Heddy, we think you are trying to jockey a trade with us with your road building scheme. Sure you are trying to trade it to us for votes and a 100 ft. right-of-way through Howard county. Do you remember the days when you first started to smoke?

ALL CIGARETTES tasted somewhat alike to you, but after a while you noticed that some cigarettes were decidedly stronger than others . . . Remember?

As smokers become more experienced, they demand milder cigarettes. Chesterfields are milder. There is no argument about that. Their mildness is a feature as distinctive as their pack-

age or their trade mark. Their tobaccos are mild to begin with. Patient ageing and curing make them milder still.

Chesterfields contain just the right amount of Turkish -but not too much-carefully blended and crossblended with ripe, sweet Domestic tobaccos.

In this nerve-racking time, smokers-men and women - are showing a decided preference for milder cigarettes.

Chesterfields are milder. They taste better. That's why "They Satisfy."
