One Case Remains On Docket Against Defendant, However

W. S. Garnett, former Big Spring minister, entered a plea of guilty in 70th district court Wednesday evening to a charge of selling securities without a license.

Lookin 'em Over

Big Spring's baseball situation is just riding at present, with Jodie Tate and Tink Riviere, co-buyers of the Odessa franchse, lining up equipment in preparation for the 1941 West Texas-New Mexico roundelays.

Vandalism has played havoc with the park and, if this sort of activity doesn't abate pretty soon, the park owners will be the possessors of exactly three bases, a barrel of lime, and an undeveloped piece of Big Spring real estate. Ray Ogden, one of the hotter local fans, suggests that it wouldn't be a bad idea to sic the cops on whoever is guilty of packing at P. G. A. champion Denny Shute away the park fixtures.

Burke Summers, Lions club prexy, will be suffering the torments of the something-or-others when his organization gives its annual football banquet January 21. Burke, a perennial Aggie of note, has one of the leading roles in an affair which has, of all people, Dana X. Bible as

Hardy and Bennett figure that Obie might not turn out a winning rew the first year or so but he would keep Tech on the football map and not let it be known as school that produces textile engineers alone.

Both medicos hit the nail on the head when they said Tech had bet-ter watch its step if it wanted to avoid losing the ground it has aliron circles. Cawthon might not have been the best man to soothe the injured feelings of a somewhat tender-skinned Tech athletic council, but he did put a certain spark in the school's football efforts.

# Japanese Press Suggests United States Keep Navy In Home Waters

## U.S.A. Hunts Trouble, Says Tokyo Paper

TOKYO, Jan. 16 (P)—The for-eign office-controlled Japan Times suggested today that the best way of keeping President Roosevelt's pledge that no troops will be sent to foreign soil would be to with-draw the navy to home waters." Commenting on criticism in the United States congress of the lendlease bill to aid Britain, the Times

"To Japanese it looks very much like the United States is going the long way around for sending armed forces into the scene of action abroad" by maintenance of a fleet at Hawall.

The Tokyo press urged the gov-ernment to hasten Japan's "south-ward program" and he ready for resolute action to offset British and United States influence in East Asin.

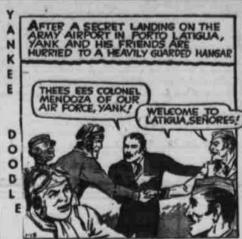

"Huge overseas naval concentrations are equivalent to extension of national boundaries," the Times said. "In America's case, they suggest dictatorship over the par-allels of a latitude below Pearl Harbor, an invitation to others to keep away, therefore a challenge and threat, preliminaries to hostilities, hence a contradiction of America's announced policy of keeping its fighting sons at home."

The government information bureau declined to comment on the statement of U, S. Secretary of State Cordell Hull to the house for-

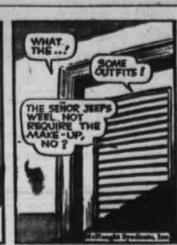

quoted diplomatic observers as attaching slight significance to Sec-Hull's statement on ground it merely confirmed that the United States still misunder-

assumes an attitude of raising trouble where there is no cause in the face of a series of peaceful statements from responsible Jap-anese," including Foreign Minister Yosuke Matsucka.

Asserting the cooperative move-ment is being threatened by unfair competition, Rep. Chambers, a farmer serving his second term in the house, said he would appeal to the attorney general's department for help in drawing up a bill to meet the problem.
