

Reds Slay Thousands In Slowing Nazi March

U.S. FORCES ADVANCE ON JAP BASE OF MUNDA

Sardinia, Sicily Pounded Heavily 5th Straight Day

Opposition Lighter, But Allied Airmen Shoot Down 10 Axis Planes

ALLIED HEADQUARTERS IN NORTH AFRICA, July 8 (AP)—The relentless Allied assault against Sicily and Sardinia went through its fifth consecutive day yesterday with heavy bombings of airfields and other military targets. It was announced officially today. Enemy fighter opposition was reported to have been on a "reduced scale," but nevertheless Allied fighters shot down 10 axis planes for a loss of five of their own.

Nelson Tells Of Big War Production

TORONTO, July 8 (AP)—The North American continent alone will outproduce the Axis in munitions this year by nearly two to one, Chairman Donald M. Nelson of the U. S. War Production Board reported today to the Canadian people.

Before the year's end Canada and the United States will be producing a plane every 4 2/3 minutes around the clock, Nelson said in a speech prepared for the Canadian Club. Already they have turned out enough small arms ammunition to fire 1,500 bullets at every soldier in the Axis army.

All the United Nations this year will make three times the Axis output of arms and next year four times, the U. S. production chief declared.

"These figures speak to the world in a big voice," Nelson said. "And if the Nazi and the Jap warlords are not completely insane, they will recognize that the voice is the voice of doom."

For the second time this week, Nelson spoke guardedly of impending vast military developments, to underscore a plea for renewed production effort "to defeat the enemy so crushingly that his spirit will be broken and the day of his unconditional surrender hastened."

Lint Acreage Down 5.6 Pct.

WASHINGTON, July 8 (AP)—The agriculture department reported today that cotton in cultivation on July 1 totaled 21,995,000 acres, or 5.6 per cent less than the 23,302,000 acres in cultivation a year ago.

Average area in cultivation on July 1 in the ten years, 1932-41, was 29,508,000 acres. Average abandonment of acreage from July 1 to harvest in the ten years 1932-42 was 3.9 per cent of the acreage in cultivation. Should abandonment this year equal the 10-year average, an acreage of 21,576,000 would be indicated for harvest.

Production on the 22,660,000 acres harvested last year was 12,824,000 bales of 500 pounds gross weight and the yield was 272.5 pounds to an acre. Average production in the ten years, 1931-40, was 13,109,000 bales and the yield was 215.0 pounds to the acre. The department made no estimate today of indicated production for this year as it is forbidden by law to issue its first production estimate of the season before August each year.

Hotter 'n Ever, As Mercury Goes To 100

"Continued warm" was the bad news coming from the weather bureau Thursday, because it meant that more excessive heat was in prospect.

Wednesday brought a new record high for the season, the second successive day. The top reading at the airport was 100. Tuesday's high was 99, and during the night the mercury got no lower than 73.

Commander—Capt. Charles Purcell Cecil (above) commanded the U. S. cruiser Helena, which the Navy disclosed, was sunk in an engagement with Japanese forces in Kula Gulf, in the Solomons.

Health Chief On Job Here

Dr. J. A. Olean was here Wednesday to assume his duties as director for the Big Spring-Howard county health activities under jurisdiction of the Midland-Ector-Howard county health unit of which he also is the director.

Now on the job here as sanitarian is V. A. Cross, formerly of Lubbock. He succeeds K. E. McFarland in this capacity and McFarland will go to Midland soon to become sanitarian engineer for the tri-county unit.

Dr. Olean will coordinate and help supervise the health work of official and voluntary agencies in Big Spring and Howard county and will work with and through the local medical profession in meeting the increasing health needs of the community. It is his duty to serve as advisor and coordinator in correlating the work of the various agencies to the end that public health will be maintained and promoted.

He received his orientation work in public health at the Yale school of medicine and the National Institute of Health in Washington after being called to active duty as a commissioned officer with the U. S. public health service in January of this year.

Dr. Olean is a graduate of the Sheffield Scientific school of Yale and attended Yale medical school from which he was graduated in 1923. After special training in contagious and children's diseases, he practiced as a children's specialist in Connecticut for 15 years before he returned in 1939 and travelled. Called to active duty, he was assigned to the Texas state health department and in turn requested he be sent to West Texas. His headquarters are in Midland and he said he likes this area of Texas.

Double Shooting Is Investigated

SAN ANGELO, July 8 (AP)—Officers investigated today the fatal shooting last night of W. C. (Bill) Bumgardner, 52, and his wife, Della, 45, south of San Angelo at the home of Mr. and Mrs. E. Waddell, Menard ranch couple. A suspect was held but no charges had been filed.

Expansion In Weather Observation Service Scheduled Here By Aug. 15

A substantial increase in weather observation service is expected here Aug. 15 when radiosonde or "ra-ob" runs are started at the U. S. department of commerce weather bureau at the airport.

Announcement of the ra-ob installation here was made Thursday by Charles H. Newton, observer in charge of the station. Big Spring first was slated for the service some three or four years ago but institution of the improved observation 'was delayed from one year to the next.

Newton predicted that the ra-ob runs would call for additional personnel, possibly three more staff members.

New Landings Come In Wake Of Sea Fight

Allies Also Making Progress Against Foe In N. Guinea

ALLIED HEADQUARTERS IN AUSTRALIA, July 8 (AP)—United States jungle fighters battled today within six miles of the Japanese air base of Munda from two new landing points on New Georgia Island, in the central Solomons area where the enemy's hold has been weakened by a crushing naval defeat.

The new landings were disclosed today by Gen. Douglas MacArthur in a communique which also contained the news that in the warship engagement during the darkness of July 5-6 above Munda in the Kula Gulf at least nine and possibly 11 Japanese cruisers and destroyers were sunk against the loss of the cruiser U.S.S. Helena.

(A dispatch quoting sources at the South Pacific headquarters of Admiral William F. Halsey said no other American warship even sustained damage in the engagement and that most of the more than 800 reported aboard the cruiser Helena were saved.)

The growing weight of the Pacific offensive began to tell against Japan at the other end of the 700-mile arc as well. General MacArthur announced that in the jungle fight on the approaches to the Japanese air base of Salamaua, New Guinea, Australian troops captured observation hill between Salamaua and Mubo after its Japanese defenders had been killed or demoralized by 166 tons of bombs dropped in less than 45 minutes by Boston attack planes, Mitchell and Liberator bombers.

The new landings which increased the peril to Munda were made Monday, today's communique disclosed. After American warships in Kula Gulf had shelled Munda's supply base at Bairoko anchorage before dawn Monday, the troops swarmed ashore at Rice anchorage, four miles north of Bairoko. That landing point is above Munda. Monday night, other American forces stormed ashore at Zanana, six miles east of Munda. They fanned out in patrols and latest reports were that some of them were fighting the Japanese along the Bairoko river.

It was before dawn the following morning that American warships made contact in the Kula Gulf above the scene of the latest landing operations with a Japanese cruiser-destroyer force. The surprised enemy was struck swift and telling blows by the guns of our warships, today's communique said.

"In the first phase of the engagement, four or five hostile destroyers were struck by smashing broadsides that within five minutes destroyed or set afire the entire group," it related. "Three or possibly four enemy light cruisers were then taken under fire. All were either sunk or afire within 15 minutes. One was beached." Later while the cruiser Helena's survivors were being rescued, "our destroyers intercepted and sank two or three enemy ships attempting to escape from the gulf and damaged the third."

Previously General MacArthur's headquarters had listed the enemy's Kula Gulf losses as six ships probably sunk and four damaged.

DIES IN SEYMOUR

AUSTIN, July 8 (AP)—Officials of the board of pardons were notified today of the death in Seymour of Miss Pauline Shipp, for 16 years executive secretary of the board.

Giraud Arrives—Came in hand, Gen. Henri Honoré Giraud, commander of French forces in North Africa, and co-chairman of the French Committee for National Liberation, marches down the steps leading from the plane which brought him to Washington, followed by his staff, to be welcomed by Admiral William D. Leahy and many ranking officers of the U. S. armed forces.

Senate Is Asked To Vote Compromise On Food Subsidy

WASHINGTON, July 8 (AP)—Bowling to threats of a veto, the senate abandoned by a 34 to 33 vote today a legislative prohibition against the payment of food price subsidies.

WASHINGTON, July 8 (AP)—Democratic Leader Barkley said today the senate will be asked to recede from its aggressive stand against all food price subsidies sufficiently to allow acceptance of a house-approved bill which continues the life of the Commodity Credit Corporation and permits continuation of the present meat-butler rollback.

Reporting a "complete disagreement" in the joint conference committee considering the measure, Chairman Wagner (D-N.Y.) said he would move in the senate for acceptance of the bill as it passed the house.

Barkley (D-Ky.) told reporters a proposal to insert in the bill a policy declaration putting congress on record as opposed to subsidies to roll back food prices had been rejected unanimously by the conferees. He said house members had steadfastly refused to accept any part of the senate version, which would place a specific ban on such payments.

Legislators said adoption of the house bill would leave the administration's subsidy program if exactly the same situation is now in, with subsidies being provided for meals and butter roll backs without specific congressional authority for such action. The administration contends the price control act authorizes such payments, but opponents have charged they are illegal.

Conferees said the decision may mean a postponement of the congressional wrangle over the subsidy-rollback program until the lawmakers return from a summer vacation in mid-September. If the senate agrees to recede from its stand—and there were indications it would—Barkley said it probably would be possible to begin a summer recess before nightfall. The house-approved CCC measure was revised by a senate committee to authorize expenditures up to \$25,000,000 for the subsidy-rollback plan but a sudden senate revolt threw out the proposal and substituted one to outlaw the payments. A similar provision was vetoed by President Roosevelt six days ago.

Youth Encampment Postponed As A Polio Precaution

The Youth Camp Council of Baptist churches in district eight, met in the Baptist encampment house at the city park this morning and voted to postpone the five day youth encampment which was scheduled to begin here Monday lasting through Friday afternoon.

According to announcement from the Rev. Dick O'Brien, pastor of the First Baptist church, "The encampment has been postponed until August 30th as a precautionary measure due to a threatened spread of infantile paralysis."

The encampment will last through September 3rd, and will be carried on according to programs and schedules already arranged.

across the face of a small rheostat. These impulses are transmitted to a radio receiver at the bureau and transposed mechanically on graph paper. When at last the balloon bursts, the parachute opens and carries the radio mechanism down. In other posts, it has been the policy that the finder return the box and receive a reward. Institution of ra-ob service here will close a gap existing in the hollow of a diamond between Oklahoma City, El Paso, San Antonio and Shreveport, where nearest radiosonde stations are located. Data on temperature, humidity and pressure aloft will give forecasters vital information.

Hitlerites Unable To Consolidate Their Small Gain

MOSCOW, July 8 (AP)—Fresh Nazi reserves were reported pushing through smoke and dust along paths marked by wrecked machines and the dead today to bolster the Kursk plains offensive which the Red army, fighting more brilliantly than ever before, has limited to small gains in the Belgorod sector.

Russian forces slew 30,000 Germans, destroyed or damaged 1,539 tanks and shot down 649 planes during the first three days of the battle, it was announced officially.

Nazi air force squadrons are attached constantly to the invasion armored columns under a new German plan of attack by which Hitler's high command hopes to pinch off the 60-mile-deep Soviet salient extending westward from Kursk. The immediate assignment of the Germans obviously is to attempt to push north from Belgorod and south from Orel, 165 miles apart, to a junction somewhere behind the Russian-held rail city.

(A Berlin military spokesman declared in a radio broadcast that tank battles yesterday in the area of Belgorod and south of Orel were "the greatest ever fought on the eastern front.")

Soviet dispatches said the Germans were finding their objectives packed with Red army men determined to fight to the death rather than give an inch. The Red air force was declared to be on at least an equal footing with the Germans.

The Russians for the most part are fighting tanks with stationary artillery, but also are employing tanks against tanks, a throwback to earlier tactics. A Tass correspondence said Soviet medium tanks made a breakthrough and engaged a group of 60-ton Tigers—approximately double their size—and destroyed four.

(A transoceanic dispatch broadcast by the Berlin radio said air forces were used on both sides in masses hardly ever witnessed before and that both Germans and Russians "are now employing tanks in unexampled numbers." The broadcast was recorded by the Associated Press.)

(The German high command communique also broadcast from Berlin, declared army units, artillery, fighter-bombers and tactical air forces destroyed more than 400 Soviet tanks and 193 planes yesterday.)

The strength of Russian forces is so great, according to Soviet dispatches, that even when the Germans succeed in penetrating Soviet positions they have been unable to consolidate for long. Soviet counterattacks have served to throw the shock troops off balance.

The Russians declared flatly that Belgorod was the only area in which the Germans made any advances, and these were limited to regions where good roads and vast stretches of open fields handicapped the defense.

In one action Russian infantrymen crouched in their trenches until 50 tanks had crossed and then crossed the earthworks in an effort to crush them and open the way for Nazi riflemen to follow. Despite the hot dust and stifling exhaust fumes, the Red army men stayed put until the armored group considered that mission completed and moved on. Then the Russians sprang up and hurled grenades into the treads to immobilize the bulk of the enemy.

Directly behind the battlefield, Russian soldiers are helping peasants bring in the harvest. To the Russians, victory in the grain fields is as important as that on the battlefields. They have men to spare for both.

Near Belgorod, said a special communique issued this morning, the concentrated German strength has "succeeded in driving a wedge, to an insignificant distance, into our defenses," enveloping several villages at a cost of "tremendous losses."

While the German losses in men and material were regarded here as the greatest single blow ever inflicted upon the German war machine, the Russians warned against undue optimism.

"It would be wrong for us to underestimate the strength of the German troops conducting the big offensive," said the communique. "German forces here are great. Today it is too early to formulate a final conclusion concerning the outcome of the battles."

The special announcement reported the Germans had hurled approximately 450,000 men, or 30 divisions—14 tank divisions, one motorized, and 15 infantry—into the attempt to capture Kursk, one prong driving southward from the Orel region and another northward from Belgorod.

U. P. MAN INJURED—BUENOS AIRES, July 8 (AP)—Police disclosed that Frank Bresse, 29, of Santa Barbara, Calif., news manager of the Buenos Aires bureau of the United Press, was injured Tuesday night when assaulted by two well-dressed, unidentified men.

Confirmation Proposal Is Modified

WASHINGTON, July 8 (AP)—A growing give-and-take attitude between house and senate battling over appropriations spread today to the hotly-debated proposal which would invest the lawmakers with virtual hiring and firing power over war agency employes in the higher wage brackets.

As this bill passed the senate it would require confirmation of personnel paid \$4,500 a year or more. President Roosevelt called the legislation a "tragic mistake" and the house took a decided stand against it on several occasions.

Anxious though to clear the decks and quit for the summer, the legislators started a movement to compromise the differences, retaining the principle expounded by Senator McKellar (D-Tenn.).

Rep. Taber (R-N. Y.) who fought the original plan, drew up an amendment to the \$2,511,697,234 war agencies' appropriation. His idea would require confirmation of only newly-hired war agency workers earning \$5,500 a year or more. Those on the payroll before July 1 would be left undisturbed.

The new approach was hit on at a meeting of house and senate conferees last night. Acceptance of the compromise by the two houses would send the big appropriations measure to the White House.

Bond Quota For July Is \$101,500

Howard county has a \$101,500 mark to shoot at in its July investment in war savings bonds. The month's allotment was received from state headquarters by Bond Chairman Ira Thurman, who revealed that purchases through local issuing agencies so far this month total \$11,230. That leaves about \$90,000 to go.

The July quota is considerably under the June figure, which the county failed to meet. "Regular purchases, with a little extra effort, will see us through this month," said Thurman. "I am confident we'll make it this time."

Slain Man Named As Texas Convict

DALLAS, July 8 (AP)—A heavily armed hi-jacker slain in a gun-battle with Sheriff Jess Sweeten near Abilene was tentatively identified today as Texas convict supposedly serving 99 years for armed robbery.

The man had robbed Hobart Lasseter, a salesman for the Karlen Used Car company in Oak Cliff here, of his automobile and \$172 in cash.

Papers on the man's body carried the name of a Waco man who had gone to the penitentiary on various charges.

State Board Men Are Reappointed

AUSTIN, July 8 (AP)—Reappointment of George W. Loudermilk as Dallas as member of the state board of embalmers was announced today by Gov. Coke Stevenson.

Other appointments announced were: To the board of optometry: Dr. Nelson Greeman of San Antonio, reappointed for a six-year term; Dr. H. G. Towle of Snyder, reappointed for a six-year term.

To the board of dental examiners: Dr. H. Arthur Zappe of Mineral Wells and Dr. W. C. McNeill of Silsbee for six-year terms succeeding Dr. J. R. Edington of Nacogdoches and Dr. Jack Younger of Amarillo.

Mrs. Edmonds Is Hostess To The Kongenial Klub

Mrs. C. S. Edmonds entertained with a party in her home Wednesday afternoon and guests were members of the Kongenial Klub.

Spring flowers were placed at vantage points about the entertaining rooms, and bridge tables, mint cups and other party appointments carried the chosen springtime motif.

Guests who attended were Mrs. J. T. Morgan, Mrs. C. W. Grigby, Mrs. Bill Bertelman, Mrs. Raul Hatfield.

Bridge was entertainment for the afternoon and club high went to Mrs. Jack Smith, Mrs. Raul Hatfield won guest prize and Mrs. R. W. Halbrook won second high. Mrs. Ollie Anderson binged.

Refreshments were served and others attending were Mrs. Jack Smith, Mrs. D. A. Watkins, Mrs. R. W. Halbrook, Mrs. Bill Edwards, Mrs. Essel Compton, Mrs. Randall Pickle, the guests and the hostess, Mrs. Edmonds.

Mrs. Bill Edwards will entertain the club Wednesday afternoon, July 21st.

Miss Laneous Notes

MARY WHALEY

Heard a discussion about the war the other night. It was a group of men and women, just ordinary guys like you and me. The conversation wasn't brilliant and no deathless words were spoken.

No particularly original thoughts were expressed and there was no boiling hate for the enemy or wild waving of flags. But it was a talk that in only two spots left on the globe could have been held without fear of gestapo, reprisal, and sedition charges.

It gave you a warm feeling and a good feeling to hear candid criticism of events in the past, hope for better action in the future, and evaluation of both sides of the war - America's and the enemies.

You felt that in only England and here could a man stand up and say what he thought, right, wrong or stupid and know that it was his opinion and that he had a right, even an obligation, to say it.

It made you think of stories you read of underground newspapers, meetings in cellars, whispers of news that all of Europe must practice if a man's thoughts don't follow the party's.

It made you realize what it must be like to live with fear, the powerful weapon that the enemy has used to crush the free spoken souls of Europe. When that happens here all is lost regardless of the turn of the tide of battle.

FAMILY REUNION AND PICNIC HELD AT CITY PARK

STANTON, July 8 - A family reunion and picnic was held at the city park in Big Spring Tuesday evening honoring S-S Bernard Houston, son of Mr. and Mrs. A. R. Houston, who is home on a furlough from the navy after serving in foreign service.

Those present were Mr. and Mrs. W. Y. Houston, Mr. and Mrs. H. A. Houston and son Henry, Josephine Houston, Beth Houston, Fowler of Midland, Mr. and Mrs. Claud Houston, Mr. and Mrs. Cal Houston, Tink Houston, Mr. and Mrs. Morgan Hall and daughter Jo Jon, Mr. and Mrs. J. N. Woody and John Cal, Mrs. J. C. Ellis and daughters, Peggy and Patty and granddaughter Ginny Pickler of Ft. Worth; Mr. and Mrs. J. Alfred Tom and daughter Joan, Mr. and Mrs. Frank Orton of Midland, Mr. and Mrs. Bill Epley and Clara Epley, Mr. and Mrs. Edmond Tom and Leslie Jean and Rufus, Mr. and Mrs. Jim Tom, Mrs. Elizabeth Graves and son Gilbert Sadler, Mr. and Mrs. Olan Robertson and Corinnis of Odessa, Mr. and Mrs. Sam Wilken and children Bobby, Jean, and Patsy, Jean Hardy, Hoot Tom, and Bobby Glen, Mrs. Mamie Tom, Mr. and Mrs. John Poe, Mr. and Mrs. J. D. Poe, and the honoree's family, Mr. and Mrs. A. R. Houston, Zora Lou, Sue, Janice and Freddie.

Activities At The USO

THURSDAY

8:30 a. m. - Gym class for S. M. wives and USO hostesses.

2:30 - Service men's wives meeting.

8:00-11:00 - Formal dance, post orchestra, all GSO girls.

FRIDAY

Couple Married in Ceremony At Colorado City

COLORADO CITY, July 8 - The marriage of Miss Esther Elliott and Pfc. Curtis Wilbur Saunders took place Monday evening, July 8, at six o'clock. The Rev. C. M. Epps, pastor, performed the double ring ceremony at the First Methodist church.

Vows were repeated under an arch of ivy and sheafts daisies. Tall baskets of perennial phlox and daisies flanked the altar and decorated the church.

The bride, daughter of Mr. and Mrs. Louis B. Elliott, wore an aqua blue dress made with a fitted basque waist. Her accessories and her flowers were of rose.

She was attended by Mrs. Rudel Glover as matron of honor. Mrs. Glover wore a pink sheer two-piece dress with white accessories and a daisy corsage.

Cpl. Rudel Glover was the groom's best man. Pfc. Saunders is the son of Mr. and Mrs. Foley Saunders of Mitchell county.

Miss Elna Womack and Miss Betty Grubbs were ushers. Miss Womack wore a two-piece printed dress of black and aqua. Miss Grubbs, pale green with lace trim.

The couple will leave after a short visit here for Denver, Colo., where they will make their home near the bridegroom's station.

All Church Dinner To Be Held Sunday

All members of the First Presbyterian church are invited to attend an all church dinner which will be held in the basement of the church Sunday evening.

Guest speaker will be The Rev. N. R. Hawkins, superintendent of the Presbyterian Orphanage of Itasca and several children from the home will be included on the program.

The entertainment is scheduled for 6:30 o'clock. Committees in charge include Mrs. James T. Brooks, chairman of the food committee, to be assisted by Mrs. A. A. Porter, Mrs. Cecil Wasson and Mrs. Albert Davis. Mrs. W. W. Orenshaw will head the table committee.

Cpl. W. B. Langley who is stationed at Hobbs Field, N. M. returned to camp Thursday after visiting in Big Spring.

PARTY GIVEN FOR OFFICERS OF THE REBEKAH LODGE

Mrs. Opal Tatum entertained officers of the Rebekah lodge with a party in her home Wednesday evening. Mrs. Tatum is retiring noble grand of the lodge.

Refreshments were served and the hostess was presented a gift from the group by Mrs. Della Herring.

Those attending were Mrs. Mable Glenn, Mrs. Clara Bender, Mrs. Lenora Amerson, Mrs. Lois Forsyth, Mrs. Della Herring, Mrs. Jocie McDaniel, Mrs. Ruth Wilson and Mrs. Lovis Barlow.

FORMER RESIDENTS HONORED AT PARTY

Mr. and Mrs. Burley Hull, former Big Spring residents who now live in Los Angeles, Calif., were honored with a party and picnic on scenic Mountain Wednesday evening.

Hostesses were Mrs. G. G. Morehead, Mrs. Ray Smith and Mrs. Hurlk Agee. Dancing was entertainment.

Those attending were Mr. and Mrs. G. G. Morehead, Robert Earl Morehead, Mr. and Mrs. Ray Smith, Mr. and Mrs. Hurlk Agee, Mr. and Mrs. Bill Cravy, J. T. Langley, Stella Wheat, Billy Langley, Maria O'Daniel, Jimmy Lee and Doris Jean Morehead, Delores Hull and Mariens Agee.

Brides Honored At Coffee Given In Colorado Hotel

COLORADO CITY, July 7 - Naming as honorees two brides of the week, the former Misses Gladys Jane Brannon and Esther Elliott, the members of the Y. W. O. entertained Sunday morning at 8 o'clock at the Colorado hotel coffee shop with a breakfast party.

Table decorations were clusters of sweet peas and places were marked with American Beauty rose corsages. Plate favors were sweet peas.

Guests were Tommy Ruth Grant, Nedra Garrett, Nancy Fretot, Betty Grubbs, Elna Womack, Beverly Ray and Bernice Gordon of Lubbock, Mrs. James E. Payne and the two honor guests.

Miss Brannon was married to Marine Corp. Rudel Glover Sunday afternoon, and the marriage of Miss Elliott to Pfc. Curtis Wilbur Saunders took place Monday.

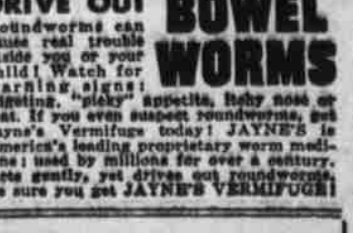

Dorcas Class Has Luncheon At The Church

The Dorcas class of the East Fourth Baptist church entertained with a covered dish luncheon at the church Wednesday at noon.

Mrs. J. A. Kinard presided over the business meeting which was held, and Mrs. C. M. Harold read the 45th Psalm.

Mrs. R. J. Barton offered a prayer, and reports were heard from the committees which revealed that Monday had been set aside for British orphans relief day. Preparation of Sunday School lessons for the month of July was discussed, and the meeting was closed with a prayer by Mrs. J. A. Kinard, Mrs. C. M. Harold, Mrs. R. J. Barton and Mrs. V. A. Masterson.

Those attending the luncheon and meeting were Mrs. J. A. Kinard, Mrs. R. J. Barton, Mrs. V. A. Masterson, Mrs. W. H. Bagley, Mrs. C. M. Harold, Mrs. A. D. Harmon.

DRIVE OUT BOWEL WORMS

Roundworms can cause real trouble inside you or your child! Watch for warning signs! Swelling, "icky" stools, they need or eat. If you even suspect roundworms, get JAYNE'S Vermifuge today! JAYNE'S is America's leading proprietary worm medicine; used by millions for over a century. Acts quickly, yet drives out worms. Be sure you get JAYNE'S VERMIFUGE!

The value of seeing is not the recording of light variations by the eye itself - it is a vital matter of absorption by the brain.

\$30,000 Volume In Livestock Auction

The weekly livestock sale at the Big Spring Auction yards Wednesday amounted to a total of \$30,000 with 650 head sold in one of the best sales in some time.

Sales of bulls went to \$11.50 and fat cows sold for \$10 to \$12.50

Butcher cows sold for \$7 to \$10 and butcher yearlings to \$14. Some stocker steer calves went to \$16 and some stocker heifer calves to \$14.50. Cows and calves went for \$110 a pair.

Recent houseguest in the James T. Brooks home was Miss Peggy Dietz of San Antonio who is a student at T. S. C. W. Denton.

Fresh Vegetables Rate Two Stars This Month

By HESA MERLE BOYLES
Home Demonstration Agent

These are months for starting fresh vegetables. One star for the market vegetables that take the pressure off rationed foods. Two stars for the Victory Garden crops that relieve transportation as well.

To aid the homemaker in getting the most from root vegetables—carrots, onions, beets and their kin.

Some Like 'Em Cold
Eat some root vegetables raw and some cooked. For a relish, serve spring onions, young turnips, and carrots cut in thin sticks to be eaten with a little salt.

Your imagination will dictate many salad combinations, but there are a few suggestions:
Shredded raw carrots with sliced cabbage or diced apple...
Shredded carrots and cottage cheese balls...
Diced raw turnip, chopped green pepper, and cold cooked potato.

Raw vegetables make an excellent sandwich filling, too. Try shredded raw carrot with chopped nuts or raisins mixed with table fat.

Some Like 'Em Hot
When you cook root vegetables, make the most of minerals, vitamins, and flavor, by starting the vegetables in boiling salted water—about one teaspoon of salt to a quart of water—and if the roots are young and tender, use only enough water to prevent sticking to the pan. For older roots, have enough water to cover.

Cook only until they are tender. They'll taste good and do you more good if you don't overcook. And, of course, you won't throw away the cooking water because it has vitamins and minerals that have dissolved during the cooking. Serve it right away in soup, gravy, or vegetable cocktail. Or make a sauce for the vegetable, using the cooking water and those meat drippings or poultry fat you have been putting by to use with patriotic thrift.

Speaking of thrift, here's a beet soup something like Russian borsch that uses up leftovers.

Add finely chopped cooked beets to meat broth, along with chopped cooked onion, carrot, or cabbage. Season with herbs and serve hot. Try topping with sour cream if you have it.

Briefed
In short, to get the good from your root vegetables when you bring them in from market or pull them out of your Victory Garden with the moist earth still clinging to their roots, remember: first, to eat some raw, some cooked; second, to cook quickly, use all the juices; and third, to store for crispness and plumpness. Root vegetables like a cool, moist place best—all except winter onions, that like it cool and dry.

Recipes for Root Vegetables

Beets:
Cook baby beets and greens in water until tender (15 or 20 minutes), drain and chop together. Season with fat, salt and pepper. Or use the tops of larger beets if they are still crisp and green. They may take longer cooking, but are high in food value.

Carrot Slap
1 egg
1 cup milk
3 cups raw carrots, cut fine
1 tablespoon melted fat
Beat the egg slightly. Add the milk, grated, ground, or finely chopped carrots, fat and salt and pepper. Pour into a greased baking dish. Bake in a moderate oven. Scalloped Onions and Peas until set.

Measure 3 cups of cooked onions, 1 cup of ground roasted peanuts, 1 cup of thin white sauce, 1 cup of bread crumbs blended with a little melted fat. In a baking dish make alternate layers of onions, peanuts and sauce. Cover the top with bread crumbs. Bake in a moderate oven until crumbs are golden brown.

Vegetable Stew or Pie
Use half as much meat broth and the same quantity of vegetables as for vegetable soup. Thicken with a tablespoon of flour mixed with cold water, and you have a delicious stew.

Or put the stew in a baking dish, cover with rounds of biscuit dough or with mashed potatoes, and bake in a hot oven.

Maize sure can pack a punch into an ordinary lunch! She's found Heinz Mustard's just the thing to give a sandwich zest and zing!

Genuine Stone-Grind Heinz Mustard
2 KINDS—BROWN AND YELLOW

* RATION CALENDAR *

RATION BOOK NO. 1
COFFEE—Stamp No. 21, good for one pound, beginning July 1, expires midnight July 31.

RATION BOOK NO. 2
SUGAR—Stamp No. 12, good for five pounds, expires midnight August 15. For canning, Stamps 15 and 16 good for five pounds each.

RATION BOOK NO. 3
SHEETS—Stamp No. 18, good for one pair, expires midnight October 31.

Stamps N, P and Q became valid July 1, expire midnight August 7. Red Stamps P, Q, R and S, for meats, fats, edible oils, cheese, canned fish and canned milk, expire midnight July 31, become valid as follows: R, July 11; S, July 15.

GASOLINE
Time to mail in your application for renewal of an A card. Present book expires midnight July 31.

NEW COMMANDER

CHOUTEAU, Okla., July 3 (AP)—Lieut. Col. Clifford A. Miller today became the commander of the huge Oklahoma Ordnance works here, replacing Lieut. Col. Langdon E. Angle, commander since Nov. 14, 1942.

T-Sgt. J. T. Langley, who is stationed at San Marcos is spending a 15 day furlough with his parents, Mr. and Mrs. W. A. Langley.

YOUR HAIR looks better groomed with Moroline Hair Tonic. Keeps unruly hair in place. Gives lustre. Big bottle, always only 25c. Sold everywhere.

New Housing Facilities Are Being Rented

First rentals are being made to defense workers in connection with the lease-conversion program of the National Housing Agency here.

Only two of these projects have been completed to date, but one has been rented and an apartment in the other has been let.

First building to be converted into housing quarters was one at 2111 Scurry and L. S. Patterson, representative for the program, quickly had it rented. Similarly, when the house at 601 Bell, converted into two apartments, was completed, one space was quickly rented. The other is awaiting a qualified applicant.

Several other projects are nearing completion, and there are many applications on file. Not a few have been applied for apartments in specific locations.

Work is underway on jobs to provide some 23 additional housing quarters. Besides these, contracts are to be let yet on jobs to provide four others.

Water Consumption At All-Time High

Water consumption in Big Spring reached an all-time peak during June, records showed Thursday.

Metered consumption stood at 73,000,000 gallons, or roughly an average of two and a half million gallons daily. This was fully half a million gallons a day more than the greatest loads last season at the Big Spring Bombardier School.

Powell creek lake level is steadily shrinking under heavy pumping and another sustained monthly run without replenishment may exhaust its available. Moss creek has comparatively little water usable.

City wells are now yielding more than a million gallons daily, yet this rate thus far has shown little effect on the water tables of the basin.

Miss Bae Bloom of Dallas is visiting in Big Spring with her brother and sister-in-law, Mr. and Mrs. Sam Bloom.

New Fighter Planes Are In Production

WASHINGTON, July 8. (AP)—New super-secret fighter planes designed to meet up-to-the-minute combat conditions have started rolling off the assembly lines to take their place in the stepped-up aerial offensive of the Allies.

Disclosure that new fighter types are in production was made by Charles E. Wilson, executive vice president of the war production board (WPB), who declined, for security reasons, to reveal any details whatever.

Asked at a press conference late yesterday whether the new sky battlers are entirely new jobs or modifications of existing ones, Wilson replied with a laconic "both."

WPB Chairman Donald M. Nelson said it was these changes in types, necessitated by combat experience, that presented the greatest single obstacle to greater volume production.

When all present production facilities reach their ultimate maximum, Wilson predicted this country will be able to turn out "in excess of 10,000 planes monthly." This peak will not be reached until some time in 1944. (Planes production in May exceeded 7,000, the highest so far announced.)

Food Handlers' Course To Be Closed Friday

Already termed an unqualified success, the food handlers school will move into its sixth and final session Friday at 2:30 p. m. in the municipal auditorium.

Well over 130 food handlers attended the Wednesday afternoon session and Graham Smoot, consultant for the bureau of public health education, state health department, expressed satisfaction with the response and cooperation given by employers and employees of eating houses in Big Spring.

Dr. J. E. Clean, director of Big Spring-Howard county health activities under the Ector-Midland-Howard county health unit, said that the response here was best he had seen to date.

The concluding session, said Smoot, will deal with personal health and hygiene, and in addition to the motion picture, "With These Weapons," there will be a special motion picture on syphilis. The public is urged to participate in this meeting and see these films.

Corporal Given A Prison Term For Bank Robbery

GAINESVILLE, July 8. (AP)—Zemmett Gary, of Henderson, tenth headquarters corps corporal, faced a 10 year prison term today after a court martial found him guilty of a charge of robbery with firearms in connection with the holdup of the Denison State National bank on June 12.

The verdict, returned yesterday, also included a dishonorable discharge and forfeiture of all pay and allowances.

Gary entered a plea of not guilty and the defense endeavored to prove he was temporarily insane at the time he forced J. A. Foster, cashier of the Denison bank, at gunpoint, to give him \$5,000 in \$20 bills after Foster had declined to make him a loan of a similar amount without collateral.

The defendant did not testify at the trial.

BABES IN HOLLYWOOD

HOLLYWOOD, July 8. (AP)—Two new babes in Hollywood:

A son, born to Actress Shirley Ross, wife of Actors' Agent Ken Dolan, early yesterday.

A daughter, born Tuesday to the former Ruby Keeler, wife of Navy Lt. John Lowe.

DO FALSE TEETH

Rock, Slide or Slip? FASTEREETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FASTEREETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEREETH at any drug store. (Adv.)

Biologist Warns Against Botulism

A poison so powerful that a teaspoonful is enough to kill 40,000 guinea pigs is not a good thing to take chances with, a leading Texas biologist has said in warning Texas homemakers against the hot water method of canning for non-acid vegetables. This method does not destroy the bacteria that cause botulism.

The entire text of a statement on the subject by Dr. A. C. Chandler, professor of biology of Rice Institute, Houston, and advisory chairman of the Houston and Harris County Nutrition committee, has been circulated among the county home demonstration agents of the Texas A. & M. college extension service. Dr. Chandler's statement is in harmony with recommendations on home canning given by Winifred Jones, extension specialist in food preservation.

Dr. Chandler believes the chances for accidents are too great to be worth the risk if people undertake to can non-acid vegetables or meats by the boiling water bath method. "Outbreaks of botulism will almost certainly occur," he says. "It is like rattlesnakes on your golf course. You may keep your ball on the fairways and treat the rattlesnakes with impunity, but sooner or later somebody a little careless will suffer. By comparison (with botulism) rattlesnake venom is only mildly poisonous."

Bacteria that cause botulism grow in non-acid vegetables when strictly protected from air. Dr. Chandler says there is one case on record where the spores survived heating and germinated after 23 months. The poison produced is so deadly that a person has been to die after eating one piece of a string bean.

Miss Jones says this evidence gives strength to the many warnings extension service workers have issued about hot water bath canning of non-acid vegetables.

Now Is Time For Rooting Of Your Shrub Cuttings

July is an appropriate time for rooting cuttings and summer pruning of shrubs. Cuttings from nearly all plants may be rooted at this time, but they should have plenty of water and some shade to assure development of a root system and growth. Finks, carnations and almost all shrubs and trees also may be rooted.

Cuttings of green growing branches frequently root within a few hours. Wood of the size of a pencil usually is about right, although larger and smaller pieces may be used. Removing all leaves close to the stem, except two at the top helps the cutting to get started, and placing three fourths or more of it under ground helps form a root system.

Light summer pruning of shrubs tends to check growth of twigs and leaves and aids the plant to form a crop of fruit and flowers for next spring. Pruning should include removal of dead or diseased limbs and the cutting back—not too heavily—of branches which are obstructing other plants, or getting in the way of pathways or windows.

Pruning below the ground—if not done too heavily—will as above ground, also encourages formation of flowers and fruit. Miss Hatfield says. This operation, called root pruning, is performed by staking a sharp spade into the ground and cutting a portion of the root. This may be done up to July 15. It may be tried on healthy "cut trees and shrubs which do not bloom as freely as they should.

Plants should be given a reasonable amount of moisture and fertilizer after pruning.

Culling To Help The Problem Of Poultry Housing

Each hen is supposed to have at least 2 square feet of house room. That is, a poultry house 16 feet wide and 30 feet long would accommodate no more than 160 hens. But on nearly every farm there is already too little house space. In some instances 200 hens are crowded into spaces that would be large enough for only 100. Now what are we to do with all of these pullets come into production? In most cases smaller flocks better cared for, would yield profit to the producer. Good judgment will dictate that we, either build more houses, or sell off part of the chickens.

But hens that are more than two years old, and younger ones that have not laid more than 10 dozen eggs in the past 12 months, would not pay for their keep anyway. Therefore every flock should be carefully culled during the months of August and September. This will make some room for the pullets that are coming on, save on the feed bill, and fat birds will sell for a good price.

During the two months we can assist those who need assistance in culling, by demonstrations in each of the communities. We would appreciate a card from all who are interested. Your request should reach the office soon, to give us time to arrange for the demonstrations.

Here n There

Five soldiers from Big Spring and two others from this immediate area have been promoted to private first class, after qualifying for enrollment in a bomber mechanics school at Keeler Field, Bixbee, Miss. The promotions came as the result of high scores in mechanical aptitude tests. Included were L. A. Ford, Jr., son of L. A. Ford; Russell D. Campbell, son of Mr. and Mrs. Charles M. Campbell; Sam Daniels, Jr., son of Mrs. Veina Anna Abel; Joseph C. Woods, son of Mr. and Mrs. Victor H. Woods; and Glenn W. Newburg, son of Mr. and Mrs. E. H. Newburg. Others were Robert P. Craft, son of Mr. and Mrs. Murray I. Craft, Sterling City; and Elmer M. Anderson, son of Mr. and Mrs. John W. Anderson, Stanton.

Mr. and Mrs. Raymond Plunkett and family of Fort Worth are visiting here with their parents, Mr. and Mrs. C. E. Thomas, Sr. Plunkett, who files the Fort Worth-Mexico City run for American Airlines, got his initial flight training here.

Pfc. John M. Nobles, who has been stationed at Camp Haan, Calif. for the past six months, is here on furlough visiting with relatives and friends.

Geromino Guerrero, who registered officially with the Abilene board, might have saved himself some explaining should he be asked by officers to show his registration card if he will call at the selective service office and recover it. Guerrero left the card there recently while having some forms filled out by the board.

Friends here have received word of the marriage on June 26 at Fort Worth of Grace Johnson, former resident, and Lieut. Clark C. Stroud, USN. Mrs. Stroud formerly was secretary at the Soil Conservation office.

T. & P. special officers are battling high on picking up AWOL soldiers. Tuesday night they picked up two men for unlawfully riding a train only to find they were runaway soldiers. Wednesday evening another pick-up resulted in capture of three more AWOL men. This brought the total for the month to seven, or an average of nearly one a day.

Grass in the Foran area is beginning to get pretty dry and consequently rain would be more than welcome, according to a report from R. M. Brown.

A new menace to closely penned cattle may have been discovered here by the Big Spring State Hospital. After three young Jersey calves had died suddenly, A. L. New, business manager, ordered a post-mortem examination and a study of the case. Best theory was that the calves had eaten bruised and newly wilted careless weeds. In that condition, the weeds contain an acid, similar to newly wilted sorghums, which is almost certainly fatal to cattle.

Weather Forecast

WEST TEXAS: Little temperature change this afternoon and tonight; scattered thundershowers in El Paso area and Big Bend country.

EAST TEXAS: Continued warm this afternoon and tonight; scattered thundershowers in extreme east portion this afternoon.

Livestock

FORT WORTH, July 8. (AP)—Cattle 1,800; calves 600; on the stock yards today were slow but most prices ruled unchanged.

Beef steers and yearlings mostly 10.00-14.00. Fat calves 9.50 - 13.00; cull calves 7.50 - 8.75. Stocker steers calves topped at 15.00; heifers 14.00; common to medium grades 10.00 - 13.00. Stocker steers and yearlings 9.50 - 13.50. Hogs 1,800; good and choice 190 - 200 lb. butcher hogs 12.75 - 80; good 160 - 185 lb. averages 12.25 - 70. Packing hogs sold 12.50 - 75; stocker pigs 12.00-13.00.

Sheep 9,000; medium and good spring lambs 12.00 - 13.50; culls downward to 5.00. Medium and good yearlings 11.50 - 13.00. Good wethers scarce.

DAUGHTER BORN

Mr. and Mrs. Pete Thomas are the parents of a daughter born Wednesday morning at the Cowper Clinic. The child weighed six pounds, two ounces at birth and has been named Jerry Nell.

Beef May Be Moving Into Market Soon

COTTONWOOD FALLS, Kas., July 8. (AP)—Don't throw away that steak pan yet, partner! There's a lot of beef coming in from the hills and the plains.

The thundering herd is on the march against millions of pounds of beef from the grass ranges of the southwest, is ready for market.

The ranges are beginning to dry up—a little later this year because of the heavy rains during the grazing season. Now the ranchers face the choice of selling their big herds or holding them and feeding expensive and scarce grains.

Some associated with the cattle industry believe the beef famine will be broken with a rush of grass-fed beef in the next two weeks.

Listen to Clint Squires, Beaumont, Tex., rancher, who in addition to running steers for himself handles hundreds of head for Kansas, Oklahoma and Texas cattlemen.

"We have had more rain this summer than in any season for several years," he says. "The grass is excellent and the cattle are making good gains. The season has arrived when the grass cures and the cattle put on finish. The aged stuff soon will be in the right kind of flesh to start for market."

The blue stem pastures of eastern Kansas and the rugged Osage country of Northern Oklahoma are filled to capacity with grazing cattle—some 750,000 head.

July 15 is expected to see many of these moving eastward to market, dry cows and old steers first.

Most cattlemen agree that younger stock will find its way to markets later in the summer and through the early fall, to meet the feeder demand.

Live Ammunition Test Is No Joke, Eason Testifies

Back from Camp Howze where he put in his time with the army, Jimmie Eason maintains that Herman R. Allen, AP correspondent who wrote an account of having wriggled through a 100-yard course covered by live ammunition, went through a slinky course.

"We had to crawl through a 500-yard course," said Jimmie, "and boy was it rough!"

Each man carried full pack with gas mask, pick and shovel, etc., while a murderous machine-gun, cross fire cut across 20 inches above ground. When finally men would make the safety pits for a breath, chunks of explosives would roll in and they quickly were on their way again.

"We learned to dig fox holes, too," said Eason. "At first they ran light tanks over us. Then came the big babies. They would get over our area and spin around. Brother, I used a lesson I learned from the gophers. I just kept digging all the time."

Post War Plan Is Discussed

Water, roads, agricultural industries, educational consolidation were mentioned prominently at the meeting of the chamber of commerce planning committee Thursday noon.

R. L. Tollett, chairman, indicated that he would soon name chairman of various sub-committees to study the committee could start upon more active planning for the post-war era.

Speaking for the city, E. J. McDaniel, city manager, visioned more water, better drainage and more paving as outstanding needs. W. C. Blankenship and Dr. M. H. Bennett discussed educational possibilities and ventured that a county-wide program would be advisable.

County Agent O. P. Griffin advised that present gains in agriculture be consolidated, and that industries be provided to utilize increased production. Allied institutions, such as a freezer-locker plant, should be developed, he thought.

Other speakers called for development of industry and of roads and the committee went on record asking that the chamber of commerce directors endorse a Big Spring - Snyder highway.

Funeral To Be Held Here Friday For Terry Lynn Reeves

Funeral services for Terry Lynn Reeves, son of Mr. and Mrs. E. M. Reeves who succumbed in Shreveport, La., Wednesday morning will be held at the Eberly funeral home Saturday afternoon at 2 o'clock with the Rev. H. Elmer Dunham, pastor of the East Fourth Baptist church officiating. The Reeves family formerly lived here.

The child, born September 3, 1941, in Marshall, suffered a ruptured appendix. Mr. and Mrs. Reeves have been living in Shreveport.

Other survivors include one brother, Dewey Ross; grandparents, Mr. and Mrs. H. Reeves and Mr. and Mrs. Pat Duncan; Billy Joyce Horn, Mrs. Leonard Orlene, Mr. and Mrs. Bernard Reeves of Denver City; Bennett Reeves, in the army; Roy Lee Reeves, Donald Reeves and Patsy Ann Reeves.

The body will arrive by train this evening at 10:45 o'clock.

Three Lives Lost In Ohio Storms

CLEVELAND, O., July 8. (AP)—Three persons were dead and a like number missing today in the wake of storms which swept through northern and eastern sections of Ohio.

An estimated 27,000 war workers were idle in Akron as high waters caused power plant shutdowns at Goodyear Aircraft Corp. and the Firestone Tire and Rubber Co.

Newspaper Woman Object Of Search

WEST HAVEN, Conn., July 8. (AP)—The federal bureau of investigation today entered the nine-story clubhouse search for pretty Rose Marie Branato, the New Haven Journal Courier's 27-year-old woman's page and school editor.

The FBI threw its weight into the hunt this morning, on the theory that the attractive, dark-haired girl might have been abducted.

State Hospital Head At Wichita Resigns

AUSTIN, July 8. (AP)—Dr. R. W. Dorbandt has voluntarily resigned as superintendent of the Wichita Falls state hospital effective Aug. 1 and his successor has not yet been named. Chairman Weaver H. Baker of the state board of control announced today.

VERONICA A MOTHER

HOLLYWOOD, July 8. (AP)—Screen actress Veronica Lake gave birth today to a three-pound boy, two months prematurely. The child was placed in an incubator and her physician, Dr. Raymond D. McBurney, said both mother and baby were doing well.

FURNITURE MAN DIES

HOUSTON, July 8. (AP)—Funeral services for Albert H. Black, president of a local furniture store chain and widely known throughout the state in the retail home furnishings field, will be held here Friday afternoon.

Bredemeyer Gets No-Hitter; Not A Man Gets Base

Bredemeyer, veteran hurler of the Big Spring Bombardier School enlisted men's softball league, came through with a "dream game" Wednesday in pitching the North Maintenance to a 4-0 victory over 2032nd Ordnance.

In addition to pitching no-hit ball, the second time this has been done in league competition and the fourth time in all games this season, Bredemeyer had the distinction of twirling a perfect game. He did not allow a walk, nor did his mates contribute any errors behind him. In short, not an Ordinance man reached first base.

Pfc. Gill, who pitched the first league no-hitter on June 21 for the 1047th Guard, walked one and his mates erred once. Similar trouble befell Col. Leonard Haidner, who was victim of Bredemeyer's feat Wednesday, in his no-hit game June 18 and Sgt. Finn Dunham of the 365th in his no-hit exhibition June 9.

Nelson, catcher for North Maintenance, came through with a circuit smash.

359th Aviation Squadron, 11-5 behind the six-hit pitching of Harrell, 1st Sgt. Hunter led the Guard hitting with a double and three singles while Johnson had three singles. Huston hit twice to lead the 359th.

Death Claims C. L. Thurman

Columbus Lafayette Thurman, 75, died Wednesday night at his home, 1300 East 6th street. Funeral services were set for Friday evening at 8 o'clock at the East 4th St. Baptist church with the pastor, the Rev. R. E. Dunham, in charge.

Burial will be in the local cemetery with the Nalley-Reeder funeral home in charge.

Mr. Thurman, who was born in Farehite, Mo., on July 19, 1866, was married to Miss Emma Johnson, December 6, 1891, in Cooper, Texas. He came to Texas 65 years ago and moved from Cooper to Big Spring 11 years ago.

He was a member of the Baptist church for 64 years and was also a long-time member of the I. O. O. F.

He is survived by nine sons and three daughters, W. H. of Paris, J. A. and S. L. of Big Spring, C. L. of Los Angeles, W. D. of Amarillo, Mel of Abilene, Joe and Hub and E. B. all of Big Spring; Mrs. Lily Mae Litrel of Ridgway, Texas; Mrs. Nellie Riley of Big Spring and Mrs. Ruby Staley of Rouston, Tex.

He is also survived by 35 grandchildren and seven great-grandchildren.

Funeral services will be held at the Eberly funeral home Saturday afternoon at 2 o'clock with the Rev. H. Elmer Dunham, pastor of the East Fourth Baptist church officiating. The Reeves family formerly lived here.

Job Placements Under Last Year

Farm and private employment declined during June in comparison with last year, but maintained increase over May levels, O. R. Rodden, manager of the Big Spring district office for the U. S. Employment Service, reported Thursday.

Farm placements stood at 284 for the month, under the 440 for June a year ago only because the crop this year is later, according to Rodden. He predicted that for the reason July figures should show a substantial increase. May agricultural placements amounted to 280.

During June a total of 246 were placed in non-farming and war industry jobs which also was under the 508 for June of last year when employment rolls were inflated due to construction of the Big Spring Bombardier school. This same class of placement amounted to 238 during May.

Former Resident Dies In Marshall

Mrs. R. D. Wigley of Marshall, who succumbed after an illness of six weeks Saturday, was buried in Colorado City Wednesday.

She is survived by her husband and one daughter, Sue Ann, three years old.

Wigley was formerly stationed here as T & P Special Officer and was transferred to Marshall about six months ago.

Public Records

Warranty Deed
J. D. Wright et al to C. P. Ward, \$150, lots 20, 21, 22 in Block 7 in Wright's Airport Addition to Big Spring.

Building Permits
Cleve Reece to move a structure from 1800 Rannels to 1006 Sycamore street, cost \$50.

Silas A. Wilson to construct a chicken house on acreage on cemetery road, cost \$60.

New Strike Flares Up In Mine Area

PITTSBURGH, July 8. (AP)—Roving pickets accompanied by women ranged the rolling plains of southwestern Pennsylvania's coal fields today helping close more than a dozen steel company-owned "captive" mines whose output is vitally needed to keep the steel mills running.

The new flareup, which kept about 10,000 persons idle, stemmed from what John P. Busarello, president of the Pittsburgh district 5 of the United Mine Workers, termed an "outlaw gathering of outlaw miners" at Brownsville, Pa., as all of the nation's other miners were ending a walkout that began June 26.

Busarello and other district union leaders said an appeal had been made to Allyn K. Renwick, district representative of Secretary Harold L. Ickes, government administrator of the mines, for aid in suppressing the insurgent movement.

"Any action will have to be inaugurated from Washington," stated a spokesman for the office of U. S. Attorney Charles F. Uhl, when asked about the possibility of enforcement of the Connally-Smith anti-strike act.

Speakers at the Brownsville meeting on Tuesday called for "organized picketing" to support their "no contract—no work" stand.

19 Scouts To Go To Camp

Nineteen Boy Scouts and four leaders will leave from here Friday morning on the first leg of their trek to Camp Philmont in northern New Mexico as part of a record throng of more than 300 campers from the Buffalo Trail council.

Plans call for assembly on the south side of the courthouse at 6 a. m., said H. D. Norris, field executive. The Big Spring scouts and men will ride a bus which originates its trip at Colorado City. Norris, however, will accompany one of the trucks which leave to the west to pick up a large number of scouts in Midland, Odessa, Monahans, etc.

Latest word from the council office at Sweetwater indicates that more scouts have attempted to secure permission to make the trip since 299 filed registrations before deadline time on July 1. Total men and boys participating from this council will be around 350.

All trucks will converge at Clovis, N. M., and will stop for the night at Las Vegas, going on to the Cimarron Canyon country the following day. The camp terminates July 19.

Scouts attending from here are Jimmy Martin, Harold D. Berry, Preston and Doyle Dunbar, James and Jerry Mancill, Charles Lovelace, Bob Scheyner, Jim Hill Little, Bob Hardy, Hollis Yates, Enor Puckett, Donald Williams, Nathan Richardson, Billy Charles Valvin, Reed Collins, Keith Bailey, Bobby and Dale Pritchett. Adults include Norris, W. D. Berry, Elrah Phillips and T. E. Martin.

Japanese Driven From Another Town

CHUNGKING, July 8. (AP)—Chinese troops have driven the Japanese from Mengting, a Burma-Yunnan Province border town which the invaders occupied a week ago, and started them on a general retreat westward, a high command communique said today.

"Those (Japanese) remaining are being rounded up, while retreating troops were weak and attacked by Chinese forces," the communique said.

CONSTIPATION can cause HEADACHES

If that's your trouble, PRU-LAX—the tasty laxative—may be just what you need to help relieve faulty elimination. PRU-LAX is a laxative—not a cathartic. It helps to stimulate "rhythmic activity" by aiding peristalsis of the colon. A compound of Senna and Cascara, combined with syrup and mild carminatives, it is pleasant to take. Constipation may be the cause of headaches, vertigo (dizziness), anemia, sore and other skin affections. Don't let it distress you. Get a bottle of PRU-LAX at your druggist today. (Caution: Use this or any laxative only as directed.) (Adv.)

How to budget RED STAMPS for well-balanced meals!

The foods you buy with red stamps belong to two different basic nutritional groups — fats, (butter, margarine, cooking fats) and proteins, (meat, cheese, fish). You need food from each group every day. So, for well-rounded, nutritious meals, keep a proper balance between the number of points you spend for each type of food. Nutrition experts recommend that you use about three-fourths of your 16 weekly points for proteins and about one-fourth for fats.

Three-fourths of your red stamps should go for protein foods — meat, cheese or strained fish. Proteins supply basic nutrients that build and repair body tissues. They are essential to well-balanced, nutritious meals. So don't splurge on fats and skip on proteins — budget your points to buy both. Of course you can budget on a monthly instead of a weekly basis. Just remember the correct proportion — about three times as many points for proteins as for fats.

12 POINTS A WEEK FOR PROTEINS

4 POINTS A WEEK FOR FATS

The fats you buy with your red stamps — butter, margarine, lard, shortening, salad and cooking oils — are essential energy foods. Butter and fortified margarine are also important sources of Vitamin A. So be sure your family gets the fats they need. They will, if you allow about one-fourth of the weekly (or monthly) points.

Actor Dorn Behind Schedule, But Finds Time To Talk To Soldiers

By MARY WHEALEY
Philip Dorn, movie actor, visited the Big Spring Bombardier school briefly Wednesday afternoon and crammed what he thought was to be a two day tour into a few hours.

The actor, who is beginning a tour of army camps in the southwest under sponsorship of the USO, expressed his regret that his visit here was so short. "There's not much you can do in one day," he explained "but just meet a few of the boys."

However, he had gotten to visit the hospital and to his mind, "that is the thing I'm really interested in, we had time for that."

The movie star was around three hours late arriving in Big Spring because "we got sort of stuck" he explained so the result was a tour here on the double.

We caught up with him en route to a building where a large sign says no entrance without a special pass. We kept up until the army escorted party until finally an embarrassed lieutenant explained that civilians were not allowed to go any farther.

As the party went ahead leaving us behind, Dorn turned around to grin at us and laugh "Oh, look at the civilians." Later he confidentially admitted he was sorry he laughed at us, but "somehow I enjoyed that."

Dorn, whose foreign accent is sometimes a little hard to understand, explained that on his visits to camps he liked to spend one day just getting acquainted with the soldiers. "Then I'm not a stranger to them, nor they to me. We can sit down and talk as friends."

The actor, who lived in Germany prior to the war for sometimes and who knows some of the work of the underground in Germany, France, Holland, and other occupied countries, told the soldiers of stories about these patriots who are still working and waiting for the day of invasion.

He told an interesting story of his picture, "The Fighting Chetniks" which by coincidence was playing here yesterday. The actor played the part of Mahalovich, the Yugoslavian guerrilla leader who with his men has sworn to fight to the death for the freedom of their country.

From a friend, in Europe, who is working with the underground movement, Dorn received twelve different copies of underground newspapers from Paris, when it became known that he was to make the picture. On each of the papers he pasted a small picture of DeGaulle and sent them back. "The amazing thing is that three days later, the newspapers had received his mute message and printed the news that the world had not forgotten them."

Georgia Grid Fanatics Discount Wails Coming From Wallace Butts

By ROMNEY WHEELER
AP Features
ATHENS, Ga.—On the word of James Wallace Butts, Jr., the University of Georgia couldn't beat Big Bayou Teachers at football next fall—and maybe he's right. But no one will convince Georgia's effervescent alumni until the last game is played (and lost).

James Wallace has been the big wolf-and-worry man for so long that friends automatically discount 97 per cent of his wails. Now, when the wolf really is beating down the door, they still expect Wally to produce his annual miracle—and maybe pull the wolf inside to render it for waste fat, besides.

Not a man is left from Georgia's great team which won the Orange Bowl championship Jan. 1, 1942, and the Rose Bowl championship last New Year's. All-American Frank Sinkwich; his sensational understudy, Charlie Trippi; the place-kicking specialist, Leo Coats, and all the rest are gone.

Working out in their place on the soft greenward of Sanford Stadium are 40 gangling 17-year-olds—the sub-draft-age boys who will carry on Georgia's football fortunes if football is played next fall.

Yet Georgia partisans are undismayed. They recollect Wally's way of doing the unexpected.

They recollect, for instance, how he started at Madison (Ga.) A. & M. back in 1928, when the only thing the school could brag about was having the reddest red clay in Georgia. Wally, lacking both players and equipment, returned to his home town of Milledgeville (Ga.) 50 miles away to raise money to buy shoes for his boys.

By 1931 he not only had fairly creditable equipment, but also some pretty creditable players—including four Cubans which he dug up on one of his scouting trips. Practically the only boy at school not out for football was a one-legged kid, and he carried the water bucket. Result was a championship team.

"A fine business," remarked a Milledgeville man. "We buy his team shoes, and then he comes down here and whips hell out of our school."

One of the legends still going the rounds is that Wally taught

spelling, and most of the football players majored in the subject. That was the classroom where they got together to run over plays.

The next year Madison A. & M. lost the state championship in a play-off, but the following season his team won the Southern prep championship by beating Allen Academy of Texas and when Wally laid claim to the national schoolboy crown, nobody cared to dispute it.

Wally Butts
Rose Bowl Stars Gone

From Madison A. & M. Wally went to Georgia Military College—where, legend has it, he even induced the commandant to come out for football—and thence to Louisville (Ky.) Male High, where he continued his success in schoolboy football. His talent for finding and developing gridiron talent may have had something to do with it, but that is beside the point.

They tell a story around Louisville that Wally once considered importing some Chinese football players, but found so many promising giants in the mountains near home that he never got around to the experiment. Meanwhile he got an offer from the University of Georgia, where he has been doing business ever since.

His first season he was assistant to Coach Joel Hunt. Then he became head coach in 1939. That autumn Frankie Sinkwich came to Georgia, along with other future headliners, and business began to pick up. The boys broke even in 1940, won all but one game in 1941 and went to the Orange Bowl. Last season they won the Southeastern conference championship, and wound up beating U. C. L. A. in the Rose Bowl.

Wally will tell you it's impossible to keep up that pace without players or a reasonable facsimile thereof—but alumni still are hopeful.

Smith Suspended While He Loses Some Poundage

CHICAGO, July 8, (AP)—"Take it off," Manager Jimmy Dykes of the Chicago White Sox told Pitcher Eddie Smith after a look at the excess pounds around Smith's mid-section. So Smith will remove the weight on his own time. He's been suspended by the Sox until the day he shows an appreciable shrinkage in his waist line. He has won four and lost six this season.

Weaknesses Showing Up For Senators

By JUDSON BAILEY
Associated Press Sports Writer
The honey-moon seems to be over for the Washington Senators.

Before the start of the double-headers on the Fourth of July Washington still was a wonder team and was in a virtual tie with the New York Yankees for first place in the American league.

Today the Senators are in fourth place as the result of losing five of their last six games and even though they are only a single percentage point out of third place their prospects of again threatening for the lead are not bright.

The Senators' present plight may be traced to weaknesses that were apparent even before the club overlapped on its current western trip. They had a problem at third base that was so hopeless that Manager Ossie Bluege in desperation finally installed veteran outfielder Bob Johnson at the hot corner.

Since becoming an infielder last Friday the big Indian has hit three home runs and conducted himself capably in the field, but he hasn't been able to hold the club above its challengers. The pitching has been unsatisfactory and the infield play spotty.

Moreover, the Detroit Tigers and Chicago White Sox have taken advantage of the Senators' slump to put on two of the fastest spurts of the season in the American league, the Tigers, who moved into second place yesterday in beating Washington 9-1, have won nine of their last 11 games and the Sox have won eight of 10.

Hal Newhouser, the Tigers' slim southpaw star, pitched five-hit ball in beating the Senators and his teammates gave him two four-run innings. Twice Don Rose came to the plate with the bases loaded and singled.

The White Sox nosed out the Boston Red Sox 2-2 when Wally Moses stole home with the bases loaded and two out in the 14th inning. It was his 18th stolen base of the season. Johnny Humphries pitched eight-hit ball over the extended route and gave only one safety in the last seven frames.

New York's Yankees completed a sweep of their four game series at St. Louis as Spud Chandler shut out the Browns 2-0 on six hits. Nick Etten accounted for one of the leaders' runs with his sixth homer of the year and fourth of the western trip.

The only other teams to get into action yesterday were Cincinnati and Boston in the National league. They divided a double-header with Elmer Riddle pitching three-hit ball as the Reds won the first game 5-1 and Manny Salvo coming back with a five-hit performance for a 4-3 decision in the nightcap. It was the tenth triumph for Riddle and the third for Salvo.

Waco Team Loses Its Star Hitter

WACO, July 8 (AP)—Bruce Campbell, leading hitter of the Waco Army flying school baseball team, has been transferred. He left this week for an air base in Kansas.

SPORTS ROUNDUP

By HUGH FULLERTON JR.
NEW YORK, July 8, (AP)—Chick Wergaies, Ben Jack's manager, reports that the Beau will move to Philadelphia July 12 to wind up his training for his scrap with Johnny Hutchinson on the 19th and he'll pay his sparring partners \$13 a round . . . Columbia, starting grid practice today, hasn't found a player with variety experience in its navy V-12 group.

Today's Guest Star
Al Buck, New York Post: "Smart baseball executives wonder, in their idle moments, if Disney Dean broadcasting from sportsman Park has not become a bigger attraction than the Browns."

Sound Platform
Ben Kilgore, candidate for nomination as governor of Kentucky, ought to win "day" (and no cracks) "plank" boosting foxhunting. . . . "In view of the increased importance of scouting in modern Pacific warfare," says Kilgore, "the success which our troops have had may be attributed largely to superior scouting. There is no better school for scouting than foxhunting."

Unanswered Question
The Dodgers have scheduled a "waste fat day" (and no cracks) that the fat waists some of them are sporting) for Saturday, but what'll they do if the customers insist on delivering the waste, and all, in the general direction of any players who may displease them?

Service Dept.
Dick Cass, former U. S. trotting association publicist, reports that he has turned promoter by discharging an abandoned race course "somewhere in the South Pacific area" and he has been working on plans for full-scale race meetings, with two-buck bets and a court martial to enforce the usta rules. . . . The entire Siena college basketball team from Loudonville, N. Y., including players Harry Kemp, Walter Praybly, Marvin Litzky, William Ryan and Frank Ritzel and publicity director Stanley Levis, belongs to one battery at Fort Eustis, Va., and is challenging any court team in sight. . . . Marine Corp. Tommy Laughran, who has been boxing instructor at Farris Island for six months, has been transferred to the infantry weapons school at Camp Lejeune, N. C. . . . Tommy always had a couple of good weapons when he was light heavyweight champ.

Colorado Sergeant Missing in Action

COLORADO CITY, July 8.—Mr. and Mrs. J. P. Mohler of Colorado City have been officially informed by the war department that their only son, Tech. Sgt. William A. (Archie) Mohler, has been missing in action since June 17.

A current gunner and member of a crew on a B-26 Marauder bomber, Sgt. Mohler has been stationed with the United States Army Air Corps in North Africa since December, 1942. He was awarded the Air Medal and Oak Leaf Cluster for bravery in air combat. The medal was given to him for five sorties and for "sacring a direct hit on an Axis convoy in the Tunisian sector." The Oak Leaf Cluster was awarded him for the destruction of a Messerschmitt 109.

Reprocessed Golf Balls Fill The Bill, Demaret's Tests Indicate

DETROIT, July 8, (AP)—The balata ball that baseball men came to despise is by some tests giving the golfer more distance this summer on his booming drives.

This was on the authority today of Dapper Jimmy Demaret, Texas-born Detroit pro, whose thorough tests have changed doubting Duffers into cheerful contributors of old golf balls into the reprocessing hopper.

Before club members at his Plum Hollow course where next month's Ryder Cup matches will be played, Demaret stepped to the tee with half a dozen balls—three from the pro shop shelves and three re-processed numbers. His longest drive of 255 yards was with an old pellet. The re-processed ball averaged eight yards more in distance.

A few days later Demaret repeated his experiment and got the same eight-yard difference. "Pre-war golf balls, if you can find them, have lost a lot of punch," Demaret explained, "while the balata cover on the re-processed ball adds a lot of distance. I've been playing with the old ones all year and, boy, do they carry."

Other Demaret findings: The re-processed ball naturally isn't as durable as the pre-war pellet but it holds up well for at least one round. (He didn't mention that with deeper roughs and shaggy fairways the duffer might not keep one that long anyway.)

Demaret expressed hopes that his experiment would swell the flow of old golf balls from lockers and golf bags into the repairman's hit. He says golf people claim there are 12 million dozen pellets that could be turned back into play.

Doerr Sets A New Fielding Record For 2nd Basemen

CHICAGO, July 8, (AP)—Bobby Doerr of the Boston Red Sox has set a major league fielding record for most chances accepted without error by a second baseman and is still piling up the count.

Since making a misplay May 20 in Cleveland Doerr has handled 285 plays flawlessly, topping the estimated mark of 271 Oscar Melillo made with the St. Louis Browns from April 20 to July 5, 1932.

Mel Ott Is Modest About His Hitting

NEW YORK, July 8, (AP)—Mel Ott, manager of the Giants, doesn't think he should have been selected to play on the national league all-star team. Although he is leading the major leagues with 13 homers.

"I can think of several players who have more right to be in that July 13 game than I," he said modestly. "I must be hitting all of 250 by now."

Part-Time Coaching Is Approved

AUSTIN, July 8.—For duration of the war, Texas school officials have voted part-time coaches may be used to direct Interscholastic League football and basketball in conference AA, Director Roy Bedichek of the league announces today.

Bedichek said a recent referendum ballot resulted in a vote of 47 to 30 against suspension of the rule-requiring full-time employes to coach athletics in conference AA. The suspension carried in conference A by a vote of 103 to 82, and in conference B by a vote of 87 to 28.

The ballot bracketed six-man football with conference B, so the rule suspension applies to that sport as well.

Fort Worth Boy Is Chosen For Baseball School

FORT WORTH, July 8 (AP)—Glenn Coats, 15-year-old first baseman for Arlington Heights high school here, has been selected by Jimmy Payton, Chicago Cub scout, for a two months course in the Cubs' school at Chicago.

He will train there two months, often under supervision of Cub players, free of charge. At the end of that time he still will have his amateur standing, but if he shows enough promise, the Cubs will offer him a contract with one of their farm teams.

Here's One Way To Check A Birthday

ATLANTA, July 8, (AP)—An agitated housewife telephoned the Atlanta Journal sports desk, inquired the date of the Jack Johnson-James Jeffries heavyweight championship fight.

"I suppose you'll think it's silly," she explained, "but I'm trying to get a birth certificate for my maid. She doesn't know when she was born, but her mother says it was the day Jack Johnson fought Jeffries."

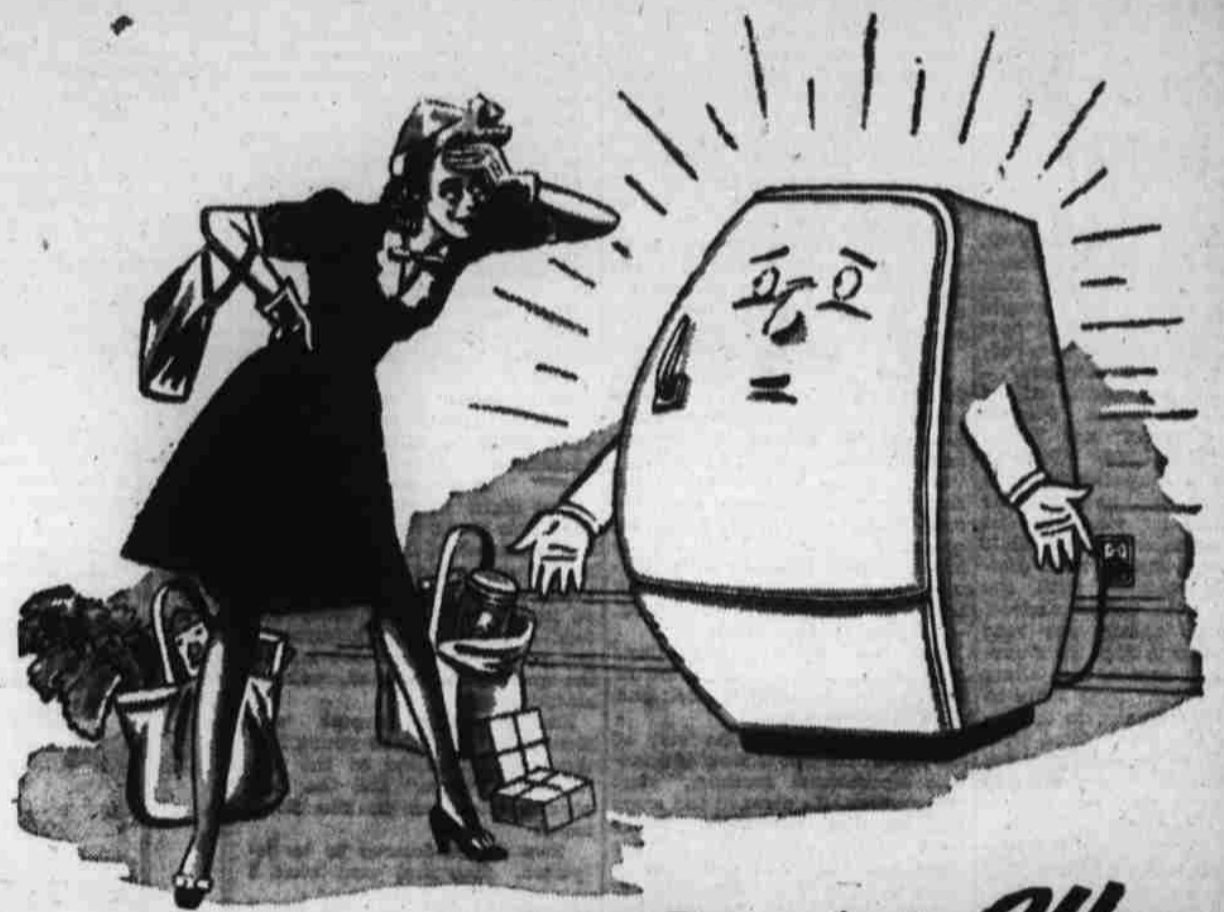

With an assist from the Journal sports staff, the bureau of vital statistics was advised that the maid is 23 years old. Johnson fought Jeffries at Reno, Nev., July 4, 1910.

There's a Right Way
... and a Wrong Way
to Place Food in Your Electric Refrigerator

DON'T put canned goods and other food items in your refrigerator that will keep just as well on a pantry shelf.

DON'T stuff your refrigerator too full.

DON'T delay in putting perishable foods into your refrigerator promptly.

In these days when conservation of food is so important to Victory, and shopping problems have been multiplied by limited ration points, limited quantities or varieties of food, and in many cases, limited family budgets, you depend on your Electric Refrigerator more than ever before.

Proper arrangement of foods in your refrigerator is important in keeping food fresh and wholesome. With a little care in placing food in your refrigerator, you can get larger amounts of perishable foods into its safe, cold interior, and at the same time be sure that the proper circulation of cold air isn't hindered.

Smith Suspended While He Loses Some Poundage
CHICAGO, July 8, (AP)—"Take it off," Manager Jimmy Dykes of the Chicago White Sox told Pitcher Eddie Smith after a look at the excess pounds around Smith's mid-section. So Smith will remove the weight on his own time. He's been suspended by the Sox until the day he shows an appreciable shrinkage in his waist line. He has won four and lost six this season.

Editorial - -

M'Arthur Will Return

Washington friends of General Douglas MacArthur see in his recent moves in the South and Southwest Pacific the opening phases of a military triumph that all the world knows lies nearest to his heart.

All his energies have been bent in furtherance of that ambition. Wherever he moves his headquarters become "Bataan." Telephone operators in his office, wherever it happens to be, answer with "Bataan speaking."

But for the valiant sacrifice of the Men of Bataan and Corregidor, holding up the Japs for months, tying 800,000 men and a considerable part of the Jap navy and air force into knots, there is no telling what might have happened.

Demo Leaders Haven't Yet Appeased The South

By JACK STINNETT COLUMBUS, O. — Just what will be the state of the war, the nation, and the political mind a year from now when the national conventions will be held is any one's guess.

But one thing appeared certain at the national governors' conference here: The Democratic administration hasn't yet "appeased" the all-important Democratic South.

Family Wins Blue Ribbon Going From Sales To Soil

AF Features CENTER POINT, Ia. — Eight years ago, the L. F. Jamisons decided they were tired of city life, and moved to the farm. It's taken most of those eight years for them to find out that farming isn't the cinch they thought it would be.

They nervously watched a real farmer harness their first team and hoped they could remember how to buckle it on again. They worked the mares, blissfully ignorant that each carried a coil.

spected the first field of new corn and Mrs. Jamison remarked: "It looks exactly like a black comforter tied with a green wool."

Pond Goes To State Guard Training

Joe Pond, second lieutenant, is representing the local Texas State Guard unit (Co. E, 34th Bn) in the state training course at Camp Bullis this week.

ONE WORLD By Wendell L. Willkie

Chapter Four Russia's farms, just as much as its factories, have been mobilized for total war, and their capacity to support a fighting nation has been one of Hitler's most probing miscalculations and one of the world's surprises.

I had been told in Kulishev of plans to dam a great bend in the Volga river for the production of electric power; and on this trip we went over the part of the Volga concerned in the proposed development.

for the production of the farm's quota in the war economy. He would rise in power and in status if he succeeded; his punishment would be severe if he failed.

Hollywood - AP Men Make The Grade As War Authors

By BOBBIN COONS HOLLYWOOD — Pardon it, please, if we turn this spot today into a book section—and talk about books written by a couple of former Hollywood cronies now in the thick of the global war, Reiman Morin and Vern Haugland.

Power Development I am not one to be easily surprised by vast governmental power developments, but when it became clear that this one development, if completed, would produce twice as much power as all the TVA, the Grand Coulee, and the Bonneville developments combined, I began to realize that the Russians dream and plan on a scale to fit their vast forests and plains.

The Balance The balance of each harvest was distributed to the members of the farm on the basis of how many "workdays" each had accumulated on the records.

Crossword Puzzle

It was a story, and Pat "covered" it, through Miss Francis was then feuding with the press. To get the story he had to go inside, and he went. A truculent hostess demanded that he be ejected, and pointed out that this party was part of her private life and of no concern to the public.

Excellent Stock But the collective farm itself owned 800 head of cattle, 200 of them cows, of excellent stock and all well cared for.

Among those present were Simonov, a dour faced young Russian who is author of the play, "Russian People," and the most popular newsman in the Soviet today.

Story

(Continued from page 6)

can only call a quality of intransigence. Those fellows were uncompromising. Train a man from boyhood in a system of absolutism, and he will think in blacks and whites.

For example, I asked Simonov, whether or not the German prisoners taken on that front made the same poor shabby impression I had got from Germans I had interviewed a few days before on the Rabev front.

My question was translated into Russian. But there was no answer. Someone else picked up the ball and carried it.

After living for a few weeks with interpreters, you learn to be surprised at nothing, so I repeated the question. Again, there conversation had come full cycle on itself and reached a pause. I asked the question a third time.

General Ignatiev, a courtly and cosmopolitan gentleman and the only Russian present, by the way, who spoke a little English, finally answered me:

Cross-Examined "Mr. Wikkie, it is only natural that you should not understand. When this war began, we all sought out German prisoners. We cross-examined them. We wanted to find out why they had come to invade our land.

"We found out many interesting things about the Germans, and about what the Nazis had done to them.

"But now it is different. Since the offensive last winter, when we pushed the Germans back and recaptured many towns and villages they had taken, we feel differently.

"We have seen with our own eyes what the Germans did to our people and our homes. Today, no decent Soviet newspaperman would talk to a German, even in a prison camp."

Or take another example, I had been suggesting for a few days, as adroitly as I could, that it would be a good move for the Soviets to send Dmitri Shostakovich, their great composer, to the United States on a visit.

The night before, I had sat in the packed Tchaikovsky hall, Moscow's great concert building,

Union today which knows its own strength.

I was to be immensely impressed with this, later, in central Asia and Siberia. It is a quality which I have often known in America, especially in the West. (The Register and Tribune Syndicate)

Understanding "We have got to understand each other," I said. "We have got to learn to know each other. We are allies in this war, and the American people will not let you down until Hitler has been defeated.

"But I would like to see us work together in the peace as well as after it. This will require great patience and tolerance and great understanding on both sides.

"Why can't Shostakovich be sent to the United States where he already has a host of admirers and where he could help immeasurably in this job of understanding that we both face?"

It was Simonov who answered me this time.

"Mr. Wikkie, understanding works both ways. We have always tried to learn about America. We have borrowed a lot from you, and sent our best men to study in America.

"We know something about your country, not as much as we would like, but enough to understand why you extend this invitation to Shostakovich.

Life and Death "You should send some of your good men to study us. Then you would understand why, perhaps, we do not respond warmly to the invitation.

"You see, we are engaged in a life-and-death struggle. Not only our own lives, but the idea which has shaped our lives for a generation hangs in the balance at Stalingrad tonight.

Also Involved "To suggest to us that we should send a musician to the United States, which is also involved in this war and where human lives also hang in the balance, to persuade you with music of something that is as plain as the nose on your face is in a funny way insulting to us. Please don't misunderstand me."

I don't think I misunderstood him.

The second quality of the evening which deserves reporting was one of calm, quiet, confident pride and patriotism.

It is hard for us Americans, who have read more horror stories about Russia than anything else generation is running the Soviet for many years, to realize that a

The Home War Patrol Potatoes Plentiful Now, But May Be Scarce Again Later On

(Official news of rationing, nutrition and other war programs affecting the home and kitchen, prepared by the regional Office of War Information.)

Remember the potato famine of a few weeks ago? You can make up for it during the next week or so, for right now there are plenty of potatoes on the market. Use all you can now, while they are at their best, for rapid changes in supply situations develop. Potatoes may be scarce again later on. Severe weather setbacks or labor shortages might reduce the total production, and the supply of fiber and wood containers for shipping vegetables is not too large this year.

These early potatoes do not keep extra well for long periods after they have been harvested, so if you have potatoes in your Victory garden, leave them in the ground until fully mature (you will know by the way the vines die down) and eat potatoes from the store until your own crop is ready for sure.

Potatoes are good for what ails you, or might ail you. Particularly if they are cooked with the skins on, as in baking or boiling in jackets. They're a handy source of Vitamin C, which is useful in promoting good teeth and bones; helps prevent and cure scurvy. In fact history records a year, long ago in England, when there was a potato famine and quite a nasty plague of scurvy developed. But scurvy is far from unknown right in your own country. In mild forms—due to too little Vitamin C—it results in teeth that decay and fall out, bones that lose their soundness in a not-quite-crumbing fashion.

Another good quality in potatoes is Vitamin B1, which helps keep your nerves healthy even in times like these, and prevents other strange-sounding deficiency disease, beri-beri.

FAMOUS-MAKING

There was once a woman who won her husband back with this concoction.

Peel and quarter six medium-sized potatoes. Slice two medium-sized onions and dice a piece or two of celery, mincing some tender leaves if available. Add a hearty shake of salt and a little black pepper. Boil slowly until everything is very mushy (probably thirty or forty minutes). Smooth out any remaining lumps with a spoon and stir in condensed milk very gradually. One small can leaves you a very thick soup that's a meal in itself but not hurt a bit by serving with a sharp flavored salad. This leaves four people wishing they could take on another plateful apiece. A grating of garlic juice on top of the soup when served, and a little lump of butter or margarine dropped on at the last minute are chef's touches.

BRIGHT AND TASTY

When you cook up a batch of beets, cook more than enough for one meal. Plan to pickle some of them, cold, for next time. These are good as a vegetable, or sliced with onion slices, as a salad.

BETTER BAKED FISH

Don't add any water, when you bake a fish. This causes it to steam, the juices run out. Result: highly flavored fish but not-so-tasty fish.

BERRY PRESERVING

For whole fruit preserves, choose berries that are just a little green. They will hold their shape better. Then to get a full flavor, add the juice of fully ripened berries. Color is a better maturity guide than size, as some grow larger than others before ripening. Try to choose berries of uniform size, however, so that they will cook evenly.

ANOTHER MEAT STRETCHER

Add chopped meat and seasoning to white sauce and serve short-cake style over hot biscuits. Garnish with parsley or tomato slices for a prettier plate and more vitamins. It's sure to please.

Farmers Handicapped By Price, Labor And Supply

By WILLIAM J. CONWAY
CHICAGO, July 8 (AP)—The nation's farmers, exerting mind and muscle to produce as much wartime food as they can, have encountered a number of handicaps in their labors at home and on the roads leading to the markets.

On the top of their list of difficulties were shortages of help, machinery and feed for poultry and livestock. In some areas they also needed tires, trucks and repair parts for equipment and vehicles. In several sectors they experienced trouble in getting enough gasoline when they wanted it.

A nation-wide survey by the Associated Press among farm owners, farm organization chiefs, state and federal agencies, packers, agricultural machine manufacturers, marketing experts and others showed, at the same time, that there was much dissatisfaction with the farmer's price position.

The feed scarcity is linked with a strange stalemate in the corn supply. There is corn, but it isn't distributed evenly.

The farmers who have it were represented as: (1) Holding it with the hope that the price ceiling would be raised substantially above the current \$1.07 per bushel for No. 2 yellow corn at Chicago. (2) Or retaining it until they see how the 1943 crop will fare. (3) Or feeding it to their hogs because it will bring them more money that way in the long run. (4) Or peddling it in the black market at prices reported to range up to \$1.50.

The undersupply of machinery prompted, man-by-planters in many communities to pool what they had, while dealers passed along all they could obtain in hand-to-mouth fashion.

The War Production Board originally limited 1943 agricultural equipment production to approximately 20 per cent of the 1940 output. This order was modified later to permit manufacture of more harvesting machines—principally combines and corn pickers. But the industry figured that overall production this year would be only 25 to 30 per cent of the 1940 total. However, the WPB allocated material for a 140 per cent increase in repair parts.

Govt. Functions Outlined To Club By Rep. Summers

"There is a need for more vital participation in everyday government," Rep. Burke Summers declared Wednesday in a talk to the Lions club in which he explained his experiences and reactions as a "first-term legislator."

After going into the mechanics of legislation, of committee functions, of how bills are introduced, printed, etc., Summers said that there was such a deluge of measures that it kept a member busy ascertaining which might be beneficial or injurious to the interests of his constituents.

He was strong on close contact between these constituents and legislators, for he said he believed that the people should hold their representatives strictly accountable for their acts. "Whenever a man gets the idea that the power belongs to him and not the people," he said, "then the time has come to cut him down."

K. H. McGibbon, presiding for the first time as president of the club, announced his committee appointments for the year. Slips were distributed to members asking that they list suggested activities for the new club year.

Thunderstorms In June Bring Little Moisture

June proved a typical summer month of thunderstorms according to the monthly meteorological survey by Charles H. Newton, observer at the U. S. department of commerce weather bureau at the airport.

There were no less than seven distinct thunderstorms during the month with six of them rumbling up during the last half.

Although there were nine days on which some moisture fell, seven of these brought only a trace and the two remaining ones netted only a total of 99 of an inch. How this worked out over the area was shown in reports from Soil Conservation Service gauges. The gauge on the E. L. Pierce farm near Ackerly showed 1.03 inches for June while one on the W. E. Currie ranch, probably about 15 miles west of the airport, had 2.90 inches for June. Far to the northwest of this in upper Martin county the Wolcott gauge showed only .35 of an inch.

Temperatures were consistently hot, for there were 22 days which showed more than 90 degrees. Mean maximum temperature was 92.4 and mean minimum was 68.4 degrees. Highest was 98 and lowest 60 degrees.

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up middle, evening, pain under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sensations shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubules flush out poisonous waste from your blood. Get Doan's Pills.

Menus For Your Approval

By MRS. ALEXANDER GEORGE
AP Food Editor

A frozen dessert gives a touch of distinction to a dinner. Home made ice cream, so typically American, hits the spot, especially when the day is a scorcher and the meal has been trimmed down to save ration points or the drain on the food budget.

Because of delivery curtailments, the making of frozen treats is being revivified in many kitchens. I have a well-insulated crank freezer which needs only a double tray of ice cubes to freeze a quart of dessert. Three single trays will probably provide enough ice for a larger freezer. I pack the frozen dessert right in the freezer or transfer it to an ice-cube tray in the refrigerator.

Bavarian Cream

1 tablespoon granulated gelatin.
1-4 cup cold water.
1-2 cup hot milk.
1-3 cup sugar.
1 teaspoon vanilla.
Few grains salt.
2 eggs, separated.

Soak gelatin in cold water 5 minutes. Add milk and salt, and stir until dissolved. Add sugar and beaten egg yolk. Cool and chill. When mixture begins to thicken, fold in beaten egg whites, add vanilla. Turn into large wet mold, or six individual molds. Chill until firm. Serve with fresh strawberries, cream, or crushed or sliced fruit. Serves 6.

BERRY SHERBERT. Boil 3 minutes, 1 cup water and 1-2 cup sugar, add 2 teaspoons granulated gelatin soaked 5 minutes in 3 tablespoons cold water. Cool and add 2-3 cup light corn sirup, 1-3 cup each lemon and orange juices, 1-8 teaspoon salt and 1 1-2 cups mashed berries. Pour into refrigerator tray. After 45 minutes, remove tray and pour mixture into a bowl. Beat 4 minutes and lightly fold in 2 beaten egg whites. Return to tray and freeze until firm. Serves 6.

PEANUT BRITTLE ICE CREAM. Mix 1-2 cup sugar, 3 tablespoons flour, 1-4 teaspoon salt, 4 egg yolks and 2 cups milk. Cook about 5 minutes—or until creamy and a little thick, stir frequently. Add 1-2 cup crushed peanut brittle and let stand for 10 minutes. Stir several times. Add 1 teaspoon vanilla and 2 cups thin cream. Pour into refrigerator tray. After 30 minutes beat 5 minutes, repeat twice. Freeze cream until firm.

ORANGE NUT ICE CREAM. Soak 1 tablespoon granulated gelatin in 1-4 cup cold water for 10

Large Percentage Of Cars Without Federal Stamps

Possibly no more than 60 per cent of automobile users are complying with federal law in regards to display of the automobile use tax stamp.

Sales at the U. S. postoffice indicate that their record of purchases is little better than their record of posting the stamps properly. To noon Wednesday sales of the \$5.00 stamps stood at 4,043, which left more than 900 of the original block of stamps still on hand.

While it was possible to count as high as 80 per cent of cars with the stamps in some spots, the percentage fell as low as 50 in others.

There are possibly well over 6,000 vehicles of one character or another operating in Howard county.

DAUGHTER BORN

Birth of a daughter, on Tuesday, is announced by Mr. and Mrs. Albert D. McCarty. Mother and baby were reported doing nicely.

Costs only a few cents a week for the average family
