SITUATION IMPROVING Ammunition Shortage Could Have Resulted In Grave Peril

By DON WHITEHEAD WASHINGTON, April 25 (AP)—A Senate investigation has clearly revealed that the United States would have been in grave peril in the last two years from a lack of ammunition had the Korean conflict erupted into a world war. The chilling evidence is this country didn't have enough ammunition in its stockpiles—certainly not in production—to fight a great war for any length of time.

Russians May Get 3 Full Days Off For Celebrations

MOSCOW, April 25 (AP)—The Russians are looking forward to the possibility of a three-day week end for May Day celebrations. Friday will be a holiday, of course, with the traditional parade of military and civilian groups through Red Square. It looks as if the Communist party and Premier Georgi Malenkov's government are going to call Saturday, a normal workday, a holiday too. And then comes Sunday. Three free days in a row! This unusually extended opportunity for fun, sports and entertainment should go down well with the people. Malenkov presumably will be in the reviewing stand with other high government leaders for the May Day parade. The keynote speech ordinarily comes from some military man. Last year it was delivered by Marshal Leonid A. Govorov, who—standing beside Joseph Stalin—declared Russia would deal a devastating blow to any attack from "the imperialist aggressors." The name of the speaker and his topic for this year have not been announced.

Scouts Return Home Following Round-Up

Boy Scouts from 21 towns headed back to their homes Saturday after spending two nights here attending the 27th annual Big Spring Round-Up.

But they were allowed to leave only after consuming some 1,000 pounds of barbecued beef which had been prepared for their Saturday noon meal.

The annual Round-Up barbecue sponsored by Big Spring businessmen was the last thing on the agenda for the Round-Up. Thursday was spent in preparation, Friday in competition, and Saturday morning in cleaning up.

Approximately 1,062 people were in attendance at the Round-Up, which is the largest scheduled event in the Buffalo Trail Council each year.

George Melear, Round-Up clerk, stated that 871 Scouts were present as well as 91 leaders. He estimated that 100 other adults were on hand to help out with arrangements.

The Scouts started pouring in Thursday afternoon, and most were on hand for the night. They hit hard luck with the elements Thursday evening when a strong wind and a light shower struck.

However, by Friday morning they were straining at the halter to get going. All stood inspection and officials praised their layouts.

Competition began Friday afternoon between the 50 troops which were present. Fifteen events were scheduled, some serious and some in fun. Ribbons were issued to the winning troops on the basis of competition and camping.

One of the encampment highlights came Friday evening with the campfire. Mayor G. W. Dabney welcomed the Scouts to Big Spring and praised their program. Three former British Boy Scouts also spoke.

Saturday morning each troop was busy policing the area and getting ready to leave. Presentations were made by the Scout officials.

Then came the barbecue, which was prepared by a crew under Dr. W. B. Hardy. The boys and adults present were flashed through the lines by the serving men under the direction of Troy Harrell.

After the barbecue the crowd be-

gan to thin out, and by 4 p.m. only a few stragglers were left around.

Boy Scout representatives were from Big Spring, Forsan, Coahoma, Stanton, Sterling City, Goldsmith, Midland, Penwell, Odessa, Wink, Wickett, North Cowden, Snyder, Sweetwater, Fluvanna, Andrews, Roby, Notrees, Pyote, Colorado City and Kermit.

Ominous Dust Of Destiny Discovered In Cancer Cells

By ALTON L. BLAKESLEE Associated Press Science Reporter

GALVESTON, April 25 (AP)—Discovery of an ominous dust of destiny in cancer cells was reported today.

This dust is smashed up by bits

of chromosomes, the bead-like carriers of the genes which control heredity.

Healthy cells almost always have 48 chromosomes, all intact, all following the magnificent orderliness of nature, directing the destiny of the cell.

But in cancer cells, the number may vastly increase. Many chromosomes are broken into pieces—destiny turned to dust. These two changes may explain why cancer cells grow wild, without control, to kill life.

This finding was described to science writers on an American Cancer Society tour by Dr. C. M. Pomeroy and T. G. Hsu of the University of Texas Medical School.

They have found a way of being able to see and count the fantastically tiny chromosomes.

Unexpectedly, they find even a little variety in healthy cells. The law of genetics says human body cells should have 48 chromosomes, no more, and no less.

But at times they find as many as 52 or as few as 44 in healthy cells. There appears to be nothing wrong with these cells.

The big difference is in cancer cells. In one cell of a mouse cancer, Dr. Hsu estimated there were 1,000 chromosomes or dustlike pieces of them. Cells from one human cancer never had less than 52 chromosomes and some contained several hundred. Most had 60 to 80.

A fortunate accident led to the ability to see and count chromosomes clearly. One step in growing cells in the laboratory is to bathe them in a salt solution. One day a laboratory worker made this salt solution much weaker than it should be. The growing cells immediately expanded, taking on more fluid in order to get enough salt. The chromosomes, which usually appear as tight-knit blobs on the cell, also spread out and could be seen distinctly.

Jenner Boosts McCarran Bill

WASHINGTON, April 25 (AP)—Sen. Jenner (R-Ind) today urged immediate passage of a bill he said would help congressional committees unearth "a great many new facts of the Communist conspiracy" by giving witnesses immunity.

Jenner endorsed a bill by Sen. McCarran (D-Nev.), saying it would protect a witness against prosecution at any time for any offenses he confessed to congressional committees. After being given this immunity a witness could be compelled to testify, under pain of a contempt of Congress charge.

This, Jenner said, would help the committee learn much more about the Red plot "against our government and against our academic institutions." He said it would induce witnesses to tell more about their links with communism and also overcome their reluctance to testify about their friends.

He said the Fifth Amendment, which permits a witness to refuse to say anything which might incriminate him, is being "perverted into a shield to conceal the facts of the Communist conspiracy."

Texans Jailed Then Released

BUENOS AIRES, Argentina, April 25 (AP)—Five Texas businessmen, freed after being held by police four days in northern Argentina, were flown here yesterday at the request of U. S. Ambassador Albert Nuffer.

The Texans said they spent 24 hours in jail and three days under police guard but said they were never told the basis for their detention and questioning.

Argentine government officials said no charges or suspicion remained against the five.

Four of the men are connected with the Houston firm of Anderson, Clayton & Co., cotton brokers. They were James A. Griffin Jr., Las Cruces, N. M., local chief engineer of the company; Jesse A. Root, Argentine manager; E. R. Connally, La Porte, Tex., and Erwin Turbeville, both from the company's Houston office.

They were seized by plainclothesmen while dining at Griffin's home in Resistencia.

Metal Workers Union Warned

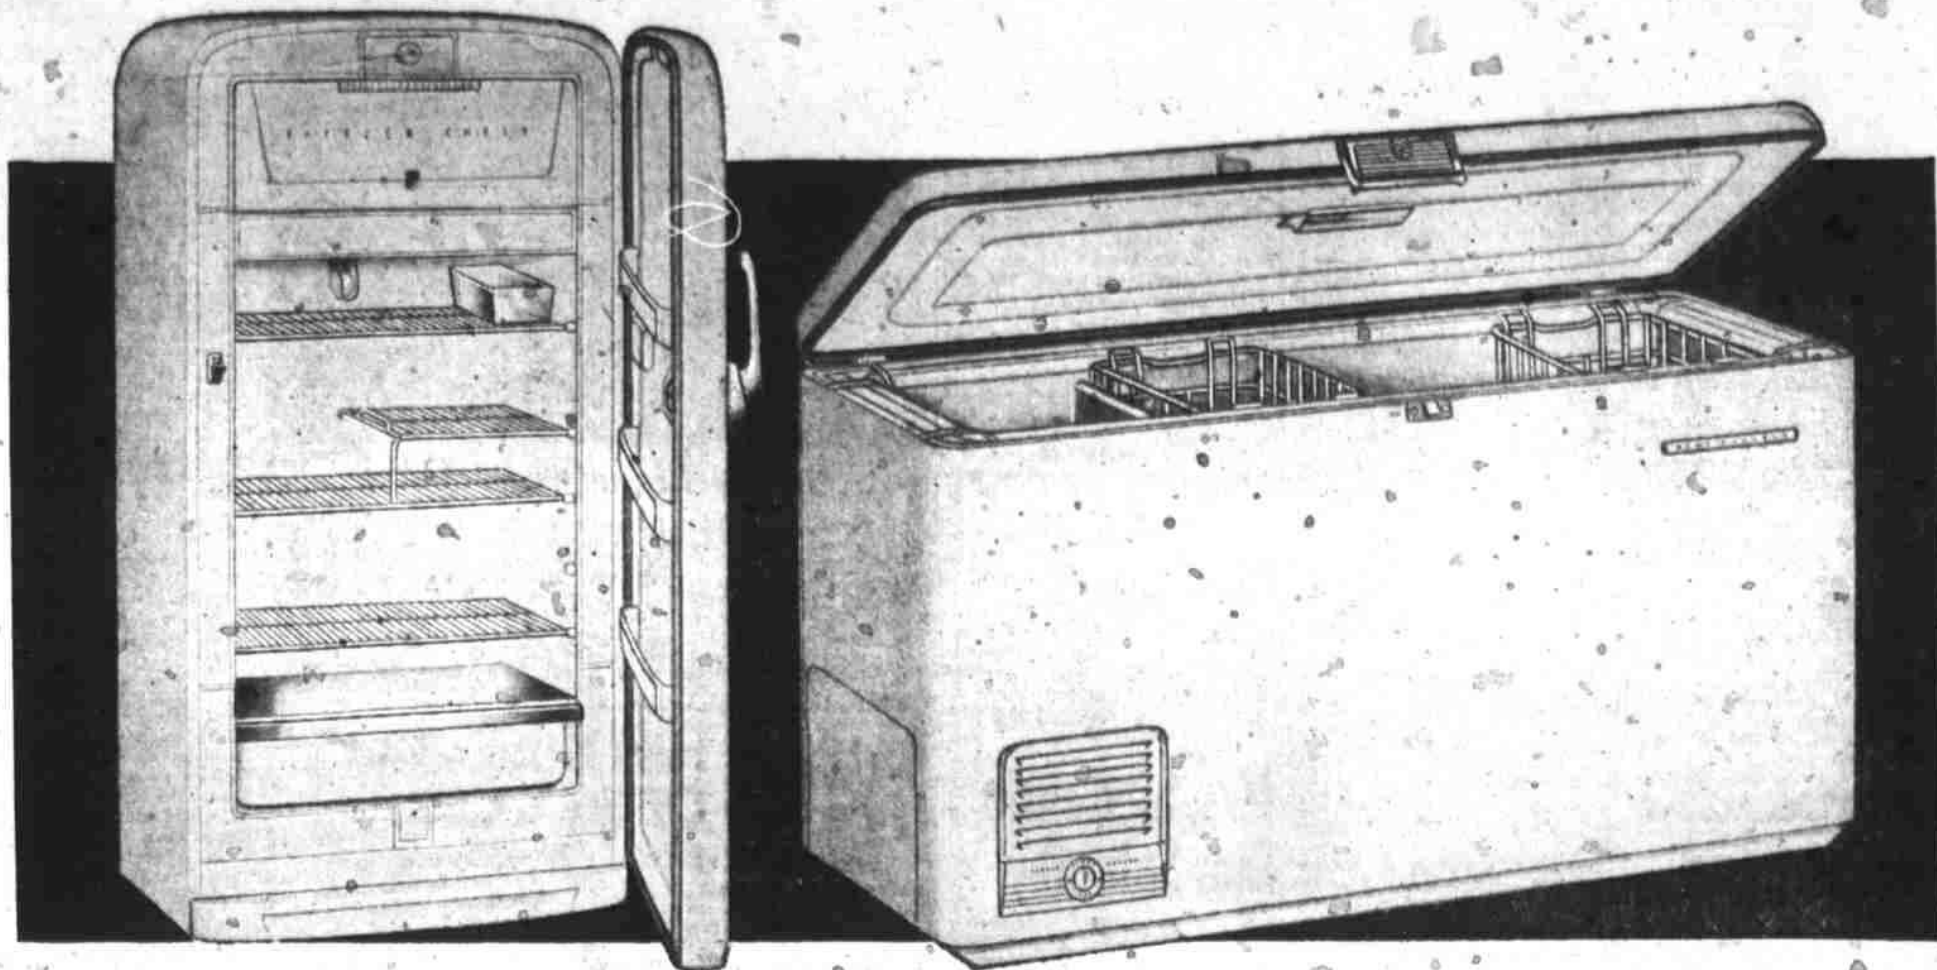

WASHINGTON, April 25 (AP)—The National Labor Relations Board (NLRB) today threatened a union with loss of its bargaining rights unless it stops charging non-union members for handling grievances.

The case was the first such decision handed down by the NLRB. The board gave the Independent Metal Workers Union 10 days to stop charging employees of the Hughes Tool Co., Houston, who are not members of the union a fee for handling their grievances with the firm.

The union established the fee system last year, insisting that non-members pay the union \$15 for handling an ordinary grievance and \$400 to take a grievance through arbitration.

The board held that the union, having been certified by the NLRB as the exclusive bargaining representative, was required to represent all employees.

West Texans Favor Gas Tax For Teachers' Pay

By NORMAN WHITE
Herald Correspondent
AUSTIN, April 25 — A tax bill that will produce at least 66 million dollars for the next biennium must be passed this session if the teacher pay raise is to be more than an empty gesture.

Final passage of the \$900 teacher pay bill seems assured whenever its backers get ready to bring it up in the House for third reading and final vote.

Rep. Lamar Zivley of Temple, sponsor of the pay bill in the House, said they would wait to bring it up until they are sure that it will not be killed because the comptroller will refuse certification.

PRESIDENT

(Continued From Page One)
In a few days whether they are willing to accept non-forcible repatriation of prisoners of war in order to break the long armistice deadlock, on their attitude on this point turns the possibility of ending the war in Korea.

2. In Indochina Ho Chi-minh's Red forces, with Chinese Communists and reportedly Soviet support in war materials, are pressing hard to conquer completely the state of Laos. In all the years of the Indochina war this territory had not been invaded by the Reds and their so far successful drive to conquer it now has created a new military and political situation in Indochina.

The invasion occurred two weeks ago. Three days ago the Reds unveiled a new "free Laos government" which indicates that their ultimate political objective is to establish a unit of Communist rule that could make claims not only on Laos but also on neighboring Thailand as well as the other Indochina states of Viet Nam and Cambodia.

Although the Indochina peoples have resented any vestige of French rule and the Reds reportedly have drawn much strength from them, U. S. diplomats say they have no evidence of any Laotian people participating in the allegedly popular uprising which is how the Reds have tried to present their invasion of Laos to the world.

Some diplomatic experts have wondered whether the broadening of the Communist operations in Indochina, with the result a greater threat to all Southeast Asia, was deliberate attempt to coincide with renewed talk about ending the war in Korea. There can be no doubt that there is still a lot of suspicion in high places here about Communist maneuvers.

There is no such person as a happy alcoholic, and there can be no happiness for any person whose life is closely related to an alcoholic. Alcoholism is a problem which is not confined to the alcoholic alone. Ask the family, friends, neighbors, or employers of alcoholics if there is anything happy, normal, minor or simple in their association with them.

ABOUT ALCOHOLISM

1 Drink Is Too Many; 1,000 Not Enough
It has been said that alcohol alone will not make the alcoholic. This seems reasonable, for not every user of alcohol is an alcoholic—only a certain percentage.

There are over 4,000,000 known problem drinkers in this country out of some 65,000,000 users of alcohol. If each victim has only four members in his immediate family, then, at least 16,000,000 more people are affected directly and seriously.

Normal, temperate people avoid giving much thought to alcoholism unless it is brought home to them sharply by the addition of someone near to them. But when one stops to realize that one in every 16 drinkers is an alcoholic, it would seem wise to have some understanding about this affliction.

Bizarre Story Of A Wild Jet Ride Is Told By AF

SEOUL, April 25 (AP)—The Air Force told today the bizarre story of a Thunderjet that rocketed virtually uncontrolled through North Korean skies for nearly an hour before its semi-conscious pilot was talked to safety by a far-away ground controller.

Lt. Richard Spaulding, of Ionia, Mich., was on a bombing mission

over North Korea March 26 when his oxygen equipment went haywire.

Spaulding slipped into semi-consciousness and for an hour his speedy jet plane, virtually flying itself, swooped, dipped, twisted and turned crazily.

Back at a mountain top ground control station, Capt. Clarence Bell of Van Horn, Texas, picked up the erratic action on his radar scope.

Suspecting a pilot blackout, Bell took over.

In a cool, calm voice he repeated instructions to Spaulding over and over again.

First he directed Spaulding to a target area in North Korea and instructed him to drop his bombs. Those bombs had to be jettisoned before the plane could be landed safely.

Then he started talking Spaulding home, hoping to bring him down safely now that the Thunderjet's deadly bombs were dropped.

After minutes of patient instructions—"It seemed like hours," Bell said afterward—he got Spaulding lined up for a landing at an Allied air base, only to have the semi-conscious pilot suddenly refuse because "the runway isn't long enough."

Eventually Bell talked Spaulding to a second airfield and there completed the tricky left down and landing procedures.

Spaulding said later he did not recall dropping the bombs, nor refusing to land at the first field, nor the successful landing at the second.

Bell told of one particularly anxious moment.

"I had him just north of our nearest air base, when he suddenly asked me if he had released his bombs yet. Not knowing if he had or had not, I almost jumped off the mountain. I could just see that airbase after a couple of thousand pounds exploded in the center of it."

Another time, Bell related, Spaulding suddenly yelled into his radio mike. "My God, I've been gllobbered. I've had it."

"He was over a heavy anti-aircraft area and I thought he had been hit," Bell said. "But his plane continued to show up on my scope so I knew he was all right."

When the plane finally landed, rivets along the leading edge of the wing had popped out. Wing tip tanks were loose. Stabilizing fins at each end of the wing tanks had been curled back over the tips.

New Trial Is Denied Sapat; Lawyer Gives Appeal Notice

BROWNWOOD, April 25 (AP)—Mario Sapat was sentenced to 99 years today in the South Texas slaying of a politician's son.

Sapat's motion for a new trial was rejected by Judge A. O. Newman in whose court the San Antonio bar owner was recently convicted.

Natally dressed, Sapat received the sentence without visible emotion.

His attorney gave notice of appeal and was granted 90 days to appeal.

Sapat, once deputy sheriff under George Parr, South Texas political leader, was convicted on murder charges filed after Jacob Floyd Jr., was shot to death at Alice Sept. 8.

The shooting was planned not for the college student but for his father, an arch political enemy of Parr, the elder Floyd testified.

Floyd testified Nago Alaniz, also charged in the slaying, told him that "hired killers" were out to get him. Testimony indicated Alfredo Cervantez, a Mexican still at large, was the gunman who lurked in the Floyd garage to ambush the elder Floyd.

Alaniz, free on bond, is to be tried next. The time and place has not been selected. The two murder trials were moved here from Jim Wells County.

Forgus Resigns Post As Deputy

C. H. Forgus, who has served as a Howard County deputy sheriff since January, resigned his position Saturday.

Sheriff Jess Slaughter said that Forgus resigned to join his wife in California. Forgus' wife has been confined to a California hospital for some time.

"Forgus was a capable and efficient officer, and I hated to lose him," Slaughter said. "However, as his wife is ill, he should be with her."

Forgus was appointed deputy when Slaughter took office Jan. 1. He was formerly a member of the Big Spring police force, having served approximately three years.

Only three other deputies are now on duty. They are Dale Lane, Floyd Moore and Jimmy McCoy. A replacement for Forgus has not yet been named.

Detroit Driver Wins 1953's Economy Run

Winner of the nation's greatest mileage marathon, the 1953 Mobilgas Economy Run, from Los Angeles to Sun Valley was a Ford Mainliner "6" driven by Les Viland of Detroit. Covering a rugged 1,206-mile course in three days, the winner averaged 27.0335 actual miles per gallon and 56.7028 ton-miles per gallon. Viland's average speed was 44.29 miles per hour.

Twenty-five stock automobiles competed with an average for all cars of 22.2869 miles per gallon. These stock model cars were chosen at random from dealer's show rooms.

The sweepstake and eight class winners, determined by price and type of transmission registered their trophies in colorful ceremonies at Sun Valley, Idaho Thursday morning, following all night computations by the American Automobile Association officials who planned and supervised the Economy Run.

Awards were presented by officials of General Petroleum Corporation, western affiliate of Soco Vacuum and by Guy L. Tate, vice president in charge of marketing

for Magnolia Petroleum Company, Soco-Vacuum's Southwest affiliate.

The tough road test which covered four states, was selected to duplicate all the varied driving conditions an average motorist encounters in a full year of travel.

Altitudes on the course ranged from 19 feet above sea level to 7,383 feet and a wide variety of temperatures, rain and fog were encountered. One-tenth of the total mileage was within city limits. The remainder of the route took competing cars over highways routed through the desert and mountains.

Drivers had to observe all state and local speed and safety regulations while maintaining near top legal speeds in order to complete the run within the prescribed time limit.

Purpose of the Annual Mobilgas Economy Run is to demonstrate the full mileage potential of 1953

Legislature Nears A Crisis On Taxes

By DAVE CHEAVENS
 AUSTIN, April 25 (AP)—The Legislature has maneuvered itself a little closer to put up or shut up time.

It's got to put up some more money to pay for teacher salary raises, or shut up shop and go home.

Just how close it is, to the critical hour of decision on taxes is anybody's guess now. The session could battle it out for weeks or even months.

A bill calling for \$600 yearly increases in the base pay for public school teachers has passed the Senate and advanced to the point of final approval in House.

It halted there when its backers called for a slowdown to find an answer for the \$6 million dollar question: Where's the money, coming from?

House proponents of a plan to increase the salaries only \$300 a year argued themselves hoarse last week that it would be easier to raise \$3 million dollars than \$6 million. The \$600 a year boys said never mind, there are ways of doing it that won't hurt anybody too much.

Water conservation, crowded teachers pay for the spotlight this week.

A 14-hour filibuster in the Senate held up a proposed amendment to finance local water-saving projects by water use taxes. It was part of a state-wide drought-fighting plan offered the Legislature by the governor's committee that studied the problem.

The bill offering several ways of financing an \$5 million dollar dam on the Canadian River to supply water for a dozen West Texas towns neared final passage. The House approved it and sent it back to the Senate with amendments.

The governor signed into law a bill creating the Northeast Texas Municipal Water District for a group of towns in that area.

Other developments this week:

1. Rep. Joe Burkett's bill virtually wiping out the Gilmer-Alkin school laws was approved by the House Appropriations Committee and awaits first floor debate.

2. The House passed and sent to the Senate a bill generally tightening up on beer and liquor control. It was aimed partly at tough joint taverns and provides such spots that are a threat to "morals and decency" may have their permits denied.

3. The House failed to give an amendment, abolishing the hard-to-collect auto property tax, enough votes for final approval there. It was just barely alive and may be brought up again.

4. New spending measures, including \$3 million dollars for a new Eastham Prison Farm unit, were approved by the House Appropriations Committee. They further underlined the coming struggle over taxation.

5. The House argued about a proposal to speed up congressional redistricting, did nothing about it.

Groups Urged To Seek Educational TV Space In Area

B. M. Keese, dean-registrar of Howard County Junior College, Saturday urged organizations in this area to ask reservation of TV space for educational purposes.

He is chairman of a committee, named at an adult education conference last week, to ask the Federal Communication Commission to reserve TV educational space.

Originally the FCC had set aside 18 channels for educational institutions in Texas, provided they were activated by June 1, 1953. Only about three of these have been utilized. Now educators are asking that the unused channels be reserved until June 1, 1955 instead of reverting to the FCC.

Scholastic Census Checks Being Made

Final checks are being made on the annual scholastic census of the Big Spring Independent School District.

W. C. Blankenship, superintendent, said Saturday that there was still some checking at elementary school levels that needed to be done.

However, he was hopeful that the report could be completed by the end of the month. He issued an appeal once more for persons who know of children between the ages of six and 18 as of Sept. 1, 1953 who have not been enumerated to call his office (3520).

JC Presented With Steel Engravings Of First 25 Presidents

Steel engravings of the first 25 presidents of the United States have been presented to the Howard County Junior College.

J. J. Holder, Stanton, made a gift of a book, now more than 50 years old, to the college. It is approximately 18x20 inches and except for its bindings, is well preserved.

B. M. Keese, registrar, said that the engravings would be removed and framed and added to the HC-JC library. Holder came by the book several years ago from a state senator, who in turn had received it from a U. S. senator, said Keese.

Glasscock To Vote May 15 On Road Bond

GARDEN CITY — Glasscock County's tax-paying voters will go to the polls May 15 to decide whether they will set a new precedent for the county.

An election has been called for that date to decide on a \$50,000 road bond proposal.

At present the county has no bonded indebtedness, and nobody can remember for sure how long it has been since the county had some outstanding bonds against it.

The election was called by the county commissioners court following receipt of a petition signed by the required number of tax-paying voters, said County Judge David Lee Smith.

If approved, the bonds will be sold to finance road equipment and maintenance in the county.

Judge Smith said he believed that the county once did vote some road bonds, but he couldn't recall the date. Mrs. Vena Lawson, county clerk, said she thought the county sold some road bonds at one time, but it was before she first took office 12 years ago.

Voting boxes will be open at all regular polling places for the May 15 election.

Two Churches Here Are Burglarized

Two churches were burglarized Friday night, but only \$5 was reported missing from one of the institutions Saturday.

Police said the First Christian Church, 10th and Goliad, and the Baptist Temple Church, 11th Place and Goliad, were raided by thieves.

The \$5 was taken from an office at the Christian Church. Officers were unable to find any place where entry was forced, and said the thief may have been locked in when the building was closed Friday afternoon.

Entry to the Baptist Temple was gained by way of a rear window, which was broken. One locked desk was jimmied and an inside door was forced.

Rev. James H. Parks, pastor, Saturday reported that nothing had been found missing from the church.

CAST BREAD

"He shall be blessed that giveth his bread to the poor." Prov. 11:29. Have you ever tried this formula? It works! Compassion of American service men for little war orphans is bread that will come back to America some day. A mischievous college boy was given another chance. Years later, the wealthiest man in his state, he paid off his Alma Mater debt. Giving is not losing. To give is to gain. Generosity expands the soul, gives one more capacity to receive. Jesus said, "Give and it shall be given to you; good measure, pressed down and running over." Every moment is the right time to cast on the waters the needed piece of bread. Why not cast yours this very day.

May this brief message be a blessing to many is the Prayer of "The Business Men's Bible Class." May, God always bless America—Her People and Her Churches. Attend your church today.
 Rupert Ricker brings God's word to our class each Sunday Morning at 9:30 at the Settles Hotel. You are always welcome. Coffee and Doughnuts are served until 9:30.

Seven Youths Are Quizzed On 'Rock-Throwing'

Two rock-throwing incidents in and around the Boy Scout encampment south of Big Spring Friday night resulted in a broken automobile window and conferences for seven youths with juvenile officer A. E. (Shorty) Long.

Four 16-year-old boys, not Boy Scouts, precipitated a disturbance about 12:30 a. m. Saturday by throwing rocks into the Scout area. Several tents were hit, Long said, but apparently no one was injured.

Deputy Sheriff Dale Lane took the four into custody, but Long said Saturday afternoon talks with Scout leaders and the four youths that no charges will be pressed.

Three 15-year-old boys, all from Snyder, also participated in discussions directed by the juvenile officer Saturday.

Long said the three were throwing rocks and a stone smashed the back window of an automobile driven by L. W. Ford of Levelland. Ford was driving on Highway 87 south of the city.

The three Snyder youths told Long they were "just throwing" and one of the rocks struck the car. They agreed to pay for the damage.

General Grant Just Before He Died

This picture of General Ulysses S. Grant, the 18th President of the United States, was made available April 13 by Stefan Lorant, Hungarian-born, naturalized American author and historian, who said it was taken July 20, 1885, three days before Grant died. The general is reading on the porch of Drexel Cottage, near Saratoga Springs, N. Y., where he died of throat cancer. Nine notes written by the general in his dying days when he was unable to talk are being given to the U. S. Military Academy at West Point, N. Y., by Mrs. Lorant. The author explained he obtained the Grant material from a descendant of an old family friend of the general. (AP Wirephoto).

SECRECY SHROUD RIPPED

Allied Prisoners Tell About Brutal Acts Of Red Captors

By ROBERT EUNSON
MUNSAN, Korea, Sunday, April 26 (AP)—The ghosts of dead men, the sound and fury of old battles, lived again this week as returned Allied prisoners ripped the shroud of secrecy from 30 months of captivity.

And beneath the shroud the Allies found something ugly and sinister that they knew was there all the time—the brutality of Communist captors, particularly in the early days of the Korean War.

The death marches, the hunger and disease of the prison camps, the shocking lack of medical care—all these had been outlined before in official United Nations Command documents.

Now, from the lips of survivors came oral confirmation of a part of those impersonal statistics which showed that approximately 8,000 Americans alone were killed or died of neglect from the start of the war until November, 1951.

Going over the prisoner stories, it was noted that the returned prisoners seemed to be divided into two categories.

There were those captured before the summer of 1951, when the armistice talks began. And there were those captured since. Everyone agreed treatment improved after the truce talks opened.

The horror stories came from the "old boys." The late captives,

some taken as recently as last month, said things were not so bad.

For example, Pfc. Samuel J. Armstrong of San Antonio, Tex., a young Marine who was captured on Outpost Vegas just a month ago, had no harrowing story to tell. He was never in a rear camp.

The real shockers came from such veterans as Sgt. Walter H. Mitchell of Greenville, Tenn., and Pvt. William J. Prabucki of Pittsburgh, Pa., who told of thousands dying on death marches in brutal

cold in the winter of 1950-51, of wounded clubbed and left to die, of starvation in a sinister "Death Valley" camp 30 miles north of Changjin Reservoir in Northeast Korea.

Some soldiers said they were so ravenous in "Death Valley," a way stop on the winding route to prison camps far to the north, that they ate dogs.

But Prabucki was not the only man who recalled "Death Valley." It was apparently so well known among American captives in North Korea that it will be remembered along with the Batan death march in the Philippines and the concentration camps in Nazi Germany.

Talbott Dedicates Fort Worth Airport

FORT WORTH, April 25 (AP)—Air Force Secretary Harold Talbott dedicated Greater Fort Worth International Airport today "as a manifestation of the spirit of Texas, of courage and of vision, of firm faith and hard work."

He called it "the spirit of America that made us free and strong."

The secretary, who represented President Eisenhower at the opening of the giant airdrome, spoke to a shirt-sleeved throng from the observation deck of the Terminal Building.

Talbott described Amos Carter, head of the Fort Worth Star-Telegram, as "an early champion of air power and among the pioneers in civil aviation." He was one of the leaders in building the airport.

Talbott told the thousands who attended the opening that "defense is the biggest business venture of our time—the business of getting America so well prepared as to deter aggression and to defeat the aggressor who refuses to be deterred."

"We believe that the principles of sound business that have contributed so greatly to the success of American enterprise can well be applied to the administration of national defense."

He called the job of national defense "only partly ours in Washington."

"It is only partly the job of our armed forces," he said. "It is basically a job for all loyal and patriotic Americans. Together all of us can do it and do it successfully."

"When I look out upon this magnificent air field with its splendid facilities, I am more convinced than ever that what the American people set out to do they can accomplish successfully."

He praised Navy Secretary R. B. Anderson and Sen. Lyndon Johnson, both Texans.

He said all those who have come in contact with Anderson, whose

Talbott said Johnson's name never can be omitted "when we discuss national defense."

"Sen. Johnson is a lower of strength to the United States Air Force," said the secretary. "We are very proud of our stalwart champion from Texas."

Soil And Water Conservation Meet Set Here

One of the few soil and water conservation conferences sponsored jointly by the Association of Texas Soil Conservation District Supervisors, the Texas Soil Conservation Board, the West Texas Chamber of Commerce, and local Chambers of Commerce, has been scheduled for Big Spring on May 14.

In co-operation with the Big Spring Chamber of Commerce, the Big Spring unit of the SCS, and the supervisors of the Martin-Howard SCD, the meeting will be held at the Settles Hotel starting at 1:30 p.m.

Similar meetings were held at Sweetwater and Eastland in February.

Presiding here will be J. C. Porter, manager of the agriculture department of the First National Bank of Wichita Falls, and chairman of the WTCC's soil conservation committee. Porter will be assisted by Loyan H. Walker, manager of the WTCC's agriculture department.

Among others who will appear on the program will be Ralph Schwartz and James Cover, soil scientists with the SCS; Howard B. Boswell, assistant state conservationist with the SCS; John B. Cole, executive director of the Association of Texas Soil Conservation District Supervisors; supervisors of some of the Soil Conservation Districts in the West Texas area covered by the conference, and others including representatives of the Texas Soil Conservation Board. Representatives from a number of West Texas counties are expected to be present.

The purpose of these meetings is to bring together managers of chambers of commerce, bankers, production and credit loan association managers, supervisors of Soil Conservation Districts, SCS specialists and business people who are interested in learning more about the overall soil and water conservation programs.

Measles Tops List Of Weekly Diseases

Measles was the most prevalent contagious infection diagnosed by Big Spring doctors during the week, the Big Spring-Howard County Health Unit reported Saturday.

The weekly round-up of communicable diseases listed 46 cases of measles, second on the list was tonsillitis, with 34 cases. There were 22 cases of mumps.

Other infections and the number of cases of each diagnosed were: diarrhea, seven; chicken pox, seven; pneumonia, seven; trench mouth, three; whooping cough, two; strep throat, two; and meningitis, one.

Teachers' Groups To Meet On Monday

Two committees of the Howard County Teachers Association will meet Monday at 7:30 p.m. in the County Superintendent of Schools office.

One is the nominating committee, which will select officers for the coming year, and the other is the auditing committee, which will check records for the past year. W. A. Wilson, Coahoma High School principal and president of the association, will preside at the meeting.

Riding THE GRUB LINE With Franklin Reynolds

Two of the most interested visitors on the recent Howard County conservation tour jointly sponsored by the Big Spring Chamber of Commerce and the supervisors of the Martin-Howard Soil Conservation District were Bob Middleton (left) of the First National Bank, and Bob Currie of the State National Bank.

And while neither of these gentlemen has been interviewed on this point or asked to make a statement, the conservation workers are trying to sell the bankers on the idea that conservation is better collateral than conversation.

Throughout the state bankers like Middleton and Currie have been playing a leading and most important part in the "Save the Soil and Save Texas" program.

Known as conservative thinkers, the bankers are also "conservation thinkers."

Not enough Big Spring businessmen showed enough interest in Howard County soil conservation to join these gentlemen on that field day trip.

These windy days make more difference to more people in more ways than many people may suspect.

Jake Bruton who is loading cartridges for target practice by law enforcement officers for points as far away as he can ship them without the transportation on the lead taking up all the slack in the profits, pointed out the other day that such shooting drops off on the windy days because the high winds cause a deflection of the bullets that is apt to prevent the shooter from doing his usual fine target punching.

At the same time, and just as he finished loading 3,000 cartridges in his gun shop for a Texas Highway Patrol shoot at Lubbock, he commented that these boys go right ahead and shoot in all kinds of weather.

"In the course of their work," he explained, "they may have to shoot in any and all kinds of weather. Therefore they get in practice

April 1 and 15. Listed lands in this sand area are no longer holding. Goodlett says, and there isn't anything the landowners can do except start "praying" for rain. Last year they tried "praying" and that didn't work.

The worst of the blowing, according to Goodlett is in what might be called the immediate Brownfield area.

Blowing has also been bad in the Lubbock and Perryton areas.

In the days of the Indians the rivers of the West ran crystal clear and then came the white men with plows. In the days that followed, with rich topsoil being washed down to the sea an old Indian stood on the banks of a flooding river and said out of great wisdom: "Too thick to drink, too thin to plow."

That's the situation it looks like a whole lot of West Texas land is headed for—too thick to breathe and too thin to plow. All of which resolves itself into three words—"Too Much Cotton!"

Fourteen county Farm Bureau presidents and secretaries from District 6 met here Friday at the Settles Hotel with C. H. DeVaney of Coahoma, to discuss programs and policies on the county, state and national levels.

DeVaney, who is vice president of the Texas Farm Bureau Federation, is spending most of his time in Austin these days where, with the help of Loys Barbour, a state director from Iowa Park, he is representing the farmers of Texas before the Legislature.

The conference here followed a meeting of the TFBF state directors and was primarily for the purpose of reporting to the county Farm Bureau officers on the matters that were discussed by the state directors.

Barbour, is well known to Howard County farmers having visited and spoken here several times.

Among the matters discussed at Friday's assembly were the recent Fort Worth cotton meeting; the

cottonseed price support program; the processing of cotton loan payments; the Bracero contract; the organization of the Farm Bureau at all levels; the meeting of the American Farm Bureau Federation committee with representatives of the REA; pesticides and the pure food laws; the reorganization of the U. S. Department of Agriculture by Secretary Benson; the pay increase for teachers; the gasoline tax, and other matters.

DeVaney pointed out that Secretary Benson's plan for the reorganization of the USDA is in line with resolutions previously adopted by both the TFBF and the AFBF. Those attending indicated they will send telegrams and letters to their representatives in Congress asking support for the Benson plan.

Mrs. Mae Wolfe, who recently resigned as the Howard County Farm Bureau's office secretary has been succeeded in that position by Mrs. Dauphine Kirkland.

Ninety-one farmers have filed requests for 1,570 Braceros this year. Cecil Leatherwood, Howard County Farm Bureau president, has announced. Leatherwood says another request will be filed about May 10, and that farmers who have not already gotten their orders in will have a few days yet in which to do it. He is urging them, however, not to delay the matter but to get it done just as soon as possible. They can get plenty of help in preparing their applications at the Bureau office, 117 1/2 Runnels, he says.

Tire, Wheel Found

Tire and wheel from a Ford pickup was found Friday night south of Big Spring by High School Coach Carl Coleman. Owner may claim the spare at the city police station, officers said Saturday. The tire was found near "Goat Hill" south of the city. Coleman reported.

Secretary Aide Is Wary Of Red Moves

DURHAM, N. H., April 25 (AP)—Under Secretary of State Walter Bedell Smith cautioned today that, regardless of Soviet peace overtures, Russia will live up to agreements only "if our negotiating position has solid strength behind it."

Cub Pack No. 29 Will Meet Monday

A program on Hawaii has been planned for Monday night's meeting of Cub Pack No. 29.

The session is set for 7:45 p.m. in the High School cafeteria.

A special program will be presented, and natives of Hawaii may appear in special numbers; said Jack Alexander, Cubmaster.

Refreshment will be served, and all members of the pack and their parents are urged to attend.

Smith's speech was prepared for delivery at a convocation of the University of New Hampshire. It was written and given to newsmen in advance of the latest Russian peace statement that the Soviets are willing to enter into "business-like" talks with the West.

Smith said that it is up to the Soviet leaders to grasp the open hand tendered in a sincere gesture for peace.

But he said the U. S. also had a fist clenched in readiness, because we are dealing with an extremely reactionary regime still wedded to an archaic concept of power.

Recently head of the Central Intelligence Agency and wartime chief of staff to President Eisenhower, Smith is a foremost administration adviser on relations with the Kremlin.

"In recent weeks we have witnessed what appears to be a reversal of the Soviet line," he said, adding:

"It is possible that the new Soviet directorate recognized the necessity of consolidating its power. It is equally possible that the Kremlin realizes it is over-extended and is looking for a breathing spell."

"But it seems to me certain the new regime is to some considerable degree reacting to the effectiveness of Western measures in the face of danger."

President Eisenhower's April 16 world peace program brought about a "dramatic change in the political climate," Smith declared.

Although reactions in Communist countries were little known, he said, the speech was taken seriously and where it was heard over the Voice of America in satellite countries "it was received with emotion—in some cases actually with tears."

Byrd Offers A Plan For Cut In Budget

WASHINGTON, April 25 (AP)—Sen. Byrd (D-Va.) said today the Eisenhower administration can cut the budget \$6,800,000,000 without trimming military combat strength but must keep taxes high to escape a deficit.

The Virginia Democrat, long a voice of economy in Congress, offered a budget of \$71,800,000,000, about 9 per cent under the \$78,600,000,000 in spending recommended by former President Truman.

Although the Eisenhower administration has yet to come up with its own figures, Byrd, chairman of the Committee on Reduction of Non-Essential Expenditures, said the books can't be balanced for the year beginning next July 1 if Congress lets automatic tax reductions take effect.

The excess profits tax will go off business firms on July 1 and individual income levies will go down 10 per cent next Jan. 1 unless Congress acts.

Asserting that it would be "folly" to let this happen, Byrd proposed that both taxes be extended until July 1, 1954, a position Sen. Taft of Ohio, the Republican leader, indicated he might support.

Byrd said he planned his proposed budget cuts so that they would involve no reduction in either major military procurement or armed force strength.

He proposed that military expenditures be limited to the \$42,900,000,000 of the current fiscal year, instead of being stepped up to \$45,400,000,000 requested by Truman—a saving in this instance of 2½ billion.

The Virginian figured domestic-civilian spending should total \$24,200,000,000, a cut of \$1,400,000,000 under the Truman estimates. He listed total foreign aid expenditures of \$4,700,000,000, of \$2,900,

000,000 under Truman's figure. To help revenues close the gap against outlays, Byrd proposed that government corporations, like the RFC, dispose of one billion in assets and turn the money into the Treasury.

Five Enlist At Local Station

Edwin Spenrath Jr., son of Mr. and Mrs. E. L. Spenrath, 1401 Stadium, is now serving with the Army at Fort Sill, Oklahoma.

Spenrath enlisted in the service here last Wednesday and was shipped here last Wednesday and on to Fort Sill. He joined for a period of four years.

Having graduated from Austin High School, he was attending the University of Texas. Spenrath was majoring in civil engineering and had a senior standing. His parents moved here last year.

Another Army enlistee and three for the Air Force were recruited through the local station last week. Elton Davis of Odessa went into the Army, and Dale L. Cammock and Floyd B. Mark of Odessa and Tommy Blakney of Midland went to the Air Force.

Sfc. A. M. Burt, local recruiter, stated that there is a sizeable waiting list for Air Force, but that Army enlistees can go right on in the service.

On each of the three Christmases, three birthdays and three wedding anniversaries that Sgt. Alberto L. Survivors Tell How Plane Suddenly Ripped In Crash

SEATTLE, April 25 (AP)—Two survivors of a C46 crash in the timbered, snow blanketed Cascades told today of the unexpected ripping, tearing impact, sudden darkness and then silence broken only by the cry of a frightened animal.

The tale came from Capt. John Schroeder of Coral Gables, Fla., and co-pilot James Gilbert of Hialeah, Fla., the relief crew of the Miami-based twin-engine plane being flown to Seattle for a load of homeward bound soldiers.

Two other crewmen died at the controls. They were Capt. Maurice Booska and co-pilot Donald Dwelley, both of Miami, who relieved Schroeder and Gilbert over Cheyenne, Wyo., before the C46 met

disaster early Thursday. The four were the only ones aboard.

One body, tentatively identified as that of Booska, was recovered yesterday from the crash scene about 40 miles southeast of here.

There was no trace of the other, and King County Coroner John P. Brill Jr., said that snows 7 feet deep might have to melt before it is found.

This is National Baby Week, and there's no better way to greet the occasion than to be brand spanking clean. Hence, some of Big Spring's youngest generation are snapped by The Herald photographer in some of their more intimate moments. CAMPUS CHATTER

By Darlene Sneed

Sophomore students are preparing for the graduation banquet which is about a month away. The banquet is scheduled to be June 1 at the high school cafeteria. The class met Thursday during activity period to begin making plans for the affair. Weldon McElreath presided at the meeting. A committee of Lou Ann Nail, Voncell Rhoton, and McElreath was appointed to make all the necessary plans for the banquet.

The Lasso Club staged a spring style show Tuesday night in the college auditorium. Zack's of Margo's furnished the dresses. Mrs. Janell Davis was commentator and college girls served as the models for the show. The stage was set as a street and a store window. Models posed as mannequins in the window and came to life as the commentator described each one. A reception was held in the small auditorium following the program. Lynn Mitchell and Nan McGahey served at the refreshment table. Around 60 people attended.

The Blue Notes, a girl's sextet composed of Lou Ann Nail, Mary Sue White, Jonell West, Diana Farquhar, Francis Rice and Bobbie Adams, and the boys' Barber Shop quartet, composed of Charlie Warren, Elwyn Bass, Cecil Hogard and Weldon McElreath, were on the programs Friday and Saturday at the Lions' Club Convention in Odessa. The groups were accompanied by Elizabeth Cope, director, Marvin Baker and Dr. W. A. Hunt.

All sophomores who wish to have their records checked for eligibility for graduation should go by the registrar's office and leave their names. Night students should also. The Engineering Club attended an engineering show on the Texas Tech campus in Lubbock over the week end. Those boys who went were Bob Baker, Charlie Howle, Gary Warren, Gerald Fieber, Wayne Glenn, Jimmy Harper, Glenn Barnes and sponsor, Jerald Brenholtz.

The Lasso Club had a party during activity period Thursday. Refreshments were served and records were played. A short business meeting followed. The Jayhawk tracksters will go to Lubbock Monday for the Zone meet. Boys who are scheduled to participate in the meet are Ben Hitt, Bob Baker, Carl Preston, Robert Cobb, Jackie Gilbert, Weldon McElreath, John Hilary Brown and Maple Avery. Coach, Marvin Baker will accompany them.

Some of the kids seen at the BSHS senior play, Friday night were Frances King and Jack Lee, Shirley Riddle and Charlie Warren, Voncell Rhoton, Rickets Gilmore, Dallas Williams, Cecil Hogard, Don Stevens and Jack Price. Erwin Jarrett from Lubbock will be on our campus Wednesday.

MR. AND MRS. DAVID BEARD AND CHILDREN

Children Are Elated Over Proposed Ride

Mr. and Mrs. David Beard, 1402 Wood, have known each other since grade school days but it wasn't until the Junior-senior banquet that they realized they liked each other.

Married 11 years, the couple has two daughters, Nancy Lee, 5, and Barbara Ann, who will be 8 in May. The family moved here a short time ago from Vernon.

But they own their own home in Arlington and the grandparents still live there.

Beard is employed by Western Electric and served during World War II with the Army Air Force.

Mrs. Beard, an attractive brunette, has always been active in the U-TA, Brownies and the work of the Baptist Church.

Barbara is a second grade student at South Ward and has been eagerly awaiting her second train ride.

"The first time she was so little she doesn't remember anything but the whistle," commented her younger sister.

Nancy, whose trip to Arlington on the train will be the first time for her, is enthralled with the idea of getting to eat while riding.

"If we run out of milk we can drink water in a paper cup," she said knowingly.

Boren Twins Are Birthday Honorees

Donald Dean and Donna Jean, twin son and daughter of Mr. and Mrs. Arvin T. Boren, were honored recently with a party on their sixth birthdays.

Pictures of the group and of the twins with their cakes were taken. Favors were small cups containing candy, balloons and bubble gum.

Attending were Mrs. J. L. Stevens and Sherry, Mrs. J. C. Stevens, Judy and Jimmy, Mrs. Bob Rodman, Dianna and Bobby, Susan Knox, Mrs. James Holmes, Belinda and Larry, Vickie and Tony Lilly, Dessie Stump, Ricky Stone, Richard Clark, Kenny and Judy Boren and the honorees.

Styled by Nardis of Dallas, they're designed with short and saucy striped sleeves and a wide scooped neckline. They're fitted at the waist and have a side zipper to solve the straying skirt problem. In black, white, chateau or red, they'll be a spicy separate to team with spring and summer skirts.

LONG LIVE THE KINGS . . . because they live on Kingsbridge playing cards, designed in special theme of the Coronation. Created with authentic reproductions of famous English personages, these cards with a history are now on display at HESTER'S. The portraits reproduced on the Kings, Queens and Jacks include: Edward VII, Richard, the Lion Hearted, Henry VIII, William III, Queen Victoria, Anne Boleyn, Queen Anne, Queen Elizabeth, Disraeli, Sir Francis Drake, John Churchill, and Admiral Horatio Nelson. Included with your set of cards, there's a pamphlet giving a short history of each of these famous people. Plastic coated for durability, and edged in 24 Kt. gold for beauty, they're a crowning achievement in playing card design.

The handsome striped material is fashioned in shades of brown, black and gold; each piece is lined with black and sports a dashing black fringe trim. The outfit includes a button-down-front skirt (that converts into a smart cape), a bare-back halter and little boy shorts . . . each piece styled and constructed for flattering flexibility to accompany you on all your casual capers.

The Center still needs some good phonograph records—any speed, long playing or otherwise. Mrs. R. E. Brodhagen brought a coffee maker which is very much appreciated. The Center could use another one. Junior hostesses serving at the Center last week were Elizabeth Cope, Evelyn Martin, Midge Olive, Jo Ann Gay, Fayre Price, Minnie Ola Woods, Cleo Warren, Flora Dene Elliott, Ipha Bush, Marie Brand, Frances Bartlett, Jeanette and Jeanne Martin.

BARBARA DOUGLASS

Barbara Douglass To Star In McMurry Film

Barbara Douglass, daughter of Mr. and Mrs. Dale Douglass, has the title role in the movie, "Medea," which will be presented in a world premiere May 1 by the Department of Speech at McMurry College in Abilene.

Miss Douglass, now a speech teacher at Plainview High School, graduated in 1952.

Made in full color and sound, it is the first Greek tragedy ever to be filmed by any group, including Hollywood studios. Bill Adams, head of the speech department, is director and producer.

A year's production and preparation have gone into making the movie, which was inspired by the successful stage production of "Medea" by the McMurry Theater last spring.

Adams had felt for some time that the cinema had matured sufficiently to be as worthy of academic consideration as the theater was. A graduate course, called "Advanced Production" was placed in the curriculum to give credit to cast and crew.

The same cast and crew was used in the theater and film ver-

sions of the tragedy. The college gymnasium was converted into a sound stage and filming was completed during the 12 weeks of the summer term last year.

Mason Summerlin, associate professor music, however, required most of the fall and spring semesters to compose the musical background score and have it dubbed in. It was also necessary to make title and credit films, duplicate prints and complete general processing.

Others in the cast are Maurice Pullig, of Sweetwater, now speech teacher at Throckmorton High School, as Jason, and Jerry Powell, head of the speech department at Andrews High School, as "Creon."

Tickets are available at \$1.25 from the Speech Department. The premiere will be in Radford Memorial Student Life Center at 8 p.m.

Requests to book the movie have been received from the University of Southern California, Northwestern University, University of Alabama.

JIMMIE LEE PITTS

day in the Municipal Auditorium. Tickets are \$1 each.

The young Negro contralto is working for her Master of Arts degree at Westminster Choir College in Princeton, N. J. She is the daughter of Mrs. R. J. Walker, 311-NW 4th.

In a letter to Mrs. George O'Brien, one of the first to recog-

nize Miss Pitts' talent, Dr. John F. Williamson, president of the college wrote:

"She has been soloist on our last tour with Westminster Choir and her singing was so thrilling that every night the audience had three recalls.

"Two of the critics felt that she was young, and all of our graduates foresee a great future for her. I wanted to tell you this so that you could tell her friends that they can expect something beautiful and I know you will all be very proud of the great progress she has made and the splendid results she has achieved."

Mrs. O'Brien first heard Miss Pitts sing at a church function and was so impressed she insisted that others hear her. Mary Lou Hendricks, then music instructor at Howard County Junior College, wrote Dr. Williamson for an audition.

The B&PW, Cosden Corporation, the state Negro student fund, and individual contributors, combined to give Miss Pitts a financial start at the college.

Since then the proceeds from her concerts, together with help from Cosden and the state student fund, have made it possible for her to continue her studies.

The Lakeview Chamber of Commerce will sponsor Miss Pitts' concert in Big Spring.

Says Mrs. J. C. Stinson, 2907 Avenue U, Snyder

Naturally, we bought another of the same make. My new range is more economical and is easier to keep clean."

Mrs. Stinson speaks from long experience. She has tried and proved that electric ranges give the ultimate in cooking convenience... and, the new models are more efficient and easier to use than ever. The many time-saving, labor-saving features of modern electric ranges make cooking about as simple, clean and pleasant as it can be.

New Product Is An Aid To Skin Care

Beautiful hands—in days gone by—were a sure sign of royalty and wealth. They were beautiful, not so much because they were well cared for, but because their owners never lifted a finger.

Today a woman can be cook, laundress, as well as mother for a large family and still have the hands of an 18th Century noblewoman.

Modern science takes the credit for this piece of magic. Thanks to research, one of the most soothing emollients for the skin has been successfully refined and liquefied. The oil, of course, is lanolin. The vital esters and cholesterol of lanolin have been blended with other precious ingredients to make Lanolin Plus Hand Lotion.

This product actually does what scientists and beauticians have been trying to accomplish for years. It permeates the skin and replenishes the oils that have escaped during the day's activities.

Following a few simple rules suggested by the makers of Lanolin Plus Hand Lotion for the care and feeding of your hands will reward you amply with skin that is almost velvet smooth.

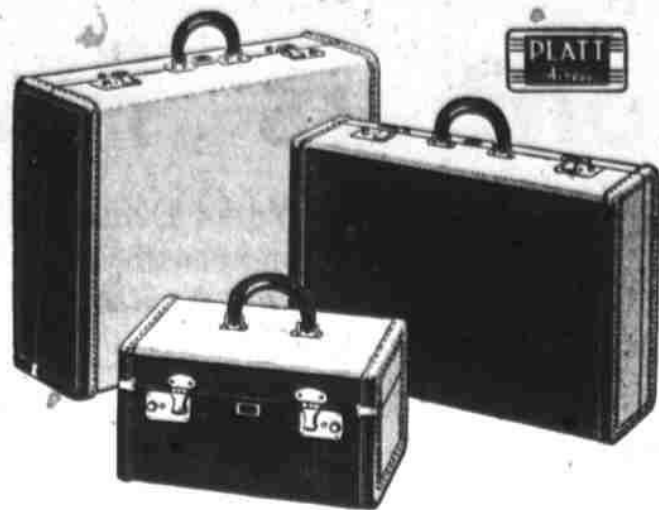

First of all, don't overapply the lotion. Only a certain amount can be absorbed by your skin as a replacement for the missing oils.

For spring you will probably want to lengthen your critical glance and follow this up with extra care. Sleeveless and short sleeved dresses will be back in your wardrobe soon, and in these "bare" fashions your elbows and arms are just as noticeable as your hands.

Be sure to apply the hand lotion evenly. Don't be fooled into thinking you have done your job well just by rubbing your palms together. Palms absorb much more readily, and it is usually the backs that need most care.

Lanolin is especially good for the cuticle around your finger nails, so be sure and rub in the lotion well. Its soothing effect will not only keep your nails looking better, but it will help prevent broken skin and hangnails.

Try putting on Lanolin Plus Hand Lotion before you start to work in the morning. You will find the round of days activities will take less out of them.

When the new baby comes, Mom, Mom and all the family at once contract snapshot fever. Taking baby pictures is one of our most popular national pastimes, and it can pay off with a priceless record of baby's development.

Unfortunately, amateur photographers often don't do justice to baby's charms. But a little study in advance will help young parents avoid some of the common pitfalls. Here are a few tips:

1—Keep your camera handy and plenty of film on hand, so you'll be ready to catch that unexpected pose. You can't expect baby to pose just when you want him to.

2—Natural, spur-of-the-moment snapshots usually are the most appealing.

3—Try to get pictures of baby in action—eating, crawling, playing with a favorite toy, splashing in the bath, asleep in his crib. Even a crying picture often is fun to add to the collection.

4—Follow baby with your camera wherever he goes—from playpen to high chair to nursery.

"What Can We Do to Preserve

Our American Heritage?" will be discussed Friday afternoon.

Prince Valiant
IN THE DAYS OF KING ARTHUR
by Harold R. Foster

Synopsis: THE FIVE CELTIC KINGS OF CORNWALL HAVE CONSPIRED TO AID THE SAXONS IN THE CONQUEST OF BRITAIN. PRINCE VALIANT, IN THE GARB OF A WANDERING MINSTREL, HAS CREATED SUCH DISTRUST THAT THE SAXONS HAVE PUT ONE KING TO DEATH.

FOR TWO DAYS HE RIDES THE DESOLATE MOOR AND COMES AT LAST TO A PLEASANT VALLEY OF MEADOW AND FARM, AND THERE, ON A HILL-TOP OVERLOOKING THE VALLEY, IS LAUNCESTON CASTLE.

FOR THE NEXT TWO MILES VAL RACES HIS PONY TO ARRIVE IN A CLOUD OF DUST, FOAM-FLECKED AND SPENT. "WAR! WAR!" HE SHOUTS.

HIS CRY BRINGS EVERYONE CROWDING AROUND TO HEAR HIS TIDINGS. "THE SAXONS HAVE TURNED AGAINST US; THEY PILLAGE AND BURN; RESTORNE! HAS ALREADY FALLEN! PREPARE FOR WAR!" HE GASPS.

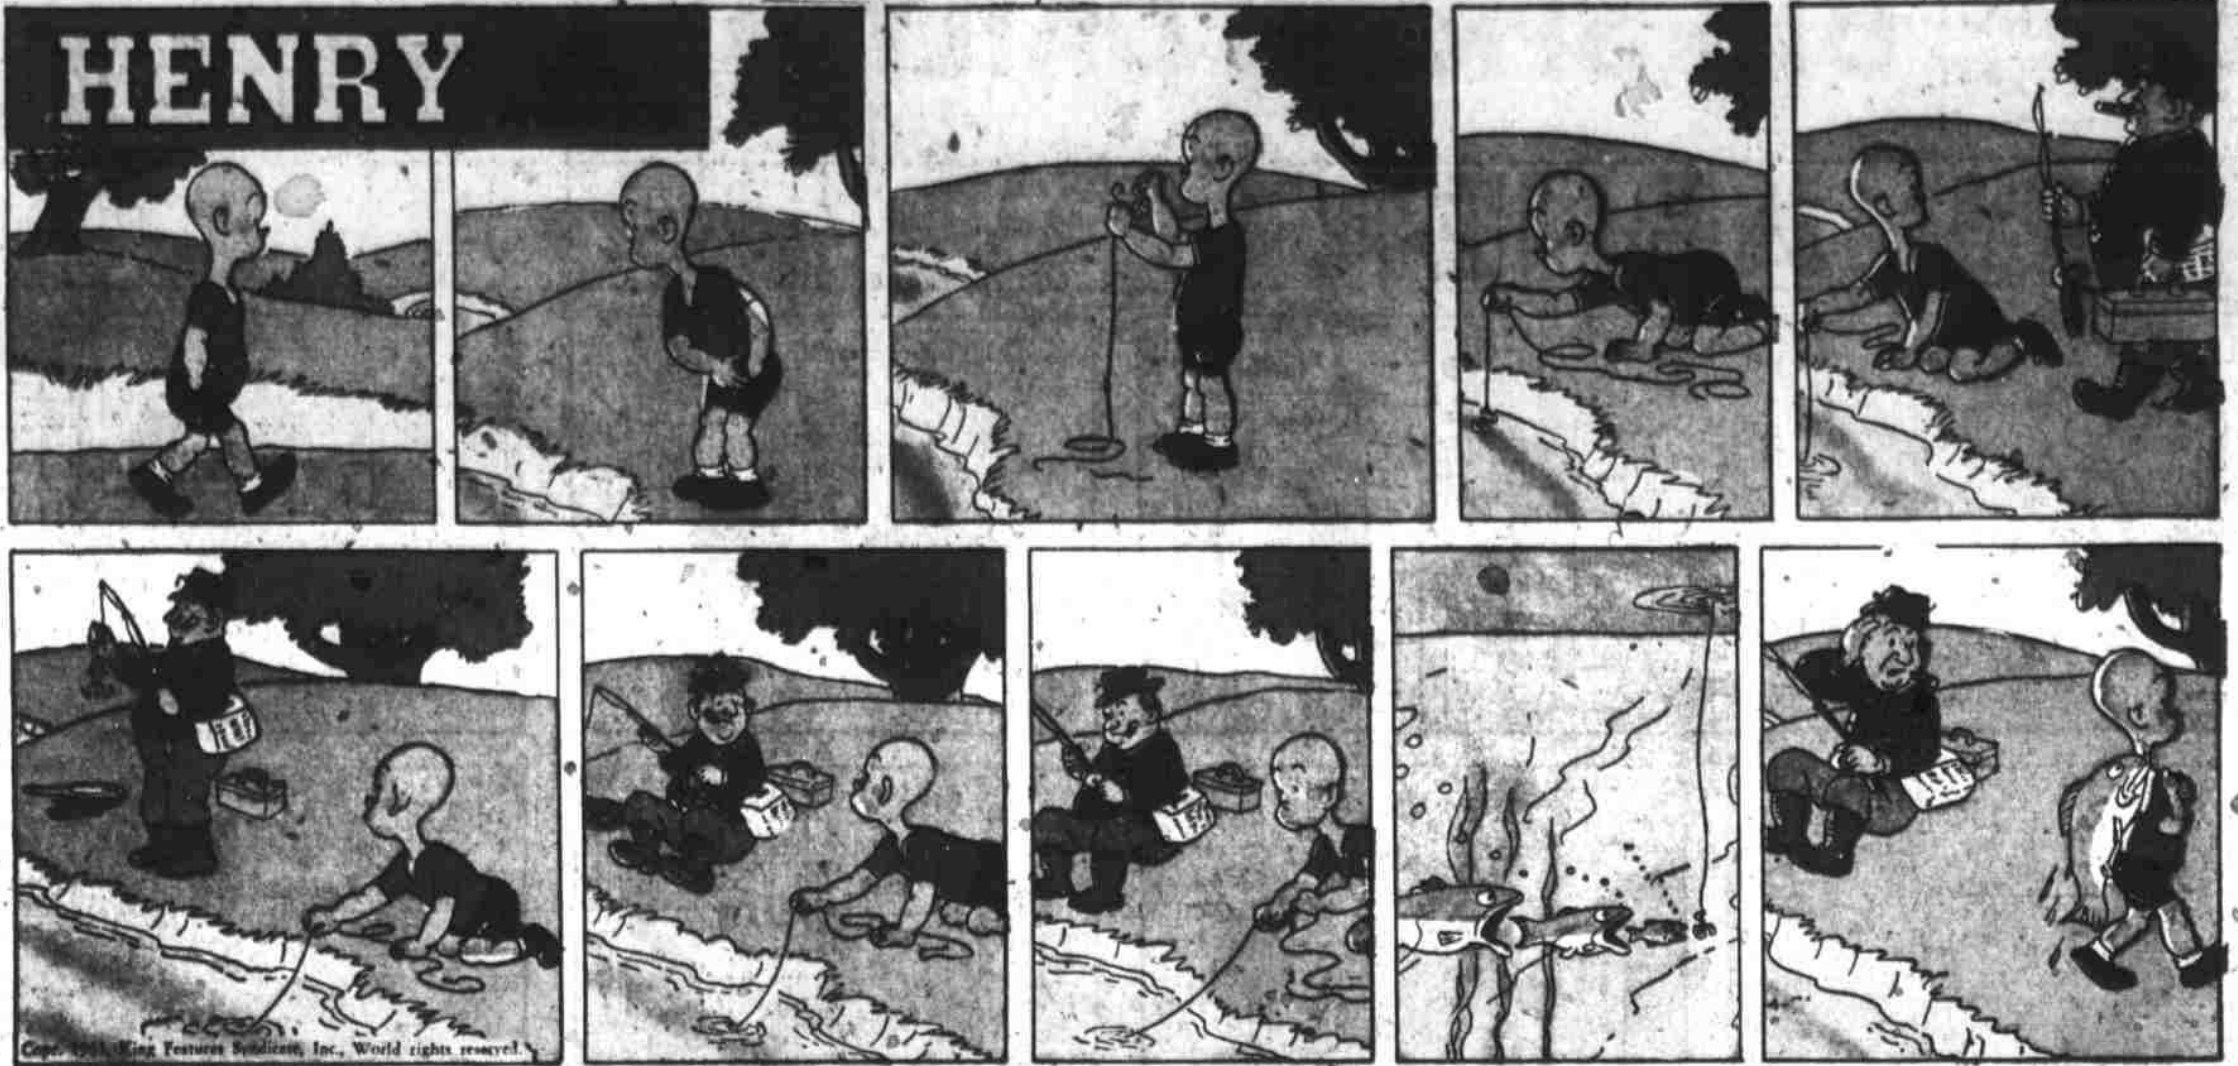

TWO SAXON CHIEFTAINS ARE WITH THE KING, PLANNING THEIR ALLIANCE, WHEN VAL IS HURRIED IN. "STAND AWAY FROM THOSE SAXONS, SIRE! CALL THE GUARD ERE THEY MURDER YOU! ALREADY HAVE THEY SACKED RESTORMEL AND PUT ITS KING TO DEATH MOST HORRIBLY!"

ANGRY VOICES ARE RAISED AND THE KING, IN SUDDEN PANIC, ORDERS THE SAXONS KILLED. AND WITH THIS DEED VAL'S SCHEME WINS SUCCESS. FOR NOW THE REMAINING KINGS OF CORNWALL MUST FIGHT FOR THEIR LIVES AGAINST THE INVADERS.

AS VAL RIDES AWAY, HE CALLS BACK: "I GO TO JOIN KING ARTHUR. IT IS BETTER TO FIGHT AND DIE A FREE MAN THAN WEAR A SAXON'S CHAINS." HE IS ANSWERED WITH A CHEER.

A RIDER CLATTERS UP TO TINTAGAL'S GATES... A SHOUT OF WELCOME AND PRINCE VALIANT'S CHEERY LAUGHTER. THE LINES OF WORRY FADE FROM KING ARTHUR'S BROW AND HE SMILES; THAT MERRY LAUGH CAN ONLY MEAN GOOD NEWS!

New FAB WASHES WHITER

NOTHING WHITENS LIKE FAB! You'll actually find that Fab washes most of your clothes whiter without a bleach—whiter than any soap, whiter than any washing product known with a bleach in the wash water.

IF YOU ADD A BLEACH TO FAB for your few stained, extra-soiled clothes, they'll come whiter, too—far whiter than with any other product and a bleach. For new Fab's exclusive whitening action is not affected by bleach.

WHAT'S MORE—FAB OUTCLEANS any soap! Washes out dirt; leaves no dulling soap scum.

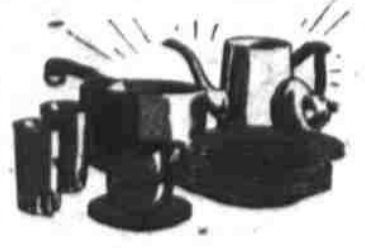

SAVE WORK! SAVE HANDS! Fab immediately loosens dirt and keeps it floating in the wash water. No soaking is needed! No dulling soap scum to rinse out—even in hardest water. And Fab is wonderfully mild to hands!

BLEACH IF YOU LIKE!
BUT WHETHER YOU DO OR DON'T—FAB WASHES CLOTHES WHITER THAN ANY OTHER PRODUCT WITH A BLEACH!

CUT DISHWASHING TIME IN HALF!

Fab soaks dishes, glasses, pots and pans shiny clean! If a bit of food clings, the dishcloth whisks it off. Just a quick rinse and dishes drain sparkling clean. No hard scrubbing, no wiping—with Fab!

WASHABLE COLORS LOOK BRIGHTER, TOO!

MY NAME IS HANFORD. MY FATHER IS LEADER OF THE HOMESTEADERS, AND THE CATTLEMEN ARE GOING TO DRIVE US OFF OUR LAND!

I'D LIKE TO TALK TO YOUR FATHER

MY DAUGHTER TOLD YOU THE FACTS. THE RANCHERS WON'T TOLERATE HOMESTEADERS. THEY CLAIM OUR FENCES HAVE SPOILED THE OPEN RANGE.

AND THE INDIANS THINK YOU'LL EXPAND YOUR LAND AND SPOIL THEIR HUNTING.

THEN IT'S A TOSS-UP. EITHER THE RANCHERS BURN US OUT OR THE REDSKINS MASSACRE US. I RECKON THERE'S NOTHIN' TO BE DONE ABOUT IT.

SOMETHING'S GOING TO BE DONE ABOUT IT, HANFORD!

LATER-- IN THE HANFORD FARMHOUSE

NEW VEL^{*} MAKES DISHES SHINE WITHOUT WASHING OR WIPING!

"VEL SOAKS DISHES CLEAN—
SAVES YOU ALL THE
HARD WORK!"

DON'T WASH—JUST SOAK
Dishes soak grease-free in seconds! No washing is needed. If food clings, a touch of the dishcloth gets it off. There's no greasy dishwasher with Vel—no ring around the pan!

DON'T WIPE—JUST RINSE
Yes! Just soak and rinse. Dishes dry streak-free without wiping! Even heavy grease in pots and pans is so completely dissolved no hard scouring is needed!

Package for package, Vel cuts grease better than the leading washday detergent, liquid detergents or soaps!

"...and yet
no 'Detergent Burn'
to hands!"

PROVE IT YOURSELF!
"HAND-HEAT TEST" SHOWS WHY.

Dip hands in water. Then put a tablespoonful of any leading washday detergent in one hand—put a tablespoonful of VEL in the other.

FEEL THE HEAT
from washday detergents, indicating presence of irritating alkalis and harsh chemicals that cause "Detergent Burn"!

FEEL NO HEAT
WITH VEL because Vel contains no irritating alkalis or harsh washday chemicals to cause "Detergent Burn"!

VEL is a miracle of mildness! Vel helps you avoid rough, red hands—causes no "Detergent Burn"!

*VEL is the trademark of the Colgate-Palmolive-Peet Company.
