## "What Dunbar-Struggs Means To Me"

by  
 Dale Poulter

(Editor's Note: For the next few weeks, the Southwest Digest will allow this space for students of Dunbar-Struggs High School to express in their own words what the theme, "What Dunbar-Struggs Means To Me." Let us hear from you about their efforts, and continue to support them).

When asked to write a paper about what Dunbar means to me, I was stunned. This is because I had never thought of going to a high school outside of Dunbar. I then decided to try and imagine going to another high school. In doing so I realized that changes would occur in three main areas. These areas are: faculty, inter-student relationship, and school involvement.

During the past three years, I have had the opportunity to meet most of the faculty of Dunbar. In these meetings, I have noticed that they all want me to do my best. They also are willing to help me achieve this. They help me do this by pushing me to my limits and then they give me a little extra push. This extra push is what keeps me alert and prepared for class. This extra push also gives me the desire to learn and learn more than I thought possible. Truly, the faculty at Dunbar are the prizes of the teaching profession and without them during my high school years I would have learned far less.

I also believe that the relationships at Dunbar are closer between students. The students at Dunbar get to know one another better than at other schools because there are fewer students. This unique bond between students would never have the chance to develop if it were not for Dunbar. To close Dunbar's doors would be saying that relationships between students should not develop in this way.

Dunbar also presents students with a chance to get involved. At other schools, this chance is hampered by the fact that there are more students. The involvement in school benefits each person, and without these benefits, many students would not be ready for the outside world.

In summation, I feel that closing Dunbar would serve no other purpose but to hurt the entire community of Lubbock. The people who are trying to close Dunbar do not realize the changes that Lubbock would have to go through.

## Community Wide Meeting Set Here

A community-wide meeting for residents of the Coronado neighborhood will be held Wednesday, February 11, 1987, at 5:00 p. m. at the Mae Simmons Community Center. The topic of the meeting will be the Coronado neighborhood planning

## EHS Student Selected For International Tour

Robert H. Walker

Robert H. Walker, who resides at 2633 East Baylor, has been nominated for membership in the United States Collegiate Wind Band, a highly selective musical

organization which will make a three (3) week concert tour of Europe and England next summer in July. His parents are Mr. Windell and Mrs. Bessie Walker. He plays the baritone horn in the local Estacado High School Band, directed by Michael Roberts.

The invitation to tour with the United States Collegiate Wind Band came from Dr. Al G. Wright, Director of Bands Emeritus at Purdue University, Lafayette, Indiana because he recent selection for the All-Canadian "Hall of Fame of Outstanding High School Band Musicians."

The United States Collegiate Wind Band will perform a series of

concerts in a number of the world's most musically important cities, including Paris, London, Lugano, New York, and Brussels.

The group will assemble in New York for four days of intensive rehearsals prior to jetting off to Europe for the start of the tour. Distinguished Canadian and American conductors will direct the group. The band will be of full symphonic proportions numbering 92 musicians.

Acceptance for membership in this highly talented group of high school musicians is considered an important music honor of national significance.

Previous concerts played by the USCWB on tour have been received with critical acclaim by knowledgeable European audiences. Standing ovations were the rule rather than the exception.

In addition to performing the wind band members will visit Mozart's birthplace in Salzburg, Wagner's home in Lucern, Beethoven's house in Bonn and other musical shrines. The students will also attend selected concerts by world famous professional orchestras and bands in various concert halls in Europe and England.

A special account has been set up for those who are willing to contribute to the effort of Robert H. Walker as he and his family are making plans for him to participate on this tour. The cost is \$1,990.00. If you would like to contribute, then send your money to the following address as a special account has been set up in his behalf. Here is the address: Robert H. Walker, Special Account, First Federal Savings Bank of West Texas, 1300 Broadway Avenue, Lubbock, Texas 79401.

## Meet Patricia Martin: Museum Coordinator

Patricia Martin

Patricia Martin believes The Museum of Texas Tech University can be a valuable resource for the whole community.

And, after less than a year as The Museum's education-planetarium coordinator, she is planning exploration and planetarium clubs for youths of all ages and groups for singles. She is also studying how to increase participation by minorities, the elderly and handicapped.

"The Museum has tremendous potential to serve the community as the only institution of its kind in the area," said Martin. "The sky is the limit as far as The Museum's potential goes and I can do all the things I've always wanted to do in exercising my ideas."

Martin received a bachelor's degree in art education from Texas Southern University in her hometown of Houston in 1984 and master's in museum education from George Washington University in Washington, D. C. in 1985.

Before coming to The Museum, she worked in the cataloguing department at the Hirshhorn Museum and Sculpture Garden of the Smithsonian Institution in Washington, D. C., and

served as an education intern at the Smithsonian's National Museum of National History.

"I want to broaden The Museum's audience so that the entire community is served," Martin said. "Right now, our audience is limited and I want to develop a variety of programs so that everyone can take full advantage of The Museum."

One of those programs will be Explorium Clubs in conjunction with The Explorium, a discovery room which will be completed this year. Clubs for elementary, junior high and high school youths will take behind the scenes tours, hear lectures and seminars by museum curators and participate in outdoor activities.

Planetarium Clubs, for junior high and high school students interested in science and astronomy, will include workshops, lectures and actual star-gazing as well as viewing regular shows at Moody Planetarium.

Martin plans to start a program for Texas Tech students and other singles. Films, slide shows and lectures will be presented at group meetings which may be preceded or followed by social gatherings at local

restaurants or clubs.

She will also work to recruit and train more volunteers and write a volunteer handbook.

Museum Director Gary Edson said Martin was one of more than 20 candidates who applied for the position.

"Patricia is an

excellent example of the capable people entering the museum field," Edson said. "She brings to The Museum the energy and enthusiasm necessary for the diverse role of education-planetarium coordinator."

**Blacks Require Equality—Not A  
Congratulatory Democratic Smile!**

Democrats at the meeting of the National Democratic Committee were bubbling over with the thrill of victory after the recent election. Chairman Paul Kirk stepped to the podium and said, "It's a lot of fun to win. We've heard the end of realignment." Mr. Kirk stated that the Democrats fielded better qualified candidates than the Republicans.

Success for the victory was credited a great deal to the State Democratic chairpersons and their workers. Of course, Paul Kirk was given great credit for his efficient leadership in planning and overseeing the entire operation.

Besides the House and Senate victories, it was emphasized that Democrats made major gains in state legislatures. They will have 67 legislative chamber controls out of 99 in both houses of the states. Democratic state losses were limited to the Montana House and Nevada Senate. Many of the seats lost to the GOP in 1984 were recaptured this year with an increase of nearly 2100 Democratic legislative seats.

Emphasis was placed on the real meaning of the Democratic Senate control. Being the Senate Majority Leader and chairing important committees are powerful positions. Vice Chair Lynn Cutler said, "We're on our way and if each of us continues to dedicate time and energy to the Democratic Party and our common goals, we will see the changes we've been striving for become reality."

The Women's Democratic Caucus was jubilant over the election of the first woman Democratic Senator who ran for election in Barbara Mikulski of Maryland. The women stated that at the present rate of electing women to Congress it will take 410 years for it to have equal representation of women and men in that body.

Representative Mary Oaker addressing the women stated that Barbara Mikulski will add a breath of fresh air to the Senate. She spoke of Linda Chavez, the Republican candidate whom Mikulski defeated, as the person together with Clarence Pendleton who changed the Civil Rights Commission to an anti-Civil Rights Commission. She told how Chavez advocated the Justice Department's part in the Grove City case which was against women and minorities. Oaker said that taxpayers' money was used in research by the Civil Rights Commission to support the case. She stated that one of the first priorities of the 100th Congress will be to pass the Restoration Act.

Chairman Paul Kirk issued future predictions for Democrats as follows: In 1988 a Democrat will be elected president, the Senate and House Democrats will seize the initiative and request a meeting with the President to express their desire to work with him and offer bipartisan support, they will tackle the national deficit with a sane and humane approach, they will raise the American flag of competition and productivity in the global market, all Party organizations and presidential candidates will abide by the 1988 campaign code, the Democratic Party will not take Blacks and minorities for granted but will work harder to maintain their support.

Roland Burris, Vice Chairman read a resolution on the Black voters. He spoke of the loyalty of the Black voters to the Democratic Party, their overwhelming vote given the Party and the margin of victory they provided in the recent election. The resolution spoke of the National Committee's participation in Pleasant Grove, Alabama and Balloting Security Litigations. The resolution ended: "Be it resolved, that the Democratic National Committee pledges to put to rest once and for all any perception, real or imagined, that the DNC excludes any of its divergent support base, groups, or individuals from participation fully in the integral deliberations, commissions, or fund raising activities of the Democratic National Committee."

While there were a few Blacks in attendance at the National Committee's meeting, they were not in visible categories. When Paul Kirk was asked about it, he stated that they held certain positions. Whatever their positions, they were far less visible than the Whites. Sharon Dixon,

the treasurer is Black; there are other vice, and assistants. This reporter called Mr. Kirk's attention to the fact that Blacks have always supported White candidates, and what he was going to do was to get Whites to support Black candidates. Kirk's response was that he campaigned for Michael Espy and John Lewis. It was noted for him that Espy was from an overwhelmingly Black district and the Lewis choice was between two Black candidates.

Questioned about not inviting Jesse Jackson to a party for past and prospective presidential candidates, Mr. Kirk stated that it was a party for big fundraisers. Jackson's office said that Delores Tucker, one of his Rainbow Coalition's members, had raised more money than some of those who were at the party.

Jesse Jackson was at this DNC meeting and he contended for his fairness (one person, one vote) in voting stand. He did succeed in getting the Committee to reduce the Primary proportional representation from 20% to 15%. The Fairness commission was established because of the Rainbow Coalition's insistence in 1984. The scheme in lowering the representation from 20% to 15% was offset by adding more house members to the commission, which will in reality make the percentage about the same.

Blacks must require more than a congratulatory smile for their loyalty and support of the Democratic Party.

#### The Root of Our Troubles

The recent incidents of racial violence in New York and Georgia, where Blacks were harassed, beaten and killed, fundamentally have nothing to do with race at all. The root of this insanity goes much deeper than a mere layer of skin. It is couched in the insane and continuous compulsion to

suppress other people; any people.

Take away the easy identifier of race, and these anti-socials would find other people to attack. It wouldn't matter as long as they had some decent group upon which to spew their venom.

Best-selling author, L. Ron Hubbard, whose works I use continuously in my analyses of social events, has written much on this subject, and his words ring true. According to Mr. Hubbard, there are twelve specific characteristics and mental attitudes which cause about 20% of a race to compulsively seek to harm others. Just a few of these attributes give immediate insight into the type of thinking that led to the brutal racial events we have recently witnessed:

\* The anti-social personality habitually selects the wrong target. If a tire is flat from driving over nails, he or she curses a companion.

\* This type of personality approves only of destructive actions and fights against constructive or helpful action or activities.

\* Helping others is an activity which drives the anti-social personality nearly berserk. Activities, however, which destroy in the name of help are closely supported.

Such attitudes can be seen in the psychiatrist who promotes lobotomies for Blacks as a "cure" for ghetto rioting, or in the IRS agent who shuts down a multi-million dollar concern because of \$10,000 in back taxes, or in the Klansman who blames Blacks for everything from unemployment to poor garbage removal.

When the anti-social moves on a relatively small scale, we can have things like murders, rapes and senseless racial violence. When he moves on a large scale, we can have a Hitler blitzkrieging his way through Europe.

The way to stop such people is to expose and label them for what they are whenever they surface. Truth be known, they are the enemy of all decent people, and once identified, will be

## OUR GIANTS SPEAK

### The Promise of Industrial Education

*These are excerpts from a 1897 address entitled "The Limitless Possibilities of the Negro Race" delivered by Charles W. Anderson at the Tennessee Centennial Exposition in Nashville, Tennessee. Anderson was the most prominent Black New York Republican of his day.*

I sometimes feel that we, as a race, do not fully appreciate the importance of industrial education. I feel that the day is near at hand when the physical apparatus of civil education will play a larger part in the progress of the world than it has hitherto done. In other words, I firmly believe that the industrial victories are in the future and not in the past. We have done much and wrought many miracles, but the miracles are but evidences of possible powers rather than the high-tide marks of development. In my mind the possibilities of physical and scientific achievement are limitless, and beyond the compass of human conception. Look at iron alone. See what has been done with it in the last fifty years. See what you are able to do with it here in Tennessee. From it are made things dainty and things dangerous, carriages and cannon, spatula and spade, sword and pen, wheel, axle and rail, as well as screw, file, and saw. It is bound around the hull of ships and lifted into tower and steeple. It is drawn into wire, coiled into springs, woven into gauze, twisted into rope, and sharpened into needles. It is stretched into a web, finer by comparison than the gossamer of the morning along the bed of the ocean, and made to tick out the yesterday of Europe on the to-day of America. All of this variety of use has been made out of the stubbornness of metals by the sovereign touch of industrial and scientific education. There is inexhaustible promise in this development. It has brought, and is still bringing, the two great races closer together. These iron veins and arteries which interlock our cities and confederate our States do much to familiarize each race with the hopes and aspirations of the other, and to weave their histories into one harmonious contour, as telegraphic messages fly instantaneously across them, and screaming trains rush back and forth like shuttles upon a mighty loom. When our fullest expectations shall have been fulfilled, both races will have the freest opportunity for the development of their varied capabilities, and, through mutual bonds of interest and affection and mutual bonds of sympathy and purpose, will rise the unmatched harmonies of a united people to the imperial accompaniment of two mighty oceans.

It is a peculiar fact that immediately after the abolition of human slavery the country started upon an unparalleled career of prosperity. The West, then almost unexplored, began to develop, and has continued to do so until now it is studded with proud cities, teeming with throbbing life, growing like the grass of the prairies in spring-time, advancing like the steam-engine, baffling distance like the telegraph, and spreading the pulsations of their mighty hearts to the uttermost parts of the world. There they stand with their echoing marts of trade, their stately spires of worship and their magnificent institutions of learning, as free as the encircling air, as independent as the soaring eagle, and more powerful than the Roman Empire when in the plenitude of her power. All of this has been accomplished since the energies of men were unfettered. Thus it may be said that both races started almost simultaneously on their careers to fulfill the destiny of this great country among the countries of the world. And as we started together substantially, we must end together. We started with most unequal equipment, to be sure, and under conditions as far apart as the sky from this pavilion, but we have marched to the same music and in the same direction ever since, with varying fortunes and unequal steps, but with no steps backward, until today we are able to recognize in each other and be recognized by all mankind as equals in our attachment to the land, the laws, the institutions, and the flag of our common country.

shunned by most.

Most importantly, however, we have to realize that anti-social characteristics have nothing to do with race. Black or white, male or

female, the anti-social personality is hard to work, denying freedom, causing terror, and dragging good character through the mud.

### View from Capitol Hill: Marching to Put Out Rekindled Racist Fires

by U.S. Rep. Gus Savage

It appears that nearly twenty years after the death of Dr. Martin Luther King, we are still marching for civil rights. Reportedly, more than 20,000 people marched in Georgia a week ago Saturday, January 24th. At least half of them were white, many from such Northern bastions of racial segregation and discrimination as New York and Chicago and their mostly white suburbs.

However, Cumming, Georgia is still white, hostile and racist today. As is Howard Beach, New York; and as is Phoenix, Arizona; Tampa, Florida; Boston, Massachusetts; Chicago, Illinois and as is Capetown, South Africa.

Among the demonstrators for racial justice were white hypocrites who opposed contract set-asides, and affirmative hiring and promotion, admission quotas and compensatory benefits, equal political representation, and economic power for Blacks.

Moreover, no doubt there were among the demonstrators, Blacks who don't vote or campaign for Black empowerment, who seek the right to be white, who left a white university of their choice to visit Atlanta, the capitol of Black universities, for one day's protest.

Nonetheless it was good that they, white and Black, demonstrated in Georgia — a far more constructive activity than what most of us usually do on a weekend. It was good that they were there.

I only raise the questions that I have, because in many ways

Blacks are worse off now than when Dr. King led the march from Selma to Montgomery, Alabama. The proportion of unemployment among Blacks as compared to whites is higher now. The median family income of Blacks as compared to whites is lower now. You know, it's almost like the comment in "Alice in Wonderland" that sometimes it seems "the faster we run, the behinder we get."

Yes, it was good that they demonstrated in Georgia. We need to be on the march again. If only those protestors came to Chicago, where the Democratic National Committee refused to endorse incumbent Black Mayor Harold Washington before the party's primary. If only those protestors came to Phoenix, where Arizona Governor Evan Mecham rescinded that states observance of Dr. Martin Luther King's birthday.

If only those protestors came to Boston, where scores of racist white baseball fans beat up innocent Black citizens following that city's loss in the World Series. If only they had come to Tampa, where white Florida state police officers beat and kicked young Black pitching sensation, Dwight Gooden, while he was handcuffed.

Yes, we do indeed need to be on the march again. The conservative climate fostered by the Reagan administration and its discriminatory policies has allowed the seeds of racism that prevailed twenty years ago to flourish once more. But, more about that next week.

**BLACK POETRY**

**Say NO To Drugs!**

(Inspired by the tragic death of Len Bias)

A brain-child of life, made of beautiful things 'n' stuff  
A gold-nugget of pride—a rare diamond in the rough.

And there ain't no need to sleep and wake up dead  
When there's so much more to live for instead.

So...Just say NO!

Say no to drugs, say no to dope  
Say yes to life, say yes to hope  
Say no to the same old bad news  
Say no to deadly drugs and booze.

Just Say NO!  
Say NO to Drugs

When you know who you are, you can fulfill  
that inner need  
Without Coke or Crack, Wacky-weed, or speed.

When you take the time to really stop and think:  
A lack of self love may be the missing link.

So...Just Say NO!

Say no to drugs, say no to dope  
Say yes to life, say yes to hope  
Say no to the same old bad news  
Say no to deadly drugs and booze.

Just Say NO!  
Say NO to Drugs.

**Quick & Easy Meals**

by Mildred B. Griggs, Ed.D.

So often it's a difficult task to get children and some adults to eat vegetables.

This week's recipes feature 3 taste-tempting vegetable side dishes. They just might help convince your family to eat and enjoy a variety of vegetables. The first of the three recipes is Green Bean Casserole. It's a delicious dish, that takes very little time to prepare and is excellent with beef, pork, or poultry. The second recipe is Apple-Glazed carrots. This recipe is sure to be a hit with kids, and carrots are an important source of vitamin A. Last, but not least, is Spinach-Cheese Bake, another great tasting vegetable recipe. Nutritionally, spinach provides vitamin A and C, iron, B-vitamins and minerals. You will certainly want to try all three of the recipes, not only for the excellent taste, but also to provide your family with vitamin rich foods.

Until then, good cooking.

### A Feeling Of Inadequacy

There is a tale told of two cows who were grazing in a pasture. Both cows looked up just as a milk truck was passing along the highway. Painted on the sides of the truck were slogans advertising the quality of its contents: "Pasteurized." "Rich in Vitamin D." Nature's most perfect food." As the truck vanished from the cows sight, one cow turned to the other and said, "It makes you feel down right inadequate, doesn't it?"

When we look at our world today, we can see how inadequate we are in meeting life's demands. This great nation of ours with its two carrier battle groups and a Marine force of 3,800 men off the coast of Lebanon as a show of force, toys with the feeling of inadequacy in dealing with the pro-Iranian kidnapers.

The true is, we are inadequate in life when it comes to being able to take care of ourselves. God knows this far better than we do because He has seen so many generations of people forget Him and try to do things by themselves.

As a Christian nation we should know that we have someone adequate to meet life's demands. That very special person is Jesus. Let us turn to Him in prayer.

### We Thank God For Jesus

"Lord, I'm A Christian;  
Why Am I Suffering?"

**Job 1:7-8** -- The Lord said unto satan, whence comest thou? The satan answered the Lord, and said, from going to and fro in the earth, and from walking up and down in it: And the Lord said unto satan, hast thou considered my servant.

Lord, I have this cancer, and it's malignant you know, but I'm such a good Christian, and it shouldn't be so.

**John 11:4** -- Jesus said, this sickness is not unto death, but for the glory of God that the son of God might be glorified thereby.

Lord, I've praised your name and preached the good news, but now I'm down and out now, I feel I've been used!

**Job 10:1-2** -- My soul is weary of my life; I will leave my complaint upon myself; I will speak in the bitterness of my soul. I will say unto God, do not condemn me; shew me wherefore thou contendest with me.

Lord, I've been a good Christian, and my friends will speak for me. I've done no wrong, and this disease shouldn't be.

**Job 7:2-7** -- As a servant earnestly desireth the shadow, and as an hired looked for the reward of his work; so am I made to possess months of vanity, and wearisome nights are appointed to me. When I lie down, I say, when shall I arise, and the night be gone? And I am full of tossings to and fro unto the dawning of the day. My flesh is clothed with worms and clods of dust; my skin is broken, and become loathsome. My days are swifter than a weaver's shuttle, and are spent without hope. O' remember that my life is wind: mine eye shall no more see good.

Lord, is this my rewards; for all my good works??? O' Lord, please answer me!! Oh how my pain hurts.

**Psalms 88:1-3** -- O Lord, God of my salvation, I have cried day and night before thee: Let my prayer come before thee; incline thine ear unto my cry; for my soul is full of troubles, and my life draweth nigh unto the grave.

**II Corinthians 12:9** -- Jesus said, my grace is sufficient for thee; for my strength is made perfect in weakness.

**Job 5:17-18** -- Behold, happy is the man whom God correcteth; therefore despise not thou the chastening of the almighty; for he maketh sore, and bindeth up; he woundeth, and his hands make whole.

**Psalms 20:6** -- Now know I that the Lord saveth his anointed, he will hear him from his holy heaven with the saving strength of his right hand.

**Phillippians 4:13** -- I can do all things through Christ which strengtheneth me. Brothers and Sisters in Christ, that suppose to believe in him where is your faith? Don't be like Mary & Martha, they angered Jesus spirit saying they believed in him. Then said "If" you can. We're suppose to praise God no matter what the case may be, trusting lby faith. "I'm" already healed, by his stripes it is done. AAAMNNNN. God is not through with us yet. Let's pray for one another always.

### The Outreach Prayer Breakfast

Members of the Outreach Prayer Breakfast met last Saturday morning in the lovely home of Sister Mary Ward. What a morning! The Holy Scripture was welcomed in the meeting, and this made a difference. The president opened the meeting with testimonies, songs and prayers from all present, with a two minute presentation each. Sister Johnson kept watch on the clock. The morning was beautiful. The breakfast hours are from 9 a. m. to 10:30 a. m.

The morning scripture was introduced by Sister Ruby Johnson. The scripture was Hebrews 11:1, and emphasizes was placed on it by Sister Burleson and others.

Now faith is the substance of things hoped for. The evidence of things not seen.

This is a favorite scripture for many of us. If there's anything you can do for the uplifting of the name of Jesus, do it today!

Thought for the week: "Religion is man's way of doing things, and

dedicated person with a high school education can teach this method. It is taught on a one to one basis, 1 to 2 hours each week.

If you would like to participate, then call either 741-0000 or 745-8679.

"Money speaks sense in a language all nations understand." Aphra Behn

Christianity is God's way of doing things." Think about it!

Breakfast was prepared and served by Sister Mary Ward. This lady is really special.

Our sick and shut in list includes the following: Sister R. Sadler, Brother & Sister Bernie Whitfield, Sister Wanda McCarty, Mr. & Mrs. Brown, and Mr. James E. Lacy of Fresno, California.

We're sure there are many more not listed. Remember, you can make it!

"Let's Pray"

God of mercy, behold your people today. Strayed families, rebellious children, dope addicts, men and women lovers of themselves, cults, and others who are victims of the enemy. Release your healing power. We bound satan. The author of all sin of the mind, soul and spirit. We demand in the name of Jesus Christ of Nazareth that you release these people in Jesus' name. We pray. AMEN, AMEN!

If we have brightened your day or lifted your spirit in any way, give us a

call or write. The address is: Outreach Prayer Breakfast, P. O. Box 1223, Lubbock, Texas 79408. We continue to walk by faith, and not by sight. Keep the Prayer Tower before God. Keep smiling, lovely people. It's working for all of us. Do you think any good can come out of Nazareth? Come by Sister Hattie Henry's home, 3609 East 14th Street, this Saturday morning at 9 a. m. Donations for the

Juanita Sowell Memorial Fund: Sister C. Burleson, \$15.00; Sister Ward and Son, \$6.00; and Brother Earl Wheeler, \$40.00.

Thank you so very much. God loves you,

#### III. THE REMEDY FOR MAN'S FALL.

##### A. Pictured In Old Testament Types.

- Coats of skin from slain animals. Gen. 3:21
- The stalling of the flock. Gen. 4:4
- The Passover Lamb. Ex. 12:3-13
- The Day of Atonement. Lev. 16

##### B. Provided In The Lord Jesus Christ.

- Christ the Lamb of God. John 1:29
- He is to be received and believed. John 1:12-13
- His work on the cross meets the sinner's need. John 3:14-15; Rom. 6:23; Heb. 10:1-18

We believe (a) that man was created in innocence under the law of his Maker, but (b) by voluntary transgression fell from his sinless and happy state, (c) in consequence of which, all mankind are now sinners, not by constraint, but of choice; and (d) therefore under just condemnation without defense or excuse.

\*\*\* (a) Gen. 3:1-6, 24. "When the woman saw that the tree was good for food, and that it was pleasant to the eyes, and a tree to be desired to make one wise, she took of the fruit thereof, and did eat, and gave also unto her husband with her; and he did eat. So he (the Lord God) drove out the man; and he placed at the east of the Garden of Eden cherubims, and a flaming sword which turned every way, to keep the way of the tree of life."

\*\*\* (b) Rom. 5:12. "Wherefore, as by one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned."

Rom. 5:19. "By one man's disobedience many were made sinners."

\*\*\* (c) Rom. 3:10-19. "As it is written, There is none righteous, no, not one, There is none that understandeth, there is none that seeketh after God. They are all gone out of the way, they are together become unprofitable; there is none that doeth good, no, not one. Their throat is an open sepulchre; with their tongues they have used deceit; the poison of asps is under their lips; whose mouth is full of cursing and bitterness: Their feet are swift to shed blood; destruction and misery are in their ways; and the way of peace have they not known: There is no fear of God before their eyes. Now we know that what things soever the law saith, it saith to them who are under the law; that every mouth may be stopped, and all the world may become guilty before God."

Eph. 2:1,3. "And you hath he quickened, who were dead in trespasses and sins; Among whom also we all had our conversation in times past in the lusts of the flesh, fulfilling the desires of the flesh and of the mind; and were by nature the children of wrath, even as others."

Rom. 1:18. "For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of man, who hold the truth in unrighteousness."

Ezek. 18:19-20. "Yet ye say, Why doth not the son bear the iniquity of the father? The soul that sinneth, it shall die. The son shall not bear the iniquity of the father, neither shall the father bear the iniquity of the son: the righteousness of the righteous shall be upon him, and the wickedness of the wicked shall be upon him."

\*\*\* (d) Rom. 1:32. "Knowing the judgment of God, that they which commit such things are worthy of death, not only do the same, but have pleasure in them that do them."

Rom. 1:20. "So they are without excuse."

Rom. 1:29. "They did not like to retain God in their knowledge."

Gal. 3:22. "But the scripture hath concluded all under sin, that the promise by faith of Jesus Christ might be given to them that believe."

### Pointers For Do-It-Yourself Painters

Here are seven bright ideas to help you do yourself proud next time you paint:

Use slow even strokes to spread paint on the wall. Do not remove the roller from the surface when spreading paint from the zigzag to the other areas.

- Always look at paint-chip samples in the room you'll be painting, under both daylight and night lighting.
- If you use a brush, be sure the bristles are split at the ends to hold more paint and spread it more evenly.
- If you use a roller, look for one with beveled ends to reduce trail marks and to give a smoother finish. Synthetic fabric's work best.
- Start painting with the ceiling. Use a 2-inch brush to paint a stripe where ceiling and walls meet, then use a roller in the center.
- Always paint from unpainted area into painted area.
- When buying an exterior paint, look for one that's spatter free and tolerant of rapid temperature drops. It should also be stain and leach resistant, water and mildew resistant, quick drying, easy to clean, non-toxic, fire safe and has low odor, such as the new Weather King II from Fuller-O'Brien Paints.
- When buying an interior paint, consider the surface being painted. Choose latex (water-based) paint for high-alkali surfaces, such as fresh cement, and for soap-and-water cleanup, low odor, and quick drying. Choose alkyl oil-based paint for abrasion resistance and exceptional endurance.

## Numerology & Meditation

Part II of Four Parts

### MEDITATION UNDER THE NUMBER 1:

Visualize a oneness of purpose. Realize that the oneness of God is part of the divine scheme of things. See yourself setting goals, being in control, making decisions, in charge of your life. Visualize upon things new that you'd wish to do. See yourself in action, whatever or wherever it may be. Set no limitations in your mind. Have strong mental vision, a positive approach to life, and you're sure to reach your goals.

### MEDITATION UNDER THE NUMBER 2:

Think of yourself in partnership with the universal mind and spirit. Think of yourself as a reflection for others to see their way in the dark of life. Giving and sharing warms the coldest of hearts of those coming into your influence. You want to establish harmony, beauty and above all, love. Patience is best exercised as it generally proves to be a blessing in disguise. Be open, receptive to what is being offered. Be sympathetic to those in need, or who do not know the way.

### MEDITATION UNDER THE NUMBER 3:

Visualize the best part of yourself... that part of you that's underneath. Visualize youth and vitality all around you. Recall those wonderful experiences of your youth, that time in your life of carefree moments. Think positive, think big—and the results will be. See yourself ALIVE.

Next week, we'll look at the numbers from 4 to 6.

R-136, Lincoln Station, New York, N.Y. 10037.

### ARIES—March 21-April 20

An excellent week to slow down without any negative consequences. Saturday and Sunday offers an opportunity for self-discovery and re-establishing past contacts. Monday and Tuesday astrologically finds your lunar aspect squared to Venus, causing minor resistance in relationships. Take heed. 689.

### TAURUS—April 21-May 20

If a week had to be planned for an exceptional opportunity for doing exceptional things, this is certainly it! The 4th, 5th, 6th as well as the 9th and 10th are the dates to take special note of. It's as if you have no excuse for failing whatsoever...just that simple! 590.

### GEMINI—May 21-June 20

You have one of those interesting kind of weeks that are absolutely free of any cosmic stress. On the reverse side are extremely favorable aspects for both Friday and Saturday, related to past discoveries, as well as a possible boost in your financial picture. 423.

### CANCER—June 21-July 21

Like your Taurus counterpart, you have one of the best cosmic forecasts for this week. It starts off favorable and mild, and the cosmic rays will only further increase with the coming days—especially the 4th, 5th, 6th, 9th and 10th. 168.

### LEO—July 22-August 20

The 4th to the 6th of February may find your activities somewhat in a slump. As a result, don't expect too much from anyone or anything. Both Saturday and Sunday should be much more productive compared with the last several days. 914.

### VIRGO—August 21-September 21

With the exception of Saturday and Sunday, which could lead to misunderstandings and hard feelings, the balance of this cosmic period is fortunately favorable in the way of family and travel plans as well as making inroads on the job. 850.

### LIBRA—September 22-October 20

Compared with the last several days of stressful conditions, the days ahead are rather mild. The 7th and 8th are the only bright spots in the entire cosmic week. Next Monday and Tuesday has to be approached with tact and diplomacy to make the most of the situation. 458.

### SCORPIO—October 21-November 21

If it feels like some of your plans have been blown out of the water, it's not just your imagination. Cosmically, dark and menacing clouds are overhead right now. However, your weekend is free to allow you some well-deserved "R & R". Monday and Tuesday, the 9th and 10th, are the only breaks you really have. 831.

### SAGITTARIUS—November 22-December 21

This week is without any cosmic markings except for two dates in particular—beware on Saturday and Sunday, the 7th and 8th. They probably will be extremely stressful. But over and above that, the week is pretty much what you make it. 794.

### CAPRICORN—December 22-January 20

This week is almost a repeat of the last one, but toned down just a bit. The big exception, however is next Monday and Tuesday. These two days are marked as extremely stressful and unfavorable for anything important. 870.

### AQUARIUS—January 21-February 20

Wednesday through Friday will certainly put a break on things and therefore your activities may have to anticipate some adjustments or unexpected delays. By the weekend, cosmically speaking, you should be in much better shape. 617.

### PISCES—February 20-March 20

In this week you will probably have only five days that are favorable—Wednesday through Friday, followed by next Monday and Tuesday. So use those days to get things accomplished—and then rest on Saturday and Sunday. 852.
