OFFICERS FAIL TO FIND HAMILTON IN HIDEOUT

Reported Hiding Somewhere In E. Texas Woods

CENTERVILLE, (AP)—Striking swiftly, officers raided several alleged hideouts for Raymond Hamilton near here soon after Friday midnight.

They found no trace of him.

Sheriff Lee Thomason of Lech county and two state highway patrolmen, searched several lonely farmhouses in the woods south of Buffalo without success.

Neal Arthur, highway patrolman, said he had received reports that Hamilton and his gang were hiding "somewhere in East Texas woods."

The sheriff said there were no indications Hamilton had been in any of the houses.

News Behind The News

THE NATIONAL Whirligig

Written by a group of the best informed newspapermen of Washington and New York. Opinions expressed are those of the writers and should not be interpreted as reflecting the editorial policy of this newspaper.

WASHINGTON BY GEORGE BURNO

Permanent

Frank C. Walker took a leave of absence from the job of being Executive Director of the National Emergency Council way last summer. But always loyal to FDR, Walker has put aside his private interests and is back doing business at the old stand—although without official portfolio—inspiring cheering endeavors of existing emergency setups. It will be so created that it will be able to function immediately in an emergency, such as the depression which started in 1930, merely by making larger appropriations available for public works.

Choice

In connection with the new work-relief program it is better than a fair bet that Harry Hopkins, present Federal Relief Administrator, will emerge with his hand on the throttle.

Interior Secretary—Public Works Administrator Harold Ickes would like to be in the engine cab. His reference is the fact that he supervised expenditure of last year's \$3,300,000 public works allotment.

It is significant, nevertheless, that Hopkins has been sitting in recently & important conferences and Ickes has not. The railbirds think Ickes is going to be put back to devoting his entire time to running the important interior department.

Senility

Rep. William B. Bankhead of Ala., new Democratic floor leader of the house, has been so ill since recently the date of his election he has been unable to take any active part in congressional affairs. His daughter Tallulah, the famous actress, has been making visits here from New York each weekend.

Monsieur, Rep. Edward T. Taylor of Colo., has been acting as floor leader by designation of Speaker Byrns. Veteran Democratic members of the house will not permit this to continue indefinitely. If Bankhead's health remains so poor he can not function actively, look for a movement to elect a new floor leader.

And if there should be a new floor leader, never forget the sacred rule of senility—or senility, as a famous editor termed it—which made Byrns speaker and Bankhead leader.

Insured

DEBS BAKE CAKE FOR PRESIDENT'S BIRTHDAY

Three debutante members of the New York committee in charge of the birthday ball for the President were quite proud of the coconut cake they baked for the occasion. Left to right, Marjorie Lewis, Peggy Mason and Jerry Bergh. Similar balls will be held throughout the country on January 30, President Roosevelt's birthday. (Associated Press Photo)

ASK NO. 9 HIGHWAY JOB TO BE RELIEF PROJECT

National Park Official Sees Scenic Drive

Dr. Bumpass Appears Favorably Impressed, Park Work Progresses

Dr. Herman C. Bumpass, chairman of the advisory committee, National Park Service, appeared favorably impressed after inspecting the Scenic Mountain park here Thursday.

He also looked with pleasure upon suggestions that a building should be constructed on the park site to house the Historical Museum here. He said he thought the park would be a very appropriate place for the museum.

In addition to viewing the park premises, Dr. Bumpass inspected the museum and studied the art collection of the late H. W. Caylor. He also looked at the curio collection of Sheriff Jess Slaughter.

Dr. Bumpass was more than passively interested in the geological formations of Scenic Mountain. He informally expressed the opinion that National Park Service should route its tourist traffic from the north through Palo Duro canyon in the Panhandle to Big Spring and thence west. Such a routing would doubtless be very beneficial to Big Spring.

Friday drizzles did not work due to the drizzling rain which fell during most of the work week. However, for the past week work has been steadily progressing.

Foundations were laid for the concessions building and walls of the pavilion began to rise from native stone. Blasting continued through the week for septic tanks. Work was started on the bridge which will span a gulley on the south side of the park near the entrance. One side of the bridge retaining wall was completed.

The exhibit Friday started on his design for an entrance to the park. The entrance will probably be moved slightly north east of the present location so as to eliminate sharp turns. Rock foundations for a road to now being laid with that change in view.

Last week the Garden club formed plans to beautify approximately 1,000 feet of walk way in the park. It will undertake to place plant life along the walk. National Park Service will not permit the use of exotic plants, that is plants which are not native American, native Texas or acclimated to Howard county. This will preclude the use of Chinese elms in the park. About the only plant which is not thoroughly American which National Park Service will permit in the park is Japanese or Japanese quince. Reason for this is that it is a national park project and only American stuff can go into it.

Finance Committee—Bob Piner, W. B. Currie, E. W. Ashby, M. H. Bennett, E. L. Gibson, J. B. Pickle, J. W. Coast. City Beautification—Edmond Neelings, B. J. McDaniel, J. D. El-

Scoop Money As Employees Are Covered

Robbers Force Employees To Go In Car For Protection

FORT WORTH, (AP)—Two men about 30, held up the First National Bank at Handley Saturday morning, escaping with \$500.

The robbers covered Ben Merrett, cashier, Ray McClusky, assistant cashier, and two customers, while scooping up the money.

Leaving the scene the robbers forced McClusky to go outside with them for protection.

The bank was open for a short time early Saturday to accommodate a local bus company, who maintains headquarters here, in paying company employees. Banks were closed in the city on account of Robert E. Lee's birthday anniversary.

Oil Products May Be Moved

District Judge Denies Commission Has Power To Prevent Shipment

DALLAS, (AP)—The Dallas News says a large East Texas oil operator has started negotiations for purchase of all untendered gasoline in East Texas between 300,000 and 350,000 barrels to save the refined market from the effect of dumping this material at once.

The News says the negotiations were started Saturday after a district court at Austin granted temporary injunctions restraining the Texas Railroad Commission from acquiring tenders for crude oil products in storage prior to Dec. 10, date of the issuance of the commission order.

AUSTIN, (AP)—District Judges C. A. Wheeler and J. D. Moore, Saturday, denied the railroad commission had power to prohibit shipment of crude oil products in storage prior to December 10th requiring approval of tenders for movement of refined petroleum.

Oil men estimated approximately 1,500,000 barrels of oil products would be permitted to be moved under the decision.

Addition Made To Feeding Pens

Another Important Addition Is Being Made To The Feeding Pens

Another important addition is being made to the feeding pens built here by Samuel Greer, Glasscock county rancher.

A modern slaughter house unit and refrigeration plant are now under construction. When completed they will offer an ideal place for butchering and cooling of meats.

Greer, who has been engaged in the ranching business for years, last summer conceived the feeding pens here as a profitable outlet for some of his cattle supply.

He built a large, modern feed barn with adequate space and equipment and then constructed pens along the railroad tracks.

For a time his pens were used by the government for keeping cattle shipped in here for processing in the meat cannery. Later he has placed some of his own stuff on feed.

CHARGES LODGED—Charges of carrying a pistol were lodged in county court Saturday against Bert Bradberry.

ONE DEAD, 11 INJURED AS FIVE CARS CRASH IN FOG NEAR DENISON, TEX

South Honors Lee's Birth Anniversary

Local Banks, Postoffice Close In Honor Of Southern Hero

RICHMOND, (AP)—Southern eyes turned back to Dixie Saturday and the Stars and Bars flew once more from myriad flagpoles in honor of the favorite hero of the Confederacy, Robert E. Lee.

Services were planned for Stratford, Westmoreland county, birthplace of Lee, preserved as a shrine in his honor, to be held Sunday.

Big Spring's banks and postoffice were closed during Saturday in celebration of Robert E. Lee's birthday anniversary. The postoffice closed at 1 p. m. for the remainder of the day, while the banks remained closed throughout the day.

Zero Weather Expected In Much Of U.S.

Alaskan Blizzard Responsible For Thirteen Dead; Traffic Demoralized

(By Associated Press) Sharp bit sub-zero temperatures were in prospect for much of the United States Sunday as winter staged a new onslaught on the heels of a northwest blizzard.

From Yukon to California, a howling Alaskan blizzard was responsible for thirteen dead or missing, including four in an airplane lost to sight in the bitterly cold Yukon territory.

Mercury in the Pacific Northwest slipped to 57 below zero. Snow buried most of Oregon, closed schools in Washington and paralyzed transportation.

Zero temperatures existed in the Dakotas, Minnesota and Wisconsin. Cold and snow headed into the midwest and Oklahoma.

17 Cases Set In 70th Court

Two Civil And Fifteen Criminal Cases Scheduled To Come Before Body

Two civil suits and 15 criminal cases have been set for trial in this week of the 70th district court.

First civil suit scheduled to go on trial is H. Clay Read vs. C. E. Thomas, et al, suit to set aside deed.

Criminal cases to be tried are from indictments returned by the grand jury this term of court.

Friday an insurance adjustment case is slated.

Coahoma Churchmen To Gather Monday

Men of the Coahoma churches will hold a joint program Monday evening.

Travis Reed Hijacked By 2 Robbers

Travis Reed, proprietor of Travis Eved Grocery, 711 Scurry street, was held up and robbed of approximately \$100 in cash Saturday night about 9 o'clock at his place of business as he was fixing to close for the day.

As Reed was walking to the front door to close his place, a young man, unmasked walked in, and said he wanted some cigarettes. Reed turned and got the cigarettes as another man walked into the store, also unmasked. They commanded Reed to hold up his hands at the point of pistols and relieved him of his receipts of the day, which he estimated to be around \$100 in cash with a number of checks.

The robbers commanded Reed to leave the store, and ordered him to walk ahead. When they reached Eighth street the robbers broke away and ran to a car parked near the street in direction of Scurry and sped away.

Reed notified officers as soon as possible. No trace of the robbers was found after they were last seen to drive east on Eighth street. The sheriff's department notified officers of adjacent towns to be on the lookout. They were driving a small touring car. The robbers appeared to be about 30 years of age, Reed said, and were unmasked.

Scouters Get Ready To Meet Here Tuesday

Big Spring scouts are preparing for the annual meeting of the Buffalo Trail council Tuesday afternoon and evening when leaders in the Boy Scout work of more than thirty towns will gather here in the Settles hotel.

A. C. Williamson, Sweetwater, area executive, will arrive here Monday to help in the preparation for the largest scout meeting of the year. Williamson expressed the belief last week that attendance at the Tuesday meeting would be greater than in recent years.

He based his prediction on a recent revival of scouting interest all over the district.

Registrations will begin at 2:30 p. m. with general assembly convening half an hour later. At 3:29 p. m. the convention will dissolve into three groups, one for scoutmasters and assistants, with Peyton Wheeler, Big Spring, chairman; one for troop committeemen with Dr. Lee O. Rogers, Big Spring, chairman; and a third for council and district officers with A. E. Lang, Monahans, chairman.

Council business will be attended to at 5 p. m. when the annual report will be made, the budget adopted, and officers elected.

A banquet, to which women guests will be invited, will begin at 6:30 p. m. from the Settles ballroom. Ed Shumway, Abilene council executive, will lead the singing. Officers will be installed and presentation of the Silver Beaver award will be made. A one act scout play will be staged by James Hipps, Joe Pickle, and Marvin House, Jr. of Big Spring preceding the address by Regional Executive James F. Fitch of Dallas.

The scoutmaster's division will feature brief discussions by Clarence Day, Big Spring; Paul E. Jette, Wink; Peyton Wheeler, Big Spring; and George Parks, Roscoe. Other matters of interest to scoutmasters will be open to general discussion.

Speakers for the troop committee group include Dr. Rogers, G. W. Breneman, Midland; E. L. Langley, Sweetwater, and John W. Price, Sylvester.

Appearing before the council and district scout group will be A. E. Lang, John E. Howe, Midland; Gary L. Smith, Sweetwater; Dr. M. H. Bennett, Big Spring; W. C. Blankenship, Big Spring; and J. P. Fitch, Dallas.

R. L. Billington, area executive of the Cochocho Valley council, will bring a group of San Angelo scouts here for the meeting.

Landmark Is Destroyed In Atlanta, Ga.

ATLANTA, (AP)—Flames, firemen believed due to an explosion, Saturday destroyed the old Georgia railroad depot and warehouse, one of the landmarks of Atlanta. Loss was estimated at \$100,000.

Fire Destroys Old Georgia Railroad Depot And Warehouse

ATLANTA, (AP)—Flames, firemen believed due to an explosion, Saturday destroyed the old Georgia railroad depot and warehouse, one of the landmarks of Atlanta. Loss was estimated at \$100,000.

Group Plans Teacher Meet

Miss Ann Martin, county superintendent, Saturday conferred with a special committee to plan for the next meeting of Howard county teachers.

For the past week she has been visiting rural schools to score them for standardization. She inspected schools at R-Bar, Center Point, Highway, Fairview, Moore, Knott, South, Vealmoor and Highway.

Monday she will go to Cauble at 9 a. m., Hartwell at 10:45 a. m., and Lomax at 1 p. m.

Tuesday she will inspect Chalk at 9:15 a. m. Elbow at 1 p. m.

Wednesday she will score Morris at 9 a. m., Gay Hill at 10:30 a. m., and Richland at 1 p. m.

Thursday the series of visits will be ended with calls at Vincent at 9 a. m., Green Valley at 10:30 a. m., and Morgan at 2:15 p. m.

Relief Payroll Total \$3667

Relief Work Held Steady, Due To Highway Projects

Payroll to relief clients amounted to \$3,667.31 for the past week. While work relief held rather steady, direct relief totals mounted.

This can be attributed to the fact that the chief work project is highway work. Not all clients are qualified physically for this type of work.

CURTAIN CATCHES FIRE

Wind blew a curtain into a fire at 1806 Johnson Friday. Only slight damage occurred. Firemen were on the scene before any marked damage could occur.

BIRTH NOTICE

Mr. and Mrs. L. S. Bonner, residing on North First street, announce the arrival of a son, born Jan. 14. The new arrival has been named Charles Luther.

The Weather

East Texas—Probably less Sunday, turning to snow in north. Cold wave in northwest and north-central portions Sunday.

West Texas—Snow in north and cold wave in north Sunday probably snow in north and rain in southeast portions, colder.

Double Burden On Taxpayers Being Studied

Commission Finds Public Pays Coming And Going

CHICAGO, (UP)—The most obvious form of double taxation—collection of revenue from the same source by two separate agencies such as federal and state or two states—is but one of the methods by which collectors "get the taxpayer coming and going."

There are four more serious, according to James W. Martin, research director of the Interstate Commission on Conflicting Taxation.

The general definition of double taxation, Martin said, is a duplicate tax levied that discriminates between certain types of taxpayers, whether it is levied by one jurisdiction or more than one.

Specific Case Cited
Thus, double taxation may arise in a single taxing district in the case of a general property tax which defines as taxable property both the stock of a corporation and the realty it owns.

Another taxation conflict reported by Martin is technical difficulty arising from indifference of one taxing jurisdiction to the levies of another. If a corporation does business in several states, it is likely to encounter several bases

Narrow Escape

Mrs. A. F. Westberry (above) had a narrow escape when federal agents killed "Ma" Barker and her son Fred, accused kidnapers, in a furious gun battle at Oklawaha, Fla. Mrs. Westberry, who lived just across the street from the Barkers' hide-out, fled through a hall of bullets as the officers and fugitives exchanged shot for shot. (Associated Press Photo.)

for computing capital gains or deductions. Varying legal interpretations of the same statutory provisions present another aspect to this difficulty.

On the other hand there are at

least two constitutional provisions which deprive revenue collectors of tax funds, Martin said.

One prohibits state taxation of interstate commerce. If, for example, a shipment is made from Cincinnati, O., to Cleveland, O., freight tariff receipts of the railroad company are taxable. However, if the same shipment originates in Ludlow, Ky., a mile across the Ohio border, and travels exactly the same line, Ohio can not levy the tax.

The second may be the outgrowth of competition between various commonwealths for economic advantage—as seen in the recent Florida constitutional provision exempting movie producers from income tax, Martin said.

Under The Dome

At Austin

By GORDON K. SHEAKER

AUSTIN (UP)—Governor and Mrs. James V. Allred found no welcoming dinner waiting for them at the governor's mansion when they arrived for residence there. It seems the reported "custom" of a retiring governor leaving food for a successor is a bit of fiction based on belief that Southern hospitality is stronger than political feeling.

The dinner left by Mrs. O. B. Colquitt for Mrs. Ferguson and the governor in 1915 seems to be the only one of record.

Mrs. Ross Sterling, here this week for the Allred inauguration, explained that she did not leave the governor's mansion two years ago in a peevish mood. No dinner was left but Mrs. Sterling said that she was ill with pleurisy and rose from a sick bed to vacate the house.

Governor Ferguson left Governor Allred a marked verse of scripture even if he did have to hunt for a hamburger lunch after his inauguration. It was marked in the Bible that has been marked and passed on by governors since the administration of Pat M. Neff.

The passage marked was Jeremiah 50:32. It is:

"And the most proud shall stumble and fall, and none shall raise him up, and I will kindle a fire in his cities and it shall devour all round about him."

Prison Manager ee Simmons admits the state prison doors need greasing after the way they have swung open recently for release of pardoned and paroled convicts.

"They just about wrecked me," said Simmons dolefully. "They took some of my best men—I have to work with a skeleton staff."

Besides the removal of many trustees, Simmons said the prison management was done an injustice by prisoners arriving with pardons in hand. He had to pay such convicts the usual release fee and that is charged up against expense of prison management.

PEORIA, Ill. (UP)—Bells clang in the fire house and on the second floor Fireman Joe Turner leaped instinctively for the brass pole.

He wound arms and legs about the pole and began his slide. Friction ignited matches in his shirt pocket and burned his chest painfully.

Turner released his grip, dropped 12 feet and suffered compound fractures of both legs.

It was a false alarm.

False Alarm Adds Insult To Injury

PEORIA, Ill. (UP)—Bells clang in the fire house and on the second floor Fireman Joe Turner leaped instinctively for the brass pole.

CHIC FOR WINTER SPORTS

The attractive bathing suit shown on the right is of red and black silk plaid taffeta with a bandeau effect. The new silk mode for golfing wear on the left is a two-piece sports frock modeled in a brown and white check material light enough for warm weather, suitable for the smartest links. (Associated Press Photos)

A WORTHWHILE GOVERNMENT PROGRAM

The recent proposal that railroad grade-crossing elimination be made a part of federal relief work during the current year is finding increasing support.

It is supported by safety authorities, who know that such a program would do much to reduce and eventually eliminate the great loss of life due to crossing accidents. It is supported by railroad men, who know that it would expedite and improve service. It is supported by state governments, which realize the need for crossing elimination but have no funds to devote to it. And it is supported by the general public and the business man who knows that no form of public works could do more to take up the slack in employment and stimulate heavy industries while at the same time not interfering with any private endeavors.

This last phase of the proposal is not especially important, inasmuch as federal funds are disbursed with the principal stress laid on getting maximum employment for each dollar spent and encouraging private enterprise. In grade-crossing elimination, the greatest part of the money would go to workers, both on the job and in factories supplying cement, steel and other materials. And the revitalizing effect of this would give impetus to employment.

Safety, employment and public welfare will all be advanced if the government accepts the proposal. There are some 30,000 grade crossings which have no protection—and each year thousands of lives are unnecessarily wasted because of accidents occurring at them.

Found Barkers Dead

Willie Woodberry, (above), negro cook for "Ma" Barker and her son Fred at their hide-out in Oklawaha, Fla., was the first to learn they had been killed in a six-hour gun battle with federal agents seeking to arrest them for the kidnaping of Edward G. Bremer of St. Paul. Sent into the house by the officers when the Barkers' fire ceased, Woodberry returned with the report "they are all dead." (Associated Press Photo.)

Here the government has an opportunity to be of the utmost service to all the people.

INVESTOR WANTS SAFETY FIRST

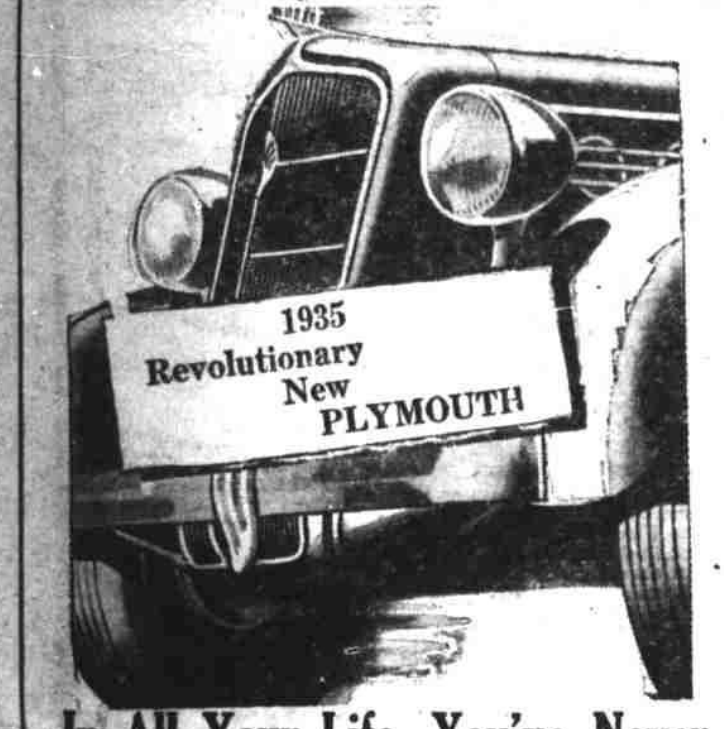

The wise investor follows the old railroad motto of "Safety First."

Depression has taught him one thing of incalculable value—that speculation is for those who can afford to lose—a category in which very few of us have a place. Securities are subject to their own laws of gravity, no matter what we thought in the boom days, and what goes up is always likely to come down.

The average American, as a result, is turning resolutely to investments which provide the maximum of security for principal. Profit is of secondary consideration. He is seeking means of investment whereby his savings may be spread about widely among basic, essential industries—industries which will weather the economic storms, and eventually come out with colors flying. He knows that he is not saving for today, but for tomorrow, when his earning power will decline, and dollars which are earned with relative ease now will be very difficult to come by.

This attitude, shared as it is by the great bulk of average citizens, promises well for the national future. Many people are pursuing their investment programs through life insurance, which is especially well suited to the needs and the desires of persons of all financial standings. But whatever the plan adopted, the trend toward safety presents a splendid illustration of American thrift, wisdom and downright common-sense.

Sgt. Seranus Shaddock and Sgt. R. E. Shaddock, father and son, retired from the United States army recently. Each had served 30 years as doughboys.

In All Your Life, You've Never Driven a Car Like This!

It's an entirely new kind of automobile, engineered from the ground up to make motoring safer. It makes the greatest step forward in low priced car design in fifteen years. Easier to control, safer on today's highways that is the new 1935 Plymouth, America's first High Speed Safety Car!

President's Niece

Margaret Delano, a niece of President Roosevelt, will be one of the many socially prominent women who will have an active role in the 1935 Birthday Ball for the President. The Ball, which will be held in 5600 communities from coast to coast on Jan. 30th, is a benefit to raise funds for waging a nation-wide war on infantile paralysis. Miss Delano is chairman of the Maids of Honor committee for the affair that will be held at the Waldorf-Astoria, New York, drawing to it thousands of the nation's social leaders.

Points To Bruno

Another of the parade of handwriting experts to identify Bruno Hauptmann as the writer of the Lindbergh ransom notes was John F. Tyrrell (above) of Milwaukee. (Associated Press Photo)

TEXAS TOPICS

By Raymond Brooks

Veterans of the Texas senate said here they do not construe the ritual of "senatorial courtesy" to apply in the pending case wherein Sen. L. J. Sulak of Al. Grange has served notice he will contest the confirmation of Johnnie Walker of Welmar on the livestock commission, if appointed.

Walker was scheduled for appointment, it was understood, but when Sen. Sulak gave notice of a fight on his confirmation, this appointment was held over, awaiting an amicable adjustment of the matter.

The formula of "senatorial courtesy" is that a senator may block the confirmation of anyone from his district for any appointment, regardless of the support the appointing governor may have in the senate, on the statement that "this man is personally obnoxious to me, and engaged in personal political activity against me."

Veterans say that Sen. Sulak's only known basis of opposition would be that he s.c. during his campaign he would oppose Walker, if appointed, back on the livestock commission again. The notice Walker did not campaign against Sulak, but gave his whole time to Gov. Allred's campaign.

They insist the issue is not between Walker and Sen. Sulak, but between the Allred friends in the senate and Gov. Allred. If the nomination of Mr. Walker should be sent in by Allred.

Gov. Allred already has appointed the other two members of the livestock commission, but left one nomination yet to be sent the senate.

Mr. Walker induced several prominent citizens of his district to go to Austin to attempt to settle the controversy and permit his appointment to have the assurance there would be no fight on it in the senate by the senator-editor from La Grange.

Huge Telescope May Explode Old And New Beliefs

SYRACUSE, N. Y. (UP)—The Cyclopean telescope "eye" now being completed at the Corning Glass Works, may prove or disprove many advanced theories regarding the universe—including Prof. Albert Einstein's latest belief that space is curved and finite, in the opinion of Dr. Harlow Shapley, famous scientist and head of the Harvard Observatory.

Dr. Shapley expressed his opinions here before addressing the Technology club.

Study Space

"Within six years after the giant telescope has been set up," Dr. Shapley declared, "we may be able to say accurately whether space is curved and finite or open and boundless."

"And this is only part of what the telescope will do. Astronomers will be able to analyze parts of the universe millions of light years away from us, bringing the nebulae into sharper focus than heretofore possible."

Dr. Shapley pictured verbally the vast depths of the outer universe and told of thousands of new island universes found in the far reaches of space through his survey of the Cosmos.

130,000 New Galaxies

"We have in our survey of the metagalaxy discovered and photographed about 130,000 new galaxies, many of them larger than the earth's immediate universe," he declared.

"Twenty years ago there was no astronomical theory, as we know it. Then the universe was a static thing; today we consider it dynamic."

"Out of our research and the work of mathematicians and physicists has arisen a new picture of the universe in which the laws of cause and effect, once regarded as rigid, no longer have the same meaning."

The doctor told of an exhaustive study he had made of the newly discovered exploding star, Nova Mercenia.

"This star," he said, "has increased its brightness more than 200,000 times. The usual exploding star increases only 1,000 times."

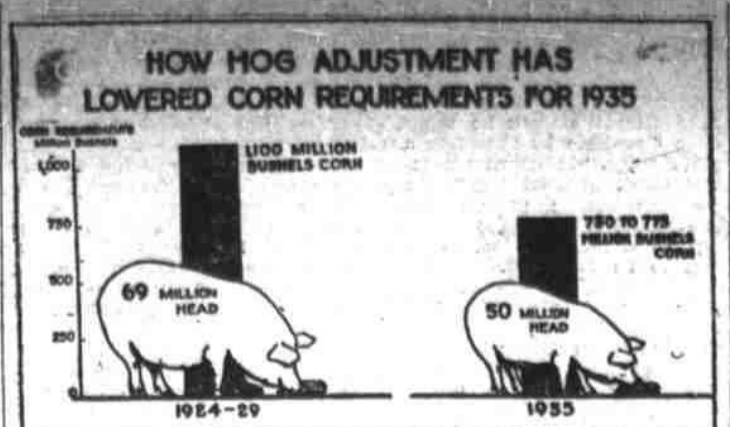

Capt. Shigehiko Takahashi, master of the N. Y. K. liner, Hige Maru, has traveled nearly 500,000 miles between the Pacific coast and the Orient.

Hogs Run Wild In Last Minutes To Crush T.C.U. Frogs

FORT WORTH, (AP)—Pouring 15 points through the hoop in the last four minutes of play, the University of Arkansas cagers scored their third straight southwest conference victory, 41 to 20 over the Texas Christian university Horned Frogs in the first game of their series here Friday night. It was a rough and tumble affair with the teams smashing off the tackles, sweeping around the ends and power-housing through the guards. All that was missing was a football field.

The Frogs put up a torrid scrap for 36 of the 40 minutes. With four minutes to play, the Porkers led only by six tallies, 26-20. Then Captain Judy Truelso and Darrell Lester, the purple's two mainstays on defense, fouled out of the game and the tall charges of Coach Glen Rose went on a scoring spree. They pushed five field goals and five charity shots through the mesh before the final gun while the Frogs rarely got a shot.

In all 24 fouls were called. Exactly a score were on the Frogs who smashed and battled hard all night. The Porkers also lost two players via the four-foul rule, Howell and Fulton.

EFFECTIVE control of corn acreage in 1935 is held to be essential because of the decline in corn requirements for livestock feeding since the 1924-29 period, and particularly since a year ago. As indicated in the above chart, the total number of hogs slaughtered in 1934-25 probably will not exceed 50 million head, as compared with an average of 70 million head in recent years.

Because hogs eat approximately one-half of the annual corn crop in the United States, hog adjustment this past year alone has lowered corn requirements between 325 and 350 million bushels under the requirement level of former seasons. The reduction of 10 to 15 per cent effected in cattle numbers by the Government drought purchase program has further reduced corn requirements for livestock feeding. A moderate reduction also has taken place in numbers of poultry, horses, and mules, which together ordinarily consume about one-fifth of the annual corn crop.

In view of these changes an acreage somewhat less than the average of recent years would meet actual requirements and would leave a reasonable margin for rebuilding the reserves now being depleted to meet drought conditions. Therefore, if farmers should follow the usual post-drought tendency and actually increase corn acreage in the spring of 1935, the largest surplus of corn over requirements ever produced in this country and relatively low corn prices might be expected.

By combining under the 1935 corn-hog production adjustment contract offered by the Agricultural Adjustment Administration, farmers can hold corn acreage at a level that will avoid a return to an excessive level of production.

Dobie, Saviour Of Coyote, In Defense Of 2 Other 'Varmints'

AUSTIN (UP)—J. Frank Dobie, saviour of Texas coyotes last spring, has turned to the defense of two other criticized citizens of the state—the armadillo and the road runner.

Dobie, writer and teacher of Southwest lore, took up the fight after armadillos and road-runners had been accused of shortening the supply of Texas quail.

"The printing of mere rumors against them is base," said Dobie. "Road-runners and armadillos and other forms of wild life not classed as game make the countryside an interesting, attractive, charming, and genial to man as do game animals. They are entitled to fair evidence before they are condemned."

Both armadillos and road-runners have been declared by Dobie to have value as insect-eaters.

As a part of their study of criminology, high school students of Richmond, Va., inspected prisons and interviewed the inmates.

MODERN SIMPJE SIMON

HOUSTON (UP)—Simple Simon, the nursery rhyme hero who likes his pie big and numerous, has a counterpart here. When a pie company man left his truck to take an order from Mrs. Jim Brown, a thief stole 72 luscious dishes.

Five members of the W. G. Brandstetter family, all graduates of Southwest Texas Teachers' college, direct musical organizations in schools of the state.

Historians say guarantees of reimbursement in case of mishaps to marine cargoes constituted the earliest form of insurance.

Within four years 1240 new stores have been opened in Moscow.

Heroines

Dorothy Lee Miller and Carol Elizabeth Long, of Kansas City, Kan., may not be rated as heroines among the men folks but the ladies of their home town think that the little girls deserve at least honorable mention as typifying the neighborly spirit and quiet heroism evidenced by many other workers on the Birthday Ball for the President. Last year, as candle-lighters for the huge Presidential birthday cake at Kansas City's ball, the Misses Miller and Long, instead of retreating in panic, fought off the threatened attack of a mouse and routed him completely before ladies in the huge audience could start a stampede for the door.

The Kansas City affair in 1934 is considered typical of 5,600 parties which will be held in communities from coast to coast this Jan. 30, honoring the President's 63rd birthday anniversary, and raising money for local and national work toward aiding victims of infantile paralysis and toward discovering an effective preventative of the huge disease. More than 4,000,000 persons are expected to attend, but Dorothy and Carol report that no mice will be invited.

Burr's Present For Spring!

Fashionable Suits

Smartly tailored woolen suits for Spring! Choice of short or long coat styles! Wide selection of the late new colors that will be popular for wear now and later. Charming new sleeves and details. See them tomorrow.

\$9.90

Linen Suits
Get first choice of these new natural finish and plaid linen suits for spring and summer wear.

\$5.95

Spring Hats
Now novelty crepes in the most becoming styles we have ever shown. Smart new colors for your spring apparel.

98c

Gay Spring Frocks

You'll hardly believe your eyes when you see the clever dresses of quality materials we are offering at these low prices. Plaids, solid colors, patterns . . . everything that brings you the idea of spring.

Gigantic Air Mail Scheme

British Aim

Air Ministry Would Link Million Mile Line With 3 Cent Rate

LONDON, (AP)—Six million flying miles of the British empire will be linked by a three-cent per half-ounce, first class airmail in 1935, says the British air ministry.

That would give Great Britain supremacy over one-third of the world's air routes.

Sir Philip Sassoon, undersecretary for air, says all first class mail will be dispatched by air after 1937. Shipping circles are silent as to whether existing governmental mailship subsidies will be reduced when the entire transport of first class mail by air is put into operation.

Many Months Of Planning

Inhabitants of remote Malaya, South and East Africa, at present 22 days by sea and 9 days by air from London, will have their mail service shortened by four days. The 12-day London-Australia service will be halved.

This momentous empire service was conceived before C. W. A. Scott's record-breaking England-

Australia flight in the Melbourne Air Derby. The scheme has been given careful consideration and negotiations have been under way with the dominions for many months. The air ministry, post-office and imperial airways have cooperated closely.

An integral part of the plan is a comprehensive program for ground organization of air routes on a basis which will enable services to cater for passengers as well as mail traffic and operate by night as well as by day.

As in the past, new types of planes for these commercial services will be test flown by factory pilots and by royal air force test pilots. Imperial Airways will pass only on innovations in comfort, interior fittings and decorations.

Subsidies May Go Up

There is every sign of increased air subsidies. The 1934 subsidy was \$2,800,000.

Despite the contemplated shortening of time schedules over empire goes into effect, Britain's com-

mercial air services will concentrate on tons per mile and not on miles per hour. The air ministry intimates that planes will carry a payload of from 3.5 to five tons.

The air ministry believes that when speed is carried beyond a certain point it becomes a secondary consideration with air travelers. Especially if the greater part of the 24 hours is spent in actual flight, passengers demand an increasing degree of comfort.

Railroads See Better Times

ST. LOUIS, (UP)—Increased carloadings and advances in passenger traffic on railroads during 1935 were predicted by Frank E. Strouse, Pennsylvania Railroad official, at a meeting of St. Louis business men.

"The increased traffic will go a long way toward ensuring prosperity for the railroads," Strouse said. "Since the public is finding out that Main Street, and not Wall Street owns the railroads, there has been a much better understanding of what rail service means to the nation."

"Nearly one-half of the taxes paid by railroads in the country goes to the public schools. They educate between 1,000,000 and 2,000,000 pupils each year, at an average cost of \$90 a year for each student."

"The railroad companies and their workers are liberal spenders," according to Strouse. "Last year the railroads obtained millions of dollars from the PWA, all of which will be used to pay wages and buy materials and supplies."

"At present, \$2,000,000,000 worth of securities are owned by 40,000,000 people who comprise the life insurance companies of this country. More than \$1,000,000,000 is invested in the railroad securities."

Strouse added that the increase in revenue carloadings in November and December, 1934, was 25 per cent greater than that of the same months in 1933 and that last year was the first year since 1922 that passenger traffic showed an increase.

The biennial report of the Idaho state land department showed an increase in revenue, with 492,764 more acres of land under lease.

Southern California police are on the lookout for a new type of public enemy—the turkey thief. A band of them recently made off with 1000 turkeys, using a truck.

WHERE FEDERAL MEN SLEW ACCUSED KIDNAPERS

In this house at Oklawaha, Fla., "Ma" Barker and her son Fred fought to the death in a desperate gun battle with agents for the United States department of justice who sought to arrest them for the kidnaping of Edward G. Bremer, wealthy banker and brewer of St. Paul, Minn. "Ma" fell with a machine gun in her hand after she and her son battled the officers for six hours. (Associated Press Photo).

afflicted. It has also brought a national determination to carry the fight against infantile paralysis forward to ultimate victory.

TODAY and TOMORROW By WALTER LIPPMANN Unemployment Insurance

The report of the President's Committee on Economic Security is so comprehensive and yet so succinct that it is impossible to examine it all this moment. But no one, I think, can read it without feeling very great confidence in the intellectual honesty, the thoroughness and the seasoned knowledge with which the Committee and the Executive Director, Mr. Edwin E. Witte, have done their work.

The most difficult part of the whole matter is of course unemployment insurance. To make or deny and self-respecting provision for the aged, for fatherless children, for those who can not hope to support themselves, is immensely desirable. It raises some difficult administrative questions and has to take into account the resources of the country. It is, however, a comparatively easy thing to do.

To provide for the unemployed is not easy. No insurance system can really insure all workers against unemployment. The report is based on a recognition of this truth. In a recent speech, Mr. Witte set forth the facts. Thus, if the plan proposed is adopted by Congress and set up by all forty-eight states, less than half of all persons gainfully occupied can be brought under unemployment insurance.

Mr. Greer goes a step further in the installation of a modern slaughter and cooling unit. Not only will he be in a position to breed and feed his own cattle, but he will also be able to market them locally. A good thing for Mr. Greer, no doubt, and a good thing for Big Spring. We will get to eat some of our better breeds of meat new instead of having it shipped into us.

SCOUTERS MEETING: Tuesday scouters from more than 30 cities in this area will gather in Big Spring for their annual meeting. Unlike so many conventions, this is one entirely of constructive work. The customary drunken revelry attendant upon a convention is entirely absent when scouters meet. There is a program of work. They spend their time learning new ideas, practical suggestions, and inspirations for greater service.

Needless to say, immeasurable benefit accrues from the meeting. Men who will come here are voluntary workers. They serve faithfully in offering boys a wide awake clean, wholesome program. They do it because they know the "youth of today is the America of tomorrow."

PUBLIC RECORDS

Marriage Licenses: James Robert Hatch of Big Spring and Miss Ruth Elizabeth Gray of Lubbock. Orville Whitlington and Miss Dale Barrett. John Tier and Miss Ellen Coplin.

Birth Notice: Mr. and Mrs. L. S. Bonner announce the arrival of a 7 1/2-pound son named Charles Luther.

Mrs. Carl Svendsen of Lubbock is visiting with her brother, H. L. Rix.

Thirty-five cents for a fried chicken dinner at the Busy Bee Cafeteria.

ment in private industry. It discourages rightly because the unemployed worker, after his insurance is exhausted, will be offered work that is distinctly less attractive than the work he might obtain elsewhere by accepting a private wage. It encourages re-employment, in part because public works stimulate private business but chiefly because wages must come down when prices fail if men are to be employed.

It goes without saying that the whole scheme will work badly and be open to the charge that it works injustice unless, accompanying it the government adopts an equally firm policy against rigid prices established by monopolistic corporations. You can not ask labor to reduce its rates in order to promote employment unless business also reduces monopolistic prices.

Pigeon Raisers Have 6,000 Of Birds In Dallas

DALLAS, (UP)—Nearly 800 exhibitors from all parts of the United States and Canada met Saturday at the fair grounds for the opening of the Sixteen Annual Show and Convention of the National Pigeon association.

Members of the association brought with them between 4,000 and 6,000 pigeons for exhibition purposes. Entries registered in the show indicate it is the largest Pigeon Show ever held in the southwest and the largest since the show, including Silver, Blues, and other colors, ever held in the history of the association.

The show is sponsored by the Texas Pigeon Association and the Texas Breeders' association. The pigeon clubs of Houston, Waco and Ft. Worth cooperated with the Dallas organization in bringing the national show to Texas.

People Between 20 And 30 Give Most Trouble To Police

DALLAS, Texas, (UP)—Men and women between the ages of 20 and 30 most frequently come in conflict with the law, a survey of arrests for 1934 showed here.

During the year Dallas police arrested 48,290 persons, altogether. Women between the ages of 20 and 24 showed up in greatest numbers at the jail. There were 6,788 women arrested in this age group.

Men, according to the report, come into conflict with the law most often when they are a little older. Largest single group of men arrested was 5,578 between the ages of 25 and 29.

The report showed that most arrests are made between the hours of 8 and 10 p. m. Slackest period is between 6 and 8 p. m.

During the year 12,969 women were arrested for vagrancy, and investigation. Next most frequent charge was drunk and disorderly conduct, which was responsible for 10,116 arrests.

Old Indian Fighter Chooses Western For First Picture Show

FORT WORTH, (UP)—Patrick David, 94-year-old Indian fighter and early day Texas ranger had never seen a movie. Neither had Tom Griffin, 75, who rode the range as a cowboy.

When the superintendent of the county home here invited them to attend as his guests, they "allowed as how they'd be glad to."

They passed up Garbo and Gable for a Western thriller.

"It was mighty true to life," David said afterwards. "You could hear the pound of the horses' hoofs. I liked that."

David carries as souvenirs of his Indian fighting days wounds from rifle, knife and tomahawk.

Judge Would Revise Antiquated, Clumsy Criminal Procedure

BEAUMONT, Texas, (UP)—Judge W. C. Davis, Bryan, presiding judge of the state's second administrative district, announced following a meeting of the organization here that it would ask the Texas legislature to revise the state's "antiquated and clumsy" system of criminal procedure.

The move also has been recommended by the state bar association. The proposal was designed to speed up and make more effective the administration of justice, Davis said.

If Court Room Looks Like Produce House, It's All For Justice

DALLAS (UP)—If once a week Judge Noland G. Williams' district court room looks more like a produce house than anything else, it's all in the interest of justice.

A vegetable hauler, hauled into court for failure to pay his alimony, complains to Judge Williams that he was unable to pay his weekly installment because he had no money.

"How do you support your present wife?" Judge Williams asked. "I haul vegetables," was the reply.

"Then you had better haul enough in here every week to pay your alimony," Judge Williams said—and the defendant does.

Texas University Teacher Herds His Classes Into Open

AUSTIN (UP)—Dr. L. W. Payne, University of Texas English professor, believes in using Texas' balmy mid-winter climate to best advantage.

Recently he assembled his class along a stone retaining wall in the center of the campus and there conducted his usual hour-long lecture. As long as the weather permits, he plans to keep it up.

Son Died Of Overwork Says Father In Suing Employing Railway Co.

SAN ANTONIO (UP)—In a suit filed in district court here a man asks \$30,000 damages from a railroad company on the grounds that his son, who was employed by the company, died from overwork.

The father charges that his son worked overtime by the company when he was not physically able to stand the exertion.

JURY FREES DILLINGER LAWYER

This was the scene in Chicago federal court after a jury found Louis Piquett, attorney for the slain John Dillinger, not guilty of harboring his client. Piquett is shown embracing his wife after the verdict. One of Piquett's attorneys, Henry Pieruccini, is at the right. (Associated Press Photo)

Target For Cupid

Cupid is out on the archery range in Hollywood, and reports persist that he has his love-shaft trained on Charlie Chaplin and Paulette Goddard (above). The marriage of the film comedian to his young leading lady is said to be in the immediate offing. (Associated Press Photo)

Mastodons Flourished In State At One Time

AUSTIN (UP)—Mastodons and real elephants flourished in Texas at a relatively late geological period, according to Dr. E. H. Sellers, University of Texas expert. Dr. Sellers is making a special study of prehistoric life in Texas and collecting fossils for a museum. His latest contribution is a mastodon uncovered by Chris Hoover near Brownwood.

Houston Stores In Heavy Theft Loss

HOUSTON, (UP)—Firms and individuals lost more than \$200,000 through burglaries, holdups and swindles, according to police records for 1934.

Total loot taken was \$294,864.69 of which approximately a third, or \$93,417.82 was recovered. The 1933 total was \$314,422.05 of which \$486,427.49 was recovered.

Spanish Professor Knows Her Language

AUSTIN (UP)—When University of Texas Spanish students attend classes of Miss Lillian Wester, they may be assured their teacher knows whereof she talks.

Miss Wester was for six years diplomatic reporter for the Mexican Herald, English-language paper in Mexico City. Three Mexican presidents are numbered among her close friends.

HOOKIE AGAIN?

AUSTIN, Texas, (UP)—University of Texas officials are wondering how students will spend Texas Independence Day on March 2. Will they go to class or play hockey?

Texas students this year have been ordered to attend class on Texas Independence Day because of an extra long Easter vacation. However, the last time the state's birthday was just another school day the pupils rebelled and stayed away. That was in 1897.

PERFECT FIRE RECORD

DILLEY, Texas, (UP)—According to a report made by the city of Dilley to the state fire insurance commissioner, there was not a cent of fire loss during the year 1934.

U. S. Leads In Oil Production

DALLAS, (UP)—Since the world's first "discovery" well was brought in 76 years ago in Pennsylvania, some 22,729,625,000 barrels of oil had been produced by Jan. 1, 1934.

Of that amount, according to Elmer H. Johnson, regional economist of the bureau of business research of the University of Texas, the United States produced 65.1 per cent.

North and South America together produced 77.6 per cent of the world total. Europe produced 15.8 per cent, Asia and Africa the rest.

Russia was the greatest European producer, her wells flowing 12.7 per cent of the world's total production down to the beginning of 1934.

For the period from 1859 to the first of 1934 California produced 26.75 per cent, Oklahoma 22.4 per cent and Texas 21.73 per cent of the United States total oil output.

Texas, however, holds first place in current production. For the 1929-1933 period, Texas produced 36.7 per cent, California 23.9 per cent and Oklahoma 22.2 per cent of the nation's total.

During 1933, according to Johnson, Texas' recorded production amounted to almost 45 per cent of the national output, a proportion it held through 1934.

South Texas Farmers Hold 2 Day Session

CORPUS CHRISTI, (UP)—Planters and farm people will gather here Monday for a two-day annual South Texas farmers conference which is sponsored by the South Texas Agricultural Co-operative association and the South Texas Cotton Co-operative association.

The Texas Co-operative council and the Texas Agricultural association also will participate in the conference which was held for the first time last year, according to Hugh Hathaway of Corpus Christi. The conference program will begin with a banquet on the night of Jan. 21 and will continue thru the following day.

Court Upholds Right To Enforce NRA Code

NEW YORK—The State's right to enforce the NRA motion-picture industry's code and other regulatory agreements of the Federal authorities was established in a decision by Supreme Court Justice Edward J. Byrne in Brooklyn.

The Court granted a temporary injunction against a Flatbush theater that was accused of violating the code by reducing the wages of its projection-machine operators. Justice Byrne directed the theater to refund the difference between the original and the reduced wages to the operator who brought the test suit.

As a result of the decision, other operators in a similar situation are

PRELIMINARY studies indicate

that a substantial increase in hog income is resulting from the adjustment in hog marketings effected by the 1933-34 emergency hog-buying program and the 1934 corn-hog production adjustment program of the Agricultural Adjustment Administration. The graph above shows that the total estimated cost to packers for hogs slaughtered under Federal inspection during the first eight months of 1934, including the processing taxes due, was approximately \$100,000,000 larger than for the corresponding period in 1933.

This represents an increase of about one-third in total cost and of more than one-half in the hundred-weight cost of live animals. At the same time, the total inspected

slaughter of hogs for the first eight months of 1934 was about 12 per cent under the total for the corresponding period for 1933.

A part of this gain has been due to an increase in consumer's income and to some adjustment in tonnage effected by the shortage of feed supplies resulting from drought, but production control under the Agricultural Adjustment Act has been a large factor. Hog prices throughout the current marketing year are expected to average higher than for several seasons.

Corn-hog farmers of the United States will have an opportunity to hold gains made this past year by cooperating in the 1935 corn-hog program now being offered by the Agricultural Adjustment Administration.

State biologists estimated 200 rattlesnakes, as well as 90 to 95 per cent of the prairie dog population, died in Bailey county, Tex., in a program of spreading poisoned grain.

Cattle Diseases Are Due Often To Error In Feeding And Care

SAN ANTONIO (UP)—Cattle diseases are often due to error of feeding and care on the part of the owner, Dr. Verne Scott, Stephenville, veterinarian, said at a meeting of the edjree club here.

"If cows in your herd are sick, it is possible you are not milking them right, feeding the right or are exposing them improperly," Dr. Scott said. "If you limit them by a fence you are supposed to give them care that probably would not be necessary if their pasturage area were not cramped."

A muzzle-loading rifle of Revolutionary vintage was unearthed near Durant, Okla., by a farmer digging for water.

Records kept by breeders of Hartz mountain canaries show some of the birds live to be 17 years old.

Greatest Selection of Rugs ever seen in this city!

Fresh, new floor-coverings of every sort now ready for you—

WE'RE proud to offer you this extraordinary choice of beautiful rugs—all made by the famous Bigelow Weavers. Whatever your style of home decoration, you'll find we have the right floor-covering to harmonize perfectly.

Hair Rats Are Coming Back

Beauty Culturists Say They Will Be Much In Demand

FORT WORTH (UP)—"Fire-engine red" fingernails are the "top" in beauty culture adornment for 1935, it was decided at a state wide convention of beauticians here.

Furthermore, the beauty shop operators decided, the polish is to be worn over the entire finger nail—"moon" tips and all.

Eyebrows and eyelashes, to be smart, will be blue, green or purple, enhanced by a rusty shade of eye-shadow.

"Hair rats" have made a comeback. While not so comfortable to sleep on, they produce a mighty fine curl and the beautifiers insist they will be much in demand.

And those who thought the side comb was in a class with the side saddle are being told the time. There will be jeweled ones and plain ones. Some will match the hair and some will not.

MAX BAER MAY DEFEND CROWN IN JUNE

Bout Would Be At Soldiers Field

MIAMI, Fla., (AP)—Max Baer, heavyweight champion, may defend his boxing crown next June at Soldiers Field, Chicago.

An exchange of telegrams between two Chicago promoters and Ancl Hoffman, Baer's manager, Saturday re-

Max Baer

vealed unless Madison Square Garden acts before expiration, March 31, its option on Baer for a title bout, the champion's next full length fight will be headed for Chicago.

Baer said he didn't care who "they throw into the ring with me."

CHICAGO, (UP)—Max Baer probably will open his Chicago series of 10-round no-decision bouts Feb. 25, promoters Nate Lewis and Jim Mullen said.

He will meet Art Lasky if the Minneapolis boy defeats James J. Braddock in New York Feb. 1. Baer had planned to inaugurate the series in March. Postponement of a motion picture he is to make altered his plans.

Forsan Takes Measure Of San Angelo Oilers Drub Steers, 30-22

Buffaloes Come From Behind To Win. Lyles Leads Scoring

FORSPAN — Before a capacity crowd which jammed into the Forsan gymnasium here Saturday night, Forsan Buffaloes whipped the San Angelo Oilers, 30-22. Getting off to a slow start, the Forsan schoolboys appeared to be in for a bad evening when Bobcat forwards found the basket readily and took an 8-2 lead.

However, the Buffs came back with a strong defense and put on enough attack to even up matters in the first half.

When the second half opened, Forsan went into a devastating barrage of shots that shoved the Buffaloes out ahead.

At the end of the third quarter Forsan held a 20-17 advantage. A heated final quarter only widened the Buff's lead.

Lyles, who played a bang up game for Forsan, paced scoring with 12 points. Lowe of San Angelo was next with 11 points.

A large number from Big Spring came to Forsan for the game.

Municipal Ladies Day On Thursdays

Ladies day at the Municipal golf course has been changed from Monday to Thursday, Charles Akey, pro, said Saturday.

Activities are being planned for this week.

Infinitely augury that the Tigers next season will win 102 games, or one more than clinched the pennant for them in 1934.

Baseball may be America's past time, but when Jimmy Fogg dons a mask and begins catching for Connie Mack's Athletics next season, he will be wearing a mitt, patterned after a Japanese model.

TCU Produces Many Winners

Horned Frogs Are Consistent Winners On The Gridiron

FORT WORTH, (Sp.)—Champions may come and champions may go without ever repeating in the Southwest Conference, but Texas Christian University continues as the perennial producer of the most consistently fine football teams.

Although considerably smaller than any of its six sister conference members, T. C. U. ranks first in consistent success on the gridiron, according to the cold statistics of the records.

Membership Unchanged

The present membership of the Southwest Conference has remained unchanged through 10 seasons. Over that span of a decade, T. C. U. stands first both on the basis of all games played and in inter-conference play.

During the 10 years of the present conference members, the Horned Frogs have played 108 games, won 75, tied 10, and lost 17. Counting tied games half won and half lost (as is done in computing conference standings), that gives the Christians a percentage of 79.0.

Of the 108 games, 53 were against conference rivals. Thirty-two of the 53 resulted in T. C. U. victories, 14 in defeats and 7 in ties. Reduced to percentages, that record reads 69.0.

During those 10 years T. C. U., Texas, A. & M. and S. M. U. have each won two championships, Rice one. Kansas finished on top once, but was denied official recognition as the champion. Baylor was the only school to be shut out.

S. M. U. Record

S. M. U. made its record under one coach, Ray Morrison; Baylor and Arkansas had two. Frank E. Rike was followed by C. J. J. Jennings for the Bears; Francis Schmidt and Fred Thomson for the Razorbacks.

Texas, T. C. U. and A. & M. had three mentors during that period; Rice four. The late E. J. Stewart started for the Longhorns. He was followed by Clyde Littlefield and Jack Chevigny. Matty Bell, Francis Schmidt and L. R. Meyer have been T. C. U.'s trio. A. & M. had Dana Bible, Matty Bell and Homer Norton. Rice had John Heisman, Claude Rothgeb, Jack Wagshal and Jimmy Kilts.

Following are the standings: 10-Year All-Game Record:

Table with columns: SCHOOL, W, T, L, Pct. Rows: T. C. U., Texas, S. M. U., A. & M., Arkansas, Baylor.

10-Year Conference Record:

Table with columns: SCHOOL, W, T, L, Pct. Rows: T. C. U., Texas, S. M. U., A. & M., Arkansas, Baylor, Rice.

THE BUFFALOES will enter the Garden City tournament Saturday and Thursday, Jan. 31, the Forsan team will play at Big Lake and stay for their tournament.

Colorado Eleven To Play Teams Of Seven States

GREELEY, Colo., (UP)—The eight games Colorado Teachers college has tentatively scheduled for the 1935 football season will be with teams from seven states.

Contests have been lined up with Nebraska Wesleyan and Chadron, Neb., Normal, Brigham Young university at Provo, Utah, Montana State college, Western State college at Gunnison, Colo., Wichita university at Wichita, Kas., North-western (Okla.) State Teachers and Caletan college at Northfield, Minn.

The Teachers tied for the Rocky Mountain conference title last season with Colorado university and Colorado Aggies.

Morrison To Coach At Vanderbilt Next Year

NASHVILLE, Tenn., (UP)—Ray Morrison, Southern Methodist university gridiron mentor Friday accepted an offer to become head football coach at Vanderbilt University, his alma mater, where he was an athletic star.

Morrison wired from Dallas to Chancellor James H. Kirksaid: "Happy to accept invitation to work with you. Best wishes."

Morrison will succeed the veteran Dan McGugin, who retired as head coach last fall to become athletic director.

FORSPAN DRILLERS—INDEPENDENT TEAM

Bill Tate and his Forsan Drillers are looking for tough competition. Tate has organized a strong independent club capable of walloping the majority of teams in this section. In the picture top row left to right are Bill Tate, Jack Graves, George Johnson, Walter Schultz, and Woodrow Scunday. Bottom row: Clea Wilson, Horace White, and Mutt Scunday. Dan Yarbro, 6 ft. 3 inch Driller forward, and Loper, were not present when the picture was snapped.

Bammin' Fred Sington Of 'Bama To Get Big Chance With Senators

Carter, Radford Play Monday Night

Carter and Radford basketball teams, both with a percentage of 50.0 on the chart, will open the week's activities of the City league Monday night. The game will start at 7:30.

The Radford team showed unexpected strength last Wednesday by sneaking out a decision over the high-flying COC boys. The Grocers lost their first game to the Dixie Bakers.

The Carterites have showed a dash of form, however, and are not to be considered a set-up. Plans for a meeting of representatives of the various league teams last week failed to materialize, so another has been planned for Monday night at 7 p. m. in the high school gymnasium.

Enter the University of Alabama in 1927, Sington pitched a no-hit, no-run game against Mississippi A&M. In 1928, against Louisiana State, he won his own game with a home run in the tenth inning that broke a 1 to 1 deadlock.

That home run, Fred said, changed him from a pitcher to an outfielder.

Upon finishing school, Sington signed with Atlanta of the Southern association and was farmed to High Point, N. C., where he batted .385.

Recalled by Atlanta in 1932, he was farmed out to Columbus, Ga., of the old Southeastern league, batting .380 and blasting 19 home runs.

In 1933 Atlanta again recalled him, but a fractured hand kept him out of action during the last two months of the campaign.

The Atlanta club sold him to Albany of the International league, where he played throughout the 1934 season. His hitting percentage was .338 and among the blows were 29 circuit clouts. He batted in 150 runs and was voted the most valuable Albany player.

This latest siege attracted Washington's attention and the Senators purchased him. He got in the last nine games of the 1934 season.

In his first appearance with the Senators Sington drove in the winning run against the Philadelphia Athletics. "I'll always remember that as one of the greatest thrills I've had," Sington said.

Aggies Arrange Big Football Schedule

COLLEGE STATION, (Sp.) — A parade of ten games, six of them conference engagements and one important inter-sectional tilt, will make up the Texas Aggies' football warfare next Fall. Four of the games, including the historic Thanksgiving Day battle with the University of Texas Longhorns, will be played on Kyle Field here.

The Aggie schedule will differ but little, as regards opponents, from their 1933 card, the S. F. Austin S.T.C. Lumberjacks slated to be the only new name on the program. After their opener with the Lumberjacks here and another with Sam Houston's Bearkats, the Aggies will meet Coah "Pop" Warner's powerful Temple University Owls at Dallas on Oct. 5. Centenary will be played Oct. 12 at Shreveport, La., and the Cadets then will play straight through their Southwest Conference schedule.

The Texas Aggies' 1934 schedule follows: Sept. 21—S. F. Austin S.T.C. at College Station. Sept. 27—Sam Houston at Huntsville night game. Oct. 5—Temple at Dallas. Oct. 12—Centenary at Shreveport, La. Oct. 19—Texas Christian at Fort Worth. Oct. 26—Baylor at College Station. Nov. 2—Arkansas at Fayetteville, Ark. Nov. 9—Southern Methodist at College Station. Nov. 16—Rice Institute at Houston. Nov. 23—University of Texas at College Station.

Oilers Enter Cage Fracas To Play In Christoval Tournament Next Saturday

Cosden Oilers will enter a tournament at Christoval this week. Manager Spike Henninger said Saturday. Henninger's team will clash with the Terrible Swedes here Feb. 1. The Swedes are one of the outstanding cage teams touring the country today. The Oilers are seeking games with the Stimmons and ACC Frosh and with a Breckenridge club. Plans are being made for a Cosden invitational tournament to be staged here March 2.

BASKET, BASKET, WHO'S GOT THE BASKET? ALL IN MUDDLE

Fast Matches Are Promised

Mervin Barackman And Ken Gaston To Wrestle In Main Go

Two fast and scientific matches are assured fans attending the weekly wrestling show at the Big Spring Athletic Club, Tuesday night.

The main go will be between Mervin Barackman, the bear trainer, and Ken Gaston, ex-university grid star.

Barackman, one of the best grapplers to appear here, floored Jack Gorman last week with two straight falls. Gaston, a new man here, has a reputation of a top-notch. Barackman is champion of the middle west.

On the semi-final card will be Dutch Aultman and Bloddy Crane. Both are clean, fast and scientific. Herman Fuhrer, manager and champion referee, will be back in the ring to keep the boys in action. Herman has received numerous requests to referee here again, and when he's in the ring there's never any stalling.

Reduced admission prices will be in effect.

Moore Lobbies Take Coahoma

Phillips' Team Swamps Bulldogs Thursday, 23 To 15

MOORE (Sp.)—The Moore Loboes, coached by Miss Arab Phillips, swamped the Coahoma Bulldogs here Thursday, 23 to 15.

The Loboes, led by Hoo-den-ny-le, center and captain of the team, took a lead which they held throughout the first three quarters until substitutes took over the job.

The game was played in Moore's new gymnasium, and was the second meeting of the teams this season. The Loboes won both encounters.

The box score: MOORE: FG FT PF TP Rowland, f 6 0 0 12 McKinon, f 0 0 0 0 Winterrowd, f 0 1 1 1 Hoo-den-ny-le, c 4 0 2 8 Broughton, g 1 1 2 3 Newton, g 2 0 1 4 Luuk, g 0 0 3 0 Hammock, g 0 0 0 0 TOTALS 13 2 9 28

COAHOAMA: FG FT PF TP Marshall, f 2 3 1 7 Myers, f 0 0 1 4 Engle, f 0 0 0 0 Dunn, c 0 3 1 3 Stroop, g 0 0 1 0 Watts, g 0 0 1 1 Myers, g 0 0 0 0 TOTALS 4 7 5 15

The Junior Loboes and Bulldogs tangled in a game that ended in a 9-8 deadlock. Two extra 3-minute periods failed to break the tie. The first overtime period ended with the count 10-10, and neither side failed to score in the last three minutes.

The Moore senior girls, coached by Troy Newton, defeated the Coahoma senior girls, 26 to 13. Geneva Brown led the winners with thirteen points. Efficient floor work by the Moore team gave them the needed margin.

Fast work by the Moore junior girls gave them a 11 to 6 decision over the Coahoma girls. Brown and Burchett, fast Moore forwards, hit the basket from all angles of the court.

Coahoma sub juniors walloped Moore, 11 to 3.

Teachers of Mitchell and Howard counties engaged in a wild basketball game that ended, 33 to 33, in a two-minute overtime period. Ted Phillips broke through to score and give the Howard county club the decision.

League Keeps Hi School Football On High Plane

AUSTIN, (Sp.)—It is the opinion of state officials of the Inter-scholastic league that progress has been made this year in the matter of keeping league football on a plane

By CHARLES GRUMICH (Associated Press Sports Writer) KANSAS CITY (UP)—Opposing schools of thought in two midwestern basketball conventions will lay their pet schemes out on the table to a K. C. audience.

They are lined up in diametrically opposed camps, one holding that scoring should be made more difficult and the other that it should be easier.

The first definite move was made by Dr. F. C. (Phog) Allen of the University of Kansas, who had his team play two experimental games with the baskets hoisted to a position 12 feet above the floor, two feet higher than the official level.

He sought to forestall the tall centers and forwards, whom he terms "dunkers" because of their ability to leap up and drop the ball through the hoop.

Few agreed that the baskets should be raised, among them Dr. James Naismith of the University of Kansas, who started it all by nailing a pair of peach baskets 10 feet high at opposite ends of a gymnasium in Springfield, Mass. nearly a half century ago.

A Tip From Saratoga

However, Allen insists the baskets will be raised within the next five years, although probably not the full two feet he originally proposed.

A leader in the opposite camp is Coach George Edwards of the University of Missouri, who with several other coaches is experimenting with a present-height basket 20 inches in diameter, two inches larger than official size—using the same idea Gene Saratoga had a few years ago when he proposed that golf should be made easier by doubling the size of the cups.

Allen points out that adoption of larger baskets would necessitate wholesale replacements all over the country and that the same results could be obtained by reducing the size of the ball, which, he asserts, would also help the proponents of larger scores by facilitating ball-handling. He also points out that the diameter of the ball has been trimmed three inches in the last five years.

Bankboards Moved, Too!

Craig Ruby of the University of Illinois, who joined Edwards in the larger-goal, more-scoring experiment, now expresses belief, Allen says, that the goal should be raised at least six inches. Ruby's conversion to the Allen belief resulted from another innovation tried in the 12-foot basket era.

The bankboards were moved from the present station two feet inside the end boundaries to a point six feet inside the court. This was favored by a majority of those balloting on the proposals and is likely to be adopted generally. It change is designed to reduce the number of time-wasting throw-ins from out of bounds when a goal is attempted and missed.

Ruby points out that with the bankboards farther inside the court, the angle of incidence of a pass being thrown in when the ball does go outside behind the board will necessitate greater clearance between the floor and the bottom of the board.

Among the experiments being studied are the Pacific coast conference "no-jump" rule and the counting of field goals as three points on the theory that they should enjoy a 3-to-1 ratio to free throws.

Outdoor Bowling Stars Of England Coming Over

LONDON, (UP)—George Wright and T. C. Hill, champion bowling greeners of England, have announced they will compete in the American winter championships starting at St. Petersburg, Fla., on Feb. 14.

Outdoor bowling is one of the favorite sports of England and Scotland during the summer months. More than 200 competitors attended the championships here, won by Wright and Hill.

of clean sportsmanship, according to an editorial in the current issue of the Inter-scholastic league, published by the University of Texas Bureau of Public School Interests. This bureau serves as the state executive office for the league.

chairman of the powerful rules committee, is left apparent whenever there is a change in the top jobs of the house. O'Connor ran for both speaker and leader, but he really was supporting "Bankhead all the time. Bankhead was chairman last session and when he moved up O'Connor inherited the chairmanship by right of seniority.

Next in line behind O'Connor on the rules committee is Rep. Adolph J. Sabath, the veteran from Chicago. Sabath also was a candidate for leader at this year's organization, but not seriously. At the time it was whispered Speaker Byrns would have liked to see Rep. William W. Arnold of Ill., elected, but for obvious reasons he dared not make known any preference.

Younger members of the house resent this seniority business. But the old-timers don't. They all are waiting in line for the lightning to strike them, and it isn't so hard to sell a newcomer the idea he would be smart if he took his insured position in the parade.

R. F. C.—It's expected there will be no difficulty in extending the life of the Reconstruction Finance corporation and giving it additional funds if necessary. Jesse Jones' work is showing up brilliantly.

This is one of the few agencies that recovers part of what it spends. Loans are repaid or curtailed in a large proportion of cases. Signs of better times are unmistakable in RFC operations—even in the railroad field.

Crap—To ordinary mortals it might be crushing to have Madam Secretary Perkins denounce their brain child as "economically and socially unsound."

Not so with Dr. Frank E. Townsend, sponsor of the Old Age Revolving Pension Plan which would put \$200 a month spending money in the pockets of all citizens over 60 years of age. The good Doctor accepts the knock as a boost. But he probably could not be expected to admit that his plan may run afoul of the same difficulties as socialism, thus defined by a whimsical philosopher: "Socialism means an equitable division of all the money in the treasury every Saturday night. The

New Superintendent

RAY CANTRELL

Rev. C. A. Bickley, pastor of the First Methodist church of this city, announces the appointment of Ray Cantrell as superintendent of the First Methodist Sunday school department, effective Sunday morning, January 20th, when he will assume full charge. Mr. Cantrell, manager of Hotel Settles in Big Spring, succeeds Miss Nell Hatch, recently resigned. Mr. Cantrell has been affiliated with Sunday school work in the local church as teacher in the Junior department for several months.

and processing levies are increasingly important as sources of treasury income.

Control—You may have noticed that Agricultural Adjustment Administration estimates were cut by 400 million dollars in the current budget. This appears to indicate a drastic reduction in farm benefits—but well-posted sources say no. They predict the farmers will get more from Uncle Sam in the 1935 fiscal year than in the present one. The convenient device of deficiency appropriations will take care of the difference.

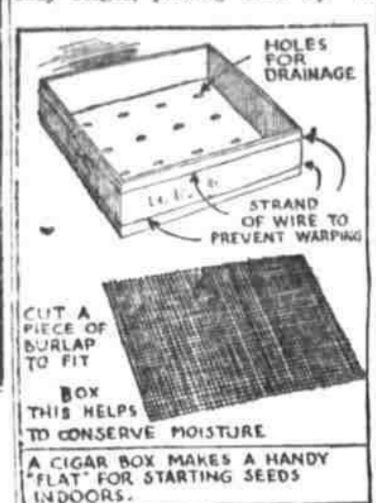

New York learns that the AAA has a far-reaching plan up its sleeve to make every former the owner of his land. At present one-third of all farmers—2,500,000 of them—are tenants. The idea is to enable them to buy property—preferably that which they are working—on easy terms. Agricultural landlords—whose production has been restricted—aren't expected to object very much. Credit would also be made available to the new landowners for seed and equipment.

Insiders say the ulterior motive is a stricter control of crops.

Motors—Labor issues will be paramount when the automobile code comes up for renewal. The motor companies claim wage costs have risen 33 per cent under the code and

Start Flower Seeds Early This Year

The earlier the seeds of annuals which are to furnish the main summer display can be started, the earlier they will begin to bloom and the longer will be their season of beauty. Get seed boxes ready by easy stages, picking them up in

Get in clove of frozen earth from the garden to thaw and dry out to fill the seed boxes. After the soil has thawed and dried, bake it in a hot oven to kill weed seeds and insects that may be lurking in the soil. Sift it away and mix with a little pulverized sheep manure and have it ready to sift into the seed boxes when the time comes. These are details usually left until the last minute, but their preparation early in the season will go a long way towards making the raising of plants from seeds a success.

will battle to the limit against concessions which might increase them further. The grapevine has it that Washington is more likely to string with the managements than the unions—in the interests of recovery—if it has to make a choice.

Mercies—The Sear vote is bad news for American holders of \$3,000,000 in Sear municipal, banking and corporate bonds. These bonds have a good record up to now but henceforth they will be subject to Germany's tender mercies. The moratorium on payments abroad will probably be extended to include them.

Waiting—Leather makers are up in arms at the growing encroachments of leather substitutes on their markets. The Tanners' council is prepared for a publicity war. So are the makers of substitutes. But nothing happens—because both sides are waiting—like a couple of wary palookas—for the enemy to hit first.

ness and will do away with the usual delays. If the soil is prepared and sifted and set away, it is a short job to get the seeds planted.

Be on the lookout for panes of glass to cover the seed boxes and pick up a bundle of pot labels to mark the rows when you think of it. Some of the finest small gardens are made each year from annuals started indoors in seed boxes in a sunny window.

I RESOLVE.....

To Buy With My Head This Year

A VERY useful New Year's resolution, and one that isn't hard to keep. You'll find buying tips and hints on every hand. Watch for them and you'll be able to buy more things at better prices.

There's a pretty complete buying guide in the advertising columns of this newspaper. Here you find out what is new, what is proved, what is accepted, what is right. You find tips on where to buy as well as what to buy. You read about the growing success of a certain merchant. (If his name stays in the advertisements, year after year—then his goods must be good.)

Look in the advertisements for the latest news—about things that make life more pleasant. You'll learn where to get what you want, how much to pay, and what you can expect from your purchase. You'll learn how to live better—at a saving.

NEW YORK BY JAMES McMULLIN

Chairman Leo Crowley of the Federal Reserve Board is quietly playing his part in edging the banks toward a unified national

system. He recently summoned the banking superintendents of several states—including New York, Pennsylvania and Massachusetts—for a cozy chat. He suggested they urge action by their respective state legislatures which would tighten the FDIC's control over its members—and even offered copies of bills designed for the purpose.

TIPS on Contract

By TOM O'NEIL
Two-Way Squeeze

The main elements of a double squeeze are threat cards in two suits which the adversaries must prevent from becoming winners, plus a third suit containing the ranking card and low cards which threaten to take tricks.

NORTH
♦ NONE
♦ J53
♦ 10752
♦ AK9854

WEST
♦ 975
♦ Q109742
♦ Q8
♦ Q3

EAST
♦ KQ863
♦ AB
♦ 94
♦ J872

SOUTH
♦ AJD42
♦ K6
♦ AKJ63
♦ 10

Sometimes the squeeze is earmarked from the course of play of a few tricks. For instance in the following hand:
Mrs. Edna Marlowe, South, dealt

the hand in a rubber game at Bridge House, New York She opened the bidding with a spade, West made a light overcall of two hearts, North and East passed and South offered three diamonds. Upon North's jump to five diamonds South went to six.

The opening lead of the seven of hearts went to East's ace and the return of the suit to South's king. Mrs. Marlowe reasoned that if she should try to ruff all of South's losing spades with all of North's diamonds, there would be great danger of an overruff of clubs in returning to the South hand.

But the heart bid and the first two tricks showed the possibility of a squeeze. The heart jack was in the North hand as a menace over the queen, which obviously must be West.

A low spade was trumped North, a diamond played to the king, another spade trumped North and a diamond returned to the ace. All adverse trumps were drawn in the

J. Y. Robb Off For Cruise To New York

Local Theatre Executive Joins Brother And Party For Eighteen-Day Trip

J. Y. Robb joined his brother, Harold E. Robb and Ed Rowley, executives of the R. & R. Theatres, Inc., Dallas, aboard the Sunshine Special Saturday evening, to continue to San Francisco, where on January 28, the party will sail the Grace Line for a voyage to New York City, via the Panama Canal.

These executives are joining other theatre executives on a business and pleasure trip that will consume eighteen days aboard the Santa El Rina, with arrival in New York City scheduled for February 15th.

Mr. Robb said Saturday he expected to return to Big Spring the latter part of February.

Altar Society Has Enjoyable Party

The Altar Society of St. Thomas' Catholic church was hostess for a benefit party in the church basement Friday evening which was well attended and greatly enjoyed.

There were eight tables of bridge, one of 42, and two of dominoes. The children played bingo and all the adults joined them for one game.

Prizes were awarded as follows: entrance prize, Mr. Frank Duley, Sr.; guessing prize, Mrs. Jo Winslow; high bridge prize, Mrs. Harry Lester; High 42 prize, Mr. L. A. Deason; domino prize, Mr. Andy Tucker; floating prize, Mrs. Lester; bingo prize, Mrs. George Rond.

Refreshments of pie and coffee were served to 48 adults and 18 children.

With the coming of snow after an unusually bad fire season, the Montana regional forestry service spent \$100,000 to recondition fire fighting equipment.

process. The ace of spades was played, a club being discarded North. West showed out.

And so with the jack of hearts over West's queen and the jack of spades South over East's king-queen, South's last three diamonds were led. The result was that East after shedding one spade had to let go two clubs. The last three tricks were taken with the ace-king-nine of clubs, the jack of hearts having been discarded on the lead of the last diamond by South.

The opening lead of a club by West would have prevented the squeeze, since the declarer would not have communication from the squeezing hand. South, to a suit low card of which would require protection by the adversaries.

Bridge Literature
By E. Hall Downes, is a treatise on coups, end plays and squeezes, with particular attention to squeezes. It is a lucid explanation of the way to determine whether the possibility of a squeeze, coup or end play exists and how to develop the play. There is a "tape" formula for the squeeze, meaning threats, assumption, projection, entry, lead.

Elaborate rules for every playing situation are set forth in Ely Culbertson's red book of plays and leads, a magnum opus to which he and associates have devoted several years. To the rules of eight, two and three and such, in his book on bidding he has added the rules of "five steps," "x plus one," "a minus one," "two looks" and sundry other formulas which he says show the mental processes of every bridge-master in handling a dummy.

Woodmen Circle Installs 1935 Officers Here

Mrs. Tressie Goldsticker, district manager of the Woodman Circle and C. R. Valentine, special deputy of the Woodmen of the World were in charge of a joint meeting of the local Howard Grove and camp held Friday night at W. O. W. hall, at which time the newly elected officers of the circle were installed in a very impressive ceremony.

The newly formed drill team of Howard Grove Number 963 joined in the installation of officers, gave a demonstration of the floor work and were the committee in charge of the refreshments served at the close of the social hour.

Mrs. Goldsticker presided during the presentation of the first half of the evening's program when visiting District Managers Mrs. Laura Furgason of Fort Stockton, who acted as installing attendant, and Mrs. Edna E. Scott, district manager from El Paso, who was installing chaplain, were introduced and given bouquets. Mrs. Scott, with the assistance of the drill team and Mrs. Goldsticker demonstrated the opening flag service of the grove, in a very beautiful and impressive manner.

The officers installed were Mrs. Viola Bowles, guardian; Mrs. Lela Andrews, past guardian; Mrs. Ethel Clifton, banker; E. G. Towler, auditor; Miss Bernice Kemp, captain; Mrs. Minnie McCullough, attendant; Mrs. Lula Campbell assistant attendant; Mrs. Anna Petefish, junior supervisor; Mrs. Maud Low, inner sentinel; Mrs. Bulah Carrnike, outer sentinel; Mrs. Vera Reeves, advisor; and Mrs. Maud Morris, musician.

The drill team is composed of Miss Bernice Kemp, captain; Miss Jerry McClendon, musician, and Misses Maud Low, Maudie Ellen Bennett, Anna Petefish, Anna Stinson, Mildred Vaughn, C. R. Valentine, Eula Robinson, and Misses Florence Davis, Marguerite Bennett, Vera Kinard and Laura Bird.

The last half of the evening was in charge of Consul Commander W. R. Purser, at which time the distinguished visitors of both the Woodman Circle and Woodmen of the World were called on for addresses. Among those who spoke were State Head Consul Commander and District Manager W. A. Tidwell of Abilene; W. R. Moore, special deputy, Abilene; B. Reagan, national delegate, Big Spring; C. R. Valentine, special deputy, Dallas; Mrs. Tressie Goldsticker, district manager, Stamford, Texas; Mrs. Laura Furgason, district manager, Fort Stockton; Mrs. Edna E. Scott, district manager, El Paso and Judge C. F. Morrison.

During the evening Mrs. Cora Johnson, Big Spring, was introduced by Mrs. Bulah Carrnike, to Mrs. Tressie Goldsticker who presented her with a 25 year pin for

Woodmen Circle

continual service and membership in the Supreme Forest Woodman Circle.

A social hour was enjoyed at the close of the program by the hundred guests present.

15,634 Wells In East Texas

120 Wells Completed During Period From January 1 to January 15

KILGORE—(AP)—There were 120 wells completed in the East Texas field for the period January 1 to January 15. The completion has brought the total number from 15,515 to 15,634, state railroad commission records showed.

The daily allowable production was increased 3,085 barrels, from 423,469 barrels to 426,554 barrels through the completions. The hourly potential was boosted 83,172 barrels from 11,503,914 barrels as of January 1 to 11,630,099 barrels as of January 15.

Mrs. W. A. Henderson Is Honored By Shower

Mrs. Frank Gray and Mrs. O. B. Redwine gave a party recently at the Gray home honoring Mrs. W. A. Henderson with a lovely shower.

Mrs. Henderson was presented with a basket of gifts which were admired by all. Refreshments of cake and hot chocolate were served afterwards to:

Western Union To Aid In President's Birthday Parties

Western Union has placed its nationwide system of telegraph offices at the disposal of the President's Birthday Ball committee for receiving 25 cents from each person who places his signature on a multiple signature birthday greeting.

"Happy birthday, Mr. President. I am proud to know that the cost of sending this greeting will help in the great fight against infantile paralysis, to which you have given your leadership and loaned your birthday."

Signatures from every city, town and hamlet will be mailed to New York, where they will be bound in to what probably will be the greatest birthday greeting in history. One hundred per cent of the money will be turned over to the National Birthday Ball committee, which will arrange for proper credit for each community.

Wild ponies that roam the narrow and strips of the North Carolina coast become quite gentle once they are captured and trained to harness.

Thornton, Alice Etheridge. Gifts were sent by Mmes. Joe Mitchell, B. Labyer, Earnest Morgan, Rebecca Peters and M. G. Claybrook.

Services Churches Topics

EAST FOURTH BAPTIST
George K. Hutto of Walters, Oklahoma will fill the pulpit in both morning and evening services at the East Fourth street Baptist church today.

Sunday school and B. T. U. will be held at the regular hours.

FIRST METHODIST
C. Alonzo Bickley, pastor. Sunday school, 9:45 a. m. Preaching 11 a. m. and 7:30 p. m. At the evening hour the "McMurry Chanters" will furnish the music. This is a group of thirty-four young people from McMurry college.
