### Sales Lagging On TB Seals

Sale of Christmas seals here still is lagging far behind 1947 figures, the Howard County Tuberculosis Association reported this morning. Today's tabulation amounted to \$795.60, as compared to \$897.27 for the same date last year.

Association officials were encouraged, however, by response from some communities.

For example, one purchase which was made yesterday will be remembered for a long time by the association, Mrs. Louise Horton, secretary, said. The purchase was made by William Crow, 11-yearold son of Mr. and Mrs. O. R. Crow of Luther. Sometime earlier Wilmas seals, electing that method as one in which he could best aid other people and help make their Christmas enjoyable. To fulfill his pledge, William worked diligently in the cotton harvest to earn money to purcahse seals. His efforts may help win a prize in a contest he entered recently.

#### **Final Arguments** Set In Gas Suit

AUSTIN, Dec. 2. UB - Presentation of evidence was completed today in a trial of the Heyser field flare gas suit in which oil operators seek a permanent injunction against a Railroad Commission shutdown order.

Final argument of the case in 98th District Court was scheduled to start at 2 o'clock this afternoon.

Strike Nears End

### ONE OF LARGEST EVER FORMED

## Santa Claus' Arrival Will Christmas Parade

Big Spring now awaits only the arrival of Santa of Big Spring High school. Claus to complete preparations for the big parade and treasure hunt, and St. Nicholas himself has guaranteed that he will be on hand by 4 p. m. Friday, starting time for the annual Christmas season

The parade definitely will be one of the largest ever formed here for such an occasion, the chamber of commerce reported this morning. Advance entries included 33 from schools, clubs and civic organizations, and more than a dozen in the comercial division. The non-commercial entries will compete for prizes which will be awarded to the first three places in three classes.

Today, markers designating the parade route are being distributed to downtown merchants. The procession will pass along most streets in the main business district, and spectators will be able to align themselves on the proper streets without confusion after the markers are distributed. The markers will be displayed in store windows along

In addition to the regular floats, four bands will participate in the parade. They will include the high school bands from Coahoma and Colorado City, and both the junior and senior bands

Santa Claus will have a feature role in ceremonies which will launch the annual treasure hunt hunt as well as in the parade. A record number of local merchants, some 152, will participate in the treasure hunt event, which will begin east of the court house immediately after the parade The Community Christmas tree is all adorned

with hundreds of lights, Nat Shick announced today, and will be turned on Friday evening. Shick, who has supervised the tree decoration since the custom started more than a decade ago, was assisted this year by Johnny Garrison, who helped him on the first tree decoration. Non-commercial parade entries are as follows:

High Heel Slipper club, Eager Beavers club, Rainbow Girls, Howard County Vocational School, 4-H clubs, Lions Auxiliary, the Jaycees, the Junior Patrol, Lomax school, Lions club, Cub Pack No 29. Scout Troop No. 4, American Business club, Senior Girl Scouts, American Legion, Coahoma school, RA's of East Fourth Baptist, Sub Deb club, Garden club, B&PW club, Future Farmers, Beta Sigma Phi, Lakeview school, Col-

> Because Piraeus became an important port for international trade ing forces.

During World War II, the Balkan port was bombed by Italian, German, British and American aircraft. The greatest damage was inflicted, however, by demolition squads of the retreating German army in Oct. 1944.

After the liberation, the British built bridges over some of the craters, temporarily repairin- part of the wall. The burden of rectifying the war

damage, however, fell upon the American mission in August, 1947. Last September American engineers began to remor the debris. Wreckage surveys were taken by six American divers. Storage buildings were erected. Temporary dock facilities were constructed for unloading construction equipment imported from the United States. Actual construction of the quay wall began in November. Soon after engineers began repair of the breakwater and two drydocks.

Piraeus reconstruction is being carried on with funds allocated by the American mission. It is estimated the total cost will approximate \$5,260,000.

Dredging will open the harbor, which before 1941 had handled as much traffic as Marseille, France, to large seagoing vessels. The channel will be seven to nine feet shallower than the harbor at New

## Reorganization Of Executive Branch Of Government Needed

proved the recommendations of a comission, headed by Former President Herbert Hoover, for reorganization of the executive branch of the federal government.

No concrete analysis of the proposal has yet been presented, although statements to the press indicate that the exlsting agencies would be made responsible, by regrouping, to the departments represented by cabinet positions, and that possibly a 10th department would be set up to represent central services which would not fit logically into existing departments. Another interpretation is that administration would be broken down under six major functions.

Doubtless, this vagueness comes from lack of understanding of the plan, for to possess merit sufficient for support, it to get gored.

The President is reported to have ap- must first of all be clear. Otherwise, it

No one denies that the executive branch of the government is in dire need of overhauling. There are terrific overlappings of authority and jurisdiction; there are confusing and conflicting lines of responsibility, and some time lack of responsbility. The product is inefficiency

would save \$3 billion per year. This is a rather rosy hope, but it is an where near correct, we may expect a mighty hue and cry to arise when the proposal comes up for action. In cutting away billions of deadwood, somebody's ox is bound

### Average Person Owes A Debt To Objective News Supplies

Although the name of Frank B. Noyes is not familiar to most people outside of the newspaper profession this far removed from Washington, D. C., everyone who reads and listens to the news owes him

Mr. Noyes, who has died after 60 years active service as a newspaperman, those who breathed life into the great news gathering agency, Mr. Noyes gave it his time and talent as an official for

The confidence and support which greeted this cooperative effort to get at the news of the nation and the world swelled the Associated Press into a great and mighty institution. This, within itself,

ciples upon which Noyes and others staked

Thus, the average person who may never have heard of Mr. Noyes and of the others who pioneered in this field are indebted for a news service that stresses continuously a complete, accurate and unbiased flow of the happenings of the day. The AP has not only become a modern miracle, but a virtually indespensible part of our lives. The founders, like Mr. Noyes, never expected any reward from it except that it would lead the people to such an appreciation for objective news that they would never permit it to be prostituted or withdrawn.

#### Affairs Of The World - DeWitt MacKenzie

### There's Nothing To Compare With Huge West Europe Fog

WESTERN EUROPE'S TERRIFIC FOG (I refer to nature's phenomenon and not to the international situation) gives us a chance to slip away in the murk for a rest from the war of the isms which contin-

ues to run true to form. This fog has assumed proportions approaching catastrophe. It has reached from the Baltic down to Portugal and in places has taken on the fearsome character of a London pea-souper. There has been wholesale stoppage of shipping, aerial transportation and motor traffic. Even the famed Berlin airlift, which is the lifeline for the western part of the German capital, had to cease operations. The monetary loss all told is colossal.

YOU NEVER HAVE SEEN A FOG UNtil you encounter one of London's pea soup variety. It's brutal. It gets so thick you can't see your hand in front of your face. Vehicular traffic pulls up to the curb and stays there until the fog lightens. Motorists sleep in their cars.

The only people who can move about on foot are the blind, who are used to

perpetual darkness. A friend of mine in London who got lost in a fog encountered a blind man who led him a mile home.

Appropos of the blind, an American I knew in London had a peculiar experience. He got caught in a medium pea-souper when he was in his cups. He was carrying a cane, and as he moved slowly along the virtually deserted sidewalk he was tapping the concrete with his stick. Suddenly he heard an echoing tap.

OUR YANK, BEING IN A PECULIAR mood, figured somebody was trying to imitate him and he got mad. So when the two met, the irate one landed a haymaker was a rattling of coins and a tin cup on the sidewalk. The man who was down was a blind beggar. Happily no damage was done and the aggressor made full amends

in terms of cash. Protracted fogs, like the current plague, are hard to endure. They make eyes smart and heads ache. After a day or two you develop stomach pains which last until the fog lifts. Throats and lungs get raw.

"He just wants to get friendly with you

and get you to feel friendly toward him.

### Madame Chiang Kai-Shek Victim Of A Difficult Chinese Circle

"I'D LIKE TO GET YOU ON A SLOW BOAT TO CHINA"

WASHINGTON - Madame Chiang Kai-Shek, now 56 but still beautiful, is the victim of a difficult Chinese circle.

In China she is unpopular because she is considered too pro-American. Yet she remained powerful because she was able to wangle munitions from the U.S.A. When American munitions were found in the hands of the Japanese and later the Communists, however, the flow stopped, and with this stoppage Madame Chiang's popularity dropped-in both the United States and China.

Today she is embarked on a frantic, hopeless mission to woo back the Chinese supply line. Her only asset in this jobbying battle is charm. Of this she has ample, though her effectiveness has been tarnished by tales of high-handedness and extravagance during previous trips to the U. S. A.

The American public has heard, among other things, about the rudeness of her official family when entertained in the White House during the latter years of the Roosevelt regime. At that time Madame Chiang's niece, Miss Kung, objected to the sheets, picked up the telephone and tried to call Cordell Hull to

lodge a personal complaint. There was also Madame Chiang's mysterious flight to Brazil toward the end of the war, allegedly to cache some jewelry, plus the lavish way she lived in New York hotels while pleading for money for starving China.

All these have dimmed somewhat the American people's once great enthusiasm for the Wellesley graduate who married the president of China.

TROUBLES IN CHINA If Madame Chiang has had her troubles in the United States. however, they are nothing compared to her troubles in China. In the first place she is younger than a brilliant and important sister and brother. And in China the youngest is supposed to rank

The fact that marriage to the president of China elevates the former Mayling Soong to be the first lady of the land does not at all help her position with the rest of the family. In fact it rankles.

Madame Chiang and her brother, T. V. Soong, are scarcely on speaking terms. Both were in Washington during one important period of the war, but hardly exchanged a word together. Once the Chinese ambassador had to remain at his home to take a phone call from Madame Chiang. which caused him to be late for dinner at the home of her brother. Whereupon he was kept waiting a full hour and a half in an antercom until all other guests

had finished eating. Mayling's older sister is married to Dr. H. H. Kung, former minister of finance, and one of the wealthiest men in China. While the Chinese have starved, he has kept his millions.

Another sister, Madame Sun Yat-Sen, is the widow of Dr. Sun Yat-Sen, founder of the Chinese republic. Though now considered the Martha Washington of China, it is no secret that Madame Sun is openly sympathetic to the so-called Communist armies which her brother-in-law is fighting. Also no secret is Madame Sun's romance with a former American Army officer, Gerald Tannenbaum of Baltimore. No love is lost between Ma-

dame Chiang and Madame Sun. The former supports her husband's right-wing labor association while Madame Sun, long the champion of Chinese guerrillas and coolies, has appealed to American labor leaders to sup-

port China's left-wing CIO. CHILDLESS MAYLING One tragedy of Madame Chiang's life is that she is childless. As long as she bears the generalissimo no progeny, popular sentiment is with him when he goes to another wife. Madame Chiang is wife No. 3, and for a time her husband went back to wife No. 2 That was one reason why she came to the U.S. A. during

The Chinese war lords, who frequently call the tunes for the generalissimo, have tolerated Mayling partly because of her friendships in Washington. As long as she delivered munitions, she stood well with them.

But even before Gen. Marshall went to China as special U. S. ambassador, we had come to realize that U. S. arms, badly needed at the European front, were finding their way into Japanese hands

Many Chinese war lords, having graduated from the Japanese West Point, had much in common with the Japs, saw no percentage in fighting them Gen Marshall last week revealed to friends that the allied front against Italy was delayed six months because of the airplanes he diverted to China in wartime.

U. S. ARMS DISAPPEAR Today the same thing is happening - except that American arms now go to the Communists, not the Japs.

Secretary Marshall's official figure for U.S. arms sold or surrendered by Chiang Kai-Shek's armies to the Communists in the last three months are: Three complete arsenals, 14,000

## Citizens Can Offer Lasting Help To Beggars In The Area

"Brother can you spare some change ployment commission. to help a fellow who's down and out the Christmas."

I have lost count of the times that I've heard that query as I've been walking down town these last few weeks. The matter causes me concern. I want to help my fellow-man in every way I can, not only at Christmastime but anytime.

However, I've always had a feeling similar to that of our national leaders on the Chinese crisis when somebody approaches me on the street for a little help. I feel like, maybe I'm pouring money down a rathole. What I'd like to do is assist those in need to find a permanent niche where they can gain security and self respect. It seems to me that I'm just delaying any help I might give such a person with a small donation.

Checking up I found that there are three groups which I help support here in town that can give indigent people some lasting aid and, in many, many cases, emergency aid to raise people on their feet for the former.

I refer to the combined offices of the Howard County and State Welfare boards; the Salvation Army; and the Texas Em-

Says Mary L. Cantrell of the Howard Welfare board, "we stand ready to aid all who are in desperate straits at any time. Ruth Jeffers, the State Rehabilitation board's field representative is here to help anyone, no matter how handicapped. to find a job where they can support them-

"Those who are begging on the streets are there because they don't know about our service, or by their own choice. The best thing citizens can do when they are asked for money is to send them to

The social worker asserted that there are many emergency cases that are flooded with gifts while others go unattended. The board is glad to serve as a clearing house for Sunday school classes and service organizations to see that all the needy have a chance to make their plight known.

If there is someone who is hardy and looking for work, the Texas Employment commission will be glad to help them, according to J. C. Daugherity, local claims adjustor.

There are over 18,000 jobs open in Texas, according to the last TEC report. -ADRIAN VAUGHAN

### Dogs Now Legally Partake Of Many Rights Of Humans

For HAL BOYLE

NEW YORK, M-THERE ARE THOSE who say dogs came to their present position in society through hand-licking

This is a wicked lie. The literature of dogs is loaded with actions of courage and loyalty, and history proves them closer to man than any other animal.

Dogs give him companionship and devotion. They wear their hearts in their eyes. They accept constant neglect without recrimination.

I wish I could explain how dogs got that way. . .

ONCE I KNEW A RED TERRIER WHO followed his master into suicide. He jumped off a building. There was a setter whose heart broke, and he died, when the man who owned him never came home from a duck hunt. Every hear of a cow grieving to death?

Five years ago in Sicily a dog named Chips, a mongrel in the Army's K-9 corps, won a Silver Star by capturing an enemy machingun nest. He leaped for the gunner's throat, and the gunner, suddenly

rendered. Three others threw up their hands. A general recommended Chips for the Distinguished Service Cross.

After that, the War Department said medals couldn't be given to dogs. But Chips got his. They riveted it to his collar, Later, when eight other K-9s were killed in the Southwest Pacific, the Army posthumously awarded them certificates "for outstanding performance of duty."

HAVING RISEN FROM THE STATUS of a beast of the field, without any rights, dogs now legally partake of many of the rights of humans.

They can be brought into some courts and tried as criminals, as in the recent case of a dog named Scout, who was tried, convicted and executed for biting

There are no federal laws affecting dogs in the United States, but most states have passed specific laws for their protection. Mistreatment of dogs everywhere is punishable by imprisonment and fines. Only recently a man in New York was sent to jail for 180 days for torturing a dog.

#### Matter Of Fact — Joseph And Stewart Alsop

### First Priority By Russia Atomic Bomb Project Given

WASHINGTON-The move to use the Secretaryship of Defense as a political plum can be judged only in terms of the central unpleasant fact of our time. Before very long, the Soviet Union may be halfway down the hard road to producing a people's democratic atomic bomb. Six to fifteen years was the period originally allotted. And "sometime in 1952" is-

still the deadline after which the most conservative American experts say we must be ready for the Kremlin's Bikini. This is because one fact stands out from the conflicting evidence concerning the Soviet atomic energy project. The project has absolute first priority. It is under the personal direction of Marshal Beria, the dread police chief of the Soviet empire. And whether Swiss machinery must be dearly bought with foreign exchange, or ten thousand slave labors

are needed the next morning. Marshall

Beria has only to sign the order. This does not mean, of course, that ordinary but costly mistakes, or the inevitable cumbersomeness of the Soviet system, may not delay the project far beyond the accepted deadline. Much time has already been lost by the Kremlin, Even the greatest of Soviet physicists. Kapitza, was prevented from exploring nuclear fission during the war. Generalissimo Stalin was informed of the existence of the atomic bomb at Potsdam in 1945. During that year, any German scientist could get a free meal ticket from the British and Americans by claiming to be a physicist. But it was not until 1946 that the Soviets began to round up a prize herd of these rare human cattle, The year 1946 is accepted as the moment when Marshal Beria's priority was given

The absoluteness of the priority is mainly gauged by the one form of reliable intelligence the Kremlin cannot keep from the West-intelligence concerning working of the European uranium posits. There are a considerable number of these, but only the Czech deposits, centered at Joachimsthal, were formerly considered sufficiently valuable to be mined.

Now every small pocket of uraniferous ore, in Eastern Germany and throughout Eastern Europe, is being mined intensively. The most terrible threat against any political dissident in the Soviet sphere is that he will be sent to the mines. The reports of conditions in these mines recall the stories of the Spanish empire's holocausts of whole nations of Indians to secure the silver and gold of the new world. Under the whips of the MVD, hundreds of thousands of German and Czechs are, where necessary, digging the ore from the earth with their bare hands, until they drop with exhaustion and are cast aside. There is, obviously, a glimmer of light

in this black picture. If the Kremlin is

(Copyright 1948 by N. Y. Berald-Tribune Inc.) willing to pay a human life for every pound of European uraniferous ore, it must mean that larger and more profitable ore deposits have not yet been brought into production elsewhere in the Soviet empire.

> There are also other encouraging factors. One such was the recent denunciation of four Russian physicists. One of the usual Soviet Communist mouthpieces excoriated them for their "agnostic assertion that lack of precision in the behavior of atomic particles is unavoidable. If Marxist dialects are to dominate the Soviet atomic energy project as well as Soviet biological research, we can expect Marshal Beria's Triple A priority to be

The tale of the single escapee from the Soviet atomic laboratories also carries a little hope. This man was in the top flight of captive German physicists. While he and his colleagues were given every facility and luxury, they were entirely cut off from contact with any knowledgeable Russian. The MVD flatfoots who ruled over them required that they work. But since the flatfoots knew no more of nuclear physics than the average policeman, the German scientists could have written novels in their work hours if they

None the less, the fact of Marshal Beria's priority remains outstanding. Beside this fact must be placed the further fact that Marshal Beria's organization can avoid much wasteful experiment by reading the American Smyth report.

We have shown the way. The Soviets have enormous engineering obstacles to overcome. They must make an immense investment. But the Americans who have seen the job done here believe that the Russians can do the job too if they are reasonably sensible. This should not merely rule out political trading with vital defense appointments. The need to be ready for 1952 should also condition our entire foreign and defense policy, infusing the whole with a deep sense of urgency and

When it rains it pours

| leed and decorated with green Half the fun of Christmas comes sugar and little red candies. Colin making festive cookies for hand- ored sugar, nuts and candied fruit some holiday platters. Most fun of can be sprinkled on the cookies beall are the kinds that are cut into fore baking or they can be frosted Santas, wreaths or bells and then with a white or tinted icing and Decorations should taste good as

well as look good. For instance, a whole almond could be used for a bell clapper. Use your imagination on round cookies. Make holly sprigs from citron and candied cherries. Just for good eating's sake try a topping of slivered candied pineapple and chopped nuts. Give Santa a grated eocoanut beard and chocolate bit buttons. Or what about a gumdrop star to top the cooky Christmas trees?

The sour cream cookies imaginatively decorated make wonderful ornaments for the real Christmas tree, too. Make ties to fasten them to the tree by pressing a string into the cooky dough before baking. The first recipe is for Sour Cream cookies so you can try your ima-gination with decorations on all different shapes. The Chocolate Snowballs need only a dusting of powdered sugar and they're all set for the holiday festivity.

Rolled Cour Cream Cookies Yield: 10 dozen 3-inch cookies 2-3 cup fortified margarine 1-2-3 cups sugar

teaspoon salt teaspoon vanilla eggs 14 cups sifted flour.

teaspoon soda teaspoons baking powder s cup thick sour cream

Cream margarine well. Add sugar gradually with salt and vanilla Continue creaming. Add eggs, one at a time, beating well after each addition. Add flour sifted with soda and baking powder, alternately with sour cream. Chill. Roll into thin sheet. Cut in desired shapes. Place on ungreased cooky sheet Bake in moderate oven (375F.) about 8 minutes. Note: These cookies may be sprin-

kled with sugar before baking, or cooled, and then decorated. Chocolate Snowballs Yield: About 6 dozen

1% eups fortified margarine 2-8 cup sugar teaspoons vanilla teaspoon salt

% cup cocoa 2 cups finely chopped pecans Cream margarine, sugar, and vanilla until fluffy. Sift flour with salt and cocoa and add to creamed mixture, blending thoroughly. Add pecans, and mix well. Bake in a moderate oven (350F.) about 15 minutes. Cool. Roll in confection-

er's sugar. Pecan Cake Adds Much To Saturday Night Supper Menu

Sliced Lancheon Meat with Raisin Sauce **Buttered Cauliflower** Bread and Butter Pecan Cake\*

(Recipe for Starred Dish Follows)
PECAN CAKE Ingredients: I cup sifted cake flour, 11/2 teaspoons baking powder, ¼ teaspoon salt, 1-3 cups but-

ter or margarine or other shorten-ing, 1 cup firmly packed brown sugar, 2 eggs, ¼ teaspoon vanilla, 4 eup milk, 4 eup chopped pecan ut meats.

Method: Put flour, baking powder, and salt into a sifter. Cream fat until fluffy, add sugar gradually and continue to cream well. Add eggs and vanilla and beat in well with electric mixer. (If electric mixed is not used beat eggs separately with a rotary beater until thick and pale colored and add.) Sift in flour mixture, alternately with milk, in four additions, beginning and ending with flour, and mixing only until ingredients are well combined. Add pecan nut meats and mix lightly; do not overmix. Turn into an 8 or 9-inch square cake pan that has been greased and floured and bake in a moderate (350F.) oven for about 25 c

30 minutes, or until done.

# Longhorn Casaba Troupe Opens With 41-25 Win

basketball Steers made a here Wednesday night, chugging to 41-25 victory over the Colorado City Wolves in their own field-

of shots, especially in the opening round, but warmed to the task and won going away. Only in the ourth quarter, when the decision vas safely stashed away, did the ests begin to hit. As to the Longhorns errors, those were expected, especially in an early season game

Malaise's reserves made it an all-Big Spring night by romping to a 32-19 win in the opening game. The mentor trotted out two Il teams, or ten men against he Colorado City regulars. If there was a standout in the bunch, it was Howie Jones, who looked tremendous in taking shots off the backfield and found the time to dump in six field goals for scoring honors. Or Cuin Grigsby, who played a fine court game. Or Howie Washburn, equally impressive on the hard-

Harold Rosson was breathing on Jones' neck for scoring laurels. Hal thipped in with ten points.

The game started very slowly. The quintets played four minutes, five seconds before they could break the scoreless deadlock. Then Rosson was fouled and made good on his free toss. Jones hit the taronds of activity.

Floyd Martin paced the locals in the opener with 14 points.

day—from where I sit, it's a mighty wholesome aftermath to a differ-

cause good Americans all take

ics and voting mighty

on't mean that he's getting

WITH TOMMY HART All clubs in the Longhorn baseball league will probably be represented at the National Association's meeting in Minneapolis this

month, with the exception of Our Town. Pat Stasey, field skipper and part owner of the Broncs, made the expedition to the conclave in Miami last December but obviously feels he's fairly well fixed for material, what with the working agreement with the Washington Senators still active.

Stasey apparently plans to make a concerted effort to pick up half a dozen native-born players for his team but the Cuban recruits will continue to form the backbone of the team.

The Irishman points out that the American boys with real talent can get better money in bigger leagues and the Cubans can beat the ordinary performers all to hollow.

BILL BELL LOOKING GOOD FOR AMERICAN LEGION

Bell-wether of the American Legion baseball team this year will probably be Bill Bell, a not-too-tall Coahoma lad, recently moved to forward by the Legionnaire management.

Bell roped 30 points in a practice game the other night and has the reputation for hitting from anywhere within reasonable distance. He'll get a lot of help from such operatives as Frank Hardesty, Tom Davis, Pepper Martin and Paul Solden. The Legion opens its Y league campaign at the HCJC gymnasium next Tuesday night.

TCU SHOULD HAVE POTENT FOOTBALL CLUB IN 1949

Ben Hawkins, the Internal Revenue man who is spending a few days in Fort Worth, scribbles in that the TCU Frogs (he's an alumnus of the school) should come up with quite a football team in 1949, slugger who just missed a clean and that, despite the fact Coach Dutch Meyer loses such standouts sweep of every National League as George Brown, guard; Pete Stout, back; Dave Bloxom, back; Randy Rogers, back; Leon Joslin, back; and Doug Brightwell, center. One of Dutch's secret weapons, says Ben, will be John Medanich, by a wide margin.

the Pecos terror, who was scholastically ineligible this year. A big back Batting champ at .376. by the name of John Morton will be suiting out for the Frogs in '49. with 135 runs, 230 hits, 131 runs-Of the Arlington Heights (Fort Worth) high school team, Ben get from the outer edge of the court says he thinks the club could hold its own with Sweetwater or Midland,

after another two minutes, 15 sec- perhaps, but would stand little chance with Odessa, the 3AA champion. Arlington Heights is the champion of the Fort Worth district.

PEPPY WILL HAVE PLAYED IN THREE BOWL GAMES

Peppy Blount of Our Town closes out an illustrous collegiate football career in the Orange Bowl New Year's Day. He must look back on that chapter of his life with a great deal of satisfaction, for he and the Longhorns have been a lot of places and, no doubt, met a lot of fine people.

Very few teams can boast of having played in three major bowl games but U of T will have done it while Peppy was a member. The Longhorns met Missouri in the Cotton Bowl when Blount was only a freshman. They played Alabama in the Sugar Bowl in New Orleans when the Big Springer was a junior, and now comes the expedition to Miami and the Orange Bowl game. Say what you will about bowl games, but apparently the Orange Bowl people say it better. According to the story, the Miami promoters shower more gifts on the players than any other bowl organization in the country. The Rice Owls brought that story back from Miami.

Back to Peppy, however, the Longhorns have played such elevens as Texas Tech, Oklahoma A & M, Missouri, Colorado, Oregon, Alabama, New Mexico and North Caholina while he was in uniform.

Blount's last minute touchdown that enabled Texas to beat SMU, 12-7, in 1945 probably provided him with his greatest thrill.

ONLY SMU PONIES SCORE MORE THAN 100 POINTS

All the emphasis is on offense football these days, but the SMU Mustangs were the only Southwest Conference eleven to score more than 100 points in six conference games. They managed only 108. The Ponies could manage only 40 more points in league activity than Texas A & M, which did not win a conference game.

TSINGTAO, China, W-For a city cut off from the landward side by a Chinese Communication curtain, life goes on with remarkable order and placidity in this base for the U. S. Navy. There are always rumors that the Reds will attack, drive the big government garrison into the sea, and force some sort of a showdown with the U. S. Six room duplex on Main St.,

Navy. But they are just ruclose in, east front, paved mors. Gen. Wang Chi, Americanstreet, double garage, priced educated deputy garrison commander who was a liaison officer with General Mac-Arthur during the war, says 503 Main the government can and will hold Tsingtao. The governness in Big Spring, making ment has a lot of strength here, including a division money, nice location, where a trained on Formosa under

American guidance. Wang says the government wants to strike out from here grow with the city. Only about against the Communists, but there isn't enough equipment to go on the offensive. Wang wants enough to equip two divisions and until that is

> The U. S. Navy has its rumors here too. The current one is that the Navy is going to pull out. This is denied from top to bottom but if it wanted to sacrifice its limited

Sympathy

SINGAPORE. M-The United States, which in 1850 became the first foreign power to recognize Sarawak as a free nation, has been asked for "sympathy and understanding" by native organizations campaigning to restore the little British colony's

Sarawak - land of the

'White Rajahs"-is in North-

independence.

west Borneo. Gold, oil and rubber come from its 50,000 Good section, plenty water, close to Big Spring, possession square miles. For a century Sarawak was an independent 3-bedroom home, Highland and sovereign state under British protection. It was ruled by the fabulous Brooke family, the "White Rajahs." In 1946 the last of the White Rajahs, Sir Charles Vyner Brooke, ceded Sarawak Britain. On July 1, 1946, it was annexed as a crown colony. Controversy has raged over the annexation ever since. The heir presumptive First National Bank Building to the throne, Capt. Bertram Brooke, and his son, Anthony Brooke, claim the cession was illegal and should be annuled. Their case is in the courts of the Sultanate of Brunei in 20,000 acre ranch, \$12.50 per Borneo. Eventually it is exacre. Best buy in West Texas.

> Council, Britain's highest judicial body. In Sarawak itself, the burden of the campaign for the return of the paternal Brooke rule has been carried out by the Malay National Union of Sarawak, the Sarawak Dyak Association (Dyaks are former head-hunting forest dwellers), the Sarawak Youth Movement and the Malay Youth Movement of Sarawak. Their joint appeal for sympathy from the United States was made in a message forwarded from Kuching, the capital of Sarawak, to The Associated Press at Singapore. Sent on the 98th anniversary of America's original recog-

pected to go to the Privy

During the afternoon former pastors and members will speak, and the celebrated male quartet, said represent H-SU, will present program of music.

### Blount, Corbin Support Program For 'Silent Guest'

The "Silent Guest" iplan, announced this month by Gov. Beauford Jester, has the endorsement of Rep. Peppy Blount and State Sen. (elect) Kilmer Corbin.

The governor has set Nov. 25-Dec. 25 apart as the time in which families are urged to invite a "silent guest." Funds which would have been spent in feeding the guest, who in reality is not there. should be sent to the Governor's office in Austin for forwarding to the national headquarters.

Seventy-five per cent of the funds received will be turned over to the United Nations appeal for children to help one of every three hungry children of the world. The UN commission hopes to be aided in reaching some 230 million children. The remaining 25 per cent will be used to reach under-nourished children in the United States.

Contributions should be in the form of check or money order, according to the governor's announce-

#### More Than Score Attend Initial Cub Pack 22 Meet

More than a score of youngsters took part in the initial meeting of Cub pack No. 22 at North Ward school Tuesday evening.
