## Woman Dies Enroute To Son's Funeral

### HOME TOWN TALK

By Beddy

Positions open: cotton picking for crew capable of gathering a bale a day.

Applications for jobs: Two boys for work after school; one girl for housework or any other employment.

Please call The Herald if you want a job or have a job to give someone.

With feed crops deteriorating steadily it is, we believe, wise though perhaps not "good publicity" as some of the boys would say, that Howard county has been added to the Texas counties for which reduced freight rates are being sought of the federal government by Governor Dan Moody.

Over-zealous boosters sometimes can do injury through false pride. When it comes to so radical a move as seeking remission of taxes it is different.

What we need is not tax remissions but a decent market for cotton and other farm products.

Every year had as well be a drought year under existing conditions.

Several local firms, including the Ritz theatre, and Sam Fisherman have bought a bale of cotton at 15 cents, and are holding it.

The buy-a-bale movement may be good and it may not be. If it succeeded in holding, say 5,000,000 bales off the market for a period that great quantity of cotton would, we fear, still form a menace to the market, the traders knowing all the time it would be dumped on the market if the price reached the neighborhood of 15 cents.

Talks at the Luncheon club Wednesday by Coaches Stevens and Brown, Captain Rogers and Supt. Blankenship were splendid. We hope before many weeks this town will be oozing with genuine amateur football spirit but that not one blotch will be thrown upon the record of the Steers, their school and town.

If we must go out to other towns, which have good schools, and get boys' fathers to move here with promises of jobs before we win a district championship then here's hoping we never win one.

Nobody likes to win better than your humble servant. But high school athletics are an educational agency primarily (or should be). They are not conducted for the purpose of developing professional athletes nor for the purpose, primarily, of advertising the town. Let's remember that and back these home-town Steers of ours to the limit.

Boy Bangs Torpedo With Hammer; Suffers Injury

Elvis Counts, 10, son of Mr. and Mrs. E. L. Counts, 104 East 6th street, was injured Wednesday afternoon when he hit a torpedo cap with a sledge hammer.

He had been sent to a store and is thought to have found the cap. When he returned he placed the torpedo on the sidewalk and hit it with the hammer.

A piece of the torpedo was removed from his left foot. He was given emergency treatment at Bivings and Barcus Hospital.

Independent Oil Association Names Refiners' Chairman

Appointment of A. J. Devlin, vice president of the Grayburg Refining Company of San Antonio, as chairman of the Independent Petroleum Association of Texas refining committee was announced Tuesday by Tom E. Cranfill, president of the independent organization.

Other independent refiners representing other sections of Texas will be appointed to serve with Devlin and the committee is expected to adopt a list of resolutions to be presented before the convention of the Independent Petroleum Association of Texas next October in San Antonio.

Wildcat Near Beeville Creates Much Attention

BEEVILLE, Texas, Sept. 11 (AP)—Much interest was exhibited here today in the final outcome of the test for oil on the Quincey ranch, 12 miles southeast of Beeville and 25 miles southeast of the Pettus field.

The well of William F. Morgan and the Independent Oil and Gas Company, on the ranch, blew in yesterday, a wild gasser with indications of oil. Production sand was at 4,930 feet. The well was under control and the gas had a strong petroleum odor.

### Majority For Democrats In House Is Seen

Garner Says Campaigns In Doubtful Districts To Be Pushed

UVALDE, Tex., Sept. 11 (AP)—Predicting that the democrats would gain a clear majority in the house next November, overturning the existing republican majority of 103, Congressman John N. Garner, of Uvalde, minority leader of the house, said he had received information that plans were practically completed for intensive campaigns in every doubtful congressional district in the country.

To Washington  
Congressman Garner said he would return to Washington soon to work with J. P. Shouse, chairman of the Democratic Executive Committee, and Congressman Joe E. Foy, of Tennessee, chairman of the Democratic Congressional Committee.

Tentative plans call for a speaking tour for Congressman Garner through Illinois, Ohio, Indiana, Pennsylvania and Massachusetts, possibly into New Jersey and doubtful districts of other states.

### Abilene Man Kills Self In Local Hotel

A man identified by checks and papers in his belongings as A. E. Steadman, 1942 South Seventh street, Abilene, was found shot to death in his room at the Douglas Hotel here about 2:30 p. m. Thursday.

A pistol in his right hand, fully loaded, with one cartridge discharged. Cecil Collings, justice of the peace, summoned by the hotel manager, returned a verdict of death by a wound self-inflicted.

Checks found in pockets of the man's clothing indicated he was an employee of the Banner Creameries, Abilene.

He had registered at the hotel midnight Wednesday. When he found he had undressed, as if ready to retire and his trousers, money and checks had been placed under a pillow on the bed. The wound was through the head. A 38 calibre police special Colt pistol was in his hand.

The man appeared to be about 50 years old.

Veteran Georgian Loses In Congressional Race

ATLANTA, Ga., Sept. 11 (AP)—Incomplete and unofficial returns from the ninth congressional district today indicated the defeat of Congressman Thomas M. Bell, dean of the Georgia delegation, by Judge John Wood of Canton, in yesterday's democratic primary.

With only one county out of 19 missing, Wood was ahead in eleven counties with twenty-four unit votes, as compared with eight counties in which Bell was leading with 18 unit votes. Dawson county, from which returns have not been received, has two unit votes.

DETROIT, Sept. 11 (AP)—Wilbur M. Brucker, attorney general, won the republican nomination for governor of Michigan over Alex J. Groesbeck, former governor, in Tuesday's statewide primary by a majority of approximately 5,000 votes.

The vote was shown today as the tabulating completed of the vote cast in all but seven out-of-state precincts.

Scores Believed Dead In Italian Eruptions

MESSINA, Italy, Sept. 11 (AP)—A score of persons are reported dead and fifty or more injured in the simultaneous eruption of Stromboli volcano and an earthquake on Stromboli island, one of the Aeolian group near here.

When the eruption blew the volcano's cone high into the air a great stream of lava descended upon San Bartolo and other villages.

Four destroyers and torpedo boats, loaded with provisions, tents, and medical supplies, as well as companies of city firemen, with officials, have been sent from Messina to assist the victims.

LIANO MAN SHOT

CLARKE, Tex., Sept. 11 (AP)—Charles Walker, 45, of Liano, was fatally shot here today and Ray Clark, a cedar dealer, gave up to officers. He was in jail awaiting an examining trial.

The shooting took place on a street, where Walker was running a tractor. The wound was made by a bullet from a rifle.

### TUNES OUST SHRILL BLASTS ON 'MUSICAL MIKE'S' ENGINE

MEMPHIS, Tenn., (AP)—With a calloph on his engine, "Musical Mike" Brady, veteran railroad engineer running between Memphis and Sheffield, Ala., plays familiar southern folk tunes to warn residents of small towns along the way that his train is approaching.

When Mike has cleared the last green light in the Memphis yards on the trip out, he strikes up the opening bars of "Dixie" at the first crossing, and switches to "Casey Jones" as the trip progresses.

Nearing the end of his run, the musical engineer plays "Alabama Bound" to let Sheffield know he is on the job.

On the return trip his favorite number is "Home, Sweet Home." Residents of small towns had complained that they were disturbed by the shrill whistles of big locomotives.

So the railroad decided to try note-giving them music.

Mike's engine is equipped with a ten-note calloph, including the eight tones of the major diatonic scale, with an extra high and low note.

The ingenious Irishman discovered almost immediately that "tunes" could be played on his new whistle.

MIKE BRADY

### Howard Now Included In Drouth Area

Governor Asks Reduced Freight Rates For County

AUSTIN, Sept. 11 (AP)—Belief that progress finally was being made toward procuring aid for drouth stricken Texas farmers was expressed today by Governor Dan Moody.

These developments included calling of the state drouth committee to meet at Haskell next Monday; promises of aid from the intermediate credit banks; assignment of two Red Cross workers to the stricken section; and communications from Secretary of Agriculture Hyde and Alexander Legge, chairman of the Federal Farm Board, regarding Texas relief.

More Counties  
The communications from Secretary Hyde included a list of counties which had been certified as in need of temporary freight rates. This list, which the governor said apparently was prepared from in-

formation obtained elsewhere than from the Texas drouth committee, omitted 34 of the counties found to be in need by the state committee.

The governor today telegraphed the names of these counties to the secretary of agriculture: Archer, Brewster, Briscoe, Clay, Coke, Concho, Crockett, Culberson, Dawson, Edwards, Howard, Haskell, Irion, Jeff Davis, Kerr, Kinney, Mason, Martin, Menard, Presidio, Reagan, Real, Reeves, Runnels, Schleicher, San Saba, Sutton, Sterling, Terrell, Tom Green, Upton, Val Verde, Wichita and Young.

With the telegram was a request that these names be certified as in the drouth area and entitled to emergency rates on one-third off on livestock and feed.

One of the communications from Hyde said that territory in the western classification was given a one-third instead of a one-half reduction because rates already lower in this section.

With Gossett  
The governor said that with Sen. Tom Connally, A. J. Swenson of Stamford, B. C. Couch of Haskell, and Pate May of Hamlin, he conferred yesterday with M. H. Gossett, president of the federal land bank at Houston, and Gossett outlined a system of credit production loans more liberal than had been anticipated.

Gossett was to prepare a letter outlining the policies of the bank and present it for his board of directors' approval today.

Governor Moody also conferred with William Winfred and B. C. Trassau, Red Cross field workers sent to Texas, and learned that as well as furnishing food and clothing to the needy, the Red Cross also was prepared to furnish planting seed to farmers in cases of emergency. One or both of these men will attend the Haskell meeting and outline the Red Cross policies.

### 'CAT-EAR' TELEPHONE TEST OF YOUTHS MAY AID DEAF

Experiments with cat-ear telephone (below) by Dr. C. W. Bray II (left) and Prof. E. G. Weaver of Princeton may shed new light on treatment of deafness.

By HOWARD W. BLAKESLEE (Associated Press Science Editor)  
PRINCETON, N. J., Sept. 11 (AP)—With the help of a cat, a sound amplifier and a telephone receiver

two Princeton scientists have demonstrated that existing theories of hearing need revision, if not complete reconstruction.

### Vineclad Window Figures In Testimony Of Chambers Trial, State Has Rebuttal

A little vine clad window on the east side of a small house on West Second street, has entered into the trial of C. G. Chambers, 40, Big Spring, district attorney, charged with the murder in the slaying May 3 of Ray Jones, farmer, now in progress in district court.

From state and defense testimony offered at the trial, which started Monday morning, the window in the former home of the defendant will play a prominent part in the trial.

It was through this window that Chambers' 16-year-old daughter, Mrs. Mae Keller, testified she saw Ray Jones place a written warning to her father to "get out of town."

The state on cross examination contested the testimony that it would be possible to identify a person through the window, which is covered with a green foliage. The defense was that the vine at the time was only half way up the top of the window.

Examined Window  
The defense at this morning's session put witness after witness on the stand, who made an examination of the window Wednesday night.

John Slaton, Mitchell County farmer, H. C. Hoover, Big Spring attorney, John R. Williams, 1901 Runnels street, and Sam C. Lamar, Big Spring, testified they went to the house Thursday night with Charles Sullivan, member of the defense counsel, and C. C. Chambers, defendant. They testified they could see through the vines and recognize Chambers and Sullivan. Cross examination by District Attorney Mahon was centered on whether the moon was shining, and how a street light and the lights from the Texas and Pacific Railway shops reflected on the yard just outside the window.

Slaton, a neighbor of Chambers and Jones when they lived in Mitchell county, told of their life at that time.

He declared that on February 28 at an auction sale in a school house in Mitchell county, Jones called him into a cloak room and asked "if that damn stool pigeon Chambers is here."

"If he is here," Jones is alleged to have told Slaton, "I'm going to pick with him, I'm going to shoot him. I'm going to pour it in him the first time I see him."

Slaton testified he next saw Chambers at the home of W. O. Jackson, March 16, but did not tell him about Jones' warning. It testified he talked with Chambers just the day before the fatal shooting.

"He told me then," Slaton said, "that Jones had threatened his life and he had to move, just like he had to move from Mitchell County. I told him about what Jones had said and advised him to move."

In April 1928, Slaton testified, he and Jones had "a little racket but had compromised." At that time, he continued, Jones again threatened Chambers' life.

"I tried to get Jones to make friends with Chambers," Slaton testified, "but he told me he wouldn't compromise but would shoot Chambers and his damn floppies too."

### Four Deaths Toll Of Power Line Mishap

Single Flash Down Wire Fatally Injures Workers

DALLAS, Tex., Sept. 11 (AP)—Mrs. J. W. Beavers of Waxahachie, en route from Athens where she was visiting to attend the funeral here of her son, O. L. Beavers, one of four electrocuted by a Texas Power and Light Company live wire yesterday, was killed in an automobile accident here today.

Letter Found  
Mrs. Beavers was identified at first by a letter from her son she carried on her person.

A man, whose name was believed to be J. A. Saylor, but whose address was unknown, was probably fatally injured in the accident.

Mrs. Beavers died in an ambulance en route to a hospital.

J. E. Manjura of Jacksonville and a negro were injured slightly.

The letter from Mrs. Beavers' son, electrocuted at West, mentioned a life insurance policy he said he intended "dropping."

"I do not feel like keeping it any longer," read the letter, written two days before his death.

WACO, Tex., Sept. 11 (AP)—One flash from a high voltage electric wire yesterday brought death to four linemen of the Texas Power and Light Company, as they were stringing lines at West, 18 miles from here.

The dead: O. L. Beavers, Waxahachie; H. F. Dodson, Waxahachie; H. L. Wadley, Palmeri; and Andred Mayberry, Ennis.

C. A. Gilley, foreman of the "floating crew" which was stringing the wire, said Mayberry, Dodson and Wadley were on the ground under the wire which had been tied to the cross arms on one pole and were guiding the wire with their hands, while Beavers was reeling it on a reel about a block away. Lester McCluney, another man was on the pole, above Beavers.

Gilley believed the ununsulated copper wire which the men were stringing swung once against a bare high voltage wire, sending one flash down the length of the wire to bring death to the four linemen.

Repeated Attacks Made On U. S. Boats In China

WASHINGTON, Sept. 11 (AP)—Repeated attacks, accompanied by heavy firing from French military machine guns and rifles, against American naval and merchant vessels passing up the Yangtze river were reported today to the state department.

Frank P. Lockhart, American consul general at Hankow, called similarly heavy firing was taking place upon "practically all vessels" passing a point on the right bank of the Yangtze, 45 miles this side of Kiukiang.

He said no casualties had been reported. Notwithstanding that foreign gunboats have repeatedly returned the fire, attacks were still being made. He added that similar attacks "have taken place at three different points on the river between Chenglingki and Ichang."

Robins Lose Services Of Bressler For Year

BROOKLYN, N. Y., Sept. 11 (AP)—The Brooklyn Robins have lost the service of Rube Bressler for the remainder of their drive toward the National League pennant. The veteran outfielder fractured the middle finger of his throwing hand in two places while catching a line drive off Hack Wilson's bat in yesterday's encounter with the Cubs. For the remainder of the season Harvey Hendrick and Ike Boone will share the assignment in left field.

RANGER BOY KILLED

RANGER, Tex., Sept. 11 (AP)—Joe Webb, 21, of Ranger, was decapitated yesterday when he fell beneath the trucks of a freight train in the Texas & Pacific railway yards here.

The Weather

FORECAST: Texas: Generally fair to partly cloudy Friday. Oklahoma: Generally fair tonight and Friday.

Arkansas: Partly cloudy to unsettled tonight and Friday, probably showers in northeast portion.

Louisiana: Generally fair tonight, Friday partly cloudy, scattered thunder showers in southeast portion.

Flying weather forecast: Texas and Oklahoma for today: Scattered or broken clouds, light to moderate southerly surface winds, except southerly to westerly in west portion, and moderate to strong south-west to west winds up to 15 mph, except mostly southerly over extreme south portion.

### Indecent Lines Used In Play Cops Declare

NEW YORK, Sept. 11 (AP)—John M. Kirkland, 35, and Nancy Carroll, 35, were arrested today by police on charges of indecent exposure.

At the close of the third performance at Jamaica, Long Island, last night, a squad of plain clothes policemen led by Fifth Deputy Police Commissioner S. J. Connelley, arrested Kirkland, the company owner and manager, and the five men and three women of the cast. They were taken to the police station in private automobiles. All entered bail.

The play, which was being given a tryout prior to a Broadway opening, has its setting along the St. Louis water front. The police said their principal objections were to the language used.

### James J. Davis Says Business Conditions Will Soon Improve

PITTSBURGH, Pa., Sept. 11 (AP)—Secretary of Labor James J. Davis said today at a luncheon of the American Institute of Mining and Metallurgical Engineers that there were many indications of improvement in business and employment conditions for which he gave credit to President Hoover.

"We have all been carried away to such a depth of pessimism that when anyone ventured to say that good times would return, he was labeled a pollyanna," the secretary said. "I am sincere in stating that there are many indications that business is picking up and going on."

Agreements have been reached recently that guarantee peaceful relations in an industry employing 150,000 workers. The pact signed is to run for five and one-half years, with a payroll that will run to nearly two billion dollars, based on normal work during that period.

"The genius of America has practically put out of existence such things as famine and pestilence, evils that we once thought beyond the power of man to control. I am sure that unemployment will soon be in the same category."

Approximately 1,000,000 fish eggs were shipped safely by the U. S. bureau of fisheries to Chile last winter.

### Stamford Co-Op Handles 85 Pct. of Cotton Ginned

STAMFORD, Tex., Sept. 11 (AP)—Stamford's branch of the Texas Cotton Co-operative Association, which opened August 23, has handled 85 per cent of all cotton ginned in the city since the office opened, J. B. Simpson, manager, reported.

Membership contracts are being signed at the rate of approximately 60 daily, Simpson said. Recent meetings at Wainwright, O'Brien, and Knox City resulted in 82 contracts being signed, and other places in the territory of the office here are showing great interest.

### Business Failures In State Decrease

AUSTIN, Texas, Sept. 11 (AP)—A slight decrease in the number of commercial failures during August under July in spite of released tendency toward an increase during this month, a report released by the bureau of business research of the University of Texas shows.

The 38 failures reported to the bureau represented total liabilities of \$875,000 and assets of \$330,000. In July, 41 firms failed with liabilities of \$872,000 and assets of \$317,000.

In addition to the commercial enterprises going into bankruptcy, two banks closed their doors bringing the total bank failures for the year to seven. Liabilities of the two banks totaled \$202,000.

### El Paso Man Kills Wife, Son Then Suicides

EL PASO, Tex., Sept. 11 (AP)—George W. Cook, 32, business man, shot and killed his wife, fatally wounded his seven year old son, and killed himself here today.

Cook, head of an electrical company, shot his wife to death while she lay asleep in bed and then turned the gun on his little son, George Wilton, who was sleeping with a great aunt. He fired three shots into his own body and died almost instantly. His son died two hours after he was wounded.

He used a pistol to shoot his wife and son but fired into his own body with a rifle. Mrs. Cook was shot through her head.

Mrs. Margaret Lowe, with whom the boy was sleeping, was awakened by the first shot fired into his body. She pleaded with Cook not to shoot again, but he fired another bullet.

Betty Jane, 18-month-old adopted daughter, also sleeping with Mrs. Lowe was unharmed. Mrs. Lowe rushed to Mrs. Cook's room and found her dead. Cook had gone to another room to shoot himself, he said.

Officers said they could not account for the tragedy. Cook had been active in business here for many years. A former wife and two sons reside in Los Angeles, Calif.

### Illinois Democrat Opens Senate Fight

JACKSONVILLE, Ill., Sept. 11 (AP)—James Hamilton Lewis, Democrat, launched his campaign for a return to the United States Senate from Illinois today emphasizing almost equally as issues farm relief, unemployment and prohibition.

In a speech the Democratic nominee urged return of liquor regulation to the several states, immediate government loans to banks in needy farm communities and work for the unemployed on government construction projects. He also advocated return of the national income tax revenues of the states from which they were collected.

Lewis is opposed by four other candidates, Mrs. Ruth Hanna McCormick, who defeated Senator Charles S. Deneen, incumbent, for the Republican nomination, Mrs. Lottie Holman O'Neill, an independent, Louis Warner of Chenoa, also an independent, and C. Emmett Smith of Chicago, independent, whose platform has not been announced.

### Deposed President Of Argentina Sails, Ill, From Native Land

LA PLATA, Argentina, Sept. 11 (AP)—Hipolito Irigoyen, aged 62, deposed president of Argentina, sailed away from his native land at 11:30 a. m. today, on the Argentinean cruiser Belgrand to which he had been removed a few minutes earlier from his sick room in the seventh regiment barracks here.

### Flashes Of Life

(By The Associated Press)  
WASHINGTON — Sometimes Mrs. Hoover mixes tangerines and kumquats with her fruit punch, giving it a delicious flavor. She uses plain spring water, sweetened to taste, and adds citrus fruit juice or berries. This is disclosed in "prohibition punches," a book by Mrs. James M. Doonan. Mrs. Mabel Walker Willebrandt contributes a recipe for "portia's punch" and General Smedley D. Butler tells how to make one of tea.

ISTANBUL, Turkey — Miss Anita Grew, daughter of the American ambassador, is a long-distance swimmer. In 5 hours 23 minutes she did 15 miles in the Bosphorus.

NEW YORK — George Lott intends to play tennis for exercise hereafter, giving up tournaments. "It's a great game for fellows in school," he explained, "but when you go to work you can't afford the time necessary to keep in form. You've got to give up one or the other."

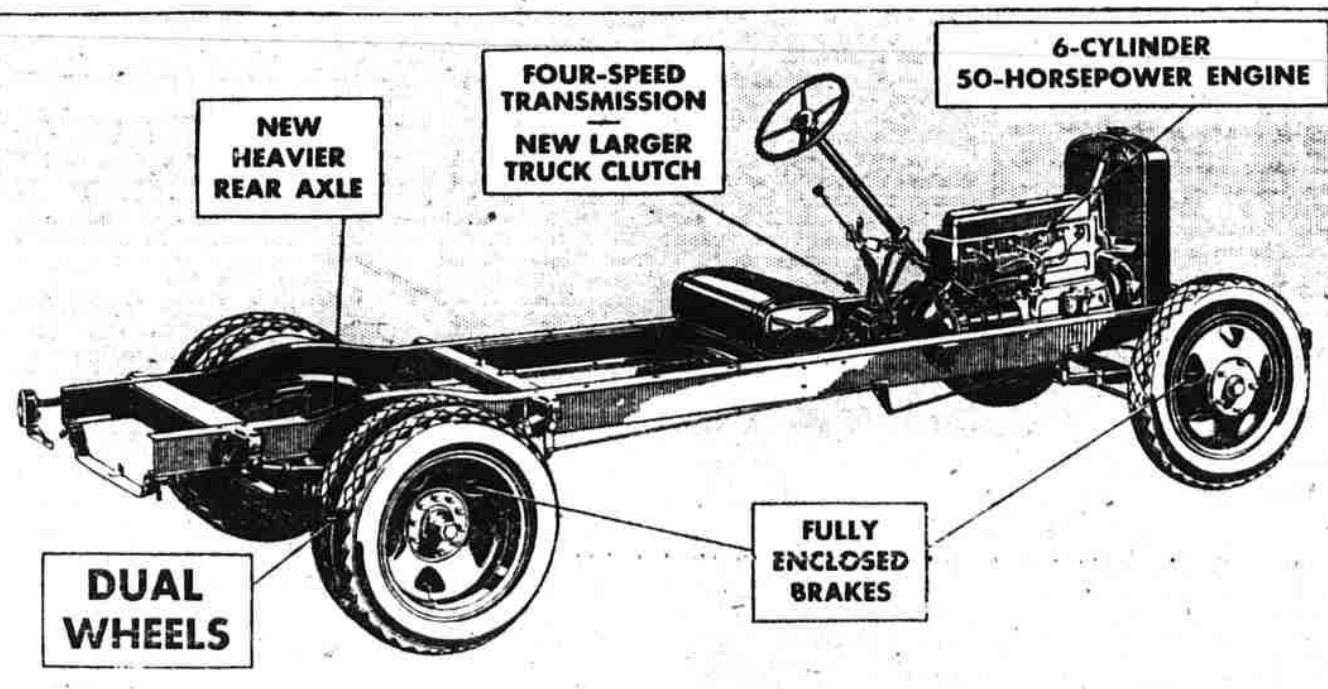

NEW YORK — Walter P. Chrysler Jr., 31, who founded publications in school and college, is in business as a publisher. His first venture is a series of classics on rag paper, set mostly by hand, selling for \$10 per copy.

## Milk Ordinance

INsofar as we are able to determine the chief reason for opposition by milk producers to the milk ordinance adopted Tuesday night by the city commission is the cost that will accrue for tuberculin tests of cows and health examinations of persons handling milk.

We realize this is a time when every additional item of expense further blocks the farmer's chances of getting through the year into another crop not to speak of providing for his family until then.

There are in this case, as in every case, two sides. There are on one side more than 13,000 persons who must depend upon the milk producers for their supply of the important item of food; they must depend upon them either to provide pure or impure milk, harmful or dangerous.

We do not believe there is a single farmer who would put poison in a baby's food and likewise done would be equally or more harmful to the baby's health.

There is but one way to determine whether cows have tuberculosis, by the tuberculin test. We therefore very respectfully suggest to those who oppose such tests.

We believe it is obvious that a person who is diseased is very liable to transmit that disease to milk which he handles.

The milk business in Big Spring will be improved when these regulations have been in practice for a few months.

To say the least, interests of both milk producer and consumer, which are the only groups vitally interested, will both be injured if any individuals in either group allow prejudice of any type to overcome their common judgment.

Cooperation will make of the ordinance a tool for benefit of all.

## OPINIONS OF OTHERS

### Low Salary Not The Reason

Tolson News Service

They say Governor Young of the federal reserve board resigned because he needed the larger salary he could get outside of government service. This has revived the old discussion about the ability of the government to keep good men in competition with business concerns. The same financial reason is given for the president's difficulty in finding good men for the federal power, the tariff and other commissions.

We are inclined to think that this salary excuse is worked overtime. It is important in the case of young men who are kept on a small government salary for ten years or so. Many such quit. The solution seems to be a more flexible promotion system for exceptional men.

But the already successful business man doesn't have to worry about the size of the salary when he considers a government job. If he hesitates to accept a seat on the tariff commission, it is probably for some other reason. Some may be unwilling to expose themselves to senate debate regarding their confirmation. Some may not want to sacrifice private investments which they could not use in federal office.

Others know that ability and success in business may not mean success in government office.

There is Henry Ford. In business he is a genius. But on a fed-

## KONJOLA FREED FT. WORTH MAN OF RHEUMATISM

SUFFERED FIVE YEARS—KIDNEY AND STOMACH AILMENTS ALSO BANISHED

MR. N. R. DANIEL

"I suffered from rheumatism for four or five years, and Mr. N. R. Daniel, 808 East Arlington avenue, Ft. Worth. This settled in my left leg and hips and I became so sore and stiff that I walked with a limp. I could not stoop sufficiently to lace my shoes. Later I became afflicted with stomach pains caused by gas. My kidneys became affected and I suffered constant back pains.

"I watched local endorsements of Konjola and decided to give it a trial. I noticed a change while I was taking the first bottle so continued the treatment. Today the pains of rheumatism have entirely passed. I move my limbs freely and without effort. The stomach and kidney ailments have gone the way of my rheumatism and I no longer suffer from constipation. Even head catarrh which bothered me for years has been relieved by this new medicine.

The files of Konjola contain many such instances. Konjola is free from alcohol, nerve-deadening drugs or heart-depressing chemicals.

Konjola is sold in Big Spring at Collins Bros. drug store, and by all the best druggists in all towns throughout this entire section.

eral commission he would probably be a flop.

The very qualities of arbitrary power of acting first and explaining later, of making decisions for logical reasons without bothering about human complications, qualities which may make a great business executive, may make a poor government administrator.

And often the ablest business men lack the technical training required of a public official. The largest exporter or importer may lack the scientific knowledge and impartial temper needed by a tariff commissioner.

Even on the legislative side, which makes fewer technical demands, successful business men have not always made able senators or representatives. That is often the case also in diplomatic service.

Exceptions are men of the Dwight D. Morrow type, who are serious students of government as well as business men.

That is why the hope of federal administration probably does not depend upon hiring business men upon technical government jobs. It depends rather upon building up a competent corps of government experts such as Julius Klein in commerce, Nelson Johnson in diplomacy and Parker Gilbert in finance.

Good intentions, general intelligence and success in other fields are no longer sufficient qualifications for the key federal positions.

Common belief has it that if you rep on a rusty nail you are liable to develop lockjaw tetanus.

As with many other common beliefs, the major facts in it are wrong, though the basis of the belief is understandable.

In themselves, neither wounds caused by nails nor rust can produce lockjaw. For lockjaw, or tetanus, follows only upon introduction and the development within the body of the germ of lockjaw or tetanus.

Frequently, however, rusty or dirt-covered nails do carry the germ of tetanus, for this germ is common in the soil—particularly in the vicinity of cow barns and stables.

One other reason why the wound caused by a nail, or for that matter, any dirt-contaminated puncture wound, may lead to the development of tetanus is that the injury usually is of the penetrating rather than the cutting type.

When a cutting object inflicts a wound, it usually causes the tissues to sear. The wound is, relatively speaking, wide open.

It bleeds easily and the bleeding tends to wash out the dirt and the bacteria that may have entered the wound. If an antiseptic is applied to the injured part, it is difficult for tetanus to develop.

Such a wound also is open to the air, and germs of course do not thrive when exposed to air and sunlight.

The puncture wound, on the other hand, the type caused by a needle, nail or penetrating object, is of a distinctly different type. While it reaches into the flesh, it does not tear the skin. When it is withdrawn the skin draws together over it, and whatever foreign material may have been intro-

## Hollywood Sights

By ROBBIN COONS

HOLLYWOOD—This is a movie version of the old fable about the hare and the slow moving tortoise.

In this case the hare symbolizes any number of screen stars who have flashed brilliantly in the cinema, whizzed by with cracking speed, and been forgotten.

The tortoise is Henry Armetta, who has crept along slowly but steadily to a secure niche of his own.

The name Armetta, to fans who know by heart their Garbos and Bows, their Navarros and Bancrofts, probably means nothing, and yet these same fans have seen Armetta time after time, as extra and bit player and probably recognize him instantly as an old friend the moment he appears in a scene.

## FAMILIAR FACE

There are quite a few Armettas in pictures today, actors who are familiar to fans, who play their bits well, and yet are seldom remembered by name.

Armetta, for 18 years with few interruptions, has been working in pictures. In recent years he has been playing bits and receiving screen credit, but never has been without work of some kind.

If you saw "Street Angel" you probably remember the amusingly excitable Italian with the grotesque walk, and if you saw "In Old Arizona" you haven't forgotten that glib Italian barber, and those are only two of the scores of features in which he has appeared.

Always he receives favorable critical mention, usually "way down at the end of reviews and often he is cited for scene-stealing. But Hollywood has continued to use him in bits, in which he continued to steal scenes.

## Propriet Unhonored

It was a New York producer, Louis Brock, who "discovered" him. Brock was looking for a comedy team for a series of two-reelers.

But in the back of his mind was the memory of a funny Italian character he had seen countless times in pictures. Even Brock did not know Armetta by name, but the description he wired to the Hollywood studio was sufficient.

Armetta and Nick Bassi are co-starring here now in the "Nick and Tony" series, in which Armetta, for the first time in his life, will see his name above the title of a picture.

## Stockings Worn By Missing Child Found

NEW YORK, Sept. 10 (AP)—A pair of white stockings, found in the Margaretville, N. Y., farmhouse of Charles Edward Pope, were identified today by Mrs. Della Pope as those worn by her eleven-year-old daughter Grace when she was kidnapped two years ago.

Mrs. Budd also identified a party burned ornament, police said, as that which had been attached to the child's wrist. The stockings were "made in a court room" while Pope was awaiting arraignment on a charge of kidnapping the girl, who never was heard from after she left home in company with a man who had her parents' consent to take her to a "birthday party."

duced into the wound is bottled up within it.

Within such a wound germs can thrive and multiply.

## What A Woman OF 50 AND OVER Should Weigh

Keep The Fat Away

This is interesting — the figures given below are correct according to the leading authorities. Women over 50 should beware of fat — if your weight and height match the table below you are in luck — and should be thankful — Weigh yourself today.

### Ages 50 and Over

4 Ft. 11 In.	131 Pounds
5 Ft. 0 In.	133 "
5 Ft. 1 In.	135 "
5 Ft. 2 In.	138 "
5 Ft. 3 In.	141 "
5 Ft. 4 In.	144 "
5 Ft. 5 In.	148 "
5 Ft. 6 In.	152 "
5 Ft. 7 In.	157 "
5 Ft. 8 In.	162 "
5 Ft. 9 In.	166 "
5 Ft. 10 In.	170 "

Weights given include ordinary indoor clothing.

If you are overweight cut out pies, pastries, cakes and candies for 4 weeks then weigh yourself — go light on potatoes, rice, butter, cream and sugar — eat lean meat, chicken, fish, salad, green vegetables and fruit.

Take one half teaspoon of Kruschen Salts in a glass of hot water every morning before breakfast — this is the easy, safe and sensible way to take off fat — an 85 cent bottle of Kruschen Salts lasts 4 weeks — get it at Collins Bros. Drugs, Cunningham and Phillips, or any drug store in the world — you'll be gloriously alive — vigorous and vivacious in 4 weeks — adv.

## Cracked Propeller To Delay Tour By Coste

VALLE YSTREAN, N. Y., Sept. 10 (AP)—A cracked propeller was discovered today by Duquenne Coste and Maurice Bellante on their transatlantic plane, forcing a delay in the start of their good will tour around the United States.

The French fliers paused at Curtiss Airport, on their way to a polo match, to examine their plane and found that a propeller blade was split. A new blade was ordered immediately from France.

The necessity of waiting for it will delay the start of their good will tour for more than a week.

Despite the delay the tour will not be abandoned, spokesmen said.

## Body Discovered In Houston Picnic Park

HOUSTON, Sept. 10 (AP)—An unidentified white man, about 35, was found dead today under a tree in the Luna Park picnic grounds. Officers were investigating the theory he might have been choked with a piece of wire found near the body.

The man apparently had been dead for 2 or 3 days, possibly longer. The picnic grounds have not been used for a week or more.

Officers also were trying to locate a man who phoned police a report of the finding of the body. No one connected with the park knew of the discovery.

## Endorsed By Beautiful Women

Beauties who guard their complexion use MELLO-GLO Face Powder only. Famous for purity, its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process, MELLO-GLO Face Powder stays on longer. Cunningham and Phillips—adv.

## ITALIAN ARMY THINKS BIKES USEFUL IN WAR

PARMA, Italy, (AP)—That the bicycle, even in this motorized age, may well have its uses in war-time is the opinion of Gen. Garzera, Italian minister of war. Two hundred officers taking courses in the higher infantry school here, together with seventy cadets from the army academy at Modena, were sent on a biking tour all over the surrounding countryside.

The speed, silence and economy with which a bicycle patrol can carry out a reconnaissance, particularly over country where the roads are little better than footpaths, has impressed the military authorities.

## "HATDAX" FOR HUNGARY TOURIST IN GERMANY

HEILZEN, Germany, (AP)—Travelers passing through this city on the way from Berlin to the sea have been puzzled by the strange chanting of a water who walks up and down the station platform singing:

"Hatdax zaendwitsch seltz tschoklet limmet."

## ABJURES MONROE DOCTRINE

MEXICO CITY, (AP)—The Monroe Doctrine should be substituted by a "real and just" pact binding the Americas on equal terms, El Universal says editorially. The newspaper adds that Spanish-American peoples resent the "protection" of the United States.

## EVERYDAY QUESTIONS

Answered By  
Dr. S. Parkes Cadman

Questions from readers are answered daily by the Rev. Dr. S. Parkes Cadman, Radio Minister of the Federal Council of Churches of Christ in America. Dr. Cadman seeks to answer inquiries that appear to be representative of the trends of thought in the many letters which he receives.

Anderson, S. C.  
Does the New Testament teach that human beings are immortal?

The New Testament teaches that human beings are capable of immortality, but not that they are immortal because they are human beings. The doctrine of man's native immortality cannot be derived directly from the Bible, nor was it taught by the church before the sixteenth century. The doctrine of the inherent immortality of the human soul was Plato's theory.

According to scripture, eternal life is the gift of God to those who fulfill its conditions. Their conscious personality and all that constitutes that personality—will, memory and the affectionate, sensitive bodily dissolution, taking on the forms adapted to their continued activity in the spiritual state hereafter.

Undoubtedly Great Britain no longer has a monopoly of trade in many quarters where she once enjoyed it. Her innate commercial conservatism is roughly challenged by keen rivals, and her capitalistic and industrial groups still have to learn that "aloofness" does not pay in a democratic age. But the character of Britons has not materially changed. What they were in 1815, when their country stood at the peak of power, they are today.

After Waterloo, fought in 1815, the nation suffered from a reactionary and selfish rule, which remained unbroken till 1832, when Lord Grey's reform bill transferred political authority from the land owners to the leaders of commerce and the industrial centers. The subsequent rise of the Laborites to their present status followed a long and checkered way.

The supremacy of the sea is a pre-war phrase which has no meaning if the pact of Paris is respected by its signatory powers. India may cut herself adrift and attempt to work out her own destiny. Such a course will affect the white race as a whole quite as much as it will affect Great Britain. She has been the foremost representative of our civilization in the Orient, and should she be bowed out there the burden she has borne alone must be distributed.

Egypt's nationality was rekindled by the freedom restored to her by British occupation. Before that event the fellahs possessed no rights the native rulers had to respect. Read Lord Cromer's work on this issue.

American financiers declare that London is still the clearing house for world trade and likely to remain as such. The British working classes have not always acted wisely. Yet we should remember the inequalities against which they vainly protested for so many years. The dole is a joint provision by the state and industrial groups for unemployed labor. It has a bad side. But no administration could exist a day in the Island Kingdom which allowed its worthy poor to starve.

While Great Britain can produce statesmen like Lord Haldane and Lord Grey and make her diplomacy a model which other powers study she is not near the end of her power. Get Robert Bridges' latest masterpiece in poetry, "The Testament of Beauty." Mark the

Influence of British thinkers upon literature, science and art, upon the various philosophical schools, and also the hold of British theologians and preachers upon religion. Reflect on Britain's capacity to produce men and women of superb gifts. These factors should persuade you that the unique commonwealth of nations of which she is the titular head still has a tremendous part to play in the affairs of mankind.

Brooklyn, N. Y.  
How do you account for the excellent attendance at the services of the Catholic church while on the other hand the Protestants seem to neglect going to their churches regularly? Among the numerous causes of the condition you mention the following four are important:

(1) Early training. The Roman Catholic is trained from childhood to regard divine worship as essential to the Christian life. There is not substitute for it. Whereas in Protestant churches the Bible school or the young people's association is often allowed to compete with the church service in the child's regard.

(2) Obedience to authority. The Roman Catholic looks upon attendance at his church as, in part, an act of obedience. A Protestant rarely does that. Whether he attends church or not is a matter for his own choice.

(3) Absence of competition. All Roman Catholics in a given area attend the same church service. Think of the number of churches in the same area which divide Protestant worshippers.

(4) Virtue in the act. For the Roman Catholic presence at the mass is in itself a meritorious act. The very fact of his being there has for him a saving significance. Protestantism in general makes no such claim.

# STEERS CLASH WITH ROBY FRIDAY

## Robins and Cardinals Gain Game On Cubs

### Lamesa To Play Here

The mentors the Steer mentors, Stevens and Brown, and Captain Delbert Rogers, told them about it at the Lamesa Club house Wednesday noon. On account of interference we didn't get any fried chicken and we didn't get to hear the coaches and young air. Rogers in their oratory. Instead we got a bowl of chili and had to listen to the carrot topped president talk about San Angelo. We don't know which was the worse, the chili or the San Angelo president. We see by the papers, however, that Stevens is well satisfied. Such satisfaction must be preserved. J. E. Kuykendall, who never knew what success was until he was made a member of the board of governors of the City League, all added words of wisdom and support. Blanketly informed those present the football club was not only a community problem but a school one as well. Or maybe it was vice versa. We're not much good on speeches. Speaking of speeches reminds us it is about time for Breckenridge to have the coaches and the scribes and the captains over for a feast and a blowoff. On account of not knowing any new truths we couldn't attend anyway. A truthful man like us can't attend one of these Breckenridge sessions and not away the same man. Once we went and heard Prexy Anderson make a speech and we couldn't look one desert in the face. It had one.

### Boxer Socks Referee, Referee Socks Boxer

OKANOGAN, Wash., Sept. 11 (AP)—Jimmy Downey, boxer, was having difficulty in connecting with his opponent's chin here last night so he shut his eyes and whanged away hopefully. None of the potential haymakers landed on the opponent, Cotton Bryant, but one of them caught Referee Gene Fritts in the mouth.

Fritts forgot all about refereeing and sent a sizzling left to Jimmy's chin and a neat right cross to top of it. Jimmy went down for the count.

Bird, he says, "with two good ball carriers like McLaughlin and McCarty and a great defensive man such as Bird, the Oil Belt coaches are going to have to put out some super teams to down the Bulldogs." Does Mr. Hodges forget that last year he declared Bird had a streak? Surely not. Does he forget that he declared "Bird looked like a school boy in front of Magness and Graham"? Does Hodges forget he said he was the trouble with Hodges last year was that Bird smeared his Magness all over Palo Pinto County, soaked him so hard and made him come up heaving like the colt down on our farm. That didn't suit Hodges, so he took his poisoned pen and tried to run him down just in the ninth whiffed Gribble, a pinch man named he did to m Dennis titter

### Southwestern Conference Aggregation Start Work

#### Steengrafe To Battle Stoner In Tilt Today

#### Spudgers Get Jump On Cats In First Of Series

WICHITA FALLS, Sept. 11 (AP)—Out in front as the result of Hal Wiltse's well pitched victory in yesterday's opener, when he held Fort Worth to nine scattered hits and beat them, 6 to 2, the Wichita Falls Spudgers were brimming with confidence as they prepared to meet the bats in the second game of the Texas League playoff today.

Milt Steengrafe, second ranking ace of the Spud mound corps, was regarded as logical choice to face the visitors in the second tilt, while Manager Frank Snyder of the Cats was expected to pin his faith in Lil Stoner in an effort to square the series. Another victory today would give the Spudgers an almost unbeatable advantage in the five-game series. After today's bout the teams will move to Fort Worth, where the series will be resumed Saturday.

Dick McCabe, who licked the Spuds in all three starts against them during the regular season, lost his rabbit's foot yesterday. For five innings the Cat star matched Wiltse pitch for pitch, but in the sixth the Spudgers fell all over him and drove him from the hill. Five hearty hits, including homers by Storti and Burns, mustered over behemoth ever to step on a high school gridiron. rd four runs in the eventual frame before "Red" Roberts could be sent to the rescue.

Wiltse was in rare form all the way. In each of two innings, the fourth and sixth, the Cats bunched three singles to score, but their up heaving like the colt down on other three hits were widely spaced. In the third Wiltse fanned all so he took his poisoned pen and tried to run him down just in the ninth whiffed Gribble, a pinch man named he did to m Dennis titter

By The Associated Press

If pre-season workouts could be taken as an index of the future, the Southwest Conference pigskin today had the prospect of a hectic career in the tussle between the seven conference contenders.

Almost without exception the teams plunged yesterday into stiff work-outs, several of them starting off with signal drills, tackling and passes.

Coach Ray Morrison of Southern Methodist University lost no time getting down to business, after a selected squad of 50 players reported to training camp. With in 15 minutes after roll call, the Mustangs were hard at work, running plays against a set of dummies suspended from wires in the positions of an opposing team.

Every member of the Baylor football squad reported for duty at the first call, at Waco, and quite evidently, the thing uppermost in the minds of the fifty youngsters was the game October 4 against Purdue University.

Attired in track togs, 63 aspiring Rice Institute candidates at Houston went through two practice periods. The squad was the largest and regarded as the most promising in Rice's football history.

Thirty-five men reported to Coach Thomsen at Fayetteville yesterday to start the training season at the University of Arkansas. Four letter men and a number of last year's varsity and sophomore reserves were not there for the initial roll call but were expected before the end of the week.

It was a tough day for the Texas Christian University gridsters, Coach Francis Schmidt hustling them through nearly five hours of training exercises that melted away surplus flesh at a surprising rate.

### Cub Telegram Stops Chicago Telephone Exchange Business

CHICAGO, Sept. 11 (AP)—The defeat by Brooklyn of the Chicago Cubs yesterday in the nerve-racking National League pennant race precipitated the Superior Exchange of the Chicago telephone system into one of the worst tangles of its experience last night.

The reason was a notice appearing in the early editions of the Tribune, announcing that a telegram of encouragement was to be sent to Manager Joe McCarthy and members of the Cubs team, and inviting supporters of the club to telephone if they desired their name signed.

A few moments after the paper had reached the street, the phone calls began pouring into the Tribune office. An hour later the Superior Exchange was reported 15 minutes behind on incoming calls. Later an official of the company telephoned to inquire if there had been a great catastrophe.

"Every exchange in the city is swamped," he said. "What's the trouble?"

When it was explained to him, he said, "that's all right. Put my name down."

Many persons, unable to get telephone calls through, sent their names by telegraph, and some carried lists of names to the Tribune office personally.

Melville Ray, who sings the part of Ronet in the Dream Shop at WLW on Mondays, was once a professional boxer.

More than half a hundred University of Texas athletes started their training grind at Austin, preparatory to the opening of the Longhorn season, Sept. 27. The hopefuls appeared without the conventional jersey and moleskins and were put through their paces in track outfits.

It was a tough day for the Texas Christian University gridsters, Coach Francis Schmidt hustling them through nearly five hours of training exercises that melted away surplus flesh at a surprising rate.

### Giants Stand Three Behind Loop Leaders

#### Adolfo Luque Twirls Five Hit Game To Beat Cubs

By HUGH S. FULLERTON JR. (Associated Press Sports Writer)

A squadron of traffic police is needed along the road to the National league pennant. All the efforts of the teams from Chicago, St. Louis, Brooklyn and New York to get to the championship only have resulted in one of the greatest jams that highway ever has seen.

Yesterday's contests brought the Brooklyn Robins and St. Louis Cardinals a game closer to Chicago's league leading Cubs. The New York Giants in fourth place remained only three games behind the top. With Adolfo Luque shutting out the National league champions with five hits, the Robins made it two straight over the Cubs by a 6 to 0 count. St. Louis retained its one-point grip on second place as Jim Bottomley's eighth inning home run gave the Cards a 5 to 3 victory over the Giants.

The standing:

Team	W	L	Pct.	Behind
Chicago	80	58	.580	0
St. Louis	78	59	.569	1 1/2
Brooklyn	79	60	.568	1 1/2
New York	77	61	.558	3

The Robins ran out of their dugout yesterday to greet Charley Root, and promptly started running around the bases. Five men faced Root and all of them hit. Then Jess Petty came to the rescue and allowed one more blow, which settled land in the world.

Java, with a population of 690 per square mile, is the most densely settled land in the world.

It was a tough day for the Texas Christian University gridsters, Coach Francis Schmidt hustling them through nearly five hours of training exercises that melted away surplus flesh at a surprising rate.

### Final Clash Before Game With Resort

#### Roby Comes With Reputation For Being Strong

The Big Spring Steers, with their first Class A battle of the season just around the corner, will go against their final Class B conflict before the season opens, Friday afternoon when they clash with Roby.

The game had been announced for Saturday, but either the date was changed or the announcements were wrong. Regardless, the tilt will be played on the new gridiron over the viaduct and to your right at 3:30 p. m. Friday.

After eking out a 6-0 victory over the strong McCamey aggregation—and it was strong, don't ignore it—the Steers have gone through a strenuous week at the hands of Coaches Stevens and Brown.

This afternoon they will trek to the new field for a slight workout on the clouds. An effort has been made during the past week to fill in the gaps that were so apparent in their first conflict. Line work has been in the fore the past few days, with Stevens handling the backfield aspirants.

Probably the same bunch that went against McCamey in the initial tilt will face the Roby contingent. It includes Phillips and Hoppert at ends, Coburn and Maxwell at tackles, Heberon and F. Orr at guards, Pardue at center, Neal and Kidwell at halves, Rogers, quarter and Flowers, full back.

As in the initial contest fresh fodder will be fired into the ranks at intervals. Coats, Henshaw, Mima, Glover, N. Orr, Yarbrough, Sanders, Hildreth—and some of the other 45 will see action.

Silk yarn, when burned, should smell like burned feathers.

## the Woman who wouldn't Talk

"If there was one thing of which Mrs. Julian was firmly convinced, it was that 'she could not hear over long distance.'"

Even the thought of attempting it disconcerted her.

So her daughter was not surprised one evening, after the telephone had rung, to hear her call excitedly:

"Dorothy! It's long distance—Philadelphia! You take the call. You know I can't hear over long distance."

Dorothy smiled. "Yes you can, mother, if you let yourself. It's as easy as any other call. Try it."

Mrs. Julian shook her head, but turned again to the telephone.

"Hello," she ventured, doubtfully.

A pause, during which her perplexed expression gradually gave way to a delighted—and wondering—smile.

"Martha!" she exclaimed at last. "This is a surprise! You'll be here day after tomorrow, for a whole week's stay? I am so glad!"

And then, the wonder of it overshadowing even the joy of the coming visit, she continued, "You know, Martha, I can hear you just as well as if you were telephoning from across the street!"

Next day her son-in-law (name and address upon request) wrote a letter to the telephone company.

"Mrs. Julian," he concluded, "is far from being an old fogey, but somehow she didn't know how easy it is to talk and hear over long distance. Don't you suppose there are still many who feel as she did?"

Undoubtedly there are. Long distance service has improved so rapidly in the last few years that those who have not used it recently cannot be expected to know how much like local service it is.

But the "proof lies in the eating." One actual call will tell you more about the ease, speed, and

\*Based on an actual incident; details upon request.

clarity of long distance than we could in a whole block.

For long distance is not only clear. It's speedy. In most cases you are connected with the distant telephone while you hold the line, particularly if you can give the number of this telephone.

It's personal. It is the only way whereby question and answer may be exchanged between distant persons as if they were talking face to face. And it's low in cost. You can telephone 100 miles for 60c—for 35c if you call after 8:30 in the evening!

May we prove it to you? Send us names of three of your friends in other cities. We will mail you an out-of-town number book giving their telephone numbers, and the cost of a three-minute telephone visit with each. Then call by number to one, or to all three. We'll let the service speak for itself.

Manager SOUTHWESTERN BELL TELEPHONE COMPANY CITY

Please send me an "out-of-town number book," giving the telephone numbers of the persons listed on the attached sheet, and the cost of a three-minute talk to each.

## BY ALAN GOULD CONNIE MACK HIS 50 YEARS IN BASEBALL

The career of one of America's most colorful sport leaders traced from the days when bats were flat and seven balls gave

ALAN GOULD  
Sports Editor  
THE ASSOCIATED PRESS

the batter a pass. He was leading championship teams when Babe Ruth was just the name of a boy and Ty Cobb was receiving his first chance in the majors.

The record of his life is the story of America's national sport, enriched by intimate glimpses into the personality of the man who has waged 45 big league campaigns and six world series.

STARTS MONDAY, SEPTEMBER 15

## In The HERALD

The San Angelo scribe congratulates us on obtaining the new five-line operator for a bodyguard threatens us with violence should we set feet in Tom Green County, and craves to engage us in fistie combat. Unfortunately, as busy as we are, we can't handle the young fellow himself. We have referred his pert challenge to the bodyguard and he wishes nothing more than to tie a blonde scalp to his shirtfront.

George Gentry, another one who would never had been called Miter had it not been for the City B. B. League, says the first pep rally of the year will be held Friday morning about thirty minutes after eleven o'clock.

Wichita Falls, probably wanting to embarrass us, welcomed the Fellows in the first Little League, however, is due to hear the call today and should succeed in turning back the Spudgers on their own even ground. Once the Cats get the Wichita Falls back into the native lair, they should run through them in less time than it took the Dallas Steers to spend all their money and yet have no players.

Lee Hammett, the say nothing quarter that was a demon in this district before Big Spring became a pest of it is out for a backfield position with the Rice Owls. He is pushing Kenneth Lee, Ross Keener and Nelson Russell backfield regulars, and pushing them with much gusto. The passing, punting, running led that earned the title of the greatest little quarter of this section when he was a member of the Bulldog contingent, would be an asset in anybody's school.

It is rather laughable the way the young man down at the Stephens County stronghold gets twisted as the years roll by. What we mean is the Breckenridge entry for the fence riding honors says one thing today and another tomorrow. Speaking of Chuck

## Miss Rix Is Wed At High Noon Wednesday

### Weds Guy C. Victory At Lubbock Episcopal Church

LUBBOCK, Texas, Sept. 10.—The marriage of Miss Alice Ann Rix, only daughter of Mr. and Mrs. Wallace W. Rix, to Guy C. Victory, son of J. C. Victory, of San Antonio, was solemnized at high noon Wednesday in St. Paul's Episcopal church with the Rev. Bradner J. Moore, officiating.

Altar decorations were yellow blossoms, ferns and autumn leaves and the music was given by Mrs. Jedd Rix, who played "The Bridal Chorus" from Wagner's "Lohengrin" for processional and Mendelssohn's "Wedding March" for recessional. She accompanied Mrs. Carl Scroggin, who sang "O, Perfect Love."

**Enters With Father**  
The bride entered with her father, who gave her in marriage, and wore a smart ensemble of brown silk. She carried an arm bouquet of roses. She had four attendants: Miss Catherine Dodson, of Vernon, maid of honor; Mrs. Ralph Rix, of Big Spring, matron of honor; Miss Isabel Thelen, of Paris, and Miss Lucille Rix, of Big Spring, bridesmaids. The attendants wore fall daytime dresses and their bouquets were corsage of yellow roses and fern.

Peter Thomas Smith was best man and the groom's other attendants were Whitney Reader, of Houston; Harold Hinn, of Plainview; and Ralph Douglas.

### Rehearsal Dinner Given At Hilton

Mr. and Mrs. W. W. Rix entertained the Victory-Rix wedding party with a rehearsal dinner in the Chinayo dining room at the Hilton hotel last evening.

### Pre-Nuptial Party For Mrs. Victory

As a pre-nuptial compliment to Mrs. Victory, Mrs. C. C. Crenshaw entertained Thursday afternoon with bridge in her home at 2425 20th street. High score favor went to Miss Anne Snyder.

### Mrs. Jedd Rix Hostess At Party For Niece

LUBBOCK, Sept. 11.—As a courtesy to her niece, Miss Alice Ann Rix, who marries Wednesday, Mrs. Jedd Rix was hostess Tuesday at 1 o'clock with a luncheon at the Hilton.

### Child Study Club To Meet Tomorrow At Three

The Child Study club will meet tomorrow afternoon with Mrs. George Beard at Granville Glenn's home, 505 Nolan street, at 3 o'clock. This will be the first meeting of the year and all members and women interested in the study of child psychology are urged to attend.

### GAMBLES RETURN

Mr. and Mrs. John F. Gamble recently returned from their vacation to their home in Forsan.

## Law Forces Woman To Return Husband's Wooden Leg Pronto

DALLAS, Texas, (AP)—A Dallas husband appealed to police Saturday to force his wife to bring his artificial leg from hiding.

While the one-legged man was sleeping his wife planned to fix it so he could not visit a home brew emporium during the day, she explained to police. She hit upon the idea of hiding her husband's artificial leg. He called police and the woman who objected to her husband going places was forced to produce the leg.

## Mrs. Barker Entertains Entre Nous

Mrs. Lloyd Barker entertained the members of the Entre Nous Bridge Club at her home on Main street yesterday afternoon.

The house was decorated with roses.

Mrs. Victor Martin won high score for club members and Mrs. Shird Phillips won high score for guests. They were both given finger as prizes.

Refreshments were served to the following: Mesdames Tom Ashley, Carl Blomsheld, Victor Martin, Travis Reed, Shine Phillips, Albert Fisher, Homer McNew, and Ira Thurman.

## Mrs. Gamble Is Party Hostess

Using a color scheme of green and yellow in decorations, bridge accessories and refreshments, Mrs. John E. Gamble entertained a group of friends at bridge at her home in Forsan yesterday afternoon.

Mrs. C. W. Harlen won high score and was presented with a china mayonaisse set. Mrs. L. F. Doyle won high cut and was awarded a Mexican pottery vase. Second high score prize went to Mrs. Frank Sealey. She was presented with a luncheon cloth. Mrs. J. E. Sullivan won low score and was awarded a china cream pitcher as consolation prize.

The girls were tied in green paper with yellow and green ribbons. Small nut cups, carrying out the color scheme, were given as favors to the group.

## Mrs. Monroe Johnson To Entertain Club

Mrs. Monroe Johnson will entertain the members of the Triangle Bridge Club at her home in Washington Place tomorrow afternoon at three o'clock.

## MODIST MAIDENS

"Come, girls, let's not play bridge any more!"

## Mrs. Barker Entertains Entre Nous

Mrs. Lloyd Barker entertained the members of the Entre Nous Bridge Club at her home on Main street yesterday afternoon.

The house was decorated with roses.

## Mrs. Gamble Is Party Hostess

Using a color scheme of green and yellow in decorations, bridge accessories and refreshments, Mrs. John E. Gamble entertained a group of friends at bridge at her home in Forsan yesterday afternoon.

Mrs. C. W. Harlen won high score and was presented with a china mayonaisse set. Mrs. L. F. Doyle won high cut and was awarded a Mexican pottery vase. Second high score prize went to Mrs. Frank Sealey. She was presented with a luncheon cloth. Mrs. J. E. Sullivan won low score and was awarded a china cream pitcher as consolation prize.

The girls were tied in green paper with yellow and green ribbons. Small nut cups, carrying out the color scheme, were given as favors to the group.

Mrs. Monroe Johnson will entertain the members of the Triangle Bridge Club at her home in Washington Place tomorrow afternoon at three o'clock.

## Mrs. Monroe Johnson To Entertain Club

Mrs. Monroe Johnson will entertain the members of the Triangle Bridge Club at her home in Washington Place tomorrow afternoon at three o'clock.

## MODIST MAIDENS

"Come, girls, let's not play bridge any more!"

## Gloomy Diva To Sing Here

Clara Clairbert, Belgian diva who sings sad, gloomy notes, will make her first American appearance in San Francisco, September 13. She is a favorite singer at the Belgian court.

## Sterling City Girl, With Alma Gluck As Her Ideal From Childhood, Has Succeeded After Years Of Work

Taking Alma Gluck as her ideal, a Sterling City girl, Miss Maxine Douglas, began the hard and unprofitable study of voice and piano while yet in grammar school.

Today, after three years of study in Europe under Angelo Parola and Louis Villani Baldeschi in Milan, Italy, she opens her studio at Rush Temple in Dallas with recommendations from Giorgio Polacco, director of the Chicago Grand Opera Company.

When a small child, before entering school, Miss Douglas began the study of piano and continued it on through each year of grade and high school.

After graduating from Sterling City high school she entered Trinity University, where she studied for two years both piano and voice. Then Miss Douglas entered State University, continuing her work in piano and voice. She helped to defray her expenses by working in the catalog department in the University library. After leaving the university majoring in English she taught this subject for eight years, the last five of which in Dallas high schools.

## Chemists May Learn How Come You're A Blonde

CINCINNATI, (AP), Sept. 17.—(AP) Discovery of gland secretion that appears to control pigmentation—the basis of complexion—was reported to the American Chemical Society today.

The secretion comes from the pituitary gland, which lies between the roof of the mouth and base of the brain, and which has been identified previously as producing other secretions affecting growth of the body and bones and development of sex.

The discovery was credited to Dr. C. G. McArthur, of the University of Buffalo, during the explanation of a new theory of bodily circulation by Dr. Oliver Kamm, of Parke Davis and Company.

Dr. Kamm spoke at a symposium on endocrines, the secretions called hormones that come from ductless glands.

## Mrs. LaBeff Hostess To Bluebonnets

Mrs. E. M. LaBeff entertained the members of the Bluebonnet Bridge Club at her home yesterday afternoon.

She used an autumn motif and decorated with autumn flowers, roses and dahlias.

#### Texas Crude Production Is Barely Lower

AUSTIN, Tex., Sept. 11 (AP)—American Petroleum Institute figures indicate that Texas oil fields made little progress toward cutting down production to the maximum of 764,000 barrels under the state-wide curtailment order, during the first half-week of the order's effectiveness.

State production for the week ended August 30 was 818,600 barrels, an actual increase over production for the previous week. The proration order went into effect August 27.

Particularly notable was the increase of 3,300 barrels in daily average production in the coastal fields, where, according to reports made to the state railroad commission, attempts already have been made to curb production.

The figures are not indicative of whether the proration will be effective, however, since several hearings were held before the commission ven after the effective date of the order.

The following table shows production for the week and the amount allowed each section under the curtailment order:

(Daily)

Section	Production	Allowment
Panhandle	102,500	80,000
West Central	52,350	52,000
North Texas	72,100	69,000
West	277,650	276,350
E. Central	39,900	41,850
S. Central	93,500	99,150
Gulf	129,350	136,000

#### Terrell To Seek Lower Farm Taxes

AUSTIN, Tex., Sept. 11 (AP)—An ambitious legislative program has been outlined by George B. Terrell, retiring commissioner of agriculture and Democratic nominee for the legislature from Cherokee county.

Terrell hopes to see taxes reduced on farms and ranches and added to the state's natural resources.

The talk of "keeping hands off the people's pocketbooks" is "all right as far as it goes," Terrell said, but he pointed out that tax money must come from some where and to say "hands off" by no means solves the tax problem.

"The proper sources from which to derive these taxes," he said, "are from incomes and natural resources. Every time anybody tries to tax the corporate interests a wall goes out from their representatives and the newspapers carry big headlines: 'We must keep our hands off the people's pocketbooks.'"

"But who are the people?" We should distinguish between the class that exploits the natural resources and the class which produces the wealth and pays most of the taxes under the present ad valorem system."

Terrell also advocates that counties be prohibited from issuing bonds with referendums, and believes that a just and fair redistributing bill should be passed "without gerrymandering or sinister effort to arrange the districts for certain men to be elected to congress."

#### Immigration Stand Praised By A.F.L. Head

ATLANTIC CITY, N. J., Sept. 11 (AP)—William Green, president of the American Federation of Labor, has sent a telegram to President Hoover praising the action of the State Department to curtail immigration while unemployment is acute.

He said the decision of the state department was heartily endorsed by the executive council of the federation at a conference yesterday.

Mr. Green said he had conferred with Secretary of Labor Davis about the need of shutting out immigration during the unemployment period but refusing to issue visas, and believed the action of the state department would relieve the problem.

Another clause in the immigration law, he said, which is giving trouble to American mechanics, in the special privilege granted employers to bring European mechanics here to do work they claim cannot be done by men in this country. He said, however, that after it has been found that their places can be filled by American workmen these men are deported.

An Indian village within the limits of Harbor Springs, Mich., has obtained electric service and city water connections from the town council.

### Rubber From Crude Petroleum Latest Scientific Achievement

WASHINGTON, Sept. 11 (AP)—Rubber crystals, rubber from crude petroleum, leather from pulp mill waste and sugar from cottonseed hulls.

These were four of the scientific achievements recounted by Dr. George K. Burgess, director of the bureau of standards, to the delegates attending the Inter-American conference on agriculture, forestry and animal industry, now in session here.

The crystalline rubber, he said, was produced under direction of Dr. E. W. Washburn, head of the bureau's chemical laboratory, and opens up enormous possibilities for science and industry. He declared, however, to predict just what the eventual product might be.

Up to the present, he explained, rubber has been an amorphous substance, on the borderline between solid and liquid, with rather

specific industrial uses. Rubber crystals, if fully developed, would mean "solid rubber," he said, adding that "it may be something having properties all its own, and nobody can say what this would mean."

The rubber reputed to have been made from petroleum, Dr. Burgess continued, came from a California oil plant, but thus far government scientists are not prepared to pass judgment upon it.

Turning to leather, the scientist said investigations have shown that sulphite cellulose extracts, obtained from the waste of pulp mills, could be blended with ordinary vegetable tanning materials and used to produce heavy leathers with satisfactory physical and chemical properties.

Recent work in the bureau of standards, he went on, has opened new possibilities for cotton growers

by obtaining from cottonseed hull bran the sugar xylitol which, with other sugars, constitutes about forty per cent of materials.

"Although this sugar has been sold for \$100 a pound," he added, laboratory and semi-commercial work by the bureau has shown it can be made on a practical scale for less than twenty-five cents a pound. Work is underway to convert the xylitol into sugar and acids, like citric, tartaric, lactic and acetic acids, alcohol, acetone, and other products by chemical and fermentation methods.

"Its possible use in human and animal foods is being investigated in cooperation with medical and animal experimenters."

### DOCK VETERAN DROWNS

BATON ROUGE, La., Sept. 11 (AP)—Thomas Kalgier, 62, veteran government employee on duty at the locks joining the Mississippi river and Bayou Plaquemine at Plaquemine, below here, was drowned today when he fell into the locks while crossing the lock heads to inspect a boat.

666

Relieves a Headache or Neuralgia in 30 minutes, checks a Cold the first day, and checks Malaria in three days.  
666 also in Tablets

THERE'S always some favored one with a charm that's all her own... And everywhere in the modern scene you'll see happy smokers breaking out fresh, fragrant packs of Camels... a natural choice too!

For the mildness of Camels is a charm that's all its own... a natural mildness that's a quality of choicest tobaccos. Don't confuse this fresh, fragrant mildness with the flatness or insipidness of "over-treated" tobacco. There's a delightful natural fragrance to Camels, too, a "bouquet" as distinctive as the fragrance of oriental flowers.

Here's to the delightful things of life! Have a Camel!
