Six Months Granted To Hospital

Hospital Inspector Pays Visits Here

It is full speed ahead toward a minimum goal of \$700,000 to one million, and with approximately six months allowed by State Hospital Inspector David Alterman, for Muleshoe to have architectural plans ready to let for contract, stated Hospital Citizens' Committee Chairman, the Rev. H.D. Hunter.

Alterman, of the Life Safety Code Department, Austin, was in Muleshoe Thursday for the official visit, one day prior to the April 26 deadline set for the local hospital's status decision.

West Plains Memorial Hospital was given requirements, until monies and plans for a new hospital and turning the old hospital into a clinic can be ready by next October, Safety regulations were also

specified for the nursing home, although it will not officially be inspected until September.

A total bill for both hospital and nursing home renovations was estimated at approximately \$8,000 instead of \$80,000. Alterman waived many

Mr. and Mrs. Corkey Green will attend Mack Sherman Governor For a Day activities Friday and Saturday in Amarillo.

Top students from Amarillo College walked across the stage Tuesday night and carried home honors ranging from Scholarships to trophies and certificates.

Charles D. Lutz, Jr., vice-president of AC, and chairman of the college's various departments, heaped honors to over 120 students in the annual awards convocation at the AC Concert Hall/Theater.

Seven scholarships were awarded to 11 students. Department chairmen in the three schools at AC's Washington Street campus singled out 34 outstanding class members and Lutz cited 45 students who have maintained high grade-point averages.

The ceremony also included recognition for 34 students who have been accepted for listing in Who's Who Among Junior Colleges.

Area student with at least 15 semester hours, in upper five percent for two semesters, was Sue Locker of Muleshoe.

Rev. Dubose Accepts Missionary Office

The Rev. D.C. (Doug) Dubose, pastor of the First Baptist Church here for six years, has accepted the position of Area Missionary of the Top O' Texas Area of the Baptist General Convention of Texas.

His resignation effective on May 15, Rev. Dubose will move into his new duties as area missionary with an office in the First Baptist Church, Pampa. He submitted his resignation to the local church on Sunday, April 21.

In Muleshoe, Rev. Dubose and his wife, Nina, have been very active in civic, as well as ministerial affairs.

Mr. Dubose has initiated such projects as a new home for the Mission Church pastor, a new Goodwill Center Building, purchase of a church activities bus, planned and supervised the

ment and rededication. Let every citizen observe it according to the dictates of his conscience in recognition of his dependence upon a gracious Heavenly Father who responds in love and mercy to all nations or individuals who so do.

Your response will be deeply appreciated and a witness to the things which matter most in life.

"Whereas, intoxicated with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud to pray to the God that made us," reads a portion of a resolution adopted by the United States Senate proclaiming April 30, 1974 as a National Day of Humiliation, Fasting and Prayer.

The resolution, modeled after a proclamation made by Abraham Lincoln in 1863, was introduced in the U.S. Senate by Senator Mark Hatfield (R-Oregon).

Lincoln asked citizens to unite for worship in their homes and churches during the Civil War when the Union cause had reached a low point. Hatfield proposed his resolution at a time when, "We witness a country torn apart with division and lacking the spiritual foundation which would restore its vision and purpose."

Hatfield went on to say in his speech to the Senate, "We, as a people, through our acquiescence to corruption and waste, have helped to create a moral abyss that produces a disdain for honesty and humility in high levels of national leadership."

In a response to the action by the Senate, evangelist Billy Graham said, "I think it is who live in America put more emphasis on prayer and fasting. I'm delighted that the Senate has taken the leadership on this day. I intend to spend most of April 30 in prayer and meditation."

The resolution was adopted

Kindergarten Roundup Announced Here

Mr. Neal Dillman announces that Friday, May 3, from 8:30 to 4:00 p.m. is Spring Roundup at Richland Hills Primary for Kindergarten and first grade children for the 1974-75 school year.

Children who will be six years old on or before September 1, 1974, are eligible to register for first grade. Parents should bring the Child's birth certificate and record of the child's immunizations (shots) if available.

The Texas law now requires the following immunizations for all students: three doses of oral polio, three doses of DPT, one measles vaccine through age 11, and one Rubella vaccine through

age 11.

Children who need any of these immunizations may get them from their doctor or the school nurses. The nurses are now giving immunizations at the Bailey County Court House every Tuesday at 12:00 noon.

Kindergarten: Also on Friday, May 3, all children who will be five years old on or before September 1, 1974, are eligible to register for Kindergarten.

Children who are now enrolled in Kindergarten at Richland Hills are already enrolled for first grade and will not attend school May 3, so that the teachers will be available to enroll the new students and talk to parents.

All parents of children who

Congressional Resolution

Proclaiming April 30, 1974 A National Day Of Humiliation, Fasting and Prayer

"WHEREAS, it is the duty of nations, as well as of men to owe their dependence upon the overruling power of God, to confess their sins and transgressions, in humble sorrow, yet with assured hope that genuine repentance will lead to mercy and pardon, and to recognize the sublime truth, announced in the Holy Scriptures and proven by all history, that those nations are blessed whose God is Lord; and

"WHEREAS, we know that we have been the recipients of the choicest bounties of Heaven; we have been preserved these many years in peace and prosperity; we have grown in numbers, wealth and power as no other nation has ever grown; but we have forgotten God; and

"WHEREAS, we have forgotten the gracious hand which preserved us in peace, and multiplied and enriched us; and we have vainly imagined, in the deceitfulness of our hearts, that all these blessings were produced by some superior wisdom and virtue of our own; and

"WHEREAS, intoxicated with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud to pray to the God that made us; and

"WHEREAS, we have made such an idol out of our pursuit of 'national security' that we have forgotten that only God can be the ultimate guardian of our true livelihood and safety; and

"WHEREAS, we have failed to respond, personally and collectively, with sacrifice and uncompromised commitment to the unmet needs of our fellowman, both at home and abroad; as a people, we have become so absorbed with the selfish pursuits of pleasure and profit that we have blinded ourselves to God's standard of justice and righteousness for this society; and

"WHEREAS, it therefore behooves us to humble ourselves before Almighty God, to confess our national sins, and to pray for clemency and forgiveness; Now, therefore be it

"Resolved by the Senate and House of Representatives of the United States of America in Congress Assembled, that the Congress hereby proclaims that April 30, 1974 be a National Day of Humiliation, Fasting and Prayer; and calls upon the people of our nation to humble ourselves as we see fit, before our Creator to acknowledge our final dependence upon Him and to repent of our national sins."

alterations and requirements. Hunter reported volunteer contributions amounting to \$340, 975.72, with \$72,975.16 in cash in ten days which demonstrated progress. He added that 90 percent of the trade area is behind the project. Work with architects, other planning and renovations were discussed.

"These were no scare tactics about closing. Too much had been promised and was not done," Alterman told Hunter. The complex and varied approaches in the past complicated matters.

"Our job is to save lives, to make the hospital safe from fire hazard. Payments for medicare, medical and social security cannot be made if state safety requirements are not met," he added.

Rev Hunter stated "How good he was to our problems. He gave us the time the committee feels necessary to follow through with our plans."

Among requirements to be initiated are the installation of a fire alarm panel and system in the nursing home and installation of an emergency battery light power for the hospital. A fire alarm connection from the hospital will utilize the fire panel in the nursing home. Waived were a second \$5,000 fire alarm panel, emergency power plant and larger generator at the hospital.

A fire wall and door, separating the nursing home and hospital-clinic must be installed by August 31. Posting of a fire drill code and the practice of a drill within 30 days was ordered. Fire-proofing of all inflammable draperies is to be completed by July 31.

Included among items waived were sprinkler systems, door requirements and room enlargements. The basic smoke sensors were waived in the hospital and instead sub fire sensors are to be installed every 60 feet minimum. Immediate removal of all oxygen bottles from corridors and of portable electric heaters from the hospital, and closing up heating floor grills previously condemned were among other requirements.

The Hospital Citizens' Committee meets each Thursday night, Rev. Hunter stated. All concerned citizens are welcome to attend.

by voice vote with no debate or opposition. The lawmakers indicated that, because of the nations failings, it "behooves us to humble ourselves before Almighty God, to confess our national sins and to pray for clemency and forgiveness."

Dr. Bill Bright, founder and president of Campus Crusade for Christ International, declared that April 30 could be a "turning point in the history of our nation. We may well experience a new birth of faith and freedom as a result of this day of prayer." Dr. Bright went on to urge his staff of more than 4,000 to "set an example and spend at least the full day of April 30 in prayer, fasting and repentance for our nation.

The resolution is awaiting action by the sub-committee on Civil Rights and Constitutional Rights of the Judiciary Committee of the House of Representatives. This committee is presently dominated by Watergate and impeachment investigation.

When asked what the chances were for the resolution to be passed by the House committee, Senator Hatfield replied, "very, very remote." He went on to explain that regardless of the action taken by the House committee, there will still be a day of prayer.

The U.S. airlines fly trillions of miles every year and their accident record is one of the best in the world. This is why airline accident insurance for the traveler is so inexpensive. The accident rate is extremely low for the number of miles flown.

During the time when all these miles are being flown accident free, the airlines are also carrying over 2 billion tons of hazardous cargo every year. Hazardous cargo includes radioactive isotopes, explosives, flammable and corrosive chemicals. In all those miles that have been flown there have been only three known incidents where passengers may have been endangered by hazardous cargo.

Two weeks ago officials learned that passengers may have been exposed to radiation from improperly packed radioisotopes carried in the baggage compartments of aircraft. Of greater concern is the amount of exposure of some 50 ground personnel who were in close contact with the isotope container. A reading of 900 Roentgens was recorded within six inches of the container when the leak was discovered. A dose of 500 Roentgens over a period of one hour can be fatal.

This is only the second known case of possible radiation exposure aboard a commercial airliner. Passengers on a flight of the same airline in 1971

may have been exposed but there have been no apparent injuries. A crash of a cargo jet in 1973

Crop Reports Needed

During the last half of May, some 24,000 Texas farmers will receive a crop acreage questionnaire from Charles E. Candill Agricultural Statistician in Charge of the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining the planted acreage for the state of Texas and for each County. There are 254 counties in Texas, and reports are needed from many farmers so that each county will be well represented. Accurate estimates are of great importance to farmers in planning production and marketing and in providing an unbiased picture of Texas agriculture.

Texas covers such a wide area that state totals alone do not provide adequate information on Texas' most basic industry—agriculture. The Texas Legislature has provided a program of estimates for each county. This is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

Stop Screwworms This Spring By Submitting Samples

Livestock producers should be aware that 1974 has the earmarks of an extremely bad screwworm season, and should make every effort to reduce the number of outbreaks. This word comes from County Extension Agent Spencer Tanksley.

Program officials are asking producers to refrain from livestock surgery or other man-made wounds to prevent screwworm infestations. The Texas and Southwestern Cattle Raisers Association has pointed out that at least 30 percent of this season's cases have resulted from dehorning, branding, docking and similar practices.

The County Agent urges all livestock producers to support the screwworm eradication effort by carrying out three key practices: 1. Inspecting their animals frequently; 2. Treating all finds with an approved product and 3. Collecting and sending worm samples from wounds to the USDA Screwworm laboratory at Mission, Texas, for identification. The post office box is 969.

As cases are confirmed, sterile screwworm fly treatment is initiated by the USDA. "It is vitally important for program officials to know where cases are happening in order to begin the sterile fly treatment before cases are too numerous," the County Agent reminds.

As spring migrations of fertile flies from south of the Rio Grande continue, the cases move northward across Texas rather rapidly. Already, positive cases have been confirmed as far north as Brown and Haskell Counties, so all southern, central and west Texas areas should watch for screwworms, says Tanksley.

may have been caused by leaking acid from an improperly packaged shipment. That accident plus the two radiation incidents has caused an uproar among the airline pilots who have asked the FAA to impose a ban on the shipments of all hazardous materials on passenger aircraft.

Responsibility for regulating the shipment of hazardous materials is under the Transportation Department and, while Congress is preparing to investigate the latest incident, the accident free record of shipments of hazardous materials stands as one of the outstanding accomplishments of the U.S. airlines.

STORE STUFF ON TOP OF

Yes, an electric water heater is the only one you can store stuff on top of. There's no flue or vent, all you need are water pipes and an electrical outlet, so you can put an electric water heater almost anywhere you need hot water fast. Put one under the

kitchen sink, next to your laundry facilities, even in the bathroom! An electric water heater is insulated on all sides. That keeps the water hot and makes the tank cool to the touch so you can even store stuff all around your water heater, when it's electric!

It's time to pray.

United States Senate Calls for a National Day of Prayer

April 30, 1974

Join Millions of Americans in Prayer on April 30

Our country faces crisis. Our nation needs a moral and spiritual awakening. If ever we need to pray—it is now.

Support the U.S. Senate call to prayer

"The Congress hereby proclaims that April 30, 1974 be a National Day of Humiliation, Fasting and Prayer; and calls upon the people of our nation to humble ourselves as we see fit, before our Creator to acknowledge our final dependence upon Him and to repent of our national sins."

This is the first time the United States Senate has taken such a historic step since confirming President Abraham Lincoln's Call to Prayer in 1863.

Here is God's Promise!

"If my people who are called by my name shall humble themselves and pray, and seek my face and turn from their wicked ways, then will I hear from heaven, will forgive their sins, and will heal their land" (II Chronicles 7:14).

God wants to change the hearts of men and women. He wants to mend broken families. He wants to turn suspicion, hate, discord into love, forgiveness, harmony. God wants to give our nation a new birth of faith and freedom!

God is able—if we will turn from ourselves, look to Him and pray!

On April 30 millions will be joining together to pray for change. Millions will be praying for a moral and spiritual awakening in our country and in the world. You can join them!

For a copy of Senate Joint Resolution 183, calling for a National Day of Prayer, write to your senator or to the address below. The resolution is still pending in the House of Representatives as of April 15, 1974.

- Encourage your local newspapers, radio and TV stations to support the Senate Resolution with public service announcements and editorials.
- To Help You Pray on April 30**
- Pray for national repentance, acknowledging God's mercy and forgiveness (II Chronicles 7:14).
- Pray for the leaders of our country—national, state and local—that they may have wisdom, integrity, protection, guidance and an awareness of God's presence in mind and heart (I Timothy 1:6; Jeremiah 33:3).
- Pray that, as individuals, we will realize God's love and draw upon His wisdom and understanding (James 1:5, Proverbs 3:5, 6; I Corinthians 13).
- Pray for young people and their families, that they may desire and be willing to listen to and learn from each other (Colossians 1:10; Ephesians 5:15-6:4).
- Pray for those who are prisoners of drugs, alcohol, immorality, obscenity, pornography, crime, prejudice, unbelief and despair (Matthew 5:44, 45; John 8:36).
- Pray for the purification of our thoughts and deeds, that we may be fit instruments and channels for God's love where we live, work, play and worship (Colossians 1:9-12; Philippians 4:6, 7).
- Study these passages in the Bible:

Romans 13:1
I Timothy 2:1-8
Colossians 1:9-16

PROCEEDINGS AND DEBATES OF THE 93rd CONGRESS, FIRST SESSION
Vol. 119 WASHINGTON, THURSDAY, DECEMBER 20, 1973 No. 201

SENATE JOINT RESOLUTION 183 - National Day for Humiliation, Fasting, and Prayer

"WHEREAS, it is the duty of nations, as well as of men to owe their dependence upon the overruling power of God, to confess their sins and transgressions, in humble sorrow, yet with assured hope that genuine repentance will lead to mercy and pardon, and to recognize the sublime truth, announced in the Holy Scriptures and proven by all history, that those nations are blessed whose God is Lord; and

"WHEREAS, we know that we have been the recipients of the choicest bounties of Heaven; we have been preserved these many years in peace and prosperity; we have grown in numbers, wealth and power as no other nation has ever grown; but we have forgotten God; and

"WHEREAS, we have forgotten the gracious hand which preserved us in peace, and multiplied and enriched us; and we have vainly imagined, in the deceitfulness of our hearts, that all these blessings were produced by some superior wisdom and virtue of our own; and

"WHEREAS, intoxicated with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud to pray to the God that made us; and

"WHEREAS, we have made such an idol out of our pursuit of 'national security' that we have forgotten that only God can be the ultimate guardian of our true livelihood and safety; and

"WHEREAS, we have failed to respond, personally and collectively, with sacrifice and uncompromised commitment to the unmet needs of our fellow man, both at home and abroad; as a people, we have become so absorbed with the selfish pursuits of pleasure and profit that we have blinded ourselves to God's standard of justice and righteousness for this society; and

"WHEREAS, it therefore behooves us to humble ourselves before Almighty God, to confess our national sins, and to pray for clemency and forgiveness: Now, therefore be it

"Resolved by the Senate and House of Representatives of the United States of America in Congress Assembled, that the Congress hereby proclaims that April 30, 1974 be a National Day of Humiliation, Fasting and Prayer; and calls upon the people of our nation to humble ourselves as we see fit, before our Creator to acknowledge our final dependence upon Him and to repent of our national sins."

Senate Joint Resolution 183 was passed by the United States Senate on December 20, 1973. It is still pending in the House of Representatives as of March 26, 1974.

Join Millions of Americans in Prayer on April 30

Our country faces crisis. Our nation needs a moral and spiritual awakening. If ever we need to pray—it is now.

Support the U.S. Senate call to prayer

"The Congress hereby proclaims that April 30, 1974 be a National Day of Humiliation, Fasting and Prayer; and calls upon the people of our nation to humble ourselves as we see fit, before our Creator to acknowledge our final dependence upon Him and to repent of our national sins."

This is the first time the United States Senate has taken such a historic step since confirming President Abraham Lincoln's Call to Prayer in 1863.

Here is God's Promise!

"If my people who are called by my name shall humble themselves and pray, and seek my face and turn from their wicked ways, then will I hear from heaven, will forgive their sins,

and will heal their land" (II Chronicles 7:14).

God wants to change the hearts of men and women. He wants to mend broken families. He wants to turn suspicion, hate, discord into love, forgiveness, harmony. God wants to give our nation a new birth of faith and freedom!

God is able—if we will turn from ourselves, look to Him and pray!

On April 30 millions will be joining together to pray for change. Millions will be praying for a moral and spiritual awakening in our country and in the world. You can join them!

In your home, at the office, by yourself, with a neighbor, you can have a part in releasing the mightiest force for good known to man—prayer to a loving, all-powerful God!

There is a way to peace, equality, security, harmony.

Let's take the first step toward a new America!

To Help You Pray on April 30

Pray for national repentance, acknowledging God's mercy and forgiveness (II Chronicles 7:14).

Pray for the leaders of our country—national, state and local—that they may have wisdom, integrity, protection, guidance and an awareness of God's presence in mind and heart (I Timothy 1:6; Jeremiah 33:3).

Pray that, as individuals, we will realize God's love and draw upon His wisdom and understanding (James 1:5; Proverbs 3:5, 6; I Corinthians 13).

Pray for young people and their families, that they may desire and be willing to listen to and learn from each other (Colossians 1:10; Ephesians 5:15-6:4).

Pray for those who are prisoners of drugs, alcohol, immorality, obscenity, pornography, crime, prejudice, etc. belief and despair (Matthew 5:44, 45; John 8:36).

Shipyards of Bethlehem Steel Corp. were selected as 1973 winners.

The winners were nominated by their local Chambers of Commerce and selected by the Texas Industrial Commission for their civic and economic contributions to their communities.

"All Texans should join us in honoring these industries, all of which have added significant strength to the economic growth of their communities and the entire state," Governor Briscoe said in announcing the winners. "It is fitting that we are able to honor our existing industries, which are sometimes overlooked when the bouquets are passed to the industrial growth of our state."

The Governor pointed out that the majority of new jobs created in Texas come from expanding industry, although location of new plants usually receives most of the public's attention.

The five award winners will be honored in ceremonies in the Governor's office and will be feted at a special luncheon hosted by the Governor.

In previous years, the Governor has made the presentations at a Governor's Conference in Austin, but the Texas Industrial Commission, at the request of Governor Briscoe, voted to reduce the ceremonies to the winners this year due to the fuel shortage.

The Commission voted their last quarterly meeting in Brownsville to eliminate the 1974 conference to keep from requiring long travel by the estimated 600 industrial leaders who annually take part in the event.

Jim Harwell, Executive Director of the Texas Industrial Commission, said the competition for the 1973 awards was particularly close. Selection was made after analysing company payroll increases, new employees and plant area enlargement as well as local expenditures for goods and services.

Owens - Corning Fiberglas Corp. expansions in 1973 helped create 273 new jobs in Waxahachie, raising its area employment of 535. Plant payroll increased 18.6 percent to \$6.8 million.

Increase in plant area more than doubled during 1973 to 410,000 square feet. Expenditures on local goods and services also doubled to \$5.3 million.

Superior Continental Corp. began plant operations in 1964. By 1973, its 190 area employees made it one of the largest employers in Brownwood.

Company payroll last year increased 60.5 percent to over \$1.4 million while increase in plant area more than tripled. Plant expenditures for local goods and services increased over 10 times to \$1.3 million annually.

Datapoint Corporation reported a 115 percent increase payroll for last year to \$5.8 million, while total local expenditures increased from \$400,000 in 1972 to more than \$2 million in 1973.

Datapoint also expanded its plant 92,000 square feet to 261,000 square feet and doubled its labor force from 352 to 701.

Hi-Pro Feeds, Inc. more than doubled its plant payroll during 1973 to \$686,000. The 42 employees added to the payroll brought the total number employed to 107, a 64 percent increase.

Hi-Pro expanded its plant facilities to 53,540 square feet and increased its total investment in new equipment by \$4 million during 1973.

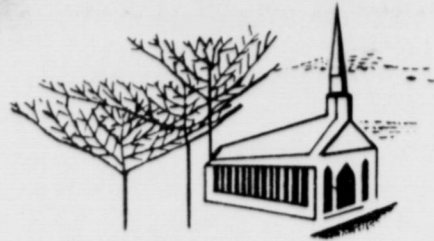

Bethlehem Steel Corporation added 800 employees to its payroll accounting for a 44 percent increase.

The company payroll for its 2,600 employees was \$23.5 million, a 47 percent increase from 1972. Expenditures for local goods and services was up to \$12 million.

Six special citations for Industrial Expansions were also announced. Receiving the citations will be, ARA Manufacturing Company of Grand Prairie, Stanton Supply Corporation of Stanton, Perry Equipment Corporation of Mineral Wells, Maywood, Inc. of Amarillo.

An investment in Your Future

ATTEND CHURCH

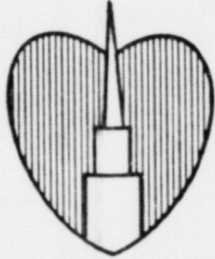

"For where your treasure is, there will your heart be also"

Be ever mindful and thankful to GOD for...

HEALTH and FOOD

In our nation today, the majority of us have so much to be thankful for. Sure we lose a tooth or two in growing up, as the one pictured here, but these will soon be replaced. Health and Happiness are generally ours, and through our abundance we should share with others who are less fortunate. God's word and the church encourage sharing with others. There are many areas of service to others within the churches, and these we should not neglect, but God has said that we should take advantage, as we are able, of all opportunities to give aid. "As we have therefore opportunity, let us do good unto all men."

GALATIANS 6:10

THE CHURCH ENCOURAGES LOVE AND COMPASSION FOR OTHERS

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Moving a BILLION of anything is a big job

A new Santa Fe record:
Moving a BILLION bushels of grain
in 20 months

Big moves are not unusual on the Santa Fe. Citrus, potato, coal, sulphur and various manufactured products move by the trainloads. But grain tops them all, especially wheat.

This year marks the one hundredth anniversary of Turkey Red Wheat in the United States. Through the efforts of the Santa Fe back in 1874, the Mennonites emigrated from Russia and brought with them a few sacks of their wheat. It thrived in the Midwest and parts of the Southwest to develop that area into the breadbasket of the world.

The past twenty months have been the most strenuous period in Santa Fe's one hundred year history of moving grain. A billion bushels have been handled since the heavy movement associated with the sale of grain for export, and the bumper harvests began in July, 1972. Within this period of time, Santa Fe has moved over 350,000 carloads of grain.

While moving grain is a top job, Santa Fe is busy with an equally important project of moving fertilizer to nurture the new wheat crop, for the success of this year's harvest will offset concerns about a wheat shortage.

Keeping ready for big moves is not easy. The Santa Fe freight fleet of 78,000 cars includes 16,000 covered hoppers, 12,000 of them jumbo 100-ton cars, which are ideal for moving grains, potato and other bulk commodities. Big moves also require modern diesel power, automated yards and skillful people to get the job done. All of this is now at work as Santa Fe continues at a record pace moving billions of the many things needed and used every day by the people of our nation.

THE ATCHISON, TOPEKA AND SANTA FE RAILWAY
A SANTA FE INDUSTRIES COMPANY

Santa Fe

John Sheed
Chairman and Chief Executive Officer

The BILLIONTH BUSHEL of grain was moved on March 20, 1974, and car 312947 at the FAH-MARCO elevator, Hutchinson, Kansas, broke the banner symbolizing this event.

"To give recognition to the movement of the BILLIONTH BUSHEL of grain over the Santa Fe in a twenty-month period, Miss Kansas Wheat joined me at Hutchinson, Kansas, March 20, 1974. ...then this record grain movement started in mid-1972, many predicted the rail industry would not be able to handle the job. Despite no advance warning and severe problems of port congestion that hampered the handling of cars with export wheat, Santa Fe and many other railroads have set records of moving grain while keeping other traffic rolling. This great transportation job was accomplished by skillful, dedicated Santa Fe people, and through the wonderful cooperation of all shippers. Grain continues to move in a big way and a bumper crop is expected at harvest time. That is why we are now hard at work planning ways to apply Santa Fe facilities and resources to move increasing volumes of traffic this year without serious car shortage."

Gardening Season At Hand

Spring gardening season is at hand, and many homeowners are already preparing seedbeds and planting their favorite vegetables, reports Spencer Tanksley, county agent for the Texas Agricultural Extension Service.

Vegetable planting is regulated by the average date of the last killing frost which is April 10 for Bailey county.

Numerous vegetables which are tolerant to cold weather may be planted four or more weeks before the last frost date. These include beets, broccoli, Brussels sprouts, cabbage, carrots, lettuce, onions, Irish potatoes and turnips.

Those less hardy which should not be planted until about the time of the last frost date include snap beans, Lima beans, sweet corn, cucumbers, cantaloupes, mustard, squash and tomatoes.

Before planting, Tanksley suggests preparing the seedbed to a depth of 8 to 10 inches so that it is loose and not coarse and lumpy. Apply two to three pounds of a complete fertilizer such as 12-12-12 per 100 square feet and work it into the soil. Then form the beds for planting.

Plant as early as possible depending on the hardness of the particular vegetable crop. Select varieties well adapted to this county. Use transplants where possible to get the crop off to a head start.

When planting seed, cover them with soil three to four times their widest measurement especially for big-seeded crops such as corn, beans, cucumbers, and squash. Cover small seeds such as carrots and lettuce with one-half to one-fourth inch of soil. Keep the soil moist to enhance germination but do not overwater.

Once the crops are up, water them as needed so that the water penetrates the soil to a depth of at least six inches. Most gardens need about the same

amount of moisture as delivered by one inch of rain a week during the growing season. Light sandy soils may require more frequent watering. Always water in the morning or at least not later than mid-afternoon so that

plants will dry before night, advises Tanksley. This helps prevent foliage diseases. Weed control in a garden is important, and a long-handled hoe is still the best tool around for this purpose. Remove

weeds as they emerge to keep down reinfestations. Adding a mulch of straw, leaves, grass, bark, gin trash, sawdust, peat moss or other organic material around plants helps control weeds and reduces

soil temperatures and moisture losses. Black plastic may also be used.

During the growing season, keep an eye on your plants to detect early signs of insect and disease problems, points out

Tanksley. When conditions warrant the use of insecticides and fungicides, apply only those that are recommended and approved. Always read the label on the container before using any chemical materials.

Additional information on gardening is available at the county Extension office. This information comes from Sam Cotner, Extension Vegetable specialist.
