# Scientifically Purer..

## Something every smoker wants to know!

· Absolutely pure . . . that's what you expect in the things you eat and and in the cigarettes you smoke.

"Chesterfields are as pure as the water you drink," a noted scientist writes. There's no way to make a purer cigarette.

Starting with tobaccos...the ripest, finest, purest leaf that grows is selected for Chesterfields. Mild to start with ... Cross-Blending makes it milder still. Then it's wrapped in paper that is so pure it burns without any taste or odor.

The phrase "Scientifically Purer" is entirely justified. By our use of a highly scientific process which was worked out by Dr. Paul Gross, the Head Chemist of our Research Department, Chesterfield reaches a state of purity unmatched, to our knowledge, by any other cigarette.

In addition, scientists check every ingredient, every method. Even the factory air is washed, and changed every 41/2 minutes. More purity!

Notice, too, the clean, white, attractive package . . . moisture-proof. Chesterfields come to you as good and as pure as they're made. Good ... they've got to be good! Change to Chesterfields and see.

A WONDERFUL NEW RADIO PROGRAMI

Tonight ... at 10:30 ... Chesterfield's Radio Program Light a Chesterfield ... lean back ... and relax while Nat Shilkret's Orchestra and Alex Gray, soloist, charm away your cares. It's on the entire Columbia Network . . broadcast from coast to coast . . . every night except Sunday. And the hour's 10:30 E.S.T.
