Tieuel is now on tour to several West Texas towns. First person sending "Babe" first name to Bob's New Service, P.O. Box 1204, Midland, Texas, will receive a free six months subscription to the Times.

Dunbar High School to Begin Senior Class Experiment This Semester

It has been proposed that Dunbar High School conduct an experiment for the second semester of the 1970-71 school year which would involve allowing seniors to leave the building during the study hall period to take care of personal business or take a break from the routine of the day. This is based on a request submitted by the senior class of 1971.

The following plan has been devised to conduct the experiment.

1. All seniors would be assigned a study hall during the registration. (Since the experiment is being conducted during the second nine weeks, this has already been accomplished.) A senior may leave the building without reporting to his study hall if he so desires; however, if he does wish to study or use the library, he must report to his assigned study hall and follow normal procedures. At such time the senior does not desire to leave the building before the end of the hour, he must notify his study hall teacher and leave quietly using exit nearest the study hall. All seniors must clear the halls before the tardy bell rings. This includes those that are leaving the campus.

Seniors returning to the building before the end of their study hall hour should go to the cafeteria and wait for the bell. The cafeteria should be entered from the South entrance, using the South entrance to the building. Seniors should not

come through the halls to enter the cafeteria. Normal parking lot regulations would be in effect. (Seniors will not gather to sit in cars on the parking lot during their study hall period).

2. Senior who need to be in any part of the building other than the study hall, library, or cafeteria, will need a pass countersigned by the principal, vice-principal, or assistant principal. Senior found in the building without the necessary pass will be subject to loss of the study hall privilege for at least one week.

3. Seniors will not visit other schools during their study hall period for any reason. Those doing so are subject to loss of the study hall privilege for at least an 18-week period.

4. Continued tardiness (four times) to the class following the study hall period will result in loss of the study hall privilege for at least two weeks.

5. Seniors who are truant from school the period before or after the study hall period are subject to the normal number of demerits for truancy plus loss of the study hall privilege for an 18-week period.

6. Seniors wishing to use the study hall privilege will be required to have on file a statement of permission signed by a parent or guardian. (These forms will be provided by the office).

West Texas Times Asked to Conduct Survey Concerning Problems Among Black Citizens

LEARN's Talent Search Continues

Some four years ago a group of interested citizens got together to discuss the lack of cultural and educational opportunities among some segments of our population. In order to combat the situation, a nonprofit corporation was created to help students in financial need. By giving them the means to go to college, students were motivated and rewarded.

The corporation was titled L.E.A.R.N. Its immediate goal was to provide funds for students who could not otherwise continue their education. Soon students came to the organization—even before they graduated. Now, there was hope, students—there was a reason to stay in school and to graduate.

The money was solicited by the members of the corporation. Businessmen, enterprises and individuals

Department at Southwestern Bell Receives National Honor

The Lubbock accounting department of Southwestern Bell has achieved a first in the nationwide Bell System.

The Lubbock office has maintained an outstanding rating on a set of six monthly service indices for 12 consecutive months. The indices are uniform throughout the Bell System.

"Such a feat has never been recorded and has been considered virtually impossible to achieve," said George Harvey, division accounting manager here.

The perfect string extends from December 1969 through November 1970.

To achieve the outstanding rating, the Lubbock accounting office had to out-perform on an overall basis several hundred other Bell accounting groups across the nation.

The performance included making no more than one error per 3,000 bills processed each of the 12 months. The Lubbock office handles about 283,000 telephone bills per month from throughout West Texas.

Also, overtime had to be maintained at a very minimum and absences due to sickness and other reasons had to average less than one per cent of total hours worked monthly.

Helping achieve the outstanding performance were Mrs. Lola Mae Bradford, 1923 East Baylor, Miss Delma Lynn Cox, 2403 East 28th, Mrs. Katie R. Noble, 2804 Walnut Avenue, and Mrs. Bobbie M. Richard, 2901 East Colgate.

A great deal has been done in West Texas during the past years in regard to building roads, highways, buildings and other things which require money and mortar. There has been little building in

readily contributed to such a worthy cause. The money was made available to students on a loan basis (no interest charge) and the students were allowed to pay it back as they could. But it soon became evident that the help was not enough. There were too many students who needed assistance, and not enough money for all of them. Seeking a way to be of more help and service, the LEARN members decided to enlist others.

In November of 1969, LEARN joined hands with the Opportunity Plan, Inc. of Canyon, Texas, in order to bring Project Educational Talent Search to the southern part of the great plains area. But it was not until July 1st that LEARN Educational Talent Search began its activities.

With funds provided by the U.S. Office of Education in Washington, a staff was hired to service a 19-county area in West Texas. Frank Carillo, director of the program summarized the objectives of Educational Talent Search as follows:

1. To identify qualified youths of financial or cultural need, who are interested in continuing some form of post-secondary training.

2. To encourage young people to stay in school and continue their education beyond high school.

3. To advise the students of the many federal, state and local financial aids available to them for this purpose.

LEARN's offices, and its growing program Educational Talent Search, are located at 1306½ Broadway, in Lubbock, Texas.

the black community of West Texas. In keeping with our job of informing the black citizens of West Texas, the West Texas Times is making a survey of the top ten problems of the black community. This survey will be the first opportunity ever presented where the black community will be able to voice its comments and opinions through its own media.

The survey has been requested by interested people in regard to the problems facing the blacks of the Lubbock area. The Times, however, requests all black citizens of West Texas to "tell it like it is" in regard to the problems which are pressing you. You know the problems, you face them everyday, and you have the chance to list them during the next few days and let us present them to the people that need to know of these problems.

It is most important for you to inform us of the Top Ten or less problems and return the information to us as soon as possible by filling out the form on page seven of this issue. The form should be mailed to: "Top Ten Problems" %West Texas Times, P.O. Box 225, Lubbock, Texas 79408. We would appreciate it if you would sign your name for reference in our personal files, however, it is not mandatory for you to sign your names if you so wish.

If there are any organizations, special groups, church congregations or interested persons who would like for members of the West Texas Times staff to come to one of your meetings and explain this effort, please contact the Times office, (806) 747-4419.

The West Texas Times is your media for informing the public of the Top Ten Problems which confront the black community. We all have a job to do by filling in the form and returning it, please help us help the black community.

Our Ten Most Pressing Problems!

by T. J. Patterson

There have been many surveys in regard to the problems of the citizens of Lubbock and West Texas in the past. However, there is now an attempt, probably the first, specifically to find the ten most pressing problems of the people in the black community.

The West Texas Times, with your cooperation, will attempt to determine exactly what the ten most important problems are—according to the black people.

We realize there are problems in Lubbock as well as the entire West Texas area which confront black people daily. Many times these problems create other problems, stacking frustration upon frustration and continuing to add to the agony and despair of the black community.

A questionnaire will appear in this week's edition of the Times. If everyone would take a few minutes of their time to fill out the questionnaire and mail it back to us, we can begin to put together a composite picture of what the blacks really feel are the most important, or most pressing problems. Just a few minutes of your time, and a six-cent stamp, may well help us to prove to many people that the same problems do not exist or weight as heavily on one segment of the population as it does on another. This is our aim, to be able to present a complete picture of what the Negro citizens feel and not what someone else in some other area "thinks" the Negro citizens feel.

The problems could range from employment to pollution. The most important thing to remember is that the problems you list are the ones you believe to be the most pressing—from your point of view!

We would encourage every black person in the West Texas area to express themselves in this survey. If there are not enough forms to go around in your area or community, have people fill out their ideas on a piece of note-book paper—the form is not what is important, the ideas, and answers are what we are looking for. The returned forms must be postmarked no later than Sunday, February 7th, 1971, in order to be effective. Please cooperate in this project, and help us help the black communities all over the West Texas area.

No matter what the problem may be, list them all. Your problem maybe one which will effect all of us in some way. We'll be looking to hear from a great deal of our readers, and we certainly will publish the results as soon as possible.

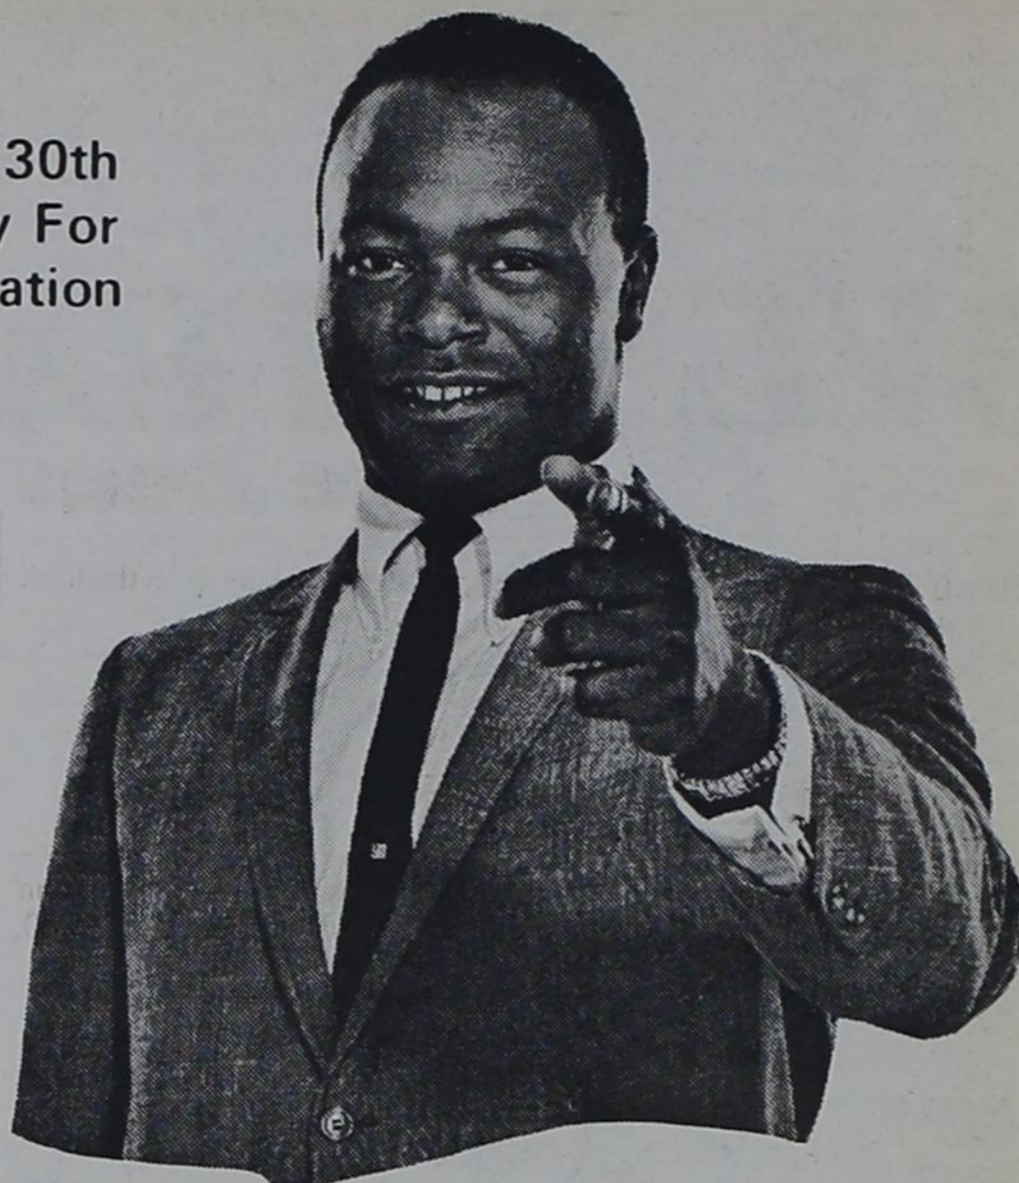

"We Love The West Texas Times"

by T. J. Patterson

It was an interesting day last Saturday when I had the opportunity, along with Eddie Richardson,

Saturday, January 30th Is The Final Day For Voter Registration

VOTE... and the choice is yours!

DON'T VOTE... and the choice is theirs!

REGISTER... or you have no choice!

author of "My Views", to visit with West Texans in the Lorenzo, Ralls, Floydada and Plainview communities. We talked to a lot of people and they all were quite happy over the West Texas Times. In other words, the saying of the day was: "We love the Times."

In our efforts last Saturday, there were thirty-one black citizens of West Texas who renewed their subscriptions or became a new subscriber to the "Times."

It was a beautiful day to talk to Mrs. Annie Robinson of Lorenzo—who admitted loudly, "I love the Times", or chat with T.L. McQueens of Ralls who became a new subscriber. To have an opportunity to talk with George Jones of Plainview and hear Mrs. T.V. McAdoo tell of her experiences with the weekly black news media was really a wonderful thing. It makes one want to continue to work hard.

It would be hard for some of our readers to imagine the type of hospitality we received while in those various West Texas towns last Saturday.

Without any doubt, one has to really experience the opportunity of walking down the streets of those West Texas communities to really get an idea of what these people say about the Times. It's too bad we didn't have more hours in the day to visit with our friends there. In fact, we're already planning to return and visit with more of our brothers and sisters there.

What lovely readers the Times has. This is why we try hard each week to continue to inform the black citizens of West Texas on what is happening. All of you have our pledge we will continue to work hard for you. Not only by informing you each week through the Times, itself, but we will be in your area often, to visit with you—the wonderful citizens of West Texas who make it possible for us to continue to inform our many black readers.

We're glad we had an opportunity to get together last Saturday. We're also glad you "love reading the Times." You're beautiful people and we enjoy working with each of you every week.

It Could Really Be Beautiful

by Eddie P. Richardson

On a short, get-acquainted trip through Ralls, Crosbyton, Floydada, Lorenzo and Plainview last week, T. J. Patterson, the editor, and I made last week, we uncovered some very interesting challenges.

After that trip, I can see some very interesting potential. That of bringing blacks together, in all of West Texas and part of New Mexico, through some sort of cooperation and communication.

By blacks uniting themselves in each city in the West Texas area and setting up a communications system with each other, exchanging ideas and experiences, over a period of time we could witness total unity of purpose and community advancement for each city—as we advance individually.

This newspaper, the West Texas Times, could play a major part in this by relaying the West Texas and Eastern New Mexico black message to all concerned.

I can also see a strong political force from all levels, local, city, county, state and even national if a united 10% minority working together could be a negative vote to anything we do not want and a strong supporting force to anything we do want. This could really be beautiful if it could be worked before the next elections come up.

There certainly is a lot of work to be done, yet it can happen if what we saw Saturday is any indication of what the people we talked to really do desire. Everyone seemed to be ready to build communication across the entire West Texas area.

Our reception in every community was wonderful. We were well accepted, and everywhere people were talking self-help and better communications with the neighbor blacks in the surrounding areas.

They all made it clear that the West Texas Times could play a major role since it is the only black media in the area. T. J. and myself will be doing more visiting with the people in the area towns from now on, and certainly on a more regular basis. No one can really tell what may come. It really could be beautiful!

In the meantime, while she was looking for help, the unknown person took \$151 from her beige wallet.

Theft By Relative

A Lubbock man told police that he had problems with one of his nieces one day last week. You see, the man went to a local apartment complex to get his relatives to help him haul some trash.

His relatives agreed to help him in his chore and went with him. After completing the tiring task, they came back to the relatives' apartment and had a few frinks. The uncle, however, had a few too many and because of that he passed out. He didn't remember what happened while he was out, but he does know his wallet which contained \$220 was missing when he woke up.

How about that for the love of relatives?

Black History—1971—The Association for the Study of Negro Life and History has announced the 45th celebration of Negro History Week, February 7-14, with the theme, African Civilization and Culture—A Worthy Historical Background.

The Association is also making available its 1971 Study Kit containing a wealth of materials that would be of general value to our readers or anyone interested in black history and of special value in the planning of Negro History Week Programs and observances.

Of special interest to teachers would be one booklet in the kit, titled "Suggestions for the Teaching of Negro History." This booklet contains art projects, several dramatic features, and an African teaching unit. Other materials included are reference and research lists, maps, and separate booklets on African history, religion and art. Twelve examples of African art are suitable for framing.

From the brief account of the kingdoms and empires and the progress made by African peoples, starting knowledge may be obtained of how the black man lived in his native environment.

The Association is a registered non-profit organization dedicated to study and research of lost, strayed or stolen documents of invaluable aid in learning of the deeds and contributions of the world's black masses to world culture.

In connection with the observance in the Permian Basin, a black History Exhibit and Tea is scheduled for February 14th, at the Sands Motel in Odessa. It will be the Fourth Annual Observance.

First Black Citizens West—If readers should know the name of some of the first black families or citizens who came to Midland in the early days; or Odessa, Crane, Monahans, Kermit or other area points, please drop the information to me in care of this newspaper. For a start, Buck Harris of the Waddell-Blank Insurance Co. in Odessa believes that a Dr. Gibbons, M.D., employed as a maid one of the first Negro women to live in Odessa. Leroy and Pinky Walker were very early settlers, too. More Later.

Black Profiles of Courage and Inspiration—"While we should strive to maintain the goodwill and encouragement of all ethnic groups in our community, black people must do more for themselves than in the past," believes one successful sepia businessman in the Permian Basin. He is George White of 602 Wabash Street in Odessa and one who has successfully operated a well-equipped and modern laundromat service on East Murphy Street for nearly six years.

White came to Odessa some twenty years ago and during his stay in the Armed Services for some three years, saw Europe, Africa, Germany and France during World War II, confessed his biggest problems as a black man greeted him on his return to the states.

George White's advice to the younger generation (he has four ranging in age from nine to fourteen) is "young people must prepare themselves well as they have opportunities our generation didn't have and the doors are slowly being opened." For eighteen years, he was a trusted employee of the Scott Theater and "they paid me well for a job I tried to do well," he adds.

White is a loyal member of Rose of Sharon Baptist Church and Democratic Chairman of Precinct 43, finished high school and took a swing at college for one year (Texas College) at Tyler. He was born in Henderson, Texas. He is married to the former Etta C. Jones of Henderson.

He admits that housing is a major problem for blacks in the community but says "our greatest need is better jobs so that we can afford them,(houses)." Rather practical thinking we would say. He likes to fish and hunt and working for himself, saying that his vacation is hardly more than one week in the year.

Bellringers Inquire—To N.T., Yes, I attended the Gerald Kirk lecture sponsored by the Midland-Odessa Support Your Local Police Committee and held in the Ector High School Auditorium in Odessa last week. The 22-year old black boy is a good speaker and energetic as he spoke for more than an hour with no questions asked from the public. Blacks in West Texas are more interested in jobs, housing, education, etc., than they are in some of the issues raised by the former University of Chicago lad.

Until later, thirty and Peace Brother!

Friends of LCC Mark 67th Wedding Year

Loving God, sharing that love with each other, and passing it on to as many others as possible is the secret of both a long, worthwhile life and an enduring, happy marriage according to Elmer and Florence Johnson, both 88, who celebrated their 67th wedding anniversary on January 10th.

"Hard work and plain old good neighborliness are also important," Elmer Johnson added.

The comments of neighbors, friends and strangers, who stopped by the Johnson farm at McAdoo, Texas, to extend their congratulations, made it evident that the Johnsons really believe in their secret formula for a good, long married life—and practice it!

One of the Johnson's neighbors summed up the visitors' feelings: "You can't help but be a better person once you've known the Johnsons."

Among the Johnson's wedding anniversary visitors was a group of students from Lubbock Christian College. They brought the Johnsons an Anniversary Cake and serenaded them with the religious music that first brought Elmer and Florence together, in 1901, at a Benton, Texas, "singing school" conducted by Florence's father.

In turn, the LCC girls got some old fashioned homemaking advice from Florence Johnson, and the LCC boys got a short course in farming from Elmer Johnson.

Then, with the enthusiastic assistance of several neighbors, the Johnsons gave the students a tour of their farm.

Some of the students were residents of Johnson Hall, the Lubbock Christian College boy's dormitory that was named in honor of the Johnsons.

Active supporters of Lubbock Christian College from its beginning, the Johnsons deeded their 160-acre farm to that school on March 12, 1969.

"We didn't get much education when we were young," Elmer Johnson explained, "but we know how important a good Christian education can be to the future of today's young people."

"It makes us very happy to be able to share in their education," added Florence Johnson.

Lubbock Woman Recovers Purse Sunday

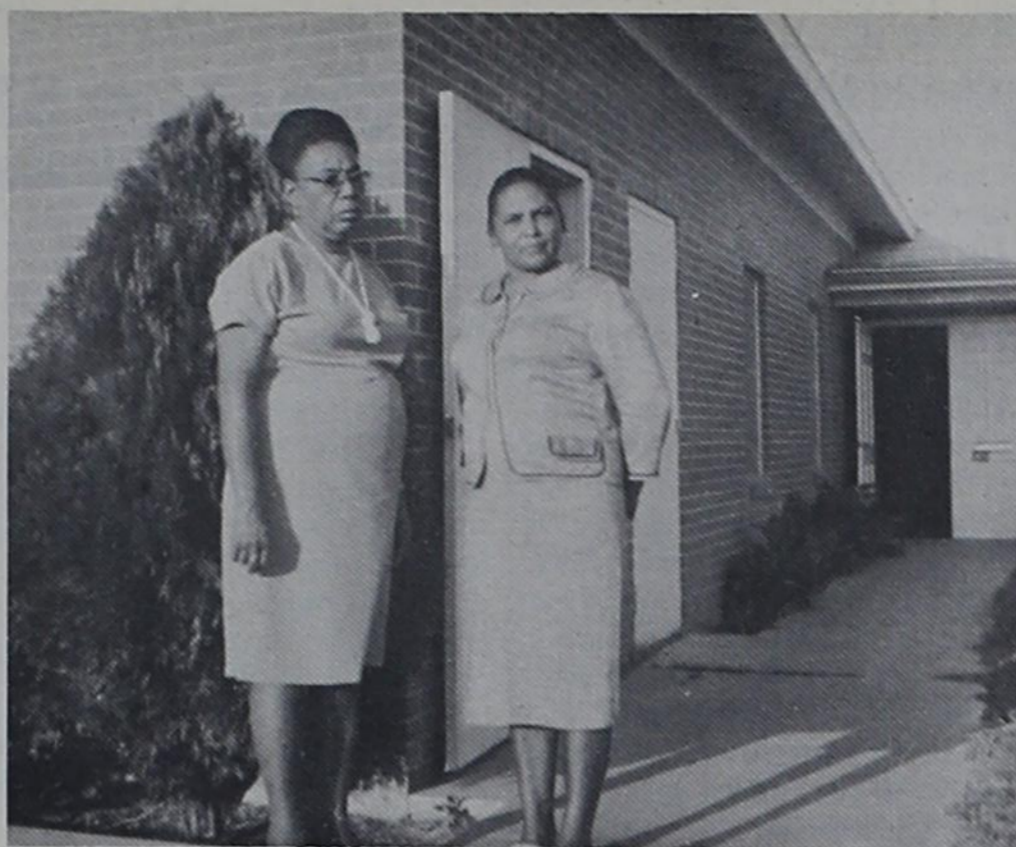

Mrs. Sug Johnson thoughtlessly left her purse in the car of a friend last week. The friend resides in Muleshoe, Texas. Besides a sizeable amount of cash, the purse contained important prescriptions, medicines and credit cards and papers.

Sug, with a driver, dashed to Muleshoe, found the man—a Mr. Walter Williams, who had by that time discovered the purse, and was glad to return it to its owner with all the contents in tact. Sug breathed a prayer of thanks to God that there were still honest men and women around.

AMARILLO

From My Scratch Pad

by George Parrish

Mrs. Marvin Parker and children left recently via air plane to join her husband who is stationed in Athens, Greece.

Mrs. Nancy Clayton of Oklahoma is visiting her sister, Mrs. Carrie Harris of 1104 N. Hughes and Mrs. Jackie Osborn.

Mr. and Mrs. H.R. Jerry of 1625 NW 15th had as their guests Mr. and Mrs. Caleb Jackson and daughter, Crystal. Mr. Jackson has been stationed in Holland for the past four years in the Air Force. The family is now living at Lake Air Force Base in Nevada.

Rose Evelyn King, daughter of Mr. and Mrs. Melvin King of 1106 NW 19th, has been elected to the 1970-71 Who's Who among students in American Universities and Colleges in recognition of outstanding merit and accomplishment as a student at Prairie View A&M College.

I saw this in the Swisher County News and thought it was worth passing on to our readers. The editor's note stated; "The following was written by Jesse Dwaine Grantham, son of Mr. and Mrs. Jesse Grantham of Dalhart, formerly of Happy. Petty Officer Third Class Jesse Grantham is a 1967 graduate of Happy High School and is serving on the USS Independence in the Mediterranean. The writing reflects his feelings toward his home, family, freedom, and American Heritage. Peace? When? Where?"

Many nights I've spent on this grey ship
Wondering
Why am I here?
While my beautiful home
And loved ones are so far away.
But each time I ponder this question
The same answer pops into my mind
If I were not here
Would my home still be beautiful?
Would my loved ones still be happy and free?
Each time I think of this
I'm happy and proud to be an American
I'm sad because the world cannot enjoy
The beauty of peace.
However, glad I am that these useless wars
Are here and not at my wonderful native land
But wait-what's this coming across my mind?
A band of young people with shoulder length hair
Yelling, "Peace, Peace"
And making the symbol of peace with their fingers
On their outstretched arms.
How can they scream "Peace" and yet be violent?
How can we have world peace
When we have no peace at home?
I'll tell you friend,
I like my freedom
That my forefathers fought to acquire
That today's young generation
Is fighting to destroy.
Let them come to where the 'action' is
When one knows not whether tomorrow will come
To these people who envy us our freedom
Let them see the world where peace is needed
But one thing we must acquire
To gain peace throughout the world
And this is
Peace at home!

CHURCH SERVICES

Parkway Church of The Nazarene

There will be a revival crusade staged at our church during the week of February 1-7, 7:30 nightly, at 408 North Zenith.

Reverend Warren A. Rogers, of Kansas City, Mo., will stage the revival for us. Rev. Rogers is well known in the Church of the Nazarene. For over a quarter of a century he has appeared in camp meetings and revivals in all parts of the nation.

Mr. Rogers is more than a great singer and musician. He has a definite call to preach and God has richly blessed his ministry in sermon and song. Three songs credited to Mr. Rogers' origin are "I Will Mind God," "Praise God for Full Salvation," and a recent composition entitled "Others."

Everyone in the community is invited to attend these evening revival services.

Greater Saint Luke Baptist Church

Our annual Forrest Day Dinner will be held the third Sunday in

The group welcomed a new member, Mrs. Laura Skief. The members are interested in the community welfare and personal needs of the unfortunate. One project, "A Can each Meeting", is being conducted and put in storage until needed.

Mrs. Williams was a charming hostess and the meal was delicious and they witnessed a very delightful evening. The next hostess will be Mrs. Ann Watley.

His father had to retire for health reasons; his mother is one of the leading beauticians in the city. His only sister, Bernedette, is a student at E.C. Struggs Junior High School.

Prayer Corner God's Love Seeks and Saves by Berta L. Dixon

For the Son of man is come to seek and to save which is lost. A shepherd not satisfied with 99 searchers is diligently until it's found. Love is clear, The recreation you received becomes a Christian appreciation. We must show concern for others. The world is cruel, hard and heartless. At times you have no friends. People often say they have no sin. If we say we have no sin, then we are deceiving ourselves.

A nation with the kinds of individuals we have can't sleep at night. Others wonder why so many feel guilty. Maybe it's because they are guilty.

The signal from heaven stretches His arms out for our forgiveness. He welcomes all of us. As one black person of Mt. Gilead Baptist Church may God forever bless and keep you always. Amen.

Johnson Chapel A.M.E. Church
