## Triple Expansion — —

# US Air Force Of 400,000

WASHINGTON, Oct. 23 (AP)—Secretary Stimson announced war department preparations today to expand the army air force to 400,000 flying cadets and enlisted men by next June 30, nearly tripling their present strength.

"Subsequent expansion, possibly to the 500,000 level, is possible beyond that date," Stimson said.

The present organization of the air force is based on 54 combat groups, whereas the enlarged program calls for 84 such groups, each composed of several squadrons.

The secretary said the 54-group undertaking was "well on its way," but not yet completed.

Congress was told the original program provided for a force of 25,000 planes, but Stimson declined to state how many of these were in service or how many were contemplated under the enlarged program.

"This new plan means we have reached the point where our air forces are expanding very rapidly," he told a press conference.

## Plenty Petroleum Now In

## The East, Ickes Asserts

WASHINGTON, Oct. 23 (AP)—Petroleum Coordinator Ickes said today that the prospect of a severe petroleum shortage in the east, about which he warned often in recent weeks, now was virtually erased.

Gasoline supplies now are actually above last year, Ickes reported. For the first time since he gloomily told last summer of possible gasless autos and homes with less heat this winter, the coordinator declared the general outlook on the Atlantic seaboard now was "optimistic" but he did not say when rationing of gasoline to filling stations would be ended.

Rapid improvement in the situation was attributed by Ickes to the program of the petroleum coordinator's office, coupled with continued widespread warm weather which held down the consumption of heating oils.

The announcement said that shortly after the coordinator's program was launched last summer, petroleum stocks on the east coast were 9,000,000 barrels less than at the same time last year, but that inventories for the week ended October 15 showed "this now has been reduced to 478,000 barrels" for all oils.

## Oil Allowable For November Is Increased

AUSTIN, Oct. 23 (AP)—The state railroad commission today authorized average production of 1,833,263 barrels of oil daily during November, an increase of 89,285 over the allowable for October.

Texas fields, save for usual exceptions due to special conditions, were ordered shut down for eight days, compared with nine in October. The shutdown days will be Nov. 2, 3, 9, 11, 13, 14, 15 and 17.

Considering the shut-down and 8.5 per cent normal production below the allowable, the actual output will be 1,479,618 barrels daily, the commission estimated.

The bureau of mines estimate of market demand for Texas oil in November was 1,454,700 barrels daily.

Ernest O. Thompson, commission chairman, said the order would allow the building up of stocks against spring demand which apparently would be surprisingly high.

Another commission member, Olin Culberson, asserted the order represented the studied opinion of all commissioners as to what was needed at this time.

"Any time the defense situation requires more oil, it will be had," Culberson said.

The order was also signed by Jerry Sadler, third member of the commission, which regulates the oil industry in Texas.

"The order which we are releasing today provides for the production of 1,833,263 barrels of oil per day," Thompson said.

"If the bureau of mines estimate of market demand is correct, this production will allow us to rebuild our storage at the rate of 24,918 barrels per day.

"This is a wise precaution at this season of the year so we may rebuild our stocks against the spring demand which apparently is going to be surprisingly high."

Comparative basic allowables by districts on Sept. 1, Oct. 1 and Nov. 1 were:

- Southwest Texas, 218,328, 321,900 and 322,266.
- Gulf Coast, 297,027, 367,309 and 351,507.
- East Central Texas, 95,008, 94,797 and 94,518.
- East Texas, 511,223, 511,422 and 511,422 (approximate).
- West Central Texas, 66,545, 68,964 and 69,838.
- West Texas, 247,043, 303,575 and 300,208.
- North Texas, 150,296, 154,480 and 157,029.
- Panhandle, 81,606, 114,000 and 112,244.

## Weather Forecast

WEST TEXAS — Mostly cloudy with rain tonight and Friday; rain locally heavy in north portion tonight and central portion Friday. Cooler in north portion.

EAST TEXAS — Considerable cloudiness with scattered showers tonight and Friday, colder in north and west portions tonight; colder Friday except on lower coast and Rio Grande valley.

LOCAL WEATHER DATA — Highest temp. yesterday, 73.1.

Lowest temp. today, 62.8. Sunrise today, 6:06 p. m. sunrise Friday, 6:38 a. m. Frost "advisory" a trace.

## Coal Miners Threatening A Walkout

By the Associated Press — Seven large steel companies today faced the prospect of strikes in their "captive" coal mines next Monday night, while 20,000 Alabama coal miners remained idle in a wage dispute.

The CIO United Mine Workers last night issued a formal strike call in the captive mines, renewing their demand for a union shop. A similar demand last month caused a seven-day strike of 43,000 workers, ended by a 30-day truce arranged to permit the national defense mediation board to consider the dispute.

DETROIT, Oct. 23 (AP)—Michigan state police were ordered to guard approaches to the Ecorse plant of the Great Lakes Steel Corp., at 4 p. m. today when the management planned to resume operations despite a strike.

Capt. Laurence A. Lyon of state police said approximately 100 troopers drawn from southern Michigan posts would be on duty.

The Detroit plant is one of the largest in the country, producing steel for the navy and aircraft industry. The strike would have a serious effect on the production of steel for the war effort.

# Nazis Almost To Moscow Suburbs, Claim Break-Through Of Defenses

## Full Aid To Reds Urged In British Debate On War

LONDON, Oct. 23 (AP)—Attacks designed to knock Italy out of the war, night land raids on German-held coasts of the continent and a fighting British stand alongside the red army in the Ukraine were advocated today in a full dress war debate in the house of commons.

Simultaneously Supply Minister Lord Beaverbrook, back from Moscow, told the house of lords that Russia's great losses of war supply manufacturing facilities left the U.S.S.R. in a position akin to that of Britain after Dunkerque.

Foreign Secretary Anthony Eden, replying for the government in commons, declared "we realize what opportunities this German attack (on Russia) offers us," but added that to tell what plan of action will be taken "would be playing into the hands of the enemy."

"I can only give this house one pledge," he said, "and it is a pledge I assure them that the government is determined to honor. 'We are going to give Russia every help in our power by every means.'"

He told commons that even at the expense of the British army, equipment was being speeded to Russia.

Lord Beaverbrook said the United States and Britain missions to Moscow had promised Joseph Stalin to make up Russia's losses in tanks and planes with shipments from their own production lines.

He declared bluntly that the situation in Russia was grave despite the development of many moveable industries. He said Stalin described this as "tear frog industries which could be moved backwards or forwards as the enemy advanced or retreated."

"They have steel plants and heavy engineering works 900 miles or more from the German line of advance," Lord Beaverbrook said, "and these are capable of immense production."

Speaking at the same time were telling the house of commons that the people of Britain were "ready to face risks for Russia"—"that many felt not enough was being done."

A majority of those taking part in the debate agreed that a large scale invasion landing on the continent would stand little chance of success, but commander Stephen King-Hall, laborite member, asserted that "Germany has an appendix called Italy and that opens up vital possibilities."

Col. Josiah Wedgwood, another laborite, suggested that there were "at least 100 places" along the European coast where British troops could force landings in night raids.

A third laborite, Philip J. Noel-Baker, opening the debate for the opposition, declared "the army wants to fight," said the Volga had become Britain's frontier and added:

"We now have powerful forces in the Middle East, and I believe our people would be very happy if some part of these forces could be sent to support Russian armies in the Ukraine."

Heretofore there has been no district contest to eliminate contestants and each high school sent a representative to the convention. This new method will cut the number of speakers at the convention to approximately ten.

The winner of the convention talk will be awarded the Etheridge cup and a \$20 prize. District winners will receive \$10 prize and the honor of competing in the finals.

WASHINGTON, Oct. 23 (AP)—Legislation requiring the agriculture department to make farm loans at 100 per cent of parity for the 1942 and 1943 marketing years was approved today by the house agricultural committee.

Also, the legislation would continue authority for soil conservation payments for five more years. Present law requires loans at 85 per cent of parity for the nation's five major crops—wheat, cotton, rice, corn and tobacco.

The committee previously had agreed to extend the 85 per cent parity-pegging loans for the next two years but unexpectedly rescinded that action today and raised the level to 100 per cent.

Parity is defined as a price level which would give farmers the same purchasing power, in terms of non-farm products, they enjoyed in some previous base period, usually 1909-14.

## City May Be Within Range Of Artillery

London Reports A German Drive For Caucasus Oil Area

NEW YORK, Oct. 23 (AP)—The German radio, quoting military quarters in Berlin, said today that German troops are so close to Moscow at several places that the city probably is now within range of heavy German artillery.

## Two Killed In Collision At Midland

MIDLAND, Oct. 23 (AP)—The collision of an east-bound Greyhound bus and an automobile during a heavy rain last night killed two automobile passengers and injured three persons riding on the bus.

The dead were John O. Beck, about 40, city secretary at McCombs, Texas, and a woman not fully identified. Her home was believed to be at Odessa.

Injured, but not seriously, were E. H. Wilkes, 34, of Ardmore, Okla.; Kay Dennis, 16, of Springfield, Mo.; and Private Jerome Pippo, 21, who was enroute from his San Francisco home to Camp Bowie at Brownwood.

The bus went into a ditch, turned on its side and skidded into a corner of a tent-covered skating rink, which was damaged slightly. None of the skaters was hurt.

## 'Home Town' Entry Named

Grover Cunningham, son of Mr. and Mrs. G. B. Cunningham, won the right to represent Big Spring in the district elimination of the "My Home Town" speakers sponsored by the West Texas Chamber of Commerce in finals held Wednesday afternoon at the high school.

Theme for this year is "My Home Town in Defense." Competing with Grover were Verne J. Stephens and Norma Dyer. Judges of the event were Mrs. Lillie Mae Wimberly, Mrs. James A. Fowler and Joe Pickle.

Grover will compete in a four-district elimination contest October 27 at Odessa with winners of other high schools in districts 6-7-8-9. The winners in the district event will speak before the delegates' assembly November 4 at the West Texas Chamber of Commerce convention in Midland.

Heretofore there has been no district contest to eliminate contestants and each high school sent a representative to the convention. This new method will cut the number of speakers at the convention to approximately ten.

The winner of the convention talk will be awarded the Etheridge cup and a \$20 prize. District winners will receive \$10 prize and the honor of competing in the finals.

## Highway Users Pay More Taxes

WASHINGTON, Oct. 23 (AP)—State treasuries collected \$1,327,277,000 from highway users in 1940, an increase of 6 per cent over 1939, John N. Edy, acting federal works administrator, announced today.

State gasoline taxes accounted for \$570,128,000 of the total motor vehicle fees, \$439,172,000, and motor carrier taxes, \$177,977,000.

The announcement said the disbursements of gasoline and other taxes included \$754,495,000 on state highways, \$723,331,000 for local roads and streets, and \$196,879,000 for non-highway purposes, such as relief, education, and general state funds. The cost of collection was \$46,693,000.

## Job For Henderson

WASHINGTON, Oct. 23 (AP)—The task of enforcing new regulations against non-essential building construction was entrusted today to Administrator Leon Henderson of the OPM's office of civilian supply.

Virtually all Howard county farmers have received their 1941 cotton parity payments, the AAA office reported Thursday.

A batch of 83 checks totalling \$4,183.25 was received, bringing the total to 1,904 checks amounting to \$139,649.43. Less than 20 checks are believed to remain due.

Meantime, farmers are signing applications for soil conservation payments as fast as the office crew completes computations and fills out the application forms. Each farmer is notified by postcard as his application is ready.

RAIN AT CLOVIS — ALBUQUERQUE, N. M., Oct. 23 (AP)—A rain belt extending across the Texas Panhandle from Eastern New Mexico today added nearly two inches of precipitation to the record-breaking total at Clovis.

New Fall Dress—Uncle Sam's parachute troops are getting new jumping suits for the fall season at Fort Denning, Ga., as modeled here by Pvt. Harold E. Cooper, left, of Goodrich, Texas, and Pvt. Thomas F. McNary, Elm-Burst, N. Y. Suits are of special gabardine-cotton mixture checked brown for camouflage; are two piece and provide more space for carrying knife, pistol and grenades.

## Dawson Fair Off To A Damp Start

One West Texas county fair—that at Lamesa—opened today and another—at Stanton—was to begin Friday, despite inclement weather.

At Lamesa, the three-day Dawson county fair received a damp start as rain pelted the grounds intermittently throughout the morning, but new housing facilities have been provided and fair sponsors hoped to make a success of the show despite the weather.

For the second successive year, Lamesa was offering a free gate show. A long list of cash and ribbon awards is offered. Particular stress is being laid on beef and dairy cattle, and farmers and ranchers promised a creditable showing.

Community educational exhibits were in place and promised to be a feature part of the exposition.

A detachment of soldiers from the army supply depot at San Antonio were to add a military air in demonstrating the work of the army. A carnival was on hand to complete the air of festivity.

The Dawson county fair will continue through Saturday night.

In Stanton, the Brator and Peters buildings on highway 80 have been arranged for the showing of Martin county agricultural products, the finest grown in many years.

Community booths, 4-5 boys and girls exhibits, and a showing of relics, needlework and other items was on schedule for the Friday and Saturday event.

## Youth Injured In Laundry Machine

HOUSTON, Oct. 23 (AP)—A 15-year-old boy who left home more than two years ago to make his own living was in a critical condition from injuries suffered when he was caught in a laundry machine last night.

The boy, Howard Earl Reed, lost his right arm, suffered a fractured right leg and was cut and bruised. Reed told ambulance attendants a sheet jammed a machine at the laundry at which the boy worked. He said he shut off the power, and turned it on again after he thought he had untangled the sheet.

Meantime, farmers are signing applications for soil conservation payments as fast as the office crew completes computations and fills out the application forms.

Each farmer is notified by postcard as his application is ready.

### Singers Will Convene Here This Weekend

Singers from over West Texas are being invited to come here Saturday and Sunday to participate in an attempt to organize a regional singing convention.

Paul Attaway, acting vice-president of the Howard County Singing Convention, will be in charge of the session, which opens Saturday evening at the Trinity Baptist church. He will preside until some organization is perfected.

Originally it was planned to set up a four-congressional district convention here, but instead of restricting it to singers in the 16th, 17th, 19th and 21st districts, the meeting is being thrown open to all West Texans who are interested in establishing an area-wide unit.

Attaway indicated a dozen quartets, including some of the better known vocal units of the state, would be here for the party along with scores of delegates from widely separated points.

Territory from which the organization would get its members would be all of Texas west of the western boundary of the East Texas Singing convention, which boundary passes roughly between Fort Worth and Dallas.

### Italian Newspapers Flay Cordell Hull

ROME, Oct. 22 (AP)—The fascist press called United States Secretary of State Cordell Hull a "vulgar agent provocateur" today for his advocacy of neutrality act modifications.

"As a statesman and government figure, Hull is a frantic organizer of crimes, a sure instrument for the worst things for the most wretched undertakings," the newspaper Il Messaggero declared, contending that President Roosevelt gave him the job of hastening the United States into participation in the war.

### German Submarines Sink Four Ships

BERLIN, Oct. 22 (AP)—The German high command said today that U-boats had sunk four merchant ships totalling 22,000 tons, including the 14,000-ton troop transport Aurania.

(Lloyd's register of shipping lists an Aurania as a 13,984-ton passenger liner of the Cunard-White Star line. Her port of registry was given as Liverpool.)

It was stated that the ships were sunk from out of a well-defended convoy.

(There was no immediate announcement as to whether the Aurania was believed to have carried any troops.)

### Employees Due Statement Of Their Earnings

Complaints recently received from workers indicate that some employers are not familiar with the requirement that a statement of wages paid must be given to each employee, according to Robert M. Mayne, manager of the Big Spring office of the Social Security Board.

"The Social Security Act provides that every employer shall furnish a written statement to each of his employees, in a form suitable for retention by the employee, showing the amount of

wages paid," Mayne said. "No special form is prescribed, but the statement should show the employer's name, the employee's name and account number, the total wages paid, and the amount of tax deducted. The statement may be given for any period not exceeding one year; if given on each pay day, and the rate should be shown, but if it covers more than one pay period, the statement should show the period of time covered. When a wage earner's services are terminated for any reason, a final statement covering all wages paid since the preceding statement must be given by the employer at the time of the final wage payment. Willful failure of an employer to comply with these requirements makes him subject to a penalty of not more than \$5.00 in each case."

### O. E. Stevenson Funeral Held At Loraine

COLORADO CITY, Oct. 22 (SpI)—Funeral was held Wednesday afternoon at the Loraine Methodist church for Judge O. E. Stevenson, 81, of Loraine, who died in a local hospital Tuesday midnight. He had been in the hospital since Sunday, but had been in ill health for some time.

The body was taken Thursday to Floresville, former home of the Stevenson family, for graveside services and burial at 4:30 Thursday afternoon. Officiating for the service in Loraine was Rev. Sam H. Young of Sweetwater, assisted by Rev. J. E. Shewhart of Loraine and Rev. C. M. Epps of First Methodist church, Colorado City.

Judge Stevenson's younger daughter, Mrs. George Mahon, and her husband, Congressman Mahon of the 19th district, arrived at his bedside a few hours before his death. They came from Washington to Dallas by plane. Other surviving children are Mrs. W. W. Rhoads of Colorado City, M. K. Stevenson of Sweetwater, and O. E. Stevenson, Jr., of Sudan; The late Dr. C. W. Stevenson of Wichita Falls was another son. Judge Stevenson was the grandfather of Dr. Wm. B. Rhoads and Dr. Oscar Rhoads, Colorado City physician.

Also surviving his wife, the former Isabel Ruth King, whom he married in Stockdale on June 29, 1881. They passed their sixtieth wedding anniversary this summer. They lived for years at Moreville, then moved west in 1909, living in San Angelo and Mertson. Judge Stevenson was county judge of Irion county for several years. He and Mrs. Stevenson moved to Loraine 26 years ago. He was a cotton buyer for 50 years. He was born in Sutherland Springs, Texas, on February 10, 1860.

**Cotton Bale Averages 540 Lbs.** MEMPHIS, Tenn.—Although the average bale of cotton weighs about 540 pounds, it is necessary to gin about 1,380 pounds of cotton to make it. (Second of two articles on danger spots in Japan's southward march.)

### AP Feature Service

**BANGKOK, Thailand**—Reports from reliable sources here agree that the Thais (Siamese) are prepared to fight and will give a good account of themselves, if attacked. Thailand is caught between two world powers pushing in opposite directions. On the Indo-China border is a powerful Japanese army. On two other borders, in Burma and Malaya, there are large British forces.

The Thais have no quarrel with Japan or Britain.

### British Ready

But Japan's "southward march," particularly since the move which brought Japanese troops into Indo-China, threatens to cut right across Thailand, in a possible move toward Malaya and Singapore. It is reported, on the best authority, that Japan has been negotiating with the Bangkok government for bases and the right to pass troops through Thailand.

Observers believe the British answers to this would be prompt and vigorous . . . British troops would

### Suffered Misery From Kidney Pain

"I suffered untold misery after every meal," states Mr. R. W. Clark of 315 East 8th Street, San Angelo, Texas. "Gas and sourness caused me to belch hot liquids. My kidneys and bowels did not function. I had pains in my back, was nervous and couldn't sleep."

"Hoyt's Compound relieved me of indigestion, gas and bloating. My kidneys and bowels are regulated. The sourness and belching are gone. My nerves are stronger, the pain gone. I can eat any food, thanks to Hoyt's!"

Hoyt's Compound is recommended and sold by the Collins Bros. Drug Store and by all leading druggists in this section.—adv.

get there first. In either case, Thailand would find herself at war.

However, the highest government officials in Bangkok insist their only concern is to maintain friendly relations with both sides.

At the same time, they admit their position has been complicated by a flirtation of some years' standing with the Japanese.

It reached a climax a few months ago when Japan mediated in the border war between Thailand and French Indo-China. Thailand got large slices of French territory under these auspices. Now Japan is reported increasing diplomatic pressure for an agreement with Thailand.

The Thais can put 400,000 first-line troops into action at a moment's notice, mobilize another 600,000 reservists. The Thai air force, probably around 250 fighters and bombers,

is composed of American, Italian and Japanese ships. Their bombers gave a very good account of themselves, eye-witnesses report, and were largely instrumental in dislodging French troops. The Thais never tried night bombing, but were fairly efficient in attacking ground positions with machine-guns.

As for the fighting qualities of the Thai soldier, this is the testimony of a French officer:

"They had courage to burn. They came on and against us, even when we were dropping them in piles in front of our position."

**'Courage To Burn'** Only a few army units are mechanized, but foreign military experts believe there is enough of such equipment, in view of the terrain on the Thai frontiers. It is largely jungle and roadless.

As for the fighting qualities of the Thai soldier, this is the testimony of a French officer: "They had courage to burn. They came on and against us, even when we were dropping them in piles in front of our position."

### Tax Payers Owe School District Over \$50,000 In Past Due Debts

The Big Spring Independent School district has more than \$50,000 in delinquent taxes it would like mighty well to clear off before Nov. 1 at a big saving to taxpayers.

Delinquent accounts for 1939 and prior years total \$53,923 and if paid by Nov. 1 can be settled for no interest and penalty or single pieces may be cleared by property holders without clearing their other property for only six per cent. As of Nov. 1 and subsequently the rate of penalty and interest goes upstairs six strides at a time until it reaches 47 per cent in some cases.

In addition to these delinquents, the school district has \$10,671.98 delinquent from last year's roll

which must be computed by those who are clearing their property. Here is the way the delinquent rolls stack up by years:

1922	197.21
1923	180.50
1924	186.37
1925	302.00
1926	437.95
1927	515.16
1928	717.63
1929	1,801.28
1930	3,197.01
1931	4,165.70

### Grocers Warned To Obey Food Stamp Law

DALLAS, Oct. 23—Officials of the regional office of the Surplus Marketing Administration, USDA, today pointed to the advisability of close adherence to Surplus Marketing rules by cooperating businesses.

Judge Allen Cox of the northern district of Mississippi recently sentenced G. C. Josey, 55, a Starkville grocer, to two years and four months in the federal penitentiary and fined him \$250 plus a five-year probation period after serving the sentence, for presenting false claims against the United States government. Previously he had sentenced James Newton Weir, a 65-year-old West Enterprise, Miss., grocer, to three years and fined him \$1,000 for violation of the food stamp program.

The Newspaper Provides Entertainment and Amusements For ALL Its Readers . . . Young and Old

Meet Charley and Ruth Lane. At the moment they're smiling at a cartoon that appears daily in this newspaper. When they get through, they'll turn to the comic page and find out what's happening to their favorite "funnies" hero. Tonight, after dinner, while Charley parks himself behind the sporting page, Ruth'll sharpen her pencil and get to work on a crossword puzzle in the front section. Then they'll probably wrangle awhile over who gets to read today's fiction story first, and by that time they'll be ready to look in the amusement section to find out what movie they want to see.

No, they're not any sillier than anyone else. Upwards of a hundred million people do just about the same thing, and for an hour or so a day, they're completely centered around their newspaper. It means something to them besides news—it's diversion and relaxation and entertainment.

**THERE GOES A TIRE!**  
... but why junk the car?

Any car can have a blowout in a tire. But you wouldn't junk the car. You'd just fix the tire—or replace it.

That's very much like a situation that exists in the retailing of beer. Beer retailing has its "flat tires," too—retailers who disobey the law or who permit unsavory conditions.

To protect your right to drink good beer, we of the beer industry want to eliminate the few "flat tire" retailers. Here's another reason: Right here in Texas, beer has provided employment for 31,165 persons, supports an annual payroll of \$22,076,182 and paid \$2,273,968.64 in state taxes last year.

The state, too, has an important stake in the beer industry's purchases—for material, equipment and services—from more than 100 other industries.

Those benefits are worth preserving. You can help us preserve them by patronizing only the reputable and legal places where beer is sold and by reporting any law violations you may observe to the duly constituted authorities.

Humphrey Bogart Makes Good Career Out Of Movie Roles That George Raft Turned Down

By ROBBIN COONS HOLLYWOOD — George Raft wouldn't play in "The Maltese Falcon" because it was the director's first picture. Humphrey Bogart didn't mind that, which would seem to show what a smart boy Bogie is—this same Bogart who is building a new thumping career out of roles that Raft turns down.

Hector Cortez, made no movie history. "I've never seen it," says Huston. "Our picture, however, is the book—with no changes. I tried, in the screenplay and in direction, to put as much of Hammett in it as I could—as much of his wonderful pace and suspense. The dialogue is pure Hammett. My only problem was translating this rich movie material into screen form."

Texas' Man Connally Looks Most Like Senator Of All

WASHINGTON — If I had to name the senator who looks most like a senator, I'd probably pick Tom Connally, of Texas—the man who occupies the "hot seat" in all impending foreign policy legislation, including that package of legislative dynamite referred to as revision of the Neutrality Act.

TOM CONNALLY

It's a big order, but one over which the White House has no qualms. For Senator Connally, on both sides of the fence, has proved his mettle. He is solidly behind the President's foreign policy, including even total repeal of the Neutrality Act, but he is no yes-man.

Capital gossip now has it that it was Connally who was responsible for the strategy of splitting up the issues in revision of the Neutrality Act and insisting that the first effort merely involve the amendment of merchant vessels—that repeal of the provision against those vessels going into war zone harbors come later.

About 2,500 men are now at work on the new United States naval air base at Piacentia Bay, Newfoundland. The completed facilities at this base leased from Great Britain will cost \$17,000,000.

Russell Bros. Circus To Play In Big Spring Next Thursday

The 1941 season won't get by without Big Spring having a circus. Advance arrangements have been completed for the showing here, on next Thursday, Oct. 30, of Russell Bros. Greater American circus. The big top will be on the Reed grounds on West Third street.

With new features announced for this year, two performances will be presented, afternoon and night, under a completely new tent layout. Among the headliners are the world famous Clarke family of bareback riders, starring Miss Ernestine, "sweetheart of the equestrian world"; the Four Acrobats, Latin American winners of the light wire; Walter Jenner's marvelous trained seal exhibition featuring Buddy, the most highly educated sea lion of all time; Miss Aerioletta, America's foremost female aerial gymnast; the Flying Clarksons, the Aerial Brocks, and many others.

In the process of modernization, the Russell Bros. management has faithfully retained all of circusdom's cherished and time-honored traditions, endowing them with new ideas of presentation and lighting, a spirited fast-moving tempo, and a modern musical setting under the lively baton of Eddie Woekener, most colorful of all circus bandmasters.

The wild animal displays have been materially enlarged and augmented. Doors open at 1 and 7 p. m. to allow ample time to tour the menagerie before the big show starts at 2:30 and 8.

The War Today -- There'll Be An Appeal For An American Expeditionary Force

By DEWITT MACKENZIE There is much food for reflection in British Foreign Secretary Eden's statement in the house of commons that a large-scale road and railway-making organization of American engineers is being created and that this will be immensely important in view of the British-Russian communications through Iran (Persia).

Someone raised the question with me yesterday as to whether American soldiers wouldn't be needed in an invasion of western Europe, and the answer to that is "no." As a high British army officer remarked to me, there aren't sufficient ships in the whole world to transport enough American soldiers and equipment and supplies for a concerted landing in Europe against enemy opposition.

Still, when the fighting comes up in the Middle East the allies are going to need troops and equipment which they do not possess. The answer as to which direction they are going to turn for help is easy.

Boston College's halfback, Ted Williams, is used mainly as a decoy while other players run with the ball... That probably explains why he doesn't get much attention from the Fenway fans, who are used to a Ted Williams who is de McCoy.

### Note To Halloween Celebrants: Better Keep Within Law

DALLAS, Oct. 23 (AP)—Halloween isn't. Not any more, it isn't. The once sacred evening has evolved into something else again. Take Dallas for example. The police here are already riding their Sam Brownes in grim, though hardly eager, anticipation.

Halloween is eight days away, but the authorities have begun their annual warnings. They speak ominously of heavy hands to be laid on individuals who overstep the bounds.

Mayor Woodall Rodgers is conjuring up phrases about law and order. He said the police department has been instructed to arrest all and sundry who interfered with

private property. Presumably he didn't mean that public property would be fair game, either.

The righteous indignation of the gendarmes, asserted, His Honor, awaited those who seriously disturbed the orderly conduct of traffic or inflicted bodily injury upon others.

"Not only will such persons be arrested, but they will be brought to trial and adequately penalized if they are found guilty," the mayor declared.

"Past Halloween celebrations have been marked by unnecessary vandalism and rowdiness," he continued, putting it mildly. "They have brought discredit to the city and make a Donnybrook Fair of an ancient religious festival."

In order to put emphasis on this ruling against the hard-headedly vandalistic, Police Chief J. M. Welch ordered every member of the force to be on duty Halloween.

### Housing Contract Topic Of Dispute

WASHINGTON, Oct. 23 (AP)—Senator Brewster (R-Me) protested today that Sidney Hillman, director of labor relations for the defense program, was exercising "dangerous powers" by advising against award of a contract to a low bidder on a Wayne county, Mich., defense housing project.

Brewster, member of the senate committee investigating national defense, said he would urge that this controversial contract be awarded to the low bidder at once despite Hillman's testimony that he feared such action might cause a "civil war" in Detroit labor circles.

Hillman told the committee yesterday that the enterprises of P. J. Currier of Detroit, low bidder on the job, had been operated on a non-union basis except for a brief interval, and that Currier at one time was engaged in a "bitter fight" with the Detroit teamsters union.

"All these facts," Hillman testified, "indicated to the labor division that the experience of the Currier companies in their labor relations was such that serious consequences might result should this award be made to the Currier company."

Brewster commented as the senate group asked Hillman to return for further testimony today on the subject.

### Dog Uses Phone

VEVAY, Ind.—"Number, please," said Mrs. Edward Mead, telephone operator, in answer to an early-morning signal from the Vevay Revueille Enterprise.

"Bow-wow," came the reply Mrs. Mead, puzzled, telephoned Richard Henry, worker on the newspaper.

Henry went down to the office and found his Beagle hound, Fanny, had been locked in.

She'd knocked the telephone receiver off the hook and was barking at the instrument.

Did you ever make upside down rolls the KARO way?

For Sunday breakfast or supper, these delicious Karo Buns will make your family "sit up and take notice". They're so flavorful, so satisfying... and really easy to make. Just follow this recipe:

**KARO ROLLS**

2 cups sifted all-purpose flour	1/2 cup melted butter
2 tsp. baking powder	2 tsp. granulated sugar
1/4 tsp. salt	1/2 cup Karo (blue label)
1/4 cup shortening	1/2 cup chopped nuts
1/2 cup milk	1/4 cup chopped dates

Sift flour with baking powder and salt. Cut in shortening. Add milk slowly, to form a soft dough. Roll out on a lightly floured board into a rectangle 8x2 inches about 1/4 inch thick. Brush with 2 tsp. of the melted butter, sprinkle with sugar, then roll up as for jelly roll. Cut into pieces 1 inch wide. Mix Karo with the remaining melted butter. Add nuts and dates, and spread in bottom of greased 8-inch cake pan, or in large muffin pans. Arrange circles of dough out side down on top of Karo mixture. Bake in hot oven (450 degrees F.) 15 to 20 minutes or until brown. Makes 14 to 16 rolls.
