World Day of Prayer Service To Be Held Friday By Four Churches

Public Invited To Attend Affair At First Presbyterian Church Parlors; Hours Set Between 9:30 And 11 o'Clock

A religious affair of the Lenten season to which every man, woman and child of the city is given a most cordial invitation is the World Day of Prayer service to be held between 9:30 and 11 o'clock Friday morning in the parlors of the First Presbyterian Church.

The service is being offered by four churches of the city, members of the Church Federation. The program is one arranged by the Federation of Churches of Christ of America.

Mrs. D. F. McConnell, general leader, will open the services by reading interesting facts about the prayer services, and afterwards each of the participating groups will be recognized by their leader.

Program: Presbyterians, Mrs. S. L. Baker, leader—"Thou Art the Christ, the Son of the Living God." Episcopalians, Mrs. Shine Phillips, leader—"Meditation and Prayer." Methodists, Mrs. Pascal Buckner, leader—"Meditation and Intercession." Christian, Mrs. J. R. Parks, leader—"Prayer and Service."

The last mentioned being the concluding service will include short talks by Mrs. James Wilcox, Mrs. H. E. Clay, Mrs. H. W. Neal and Mrs. T. E. Baker. At this time an offering will be taken for interdenominational work.

Workers are urging that every one who can possibly attend the entire service to do so, but in the event they could be present for only a short part they will be welcome.

Chest Colds... Best treated without "dosing" VICKS VAPORUB

A Three Days' Cough Is Your Danger Signal

A cough, chest cold or bronchial irritation today may lead to serious trouble tomorrow. You can relieve them now with Croemulsion, an emulsified Crocetine that is pleasant to take. Croemulsion is a medical discovery that aids nature to soothe and heal the inflamed membranes and to relieve the irritation and inflammation as the germ-laden phlegm is loosened and expelled.

It's our family's whiskey, neighbor—and neighbor, it's your price! Us Wilkens making music!

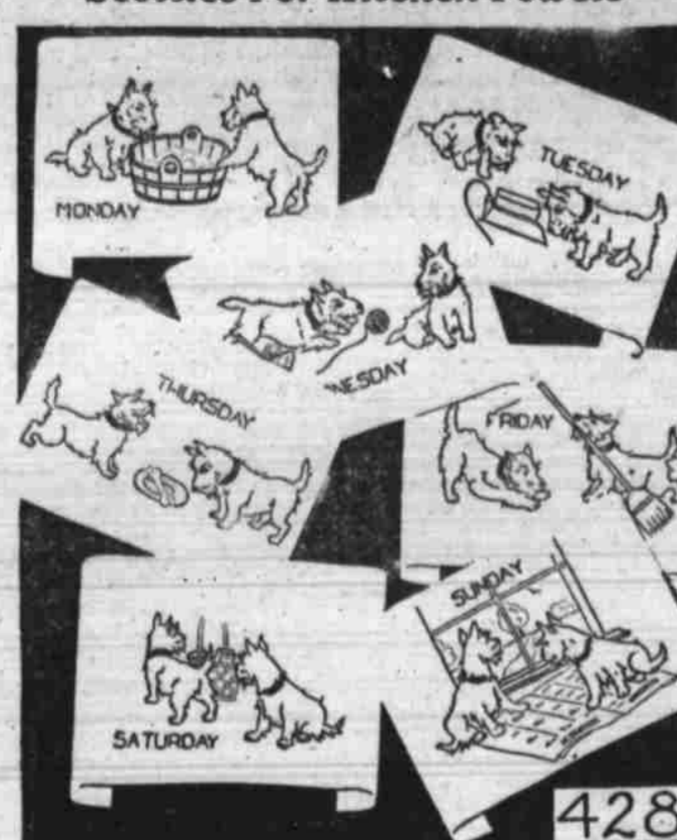

Us Wilkens making music! That's Tim Stiles, that works down at the post office, playing on the organ. It's me turning pages and my brother William behind me. And that's my brother-in-law Tom with his hands behind him. Harry E. Wilken

Folks that sing good say Our Family's Whiskey is the smoothest ever!

I'm not much of a hand at singing but I get a lot of fun out of what voice I've got. And our Family's Whiskey is such a easy swallowing whiskey—you don't scarcely feel it on your throat. Take that special mildness and the grand tastiness and you got the reason why folks all go for The Wilken Family Whiskey. As you know, we've been a family of distillers for years. And the Wilken Family Whiskey has got the very best that Grandpa Wilken and Pa Wilken and all of us ever learned relating to what makes whiskey tasty and mild.

WILKEN FAMILY BLENDED WHISKEY

Scotties For Kitchen Towels

By RUTH ORR Pattern No. 428

"Hello, there, Sandy. How are you?" Sandy can't bark an answer but these lively pictures of him quickly tell you he's enjoying life immensely. On each day of the week he's doing something either mischievous or helpful. But he's useful for you every day, if you embroider him (using very simple stitches) on your kitchen towels.

The pattern envelope contains genuine hot-iron transfer patterns comprising 7 motifs; also complete, easy-to-understand illustrated directions, with diagrams to aid you; also what needles and what material and how much you will need.

To obtain this pattern, send for No. 428 and enclose 36 cents in stamps or coin (coin preferred) to cover service and postage. Address Big Spring Herald, Needlework Dept., P. O. Box 200, Station D, New York, N. Y.

Stop! Look! Listen!---Is That Valentine Gift A Bit Personal?

With Valentine Day reminders staring at him from every other shop window these days many a young man is wondering what to do about Valentine's Day. He can't make up his mind about whether to send the object (or objects) of his attentions flowers, candy or books, more personal gifts, or nothing at all.

According to generally-accepted rules, he shouldn't send gifts which are too personal to anyone except his fiancée. (That means lingerie, hose and so on.) Books or candy—those old standbys—are perfectly in order if he really wants to send something. Flowers more or less denote a "beau" in the old-fashioned sense of the word.

The art of giving gifts in general is fairly complicated. Gifts, for instance, are an excellent means of paying back hospitality, although most hostesses would much prefer to have a pleasant guest than to receive the most handsome gifts.

The individual who is without a home in which he or she can entertain will find more occasion to present gifts. But it will take a little thought and tact on his part to make the gift both acceptable and not too "I've-got-to-pay-you-back-this-way."

The value of the gift should depend upon the purse of the donor and whether he has been a guest for a single evening or as long as several weeks. Gifts are not necessary, for the most part, in the former case. They are nearly compulsory in the latter.

Way To Hostess' Heart

Often the way to a hostess' heart is through her children. Consequently, a convenient medium through which gifts may be given to her may be her children, if she has any. The guest may take them candy or well-chosen toys, first checking with their mother—before giving them to the children—to see that she doesn't object. Or he may send them something a short time after he leaves.

The point is to do gift-giving inconspicuously. The moment the guest is greeted he shouldn't thrust a package at his hostess. And he shouldn't pull it out in a roomful of other guests—to the embarrassment of those who may not have brought gifts. In other words, he should make his presentation as casual as possible.

ROYAL RESIDENCES GIVE NAMES TO COLORS

LONDON (AP)—Colors for coronation year are taking their names from royal residences. Among the latest is "Marlborough blue," a forget-me-not tone. The color was named Marlborough because it is Queen Mary's favorite shade. Buckingham blue and St. James' rose—a soft, old rose—are other coronation color names.

Valentine's Day FEB. 14th Remember She'll Want CANDY and her preference will be Whitman's or King's, with the added assurance of knowing his fresh because you got it from Cunningham and Phillips.

Reading And Writing

By John Selby

A near-sighted friend temporarily without glasses glanced at Dorothy Speare's "The Road to Noodles" as it lay peacefully on the table, waiting its turn.

"What," she said, "is 'The Road to Noodles'?" So the novel has been "The Road to Noodles" since that day, and probably will be to the end. Just the same, it's not needless as a novel. It's not another "Shining Scabbard" either, not even another "Gone With The Wind." But it's a pretty good job of picturing Hollywood, managed in spite of a central character, which takes innumerable prizes for improbability. This is, briefly, the "argument":

A girl known as Martha Storey is a New Englander by birth and tradition and daughter of a minister up to a certain point lives a life entirely of the mind. That she is able to express in books the conflicts we all are supposed to have and thus to sublimate them and remain, as it were, in a shell which she is paid to inhabit. She writes, and her writing sells. But she is actually "in revolt."

She goes (you already had guessed, of course) to Hollywood and she arrives talking like a rather old-fashioned book. But she is determined to make a place for herself in what she thinks of as a freer life; she is genuinely interested in the "types" lying about the Hollywood scene, and finally she meets Norman Phillips.

He is the precise opposite to Martha—of course. He is a very successful playwright who has got his convictions about life out of life itself, not out of books. But he lives in his curiously different mind quite as much as Martha, and he is pretty alcoholic to boot. It is obvious from the start that these ill-adjusted people must fall in love, and that the result will be a series of complications, all of which comes about. Martha has her New England tradition to fall back upon, and Norman does not.

What happens, you must let Miss Speare tell you. It may spur you to quest a bit to know that Grace Moore's famous "One Night of Love" grew out of Miss Speare's play, "Prima Donna."

Or it may not. "The Road to Noodles," by Dorothy Speare (Houghton Mifflin).

Life And Work Of Chopin Is Club Topic

Mrs. H. W. Broughton Is Leader For Music Study Club Session

Chopin, his life and work, was the topic of study led by Mrs. H. W. Broughton at the meeting of the Music Study club held in a Settles hotel clubroom Wednesday afternoon at which matters of business were also discussed.

Dwelling chiefly on Chopin but including another renowned composer, Liszt, Mrs. H. G. Keaton gave an interesting paper on the nationalistic tendencies of the romantic composers. Musical numbers included Chopin's "Nocturne," played by Mrs. W. K. Edwards, two choral numbers by the club chorus that is composed of Mrs. V. H. Flewelling, Mrs. R. W. Ogden, Mrs. L. S. McDowell, Mrs. Willard Read, Mrs. Joe Ernest, Mrs. G. C. Schurman, Mrs. Dan Conley, Mrs. Bernard Levan, Miss Roberta Gay and Miss Virginia Lois Ogden, with Miss Elsie Willis as the accompanist, and as a closing number Mrs. Harry Hurd and Mrs. Omar Pitman played Liszt's "Liebestraum" as a piano duet.

During the business session conducted by Mrs. G. C. Schurman, the resignation of Mrs. E. T. Cardwell was accepted and Mrs. A. S. Darby was placed on the active membership list. Mrs. Edmund Berger was appointed as corresponding secretary to fill the unexpired term of Mrs. A. Saitzer who has moved from the city, and Mrs. Virgil Smith and Mrs. Joyce Fisher were selected to serve on the social and courtesy committee with Mrs. D. F. McConnell.

Mrs. B. G. Riechbourgh has been called to the bedside of her father at his home near Clovis, N. M.

Lucille Reagan Circle of the First Baptist Church will serve dinner for the members of the Young Women's Association at the church this evening at 7 o'clock. The event will climax the activities of Focus Week observed by like associations throughout the south.

BIRTH ANNOUNCEMENT Mr. and Mrs. Walter Deats, Jr. of San Angelo are announcing the arrival of a daughter on Monday. She has been named Annette. She is the great-granddaughter of Mrs. L. T. Deats of this city.

R-Bar HD Club Plans Sock Supper; Spread Making Demonstrated

Plans for a sock supper were made by the R-Bar Home Demonstration club at a recent meeting in the home of Mrs. H. W. Musgrove and Miss Lora Farnsworth, demonstration agent, gave a demonstration on making candlewick tufted bedspreads.

The finance committee plans to sponsor the sock supper at 8 o'clock on the evening of February 26 in the R-Bar schoolhouse. They have issued an invitation to all women and girls of the community each of whom is asked to take a well filled sock. During the evening the most popular girl at the affair will be crowned "Miss R-Bar." Men and boys will also be welcomed. Special entertainments are being arranged.

In demonstrating the making of bedspreads Miss Farnsworth mentioned that materials for making the spreads may be varied in color and may also be unbleached domestic 11-4 sheeting. Best results will be obtained by those who use a quality that has a thread count of 64x24. Naming the geometrical design as the post popular one, the demonstrator gave one and a half to two pounds of thread as being necessary for completion.

Refreshments were passed to Mrs. J. H. Reeves, Mrs. Elmo Birkhead, Mrs. W. F. Heckler, Mrs. W. H. Wise, Mrs. A. D. Martin, Mrs. R. E. Martin, Mrs. Earl Hull, Mrs. W. H. Robinson, Mrs. W. C. Rogers, Mrs. J. L. Baugh, Mrs. M. R. Edens, Mrs. S. F. Leatherwood, a new member, Miss Lelia Birkhead, Miss Flovvel Farrar and Miss Farnsworth. The February 23 meeting will be held at the home of Mrs. H. C. Reid.

Y. W. A. DINNER

Lucille Reagan Circle of the First Baptist Church will serve dinner for the members of the Young Women's Association at the church this evening at 7 o'clock. The event will climax the activities of Focus Week observed by like associations throughout the south.

BIRTH ANNOUNCEMENT Mr. and Mrs. Walter Deats, Jr. of San Angelo are announcing the arrival of a daughter on Monday. She has been named Annette. She is the great-granddaughter of Mrs. L. T. Deats of this city.

Luncheon Is Given For Ely See Club

Luncheon preceded the bridge games of the Ely See club Wednesday when Mrs. Victor Martin was hostess at the Settles hotel.

Mrs. Howard Houser was the only guest. Mrs. J. B. Young and Mrs. Elmo Wasson made highest scores. Places were laid for Mrs. Houser, Mrs. Young, Mrs. R. E. Bliss, Mrs. Lee Rogers, Mrs. Robert Wagener and the hostess. Mrs. Rogers will entertain on February 17.

Bon Amee Club Has Rummy Games At McAdams Home

Mrs. Thomas J. McAdams was hostess to the Bon Amee Club recently for games of rummy. The George Washington theme was used in party arrangements.

Mrs. L. C. Graves was highest scorer while Miss Helen Walls scored lowest. Players were Mrs. Graves, Miss Wells, Mrs. T. L. Williamson, Mrs. Garner McAdams, Mrs. T. L. Layne, Mrs. R. F. Blumh and Mrs. A. McLeod. Mrs. Blumh will entertain on Washington's birthday anniversary.

CLEAN FALSE TEETH NEW EASY WAY

NO Brushing—Recommended By Dentists Approved By Good Housekeeping Bureau Just drop a little Stera-Kleen powder in a glass of water. Leave your false teeth or bridges in it while you dress or overnights. No need to brush. Simply rinse or dip your plates are fresh and clean—clean where the brush can't reach.

"The Voice of Experience"... the man with the million dollar throat insists on a light smoke

"My voice is my career. It has inspired more than five million people to confide in me their personal problems. During 25 years, first on the lecture platform and then on the air, I have never missed a single engagement because of my throat. I am a steady smoker, and because my throat and voice are vital to my career I insist upon a light smoke. In Luckies I find a light smoke plus the enjoyment of fine tobacco... and that's why Lucky Strikes have been my choice for 14 years."

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke. "The Voice of Experience" verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

A Light Smoke "It's Toasted"—Your Throat Protection AGAINST IRRITATION—AGAINST COUGH

Flood Control Data Is Ready

Cost Of Ten-Year Program Is Placed At Billion And Half

WASHINGTON, Feb. 11 (AP)—Army engineers said today that they have all the basic data needed for a comprehensive national flood control project. Unofficial estimates placed the cost at \$1,500,000,000 over a ten-year period.

Major General Edward M. Markham, chief of engineers, said information assembled in the last nine years at a cost of \$11,000,000 would enable him to submit such a program to congress within a few days.

Among the projects recommended will be flood control reservoirs on big river tributaries, dikes to protect centers of population and floodways.

To emphasize the size of their task engineers pointed out a flow of 1,000,000 second-feet, or five times the normal volume of the St. Lawrence river is to be carried down the Mississippi to the Gulf of Mexico in flood times over the Hudson and Morganza floodways already approved by congress.

The engineers said there is no way to control the lower Mississippi except by using these floodways and maintaining the existing system of levees.

Governors Approve Roosevelt's Land, Water Conservation

CHICAGO, Feb. 11 (AP)—President Roosevelt's proposal for a long range land and water conservation program for the semi-arid west had the approval today of many governors of prairie states.

Chief executives who would comment on the plan promised the cooperation of their states.

The program called for the development of a new agriculture economy through legislation assuring proper farming methods, surveys to determine proper use of land, reclamation of misused land, consolidation of local government units, and similar methods.

Gov. William Langer of North Dakota said the program would be "the salvation of northwest states" which suffer from droughts. He said his state would "go all the way" with the president.

The program drew favorable comment in the Southwest's "dust bowl." Gov. E. W. Marland of Oklahoma said the president "hit the nail on the head," adding, "the people of the nation should share our fear that the bread basket of the nation will be destroyed unless congress acts promptly. x x x"

Governor Alfred of Texas declined comment.

Court Decisions Called Obstacles To Liquor Agents

AUSTIN, Feb. 11 (AP)—Bert Ford, liquor administrator, in a report to the legislature today, cited two recent court decisions which he said were "serious obstacles" in the path of law enforcement.

The court of civil appeals in Galveston, he said, held inspectors could not seize contraband liquors, and the Austin criminal appellate court ruled search warrants could not be used in detection and confiscation work.

Ford also reported two permanent injunctions against the board. A Galveston county district court restrained inspectors from seizing liquors at an establishment and a Beaumont court set aside a package store permit cancellation.

The report showed liquor revenues fell from \$812,866 in December to \$572,284 in January. Ford attributed the decline to December's holiday season and new tax schedules in January.

In January, inspectors filed 339 criminal cases, 110 convictions were obtained and \$10,245 in fines assessed. Fines imposed in December amounted to \$13,468.

Large Stanton Crowd Hears Cowboy Band

STANTON—Coming here from Big Spring, Hardin-Simmons' famous Cowboy band presented a concert in the school auditorium Tuesday afternoon.

A filled house heard the players present the following program: "Sword and Lance," "Starke," "Deep Purple," "De Rose," "Zonky," "Old," "On the Prairie," Robinson—tenor solo by Joe Dene Propst with band.

NEW COLLAR MAKES "NEW" FROCK

One of the best midwinter tonics for a world-weary, jaded frock is the addition of a crisp

white lingerie collar. This one, made of lace and net, cut like a square hertha and finished with a little frill at the neckline and edge, gives new life and chic to a simply cut black crepe frock.

For Pretty Girls---Photographer Chooses Section Of Middle West

NEW YORK, Feb. 11 (AP)—Where do America's most beautiful girls come from?

Without hesitation—but not without a shudder, anticipating storm-blasts of protests from the famed "sun-kissed" beauties of Florida and Southern California—Arthur O'Neill, New York photographer of magazine cover girls, made this answer today:

"The middle west!" He hastened to explain. "They may not look prettier, but for camera purposes, they've got more natural beauty."

On his list of the 1937 "all-America beauty model" team—the highest-paid of their profession—is Mary Calkins, born in Pulaski, Tenn., a resident of San Antonio, Tex., when not in New York, widow of a U. S. army officer who was killed during aerial maneuvers over Hawaii.

DIFFERENT VIEWS
HOLLYWOOD, Feb. 11 (AP)—Neither movie directors, movie cameramen, nor movie statisticians agree with Arthur O'Neill, New York photographer, who says that America's most beautiful girls come from the middle west.

"They come from the south," said Karl Carroll.

"They come from the west," said Seymour Felix.

"They're more beautiful on Broadway," said Dave Gould.

But the record-book shows they come in about equal proportion from the far west and the middle west, with down east an easy third over the deep south.

Carroll, Felix and Gould served long terms in the New York review world before they came to Hollywood. Between them, they have chosen selected enough beauties to fill the Yale Bowl and overflow to the 12-yard line. Gould, alone, estimates he has hired 10,000 girls.

"Of course, it's a matter of personal taste," he said.

Some evidence was derived from the chorus of "The Great Ziegfeld," a beauty lineup considered to have set a new high in Hollywood. Of the 44 chorists, 17 were from the west, 12 from the middle west, eight from the eastern states and seven from the south.

Build Window Boxes Before Spring Comes

Many garden tasks can be done in the basement. Making or repairing window boxes is one of them, and you will be thankful for your foresight when busy spring planting comes. A convenient size window box is 12 inches long, 8 inches deep and 10 inches wide, and if constructed of cypress wood it will last many years. Bore 1-2 inch holes in the bottom, 6 inches apart, for drainage, and cover them with broken pieces of pottery.

Patience are excellent window box subjects because of their long blooming habit. The new nasturtiums are also good, as are violas, Escobal balsam and tuberous rooted begonias. Use rich soil and fertilize it occasionally with applications of plant food; it should have considerable humus in it to conserve moisture.

Be ready to repair bare spots and mosses in the lawn at the first opportunity. Good lawn seed is always cheapest in the long run. You will also need a supply of complete plant food.

If you are farsighted you will order a few of the everlasting annuals. They may be dried in the summer and fall and used for bouquets during the winter.

Consult the local weather man for first-hand data on weather. The

1937 Valentines Available For One To Make Love---Or Trouble; Sweet Sentiment Gives Way To Cleverness

The refreshing touch of sweet romance, or the intoxicating thrill of sweet revenge—you'll find sentiments to match either feeling in the Valentine offerings this year.

A survey of the stocks in Big Spring shows a noticeable trend away from the fancy borders and other embellishments. Cleverness appears to be in current favor with Valentine makers.

Designs have been modernized and the general tone of most of the objects is anything but old-fashioned. However, such delicate senti-

ments as "Your voice is like a song bird The sweetest thing I've ever heard."

may still be expressed through your Valentine. And there's the conventional rhyme which starts

"My Valentine is like a rose—"

In a lighter mood, you might prefer something like this: "I'll plant your garden, hoe your beans And spade the ground around each vine

If you will cook my spinach green And be my Valentine."

For the very special person, you might send the card which admits that "Venus de Milo had her charms, but—" For those a little bolder, there is a Valentine cut in the shape of a pair of lace steps with a request to "be my Valentine."

The more conservative may select such sentiments as "my love for U will never fall" or "the day just couldn't be complete without a thought of you."

Comic Valentines, goldsands for "getting even" or expressing a long suppressed feeling, are bolder and uglier than ever. Stinging rebukes for almost any fault may be picked with complete assurance that the recipient will be burned up.

For instance, perhaps you have been contemplating sending one of

your fat friends such a timely greeting as this:

"Say, old girlie, fat and tough At work you only make a bluff. You're a botch at every job; Never was a worse old slob."

Taken at random, here are a few of the types you can assail anonymously through a vituperative Valentine: Henpecks, frisky waitresses, dizzy persons, the bashful, procrastinators at proposing, gamblers, scute curers, the two-faced politicians, "briny," flirts, social climbers, amorous "raslers," boss' pet, "gorgeous" gals, tattletales, big business men, chisler, cranks, gossips, faces, speeders, braggarts, primers, two-timers, flashy dressers, chronic smokers, shopping nuisances, moochers, blowers, cowards, old maids, black handers, slob, play-boys and girls, and perennial gripers.

The range from sublime to ridicu-

lous and back again gives you the choice of making love or trouble, effectively and appropriately, with a Valentine.

MUSICIAN FACING EXECUTION TONIGHT

ROSSINING, N. Y., Feb. 11 (AP)—A 21-year-old violinist and former choir member of a Catskill mountain church today sought the consolation of music in the hours that

sped him closer to death in Sing Sing prison's electric chair.

He is Alfred E. Volckmann, Jr., scheduled to die tonight for the murder in 1934 of 9-year-old Helen Glenn, daughter of his former pas-

tor at Greenville, N. Y. In the meantime he expressed the hope that prison officials would "leave the radio turned on."

Court Faces Light Current Dockets In Martin County Term

STANTON, Feb. 11—Light criminal and civil dockets faced the 70th judicial district court which opened its two-week session here Monday. Probably two criminal cases will be tried with a chance of three civil cases coming to trial, district and county clerk John F. Epley said.

In its one-day session, the grand jury returned one indictment, that being for assault with intent to murder. The grand jury will reconvene on Friday.

Judge Charles Klapproth is presiding.

Tourist agencies at Denver say 1,372,000 persons toured Colorado by auto in 1936.

Investigation Committee Is Appointed By WCTU

Members of the Women's Christian Temperance Union appointed Rev. Mr. Mason, pastor of the West Side Baptist Church, Rev. W. G. Anderson, pastor of the Wesley Memorial Methodist Church, Mrs. Shire Phillips and Mrs. C. S. Holmes to form an investigation committee at the meeting held in the Presbyterian church Wednesday.

Mrs. E. G. Richbourg, president, presided at the gathering held for the discussion of welfare work. Rev. Mason, Rev. Anderson and Mrs. Phillips were guests of the union.

HD CONFERENCE

Home Demonstration agents of this district will gather for conference here Friday when Miss Grace Neely, food preservation specialist of A. & M. college, and Miss Kate Adele Hill, district agent, will be present to conduct the affair.

SORORITY MEETING

Miss Edith Gay will be hostess at 8 o'clock Friday evening for the Epilon Sigma Alpha Sorority. Miss Audrey Phillips will lead the discussion on "Pre-Socratic Philosophy in Greece."

SUIT STYLES VARY

NEW YORK (AP)—Although many of the spring suits will be man-tailored a number of shops here are backing several other suit styles. They include suits with short pephum-trimmed jackets, those with swagger or reaser coats and a number of fur-trimmed models.

PARIS FAVORS CROCODILE

PARIS (AP)—Crocodile leather is becoming increasingly popular for shoes and bags. Vionnet also belts a navy wool suit with tan crocodile. Molyneux uses the same leather in a belt to be worn with a black ensemble. The color note is repeated in tan glace kid gloves.

LINDLEY TO SAN ANTONIO

Friends here have received word of the transferring of Rev. D. R. Lindley from St. Charles Avenue Christian Church in New Orleans to the Central Christian Church in San Antonio. Rev. Lindley was pastor of the Christian Church here before being transferred to New Orleans four years ago.

YOUNG PEOPLE'S BANQUET

Members of the First Presbyterian Auxiliary will sponsor the annual banquet for the young people of the church beginning at 7 o'clock Friday evening in the church parlors.

PRINTS IN BLOUSES

NEW YORK (AP)—Hand-blocked and hand-stencilled silk prints will line many suit coats during the coming season. Many of them will be repeated in blouses.

Mrs. D. A. Koons is spending the day in Odessa.

Rev. G. C. Schürman is ill at his home.

10-year average date of the last killing frost gives you an even chance for early crops of the tenderest vegetables.

A "Garden of Flavors" will prove interesting and useful to you. Most of the sweet herbs can be grown the first year from seed, and some of them have a delightful fragrance.

Buying Begins In Easy Chairs

People take out insurance, go on trips, buy clothes, plan meals, trade furniture, build new homes in their heads long before they set out to market. Names of the products and services which get into peoples heads early are the names which ring out in the marketplace.

A sure way to register names with Best Customers is to advertise in The Daily Herald.

For the HERALD reaches the best-buying families in Big Spring and Howard county, carries weight with them, helps get your name into their heads.

THE BIG SPRING DAILY HERALD
"YOUR DAILY NEWSPAPER"

Can You Find Your Way Around In B'Spring? Maybe Here Are Streets And Additions You Never Heard Of

How well do you know Big Spring? Pretty well? All right, first back the answer to these—where are Maple avenue, Dillworth, Mesquite, Dundee, Jones, Kent, Rosemont, Sunset, Miller, Magnolia, and Algonia streets?

Well, perhaps you are better on additions—where are Morris, Tennessee, Hathcock, Morningstar, Strippling, and Adell additions?

Don't give up, you are no farther wrong than the next one. If you hit two out of the streets and as many of the additions, you are excellent.

For Big Spring has 38 cross streets by numbers, running east and west, 24 of them south of the T&P tracks. The others are north and northwest of the tracks. In addition to these, there are 82 streets, most of them extending north and south, some of them for only a block, others for 24 blocks.

The number of additions, other than the original townsite, are fewer—totaling only 29. On the north side are Bauer (Government

Heights), Morris, Rosemont, and Denton (Mexican town) and Tennyson (east) additions.

On the West

Outside the city limits on the west are Airport, Wright, Sunset, Settles Heights and Lakeview additions. Inside the limits are, in order toward town, Brown, Adell, Bowser, Price, Parker, Jones (valley), Cedar, Crest, and Earle.

To the south lie Brennan, Edwards Heights, Hathcock, McDowell, College, Fairview and Cole and Grayhorns. In the latter addition are Gordon, Morningstar, Manning, Strippling Settles and Forest additions.

Washington Place is in the extreme southeastern portion of town while Highland Park flanks it on the northwest. Belmont block is part of Highland Park.

On the east there are only Boyds, Porter and Highland additions to contend with. La Loma lies south of town, but it long since reverted back to the gophers and nocturnal suitors and really does not count.

There's A Lindbergh Str.

Ahlsene, Harding, Maple, Mesquite, Morris, and Wright streets are in Wright's addition. Airport, Lindbergh, Madison, and Mobile streets are in the airport addition. Andree, Anna, Creighton, Lorilla, and Willa streets are in Settles Heights. Sunset is in Sunset addition. Algeria, Carey, Hillcrest, Lockhart and Mesquite are in Lakeview addition, and that takes care of the streets outside the city limits west.

In Edwards Heights the streets are Dallas, Hillside Drive, Matthews, McFahren Slope, Pennsylvania and East and West Park.

Washington Place has Dixie, George, Jefferson, Kent, Lexington, Virginia, Lincoln, Mt. View, Princeton, Sunset Place, and Washington Boulevard.

Highland Park contains Maple avenue, Rosemont, Sycamore, and Wood streets.

Some Familiar Names

In order from Main east the streets in the eastern half of town are Rannels, Johnson, Nolan, Gollad, Austin, Benton, Owens, Young, Donley, State, Temperance, and Union. Settles street extends east from 11th street along Washington Place.

The principal streets west of Main are Scurry, Gregg, Lancaster, Bell, Aylford, Douglas, Abrams, Sab Antonio, San Jacinto, Galveston, Presidio, Brown and Jones. Other west side streets and their origin are: Dillworth, by the T&P tracks

the 10th block west of Main and extending north; Hillside Court, beginning at W. 9th, the 8th block west of Main and extending south; Lanham, by the T&P tracks, the 12th block west of Main and extending south; Magnolia, starting at W. 7th, 8th block west of Main and extending south; Miller, starting at W. 14th, the 6th block west of Main and extending south; Patton, beginning at W. 11th, the 8th block west of Main and extending south; Valley, by the T&P tracks, the 14th block west of Main and extending south; and Van Gieson, beginning at W. 10th, the 7th street west of Main and extending south.

Remaining streets on the north side are: Channing, by the T&P tracks, the 10th street west of N. Main, extending north; Dundee, by the T&P tracks, the 9th block west of N. Main, extending north; Glasgow, beginning at W. N. 2nd, the 8th block west of N. Main, extending north; Meadow, 1st street north of N.E. 1st street, extending east; Summit, beginning at W. N. 5th, the 6th block west of N. Main, extending north; and Trade, beginning at the T&P tracks at Dundee and extending north.

And if there are any more streets running around without names, they are fugitives from the city commission, and perhaps, when traffic warrants, will be brought to justice and named—whether anyone remembers the name or not.

EDISON SCHOLARS FOLLOWING SCIENCE

WEST ORANGE, N. J., Feb. 11 (AP)—Remember the two boys who basked in the nation's spotlight a few years ago when they were chosen by Thomas A. Edison for university scholarships?

Dubbed "America's brightest boys," but seldom in the headlines now, the 90th anniversary today of the great inventor's birth found them following closely the paths Edison probably would have wished them to follow. Both are scientists.

The first Edison scholar, Wilbur Huston of Seattle, Wash., is a research engineer with a company headed by a son of Thomas Edison. The second, Arthur O. Williams, Jr., of Riverside, R. I., is working for his doctorate in physics at Brown university.

Huston, son of the Episcopal bishop of Olympia, won Edison's nation-wide competition in 1923. Williams won in 1930.

Confer Behind Closed Doors on F.D.R.'s Court Revision Bill

Meeting in executive session, the senate judiciary committee is shown as it began consideration of proposals made by President Roosevelt to reorganize the federal court system. Seated, left to right: Senators Borah (R. Idaho) and Ashurst (D. Ariz.); standing (left to right), are Logan (D. Ky.), Neely (D. W. Va.), Van Nuys (D. Ind.), Burke (D. Nebr.), and Pittman (D. Nev.) (Associated Press Photo)

Who's Muskogee's City Manager?

TWO HOLDING THE JOB, ONE WHO REFUSES TO QUIT, OTHER NAMED BY COUNCIL

MUSKOGEE, Okla., Feb. 11 (AP)—B. Bostic, appointed as his successor.

City Manager No. 1, the man with the key to the office, peeped out from his sanctum through the letter drop. City Manager No. 2, the man the city council appointed, smiled at him from the reception room.

The problem of which held the post today still was unsolved.

W. H. Pritchett entered his office through an outside door, using the key he kept after he defied a city council vote of 8 to 7 declaring his job vacant. Pritchett contends nine votes were needed to fire him.

He lifted the letter drop. There in the reception room was Pritchett

DROUTH PARLEY TO BE HELD ON FRIDAY

WASHINGTON, Feb. 11 (AP)—A conference of Works Progress administrators in Chicago Friday on midwest drouth relief will be the government's third step this week to aid farmers.

Secretary Wallace and farm leaders agreed Tuesday on an ever-normal granary system of crop control. The president's Great Plains committee yesterday offered a long range "new economy" for the expansion midway between the Mississippi and the Rockies.

Rep. Nichols (D-Okla.) said Administrator Harry L. Hopkins told him the WPA conference would try "to arrange that farmers now

Seek To Learn Crash Cause

Search For Bodies Of San Francisco Mishap Continued

SAN FRANCISCO, Feb. 11 (AP)—Four groups of investigators sought to learn from torn and twisted wreckage today why a giant airliner, only seconds away from its destination, plunged 11 persons to death Tuesday night in San Francisco bay.

Grimly and silently the inquiry progressed while searchers dragged muddy waters for the bodies of seven victims, who may have drowned rather than died instantly when the sleek ship crashed and sank three miles offshore in 26 feet of water.

The shattered hull of the 13-ton, 21 passenger plane, lifted from the bay yesterday, offered no immediate prospect of solution of the bay area's worst airplane tragedy but experienced pilots unofficially announced two possible theories.

Banked Too Sharply

They said Pilot A. R. Thompson, veteran airman who overshot the field coming in from Los Angeles, may have banked too sharply when he circled out over the way to come in again, thus causing the right

wing to buckle and catapult the plane into the water.

Other aviators considered more probable the theory that Thompson, misjudging his altitude in the darkness, banked too sharply and the right wing struck the water, somersaulting the plane into its tragic plunge.

Officials of United Airlines, operators of the ship, the Douglas Aircraft company, its builders, the department of commerce and San Mateo county coroner's office did not comment.

Revelation that at least one passenger may have struggled to escape even while water gushed in through a jagged tear in the roof of the cabin came last night when the body of Mark Fontana, wealthy San Francisco macaroni manufacturer, was recovered.

Fontana's coat and trousers had been removed. His shirt was unbuttoned. His shoes were untied.

Dr. James Reinhart, who performed an autopsy on Thompson's body, said the pilot's death "undoubtedly was due to drowning."

The bodies of Thompson, Co-Pilot Joe de Cesaro, and Stewardess Ruth Kimmel, who also apparently drowned, were in the wreckage when a powerful salvage derrick hauled it from the bay. Fontana was found nearby.

Sheriff Too Bold

ATWOOD, Kan. (UP)—Sheriff David Birkinbine locked \$400 in county funds in his desk and went across the street. When he returned a few minutes later the desk was broken open and the money gone.

Dallas, Texas, second largest city in the United States to install parking meters on a large scale, collected \$138,023 from them the first year.

TWO AFFABLE GENERALS HOLD COMMAND ALONG FLOOD FRONT

Craig And Markham Careers Have Been Active Ones

WASHINGTON, Feb. 11 (UP)—Two generals who have spent most of their lives dodging swivel chairs are giving the army's orders in the Midwest flood crisis.

One is affable General Malin Craig, veteran of the Spanish and World wars and the army chief of staff. It's his duty to tackle the avalanche of evacuation and relief work that falls to the department of war in the flood emergency.

The other is smiling Major General Edward M. Markham, chief of the army engineers, whose flood works in the lower Mississippi basin are on trial.

Bald, medium-sized, 61, a native Missourian, Craig works in civilian clothes, earns \$10,200 a year. Veteran Disaster Worker As Captain Craig he took his

certain point. Markham handles rivers. Then there's Major General Markham, to whom Craig and the army general staff have entrusted the engineering phases of the army work on all rivers. The president has sent him to survey the flood area with other hand-picked observers and bring back a report and recommendations.

Markham is 60, short, fairly heavy, earns \$8,000 a year. His brown eyes snap under a full head of black hair. He likes to use his smile for enforcing orders—when he can.

Flood control is his meat, although he is proud of his 30thrd engineers, a unit he organized and commanded in the World War.

Pugilist and Pianist A native of Troy, N. Y., Markham specialized in engineering at West Point, and after ranging the world for the army, found himself a major and president of the Mississippi river flood control commission at Memphis, Tenn., in 1912.

For four years he learned about rivers from the Mississippi and there introduced steel reinforced concrete mats as superior to and faster to lay than willow-mat-and-rock-pile revetments.

In his younger days Markham was quite willing to use a punch on opposing jaws when his smile failed. He is an accomplished pianist and he composes pieces for his friends, who say they're good. Others say his compositions are only fair.

But everybody agrees his golf course language is elegant—or awful—according to the point of view.

France Issues New Warning On Fascist Aid In Spain War

PARIS, Feb. 11 (UP)—France renewed her threats today to intervene in the Spanish civil war in behalf of the feltering republican government unless Germany and Italy halt their aid to insurgent fascists.

Reports of recent landings of 12,000 Italian troops at Cadix and foreign support in the fascist capture of Malaga stimulated evident impatience in government quarters over delay of the non-intervention committee to isolate the civil conflict.

Socialist Deputy Joseph Roubi declared he would raise the point in the chamber of deputies today and ask the government what were prospects for halting all foreign aid from either side in the more than seven months old peninsula conflict.

A general meeting of the council of ministers—presumably to deal with the new situation—was called for Saturday morning. Premier Leon Blum's newspaper Le Populaire issued a frank warning to Germany and Italy that French opinion might force the government to take a hand on the side of the socialist government.

LONDON, Feb. 11 (UP)—Germany and Italy consented today to inclusion of Russian warships in a European naval patrol which is planned to keep foreign arms and volunteers out of Spain.

That removed one of the causes of the delay in putting a general neutrality agreement into effect. Portugal, however, still was standing on her refusal to have neutral observers on her territory to check the flow of foreign aid to the Spanish combatants.

BRITISH BACHELORS WORRIED OVER THE SCARCITY OF BABIES

LONDON, Feb. 11 (UP)—Perplexed British legislators—bachelors all—besought the government today to do something about the strange scarcity of girl babies in England.

Bachelor Ronald Cartland, 30 conservative, put the question of the commonwealth's posterity up to the government yesterday, urging it to "make recommendations thereto."

Fellow bachelor Richard A. Pilkington, fixing the members with a rebuking stare, declared: "I learn with amazement and horror that even in this house there are nearly 200 bachelors. "Shame! shame!" the commonsense cried.

Throughout the debate, Arthur Hayday, member for West Nottingham and father of 17 children, sat in silence.

FIELD TRIALS WICHITA FALLS, Feb. 11 (UP)—Ninety-six great bird dogs will be tested on the rolling 30,000 acres of the Haggood ranch in Clay county Saturday and Sunday in joint trial of the Northwest Texas Field Trial association and the Fort Worth Pointer and Setter club.

Entrance closed Wednesday night. Drawings for the braces were made Thursday morning at

HELP 15 MILES OF KIDNEY TUBES

To Flush out Acids and Other Poisonous Waste Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 2 pints of about 3 pounds of waste. Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the beginning of nagging backache, rheumatic pains, lumbago, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisons & waste from your blood. Get Doan's Pills.

Britain Seeks Defense Loan

Chamberlain Reveals Plans To Get Huge Sum For Arms Program

LONDON, Feb. 11 (UP)—Great Britain plans to float a defense loan up to a sum not exceeding two billion dollars, Chancellor of the Exchequer Neville Chamberlain disclosed to the house of commons today.

He said a bill would soon be introduced by the government to give the general power to borrow money or to use realized surpluses for defense expenditures.

He said the loan would be spread over a period of not more than five years and the debt would be redeemed within 30 years. Under the plan, parliament would annually vote an appropriation to pay the interest.

Chamberlain said Britain's defense expenditures—she is in the midst of a vast defensive scheme of rearmament in every phase—were increasing apace, and present

Jackboro. There will be 61 dogs in the shooting dog stakes, 21 dories and 14 in the all age stakes.

FREAK WEATHER IN WEST, SOUTHWEST

DALLAS, Feb. 11 (UP)—The United States weather bureau reported today freak weather conditions over the West and Southwest.

New Orleans, La., and Denver Colo., had the same minimum temperature of 38 degrees. Dallas and Amarillo temperatures sank to equal lows of 26. Houston and Brownsville also were alike with 40.

Dr. J. L. Cline, meteorologist in charge, said a mass of cold air in the South and a warm wave moving in over the Northwest caused the condition.

ACTORS' AGENT IN CRITICAL CONDITION

SANTA MONICA, Calif., Feb. 11 (UP)—Myron Selznick, wealthy actors' agent, was reported unchanged today in his critical illness with pneumonia.

Two pounds of pneumonia serum were brought across the continent in a chartered airliner yesterday and some was administered last night. Selznick, brother of David Selznick, film producer, is under an oxygen tent in the Santa Monica hospital.

government revenues would not meet them.

RUSH FOOD SUPPLIES TO ISOLATED TOWNS

AERDEN, S. D., Feb. 11 (UP)—Road crews, spurred by word that food supplies were running low, renewed today efforts to open lanes to several small towns isolated for more than a week by deep snows.

Food supplies have been nearly exhausted in some northern communities. In Vebien cafe operators baked bread for the town's 100 residents.

POPE PLEASD WITH FASCISTS' VICTORY

VATICAN CITY, Feb. 11 (UP)—Pope Pius XI rejoiced today at official news of the occupation of Malaga by Spanish insurgents, according to a semi-official state ment.

The pontiff was reported to have expressed great interest in the advance of Generalissimo Francisco Franco's troops, believing this would shorten the period of bloodshed in the civil war.

Names on Birch 70 Years TIFFIN, O. (UP)—F. E. M. Baldwin received recently from Peter A. Elliot, a 91-year-old Civil War veteran, a piece of birch bark on which his sister, brother and two cousins had inscribed their names 70 years ago.

LEVEE BUILDER As his flood control works on the Mississippi face their stiffest test, Maj. Gen. Edward M. Markham, chief of army engineers, is surveying the havoc for the president.

first disaster in stride when the earthquake of 1906 levelled San Francisco. He found then that his army books didn't have any instruction on mid-wifery in emergency refugee camps.

As General Craig, fourth corps area commander, he directed the army's evacuation and emergency relief work in the Mississippi flood of 1927.

Next he took on the Florida hurricane of 1928 from the same post, and the Long Beach, Calif., quake of 1932, as commander of the fourth army in San Francisco.

"This," he sighs, "is my fifth, and I hope my last, appearance in the disaster game."

"A Hell of a Job" General Craig and his staff have been sleeping by their phones since January 21 in the war department. One of the phones is tagged "White House."

"The job's naturally ticklish because it's an emergency," he ex-

LIFE SAVER Gen. Malin Craig, army chief of staff and a golf enthusiast when he isn't too busy, is directing the army's evacuation and relief work in the flood area.

plains. "We've got to worry about the psychology of pointing bayonets at free-born American citizens."

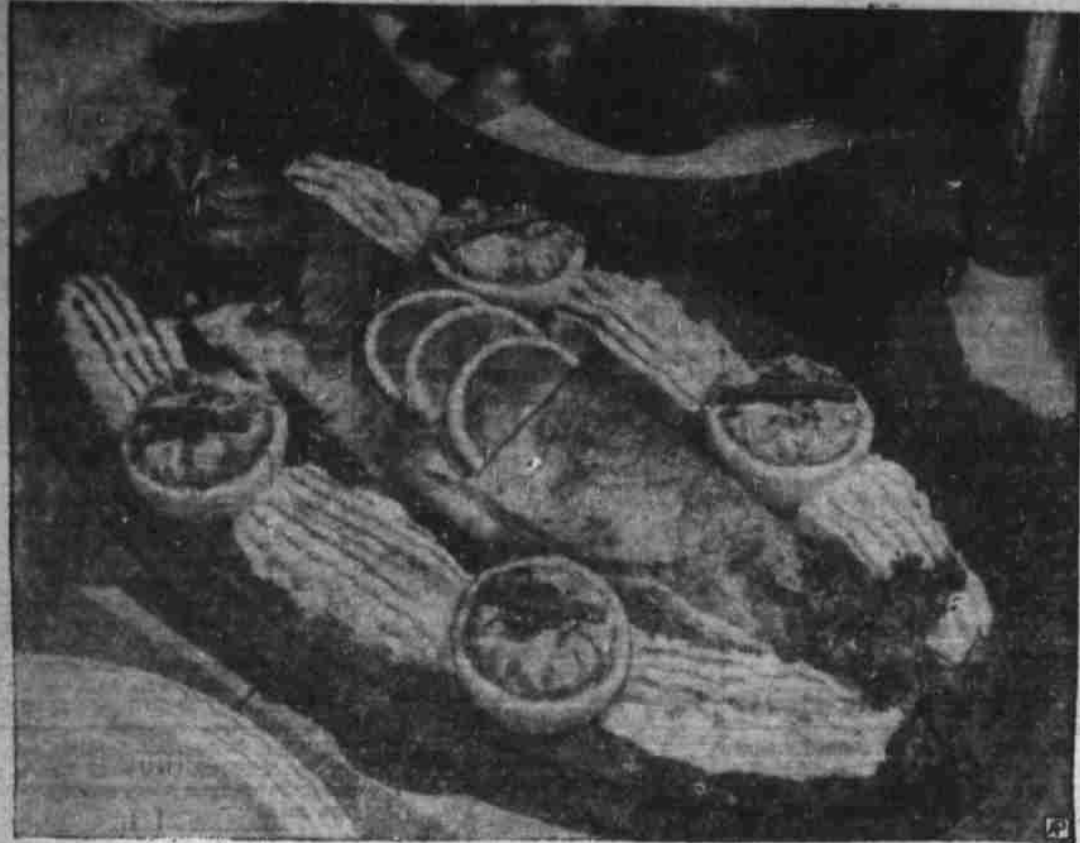

"It's a hell of a hard job to tell a man he can't go home, with 'boot lotters' taking everything he's got. But we've got to do it—up to

FISH WITH TART SAUCE IS APPETIZING AS WELL AS ATTRACTIVE DISH FOR DINNER

PLANKED TROUT

A three to four-pound trout, filled with a well-seasoned bread stuffing, surrounded by

a border of mashed potatoes and garnished with parsley and slices of lemon, makes a tempting meal for the family of six.

Tartar sauce, placed in hollowed out lemon shells, is topped by strips of pimento and a dash of parsley.

By MRS. ALEXANDER GEORGE
Not so long ago the small-town housewife found it nearly impossible to buy fresh fish at any price. Sometimes one of her neighbors arranged to have a shipment sent from a friend who lived nearer the source of supply. But even then when it arrived it was often partially spoiled.

Nowadays, however, frozen fillets and fish steaks are shipped to comparatively small localities. Salmon, halibut, swordfish and other steaks may often be purchased while such smaller fish as trout, pike and mackerel may be bought whole.

In selecting your fish be sure that the flesh is firm, the gills are red and the eyes moist, firm and clear. Although fish has a characteristic odor it should not be strong or disagreeable.

Fish should always be stored in the coldest part of the refrigerator—in a covered dish or carefully wrapped in waxed paper. And it should be used as quickly as possible after it is bought because it is very perishable.

Let Frozen Fish Thaw
Frozen fish should be allowed to remain in the kitchen for about half an hour to thaw out, although it may be used frozen—when a longer cooking period will be required.

Always wash fish well in cold water before cooking it. Then wipe it dry with a soft paper and sprinkle it with flour or dip it in eggs, crumbs and saute.

Small fish may be split and broiled or baked. A larger fish may be stuffed and baked.

To Stuff Fish
For stuffing fish place a highly seasoned bread or potato stuffing inside the fish and bake it for about an hour in a moderate oven. (Due to its structure fish cooks quickly.)

Large cuts of salmon, boiled and served with a piquant relish or egg sauce, make delicious luncheon or dinner dishes.

Like to buy about three and a half pounds of salmon for our family. In preparing it I tie a white muslin bag loosely around it and drop it into a kettle of boiling water to which I have added four celery leaves, four whole cloves and one teaspoon of salt. After the salmon has boiled 35 minutes I carefully remove it to a serving platter and surround it with a thick creamy sauce to which two hard-boiled eggs have been added. When it is ready for the table I pour one tablespoonful of lemon juice over the top. (I have found that left-over salmon cooked in this manner is good served in a number of ways—creamed, in coffee mixtures, or chilled and used in salads, canapes or sandwich mixtures.)

Fish need condiments and tart sauces to bring out its full flavor. Lemon juice, tomato juice, sliced tomatoes, pickles, relishes, catsup and other sauces may be placed on top during the cooking process. And a tartar sauce which may be served with baked, broiled or sautéed fish is made by adding one teaspoonful each of chopped pickle, onion, or chives, olive and minced parsley to half a cup of stiff mayonnaise.

Allred Hits Delay In Consideration Of State's Bills

AUSTIN, Feb. 11 (AP)—Gov. James V. Allred said today he was convinced the constitutional rule limiting aside the first 30 days of a general legislative session for the introduction of bills was a mistake.

"There is no good reason why consideration of bills should not begin immediately," he said. "The constitution should enunciate principles, not rules."

Nevertheless, he said the legislature was making good progress in "working hard." He noted tax bills had been reported "which two years ago did not even get out of committees."

Important tax bills favorably reported by house committees would boost levies on crude oil and corporation franchisees.

The governor also said he thought there was "a good chance" to repeal the part-mutual horse racing wagering law, recommended by a house committee. An effort to repeal failed at the last general session.

Sues Rubinoff

Peggy Garcia (above), former hat check girl in a Harlem night club, has filed a breach of promise suit, asking \$100,000 to salvage her heart, against Dave Rubinoff, radio violinist. She asserts their romance began in 1933 and that Rubinoff promised to wed her while they were in Philadelphia. (Associated Press Photo)

Month's Big Days Call For Special Dishes At Dinner

By MARTHA LOGAN
February is indeed a party month. With the two famous birthdays and Valentine's Day all in one month, nearly every housewife feels the urge to entertain.

In my home, we always celebrated every special day by having some suitable table decoration and some typical food. We had a set of flags that adorned the table on each patriotic day, then there was a gay red heart-shaped bowl, a set of china turkeys, a pot of shamrocks and similar novelties brought forth at the proper time.

These family parties did much to strengthen the family tie and make us look back at the days when we were all together "at home." For the party for this week we should consider Lincoln's birth day. Surely no other national figure so typifies the homey simplicity and honest integrity of family life at its best.

And so for our family dinner on February 12, let's think of table decorations first. Perhaps the children have a set of log cabin blocks, or they may be able to fashion a cabin using cardboard. If they are given a little help, you will find youngsters capable of setting a good background for your dinner.

As to menus, let's begin with old-fashioned bean soup with bits of bacon and crouton cubes, then a real boiled dinner using corned beef, and whole potatoes, onions, turnips, quarters of cabbage and

for a touch of red, we'll add cooked luttared beets to the platter—the meat and vegetables are assembled. With this boiled dinner you may serve fluffy steamed dumplings or cornbread and apple butter. For a bit of tart accent use a pickle relish or a lettuce salad.

If your family is not used to such a hearty meal, the dessert should be light—such as fruited gelatin with sugar cookies. However, to carry out the Log Cabin idea, you might serve a chocolate roll, which is made like a jelly roll and is filled with whipped cream or marshmallow frosting.

Corned Beef Boiled Dinner
In buying corned beef, a mild cure requires less cooking than a high cure. The best quality of corned beef has streaks of fat, the meat is firm and red, and the cooked product is tender and tasty.

To cook, rinse the corned beef in cold water. Put into kettle, cover with cold water, and heat to boiling point. Then lower fire and simmer until the meat is tender. Allow about three-quarters of an hour to each pound of meat.

For a boiled dinner, about an hour before serving time, remove some of the liquid in which the meat has been cooking to another kettle and in it boil peeled onions, potatoes, carrots, turnips and quartered cabbage until tender.

Place the cooked corned beef on a platter and surround it with the cooked vegetables. If beets are used instead of carrots, boil the beets separately, skin and arrange on the platter with the vegetables. If all vegetables are kept whole and carefully placed, this vegetable meat dish makes a most attractive platter.

Chocolate Roll
1 cup sifted cake flour,
1 teaspoon baking powder,
1-2 teaspoon salt,
3/4 tablespoons cold water,
3 eggs,
1 cup sugar,
Grated rind one lemon,
1 tablespoon lemon juice.

Sift flour once, measure, add baking powder and salt, and sift four more times. Beat egg yolks until thick and lemon colored, add water, sugar, lemon rind and juice and beat very light. Fold in flour gradually, then fold in beaten egg whites. Bake on a baking sheet or in large shallow pan, about 12 minutes in a moderate oven (300 degrees F.).

When done, turn out onto a damp cloth sprinkled with sugar, cut off edges and ice quickly with marshmallow frosting. Then roll up cake and keep cloth around it until it is cold.

CONFESION ENTERED IN MURDER TRIAL

HOUSTON, Feb. 11 (AP)—Ray Newsom's testimony that he hacked Mrs. Clara Middlekauf to death with a meat cleaver was in the record in his trial for the killing.

Mrs. Middlekauf was slain in her waterfront cafe last October. Newsom said he struck her when she tried to kill him with the cleaver and a pistol. He demonstrated with a cleaver the manner in which he said the woman was killed.

Newsom testified she threatened him when he refused to spend the night with her.

FORT WORTH, Feb. 11 (AP)—The Texas Wesleyan college basketball team built up an early lead and coasted to a 25 to 19 victory over St. Edward's Tigers last night. The Rams led 17 to 5 at the half.

GREENS for SPRING!

Mother Nature, in her profound knowledge of what is essential to our well being, creates in us, every spring, the desire for greens. They are valuable in the diet for bulk, roughage and for their mineral substances and vitamins. Our stores provide many kinds of greens besides the well known lettuce, cabbage and spinach. There are artichokes, large and tender globes, tasty brussels sprouts, sweet asparagus...broccoli...new green peppers...blood red, iron giving rhubarb... satisfy that spring appetite at Safeway.

Texas Bunch Vegetables Carrots — Greens — Onions Radishes — Beets — Turnips 2 Bunches 5c
Texas Cabbage Firm Fresh from the Valley 2 lbs. 5c

Continue Quiz Of Ex-Convict

'Conflicting Points' Reported in His Story Of Kidnaping SEATTLE, Feb. 11 (AP)—Federal state and city officers today devised new questions to hurl at an ex-convict...

Post, also known as James G. McDonald, a former convict in the San Quentin, Calif., prison, denied all knowledge of the kidnaping of Dec. 27 but failed to satisfy officers.

The detective expressed doubt Post was implicated in the kidnaping. Chief William Cole of the state police said they sought a red-haired woman in connection with Post's interrogation...

A grand larceny warrant was on file in Tacoma against Post. Police said Post registered as "Tim Donovan" at a hotel where he was arrested Tuesday...

KING RANCH CASE SLATED MARCH 6TH

HOUSTON, Feb. 11 (AP)—Two dissatisfied heirs to a cattle domain will seek in federal court here March 6 appointment of a receiver for the King ranch in South Texas.

Federal Judge T. M. Kinnerly set the date when the hearing was held yesterday. He asked attorneys to take depositions prior to the hearing.

The heirs, Edwin K. and Alice B. Atwood of Chicago, grandchildren of the late Capt. Richard King, alleged mismanagement and improper division of the ranch and asked that its affairs be taken from the trustees.

P. A. Newman, believed to have built the first monoplane in America, flew it at Brownville, Texas, the year Louis Bleriot flew the English channel.

Extensive Use Of Man-Made Radium Seen

Synthetic Supply Will Be Produced By Giant New Machine BERKELEY, Calif., Feb. 11 (UP)—As a result of the first successful use on human beings of synthetic radium produced by the famous cyclotron at the University of California, a new cyclotron, three times as large as the present one, and which will make it the largest in the world, is to be constructed immediately...

The discovery, however, that radio active salts can be produced in the machine and the possibilities which might develop from a medical standpoint by their use instead of regular radium, led to the decision to construct a new cyclotron that will weigh 250 tons and which will be used largely in developing its possible use as a means of therapy.

er elements. A few of the achievements to date of the cyclotron have been production of synthetic radium which is now known as radio sodium, and the changing of platinum into gold.

The startling achievements accomplished by the giant machine attracted such attention that scientists from the leading universities of the world have come here to study it. In addition, about a dozen other cyclotrons have been constructed in the universities of the United States and elsewhere.

The first of these was made on mice afflicted with a cancerous growth and which had been used in the past in X-ray and other experiments in an effort to find a successful treatment for cancer. The experiments showed that the neutron rays were four times as effective as the X-ray. Experiments being carried on along this line are to demonstrate what effect the application of the rays may have on healthy tissue.

The clinical experiments, however, while just beginning, have caused university authorities to feel justified in spending \$100,000 on the new machine. With the new apparatus it will be possible to develop 25,000,000 volts for the bombardment and breaking up of atoms, and with the use of alpha particles, 50,000,000 volts.

This high voltage fires the atoms of one element into the nuclei of others, changing completely their character, and producing new elements. The radio sodium, used for the first time, is produced by the deuterium bombardment in the cyclotron of three to four grams of sodium chloride.

among the effects of his father who died some years ago. The elder Taylor found it in a churchyard and put it aside, not realizing it belonged to his son.

To Cost \$100,000 The clinical experiments, however, while just beginning, have caused university authorities to feel justified in spending \$100,000 on the new machine.

ring Strangely Found WINSTED, Conn. (UP)—Thirty-one years to the day after he lost a ring, Charles Taylor found it

Burglar Alarm Only Clock PROVIDENCE, R. I. (UP)—Carl Berg, a druggist, called police early one morning when he heard a "burglar alarm" ringing in Tolchinsky's fur shop.
