

Mules Dehorn Portales Rams In Season Opener 13-7

The Muleshoe Mules played a hard defensive game Friday night to stave off the 1981-82 New Mexico State Champs, the Portales Rams with a 13 to 6 final score. The Mules held the Rams at bay until late in the fourth quarter with 1:16 minutes left on the clock, when Portales' Paul Pacheco got loose with a 2 1/2 yard advance over the goal line. The PAT was batted down by the Mules' Chubby Ramos.

The Mules first TD came early in the second quarter on a third down and goal to go with Sam Gonzales pulling a quarter back sneak to score the first six for the Mules. The PAT by Alvarado was good, putting

the Mules in the lead with a 7 point lead. Gonzales played some tough football and took some chances, and proved that he was more than a quarterback. He took some hard licks and came right back to go at it again.

The Mules second touch down came in the first six minutes of the fourth quarter when Mule Alex Paez scored on a seven yard run for paydirt, with Gleason and a couple more Mules running tough interference for him. The try for the extra point by Alvarado failed, but the scoring gave the Mules the edge they needed.

Shaw, Gleason, Coleman, Bickel, Hamilton, Wilson,

Flowers, Wuerlein, Ramos, plus the whole defensive line and team held the Ram's big quarterback Ed Lochr to a minimum of passing, since almost every attempt he made was squashed by five or six Mules in the middle of him. The offense worked hard and were fast. However, their timing was a little bit off.

The Mules won the toss in the beginning quarter, going into the game with Portales picked as winner by a 12 point lead, and 3rd in State. This did not prove to be the case, since Portales had not counted on the blitzes and speed of the Mules.

Some of the Mule receivers had a tough time con-

necting with Gonzales' passes, causing some busted plays, but when they did hit, they did it right.

In the first play of the game, the kickoff by Ram John Gossett was picked up on the four yard line by Darin Shaw and brought back to the 23. However, most of the plays were just back and forth and hard one on one football. Shaw did an extra good job with his catching and also tries for interceptions. He is possibly the fastest man on the team for the Mules.

Both teams incurred a number of penalties and had some busted plays, but the Mules' defense kept Portales from getting the ball anywhere, Lochr, Ram

QB, fumbled the ball several times but was lucky enough to recover on most. He was sacked and stopped where he stood by Mule defense in several plays, and even dragged back once or twice by Mules for a big loss.

In the third quarter, difficulties arose with some calls questionable by the referees. The initial call was a deadball foul against Rams when a Mule player was hit late after a Gonzales pass. The "refs" then reversed that call to pass interference. Then, (get this), the whole thing was taken back to the 29 yard line where it started and the Rams were given the ball with the penalty

being given to the Mules. Coaches, fans, and team members were up in arms and at a loss to determine the action of the referees.

With 30 seconds to go in the first half, the Mules started a drive beginning with Darin Shaw taking a fair catch from the Rams on the 25 yard line, then Wuerlein on a pass from Gonzales moved the ball to the 41 for a gain of 16 yards. In the next play Gonzales ended up keeping the ball but gained 8 yards and a first down before he was hit hard by two Portales Rams.

In the next play, Orozco got two yards on a short carry after a hand off by

Gonzales on the second down. Gonzales was dropped for a five yard loss and at the end of the first half, the score stood, Mules 7, Rams 0. Halftime stats showed the Mules with 100 yards rushing and the Rams with four.

At the beginning of the second half, a short drive by the Rams led to no where and Cheyenne Bickel managed to smother the Ram quarterback on the 11 yard line ending that drive and the punt on the fourth down was stopped by Hamilton on the 29 yard line in Portales territory. This set up a nine play drive for the Mules which ended up with Gonzales passing to

Wuerlein on the five yard line and the referees signaled a TD. However, Wuerlein could not find a handle and dropped the ball leading the TD cancelled. A field goal attempt was made by Alvarado, but failed.

Gleason who played a big game, proved to be the nemesis of Ram Quarterback Lochr throughout the game. Gleason took a hard hit early in the fourth quarter, but was back in the game in the next couple of plays. Ramos dropped Rams big end Medina in full stride. In the

Suggested uses that went in to the budget for the revenue sharing monies included the improvement and expansion of the courthouse to accommodate County and District offices, seal coating for farm to market roads, purchasing of new ambulance and

equipment, purchase of road equipment, supplies for senior citizens groups and furnishings for the coliseum.

Out of the number of suggestions that were brought forth in the first revenue sharing meeting, only two received consideration for use of the funds.

C. Jarratt said that \$30 million is available for the job search contracts.

This aspect of food stamp operations had previously been accomplished through the U.S. Department of Labor (DOL). However, USDA plans to transfer the responsibility directly to state welfare agencies which are assigned by law to administer the food stamp program. The change is intended to give states greater flexibility and control over food stamp operations.

As a condition of eligibility for food stamp benefits, able-bodied recipients between 18 and 60 years old are required to register for work and actively seek employment.

"We're committed to helping food stamp recipients who are employable, find suitable jobs. State welfare agencies, with a thorough knowledge of their clientele, are in the best position to directly carry out this responsibility effectively," Jarratt said.

Deadline Nearing For All-Risk Wheat Insurance

September 15 is the last date on which applications will be accepted for All-Risk insurance policies on 1983-crop wheat. All-Risk Crop Insurance Field Operations Director, F.W. "Ted" Crouch, Jr. says that a list of local agents who offer the insurance can be obtained by contacting the county ASCS office.

Crouch says that the number of applications received to date and the interest expressed by wheat growers, suggests that the amount of insurance in force will be a record high. "One major reason," Crouch notes, "is the continuing increase in crop production costs. Many wheat growers simply do

not have the necessary cash reserves or additional borrowing capability to take a chance on losing the money that they will have invested in their crops."

"Another reason," the insurance official contends, "is the reduced cost of purchasing insurance." The federal government, in an effort to encourage participation in the program, pays up to 30% of the cost of the protection. Anticipated sign-up also is expected to be higher because a growing number of lenders are requiring or suggesting that borrowers carry at least enough coverage to provide for repayment of production loans.

Cont. Page 9, Col. 3

All-Risk Crop Insurance Reduced Premium Due

Legislation which could enable the State of Texas to further reduce insured grower's premium cost for All-Risk crop insurance will be introduced in January, according to Senator Bill Sarpalius of Hereford.

PROMOTED --- Patti Cornelison, daughter of Mr. and Mrs. Bernis Camp of Muleshoe has been promoted to the office of assistant vice president of the First National Bank in Borger. She began work for the bank in 1970 in installment loans and in 1977, advanced to assistant cashier.

Sarpalius, Chairman of the Senate Subcommittee on Agriculture, announced today that his committee has begun drafting such a bill.

"In 1980, Congress authorized, for the first time, the Federal government to pay up to 30% of the premium cost to farmers and ranchers insured under the USDA All-Risk Program," the Senator said.

"The bill also authorized any state to further reduce the cost to its agricultural producers by paying an additional portion of the true risk premium cost," he added.

Ted Crouch, Field Operations Director for USDA's Federal Crop Insurance Corporation in College Station, said, "FCIC is very pleased to hear of this innovative effort. I am especially pleased that it is beginning in Texas. We all know, too well, how severely the agricultural sector of our state's economy has suffered recently. During this period, FCIC's capacity to relieve these adverse conditions has been limited in many areas of the state because of low participation. The action being ini-

Vineyard Worker Training For Grape Boom

Viticulture-the cultivation of grapes-is a new and rapidly expanding industry in Texas. And the state's climate, soil, economy and market are ripe for supporting this new industry.

To prepare Texas' labor force for the expected viticulture boom, the Texas Agricultural Extension Service of the Texas A&M University System has begun a project to develop training materials for vineyard workers.

"Because viticulture is new to Texas, few Texans have the skills needed to take advantage of job opportunities offered in this field," said Dr. George Ray McEachern, Extension horticulturist and director of the viticulture project.

"As the industry grows, vineyard owners may be hard-pressed to find skilled employees, even though most salaries for vineyard workers are expected to be substantially higher than minimum wage," McEachern said. "This acreage could increase to 9,000 acres by 1990 to include four corporate vineyards and 300 privately owned, small vineyards. This expansion in acreage will require at least 1,800 new workers."

The project is funded by

the State Employment and Training Council of Texas. This state council is an advisory body mandated by the federal Comprehensive Employment and Training Act (CETA).

Stephen Smith, executive director of the council, said that the training materials developed for the viticulture project will be aimed at economically disadvantaged, unemployed or underemployed Texans, specifically those eligible for federally funded employment and training programs, authorized by CETA.

"These training materials will not only help unemployed workers find jobs, but they will also be a tremendous asset to the Texas grape-growing industry," Smith added.

The project will address five phases of viticulture which require specific training. These are vineyard establishment, young vine training, mature vine pruning, vineyard management and grape harvesting.

"Because of their specific nature, viticulture techniques are difficult for

workers to learn and for vineyard managers to teach. We are developing curricula which will include an easy-to-understand workers' manual, a manual for vineyard owners, a slide-tape training set and other training materials," McEachern said.

He added that existing literature and training materials from other grape-growing states are informative, but that training materials specifically for Texas are needed because the state's soils, climates and pests are unique.

The Extension Service is conducting the project in cooperation with the Texas

Agricultural Experiment Station, The University of Texas -- University Lands Vineyards, selected grape growers and viticulture experts. All research documents and training materials for the viticulture project are to be completed by late September.

New virus may control crop-destroying insects

COLLEGE STATION — Texas A&M University researchers have discovered a new family of viruses carried by wasps that may provide the key to controlling crop-destroying insects without chemicals.

The discovery also could be important in understanding how insects carry and transmit other viruses and in inhibiting the spread of diseases by insects, the scientists said.

"The virus-like particles live harmlessly in the ovaries of parasitic wasps and are deposited along with eggs into the bodies of caterpillars that destroy crops," said Dr. Brad Vinson. "Somehow, the virus protects the eggs from being destroyed by the caterpillar's immune system."

Vinson, an entomologist, and Dr. Max Summers, a virologist,

both of Texas A&M's College of Agriculture, say the virus creates an optimum environment for eggs, which develop and hatch inside the caterpillars. The virus would eventually kill the caterpillars, but the larvae that hatch out of the eggs and feed on the pests do the job much more quickly, they said.

Some say that the phrase "rule of thumb" comes from a practice that was once common among brewmasters. The chief brewer used to test the temperature of a batch of brew by dipping in his thumb.

Union Wants Farmers Homestead Protection

Testifying before two committees of the Texas Legislature, the President of the Texas Farmers Union asked that the Legislature abandon efforts to weaken Texas' homestead protection laws.

Noting that Texas currently has the strongest homestead law of any state in the nation, TFU President Mike Moeller said that any changes in the Law would be a major step backward for Texas farmers and ranchers as well as urban homeowners.

Moeller said, "During the last Depression, many Texas farm families were able to survive because they were able to keep their house and up to 200 acres. With another Farm Depression upon us, this protection of our homesteads is more important than

ever." According to Moeller, opening Texas homesteads up to second and third mortgages would probably result in lenders requiring homesteads to be pledged as additional for existing loans. "With farm real estate values declining," Moeller said, "And farmers unable to pay the interest on existing loans, it is entirely possible that a farmer could end up losing his homestead and receive no equity whatsoever."

Moeller pointed out that attempts to weaken Texas' homestead law in 1979 and 1981 had "gone down in flames" and predicted that any such effort in 1983 would meet with strong resistance by Texas' homeowners and landowners.

Society Guidelines

A processing charge of \$3 is made when a photo accompanies any wedding, engagement, anniversary or other society picture, with the exception of anniversaries of 50 years or more.

Five dollars will be charged for any society picture taken by the Journal, due at the time of the appointment. Pictures may be picked up after the article appears in the paper.

Wedding, engagement and anniversary stories must be in the Journal office by Monday noon for the Thursday paper and by Thursday noon for the Sunday paper.

After that time, stories will be run on a space available basis. Any wedding more than two weeks old when received will be edited and only the basic information will be included.

No shower picture will be taken without a 24-hour notice and copy must be in the office by 5 p.m. Monday for the Thursday paper and 5 p.m. Thursday for the Sunday paper.

Julie Carlisle, Robert Layton, and a friend, Randy Snow, all spent the week on a vacation in Red River.

Mrs. Winnie Byars received word that Gerald Byars of Roaring Springs was a patient in the hospital in Crosbyton, for 4 weeks. He was a former resident of Enochs.

Mr. and Mrs. L.O. Williams of Amarillo, visited his sister, the Chester Petree's, Thursday and Friday.

Mr. and Mrs. Harold Layton, of Dell City, spent Thursday through Saturday with his mother, Mrs. Etta Layton, and other relatives.

Mr. and Mrs. D.M. McBee and family, and the Phillips families, all spent 8 days on a camping trip and camped out in Colorado. There were 16 in the group.

J.E. and Wanda Layton met her sister, Mrs. Oleta Burris of Wellman, and a brother, Cleo and Leta Hall of Phoenix, Ariz. at Seagraves, for a family get-together and a swimming party. Then, they all ate out.

Dannie Petree and family of Lubbock, visited his parents, the Chester Petree's, Sunday.

Mrs. Randy Robinson and daughter, Randy Mabelle, of Whitharral, came Friday and spent the night with her grandmother, Mrs. Winnie Byars, and did some canning.

Tommy Lewis brought the girls, Jacy and Kidron of Earth, to see their grandparents, Mr. and Mrs. Goldman Stroed, Sunday, and they went over to the Craig Kirby's to help Monty Kirby celebrate his first birthday.

Use of sunscreen before exercising not recommended

COLLEGE STATION --- Sunscreens, although they seem to present no problems for most people, may do more to the body than prevent sunburn, says a Texas A&M University researcher who has been testing the effects of sunscreens on thermal regulation of the body during exercise.

Dr. George Jessup, associate professor of health and physical education and chairman of the Human Performance Laboratory, says that persons choosing to apply sunscreens before exercising in hot, dry or hot, humid climates run the risk of significantly elevating their skin temperature.

Muleshoe FFA Gets New Project Barn

The new barn for the Muleshoe FFA Project Farm is almost complete. The barn will be used by any student wishing to use it, as long as he or she abides by the rules set up for the farm.

GENERAL RULES AND ORGANIZATION: (1) The farm will be directed by a board of directors. (2) The Board shall consist of one Freshmen Vo. Ag. student, one Senior Vo. Ag. student, the chairman of the FFA Chapter, SOEP Committee, and the Vo. Ag. instructors. All elected directors shall be elected annually, at a regular FFA Chapter meeting, by a majority vote of the members present. (3) The Board of Directors will make rules and set policies concerning activities, student conduct, fees, and livestock at the school farm. (4) The Vo. Ag. instructors shall have the right to veto any action they may deem necessary or add any needed rules or regulations in order to comply with school policies, city ordinances, Farmers Cooperative wishes, or any unforeseen situation.

Muleshoe High School is proud to have Robin Hargis as a Special Education teacher. Robin graduated from Spearman High School. She then got her bachelor's degree from West Texas State University. She is married to Coach Kent Hargis who helps coach the varsity and junior high boys' football teams. Robin and Kent attend the First Baptist Church in Muleshoe. Her hobbies include exercising, cooking, and watching football. Her favorite food is chocolate pie. She says that the highlight of her summer was getting married. When asked what her one wish would be, she replied, "For the Mules to win state". Robin commented that she and Kent are so glad to be here in Muleshoe. "We are happy and proud to be a part of the Muleshoe school system. We appreciate your friendliness and thank you for welcoming us to your town and school".

Kent Hargis graduated from Spearman High School. After graduating from high school, he attended Amarillo College, and West Texas State University.

Kent's favorite hobbies are all sports, calligraphy and riding bicycles. Even though he likes all sports, his favorite is football. When asked for a comment, Kent said, "Muleshoe is a very friendly town. The people have been very helpful to us since we came."

We are proud to have Kent and Robin on the Muleshoe High School Faculty.

Notes From The Principal's Notebook

Another year has started and all things look optimistic for a good school year at Muleshoe High. Enrollment figures have reached 443 students with the Freshmen Class leading with 127 enrolled.

During the principal's meeting with each separate class this past week, sponsors were elected by the students and they will elect their officers by secret ballot this week. Each class was encouraged to make an extra effort this year to study hard, enter into activities of the school and to make the year one of the most enjoyable.

The new English elective honors course this year, VOCABULARY AND COMPOSITION has an enrollment of 21 students and is off to a great start. In addition to this new class, shorthand had an enrollment of 17 students at the present time, being the first time in several years that this class had made. A new experiment is taking place with Junior level American history in the cafeteria during the second period each morning. Helping him are Mr. Brandon and aide Elaine Estrada. This is a little strange on the high school level, but very common in college. Mr. Graves said it seems to be working very well. Another honors class was added this year with an enrollment of 24 students. Mrs. Miller is teaching honors Biology made up of students who completed the honors program in physical

what she and her family Muleshoe High School has added another new member to the faculty. Her name is Mrs. Brenda Murphy, and she is a Special Education Aid. She is married to Billy Murphy. They have three children: Billy, who is age 11; Lorene, age 9; and Misty, age 6.

When asked about her favorite hobby and sport, she commented, "My favorite hobby is reading, and my favorite sport is football."

She is very proud to be a part of the Muleshoe School System. Having attended M.H.S. herself, it is very special to her. She would like to add that she really enjoys working with students. Her highlight of the summer was getting a job as a school teacher at M.H.S.

We would like to welcome Mrs. Murphy to our school system and give her our best wishes.

Mrs. Sue Mader comes to M.H.S. from Clovis, New Mexico. She has resided there for the past four and a half years while attending Eastern New Mexico University. From E.N.M.U., she obtained a Homemaking and Business Degree, and she also has a Bachelor of Science Degree from Ohio State. Sue Mader teaches Home and Family Living, Home Ec. II, and is also trying to get a Semester Foods Class under way.

Mrs. Mader has three children, Kristen, age 6; Judd, 14; and Billy, four and a half. When asked

think of Muleshoe, she replied, "We like it here. It's a nice town." She thinks we have a good school system and that our town is made up of warm and friendly people.

During the summer, Mrs. Mader attended school as well as taught. She thinks that the highlight of her summer months was having a graduate assistantship at E. N. M. U., where she taught the media lab. Her hobbies are camping, scouting, and music. She also enjoys playing the piano, mostly for her own pleasure.

The students at M.H.S. and the people of the community wish to welcome the Mader family to Muleshoe.

Another newcomer to the staff, is Rosalynd Stapleton. Rosalynd and her husband, Frank, have one child, Samantha, age 10.

Mrs. Stapleton attended the university of Arkansas for her Bachelor of Secondary Education Degree and the Bemidjick State University for her Master of Secondary Education Degree. She is currently working toward her education specialist certification at ENMU. Rosalynd has taught in Colorado, Minnesota, New Mexico, and Indiana. Some of her hobbies are needlepoint, cooking, and tennis.

She enjoys the friendly people in Muleshoe and appreciates their interests in athletics.

We are glad to have Mrs. Stapleton join our coaching staff.

Also joining the High School coaching staff, is Paul Hammer. Holding a BS Degree, he is also a science and health teacher at junior high.

Paul and his wife, Debbie have one daughter, Amber Nicole. When he can take time off, Coach Hammer enjoys hunting and fishing.

These are the six newcomers to Muleshoe, and the MHS faculty. We hope they will have an enjoyable year and we wish them the best of luck!

Wheat Payment

Cont. from Page 1

to the number of acres of wheat planted on croplands that suffered earlier hail losses and the fact that there is a paid diversion included in the wheat program.

Secretary of Agriculture John R. Block on August 22, stated that because of legislation proposed by Congress in the Omnibus Reconciliation Act, he has rescheduled the signup period for the 1983 wheat program to begin Oct. 1 instead of Sept. 7. It will continue through March 31.

Spring and winter wheat producers must comply with the program provisions to be eligible for the wheat reserve programs, loans, and purchases and payments for the 1983 wheat crop. The wheat loan rate will be \$3.65 per bushel. The target price will be \$4.30 per bushel.

Instead of the 20 percent acreage reduction program announced by the USDA on July 14, the reconciliation legislation provides for a combination 15 percent acreage reduction and five percent paid land diversion. The land diversion payment is based on \$2.70 per bushel times the farm yield times the acres diverted. Producers must limit the wheat acreage planted for harvest to no more than 50 percent of the farm's wheat base. They must also devote to conservation uses and acreage equal to both the acreage reduction and land diversion requirements.

Block noted that any changes in the program are contingent on President Reagan signing the reconciliation legislation. Producers, at the time they sign up for the program, may request an advance of 50 percent of the diversion payment and of any projected deficiency payment. The projected deficiency payment rate will be announced before sign-up begins.

A producer accepting an advance payment, but who later does not comply with program provisions, must refund the amount of the advance payment with interest. Interest charged will be the rate in effect for commodity loans on the date of the advance payment, plus five percentage points.

The Omnibus Reconciliation Act requires the 1983 wheat acreage base to remain the same as the base established for the 1982 wheat crop. Land designated for conservation use must have been devoted to row crops or small grains in two of the last three years. Land use for conservation use acreage in 1982 will be regarded as having been cropped in meeting this requirement.

There are two exceptions. The first is for a summer fallow farm for which the cropping requirement is for only one of the previous two years. The

other exception is for crop land which met 1982 eligibility requirements for conservation use and was devoted to a permanent conservation practice. If the permanent conservation practice is maintained, such acreage will be eligible as conservation use acreage through the 1985 crop year. These conservation Practices may be eligible for cost-share payment under the Agricultural Conservation Program.

Neither cross compliance nor offsetting compliance will apply to the 1983 wheat program. Block also said he will announce the 1983 feed grains program in Sept. with signup starting Oct. 1. Signup for 1983 upland cotton and rice programs will be announced later.

The 1983 wheat and feed grains crops will again be eligible for the farmer-owned grain reserve program. However, new rotation provisions will be effective with grain reserve agreements on the 1983 crop. The rotation provisions will only be available to replace, within 15 days, reserve grain that is going out of condition.

The replacement grain may be: (1) grain the producer has on hand, (2) grain which is purchased by the producer, or (3) grain which is from the producer's new crop. Deficiency payments or 1982-crop wheat will be made to eligible producers as soon as practical after Oct. 1.

Block noted that any changes in the program are contingent on President Reagan signing the reconciliation legislation. Producers, at the time they sign up for the program, may request an advance of 50 percent of the diversion payment and of any projected deficiency payment. The projected deficiency payment rate will be announced before sign-up begins.

A producer accepting an advance payment, but who later does not comply with program provisions, must refund the amount of the advance payment with interest. Interest charged will be the rate in effect for commodity loans on the date of the advance payment, plus five percentage points.

Insurance Premium

Cont. from Page 1

tiated by the Senate Subcommittee on Agriculture will almost certainly stimulate greater producer acceptance.

For the 1982 crop year, an estimated 1.9 million acres of Texas crops are covered by All-Risk crop insurance. Maximum liability on these acres exceeds \$200,000,000.

Senator Sarpalius feels the additional assistance would make Crop Insurance programs more attractive to more farmers. "Increased participation helps spread insurance risk and strengthens the Crop Insurance programs for all farmers involved," he stated.

All-Risk Crop Insurance is administered by the Federal Crop Insurance Corporation and marketed through private insurance firms. It guarantees a specific yield per farm for each insured crop. That yield is established prior to planting based upon either area average yields or the farmer's own production yield history. Crops are guaranteed against most unavoidable causes of loss.

If the insured's production is less than the guarantee, a payment will be made for the production lost at a price selected before the growing season. No disaster designation nor

any other special conditions are required for claims to be paid under the All-Risk program.

State welfare agencies may perform job search services themselves or may contract with state employment security agencies, other state and local agencies, or private employment agencies.

A notice announcing the availability of funds to state agencies to continue job search services is scheduled to appear in the Federal Register on Friday, August 20, 1982. Contract proposals must be submitted to USDA's Food and Nutrition Service by September 13.

next couple of plays, the Rams ended up with a 4-1 situation and Lochr bulldozed straight through, making the first down. However, coming back in the next play Ramos might have had an interception, but was busy elsewhere. The Ram pass was incomplete and on a 2/15 down situation, the Mules blitzed the Rams, causing Lochr to fumble the ball, which in turn led to the drive that set up the next Mule TD.

All of the Mules were "bad", played hard and they were ready for the win over the Rams, which gave them their status back; and then some from the 6-0 loss they suffered last year at the hands of the Rams. The Rams, however, have lost a big part of their

starters from last year and according to their head coach, are lacking in the backfield. This win may just be the boost that will add the extra power for the Mules try at the District 2-3A Championship this year and enable them to reclaim their title. Outstanding players will be named next week.

Strake Talk

TWO TERMS IS ENOUGH

Texans have a healthy skepticism of their elected officials, a wariness of entrenched power that they have embodied in the state constitution. They have historically refused to keep top state officeholders more than a few terms.

Now my opponent comes along, having spent nearly ten years in the Lt. Governor's office, one of the top state policy-making offices. Mr. Hobby wants yet another term to make it 14 years in that crucial job. That is unprecedented. Never in Texas' history has any Lt. Governor served that long—or wanted to.

His desire, frankly, puzzles me. You would think he would have other goals, other challenges he might want to tackle. As his primary opponent this year said, "If he had any thing to get done, you'd think he would have done it by now."

My opponent will tell you that experience is what counts. I think voters need

to look at the experience they have had with him. After ten years, our highways are in bad shape, the quality of education has declined, we still do not have a new, statewide water plan and he has refused to tackle the growing crime problem. We can't afford more of that kind of experience.

I have a long-held belief in what I call the citizen-politician: someone who holds a job, serves his country or state for a reasonable time, then returns to that job and private life. For that reason, the first order of business after I am elected will be to have a constitutional amendment introduced in the legislature limiting the Lt. Governor to two terms—eight years. That is enough time for anyone. Too great a concentration of power for too long is bad. That is a principle of democracy.

If you have any thoughts on this subject, please write me at 1213 W. 34th, Austin, 78705.

By Evelyn Ritchie

Mr. and Mrs. John Capers and Rebecca of Cadiz, Ohio, arrived Wednesday to be with her parents, Mr. and Mrs. B.A. Beauchamp, and Derwin, and here to attend the wedding of her brother, Derwin and Janie Brown on Saturday, Aug. 21. Mr. and Mrs. Gene Vickers and girls of Mansfield, Ohio, also arrived later Wednesday for the occasion, as did Mr. and Mrs. Danny Beauchamp and family of Astoria, Oregon.

Travis and Karen Rich of Vernon, visited during the weekend with their parents and grandparents, Mr. and Mrs. Jack Engram. Mrs. Eloise Bacchus of Spring, has also been here to visit with them, as well as to be with Mrs. Ola Bacchus who has been in serious condition in the Amherst Hospital. Jim Bacchus was to arrive this week.

Mrs. Loretta Reid, Suzanne and Jill, and Nell Blankenship and Roy Dail were in Grand Prairie, recently, to visit Nell's new cently, to visit Nell's new granddaughter, Connie grand daughter, Connie Mae, and her parents, Mr.

and Mrs. Walter Gaddy. Joyce Welty accompanied them and attended a family reunion at Lake Texhoma.

Roy Don Dudgeon has received his bachelors degree in physical education and has been employed at Merkel High School as a Math teacher and a line Coach.

Mr. and Mrs. Raymond Beauty of Bonham visited last week with Mr. and Mrs. Dail Burnett.

Mrs. Lynn Drum, Tasha, and Debra of Caddo Mills, have been here visiting their mother, Mrs. Mary Lena Maxwell and other family members. Her grandmother, Mrs. Martin Maxwell was released from Littlefield Medical Center, Wednesday afternoon.

Charlie Smith, son of Mr. and Mrs. Steve Smith has been hospitalized the past few days in the Amherst Hospital.

Thirteen members were present for the Wednesday meeting of the Sudan Lions Club and the main project for the day was to finish distributing the cheese that was not picked up last week. Mandy Gatewood, Lions Queen, told of her trip to Canada.

The club wishes to thank all those outside of the Lions Club who helped in

Tiffie Services Conducted Saturday

Services for Ona Tiffie, 82, were held at 10 a.m. Saturday, September 4, in the Ellis Chapel of the Chimes with the Rev. J.E. Meeks, pastor of the First Baptist Church, officiating.

Burial was in the Sudan Cemetery under the direction of Ellis Funeral Home. Mrs. Tiffie died at 8:50 p.m. Thursday in West Plains Medical Center.

She was born on Feb. 23, 1900, in Grapevine, and moved to Muleshoe in 1923 from Spur. She was a housewife and a member of the First Baptist Church in Muleshoe.

Survivors include one sister, Mrs. Bessie Beall of Lakeland, Florida; a brother-in-law, Cliff Odum of Muleshoe.

Letters To The Editor

Attn. Editor:
As a concerned citizen of Muleshoe, I am writing this letter in Reference to the Thursday, August 19, 1982, Muleshoe Journal.

I have a few questions in regards to the current effort of the Muleshoe Police Dept. and the current Chief of Police and the City Manager.

1. Why in the City the size of Muleshoe do we only have one police officer on duty during the week - ends, the busy time of the week and four officers out during the day on week days?

2. Why does the Police Dept. have such a high turn-over rate in personnel

since the current Chief of Police has come to our town?

3. Why does the Police Dept. keep a check on the number of cars and young people on the various parking lots of Muleshoe? It appears to this citizen that in the time that they spend keeping track of the young people, some more serious crime might be prevented. And that the time used checking on the young people could be put to better use, such as checking the local businesses and homes in Muleshoe.

4. Another question is that why the City Manager and Council has not hired a Chief of Police from within the City of Muleshoe. Surley there is someone with in Muleshoe that would be fully capable of handling such a position.

instead of bringing someone from out of town who does not know the problems and is not familiar with the people and the city of Muleshoe.

As a concerned citizen, I

would like an answer to the following questions and would like to know just what kind of protection I and my family are getting for our Tax dollars.

Hats off to Labor

America would be a vastly different place but for the skilled and dedicated laborers that have graced our land. We should indeed doff our hats to labor on the first Monday in September.

No nation, however, can become great by its laborers alone, no matter how skilled and dedicated the men are to their task. The Bible reminds us "except the Lord build the house, they labor in vain that build it: except the Lord keep the city, the watchman watches in vain."

It is trust in the Eternal Creator God that makes or breaks any people. Our destiny is in His hands. Go this week to worship the God who gives meaning to all labor done in His name.

It is something wrong with your life... as when you're dissatisfied? The only from God our Master He alone can forgive and restore. Through the church God has committed the provision and protection of His forgiveness and redemption. Without a church relation no man is securely related to God. Everyone should be in the church and the church is everyone.

CONSUMER CORNER

New Formula Helps Motorists
Some encouraging news for our nation's more than 140 million drivers is an advanced anti-freeze/coolant formula that helps to protect car radiators from rust and corrosion.

The formula includes silicone and silicate and locks out rust and corrosion no matter what metal it is protecting. Now used in Prestone II anti-freeze/coolant, it's made even stronger for better aluminum protection.

When weak, neglected anti-freeze/coolant is used in car radiators, the resulting rust build-up may actually clog important passages in your engine. Happily, the new formula seems to be capable of causing rust to bite the dust and putting your car on the road to economy.
