

Highway Officials In Talks Before Judges' Convention Today

Over 225 Registered For West Texas Association Convention; Bobbitt, Montgomery Featured Speakers

County judges and commissioners of the wide West Texas area—more than 225 of them—were assembled in Big Spring today for their semi-annual convalescence. Opening formalities were completed at a morning session held at the Settles hotel, and during the afternoon the county officials were to turn attention to highway matters, with addresses scheduled by Chairman Robert Lee Bobbitt of the Texas highway commission and Julian Montgomery, state highway engineer.

It was the second time in two years that the West Texas association had convened in Big Spring, and visiting officials were finding time for pleasures as well as for business conferences. It was expected that the registration would increase during the day as late arrivals came in.

With President Omar T. Burleson of Anson in the chair, the convention was formally opened Friday morning with group singing and an invocation. Brief words of welcome were voiced by the host judge, Charley Sullivan of Big Spring, P. W. Malone, chamber of commerce president, and County Judge Charles Lewis of Sweetwater. John W. Winters, Amarillo, commissioner of Potter county, acknowledged the welcome.

The group also heard greetings from Harold La Font, president of the state association, and Jake L. Loy, secretary-treasurer. Both called attention to the state convention to be held in New Braunfels in October.

Feature of the morning program was an inspirational talk by H. E. Robinson of Brownwood, a deputy state superintendent of education. Robinson brought a message on "How To Make the Most of Your Job," and cited the points of outwitting handicaps, seizing of opportunities as they present themselves, making use of criticism as a stepping stone to improvement, relaxation and control over emotions, modesty and reverence, willingness to work, and the recognition of equal qualities in every other person.

Attention of delegates was centered on the afternoon session, when Bobbitt and Montgomery were to talk. Others on the afternoon program were Miss Peggy Morris, associated editor of Farm & Ranch, who was to talk on "Value of Home Demonstration Work to Texas Women," District Judge Charles Klapproth of Midland; and Judge Charles L. Lewis and C. W. White of Nolan county, who were to discuss their experiences with a county health unit.

The convention banquet is scheduled for 7:30 this evening, with Rep. George Mahon the principal speaker. A dance is the entertainment feature following.

The convention comes to a close Saturday noon with action on committee reports, election of officers and adjournment in the spring convention city. Serving with Burleson this term are Hal Burnett of Imperial, vice president, and Homer T. Bouldin of Albany, secretary-treasurer. Burleson Friday morning named resolutions committee to report Saturday. O. McDaniel of Seymour is the chairman and members include J. Pat Corrigan of Palo Pinto county; Luther Webb of Taylor county; C. E. Caselberg of Pecos; and Walker Sayles of Stephens county. On the Saturday morning program also are scheduled addresses by John W. Carpenter, president of the Texas Power & Light company; State Sen. G. H. Nelson and Captain Homer Garrison of the state public safety department. Bobbitt and Montgomery were at the convention session Friday morning, as was Wendell Mayes, chairman of the state parks board, and several other state officials.

Four Die In Pit Cave-In

McALLEN, Sept. 16 (AP)—Four men were smothered to death in a gravel pit cave-in near La Joya, 20 miles west of here, last night. The cave-in caught Jesus Bedinghaus, Sam Le Veck, Lino Fuentes and Juan Zamora, all McAllen laborers, under tons of rock and earth. The men were working between a truck and the pit wall, which suddenly collapsed, burying them and the truck. A fifth laborer escaped. John Matland of McAllen, operator of the pit, and his son and the truck driver called for help from McAllen, but the men's bodies were not recovered for three hours. Bedinghaus was the father of Claude Bedinghaus, widely known former McAllen football player. Among the survivors is a brother, Al, of Fort Worth.

HITLER DEMANDS SUDETEN AREA FOR REICH; CZECHS DISSOLVE HENLEIN'S NAZI PARTY

Chamberlain Back To Talk With Cabinet

Says Only That He And Hitler Understand Each Other

LONDON, Sept. 16 (AP)—Prime Minister Chamberlain returned today from one of the greatest peace missions in history—a man-to-man talk with Adolf Hitler—asserting he was satisfied "that each of us fully understands what is in the mind of the other." But whether he achieved any success in efforts to talk Hitler out of going to war over Czechoslovakia he refused to say.

LONDON, Sept. 16 (AP)—The British cabinet tonight was summoned to meet at 11 a. m. (4 a. m., CST) tomorrow to hear the report Prime Minister Chamberlain brought back by air from his momentous peace talk with Reichsfuehrer Hitler.

mountain retreat, said he now had to discuss results of the conference with his colleagues. He warned the big crowd which met him at Heston airfield against accepting any unauthorized accounts of what took place in his conversation with the German foe.

The premier read a brief statement into a microphone which carried his words to distant crowds. With Viscount Halifax, foreign secretary, he then sped off to Ten Downing street to meet first his inner cabinet—Lord Halifax, Chancellor of the Exchequer Sir John Simon, and Home Secretary Sir Samuel Hoare—and later the entire cabinet, perhaps tonight or tomorrow.

Chamberlain declared that later, perhaps in a few days, "I am going to have another talk with Herr Hitler." Amid the crowd's cheers he added: "Only this time he has told me it was his intention to come half way to meet me."

Chamberlain said to those who greeted him: "I feel satisfied rather more quickly than I expected after my journey which, if I had not been so preoccupied, I should have found thoroughly enjoyable."

"Yesterday afternoon I had a long talk with Herr Hitler," the prime minister said at Heston. "It was a frank talk, but it was a friendly one. "I feel satisfied now that each of us fully understands what is in the mind of the other."

"You won't, of course, expect me to discuss now what will be the result of that talk. All I have got now is for discussion with my colleagues, and I would advise you not to accept prematurely any unauthorized report of what took place in the conversation."

RUNNELS ST. HOME DAMAGED BY FIRE

City firemen made two runs to car fires Thursday night. Worst damage occurred at the home of Henry Carpenter, 2100 Runnels when fire spread from a car and ignited the roof of a garage. Other place was quickly extinguished on West Third street in the 500 block.

WANTS REST OF THE NATION FITTED INTO HIS ECONOMIC PLAN

Hitch Apparently Develops In Talk With Chamberlain, Fuehrer Believed Waiting Until British Reports

By LOUIS P. LOCHNER (Copyright, 1938, By The Associated Press) BERLIN, Sept. 16 (AP)—Adolf Hitler was said today to have demanded both cession to Germany of Czechoslovakia's Sudeten area and binding assurances that Czechoslovakia's foreign policy should be in harmony with Germany's.

This information was volunteered by a man who talked to high chancellery officials at Berchtesgaden, where Hitler received Prime Minister Neville Chamberlain of Great Britain yesterday.

Another German demand, this source said, was that after German absorption of the Czechoslovak Sudeten area, what is left of that republic should fit itself into Germany's economic system, at least to the extent that Czechoslovak did not hinder realization of German economic aims.

Germany, for instance, must have the decisive word to say on the output of the great Skoda munitions works at Pilsen and the destination of this output, the source said.

The question of union of the Sudeten area with Germany, this informant said, is not even regarded as an issue by Hitler.

It was said to have been Hitler's starting point in discussions, with all other questions, such as procedure under which the change could be effected without war, growing out of it.

Chamberlain, it was said, apparently came prepared to concede some form of "Anschluss."

Whether Britain and France were prepared to support Hitler's demand for a German protectorate over Czechoslovakia was believed to have been the question which prompted Chamberlain's sudden return to London.

Although German and British officials declined to disclose the nature of the talks and the status of negotiations, there was a popular belief that some hitch had developed. In the newspapers, column upon column described in vivid words how Chamberlain was "maltrailing" Germany. Screaming headlines in large type declared that "Czechs are running amok in Sudetenland like bolsheviks in Spain," or "misery of Sudeten refugees simply staggering."

Despite editorial excitement over conditions in Sudetenland, Hitler seemed determined to await the results of Chamberlain's conference with his cabinet before taking the next step. Judging from German press accounts, conditions in Czechoslovakia had reached the point at which, in the light of the fuhrer's speech Monday at Nurnberg, intervention must follow automatically.

"Our fuhrer has iron nerves," said one prominent member of the reichstag. "He waited in Austria even after 13 of his comrades had been hanged. That was perhaps the hardest thing he ever did."

"He can now wait also if he is convinced that by so doing he will triumph in the end." This correspondent spent several hours today talking to average citizens on Berlin's streets—such as a barber, a chemical worker, a masseur, a building contractor, an electrician, and a traveling salesman. One and all they expressed dis-

Leader Flees To Escape Arrest

Split In Sudeten Factions Over His Policies Reported

PRAGUE, Sept. 16 (AP)—The premier's office announced tonight that the Sudeten German party had been dissolved by the Czech Slovak government.

Previously informed sources said the government had decided on suppression of the Storm Troop of the Sudeten leader, Konrad Henlein, who had fled into Germany from a warrant for his arrest on charges of treason.

These decisions were taken as continued disclosures in the Sudeten area coincided with reports of a split between radical and conservative Sudeten factions over Henlein's proclamation of yesterday demanding annexation of the Sudeten country to the German Reich. It was this proclamation that led to the charge of treason against him.

This created the possibility that one section might accept renewed negotiations with the Prague government.

Otto Ritter, a Sudeten German district leader at Asch, told authorities none of Konrad Henlein's followers had any knowledge that Henlein intended leaving the defiant manifesto for union of Sudetenland with Germany.

A "large" part of the Sudeten German ranks, Ritter declared, were "disagreeably surprised." He gave no indication, however, of how many members were involved.

The attitude of the Slovak people's party, which had insisted on autonomy, suddenly has veered in favor of the Prague government.

The followers of the late Rev. Andreas Hlinka, Slovak autonomy leader who died August 16, have ceased cooperating with the Henleinists.

As a result of a conference of leading Slovak people's party members with President Benes it is understood they are willing to back the government coalition and try to swing Hungarian and Polish malcontent minorities also to its support.

Martial law was extended to 16 Sudeten German communities. Thousands were fleeing the trouble zone, some to Prague and some to Germany. Troops with gleaming bayonets patrolled streets of the main Sudeten cities. Their instructions were: "Do not shoot."

MAN IS HANGED FOR ASSAULTING GIRLS

SAN QUENTIN, Calif., Sept. 16 (AP)—Albert Dyer, 38, was hanged on the gallows of San Quentin prison today for the assault killing of three school girls in an Ingwood park June 26, 1937. Dyer dropped through the trap at 10:03 a. m., and was pronounced dead 13 minutes later. He was calm when taken from the death cell near the execution chamber, and walked unassisted to the gallows.

A former WPA school crossing guard, Dyer was convicted Aug. 26, 1937, of luring Madeline and Melba Everett, sisters, 9 and 7 years of age, respectively, and Jeanette Stephens, 8, to a lonely spot in Centinela park in Ingwood, and garrotting them and violating their bodies.

French Premier Due To Join In Parleys On Crisis

PARIS, Sept. 16 (AP)—Premier Edouard was reported today to be planning a weekend flight to London to confer on the sudden interruption of Prime Minister Neville Chamberlain's efforts to solve the European crisis in personal talks with Chancellor Adolf Hitler.

Chamberlain's decision to return to London from Berchtesgaden after only one conference with Hitler yesterday, was described in semi-official circles as an unexpected shock.

The only hopeful sign they could see was a German announcement that a new interview between Chamberlain and Hitler was expected, perhaps next week.

MEDICAL ASSOCIATION IS COOL TO FEDERAL-STATE PROGRAM

CHICAGO, Sept. 16 (AP)—The house of delegates of the American Medical association gathered today for its third special session in history and indicated strongly that it would not accept wholeheartedly or entirely a proposed \$850,000 federal-state health program. At a special meeting last night sponsored by the north side branch of the Chicago Medical

FD DISCUSSES CZECH AFFAIRS

WASHINGTON, Sept. 16 (AP)—President Roosevelt called in Secretary Hull, Secretary Morgenthau and Norman Davis today to discuss possible effects of European developments of America's neutrality policy, trade agreements and international finance.

Stephen Early, a presidential secretary, said these phases "are being more or less seriously discussed and considered."

He added that he was relying that information to newspapermen so they would know the trend of the discussions and at the same time to get away from what he called "secare heads" and of the sensational type. "There isn't any war scare," Early said with emphasis.

The president, because of the international situation, definitely cancelled a speech he was to have made tomorrow at Poughkeepsie, N. Y., in commemoration of the 150th anniversary of the ratification of the New York state constitution.

Hull came over from the state department and stayed with the president for three quarters of an hour. For half an hour, Morgenthau also was present.

Davis, now head of the American Red Cross, but long ambassador-at-large in Europe, was given an appointment for the lunch hour.

PWA Allotments Of Over Four Million Granted In Texas

142 Projects Approved, With Loans, Grants Awarded; Most Of Them Small

WASHINGTON, Sept. 16 (AP)—The Public Works Administration made allotments today for 142 Texas projects having an estimated construction cost of \$9,468,283.

Announcement of the action came after repeated recent declarations by Administrator Ickes that Texas already had received more than its equitable share of money under the present program.

The total allotted included outright grants of \$4,300,623 and loans of \$5,167,660.

Most of the projects approved were small ones, costing on the average about \$65,000.

PWA officials said the additional funds had become available because of a determination by Ickes to lay aside temporarily a \$12,300,000 application for a Fort Arthur irrigation project in favor of numerous smaller projects throughout the state.

They explained the Fort Arthur project, including the proposed Rockland dam, was not to be construed as having been disapproved. Secretary Ickes announced approval of 163 projects, including those in Texas, with grants totaling \$10,140,373 and loans aggregating \$345,000.

The allotments, grants only unless otherwise specified, included: Albany, school, \$9,945; Amarillo, six school projects grants of \$17,700, \$22,185, \$13,500, \$26,235, \$40,500 and \$29,250; Amherst, school, \$16,200; Barstow, school, \$47,029; Brownfield, waterworks, \$26,100; Callahan, school, \$6,930; Candian, school, \$68,730; Childress, school, \$20,452; Clyde, school, \$74,250; Crockett, courthouse, \$90,500; Crosbyton, power, \$42,658; Dawson Co., school, \$9,452; Dimmitt, courthouse, \$56,250; Dumas, municipal buildings, \$10,000 loan and \$8,182 grant; Kermit, school, \$15,281; Kerrville, waterworks, \$30,600; Lawn, schools, \$7,416; Marfa, waterworks, \$30,375; McCamey, swimming pool, \$16,875; Pampa, waterworks, \$110,115; Robert Lee, school, \$1,350; Rowena, school, \$5,018; Seagraves, street improvement, \$49,000 grant; Seminole, school, \$37,800; Snyder, school, \$65,455; Sonora, schools, \$26,500; Stamford, schools, \$40,500; Stinnett, school, \$19,575; Sweetwater, gymnasium building, \$19,800; Wink, waterworks, \$31,000 loan, \$25,369 grant.

CZECHS IN TEXAS TO SPONSOR MEETING

WHARTON, Sept. 16 (AP)—Some 350,000 Czechs in Texas, at estimated 90 per cent of them American born, will be called upon to sponsor a program of "moral and spiritual" aid to Czechoslovakia at a meeting to be held at East Bernard on Sept. 25.

C. H. Cervinsky, Houston attorney, and V. A. Maudr, are heading the movement to organize Czechs of Texas.

Preliminary meetings have been held but the organization will be made permanent at the East Bernard meeting.

## READING AND WRITING

"DYNASTY OF DEATH," by Taylor Caldwell; (Scribners; \$2.75).

Publishers have dark horses just like race tracks. Taylor Caldwell's "Dynasty of Death" is one of these—it has been mentioned (thanks to the efforts of its sponsor) in most of the book trade publications as a likely contender for fall honors and it therefore is the sort of book the well informed novel reader must skim at least.

The well informed novel reader is hereby advised to skim and skip. Mr. Caldwell has provided 777 large pages, closely printed, and has written his heart out in the service of a theme of great interest nowadays—the working of the armament trust. He has told his story, however, in terms of human beings (for the most part) and after the human beings grow up he has made most of his credit. But there is considerable confusion just the same, as the author recognizes by providing at the beginning a cast of characters covering two pages.

Briefly, the book tells of the people and forces which made the firm of Barbour & Bouchard, armament manufacturers, into a world power. The founders were small people, servants and peasants for the most part. Throughout the many decades of the story the people of the families concerned divide pretty generally into idealists and wits and lovers on one side; "driving forces" on the other. The quite incredible career of Ernest Barbour is the peg on which everything hangs; Ernest was, as a child in England, the son of an upper servant in the establishment of an English squire, a cold, hard slave to ambition. Mr. Caldwell makes him the power behind the American factory of Barbour & Bouchard at 18, and allows him only one interlude of humanity, brought on by a girl who was the only living thing he ever loved.

Nobody could doubt the essential justice of Mr. Caldwell's thesis, and his gift for English prose is remarkable. The book is much too long, however, and it is written backward—which does not mean that it is chronologically reversed, but that the author has projected modern concepts of the business of wholesale murder back a century or so, and worked from them. Some will feel that a more naive approach is preferable.

## COLORS TO THE FOREFRONT

Colors have come to the forefront with the 1938 fall fashions. In this costume, two of the favorites—smoke-blue and wine—are combined in the scalloped jacket and the simple skirt of soft wool. The roll-brimmed felt hat and the bag both are wine color.

## Class Officers Are Installed At Meeting

### Good Program Is Presented At T.E.L. Affair

Officers for the new year were installed at a business and social meeting of the T. E. L. class of the First Baptist church Thursday afternoon with Mrs. A. J. Cain, outgoing president, presiding.

A number of officers have resigned since being elected several months ago and were substituted at the installation service. Mrs. H. E. Squires was installed as ministerial chairman in place of Mrs. B. N. Ralph. Mrs. Earl Lester as social chairman to replace Mrs. A. L. Souders and Mrs. R. C. Hargrove was elected and installed as assistant ministerial chairman.

The meeting opened with a song and Mrs. K. D. Beckett gave the devotion. Mrs. Cain, Mrs. Souders and Mrs. Beckett made brief talks. Mrs. E. E. Bryant sang a solo accompanied by Mrs. W. C. Norman.

Other officers installed were Mrs. C. E. Carter, president; Mrs. J. H. Greene, entertainment vice-president; Mrs. B. Story, stewardship; Mrs. Viola Bowles, secretary; Mrs. E. E. Bryant, assistant secretary; Mrs. L. Grau, treasurer; and Mrs. R. V. Jones, assistant treasurer.

## Dallas News Editor Claimed By Death

DALLAS, Sept. 16 (SP)—Joseph F. Willetta, 51, assistant managing editor of the Dallas Morning News and molder of front pages, died here today.

Quick to make decisions which seldom were inaccurate, amiable among his fellow desk workers and rich in experience gathered in his newspaper barnstorming days, he came to The News in March, 1923, from Lawton, Okla.

Prior to working on the Lawton (Okla.) News, Willetta gained broad knowledge of the newspaper profession working on many publications over the country.

He was born in Trenton, N. J., just a short time after his parents arrived from their native England. The family moved to Stamford, Conn., shortly thereafter, and Willetta was educated in the local grade and high schools. He attended the Webb school of marine engineering and shipbuilding in New York City for a short time, but abandoned his prospective seafaring career before he started it.

"Mathematics gave me a headache, and, at 20, I went into newspaper work and have had a headache ever since," he said.

Nancy Phillips, daughter of Mr. and Mrs. Shine Phillips, left this morning for Austin where she will attend the university this fall.

## ANOTHER PLAYGROUND WILL BE ACQUIRED

Details were virtually complete Friday for the acquisition of another playground to be used in the city recreational program.

Permission has been granted for use of a block between Young and Donley streets and between 12th and 14th streets, H. F. Malone, contractor, said.

Another playground will be sought in the east part of town as a part of the move to get the play areas away from school grounds.

This map of hemmed-in Czechoslovakia shows the mountains around the western half of the country, which must be crossed by German troops if they are to help Sudeten Germans, who have been fighting Czech police. On the south, the Elbe river crosses the border from what once was Austria—and the Moravian gateway—crossing from Hungary—are two possible channels for invaders. Both are heavily fortified. On the north, the Oder gap also is considered strongly defended. On the west, rugged mountains, aided by blockaded and narrow roads, are depended upon to check the eastward march of Germany if war should follow the uprising of the Sudetens.

# FUTURE CHANCES OF HER RESTS IN LAMESA SHOWING TONIGHT

## THE SPORTS PARADE

BY HANK HART

### Should Come Thru

Considering all things, including the fact that it looks a bit peaked around the horizon, that it will be the opening game for the Bovines, that Lamesa has already played once this season and that no less an authority than Blondy Cross has gone slightly step-happy in trying to name the winner, we're riding with the Big Spring outfit tonight and making the prediction that they will start the season with a two touchdown victory.

The elements are a thing to be considered. Almost every year that Lamesa and Big Spring have tangled, Jups Pluvius has seen fit to unloosen his wrath and the result, fog situations have been sticky ones. The last time that the two teams got together—1933—the rains came, the scores didn't. Lets hope the old man sleeps this one out.

Speaking of Cross, and we promise we won't discuss him long, the Angelo scribe opened the week with the prediction that the Bovines didn't have a chance, that he was sending a handkerchief to Pat Murphy who would have to watch the ordeal. Tuesday the big boy changed his tune, still favored Lamesa in a tough battle. By Wednesday Cross had apparently sobered up, was riding the fence, Thursday he handed the laurel wreath to Big Spring without a battle, wrote that the Herd might do well to jump into the conference chase.

The Longhorns may be handicapped by the Lamesa playing field, which is no golf green, and the Tornado which don't measure up, but should come through. Watch the two Chocks, Jones and Smith, who didn't get to play last year, and Ross Callahan who has been moved into the secondary.

### Ponies Favored

Elsewhere in the district Sweetwater's powerful Ponies tangled with Fort Worth Tech and Abilene frolics with Moran. The Friddymen should triumph over the Tarrant county team and the Eagles will have no trouble with Moran.

## PSAA Grid Card Opens In Forsan, Westbrook

### Buffaloes And Lions Rated Favorites

Forsan and Courtney reigned as favorites as the PSAA six-man football schedule opened on two fronts today.

Brady Nix's Buffaloes of the Forsan school were to play Garden City at Forsan in a game that should go a long way in deciding the champions of the new conference. Nix has a veteran team in the running this fall, including Hollis Parker, star back.

Mentor Herchell Wheeler had a large squad at Garden City and was building his offense around Philips Cunningham, 170-pound back. Philips will be assisted by Alvis Ray Cox and Robert Lee Cox.

Westbrook was awaiting the charge of the strong Courtney Lions who won more than their share of games during the spring. Nelen Robnett, Courtney coach, lost several valuable men by graduation but his team still has the respect of the other crews.

Chances for a Westbrook victory will lie in Ogleby, Davenport and Redwine who have been running in the first string secondary. Coach R. G. Crouch has been working with.

Gartner, fifth team of the association, is idle this weekend.

## PAT ABBOTT LEADER AT OAKMONT

OAKMONT COUNTRY CLUB, Oakmont, Pa., Sept. 16 (AP)—Pat Abbott, the movie extra from Hollywood, one of the nine of 18 greens today to take a three-up lead half way in his 36-hole semi-final National Amateur golf championship match against Dick Chapman, Greenwich, Conn.

Willie Turnesa of the New York golfing family topped Ed Kinglesley, Magna, Utah, over tester, three-up at the quarter point of their 36-hole match.

Manager Yusef Bobb announced this morning.

## Tyson Looks To Grid Season

### Man Who Had Chance To Go Into Baseball Has Won Four Titles

By HAROLD V. RATLIFF  
WACO, Sept. 16 (AP)—Paul Tyson wanted to be a doctor. His uncle talked him out of it.

Connie Mack wanted him to pitch in the big leagues. He talked Connie out of that.

Then he started teaching school and "just happened" to become a high school football coach. Nobody has been able to talk him out of that for a quarter of a century. For that matter, few have tried.

Today Tyson, dean of Texas coaches, looked forward to the start of his fifth season with no one able to change his conviction that football is one of the greatest builders of men and that the cry of overemphasis of the game doesn't hold water.

"Football fosters a friendship like nothing else can," the cards high school coach said. "The cards are all on the table in football. You find out what a boy really has inside of him, you can correct tendencies on his part and build him physically and mentally.

"Not Overemphasized" "Overemphasis is something the other fellow is not interested in that gets too much publicity to suit him. Why should we say football is over-emphasized when we realize the good it does? Sport, especially football, is the only study in which a high school boy is asked to do the same thing a senior in a university does. Isn't that advancement? Does anyone ever say school studies or school organizations are over-emphasized? Yet they do not equal football from the standpoint of relative ability.

"Of course we should not subordinate school work to football. I want a boy with ambition on my football team. If he makes good grades and is of sound character he makes a good football player." Tyson, oldest football coach in point of service in Texas—college or high school—started teaching the game at Denison high school in 1912. He was there two and a half years, then moved to Waco high where he has remained since—making a record that will stand alongside the best of them.

### Won Four Titles

Included in Tyson's football accomplishments are four state championships, the most ever won by any Texas high school, and a record in interscholastic league football of but a dozen losses in 16 years.

A product of Texas Christian university, he was a star football and baseball player. So good was he in the latter sport that Connie Mack, with whose name baseball has been synonymous for a half century, wanted him to pitch for the Philadelphia Athletics.

"At that time professional baseball players generally were not regarded very highly," Tyson said. "I was afraid if I entered it I would leave the game a loser. I always was interested in the teaching of children, especially psychology, so I got a job as a school teacher and finally began coaching. He recalled that he coached 10 years without pay.

In 1914 he came to Waco high and has coached the football team there since.

## WORLD SERIES OPENS OCT. 5

NEW YORK, Sept. 16 (AP)—Unless the National league races ends in a tie, the 1938 world's series will open on Wednesday, October 5, with the first two games scheduled in the home of the National league champions. The third, fourth and fifth games will be played in the Yankee stadium, with the sixth and seventh, if necessary returning to the National league city.

## Ohoans Titlists

CHICAGO, Sept. 16 (AP)—The Pohlman's Cafe team from Cincinnati started home today with the men's championship of the international football tournament. Westbound were the Kings of Alameda, Calif., with the girls' crown. Cincinnati and Alameda won the finals last night in a gusty drizzle in Soldier Field. Cincinnati turned back the International Harvester of Little Rock, Ark., 2 to 1, and Alameda beat Chicago's Down Drafts, 3 to 0.

## Battle Gets Underway At 8:15 P. M. Locals To Have Weight Advantage

By HANK HART  
Ringmaster Patrick Murphy unravels the 1938 edition of the Big Spring high school football squad tonight at 8:15 o'clock in Lamesa against F. T. McCullum's Golden Tornadoes and several hundred home town fans are expected to witness the sidelines to double the gamble of a team that is threatening to grab the conference gonfalon for the first time since 1934.

Whether the grey haired mentor has been able to whip the raw recruits into required shape to attack in the middle and ride out the storm that the Lamesans always produce and whether local fans can face the future with a degree of confidence missing since the great Oils Cordill roved the local carpet remains to be seen but the attitude of the leads toward the season's schedule and especially toward the Tornadoes reeks of confidence.

### Always Tough Game

Last night Murphy put them on display before several hundred fans at Steer stadium, trying more than anything else to rid them of varying attacks of "stage fright." Aided by pep squad and some rousing band music, the Bovines looked the part of contenders.

Tonight they go up against a band of boys that will probably be as difficult to conquer as any Lamesa team has in the past. McCullum's crew looked anything but champions in their go with Tahoka last Friday but they're willing and will have the advantage of an early season start over the herd.

A defensive battle is in prospect with the Longhorns given a slight edge there due to advantage in weight. The Tahoka offense "froze" against the Tornadoes last week, rolling up not a first down by the way. Big Spring backs are rated slightly better than is the secondary of the Bulldogs, certainly is capable of better blocking, but the locals have to take to the air to threaten.

Not as large as the Big Spring wall is McCullum's line but it's rated just as tough. Led by Captain Chuck Jacobs at left guard the mentor may develop something in the way of a District One threat yet if his behind-the-line play comes up to par.

The Steers, if Winsett Nance opens at center, should boast an advantage of about 10 pounds per man in the wall, will tip in at an average of 180 pounds from stem to stern. Two tackles, LeRoy Hollaway and Eugene Type, each weighing 170 pounds, brings the Tornadoes' average up to 170.

Murphy has been handicapped from the start by lack of an experienced back but he has remedied the situation to a degree by moving Ross Callahan, an all-conference guard of 1937, into a blocking half post, and Chock Smith, who lettered as an end on the 1936 brigade, but who did not play last season, to fullback. Chock Jones, a 170-pound triple threat who did not come out last year, will team with Alton Bostick, 155-pound spark plug, to shoulder most of the team's groaning.

Another important change in Murphy's system this year has been Howard Hart's switch to end. The 175-pound senior, who backed up Doug Rayborn at center last year, has taken over Smith's terminal post. Nance, a junior, has taken the regular center job and will be backed up by Paul Kasch. U. "Useless" Hall, who may run the scales to 165 pounds on a rainy day, will be at the other wing.

Deering At Guard  
After experimenting with James Wheat and Clyde Smith at guards Murphy indicated that he had come to the conclusion that Wheat could use his weight to a better advantage at tackle, instead will probably play Durwood Deering and Bill Fletcher at guards.

Facing Smith at his tackle berth will be one of Lamesa's three lettermen, Holladay, F. M. Mitchell and Jacobs were the other Tornadoes to earn numerals last fall. Jack Vaughn, 170-pound flash, may have worked his way into the Tornado first string backfield but it is probable that J. W. Anderson, Skeet Noret and Bob Crawley will open along with Mitchell. Vaughn stared against Tahoka.

The Bovines will oppose the Colorado Wolves in the first home game on the night of September 23.

## Tigers Beaten By Alpine, 4-2

Two Teams Tangle In Second Game Of Series Today

Despite great pitching by Sleepy Marlines, the Mexican Tigers lost the first of a two-game series with an Alpine aggregation, 4-2, here Thursday afternoon in a feature of the Mexican Independence Day celebration.

The two teams were to tangle again this afternoon in Baron park.

paid by the school to the winner in monthly installments during the student's freshman year if he remains in good standing with the school. In event the winner cannot or does not avail himself of this offer then the award will be given the second place winner or until someone on the team does avail himself of it.  
Candidates eligible for the prize this year are Howard Hart, Clyde Smith, Chock Smith, Chock Jones, Durwood Deering, James Wheat, Ross Callahan, Alton Bostick and U. Hall.

## Cordill Hurt In Scrimmage In Owl Camp

### TCU Line To Average 213 Pounds; Ponies Lack Offense

By the Associated Press  
Southwest conference football squads traveled at breakneck speed today, six of them striving to knock off the rough edges for opening games a little more than a week away.

The Rice Institute didn't ease up in the least though the Owls start a week later.

Rice counted one outstanding star among the injured but it was not of serious nature, Oils Cordill, backfield stalwart, receiving a bruised shoulder in scrimmage.

More worrisome for the opposition were brewed by Texas Christian university with Russell Hensch, 213-pound end, being moved to the first string to bring the line average up to 213 pounds.

### Plenty Of Power

Dana Bible got a good indication that he wouldn't lack in manpower at the University of Texas this season as he watched his second team defeat the first stringers three touchdowns to one. Bullet Gray protected his demotion to the second string by leading the assault on the regulars.

Coach Homer Norton took time out to exult over the fine condition of his squad at Texas A. and M.

It was still a wide-open battle for most of the places on the Arkansas university team with Captain Lloyd Woodell at center, Ray Eakin in the backfield and Thorpe at guard the only boys virtually certain of starting.

Coach Matty Bell at Southern Methodist university watched his boys choose up for a regulation game, then said sadly that his offense wasn't anywhere near what he wanted. He wondered how they could win without somebody doing some scoring.

The Baylor Bears concentrated on passing in their practice session then elected Billy Patterson, the pitcher, and Sam Boyd, the catcher, to captain the team this season.

## POLO FINAL IS CALLED OFF

CHICAGO, Sept. 16 (AP)—The much-postponed final of the national 12-goal polo tournament was off permanently today.

Uncertainty of the weather and the condition of the field at the suburban Oak Brook Polo club were given as the reasons for the cancellation of the final game between the Austin club of San Antonio, Tex., and the Santa Barbara, Calif., four which had been scheduled for Sunday. The postponement began Wednesday of last week.

# Bees And Phils May Decide NL Flag Chase

### Bees Move To Boston, Reds Tangle With Wilsonmen

By SID FEIDER  
Associated Press Sports Writer  
The second division actors showed front and center in the National League pennant comedy today.

In a pair of doubleheaders at Philadelphia and Boston, those also-rans who are just along for the ride now, have a big say in the final act of the flag chase. And, if past performances are any indication, they'll probably up and kick everything top-sided, just to make it funnier.

Pittsburgh's Pirates, boasting a three-game margin as the result of the 7-3 walloping they plumed on the Giants with five homers yesterday, moved into Boston for a twin bill with the bumbling Bees. The Cincinnati Reds, four games back in third place, tangle with the Phils.

In addition to the Pirates of the first and second part, the developments of these bargain bills will be of particular interest to the single game get-together in the Polo Grounds in New York, involving the second-place Chicago Cubs, who are only three games back and moving fast, and the Giants, who fell to fourth place yesterday.

Still Favored  
All four of the first division outfits were on hand for the Pirates-Giants party yesterday. The Cubs and Reds, with an off-day in their schedule, took a busman's holiday to sit in on the proceedings, and what they saw made it appear the Pirates are still the outfit favored to finish on top.

The New York Yankees were tripped, 6-4, by Detroit in the American League headliner, but, although beaten, Gehrig and company was left needing only three victories to clinch the pennant, since Boston's second-place Red Sox managed only a split with Cleveland in a pair of 3-2 decisions. The Indians won the opener on Jeff Heath's homer, and the Sox took the afterpiece on Fritz Ostermuller's swifter.

The Athletics and Chicago White Sox also broke even, the Sox coming through 5-4 in the first game and George Caster pitching a four-hit, 1-0, win in the second. Sam West's two-run single gave the Senators a 6-4 edge over the St. Louis Browns.

# Legionnaires Assembling

### They're Pouring In to Los Angeles For Annual Meeting

LOS ANGELES, Sept. 16 (AP)—Box cars and drum corps fluffers and sleek official cars, buck privates and gobs, big wigs and little, bands and plain enthusiasts with whistles began making their appearance in increasing numbers in Los Angeles today.

They were the vanguard of 100,000 American legionnaires. They came by air, train, afoot, in buses, trucks and trailers.

They launched the city into the frenzy of convention spirit that will rise to new heights Sunday when more than 100,000 men, women and children are bivouacked here for the twentieth annual national convention.

Detroit and Miami 40 at 8 groups brought the box cars. Four Miami boys, first of a group of 300 of their buddies, immediately started a noisy one-car parade. C. P. Edwards, who drove the "locomotive" that pulled the box car, stopped at every intersection to make an announcement. Naturally, it was about the weather.

"We shoulda brought our overcoats," he shouted through his loud speaker. (It was 83 in the shade all afternoon.)

### Padres And Ships To Oklahoma To Resume Playoff Series

By The Associated Press  
Tulsa and Oklahoma City moved to their home fields today for a last ditch fight to stay in the race for the Texas league championship.

Tulsa squares off against Beaumont tonight in the third game of the first round in the Shughnessy play-off and must win or be eliminated. The teams were idle yesterday but Beaumont took the first two games at Beaumont Tuesday and Wednesday.

San Antonio's Missions held a similar advantage over Oklahoma City, making it two straights with a 5-3 win last night at San Antonio.

Harry Kimberlin of San Antonio got credit for his second victory in the series, relieving Bill Trotter and hurling a shutout ball from the seventh inning on.

Max Thomas, who won 23 games during the regular season, was Tulsa's pitching choice, with young Lloyd Dietz, who turned in 10 victories against three defeats, due to toil for Beaumont.

Jack Kramer, who had 20 wins and 1 loss for San Antonio, faces Clay Touchstone, who won 16 and lost 11, in tonight's game at Oklahoma City.

**Johnny Mize To Chicubs?**  
By EDDIE BRIETZ  
NEW YORK, Sept. 16 (AP)—The Pirates were one jittery bunch when they pulled out for Beaumont last night. Note to Hank Greenberg: Better get busy with that pine, boy. Reason Sammy Sneed isn't going to tour the Argentine with Paul Eymann and Jug McSpaden is that his Mom put her foot down on Sammy making the trip by plane. Tony Palazola, the San Francisco fight promoter, is laid up in a hospital with stomach ulcers. Old Babe Ruth is hobbling around Ebbets Field with a broken bone in his big toe.

The Germantown Cricket club will make formal application for the 1939 Davis cup bouts when the committee meets here tonight. Gus Mancuso may bob up as first string catcher for the Cubs next year and you're liable to see big Johnny Mize from St. Louis on first base for the same crew. Max Baer does a very smart bit of acting in "Flat-cuffs," his latest short. Jai Alai will go over big here if Mike Jacobs can prevail on the powers to let the boys bet. Art Fletcher, Yankee coach, carries a watch on the field to see that the club is not cheated in batting and fielding practice. He has a special pocket sewed in his monkey suit.

**Retail Buying Is Continuing At A Faster Pace**  
NEW YORK, Sept. 16 (AP)—General retail buying this week continued at last week's "faster pace," although weather conditions in some sections slowed fall shopping, Dun & Bradstreet reported today.

Sales at many leading centers of distribution surpassed a week ago, with gains running from 2 to 5 per cent, the credit agency said. For the country as a whole, however, volume averaged 4 to 7 per cent under last year.

"The stronger consumer demand for fall merchandise showed no signs of slackening," the agency added.

"Specialty shops continued to report better comparisons than department stores, a trend to higher-priced merchandise being evident in apparel and other lines.

"Automobile dealers displaying samples of new models reported advance orders running close to or about last year's level."

# AUTO SPEED RECORD TUMBLES AS EYSTON REGAINS TITLE

BONNEVILLE SALT FLATS, Utah, Sept. 16 (AP)—The world's automobile speed record tumbled here again today as Capt. George E. Eyston regained the title John R. Cobb usurped yesterday. The new mark is 367.50 miles per hour.

Eyston, retired British army officer, drove his powerful "Thunderbolt" through the mile at 356.44 miles per hour on the north run and returned at 358.57 miles per hour to displace Cobb's record of 350.20, established only 24 hours ago on this white course.

Cobb, wealthy London fur broker was king for only a day. Eyston, who hoisted his own average from 311.42 to 345.49 August 29 only to see the astonishing achievement excelled by his compatriot, obviously held back until the chips were down.

How long their costly, six miles a minute duel will continue is a matter of conjecture as Cobb has already announced his intentions of running again.

Eyston, black from brake dust and exhaust smoke, smiled boyishly when informed he once more had ascended the coveted world speed throne.

A crowd estimated at approximately 5,000 persons, largest ever to assemble on the dry lake bed on the Utah-Nevada border, cheered wildly as the gray Englishman received the tidings.

**TEXAS LEGIONNAIRE LOSES HIS ROLL**  
LOS ANGELES, Sept. 16 (AP)—A Texas legionnaire, William Hubel of Amarillo, was the first convention visitor to report being victimized by a pickpocket.

As he was standing in line to register at legion headquarters today, he laid his wallet momentarily on a desk. Then it disappeared, he told police.

The most expensive saddles, made of handworked leather and chased with silver, sell from \$200 to \$250. A California man recently paid the record top price of \$2,000 for a saddle.

### Battle Is Feature Of Women's Natl. Tennis Tourney

By GAYLE TALBOT  
FOREST HILLS, Sept. 16 (AP)—Australia, with a population of only about seven millions, counting aborigines and a few kangaroos, is without doubt the hottest tennis country in the world.

Of six players left in the men's division of the national championship today, two were from the far and sparsely settled outpost of the British empire—Jack Brownish and Harry Hopman. Nancy Wynne looked like a certain finalist, if not the tournament champion, in the women's division.

It's a remarkable showing, Brownish, still fresh after his four-set win over Joe Hunt yesterday, was asked how come.

"Probably the simplest explanation is that we have about two million tennis players," he said. "Honest, about two out of every seven people must play the game."

All this may make it easier to understand if the Australians win the women's title here and snatch the Davis cup next to summer, as seems likely if Don Budge turns professional.

Wynne's Contender  
Nancy Wynne, who jumped into the forefront of the women contenders by her 6-4, 5-7, 6-1 victory yesterday over Margot Lumb of England, was a very good stenographer up to a year ago.

Two good battles were lined up today in the women's division, with Alice Marble playing Katherine Stammers of England, and graceful Sarah Palfrey Fry of Brookline, Mass., facing Jadwiga Jedzejowska of Poland, who was defeated in last year's final by Anita Llanza of Chile.

Don Budge, barging along toward his fourth major championship of the year, was due to exhibit his talents against Hopman, captain of the Australian Davis cup team, in one quarter-final match, while two old campaigners, Sidney Wood, Jr., and Bryant Grant, Jr., were to lock horns in the other. Wood always has been able to beat Bitsy on grass.

**STUDENTS ASSEMBLE ON TEX. U. CAMPUS**

Registration begins Sept. 19.

# "Red" Dawson's Question Box

### By LOWELL (RED) DAWSON

QUESTION: What is meant by the football expression "mousetrap?"

ANSWER: When a defensive lineman is purposely let through to be sideswiped by an offensive lineman or a back, the play is known as the "mousetrap." This type of play when skillfully employed keeps the defensive linemen from charging too hard and is likewise an easy way to open holes in the defensive line. The "mousetrap" is a form of cross-blocking, as cross-blocking is merely the technique of hitting a defensive lineman from the side rather than approximately head on.

**ARRESTS MADE IN MOROCCO RIOTING**  
TANGIER, Morocco International Zone, Sept. 16 (AP)—Police today arrested 26 armed occupants of six automobiles speeding from Tangier to Spanish Morocco, where 35 persons were said to have been killed at Tetuan yesterday in rioting inspired by Spaniards opposed to the insurgent regime.

Leaders of the expedition were said to have been Tangier Spaniards with Spanish government sympathies. Officials did not disclose the purpose of the expedition, but it was believed that the Spanish government sympathizers had intended to seize some Spanish Moroccan town and start a revolt against insurgent rule.

Police reported that an important arms cache had been discovered just outside Tangier.

Reports from Spanish Morocco said persons in high position were suspected in connection with yesterday's rioting.

### Prospects Poor In Gulf; Bass Striking In Lakes

By DAVE CHEAVENS  
Associated Press Staff  
The cool north wind which is supposed to whip up the appetite of all game fish started blowing over much of Texas Thursday and Friday and anglers were hoping the fall feeding spree was on.

Already from some North Texas lakes came reports that the crappie, king of pan fish, were stimulated. A number of fine strings were reported from Eagle Mountain lake north of Fort Worth, and famed Bridgeport was also turning in fine quotas of this finicky fish.

Bass had already started striking more readily on the large, clear lakes. Experts were advising semi-surface plugs for bait casters, and streamers or spinners for fly rods.

Wherever there were hatches of a small yellow fly, characteristic of September, the best color was yellow for bass.

At Galveston, the fishing was fair in bays and bayous and poor in the gulf. The northeast wind Thursday cleared the water and mackerel were seen around the pier.

Around Fort Arthur, prospects were excellent especially in the surf where red fish, spotted trout and whiting were biting voraciously. Water at Sabine Light was muddy but clearing.

The northerly gilled fishermen Thursday at Corpus Christi and Fort Aransas, but conditions improved during the day. Indications were that pike, tarpon, and muskellunge would bite during the weekend. Some trout and redear were being taken from Corpus Christi bay and the Laguna Madre.

## IT'S OLD STUFF, MR. O'DANIEL

So Mr. Lee O'Daniel doesn't like all the things the newspapers say. He took occasion to tell his radio listeners that Thursday, voicing the opinion that some newspapers print "things that are not true," and that some things were printed "for the sole purpose of misleading the common citizens of Texas." Which all has a strangely familiar ring. If we remember correctly, one Franklin D. Roosevelt has been fit at various times to score what he called the Tory press, claiming that the newspapers were put to retard his New Deal; one Mr. Milton of Indiana a few months ago sought to muzzle the newspapers with an absurd law because they printed some things he did not like to see in print.

The truth is, Mr. O'Daniel went through his political baptism of fire at the Democratic convention in Beaumont, and emerged not unscathed. Because the press of Texas reported that fact, he now puts the blame on the newspapers. It isn't a new method at all. It is always so simple to say that reporters misquoted, or that a certain newspaper distorted the facts. The press takes that sort of turn-quoote (that's a word the magazine Time applies to those individuals who deny their utterances to the reporters) with a degree of tolerance, knowing that he will be with us always.

But Mr. O'Daniel is making a pretty serious attack when he charges that the press of this state has set out in a deliberate campaign to mislead the public. It's a charge that he, as an honest man and not a professional politician, should be willing to back up with evidence. As far as we know, the newspapers have questioned Mr. O'Daniel's pension program chiefly on the ground of financing and Mr. O'Daniel himself has reached no acceptable conclusion as to how to pay all the oldsters.

He has a great many more important things to do for his state than to lose a barrage at the press. Besides, it's old stuff.

# Washington Daybook

By Preston Grover. By STEWART McDONALD, Federal Housing Administrator, Guest Columnist for Preston Grover.

WASHINGTON—Business transacted by the Federal Housing Administration during the four years of its life has exceeded \$2,500,000,000. About \$900,000,000 of this business has been done since the National Housing act was amended on Feb. 3, 1938.

These figures have a significance for the American public not so much as an achievement of what we can do in the future. We feel in the Federal Housing Administration that we have only begun to realize the potentialities of the National Housing act.

The act was designed by congress to encourage improvement in housing standards and conditions and to create and maintain a sound home-financing system. The FHA insures loans made by private lending institutions to prospective home owners, enabling the lenders to extend credit with confidence. The FHA lends no money but attempts to establish a system of lending and standards of housing which will encourage others to make loans more freely.

No Room For Rackets. We want the Federal Housing Administration to stand in the public mind as an unbiased, non-political organization of the federal government which aids and protects the individual in buying or building a home. The FHA standards leave no room for jerry-building or mortgage-lending rackets. The long-term, amortized, single mortgage sponsored by the FHA has definitely stamped out old mortgage evils, such as excessive charges and frequent renewals which throttled the mortgage borrower.

When the National Housing Act was amended in February, liberalizing and broadening the terms under which small houses may be financed, we hoped to increase the volume of business which we were handling. Home lending had fallen to a low level at the end of 1937 as a result of the business recession in the latter half of the year. We foresaw a rising trend in the spring of 1938, due to the efforts of congress to make the National Housing act apply to persons of lower income and to families with only small amounts of cash to apply against the purchase of a home. It has been immensely gratifying to find our own predictions for too conservative. Not only did our business reach a level never before touched but it has maintained that figure uninterrupted ever since April all the way until the middle of August.

May Be Best Since 1929. Mortgages selected for appraisal by the Federal Housing Administration have averaged between \$20,000,000 and \$24,000,000 in every full week during the period. In the week ended August 13 they amounted to \$23,372,000, or less than \$700,000 below our largest week. Our figures for July and August have been running more than 100 per cent ahead of 1937, both in the number and amount of mortgages selected for appraisal. This year should be the most prosperous home building year since 1929. It would not surprise me if the actual amount of insurance of home mortgages exceeds any previous year by at least 50 per cent. This much business transacted by the Federal Housing Administration alone indicates the construction of 300,000 or more dwelling units for the year. Such a figure would compare with only 50,000 homes built in 1934 and would provide the surest evidence of the federal government's success in spurring home construction through private credit channels.

# Hollywood

Sights And Sounds by ROBBIN COONS

HOLLYWOOD—A picture full of "heart" came to the preview screen this week and left Hollywood full of chuckles, misty eyes, and good resolutions. When you see "Boys Town" you may as well get prepared for a good wholesome cry, the kind that does you good. If you're a real softie, you may start weeping 'em before the explanatory forward is off the screen. If you're a little tougher, you may hold 'em back until about the middle of the first reel. If you're the toughest lug in the world, "Boys Town" is going to "get" you somewhere in its unreeling, and once it does you'll find it hard to stop.

It's an odd film, in a sense. The only "love interest" is between a kindly priest and a bunch of underprivileged boys he salvages. There isn't a woman in the cast, except for a few nuns, the nurses of the hospital sequences. And it is one of the most truly beautiful movies Hollywood has ever made. "Boys Town," as many of us didn't know until Hollywood got interested, is a self-ruling community of boys about 10 miles from Omaha, founded 21 years ago by the Rt. Rev. Monsignor Edward J. Flanagan, a priest who believes that, given a chance, no boy is "really bad."

The picture, except for some dramatic embroidery, relates the struggles Father Flanagan surmounted to make his dream a reality. Spencer Tracy plays the role with his fine gift for natural and sincere performance, making it one of his best. In the story Father Flanagan bears the confession of a condemned murderer (Leslie Fenton) who passionately blames his crime upon his early lack of guidance. This inspires the priest to abandon his current benefaction, a refuge for aged delinquents, and go after other, more promising material. He borrows a hundred dollars from a pawnbroker friend (Henry Hull) and goes to work. Undaunted by antipathy and disinterest, he rents a ramshackle old dwelling and puts out his sign, "Father Flanagan's Home for Boys." With the loyal but not so "impractical" pawnbroker as chief aide, the priest wins through to his goal—a country place, a real "Boys Town."

Comes to this happy, lively community—where all creeds, races and colors are welcome—one Whitley Marshal (Melvyn Rooney), a tough guy. Loud, smart-aleck, freckled, Whitey gets set to run Boys Town, thinks he's getting away with it, but is taken down so thoroughly—both in the "elections" and in fist-cuffs, that he skips. When little Pee-Wee (Bobs Watson) trails him devotedly and is run down by a speeding car, Whitey softens—but then he thinks it's too late. He runs away, gets involved by chance in a bank robbery with his criminal older brother, and for a while it looks bad for Boys Town and Father Flanagan and terrible for Whitey.

Norman Taurog, expert in child direction, does another "Skippy" on a broader scale here. "My Lucky Star" is a typical Sonja Henie vehicle, brightened by the star's rhythmic skating in several ice sequences, and distinguished by a spectacular "Alice in Wonderland" ballet the like of which has been seen in none of her previous films. The story is no stronger than it has to be, but Joan Davis and Buddy Ebsen as comedy romantics, some nice tunes by Gordon and Revel, and Roy del Ruth's direction keep it moving to the ballet finale which makes it all worth while.

Manhattan by GEORGE TUCKER

NEW YORK—In your studies amid the more curious of Manhattan's fauna you must not overlook the chorus girl. For she is unique. And, as a class, no contemporary appraisal of New York would be complete without her.

Usually she comes from a small town. She shares an apartment with one, or two, or three other girls, thus minimizing the rent and providing a measure of companionship. She rises about noon, breakfasts on a cracker and a ripe olive, and wanders off to the theatre for an afternoon performance or rehearsal.

Her income is about \$35 a week. If she works in a nightclub she reports about 6 p. m. and is off about 2 a. m. In years she ranges between 16 and 22, and she would not be adverse to winning (a) a wealthy husband, (b) an opportunity to become a star on Broadway. Now pull yourself together while I introduce some of them to you:

Sandra is the tall, statuesque type who loves to stare tragically into space, her mind a blank. She adores the movies and insists her boy friends take her there. Once in the theatre she screams and sobs. Often she faints. For Sandra is tender-hearted and can not stand for the hero to be victimized or the heroine to be deprived of her knight. All of Sandra's boy friends are new ones. The old ones never come back.

Flo, before she became a clothes-horse in a nightclub, gained most of her education by reading movie magazines. She is the round-eyed, baby doll type but wishes she had a nunky voice like Garbo. Whenever you talk to her she strives for the husky, deep-toned achievement, murmuring, "The stage, it is the best."

- He looked at her, smiling, and slowly shook his head. "That means nothing of the sort," he answered gently. "They have not found him yet, have they? And if they catch him afterwards, there is nothing to connect him with the affair at Prague."
- "Pah!" said she contemptuously. "Will any man alive not tell the truth to save his own skin? I would, I tell you, but I hope that I shall not have to. That is why I have come to see you tonight. You, all three of you, have your way of escape, but what is to become of the rest of us? I, for one, am not going to wait to be caught like a rat in a trap. I want money, and when I have got it I am going, tonight, at once, you can give Ludo your own orders and pay the price if he fails!"
- "Just a minute," he broke in smoothly. "In that case you had better tell me where Ludovic is now."
- She stared at him blankly. "At l'Amour, of course. Fatma gave the message to the chauffeur."
- He gave a short, cackling laugh. "Quite, but the chauffeur unfortunately lost it before it reached us. He suspects, in fact, that it was stolen from him by an Arab carpet-seller."
- "So!" she said, with a sort of strangled scream. "The man who saved Ludovic, and yet you doubt that the game is lost! You're mad, I tell you—but then you were always mad."
- He looked at her considerably.

Abif o' Thinkin' TRY AGAIN

A scientist divided an aquarium with a sheet of glass, put a hungry bass on one side and a minnow on the other.

The bass struck repeatedly at the minnow, but got nothing but a sore nose. He gave up, and even after the glass was removed, he let the minnow alone.

Who knew at times tried something—and bruiser his nose? When he tried again, and maybe again and again, sooner or later we found the glass was gone.

The professors say that failure gives us "inhibitions"—beliefs that it can't be done. In this business "inhibitions" are taboo.

### Treasury Officials In Calif. Resign

WASHINGTON, Sept. 18 (AP)—Secretary Morgenthau announced today the resignation of two treasury officials from political offices in California as the result of a recent investigation of the activities of federal employees in the recent primary there.

The secretary said the two men were given the choice of quitting the treasury or their political positions and dropping their political activities.

He said Vincent B. Guerra, assistant chief of the social security tax division at San Francisco, had resigned the chairmanship of the Piedmont Democratic club, and that Allen J. Moore, senior zone deputy collector, had relinquished his presidency of the Oakland Young Democratic club.

### No Guarantee From Hitler?

### Chamberlain's Departure Indicates Little Accomplished

By DEWITT MACKENZIE  
 BERCHTESGADEN, Germany, Sept. 16 (AP)—Prime Minister Neville Chamberlain of Great Britain left for home today without having obtained a guarantee of peace which he came here to seek from Chancellor Adolf Hitler.

The way was paved, however, for a further conversation between the two, possibly next Tuesday at Godesberg, near Cologne, Germany, about Germany's and Czechoslovakia's dispute over Czechoslovak minority rights.

To the extent that the parley was scheduled to continue, the situation was regarded as hopeful, if not particularly bright.

Hitler failed to appear to speed the parting guest from his hotel.

He remained in his mountain retreat eight miles from this Alpine town.

**Sun To Shine**  
 Chamberlain appeared well despite the air sickness he experienced yesterday on the dramatic flight from London—the first in his 69 years—and there was a cheerful smile on his face, if not in his heart.

As the prime minister was about to drive to Munich, the sun was struggling to break through the clouds.

Joachim von Ribbentrop, the German foreign minister, turned to Chamberlain and said, "the sun is going to shine on your trip."

The British statesman smiled and replied, "I hope the sun will shine."

Some wondered whether Ribbentrop and Chamberlain were staging a little hypoplay of optimism for the benefit of bystanders, but a prominent German official was quick to remark to a newspaperman, "Don't take that cynically."

Both German and British officials refused bluntly to disclose the nature of the conversation between Hitler and Chamberlain last night.

The impression prevailed among observers, however, that the Nazi Fuehrer was standing pat in supporting the demand of Czechoslovakia's Sudeten German minority for union with Germany.

**Rudy Vallee Heads Cast Of 'Gold Diggers in Paris'**

Things go on the gala side at the Ritz theatre Friday and Saturday as "Gold Diggers of Paris" is flashed on the screen to the accompaniment of sprightly music and beautiful girls. The latest and most elaborate of the Warner Bros. musicals, which promises something in entertainment, brings back to the screen after a three-year absence, the crooner of crooners, Rudy Vallee.

That is an event in itself but Rudy thinks the most important feature of the new "Gold Diggers" film is the motion picture debut of Freddie Fisher's Schickelfritz Band, a sensational crew of mad musicians.

Sharing the romantic and singing spotlight with Rudy is the luscious Rosemary Lane; doing the heavy dramatics is the brilliant Gloria Dickson, and contributing hilarious amusement is a group of star comedians which includes Hugh Herbert, Allen Jenkins, Mabel Todd, Melville Cooper, Ed Brophy, Curt Bois and Fritz Feld.

And, giving the whole production its avowed reason for having been made, is an aggregation of lovely Gold Diggers, who charm the beholder with their dancing talents in the ensemble numbers devised and staged by Busby Berkeley.

The whole plot revolves about the adventures of a troupe of dancers and of the owner of the night club where they are working at the start of the picture. That is Vallee's role.

Though the girls are of the hotcha school of dancing, they are, as a result of an amusing error perpetrated by Hugh Herbert, taken to represent America in an international ballet contest. Everything turns out well when the girls go on and give them some real swing.

**'Revolt' Against Roosevelt Found To Be Spreading Through South**

By W. B. RAGSDALE

WASHINGTON, Sept. 16 (AP)—The slap which President Roosevelt gave southern "conservatives" has reverberated far beyond the boundaries of the states involved in the primaries.

Not since reconstruction days have they cast their electoral votes for any save a democratic presidential candidate. There is not an effective nucleus of a republican party in either state, though Georgia, with its wide stretch of upland and mountain counties has many more republicans than does South Carolina.

White supremacy, as an issue, played little effective part in the primaries. But it was talked about on many a stump in South Carolina and Georgia.

**WINS DIVORCE**

BETHLEHEM, Pa., Sept. 16 (AP)—The Lehigh county court granted Mrs. Florence Campbell, 27, a divorce after she testified her husband, Samuel, 30, forced her to live five months in a coal bin ventilated only by a coal chute. She said she slept on rags piled on a box.

A study made of the labor done by a farm housewife over a period of 30 years showed that she prepared approximately 235,425 meals. The labor cost at \$1.5 a meal would be over \$35,000.

**'Phantom Gold' Is Western Melodrama Offered At Queen**

The exciting, colorful California gold rush days of '49 re-live again on the screen, but in a modern setting and with modern characters, in "Phantom Gold," the Columbia production which plays Friday and Saturday at the Queen theatre. Jack Luden is starred in the outdoor action film, with Beth Marion as his leading lady and Tuffy, the wonder dog, lending valuable support.

"Phantom Gold" is the title of the western melodrama billed at the Queen Friday and Saturday. Jack Luden carries the stellar role, Beth Marion is his leading lady, and Jimmy Robertson has an important juvenile part.

The exciting, colorful California gold rush days of '49 re-live again on the screen, but in a modern setting and with modern characters, in "Phantom Gold," the Columbia production which plays Friday and Saturday at the Queen theatre. Jack Luden is starred in the outdoor action film, with Beth Marion as his leading lady and Tuffy, the wonder dog, lending valuable support.

"Phantom Gold" is set against the background of a "ghost" mining town in today's California. Luden is seen as a drawing Texan cowboy who comes to the rescue of a little boy orphaned by bandits. In his efforts to trace the youngster's family, he meets exciting and unexpected adventures, not the least of which is the discovery of gold in a deserted mine.

The frenzied gold rush which follows, the villainies of the vicious killers Luden is trying to locate, and the presence of a beautiful young waitress all add to the dramatic highlights of the new film.

Charles Whittaker, Hal Tallaferrro, Harry Dowling, Marin Sals, Jack Ingram and Jimmy Robertson play prominent roles. Joseph Levering directed, from a screen play by Nate Gatzert.

**BUND MEETING IN NEW JERSEY IS BROKEN UP**

ELIZABETH, N. J., Sept. 16 (AP)—Routed by a hostile crowd that jammed a meeting hall and choked all its leading to it, the German American Bund today denounced such tactics as "gagging of free speech" and set about planning another rally.

Opponents of the Bund, estimated by police at 1,000 in number, seized Eintracht hall where the Bund had advertised a meeting last night, while another 2,000 blocked the entrance. Bund leaders called off the meeting, planned as an organization gathering, after a conference with Police Chief Frank Brennan.

The anti-Bundists began to appear more than three hours before the scheduled meeting time and soon had possession of the hall. Other hundreds massed about, picketing, chanting "The Star-Spangled Banner" and shouted against Hitler and fascism.

**George O'Brien Is Starred In Lyric's Western Picture**

Dealing with a colorful struggle to get possession of an immensely rich tungsten mine in Arizona, "Painted Desert" brings George O'Brien to the Lyric theatre Friday and Saturday in another action-packed outdoor picture. Gorgeous settings in the Mojave desert of California and the actual Painted Desert near Cameron, Arizona, comprise the more colorful backgrounds of the film. The dynamiting of a mountain-side, and scenes of the stampede of an ore train are said to be among the most thrilling sequences ever filmed.

O'Brien plays the role of a well-to-do cattleman, on whose range a wandering prospector and his pretty granddaughter have discovered a promising vein of tungsten. Planning to drive the trespassers away, O'Brien is himself driven off at gunpoint by the girl.

But when the old prospector, who has gone to town for more money to develop the property, is killed in an ensuing card-game, O'Brien secures title to the mine from the promoter, and then learns that it is immensely valuable. But in starting to develop it he comes in conflict with the girl, who is now aware that her grandfather signed away his rights before his death.

Unwilling to tell her that he is the real owner, O'Brien enters into partnership with her, and borrows enough money to put up a stamp mill and enlarge the mine. The promoter, however, anxious to regain control, commences a series of underhand moves designed to force his opponent into financial troubles and loss of the property. With a stirring cattle stampede, a running battle between the ore-wagon-train and marauders who are trying to force the wagon over a cliff, and a desperate effort to blow up the mine, the picture achieves unusual heights of drama. Romance, treachery, laughter and a wealth of thrills are woven into the fabric of the story.

**New Rules For Federal Court**

Cummings Hails Changes As Great Advancement

WASHINGTON, Sept. 16 (AP)—A new set of federal court rules, hailed by Attorney General Cummings as "the most striking advance in the administration of justice in half a century," go into effect today.

Justice department officials said the changes—84 of them—should save litigants time and money because they eliminate considerable legal red tape and provide shortcuts for settlement of suits.

Drafted by the supreme court with the aid of department experts, these new rules govern civil suits. Most of them are extremely technical, but officials said some of the principal changes include:

A loser in court can't ask for a new trial because of a technical error unless he can show that the error actually affected the outcome of the case.

Less than 12 jurors may hear a case by mutual consent of all parties, thereby saving the litigants time and the government money. Judges may confer with attorneys for both sides at a "pretrial." There, extraneous testimony can be weeded out, unnecessary witnesses dismissed, and the real issue agreed on before the trial begins.

**George Ready To Forget Campaign Bitterness**

ATLANTA, Sept. 16 (AP)—United States Sen. Walter F. George, renominated by a wide margin for another six year term despite the expressed opposition of President Roosevelt, said here today "the great democrats" will be quick to cast aside bitterness of the campaign just ended "and work for the party and its principles."

Complete returns from all but one of Georgia's 159 counties in Wednesday's primary gave the veteran senator 141,922 popular votes and 248 county units compared to 102,464 popular votes and 148 unit votes for his nearest rival, former Governor Eugene Talmadge.

Federal District Attorney Lawrence S. Camp, strongly endorsed by the president as a man better fitted to carry on the New Deal, was third with 78,223 popular votes and 16 unit votes.

Under the Georgia system a total of 206 county unit votes are necessary for nomination, regardless of the popular vote. Nomination is equivalent to election.

RENO, Nev. (UP)—Carol Lombard, who recently rejoined in print that she paid \$397,575 in taxes out of her \$465,000 income has been advised that if she will move to Nevada, her savings will be nearer \$100,000 instead of the \$30,000 she reported. Nevada boasted to her that it had no income tax, no inheritance tax, no sales tax and is planning to recall its personal property tax.

**Labor Strife May Be Terminated In San Francisco**

SAN FRANCISCO, Sept. 16 (AP)—Prospects for industrial peace in San Francisco brightened today with the intervention of AFL President William Green in the department store strike and the announcement longshoremen and ship owners had tentatively agreed on a new contract.

On San Francisco's other major labor battlefield, CIO warehousemen claimed the employer's united front was broken with the reopening of some of the 120 warehouses closed last month in a dispute over handling "hot" cargo loaded by non-union men at a struck plant. Employer spokesmen denied any warehouses reopened.

Fears of another waterfront tie-up, such as a crippled shipping of the entire Pacific coast in 1934 and 1935, were largely dispelled when spokesmen for employers and CIO longshoremen reported agreement on a new contract.

**35 MILLION IN GOLD COMES INTO U. S. IN ONE DAY**

WASHINGTON, Sept. 16 (AP)—The unprecedented flood of foreign gold—\$35,000,000—came into the United States on Sept. 14, the treasury said today.

In the first two weeks of this month the treasury purchased \$79,035,815 worth of the yellow metal, or an average of nearly \$20,000,000 per day.

Secretary Morgenthau said yesterday the "flight to the dollar" was the greatest in history, saying it was not a cause for alarm.

Huge quantities of gold are being shipped to this country to pay for dollar credits into which wealthy foreigners are trying to convert their wealth because they believe their money will be safer in this country than in any other if war breaks out in Europe.

The recent gold flood boosted the total of treasury holdings of the metal to \$13,420,568,501—the largest in history and more than half of world stocks.

NEW YORK, Sept. 16 (AP)—Five hundred additional policemen were assigned today to an area in lower New York where an "outlaw strike" of three local unions of the International Brotherhood of Teamsters (I. B. T. L.) threatened to spread to the entire trucking industry.

Officers of the union disclaimed any responsibility for the walkout, which halted much of the inter-
