## West Texas Roundup

In compliance with the State Sanitary Code to control typhus fever and other rat-borne diseases the City Commission of Brownfield has approved and passed an ordinance requiring all business buildings within the city limits of be made rat-proof and free of rats.

The desperate need for such a program is apparent when it is realized that there are three rats to every person in Texas, that the toll they take in lives runs into the hundreds, and that the amount of food merchandise, etc., they destroy and defile reaches the astonishing figure of \$120,000,000 annually.

—Brownfield News

Paced defensively by the three hit pitching of Lefty Courtney and Charlie Lawrence and the sparkling infield play of R. D. Prather at shortstop, the Seagraves Oilers limbered up their big guns and clubbed three Levelland pitchers for twenty hits and eighteen runs to take both games of Sunday's double-header and with those games, the Oil Belt League championship for 1947, thereby repeating their performance of 1946.

—Gaines County News

Mr. and Mrs. Jeff Spikes and Mrs. C. E. Fullingim attended funeral services for their uncle, Isam Tubbs, 95, who passed away Tuesday morning in a Lubbock hospital. He suffered a fractured hip Sunday night from a fall at his home.

Mr. Tubbs came by freight wagon to old Estacado, in 1890. He helped to organize Lubbock Co., in 1891; also cleared land and planted one of the first crops there. Tubbs was the last charter member of the First Methodist church organized in Lubbock. He served on Lubbock's first grand jury and first school board.

A total of 195 tax paying citizens of Crosby County's Road district No. 1 petitioned the Commissioners' Court Wednesday, asking that a bond election calling for the issuance of approximately \$137,000 in bonds to build about 22 miles of farm-to-market roads in the district, be called to Judge Emzy Pieratt by Andy Wooten, of the East Plains.

—Crosbyton Review

Delegates elected by 50 Garza County farmers at a meeting last Saturday night in the district court room met with similarly elected Lynn County farmer delegates Monday night in Tahoka to agree on wages for cotton pulling in the two counties.

It was agreed that \$1.75 per 100 lb. will be paid for cotton pulled and left in the field and \$2.00 per 100 lb. will be paid for cotton delivered to the gin, Garza Agricultural Agent D. F. Eaton said yesterday.

—Post Dispatch

All owners of property in Randall county which has been rendered for taxes will have a vote in the road bond election on next Saturday.

An effort is being made to get out all of the qualified voters in order that there shall be a representative expression of the opinion of the voters on this issue.

—Canyon News

Organization of Country Club of Levelland was perfected on Tuesday night when stockholders met in the district court room. Officers were chosen and members to serve during the next twelve months were appointed to committees.

## Funeral Services Are Held For C. W. Dean

Last rites were conducted at 3 o'clock yesterday afternoon in the Southland Baptist Church for C. W. Dean, 64, retired farmer of Hackberry, who died about 11:15 o'clock Monday night, 20 minutes after entering West Texas hospital.

Rev. Emmett Brooks, pastor and Rev. O. J. Harmonson of Southland officiated. Williams Funeral home directed burial in the Slaton cemetery.

Bill Walker of San Angelo visited his brother Joe Walker, Sr., last week.

Mr. and Mrs. Frank Davis of Abilene visited in the home of Mr. and Mrs. Joe Walker, Sr., over the last week end.

Mr. and Mrs. Joe Johnson and Mr. and Mrs. H. S. Hogue left last Friday to visit in Winslow, Arizona, with Mr. and Mrs. Fred Swaggerty, formerly of Slaton.

Mr. and Mrs. Ray Hickman and Patsy Hickman visited relatives in Baird, Texas, this week.

Mr. and Mrs. Harry Stokes spent several days in Dallas this week.

Mr. and Mrs. Charley Walton and their daughter have returned from a three weeks trip to Brownwood Lake where Charley did considerable fishing.

FAMOUS PAINTING ARRIVES—Rosa Bonheur's Horse Fair, one of a \$1,500,000 collection, has arrived for exhibit at the Museum of Fine Arts at the State Fair of Texas. The collection, the greatest ever exhibited in the Southwest, is being loaned by the Metropolitan Museum of Art, New York. On guard are Texas Rangers Bob Crowder, left, and E. J. Banks, Museum Director Jerry Bywaters is shown directing the unpacking of the famed picture.

## Over the Wire

There is no telling how much fine writing talent there is in Slaton, there are two young men who have broken out into poetry of the very highest order a sample of which is published below. There are a few papers or magazines that get to publish such fine stuff and the Slatonite feels greatly honored to be the first to publish a poem written by Ray C. Ayers. Mr. Ayers admits to having received a few suggestions from Otis Neill. Here is the poetry.

"Buy and sell from day to day, Be content with modest pay. Profits gained from ownership, Just increase your income tip Uncle shares in all your gain. Alone you bear your losses' pain.

When you've made a lot of dough, Father time may lay you low. Again old "Uncle" wants a share Before you pay it to your heir. The man with whom you now compete May weed your widow, rich and sweet."

The Abernathy boys who operate the Slaton Steam Laundry have their chests out because they have just installed a number of new machines that has greatly improved the laundry finishing and the cleaning turned out by the Slaton Steam Laundry. It is the most modern equipment on the market for laundries and they have been waiting for many months for it.

There are more people suffering from hay fever now in Slaton than ever before. Some blame it on the dry weather while others say that there are more weeds in and around Slaton than ever before and that the pollen from the weed is causing much of the suffering.

Roy Mack, manager of the West Texas Cotton Oil Company is expecting one of the best years since the war as there was more cotton planted in this area this year than has been planted in many seasons.

While cotton growers have formed organizations in other parts of the state to set the price for cotton picking nothing of the kind has occurred here, due to the shortage of pickers it is feared a lot of the cotton will be blown out of the bolls and ruined before it can be gathered.

Had you noticed that the paved streets over the town have been getting a cleaning, they look mighty nice too.

### Texas Wheat Gets Penalty In Price

COLLEGE STATION, Sept. 30.—Many Panhandle wheat farmers are finding that it costs money to sacrifice quality for quantity.

Potter County Agent A. P. Bralley reports to Extension Service headquarters at Texas A. and M. College that terminal market mill buyers are penalizing incoming loads of wheat from Potter and other Panhandle counties. Reason: poor milling quality.

Twenty-one percent of the total acreage in the Panhandle wheat belt was planted last year to two wheat varieties that have poor milling reputations, says the county agent. The overall figure of poor quality varieties is so high, he reports, that millers throughout the country are either refusing to purchase the grain or are discounting it in some manner.

Farmers plant low milling varieties because they get "good yields," says Bralley. Westar, Comanche and Wichita varieties, all good millers, have produced as good if not better yields in Potter county than the poor millers, and many farmers have turned to those three varieties for planting this year.

Joe Teague, III, who recently graduated in pharmacy at the Texas University, has returned from Austin with his wife and he is now doing his stuff at the Teague Drug Store. They have bought the former O. O. Crow residence at 1040 West Crosby.

PENSIVE WIT — Phil Harris, wise-cracking malapropist who looks uncommonly pensive in the above picture, will return with his wife Alice Faye to the NBC "Bandwagon" program when it resumes Oct. 5.

With the informal opening tonight of the new Slaton Theatre Slaton will have one of the best equipped and best designed motion picture theatres in all of West Texas. While manager T. H. Duckett has been unable to complete the building in all its details the show will have all of the essentials to make it comfortable and enjoyable in every way until the materials arrive for the foyer, the outside display, signs, etc.

Both the Slaton Theatre and the Palace Theatre are under the operation of the Leon Theatre organization that has holdings in a number of the larger and smaller towns over West Texas and through their wide connections and buying powers will be able to secure the best pictures to be had at dates that will bring them to Slaton on early releases.

T. H. Duckett, local manager of Leon Theatres, reports that he regrets that he cannot open the new Slaton Theatre in the style that he had hoped, as he is used to doing things up brown, but the building material shortage together with the hundreds of other construction problems forced him to be satisfied with opening the Theatre without some of the finishing touches that would make it as attractive to the eye as it is now comfortable to occupy.

The new Theatre has the most modern sound equipment that can be had, all of the walls have been sound proofed and those who attend will find the reproduction of all pictures and sound to be as perfect as could be hoped for.

The outside signs, front and the ticket window have been ordered for months and should have arrived long before now, but the shipping, manufacturing and material shortages have made it so that we will have to enjoy our motion picture shows in the building that is comfortable but not yet decorated in the way a Theatre is usually made to look. It will be done soon and Mr. Duckett promises it will be "hot stuff."

## Social Security Man To Be Here Wed. 8th

Elliott W. Adams, Social Security Administration Representative, will be in Slaton at the U. S. Post Office at 4:00 p. m. on Wednesday, October 8, 1947, for the purpose of answering any questions you may have on Social Security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for Social Security account number cards.

Every holder of a social security card who reaches the age of 65, and the closest relative of a card holder who dies at any age, should get in touch with the nearest office of the Social Security Administration to avoid possible loss of Federal insurance payments which may be due.

## Corn Bread Tamale Pie

A hearty casserole dish, a crisp green salad, and a lush dessert, such as the homemaker's dream of a menu to fit all occasions.

Among the many possible casserole combinations is a Corn Bread Tamale Pie that everyone will love. A highly seasoned mixture of ground beef, tomatoes and corn, its crowning glory is the tender, golden brown topping of good corn bread made from packaged white corn meal. Packaged corn meal that has been enriched and degeminated guards against the danger of rancidity and loss of meal, and assures nutritious, clean, white corn meal in every package.

This snow white corn meal makes a more delicious corn bread than you can ever imagine. Just suppose that you have a casserole before you, pick up the serving spoon, cut through the delicately browned corn bread and scoop down into the juicy, spicy meat mixture. The aroma is so appetizing you can't wait even a minute for the first taste.

### Corn Bread Tamale Pie

Makes 6 servings

- 1 pound ground beef
- 1 large onion, chopped
- 1 can tomato soup
- 2 cups water
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 1 tablespoon chili powder
- 1 cup whole kernel corn (drained)
- 1/4 cup chopped green pepper

### Corn Bread Topping

- 1/2 cup corn meal
  - 1 tablespoon flour
  - 1/2 cup sugar
  - 1/2 teaspoon salt
  - 1 1/2 teaspoons baking powder
  - 1 beaten egg
  - 1/3 cup milk
  - 1 tablespoon melted fat
1. Brown ground beef and onion in skillet.
  2. Add tomato soup, water, seasonings, corn and green pepper; simmer for 15 minutes.
  3. For topping, sift together dry ingredients. Add beaten egg and milk, stirring lightly until combined. Fold in melted fat.
  4. Place meat mixture in greased baking dish (2 qt. size), cover with corn bread topping. Don't be surprised when the topping disappears into the meat mixture, for it will rise during baking and form a good layer of corn bread.
  5. Bake in hot oven (425° F.) 20 to 25 minutes until corn bread is brown.

Home Comfort

Dining-room chairs appear in slip covers at the kitchen breakfast bar Mr. and Mrs. Harold Ford designed for their farm home in Pottawatomie county, Iowa. Betty Lindsay points out in nationally-circulated Capper's Farmer. These red water-proof plastic-coated fabric ones match leather-seat upholstery.

Comfort and convenience-promoting ideas abound in the Ford home. In each of the 10 years Mr. and Mrs. Ford have been married, they have made some improvements which will make farm work easier and the home more comfortable.

A busy homemaker who tends a large garden, prepares an abundance of food for freezing and canning and raises a large flock of chickens, Mrs. Ford manages to be a 4-H club leader, hold an office in the women's home project board and in a church society. Extra moments must be allotted for her flower garden, home improvement and personal care.

Low Income

While the population of all Latin American countries combined is almost as large as that of the United States, the combined income of these countries before 1939 was less than one-fourth of ours.

**PREVENT THOSE WINTER DISEASES**

As fall housing time approaches, it would be well for poultry raisers to plan ahead with a view of setting up a workable and efficient disease prevention program for the coming period of confinement. Durnig fall and winter the average laying house may become a breeding ground for disease and also parasites. Through the cold weather months the birds will be living under crowded conditions, cooped up in an enclosure that often is either ventilated poorly or is drafty and cold.

**A Health Problem**  
 The very fact that confined chickens always live in congestion (by human standards, at any rate) creates a health problem in itself.

What are some of the things which may be done to encourage better health in your laying flock?

First, see that your flock is not overcrowded. Allow for at least four square feet of floor space per bird for heavy breeds and three square feet for light breeds.

Keep the litter dry and clean, removing when damp and adding clean litter periodically. Stir it often.

**Keep Roosts Clean**  
 See that the roosts are clean and sanitary and that they are constructed so that the birds are unable to contact the accumulated droppings underneath the boards. It's a good idea to remove the droppings at frequent intervals.

Waterers should be clean, and there should be enough of them so that there is no crowding among birds trying to drink. Disinfect the waterers and also the feeders at regularly scheduled times. Plan to use a reliable drinking water antiseptic in the water to keep down bacterial growth.

Make a special effort to keep every part of the laying house sanitary. You yourself may be guilty of spreading disease when you enter the house with dirty boots or bring in contaminated feed sacks, crates, or other material.

Make sure there are no cold drafts in the building for they may weaken the birds, lessening their resistance to respiratory or other ailments. At the same time the ventilation should be good enough to insure that there is plenty of fresh air at all times.

**They Also Served**  
 Spahis is a term now applied to certain Algerian and Tunisian cavalry troops. It is a corps of Algerian native cavalry in the French army normally serving in Africa, half of whose officers below the rank of captain and all of that rank or above are French. It originally was composed largely of Turkish spahis serving in Algeria at the French conquest in 1830. The term applied to the irregular Turkish cavalrymen, who were from 1326 a formidable body in the army of the sultan.

**Avert Flying Sickness**  
 The power of color is nowhere more forcefully demonstrated than in the field of health. Color engineers have done effective work for the airlines in the prevention of "flying sickness." They discovered that browns and yellows tend to provoke nausea, while greens and blues avert it. On the advice of its expert, one air line discontinued serving mayonnaise, and at the same time changed its sheets, pillow cases and blankets in the airliner sleepers from white to green tints.

# THE NEW SLATON

WITH the formal opening of the Slaton Theatre, the business men of Slaton feel that the town has taken a big forward step in its development, for an up-to-date Theatre is one of the necessary attractions for any progressive town.

The new Slaton Theatre represents a heavy investment in the town and the Leon Theatres have shown a faith in the Community that mirrors the faith and the hopes of all the progressive men of this section.

With its spacious seating capacity and its all modern sound and reproducing equipment, the new Theatre will give Slaton a Theatre that is second to none in West Texas for a town the size of Slaton.

# SLATON THEATRE

*THE Slaton firms whose names appears on this page also wish to extend their best wishes and congratulations to Mr. T. S. Duckett, the manager of the two Leon owned Theatres in Slaton. He is a progressive young business man who, we feel, will be an asset to the town. If the Slaton and Palace Theatres live up to what we hope they will, then Slaton will be able to take a prominent place in the West Texas area when it comes to Theatres and we extend to Mr. Duckett and the Leon Theatres our hands of welcome and hope for both them and ourselves a long period of prosperity and progress.*

### Job Printing

Job printing in the early 19th century was only a small sideline of newspaper shops. By 1800 it was a distinct industry which employed 58.5 thousand wage earners in almost 3.5 thousand book and job shops. By 1937 there were 192 thousand wage earners in 13.9 thousand book and job plants.

### Two Strikes!

A batter in baseball has virtually "two strikes" against him on dark days because the eye "takes pictures" more slowly when the amount of light is increased. Like the camera, the eye records images upside down but the human mind unscrambles that by making images appear as they are.

**Report On Europe**

By GEORGE MAHON

The war has now been over for more than two years. What does Europe look like to a West Texan?

First about England. In going by train the 70 miles from the port of Southampton to London, I was struck with the intensity with which the land is cultivated. The grain was off the wheat fields but many other crops were growing. However, they were not growing very well because England is in the midst of a terrific drought. I have since learned that most of Europe has been in a severe drought for about three months. This is making a marked reduction in the food supply. The clamour throughout Europe is Food, food, food! At home we complain at the prices of food but here the emphasis is on food at any price.

I noticed in England that the Victory Gardens were still very much in evidence. In suitable areas the British are using such places as the right of way on the railroad for countless little gardens, and they are all well cared for. I went out in the country and met with what we would call the AAA committee for one of the counties. We looked at some of the farms. The farmers are doing a good job.

A farmer in England has to cooperate with the government program. If he fails to do so the government can take over his farm; but the farm committee explained that they had encountered no serious trouble in securing cooperation.

England is far from being self-sufficient in food and the people are up against it. They are not producing enough manufactured products to sell abroad to acquire enough dollars to pay for the food from abroad which they need. They call this the dollar crisis. The monetary complications are hard to understand but the results are quite easy to see. The people are reducing their import of food and struggling to increase their exports, doing this to get dollars and prevent the collapse of the government.

Our officials feel that the collapse of England and Western Europe would mean Communism and the domination of all Europe by Russia. In that event the security of America would be seriously threatened.

The most dynamic British officials with whom we conferred in London were the Foreign Minister, Ernest Bevin, and the Minister of the Board of Trade, Sir Stafford Cripps.

**First Five the Worst**

Ninety-seven per cent of measles occurs before the fifteenth year and over half of the cases are reported during the first five years of life. Rheumatic fever ranks first as a cause of death in the age group from 5 to 15 years and causes four and a half times as many deaths in persons under 20 as do whooping cough, measles, meningitis, diphtheria, scarlet fever and infantile paralysis combined.

**Waxless Sealing Wax**

The modern type of sealing wax contains no wax. Fine red stationery sealing wax is composed of shellac, Venice turpentine and vermillion for color.

**Corn Speeds Up**

With a two-row picker and facilities for hauling and cribbing corn, yields of 60 to 70 bushels per acre can be harvested with only one and a half to two man hours per acre. Hand picking and scooping would require about nine man hours per acre to harvest a 70 bushel yield.

**RUPTURE**

Shield Expert Here

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Hilton Hotel, Lubbock, Sunday and Monday only, October 5 and 6, 9 a. m. to 4 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase the circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge. 6509 N. Artesian Ave., Chicago 45 Large incisional hernia or rupture following surgical operation especially solicited.

**Demands List From NLRB of "Red" Front Organizations**

WASHINGTON, D. C.—(Soundphoto)—The NLRB said that if any list of communist front organizations is issued in connection with the Taft-Hartley law, it will have to come from the Justice Department. A demand for such a list was issued by the NLRB was made by George Q. Lynch (above), General President of the Pattern Makers League of North America (AFL). Lynch said that the risk of fines and prison terms for false statements, on the affidavit required of union officials before their unions can get NLRB services, was too great unless the NLRB identifies the organizations and activities covered in the affidavit's reference to "any organization that believes in or teaches the overthrow of the U.S. Government." Lynch is shown reading the required affidavit which he refuses to sign and will use as a test case.

This unlighted trailer, moving slowly along the darkened highway, was completely invisible to an overtaking motorist as he came suddenly upon it from around a corner. He crashed into it and was fatally injured. Just one more of the many bitter ironies of highway deaths, where a lawbreaker who was indifferent to his own safety and the safety of others escaped injury, while an innocent victim paid for that indifference with his life.

**From where I sit ... by Joe Marsh**

**"It's Living That Counts"**

I stole the title of this column from a magazine article that said whole lot better than I can what farm and country life can mean. We talk about farm profits, production, research, and mechanical improvements... but isn't it true, what we really value is the life country living offers us?... the chance to be close to our families and neighbors... children sharing in the chores... working with our own hands at a worthwhile job. And country pleasures are simple: good talk at day's end, and

a glass of mellow beer with friends... the companionship of man and wife, untroubled by distractions of the city... the mutual tolerance of one another's tastes—in choosing a friend, or a glass of beer, or a candidate for Governor. Mind, I'm all for material improvements. But from where I sit, the real goodness of our country life is that spirit of tolerance, moderation, and good fellowship.

**St. Louis Cards To Hold Tryouts Soon**

When the baseball tryout camp opens at Fair Park, Seymour, and City Park, Stephenville, later this month, scores of boys in this vicinity will have an opportunity to take their first step toward getting into professional baseball. The St. Louis Cardinals, who will conduct the camps, are on the lookout for many new players to supply their minor league clubs for many more seasons to come. All players who believe they have what it takes to become a professional baseball player are urged to attend. Work-outs at Seymour will be held at 1:00 p. m. Friday, October 10, and 10:00

a. m., Saturday, October 11. Those at Stephenville will begin at 10:00 a. m. Monday and Tuesday, October 13-14. They will consist of regular drills in running, fielding, hitting and throwing. There will also be actual games played, during which the pitchers will get a chance to show their stuff.

**Insecticide "Bomb"**

Hand-size dispensers for insecticidal aerosols are now available, writes the Rural Home editor of nationally-circulated Capper's Farmer. The fine mist they produce will give protection against flies, mosquitoes and moths in the flying stage. When valve on "bomb" is opened, the enclosed liquid changes to gas; this expands into the room.

**"CYNTHIA" STARS ELIZABETH TAYLOR IN ROMANTIC STORY OF A GIRL'S FIRST KISS**

Pretty M-G-M starlet Elizabeth Taylor plays the teen-age heroine of "Cynthia," story of a small-town family and an adolescent girl's first love affair. Prevented from enjoying the normal pleasures of an average girl because of her parents' strict supervision, Cynthia nevertheless slips out to keep a forbidden date with her high school hero, Ricky (James Lydon).

The leading role in the annual school operetta, Fred (Gene Lockhart), her uncle and the family doctor, forbids Cynthia to participate on the grounds of her supposed ill health. Cynthia rebels and when her mother (Marj Aster) takes her side, a quarrel is precipitated between mother and dad (George Murphy), who has sacrificed a medical career to support his family as a store clerk. In the end, however, Elizabeth's rebellion

proves contagious. Murphy also rebels against the tyranny of his penny-pinching employer and quits his job, much to everybody's astonishment. But he gets it back again (with a raise in salary!), while Elizabeth, refusing to take any more pills and injections from Uncle Fred, wins Ricky back from a rival high school girl by showing a new spirit. **"STALLION ROAD" ARRIVING AT THE SLATON THEATRE SUNDAY AND MONDAY**

"Stallion Road," co-starring Ronald Reagan, Alexis Smith and Zachary Scott, is the new Warner film scheduled to begin an engagement at the Slaton Theatre this Sunday. The picture, based on Stephen Longstreet's best selling novel of horse breeding in California, tells a heartwarming story of people who love horses, and of a triangle that almost ruined the lives of the three people concerned.

The film presents Ronald Reagan in his return to the screen, as veterinarian Larry Hanrahan, who owns Stallion Road ranch, where he raises thoroughbred jumping horses. When his old friend, Steve Purcell (Zachary Scott) vacations at the ranch, between writing novels, they meet and are attracted to Rory Teller (Alexis Smith), of the Teller ranch.

After several meetings, Steve

tells Rory that he has fallen in love with her, but Rory is more attracted to Larry. However, when she finds out that Daisy Otis (Peggy Knudsen) a fluffly lady with a roving eye on Larry, is going to ride his horse in the Range show in competition with her, she becomes furious.

Larry discovers anthrax among the Otis cattle and begins the long process of innoculating them. He refuses to attend to Rory's dying mare, who life he might have saved, in order to continue his innoculations, and Rory misunderstands. She accepts Steve's marriage offer, but when Larry becomes infected with anthrax himself, Steve, seeing Rory's reaction to his illness realizes what he was afraid was true just as the film reaches a sparkling denouement.

**How to Defrost and Clean Your Home Freezer**

HOME freezers can be easily defrosted and cleaned if a few simple rules are followed, points out the Country Home editor of Capper's Farmer, one of the best known farm magazines.

Here are some of her suggestions: For a complete cleaning, remove foods and place them in a cardboard container, or wrap them in newspapers. Scrape the frost from strips and liner walls with a spatula or piece of hard wood. Do not use an ice pick or any other pointed sharp instrument.

Clean the exterior regularly with a mild soap and water or a liquid wax which adds luster and protects the surface. Once a year—perhaps in the late spring—clean the surface of the condenser with a stiff brush or vacuum cleaner attachment.

To shut down a home freezer, turn it off. Remove the contents. Defrost and clean the interior, mop ping water from the bottom. Leave the lid open so air circulates inside.

**SOUTHWESTERN BELL INSTALLS**

**Millionth TELEPHONE IN TEXAS**

SOUTHWESTERN BELL'S millionth telephone in Texas was installed late in August in the home of a Houston architect, his Luxembourg war bride, and their 14-month-old son.

Mr. and Mrs. Gunter W. Koetter had been waiting for a telephone for many months. And, like many another Texas family, the Koetter's new telephone is on a four-party line until telephone factories and installation crews can catch up with Texas' post-war needs for telephone service.

When the millionth Texas telephone was installed, no one was happier than Mrs. Koetter. Said she: "I can hardly believe I'm going to have a telephone of my own. Back in my native Luxembourg, only the very rich can afford telephone service."

INSTALLATION of the millionth telephone is a historic milestone and a far cry from Texas' first telephone, installed in 1878, connecting Col. A. H. Belo's office at the Galveston News with his nearby home!

Less than 10 years ago—in 1938—Texas had only half a million telephones!

On V-J Day—just two years ago—Texas had 750,000 telephones!

Thus, Texas has added as many telephones in less than 10 years as were installed in the previous 60 years! And despite postwar shortages, we've gained more telephones in Texas in the two years since V-J Day than were added in the 10 years preceding the war!

Yet—despite this record, 137,000 Texas families and business concerns are now on the waiting list for telephones. Although we're installing service several times faster than ever before, it has been impossible to connect telephones as fast as Texans are applying for them.

WE'RE PROUD to be growing with Texas. And, we're hard at work on the biggest telephone expansion and improvement program in the history of the state. We shall continue to do everything within our power to bring telephone service, as early as possible, to everyone in Texas who wants it.

What perhaps propels a change in the way medical services will be rendered in the future was reported this week by Mrs. Electra Williams, manager of the Southwestern Telephone exchange here. Mrs. Williams came in the office smiling out loud last week and said she had just passed Dr. Payne and one of his patients on the corner and that the doctor had the man sitting on the curb with his mouth wide open while he gazed into the mysterious depths. The doctor had one eye closed as if he were aiming a gun and the patient was saying something like ahahah whether the doctor had told him to do so or not.

This is the first curb service by any doctor that I have ever heard of and it sounds like it might be a good idea, perhaps it is the forerunner of a new system and it may become the habit of the ordinary folks to just stop the doctors any where and have them take a look and see about what ails them, might become a bit embarrassing too.

More women have been heard from who are planning on attending the baseball games next spring and summer if the local men get the baseball fever again. Mrs. Doc Crow and Mrs. Hank Lasiaber are among the baseball widows and they too are not going to be left behind, it is going to be a lonesome town next summer with all the women at the ball games. Is there nothing sacred to the men any more.

While I do not believe that the newspaper business is the only business that keeps all of the employees at a high tension I do believe everybody taking part in the publishing business is usually as nervous as frog legs on a hot stove and that if they are not peculiar when they start in the business they will be so shortly

afterwards. J. B. Hutchens was all tuckered out last week after chasing advertisers up alleys and over the roof tops to squeeze a few extra inches of advertising out of them and as he sat with one foot drooping over his desk he said "it takes a funny kind of person to work on a newspaper. You have to kick both feet, work both hands and talk at the same time." In other words it seems that one should be a half cracked, valuable contortionist.

Perhaps that the reason some folks observe me with such frightened eyes.

Mrs. Doctor Elbert Lovelace gave me a clipping from a newspaper last week and what do you think it was about? Yep, fishing.

Some man named Pierre Fontaine is the manager of the Fair Park Aquarium in Dallas, and he knows a lot more about fish than he does about fishermen. Pierre says that fishermen are always asking him when fish are going to bite but all he knows is that fish feed at least once each day and that they bite when they are hungry.

After reading the article and finding out that fish have no regular meal time, like doctors say folks should have, I have become greatly discouraged for I am afraid that my fishing luck is not going to improve one bit by reading the dope Mrs. Lovelace brought me. Mrs. Lovelace thoughtfulness proves that some folks are trying to help me and if she or anyone else can find something that will stop my hay fever I'll greatly appreciate it, however I wish to warn them in advance, that I have tried putting sulphur in my shoes, living on a butter-milk diet and sleeping in a room without any air in it of recent date. Any other good suggestion will be tried this side of taking carbolic acid or arsenate of lead.

There are a lot of ways to sell

folks and I've been trying out a new one lately. When some one looks like they might want to buy something I look at them real mean and say "What do you want," as if I felt that they were trespassing, trying to get away with some of my merchandise or seemed very much like a suspicious character. And it works for they usually buy and I think it is because most folks have become so used to being ignored in the stores that they even appreciate being noticed at all. Of course I am particular about who I growl at, like Pete Pearson, Bill Duckett, J. D. Holt and Bill Sewell, but I'm going to try it out on some strangers and see what happens. Otis Neil got a little obnoxious about it the other day but I'm not going to let Otis bluff me for I believe if everybody would get as rude as possible that we would all get ashamed of ourselves before long and get back to before the war courtesy when merchants wanted to sell and a few folks were willing to be, salesmen or saleswomen, in the proper sense of the word.

A good example of what could happen to you on the corner of 9th and Lubbock street was demonstrated last week by what happened to J. P. Speers when a truck almost demolished his car, when it was thrown against a light pole.

The corners around the square are extremely hazardous as there are no established driving rules to govern drivers. Perhaps we can all be lucky and not get hurt but it would be a lot safer to have something to go by and to have the City dads decide what is what about the unorthodox arrangements of the many angles of the streets that comes into our main business district.

Under the Research and Marketing Act of 1946, the U. S. Department of Agriculture cooperating with state agricultural experiment stations, will conduct surveys to determine requirements and kinds of foods consumed by different groups with this country's population, the material to be used as a basis for estimating potential outlets for farm products.

Dairy cows don't need horns. Dehorning them as calves makes dairying safer for both the dairy men and the animals.

For the 1948 seed crop, the U. S. Department of Agriculture has announced that the support price for hairy vetch will be 12 cents per pound; for crimson clover, 11-12 cents per pound; Austrian winter peas, four cents per pound

Farm population of the U. S. is still 2 1/2 million below the 30 million prewar figure.

October is a month that can make or break a fruit orchard as far as the next growing season is concerned, depending on whether the orchardist gets a pruning work done, plants his winter cover crop and removes and replaces old and unhealthy trees.

Poultry disease and parasite control can be simplified by cleaning the laying house before pullets are housed there.

WASHER HAS ALL THESE FEATURES

- \* RE-VERSO-ROL More thorough washing and rinsing
- \* TOP-FIL-DOR No bending or stooping—its waist high
- \* SAFETY-LATCH Protects curious fingers and hands
- \* ROTO-DRIER Damp dries—driftless—ready for the line
- \* LARGER CAPACITY 10 full pounds—dry weight
- \* PRE-SOAKING ELIMINATED

Just as Miss Walker won the coveted title of Miss America because of her outstanding beauty and talents, so Laundrell has won the hearts of America's housewives for its outstanding performance. Recent tests prove Laundrell washes more clothes cleaner, more economically than two other leading automatics. That's why more Laundrells were sold the first year than any automatic in its first two years. Why not come in today and let us demonstrate "America's Choice" in automatic washers? See it wash, rinse and spin dry, all automatically—then you'll know why we say Laundrell is "Better Built to do a Better Job."

A driver who was not breaking any law, and two passengers with him, burned to death in this inferno when a reckless overtaking motorist tried to pass their car where the way was too narrow. His engine knocked off the gasoline tank, setting it afire, and the car turned into a molten furnace. The lawbreaker himself was not injured — such is the irony of highway accidents. National Conservation Bureau safety specialists report that improper passing ranked fifth as a cause of motor vehicle deaths last year; most often it was committed by drivers who were not breaking any law, which accounted for at least 3,000 fatalities.

**Armored Horsepower**  
In World War I, an infantry division went into action with an equivalent of 3,300 mechanical horsepower, while in World War II an armored division had 400,000 mechanical horsepower — an increase of more than 120 times.

**Makes Soil Safe**  
Soil, contaminated with pests and germs of plant disease, can be made safe for growth by fumigation with "DD," a chemical relative of the powerful insecticide "DDT."

**Camel's Limit**  
It is quite doubtful that camels, as many suppose, can go without water for a week without great discomfort or physical danger. Two or three days is believed to be the limit.

Letters Not Read Aloud

SANTA ANA, CAL.—(Soundphoto)—Spared the embarrassment of hearing jail letters read aloud in courtroom, Louise Overell betrayed little emotion. Here she casts eyes down at counsel table. Judge had ruled letters would not be read aloud. Each juror read printed copies. (Right) Bud Gollums fingers toy with chin as court session progresses. Attorney William Beirne sits beside him.

Speeding through an intersection stop sign, one of these drivers collided with another car. The force of the crash entangled the two cars and they skidded together across the intersection and slammed into a stone wall. Both drivers and a passenger were killed, two were seriously injured. National Conservation Bureau reports that disregard of traffic control devices ranks third as a cause of death in motor vehicle accidents.
