Fashion Consciousness Comes Easy to First Black Miss Universe

Fashion consciousness comes easy to Janelle Commissiong, the first black Miss Universe. At 24 years old, she is a graduate of Manhattan's Fashion Institute of Technology, and was formerly a buyer for Martin's department stores in New York.

"I was a buyer for junior dresses," she reminisces. "At that time—a few years ago—sports-wear was the big thing." Although she's lived more than half her life in New York, she won the title as Miss Trinidad/Tobago.

Going on to become Miss Universe hasn't changed Janelle's outlook on the fashion business. In fact, she entered the Miss Universe contest mainly as publicity for a boutique of her own which she was about to open in Trinidad.

"It's a good thing I hadn't yet opened one, because now I have no time to run it," says Janelle. "From the day you win and the crown is on your head, you're 'on' all the time."

Her hectic schedule as Miss Universe has taken Janelle to Europe, Latin America and the Far East, with many more countries still to be visited.

When her reign expires, she plans to return to Trinidad and open her boutique. It will be mainly for working girls in their early twenties, and she plans to import most of the clothes from the States.

"One thing I do feel is that the

average woman can't relate to the very thin, no-waisted, flat-chested models in the fashion magazines," Janelle explains. "It's nice to be slim, but there's nothing wrong with having some body too."

Prefers Tailored Look

Personally, she prefers tailored clothes. At 5'5" she's the shortest Miss Universe ever, and feels overpowered by too many accessories. "I have to feel comfortable in what I wear," she says.

She likes pantsuits, skirts and shirts, an "uncluttered" look. "I don't like to feel that the clothes are wearing me," she smiles.

Janelle is especially enthusiastic about designers' ready-to-wear collections. "Couturier clothes tend to be extreme and geared to the 5'9" frame." At the moment, she has more clothes by Scott Barrie than any other designer.

For evening, Janelle likes a very feminine look—very soft but not too frilly. "I don't like to wear pants at night," she confesses. She likes soft fabrics such as jerseys and silk.

She admits she's not a trend setter—"I decide what my own style is, wear hems at a moderate length." She's gotten into the "big look" on a modified scale, but feels she's too small for the extreme layered look. "I also can't wear blouses with bows around the front, I feel all tied up."

Yellow and Red Favorites

Her favorite colors are yellow and red. She rarely wears black, which she claims "drains the color from my face." She does have one black suit, but wears it with a crisp white blouse next to her face.

Will she have a line of cosmetics in her Trinidad boutique?

"I don't know yet," says Janelle. "Of course, most women in Trinidad are dark skinned and I haven't found many makeups that are effective for black women. Most of them tend to have too much of a red or gray undertone. However, one product I can recommend for the black woman is Esoterica Medicated Cream. It evens out skin tones, and is so effective that I use it myself. It gives my skin one soft even glow."

As for accessories, Janelle likes thin gold chains, understated earrings such as gold studs—a classic look that is a natural with the tailored clothes she prefers.

For footwear, Janelle prefers "a nice feminine shoe." She doesn't like boots, feeling that they look too trendy—"and besides, my feet are claustrophobic."

Natural, individual, uncluttered lines—those are the keynotes in Janelle's clothes sense. Does she have any advice to young women on how to choose a wardrobe?

"Just find your own style. Wear what works best for you!"

For evening wear, Miss Universe likes a very feminine look—soft but not too frilly. Esoterica Medicated Cream helps, too, by giving skin areas a subdued even glow.

Schools Designate May 26 Makeup Date

May 26 has been designated a day of instruction for the Lubbock Independent School District. It will serve as the makeup date for classes that were dismissed February 17 because of inclement weather. It will also be the new date for the final day of instruction this school year.

Elementary school students will pick up their grade reports on Saturday, May 26, as previously scheduled.

Quarter examinations for students in grades seven through eleven are rescheduled for May 25 and 26.

Seniors will have their graduation exercises the same dates as originally planned, but there are some changes of their

end-of-year activities. Final examinations for seniors will now be May 22, and check-out activities are changed to May 23. A new date of May 24 is reserved for individual school graduation rehearsals.

Commencement exercises are set for Estacado and Monterey on May 25, for Coronado and Dunbar on May 26, and for Lubbock High on May 27. A combined commencement sermon for the five schools will be Sunday, May 21.

The end-of-year schedule for adult classes will be the same as originally planned. The graduation program for the Evening High School will be May 26.

furnished by the Library, and the public is invited to bring a sack lunch and enjoy the free program.

"Spin Cookery" Topic Of Lunch Bunch Program

"Spin Cookery with a Blender and Food Processor" is the topic of the next Lunch Bunch program on Tuesday, April 18. Miss Joy Parnell, Home Economist for the Southwestern Public Service Company, assisted by Mattie Mae Smith will demonstrate techniques of cooking with blenders and food processors, and describe the various uses to be made of each appliance. There will be food samples to taste.

Lunch Bunch meets each Tuesday from 12:15 to 12:45 in the Mahon Community Room of the Lubbock City-County Library, 1306 9th Street. Coffee is

NAACP

The National Association for the Advancement of Colored People (NAACP) Lubbock Branch has received a number of complaints about delay in receipt of membership cards from the National Office. It has been informed that the delay has been caused by the conversion during the past year of National Office membership records from manual to computer processing.

To correct the problem, the office is sending December, typed temporary cards together with a blank supply of temporary cards so the branch can issue a card immediately to members.

13-Cent Surcharge To Be Asked For Non-Standard Mail

A surcharge proposal of 13 cents per piece for non-standard size letter mail was approved today by the Postal Service Board of Governors for submission to the Postal Rate Commission.

The surcharge is designed to encourage standard sizes, thereby reducing postal handling costs, or to compensate the Postal Service for the extraordinary costs of manually handling over-sized and odd-shaped pieces of mail bearing the minimum amounts of postage.

The extra charge for hard-to-handle pieces would apply only to first-class letters and cards weighing one ounce or less and single-piece third class weighing two ounces or less.

It is estimated that only one per cent of all envelopes and cards would be subject to the extra charge.

Oversized mail is defined as that which is more than 6-1/8 inches high or 11-1/2 inches long, or 1/4 inch thick.

Also subject to the surcharge would be odd-sized pieces. These are pieces with a length which is less than 1.3 times the height or

more than 2.5 times the height.

Today's action by the Board of Governor's gives the Postal Service permission to file its surcharge request to the independent Postal Rate Commission. The Commission will consider the Postal Service's justification for the amount of the surcharge and hear comments from interested parties before issuing a recommended decision.

While the date the extra charge could become effective is not known, it could be adopted as early as this summer. As suggested in the past, customers are advised to use this time to exhaust supplies not meeting size standards.

In addition to the surcharge, minimum size requirements will become effective sometime after Nov. 30. After this date pieces measuring less than 3-1/2 inches high or 5 inches long will be nonmailable. Flimsy mailing pieces with a thickness of less than seven-thousandths of an inch (.007) would not be acceptable under the current standards.

There are some exceptions to the minimum-size standards. If a

piece is more than one-fourth of an inch thick it does not have to measure at least 3-1/2 inches high or 5 inches long. Thicker pieces, such as film mailers, can be mechanically culled from the "river" of letter mail moving through a post office's facing and cancelling equipment. Also exempted are keys, identification cards and tags. However, a lightweight mailing piece, measuring more than 1/4 inch thick, may be subject to the surcharge.

Letter-mail standards were established in July, 1976. At that time the Postal Service announced its intention to put a surcharge into effect after April 15, 1978.

In other actions, the Board approved the following capital investment projects: \$45.5 million for construction of the new San Francisco General Mail and Vehicle Maintenance Facility; \$14.8 million to build a new Western Nassau County (NY) General Mail and Vehicle Maintenance Facility; and \$9 million to purchase 45 improved container unloaders for the Postal Service's bulk mail system.

Armed Forces Week Observed

Reese AFB, Texas—Armed Forces Day will be observed on May 20, this year, with observances being conducted during the week starting May 15 through 21. There is no theme this year, however, readiness will be stressed as well as life in the Armed Forces.

To celebrate Armed Forces Week, various units of Lubbock (Reese AFB, Texas National Guard, Army, Marine Corps, Navy and Air Force recruiters, ROTC units and Junior ROTC) will combine their efforts with displays at the South Plains Mall during the week.

Armed Forces Week is observed each year during the third week of May. The week is a salute to the United States military services. It is noted that since the earliest days of our independence, Americans in uniform have served our country in the cause of peace and the defense of freedom.

Reese will have many base activities which will be open to the public during the week. Some of the planned activities will be a golf tournament, youth field day, a program for retired military and their dependents, a turkey shoot, and a special program recognizing the outstanding achievements of Lubbock area youths.

The base will be offering to Lubbock and surrounding communities a multi-media, audio-

visual presentation by a joint services speaking team. The presentation is about 30 minutes that covers military life and information about the military services.

There is also a presentation available for youth groups.

Anyone interested in having this presentation or in having a speaker during Armed Forces Week should contact Captain George Reasonover at Reese by calling AC 806-885-3727.

Dunbar Booster Club To Meet

Dunbar Booster Club will meet Monday night at 7 p.m. in Room 108 at the High School. Preparations are being made for the Dunbar High School All Sports Banquet, to be held Thursday, April 27 at 7:30 p.m. The Banquet will be held at the Booker T. Washington American Legion Post, No. 808, in Yellowhouse Canyon, 4102 East 61st St.

The speaker for the banquet will be Don Edwards, formerly of Waxahachie, Texas, now attending Texas Tech University.

Tickets for the banquet will be \$3.50.

Job Corps Is Best Bargain

What is the best bargain for unemployed, out-of-school young men and women, age 16-21? The Texas Employment Commission believes it to be the Job Corps.

"There are now openings for such young people who are interested in improving themselves and qualifying for the jobs that are available in the labor market of today," says Bert P. Darden, Manager of the Texas Employment Commission office at 1602-16th Street.

"The Job Corps strengthens basic educational skills, and offers programs of excellent training in a wide range of vocations. In addition, personal development is encouraged through sports, music, hobbies, student government, and recreation.

The Job Corps Centers at San Marcos, and McKinney, Texas enroll both young men and young women. Most Job Corps enrollees from Texas go to these two centers.

Once they complete training, Job Corps graduates get help in finding a job in the skills they have trained for. Texas Employment Commission makes its services available.

The Texas Employment Commission is the recruiting agency for the Job Corps. In Lubbock, the office is located at 1602-16th Street.

Save Home Energy Letter Series

Rising utility bills and the unseasonably cold winter here on the South Plains has made us question how we can make our homes more comfortable for less cost. Reducing home energy is possible. You and your family can carry out simple projects which will tighten up your home, increase personal comfort, and lower utility consumption for the months ahead.

The *Save Home Energy* letter series features topics such as insulation, caulking, and weather-stripping, heating and cooling, treatment of glass areas and ventilation. This series is available to you without charge simply by writing Home Energy Conservation Project, 4232 Boston Avenue, Lubbock, Texas 79413 or by calling 792-4780. You can find out about easy, energy saving projects you can do in your home.

YMCA To Offer Karate

The YMCA will offer beginning and advanced levels of Karate starting April 11th at the YMCA and running Tuesday and Thursday nights until May 30th. Beginning participants will meet from 7:00 to 8:00 p.m. while more advanced students meet from 8:00 to 9:30 p.m.

YMCA Membership is required. For more information contact Helen Teal at the "Y", 762-0588.

Alcoholism Seminar To Be Held April 14

The Big Spring State Hospital will conduct the thirty-second alcoholism seminar on Friday, April 14, 1978. It will be held in the auditorium at the Big Spring State Hospital.

These monthly seminars are made possible through the Big Spring State Hospital and are held in conjunction with the Big Spring Veterans' Administration Hospital and Howard College. The theme for this seminar will be "Working With Drug Abuse". The consultant for this day long seminar will be Robert G. Meehan, Executive Director, Palmer Drug Abuse Program, Houston, Tx.

Registration will begin at 8:00 a.m., with the general session starting at 9:00 a.m. and adjournment at 4:00 p.m. A registration fee of \$1.00 will be charged with an additional charge of \$1.00 for those wishing to receive Continuing Education Units from Howard College. (The persons wishing to receive credit for attendance will be expected to remain the entire day).

Additional information may be secured from Mr. Clyde J. Alsop, Training Officer, Alcoholism and Drug Abuse Program, Big Spring State Hospital.

Who Can Afford Arthritis?

"The burden of arthritis in pain and crippling, as well as the tremendous economic toll, is one that nobody can afford," reports Robert J. Burbridge, Chapter Representative of the West Texas Chapter of the Arthritis Foundation.

How expensive is arthritis? Mr. Burbridge said medical care costs of \$4.2 billion, including hospitalization, physicians office visits and drugs are annual expenditures for our nation's 20 million victims, including 125,000 right here in the West Texas area. The one in four families where arthritis strikes also lose \$4.8 billion in wages and \$1.4 billion in home-maker services every year.

"These and other expenditures related to arthritis add up to a \$13 billion annual impact on the U.S. economy," said Burbridge. "And no price tag can be put on the enormous human suffering, disability, lost potential, and family problems that often accompany the disease."

To help reduce the toll, the Arthritis Foundation is offering a free booklet "Arthritis—The Basic Facts" to anyone who writes to their West Texas Chapter at P.O. Box 3335, Lubbock, Texas 79410.

Locals Attend Symposium

National Flower Show Judges attended a symposium at St. Anthony Hotel in San Antonio to study tobles, bonsai trees, ferns and vegetables. Those attendinf from Lubbock: Mrs. Roy Hill, Mrs. Harold Banks, Mrs. Lee Groves, Mrs. Therell Hodges, Mrs. Deltom Tatum of Brownfield, Mrs. J.L. Schooler of Whiteface, Mrs. Harry Williams of Levelland and Mrs. W.M. Overton of Plains.

Mrs. Therell Hodges judged Bonsae Trees, artistic arrangements and container grown plants in the Corpus Christi Flower Show April 1.

Extension Update

by Georgia Doherty

Hearty Soups

Soup—as the main dish in a meal—is nutritious and represents a large share of the meal's cost for little money.

Of the total nutrients required each day, hearty soups provide one-half of the protein and one-fourth or more of the calories, iron, vitamin A and B, plus other minerals.

If you are a budget-minded homemaker, economy and nutrition are key ingredients in the recipes below, but they don't stop there.

Keep soup bowls filled with homemade hearty soups that feature tasty variety.

Frankfurter-Bean Soup

1½ cups dry beans, such as Great Northern pea (navy), marrow, pinto beans, or blackeye peas
7 cups water
½ cup onion, chopped
1 teaspoon salt
1/8 teaspoon pepper
½ pound frankfurter, finely chopped
1 tablespoon margarine

Boil beans in water for two minutes; remove from heat; cover and let stand one hour or overnight.

Add onion and seasonings. Bring to boil, then cover and simmer about 1½ to 2 hours or until beans or soft. Mash beans slightly.

Lightly brown the frankfurters in fat in sauce pan; add to soup. Simmer five minutes longer to blend flavors. Makes six one-cup servings.

Pressure Cooker Method: To sue a pressure cooker for Frankfurter-Bean Soup, add only three cups of water for soaking and cooking the beans. Add one tablespoon ham or bacon fat or other fat. Cook at 15 pounds pressure for 10 minutes. Let pressure drop gradually. Mash beans slightly. Continue as in recipe above. Add additional hot water, as desired, to thin the soup.

Bean Soup Variations

...**Ham-Bean Soup:** Omit frankfurters; use one cup cooked, chopped, smoked pork shoulder or ham. Add meat with other ingredients after soaking beans and continue as in recipe above.

...**Split Pea or Lentil Soup:** Use dry split peas or lentils in place of beans in either of the above recipes. Decrease water to five cups for peas and six cups for lentils. Do not soak split peas or lentils. Simmer 20 to 30 minutes until peas or lentils are tender. Do not mash.

Beef-Vegetable Soup

1 pound beef short ribs
7 cups water
2 teaspoons salt
1/8 teaspoon pepper
¼ teaspoon basil
2 cups (16-ounce can) tomatoes, fresh or canned
1 cup potatoes, diced
¾ cup carrots, diced
½ cup onion, sliced
3 cups other mixed vegetables (such as peas, cabbage, celery, green beans, green pepper, okra, turnips, or corn)
1 bay leaf

Combine meat, water salt, pepper, and basil in large saucepan. Bring to boil, cover and

simmer until meat can be easily removed from bones. Remove bones; skim off excess fat.

Add remaining ingredients. If canned or leftover vegetables are used, add them during the last few minutes of cooking. Add bay leaf. Cover and cook 35 minutes or until vegetables are tender. Makes six 1½ cup servings.

Quick Beef-Vegetable Soup

Variation: Combine two cups cooked, chopped, lean beef with six cups water, six beef bouillon cubes, 1½ teaspoons salt, 1/8 teaspoon pepper, and vegetables used in beef-vegetable soup. Cover and cook 35 minutes or until vegetables are tender.

New England Fish Chowder

1 pound fish fillets, fresh or frozen
2 tablespoons bacon or salt pork, chopped
½ cup onion, chopped
2½ cups potatoes, diced
1½ cups boiling water
1 teaspoon salt
Pepper, as desired
½ teaspoon saffron

2 cups milk
1 tablespoon margarine
Parsley, chopped
Thaw frozen fillets. Remove skin and any bones from fillets; cut into one-inch pieces.

Fry bacon until crisp. Add onion and cook until tender. Add potatoes, water, seasoning, and fish. Cover and simmer 15 to 20 minutes or until potatoes are tender. Add milk and fat. Heat. Sprinkle with parsley. Makes six one-cup servings.

Beef Stew

1½ pounds boneless stew beef, 1-inch cubes
½ cup flour
2 tablespoons fat or oil
3 cups water
5 medium-sized potatoes, quartered
5 medium-sized carrots, diagonal chunks
6 small onions
1½ teaspoons salt
1/8 teaspoon pepper
½ cup water
Coat meat with flour; save

flour. Brown meat on all sides in fat in large, heavy saucepan. Add three cups water and cover tightly. Simmer about two hours or until meat is tender.

Add vegetables and seasonings and continue cooking, covered, about 25 minutes or until vegetables are tender. Blend remaining flour gradually with one-third cup water. Stir flour mixture gently into stew; continue stirring only as needed to prevent sticking until stew thickens. Makes six 1½-cup servings.

Beef Stew Variations

...**Beef Pot Pie:** Make stew as above except dice vegetables. Pour stew into a three-quarter

casserole. Make biscuit or pastry dough using one cup flour or one cup biscuit mix to fit top of casserole.

Place on casserole and cut several slits near center. Bake at 425 degrees F (hot oven) for 15 to 20 minutes or until browned.

... **Lamb Stew:** Use lamb stew meat in place of stew beef.

Ham-Succotash Chowder

2 cups ham or smoked shoulder, cooked, chopped
1½ cups water
16-ounce can lima beans, drained
16-ounce can corn, drained
1½ cups vegetable liquid, plus water
¼ cup flour
2 tablespoons margarine
1 large onion, sliced

Simmer meat in water in large, covered saucepan 15 minutes. Add vegetables. Blend vegetable liquid gradually with the flour to make a smooth mixture; stir into

natural energy HOME

CLEAN ENERGY FOR TODAY AND TOMORROW

A Natural Energy Home uses natural gas for heating, cooling, water heating, cooking and clothes drying to save you money and help conserve our cleanest natural energy resource... natural gas.

That's because electricity in West Texas is generated by burning natural gas, and in the process of generating and transmitting electricity to your home, 2/3 of the gas energy is lost.

So, by using gas directly in the home for the jobs it can do, you're helping to conserve it and you're getting more energy for your money.

SAFETY SENSE

**Putting Snow Throwers
To Sleep**

Don't be thrown off the right track when it comes to storing your snow thrower for the summer. Putting it away properly can save you time, money and inconvenience when the first snow falls next year.

SAFETY FIRST—Store a snow thrower out of the reach of pets and children.

Here are some tips from experts at the Outdoor Power

Equipment Institute:

1. Don't put your hand among moving parts to clean them unless you're positive the power is off. Stop the engine and disconnect or remove the spark plug before making any repairs.
 2. Drain all gasoline out of the tank before storage. Store the gas in a clearly-marked, strong, safety-type metal can with a self-closing cap. Keep the combustible material away from children.
 3. Store the thrower in a safe place—far from the reach of children and pets.
 4. Talk to your dealer about service and maintenance. Schedule a service appointment before the first snowfall.
 5. Reread the owners' manual before using the thrower again.
- Follow these hints and your snow thrower will emerge in good condition from its summer cold storage.

chowder. Cook, stirring as needed, until thickened.

Melt fat in saucepan; add onion and cook until lightly browned. Top chowder with onion slices. Makes six one-cup servings.

...Frozen Succotash Variation: Use two 10-ounce packages of frozen succotash for the vegetables. Add succotash before simmering the meat. Cook until vegetables are tender. Use 1½ cups water—instead of vegetable liquid and water—to blend with flour.

4-H Happenings

Summer Camp For 4-H'ers

Summer is camping time, and for 4-H members it's time to start thinking about taking advantage of some of the many great experiences in store at the Texas 4-H Center this summer.

The Center, located near Brownwood in Central Texas offers a special camping program for 4-H'ers during the period July 9-28. Theme of this year's camping program is "Texas Heritage and Horizons."

Summer camp at the Texas 4-H Center can be a unique experience. It provides an opportunity to meet new friends, learn new skills and have a great time. There are nature activities, folk games, folk arts and crafts, outdoor sports and recreation, music and planned social recreation along with many other things.

Instruction relating to Texas' cultural Heritage will be provided by qualified college-age counselors and resource persons. Adult 4-H leaders and county Extension agents will serve as supervisors.

The camping program will be conducted according to age groups, with the schedule as follows: July 9-12, 15 years old and older; July 12-14 and July 26-28, 10-11 years old; July 16-19 and July 23-26, 12-14 years old.

Cost of the camp is \$35 per individual except for the 10-11 year-old-groups, which is \$30.

Parents and leaders who will be providing transportation for 4-H'ers may make reservations to stay at the center at the same fee as for the youth.

Applications for the camping program at the Texas 4-H Center are available at the county Extension office, (763-5351, Ext. 238). Reservations will be made on a "first come, first served" basis.

**Do Not Send Cash
To Pay Taxes Due**

Taxpayers should send either a personal check or money order, but not cash, when remitting Federal income tax, the Internal Revenue Service said.

Using a check or money order is not only safer, the IRS explained, but the taxpayer has the added advantage of having a record to prove that he or she made the payment.

The IRS also stressed the importance of entering a correct social security number on the check or money order directly below the signature. If the payment should be separated from the tax return, it is very simple to readily locate the taxpayer's return through the use of the social security number.

Taxpayers should also bear in mind that whether a check is certified or non-certified, the tax is not paid until the check is honored by the bank on which it is drawn. All checks or money order should be made payable to "Internal Revenue Service."

CHURCH NEWS

Mt. Gilead Baptist Church

The church is located at 2512 Fir Ave. "We enter to worship and depart to serve. The church where everybody is somebody."

Weekly calendar: Church School is at 9:30 a.m., morning worship at 10:45 a.m., B.T.U. is at 6 p.m. and evening worship is at 7 p.m. Monday: Youth Ushers meet at 6 p.m. and Senior Ushers meet at 7 p.m.

Tuesday, the choir meets at 7 p.m. Wednesday, Prayer Band meets at 7 p.m., Deacons and Laymen Brotherhood meet at 8 p.m. Thursday, Youth Department meets at 7 p.m. Friday, Teachers Meeting at 7 p.m. and Saturday, Deaconess meet (1st and 3rd) at 5 p.m.

Remember our sick and berieved.

Too, the Federation of Choirs President A.L. Smith is asking all choir officers be present at 7:30 p.m. at Risen Star Baptist Church, Friday, April 14th. Please be on time!

Mount Olive

Snyder, Texas—Classes were taught by the teachers. Pastor Toines delivered the morning message. He spoke on "Points of Conduct for the Christian."

Honored On 21st Birthday

Petal Pushers Garden Club gave a party for Linda Jones at Ballenger School Monday April 10, to celebrate her 21st birthday. Cake and ice cream were served to all members of Green Thumb Junior Garden Club. Her gift was a photo album with pictures of her activities in the garden therapy program.

REPORT TO CONSUMERS

Good News Ahead

Experts who understand our energy situation have great hopes that there will soon be more energy to go around than many have believed, and that new fuels will help keep more Americans comfortable, healthy and working.

They are basing these hopes on the likelihood of America's oil companies branching out and developing other fuel sources. These alternative fields include coal, uranium, oil shale, geothermal energy, solar energy, synthetic oil and gas from coal.

Just as in law, medicine, and other fields, the public tends to be better served in the field of energy supply by suppliers with a lot of experience than by suppliers with little experience.

Much of the technology of oil exploration, recovery and refining is economically and efficiently transferable to non-oil energy sources; and oil companies, by any standard, are large and experienced in making extensive long-term investments that have prospective long-term payoffs.

All that would seem to indicate that America's oil companies can do a good job as America's energy supply companies.

Scripture reading, 2 Timothy 2:1-5.

Music for the morning services were provided by the Junior and Senior Choirs.

The message was uplifting and the music was most inspiring.

The church went to Colorado City to St. John Baptist to Rev. Bracy's anniversary, pastor of Mt. Bethal of Big Spring, Tex. The Rev. F. Nelson was preacher. It was enjoyed by all.

FREE OFFER

You can save money as well as energy when you follow the suggestions in a new booklet, "Energy and Your Home," edited by famed science writer Isaac Asimov. It's available free from York Heating and Air Conditioning, Dept. 14, P.O. Box 1592, York, Pa. 17405.

Some say hair should only be cut when the moon is on the wane.

Some used to say bathing in dew gathered from lilacs would make a person beautiful all year long.

If it's Borden, it's got to be good.

Encouraging Ideas And Events

Tenderness For The Troubled

It may seem to some that the number of troubled Americans is increasing every year. In fact, rates of divorce, suicide and juvenile delinquency have all risen alarmingly since 1960. Divorce went up more than 100 percent, suicide rose from 10.6 per 100,000 Americans in 1960 to 12 per 100,000 in 1973, and juvenile delinquency increased 50 percent through the '60s.

Fortunately, however, there is somewhere troubled persons can go for help: The Salvation Army. Every day of the year, the men and women of the Army put the "compassion in action" programs of their Christian ministry to work helping those overwhelmed by circumstances or personal failure to get another stake in life.

Troubled families on the verge of break-up are counseled by trained social workers at family service centers. Community centers are open year-round to meet the needs of families, children, single people, the elderly. Emergency lodges give shelter to people in a crisis.

The Army's skilled, caring people can help the troubled cope with the pressure of living.

REPORT TO CONSUMERS

Energy And The Economy

Experts on energy have high hopes of lower prices than they once thought possible. America's oil companies are now looking for fuel in a variety of fields, including coal, uranium, oil shale, tar sands, synthetic fuel from coal, and geothermal and solar energy.

OUR OIL COMPANIES are looking for ways to enlarge our energy supply and reduce energy prices.

Their entry into these fields is not only stimulating research and development and encouraging investment, it's also increasing competition, and that can help keep prices down.

In addition, by having assets in energy sources other than oil, our petroleum producers are put into a much better bargaining position when it's time to deal with foreign oil-producing countries. That can help improve prices too.

NOTICES

BID NOTICE
