While there is no cause white there is no cause for serious alarm over the development of scattered cases of flu in this locality, health authorities say that extra precautions should be taken to check every cold at the start. Internal medication should be avoided except on the advice of a physician. Too much "dosing" often disturbs the digestion and lowers the vitality just when the child needs its body-strength most.

"You can bet your Bottom Dollar Germ-Processed Oil won't fail you these cold days"

The multitude of motorists who have switched to Conoco Germ-Processed Motor Oil know what a great oil it is for summer use Maybe they are wondering how it will act in cold weather at zero and below. The makers of Conoco know. Better still, thousands of users know, from their experiences of last winter. In Canada, Montana, the Dakotas

... in Denver ... with temperatures far under zero, Conoco Germ-Processed did not congeal. It remained fluid and continued to furnish efficient lubrication.

This accomplishment is no surprise. Conoco Germ-Processed is easy starting, non-congealing at sub-zero temperatures, because it is a thoroughly de-waxed paraffin base oil. The Penetrative Lubricity of Germ Process makes certain an ever-present lubricating film in your motor, even after long periods of idleness... particularly valuable at start-

ing time, when 40% to 60% of motor wear occurs. Save this wear on your motor... your battery ... your nerves. Drain and refill now with the proper grade of Conoco Germ-Processed oil at the sign of the Conoco Red Triangle. All grades, 35 per quart.

He said that until the Indian Mohammedans could settle their difference with the Hindus, and reach an understanding with them on the religious issue, it would not be possible to set up a responsible Indian government.

The Hindus outnumber the Mos lems overwhelmingly, and there are scatterings of Buddhists and other religionists; but the Moslems and the Hindus make up the major portions of the populations. And they don't mix worth a cent. Moslems realize that should the Hindus get control of the country. their lives and property wouldn't be worth shucks. The Hindus have the same distrust of the Moslems. Wherefore it comes about that both sides had rather trust the Christian British than numbers among its residents the door and is permanently disfigeach other. And that fact is an insuperable barrier to anything like an ali-India government.

This fact has made it possible for Britain to rule India for generations, and it will continue to make it possible as long as the two great religions are in direct con-flict. And that will be as long as there are Hindus and Mosleme.
