

Truman Asked To Explain Why Spy Allowed To Skip

WASHINGTON, June 7 (AP)—Rep. Velde (R-Ill.) said today President Truman "owes it to the American people" to explain why Russian Agent Andrei Schevchenko was allowed to skip the country without prosecution.

WITNESSES — Waiting to testify before the House Un-American Activities Committee are (left to right) Loren G. Haas and wife of Buffalo, N. Y., and Mr. and Mrs. Joseph J. Franey of Niagara Falls, N. Y.

Hickenlooper To Base Atomic Case On Laxity

Senator May Try To Prove Disloyal Persons Employed

WASHINGTON, June 7 (AP)—Secretary of Defense Johnson said today the Military establishment does not want control of atomic energy developments.

WASHINGTON, June 7 (AP)—Sen. Hickenlooper (R-Iowa) appeared today to be ready to base his case against David E. Lilienthal largely on accusations that the Atomic Energy Commission has been lax in keeping A-bomb secrets.

Colleagues said that if the Senate-Atomic Committee lets him, Hickenlooper may attempt to prove that about a score of persons whose loyalty has been questioned at one time or another are still holding key jobs in the AEC setup.

He did that yesterday. He asserted that a man once suspended after an FBI investigation produced a 50-page report containing "serious derogatory information" on him, later was reinstated and aided in drafting a top secret report to the Senate-Atomic Committee.

Three Autos Are Damaged In Crash

Three automobiles were damaged but no personal injuries resulted in a crash involving three cars on east Highway 80 last night.

Mine Detectors To Aid Law Enforcement

WASHINGTON, June 7 (AP)—The Army is making available about 3,000 surplus mine detectors for sale to local law enforcement agencies to use in searching for criminal evidence.

8-Inch Hailstones Level County Crops

Eastern Half Of City Is Battered

Huge hailstones and violent thundershowers levelled several thousand acres of croplands in north-central Howard county Monday night and battered the eastern half of Big Spring.

County Farmers Face Prospect Of Replanting

Reeling from successive thunderstorm blows, weary farmers in north-central and east-central Howard county faced prospect of fourth and fifth plantings today.

While fearful Big Springers listened to an awesome roaring, hail and rain belted the area from the State Hospital to Fairview at 7 p.m. Monday. The storm belt touched almost to Center Point together east of Cosden.

Ed Crabtree and Grub Broughton said fields were brushed and beaten level by the early evening hail and rain. Motorists reported the area from Fairview to the state hospital was "practically under water."

Big Spring Roofs Damaged By Hail

Roof damage caused by hail occasioned frequent calls to local underwriters this morning, but in most cases reports indicated light losses.

Truman Trip Set

WASHINGTON, June 7 (AP)—President Truman will leave by plane at 11:30 o'clock Friday morning for Little Rock, Ark.

D-DAY ANNIVERSARY AT FIRST AMERICAN CEMETERY—At the site of the first American cemetery in Normandy, France, Brig. Gen. Joseph O'Hara (left) of Boston and French Veterans Minister Robert Betoulad place wreaths on the memorial in a ceremony marking the fifth anniversary of D-Day landing on Omaha beach.

3,289,000 NOW IDLE

Unemployment In U. S. Hits Peak

WASHINGTON, June 7 (AP)—Unemployment jumped 279,000 in May to a new post war peak of 3,289,000.

The Census Bureau, reporting this today, commented that "ordinary unemployment drops between April and May and the increase this year was, therefore, contrary to seasonal expectations."

Mine Owners Ask Lewis To Drop 2 Strike Weapons

BLUEFIELD, W. Va., June 7 (AP)—Southern coal operators today demanded that John L. Lewis drop two of his biggest strike weapons in the next contract.

### BUNCHE SEES PROSPECT OF EARLY PERMANENT PEACE IN PALESTINE

PHILADELPHIA, June 7. (AP)—Permanent peace in the Holy Land is in the offing, Dr. Ralph J. Bunche says.

The 44-year-old American scholar and diplomat said here last night he believes the fighting is over in Palestine. Negotiations between Syria and Israel for an armistice covering the only unsolved battlefield are at a "crucial stage," he added, with hourly prospects of agreement.

The permanent settlement depends upon the wisdom and state-manship of the Jews and Arabs now meeting in Lausanne, Switzerland, he said.

Dr. Bunche said his own role as United Nations mediator will end as soon as Syria and Israel sign.

Dr. Bunche made his remarks in an interview before speaking at the Academy of Music last night under sponsorship of the World Affairs Council.

Three members of the 1949 Cincinnati team are 16-year men. They are Ray Mueller, Harry Gumbert and Johnny Vander Meer.

### MOVE HAD BEEN ANTICIPATED

## U. S. Officials Think Molotov Guiding Red Policies In East

WASHINGTON, June 7. (AP)—American officials said today it is entirely likely Deputy Foreign Minister V. M. Molotov may now be in charge of Russian policies in China and elsewhere in the Orient.

Such a move to exploit the Communist advance in China has been looked for by diplomats ever since Molotov was transferred months ago from foreign minister to undisclosed new responsibilities.

If he has been given the assignment—as reported from Paris—it will be taken as fresh and significant evidence that Russia is shifting interest from the western European stalemate to the Far East. Definite confirmation is still lacking.

A forecast that Russia soon will change its policy of diplomatic aloofness toward the victorious Chinese Communists also came yesterday from Paris. It was ascribed to a responsible but anonymous eastern European informant.

State Department experts are watching for any signs of such a change but are not yet convinced it is imminent.

Moscow thus far has maintained most formal and correct relations with the Nationalist government and has acknowledged only sympathetic backing for the Communists. The Soviet ambassador was transferred from Nanking to Canton with the fleeing Nationalist government while American and British envoys remained behind to deal with the Communists directly though informally.

One view here is that for the time being Moscow may choose to keep up the appearance of a hands-off attitude, to mask from the West the Kremlin's plans for advancing Communism in Southeast Asia and in India.

However, should the Chinese show signs of adopting the independent attitude of Yugoslav Mar-

### Offer \$200,000 Reward In Hunt For Reuther Foes

DETROIT, June 7. (AP)—A \$200,000 reward was offered by the CIO United Auto Workers today in the search for the assassins of Walter and Victor Reuther. The union thus doubled its previous \$100,000 reward offer in last spring's shooting of Walter Reuther—adding another like sum in the attack last May 24 on Victor.

This brought the total rewards in both attacks to \$218,800, including offers from the Detroit city council and other groups.

Walter is the UAW's president, Victor the union's educational director. Walter's right arm was mangled by a shotgun blast. Victor lost his right eye, also from a shotgun charge.

In each instance the assailant fired through a window of his victim's home.

The UAW stipulated that any information on which its reward might be based must be given first to the union. It then will be turned over to police, the UAW said.

The union also offered to pay \$5,000 reward for information which would lead to a trial in either shooting whether or not a conviction was secured. The UAW's international executive board announced the reward offers.

### Six Boys From Texas Ranch Sell 23 Steers

KANSAS CITY, June 7. (AP)—Six youths at Texas Boys Ranch, near Plainview, had a real achievement on the record today.

They sold 23 steers yesterday they had been fattening to start a feeding project at the Texas ranch for homeless and under privileged boys. Twenty of the steers, brought \$28.75 a hundred and three others, \$26. They averaged 950 pounds.

### Six Accused Of Murdering 13 By Island Blast

MANILA, June 7. (AP)—A woman and five men today were accused of murdering 13 persons by blowing up a Philippine Airlines plane with a time bomb on May 7.

The accused in the multiple murder complaint filed in Daet, Luzon, were named only as "John Doe" and "Mary Roe." Authorities said their names will be revealed after their arrest.

Investigators said apparently they plotted the air tragedy, which claimed two American lives, to enable the woman to receive her husband's inheritance and continue a clandestine love affair.

Two men are in custody. They are Amadeo Salazar and Gavino Largo. National bureau of investigation agents said they made statements that they were hired to deliver a mysterious box to the Daet airport. The agents think the box contained a time bomb which exploded after the plane got into the air.

There are two other suspected accomplices in the delivery of the box. They are a high school student and a taxicab driver. Warrants have been issued for their arrest.

Philippine Solicitor General Felix A. Bautista in Manila said the six accused of murder will get a preliminary hearing before the justice of the peace at Daet. No date for the hearing was announced.

The plane blew up en route to Manila on a routine flight.

The Americans aboard were Ludwig J. Sundeen, 48, of Litchfield, Minn., and Robert Parker, 27, of Rochester, N. Y. The passengers also included two White Russian refugees from China.

**Electric Meters Extremely Accurate**

Your electric meter is a precision instrument, like a fine watch. Furthermore, it has a jeweled bearing, and is one of the most accurate measuring devices known. You may note that it contains a thin disk of metal that sometimes turns slowly, and sometimes rapidly. The speed with which it revolves depends on how much electricity is being used in the home at that instant. Cut off a light, and the turning disk slows down.

Electric meters are checked at intervals by meter readers and periodically are given a thorough testing and cleaning. Seldom is a meter found which doesn't register accurately, and in practically every case it is too slow, due to wear or other causes.

### Chinese Red Troops Are Acclaimed For Conduct

SHANGHAI, June 7. (AP)—The Chinese Communist army seems to be well oiled, smooth working military machine.

The troops far overshadow Nationalist soldiers in discipline and ability. In fact, the Communists appear to be an army in the western sense. The Nationalist, on the other hand, were unruly, unreliable and given to looting.

When the Nationalists prepared to defend Shanghai they ripped up one of the city's best districts—Hungjao. They said it was to clear the field of fire. Yet when the Reds showed up practically no defense was made in the wrecked district.

The Reds, on the other hand, went up against Nationalist fire in downtown Shanghai buildings without resorting to damaging heavy artillery. They wanted to preserve the property.

Civilians in Shanghai have been impressed by the conduct of the Red soldiers. The Communist soldiers in some ways are the best propaganda the Reds have. They stand as proof the Chinese soldier can be well trained and well-behaved. Civilians here were beginning to doubt such could happen.

The Communists seem to lean over backwards to keep from intruding on the rights of civilians. There was military justification for them to conscript vehicles in Shanghai during the fighting. They not only did not do so, they returned to owners the conscripted vehicles which the Nationalist had taken.

The Reds proved to be excellent fighters. A former United States marine who saw the fighting along Soochow Creek said the Communists knew their weapons and used them smartly.

Communist officials are unwilling to discuss the manner in which their army was assembled and trained. Military officers are reluctant to discuss it, too.

From one foot soldier it was learned political training came first. Emphasis was placed on making the soldiers understand why they were in the army and why they were fighting. Another soldier said they received ample food and clothing and were able to concentrate on fighting. Still another said everywhere the Communists had been given full support by the people.

**Reddy Takes Over At Cream Freezer**

Shed a tear for the time-honored Sunday custom.

The crank on the ice cream freezer is becoming a thing of the past, freeing countless husbands and older boys from their regular Sunday chore of laying aside their Sunday coat and grinding away until the cream is hard.

Electric-operated ice cream freezers, appliance dealers say, are going into more and more rural homes, effectively spelling doom for the old-fashioned hand crank.

Michigan State's 1948 football team ranked fourth in the nation in total offense with an average of 402.7 yards per game.

# Electric Show Opens Here This Evening

Beams from giant searchlights will pin-point the high school campus this evening, site for the '49 Electric Show.

First of thousands of visitors are expected to begin thronging the

## Local Appliance Dealers Help Put On Show

Local appliance and equipment dealers will have a key part in the annual Texas Electric Service electric show opening for three days at 6 p. m. today.

Those cooperating will have a host of items on display so that the appraising eye of thousands of spectators can see how particular items operate for comfort, convenience and economy in the home and on the farm and ranch. There will be such things as refrigerators, washing machines, ironers, irons, bakers, waffle irons, toasters, sewing machines, vacuum cleaners, light fixtures, home freezers, mixers, coffee makers, and many, many others. The farm and ranch tent will feature big home freezers, milkers, milk coolers, feed mills, water warmers, water pumps, power tools, and other things to make farm and ranch operations easier and more profitable.

Among those participating here are Big Spring Hardware, Elrod's, D&H Electric, Firestone, Girdner Electric, Hester's, Hilburns, Modern Appliance, Montgomery Ward, Stanley Hardware, Talley & Worthan, Taylor Electric, White's, George Oldham, Sanders Company, and Western Insulating.

high school gymnasium at 8 p. m. when doors open for the first showing. During the next four hours several thousands will have witnessed the assortment of latest electrical appliances, electrical farm equipment, a special light stage show.

The high school campus has taken on a circus appearance as huge vans disgorged a welter of equipment, settings and supplies. Special lines have been strung to furnish the heavy power demand for the show.

Two flame-proof tents, one to house the stage production, "Light Sorcery," and the other to contain the popular farm and ranch division, have gone up together with other apparatus. Sixteen local firms have moved in a welter of the latest appliances for home comfort and economy.

Special features will include music by Cecil Brower and his Western Band, a colorful musical unit which will present programs from a bandstand at 7 p. m., 9 p. m., and 10:30 p. m. Today through Thursday Reddy Kilowatt, larger and more talkative, will be on hand to greet the youngsters. In the farm and ranch tent, where electrical devices for rural

comfort and profit are on display, baby pigs will be fed from the bottle every hour on the hour. A continuous movie, "Prairie Harvest," will depict operations in harvesting native grass seed for use in re-seeding over-grazed pastures.

"Light Sorcery," a 45-minute show with entertainment and demonstration of tricks with light, will be presented at 8 p. m. and 9:30 p. m. today, Wednesday and Thursday.

As in all cases, the show is entirely free to the public.

In past years the production, sponsored by the Texas Electric Service company in cooperation with local electrical appliance and equipment dealers, has drawn many thousands of people. In fact, on a population basis, Big Spring has supplied one of the leading turnouts of any point on the circuit. This city is second on the swing through West Texas this year, the show having been brought here directly from Graham where it opened.

Buildings and tents will be air conditioned by demonstrations of air conditioning dealers. Dealers and TESCO have a supply of favors and literature for distribution.

IT'S ELECTRIC—Gleaming white appliances against a silver backdrop across the entire end of Big Spring High School gymnasium will leave a lasting impression on visitors to the Texas Electric Show of '49 which opens Tuesday night. The show features the slogan, "Of Course, It's Electric."

IN THEIR BROODER AGAIN

Piggies Will Be Noisy As Usual

Pig-Pig-Pig-Pig—Sooey Pig! Well, maybe they won't exactly have to be called up, but the little pigs that have proven such favorites with youngsters visiting the Texas Electric Show in previous years will be around again this year when Reddy Kilowatt throws open the doors to the '49 event. The baby pigs, kept warm in an electric brooder, will get their baby bottles of fresh milk every hour on the hour during the show, beginning each evening at 6 p. m. If you don't think there'll be plenty of squealing and squirming as the porkers take their nourishment, just ask any of the delighted boys and girls who watched them dine last year and the year before. They'll guarantee that you can hear the pigs from one end of the show to the other.

Six Vans Haul Electric Show

Although the Texas Electric Show of '49 is made up largely of equipment exhibited by local electrical dealers, much background equipment, lights, signs, drapes, tents and other show paraphernalia was brought here especially for this show. Six big moving van type trucks were used to bring in the equipment, and in addition two trucks and a trailer are needed for the two giant searchlights and the bank of flood lights. Another truck is used to transport the complex equipment used in the General Electric show, "Light Sorcery".

Reddy Kilowatt Getting To Be Noted Character

Santa Claus, the Easter Bunny and Reddy Kilowatt are recognized in about that order by the average youngster. The first two are long established, but Reddy Kilowatt, your electrical servant, is a relative newcomer.

Reddy personifies electric service. He's the little man who's behind the wall outlet, who makes the lights glow, who toasts your toast. His light bulb nose, lightning flash figure, outlet ears and lightning flash "hair" mark him as the symbol of electricity.

You see Reddy Kilowatt in all of Texas Electric Service Company's advertising. Reddy is also a prominent figure at the Texas Electric Show of '49, and occupies a key position as the official welcome. Reddy is a movie actor and stars in cartoon films. He's been in comic books and is quite a fellow. His favorite slogan is "Plug in—I'm Reddy."

America is buying Studebakers at an all-time record rate!

Studebaker's the stand-out in solid money's worth. New decorative-fabric upholstery • New body colors • Self-adjusting brakes • Variable ratio "extra-leverage" steering • Panoramic vision • Seats centered between the axles • Low center of gravity • Clear-proof "black light" instrument dials • Automatic hill holder—available on Champions at slight added cost, but standard on other models • Automatic overdrive, Climatic heating and ventilating, white sidewall tires and wheel trim rings or discs are optional at extra cost on all models.

JUST a look at the streets and highways and you know a Studebaker buying wave is sweeping the country. All America is thinking Studebaker, talking Studebaker, buying Studebaker as never before right now. 1949 is all-time-high year in Studebaker sales and production. Take a proud place of your own in this Studebaker success parade. Get Studebaker style that sings and Studebaker savings that count in your new car. Stop in and treat yourself to a close-up eyeful of a '49 Studebaker—it's far and away the most for your money in any new car.

**Safety Meetings  
For Employes  
Held Regularly**

Safety isn't left to chance in the Texas Electric Service Company organization. Safety meetings are held regularly by linemen and others whose work sometimes involves hazardous tasks. They study the latest techniques for working safely on a given job and discuss the ways and means of applying these safety methods when the work starts. This safety training pays, too, for despite work in all kinds of weather around electric wires, rarely is a man seriously injured. Rubber gloves, rubber blankets, split rubber hose that can be placed over a wire and many other safety devices are used by experienced linemen to carry on their work safely.

When you see a lineman crawling between wires and fitting on line hose, rubber hoods or rubber blankets around exposed wires and transformers, you'll know he's taking the same precautions against accidents that an automobile driver takes when he signals turns and stops.

**SHOW TWICE NIGHTLY**

**'Light Sorcery'  
Top Attraction**

A stubborn shadow which refuses to follow its master is one of the phenomena of light that will be seen by spectators at "Light Sorcery," scientific stage show to be presented twice nightly at the Texas Electric Show of '49.

The 45-minute show, featuring black-and-light-magic, in the best Houdini manner, will be presented in a big show tent on the high school grounds by lighting specialists from the Lamp Department of the General Electric Company.

Master of ceremonies of the show will be H. G. Schiller, and with the aid of a million-watt light and a beam of infra-red light he will do what has always been considered impossible—walk away from his own shadow.

volt, high-frequency coil light a cigarette and make an unconnected fluorescent lamp glow brightly. A balloon, in the act of bursting, will be photographed at a speed of 1-3000th of a second, and the shadow left on a screen.

The "Ukelitely," an instrument resembling a ukelele, will produce music played by light. Another demonstration will be the putting of a mirror inside a light bulb, used in sealed beam automotive lamps.

"Light Sorcery" was produced by engineers and lighting specialists at Cleveland's famed Nela Park, headquarters for General Electric's Lamp Department research, as an entertainment feature to dramatize the "magic" involved in today's lighting developments.

The curtain will rise for "Light Sorcery" at 8:00 p.m. and 9:30 p.m. daily through Thursday. There is no admission charge to any part of the big Electric Show.

**Extra Lines Are  
Strung To Carry  
Power To Show**

The Electric Show uses plenty of electricity, as might be expected at a show of this kind. But few visitors to the show realize just how much electricity is required to operate the outdoor flood lights, the lights in the gymnasium, power for the various appliances and other electrical equipment on display.

So much power is required that Texas Electric Service Company linemen already have strung extra wires and installed additional transformers to carry the heavy electrical load when the show opens.

Hundreds of feet of rubber-covered cable are laid out behind the exhibit booths to provide electric service to each exhibitor.

Company engineers estimate that the power demand at the show will be about the same as that for a town of 500 population, or about 150 homes.

This doesn't include the electricity for the two giant searchlights and the battery of lights, mounted on a truck, both of which are operated by portable power units.

If the electricity needed for these high-intensity lights were added, the total power used at the Electric Show would be enough to supply a town of 1,000 population.

**LIGHT SORCERY**—"Light" music comes from the Ukelitely in the hands of H. G. Schiller, master of ceremonies of "Light Sorcery," stage presentation which will be given twice each night under the "big top" on the grounds of the Big Spring High School. This is one of the feature attractions of the Texas Electric Show of '49 which opens Tuesday night.

**Farm-Ranch Power Equipment  
Improvements To Be Showed**

There'll be special highlights for stockmen and farmers—and of course their wives—at the Texas Electric Show of '49.

Electric hotbeds, range conservation ideas, electric water systems, wiring designed particularly for the rural homestead and a number of other rural living helps are incorporated in this year's show.

The best crop of range grass in modern times is featured in Reddy Kilowatt's soil conservation display. Head-high big and little bluestems, switchgrass and Indiangrass—the native plants which built the Southwestern livestock empire—are depicted in a 10-minute color film, "Prairie Harvest" which is part of the soil saving exhibit.

Dairy farmers will get the chance to see the latest in milking machines, milk coolers, separators, milk can sterilizers and barn cleaners.

Wives who tend the garden will find electric hotbeds ideal for giving sprouting plants a vigorous start.

Livestock raisers will want to take a thorough look-see at the electrical equipment for feed processing and handling, including hammer mills, electric feed mixers, electric poultry debarkers and other power operated work savers and production increasers.

**New Street Lights  
Aid Pedestrians**

Pedestrian safety in the downtown section and on highways into Big Spring has increased considerably through installation of the new mercury-vapor street lighting system by Texas Electric Service Company.

More than 160 of these modern lighting units, each mounted at the proper height above the street to keep glare out of the eyes of motorists, provide ample light to reveal pedestrians to persons operating automobiles.

Each of the mercury-vapor units, by the way, gives as much light as ten 100-watt incandescent bulbs.

A feature of the new mercury-vapor system is the beauty it lends to Big Spring. Persons entering town for the first time since the system has been installed almost unanimously comment on the pleasant effect achieved.

**OKAYED BY SENATE GROUP**

**Connally May Ask Early Pact Debate**

WASHINGTON, June 7. (AP)—Sen. Connally (D-Tex.) indicated today he may ask for early Senate debate on the Atlantic Pact. It was approved unanimously yesterday by the Senate Foreign Relations Committee.

Connally, chairman of the committee, predicted that the Senate will ratify the historic 12-nation alliance "overwhelmingly." He said he may try to have the current debate on a new labor bill set aside long enough to permit action on the treaty.

The committee report recommending the pact was approved by a 13-0 vote after it had been changed to meet objections raised by Sen. George (D-Ga.).

As written now, George told a reporter, the report makes "reasonably clear" that the treaty would not empower the President to go to war or "employ troops to enforce any particular action aimed at certain European countries without congressional approval."

Connally said the report aims to outline the treaty and "all its implications."

He added that the timing on the Senate debate depends on developments. The committee isn't ready to take up the pact this week, he said, but it may want to do so next week.

The treaty would bind each member nation to regard an attack on one signer as an attack on all to take such action as each deems necessary, "including the use of armed force."

Connally said the committee's approval "will have a tremendously beneficial effect on the world situation."

But one of its chief critics, Sen. Donnell (R-Mo.), said his opposition is unshaken despite the unanimous action of the committee.

Donnell and Sen. Watkins (R-Utah) have contended the pact would permit the United States to become involved in war without congressional approval.

Donnell told a reporter that although he has not seen the committee report, his views haven't changed.

Watkins is in Utah, but a member of his office staff said he had talked with him and added it is safe to say that the senator will insist on reservations to the pact.

**13 Physicians At Georgia Mental Hospital Fired In Controversy**

AUGUSTA, Ga., June 7. (AP)—Thirteen of the 15 doctors at Georgia's huge mental hospital were fired yesterday and threatened with trespass charges if still on the premises this afternoon.

The mass dismissal was a "you can't quit, you're fired" affair.

Dr. T. G. Peacock, medical superintendent of the 10,000-patient hospital, presented his and 12 other resignations to State Welfare Director Jack Forrester.

Forrester hurled them aside and handed Peacock 13 letters of dismissal. He said he had 11 other physicians to take over the institution immediately. The resigning doctors had offered to remain for a limited time, with or without salary.

The welfare director ordered the doctors out of their state-owned, rent-free quarters within 24 hours. The facilities are needed, he said, for the new doctors.

Dr. Peacock said later they will fight any move by the state to evict them. He said he and the other dismissed doctors had been advised by legal authorities they can stay in their quarters legally for as long as 90 days.

The exchange of resignations and releases climaxed a controversy which began brewing May 1. On that date Forrester appointed T. A. Dechman superintendent

in charge of the hospital, second largest of its kind in the nation. Saturday the 13 protesting doctors gave Gov. Herman Talmadge an ultimatum: Either remove Forrester and Dechman from their offices or we quit.

They agreed on a truce until Wednesday when the state social security board was to meet and arbitrate the dispute.

Then Sunday the governor said he would not fire Forrester and Dechman. Instead, he offered to remove the doctors from Dechman's control.

The doctors rejected the compromise and said they could not work with Dechman under any circumstances.

In a statement, the doctors deplored the "habit" of state officials in making the institution a "political dumping ground." Dechman, they said, had created "turmoil and chaos."

Forrester in turn charged the doctors with "acts of insubordination and disloyalty."

The welfare director announced immediate pay raises for the new doctors.

Staff doctors will be boosted from \$407 to \$510 a month, and all doctors will get a \$25 increase in grocery allowances.

The two doctors who did not resign—Dr. G. L. Echols and Dr. J. R. Harrard—both are over 70 and in failing health.

**ELECTRIC KITCHEN**—Full use of small kitchens is practical when modern electrical kitchen equipment is installed. Here an apartment-size electric range and sink and refrigerator combination takes up a minimum space. Other types of electric kitchens will be on display at Big Spring High School during the Texas Electric Show of '49 which opens Tuesday.

**TALKING LAMP**—A circular fluorescent lamp that talks is one of the features of "Light Sorcery", a 45-minute stage presentation at the Texas Electric Show of '49. "Light Sorcery" will be presented in a large tent on the show grounds twice each evening at eight o'clock and nine-thirty during the three day show which opens Tuesday. In the above photo M. G. Schiller, master of ceremonies, is sending his voice over a light ray.

**Food Relief For Hawaii Is Seen**

HONOLULU, June 7. (AP)—A plan to bring a food relief ship to strike-bound Hawaii will be considered in detail today by a CIO Dockworkers Committee.

The union already has given approval "in principle."

Robert McElrath, spokesman for the striking International Longshoremen's and Warehousemen's Union, predicted speedy approval of the plan by the committee.

He said waterfront employer and union representatives worked out last night tentative details of a plan to bring in food. The islands' six ports have been tied up since May 1.

Earlier both parties had announced willingness to permit shipment of relief supplies.

McElrath said the plan includes these provisions:

1. Territorial Gov. Ingram M. Stainback's food relief committee will decide what basis foods are needed.
2. The ILWU will unload the ship at pre-strike conditions. This would be at \$1.40 an hour and normal unloading speed. The union struck to enforce its demand for \$1.72 an hour.
3. The relief ship will be permitted to clear Honolulu harbor for return to the West Coast with 2,000 tons of molasses as ballast.

McElrath said the Matson Freighter Hawaiian Refiner probably would be designated the relief ship. She is at San Francisco.

**EMERGENCY SHIPMENT**

An emergency shipment of medicine and yeast was unloaded yesterday from the Navy Transport General Breckenridge at Pearl Harbor. It included insulin and penicillin.

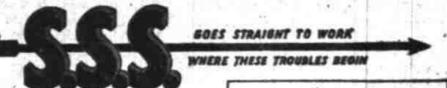

Stainback said another cargo of this type would leave San Francisco Wednesday aboard a Navy transport.

Adm. Arthur W. Radford, Pacific fleet commander, agreed with Stainback to permit shipment on naval vessels of supplies vital to the "health and safety" of Hawaii.

# Apathy Threatening Success Of Permanent Youth Center

The campaign to raise \$40,000 for a permanent home for the YMCA has come to a virtual standstill, some \$12,000 from achievement.

This means that it is in a critical state—it is within sight of the objective, yet protracted delay and apathy could mean failure.

Several possible alternatives are mentioned, such as seeking a market for a lot which adjoins the First Christian church, which the YMCA is hopeful of housing a community and youth center. But this and other alternatives to falling short are not nearly so practical as seeing the thing through to a successful conclusion.

Because of commercial renovations, the YMCA shortly will be without meeting quarters; already there are restrictions on sizeable meetings. It is almost imperative that the Y have a permanent home in order to function effectively.

Surely if people were aware of the

urgent need, they would rally to support of the undertaking. There are enough who have delayed—either through lack of personal invitation or a desire to think about it—to put this over the top if they would step forward now.

Recently we asked the senior class members what they thought of the community's record in meeting the challenge of youth. A majority thought the record had fallen short—and a majority of these mentioned a community center for youth activity as the outstanding need.

Here we stand with success within grasp—and with apathy threatening a worthwhile community accomplishment. What is needed is individuals with boldness and generosity to step forward and pledge now—or if that has been done, to speak earnestly to others, encouraging them to do likewise. Call the YMCA and volunteer your funds or help. You won't regret it.

# Issue Of Tax Equalization Needs To Be Faced Squarely

Dallas county officials are pondering over the problem of collecting on \$200 million property which is riding tax free in that county, either through under valuation or absence from the rolls.

While there are said to be thousands of pieces of property not on the rolls, the major portion of the lost assessment is through under-valuations.

What confronts Dallas confronts this and practically every other county in the state. If there is a county with truly equalized values, we do not know about it. Ours is no exception.

This is no secret. Theoretically we levy on 50 per cent of the actual value. On this basis, some are valued fairly, although most fall short of that level. But there is no uniformity of degree in how

far property falls short of that point. Some is barely under, much way under, and still more from five to 20 times under.

Obviously, equalization is needed. Each year the commissioners court is charged with holding equalization hearings. The oil and utility portion already have been up for consideration; soon the general run will be called. But these sessions resolve themselves into hearings on changes in values—of those protesting a rendered or assessed figure. These are single shots and do not answer the board problem of equalization. That can't be accomplished within the next two weeks, but there can be serious thinking about it. It can be dismissed with a shrug of expediency, or it can be faced squarely as fairness dictates.

# Nation Today—James Marlow

## What Members Of Congress Say Isn't Necessarily What They Do

WASHINGTON, — MAYBE IT'S MY arithmetic that's bad but you can't always make it add up. What members of Congress say and what they do.

Take economy, for instance. Ever since January they've been talking of cutting government expenses. Now it's June. They've not cut yet. I'm beginning to wonder whether they'll cut at all this year.

Nobody's talked more about it than the senators. But when it came to doing something about it, they voted almost all the way down the line to spend more money than the House. Example:

For the treasury and post office departments—House \$3,072,817,903; the Senate, \$2,408,827,265, or \$198,033,180 more.

Agriculture department—House, \$701,122,079; the Senate, \$723,083,249, or \$21,961,170 more.

River, harbors and waterway development—House, \$593,292,270; the Senate, \$751,440,690, or \$158,148,420 more.

State, justice and commerce departments—House, \$684,616,102; the Senate, \$661,782,281, a cut by the Senate of \$12,833,821.

This last one was the only place where the Senate, in voting money to run the government another year, voted less than the House.

Since both houses came up with different figures, none of the figures is final.

BOTH HOUSES NOW MUST WORK OUT a compromise on their differences and probably will agree on a sum about midway between Senate and House desires.

In the midst of the increasing talk about economy, the House late last week approved a pension bill for war veterans.

The fact that veterans are very numerous and can be a big factor in elections may have had nothing to do with the House's decision to give them a pension.

But if this House-approved pension bill becomes law—it can't unless the Senate also approves—government experts figure it will cost the government \$65 billion over the next 50 years.

But on the same day the House okayed the pension bill, its Rules Committee—which has large control over what the House can vote on—hastily allowed letting the housing bill come to a vote. This involves more billions.

Meanwhile, House members are still toying with the idea of giving themselves \$3,000 a year extra for more clerks and \$500 additional for things like telephone calls and telegrams.

# Today And Tomorrow—Walter Lippmann

## Big Four Have Grown Smaller As War Has Receded Into Past

This meeting of the Big Four has been remarkable for its lack of big talk, big plans and big gestures. That may well be because since last they met such big things have happened in so many parts of the world. For it is quite evident that the Big Four have shrunk in influence and power as the war has receded into the past. Even if now they were able to agree among themselves, their decisions would no longer shape the future of Europe and of Asia as, at Teheran, Yalta and Potsdam, it was once believed the big powers could.

Perhaps it was from the beginning an illusion to think that the big victors could agree on a settlement for the whole world. Perhaps it was an even greater illusion to think that if they did agree, their settlements would be accepted by the whole world. In any event it is now manifest that the area is rapidly changing in which the Big Four together or the Big Four separately can make decisions, can impose them or get them accepted. In Germany and in Japan, in Eastern Europe and in the Middle East, in China, in Southeast Asia, and of course

in India, the day has passed or is passing when the Big Four can hold a meeting and then dictate or determine the shape of things to come.

This downgrading of the Big Four is, I venture to think, the principal reason why the meeting in Paris arouses so little hope and excites so little fear. Once it was believed that Churchill, Stalin and Roosevelt were deciding the destiny of mankind. Almost no one feels that Vishinsky, Schumann, Bevin and Acheson are deciding the destiny of mankind.

The dictatorship of the Big Four, about which so much was said at the end of the war, has not happened. It broke down completely during the cold war. It was supposed to be followed by the division of the world among two super powers, struggling to decide whether the capital of mankind would be Moscow or Washington. This conception of the future has been dissolving—rather dramatically during the past year.

It is increasingly plain that no one power is going to dominate the world, that no two powers can divide the world, and that the political influence of both Russia and America, which was so greatly inflated in 1945, is being deflated.

It is now certain that despite the unconditional surrender, it will be impossible for the victors to dictate the peace treaties with Germany and Japan and that by one process or another the settlements will be negotiated with the Germans and the Japanese. Moreover, in almost the whole of Asia and in most of Europe, there is beneath all the intricate and confusing events, one common current which is causing the dissolution of control by the big powers.

Not only the old colonial empires but also the more recent post-war spheres of influence—the Russians in Eastern Europe, the American in China—are caught in this tremendous current of resistance and rebellion by the native populations against distant and alien big powers.

The over-simplified formula of the cold war—that all the world will go "democratic" or will go "communist"—is, it seems to me, a fallacy which must be discarded before we can hope to see at all, much less see clearly, the course of events and our part in them.

# Barn Ramp Brings Non-Squat Milking

CONWAY, Ark., (AP)—If milking bossy gives you a back ache, Farmer H. O. Proctor figures he can save you a lot of stoops. It's just a matter of putting the cow on a higher level than the milker, says Proctor, who operates a farm near here.

Proctor used to wear himself out stooping over to milk his 20 cows each day. He thought up the idea of building a ramp around his barn high enough so that when he has to milk all he does is reach out and attach electrical squeezers. Everything is set—with no back bending.

The old method required one bend to wash off each cow's set of faucets; another to attach the electrical milking machine and a third to remove the mechanical apparatus. That's six squats per cow per day. Since Proctor milks an average of 20 cows twice a day for 10 months, that represents 36,000 stoops he now saves each year—or so he figures.

# Merry-Go-Round—Drew Pearson

## Truman Cuts Down On Church-Going To Avoid Being Gaped At By Worshippers

WASHINGTON — President Truman would attend his family church, the First Baptist, often, except for the fuss and fanfare that occurs when he shows up for Sunday services.

Truman has strong ideas that people should go to church to worship not to see who's in the congregation—even if the President of the United States is on hand.

"I don't like being a circus attraction in a place of worship," he has remarked on several occasions.

His pastor, the Rev. Edward H. Pruden, agrees with the President but is always polite to people who phone him on Sunday mornings wanting to know if Truman will be there.

The Rev. Mr. Pruden couldn't resist a little good-natured chiding, however, when a lady phoned him just before services on a recent Sabbath.

"No, the President doesn't plan to attend services today," he advised the curious caller, "but God will be here."

time Commission before trying to influence shipping legislation on Capitol Hill.

Though this statute has never been repealed, big shipping lobbyists pay no attention to it. Even now a flock of lobbyists are clamoring before Congress for new shipping subsidies and, out of the entire lot, only one has bothered to register with the Maritime Commission.

He is the Waterman Steamship Company's lobbyist, Bon Geaslin.

Other shipping representatives, who have appeared before Congress but haven't bothered to register under the 1936 law, are: L. R. Sanford, also a former Maritime Commission employe but now executive vice president, Shipbuilders Council of America; Frazer Bailey, president, National Federation of American Ship Owners; Wilbur E. Dow Jr., president, American Tramp Shipowners Institute; and Chester Thompson, president, American Waterways Operators, Inc.

As an example of the handouts they seek from Uncle Sam they are asking Congress for a dual standard of depreciation on their ships. For the purpose of paying taxes, they want the government to grant an accelerated 15 per cent depreciation which would completely depreciate their vessels in less than seven years.

On the other hand, the shipping companies demand that the government figure a 20-year depreciation in paying for private

ships it takes over in case of war. That's the kind of lobbying the ship companies' unregistered lobbyists are doing on Capitol Hill.

NOTE — To find out whether the lobbyists were registered this column called Maritime Commissioner Joe Carson. He squirmed at the questions, demanded to know who had tipped off Pearson. At one point, he blurted: "I suppose you are recording my conversation."

Assured that he was not talking into a dictaphone, he still held back. Though the information is a matter of public record, Carson finally refused to answer any more questions.

REVAMPING COMMUNISM

The puppet government of Czechoslovakia is doing an about-face and will take in a number of non-Communists. Also Czechoslovakia wants aid under the Marshall Plan. However, don't be fooled by this. Actually, the proposed Czech changes are tied up to the situation in Greece.

Russia's Andrei Gromyko proposed at the United Nations that the Greek government broaden its base and hold free elections. To which Dean Rusk of the State Department and Hector McNeill of the British Foreign Office replied in effect: "How do you dare talk about democracy in Greece when you have abolished all democracy and free elections in Czechoslovakia?" To avoid embarrassment, the Kremlin has now decided to take a small portion of its heel off the neck of the Czech people.

# SOCIAL DIPLOMACY

The full inside story has not yet been written of how Andrei Gromyko, first deputy foreign minister of the USSR laid the groundwork for the Paris Big Four Conference.

It is a story which involves such names as Nelson Rockefeller, Warren Austin, and especially Mrs. Austin and Mrs. Gromyko.

During the past year, Gromyko has quietly broken down the social wall which normally keeps Soviet diplomats from contact with the world they live in. He has accepted frequent dinner invitations from U. S. Delegate Warren Austin, at which young Rockefeller and other broad-minded businessmen were present.

Actually, there was not much hush-hush discussion at these dinners. One informant describes them as being "painfully social." But they broke the ice between key individuals of East and West—thanks in part to the cordial feeling that grew up between Mrs. Austin and Mrs. Gromyko.

The Austin dinners were reciprocated by the Gromykos, at their 680 Park Avenue residence.

These social icebreakers began even before Gromyko went back to Russia last year, and those who knew his movements in that period say he went not only to Moscow but to Sochi in the Crimea, where he was a personal guest of Premier Stalin.

Stalin, apparently impressed with Gromyko's report, asked him to make a report direct to the Politburo. This Gromyko did, stating that there was a genuine desire for an East-West understanding in the U. S., and no desire for war.

This is the dinner-table background—in which the ladies played no small part—in which helped soften the Soviet Foreign Office and opened the way for lifting the Berlin blockade.

# THE SHIPMENT LOBBY

While Congress is supposed to be cracking down on lobbyists, the paid representatives of the big shipowners are violating an early lobbying act that became the forerunner of the present lobbying law.

This first congressional attempt to put the finger on lobbyists has been on the books since the Merchant Marine scandal of 1938, and requires lobbyists to register with the Mar-

# Hollywood—Bob Thomas

Star Says Films Can't Please All Age Groups

HOLLYWOOD, June 7 (AP)—What's wrong with the movies? Free-thinking Bette Davis comes up with an answer to the oft-heard question:

"Hollywood tries to combine entertainment for both kids and adults in the same picture. The result is a movie which isn't suitable for either."

She looks less like Bette Davis and more like a vivacious Spanish dancer these days, because of her black wig for "Beyond the Forest." But when she comes across with some startling statements, you realize it's Bette, all right.

"That's what the English Pictures have over American ones," she continued. "They make pictures for children only and pictures for adults only."

"Kids like any kind of picture, whether they understand it or not. But it stands to reason that the gangster and murder pictures they see have some influence on them. The movies glamorize crime and criminals, and kids are very impressionable."

"On the other hand, we don't have honest adult pictures on the screen, either. In the last 10 to 15 years movies have become so restricted that today it is impossible to portray true emotions on the screen."

"I'm not making a plea for dirty movies—just honest ones."

Miss Davis declared that cen-

## Cooking Course For Brides Is Feature Of Honeymoon Resort

In up-state New York, Mack Weiner, resort operator, has come to the rescue of beautiful, but short of cooking knowledge brides. He believes that a bride should learn how to run a kitchen at the same time she's finding out how to run a husband. If more people would take up his idea and do something about it, career girls wouldn't have to go around worrying about that meal they have never cooked. They could become experts in the fine foods world in ten easy lessons following their trip to the altar.

Weiner presides at White Roe Lake at Livingston Manor, a resort which caters to honeymooners in June and is typical of most mountain playgrounds except for one thing—Weiner's intensive cooking course for brides. It's a course which he says grew out of "my own sad experience immediately after I married."

Like many people we could name, Weiner says that his wife was a perfect girl to look at, but hopeless when turned loose in the kitchen.

The resort operator says that at first "we just joked about her poor cooking, but as time went by mealtime became an explosive occasion" and that after a few months of bicarbonate of soda and family

quarrels, he took matters in hand and started teaching the missus what you do with pots and pans. He dug up all his old textbooks and proceeded to conduct a home experiment in domestic science. Incidentally, Weiner is a graduate of the hotel management school at Cornell University and is a veteran of the resort business both in New York and Florida.

Weiner says the story ended happily, for his wife eventually became a kitchen artist. But that the whole thing caused him to open the cooking classes at White Roe last year for the first time so other husbands won't have his troubles. Mostly, the birds are taught the simple rules of cooking and some easily fixed recipes.

Last year's pupils didn't get any diplomas. But this year Weiner said they'd get an elaborately decorated "gag document" they can hang in the kitchen in case any arguments come up over a meal.

This year the course will be expanded to include guest speakers who'll discuss budgeting, marketing, menu planning and food storage.

Husbands will be invited to a few lectures to tell their food preferences.—MILDRED YOUNG

# Notebook—Hal Boyle

## Killing One's Friends Sometimes Is Harsh Necessity In Wartime

ST. LO, FRANCE, (AP)—HERE IN this town five years ago we Americans and our allies killed many friends while trying to dislodge the enemy. Yet we still have many friends here, although our bombs destroyed their homes and many of their relatives.

It is a strange punishment in wartime that it is sometimes necessary to kill the friend you love in order to defeat the enemy you hate.

That is a lesson that people in our broad land of power can never afford to forget. Our young men came here from across the sea in the cause of freedom—but to many St. Lo patriots the price of freedom was death.

Here in St. Lo, man paid an expensive price for the liberty that everyone craves. And if America doesn't back the freedom principle, then it has all gone for naught.

rich in a world of wide poverty. Our aim is to end war, but to preserve the liberty without which the wealthiest man is a pauper.

If we miss our aims ourselves, it isn't because we don't feel that all men should be free and happy. It's only in our own great land that we haven't been great enough to shape and deliver a perfect world. But it's the world we believe in with all our soul might and it's the world we try to make come true. And some day it will come true, though we don't rule the world, as no one country should.

HERE, WE HURT OUR friends, it is good to know that some remember and forgive.

We Americans who fought to drive the Germans from this town will never forget. If we helped tear you apart, and Lord knows we did, we also know you belong to us in your ruins exactly as we belong to you in our strength. We are as helpless—big and powerful as we are—as you are helpless. Our courage is our common salvation.

We can rebuild St. Lo and the world—you and we who helped beat both to pieces, only insofar as we believe in each other. Only through mutual faith can we reassemble the scattered stones of our time and make a living monument to man—the inheritor of hate but also the only possible architect of order in our world.

# Affairs Of The World—DeWitt MacKenzie

## World Affairs Might Be Better If Churchill Had Been Heeded

THE FIFTH ANNIVERSARY OF D-Day when the Battle of Europe was inaugurated by a mighty invasion of Normandy by Allied forces, recalls the striking differences of opinion which existed in supreme circles over where the assault should be delivered.

Premier Stalin has been urging an invasion of France by the Western Allies to ease pressure on the Russian front. However, British Prime Minister Winston Churchill was chilly to his proposition. He favored an invasion all right, but his mind was set on stabbing at what he described in his picturesque language as the "soft underbelly of Europe" meaning in the Mediterranean area.

Churchill presented this view on its military merits, but there were many observers at the time who felt that he might be looking at the situation as much, or more, from the political angle than from the military. The Allied invasion of Italy already was under way, and if the Western Powers drove up into the Balkans, they would have possession of this strategic territory of Eastern Europe when the war ended.

In any event, he was overruled. The Allied decision was to make the assault through Normandy. This daring undertaking—the greatest of its kind in history—was carried out to victorious conclusion.

Our homage to the gallant forces who performed this feat! Was it only five years ago that they landed on the shore of Normandy? It seems a lifetime.

THE IMPLICATIONS OF SUCH AN operation are clear enough. The Western Allies would have come to dominate South-eastern Europe and would have swung into Central Europe on the left flank of the Russians. Thus, instead of giving the Moscovites a free hand in all Eastern Europe, the other powers would have been there with their armies when the armistice came.

THAT OF COURSE WOULD HAVE meant a complete change in subsequent events. Russia would not have overrun all Eastern Europe, and established a Communist empire with its eastern frontier running through the heart of Europe, from Stettin on the north to the Adriatic on the south.

On that basis there probably wouldn't have been a "cold war." Many of the nations which became unwilling satellites of Moscow would have remained free and would have cast their political lots with the Western Democracies. The affairs of Germany and Austria would long ago have been ironed out and they now would be contributing to the rehabilitation of Europe.

# Today's Birthday

VIVIAN KELLEMS, born June 7, 1906, in Des Moines, Ia., daughter of a minister, and the only girl in a family of seven children. Moving to Oregon, she was graduated from the University of Oregon in 1928 as a classmate of her mother. After two years as a Chautauqua booker, she returned to Oregon for her master's degree in economics, then went to Columbia for a year. Her brother Edgar invented an industrial grip and with \$1,000 Miss Kellems formed a company in 1928 to manufacture it. By the end of the year she had paid her brother \$4,000 in royalties and 20 years later she was paying herself \$50,000 a year. She gained much attention by challenging the income tax laws and lost nomination for Congress to Clare Booth Luce.

# Better Baby Program Opens Monday With Parade Of Bright-Eyed Youth

Bright-eyed youngsters in brief sunsuits were paraded before the judges by proud parents during the opening session of the Better Baby program sponsored by the VFW Auxiliary in the Municipal Auditorium Monday afternoon.

In all, some 200 children from infancy through five years of age promaded or were carried across the stage. Some were hesitant, some shy with fingers in their mouths and others were like one little brunette pike who enjoyed the judges so much she wanted to go talk to them again.

Six official judges including Mrs. Mary Alice Isaacs, Mrs. Clara Zack, Mrs. Jack Y. Smith, Mrs. W. H. Power, Mrs. Roy Green and Mrs. H. J. Rutherford, endeavored to judge the children on beauty of form, features, charm and personality. Each judge was assigned specific characteristics to look for: one was assigned hair and eyes; another, posture and form; the third, general appearance and others, personality and facial features. Judging was done by numbers and not by name.

# Linda Hall Honored On Third Birthday

Mrs. Ward Hall entertained with a party Sunday afternoon honoring her daughter, Linda, on her third birthday with a party at their home 1900 Runnels.

Games were played. Whistles served as favors. Refreshments included a lamb cake.

Those attending were: Leanna and Deanna Ward, L. R. and Rita Fay Saunders, Donnie and Howard Hall, Beth Whitney, Beverly Dobbins, Rinda Reeves, Frances Ann Patterson, Patricia Stacey, Kathleen, Cleo and Nancy Thomas, Louise Ann and Johnnie King, Mrs. R. E. Dobbins, Mrs. George Hall, Mrs. C. P. Brownell, Mrs. L. R. Sanders and Mrs. Harold Hall.

# RIBBON RAMBLINGS

You can't go home again. They say that the "silly six" had a reunion in a West Texas town over the week-end. "Silly six" is the nick name given to a small crowd of close friends, who had a lot of fun together through their grade school, junior high and high school days.

It is just as well that things do change, that you must live in a different world today than you did yesterday or you will tomorrow. The sad thing is that too many try to live in the past. Others forget that the joys and sorrows, mistakes and successes of yesterday should mean something to life today. They feel saddened that the threads of old friendships cannot be completely pieced together and yet they fail to use the experiences of those friendships to make a happier today in new places, with new people and new interests.

# M. D. Newtons Are Parents Of A Son

A son, David Harrison Newton, was born to Mr. and Mrs. M. D. Newton at the Cowper clinic and hospital at 3:55 p.m. Saturday.

Edith Davis and Bell Jones have returned home from Canyon where Bell has been attending West Texas State College and where Edith is employed. They will return Tuesday to attend the summer school session.

# Lucille Brown Named Rebekah Noble Grand

Lucille Brown was elected Noble Grand when the John A. Kee Rebekah Lodge No. 153 held a regular meeting in the IOOF Hall Monday night.

Other business included the election of Grace Martin as vice grand. Part of the committee for the new term were appointed. Pearl Mann was initiated as a new member.

# Dr. P. D. O'Brien Conducts Study For First Baptist WMS Meet Monday

Dr. P. D. O'Brien conducted the Bible study, "The Holy Spirit," following the covered dish luncheon and meeting of the Women's Missionary Society at the First Baptist church Monday.

Those present were Mrs. J. D. Nixon, Jr., Mrs. J. C. Irwin, Mrs. Roy Phillips, Mrs. Della K. Agnell, Mrs. J. C. Lane, Mrs. Theo Andrews, Mrs. A. L. Hobbs, Mrs. Dick O'Brien, Mrs. Alton Underwood, Mrs. H. E. Choate, Sr., Mrs. S. Marie Haynes, Carl Phillips and Johnny, Mrs. Lena Greer, Mrs. Irving Daniel, Doris Ann and Judy, Mrs. Inez Lewis, Mrs. C. T. Clay, Charles and Robert, Mrs. C. T. McDonald, Mrs. V. W. Fuglar, Mrs. W. E. Mann, Mrs. O. B. Hull, Mrs. D. J. Wright, Mrs. G. H. Hayward, Mrs. R. V. Jones, Mrs. J. E. Hardesty, Dr. P. D. O'Brien and H. E. Choate.

# Stanton Study Club Has Luncheon Meet

STANTON, June 7.—The Stanton Study Club held the annual spring luncheon Thursday in the IOOF Hall. Members of the Rebekah Lodge served the meal. Pink and red roses formed the centerpiece for the luncheon tables.

Those attending were: Mrs. Floyd Smith, Mrs. James Jones, Mrs. Edmond Tom, Mrs. Guy Eiland, Mrs. B. F. White, Mrs. R. B. Whitacre, Mrs. Houston Woody, Mrs. J. E. Kelly, Mrs. Sam Wilkinson, Mrs. H. A. Houston, Mrs. Calvin Jones, Mrs. Phil Berry, Mrs. L. O. Justis, Mrs. Paul Jones, Mrs. T. Y. Allen, Mrs. Ralph McWhorter, Mrs. Ben McReynolds, Mrs. B. F. Smith, Mrs. Virgil Stevenson, Mrs. Morgan Hall, Mrs. J. H. Rosamond, Mrs. Glenn L. Brown and Maud Alexander.

# Forsan News Notes

FORSAN, June 7. (Sp)—Mr. and Mrs. A. L. Byrd honored their daughter, Delane, with a picnic and birthday party in the Big Spring city park Thursday. The honoree was ten years old. Games comprised the entertainment and refreshments were served.

The Rev. A. L. Byrd entertained approximately 60 children and sponsors of the local Bible school with a picnic at the Big Spring City park Friday.

Big Spring

# Broncs Lead By 4 Games; Hit Road For 6 Contests

There must be something about Fernando Rodriguez that causes old Jupiter Pluvius to do nip-ups. For the fifth time this season, the Big Spring Broncs Monday had to call one of the Longhorn baseball league games because of rain. For the fourth time, the proceedings were stopped in the lower portion of the fourth inning. And for the third time, Rodriguez was shouldering the pitching chores when the moisture arrived. Rodriguez and Big Spring were leading Odessa, 2-1, when rain halted the Monday show. Tropicane had already struck out eight men in the four rounds he worked and given the Hosers their first run with a second inning single into left field.

Odessa scored its one and only tally on a break. With two away in the top of the fourth, Ace Mendez camped under Alex Monchak's leg. By to center but fell and the blow went for a triple. Nick Rotari brought him home on a single between first and second. The Cayuses had men on second and third with two out when Umpire Jack Dorothy decided everybody had had enough. Mendez was wounding the stick.

Of the six Broncs hits, Bert Hernandez had crashed out two while Felix Gomez, Eddie Ramirez, Carlos Pascual and Rodriguez had one each. Pascual had driven in Ramirez for the second run. Failure to get the required four and one-half innings in didn't hurt the Hosers. In fact, they picked up half a game in the standings, second place Vernon having lost to Sweetwater.

Manager Pat Stasey takes his hopes to Roswell today where they begin a two-game set with Rob Cruces' revamped 'Rockets'. They double back to Sweetwater for two games, then pop in Odessa for two before returning here with Roswell next Monday night.

Monday line score:  
Odessa ..... 00 1-1 2 2  
Big Spring ..... 011 x-2 6 0  
Diaz and Doe; F. Rodriguez and Valdes.

## Cards Nearing Circuit Lead; Trim Braves

This tightest of all National League pennant races, has everybody going around in circles. Even Fred C. Frick, highly optimistic president of the circuit, never dreamed it would be anything like this. Here it is in June, with one third of the season almost out of the way, and a mere half game separates the first four clubs.

At the moment, Brooklyn and the New York Giants share first place; St. Louis and Boston are only a half game behind, with the Cards holding third place by .002 percentage points over the Braves. The Dodgers took advantage of defeats by New York and Boston yesterday with a 5-1 night game triumph over Pittsburgh to dead-lock the Giants for the top rung.

Don Newcombe, the Giant Negro right-hander, hurled a four-hitter against the Braves. He struck out 11, high for the league this season. A wild pitch in the eighth cost him a shutout. In the meantime, the Dodgers collected eight hits off loser Bob Cheshnes, including a home run by Duke Snider, a triple by Gene Hermanski and doubles by Hermanski and Newcombe himself.

Howie Fox pitched and batted the Reds to a 4-3 victory over the Giants. He not only scattered eight hits for his second triumph over the New Yorkers, but singled in the man who proved to be the winning run in the sixth. The high flying Cardinals made it five victories in their last six road games and 12 out of their last 14 starts by thumping the Braves 7-3. Two three-run innings—the sixth and the ninth—did the trick. Enos Slaughter's sixth home run helped.

The two scheduled games in the American League resulted in Detroit losing its undisputed possession of second place, and Cleveland moving past Chicago into sixth place. The Tigers were nosed out 10-9 by the Boston Red Sox, who overcame a 5-2 deficit with flurries of three runs in the seventh and five in the eighth. The Indians, with Manager Lou Boudreau playing third base for the first time since his minor league days, exploded for nine runs in the eighth inning to come from behind and defeat the Philadelphia Athletics, 11-5.

## Looking 'Em Over

by Tommy Hart

An incident which paints an umpire as the villain of the piece reportedly is developing in the WT-NM league. Abilene, sister club of the Big Spring Broncs, happen to be the locale. The arbiter, so the story goes, went into a tirade when one of the Blue Sox, who happened to be a Cuban, questioned one of his decisions. Bilpd Tom blew his stack as they say in the Army, and without stopping to consider whether or not the Havana could understand English, reportedly bellowed, for the opposing catcher's benefit: "I wish they'd send these blankadeblank Cubans back home. They give me a pain."

It so happened that the victim of the language could understand what was being said, however, and stepped out of the box to question the ump's right to take exception to his nationality. When that happened, the arbiter angrily chased him out of the game. The story was noised around some of the press, which are making an issue of the incident and hope to bring it up for review before the league president, Milton E. Price. If the scribes have their way, the official will heed a suggestion and abandon the trade for some other field of endeavor.

That obese oracle of the Concho, Blondy Cross, who foams at the mouth like a mad-dog on occasions, has taken another punch at the Cubans decorating the roster of the Big Spring team, using Lefty Shelton of Foran as a foil. The man with the suet and the perpetual frown spouts off that Shelton, who in reality is easy to get along with, has an obsession in life: That in stopping the Cubans. Cross, who obviously would beat his head against a tree if he thought it would attract some attention, would have said more than enough had he stopped there. Instead, he proceeded to paint what was intended to be an astonishing expose to the effect that local baseball fans, at least a great many of them, frown at mention of the team because some of the lads are foreign-born. How crude can you get?

A few of the malcontents here perhaps have expressed dissatisfaction with the makeup of the roster. They are usually the same people who'd look a gift horse in the mouth, who can see no good in anything. The boys playing here have the eyes of all Cuba on them. The manner in which they are received, more often than one thinks, is mirrored in the editorial columns of the Havana press. If our attitude toward them is favorable, then the reaction in their home land is favorable. If our attitude is one of ill will, when we can expect to pay the consequence in shrunken prestige overseas.

Live-wire Al Aton, president of the Big Spring baseball professionals, is dreaming up a 'night' that will pay homage to his star boarders, the male customers. Aton staged an 'orchid night' for the ladies last weekend, offering something like 500 flowers to the first women who showed up. The orchids were all gone 45 minutes before game time. Al thinks the male fan deserves a break, too, and will try to do something about it.

Likeable A. D. Ensey, here for the series between his Oilers and the Broncs, opines his club will pace the league in attendance again. He says the turnouts have been stupendous there, despite the fact that the team hasn't been winning. Ensey is a genius at promotion, a real asset to the league.

## Nelson Looms As Man To Beat In Open; Lord Byron Matching Par In Practice

CHICAGO, June 7. — That familiar links' battle cry several years ago of "Beat Nelson" is being revived. Lord Byron, who faded from the winners circle through two-years of semi-retirement, appears ripe for another conquest.

Most of the top-drawer pros tuning up for the National Open starting Thursday on Medinah's tree-chooked No. 3 course think the golfer of the hour again is Byron Nelson.

Nelson, who has been methodically matching par 36-35-71 in daily practices on the 7,040-yard layout, unquestionably has the type of shots to win his second National Open crown in 10 years. Just as important, he knows the hilly, dog-legged No. 3 course better than any journeyman present. He won the 1939 Western Open there with 282, the 1946 Chicago Victory Open with 279 and holds the competitive course record of 67 jointly with Tommy Armour.

The course is longer than it was in those days. As the result Bobby Locke, Lew Worsham, Cary Middecoff, Sam Snead, Johnny Palmer, Jimmy Demaret, Lloyd Mangrum, Nelson and other prime favorites are talking in par figures rather than in sub-pars.

There were other great pitching exhibitions. Ruben Porras of Bowie gave Stephenville only two hits as the El Pacons beat the Yellow Jackets 5-1. Austin downed Lubbock 2-0 on a one-hitter by Jackie Brinkley. He struck out 14 batters. Waco licked Beaumont 8-5 with Joe Mack Gresham limiting the Royal Purple to six hits. Willard Sterling gave up only five to Waco but they were bunched in the right spots.

Two games will be played tomorrow night, one for third place in the tournament and the other for the championship.

## Pitching Takes On Importance In Texas Loop

DALLAS, June 7. — Sharp hurling and stout defense have stolen the spotlight at least momentarily in the Texas League race.

Most of the time it has been slambang hitting that decided the issues but last night good pitching predominated. The league-leading Dallas Eagles lost to the cellar crew from Houston by a score of 5-4. Second-place Shreveport failed to gain any ground, losing to the Tulsa Oilers 6-1. The third-place Fort Worth Cats gained a full game on Shreveport by defeating the fourth-place San Antonio Missions, 4-1. Fifth place Oklahoma City climbed a full game on the Missions by downing the Beaumont Exporters, 5-4. Dallas spoiled Floyd Bevens' debut in the Texas League. The former New York Yankee hurler was touched for three runs in the first frame and went to the showers after the third inning. Buck Frieron homered for Dallas' fourth run in the sixth.

After seven scoreless frames, Houston's Solly Hemus broke the ice with a three-run triple in the eighth. In the ninth, Lou Ortiz singled across Roland LeBlanc with the tying run. Then, Pinch Hitter Jack Cusick singled to score Ortiz with the winning tally.

Dallas garnered only six hits off three Buff hurlers. Tulsa defeated Shreveport behind the three-hit chunking of hurler Jim Blackburn. One of the three hits off Blackburn was a home run, in the ninth, by Lewis Davis. Tulsa counted five tallies in the second frame.

Fort Worth's Carl Erskine notched his fourth mound victory of the season by handuffing San Antonio with four hits. The Missions' lone tally was Don Lenhardt's ninth home run of the ear in the sixth. The Cats' three-run rally in the third included Cal Abrams' two-run homer. Chico Carresquel also homered for the Cats, in the seventh.

Oklahoma City's Al Olsen and Jack Hellop scattered 11 Beaumont hits as the tribe defeated the Exporters. Tommy Upton of the Exporters led the hitters with four hits in five trips, including a home run. Tonight, Dallas plays at Houston, Fort Worth at San Antonio, Oklahoma City at Beaumont and Tulsa at Shreveport.

## Tigers To Host Odessa Troupe

The Big Spring Tigers, a Latin-American baseball nine, return to action here Sunday, at which time they play a return game at Steer park with the Odessa All-Stars.

Bert Baer shut out the Odessans last Sunday, 10-0, but Manager Ynez Yanez remarked following the game that the club was one of the best they had faced all season. Baer, or Isa Mendoza will probably hurl against the All-Stars this weekend.

## Harrington Wins Insurance Honor

Membership in the Texas Leaders Round Table, a coveted honor for insurance men, has been attained by Matt Harrington, local representative of the Southern Life Insurance company. Election to membership in the Round Table is determined by volume and type of insurance sold. Harrington is one of 34 representatives of his company in the honor organization. All companies operating in Texas have 366 representatives on the list.

## Ralph Guldahl's Son Is Groomed For Third Family Open Victory

RALPH GULDAHL JR., COPIES DAD'S GOLF SWING  
SAN DIEGO, Calif. June 7. — There's a young Ralph Guldahl coming along here. He may someday follow in his father's path as a national golf figure.

Ralph, Sr., is doing his best to help the youngster's cause. The onetime national Open and Masters' champion acts in the role of coach. He also extends that service to other boy golfers at Hoover high school where Ralph Jr., 14, is a student. The son's style is much like his father's. He is deadly on his short irons and at putting—two points which helped make the senior Guldahl, now 37, the National Open champion in 1937 and '38, the Western open winner in 1936, '37 and '38 and the Masters' master in 1939.

Ralph Jr., is already shooting in the low 80s.

## REMINDS RATLIFF

## Statistician Has Thankless Post

By HAROLD V. RATLIFF  
Associated Press Sports Editor  
DALLAS, June 7. — Statisticians in baseball have a colorless and thankless job. They are walking sets of figures which they set down in the right order for the sports writers to look over.

The writer gets a story which he makes readable by the use of adjectives and the background he has in his files on the various players who club the ball harder than others and win more games pitching, etc.

The statistician gets paid for his efforts but he gets no glory and never a by-line. His work, however, is as important as anything connected with baseball. What he puts down governs largely whether a youngster sticks in pro ball and if he goes to higher company.

The averages are the true history of the game. But a statistician doesn't have to remain anonymous nor does he have to be colorless.

The East Texas League statistician, one Cecil E. Burdick, has done something that lifts him from the ordinary. He also is doing the East Texas League a good publicity turn.

This week we received the averages from Cecil but gave them only a cursory glance. We did, however, read every word on two closely typed pages that were chock full of interesting material on players and teams in the league. Burdick makes it a newsy and entertaining treatise. It has figures, humor and information. We used several stories from it. Here was the biggest chuckle in the two sheets:

"Our good friend, C. H. Page, editor of the Henderson Daily News, speaking of Tyler's Joe Winfield the other day, stated "That old portsider started playing baseball when George Washington was in the first grade. Mr. Page, please be more specific. Are you referring to our first president or to Gladewater's slugger?"

Vernon (George) Washington, who has been in baseball a long time, is the league leader in hitting with .388.

TAKEN ALL IN ALL, IT APPEARS the annual Southwest Conference-Big Seven track and field meet should be discontinued.

In the first place, it does not appeal to the fans. Crowds have been disappointing each year.

In the second place, the conference that has to travel to the other's ballfield doesn't muster its best team.

Last year, the Big Seven showed up in Darrat with a flock of stars missing. Last week the Southwest competed without such standouts as Perry Samuels and Charley Parker of Dallas, George Kadera of Texas A&M, Cleburne Price of Southern Methodist, George Petrovich of Texas, Frank Geuss of Texas, and Jim Reichert of Arkansas.

## Two WT-NW Clubs Now Own Longhorn League Franchises

A second Longhorn baseball league club has been acquired by a WT-NW league team. Roswell, owned by Bill Moore of Ballinger, has been sold to Dr. Marshall Dyke of Borger, who also owns that city's franchise in the WT-NW league. Sweetwater's franchise was acquired during the winter by Cy Faucett, owner and business manager of the Albuquerque Dukes of the Class C circuit. Moore gave no reason for getting out of baseball. He is mayor of Ballinger at the present time.

HAILSTONES

Continued from Page One

Spring, was brimming. Hundreds of fans were drenched at the baseball park but made it to cars before hail whitened the landscape.

Heaviest precipitation was reported by Jimmie Eason, at the juncture of "a" Lake Road and U. S. 80. His rain gauge showed 4 1/2 inches during an hour and a half downpour. Several miles north, the Satterwhite farm gauge showed 3.7 inches. Beals Creek was from "hill to hill" where it crosses Lake Road. Horace Reagan reported. Reagan reported 2 1/2 inches at his home nearby. Water was still going over the bridge at 9 a. m. when he came to town. Upstream, Beals creek was four feet deep over U. S. 80 when Moore drove into it after being hailed.

The Texas Electric Service Station showed 1 1/2 inches rain east of town. Direct hits on transmission lines between that point and Coahoma disrupted power service. In town electrical displays also hit power service.

Streets washed badly and pavement was littered with big rocks. Some streets were levelled from curb to curb with silt. Twigs and limbs, dislodged by the hail, which drifted like snow, cluttered streets and walks.

The sewage plant, in Beal's Creek bottom, was inundated and engineering department heads worked feverishly to replace or overhaul submerged motors. The T&P lake south of town, caught considerable water, but half an inch on its watershed lacked a lot of filling it.

Only 49 of an inch was reported by the U. S. weather bureau at the airport. There was no hail. The U. S. Experiment Farm, north of the city limits, had one inch with few hailstones.

Thad Hale, district cooper in the Coahoma soil conservation group had 80 head of cattle on 28 acres of wheat and 12 acres of alfalfa for 60 days this spring. The alfalfa crop was planted last fall for a cover and soil building crop. Hale plans to plant 6 more acres to alfalfa this fall.

A good cover on farm land controlled washing on George Hillger's farm ten miles northwest of Garden City after heavy rains this spring. Hillger said water running off land with a good cover was clear after a 4-inch rain. Water running off plowed land with no

cover was muddy Hillger added. Although the rains damaged his terrace system, very little soil was lost from the field. Last year a foot to two feet of soil washed off the field and covered the county road from a similar rain.

W. E. Hanson, district cooper in the Gay Hill soil conservation group, had 100 acres of wheat for cover crop this year. Hanson planted the cover crop to keep his land from blowing. Hanson said he had 27 cows on the wheat for sixty days and could have grazed twice that number without hurting the cover crop.

An eight thousand cubic yard stock tank was completed this week on the Wilson Bros. ranch in the County Line ranch group. The Wilson Bros. will fence out the tank to protect the grass cover and maintain a clean water supply for his stock. The tank will supply water for his livestock on three pastures.

G. W. Flanagan, rancher-cooperator in the Coahoma ranch group, started construction of a 1400 cubic yard tank last week. Flanagan is building the tank on his ranch southeast of Big Spring as part of his coordinated range management program to provide a better water supply for his livestock. He had the help of the Soil Conservation Service in laying out this stock tank.

Dr. Lee O. Rogers planted 8 acres of blue panic grass last week on his farm in the Lenorah soil conservation group. Dr.

Lake Resolution Passes Legislature

A resolution asking for an investigation of the feasibility of a lake in the Big Spring State Park has passed the legislature.

Rep. R. E. (Peppy) Blount authored the resolution in the House. It asked that the state parks board and the board of water engineers study the feasibility of impounding a lake on the back side of Scenic Mountain park. Sen. Kilmer Corbin said Monday that the resolution had been passed by the Senate.

WEATHER

BIG SPRING AND VICINITY: Partly cloudy, widely scattered afternoon and evening thunderstorms this afternoon, tonight and Wednesday. No important temperature changes.

High today 86, low tonight 63, high tomorrow 82.

Highest temperature this date, 106 in 1917; lowest this date, 46 in 1939; maximum rainfall this date, 1.73 in 1916.

EAST TEXAS: Considerable cloudiness with scattered afternoon and evening thunderstorms, mostly in north and west portions this afternoon, tonight and Wednesday. Not much change in temperatures, gentle to moderate mostly south winds on the coast.

WEST TEXAS: Considerable cloudiness with scattered thunderstorms in Panhandle, South Plains and Pecos Valley eastward; partly cloudy elsewhere this afternoon, tonight and Wednesday. No important temperature changes.

TEMPERATURES Max Min

Table with 2 columns: City, Max, Min. Rows include Abilene, Amarillo, Big Spring, Chicago, Denver, El Paso, Fort Worth, Galveston, New York, San Antonio, St. Louis.

Sun sets today at 7:51 p. m. rises Wednesday at 5:39 a. m. Precipitation last 24 hours, .49.

LEGAL NOTICE

GUARDIANSHIP OF EMMA PATRICIA BLUE, A Minor.

NO. 78 IN COUNTY COURT OF HOWARD COUNTY, TEXAS.

TO ALL PERSONS INTERESTED IN THE ABOVE MINOR OR HER ESTATE.

You are notified that I have, on this 6th day of June, 1949, filed with the County Clerk of Howard County, Texas, an application under oath for authority to make to the Standard Oil Company of Texas, as lessee, an oil, gas and other mineral lease on all of the interests of said minor to the following described tracts of land:

Tract No. 1: 84.84 acres of land, more or less, out of the East half (E-1/2) of Section 28, Block 34, Township 4 North, Texas and Pacific Railroad Company Survey in Dawson County, Texas, and being the same land awarded to Mrs. Emma Patricia Blue, a Minor, in the Partition Decree of the Probate Court of Howard County, Texas, and recorded in Volume 78, page 134 of the Deed Records of Dawson County, Texas, and reference is hereby made to said Partition Decree and the record thereof for a more particular description of said tract; said minor owning an undivided 1/4 interest in and to an undivided three-fourths of the oil, gas and other minerals on, in and under the above described land, subject to a life estate therein owned by Mrs. Emma Patricia Blue, a widow;

Tract No. 2: Being 134.476 acres of land, more or less, out of the Southwest Quarter (SW-1/4) of Section 28, Block 34, Township 4 North, Texas and Pacific Railroad Company Survey in Dawson County, Texas, and being the same land awarded to Mrs. Emma Patricia Blue, a Minor, in the Partition Decree of the Probate Court of Howard County, Texas, and recorded in Volume 78, page 134 of the Deed Records of Dawson County, Texas, and reference is hereby made to said Partition Decree and the record thereof for a more particular description of said tract; said minor owning all of the oil, gas and other minerals on said tract;

Tract No. 3: Being 94.61 acres of land, more or less, out of the Southeast Quarter (SE-1/4) of Section 28, Block 34, Township 4 North, Texas and Pacific Railroad Company Survey in Dawson County, Texas, and being the same tract of land awarded to Emma Patricia Blue, a Minor, in the Partition Decree of the Probate Court of Howard County, Texas, and recorded in Volume 78, page 134 of the Deed Records of Dawson County, Texas, and reference is hereby made to said Partition Decree and the record thereof for a more particular description of said property; said minor owning an undivided three-fourths interest in and to the oil, gas and other minerals on the above described Tract No. 3. That the Honorable J. E. Reeves, Judge of the County Court of Howard County, Texas, on the 6th day of June, 1949, duly entered his order designating the 20 day of June, 1949, at ten o'clock A. M., in the County Court room in the County Court House of Howard County at Big Spring, Texas, as the time and place where such application would be heard, and that such application will be heard at such time and place.

J. B. DEBENPORT

Guardian of the Estate of Emma Patricia Blue, a Minor.

CLOVER, ALFALFA DO WELL

Calverley Ready For Hay Harvest

Joe B. Calverley, rancher-cooperator with the Martin-Howard Soil Conservation District, has 20 acres of alfalfa ready to harvest for hay. Calverley plans to mow his clover and alfalfa this week. He planted the alfalfa on irrigated land last fall. The crop furnished considerable grazing during the winter and has made good growth for a hay crop. Calverley's clover crop is a volunteer crop from clover planted in a pasture mixture two years ago. It has made good growth for a hay crop without irrigation.

Twenty students in the range management class at Lubbock Technological College will arrive in Big Spring June 15. The class, taught by Professor Harold F. Heady, will observe range management measures in a two-day tour of cooperators ranches in the Martin-Howard Soil Conservation District.

Thad Hale, district cooper in the Coahoma soil conservation group had 80 head of cattle on 28 acres of wheat and 12 acres of alfalfa for 60 days this spring. The alfalfa crop was planted last fall for a cover and soil building crop. Hale plans to plant 6 more acres to alfalfa this fall.

A good cover on farm land controlled washing on George Hillger's farm ten miles northwest of Garden City after heavy rains this spring. Hillger said water running off land with a good cover was clear after a 4-inch rain. Water running off plowed land with no

cover was muddy Hillger added. Although the rains damaged his terrace system, very little soil was lost from the field. Last year a foot to two feet of soil washed off the field and covered the county road from a similar rain.

W. E. Hanson, district cooper in the Gay Hill soil conservation group, had 100 acres of wheat for cover crop this year. Hanson planted the cover crop to keep his land from blowing. Hanson said he had 27 cows on the wheat for sixty days and could have grazed twice that number without hurting the cover crop.

An eight thousand cubic yard stock tank was completed this week on the Wilson Bros. ranch in the County Line ranch group. The Wilson Bros. will fence out the tank to protect the grass cover and maintain a clean water supply for his stock. The tank will supply water for his livestock on three pastures.

G. W. Flanagan, rancher-cooperator in the Coahoma ranch group, started construction of a 1400 cubic yard tank last week. Flanagan is building the tank on his ranch southeast of Big Spring as part of his coordinated range management program to provide a better water supply for his livestock. He had the help of the Soil Conservation Service in laying out this stock tank.

Dr. Lee O. Rogers planted 8 acres of blue panic grass last week on his farm in the Lenorah soil conservation group. Dr.

MARKETS

COTTON

NEW YORK, June 7. (AP) - Cotton futures at noon were unchanged to 10 cents a bale higher than the previous close. July 28.26, Oct. 28.84 and Dec. 28.85.

WALL STREET

NEW YORK, June 7. (AP) - The stock market showed signs of snapping out of a three-week decline today.

Numerous issues which have been under constant pressure managed either to remain at Monday's close or even inch ahead. At the same time, many recently weak shares continued to fall back.

The result was a fairly even mixture of small gains and losses.

Yesterday the market took one of the sharpest drops of the year and the general price level crashed to a two-year low.

The comparative stability of today's market came in the face of several unpalatable items from the domestic news front. Among them were a government report of an increase in unemployment to a new post-war high, and lagging retail sales.

LIVESTOCK

FORT WORTH, June 7. (AP) - Cattle 4,000; calves 1,000; uneven but mostly steady; good fed steers and yearlings 24.00-27.00; plain to medium 17.00-24.00; beef cows 14.50-19.50; bulls 18.00-21.50; good and choice slaughter calves 25.00-28.00; common to medium 17.00-23.00; stocker calves 18.00-27.00; stocker yearlings 17.50-25.00; stocker cows 15.00-18.00.

Hogs 1,000; butchers and sows steady to 20 cents above Monday's average; feeder pigs steady; top 21.25; good and choice slaughter lambs and yearlings 22.00-25.00; medium 20.00-28.00; medium and good shorn slaughter lambs and yearlings 17.00-19.00; short feeder lambs and yearlings 15.00-19.00.

Express Is Robbed

NEW YORK, June 7. (AP) - Two guards of the Wells Fargo Express Co. were robbed of \$19,000 in payroll funds by two armed men today on the Columbia University campus.

Rogers used a grass planter furnished by the district to make his grass seeding. He seeded the grass on sandy soil in his native pasture which had been plowed and had the brush removed. Blue panic grass has been grown for several years by R. C. Reed, district cooper in the Elbow soil conservation group.

City Scoutmaster, Brother Injured In Highway Mishap

Rafael Garcia, scoutmaster of Troop 7 here, and his brother, Chon Garcia, were injured when a pickup truck in which they were riding overturned on the Marfa-Pecos highway Sunday afternoon.

Rafael suffered a broken leg while Chon had an arm broken and other injuries.

The two were riding with Hilario Garcia, who escaped unhurt. The party was on its way back to Big Spring after visiting in Marfa.

The injured were to be brought back to local hospitals today.

Fire Department Makes Two Runs

City firemen were called out twice last night, but no property damage resulted from fires.

At 6:40 p. m. a short circuit in electrical wiring was responsible for an alarm turned in by J. R. Piper, 204 West 5th street, and at 10:50 p. m. a piece of cloth caught on a neon tube caused an alarm at Zales Jewelry store.

Firemen also were called to assist with rescue work when a car was swept from the highway east of town.

Released On Bond

Arturo Marquez, charged by the county with carrying a pistol without a permit, has been released on \$500 bond.

Willie McDaniel, a Negro, entered a plea of guilty in county court Monday afternoon to the charge of carrying a knife and was fined \$100 and expenses by

County Library's May Circulation Is 1,829 Volumes

Circulation for the Howard County Free Library for May reached 1,829 volumes.

Mrs. Benny H. Collins, librarian, said that 28 new adult borrowers and 36 new juvenile borrowers were included in the list of patrons. Fiction led the list with 561 being checked out by adults and 627 by juveniles. Adults took 136 non-fiction volumes and juveniles 46. Youngsters also checked out 365 pre-school age books.

Delinquent borrowers amounted to 20 adults since April 1, with five held accountable for lost books and fines. Nine juvenile books were lost, four borrowers being held accountable. Otherwise, only nine youngsters were overdue with books since May 12.

Mrs. Collins said that names of those delinquent for weeks would be turned over to the county officials unless restitution is made for the volumes missing.

Miss Maier Dies

Miss Matilda Maier social worker at the Big Spring State hospital, died at 2 p. m. today at her home in Fredericksburg, Service. will be held there at 4 p. m. Wednesday, Dr. A. M. Bowden, hospital head, said.

**TWO, INCLUDING TEXAS STUDENT, FEARED DEAD IN BOATING MISHAP**

BALBOA, Calif., June 7. (AP)—Two persons were feared drowned and 14 others, mostly children, were rescued from choppy seas in the tragic end of a grammar school boating trip to Catalina Island.

Survivors arrived early today at this yachting harbor to tell a horror-filled tale of an accident that swept the 16 off the decks of the fishing boat Otay yesterday as it was headed here from Catalina. Some 23 children and their escorts were aboard the craft. Ages of the children ranged from four to 16.

The Coast Guard gave this account:

The 50-foot power cruiser started to list when its gas tanks drained unevenly. As it listed, southeast ground swells in the choppy channel smacked it and loosened a live bait tank. The tank fell off and in doing so jolted the ship so suddenly that it almost capsized. The jolt swept overboard the 16 on decks.

Some of them were able to climb back on as the helmsman righted the ship with a sudden turn of the wheel.

The others clung to life rafts. Another fishing boat, the Skipalou, was nearby and attracted by flashlight signals, sped to the rescue. Some of the survivors were in the water more than an hour.

However, the Coast Guard said Dr. Victor Mann, an optometrist of Fullerton, and Geraldine Clark, 12, Houston, Tex., a student at Valencia Junior Academy, Fullerton, were missing. The cruise was in honor of the eight grade graduates of the seventh day eventists academy.

The others were uninjured except for fright.

The Otay was able to make port under her own power.

**Fort Worth Is 100 Years Old**

FORT WORTH, June 7. (AP)—Fort Worth has come a long way since Maj. Ripley Arnold planted the first flag here 100 years ago.

Then, it was a tiny outpost of the U. S. Army. Today it is one of the Southwest's greatest cities, celebrating its centennial of growth. The celebration opened here yesterday with ceremonies commemorating the founding of Fort Worth in 1849.

During the ceremonies, a giant Fort Worth-built B-36 bomber dipped low in salute over the Tarrant County courthouse. It was the high point of a parade down Main Street.

At the Will Rogers Memorial Auditorium, a gay musical comedy, "The Texas Mikado," played to throngs. The comedy was staged in Fort Worth's spring palace 60 years ago.

After the performance, a giant, 100-candle cake was cut by publisher Amon Carter. A square dance followed the cake-cutting.

**Snyder Hires Stanton Aide**

STANTON, June 7.—John M. Kizer, who served as assistant coach to Leo Fields at Stanton high school last year, has been named chief aide to Milton (Speedy) Moffett at Snyder high school, it has been announced.

Kizer and M. "Fett" played football together at Texas Tech before the war.

**Hemphill Man Is Charged In Death**

HEMPHILL, June 7. (AP)—Alfred Bailey was under charges of murder today in the fatal shooting of Marvin Butler, 34, Sheriff H. E. Solley said. "The immediate cause of the shooting seems to have been a question of poisoning of a dog."

Butler was shot yesterday as he sat in his car three miles from here on the Pineland Road.

Solley said while he was out seeking Butler's assailant Bailey came to his house and gave himself up to Mrs. Solley.

**Japanese Dawn Man Remains Are Found**

TOKYO, June 7. (AP)—Meiji University archeologists announced today discovery of Japan's Dawn Man believed to have lived 5,000 years ago.

Two students found remains of the ancient man at Hirazaka shell mound in Yokosuka, about 40 miles from Tokyo.

The discovery, archeologists said, supports the theory that humans inhabited Japan during the stone age.

**Eaker To Attend Rites For Father**

EDEN, June 7. (AP)—Lt. Gen. Ira Eaker, deputy air force commander in the late war, is on his way home to attend funeral services for his father, Y. Y. Eaker, 79, who died last night after a long illness.

Gen. Eaker is coming from Santa Monica, Calif.

The elder Eaker was a retired farmer and carpenter. He moved to Eden in Concho County 35 miles southeast of San Angelo in 1906.

Four years later, he moved to Durant, Okla. He returned to Eden in 1918.

**Chiang Pledges Life To Retake Shanghai**

SHANGHAI, June 7. (AP)—The Shanghai Post Mercury said today Generalissimo Chiang Kai-shek had broadcast from Formosa that he will recapture Shanghai within four months or commit suicide.

The English-language newspaper said Chiang, retired president of Nationalist China, apologized for the loss of Shanghai and blamed it on a sell-out by some of his troops.

The Associated Press bureau in Shanghai checked various sources but could not find anyone who heard the broadcast. Several persons said they knew of others who heard it but all stories of the broadcast varied.

**22 Die In Crash**

ATHENS, June 7. (AP)—Twenty-two persons, including a Greek Army general, perished last night in a plane crash 17 miles north of Athens.

**DRUNK SKUNK IGNORES COPS**

CORSICANA, June 7. (AP)—There's a drunk skunk in the Trinity River bottoms today. What's more he imbibed freely as a trio of officers looked on.

Sheriff David Castles, Liquor Control Board Inspector R. T. Bailey and Deputy R. E. Jones were destroying a homebrew still. The bushy-tailed fellow with the distinctive odor toddled up and began helping himself.

The officers gathered up their evidence and left. The way that skunk was drinking, they figured, he'd be skunk-drunk in a few minutes.

**Formosans Appeal For Liberation Of Their Homeland From Chinese**

TOKYO, June 7. (AP)—Formosans in Japan today appealed for liberation of their homeland from the Chinese.

The plea was made by the Formosan League for Re-Emancipation. It claims to have 20,000 members in Japan and to represent the majority of Formosa's 6,500,000 people.

Fears were expressed in a lengthy manifesto that Formosa would become involved in China's civil war. The appeal was addressed to "all peace loving nations" and the United Nations.

The document asked for liberation of the big island, 100 miles off the China coast, and protection against involvement in the Chinese war. It said the United States and Britain had "arbitrarily" agreed at the Cairo conference to hand over Formosa to China without consulting the Formosans.

**Antiseptic Ointment Soothes SKIN IRRITATIONS**

For helpful antiseptic and medicinal aid to externally caused skin irritations that itch, such as insect, rash, simple ringworm, dryness or eczema, use Greys Ointment as directed. Medicated to cling longer for more thoroughly relieving itching.

**ONCE FREE LAND**

Formosa once was free but went under Chinese rule in the 17th century. The Japanese seized it in 1895 and ruled it until the end of World War II.

The manifesto said Chinese Communists had designs on Formosa. It added that China's Generalissimo Chiang Kai-shek had upwards of 300,000 Nationalist troops in Formosa now.

The document asserted Formosans had been ill-treated under Chinese Nationalists since the end of the war. A revolt was attempted in 1947 but it was put down by Chinese troops.

**'Black Tuesday' In Louisiana Today**

BATON, ROUTE, La., June 7. (AP)—Black crepe will spout on many filling stations on "Black Tuesday" today, as a reminder that Louisiana has the highest gasoline tax in the nation.

The day has been marked by operators for one of wailing and moaning on the anniversary of the state's two-cent gas tax boost.

Gov. Earl K. Long, whose taxing policies are the target of "Black Tuesday," told newsmen yesterday that service station operators had more reason to celebrate good business than to mourn.

Meanwhile, State Rep. Charles F. Duchin called for a cutback from the current nine-cent levy to the old seven-cent rate.

**Eighth Victim Of Car Collision Dies**

BELLEVILLE, June 7. (AP)—The death toll in auto crash Friday at Walker rose to eight today.

E. L. Reid Jr., 23, Orange, attorney injured in the collision of a car and a station wagon, died today.

Reid was the last survivor of the crash in which a young Indiana couple, the parents of both, and Reid's wife, were killed.

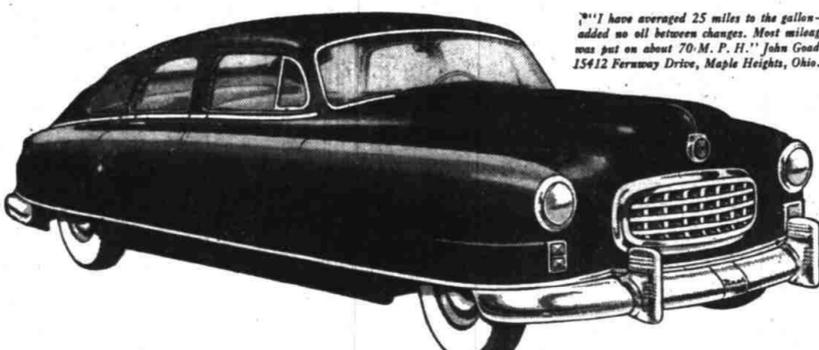

The body will be sent to Orange for burial.

**HERE'S WHY ONLY NASH**

**CAN OFFER ALL THIS!**

Here's why Nash offers the most in size—in style—in features—in performance—in economy!

It is the first car with the Girder-built, Unitized Body-and-Frame—a revolutionary development that means more for your money. More in safety, with less weight. More in roadability!

It is the reason a Nash only 62 inches high has more road clearance than before. It provides more interior room for comfort... with seats so wide they can turn into Twin Beds.

It is the reason why Nash has the smoothest ride known, with all four wheels cushioned by coil springs.

It is why a Nash has incredible security on curves... and economy never before possible—with better than 25 miles to the gallon

of gas, at average highway speed, for the Nash "600."

It is why Nash, and only Nash, has a curved, one-piece windshield on all models... and the Uniscope... and Cockpit Control.

See your Nash dealer—get the thrill of driving a 1949 Nash "600" or Nash Ambassador.

Compare the size—the design—the exclusive features—the delivered price. Then you'll know why Nash is the smart buy of the year's smartest buyers!

**Select USED CARS**

The next best car to a brilliant new Nash Airflyte is a Select used Nash. You'll be sure of getting the features you want most in an automobile... many that are available only in a Nash. You'll be sure of getting a car that your Nash dealer is proud to display with his famous "Select" used car tag. You will find the best-looking, best-running, best values in town at your authorized Nash Dealer.
