President Says Purpose Is To Clear Up 'Misinformation'

WASHINGTON, June

(AP) — President Roosevelt announced today that a spe-cial presidential commission would be sent to England this summer to clear up what he considered to he misinformation in this country about the workings of the British trade union act.

Wagner Act Not Involved This act has sometimes been held up by business interests and others as a model of legislation the United States might write in order to define the proper activities of unions. Whether Mr. Roosevelt intends to apply the findings of his commission in any positive way was not brought out.

In discussing the purpose of the study with reporters at his press conference he said simply that it would have nothing to do with the Wagner labor relations act. He explained that the purpose would be to end misunderstandings of the law but what these are he did not

### Final Vote By Senate Due Late Today

Spending-Lending Sum Boosted By Wagner Amendment

WASHINGTON, June 3 (AP)—The senate approved additional \$300,000,000 for slum clearance today.

The authorization written into the administration lending - spending bill, raising the measure's total to \$3,722,000,000.

Wagner's Motion The action was taken on motion of Senator Wagner (D-NY), author of much housing legislation.

Wagner pointed out that President Roosevelt had recommended in his relief message that the lending authorization of the United States housing authority be increased from \$500,000,000 to \$800,000,00 Legislation to achieve that had been pending in both the house and senate. Leaders said that after in clusion of the authorization in the relif-works bill the separate bills

would be dropped.

Senate leaders sped consideration of the relief measure. They expressed the hope it would win final approval before today's session end-

There was little delay in acting on the housing proposal, which was designed to permit expansion of slum clearance work in large cities. No Appropriation Wagner explained it would in-

olve no appropriation. It increases he housing agency's authorization for making slum clearance loans to public housing groups.

Before taking up Wagener's pro-posal, the senate heard a suggesion from Senator Bankhead (De gram be raised through the sale of reasury obligations to the Federal Reserve Banks. Bankhead said the banks could

ssue currency against the obligations purchased from the treasury.

Action, on both the Bankhead
plan and a price stabilization
amendment offered by Benator
Logan (D-Ky), was deferred.

The senate fight over relief went into an extra round today although administration spokesmen had confidently predicted final action last

# The democratic estate commerce commission to residual the state of the This Session Of Congress Balance

WASHINGTON, June 3 (27)—
Spectacular legislative victories and crushing reverses for President Roosevelt stand out in almost equal numbers along the zig-zag path followed by congress in this dying session—five months old today.

From the record of contrasts has been drawn ammunition for democratic primary campaigns pitting 100 per cent Roosevelt supportern against men who have balked at some of the president's proposals. That record is interpreted by some congressmen as an indication of a revival of congressional independence from the executive.

The contrasts become clearly defined when the work of the present to combut what the president of the present to combut what the president is removed to combut what he president for combut to combut what he president for combut to combut what he president is not considered as a continuation of that of the special session last November and December.

Pat has been working out every day and says he thinks his arm is in great shape for mound duty. He's been tossing them in from the gardens, too, and has pro-nounced his ham bone in great shape. Let's hope he's right for he can do a lot to bring the crew out of its doldrums.

Big Spring lost a ball game to ubbock Tuesday but it is believed Lubbock Tuesday but it is believed that they set a new league record in stolen bases. Only three men took part in the pilfering but the Barons swiped nine hassocks off Catcher Hack Miller, which is an average of one per inning.

Of that number Bobbby Decker accounted for four, Joe Saporito three and Richard Hobson two. Bobby is fast becoming the terror of the pathways. He's the leading stealer of the entire loop. Too, he's hitting lately and is shaping up as about the most valuable man of the local squad.

#### Vast Improvement
