Patton's Forces Hammer Germans

Russians Cross Danube Churchill Urges "Big Three" Meet

LONDON, Nov. 9 (AP)—Prime Minister Churchill declared today "it is high time we had another triple conference" of himself, President Roosevelt and Marshal Stalin.

Such a meeting, he said at the Lord Mayor's luncheon, "might easily bridge the sufferings of mankind and stop the fearful process of destruction which is now ravaging the earth."

"The prospects of such a meeting," Churchill said, "have been vastly improved by the results of the presidential elections in the United States."

His auditors applauded when he declared that Marshal Montgomery had opened the Schelde estuary to the great Belgian port of Antwerp. The operation cost heavy British and Canadian casualties, however, he added.

"When I was here last year I appealed to the British and American public to be very careful that election year did not in any way ruffle the goodwill that existed throughout the English-speaking world, and which was so great an aid to our armies," the prime minister recalled.

"It is certainly remarkable that all this turmoil of the United States election should have been carried through without any disturbing of the ancient, motheaten, threadbare controversies which are to be found in the history books between Great Britain and her American kinsmen, nor brothers in arms."

"We must be very careful ourselves to avoid mixing ourselves up in American political affairs. I offer my thanks to parliament, press and to public men of all parties and no parties—perhaps especially to them—for the care and restraint which have made all potential indiscretions die upon their lips."

Churchill praised Gov. Thomas E. Dewey for sportsmanship in defeat, saying: "What a model this would be to those states where political differences are not solvable by word or vote, where the question of who is to be in and who is to be out may be one of life and death, to be settled by violence and intrigue and where there may be but a short gap between being the ruler and being the victim."

Describing air attacks upon Germany, the prime minister asserted "we have not suffered one-tenth, and we shall not suffer one-tenth, of what is being meted out to those who first started and developed this cruel and merciless form of attack."

Churchill expressed "great joy" that his cooperation with President Roosevelt would be continued.

B-29 Raid Costs Life Of Coburn

Another Gold Star was added to Howard county's list of young war heroes who have been lost in the war with notification Wednesday from the war department to Mrs. P. H. Coburn of the death in action of her youngest son, T/Sgt. Paul H. Coburn, 26.

An aerial mechanic on a B-29 Super-fortress, Sgt. Coburn was lost over China on Oct. 25, according to the word received by Mrs. Coburn.

At the time of his death, he had at least two trips over Tokyo to his credit that Mrs. Coburn knew about, and there were possibly several other B-29 missions to his credit.

A native of Big Spring, Sgt. Coburn was a graduate of Big Spring high school where he was a member of the Big Spring Steer football team which went to the state quarterfinals. Entering the service nearly four years ago, he earned rapid promotion at Ft. Bliss and subsequently was stationed at Salina, Kans. before drawing his overseas assignment, originally in India.

No further details concerning the loss of her son were immediately available to Mrs. Coburn, who has two other sons in the service, Maj. Carlton Coburn of the cavalry and Pfc. Sgt. Forrest (Red) Coburn, US Marine corps, who was decorated for bravery in action in which he had been seriously wounded. T/Sgt. Coburn held the air medal.

Three Boys Said Guilty

Three boys, two 13 and one 15, were found guilty of the charge of stealing a 1940 Plymouth automobile on the afternoon of Nov. 1. They were tried in the juvenile court today, and all were paroled over to the custody of their parents.

Two of the boys were from Lubbock and one from Midland.

Eisenhower Tells Belgians Nazis Know Only Force

BRUSSELS, Nov. 9 (AP)—Gen. Dwight D. Eisenhower told the Belgian parliament today that the Allies were fighting "an enemy who understands only one thing—force—and we intend to apply force to the utmost."

The Allied supreme commander received a tumultuous ovation as he entered the packed chamber of deputies to address both houses.

Eisenhower was accompanied by top Allied army, navy and air force commanders including Lt. Gen. Omar N. Bradley and Air Chief Marshal Sir Arthur Tedder.

"We are sensible of sacrifices you have made," Eisenhower said, "and as far as possible consistent with military operations I pledge that you will get everything we can bring you. I only ask that you understand we are doing our best."

The general's promise of aid was interpreted as indicating his concern over the current shortage of civilian supplies in Belgium, where the bulk of the people face the prospect of a heatless and hungry winter.

Premier Hubert Pierlot in a voice ringing with emotion, said to Eisenhower:

"General, you launched the greatest battle of all times and you won it. X X X You conquered in three weeks what was occupied by the enemy during 52 months. Belgium, for the largest part, was liberated in eight days."

After a rousing farewell, Eisenhower and his aides went to the tomb of Belgium's unknown soldier and stood at attention in a driving rainstorm while a bugler sounded "The Last Post."

Work On Water Supply Project Progressing

Work on the new water supply project is progressing favorably according to a report from the city administration Thursday. The last gap of uncompleted pipeline has now been completed and the line has been filled for testing.

The present city water supply will continue to be taken from the lakes, it was reported. Due to cooler weather evaporation has reduced to such an extent that the supply will last until about November 20, they said.

Roosevelt Victory Is Smallest Popular Vote Margin Since 1916

By The Associated Press
President Roosevelt's fourth term victory, sweeping in the electoral vote, was won by the smallest popular vote margin since 1916, the nearly complete returns indicated today.

With 44,353,855 votes reported, the president's edge over Governor Thomas E. Dewey stood at 2,867,319: Roosevelt 23,610,587 and Dewey 20,743,268.

The president was leading in states with 413 electoral votes and Dewey in states with 118, but where Michigan's 19

was the solemn request of Mr. Roosevelt as he prepared to return to Washington from Hyde Park. This was the attitude, too, of Dewey.

Mr. Roosevelt's vote of confidence will still be fresh as he heads into an expected talk before Christmas with Stalin and Churchill.

Fierce Fight Is Raging South Of Magyar Border

LONDON, Nov. 9 (AP)—The German high command said today the Russians had crossed the Danube at Apatin, in northern Yugoslavia 15 miles south of the Hungarian border and 125 miles south of Budapest, and a "battle is still raging there."

The broadcast communique said the Russians had penetrated that part of Apatin which is on the west bank.

The Russians were reported massing men and materials along the eastern front today for the "decisive action against the vital centers of Germany" promised by Premier Stalin.

A brief Soviet communique dismissed developments by noting "no essential changes at the front" but the German radio, in a portentous tone, described the comparative quiet as "the calm before the storm."

Besieged and strife-torn Budapest was considered the most likely target for a fresh and heavier assault. The Berlin radio reported new concentrations of Soviet tanks in the outskirts of the Hungarian capital.

Continental broadcasts told of open revolt inside Budapest. The Paris radio said street fighting took place in Pest on the east bank of the Danube and declared some Hungarian soldiers and workers had gone over to the Russian forces.

East Prussia, which is expected to be a theater of violent battle this winter, was the scene of localized fighting along the Niemen river yesterday. The Russian communique said Germans who tried to cross the river in motor boats near Tilsit were mowed down and two boats sunk.

Democrats Unseat Five GOP Governors

WASHINGTON, Nov. 9 (AP)—Democrats unseated republican governors in five states, but nearly-complete election returns today gave GOP leaders something to cheer about too.

They showed that republicans had overturned democratic administrations in two states, while electing GOP executives in six others which gave popular majorities to President Roosevelt.

In Connecticut, Illinois, Minnesota, Montana and Delaware—republican incumbents were re-elected. And in New Hampshire, republican Mayor Charles M. Dale of Portsmouth successfully bucked the Roosevelt tide to win the gubernatorial test.

Of the 31 governorships at stake in this election, the democrats appeared to have won 15, one of which is close enough however to still be called doubtful. This would give them a total of 25 in the nation to 23 for the republicans, as against the previous lineup of 26 republicans and 22 democrats.

Typhoon Sweeps Leyte Invaders

By LEONARD MILLIMAN
Associated Press War Editor
Weary, water-soaked American infantrymen fought in a raging 100-mile-an-hour typhoon on the slippery ridges of northern Leyte Island today against fresh Japanese soldiers whose arrogant new commander boasted he would demand "unconditional surrender" of Gen. Douglas MacArthur.

Mud-soaked Yanks were temporarily stopped in their Philippines invasion, more by the blinding storm than by the reinforced enemy.

Tokyo radio admitted the Japanese, too, were halted in their southeast China drive through cold rain against "bitterly resisting Chinese in hilly Kweilin. Chungking claimed the Nipponese, attacking from three directions, were using poison gas.

Only important land progress was reported from Burma where Indian and British troops captured Fort White in two days of heavy fighting. The Allies, who had advanced 15 miles from Tiddim, pushed on from Ft. White toward Kalembo, 15 miles beyond.

Cocky, little Gen. Tomoyuki Yamashita, taking command in the Philippines in an attempt to bolster Japanese troops, braved in Manila that, in negotiating the surrender of Singapore he told the British commander "all I want to hear from you is 'yes or no'. I expect to put the same question to MacArthur."

Infantrymen of the 24th division, who have been fighting since they landed in the Philippines Oct. 20, made no gains but still held the offensive. They fought an uphill battle against Japanese from four divisions, three of them recently landed on Leyte. The Nipponese held ridges dominating the narrow, twisting trail leading to their Ormoc base, 15 miles to the south.

Chinese military leaders, who have often accused the Japanese of using war gases, said the Nipponese were using "large quantities" of poison gas in the suburbs of Kweilin, key to Kwangsi province.

Chinese reports said the invaders continued to advance toward Liuchow, U.S. air base city from the east and south, but that four assaults were repelled 26 miles northeast of Liuchow. Tokyo claimed Japanese columns were within nine miles of Liuchow and the Chinese high command indicated one spearhead was only 15 miles away.

Chungking said a Chinese force in north Burma, in a surprise move midway between advanced Allied points at Bhamo and near Katha, crossed the Irrawaddy river 82 miles south of Myitkya and occupied Shwegu.

Late returns showed that democrats unseated republican governors in Ohio, Massachusetts, Missouri, Idaho and Washington, while the republicans captured governor's chairs from their opposition in Indiana and North Dakota.

Left in doubt, possibly until next week by when all the state's service vote will be counted, was the Utah governorship. It was a neck and neck race by democrat incumbent Herbert Maw and republican J. Bracken Lee.

American Heavy Bombers Pound Nazi Front Line

LONDON, Nov. 9 (AP)—More than 1,300 American Heavy bombers pounded German front line positions in the Metz area today to clear a path for the Third army fighting toward the German frontier.

The bombers swept over the battlelines at levels lower than usual. Hundreds of divebombers struck the area both before and after the Flying Fortresses and Liberators attacked.

Perhaps 500 fighters escorted the heavies. The main attack was timed for about mid-morning and was carried out in muggy overcast weather, crews reported. No German interceptors were encountered and flak was not heavy. Pathfinders marked the targets, but some bombers were able to lay their explosives visually.

An Air Force statement described the objectives simply as "tactical targets in the Metz area." Crews flew in 45-below-zero temperatures part of the way and said some of the battleground was blanketed with snow. Front line troops presumably were pulled back during the attack, as they were at St. Lo.

The aerial bombardment of western Germany went on today with an attack on objectives in the Ruhr by a force of escorted RAF Lancasters.

No targets were named, but the attack probably was aimed at further crippling Nazi communications lines to the front. Two bombers were lost.

The German radio reported another flight of bombers approaching the Reich from the south. By mid-morning several Nazi stations, including Cologne, had gone off the air.

Liberated Peoples To Receive Reward

WASHINGTON, Nov. 9 (AP)—President Roosevelt today declared his determination that "the sacrifices of liberated peoples shall be rewarded" through supplies needed "to start life over."

In a letter to Director Herbert H. Lehman of the United Nations relief and rehabilitation administration on the first anniversary of that organization, the president said:

"This government has endeavored in every way to support you and your staff to the fullest limit of our ability. This has not always been an easy task in the face of the pressing and staggering demands which the fighting of a deadly war on many fronts has placed and will continue to place upon our resources of man-power, of supplies and of transportation."

"But we are determined that the sacrifices of the liberated peoples shall be rewarded and that, to the extent we have it in our power to help, these people shall promptly receive the clothing, food, and other supplies which they need to start life over."

Director Lehman, who is leaving for London soon, told a news conference today that UNRRA would deal with the authorities in effective control of any liberated territory regardless of whether they were a recognized government.

Late Returns Deliver Plurality Of 49 Members To Democrats In House

WASHINGTON, Nov. 9 (AP)—Late returns from Tuesday's election today delivered to the democrats a plurality of at least 49 members in the house, building up the most impressive party gain in that body since the first Roosevelt victory in 1932.

Democrats maintained firm control of the senate. Five hot undecided contests obscured the exact size of its majority.

The democratic gain in the 435-member house apparently assured President Roosevelt an easier relationship with this body where often in recent months republicans and administration democrats have joined to control important legislation.

The late returns showed this house lineup:
Democrats elected 241.
Republicans elected 179.
Minor parties elected 3.
Seats still in doubt 13.

Four of the undecided house seats are in Missouri and will not be decided until tomorrow when absentee ballots are counted.

Nazis Yielding In Four Places

By WILLIAM FRYE
LONDON, Nov. 9 (AP)—Lt. Gen. George S. Patton's Third army infantry jabbed into a yielding Nazi line at four places along a snowy 50-mile front today in an attack supported by 1,300 U.S. heavy bombers which laid a carpet of explosives on front line enemy positions in the Metz area.

The Third army chieftain threw in three more American divisions in the move toward the Rhine, doubling the force employed in the jumpoff attack yesterday, and extended his operations to the north of the fortress city as well as to the south.

Berlin's radio commentators declared Patton, striking from just below the Luxembourg border to the Rhine-Meuse canal east of Nancy, was signalling the prelude to "the big offensive" aimed at bursting open "the historic gate to the Palatinate which was chosen by Napoleon as the marching route for his battalions and regiments."

At least 16 villages were captured in the combined advance of the Third and Seventh armies, with two Third army corps, the 12th and 20th, in action. Several of the villages had been previously captured however, and relinquished in the face of counterattacks.

South of Metz the attack spread all the way from Cheminot, 10 miles south of Metz and four miles east of the Moselle, to the Chateau-Salins area where the Doughboys hammered a mile-deep wedge north of the Rhine-Meuse canal at a point 20 miles east of Nancy and an equal distance west of Sarrebourg.

In Holland where the first snow of the season fell last night, Field Marshal Sir Bernard L. Montgomery's 21st army group had seized all of the Walcheren Island at the mouth of the Schelde except a tiny pocket around the villages of Buttinge and St. Laurens, two miles northwest of Middelburg. This pocket was isolated from the coast.

South of the Maas (Meuse) Poles had blown their way through the concrete defenses around the southern end of the Moerdijk bridges and were attacking an enemy bridgehead 1 1/2 miles long and three-fourths of a mile deep. The U. S. First army was slowly regaining some of the ground lost this week southeast of Aachen to strong German counterattacks.

The 19th division crossed the Moselle river in two places north of Metz. Another fresh division, still unidentified in dispatches, established a bridgehead over a Moselle tributary also above the city.

The Fifth division pushed across the Seille river and occupied the town of Cheminot, 10 miles due south of Metz and five miles northeast of Pont-a-Mousson on the Moselle, which was captured by the Americans recently after several unsuccessful attempts.

Below the Third army zone, Lt. Gen. Alexander M. Patch's Eleventh army captured Migneville, 29 miles southeast of Nancy and two miles beyond Rehery, which was taken last week-end.

Hitler To Miss Annual Holiday Speech In Reich

LONDON, Nov. 9 (AP)—Berlin broadcasts indicated today that for the first time the greatest of Nazi party holidays will pass without a speech from Adolph Hitler.

Last night was the eve of the annual celebration of the abortive 1932 Munich Beer Hall Putsch, and it has been the custom since Hitler's rise to power for high ranking party members to meet in Munich with him and renew their pledges of faith in the Fuehrer.

But the German radio announced that because of the Reich's "total mobilization" the celebration would take place "at a later date" not specified. It appeared that no speech would be forthcoming from Hitler.

Earlier neutral correspondents in Berlin cabled they had been informed the party expected Hitler to speak. When he had not gone on the air by 8 p. m. a powerful ghost voice broke into a German radio program with this demand:

"Why doesn't Hitler speak? Why does the Fuehrer keep silent? What is the matter with Hitler?" Hitler has made no appearances before a microphone since July 21, when a voice purporting to be his broadcast an assurance to the German people that he was safe after the bomb attempt on his life.

The London News-Chronicle said yesterday it had "reliable information" that Hitler's silence has been due to mental illness.

AP Forced Into Act Effecting Member Rule

WASHINGTON, Nov. 9 (AP)—The Justice department recommended to the supreme court today that the Associated Press be required to adopt an "explicit" by-law which would admit new members without regard to local competitive situations.

The department filed a brief in its cross-appeal from the decision of a federal expediting court in the government's civil anti-trust suit against the non-profit news cooperative. The A. P. likewise has appealed, and the high tribunal will hear oral arguments next week.

The lower court ruled that the A. P. could continue to provide its news report exclusively to members, to demand the local news of members exclusively and to retain its contract with the Canadian Press provided the A. P. modified its by-laws on admission of members.

The lower court left open to the A. P. the adoption of substitute by-laws "which will restrict admission," provided that members in the same field (morning, evening or Sunday papers) as the applicant for membership shall not have power to impose or dispense with any conditions of such admission. The court also held that the effect of admission upon the ability of an applicant to compete with a member or members in the same field shall not be taken into consideration by the board or by the membership at large in passing on the application.

The Justice department, however, told the supreme court today that if the final judgment is to give "adequate assurance of effective relief" it should be forced to provide that the conditions for admission to membership in a city and "field" in which there are one or more existing memberships "shall be the same as the procedure and condition for admission to membership of an applicant and a 'field' in which there is no existing membership."

Many Businesses To Close Saturday

While Big Spring business in general is to continue Saturday, numbers of concerns will be closed in observance of Armistice Day, a survey showed Thursday.

Numbers of veterans of World War I are closing doors of their establishments in memory of the end of the war. Others, particularly in mercantile lines, are remaining open since the day falls on Saturday. The Big Spring barbers union has announced all affiliated shops will close.

Federal offices will be closed, and Postmaster Nat Shirk said that since Armistice Day was a legal holiday, the postoffice will be closed all day Saturday with the exception of the general delivery window, which will be open only from 11 a. m. to 12 noon. Box mail will be put up, but there will be no delivery of routes or parcels except pieces marked for special handling.

Plan Decreasing Milk Shortage Successful

The plan which was devised last month for increasing the milk supply in Big Spring by offering subsidized milk has proven so successful in the past month that the trial time has been extended, City Manager, B. J. McDaniel said Thursday.

The recombed milk is composed of condensed milk imported from northern dairy state and restored to original texture and consistency by adding fresh, locally produced milk and water in Big Spring. There is still a shortage of milk in Big Spring, but this plan has met the shortage so well that an indefinite extension of time has been declared, he said.

Martin-Howard Soil Conservation District News

Dr. G. T. Hall, cooperator with the district who farms and ranches in Howard and Martin counties, said his cotton yields on terraced and contoured fields were approxi-

mately double that obtained from non-terraced and straight rowed fields. This comparison was made on adjoining land of similar slope and soil type.

A section pasture on Dr. Hall's ranch, deferred from grazing during the past growing season, has shown good recovery considering the very unfavorable moisture conditions. This, observed C. R. Donaldson, range conservationist of the Big Spring Soil Conservation Service office, indicates that seasonal rest of stock ranges is beneficial in forage production despite low rainfall and is essential in maintaining the stand of good grasses especially in dry unfavorable years.

R. L. Warren, a supervisor of the district who farms north of Big Spring in a sandy soil area, said, "I believe the most successful way of holding this soil and preventing it from blowing is by leaving on the soil surface a good sorghum or maize stubble 18 to 24 inches high." Mr. Warren plans to leave a good cover of stubble on his fields.

A small grain crop, more or less new to this section, is being tried by George White this fall and winter. It is a small grain called speltz. White is interested in the winter grazing qualities of speltz. He states that the forage is sweeter than barley and is less harsh.

Yankee Doodle Sizes Up French Girls Charm

By DOROTHY ROE AP Newsfeatures Writer

NEW YORK—American girls could be more attractive than French girls—if they would. This is the sober, considered opinion of AP Artist-War Correspondent Howell Dodd, just returned from sketching front-line battle action in Europe and home-front scenes in liberated Paris. Says Howell, still starry-eyed from his encounter with French glamor: "Paris girls make the most of their personalities. When you first meet them you think they're all beautiful, whether they are or not. They have so much pep and sparkle and that thing they refer to as *je suis de vivre*."

Mr. Dodd has spent a considerable percentage of his time since his return closely observing American girls (purely from a scientific and artistic standpoint) and trying to figure out what it is they lack that French girls have. Here's his decision: "American girls should guard against a 'sourpuss' look. Our girls are on an average more beautiful than the French—but they don't make the same effort to be completely feminine, fascinating and full of ginger. "If they'd just play up their good points and develop their personalities, they'd outshine French girls any day."

Pursuing his line of thought, Howell worked out a few "do's" and "don't's" for American girls who are worried about the exuberant charm of French mademoiselles:
DO . . . Dress in feminine, flattering clothes. . . . Wear light, bright colors. . . . Learn to smile as if you meant it. . . . Act happy, whether you are or not. . . . Let your personality shine out. . . . Learn skillful use of makeup.
DON'T . . . Be a sourpuss. . . . Be self-conscious. . . . Dress in mannish clothes. . . . Cultivate that bored look. . . . Be careless about your

grooming, makeup and hairdo. . . . Be afraid to laugh. Howell thinks that the constant bicycling of the last four years has improved the French girls' figures, particularly their legs. But he says consolingly to his countrywomen: "If American girls will just concentrate on it, they can be more attractive than the French, even without benefit of bikes."

POPOVERS

By CHARLOTTE ADAMS

- Bacon Omelette
- Creamed Tomatoes
- Mashed Potatoes with Chives
- Popovers
- Apple Pie

(Recipes Serve Four)
Creamed Tomatoes
4 tomatoes
1-2 cup flour
Salt and pepper
2 tablespoons margarine or bacon fat
1 cup cream
Wash tomatoes. Cut off ends and cut in half. Dredge in flour seasoned with salt and pepper. Heat fat in skillet and saute tomatoes until well browned on both sides. Remove to hot platter. Pour cream into pan slowly, stirring constantly. Simmer 20 minutes. Cover with cream gravy.

Popovers
1 cup flour
1-4 teaspoon salt
2 well-beaten eggs
7-8 cup milk
1-2 tablespoons melted margarine
Mix and sift flour and salt. Combine eggs and milk. Stir into the flour mixture gradually. Then add shortening and beat with a rotary beater at least one minute until the batter is entirely smooth. Fill greased custard cups or very hot iron popover pan one-third full and bake at 450 degrees for 20 minutes. Then reduce heat to 350 degrees and bake 30 minutes longer. When popovers are taken from the oven, make slits in the side to allow excess steam to escape. (The secret of successful popovers is to beat the mixture thoroughly and to be sure the cups are sizzling hot when the batter is poured in.)

Dewey Supporters Say War Beat Him

ALBANY, N. Y., Nov. 9 (AP)—Giving evidence of feeling that he was licked by the war and not the democrats, Governor Thomas E. Dewey went back to his desk in New York's historic old state capitol today to begin a new role as a defeated candidate who remains the titular head of his party.

Although the vanquished republican presidential nominee declined public comment on the national election results, his supporters left no doubt that Dewey believes the single factor which gave President Roosevelt a fourth term victory was that a majority of Americans did not want to change administrations while the world battlefronts still are flaming.

Looking relaxed and fresh despite an almost sleepless night of analyzing election returns and talking by telephone to party members all over the nation, the governor told a news conference in New York City yesterday that he was "very happy over the high confidence" the people had expressed in the state government

by returning a solid republican majority in both houses of the legislature.

This firm party grip loomed large as a factor in the future plans of the 42-year-old former candidate who universally is expected to seek reelection to his state office as a possible prelude to another try for the presidency in 1948.

The Deweys, who came home last night from New York City excited soon to depart for a rest. They may go to Sea Island, Ga.

Capture And Destroying Of Pillboxes Along Siegfried Is Proved A Science

By **HAROLD V. BOYLE**
IN OCCUPIED GERMANY.
Oct. 31 (Delayed) (AP)—Lt. Ray S. Earhart, who used to be an office manager back in Columbus, Ohio, has become an expert in the painless removal of enemy pillboxes. He and his men in two days destroyed 25 bunkers in Germany's Siegfried line in a 1,000-yard advance over a front 2,000 yards wide.

Don't let any swivel chair field marshal tell you cracking pillboxes isn't a science.

"Since pillboxes are so placed that they protect each other with covering fields of fire, we had to take out more than one at a time," Earhart said.

"We would move our tanks in on the flank or rear of a pillbox to get on its blind side. Meanwhile, a forward observer riding in one of the tanks would call down artillery to drive back any German infantrymen waiting to take a close-up crack at our tanks."

"As our tanks got into position to fire through the rear door or apertures of the pillbox we were attacking, another of our assault teams would begin pasting adjoining pillboxes so the men inside had to button up and couldn't throw any supporting fire."

"In most cases the Germans were ready to give up after our tanks began knocking on their steel doors with armor-piercing shells. At a given signal, the tanks would lift their fire and our doughboys would rush in and throw concussion and fragmentation grenades into the pillbox if the Jerries hadn't come out."

"Then the first assault team would 'rest up' by providing covering fire while the second assault team attacked the next pillbox."

and blowing up pillboxes was supervised by Lt. Joe T. Harper, 26, of McAlester, Okla., whose men took 80 prisoners in one afternoon.

"We moved right in behind an assault team and took over after they drove the German outside guards back into the pillbox," he said. "We got up close under cover of a steady stream of fire from machine-guns and light tanks that pinned down any stray Germans left around."

"If a pillbox was unoccupied our engineers blew it up. "In several pillboxes we found fighting compartments destroyed and apparently nobody left at home. But when we got inside we caught Germans hiding in their bunk compartments and hoping we would pass them by."

"By then most of the fight was out of them. But you can't take any chances with them. They're always pulling funny stuff. We would challenge them from a rear door and if they refused to come out we just slipped in some grenades. That always brought them out. Even if the explosion doesn't hurt them, they can't stand the smell of the grenade fumes in such close quarters."

"In knocking out those 25 pillboxes we lost only two men killed and our total casualties were less than 20."

"Vengeance Or Peace But Not Both" -- Smith

HOUSTON, Nov. 9 (AP)—Ordination service for deacons and elders will be conducted by Bishop A. Frank Smith at the Texas Methodist Conference tomorrow.

"When hostilities have ceased, we can either have peace or vengeance but we cannot have both," Dr. Roy L. Smith of Chicago, editor of the Christian Advocate and principal speaker of the conference, told that body yesterday.

The religious editor said he was not appealing for a soft peace for Germany and Japan, but he was appealing for a soft peace for the American youth who have fought a hard war. Dr. Smith is speaking daily to the conference.

Dr. Robert S. Goodloe, professor of church history in the Southern Methodist University Divinity School, addressed the conference yesterday and later conducted a forum for young preachers.

Quadrennial committees were appointed yesterday. Two groups of ministers were admitted to the conference—one on trial and the other group was taken into full connection with the conference.

In the former group were Jesse Allen Adams, Walter Joseph Cartwright, Marshall Wood Hampton, Harold Warren Mann, Wade Kenyon Tommie, Commodore Nobel Punnell, Robert Ashley Graves, Maurice Kellam, William Durwood Crowder and Reuben Elmore Cummings.

Those who were admitted into full connection are Charles Wade Davis, Elza L. Love, Benjamin Roper, Hildney Thurman Blackburn, John Wesley Hardt, George Mouson Fletcher, Howard Kenneth Williams, John Paul Brown and Charles L. McPhail, Jr.

Ministers who have reached the retirement age of 72 and who will be superannuated at this conference include Revs. L. H. Mathewson, Texarkana; W. G. Fletcher, Rosenberg; T. D. Casey, Gilmer; Claude Adams, Woodville; O. W. Hooper, Keltys; T. C. Sharp, Arp; W. F. Bryan, Houston; W. C. Mills, Trinity.

Roosevelt Heads Back To Capital And Old Duties

Hyde Park, N. Y., Nov. 9 (AP)—President Roosevelt swung back into the complex duties of his office today, his administration policies endorsed by the voters who chose him to head the government for another four years.

"We have again demonstrated to the world that democracy is a living, vital force," the president said in a statement issued 14 hours after his victory over Gov. Thomas E. Dewey became certain. He said the election "demon-

strated x x x that our faith in American institutions is unshaken; that conscience and not force is the source of power in the government of man."

"To that faith let us unite to win the war and to achieve a lasting peace."

The president will return to Washington tomorrow. He arose late yesterday and, except for working a while on correspondence, gave himself an easy day on his estate. He went for an automobile ride with his former law partner, Henry C. Hooker, had a quiet dinner and went to bed early.

Huge bundles of telegrams and messages were carried to the Roosevelt estate yesterday after it became apparent that the chief executive had been re-elected for a fourth term. Presidential Secretary Stephen

"We've used it fo yeahs - But never wid dis effect!"

Sure! Many a new and enthusiastic user of Admiration Coffee faced the same situation in recent months. (The brand of coffee she'd been using suddenly, almost overnight, began brewing up a bitter, acid cup. And in its wake inevitable family explosions occurred.)

HAS YOUR BLEND "CHANGED"?
What happened is easily explained. Her old standby, "changed." Cheap, inferior, bitter-tasting coffees were substituted where better coffees were used before. Why? Well, to "save" on ceiling prices. There's no scarcity of good coffees. It's just a plain case of adulteration.

THE WAR HAS CHANGED SOME COFFEES
But the war hasn't changed all coffees. Admiration is still today, as it was 25 years ago, a unique blend of choice, expensive coffees, roasted to the peak of flavor and freshness. Today, tomorrow, next month, and years from now it will be the same heart-warming, appetite-cheering blend. Thousands throughout the Southwest are as loyal to Admiration as they would be to an old friend. As indeed it is. Buy a pound today and give it a one-week trial. You'll understand with glowing satisfaction, right at the first sip, why this superior blend commands by far the greatest sale of any coffee in the Southwest.

Court Affirms 25 Year Conviction

AUSTIN, Nov. 9 (AP) — The Court of Criminal Appeals today affirmed a 25-year sentence assessed at Lubbock against Robert Clayton upon conviction of murder.

Clayton had contended inadmissible testimony was admitted, and that he had been deprived of his full right to be represented by counsel when the trial court limited the voicing of objections to one of his two attorneys.

The appeals court ruled that the trial judge had not abused his discretionary powers in insuring "orderly conduct" of the trial.

Veterans Of World War I Prepare To Cash In Last Of Bonus Money

TODAY ON THE HOME FRONT
By JAMES MARLOW

WASHINGTON, Nov. 9 (AP) — The veterans of World War I can get ready to cash in the last of the bonus money given them by Uncle Sam.

It will amount to about \$273,050,000, all that's left of \$3,710,000,000 originally set up for them.

Their 9-year bonus bonds—this was the second of two plans to do something for them—mature June 15, 1945. A great bloc of them was cashed in long ago.

The veterans of this war get their musing out pay—Nobody calls it a bonus — when they're discharged. The most any one of them can get is \$300.

They get a number of other benefits under the "G. I. Bill of Rights" — education, loans, unemployment pay — if they want them.

The veterans of the other war got none of those benefits. When mustered out they received only \$1 for everyday of service—up to 60 days — in this country and \$1.25 — up to 60 days — for every day of overseas duty.

And for their bonus they battled a long time. Congress tried one plan to help them in 1925 and turned to another and final one in 1936.

After many other schemes had been rejected, congress in 1924

set up a 20-year endowment insurance plan for them. This was really a bonus plan. It had no connection with the war risk insurance for which the men had paid during the war.

The insurance went into effect Jan. 1, 1925. The policies were supposed to mature in 1945. It worked this way:

Since they already had been paid for the first 60 days, that period of service was not counted in the insurance policy. But for every day of service beyond 60 days, the veteran received a credit of \$1 if it was in this country, \$1.25 if overseas.

But no veteran could get credit for more than 500 days. So the most cash credit he could get was \$625 for 500 days overseas, \$500 for 500 days in this country.

But—he received no cash in this deal. The money for days served was credited to him. It acted as full payment on his insurance policy.

Thus the value of each veteran's policy varied, according to the amount of his credit and age. The older he was—and therefore the shorter his life expectancy — the lower the insurance policy value.

If he lived out the life of the policy, he could cash it. It was worth a lot more than the money with which he was credited for his service. If he died any time after getting the policy, his beneficiary would get its full value.

Two years after a policy had been issued to a veteran, it had a loan value. He could borrow money on it. Many did.

But before any of the policies could run their course, congress on Jan. 27, 1936 adopted a bonus bond plan which practically scrapped the insurance plan. The new one worked like this:

A veteran could transfer his insurance into bonus bonds and cash them at once if he wished. Many did. But the bonds paid 3 per cent interest a year for 9 years. They were to mature June 15, 1945.

So a veteran had three courses open to him. He could let his insurance policy run until 1945. Or, he could turn it into bonds and cash it at once. Or, he could turn it into bonds and hold them, getting the benefit of that 3 per cent interest a year.

Louis Brooks Nears Second Cowboy Title

BOSTON, Nov. 9 (AP) — Louis Brooks of Sweetwater, Tex., world's all-around champion cowboy in 1943, pumped into the lead for this year's title last night at the 12th annual world's championship rodeo at Boston Garden.

Brooks, who also was the champion saddle bronc rider last year, won the steer wrestling event and took a third in the saddle bronc riding.

Homer Pettigrew of Fort Worth, all-around champ in 1941 and best steer wrestler for three of the past four years, tied for first with Juan Salinas of Encinal, Tex., in the wild cow milking contest.

Other first place winners included Howard Brown of Dublin, Tex., bareback bronc riding; Bill Breen of Tucumcari, N. M., calf roping, and Johnny Chapman of Saginaw, Tex., wild brahma bull riding.

Battle Casualties Pass Half-Million

WASHINGTON, Nov. 9 (AP) — American battle casualties have passed the half-million mark. Secretary of War Stimson said

today that army casualties reported through Oct. 28 total 437,356. The latest navy list accounts for 71,839, giving a grand total for both services of 509,195, based on notices which have gone to next of kin.

The army casualties reported today: Killed 84,811; wounded 243,054;

missing 55,011; prisoners 54,460. The navy casualties: killed 26,599; wounded 29,442; missing 9,311; prisoners 4,487.

From discarded tin cans, one Army officer fashioned a ladle, a coop, a frying pan, cooking pot, pitcher, a combination lamp and heating stove, a friction top shaker and a gasoline cooker.

BETTER BREAD**

If you've been eating bread without a distinctive flavor... that just fills and that's all, you'd better switch to our enriched bread today. Not only does it have a delicious, want-more taste, but its rich vitamin content gives you health with every bite.

SALLY ANN BREAD

Wherever you eat—**BALANCE YOUR LUNCH** with **FRESH FRUITS and VEGETABLES**

"JUST BABY AND ME"

The noonday lunch is most often neglected by the busy housewife. A raw vegetable salad, a quick-cooked vegetable or two, milk and bread, with fresh fruit for dessert, require very little time and are easy to prepare. Whether you eat at home, in a restaurant or other eating place, be sure you get plenty of vitamin-rich fruits and vegetables.

THE WORKINGMAN'S LUNCH

Variety in the lunch box is easy to achieve when you use plenty of fresh fruits and vegetables. Crisp lettuce and celery, whole red ripe tomatoes, carrots, a big bunch of grapes, a bright red apple, or a juicy pear... These fresh fruits and vegetables add freshness and life to the lunch box—and full food value!

LUNCH TIME AT SCHOOL

Children grow fast and play hard... and every bite they eat must be full of food value. For strong bones, good teeth and a healthy body, include plenty of "protective" fresh fruits and vegetables in their luncheon menu. For a better lunch, wherever you eat, follow the luncheon menu pattern.

Loyce W. Whatley, whose wife resides at 407 Donley in Big Spring, has been promoted from corporal to sergeant, according to a recent announcement by the commanding general of the U. S. Eighth Air Force. Sgt. Whatley is an engineer top-turret gunner of a B-17 Flying Fortress in the 92nd Bombardment Group. The sergeant received his training at the gunnery school at Kingman, Ariz., aircraft mechanic school at Amarillo, and R. T. U. training at Drew field, Fla. He is a graduate of Antlers high school in Oklahoma and he was employed by the J. M. Radford Co. before entering the army.

S-Sgt. Floyd J. Griffith, top turret gunner of a B-17 Flying Fortress has been awarded the Air Medal for "meritorious achievement" while participating in bombing attacks on German industrial targets. The presentation was made by Colonel Karl Truesdell Jr., group commander. His wife, Mrs. Hollis Griffith, lives in Big Spring. He is the son of J. W. Griffith of Forsan, Tex.

Connally Favors Peace By Organization Force

ABILENE, Nov. 9 (AP)—Sen. Tom Connally (D-Tex.) said he would like to lead a fight for an organization that would enforce world peace "with iron and steel."

Sen. Connally predicted another conference similar to the Dumbarton Oaks conference would be held soon to construct the framework of a peace organization and said he hoped it would be able to agree on a

treaty that "will enforce peace in the only language aggressors know—with iron and steel."

"I hope I shall be able to lead the fight for ratification of such a treaty," he told the 27th annual convention of West Texas Chamber of Commerce directors meeting here.

On domestic matters, Sen. Connally told the delegates representing 145 towns in 132 counties that frontiers for pioneering in many

fields await the American people, especially those of Texas and the southwest.

During business sessions earlier yesterday representatives of West Texas towns gave final approval on policies and work programs which had been presented and discussed in eight regional meetings.

Nine planks of the program were discussed at a session conducted by M. C. Ulmer of Midland, president. All were adopted, but at a night meeting a plan which would have authorized the editorial board of the organization's publication to sponsor a \$2,000,000 state appropriation to advertise Texas nationally was rejected.

E. W. Hardin of Amarillo was elected president; G. A. Simmons of Lubbock was named first vice-president; Hamlin Y. Overstreet of Texico, N. M., second vice-president; Malcolm M. Meek of Abilene named treasurer and D. A. Bandeen of Abilene general manager. H. C. Custard of Cleburne succeeded Hardin as third vice-president.

Among the plans approved yesterday were the following:

A permanent public expenditure and taxation bureau will be established by the organization to finance programs and reduce public expenditures in federal, state and local affairs.

The West Texas Chamber and its freight rate equality federation will seek legislative appropriation to file suit in U.S. supreme court to secure equality for Texas in transportation charges if no equitable freight rate is granted in cases now pending before the interstate commerce commission.

Backing for a general broadening of the national social security program to embrace all workers including those in the armed forces, and financed on a 50-50 basis by employers and employees.

Efforts to seek support of state representatives on the state fiscal control bill, the city and county budget bill, the redistricting bill and the scholastic attendance school appropriation bill.

Endorsement of the free enterprise system and a reduction in taxes.

The convention is in session at general headquarters of the organization here.

Hollar Gets Medal Posthumously For Bravery In Action

WASHINGTON, D. C., Nov. 8 — For leading his comrades on a perilous assault against enemy positions deep in Jap-held jungle on Cape Gloucester, on January 1, this year, Marine Private Victor V. Hollar, Jr., son of Mrs. Della Beatrice Hollar of Big Spring, Tex., has been awarded the Silver Star medal posthumously.

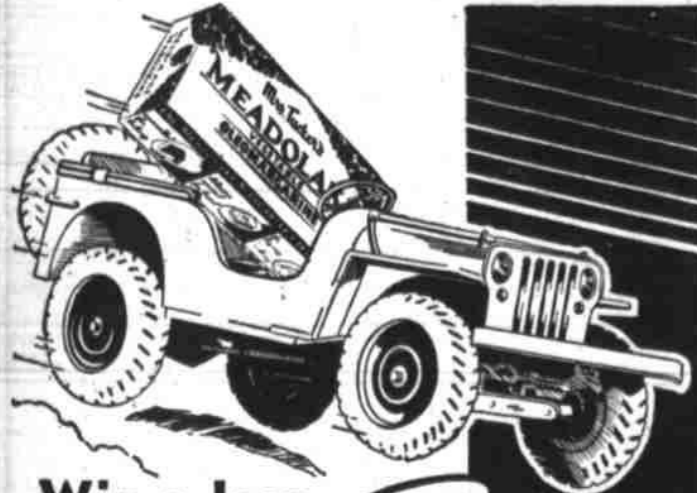

After killing two Japs and inflicting several casualties, Private Hollar himself was killed by snipers.

The citation, issued for the president by Secretary of the Navy James Forrestal, tells how Private Hollar discovered Jap troops preparing defensive positions on a voluntary scouting mission deep

in jungle territory.

"Private Hollar immediately returned to his own unit and courageously led a patrol against the hostile forces, inflicting several casualties.

"Later, while again engaging the enemy with vigorous fire, he succeeded in killing two of the Japanese before he, himself, was fatally wounded by hostile snipers. "He gallantly gave his life for his country," the citation concludes.

Harry Wyatt Flies Nickeling Mission

First Lieutenant Harry H. Wyatt, Jr. recently flew a "nickeling mission" over Northern Italy with a 12th AAF, according to word from his B-25 base.

Although the "nickeling mission" is devoted to the dropping of leaflets instead of bombs on German troops, it is far from a "milk run." The task is quite as hazardous as ordinary bombing missions for enemy fighters and flak play no favorites.

Information from his base describes the mission as "vitaly important. Not only does it help break down the German soldiers morale and confidence, but it also is a great aid in filling our prisoner-of-war camp."

The German soldier is permitted to use leaflets as a passport to safety — a ticket which tells him he can be admitted to the American lines without injury. Thousands of German prisoners have said the propaganda leaflet was the final contributing factor in their surrender.

A veteran of some seven months overseas service, Lt. Wyatt is with a unit which has established the exceptionally low combat casualty rate of less than one-half of one per cent. Lt. Wyatt, whose wife, Mrs. Dora Ann Wyatt is at home with her parents, Mr. and Mrs. G. H. Hayward, 1708 Main, holds the European - Middle East - African ribbon with one battle star.

Retiring Congress Facing Hard Pre-Christmas Schedule Of Work

WASHINGTON, Nov. 9 (AP)—Floor managers laid down today a hard pre-Christmas schedule for the retiring congress, to set the stage for 1945's debates on the shape of world organization for permanent peace.

The dying 78th congress which provided the sinews for the giant American war machine convenes for its last sessions at noon Tuesday. It gives way to the 79th on January 3.

Before the 78th passes into history it must deal again with the president's war powers, social security and a host of other far-reaching measures.

The war powers legislation, under which the president derives authority for rationing and other emergency functions, expires December 31, unless action is taken.

A hike in the social security tax from 1 to 2 per cent against employers and employees, is scheduled for January 1. The increase has been stayed by special acts of congress and Senator Vandenberg (R-Mich) is ready to propose again to forestall the increase.

In addition to these tasks, Speaker Rayburn (D-Tex) laid down this program for the house:

- 1—Completion of action on a bill, passed by the senate, for a three-year postwar highway construction and improvement program. The legislation authorizes the federal government to spend \$1,475,250,000.
- 2—Consideration of a measure to resurrect the federal crop insurance program—now being liquidated because congress last year refused to finance it. Both republican and democratic platforms declared in favor of crop insurance, since.
- 3—Opening of hearings on legislation to revive the bituminous coal administration, designed to prevent price cutting in the soft coal industry. Congress rejected such a law last year.

The senate has on its docket a house approved bill for flood control and rivers and harbors improvements.

Taxes probably will loom large as an issue soon after the lawmakers reassemble, for the staff of experts employed by congress is scheduled to report on its planning for a post-war system of levies designed to stimulate private enterprise.

Fourth Successive Roosevelt Group Pledged To Comprehensive Program

By D. HAROLD OLIVER
 WASHINGTON, Nov. 9 (AP)—The fourth successive Roosevelt administration will take office January 20 pledged to the most comprehensive program in any nation's history.

And the president just reelected along with a stronger democratic congress than he has enjoyed for several years can get down to work immediately on that program without waiting for the routine inaugural ceremonies on the capitol plaza.

As outlined by Mr. Roosevelt in the recent campaign, the administration policies of the future will point mainly to these general courses:

- 1 — An "orderly" reconversion to civilian production in due time.
 - 2 — Demobilization as rapidly as is permitted by military necessity.
 - 3 — A world security organization with America's representatives endowed in advance with "authority to act" in halting aggression.
 - 4 — An America at peace, though kept "prepared" for any threat to peace.
 - 5 — A post-war economic goal of 60,000,000 productive jobs in a nation freed of war-time controls over wages, prices and production.
- Although the president is due back in the White House tomorrow, foreign policies and international conference with Churchill and Stalin.
- Domestically, the administration program looks ahead to a demand for "well over a million homes a year for at least ten years." Such construction would be privately financed for the most part, with the government stepping in where needed.
- New highways, parks, thousands of new airports, planes, new low-priced cars, hospitals and health clinics—all these are on the construction charts for checking the usual job-slacking after wars.
- Other Roosevelt pledges for the future:
- 1 — A merchant marine big enough to meet expanded world trade.
 - 2 — Easier business taxes to spur industrial development.
 - 3 — Special capital and credit for small business, with every facility to buy government-owned plants, equipment and inventories.

Stevenson To Name Regents Next Week

AUSTIN, Nov. 9 (AP)—Governor Coke R. Stevenson said today he hoped to announce next week the names of three new University regents to replace those of Dr. Homer P. Rainey as university president.

At his press conference the governor revealed that he had planned to make the announcements today but said in answer to a question that one prospective appointee was hesitant about accepting.

Members of the board who resigned were Chairman John H. Brickett, Jr., of Dallas, H. H. Weibert of Seguin and Dan J. Harrison of Houston. Although three other members were reported as considering resigning, none has done so, the governor said.

The governor said he would continue to discuss the university situation with interested groups and disclosed that he had granted a request for a conference today by Malcolm Wallace of Dallas, student body president, and Jimmie Fogartie of Longview, student body officials. The purpose of the conference was not disclosed.

The governor said he had received a large volume of mail concerning the university administration row and estimated, in response to a question, that 60 per cent of it favored Rainey's position in his differences with the board concerning the scope of authority as between him and the board. The remaining 40 per cent, said the governor, commended the action of regents.

Area Farmers Meet Here Friday A. M.

Critical issues of vital importance to producers of farm products will be discussed by farmers of this area in a meeting to be held at Big Spring Friday, November 10.

The meeting is sponsored by the Texas Bureau of Federation and is one of a series of 13 being held throughout the state of Texas to consider current questions and issues affecting agriculture.

Among the problems to be discussed will be the recognition of agriculture as a war industry with sufficient allotment of machinery, supplies, gas, oil, rubber and transportation to produce and harvest the largest possible crops for the war effort; subsidies and roll-backs; that laws already passed providing for the protection of farmers be administered; ceiling prices on farm products to be set at levels that will in all cases reflect full parity; reasonable floor prices on all agricultural products year-in and year-out; presenting a

"Papa Brings Him Home From Battle"

HOUSTON, Nov. 9 (AP)—"Don't worry, son, Papa will get you home" a Texas pilot told a worried gunner on his crippled bomber and the phrase has become common in Europe.

Capt. William F. Cely, who coined it, is claimed by Palestine, Beaumont and Houston.

He was piloting the Frensis Jan. 11 over Brunswick when it was damaged by flak. German pilots, seeing the bomber was crippled, concentrated on it as it limped back to England.

Six of the crew of 11 bailed out over Germany, but one of the gunners found his parachute had been ripped. That was when Capt. Cely told the worried crewman "Don't worry, son, Papa will get you home."

He did.

Stevenson Urges All Texans To Back FDR

AUSTIN, Nov. 9 (AP)—Governor Coke R. Stevenson asserted today it was the duty of Texans to get behind the national administration in support of the war effort and the governor himself pledged "a continuation of my support."

that his statement did not preclude individual opinions as to what is needed to win the war and the peace. He said he also reserved the right to follow the same course with reference to the administration's domestic policies, "to approve those which are an aid to the war effort and argue against those which are an impediment."

Truman Exemplifies Old Adage About Missourians

KANSAS CITY, Nov. 9 (AP)—Sen. Harry S. Truman, the vice president-elect, might well be the man for whom the familiar phrase, "I'm from Missouri," was started. The Missourian, who has only one hobby—hard work—takes nothing for granted. He becomes impatient if there's a piano around, he's apt to sit down and whip through one of the better known classics.

The Truman family has been identified with Jackson county (Kansas City) for almost a century. Although he was born at Lamar, May 8, 1884, in southwestern Missouri, he has lived in Jackson county most of his life.

The senator is a member of the Baptist church at Independence, is a 32nd degree Mason and an active member of the American Legion. Young Truman never was able to accomplish one of his most earnest desires, to get a college education. At about the time he should have gone to college his father, known as the "best boss trader in the county," lost considerable money and there was none for higher education for the son.

He won an appointment to the U. S. Military Academy but failed to pass the physical examination—his eyes were weak.

So he went to work. In the malling room at the Kansas City Star, on a railroad construction gang and as a bank clerk.

His grandmother asked the elder Truman and his sons to take over her 600-acre farm and they agreed.

For 10 years Harry Truman was a farmer; he still likes to call himself one.

His only political job during those days was to serve as judge of elections now and then.

World War I took Truman from the farm and he never returned. He was one of the organizers of Battery F, 2nd Missouri field artillery.

The war over, Truman returned to civil life. He went into the clothing business and it soon flourished.

Then almost overnight his clothing store business fell off as the deflation of the early '20s set in. His store was stocked with clothing bought at a high price and there were no customers. It closed.

Out of a job, Truman turned to politics—temporarily, he thought. With the sponsorship of the Tom Pendergast machine he was elected county judge. In Missouri the county judges correspond to county commissioners in most other states and have no judicial duties.

As county judge he made a name for himself locally as a builder of good roads and drainage projects.

In 1934 came his big break. Pendergast chose him as his organization's candidate for U. S. senator, and he won.

Pendergast's "office boy" taunted opponents. But Truman stood loyally by his benefactor (said he:

from obscurity into a national figure.

He is of medium build and dresses conservatively, usually in a dark blue suit, dark shoes and hose, but with a white shirt. He prefers a bow tie. He does not smoke. If there's a piano around, he's apt to sit down and whip through one of the better known classics.

Regulars Will Be Welcomed Into Party

DALLAS, Nov. 9 (AP)—"We'll be glad to welcome Texas regulars back to the democratic fold," State Democratic Chairman Harry L. Say said here.

But he added a note of warning. He said the democratic party will maintain a permanent office in Dallas for the next two years to combat any attempt of anti-new dealers to gain control of the party machinery.

"We'll be glad to welcome back any who confess faith," he told the Dallas News. But he added there would be no slaughtering of the fatted calf.

In announcing plans to maintain a state office here, he said: "If they (the regulars) have an idea they're going to run Texas two years from now, they're going to be worse fooled than they were Tuesday."

From where I sit... by Joe Marsh Soldiers' Wives and Returning Husbands

You may have seen in the papers where a writer cautioned Army wives that their returning husbands would be "strangers" to them—because they've been through experiences that their wives could never share.

every fighting man. For home is a lot of little things! A garden or a work bench—well-thumbed books... a mellow glass of beer with friends.

Well, a high-ranking officer wrote an answer to that; he called it nonsense. "What do our men want most? To finish the war and come home... What are they fighting for?... For everything the word home means."

But whatever they are, it's the memory of these small familiar things that he takes with him into battle. And it's these little things that link his thoughts to home—and to the familiar life that he looks forward to returning to.

DRUGS WITH A REPUTATION

IN ITALY—Pfc. John A. Briley's quarters aren't exactly in the luxury class where he is stationed with the 461st bombing group in Italy, but he writes his aunt and uncle, Mr. and Mrs. C. S. Kelly, 295 W. 17th, "I have my own hut," he wrote, "just me and my shadow" and gave an inkling as to its type when he said "I'll know something about cooping up chickens when I return." He had a pet dog, Tassy (Russian for toy). Things are going well for him, except that he wanted a supply of cigarettes, cigars and shaving lotion. Pfc. Briley attended school here and worked in several drug stores before entering the service. Given a medical discharge at Kelly Field, he succeeded in re-enlisting in Nevada last Sept. 4 as a radio operator and went across soon afterwards.

Four Reasons Given For Greatness Of San Angelo's Visiting Champs

By BILL BARNETT
In summing up the reasons for the average winning ball club being an above-average winning combination most fans credit it to the line or backfield, or both. In the case of the San Angelo Bobcats who invade Steer Stadium Friday night that is especially true, it is both.

is that in summing up the line little explanation is needed other than three of the linemen, and one of the backs. In these four boys lie most of the mighty champion's power, speed, versatility, and scoring.

First to go down the line and take the outstanding three men in the seven formidable foes. The most noticeable of all these seven star performers is Vernie Horner, George Hughes and Dennis Doyle.

Horner is an end. He is not just the common type end, but is quite an unusual boy. Horner is nice looking and presents a calm and unruffled outlook to his opponents. That is exactly what he is. But when the whistle blows, amid all that calmness, lies the ability of one of the finest all-around ends in the Lone Star circuit of schoolboy teams.

In George Hughes Coach Jewel Wallace boasts another of the state's outstanding performers and a cinch to make the District No. 3 All-District team this year. Hughes is a fast consistent blocker, and one of the roughest defensive guards in the business. Many a center has gone home with a stiff neck, and still sorer spots in other portions of the body from continued pounding from the mighty Bobcat guard. In short he is potent.

Little needs to be said for Doyle. This rugged tackle is well-known to any fan who ever saw the Bobcats in action, either this year and last. He is due to be a repeater on the all-district eleven this year and every scribe who sees him admits he is one of the finest high school tackles to hit the high school grid in many days. Another reason for the big gold football in the Bobcat trophy case.

Into the backfield the onlooker takes a glance and his eye falls quite naturally upon George Graham. This lad, who runs somewhat from the fullback position and who is somewhat more potent than any other high school kicker, brought would dare dream of, is the district's leading scorer and the reason for those high scores the Bobcats continue to run up against any kind of opposition. Behind the perfect blocking of the above-mentioned boys Graham has yet to be stopped cold in any game. He is the most potent of potent ball carriers boasted by the defending state champs.

These four reasons give fans an idea of why the Angelo team will be favored in Friday night's battle in Steer Stadium. Against these men will go such boys as Leo Rusk, Pete Cook, I. B. Bryan,

Locals Favored Over Hosts With Rankin's Return

Invading Midland tonight to give battle to the Midland Pups the Big Spring Yearlings will be attempting to establish their superiority over a team that they have met earlier this year, with that game ending in a 7-7 deadlock.

In the first game between these two teams the difference came in the local defensive and the opposing offensive. The visitors (Midland in the first game) showed much more power than did the locals and if it had not been for the tough line led by Cecil Gilstrap, Pete Fuellar, Wesley Rogers, Joe Jones, and Marvin Wright, the game might have been a different story.

This group of stubborn linemen combined all evening to stop a running attack that proved to be one of the classiest witnessed in the younger circles of football this season.

Offensively the local eleven has been lacking in punch all year, until their last week's encounter with the Hermleigh Cardinals over whom they racked up a 13-0 win sparked by the return of Horace Rankin, as nifty a little runner and passer as could be found in these parts.

This added experience, Rankin having been moved up to the Steer squad during early season play but shifted back down when it became evident that he lacked a little more experience, weight and age for the Steers, is giving local Yearling boosters high hopes that the local eleven can take this win with little trouble.

But Rankin is not alone in his starring as he has some very able assistance in Gordon Madison and Ernie Campbell, two rugged lads who can plug at the line all night without losing a spark of drive or energy, and also who are hawks on defense both against running and passing.

Assisting these three in the fast-stepping department is Paul Shaffer, who accompanied by George Worrell gives a constant threat of wide end sweeps and a passing attack that is hard to stop. Shaffer is an excellent receiver while Worrell is quite capable of filling in for Rankin in the passing department with little difference shown in accuracy and results.

All in all the locals are the favorites to take the game tonight although there is little known how well the hosts will play on their home grounds. Coaches have announced virtually the same starting lineup as was seen in past performances of the locals.

This will close the season for the younger team and if they win will give them three wins, one loss, and one tie for the season's play. They have won over Hermleigh, Tahoka B, tied Midland, and lost to Tahoka B in their opening game.

JOHNSON LEAVES BROOKLYN
BROOKLYN, Nov. 9 (AP)—Cecil Johnson, the passing arm of the Brooklyn Tigers of the National football league, left yesterday for his Paris, Tex., home to report for induction Thursday into the armed service.

Gerald Harris, Joe Cunningham, and John Cooper who have all given good accounts of themselves this year against other teams, but who face a very busy evening in trying to halt the big offensive push being staged by the visitors.

The outcome will be decided and the problem solved between the hours of 8:00 (kickoff time) and approximately 10:30 p. m. tomorrow evening.

Sliding Down The Sports Chute

with BILL

November 19 local football enthusiasts will get their chance to enjoy some "heavier" football when the Big Spring colored Bombers meet the Camp Hood Tank Destroyers here in Steer stadium under the auspices of the American Legion.

The game will be added to by the presence of one Jackie Robinson, late of the University of California at Los Angeles and heralded in his past as the niftiest broken-field runner to appear on the west coast. Robinson is a star performer on the Destroyer combination and the local eleven will have its undefeated hands full trying to stop the speedster. It should prove quite a show for those interested in attending.

Back to the realm of high school football and to the approaching battle here Friday night with the San Angelo Bobcats performing against the local Steers.

For true confessions I must admit that I have been giving the locals little chance to give much better account of themselves than did the Lamesa Tornados, who lost their encounter with the bounding Cats 63-0. I still can not see the local winning the game, but I am not so sure about the score right now.

I took a little trip the other day out to Steer stadium and watched the locals prep for their approaching and so-called "massacre." I must admit that I was not only surprised but impressed by the heretofore seemingly unambitious Longhorns.

They had really buckled down to work and the new plays they were trying out were taking on a semblance of being most confusing to any defenders they run into, even Angelo.

In short I would like to tell local fans that if they are expecting too large a score they may be fooled, and I am right now sticking my neck out, publicly for all to gaze upon, and stating that I firmly believe the locals' scoring sheet will have points added to it Friday night. They will do as well if not better offensively, than did the Midland Bulldogs, who lost 49-6 last week.

Now what the locals can do defensively is still a big question in my mind. I have high hopes that they will get down in the line and give the famous Bobcat forward wall and fullback George Graham some really serious competition, but that remains to the discretion of the Steers.

Other games in the district this week will pit Sweetwater against Odessa and Abilene against Lamesa. The teams named first in each instance should take their encounters, with the latter game merely a brush-up on offensive tactics for the Eagles before their November 23 game with the Bobcats.

Sweetwater may encounter trouble with Odessa and a win by the latter eleven would not surprise this corner, although the Broncos seem to have lost their spark after the severe drubbing the mighty champs handed them a few weeks back.

At any rate the Mustang game tops the district play but I figure anyone out of town Friday evening will miss a treat in not seeing the Bobcats in action.

See you . . .

SPORTS ROUNDUP

By HUGH FULLERTON
NEW YORK, Nov. 9 (AP)—

Between now and New Year's day a lot of folks who are promoting football games to sell war bonds and for other worthy causes are bound to be disappointed. . . . The biggest attraction, of course, would be to shift the Army-Navy game to a big city but that won't happen. . . . Next best likely would be another kind of Army-Navy tussle, say, Randolph Field against Bainbridge, but chances are that won't be arranged, either. . . . Everybody wants Randolph but the word is that after the Dec. 10 game with the Fourth Air Force, the Texas Filers will be waiting for bowl lightning to strike. . . . And the Navy teams will have difficulty getting permission to play such proposed tilts as Bainbridge-Camp Peary (return match scheduled Nov. 25) at Baltimore and Fort Pierce, Fla., Amphibs vs. Chicago Bears at Miami.

The Age of Sports
W. C. (Pop) Anderson, Utah State's 35-year-old guard who is the oldest active grinder in the Rockies, explains that he took up football "because I wanted to see if I could take it." . . . If he takes it another year or so, he may find Sonny on the same team. He's father of two children, one 14. . . . Clara Sal, 15-year-old outfielder of an Amsterdam, N. Y., girls softball team, made 29 hits in 31 times at bat last season for a .939 average. . . . Les Patrick, age almost 63, still drills occasionally with his teen-age hockey Rangers and can bust up most of their attacks single-handed. . . . Coach Rubie McCray of William and Mary claims the youngest one-two combination at center this season. First stringer Tommy Thompson of Woodbridge, N. J., is 17 years and 10 months and his sub, George Davis of Hopewell, Va., won't be 17 until late in December.

Penn State's grid coach, Bob Higgins, who has lost 23 players, including six talented kickers, transfers, intelligibilities and injuries looked up during practice the other day to see an erstwhile manager trying to kick placements. . . . "This," said Bob, "is total war."

Meyer Has Fifth Team In Two Years

FORT WORTH, Nov. 9—"I am now coaching my fifth football team in two seasons," reports Coach Dutch Meyer of T. C. U. "That certainly makes us champion of something or other, even if we drop our next four games!"

Coach Meyer had three distinct squads last season, and this week started building his second aggregation for 1944. He has but 25 men left from the squad of 45 with which he started the season. Five of those lost were starters in October.

This week the Frog squad gained 11 men, and Coach Meyer started figuring out ways and means to make the best use of them. Ten men, moved to T. C. U. in the Navy V-12 program, came from Arizona State Teachers college.

"It isn't likely that the newcomers can be of much help to us against Texas Tech Saturday," Meyer comments. "We'll give them as much of our stuff as we can, but for the most part we'll have to depend upon the men who played against Chatham Field last week."

"We can still field a reasonably good starting eleven, but except for two positions, we are woefully weak in reserves."

"The split season may work all right in baseball, but I don't want any part of it for football!" Meyer declares.

Movies Of Series To Be Sent Overseas

CHICAGO, Nov. 9 (AP)—Movies of the 1944 world series, 2,400 feet of film highlights of the all-St. Louis classic, will be ready for shipment this week to service men the world over.

Lew Fonseca, American league movie director, said 130 of the 240 prints to be made will be sent to war theaters around the globe. The remaining 110 copies will be distributed to hospitals and service bases in this country.

Sweetwater Plays Bronco Eleven In Odessa Clash

By BILL BARNETT
Football fans of district No. 3 will have their choice of a three-game slajp this week as San Angelo invades Big Spring. Abilene plays Lamesa in Earle stadium Saturday, and Sweetwater plays in Odessa on the same afternoon.

In Abilene the Eagles are expected to have little trouble with Dan Boone and his teammates and are planning on a brush-up of their offensive and defensive tactics before their most crucial tilt with San Angelo in Bobcat stadium November 23.

The Golden Tornados stack up comparatively on the very short end of the score. They have downed such teams as Tahoka 7-0 and tied Brownfield 6-6 while losing 0-45 to Odessa, 0-40 to Lubbock, 6-7 to Big Spring, 0-83 before the Bobcat onslaught, and 6-47 to Sweetwater.

Abilene dropped two early season games to Breckenridge (7-9) and Amarillo (0-12) while picking up wins over Brownwood (41-20), Odessa (14-7) Lubbock (7-6), Midland (25-19) and Sweetwater (32-20).

This gives the Abilene eleven the heavy advantage and if the Bobcats come through in expected style against the local team the district title will hang in balance when the two undefeated elevens in district play clash there in two weeks.

Over at Odessa another feature match is shaping up. If Sweetwater can take the game they will still have a long-shot chance of being in on the final title claims (provided they can down San Angelo), while Odessa is out of the running, having succumbed to Angelo and Abilene in their encounters. The former team is ranked as favorites although odds do not favor them too much and the Broncos are fighting for a return to the win column.

Their season's scores match up like this: Odessa has played games with stiff competition and lost 6-18 with Lubbock, 0-47 to San Angelo, 7-14 to Abilene, and 0-6 against Ysleta. The Broncos have won 51-0 over Bowie of El Paso, 45-0 over Lamesa, 34-6 over the local Steers.

Meanwhile the Mustangs conquered all comers up to the Abilene game which they lost 30-32. Before that time they had downed Masonic Home 37-0, Brownwood 26-6, Ballinger 18-0, Midland 26-6, Plainview 37-13, Lamesa 47-6, and then dropped the Abilene tilt.

The teams, on a comparative basis are about even with perhaps the Odessa team showing the better defensive while the Mustangs hold the offensive edge with little Townner Leeper. However he is counteracted by such stars as George Cook and Broncho full-back Kelly.

Midland has an open date, with the local game slated for Friday night, and the latter two on Saturday afternoon.

Eddie Lee Decisions Alva In Galveston

GALVESTON, Nov. 9 (AP)—Chinese Eddie Lee, St. Louis, 136, won a unanimous decision over Ray Alva, Monterrey, Mexico, 136, here last night.

Alva showed flashes of brilliance as he counterpunched the eager Lee, who won the fight on aggressiveness.

The featherweights fought ten rounds before a crowd of 2,500.

The date palm will thrive in any subtropical climate where the temperature rarely drops to 20 degrees F., but the fruit can be produced only if the weather is hot and dry during the summer and fall ripening period.

ENCHANTRESS IN International Sterling

Let us show you this and the other beautiful patterns in International Sterling. Most six-piece place settings cost less than \$25.00 including tax.

For if you do, you'll choose a pattern of rare beauty and perfection. A mirror-clear panel of silver, a simple bit of roiling, delicate spirals of bloom—all blend together in a perfect example of the silversmith's art. There is no more beautiful metal than silver and in the Enchantress pattern it has glorious, ageless beauty.

The Real Test Is Here

Our nation has weathered another presidential election—and with it the first wartime presidential election in 80 years.

The fact that we continued through our ordinary processes of determination at the polls stands as a monumental tribute to us.

Few campaigns have been imbued with more bitterness. The tension of wartime naturally would contribute to this; the unprecedented tenure of office of the president invited more of it.

It is one thing to say: "The election is over. Let us forget what has been said and work together to solve our problems to our mutual benefit."

The president has a clear mandate from the people. Any man who could win the high honor of president for four times certainly is the recipient of an incalculable amount of faith from the people whom he serves.

There is sobering knowledge in the fact that while the majority is conclusive, there is nevertheless a tremendous vote for the opposing major candidate.

We pray that the spirit of democratic compromise will prevail in a more tolerant atmosphere during the next four years. This will call for the best of all of us. It will call for less blind prejudice. It will call for less name calling and idle use of catch-phrases, or ill-based charges.

It can be brought about only as each of us—each individual citizen—tries honestly and earnest-

The War Today

by Dewitt Mackenzie Associated Press War Analyst

The way military operations are developing in Europe it looks as though the Allies were getting set for simultaneous offensives in both west and east—a squeeze attack calculated to achieve a quick kill through terrific pressure.

Along with the evidences of General Eisenhower's preparations for a big drive, it's now reported that the Red armies are massing in strategic sectors of their long front.

The Soviet armies may strike at several places. A highly important prospect is held out in the Berlin assertion that the Russians are preparing to hurl an attack from their bridgehead on the west bank of the Vistula in southwest Poland, in the sector of the railway cities of Krakow and Tarnow.

At this point the Red armies are standing only about 100 miles from the border of German Silesia, which is the closest they have come to Germany proper. This is one of the natural routes into Nazi-land, and when the Russians start their offensive there it presumably will have as its objective a quick invasion on the direct route to Berlin.

Building for a big offensive often is comparatively slow and methodical. General Eisenhower has for days been ironing out his front at lumpy spots in preparation for the onslaught. This has accounted for the violent fighting on the United States First Army front southeast of Aachen in the forest area.

Fitting into the broad picture is General Patton's attack with his Third Army on a wide front in the Metz sector. The Germans say this attack is aimed at breaking into the Saar valley just inside Germany—which remains to be seen.

Capital Feels It Has 'Grown-Up'

By BUS HAM (Substituting for Jack Stinnett, who is ill.)

WASHINGTON — Your nation's capital feels that it has grown up, is now big enough to take a regular place when the war ends here.

To provide the locale for major events, a week has been set aside as "National Stadium Week" to launch a drive for a "Coliseum without a top" on it, large enough to accommodate any event in this country.

Those quotes are the words of Floyd D. Akers, general chairman of a committee which has been working to revive the stadium idea . . . a dream that would bring international conferences, olympic games, Boy Scout jamborees, religious and educational meetings, great musical gatherings, military competitions and the like to Washington.

"We're not thinking of building just another immense football stadium," Akers said. "This is the nation's capital, the nerve center of the world, and it should be the world-events capital as well."

This stadium idea isn't exactly new. It has been kicked around for years, but this revival apparently is gathering enough force to reach a happy realization as a major undertaking in Washington's post-war planning.

It isn't a one-man or one-group effort, and to make sure that everybody has an opportunity to express himself a downtown mass meeting has been called, with congressional, civic, religious, educational and sports leaders participating.

Special guests such as Babe Ruth and Walter Johnson, Gene Kenney and Jack Dempsey, and Army and Navy officials were invited.

Bills for the construction of a stadium were introduced in Congress before the outbreak of war, and Congress will have a part in the present planning. . . . The important role of appropriating money.

Estimates of the cost run as high as \$40,000,000, but that includes not only a stadium seating upwards of 100,000, but tennis courts and stands, a rowing course on the adjacent Potomac,

Ernie Pyle: Wandering Around Along "Fluid" Battle Front Gives War's Story

Editor's Note: This is the 51st of the Ernie Pyle war dispatches that are being reprinted during Ernie's vacation.

ON THE WESTERN FRONT. August, 1944 — When you're wandering around our very far-flung front lines — the lines that in our present rapid war are known as "fluid" — you can always tell how recently the battle has swept on ahead of you.

You can sense it from the little things even more than the big things — From the scattered green leaves and the fresh branches of trees still lying in the middle of the road.

From the wisps and coils of telephone wire, hanging brokenly from high poles and entwining across the roads.

From the gray, burned-powder rims of the shell craters in the gravel roads, their edges not yet smoothed by the pounding of military traffic.

From the little pools of blood on the roadside, blood that has only begun to congeal and turn black, and the punctured steel helmets lying nearby.

From the square blocks of building stone still scattered in the village streets, and from the sharp-edged rocks in the roads, still uncrushed by traffic.

From the burned-out tanks and broken carts still unremoved from the road. From the cows in the fields, lying grotesquely with their feet to the sky, so newly dead they have not begun to bleed or smell.

From the scattered heaps of personal debris around a gun. I don't know why it is, but the Germans always seem to take off their coats before they flee or die.

From all these things you can tell that the battle has been recent — from these and from the men dead so recently that they seem to be merely asleep.

And also from the inhuman quiet. Usually battles are noisy for miles around. But in this recent fast warfare a battle sometimes leaves a complete vacuum behind it.

The Germans will stand up, I know hope. Then some give up, I know hope. They come give up, and the rest pull and run for miles. Shooting stops. Our fighters move on after the enemy, and those who do not fight, but move in the wake of the battles, will not catch up for hours.

There is nothing left behind but the remains — the lifeless debris, the sunshine and the flowers, and utter silence.

An amateur who wanders in this vacuum at the rear of a battle has a terrible sense of loneliness. Everything is dead — the men, the machines, the animals — and you alone are left alive.

One afternoon we drove in our jeep into a country like that. The little rural village of gray stone were demolished — heartbreaking heaps of still smoking rubble.

We drove into the tiny town of La Detinais, a sweet old stone village at the "T" of two gravel roads, a rural village in rolling country, a village of not more than 50 buildings. There was not a whole building left.

Rubble and broken wires still littered the streets. Blackish gray-stone walls with no roofs still lay in the street, helmets and broken rifles askew around them.

There was not a soul nor a sound in town; the village was lifeless. We stopped and pondered our way, and with trepidation, we drove on out of town. We drove for a quarter of a mile or so. The ditches were full of dead men. We drove around one without a head or arms or legs. We stared, and couldn't say anything about it to each other. We asked the driver to go very slowly, for there was an uncertainty in all the silence.

There was no live human, no sign of movement anywhere. Seeing no one, hearing nothing, I became fearful of going on into the unknown. So we stopped. Just a few feet ahead of us was a brick-red American tank, still smoking, and with its turret knocked off. Near it was a German horse-drawn ammunition

Mirrors Of Austin—

Legislative Reverberation Due In Wake Of University Turmoil

By PAUL BOLTON Herald Austin Correspondent

One legislative reverberation to the Rainey affair at the University of Texas will be a movement to obtain a new method of electing regents, based upon participation by ex-students.

While the ex-students' association has not, as an association, formally adopted any suggestions, there has been wide discussion of a proposal tentatively outlined, is like this:

The state would be divided into districts, and the ex-students in each district would select its nominee or nominees for appointment. There would be nine districts, with nine nominees. The planning has not reached the point where those discussing the proposal are ready to say just what the procedure thereafter would be.

But they do say that there are precedents for some such procedure in other states.

And there are even precedents of a sort within the state of Texas, specifically, in water control districts. For some of the districts, the board of water engineers "nominates" the directors, and the governor then "appoints" whoever the board nominates.

On some of the other boards, particularly those regulating the professions, the interested or regulated people submit lists to the governor, from which he selects his appointees.

For that matter, the governor has indicated a tacit approval of some such plan; for he took the recommendation of members of the state medical association in selecting a "medical member" of the board of regents to succeed the late Dr. K. H. Ayresworth.

On the question of what qualifies a man or woman to be a regent, there is a wide divergence of opinion. Numerous people in the capitol-office holders, law-

yers, school people themselves, and just plain old people were asked this question. There was no unanimity of opinion, except that to try to put qualifications into the law would be extremely difficult.

There was fairly general agreement on this: They ought to be ex-students of the university. But beyond that, the average citizen seemed to be without concrete idea of the qualifications which fit a person to be a regent. Here are some of the ideas:

From a newspaper editor: "They should have broad understanding and judgment and a tolerant viewpoint. They should believe in complete freedom of expression and freedom of research. They should have no political axes to grind. They should not be interested in campaigning to get the rest of the world to think as they think."

From a political office holder: "I'm inclined to think that we need not only regents but other leaders more responsive to the masses of the people rather than to a tight little oligarchy of a few men at the top of the heap. There ought to be an ex-student who is earning say \$3,000 or less a year to represent that class. And perhaps no regent ought to earn more than \$5,000 a year so that he will not

be wrapped up in the proprietary viewpoint."

From a plain "Texas Ex": "Out of the fine men who have served as officials of the ex-students association, the governor ought to be able to find men with a sincere interest in the university — men like Ireland Graves and Charley Francis, W. H. Francis, Hurley Black, A. M. McAfee, Hines Baker."

Others could be quoted from around a dozen people interviewed, but these are representative. Only one man said that a new board of regents ought perform to re-instate Dr. Homer Price Rainey as president. The others said: Leave the new board with the entire decision and responsibility.

But upon one point there was unanimity of opinion: Every person interviewed believed that an entirely new board of regents should be named. And the interviewees represented all shades of opinion—the Rainey partisans, the Rainey opposition, those merely interested in cleaning up an awful mess.

Only one man raised an objection: "If I were a regent, I don't know that I would resign; I don't know that I would do that?" he asked.

Hood Breaks Leg As Participant In Greatest Military Encounter

Soon after D-Day, Mr. and Mrs. R. B. Hood 204 W. 10th street, learned their son, Pfc. Ray B. Hood, paratrooper, had suffered a broken leg in the Normandy invasion June 6—but recently they found out he was on the fourth plane of the flight that opened the biggest military show in history.

Pfc. Hood has written an interesting account of his experiences to his parents, which appears in part:

"All of us had our faces blacked with burnt cork and cocoa and lined oil and we did look pretty rugged. Our trip over the channel was long enough to think of our past sins and sweat it out. There was a lot of wisecracking, one fellow observing 'this is a helluva time to be making my 13th jump.' Before we took off the chaplain came into the plane and didn't give us any 'for God and country stuff' but said 'good luck boys, and God bless you.' It made us all feel better, somehow.

"When we hit the coast of France the Jerries started throwing everything but the kitchen stove at us. I remember one fellow said, 'Why the blankety-blanks are shooting at us.' None of us was wounded by the flak, but it came close, a bunk cutting my static line and I had to use my reserve chute, which was too small for the load I was carrying. We were coming in pretty low, too, and I remember praying my chute would open because it takes a long time to open. I was at treetop level when I felt the opening shock.

"I didn't mind for the Germans were firing at us with everything from pistols to heavy AA guns. The sky was sprinkled with parachutes and hot slugs. We landed in a field and one of our men hit a tree and was loudly damning his luck. There were Huns all around, some 50 yards away.

"We were ordered not to fire (it was dark about 12:40 a. m.) for fear of hitting our own men. My leg hurt when I landed, was giving me a lot of pain. It was dark and in making my way to the fellow in the tree, I didn't see the German in the shadow of the hedge-row. He must have been nervous, because he made a mistake. Instead of waiting until I back, he made his try with a bayonet and getting me in the net just as I came up even with him. I saw him out of the corner of my eye and jumped back. He got me across the base of the left hand, just deep enough to scare me into quick action. I parried his bayonet to the left and got him with a butt stroke on the head—and put on the finishing touches with my bayonet. Those hours of bayonet drill certainly paid off.

He worked his way toward his buddy and they started toward what they thought was assembly point, but they were completely lost. Making a wild guess, they started off and picked up several others with things mixed up until morning. His leg hurt so badly he had to drop out and concealed himself—beside a friend, with a broken leg. A medic came along and gave them morphine. When they awakened in the afternoon, with two good legs between them, they hobbled to a French farmhouse where his companion was put in bed with plenty of ammunition while Pfc. Hood stumbled off for an ambulance.

Halling a jeep he got into a town. There snipers were making trouble and he joined with two others to try for them. They worked ahead and one got a slug in his shoulder. A Jerry threw a concussion grenade which hit near a protecting rock wall and Hood was knocked unconscious. He awoke at night and crawled back to his lines and the Frenchman's house where he commandeered a horse. Enroute to join the Yanks, a sniper in a church steeple made trouble and Ray and a buddy "screed in on his helmet."

With a lieutenant from his outfit, he started in search of his unit in a German half track and suddenly ended up in German territory. Bullets whistled around but they succeeded in getting away.

At an aid station, a doctor examined his leg and pronounced it broken. Snipers kept at work and a German plane strafed the aid station.

Pfc. Hood talked with German prisoners who said they had surrendered at "first opportunity, but I don't think many of us were fooled by their talk."

Back in England, hospital fare was boring and Hood was glad to rejoin his unit. Today he is somewhere in the Netherlands, his parents report.

Howard Co. Must Erase Bond Deficit

Howard county must come booming back during the Sixth War Loan in order to erase deficits in E bond purchases during the past three months, Ira Thurman, county bond chairman, pointed out Thursday.

For the third successive month, Howard county fell far under its monthly quota in October, selling only \$45,185 of E, F, and G bonds against an obligation of \$99,800. Sales so far in November amount to \$13,610.75, virtually all of it in E bonds, which count toward the Sixth War Loan quota, Thurman said.

He urged residents to begin now heavy and sacrificial purchases of bonds, especially the E issues, so that the \$365,000 drive quota for this series can be met and the deficit of three months erased.

He added that there had been an erroneous impression that the payroll deduction plan was not in effect here. "Such is not the case," he said. "On the contrary, we strongly urge that all concerns push this form of war investment."

December 8 Slated For Treasure Hunt

Santa Claus makes his initial pre-Christmas visit here Dec. 8—a date which ties in with the traditional downtown treasure hunt, Cecil Westerman, chairman of the chamber of commerce merchants committee, announced Thursday.

The date is as near the convention time for the program as possible, and arrangements this year will be similar to those in former seasons.

Tied in with the occasion will be the formal unveiling of Christmas windows for local stores. Saint Nick will be on hand to greet the children and to get a slant on what they want for Christmas. Thousands of people in Santa Ana, Calif., Thunderbolt Field, and Gardner Field. For six months he was instructor at LeMoore, Calif. before transferring back into active fighter pilot service in Sept. 1943 and went overseas the following month.

Born in Colorado City Oct. 24, 1921, Lt. Jones was the youngest of two sons. In high school he played on the Wolf football team before going to Texas Tech, from where he entered the service in Oct. 1942.

He was married to Minnie Kate Grisson in the same month and she and a three-months old son, Richard, survive him as well as his parents, one sister, Mrs. Wylie Kinard, Colorado City; a brother, Jesse Jones, Vincent, and maternal grandmother, Mrs. Margaret Ragan, Colorado City.

Brits Move Toward Forli In Po Valley

ROME, Nov. 9 (AP)—British troops of the Eighth army have advanced to within 500 yards of Bussecchio, about one mile from the bitterly contested Po valley communications center of Forli, Allied headquarters announced today.

The British crossed the "King of Ditches" canal forming the eastern boundary of the Forli airfield and captured the shattered buildings on the north side of the field. Eighty prisoners were taken.

Training Council For Scout Den Chiefs

A training council will begin next Sunday for den chiefs, Henry Norris, Boy Scout executive, said Thursday. All den chiefs or boys interested in becoming den chiefs are invited to attend the sessions which begin at 2:30 p. m. in the basement of the First Baptist church. The course will be directed by D. M. McKinney.

At the scout commissioners meeting at the chamber of commerce Wednesday night the following neighborhood commissioner assignments were made: Charles Watson, troops Nos. 1 and 2; Elra Phillips, Nos. 3, 5, 9 and 117; George Melear, Nos. 4, 8 (Coahoma), and 11 (Forsan); Jake Morgan, Nos. 6, 16, 19; D. M. McKinney, cub packs Nos. 27, 29, 13.

The next commissioners session will be held Nov. 15 at 7 p. m. in the First Presbyterian church.

Roosevelt Polls Most Of Servicemen's Vote

WASHINGTON, Nov. 9 (AP)—President Roosevelt polled about 67 per cent of that part of the service vote counted separately and thus far reported.

The popular vote in the nation, including some soldier ballots, gave Mr. Roosevelt 5.2 per cent of the vote and Governor Thomas E. Dewey 46.8 per cent.

It is impossible to tell how the soldier vote as a whole divided, since it is being counted separately in only a few states. And in states where service ballots were segregated returns are yet far from complete. In some instances the final count will not be available until Dec. 5.

All of the figures now available are from states carried by Roosevelt.

The returns showed—Roosevelt 288,176; Dewey 139,988.

Patch Tests Almost Complete In Schools

Mrs. Ann Fisher, city-county health nurse, said Thursday that she has completed TB patch testing in the Big Spring schools with the exception of the high school and the colored schools. She has given approximately 395 tests thus far this week.

The nurse is testing in Lomax, Hartwells and Cauble Thursday.

Increase Indicated In Cotton Output

AUSTIN, Nov. 9 (AP)—An increase of 100,000 bales in the indicated cotton production for Texas this year was forecast today by the crop reporting board of the United States Department of Agriculture.

Based on Nov. 1 conditions, a crop of 2,600,000 bales was predicted, compared with 2,500,000 on Oct. 1, and with 2,823,000 bales produced last year. 3,273,000 bales was the average production in Texas during the 10-year period 1933-42.

The estimated lint yield per acre at 175 pounds compares with 174 pounds in 1943, and a 10-year 1933-42 average of 182 pounds.

Ginnings in Texas to November 1, are reported by the bureau of census at 1,577,000 running bales, compared with 2,160,000 bales ginned to the same date last year, and 2,156,000 bales to November 1, 1942.

Florida-Arkansas To Oust Union Shop

WASHINGTON, Nov. 9 (AP)—Incomplete returns indicated today that both Florida and Arkansas voters had approved state constitutional amendments outlawing the closed union shop. A similar ban was beaten in a California referendum.

With only 2644 precincts out of 1,480 in Florida still untabulated, the amendment was leading by 14,300 votes and President Leo Hill of the Florida federation of labor conceded its adoption. Labor organizations vigorously fought the proposal.

The vote in Arkansas stood 71,747 for and 64,897 against the ban, with 1,264 of the state's 2,087 precincts reported.

In both states the amendments would provide that residents could not be denied employment because of membership or non-membership in a labor union.

The California vote was 620,177 for and 1,008,432 against the so-called "right of employment" amendment, in 8,289 of the state's 14,841 precincts.

Over 500 Persons Expected At Annual Methodist Council

SWEETWATER, Nov. 9 (AP)—Over 500 persons are expected to attend the annual Northwest Texas Methodist conference now in session here.

Special meetings were held yesterday. Bishop Charles C. Seelman and district superintendents conferred. Later a board of evangelism luncheon was presided over by the Rev. Frank Beuschamp of Abernathy.

The conference formally opened last night with a sermon by Dr. Allen W. Moore of the First Methodist church, Dallas. Ray H. Nichols of Vernon presided over a layman's dinner.

Sermons today will be delivered by Dr. Warren E. Johnston of Fort Worth. Dr. Marshall Steel of the Highland Park Methodist church of Dallas will speak Friday and Dr. Eugene B. Hawk of Southern Methodist University will deliver the ordination sermon Saturday.

Appointments will be read at a final session Sunday.

Woman Marries Six Soldiers; Forgets Name

DALLAS, Nov. 9 (AP)—Mrs. Jessie Frances Mason, alias Mrs. Betty Lillian Wright, 24, in a signed statement has admitted to federal bureau of investigation agents that she married six soldiers without benefit of divorce and that she had even forgotten the given name of one of them.

She entered a plea of guilty to a charge of illegally receiving government allotments from two of the men when arraigned before U. S. Commissioner John Davis yesterday.

Dean R. Morley, special agent of the Dallas FBI office, said the young woman's statement disclosed that she had lived only a few days with each of the soldiers except one, and that she lived with him seven months.

It was for receiving allotments from husbands five and six, whom Morley said she married in 1943, that she was charged.

Commissioner Davis sent her to jail in default of bond.
