteran Broadway and radio actor, has the lead in "Gramps," NBC summer show. He's cast as an innocent troublemaker who has come to live with his daughter, her husband and their children.

POSEY ITEMS
R. L. BOYD

The Summer Revival will start August 3rd and last for a week. Rev. Bill Fleming will do the preaching with Rev. Ray Cox the pastor as assistant.

Mr. and Mrs. W. M. Cox returned from a vacation trip to Colorado where they purchased a farm.

William T. Gentry recently visited his son at Lakeview, Floyd county.

Mr. and Mrs. C. E. Birdwell visited relatives at Levelland Sunday.

Last week's light rain, which was heavier northwest, was needed.

Mrs. Fred Stolle has been in Dora, N. M., for several days with the August Stolle family.

Betty Ross Maeker of Lubbock visited the home folks Sunday.

Mrs. Jesse Jones entered a Slaton hospital Tuesday morning.

Mr. and Mrs. John T. Fullingim of Petersburg visited Mrs. A. J. Boyd Sunday afternoon. They reported having finished a large wheat harvest.

Mr. Gus Vivial of Schulenburg has been spending several days here visiting relatives. He is a former resident.

Claiborne Jones is now employed by an oil concern in Lubbock.

The W. M. Cox family visited relatives in Lamesa Sunday.

Some cotton is now being dusted for flea hoppers.

Mrs. M. P. Gentry was not so well the first of the week.

Mrs. J. R. Keeling of Lancaster, Calif. is visiting her sister, Mrs. W. S. Stevenson.

Mrs. G. H. Sargent spent last week in Ruidoso, N. M., with her three sisters from Colorado City, Texas.

Mr. and Mrs. J. D. Sargent left Monday for a two weeks' vacation in New Mexico and Colorado. Mr. Sargent expects to get in some good fishing.

Mr. and Mrs. L. M. Conner spent the week-end in Hobbs, N. M. with Mr. Conner's brother.

Mr. and Mrs. Charles W. Austin of Orange are visiting his parents, Mr. and Mrs. Charlie Austin, and other relatives.

Mr. and Mrs. B. C. Goodwin and daughter moved Monday to Seagraves where Mr. and Mrs. Goodwin will teach next year.

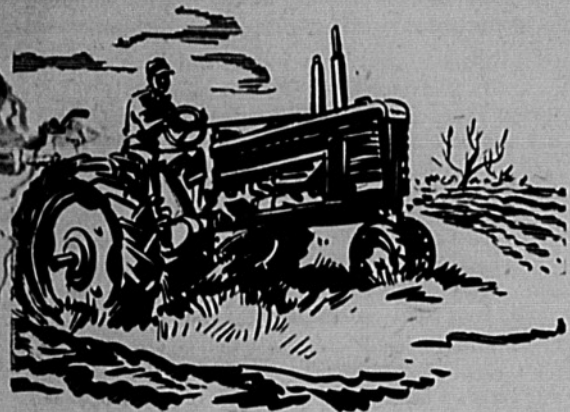

Mr. and Mrs. Alvis Bilbrey and daughter of Abernathy visited Mrs. Minnie Smith over the week-end.

Miss Mirnie Lee McMurray and Miss Ruby Lee Waller, former Slaton teachers, visited here last Friday.

Mr. and Mrs. H. H. White went to Hereford for a week-end visit with a sister, Mrs. Ralph Smith.

Mr. and Mrs. R. H. Todd left Monday for Pine Lodge, N. M. on a vacation.

OUR WHEAT CROP COMES OF AGE

A QUARTER CENTURY OF PROGRESS

About 25 years ago, wheat came into its own in the territory we serve. Last year alone wheat farmers here harvested about 40 million bushels of high protein wheat... in fact almost four-fifths of that produced in Texas is grown in our area.

Today, good bread from our wheat helps keep a healthy America healthy.

We have so much confidence in the wheat industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and farms and better living—electrically—to everyone!

Tree Damage by Beavers
The beaver is a true resident of the forest, sometimes to the regret of foresters. In the big spruce bog section of north central Minnesota these animals are entering into direct competition with forest production. Many black spruce stands, merchantable for pulpwood and Christmas tree areas, are being flooded and killed by the beavers occupying the drainage ditches in that area. Prior to draining the bog area, there were very few beaver because natural waterways and suitable food were not available.

Too fine grinding of seed wastes both feed and power. Coarsely ground grain and chopped roughage is more palatable.

BANK'S OFFICIAL STATEMENT

There isn't a member of the family, from grandpa down to the youngest tot, who can fail to enjoy "Little Mister Jim," new M-G-M offering featuring "Butch" Jenkins on the Palace screen Sunday and Monday.

Here is the story of an eight-year-old boy brought up on an Army post, adoring his understanding young parents, guided in his childhood decisions by a wise Chinese houseman, getting embroiled in such familiar childhood incidents as a birthday party in which the guests are more or less "blackmailed" into bringing presents; learning to ride his first bicycle; turning his nose up at "girl stuff."

Young "Butch" is a master at this type of youthful "human comedy," and can always guarantee to bring forth a laugh at the right moment. It is when the story takes a serious turn, however; when the youngster's mother dies and his father attempts to drown his grief in drink, that the real talents of this juvenile acting wizard make themselves manifest and he offers a portrayal of a boy forced to face tragedy at an early age that would be the envy of many an adult screen star.

The latter portions of the always moving narrative of "Little Mister Jim" revolve about the attempts of the determined ladies of the Army post to find a new mother for the bereaved child. They meet their match in little Jim's courage and steadfastness, and in the end the boy and his father find a way to start their life afresh on equal terms.

Together with Jenkins' stellar performance, the cast of this heartwarming photoplay features James Craig and Frances Gifford as the boys' parents; Chingwah Lee as the faithful Chinese houseman; tiny Luana Patten as the girl "Butch" promises to marry in twenty years, Spring Byington and the well-remembered film star, Laura La Plante, as a sympathetic friend of the family. It's a fine cast in a fine picture that will bring both tears and laughs to every onlooker.

With a final payment to the U. S. Treasury recently from the St. Paul Land Bank, all of the 12 land banks in the U. S. became completely owned by the farmer and ranchmen patrons.

U. S. imports of honey are three times as large thus far in 1947 as compared with a year ago. Cuba, Canada and Chili are the leading exporters.

At present prices of cotton and cottonseed, no grower can afford to lose the one bale out of seven which insects normally steal.

From where I sit... by Joe Marsh

Sam Helps with the Dishwashing

Dropped in at the Abernathy's at the other evening—and there Sam, out in the kitchen with an iron on, helping his missus wash a supper dishes. (And then I learned later he'd helped cook the supper, too.)

Of course, Sam could have setted into his favorite chair, enjoyed his evening glass of beer, and left all the messy kitchenwork to Dixie. But he kind of likes her company—and she in turn certainly appreciates his help.

In fact, sharing the housework and the mealtime chores is sort of a bond between them... like sharing that friendly glass of beer together, when the work is done. It's one of those little all-important things in marriage.

From where I sit, the time that a man and wife can spend with each other in this busy world today is all too precious. And the more things they can do together, the better.

Joe Marsh

Many People Repair Homes In Summer

Now that the summer days are here many people are taking advantage of the dry weather and are putting on new roofs and getting ready for the cold winter by insulating and gutting the home.

Almost all types of roofing material is carried by the Texas Roofing Company, Lubbock, and they are bonded and insured to repair and build roofs "That Last."

If your home is hot and stuffy these summer days or if it is hard to heat in the winter, Texas Roofing Company has the answer in insulation which will make your home cooler in summer and warmer in winter.

Now is the time to take care of that gutter problem. Water not properly carried away will damage the foundation and cause floor and wall troubles.

See Texas Roofing Company for estimates and let them take care of your problems.

SLATON PHARMACY

How Mr. Parker gets good telephone service

Mr. Parker just got the telephone and his family have been waiting for. He wanted an individual line because the Parkers do a lot of telephoning. But no individual lines were available because of shortages, so he took a party line instead.

Now Mr. Parker is wondering... "A party line... hum-m-m... what kind of service...?"

Party-line service is good service. It's simply a service you share with neighbors and they share with you. Of course, you can't call while someone else is using the line, but on the other hand, no

one else can call while you're using it, either—so it's "even Stephen!"

Party-line service is best when conversations are kept reasonably short so everyone has a chance to call—or be called. A little thoughtfulness of the other fellow, a little practice of the golden rule do wonders on a party line.

One of these days, when we've provided service for everyone waiting and there's enough equipment, we'll be around with those individual lines Mr. Parker and hundreds of other folks would like to have.

The Colorado Record reports that one of their citizens by the name of Rance Dockery claims to have seen a flying disc going over his garage at 1500 miles per hour and roosting on top of the disc was a Rhode Island Red rooster with blue eyes. A neighbor, Grover Buchanan, saw the same flying saucer but it was going at only 1400 m.p.h. and the rooster had brown eyes.

When I told Dr. McSween about the rooster he said that he saw a whole set of flying saucers last Monday night when he was making a late call and that one was holding a nice tall glass of ice tea, another a big ham sandwich and the third a lettuce and tomato salad with mayonnaise dressing on it. He explained that it was a moonlight night and that he could see the saucers very easily, in fact he could practically taste the stuff that was on them. The sight so impressed him that he went home and fixed himself a snack of ice tea, ham sandwiches and salad.

Another Slaton citizen, says that flying saucers are nothing new to him, he has been hit by a number of them going at somewhere between 1500 and 2000 mph. He said his wife is very accurate with them although she has slowed on her speed lately and he does not believe any of his saucers have been seen way up in the Eastern states.

Mrs. Lee Wootton, Mrs. Doc Crow, Mrs. Leonard Harral and the Mayor have spent considerable time trying to catch glimpses of the flying saucers and all of them have reported specks before their eyes after having looked at the setting sun for considerable time but the nearest thing to a flying saucer so far reported by any local saucer looker except Doctor McSween, has been a roman candle shot that some boy exploded on the 4th of July. The watch is still on and if a flying saucer gets by the above mentioned watchers it will have to exceed 1500 mph.

Two or three magazines have had articles lately on sun tan and sun burn and while I have not run across any sun bathers sitting around in the poses as shown by the magazines I am on the hunt

for them. I did see some of the queerest looking sights I have ever had the privilege of gasping at when Doc Crow, Dick Ragsdale, Don Crow and I went to Possum Kingdom Dam over the 4th of July.

With the luscious magazine figures in mind I went to the bathing beach on the Dam and found a big fat grandmother wearing spectacles and shorts. She glared at me and every one else and never went near the water. A cross eyed woman with a shape like a potato masher sat around on the beach and dribbled one toe in the water and one big fat guy looked like

an elephants egg, was running around in a pair of knee length bright colored pajamas and I felt real ashamed of him and the grandma who was wearing so little, but nary a magazine model did I see. What I started out to say is that the magazine experts say there is no health value at all in getting sun tanned or sun burned and for a person who is as thin-skinned as I am I am sure it is harmful for I get as red as a spanked baby, so I smeared my face with some sun tan cream when I went to Possum Kingdom, but I had no confidence in the stuff at all. It is a white looking stuff that scared everybody who saw me and almost frightened me into a faint when I looked into the mirror the first day, but after I had been there a couple of days all of the other fishermen got used to me and let me go by without picking up big sticks and shaking them at me. My advice to every one who blisters easily is to get some of the stuff. It really does protect against the sun but you'll have to get used to people gasping when they see you.

Slaton is a good town, and getting better all the time but we do need to have more civic interest, we need to have some kind of activities that would require the cooperation of every citizen in the town. Personally I do not care for rodeos but a lot of folks in West

Texas and all over the nation get a big kick out of a rodeo and whether it brings in any great amount of money or not it does provide an activity for a town that gets folks working together for a common cause. Outside of the Chamber of Commerce Slaton has no organization that is interested in any way in the general up-building of the town and it seems to me that a town Hall night would be a good thing. Why not let a few of the old time bellyachers come out and express themselves. Personally I am like Dr. Payne who says that he likes to hear both sides of a question even if he often believes there is only one side. A lot of young fellows have come back from the Services and should be encouraged to take active part in the work of planning the future of the town.

What progress that has been made is because of pure accident or through the efforts of individuals. This could be greatly increased by the concerted effort of most of the people in Slaton. Other towns in this area are not as fortunate as Slaton is in being the Division point of a Railroad like the Santa Fe. Slaton is inclined to be satisfied with things as they are. This seems to me to be a bad idea for some day we will have to outgrow our dependence on the Railroad and have some other activities to keep prosperity here. A number of new enterprises

have been started in Slaton in the last year and they have put new life in the business activity of the town, it is nice to have them, but there will likely be some wide expansion of manufacturing in the near future, Slaton could attract one or more of these activities if the right efforts were made or if the home people could get together and organize a Company that would manufacture some article. Many towns over the nation have taken over war plants and gone into the manufacture of some kind of products. The home town folks bought the stock and provided good jobs for folks who made the towns bigger and better. Would it be possible for Slaton to do such things? It seems to me that it would, for here are plenty of signs

that we do have the right spirit if only it could be awakened and led by the right group of men.

Old Tack in the Amarillo News Globe has been writing for the past two weeks about how to make any old cantaloupe taste better than a Rocky Ford, when it is at its prime. If you are a fancier of cantaloupe and his discovery works then the information should be worth a small fortune. I have a weakness for cantaloupe and have thrown away many a gourdy tasting cantaloupe in my time while my wife moaned and groaned about how much I had paid for them.

Old Tack says that he has tried the suggestion he made and that it really works. When you buy a 45c cantaloupe, if you can find

one that cheap, and it turns out very uninteresting to your palate, sprinkle some sugar on it and put it in the refrigerator over night. According to Tack, the next morning it will be as sweet as any cantaloupe could be.

Everything but the price tag says—
BIG-CAR QUALITY

You'll like that Big-Car styling!
 You'll like the long, low lines of the new Chevrolet. You'll like the look of massiveness and sturdiness. That big, beautiful Unisteel body is by Fisher, you know—the only Body by Fisher in the low-price field!

You'll like that Big-Car performance!
 You'll find it fun to drive a new Chevrolet. There's power and pep to spare in the only Valve-in-Head Engine that powers a popular-priced car. And Chevrolet's quiet, comfortable, road-hugging way of going is so restful—so relaxing!

You'll like these Big-Car features!
 Chevrolet's packed with features that give you Big-Car comfort and safety. Positive-Action Hydraulic Brakes, for example, with exclusive design features for safer, surer stops. Unitized Knee-Action, for instance, that adds stability and ease of steering, as well as riding comfort.

THIS—you'll love!
 But your greatest thrill will come when you find out that Chevrolet is the lowest-priced line in its field...and the line that costs less for gas, oil and upkeep. Chevrolet's the one car that gives you Big-Car Quality at Lowest Cost!

You'll like our service, too!

—for the way it keeps your car at its best all the year round. Drive in soon—and regularly.

Local Woman Has Collection Of Pitchers and Other Antiques

The lovers of collections of any kind are truly missing some real pleasure when they fail to see Mrs. W. L. Holloman's pitchers and antiques.

She has been collecting pitchers approximately ten years and now has more than three hundred. The largest one of her collection is of Hull pottery and is so large, approximately 2 1/2 feet tall, it sets on the floor. It was sent to a friend from Hot Springs, N. M. The smallest she received last week from a sister-in-law in Albuquerque, N. M. It is perfectly shaped although it is scarcely one-fourth inch high. It is of Indian pottery bought from an Indian trading post.

The oldest and most treasured is one of Bavarian china that is 112 years old. It was given to Mrs. Holloman by a 93 year old woman of Roswell, N. M., whose mother went to housekeeping with this pitcher.

She has one which was sent to her by her son's buddy from Japan during the war. Then there are three of heavy cut glass, several of handpainted china, others of Wedgewood, Fiesta, Roseville, and Mexican blown glass.

A more recent collection but no less valued is her antiques, which she has acquired during the past six years.

The oldest and most impressive is a brass wine set consisting of a stand, a cork screw, a bottle cap and cork, and an opener. The date molded into the stand base is 1588, and each piece has the replica of the old ship Avenger. While Lt. Col. Clifton Holloman, her brother-in-law, was stationed in England with the Air Corp in World War II, he sent this set to Mrs. Holloman from an English antique shop.

She classes an iridescent glass sugar bowl as her next treasured antique. It is more than 100 years old and was sent to Mrs. Holloman by a woman she has never seen.

Probably the most unusual antique is a large china platter made in England. It is about 2 1/2 feet long—large enough to hold a baked pig. This was given to Mrs. Holloman by Mrs. Yuzbick, who once lived in Slaton. This platter had been in Mrs. Yuzbick's family more than one hundred years.

Then there is a gold picture frame that has been in Mrs. Holloman's family over one hundred years, a cut glass butter bowl about eighty years old, and a hand painted pin tray that is a thing of beauty.

The average person may not care for pitchers, antiques, or any other collection for that matter, but Mrs. Holloman says she never sees a pitcher she does not want nor an antique she does not try to secure.

Approaching Marriage Revealed At Announcement Tea Sunday

The country home of Mrs. Joel Neugebauer on Gordon Road was the scene of a tea given Sunday afternoon to announce the approaching marriage of her daughter, Bernice Esther, to William Vernon Benton, son of Mr. and Mrs. W. Benton of Brownfield.

Guests were greeted at the door by Mrs. Clifford Young and Mrs. Walter Jochez and presented to the receiving line composed of Mrs. Neugebauer, the honoree, Mesdames W. Benton, Hu Rowden, Walter Benton, R. R. Benton, Don Melton, and Misses Virginia Saage, Mary May, Jo Ann Weber, and Marion Bain.

They were directed to the dining room by Mrs. Conroy Bain and Mrs. Douglas Wilson.

The table was laid with an imported linen cloth with delicate pink mulline draped at the sides and caught up at intervals with pink sweet peas tied with pink and white satin ribbons. The table was encircled with white ruffled net, and around the reflector was pink and white net with pink satin ribbon. The centerpiece was an arrangement of pink gladioli in an antique crystal bowl flanked on either side with crystal holders.

with white tapers. Mrs. Gordon Burrell and Mrs. B. A. Hanna poured punch and Miss Marion Bain and Mrs. Don Melton alternated from the receiving line to serve cakes.

Mrs. Charlie Walton directed guests to the register presided over by Mrs. D. Webber and Miss Vernie Lou Singleton.

Mrs. Joe Rhoads and Miss Molly Benton gave the guests pink net squares with rice tied in white satin ribbon with a card lettered in pink revealing the name and date, "Bernice and Vernon, July 26."

Mrs. Mildred Lokey offered piano selections during the calling hours 3:30 to 5:30 o'clock. One hundred and fifty guests called.

Flowers were used at vantage points in all the receiving rooms. Others assisting in hospitalities were Mesdames Walter Voight, H. Wiese, and Charles Lee.

The wedding will take place at 5:30 p. m., July 26, at the First Methodist Church in Slaton.

Attendants in Miss Neugebauer's wedding will be Misses Virginia Saage, Mary May, Marion Bain, Jo Ann Weber, and Mrs. Don Melton.

Lois Moudy and Lynn Murray Wed

Miss Lois Moudy, daughter of Mrs. Tommy Grison of Greenville, and Lynn O. Murray, son of Mr. and Mrs. M. L. Murray of Slaton, were married at 9 o'clock Saturday morning in the First Methodist Church in Lubbock, with Rev. H. I. Robinson reading the double ring ceremony.

The bride wore a blue suit with black accessories and a corsage of white carnations. Miss Katherine Moudy of Dallas, cousin of the bride, was maid of honor; Billy Avent of Slaton was best man.

The bride is a graduate of Greenville high school, attended Texas Technological College and

is at present employed at the Union Bus Terminal in Lubbock.

Mr. Murray graduated from Slaton high school and served in the armed services for a year being stationed at Leghorn, Italy. He is now studying agriculture in Texas Technological College.

After a wedding trip to New Mexico the couple will be at home at 1520 Seventeenth Street, Lubbock.

Relatives and friends attending the wedding were the bride's mother, Mrs. Tommy Grison; the bridegroom's parents and sister Juanita of Slaton; his grandparents, Mr. and Mrs. W. J. Hancock of Wilson; and Mr. and Mrs. J. S. Avent of Slaton.

Miss Dorothy Knight is spending her two weeks' vacation visiting relatives in Belzoni, Missouri.

WSCS Circle IV Holds Meeting

Circle IV of the WSCS of the Methodist Church met Monday at 4 p. m. with Mrs. Howard Hoffman, Mrs. Troy Pickens was co-hostess.

Mrs. Joe Walker, Jr., chairman, presided and presented the devotional, a poem by Grace Noll Crowell. Mrs. Max Arrants, publicity chairman, presented a program from the two Methodist magazines, the Methodist Woman and World Outlook.

Refreshments were served to fifteen members and two guests, Mrs. Cal Wright and Mrs. J. H. Brewer.

Miss Pratt Speaks To Slaton HD Club

Slaton Home Demonstration Club met Wednesday July 16, at 2:30 in the afternoon.

"Quick freezing retains flavor, color, texture and nutritive value of vegetables better than any other method of food preserving," Miss Clara Pratt, home demonstration agent told the members.

"The vegetables must be young and tender, be scalded, chilled and packed in salt water. Only enough vegetables to fill one carton should be scalded at one time," she stated.

Members present were Mesdames Douglas Wilson, T. E. McClanahan, E. E. Wilson, R. C. Hall, Carl Sartain, G. C. Wilson, and W. H. Long.

RAINBOW HOLDS MEETING

Slaton Assembly of Rainbow for Girls will hold its regular meeting at the Masonic Hall Saturday evening at 7:30.

At this time the results of the Sweetheart Contest will be announced.

Roland Rhodes, brother of Mrs. J. S. Edwards, Sr., suffered a heart attack Monday, July 7, and was taken to Mercy Hospital. He was able to return home, July 14.

Mrs. W. J. Byler visited relatives in Brownwood the past week-end.

PONCHO TAKES TO THE BEACH

Joan Tighe of NBC's Grand Marquee dramas models an ensemble designed by Hollywood's Edith Head for Catalina. In an aquarium print of grey and yellow, this poncho coat is simply two straight pieces of fabric, the front of which ties securely at the waist. It tops a matching two-piece print bathing suit. It's a feature of the Chicago Fashion Industries.

Meeting Held By Bluebonnet Club

The Bluebonnet Club met Wednesday, July 9, with Mrs. A. L. Clifton. There were fifteen members present and one guest, Mrs. C. S. Wilkerson.

Roll call was answered with an item of science. A picnic was planned for members and their families to be held August 14 on Mrs. Mrs. Carl Evans' lawn.

Next regular meeting will be held September 10.

Pressure Saucepan Saves Time and Fuel

In a comparatively short time the pressure saucepan has won an assured place in farm kitchens, according to Laura Dalley, in an article in Capper's Farmer, one of the best known farm magazines.

It saves time and fuel. Many different foods may be prepared in a pressure saucepan. It is particularly good for those which need long cooking. "Pressure cooking," Miss

Dalley says, "preserves food value, color and flavor."

A few rules of operation are important:

- 1.—Never fill the pan more than two-thirds full.
 - 2.—Be sure that steam flows steadily from vent before you close it.
 - 3.—Wait until weight or pressure control jiggles or hisses or cooking indicator is at right position according to your directions before you start counting time. Then reduce the heat and let cook for specified time.
 - 4.—Reduce the pressure as each recipe indicates.
 - 5.—After pressure is reduced, be certain to remove the weight, or lift the pressure control, before removing cover.
- Some farm women are doing a limited amount of canning in their pressure sauce pans, Miss Dalley points out.

TO HOLD COUNTY REUNION

The old pioneer settlers of Knox County will meet on August 10, 1947, in the MacKenzie State Park at Lubbock, to celebrate their annual reunion. All are invited to attend and bring a basket lunch.

Band music, speaking and singing will be on the program.

PUPILS TO GIVE RECITAL

Miss Elizabeth Bostick is presenting her summer pupils in piano and voice recital at the Club House Friday evening, July 18, at 8:00 p. m.

The public is invited to attend.

Mrs. Henry Eklson underwent major surgery at Mercy Hospital, Wednesday, July 9. Monday she was doing nicely but when she can return home was still uncertain.

Mr. and Mrs. W. R. Wilson and her guest, Mrs. Nell Lichtenberg of Three Rivers, Texas, and Mrs. T. S. McClanahan visited Carlsbad Caverns this week.

Smith-Jones Rites Read July 11

On Friday, July 11, at 6 p. m. De Etta Smith, daughter of Mr. and Mrs. W. E. Pohl, and Bobby Lee Jones, son of Mr. and Mrs. B. R. Jones were united in marriage in the home of the bride with Rev. Cal C. Wright, pastor of the Methodist Church, officiating.

Before the single ring ceremony, which was performed in front of a huge ring of pink gladioli, Phyllis Leach, accompanied by Mrs. E. A. Ivey, sang "Because."

The bride wore a white linen dress and carried a bouquet of white gardenias. Phyllis Hunter was maid of honor and her son was best man.

Following the ceremony a reception was held for the bridal party and wedding guests. After the bride and groom had cut the wedding cake, Phyllis Leach and Phyllis Hunter presided at the table.

Only a few friends and relatives were present. The couple are at home at 715 South Tenth.

Mrs. Allen Ferrell visited recently with her brother, Mr. Homer Roper, and family of Amarillo.

Fred and John Schmidt have been visiting their aunt and uncle, Mr. and Mrs. N. G. DeLaney of San Angelo.

Mrs. Jennie Taylor of Galveston is visiting her daughter, Mrs. M. L. Taylor and family.

Mr. and Mrs. B. A. Glass and children of Marlow, Oklahoma, are visiting Mr. and Mrs. Joe Teague, Jr. Mr. Glass is Mrs. Teague's niece.

Stop Shelves Save Space in Cupboards

"PROBLEM CUPBOARDS" with deep shelves are wasteful of space," writes Rose S. Flores, in nationally-circulated Capper's Farmer.
 "A section of step shelves or narrow straight shelves between wide ones gives more space," she writes in the magazine read by 1,300,000 farm families. "Little stacking is necessary. Such shelves use the space between articles on a shelf and the shelf above. They are easily constructed to fit any cabinet and can be made from scrap lumber."
Making Toy Shelves
 An old set of bookshelves painted to harmonize with the surroundings makes a convenient place for children to store toys, according to the Rural Home editor of nationally-circulated Capper's Farmer. The playthings are kept in better condition than if thrown hither-and-thither in a box.
 Mrs. Bill Cates of Tulsa, Okla., and her daughter, Mrs. Tommy Davis of Lubbock visited with Slaton friends Wednesday.

Ice Box Raids Sure With Fruit Punch Handy

You can be sure that the refrigerator and cookie jar will get raided often if you keep frosty fruit punch and crunchy cookies on tap, according to the Country Cooking editor of nationally-circulated Capper's Farmer.
 Here is her recipe for a tangy, thirst-quenching fruit punch:
MINTED ADE
 1/4 c. light corn syrup
 1/4 c. water
 8 sticks fresh mint
 2 tbsp. lemon juice
 2 1/2 c. grapefruit juice
 1 c. ginger ale
 Boil corn syrup and water together for three minutes. Remove tips from mint stalks and crush the stalks in the hot sirup. Add tips and let stand for 30 minutes; strain. Add lemon juice and grapefruit juice; chill thoroughly. Pour over ice in tall glasses. Add ginger ale just before serving. Garnish with mint. Serves six.

Mr. and Mrs. Nat Heaton have had as their house guests Mr. and Mrs. Tom D. Rowell and children of Tulsa, Oklahoma, and Mr. and Mrs. E. B. Keese of Stamford. Mrs. Rowell and Mr. Keese are sister and brother of Mrs. Heaton.

Benny Vandergriff of Albuquerque, N. M., visited his uncle and wife, Mr. and Mrs. B. M. Hopkins over the week-end. He then went on to Dallas on his vacation.

Making Cakes Smooth
 Housewives who like to have their cakes look smooth and neat around the edges after frosting should cut a piece of fairly heavy paper just a bit larger than the cake plate, then cut the paper into quarters. Place the paper under the cake and apply frosting. After the frosting has "set," the paper should be removed and the cake plate will be free from drippings.

Tree Farmer's Need
 A tree farmer needs about 25 acres of growing timber to produce an average annual revenue equal to what one acre will produce in such crops as wheat or corn. But trees may be profitably grown on land unsuited to grains or other food produce and once a tree farm is in growth it will bear perpetually with nature doing the work of planting.

Mr. and Mrs. O. D. Smart of Pampa visited with her sister, Mrs. B. M. Hopkins, and husband.

"You've bet our money on a horse with varicose veins stupid!"

Synthetic Goods Crowding Cotton

The production of synthetic fibers, as opposed to the "natural" fibers—cotton, wool, mohair, silk and flax—is showing a big increase.

Up until around 1935, according

which shows on the blossom end of the tomato. If harvested when this pink sign shows up, and placed inside in a cool, shady spot, the fruit ripen in two to four days, ready to be used fresh or for canning. Tomatoes handled in this manner seem to ripen better on the inside than when left on the plant to mature, the horticulturists say.

Early harvesting is a good practice with many other fruits, especially peaches and figs, which attract birds when they begin to take on color. Ripening in the house can prevent a good part of this bird damage.

to USDA Southern Regional Research Laboratory at New Orleans. rayon was manufactured fiber in commercial production in the United States. It is made of cellulose. After a couple of false starts rayon production got under way in 1911 and has increased so rapidly that today it runs second only to cotton as a textile fiber. Production is still climbing: 482 million in 1946.

Before 1940 the consumption of synthetic fibers other than rayon was very small, and even in 1940 totaled only 4.5 million pounds; by 1946 the figure had increased to 53.3 million pounds and outranked silk and flax.

Some of the man-made fibers that are coming up fast in the synthetic field are:

Glass fiber; commercial production began in 1936 but the output was very limited during the first three or four years.

Vinyon, a fiber made of synthetic

Local Boy Accepted At Medical College

Mr. and Mrs. J. D. Holt received a wire last week from their son William stating that he has been notified by Dean Baily Galving of the University of Texas Medical Department in Galveston that he has been accepted as a student for the Medical course.

As there are only a very limited number of students who are allowed to receive medical instructions at the University of Texas, this is a very high honor as the applicants are given very severe tests in many ways.

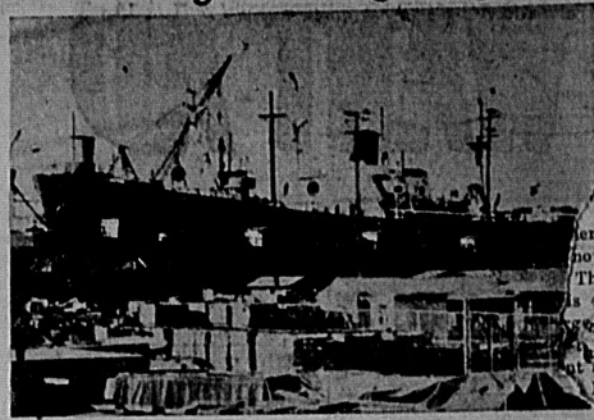

Acrylic resin, first made in 1938. Production is still small.

Nylon; commercial production began in 1939, after a short period of experimental operations.

Aralac and saran, casein fibers, were introduced commercially around 1940.

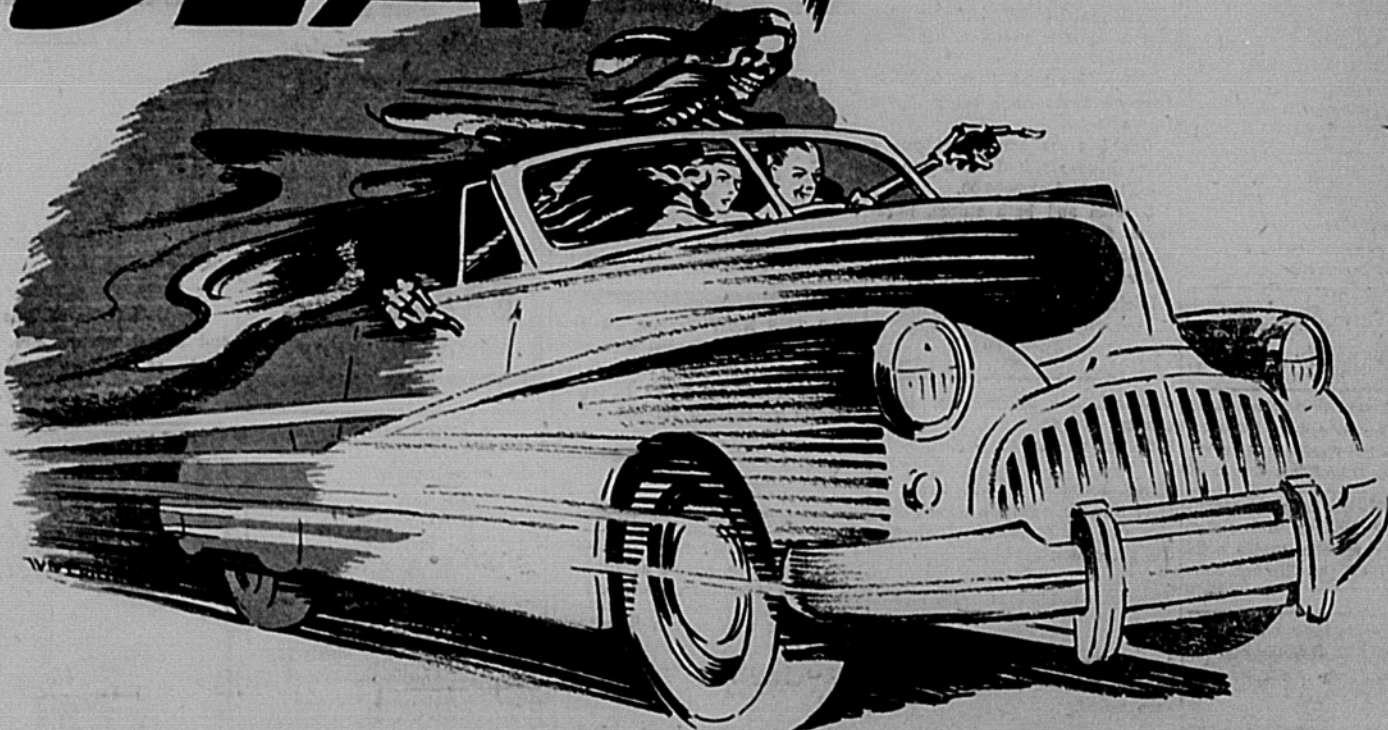

And a synthetic fiber made of soybeans is coming up.

Making the Shortage Longer

SAN PEDRO, CALIF.—(Soundphoto)—Shown above, the Russian tanker "Maikop" is one of the Russian fleet here to load thousands of barrels of oil and gasoline for delivery in Russia at a time when the United States is facing vital shortage of petroleum products. The vessel is a lend-lease tanker and being overhauled at the local yard is almost ready to load. The number of barrels and type of cargo awaits the usual last-minute orders from the Russians.

DEATH

RIDES WITH THE RECKLESS

One-fourth of all fatal accidents on the highways of our country and in the streets of our cities and towns are caused by speed. Reckless drivers—disregarding all the laws of traffic safety and common sense, urging onward automobiles catapulted by the power of a hundred horses—these were the prime killers in 1946.

Last year 33,500 persons—drivers, riders and pedestrians—died in automobile accidents. That's about one death every fifteen minutes. More than a million were injured, many of them maimed or crippled for life. This year the toll will be even greater, approaching an all-time high of 40,000 deaths—unless you, Mr. and Mrs. Driver, call off this daily rendezvous with Death.

You can do your part to help stop this highway slaughter by personally striving for an accident-free record. Drive carefully at all times. Be considerate of other drivers and pedestrians. Gauge your speed to highway conditions and traffic requirements.

Don't let Death hang over your shoulder and point the way to the morgue. Drive safely—and live!

This advertisement is presented in the public interest by the President's Highway Safety Conference and the daily and weekly newspapers of the nation through their Press and Publisher Associations.

Pick Tomatoes Early Is Advised

Early harvesting of tomatoes maturing in the home garden now is insurance against sun blisters, say Extension horticulturists of Texas A. and M. College.

Many gardeners, the horticulturists say, are harvesting sun blistered, low quality tomatoes now because they are leaving the vegetables on the vine to ripen. Early harvesting is especially wise when tomatoes have been staked and pruned, leaving much of the fruit exposed directly to the sun's rays.

Growers have found that a faithful harvest sign to keep an eye out for is the small pink area

On To Las Vegas

LAS VEGAS, NEV.—Disabled American Veterans officials lead the caravan to the old west as they plan 28th national DAV convention scheduled here August 17 through 23. National Commander Lloyd F. Oleson (left) and National Adjutant Vivian D. Corby announced delegates from more than 1300 Chapters are expected to plan year's program for four million wartime disabled veterans.

Rail oddities

MEN AND WOMEN OF THE ARMED SERVICES SAVED OVER \$400,000,000 IN TRAVELING AT THE REDUCED FURLOUGH FARE OF 14 CENTS A MILE—ESTABLISHED VOLUNTARILY BY THE AMERICAN RAILROADS THROUGHOUT THE WAR.

IN THE PAST 25 YEARS THE COST OF A STEAM LOCOMOTIVE HAS GONE UP FROM ABOUT \$50,000 TO ABOUT \$250,000 AND SOME OF TODAY'S BIG DIESEL LOCOMOTIVES COST AS MUCH AS \$600,000 EACH.

Water or Electricity
Prompt cooling of milk during hot weather is essential if losses are to be avoided. There should be four times as much cold water as milk available for this purpose, unless electrical refrigeration is utilized. Water cools milk many times faster than air at the same temperature. When an overflow pipe leads from the milk house to the water trough the surplus may be used without loss. If electricity is available it should be used to cool the water.

Electric Driven Tractor
Electrically driven tractors have been tried out successfully in Russia, according to reports from the Moscow Institute of Mechanization. The tractor is mounted on a standard Stalingrad or Kharkov chassis and is powered by a 54 horsepower electric motor. Electricity to operate the motor is carried by cable from portable generating sub-station which can be moved to convenient locations on the farm.

THIS WEEK'S LESSON

"Life" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 20.

The Golden Text is: "The Lord is the portion of mine inheritance and of my cup: thou maintainest my lot . . . Thou wilt shew me the path of life" (Psalms 16:5,11).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Yet the Lord will command his lovingkindness in the daytime, and in the night his song shall be with me, and my prayer unto the God of my life" (Psalms 42:8).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We all must learn that Life is God" (page 496).

Mary Ann Cudd left Tuesday night to spend the remainder of the week in Snyder visiting friends.

Mr. and Mrs. Mrs. H. M. Englund left today for Roswell, N. M. Saturday they will go on to Ruidoso for a reunion of San Souci, Tech social club.

Chief Topics

Mrs. M. J. Carter is working temporarily in the master mechanics office in place of her husband who is acting chief clerk.

Mr. G. H. Scroggins is filling the position of AAR clerk while H. Tunnel is away on vacation, and F. S. Martin is filling Mr. Scroggins position.

The following mechanical department employees are absent from duty on vacations: D. Hodge, H. H. White, L. D. Splawn, J. S. Waldrep, G. M. Pickett, J. H. Treat, W. D. Cooper, W. L. Jobe, J. L. Phillips, H. M. Crumbley, M. C. Eakin and C. E. Smith.

J. E. Donaldson and A. G. Howard have been employed in the car department to assist during the wheat rush.

Engineer W. F. Martin had the misfortune to break his hip recently while working with a team of mules on his ranch near Stephenville.

Locomotive engineers A. A. Russell and E. L. Norris have gone to San Angelo to work as engineers out of that point.

Did you know that Franklin D. Roosevelt traveled 243,827 miles on railroads during the twelve years and one month he was in office?

Did you know at the beginning of 1946 there were 46,253 railroad locomotives in the United States of which 41,081 were operated by steam, 885 by electricity, 41 by gasoline and 4301 by Diesel-electric power?

Did you know that for a round trip of one night in each direction, the linen stock of a pullman car is about 500 pieces, made up of 160 sheets, 10 pillow cases, 200 towels, 5 porter's coats, and 6 laundry bags? In addition there are two pillows and two blankets for each berth.

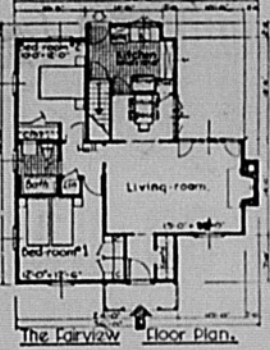

Fuel-Injecting Device
Automotive engineers are seeking to replace the carburetor on motor vehicle engines with fuel-injecting devices which use a wide variety of fuels, eliminating knocking.

Not All Sell Tobacco
There are estimated to be about 50,000 auctions, United States. Most states require that they be licensed.

Lightning kills about 100 people in the United States every year.

THE GUEST RETURNS — In the few months that he has been in America, Ferruccio Tagliavini has become a leading attraction in opera and concert throughout the country. The Italian tenor will return as soloist on NBC's "Telephone Hour" May 19.

LAFF-A-DAY

"I think my dad would like me to marry you—'cause he said he wished you were his son for just one day!"

Mr. and Mrs. Sam Gentry of Denton and Mr. and Mrs. Lee Gentry of Ft. Worth visited Mr. and Mrs. Gilbert Self and other relatives last week.

Miss Virginia Stringer is visiting relatives in Kilgore this week.

Mr. and Mrs. Lloyd Suit of Sinton, Texas, have been visiting Mr. and Mrs. A. D. Adams.

Mrs. I. C. Hartman and daughter, Mary Ruth, of Dallas have been visiting her sister, Mrs. V. A. Eblen and other relatives.

**SOUTHLAND
MRS. FLOY KING**

The Church of Christ meeting begins Wednesday, July 16, and runs two weeks. Dean Brookshire of Carlsbad, N. M., will do the preaching and Arrants of Lubbock will direct the singing.

Mr. and Mrs. Oscar Dial and sons Oval and Johnny of Delano, Calif., visited the Roy Williams last week.

Mr. R. O. Rankin left Saturday for Gorman to bring Mrs. Rankin and Roello home. They have spent several days there visiting and also doing some canning.

Visiting Mrs. Samples Friday was her brother and his wife, Mr. and Mrs. F. L. Hollman of Cleveland, Texas.

Mrs. Bobbie Coe of Syracuse, N. Y., is here visiting her mother, Mrs. G. W. Davis, and other relatives.

Mr. Ethel Barber is visiting her brother, G. W. Davis, Jr., and family in Carlsbad, N. M.

Mr. and Mrs. Glenn Smallwood spent the week-end with their daughter Dorothy Sue of Midland. Mr. and Mrs. Roy Williams and children, Mr. and Mrs. Herbert Dunn and children all visited the Royce Loveless family of Cooper Thursday night.

Mr. and Mrs. D. D. Pennell and children have returned from Oklahoma where they spent a few days with his mother and brother.

Lavonne Ferguson spent the latter part of the week with her grandparents in Post.

Mr. and Mrs. Lee Leflar of Phoenix, Arizona, spent last week here with her parents the Harry Kings. The Leflars had been visiting his sister in Detroit, Mich., and while there went to London, Canada, and other places before returning here.

Mr. and Mrs. Troy Moore and

son from Greenville are visiting the Quisenberrys and the J. B. Roberson families.

Funeral services were held in Lubbock Sunday afternoon for Will Hollers, 62, former resident of Southland, who died Tuesday in Lakeview, Ore., of injuries suffered July 1 when a team ran away and he was thrown from a hay. Rev. O. J. Harmonson; burial was rite. Services were conducted by in Lubbock cemetery.

Survivors include his wife and three sons, Billie Wayne, J. N. and Donald Ray, and one daughter, Lila Pearl, all of 1801 Ave. D, Lubbock; another daughter, Mrs. Cecil Partlett, of Littlefield; a brother, Luther Hollers, of Meadow; two other brothers and sisters who do not live in this vicinity; and three grandchildren of Littlefield.

Mrs. Dora Emma Basinger, 75, died at her home here at 9:10 a. m. Saturday. She had lived here about

30 years and had been helpless for almost three years from a stroke. Her husband a well-known merchant and land owner, died two

years ago. Funeral services for Mrs. Basinger were held Sunday. PENS \$1.50 at the Slatonite

In High-diving or Gasoline . . .

IT'S Control THAT COUNTS!

**Phillips 66 is CONTROLLED*
For Uniform,
All-Season Performance!**

Executing a perfect swan-dive like this from a 15-foot board takes *some* control! And it takes plenty of *control* to give you a gasoline as well-suited to all-season driving as Phillips 66!

Phillips does it by the careful selective blending of high-quality gasoline components. The result is a gasoline designed to give smooth performance every season of the year.

Try "controlled" gasoline in your car. Get it at your Phillips 66 Dealer! See the difference for yourself.

THE "AVEN" CROP DUSTER

**Will Help You,
Mr. Cotton Farmer.**

Fight the Flea Hopper and other insects. The "Aven" Crop Duster will help you grow more cotton per acre.

Modern farmers do not need to be convinced of the need for insect control. The cost of an "Aven" crop duster is quickly repaid by increased yield. The "Aven" New Style Crop Duster is a practical, easy to operate machine that will give long, trouble free performance. Has new type improved steel nozzle rail instead of the wooden rail as pictured. This duster meets a need long felt and is an outstanding success—it has been proved over a period of years by farmers throughout the United States. Let us give you more detailed information about the "Aven" Duster. Can be furnished in 6 or 8 row and with Broadcast attachment.

CASTING FOR TOMORROW

A father teaches his son the thrill of fishing. And one day this son will teach his own son. Thus the world moves on. And whether it be the thrill of fishing, or the art of noble living, one generation teaches the next.

Many a great lesson of life is learned in such a humble setting as this one. For the foundation of education and growth is the "man to man" fellowship of father and son.

But Dad's free time is limited—these fishing trips are few and far between. Where else can this boy get the help he needs?

School and college will provide many of the resources for a successful career. And the Church School will instill the spiritual understanding from which noble living springs.

Wise is the father who gives the Church opportunity to help mold the life of his son—yes, and his own life as well.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

This advertisement contributed to the cause of the Church by the following patriotic citizens and business establishments:

Bank account deposits totalling \$4,008,243.09; and The Levelland State reported \$1,985,314.15 in all accounts.

—The Hockley County Herald

In an effort to clean up the city and rid it of flies and mosquitoes for the rest of the summer, a Clean-up Day has been set for Monday, following which equipment from the City of Lubbock will spray the whole city Wednesday with DDT.

—The Crosbyton Review

To attract attention to his July Blanket sale, J. C. Penny Company manager S. B. McLallen is staging a novel promotion stunt this week.

In the show window is a 300 pound block of ice with a new all-wool blanket frozen inside.

The blanket will be awarded to the person guessing closest to the exact time when all the ice is melted.

—The Hereford Brand

Plastic Diaper Cover Cuts Baby's Washing

HOME-MADE plastic diaper covers fashioned out of the same kind of material used in shower curtains can save young mothers an endless amount of washing, Mrs. Robert C. Miller points out in *Capper's Farmer*, a leading farm magazine.

Mrs. Miller says that before she thought of this idea, that everything in her young son Cleo's bed had to be changed almost as often as his diaper.

"I tried rubber pants," she writes, "but they cut his fat little legs."

"So I bought three-fourths yard of plastic material. The 40 inch fabric was cut in half lengthwise. Each 20 x 27 inch piece was doubled

to a 20 x 13 1/2 size and sewed together at the edge opposite the fold. The narrow seam was turned to the inside. Then a three-quarter inch hem was stitched at each end. Through these turn-downs I threaded cotton tape.

Each of the two finished articles measured about 12 inches wide and 25 1/2 inches long. After I pin the diaper on the baby, I put the cover on and tie at each side. The material is soft and folds between the legs. The extra width is gathered in at the top by the drawstrings. The covering is no more annoying than the diaper; yet it keeps his sleepers and bed dry at night and his rompers clean during the day."

This simple device, writes Mrs. Miller, has greatly reduced washing.

Personals

Mrs. J. M. Porterfield visited her husband who is now in a hospital in San Angelo. Reports are that he is greatly improved.

Friends of Mrs. Alma Lewellen will be glad to know she has opened her own beauty salon in Globe, Arizona. Mrs. Lewellen has been in Globe since last September.

CUTIES By E. Simms Campbell

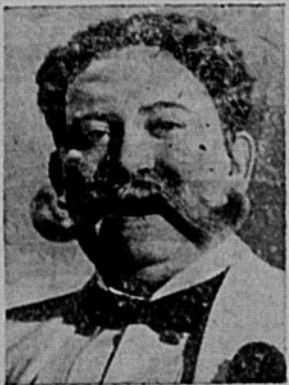

"It's only for today, Mr. Bailey . . . I'm getting married . . . after . . ."

ber, being employed by local shops. Her new location is in the Terminal Hotel building.

Mr. and Mrs. L. A. Harral, Mary Harral, Mrs. Roger Pinson and son James of Plainview are vacationing in Colorado Springs, Colorado.

Mr. and Mrs. Oran McWilliams will attend the ladies style show in Dallas next week.

Have your prescriptions filled at TEAGUE'S DRUG STORE by a registered pharmacist.

THE COLONEL — Wendell Holmes plays the title role in "Colonel Humphrey Flack," NBC dramatization of the lovable rogue of magazine fame. The show takes the "Aldrich Family" time spot for the summer.
