419 Signed Up For Abilene Convention

"On To Abilene" was fast becoming more than a slogan Thursday as workers under eight team captains pitched into a whirlwind campaign that had netted 419 registrations shortly after noon.

The list was by no means complete and it appeared that Big Spring was within striking distance of its goal of 500 persons going to the West Texas Chamber of Commerce convention in Abilene on Monday, Tuesday and Wednesday.

City Budget Is Adopted With \$10,000 Cut

Reductions Made In Improvements At The Airport

A budget of \$230,000, a decline of \$10,000 from the originally proposed figure, was formally adopted by the city commission Wednesday evening.

\$49,000 Higher The reduction was effected in the airport department where provisions for a two-story building and other immediate improvements to meet certain government requirements were curbed.

Unchanged were the revenue estimates of \$275,000, consisting mainly of current collections (of 80 per cent) on a \$105,000 tax levy, \$15,000 delinquent tax collections, and \$119,000 in water and sewer department receipts.

Biggest appropriation was in the water department where requirements were set at \$72,415, an increase of \$23,400 over last year.

Bitter Debate Arises Over Money Bill

AUSTIN, May 11 (AP) — After acid debate, the house today put off until tomorrow the start of floor work on the departmental appropriations bill, largest of the major money measures.

This action almost crushed hopes that the lawmakers would complete their long session next week.

Other department allotments, with explanations for increase or decrease, are: Police, \$23,175, up \$2,000 for addition of personnel; fire, \$18,600, up \$4,500 for purchase of a new light-duty fire truck; health and welfare, \$14,965, up \$6,500 for institution of trash haul.

LEAGUE COUNCIL SESSION DELAYED

GENEVA, May 11 (AP) — At the request of Soviet Russia the League of Nations today postponed its council session, originally set for next Monday, until a week later.

Russia was understood to have asked postponement both to give Vladimir P. Potemkin, assistant foreign commissar, time to reach Geneva after reporting on his recent Near Eastern tour and permit conversations with other powers on problems to be considered.

League sources said other council members had approved the Russian request.

Both Foreign Secretary Viscount Halifax of Britain and Foreign Secretary Georges Bonnet of France are expected to attend.

Wood earlier had said he was willing to wager "four to a dozen" state department employees were in the house reception room "right now."

NEW AGREEMENT ON HWY. 9 ROUTE

County Would Pay City Damages On Park Land, Latter Make Own Repairs

Howard county and the City of Big Spring had reached a virtual agreement Wednesday on the rerouting of highway No. 9 south from the heart of the city to a point five miles from town.

The agreement was effected at a conference between County Judge Charles Sullivan and County Commissioner A. W. Thompson and the city commission Tuesday evening.

Judge Sullivan rejected the city's offer of free right-of-way across the city park extension in return for satisfying 18 specific requirements.

Both groups were in accord on the policy of the county paying for new roads opened within the city limits and the city to be responsible for widening existing streets to meet federal and state demands.

As an aftermath, the city commission adopted a form contract which will ultimately mean that the state highway department will provide a 53-foot paved thoroughfare down Gregg street.

Young Man Arrested As Suspect In Fatal Bank Holdup; No Clues In Santa Anna Job

DENISON, May 11 (AP) — A young man giving his name as Barton Frank, 21, of Bonham, was arrested in a hotel here today as a suspect in the robbery of the First State bank of Maypearl in which W. D. Wilmon, 44, president, was fatally wounded.

Assistant Chief of Police Paul Borum said the suspect made a statement in which he admitted he was alone in the bank robbery. The oral statement was witnessed by a newspaperman. Borum said the suspect told him he threw the pistol used in the robbery into the Red river.

Borum said \$556 was found under a pillow in the hotel room where the youth was arrested.

Officers began a systematic search of the city when a maroon sedan (Mercury) was found on a street here last night. The machine answered the description of the automobile used in the bank robbery.

Wilmon died last night in a Washachie hospital. He had been slugged and shot in the back during the noonday robbery by a slender, well-dressed handit

who ordered him into the bank's vault. Borum said the suspect told him he did not know the banker who died. He was arrested by City Patrolmen Grady O'Shields and Louis Winchester about 8:30 a. m. Lawrence Wilmon, brother of the slain banker, said the loot probably amounted to \$1,000.

ham said the suspect had formerly attended Bonham high school and had been convicted of automobile theft in Hunt county. Meanwhile, West Texas officers had reported no trace of the robber who held up the Santa Anna National bank in Coleman county at about the same time the robbery was staged at Maypearl. The bandit, appearing at noon, scooped up between \$1,700 and \$1,800 and fled without attracting attention of passersby. His loot was in bills of \$20 and smaller denominations. Roy Richardson, assistant cashier of the Santa Anna bank, was at the teller's window when the highwayman entered. Without wasting words, he coolly ordered

Richardson to hand over all the money in sight. When Stafford Baxter, a customer, walked in, he also was covered by the robber's gun. Richardson and Baxter were ordered into one of the bank's two vaults and here the gunman made his first mistake. He directed the two men to enter a supply vault instead of one nearby in which bank funds are locked.

"He missed more money than he took," said Richardson, who declined to say how much more might have been taken. Partially disguised by adhesive tape across his nose and cheek, he was described as between 45 and 50 years old, of dark complexion, weighing about 190 pounds and five feet eight inches tall. He was dressed in dark clothes. Three other persons in the bank were unaware of the robbery until Richardson sounded an alarm. They were O. L. Chaney, active vice president, and Mrs. G. W. Jennings and J. Evans, who were talking with Chaney in his office. Other bank employees were out to lunch.

Treasury To Ask Changes In Tax Laws

WASHINGTON, May 11 (AP) — Secretary Morgenthau asserted today the treasury intends to ask congress to remove business deterrents from the tax laws.

A reporter asked whether President Roosevelt had virtually forbidden him to present a tax revision program to congress.

Morgenthau replied: "That's ridiculous. We're living under a democracy, thank God." Although declining to discuss any details of his tax views, Morgenthau said specifically he stood by a press conference statement of a few months ago that he hoped congress would clear the tax laws of business deterrents and thus encourage business to take normal investment risks.

He also asserted he stood by his March 3 letter to Chairman Harrison (D-Miss) of the senate finance committee and Chairman Doughton (D-NC) of the house ways and means committee promising to present certain unspecified tax studies whenever the committees wanted them. Morgenthau expects the house committee to summon him in about a week.

The treasury secretary's last recommendations, formulated mainly by Undersecretary John W. Hanes, a former Wall Street broker, have been reported to include consolidation of the present four corporation taxes into a single levy, provisions for offsetting corporations' operating losses of one year against the profits of the following year, and numerous other technical changes desired by businessmen.

Farm Conference Scheduled Friday

Administrative assistants, county committees and performance supervisors from some 10 or 12 counties are due to convene at 10 a. m. Friday in the Settles for a conference in compliance.

J. W. Doak, A.A.A. field representative for West Texas, will be in charge of the meeting. Also to appear on the program will be C. E. Moseley, state compliance officer and aerial map check expert.

The meeting is due to continue until 5 p. m.

WILL STAND BY OBLIGATIONS, BRITAIN AND FRANCE ASSERT

Threat To Poland Means War, Says Chamberlain

LONDON, May 11 (AP) — Prime Minister Chamberlain said in an Albert Hall address today any attempt to change the (Danzig) situation by force "so as to threaten Polish independence would inevitably start a general war in which Britain would be involved."

"In many minds the danger spot in Europe today is Danzig where our assurances to Poland are clear and concise. Although we would be glad to see the differences between Poland and Germany amicably settled by discussion, although we think that they could and should be so settled, if an attempt were made to change the situation by force in such a way as to threaten Polish independence, why then that would inevitably start a general conflagration in which this country would be involved."

The prime minister spoke to a meeting of women members of the conservative party shortly after Foreign Secretary Viscount Halifax had received Soviet Ambassador Ivan Maisky in a new effort to smooth out Russian-British negotiations for an alliance.

This development came as Izvestia, Russian government newspaper in Moscow, indicated Russia would reject Britain's latest proposals for cooperation in eastern European guarantees.

It was believed the envoy laid before Lord Halifax the precise Russian objections to the British proposals along the lines expressed by Izvestia in an editorial.

(Izvestia said the British proposals were utterly unacceptable in their present form and said Soviet Russia insisted on formation of a "united front of mutual assistance" by Britain, France, Russia and Poland—or at least by the first three.)

HOSPITALS TO BE OPEN TO VISITORS

Big Spring residents will have an opportunity Friday to gain a first-hand glimpse of the inner workings of their hospitals, as the two major institutions here join in informal observance of National Hospital Day by holding open house.

Both the Big Spring hospital and the Malone & Hogan Clinic-Hospital will be open to the public from 9 to 12 a. m. and 1 to 5 p. m. Attendants will be on hand to conduct visitors on a trip through the hospitals, and everyone is invited to call.

Mine Parleys Are Continued

NEW YORK, May 11 (AP)—Dr. John H. Steelman, chief of the U. S. conciliation service, said late today that insofar as the public was concerned the deadlock in the soft coal industry "is over."

WASHINGTON, May 11 (AP)—A White House secretary said today President Roosevelt was considering further steps in the soft coal shut down controversy but would take no action as long as the operators and miners' representatives continued negotiations.

The secretary, Stephen Early, said "some steps" were being considered for resumption of mining but there was no elaboration.

Early noted the deadline set by the president for an agreement of reopening the mines had gone by, but said the chief executive "in hope of tolerance" was still waiting for the final result of negotiations.

The president received a report last night by telephone from Dr. John H. Steelman, chief of the labor department conciliation division, and awaited further reports today.

8,000 JUDGMENT AGAINST DERRINGER

NEW YORK, May 11 (AP)—A verdict of \$8,000 was returned by a jury in supreme court today against Paul Derringer, pitcher for the Cincinnati Reds, who was sued for \$25,000 by Robert E. Condon, industrial engineer, of Larchmont, N. Y.

Condon accused the ball player of attacking him in a Philadelphia hotel on June 27, 1936, during the democratic national convention.

BACK FROM FAIR

James A. Davis, general manager of the Empire Southern Service company, and Pat Kenney, local manager, returned Wednesday night from New York where they attended the World's fair.

Military Alliances Concluded, Daladier Reports

PARIS, May 11 (AP) — Premier Daladier told the chamber of deputies today that France "in accord with all other states which wish to live honorably" had concluded specific military alliances to prevent "violence and threats from leading Europe into catastrophe."

"The true problem," he said, "is to know if the different interests which can divide peoples will be regulated by methods of peaceful collaboration or by violence and force."

He asked if it were necessary to recall "violated promises, torn-up accords, nations which have disappeared or been submerged despite the most solemn promises made at the same hour when contrary decisions were being taken."

Daladier declared "love of peace is so profound for all peoples of the world that no one must call on it to cover all fearful undertakings."

He asked if peace consisted of invading other countries and presenting "continual new demands which can lead to conflict, condemning people to misery."

The premier's message, "look up again the slogan of 'domination or collaboration' which he first broadcast to the nation May 5.

"France," he said, "has decided to base her action on 'free collaboration.'"

"This," he said, "is the thought, 'France knows no hate. She feels sincere sympathy for all peoples. She knows besides by long experience that war would not solve any of the present problems, that it would only make their solution more difficult and more ruinous.'"

On Hunger Strike, Accused Man Given Injection, Carried On Stretcher Into Court Room

END, Okla., May 11 (AP) — Strengthened by a glucose injection, a 40-year-old accused slayer who went on a hunger strike 22 days ago was carried into district court on a stretcher today for a sanity hearing, called to precede his trial.

The defendant, Roy Murphy, who started his fast "because I'd rather die than go to trial," appeared somewhat revived by the glucose forced into his veins as he was brought before the same jury selected to try him on a murder charge.

Accused of killing his brother and sister-in-law, Mr. and Mrs. Harry Murphy, last January 13, the defendant was carried into court yesterday, his eyes starting from their sockets and his cheeks haggard from the deliberate purpose of evading trial.

Home Agents Assemble Here

Twelve home demonstration agents from surrounding counties were gathered in a sub-district meeting Thursday for demonstrations in killing, dressing and preparation for cooking of poultry and preparation of poultry products.

George P. McCarthy, Texas A.&M. poultry husbandman, was in charge of the instruction on killing and dressing poultry while Nora Ellen Elliott, food preparation specialist of the extension service, led in the demonstrations on cooking and preparation of poultry products.

Ruth Thompson, district home agent, presided.

Spring Mode Fits Mothers To A "T"

By ADELAIDE KERE
AP Fashion Editor
That famous little girl silhouette has come to town again in new spring and summer clothes for mother!

hplength jackets and many coats swing straight from the shoulders. For bridge, parties and tea, mother's fashions include a number of crepe frocks in soft blues, hyacinths and grays. There is also a whole fleet of printed ensembles combining a crepe frock or foundation with a sheer redingote stamped with the same print.

A printed ensemble for mothers who cling to classic lines combines a thistle (cocoa rose) crepe foundation printed in white with a sheer coat of the same printed pattern. Thistle velvet ribbon trims it and orchids give it a festive touch.

Here is a version of the little-girl silhouette in a suit for mother. It is designed of sheer dark blue wool, with a double-breasted fitted jacket and pleated skirt. A velled white straw sailor and white gloves give it fashion frosting.

.. AND I USED TO BE SUCH A SAUSAGE IN THIS DRESS
Look at the Fat I've Lost!
Now you can slim down your face and figure without strict dieting or back-breaking exercises. Just eat sensibly with Marmola Tablets a day, according to the directions.

"There's never been a better camouflage for the 'middle aged spread,' than the little-girl silhouette, for it falls in soft fullness from the hips and no one can tell what the hip measurement really is. To get the most flattering line, let the skirt remain fitted to the hips and the fullness break from there, seeing that it does not extend too far out on each side.

"If the waistline is no longer slender, be careful to have the jacket fitted at the hips, but not too tight at the waistline, thus drawing attention away from the midriff.

"As far as skirt lengths are concerned, the best effect is obtained with a hemline slightly lower than the bulge in the calf of the leg, which should never show, even in a young girl."

The little-girl silhouette appears in a number of new spring suits for mother designed of sheer wool with gently fitted jackets and gored or pleated skirts. It has also come to town in charming printed ensembles that combine a simple frock (pleated or gored as to skirt) with a trim little jacket. Nearly all the patterns splash a blue, green, or gray background with white.

# UNION PLAN IS GIVEN FINAL APPROVAL BY METHODISTS

KANSAS CITY, May 11 (AP)—Nine hundred delegates representing three previously separate branches of Methodism carried back to their churches today the message: "The Methodist church is Long live the Methodist church." The words were spoken by Bishop John M. Moore, of Dallas, as the delegates voted approval formally and without dissent last night of the plan of union already recommended by the Methodist Episcopal church, the Methodist Episcopal Church, South, and the Methodist Protestant church. The combined church has nearly 8,000,000 members. Two weeks work of perfecting a plan of government for the new church was completed without encountering legal action threatened at the outset of the uniting conference by a group of South church laymen. The group, known as the Laymen's Organization for Preservation of the Southern Methodist Church, asserted at Atlanta as the conference ended that "its acts were illegal and the plan impossible of being carried out." Court Action Spokesmen for the laymen's organization said court action would be instituted in South Carolina, Georgia, Mississippi and Tennessee. The legal action apparently was anticipated by the conference here. Delegates voted down yesterday by the narrow margin of the conference—384 to 371—the appeal of women for full clergy rights. While many details must be worked out for administrative purposes five geographical jurisdictions and a sixth comprising all negro churches, the latter tending to heal the wound which led to establishment of the Southern church before the Civil war. A new election by Protestant branch delegates of two bishops—their first since they split from the parent body 111 years ago in a protest against too much Episcopal power. Provided for election of new bishops by jurisdictions. Assigned, in most cases for life, the 37 active bishops of the three churches, sending 12 of them to new residences. Harmonized the disciplines of the three churches, taking parts from each but adding nothing not included previously in one of them. Voted liberalization of South and Protestant branches by allowing ministers to officiate at marriages of "innocent parties" to divorcees resulting from mental and physical cruelty. Approved a "social creed" including a clause pledging support of any member who may be "conscientious objector" to war. Established in form with out choosing members central boards for finances, missions, education, pensions, temperance, hospitals, publications and lay activities. The missions board includes subsidiary organizations for home, foreign and women's missionary work. Elected the nine members of the church "supreme court." Set the first general conference for next April. There are approximately 1,300,000 4-H club members in the United States and about 7,600,000 young people have been trained in club work since the organization became a nation-wide one in 1914. Purpose of the club is to teach skill in farm and home work.

# Other Road Projects Listed For Bids

AUSTIN, May 11 (AP)—The state highway department announced it had added 11 road improvement projects to a program on which construction bids will be received May 23. The project, by counties, included: Case and Panola—cut-back asphalt concrete pavement on highways 77 and 149 from Douglasville to 1.2 miles west of Atlanta and the approaches to the Beckville, Panola county, overpass. Hidalgo—widening, grading, drainage structures and pavement on U. S. highway 88 from McAllen to Mission and from Ninth street in Donna to three miles east of Weslaco. Jefferson—widening concrete slab bridges, lengthening box culverts and repairs on U. S. highway 90 between Amella and the Liberty-Jefferson county line. Randall—asphalting concrete shoulder surfacing on U. S. highway 90 from 2.10 mile north of Canyon to Amarillo. Tom Green and Coke—reshaping base and double asphalt surface treatment on highways 208 and 70 from 11.5 miles north of San Angelo to 1.7 miles north of the Tom Green-Coke county line, from Nolan county line to Bronte and from Bronte to the Tom Green county line. HONKING MEANS EXASPERATION NEW ORLEANS, May 11 (AP)—Merton Oxford thought he heard a horn blowing and shouts when he drove his automobile from the curb. A back glance revealed nothing. He drove on, but the vexing horn blasts continued. Six blocks further, Oxford drove up to the curb, exasperated with his ears. When he got out he could hardly believe his eyes. A hinged automobile bumper was hooked into the rear bumper of his machine. The midge car's owner was inside. He, too, was exasperated.

**SPECIAL TRAIN TO FAIR IS DELAYED**

DALLAS, May 11 (AP)—Departure of the Texas Press Industrial train for eastern states has been delayed to an unannounced date in June.

Lowry Martin of Corsicana, chairman of the trip, announced the May 14 date would be changed because Gov. W. Lee O'Daniel, who had expressed a wish to make the trip, could not leave Austin that soon.

**Ideal Sunday School Class Meets Tuesday**

The Ideal Sunday school class met Tuesday in the home of Verna Jo Stephens for a business and social meeting. Yvonne Hull and Edwin Harris played musical numbers and the hostess served a sweet course.

Others attending were Lenora Williams, La Dell Laudamy, Gladys Laudamy, Geneva Mae Pruitt, Florence Jenkins, and Edwin Harris, a guest.

**PICKETS' PROGRESS** along oil tanker dock in Everett, Mass., drew attention when pickets of the national maritime union donned gas masks. They wore the masks, they said, because police had previously used tear gas to disperse line.

**AFL Proposes A New Labor Agency**

WASHINGTON, May 11 (AP)—An AFL proposal to scrap the National Labor board and substitute a new five-man agency shaped up today as one of the biggest obstacles to any agreement on revising the Wagner labor act.

The proposal was described by President William Green of the federation as one of six fundamental amendments about which AFL leaders had given no thought of compromise in their conferences with labor board officials.

At the same time, Green conceded the three present board members might well balk at accepting a plan that, in effect, would remove them from office.

Green did not close the door to compromise, however, saying any concrete suggestions worked out in the conferences would be submitted to the AFL executive council, which is in session here.

The conferences of J. Warren Madden, board chairman, and his aides with John F. Frey and Joseph A. Padway of the AFL will continue to the weekend.

Even if the two groups agree on amendments, congressional committees trying to work out legislation still would be confronted with conflicting recommendations from organized labor. The CIO already has expressed its disapproval of the negotiations and of any changes in the law.

**CONVERSATIONALLY SPEAKING**, Princess Ingrid of Denmark found ready words to express interest in the U. S. tour she made, along with her husband, Crown Prince Frederik. As guests of New York's Danish colony, the royal couple attended a dinner at the Waldorf-Astoria. With the princess is Thomas J. Watson, president International chamber of commerce.

**Lucky Dozen Meets With Mrs. Robbins For Sewing**

Mrs. Billie Robbins entertained members of the Lucky Dozen club Wednesday afternoon in the home of Mrs. Milton Reaven.

Sewing, embroidering, and crocheting provided diversion. Spring flowers decorated the room and a gift was presented to the hostess. Refreshments were served to Mrs. Doyle Vaughn, Mrs. Dick Hatch, Jr., Mrs. Dwight Bodkins, Mrs. Graydon Goodman, Mrs. Happy Hatch, Mrs. Dee Carter, and Mrs. George Montgomery, guests. Mrs. Reaves and the hostess.

**Idle Art Meets With Evelyn Merrill In Home Wednesday**

Miss Evelyn Merrill was hostess to the Idle Art Bridge club when it met in her home Wednesday and included as guests Mrs. Henry Covert and Mrs. Cecil McDonald. Mrs. Covert won high score and Mrs. S. R. Whaley received second high score. Mrs. Fletcher Seebing and Maxine Reigel received low score.

Spring flowers of roses and larkspurs decorated the room and the hostess served refreshments. Others attending were Mrs. Glenn Queen, Mrs. H. W. Dunagan, Mrs. Harold Lytle, Mrs. Kelly Burns, Mrs. Ray McMahen, and Mrs. Thomas Neel.

**PASTOR ASSOCIATION TO MEET ON MAY 27**

At the regular monthly meeting of the Pastors association at the Crawford Coffee shop it was decided to have the next meeting at Rev. G. C. Schurman's study Saturday, May 27, at 10:30 a. m. instead of the second Monday of June. All members are urged to be present since this will probably be the last regular meeting to be held until September.

**Give Mother A Day Off Sunday By Preparing A Simple Meal**

By MARTHA LOGAN

Of all the gifts suitable for Mother's Day, perhaps the very best of all would be a day of freedom from all meal preparation. Fortunate indeed is the home where the young daughter has learned to prepare a well-cooked meal so that mother really may be a guest, with the calm assurance that all will be well. But if such is not the case, let's be sensible and plan meals that are quickly assembled by taking advantage of the fine baked goods, canned foods and table-ready meats found in all good markets.

- Breakfast**  
Strawberries or Tomato Juice  
Bacon and Eggs Coffee Cake  
Coffee  
Dinner  
Broiled Ham Broiled Pineapple  
New Potatoes and Peas in Cream Sauce  
Sliced Tomato Salad  
Ice Cream Rolls Wafers  
Coffee  
Supper  
Table-Ready Meat Loaf Cornucopias Filled with Cottage Cheese  
Potato Sandwiches  
Cucumber Sandwiches  
Fruit Salad Cookies  
Tea

rolls, bread, wafers and cookies may be selected at the baked goods counter from the variety of fine products displayed there.

The ham for dinner is the table-ready kind which is thoroughly cooked and may be served cold or reheated. Cook the new potatoes in their jackets, then peel them. Use canned or fresh peas and combine with the white sauce. (Canned cream of mushroom soup makes an excellent sauce.) French dressing for the salad is a staple item in all groceries and, of course, the ice cream can be ordered from the corner drug store.

For supper, slices of a fine table-ready meat loaf are rolled into cornucopia shape and fastened with toothpicks. The cottage cheese and potato chips are grocery store items. Even the assortment of fruit for the salad comes in cans ready for use, if one doesn't care to prepare fresh fruit.

So we find that with a little forethought, the traditional Sunday meal problem is easily solved. Let's make our slogan "minimum kitchen work and maximum pleasure" for this year's Mother's Day.

**Mrs. Sanders To Be Given Shower While In Houston**

Making plans to honor Mrs. Early Sanders with a handkerchief shower, members of the Friendly Sewing Circle met Wednesday in the home of Mrs. R. M. Huff with Mrs. R. J. Barton in charge.

Mrs. Huff, chaplain, conducted the devotional and the group voted to send gifts to 107 Suber street, Houston, for Mrs. Sanders.

Refreshments were served to Mrs. R. J. Barton, Mrs. Huff, Mrs. Howard Smith, Mrs. L. M. Reneau, Mrs. Ada Vaughn, Mrs. Opal Sikes and Mrs. Rose Balch.

**Stitch And Chatter Club Meets In Stanton**

**Morgan Halls Are Hosts At Evening Bridge Party**

STANTON, May 11 (Sp)—The Morgan Halls were hosts Tuesday night at a party complimenting members of the Thursday Night club. Bridge was the diversion of the evening.

Those present were Mr. and Mrs. O. B. Eryan, Mr. and Mrs. James Jones, Mr. and Mrs. Calvin Jones, Mr. and Mrs. Fillmore Epley, Mr. and Mrs. Phil Berry, Mr. and Mrs. Poe Woodard, Mr. and Mrs. Arlo Forrest, Mr. and Mrs. R. G. DeBerry, Mr. and Mrs. Harold Haley and the host and hostess.

**Mildred Balch Honored With A Farewell Party**

To honor Mildred Balch, a farewell party was given Wednesday in the home of Joye Lawdermilk. The hostess was assisted by Rosa Lane Balch.

Refreshments were served to Mollie Lee Kinsey, Evonne Milam, Elizabeth Knowles, LeVerne Mosely, Joella Edwards, Margaret Lawdermilk, Rosa Lane Balch and the hostess.

Dr. and Mrs. E. H. G. Cowper and daughter are leaving Sunday for Denton, where they will leave their daughter with the latter's parents before continuing to St. Louis, where Dr. Cowper will attend sessions of the American Medical association. Following the convention, Dr. and Mrs. Cowper are going to New York City, where they will attend the world's fair and see other sights. Before returning to Big Spring, they will visit points in the east and in Raleigh, N. C., former home of Dr. Cowper.

**'YOUNGEST MALE IMPERSONATOR'** is title claimed for Sandra Henville, shown with her mother, Mrs. Roy Henville, a native of San Diego. Sandra, at 15 months, played the part of the boy-baby complicating a recent Bing Crosby film. She earns \$150 a week when she's working; \$50 a week when she's not. Her contract runs seven years. She's "Sandy" for male roles.

**ON THE BASEBALL 'FRONT'** meet Lamar Newzome, Philadelphia A's shortstop, who has adopted this aluminum helmet for action under fire. He was hit in the head by a pitched ball last season, and he's taking no chances during the 1939 pennant race. The helmet (upper) fits into the regulation baseball cap and causes no inconvenience for the man at bat.

**FORTUNES OF WAR** altered the fortunes of Alfonso, former king who's been an exile since Spain became a republic in 1931. Franco-controlled Spain recently restored to the royal family all the private property it owned before 1931.

**FORM BEYOND HER YEARS** was shown in the tennis style of 14-year-old Miss Z. Koromocsy (above) who put up a game battle before her defeat by Kay Stammers in English match.

The car is of four-wheel drive construction, and six exhaust pipes streamline out of the hood in back of driver. Pontoon-like gas tanks line left and right sides of chassis.

**BRITISH 'TOY SOLDIERS'** march—but only on the drill grounds of a Dover military school, preparing a "toy soldier" act for the Olympia tournament. England's most recent answer to the dictators' threat of arms was a conscription program to give 10,000 men in their 21st year six months of training.

ing service (a figure which includes purchase of two trucks and addition of six men); street, \$42,442, up \$21,000 to provide for a 40-block WPA paving program (which would be trimmed by \$13,000 should the projects not materialize and the paving be curtailed to 10 blocks); sewer, \$8,515, down \$2,000 due to lack of need of heavy equipment purchase; park, \$12,370, up \$7,000 for participation in a \$96,000 WPA project and for a \$3,480 NYA project to utilize available, idle youth; buildings and grounds, \$1,140, up \$800; airport, \$14,283, down \$12,000 due to less capital outlay requirements; cemetery, \$1,895, down \$4,000 because of less capital outlay demands; and swimming pool and park, \$8,306, up \$1,300 due to improvement and extension needs.

Bonded requirements for the year were pegged at \$111,880. Surplus will be used as an auxiliary in meeting these charges.

In the final approval of the budget, which covers the 12 months from April 1, 1939 through March 31, 1940, T. J. A. Robinson, commissioner, questioned the advisability and expediency of institution of the free trash hauling service at this time, expressing the belief that the money might be better applied elsewhere.

Following approval of the budget, the commission approved the appointment of Frank Covert as the pump station manager at the new municipal lakes.

VERDICT CHANGED IN TEXAN'S DEATH

AUSTIN, May 11 (AP)—A coroner's verdict of murder was withdrawn today in the mysterious death of Tom Cleveland, 68, former Hays county commissioner whose body was found Tuesday night in the Blanco river five miles north of San Marcos.

Justice of the Peace A. M. Ramsey, who returned the murder verdict, changed it to "death by drowning." Reports here indicated a Hays county grand jury might investigate the case.

The dead man was a brother of Rep. E. J. Cleveland of Buda. Ramsey said he changed his verdict after physicians who examined the body said the lungs were filled with water, indicating drowning.

THEY LEARN TO DO BY DOING

A four-leaf clover is the official emblem of the organization and that is appropriate enough, for they are lucky boys and girls who belong to 4-H clubs.

This state, with 57,390 4-H club members enrolled in 1938, helped to raise the national 4-H club enrollment for the year to a record-breaking total of 1,286,029, according to H. H. Williamson, director of the Texas A. and M. College Extension Service.

Director Williamson received announcement of the national total last week from Dr. C. W. Warburton, national director of extension work, who said last year's record enrollment brings to approximately 7,500,000 the total number of young people who have received 4-H training since the work was first projected on a nation-wide scale in 1914.

The work of the 4-H clubs has a great significance because of the effect it inevitably will have on the future of agriculture in Texas. These 4-H club members are principally youths between the ages of ten and twenty-one years.

Machines That Fit Needs Of The Farm Are Replacing The Old Type That Ate Profits

This is the fifth in a series of six stories telling of developments along the modern farm front. By JACK THOMPSON AP Feature Service Writer WASHINGTON—Fit the machinery to the farm. That's the motto of the modern agricultural engineer, who's cutting the size of tractors for use on farms as small as fifty acres.

One of the new small tractors, like this one, operates at a fuel cost of 10 cents an acre while pulling an 11 1/2 inch cultivator on a duckfooting and harrowing job.

The hired man could find shelter from a thunderstorm inside one wheel of the giant tractor of 20 years ago. The whole of this year's streamlined models are scarcely high enough to hide behind. Others in proportion.

The experts keep cutting the size of the machines pulled by tractors, too, so they'll be more economical for the small farm. Early combines would cut a twenty-foot swath through a wheat field. Then they developed "baby" combines that cut a six-foot swath.

By the AP Feature Service If Kenneth Johnson, of Morgantown, Ky., keeps up at the rate he's growing, he'll be a bigger man than Robert Wadlow, of Aiton, Ill., who was 21, Wadlow, who measures 8 feet, 1 1/4 inches in height, and weighs 491 pounds, weighed only 1 1/2 pounds at birth. His unusual rapid growth was first noticed when he was 21 months old.

Where tractors used to be operated 150 to 200 hours a year, Department of Agriculture experts estimate an annual use now of 500 to 750 hours. A two-plow size tractor (good for a 160-acre farm, for example) can be hitched to a cultivator, corn planter, corn picker, combine, and manure spreader, to name a few of the jobs expected of it.

More Rubber Tires Most farm tractors sold this year will roll on rubber so they can be used for highway hauling as well as for field jobs. The combine is another machine that is doing new jobs. In addition to harvesting small grains it now is used also on soybeans, alfalfa, sorghums and grasses.

With the new and smaller machines have come improvements in materials that make machinery work better and last longer. Whether or not machinery helps the farmer earn more money it's efficiency has increased 40 to 100 per cent and more since pre-war days, engineers reported after a survey, made at the suggestion of the Department of Agriculture.

usually rapid growth was first noticed when he was 21 months old. He weighed 65 pounds then Kenneth, whose size is attributed to unusual thyroid gland activity, weighed 10 1/2 pounds at birth and has been gaining at the rate of four pounds in weight and an inch in height every month.

Today And Tomorrow

By Walter Lippmann

(Mr. Lippmann's column is published as an informational and news feature. His views are personal and are not to be construed as necessarily reflecting the editorial opinion of The Herald—Editor's Note).

THE RUSSIAN PUZZLE

Although it is impossible even to guess about what position Stalin will take in the near future, one thing is now clear. It is that since about the middle of March Russia has emerged on a scene as a major power in the relations of the Old World.

Therefore, in speculating on the reasons for Linnov's retirement, the best approach is to deduce the reasons for the event by considering its effect. The effect has been to make the world conscious of the new situation which has been developing for some months. We may assume that almost certainly this was the calculated purpose of Stalin.

Only by appreciating the change in the Russian position we hope to begin to judge what is true and untrue, probable and improbable, in the rumors that reach us from every capital in Europe. The change can, I think, be defined quite simply.

Germany, Italy and Japan are signatories of a paper called the anti-Comintern pact. This places them publicly on record as being the avowed enemies of Russian communism, and in the other countries the avowal has been accepted at its face value by the governments and by public opinion generally.

But since September it has gradually become clear to the governing classes in Britain and France that this whole conception of theirs was a total misunderstanding. They have realized that while the anti-Comintern pact is directed only against Russia the action of Germany, Italy, and Japan is not directed against Russia at all. It is true that, according to the map, Russia lies inside the Rome-Berlin-Tokyo triangle, and the world has believed, because it wished to believe it, that the actual aggression would follow the line of the ideological propaganda.

Actually, the aggression has taken the exactly opposite direction, that is to say not inward against Russia at the center of the triangle, but outward against China, Great Britain, and France. The anti-Comintern pact has not turned out to be an alliance against Russia but an instrument for isolating and neutralizing Russia while the partners were carving out their empires elsewhere.

The anti-Comintern pact has been very effective. For it has succeeded in driving the British and French to the question whether they would become allies of Russia in order to save Soviet Russia from dismemberment and destruction. It is only in the past few months, actually since the seizure of Bohemia and Moravia, that the British and French have begun to realize that the real question was whether Russia would become their ally in the event of war.

As soon as they did realize that they, not Russia, were the objective, that it was Russia, not they, which had to decide whether to intervene in a European war, they began to see that the British and French had begun to woo Russia also. The propaganda ceased to attack Bolshevism and began to attack "the capitalist democracies," and "plutocracies," became contemptuously hostile to Mr. Chamberlain who dreads communism and is scrupulously polite to Joseph Stalin. Japan drew back from military alliance which might have been interpreted in Moscow as a threat to Russia, and began to expand aggressively, not toward Siberia but away from Siberia, southward by sea toward Hong Kong, French Indo-China, the Dutch East Indies and Singapore.

At the same time the Italians proceeded to make clear, what any one could have realized who thought about it at all, that there is no conceivable thing they can get out of a war against Russia. As ideologists they were, of course, opposed to communism. But as imperialists their field of action is in the Mediterranean and in Africa, Ethiopia, Tunis, Albania, Gibraltar, Suez, Egypt are not Russian possessions nor in the sphere of Russian influence, nor related in any way to the alleged crusade against Bolshevism. But they are the key points of the British-French position, and if they fall, the Axis can redraw the map of Europe, Africa and Western Asia.

TWO AGAINST LOVE

by Frances Hanna

Chapter 13 MAD OR SANER?

After the swim Bob joined the Mack family around the square table covered with a white cloth. The meal finished, he stated: "I want to pay for the best food I've ever eaten! Get into your hats and coats! All of you, and I'll take you to a movie in Santa Barbara."

"I've got to read up the dishes," Mrs. Mack insisted, "and Gramp is worse out. Besides, Betsy has to go to bed by seven. You take Gretchen and Tally along with you, Bob."

When Bob and Tally had gone outside to smoke, Gramp shook a crooked forefinger at Della. "This is your don't! Sendin' them two young folks alone to a picture show. If Gretchen gets a heartbreak it's your fault! That heartbreakin' rich fellow ain't goin' to marry no widow with a sassay kid."

Grump, having learned to expect the unexpected, was nevertheless very rudely shocked when Bob escorted her down to view the roadside stand the next morning. It was eleven o'clock and the Macks had already stocked the display shelves with crates of eggs, chickens, of oranges and lemons.

There is no need to conclude from this that Russia is about to come to an understanding with Germany. That is not inconceivable. But for the present all that we can be certain of is that Stalin has re-entered the European from which he was shut out at Munich, that he has made Russia formidable again as a potential ally, as a potential enemy, as a potential neutral.

And the Russian ideology has likewise been no barrier to working arrangements with anti-communist Chinese or with the altogether un-communist Turks, or with the bourgeois capitalist democracies and what not at Geneva, or with M. Laval, who negotiated the Franco-Russian treaty.

The real obstacle to a very close association between Russia and Germany today is not ideological, or economic, or national. It is that the Nazi party and the Communist party, both of them small ruling oligarchies, cannot share power arrangements. However they meet, one or the other ruling class must be the master. It is difficult enough for constitutional rulers to collaborate. But among dictatorial regimes one or the other must be the master wherever they meet. The unhappy position of Mussolini proves that all too clearly.

Thus, it is conceivable from the precedents of history that Germany and Russia might come together by carrying out another partition of Poland. This is one of the possibilities, and we may be reasonably sure that it has been discussed, what may prevent it is, first the Poles themselves, and then the realization on Stalin's part that if the Polish buffer disappears, his collaboration with Hitler will be like Mussolini's, that is to say, on Hitler's terms. The chances are that he will much prefer the relative security which he now enjoys as long as he has left any freedom to choose.

ten-foot intervals to tress on both sides of the drive.

Jocelyn, appalled, clutched at Bob's arm, holding him back; unwilling to step out from the protection of the orange trees into sight of the enemy.

"You were here yesterday, Bob," she accused. "They like you. You might have been able to reason them out of this. How could you let them do such a thing?"

"I helped them! I painted the signs and made the shelves. It was my idea. Isn't it grand?"

"I've gone completely sane," he contradicted, untrifled. "Listen, Lyn, whether you sympathize or not, the fact remains that these people have to earn their food and clothes and this is the only way they have of doing it. It's decent and it's honest and I say more power to 'em!"

"You're always scoffed at the things Thorn and I believe in. Bob, I don't think it merely a pose. I never imagined you would turn against me—oh, Bob how can you look around you and not be hurt by the despoiling of Seaciff? That horrible fence—like a prison wall—marring the terrace; cows in the riding stable; chickens on the tennis courts; beds of flowers plowed under to make room for carrots and onions! And now this! Doesn't it mean that you that Seaciff was built by a great man who became governor of this state? That one of the Presidents of the United States visited here? That this place has been the pride of Santa Barbara for years and years?"

"I'm sorry, you take it this way, Lyn. I don't even know what to say in defense—not that I consider it necessary to defend my thoughts and actions to you—but I do love you, Lyn. I was five when you were born. I was a lonely child. Thorn and I never got on well, even in childhood. I was cramping her face with tender eyes, then went on: 'Lyn, Grandma Jocelyn knew when she made out her will that the Macks were about to lose their Texas farm. She knew they had no money. I can't believe that she did not foresee what would happen here with their coming. Grandma was hard-headed and practical. I feel sure she would want the Macks to be fed and clothed, don't you? Isn't it better for a family to have the necessities of life than it is to preserve the glory of the past by letting them starve?'"

"Thorn offered them five thousand dollars to go away. They refused. We cannot drive them out. The only thing I can do is marry Geoffrey very soon and leave Seaciff forever. I—I'm going back to the house, Bob—no, don't come with me."

"Poor kid," he said. Gretchen, excited and rosy, enormously attractive in a starched hooded dress of flowers and pearls, was handing a sack of fruit to the roadside stand. He waited until she made change and the customer returned to his car. "Hello," he called. "How's business?"

"Good! I've taken in two dollars and thirty cents already! Almost enough to buy Betsy a new pair of shoes and material for a dress. Isn't it perfect, Bob? We—we need so many things. It's been so long since we had a dollar that didn't have to go for food. We'll never be able to thank you enough for suggesting this. But your sister—what did she say?"

to them. "What makes you think Uncle Tally will spank you?" she asked, tying the loose strings of Betsy's worn little shoes, pulling down her dress and pushing the silky black hair from her forehead.

"You were here yesterday, Bob," she accused. "They like you. You might have been able to reason them out of this. How could you let them do such a thing?"

"What's—a—an impulse to trespass?" she demanded. "A feeling that you want to do something you know is naughty. Understand?"

Her eyes glistened implacably. "I want to play with that big doll in Jocelyn's bedroom, Mister Bob. Is that awfully bad? If I don't do it will I get ice-cream?"

"If you do it you will get a spanking from me!" Gretchen threatened. "Maybe next week I'll buy you a doll."

"Like Jocelyn's?"

"Better," Bob promised. "I'll see to it myself. And now for the ice-cream. Is it all right if I take her into town, Gretchen?"

Betsy's mother seemed embarrassed. "If you want to."

As Bob carried the little girl to his car and put her in the seat Thorneycame up. "Going to adopt her?" he queried ironically.

"I might," Bob's voice was cool. Thorneycame regarded the child with distaste. "You'll spoil her by bringing her on our property, Bob," he said sharply. "She'll overrun the place when we have guests and don't want her."

Bob kicked the starter and shoved the gear into reverse. "Oh shut up," he said. "You and Lyn make me sick. Neither of you have a humane instinct in your blue-blooded carcasses!"

Releasing the brake he stepped on the gas and backed the car around to face the driveway. "Wait a minute!" Thorneycame yelled. "I want to tell you something."

Bob applied the brakes and leaned over the side of the door. "Well, what is it?"

"I got a wire from Nola. She's flying in from Boston on the afternoon plane. She's coming for a long visit and what will she think about—"

"I don't care what she thinks about anything!" Bob snapped. "She's your fiancée; not mine."

Bob, angered, drove recklessly through the lane between bordering palms until Betsy touched his arm and asked, "What makes you look so mad, Mister Bob?"

"Relatives, Betsy. I don't want them any hard luck but I'd sure like to see them have to earn their bread and butter just once!"

RAIN STOPS FIRE, AND FIRE ENGINES

FORT PIERCE, Fla., May 11 (AP)—One fire engine speeding to a rapidly-spreading grass fire was incapacitated when a heavy rain drenched it to the motor.

Another fire engine sent to the same alarm bogged down in mud and couldn't get there.

But it was all right—the rain that put the engines out of commission also put out the fire.

# LUBBOCK HUBBERS WIN THRILLING GAME FROM BARONS, 7-6

## The Sports Parade

By HANK HART

We are pleased to report that Art Gigli, the Barons' new righthander from Frisco, will do. True enough, Art lasted little more than two innings against Lubbock last night but it wasn't because the Hubbers were getting onto his slants. He had too much stuff even for his own good, finally deserted ship because of his wildness. Too, he might have been a bit scared in that it was his first professional start but he exhibited everything a good pitcher should have in retiring the Hubbers without a run in the very first inning after previously walking the first three men to face him.

Manager Tony Rego jerked him in the third because he felt that the youth's first start before the great crowd frightened him a bit.

We might add that Ebsen Bahr, the strong righthander who deserted ship here after working a bit of one game, is on his way back. Ebsen, who walked off with Herb Flynn and was promptly suspended by Rego, got in touch with Joe Devine, the Yankee scout, and informed him he had learned his lesson, would appreciate another chance. He'll probably be in uniform Sunday and ready to work by the middle of the week.

Coming with him is another Yankee farm hand, Ed Tiery, a righthanded twirler who promises big things. It looks like Rego's worries over his mound staff are about at an end.

Bobby Decker, the Barons' great little second sacker, is coming along fast in his hitting. His triple off Mel Kramer Wednesday evening was a terrific drive that hit the wall in right field. Apparently he has righted his gun sights for good.

The Hubbers fans have a crush on Jodie Marek, who beat their ball team Tuesday. Harry Faulknier tells us the reason Jodie wasn't given a look-see by his organization was because the Chisox frown on college students. Whatever it was, Marek didn't even ask for a trial here, instead went home to Temple before coming out here. He has tremendous appeal all over the league.

The Hubbers have played to crowds averaging 800 paid admissions a game thus far which betters their '38 mark. Last night a Ladies Night crowd of some 2,500 trekked into the stands. Faulknier is contemplating adding more bleacher seats.

Al Berndt, Big Spring catcher, drew one of his rare fines in the eighth frame of the fracas when he kicked on one of Buster Capps' decisions. The maskman didn't take the bat from his shoulder on three questionable curve balls, then when Capps waved him out he stepped out of the box, angrily growled into Bus' ears his disapproval, then tossed his mace toward the dugout. Bus stuck up five digits.

Probably the best arbirer in the league and one the larger circuits are keeping posted on, Capps felt to disadvantage last night, was bothered worst of all by a head-sche. Berndt too late realized the fruitlessness of argument, however. Incidentally, Bus, along with his mate, Sanderfer, pays his first visit to Big Spring May 16.

The Baron middle gardener, Tex Walton, injured his leg in a slide at Amarillo the other day but his speed has not been hampered. He swiped a neat hassock in the fifth frame of last night's game.

## ROOSTERS SCORE SMASHING WIN

Ben Daniel's Roosters started the best change in the junior division of the Recreation softball league Wednesday afternoon with a smashing 34-2 triumph over ABC in a game played on the ABC diamond.

In other games East Side lost to South Side at South Side, 14-4, while Moore was routing the Mexican Tigers, 16-3, at Mexican Plaza.

## AGGIES CLINCH SECOND PLACE IN STANDINGS

By The Associated Press

The Texas Aggies went on a batting spree and clinched second place in the Southwest conference baseball race in a home game yesterday.

Five home runs, most of them with men on base, and a dozen singles and doubles helped them to an 18 to 5 victory over Texas Christian University's Frogs.

Tommy Fine pitched his Baylor University Bears to a 7 to 1 win over Southern Methodist. He set the Ponies down with six hits and took his fifth conference victory of the season in his last game for Baylor.

Fine struck out 12 men, running his season total to 74 in 61 innings. The Bears and Mustangs tangle again today at Waco and the Frogs meet the Rice Owls at Houston.

## Feller Rings Up Fifth Victory Of Year As Tribe Gains; Giants Drop To Cellar

By JUDSON BAILEY Associated Press Sports Writer

Robert William Andrew Feller is a seasoned young man now and the first pitcher in either major league to win five games.

These two facts belong together because the Van Meter, Ia., speedster is working wonders for the Cleveland Indians on the kind of twirling which for two years kept everybody going in circles—mostly on passes around the bases.

Such looseness would have lickered a lot of hurlers, but it didn't bother Feller because the Indians galloped in front with six runs in the first two innings. Too, the 20-year-old righthanded star had a way of becoming very mischievous when such measures were necessary.

His five victories represent all three of the games the Indians have won this spring, which shows the extent of Cleveland's dependence on him. He has routed this faith by going the route three times, once giving three hits and once four. The only game he dropped was to the New York Yankees when he lost his grip in the 10th inning—as many another pitcher would have done.

With Bill Dickey and George Selkirk accounting for four runs on homers in the first inning, the Yankees and Bump Hadley coasted to a 7-1 triumph over St. Louis. The game advanced New York half a game ahead of Boston in games won and lost, but left the Red Sox, who were routed out at Chicago, still leading, 7 to 4, in percentages.

Lon Fette pitched the Boston Bees to a 6-2 margin over the Chicago Cubs on three hits. Lon Warneke held the Phillies to seven mistakes as the St. Louis Cardinals won, 4-3, and moved into a tie for first place in the National league. The pace-setting Cincinnati Reds were held to seven by Whitlow Wyatt and Ira Hutchinson of the Dodgers as Brooklyn won, 10-5.

The day's only shutout was fashioned by Truett Sewell of the Pittsburgh Pirates by 5-0 over the New York Giants. This development lifted Pittsburgh out of the cellar for the first time since the first week of the season and dropped the Giants into a tie with the Phillies for last place.

It was the first time the Giants have been last since Bill Terry succeeded John McGraw as manager in the middle of 1932.

## Capps, Hobson Lead Futile 11 Hit Attack

In Clovis Today For 2 Games; Come Home Saturday Night

By HANK HART

LUBBOCK, May 11 (AP)—A circus catch on Van Marshall's line drive in the ninth frame by Boyd Watkins saved a ball game for young Mel Kramer here Wednesday evening before a Ladies Night throng of 2,500 as the Lubbock Hubbers succeeded in clipping the Big Spring Barons, 7-6, to gain an even break in the abbreviated series.

The Barons, outbitting the champions and staying in the ball game all the way, were in an excellent position to deadlock the count when Watkins contributed his aerobic feat. With two down Billy Capps contributed his third hit of the evening with a line smash through the left side of the infield. Marshall followed and hooked into a drive. Billy was off. He had rounded second and was coming but third when Boyd faced out, riddled his outstretched glove into the ball.

The Barons manufactured 11 assorted blows off the offerings of Kramer but the Hubbers used their eight off Art Gigli and Bill Brown to better advantage. The champs collected four runs in the third frame on two free passes and three doubles, Watkins two-base blow clearing the sacks, then Pete Melitto hit one out of the park in the sixth with Bob Mosek up front to all but stop away the decision.

Cloning Tally  
Malcolm Stevens followed with the clinching score in the same frame when he loped in on Nat Zorko's double after gaining a gratis ticket and pilfering second. Kramer and right well for the Hubbs in the box but Capps and Dick Hobson proved to be poison. Both garnered three singles and Hobson drove in two runs.

The Barons took the lead smartly in the second frame when Pat Castej walked, stole second, went to third on Melitto's wild throw into center and jumped to pay after an anxious first, now of no account.

After Lubbock had retaliated with its big inning in the third frame, Capps came into the ball game the following round when stasey again walked, Capps hit safely and stasey and Hobson followed with run producing blows. In the seventh Earl Loyd, sex waiton, Stasey and Capps put together base hits for a late rally.

The Barons' swinging finger, Art Gigli, was wild in his 1-2 inning stay on the mound, since he flamed one bases by allowing out free passes. He evaded trouble in round one when Capps' Hobson struck a fast double away but left the game in the tank when the Hubbers again put three runners aboard. Still known took over and was promptly greeted with Watkins' three-run home run. However, Capps was especially potent in the eighth when he reared Melitto, Kramer and Seymour on strikes.

The Barons move to Clovis today where at 9 p. m. they open a two-game series. Clarence Trantam or Charley Morgan were due to pack the hurling chassis. The Big Springers return home for a Saturday night game with Pampa. The champions' Sunday battle with the locals will not begin until 4:30, the original time conflicting with a civic program.

## SPORTS ROUNDUP

By EDDIE BRIEZY

NEW YORK, May 11 (AP)—Yep, that's the Giants and Pirates out there battling away for the cellar. Attention, scouts: Wally Frank, 18-year-old yearling toser at U. of Louisville, is burning up the Blue Grays. In four games he's fanned 77 batters, passed only six and yielded but 13 blows.

Today's guest star: Tom Sweeney, Worcester (Mass.) Evening Gazette: School-boy Rowe's fast one is as mysteriously missing as Judge Crater."

Jimmy Stout, who rode Johnson, hasn't split with his wife, says some of the Broadway gossips reported. ... Because (a) Jimmy isn't married; (b) he never was married; and (c) he ain't about to be. Well, well, Stan Rogers, New Orleans' slick third sacker, turns out to be none other than good old Stanislaus Hazinski, who used to do some footballing for Fordham back in 1934. ... Andy Farkas, ex-Detroit U. back, wants it known he is through with pro football and that you can have it.

Humph! One paper says the reason the Jersey City club is going like a house afire in the International League is because the Little Giants have plenty of "yumph."

Eddie Meade is insisting Georges Carpentier referee Armstrong vs. Roderick in London May 25. ... Charlie Drensen of the Dodgers was a witness for the defense in a \$25,000 damage suit over against Paul Derringer, star Cincinnati slabbait. ... Pepper Martin is totting a patch of mule hair around as a mascot. ... The sports editor of the Syracuse Daily Orange has played the football season in advance and predicts the Orange will blow to Duke, but lick everybody else.

\$2.72 per step: The Yanks pay Lou Gehrig \$277 per day for carrying the batting order to the umpires from the dugout, says the Chicago Times, a matter of 38 steps each way. And the ads tell you a lot of guys walk a mile for a cigarette.

Jimmy Braddock has gone up to Nyack to show Lou Nova how to wield that left against Max Beer. ... The San Diego Union (his home town paper) carries a daily box on the doings of Ted Williams labeled "With T. Samuel Williams". ... Big league clubs please note: Amarillo and Big Spring of the West Texas-Navy Mexico League receded off a game in 1 hour, 24 minutes the other day for a season's record.

GUERNSEY IS NET FAVORITE  
HOUSTON, May 11 (AP)—Southwest conference golf and tennis titles are at stake in tournaments opening here today.

Frank Guernsey of Rice Institute, national college champion, playing in top form this spring, was favored to take tennis singles and doubles honors in matches starting today and ending Saturday afternoon. Bobby Kamrath of the University of Texas, who took the singles crown in 1937 and lost to Guernsey in the finals last year, was back for another attempt.

Coach Quinn Connelley of Rice said four men teams were expected from Rice, Texas, Texas A. & M., S. M. U., T. C. U. and Baylor. Carl Letscher of Rice, Rufus King of S. M. U., and Arthur (Eddie) Lance of Texas were rated the players to heat in the battle for the conference individual golfing title.

Vanderbilt Says Preakness Will Be Close; Says Impound To Figure  
BALTIMORE, May 11 (AP)—Alfred Gwynne Vanderbilt, young president of the Maryland Jockey club, sat in the clubhouse dining room at Pimlico, scooped up the last forkful of scrambled eggs and said:

"This probably will be about the greatest Preakness ever run—and I'd rather get the cup than give it." He was referring, of course, to the 49th running of the \$60,000-added Prekness stakes here Saturday—a horse race that annually captures the fancy and frenzy of the thousands who follow the thoroughbreds.

And what he meant by his remark was that he hoped his colt, Impound, would win the race and its historic trophy, the Woodlawn vase. Not in the sixty-six year history of the Prekness has a jockey club president won the event. Facing those odds and taking his horse-racing seriously, Vanderbilt kept Impound out of the Kentucky Derby and pointed him for the Prekness.

Impound, who won the race last year, was favored to take tennis singles and doubles honors in matches starting today and ending Saturday afternoon. Bobby Kamrath of the University of Texas, who took the singles crown in 1937 and lost to Guernsey in the finals last year, was back for another attempt.

### Anderson Drops McGehee For 8-6 Loss

With Lefty Morris throttling enemy bats with two hits, the Lone Star Chevrolet softball team capped their second straight Muny league game Wednesday evening, defeating Top Hat, 8-1, on the Muny diamond.

The Mechanics' victory followed a 8-6 triumph for the Anderson Devils over McGehee Super Service. Morris gave up his only run in the third frame when Busby doubled and came home on successive ground balls by Routh and Richardson.

Chock Smith and Johnny Miller paced the victors' eight-hit attack, each collecting two base blows. Both of Smith's were for extra bases.

In the opener the Devils scored all their runs in the first two frames, then had to stave off numerous McGehee rallies to gain the upper hand. The defending champions could collect but three hits in their victory but used 12 walks to good advantage.

Tonight's first game will pit the Big Spring Motor company against Montgomery Ward while Collins Brothers and Daniel's Wholesale Candles will tangle in the afternoon.

URGES SPEED IN PAYING FARMERS  
WASHINGTON, May 11 (AP)—Representative Mahon (D-Tex) said he would request Comptroller General Brown today to take steps for quick release of AAA soil conservation benefit payments due several thousand West Texas cotton farmers.

Mahon said payments are being held up because the Commodity Credit corporation has claims against the farmers representing excess amounts advanced them on 1937 cotton loans.

## SCHOLASTIC LEAGUE MEN ARE HERE

Plans for a six-man football league will be worked out at a meeting of school representatives of this sector this evening, 7 p. m., at the local high school.

The new organization, which will serve to replace the old independent Pioneer School Activities association, will probably seek affiliation with the Texas inter-scholastic league. Rodney Kidd and Roy Bedichek, league officials, have been invited to attend and lead discussions on steps for recognition by the league.

Riggs Sheppard, head of the PSAA last year, will preside tonight and will represent Courtney. Other schools expected to be represented are Foran, Garden City, Sterling City, Ackerly, Water Valley, Westbrook and Barnhart. Foran, Ackerly, Water Valley and Barnhart were not members of the association last year but participated in the game.

The girl who was "little poker face" when she won her first national championship in 1927 has grown into a "maturely beautiful woman who amazes the ball a little harder each year, yet retains all her amazing accuracy.

Possibly she has slowed a trifle in her footwork. But Helen managed to cover all the court there was against Senior, who hits them hard and to the point.

"I've been watching her play since we were both a lot younger on the coast and I never saw her hit that ball better than she did today," Senior panted.

"Alice Marble is the only one who will have a chance against her at Wimbledon," said an instructor. "Though she still is a long way from being a gusher, Helen is loosening up somewhat with the years. Every now and then there is a trace of a smile as she plays, and several times I heard her actually talking to herself after she had missed a shot. That's not the old Helen, the one who got many a rival's goat by her very immobility of expression and refusal ever to get flustered.

Mrs. Moody, who won her divorce from Frederick E. Moody August, 1927, has given no indication she intends to try matrimony again. She still paints a good deal in her spare time and is writing a book.

KILGORE LOSES TO LONGVIEW  
Longview's Cannibals pushed in five runs on three hits, two walks and an error in the first inning of an East Texas League game last night and coasted to a 5 to 4 victory over Kilgore.

The Tyler Trojans scored once in the tenth and used four pitchers to defeat the Palestine Pals 6 to 5 and sweep the series.

Jacksonville scored twice in the eleventh inning, but Marshall followed with three tallies for a 4 to 3 win.

Red Walker bested Bryan Stephens in a pitchers' duel and Texas-arkana defeated Henderson 2 to 1.

Today's schedule: Jacksonville at Kilgore, Palestine at Henderson, Texarkana at Tyler, Marshall at Longview.

## Mrs. Moody Is At Top Of Her Game

Will Probably Go To English Tourneys Again  
By GAYLE TALBOT  
NEW YORK, May 11 (AP)—I just watched Mrs. Helen Wills Moody play two sets of smashing, no-quarter tennis against one of the country's top professionals, Walter Seleny, and strike me blind if she isn't a greater player right now than she ever was.

Helen is crowding 33 and has dominated women's tennis for the better part of two decades. Yet Senior had to pull out all the stops to lick her 6-4, 7-5, and at the finish he was blowing like Tony Galento while Helen took one deep breath and was perfectly composed.

She is playing a hard match like that every day now, whipping herself into shape, no doubt, to defend her Wimbledon title. Helen isn't yet ready to announce she will play at Wimbledon, but the sort of practicing she's doing isn't for sheer pleasure.

Lint Export Subsidy Still Is Possible

WASHINGTON, May 11 (AP)—Senators and federal farm officials agreed today the government could launch a cotton export subsidy program despite the senate's refusal to consider placing a bounty on foreign sales.

Senator Bankhead (D-Ala.) wanted to establish a federal subsidy on cotton other than that held as security for government loans. His proposal to attach the plan to the agriculture department appropriation bill, however, would have required a two-thirds majority. The senate defeated his motion yesterday, 37 to 36.

Agriculture department officials said they have authority now to pay an export bounty on cotton, if funds are provided. The senate has added \$12,000,000 for disposal of farm surpluses to the \$90,000,000 provided in the agriculture bill as passed by the house.

Officials indicated the subsidy would be inaugurated with part of that fund unless congress enacts a specific ban against spending the money for that purpose.

Senator George (D-Ga.) indicated he might seek adoption of such a restriction. George and Senator Smith (D-SC) who led the opposition to Bankhead's proposal, agreed authority probably existed already for the subsidy. Bankhead said he also held this view.

The export subsidy was advocated by President Roosevelt to help dispose of the 11,400,000 bales of cotton which the government holds as security for loans to farmers.

Bankhead argued subsidized export of loan cotton would lower prices in this country as the new crop was being sold. He favored the bounty for the new crop in order to prevent its being pledged for loans.

CAT CAN TAKE IT HOUSTON, May 11 (AP)—Motor trouble plagued John Fieson of Fremont on his 300 mile auto trip to Houston.

Inspecting the motor, Fieson found a small yellow alloy cat pinched between the motor, radiator and water hose, causing the motor's cooling system to be defective.

The cat today was none the worse from the trip.

MAN BURIED ALIVE HOUSTON, May 11 (AP)—Leonardo Gutierrez, a laborer, was buried alive when the walls of a deep ditch caved in on him today.

Thirty minutes later rescue workers dug him out and rushed him to a hospital.

Physicians said he had a chance to recover.

Accommodating Elephant

This picture was taken, not at a circus, as one might suppose, but in the factory grounds of an electric refrigerator manufacturer. The obliging elephant is balancing its full weight of over four tons on the top of a 1939 Frigidaire to demonstrate the great structural strength of the one-piece steel cabinet. The testers could have accomplished the same result with several tons of bricks, but they found it a lot more fun to use the elephant. The above scene is entirely genuine, and no trick photography of any kind was used.

WPA Reports On Best Methods For Rehabilitation Of Farm Families In The Drouth Area

WASHINGTON, May 11 (AP)—Permanent rehabilitation of drouth area farmers involves larger farms, retirement of some land from crops, larger pasture acreage and replacement of depleted live stock herds, the Works Progress Administration said today.

The findings were published in a report covering studies made in the Great Plains. Repairs of buildings, repairs or replacement of machinery, adjustment in land tenure, credit extension and tax-exemption and tax-reversion procedures also were termed necessary to permanent rehabilitation. Britain, Rumania Complete Trade Agreement

LONDON, May 11 (AP)—Oliver Stanley, president of the board of trade announced in the house of commons today Great Britain and Rumania had signed a trade agreement under which Britain would advance a credit of about \$23,400,000.

Britain will take 200,000 tons of Rumanian wheat and the credits she will advance to Rumania will be used for purchase of United Kingdom goods.

Stanley said the protocol of the agreement was signed in Bucharest today following the recent "successful" visit of a British trade mission.

It was expected Rumania mainly would purchase armaments with her credits.

Britain pushed the agreement as part of her campaign to offset Reichsfuehrer Hitler's economic penetration of central and southeastern Europe. (The British trade mission was sent to Bucharest after Rumania and Germany signed a trade agreement.)

Stanley said an organization would be formed to promote British-Rumanian trade "in a number of channels."

GERMAN WARPLANE-CRASHES IN FRANCE BESANCON, France, May 11 (AP)—The official board of inquiry investigating the crash last night of a German warplane near the Besancon military base reported today that two fliers killed were officers of the German air force.

It found the accident resulted from engine trouble during a fog. The fliers were reported to have been wearing civilian clothes. Two smashed machine guns were removed from the wreckage for examination.

The plane fell and burned in the early dusk near Villers-Sous-Chalamont. It was believed to have been following the Burgundian gateway, one of the historic military approaches into France.

loans, mounting tax delinquencies, smallness of farms and increasing tenancy as contributing to the economic insecurity of farmers interviewed in typical North and South Dakota counties.

That the precarious conditions in drouth areas were not entirely the result of drouth was indicated by the finding that 30 to 45 per cent of the farmers interviewed in central and western Dakota counties reported financial losses since they began to farm. In contrast, farmers in eastern Dakota counties received cash earnings more nearly normal, and even small farms offered more than a bare living.

Optimistic Reports On Europe Given To The Pope

VATICAN CITY, May 11 (AP)—A lessening of tension in the immediate European situation and an optimistic outlook for the future were reported by diplomatic observers today to have been disclosed by Pope Pius XII's moves to achieve peaceful settlement of Europe's most threatening problems.

The pope's overtures for peace were made through papal nuncios or delegates in Berlin, Warsaw, Paris, London and Rome.

The holy father's representatives were reported to have advised the pontiff Europe would remain peaceful during the next few weeks.

They also were said to have given optimistic forecasts of possibilities of achieving a gradual general settlement of Europe's potentially dangerous problems, including the German-Polish dispute over the free city of Danzig and Italian claims for concessions from France.

It was believed, however, in order to crystallize further the peace sentiment in Europe, that the pontiff might issue an encyclical appealing to Catholics to pray and work for peace.

TEXARKANA MAN IS CHOSEN BY MEDICOS

SAN ANTONIO, May 11 (AP)—Dr. Preston Hunt of Texarkana, a member of the board of councilors, was chosen president-elect of the State Medical Association of Texas this morning as the third annual session of the organization entered its final day at the Gunter hotel. He will take office at next year's convention.

As president-elect, Dr. Hunt succeeds Dr. E. H. Reeves of Fort Worth, who was elected last year and now assumes the office of president. The latter succeeds the retiring president, Dr. E. W. Betner of Houston.

**Work Starts On Stadium**

Work was officially underway Thursday on the \$27,000 WPA project which will give the Big Spring Independent school district a modern athletic plant.

Approximately 50 men have been transferred from the state hospital grounds WPA job to the school project and will tackle the job of removing the fence around the district's 11th street property, leveling new plant grounds, sodding the new field at the northwest corner of Highland park, and moving shacks at the high school to the site for tool sheds.

When this has been done, foundations will be poured for the stadium and field house before an attempt is made to move the existing equipment from the field north of town. Seating capacity of the new plant will be around 5,000.

A few minor changes have been effected in plans, among them the provision of six caliche tennis courts (they could be topped subsequently) instead of two concrete courts. The field house with rest rooms, dressing and shower quarters, ticket booths and storage space is still a part of the plan, Edmund Noteatine, school business manager, reported.

**Net-Weight Sale Of Cotton Given More Attention**

WASHINGTON, May 11 (AP) — Representative Patman (D-Tex) inserted into the Congressional Record a copy of a resolution recently passed by the Texas legislature calling on congress to enact a law requiring that all American-produced cotton be sold on the basis of net weight of the bale.

Pending in congress is a bill by Representative Fulmer (D-SC) providing such requirements, intended to make possible the use of light weight bagging manufactured from cotton. Jute now is generally used.

Commenting on the Texas resolution and the Fulmer bill, Patman said: "Certainly congress should do everything within its power to save the American farmer for the American farmer. Jute is produced in India with very cheap labor, yet we import it into this country and displace over 2,000,000 bales of cotton."

"The Fulmer net-weight bill... has been favorably reported by the house committee on agriculture. In order for this bill to be considered a rule must be obtained from the rules committee. An application for such a rule is now pending and I am hopeful it will be granted in the near future and the bill passed by congress."

A little more than a fifth of the gainfully employed in the United States are farm workers.

**City Balance Reduced By Transfer**

Revenues of \$14,224 in the general fund against disbursements in the amount of \$15,760 were reflected in the monthly financial report of the city of Big Spring.

Budget comparisons were lacking inasmuch as the budget for the fiscal year, which starts with April, is yet unapproved.

The disparity between receipts and disbursements and the corresponding \$1,536 decline in the general fund cash balance was attributed to a transfer of \$3,909 from this fund to the interest and sinking fund. The balance, however, stood at \$36,826.

Bonds totaling \$4,000, warrants amounting to \$2,000 and \$13,312 were paid out of the interest and sinking fund during April, leaving it with a cash balance of \$36,490.

April water revenues were up sharply in reaching \$10,807, a gain of \$2,261 over March and \$685 more than for April a year ago. Quarterly payments on 1938 taxes drew \$1,807 and delinquent tax payments ran to \$1,110.

Golf course revenues for April totaled \$469 and expenditures \$209, leaving a balance at the end of the month of \$260. Income of the cemetery fund was \$247 and expenses \$356, whittling the balance to \$267.

Expenditures by departments under the general fund were: administration \$1,208, police \$2,275, fire \$1,095, health \$908, street \$2,348, water \$2,494, sewer \$691, park \$699, building \$268, and airport \$681.

**Oil Industry Cheered By Gas Demand**

TULSA, Okla., May 11 (AP) — Spring's travel call to motoring millions sounded a somewhat cheering note to the oil industry today.

In the Mid-Continent area, prices for gasoline at the refinery have edged up an eighth of a cent since Thursday, and along with the higher prices, refiners report the market strong and demand heavy with the beginning of travel.

As for the statistical position, the bureau of mines reported, runs of crude to stills for the industry as a whole declined 3.8 per cent for the week ending May 6, and that gasoline stocks were slightly lower.

Some marketers in the Mid-Continent area believed the brisk demand might bring a further rise in gasoline prices in the near future, but pointed out that an increase in filling station prices may have to come first.

The same sources said refiners felt that without the increase in the filling station prices, jobbers might be left without a profitable working margin.

Manufacturers of natural gasoline found a brisk demand.

Some centers reported a stiffer fuel oil market.

Production of crude in some sections, notably Illinois, continued to climb, but the increase for the United States as a whole was the smallest for the past several weeks.

Drilling operations continued to fall below last year, with 448 completions in the week ending May 6, compared with 467 the previous week, and 521 for the week ending May 7, 1938, the Oil and Gas Journal reported.

Skimming over the field picture showed the fourth new field in two weeks in Jim Wells county was opened on the townsite of Springfield in Southwest Texas.

**Delay Action On Funds For Flood Control**

WASHINGTON, May 11 (AP) — Final house action on appropriation for flood control, including expenditures the next fiscal year on the proposed \$54,000,000 Red river dam between Oklahoma and Texas, has been deferred until next week.

After the house yesterday increased the total amount for flood control to \$133,000,000, including \$5,000,000 for the Denison dam, Rep. Schafer (R-Wis) blocked an immediate final vote by demanding an engrossed copy of the bill. Preparation of the copy would have taken hours and the house adjourned.

Majority Leader Rayburn (D-Tex) said the vote would be deferred until Monday because he had promised many members who planned to leave the city that no bills would be voted on the rest of this week.

The war department civil functions bill, in which the funds were included, provided only \$110,000,000 for flood control work when reported out of the house appropriations committee. Of that amount the Red river dam would have received only \$5,000,000.

The appropriations subcommittee had recommended the larger figure, which the house restored over opposition of Rayburn and other full committee members because it was \$28,000,000 more than the budget bureau recommended.

"The difference was immaterial so far as the Denison dam is concerned," Rayburn commented. "The army engineers say that \$5,000,000 is plenty to keep them busy all next year."
