

'Around the Hub City'

There are two elections scheduled for this week and next. On Saturday, April 2, the School Board Election will be held. On last year less than 3,000 people out of the possible 19,000 qualified voters participated in this particular election.

The School Board election---which should be considered by all registered voters as an important one---has eight candidates running for two different places.

The City Election which on the other hand is also important, and too, should be given careful consideration. This encounter is on tap for Tuesday, April 5th.

"AROUND THE HUB CITY" urges all registered voters to get out on these designated days and exercise your right.

PROGRESSIVE LOYAL LIGHT LEAGUE ORGANIZED

Greetings from the Progressive Loyal Light League!! This league was organized on January 3, 1966. Mrs. Alvin Wright, the founder of this league, called a group of women into her home and as a result this organization was formed.

Mrs. Prudie Wyatt, a state organizer from Houston, (pictured in the center) was called by Mrs. Wright to Lubbock in order to install the officers. Her request was granted.

On Sunday, March 20, Mrs. Wyatt arrived in Lubbock and the

infant league attended the 20th & Birch Church of Christ eleven o'clock service.

Afterwards a luncheon was held at the lovely Pancake House (the photo above was taken there) and at six o'clock the same day the installation of officers was held in the home of Mrs. Wright.

Everything proved to be quite successful during the installation.

Mrs. Myrtle Williams accompanied Mrs. Wyatt and Mrs. Wright on a sightseeing trip throughout the city of Lubbock. One of the most interesting sites that the

Rev. John Walker, pastor of the church, has informed the "Times" that a full-time social worker, Miss Pat Nelson, will be on hand to promote the program. It was also learned from Rev. Walker that fifteen local and well known physicians would work with the program, plus the use of nurses from the School of Nursing at Methodist Hospital.

The clinic, which is scheduled to open on April 15, will be open each day, Monday through Friday from 8:30 a.m. until 5:00 p.m.

## JUNKED CARS NOT WANTED

The sun-kissed streets and lovely yards of (once) beautiful Lubbock have been turned into an insightfully and disgraceful graveyard for many lifeless motor vehicles. These abandoned vehicles, many of which are without wheels, glasses battered, motores removed, stripped of accessories, may be found throughout the City of Lubbock, with the majority to be found in the predominately Negro sections.

Many of these corpses may be found in the City Limits area alone; the major portion which are in the near promimity rental and apartment buildings. Most of the off-street parking areas provided for residents of these apartment buildings plus many who are owners of their own property are cluttered with abandoned vehicles.

An organization in the City of Lubbock, Citizens Organization Group Service Committee which is an infant organization composed of citizens of our city who are concerned about the welfare of their community, is presently in the process of removing many of these dead cars from these areas. Incidentally, this particular organization will meet tonight in the auditorium at E.C. Struggs Junior High School, at 8:00 p.m., and all interested persons are invited to attend.

It appears as though there should be some means of combating this problem since we are all concerned about the beautification of the "Hub City". Perhaps our city fathers could declare a state of emergency and put forth every possible effort to come up with a permanent solution.

Let's do something about our community before we are critized by other communities. One thing is for certain, this is a problem that one organization or one individual can't solve, but we can if we become more interested in the welfare of our community.

## ONE OF THE BEST

One of the best meetings to have been held in East Lubbock was held on last Sunday afternoon in the Banquet Room of the Plains Cop Oil Mill when the majority of the candidates seeking office on the School Board, City Council, County Commission, and one state candidate spoke their peace to some fifty representatives from East Lubbock.

This was, without any doubt, one of the most interesting meetings that has ever occurred. It is perhaps one of the most colorful meetings that involved a group of concerned Negroes.

Although all of the candidates who were invited did not attend, those present were very much appreciative of the invitation. The questions asked by the concerned voters, to be honest, were strictly up to par, and we may add that there was no "dubbing", really kept each office seeker on his P's and Q's throughout the interrogation.

This special effort was a good omen to the future of cooperation among the citizens of East Lubbock. It was one giant step that should do down in the history books, and, of course, one that should constantly be repeated regularly.

One thing to note especially about the meeting was the number of young men present. It gave new hope that our young people are concerned about the welfare of their community as well as their city.

All of this was good on last Sunday at one of our best, but the question which should be answered is: "Will we have another best?" Any way let's hope for dam sure...

## TEENAGERS TAKE INITIATIVE IN NEW PUBLICATION PRODUCTION

Chicago--NPI--For the first time in the history of the nation, Negro teenagers from every part of the country are becoming involved in a project destined to gain them entrance into the world of business, entertainment, journalism and the rewards fo having been part of a gigantic movement.

The movement, as it were, is not a protest of any sort and the teens are sending in their application forms at the rate of 140 per day with no such thoughts in their minds.

They are merely interested in becoming a part of "The Word", the new entertainment newspaper that will eventually be completely operated and produced by them.

Lee Ivory, producer of the paper, began working on the project three years ago, while serving as publicity writer for Motown Record Corporation, Detroit.

Teaming with singer Oscar Brown, Jr., comedian Dick Gregory and Johnny Nash, president of his own recording firm, Ivory began a series of moves designed to bring his dream to fruition with very little actual cash.

"The dedication of entertainment writers around the nation is something truly wonderful to behold," said Ivory. "Many of the writers who will be working with us on 'The Word' have given many hours of support and actual legwork with on financial rewards to themselves".

Those who have participated so unselfishly include Artice Vaughn, Houston; Gene Robertson, San Francisco; Anita Lewis Polk, Cleveland; C. Deggans, Gary, Ind.; Masco Young, Philadelphia; Jimmy Byrd, Boston; and Stan Taylor, New Orleans.

High School representatives have

## Manpower Shortage Indicated As Negro Unemployment Remains

A shortage of manpower is said to exist, despite the fact that the unemployment ranks of the Negro remain at an abnormally high level. Such a shortage was indicated in a 229-page document sent to Congress recently by President Johnson.

The message pointed out that the booming economy has reached the point of particular significance where the nation is "scraping the bottom of the manpower barrel."

The tightest job markets are in the Great Lakes region--Chicago, Detroit, Milwaukee, and Cleveland--where heavy manufacturing is centered and unemployment is estimated below 2.5 per cent.

A different picture is presented in New England and the West Coast--Los Angeles, San Diego, and San Francisco. The availability of workers is looser, though joblessness still remains at seven per cent among Negroes.

The most serious challenge ahead for government and business is in providing workers with proper skills to fill available jobs. Some progress toward alleviating the paucity of skilled workers is evidenced throughout the nation.

Whitney M. Young, Jr., executive director, National Urban League, said, "Generally unskilled or semi-skilled Negroes have found a narrowing market for their services in an economy that emphasizes automation, education, and skilled labor."

In New York, Peter J. Brennan, president, Building and Construction Trade Council, said Negroes and Puerto Ricans were needed and would be welcome in the building trade.

In Sacramento, Calif., 10 Negroes are now working at local race tracks as pari-mutuel clerks. This is a reversal of the ban on Negroes working in this capacity.

In Chicago, federally assisted training programs will be held, focusing on easing manpower shortages. Young Negroes were urged by a Masonic Eastern Star lodge to stay in school and to seek special training to take advantage of job opportunities now opening to them.

On the other hand, in Mississippi, the International Chemical Workers Union charged a Mississippi firm with gross inequities in pay for Negroes and whites performing the same work.

The suit said Negro employees

been appointed in some of the major cities and some city chairmen have been selected. The role of adult advisors will be filled shortly, but care is being taken to insure the teenagers complete freedom in their work in their respective cities.

Teen response has been nothing short of wild! They eagerly await the first publication date and many have already submitted samples of their writing which will be included in the debut edition.

"The structure of command will be in favor of the teenagers," said Ivory. "It's their newspaper and they are going to run it whether I like it or not."

## Cattleman First Negro Deputy in Alabama

Eutaw, Ala. -- NPI -- Howard Brown, 45 year-old wealthy Negro cattleman, took office as Green County deputy sheriff, chalking up a first for a member of his race to hold such a post.

Brown, well received on his first day, commented: "I have had several congratulatory calls from both white and colored."

His appointment, called a "political trick" by his Negro opponent for Democratic nomination in the May 3 primary, the Rev. T.E. Gilmore, came through Sheriff William E. Lee.

Said the sheriff: "He'll make arrests just like the other deputy I've got".

Phoenix, Ariz.--NPI--Lending support to the two-year-old National Achievement Scholarship program, Humble Oil and Refining Company recently presented its first four-year award to 17 year old Ernest E. Nedd, Jr. The youth is an officer of the National Honor Society Chapter and senior class president, Phoenix Union High School.

Ernest, named Humble's achievement scholar "in recognition of superior academic performance and outstanding promise for future scholarship achievement", is the son of the Senior Nedd and the only 1966 Arizona winner in the program, the same independent nonprofit corporation which administers National Merit Scholarships.

Ernest's sister, Pamela, was named a National Achievement scholar in 1965 and now is in her freshman year at Arizona State University.

Young Nedd, among about 1,000 achievement-program finalists from all over the country, also was president of his sophomore class and class vice-president in his freshman and junior years.

He also enjoys the distinction of serving as Speaker of the House at the 1965 Arizona Boy's State

and was one of two high school students representing Arizona at the U.S. Senate "Youth Program", in Washington earlier this year.

He aspires to attend Brown University and is undecided between whether to choose engineering or political science as a major.

## Your Good Health

### NEGRO PRESS INTERNATIONAL SINUSES

Every cold or rhinitis or allergic organ might be called a package deal. The inflammation is not limited to your throat or nose, but extends into the air spaces in your skull--called sinuses.

These spaces are connected with your nasal passage through small openings. Inflammatory swelling often blocks the normal flow of mucous secretions from the sinuses into the nose.

When this happens, the air in the sinuses is gradually absorbed and a partial vacuum is created.

This causes an aching pain above the eyes when the frontal sinuses are involved, below the eyes when the maxillary sinuses are involved, and between the eyes when the sphenoid or ethmoid sinuses are involved.

Furthermore, the mucous in the sinuses becomes thick and yellow and accumulates, giving your head a stuffy feeling. These secretions are especially apt to accumulate during the night.

For this reason, sinus headaches are always worse in the morning. After the victim gets his head cleared out, he is often fairly comfortable for the rest of the day.

You should, however, avoid violent blowing of the nose because this may force infectious matter into the sinuses and prolong your illness. You should

also avoid excessive use of nose drops or sprays because this irritates the mucous lining of the nose and sinuses.

Nasal decongestants give only temporary relief. They should not be used more than once or twice a day, because otherwise their effectiveness wears off and they stimulate rather than relieve the congestion.

When an acute or chronic sinusitis fails to respond to the usual home remedies, an operation to reestablish normal drainage may be necessary. Without unobstructed drainage from your nasal sinuses, there can be no hope of a cure.

**SHEPPARD AIRMAN RECEIVES 'BIG BREAK' ON RECORDS**

Sheppard AFB--Success in any endeavor requires talent, but getting that "big break" can sometimes remove any obstacles along the road to fame and fortune.

Just such a break may be in the offing for A/3c James A. Miller, 3785th Student Squadron at Sheppard Air Force Base.

Airman Miller recorded two songs prior to his enlistment in the Air Force in November 1965. One of the songs, "On a Back Street," was in the top 75 songs nationally. The flip side, "Break My Heart, Break," has become so popular in Germany that the Contrapoint Recording Company in New York wants him to re-record the song in German.

The airman has been granted leave to fly to Germany where he will receive full television exposure. A recording session there has been scheduled for March 28. He will be traveling in an unofficial Air Force capacity and the trip will be paid for by the German sponsor.

"On A Back Street," released in September 1965, was supposed to be the prime side. But when the record died out here, Contrapoint released the record to contacts in Germany, where "Break

My Heart, Break" became a big hit.

Born in Richmond, Va., Airman Miller began singing in choirs at the age of nine. While attending Richmond High School he formed a quintet called "Jimmy Miller and the Delmarks."

On graduating from high school, he accepted a scholarship to Howard University where he studied electrical engineering.

A victory in the Washington area Inter-Collegiate Talent Contest prompted Airman Miller to interrupt his college studies for an attempt in show business. While singing in various clubs in East Orange, N.J., he was "discovered" by Walter Gollender, owner of a small recording studio in Bloomfield, N.J.

Recognizing his potential, Gollender sold his contract to Contrapoint, a bigger organization with more contacts in the field.

Airman Miller said he doesn't expect to have much trouble with the German language. He studied it for two years under a retired German professor while in high school. Since then Kuno Swanholtz, president of Contrapoint, has helped him keep proficient.

The 21 year-old airman expects to begin training in nine weeks in

the Site Development Course, Department of Civil Engineering Training at Sheppard Air Force Base. Currently he is drum major for the Drum and Bugle Corps. He wears the expert marksmanship ribbon (67 out of 70 on the M-16), and has applied for the Airman Education and Commissioning Program. He wants to continue working for his degree in electrical engineering, regardless of how he fares in "show biz."

In his spare time he entertains at both the Airman's Club and Service Club. He and a group of airman musicians are attempting to form a group to be known as "Jimmy Miller and the In-Crowd." Airman Miller is a member of the American Guild of Variety Artists.

The same hours, 8 a.m. to 5 p.m., will be observed at the old Plains National Bank Building, 2201 34th Street, where ample parking space is available for persons seeking to register vehicles.

Registration windows at the county tax office as well as the others station will remain open through the lunch period.

## TWENTH AND BIRCH STREET CHURCH OF CHRIST

A lad was asked what he would do with his youth. He pondered awhile then gave several answers:

I'd work to get enough money so that I could rest well when I get old; I'd travel all over the world before I get too old. He finally said, I'll use my youthful energy and have all my fun before I get old. When I get old, I'll be of no use.

Unfortunately these are the answers of typical young men and women. Likewise, unfortunately, many young men and women never live long enough to see their youth. How about those of us who have been blessed by God to re-

main among the land of the living? How are we using our youthful energy? How does God want us to use our energy? Christ has the answer.

Attend the Young People's Gospel meeting April 24th through 29th nightly at 8:00 p.m. Hear John Green deliver Christ to the YOUNG at 20th & Birch Church of Christ, George Harris, minister.

## MT. VERNON METHODIST CHURCH

The Mt. Vernon Methodist Church held its second Fellowship Dinner at the Community Center on Sunday evening, March 20.

The Reverend M. T. Reed is pastor.

This being the fourth and final quarter of the year, the District Superintendent, the Reverend M. L. Truman, was present. He was the guest of honor at this dinner as he has served the prescribed six years and will be leaving the district.

Mr. D. C. Fair, Jr. was the master of ceremonies of the most enjoyable program and Dr. J. A. Chatman was the speaker of the evening.

Others appearing on the program were Mrs. Susie Moore, Mr. Clarence Priestly, Mr. George Woods, and the pastor, Rev. M. T. Reed. Music was furnished by the choir under the direction of Miss Mattie Rutherford.

The superintendent was presented a lovely gift from the members of the church. He expressed his deep appreciation and for the fine cooperation the church has given him during his stay on the district.

More than one hundred persons witnessed the delightful occasion.

### FLEXIBLE REASONS

Seems to be rather odd phrase to employ when pointing to the traditions suggesting which wines to serve with which foods, but these suggestions are reasonable and flexible.

Wine-tasting at home and pairing foods with wine are popular ways to entertain--white dinner wines and Rose (re-ZAY) are paired with fish, chicken and turkey; red dinner wine and Rose with beef. Cheese and fruit are usually accompanied by desert wines (the sweetest wines).

However, guests should be encouraged to experiment with other wine-and-food combinations to determine which they, personally, prefer.

The tasting, like the "rule," is over-simplified. "White wine with white meat, red wines with red meat," tradition decrees. For example, cook chicken (a white meat) with tomatoes, onions and green peppers, and a white wine is most likely not the preferred wine.

This is where flexibility of the rule shows up. You might fine a burgundy or claret or a Rose, a much more pleasant choice. Rose has the light, delicate quality of a white wine, the color and agreeable tartness of the red--it is the most versatile wine in the world, in many connoisseurs' opinion.

To test the flexibility of the wine--and food rules, you might prepare the same dish on two different occasions, using a different wine each time.

Spicy Chicken with Fruits is ideal for such an experiment. The traditional wine to use in this recipe and, as an accompanying beverage, is a white dinner wine like California Sauterne or Chablis. Rose, however, is particularly good with it because of the fruits that surround this delectable, taste bud-tantalizer. The recipe serves six. You'll need:

One five lb. roasting chicken; salt and pepper, one onion, peeled and halved; two stalks celery, halved; one-fourth cup melted shortening (half butter); three-fourths cup syrup from spiced fruit such as pears, peaches, figs, watermelon preserves; one-fourth cup wine vinegar; one cup California Chablis; one-fourth teaspoon powdered rosemary or ginger; assorted spiced fruits.

Season inside of chicken with salt and pepper. Insert onion and celery in cavity; truss chicken for roasting. Place in pan; brush on melted shortening and sprinkle outside with salt and pepper.

Place in a very hot oven (450 degrees) for 10 to 15 minutes, just until chicken begins to take on a color. Reduce heat to moderate (350) and roast, uncovered, one-half hour. Shake remaining ingredients, except fruits, in a covered jar until well blended.

Spoon about one-fourth the mixture over chicken. Continue to roast, basting often with remaining mixture until chicken is tender, about one hour longer. A square of foil may be placed loo-

so your group you will miss a treat.

This program is sponsored by Mrs. Edwina Woods and Mrs. Lillian Jones.

Rev. Melvin Montgomery will preach at the Mt. Gilead Baptist Church on Sunday, April 24th.

He will be accompanied by his Men's Chorus.

You will miss a treat if you fail to hear this great minister and these very talented men.

Rev. Montgomery is the pastor of Mt. Bethel Baptist Church of Big Springs, Texas.

## Elmhurst College Chancel Players To Present Play at H-TC

The Elmhurst College Chancel Players will arrive at Huston-Tillotson College Sunday, April 3, 1966. These College Players will perform Casey, by Phillip W. Turner in Mary E. Branch auditorium at 5:00 p.m. This is the fifth year of touring by the Chancel Players who have taken several religious dramas into more than a dozen of the United States.

The Chancel Players are a group of Elmhurst College students who were chosen because of their talent and also because of their interest in religious drama. The present company is composed of four women and eight men. They are directed by Charles Clifford Arends, Chairman of the Speech and Dramatic Arts department. Mr. Gary Colburn is the Technical Director.

The play Casey was chosen for production for the annual meeting of the National Council of Churches, Division of Christian Education in Louisville, Kentucky, February 11, 12, 13. It was chosen by a committee of that conference because it coincided with the theme "The Dynamics of Traditions in the Space Age."

ely over chicken the last half hour of cooking if a light brown skin is desired.

Serve with the rich pan juices (fat removed) as a thin gravy. Or for a thicker gravy, skim off all but two tablespoons of fat. Thicken juices slightly with a little cornstarch blended with cold water. Arrange chicken on serving platter and garnish lavishly with an assortment of spiced fruits.

Representatives of the Western Reserve Association who attended the Louisville meeting returned with such "glowing reports" of the play that the Chancel Players were again invited to present it at Ohio Conference, May 5, with representatives from 199 churches being present.

Casey is about the Crucifixion and Resurrection of Christ. It is not, however, merely an attempt to reconstruct events which happened faraway and long ago. All the events take place in the middle of our everyday lives. Here is Golgotha.

The play is therefore a meditation on the Passion of Christ. In this case, one takes the historical fact of the Crucifixion, and imagines one is there. Or reversing the technique, one pictures the everyday world of the twentieth century in this particular New Town, and imagines the Cross in the middle of it. The results is Casey.

Songs set to well known tunes are used, but the important thing about the songs is that the words are understood. Mr. Turner uses the technique of Bertold Brecht in underlining ideas with lyrics. However, Casey is not in any sense a musical play or a play with music.

Herein lies the tragedy of the age: not that men are poor--all men know something of poverty; not that men are wicked--who is good? Not that men are ignorant--what is truth? Nay, but that men know so little of men.

## Police Complain About Heavy Loads

Baltimore--NPI--Local police are complaining about the heavy loads they have to carry, especially when they have to take out after a suspect.

In addition to the weight of his clothing, a policeman must lug around with him some 20 pounds of equipment--nightstick, holster, pistol, ammunition, handcuffs, flashlight, tickets, and sundry items.

Police Commissioner George Gelston took a sympathetic view to the complaint. While agreeing his men needed lighter gear, he couldn't resist the temptation to quip: "Why, if one of them fell down in the rain, he'd never be able to get up".

## B. T. WASHINGTON CINDER TEAM TAKES SOONER MEET

Robinson receiving the Givens Memorial traveling trophy.

Wichita Falls--On a windy Saturday afternoon in the Sooner State, B. T. Washington's Reginald Robinson and Bruce Christian set four records that will probably be remembered for a long time.

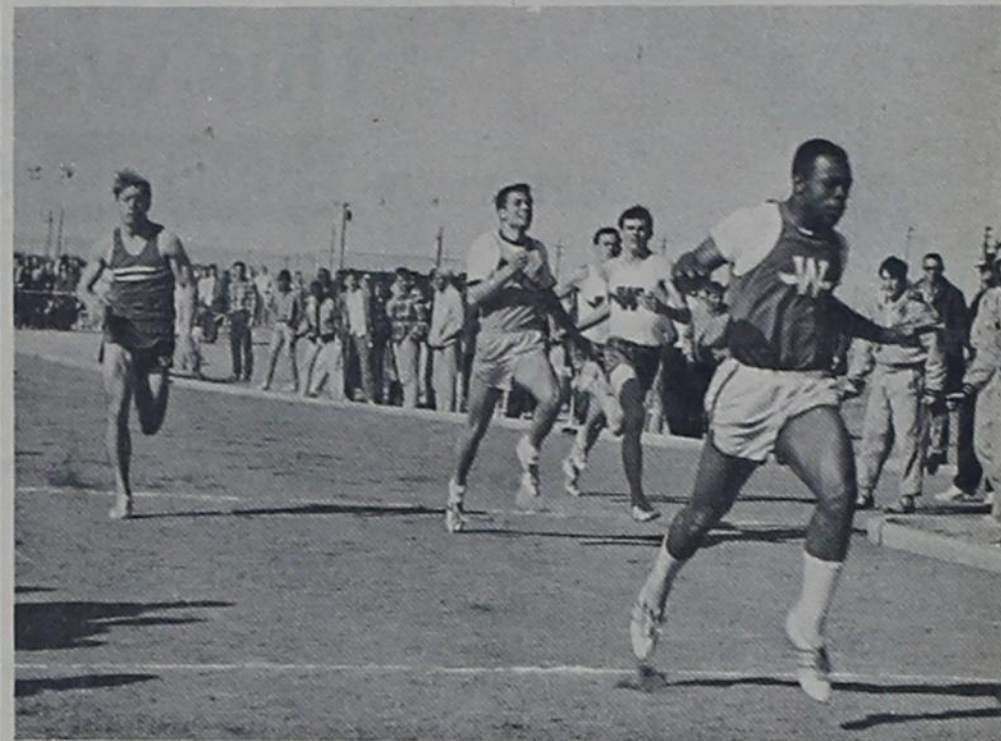

Washington's sprinter, Robinson and hurdler Christian set four records and walked off with three division trophies, including the team championship.

Christian got the record toll of 14.3 in the 120 yard high hurdles

and 19.1 in the low hurdle.

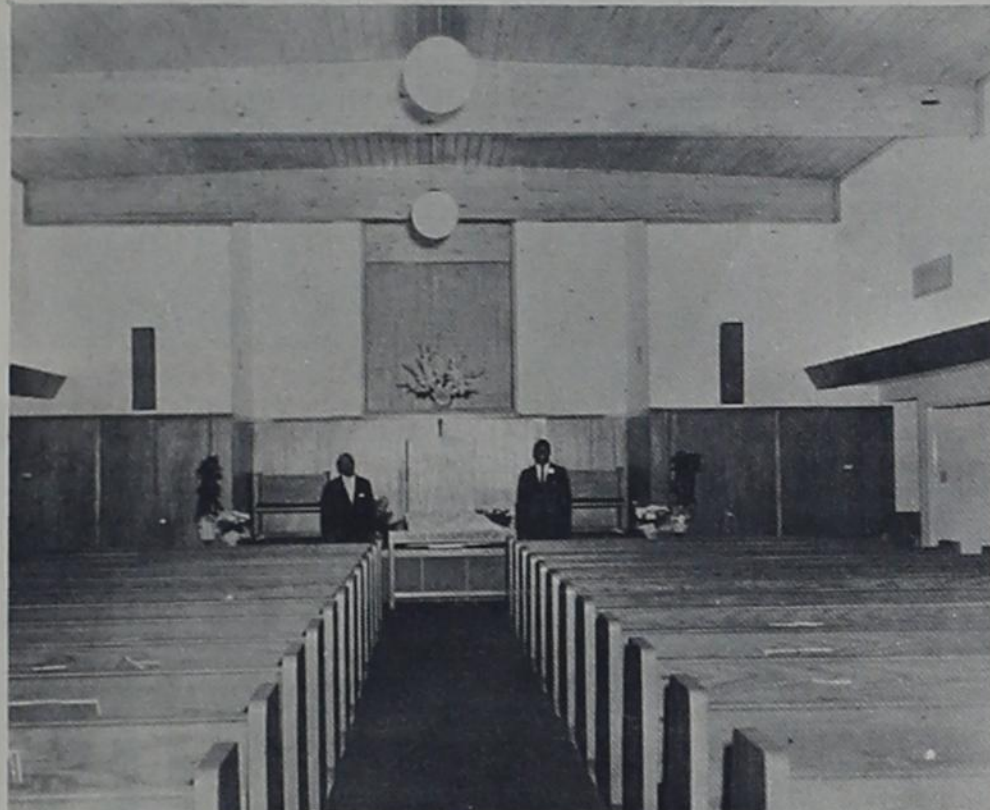

Robinson, who broke his own record in the 100-yard dash, was clocked at 9.5 and named the fastest youngster in the Texas school boy division this season. Again in the 220-yard dash, he came in first with a 20.9 time.

Along with the team of Christian and Robinson, James Colbert received second in the high jump, leaving Wichita Falls Washington out in easy first for a team victory.

### CHURCH OPENS NEW BUILDING

Wichita Falls--The Welch Street Church of Christ members and its minister, W. I. Johnson, met in their new modern building Sunday, March 20th, 1966.

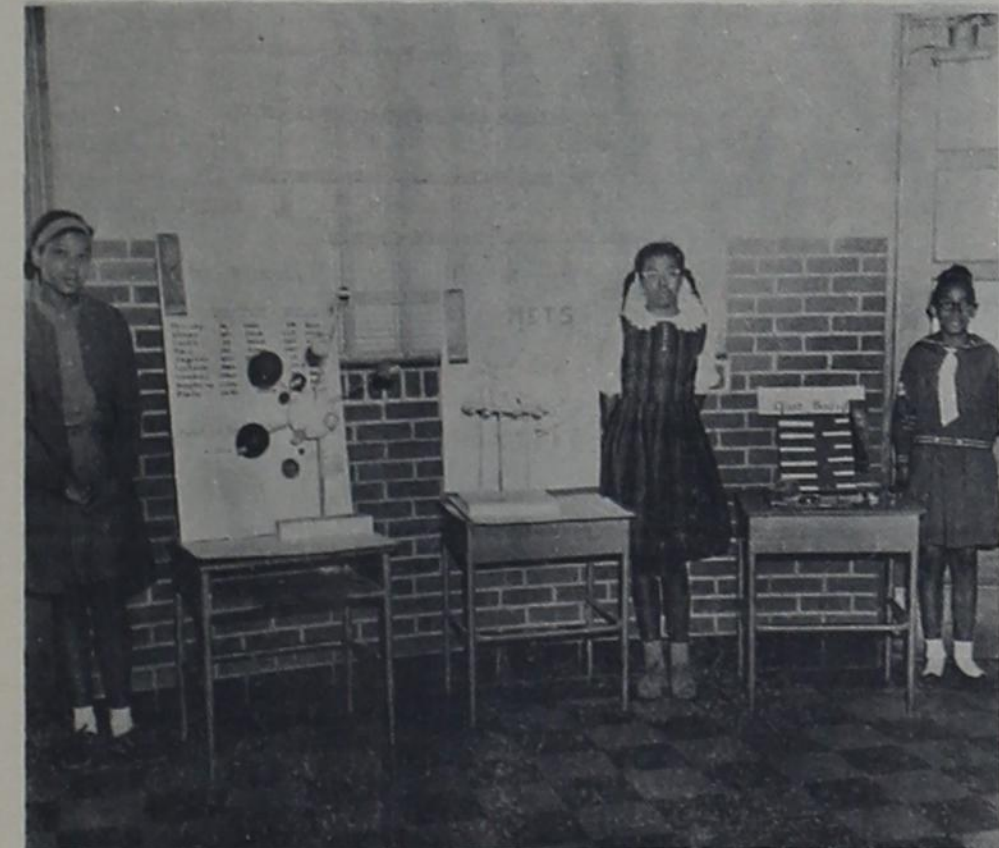

The building includes a 250 seat auditorium, eight classrooms along with a study and nursery. Walls dividing the auditorium from the classrooms can be folded to increase the seating capacity to 330.

The Welch Street Church of

Christ was founded about 40 years ago, with their first meeting held in a small building on Park Street. Since that time, the congregation has met at several other places and in homes of members, until, through the efforts of a bi-racial group, a small guilding was erected at 515 Welch Street.

About 16 years ago, the building was renovated and a minister's home built. Rev. W. I. Johnson has been minister for 12 years.

### News to Veterans

Veterans planning to go to school under the new GI BILL do not have to rush to meet a deadline, the Veteran Administration pointed this out last week after President Johnson signed the Veterans Readjustment Benefits Act 1966.

Although most benefits under the new BILL are effective immediately, the education assistance benefits will not begin until June 1, 1966.

Late in April, the VA expects to have application blanks and full information available at all VA offices and at the admission offices in most approved schools.

Veterans will have ample time to select courses and make application without losing either class time or payments from VA, according to an official of VA.

Pochin, South Korea--NPI--"Seal the border" is the present project being undertaken by the South Korean government in an attempt to keep North Korean agents from crossing into South Korea. The border sealing is being accomplished by the erection of two-inch wooden poles, eight to ten feet high, lashed together with barbed wire, strung with booby traps, and protected by minefields and machine gun nests.

#### EQUAL PAY

Sydney--NPI--Cattle ranch owners in the northern territory have been ordered by Australia's top industrial tribunal--the Commonwealth Arbitration commission--to pay full-blooded aborigines the same wages as white workers receive. The order affects only about 500 workers, but it is regarded as a victory for the "equal pay for equal work" drive conducted by aborigines working in agricultural, timber, transport, and mining industries.

#### REBUFF

Abidjan, Ivory Coast--NPI--The Ivory Coast has taken a hand in the Guinea-Ghana counter-coup plans by issuing a warning to the Guinea government not to use Ivory Coast territory as a troop movement stepping stone to Ghana. ## B. T. WASHINGTON CINDER TEAM TAKES SOONER MEET

Robinson receiving the Givens Memorial traveling trophy.

Wichita Falls--On a windy Saturday afternoon in the Sooner State, B. T. Washington's Reginald Robinson and Bruce Christian set four records that will probably be remembered for a long time.

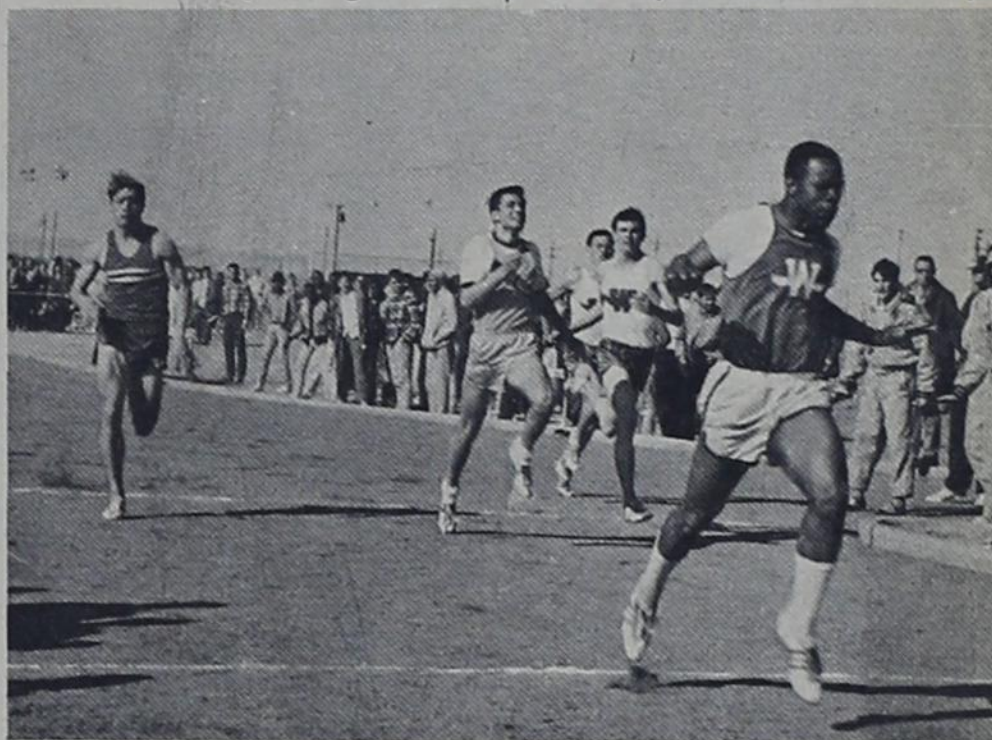

Washington's sprinter, Robinson and hurdler Christian set four records and walked off with three division trophies, including the team championship.

Christian got the record toll of 14.3 in the 120 yard high hurdles

and 19.1 in the low hurdle.

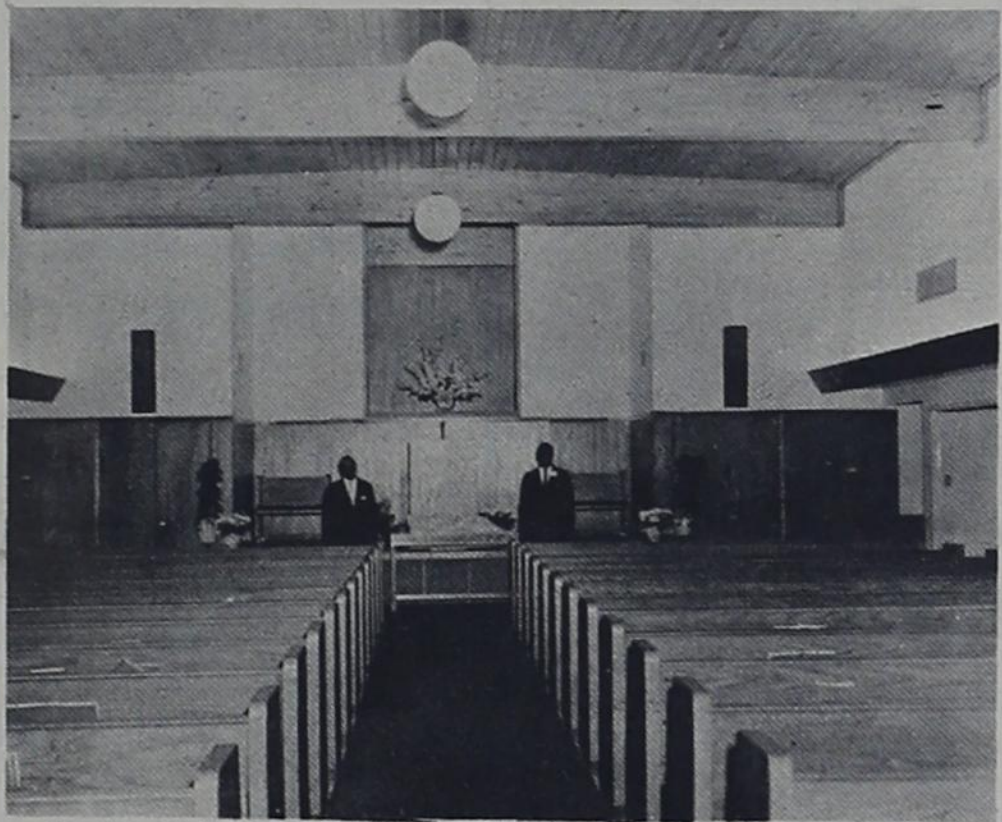

Robinson, who broke his own record in the 100-yard dash, was clocked at 9.5 and named the fastest youngster in the Texas school boy division this season. Again in the 220-yard dash, he came in first with a 20.9 time.

Along with the team of Christian and Robinson, James Colbert received second in the high jump, leaving Wichita Falls Washington out in easy first for a team victory.

## CHURCH OPENS NEW BUILDING

Wichita Falls--The Welch Street Church of Christ members and its minister, W. I. Johnson, met in their new modern building Sunday, March 20th, 1966.

The building includes a 250 seat auditorium, eight classrooms along with a study and nursery. Walls dividing the auditorium from the classrooms can be folded to increase the seating capacity to 330.

The Welch Street Church of

Christ was founded about 40 years ago, with their first meeting held in a small building on Park Street. Since that time, the congregation has met at several other places and in homes of members, until, through the efforts of a bi-racial group, a small guilding was erected at 515 Welch Street.

About 16 years ago, the building was renovated and a minister's home built. Rev. W. I. Johnson has been minister for 12 years.

## News to Veterans

Veterans planning to go to school under the new GI BILL do not have to rush to meet a deadline, the Veteran Administration pointed this out last week after President Johnson signed the Veterans Readjustment Benefits Act 1966.

Although most benefits under the new BILL are effective immediately, the education assistance benefits will not begin until June 1, 1966.

Late in April, the VA expects to have application blanks and full information available at all VA offices and at the admission offices in most approved schools.

Veterans will have ample time to select courses and make application without losing either class time or payments from VA, according to an official of VA.

### BORDER FENCE

Pochin, South Korea--NPI--"Seal the border" is the present project being undertaken by the South Korean government in an attempt to keep North Korean agents from crossing into South Korea. The border sealing is being accomplished by the erectoin of two-inch wooden poles, eight to ten feet high, lashed together with barbed wire, strung with booby traps, and protected by minefields and machine gun nests.

### NOT THE SAME

Nairobi--NPI--A misplaced or dropped initial could wreak havoc among political parties in Kenya these days. Former Vice President Oginga Odinga, ousted from the No. 2 spot for allegedly fomenting a communist takeover, immediately organized the Kenya African Unity (KAU) in opposition to the ruling KANU (Kenya African National Union) and its rival KADU (Kenya African Democratic Union).

## WASHINGTON ELEMENTARY SCHOOL WINS RIBBONS

Wichita Falls--Three Washington Elementary School students won ribbons at the Midwestern Regional Science Fair. Reading from right to left, Martha Iglehart, daughter

of Mrs. Clyde McKenzie, 1610 Ivy. Her project was a quiz board rigged in such a manner that when the board is touched next to a question with the left wire and

a circuit completed, it will answer the question with a ringing bell on the right.

Cathy Welburn, daughter of Mr. and Mrs. James Welburn, 1611 Andrew Drive, had as her project the Comets. They are the heavenly bodies that have a bright center and are usually fiery, moving in a regular course around the sun.

Vicki Fuller, daughter of Dr. and Mrs. C.B. Fuller, 1201 Harding, had as her project the planets, which are any of the large heavenly bodies that revolve around the sun and reflect the sun light. These are fifth grade students.

## JUNKED CARS NOT WANTED

The sun-kissed streets and lovely yards of (once) beautiful Lubbock have been turned into an insightfully and disgraceful graveyard for many lifeless motor vehicles. These abandoned vehicles, many of which are without wheels, glasses battered, motes removed, stripped of accessories, may be found throughout the City of Lubbock, with the majority to be found in the predominately Negro sections.

Many of these corpses may be found in the City Limits area alone; the major portion which are in the near promimity rental and apartment buildings. Most of the off-street parking areas provided for residents of these apartment buildings plus many who are owners of their own property are cluttered with abandoned vehicles.

An organization in the City of Lubbock, Citizens Organization Group Service Committee which is an infant organization composed of citizens of our city who are concerned about the welfare of their community, is presently in the process of removing many of these dead cars from these areas. Incidentally, this particular organization will meet tonight in the auditorium at E.C. Struggs Junior High School, at 8:00 p.m., and all interested persons are invited to attend.

It appears as though there should be some means of combating this problem since we are all concerned about the beautification of the "Hub City". Perhaps our city fathers could declare a state of emergency and put forth every possible effort to come up with a permanent solution.

Let's do something about our community before we are critized by other communities. One thing is for certain, this is a problem that one organization or one individual can't solve, but we can if we become more interested in the welfare of our community.

## ONE OF THE BEST

One of the best meetings to have been held in East Lubbock was held on last Sunday afternoon in the Banquet Room of the Plains Cop Oil Mill when the majority of the candidates seeking office on the School Board, City Council, County Commission, and one state candidate spoke their peace to some fifty representatives from East Lubbock.

This was, without any doubt, one of the most interesting meetings that has ever occurred. It is perhaps one of the most colorful meetings that involved a group of concerned Negroes.

Although all of the candidates who were invited did not attend, those present were very much appreciative of the invitation. The questions asked by the concerned voters, to be honest, were strictly up to par, and we may add that there was no "dubbing", really kept each office seeker on his P's and Q's throughout the interrogation.

This special effort was a good omen to the future of cooperation among the citizens of East Lubbock. It was one giant step that should do down in the history books, and, of course, one that should constantly be repeated regularly.

One thing to note especially about the meeting was the number of young men present. It gave new hope that our young people are concerned about the welfare of their community as well as their city.

All of this was good on last Sunday at one of our best, but the question which should be answered is: "Will we have another best?" Any way let's hope for darn sure...

## TEENAGERS TAKE INITIATIVE IN NEW PUBLICATION PRODUCTION

Chicago--NPI--For the first time in the history of the nation, Negro teenagers from every part of the country are becoming involved in a project destined to gain them entrance into the world of business, entertainment, journalism and the rewards of having been part of a gigantic movement.

The movement, as it were, is not a protest of any sort and the teens are sending in their application forms at the rate of 140 per day with no such thoughts in their minds.

They are merely interested in becoming a part of "The Word", the new entertainment newspaper that will eventually be completely operated and produced by them.

Lee Ivory, producer of the paper, began working on the project three years ago, while serving as publicity writer for Motown Record Corporation, Detroit.

Teaming with singer Oscar Brown, Jr., comedian Dick Gregory and Johnny Nash, president of his own recording firm, Ivory began a series of moves designed to bring his dream to fruition with very little actual cash.

"The dedication of entertainment writers around the nation is something truly wonderful to behold," said Ivory. "Many of the writers who will be working with us on 'The Word' have given many hours of support and actual legwork with no financial rewards to themselves".

Those who have participated so unselfishly include Artice Vaughn, Houston; Gene Robertson, San Francisco; Anita Lewis Polk, Cleveland; C. Deggans, Gary, Ind.; Masco Young, Philadelphia; Jimmy Byrd, Boston; and Stan Taylor, New Orleans.

## Manpower Shortage Indicated As Negro Unemployment Remains

A shortage of manpower is said to exist, despite the fact that the unemployment ranks of the Negro remain at an abnormally high level. Such a shortage was indicated in a 229-page document sent to Congress recently by President Johnson.

The message pointed out that the booming economy has reached the point of particular significance where the nation is "scraping the bottom of the manpower barrel."

The tightest job markets are in the Great Lakes region--Chicago, Detroit, Milwaukee, and Cleveland--where heavy manufacturing is centered and unemployment is estimated below 2.5 per cent.

A different picture is presented in New England and the West Coast--Los Angeles, San Diego, and San Francisco. The availability of workers is looser, though joblessness still remains at seven per cent among Negroes.

The most serious challenge ahead for government and business is in providing workers with proper skills to fill available jobs. Some progress toward alleviating the paucity of skilled workers is evidenced throughout the nation.

Whitney M. Young, Jr., executive director, National Urban League, said, "Generally unskilled or semi-skilled Negroes have found a narrowing market for their services in an economy that emphasizes automation, education, and skilled labor."

In New York, Peter J. Brennan, president, Building and Construction Trade Council, said Negroes and Puerto Ricans were needed and would be welcome in the building trade.

In Sacramento, Calif., 10 Negroes are now working at local race tracks as pari-mutuel clerks. This is a reversal of the ban on Negroes working in this capacity.

In Chicago, federally assisted training programs will be held, focusing on easing manpower shortages. Young Negroes were urged by a Masonic Eastern Star lodge to stay in school and to seek special training to take advantage of job opportunities now opening to them.

On the other hand, in Mississippi, the International Chemical Workers Union charged a Mississippi firm with gross inequities in pay for Negroes and whites performing the same work.

The suit said Negro employees

been appointed in some of the major cities and some city chairmen have been selected. The role of adult advisors will be filled shortly, but care is being taken to insure the teenagers complete freedom in their work in their respective cities.

Teen response has been nothing short of wild! They eagerly await the first publication date and many have already submitted samples of their writing which will be included in the debut edition.

"The structure of command will be in favor of the teenagers," said Ivory. "It's their newspaper and they are going to run it whether I like it or not."

of the Planters Manufacturing company were subjected to profane and abusive language by supervisors, were limited to four days of vacation a year while white workers got two weeks, were denied overtime pay, and were forced to use segregated washrooms.

A New York Waterfront commission accused Theodore W. Kheel, a lawyer who has been involved in numerous waterfront labor management problems, of being biased.

Kheel proposed closing the register of longshoremen and shutting off newcomers to the waterfront in order to facilitate changes in hiring and work arrangements.

## Cattleman First Negro Deputy in Alabama

Eutaw, Ala. -- NPI -- Howard Brown, 45 year-old wealthy Negro cattleman, took office as Green County deputy sheriff, chalking up a first for a member of his race to hold such a post.

Brown, well received on his first day, commented: "I have had several congratulatory calls from both white and colored."

His appointment, called a "political trick" by his Negro opponent for Democratic nomination in the May 3 primary, the Rev. T.E. Gilmore, came through Sheriff William E. Lee.

Said the sheriff: "He'll make arrests just like the other deputy I've got".

## Police Complain About Heavy Loads

Baltimore--NPI--Local police are complaining about the heavy loads they have to carry, especially when they have to take after a suspect.

In addition to the weight of his clothing, a policeman must lug around with him some 20 pounds of equipment--nightstick, holster, pistol, ammunition, handcuffs, flashlight, tickets, and sundry items.

Police Commissioner George Gelston took a sympathetic view to the complaint. While agreeing his men needed lighter gear, he couldn't resist the temptation to quip: "Why, if one of them fell down in the rain, he'd never be able to get up".

## Around the Hub City

There are two elections scheduled for this week and next. On Saturday, April 2, the School Board Election will be held. On last year less than 3,000 people out of the possible 19,000 qualified voters participated in this particular election.

The School Board election---which should be considered by all registered voters as an important one---has eight candidates running for two different places.

The City Election which on the other hand is also important, and too, should be given careful consideration. This encounter is on tap for Tuesday, April 5th.

"AROUND THE HUB CITY" urges all registered voters to get out on these designated days and exercise your right.

**SHEPPARD AIRMAN RECEIVES 'BIG BREAK' ON RECORDS**

Sheppard AFB--Success in any endeavor requires talent, but getting that "big break" can sometimes remove any obstacles along the road to fame and fortune.

Just such a break may be in the offing for A/3c James A. Miller, 3785th Student Squadron at Sheppard Air Force Base.

Airman Miller recorded two songs prior to his enlistment in the Air Force in November 1965. One of the songs, "On a Back Street," was in the top 75 songs nationally. The flip side, "Break My Heart, Break," has become so popular in Germany that the Contrapoint Recording Company in New York wants him to re-record the song in German.

The airman has been granted leave to fly to Germany where he will receive full television exposure. A recording session there has been scheduled for March 28. He will be traveling in an unofficial Air Force capacity and the trip will be paid for by the German sponsor.

"On A Back Street," released in September 1965, was supposed to be the prime side. But when the record died out here, Contrapoint released the record to contacts in Germany, where "Break

My Heart, Break" became a big hit.

Born in Richmond, Va., Airman Miller began singing in choirs at the age of nine. While attending Richmond High School he formed a quintet called "Jimmy Miller and the Delmarks."

On graduating from high school, he accepted a scholarship to Howard University where he studied electrical engineering.

A victory in the Washington area Inter-Collegiate Talent Contest prompted Airman Miller to interrupt his college studies for an attempt in show business. While singing in various clubs in East Orange, N.J., he was "discovered" by Walter Gollender, owner of a small recording studio in Bloomfield, N.J.

Recognizing his potential, Gollender sold his contract to Contrapoint, a bigger organization with more contacts in the field.

Airman Miller said he doesn't expect to have much trouble with the German language. He studied it for two years under a retired German professor while in high school. Since then Kuno Swanholtz, president of Contrapoint, has helped him keep proficient.

The 21 year-old airman expects to begin training in nine weeks in

the Site Development Course, Department of Civil Engineering Training at Sheppard Air Force Base. Currently he is drum major for the Drum and Bugle Corps. He wears the expert marksmanship ribbon (67 out of 70 on the M-16), and has applied for the Airman Education and Commissioning Program. He wants to continue working for his degree in electrical engineering regardless of how he fares in "show biz."

In his spare time he entertains at both the Airman's Club and Service Club. He and a group of airman musicians are attempting to form a group to be known as "Jimmy Miller and the In-Crowd." Airman Miller is a member of the American Guild of Variety Artists.

**Vehicle Registration Deadline Tomorrow**

The same hours, 8 a.m. to 5 p.m., will be observed at the old Plains National Bank Building, 2201 34th Street, where ample parking space is available for persons seeking to register vehicles.

Registration windows at the county tax office as well as the others station will remain open through the lunch period.

### CANCER - A Frightening Word

Cancer is a frightening word among Americans today. It's a frightening disease. Millions of American families have had experiences with cancer. Millions of words have been written about cancer in the public press. Most of us know something about cancer. But how many of us really know what cancer is?

During the process of cell division---the basis of normal body growth and repair---cells become differentiated into the specific kinds needed for each organ or body function, says a new pamphlet of the American Medical Association.

Each kind of cell divides into its own kind, equipped to do the job it was designed to do. Under certain conditions not yet completely understood, some cells do not differentiate in this way. They multiply in irregular and disorderly fashion and complete with normal cells for nutrition and space. These cell masses are called tumors.

Tumors that remain localized are benign and may not be troublesome unless they mechanically interfere with some body function. Tumors that grow rapidly and spread or destroy tissue are known as malignant tumors. Collectively, these are called cancers.

Unrestrained growth of cancer cells will infiltrate vital organs and destroy the individual if not checked. Slow growing cancers may take months to spread beyond control. More malignant types spread so rapidly that they become incurable in a few weeks.

Surgical removal of the cancer and destruction of tumor with some form of radiation are the primary methods of treatment. A few types of malignancy, particularly leukemia, react quite well to newly discovered drugs and chemicals. Drug treatment holds much hope, but it is not yet perfected and surgery and radiation are still the major treatment, possibly supplemented by carefully selected drugs.

If treatment promptly and properly, some cancers are highly curable. One-third of all cancers in the United States are being cured today and more than one million Americans alive today have been cured of cancers. However, almost 300,000 Americans will die of cancer this year. Of this total, almost 100,000 might have been saved through early detection and treatment.

Know and heed the American Cancer Society's Seven Danger Signals:

1. Unusual bleeding or discharge.
2. A lump or thickening in the breast or elsewhere.
3. A sore that does not heal.
4. Change in bowel and bladder habits.
5. Hoarseness or cough.
6. Indigestion or difficulty in swallowing.
7. Change in a wart or mole.

If anyone of these symptoms persists for longer than two weeks, see your DOCTOR. These symptoms do not necessarily mean you have cancer, but they are a warning sign that may prove fatal if ignored.

#### "OUT IN SPACE"

Whether you are the gourmet or the average homemaker, here are some statistics "out in space" as far as the cost of those edible goodies, or the bare necessities (meat, for example), are concerned. The government has some sad news, budget-wise.

The Agriculture department has released some figures which

are important to the housewife. She'll probably have to pay \$102.30 this year for the same amount of food which cost her \$100.00 last year.

Although (and this is the brighter side of the food budget coin), AD predicts food prices will climb as much as they did in 1965--2.3 per cent--prices are expected to level off and possibly drop later in the year.

Affected, by and large, by this decline will be foods which went "out in space" last year--tooth-

### HEAVENLY HALIBUT

Not only are we--those of us observing Lent--faced with the problem of weeks of meatless meals, but we are also facing a supreme test, a test of our own versatility, imaginativeness and ability to provide appetizing, nutritious meals with stress on variety; meals easy to prepare and serve.

Here's a Lenten recipe which fulfills all these requirements--Heavenly Halibut. It's really down to earth, for it's simple to make, interesting to serve, and taste-tempting.

The dish has a tantalizing touch of the different--a tangy lemony sauce which is spread over the fish just before the final browning. The sauce also may be served on the side.

To underscore the "heavenly" theme, clouds of white dress potatoes adorn the platter. The duchess addition is made by blending three cups of hot mashed potatoes with one table spoon of butter and an egg yolk, for a six server. To make a real halo, you might pipe the potatoes around the platter, circling the fish.

For this Lenten delicacy, you'll need one-half cup mayonnaise or salad dressing, two tablespoons bottled lemon juice; two tablespoons chopped chives or green onions, two pounds halibut steaks (or salmon or whitefish), salt and pepper, one-fourth cup bottled lemon juice and one-fourth cup butter.

Combine mayonnaise, two ta-
