triumphant order of the day, Marshal Stalin announced today ond Ukrainian fronts, trapping 10 German divisions, after the German high command had acknowledged the loss of Lutak (Luck) and Royno in old Poland.

Stalin proclaimed the capture of Smela, rail center in the Dnieper bend, and said the two mighty Red armies of Gen. Nikolai Vatutin and Gen. Iven S. Koney had made gains of up to 45 miles in a 100-mile break-through of the German lines.

"As a result of these operations troops of the Second and First Ukfronts joined up in the area of Zvenigorodka and Shpola and thus closed a ring of encirclement around an enemy group operating north of this line, numbering nine infantry and one tank divisions," Stalin announced in his said:

TERS, ALGIERS, Feb. 3 (AP)—American troops who smashed the Gustav Line and outflanked Cassino from the north have driven to within 500 yards of the desperatelyheld German fortress on the Fifth army front and are attacking it from the rear, Allied headquarters announced today.

At the same time other American forces were making a direct frontal assault on the ancient city guarding the Rome road despite fire from six-barreled Nebelwerfer mortars and self-propelled German artillery hidden ithin the city itself.

The double-pronged assault on Cassino coincides with heavy fighting on the Anxio bridgehead where battles have been raging for three days in the Campoleone and Cisterna areas.

The Allied beachhead south of Rome has been enlarged in the face of stiff resistance and a number of enemy counterattacks have been thrown back, Allied headquarters announced today.

On its lower front, the Fifth army was said to be enveloping the Nazi stronghold of Cassino after turning back enemy attacks. Hard fighting was re-Cassino fronts.

House Flood Group To Consider Project On Trinity River

WASHINGTON, Feb. 3 (P) -The house flood control committee will be asked today to include in postfar planning legislation a \$58,000,000 soil erosion control program on the Trinity river basin in North Texas, and a \$9,641,000 program for the middle Colorado river watershed in the western part of the state.

Proponents of the programs and Texas members of congress from the affected area are to appear before the committee.

The soil conservation report to e taken up by the committee says that benefits expected to accrue from the Trinity program, to be carried out out a 15-year period, amount to \$15,800,041 annually. The middle Colorado river program is calculated to bring profits totaling \$33,116,000 during the 20-year period the improvement would take.

'Rabbit Ball" Disapproved By White Sox Pitcher

CHICAGO, Feb. 3 (A) - This nin-filled "rabbit ball" the sior leagues are using - now, re's something big Ed Walsh,

the old Chicago White Sox pitch-

doesn't approve. Walsh came to Chicago from his riden, Conn., home to be guest of honor at tonight's annual olders baseball banquet-an event attracting some 1,000 yarn-spinrs. He's carrying the torch for the outlawed spitball, wants it restated or the lively ball kicked

"Only one in 20 pitchers can hrow a real curve today," says the "Big Moose," who was drafted y the late Charles Comiskey for mere \$750 in 1904 and turned into an amazing 40-game winner four year later. "Put the spitball back in and let 'em get their curves with it. Or put a ban on this danged rabbit ball. This generation is getting too home-run cious. The spitter acts just like a curve, but breaks more on

The 195-pound master of the thall will be 64 years old in May. He is one of baseball's alle greats as well as all-time bartains and is confident he could rin 50 games or so today despite he revigorated ball.

Military Helps Liquor Statutes

AUSTIN, Feb. 3 (49-Cooperation of military personnel has aided greatly in licensing control and enforcement of the state's liquor Officer C. A. Paxton.

Paxton said a joint program hich operates with the aid of military police under authority of the Eighth Service Command has been in operation since the nation began mobilizing for war.

In many instances military police accompany state liquor board inspectors on patrol and aid in gathering evidence.

One beneficial effect of the program, the enforcement officer said, was that applications for beer licenses receive minute study when the location involved may receive the patronage of military

The joint enforcement program grew out of mutual discussions over liquor tax questions as they affected the military, he said.

Amateurs Face Nation's Best In Golf Meet

PHOENIX, Ariz., Feb. 3 (AP) -Arizona's best amateur golfers stepped into big-time competition with the nation's leading professionals today in the pro-amateur prelude to Friday's opening round of the \$5,000 Phoenix open golf tournament.

It was strictly a tune-up performance for the 35 pros entered in the main event, as they began teeing off with as many as three partners each from the heavy field of simon-pures

The flat fairways but welltrapped greens of the Phoenix country club's 18-hole, par-71 layout won't see the real crowds until tomorrow when the money players start matching strokes for the 72-hole crown.

It will be the rubber-test in the Byron Nelson-Harold (Jug) Me-Spaden winter tour rivalry which started with the Los Angeles open earlier this year.

Both pros made a tactical secret of their practice rounds on the Phoenix course yesterday while Harry Cooper of Minneapolis

Willie Goggin, New York; Ellsworth Vines, Pasadena, Calif., former national tennis title-holder, and Johnny Revolta, Evanston, III., posted 68s.

Craig Wood, Mamaroneck, N. Y. duration. National Open champion, and Toney Penna of Dayton, O. carded 69s and one-off-par 70s were turned in by Ed Dudley, Colorado Springs; Jimmy Hines, Amsterdam, N. Y.; and Sam Byrd of Detroit.

A Timely Suggestion to Car Owners

It has come to our attention that the government may soon order a switchover from "synthetic" camelback now used in recapping passenger car tires to "reclaimed" rubber camelback. If your tires need recapping we suggest that you have the work done while the present supply of good synthetic camelback is available.

Women of Umerical
It's up to you!

Our enemies have boasted that American women are pampered, luxury-loving morons who would be of no help to our fighting men at war. But - they were wrong. American women everywhere are doing a bangup job-in the service, in industry, in business, on the farm and in the home.

But-bigger incomes are tempting some women to buy luxuries they've wanted, perhaps for years, but which they don't really need now. · Every true American woman prays that the war will end-soon. But you've got to do more to hasten

victory, for 1944 is the year of decision. You've got to do your full duty by our boys at the front by keeping up your regular purchases of War Bonds by buying at least one extra \$100 Bond during this Drive and by saving every cent you can in the world's best investment-War Bonds of the Fourth

War Loan. When the war is over, you'll have a lot more money to buy what you want. Meanwhile, you can exult in the knowledge that you are fighting for your country in the most effective way possible. Women of America-it's up to you!

Fair Play

The happy solution to fixing prices seemed to been in petting retail prices.

At the outset of our price control program, re reasoned that if the price which the consumer had to pay were fixed, the retailer could not af-ford to pay more than an amount that would accord him a profit, and that the same would hold true for the wholesaler and processor.

Well, this worked in some cases, and in others It didn't. Typical of the case where it didn't is the rolled oats industry. Prices for raw grain con-tinued to mount, but the sales prices were fixed. Price for milling oats pose from 54 1-2 cents per bushel to 83 1-2 cents, an increase of 42.6 per cent. Still the price the processor is allowed to charge for the finished product remains unchanged. The net result is that sales now incur a loss of 25 to 50 cents per case for the manufacturer.

The American sense of fair play tells us that obviously some adjustment should be made. We hold no brief for any particular manufacturer, but to contend that any business enterprise, whether it is farming, selling or manufacturing, is en-titled to a reasonable profit if efficiently managed.

The act designed to control inflation by fixing prices had this very principle in mind by stipulating "a generally fair and equitable margin be owed for . . . processing."

Repeated conferences, nearly a dozen of them, have failed to shake OPA into action. We think it is high time for action by either seeing that the rice of oats is rolled back or that the processor is allowed more for his products.

Trade Marks

There is in congress now a move to eliminate

trade marks. The theory behind this is that a system of fixed prices and standard quality would assure uni-formity and security for the consumer. Presumably, this would result in saving to the buyer.

Actually, this is improbable. The history of

trade marks or brand names indicates that the reverse is true.

Trade marks came into being as an identity for the maker. Soon, processors discovered that quality work coupled with comparable prices increased the demands for their goods. Organizations which had fostered the plan in the beginning attempted to substitute fixed prices and standards of quality in order to maintain primary importance for th organization. Government intervention was effect-

ed, and in time the consumer, who was the object

of this protection, was paying more for his goods

because he had administrative tax load to pay. There is nothing which guarantees reasonable prices and high quality like a discerning consumer. The manufacturer is on the spot everytime an item of his goods are sold. They have to be priced right to stay in competition, and they have to be of good quality if the customer is to buy again and tell others. They know if another comes along with a better article at an equal or lower price that they will be forced out of the picture. Hence,

progress is insured. Clearly this is the simplest and safest way of marketing goods. If you agree, you might tell your congressman to resist any efforts to replace it with a theoretical, unworkable plan.

It is a common error to suppose that "obverse" as applied to coins means the reverse or back side. "Obverse" is opposed to 'reverse" and means turned toward or facing one. The obverse of a coin or medal is the side containing the principal device, the front, or the side meant to be dis played. For instance, the obverse of the current American one-cent piece is the side with the picture of Linceln.

didn't depend much on charts but almost entirely on his 30 years of prodding around the Potomac. What makes his expert skippering remargable is that the Potomac has more than 15 fulles of dredge channels and the tides and flood waters are constantly filling these with silt. Reckonings in inches are hairbreadth calculations that require a knowledge of what took place in recent weeks or even days.

Add to this that the U.S.S. Mariner was about twice the size of any boat Captain Slye had brought up the river.And top it off with the fact the Mariner ordinarily would require two tugs to dock her but this time she had none. The Captain laid her along-side the wharf as easily as an expert car driver would park on a deserted street

The Captain doesn't make much of his accomplishment. Questioned about it, he marely said: Well, it was just like driving along a country road you have known all your life."

Greene Speaks At Kiwanis Meeting

"An adequate supply of water is the primary contributing factor to the future continued growth of Big Spring and Howard county," said Jimmy Greene, guest speaker

at the regular weekly Kiwanis luncheon Tuhrsday.

"Without water we will cease to grow," he continued, in a speech thanking the service clubs of Big Spring for their support of the hamber of comn cree in the past and soliciting more aid for the "Men returning from service

must be employed and their em-ployment will depend on the wage earning productivity of the terri-tory at that time," he ascertained. He concluded with the statement that the chamber of com-

merce depended on the four serv-ice clubs for maintenance, with work, time and money. Willard Sullivan, outgoing president of the chamber of commerce expressed appreciation for cooperation extended him while in office and asked that his successor be treated equally as well.

Kiwanian Ernest Hock and wife sang a duet accompanied at the piano by Dan Conley. The Kiwanis club has assumed part responsibility for the sucmy show "Khaki," for which admission is by war bond only.
