

Record Smashing Fighter In Flight

This is the Republic XF-91 Interceptor which made the first supersonic, rocket-powered flight ever to be flown by a U. S. combat-type experimental fighter in tests at the Air Force Test Center, Muroc Lake, Calif. The XF-91 uses two engines. One is a 5,200-pound thrust rocket turbojet used to approach the sound barrier. The other is a 6,000-pound thrust rocket engine to ram the plane past the barrier. The torpedolike objects under the wings are spare fuel tanks with fins. Although performance figures are restricted, a supersonic flight is one in excess of 750 miles per hour, the speed of sound at sea level. (AP Wirephoto).

South Reaction To Segregation End Is Issue In Court Debate

By KARL BAUMAN
WASHINGTON (AP)—Southern reaction to a possible Supreme Court order ending racial segregation in public schools has become a major point of dispute in Supreme Court arguments on the constitutionality of separate schools for white and Negro students. The Supreme Court, due to wind up three days of arguments today, heard conflicting views yesterday in cases involving separate school systems in South Carolina and Virginia. Still to be argued today were

cases involving Delaware and the District of Columbia. The latter case was taken up late yesterday. Arguments involving a Kansas case also have been completed. The high court ruling, which may come next spring, will affect not only the five areas whose cases are being argued, but 17 states in all which require completely or partly separate school systems for white and Negro children, and four more where segregation is permitted. J. Lindsay Almond, Virginia's attorney general, told the court yesterday he believed a decision outlawing separate schools for the two races would "destroy the public school system in Virginia as we know it today."

Earlier, John W. Davis, arguing for South Carolina's separate school system, said abolition of segregation in that state "is something that we cannot contemplate with entire equanimity."

Thurgood Marshall, special counsel for the National Association for the Advancement of Colored People (NAACP), said he did not believe the people of South Carolina are "lawless." "I believe," the Negro attorney told the court, "the rank and file of the people in the South will observe whatever decision is handed down." The white-haired, 79-year-old Davis, who was Democratic nominee for President in 1924, argued there is no reason for the court to overturn an 1896 decision which laid down the "separate but equal" doctrine. Justice Moore, who argued for Virginia along with Almond, and other attorneys representing states involved in the litigation, also stressed heavily that 1896 doctrine, which holds that dual school systems are constitutional if they are equal. But Marshall and attorneys on the opposing side insisted with equal vigor that the Constitution does not permit states to impose segregation in public schools. They rely chiefly on the equal protection clause of the 14th Amendment, and contend there can be no equality as long as there is segregation. Davis argued it was inconceivable that Congress, in submitting the 14th Amendment, intended it to outlaw racial segregation in public schools. Moore and Spottswood Robinson III, who opposed him, disagreed not only on the constitutional question of segregation, but on whether Virginia's school program will bring Negroes up to an even footing with Whites. Moore, who described dual school systems as "a part of our way of life in the South," said Virginia has a big school-building program designed to give Negro students educational opportunities equal to that provided for Whites. Robinson replied that even with Virginia's stepped-up building program, Negroes there would not have equal facilities, at least in the reasonably near future.

Chest Fund Seeks \$490 To Hit Goal

Community Chest needs have shrunken to \$490, the 1952 campaign chairman, Elmo Wasson, reported today. Several new members in the Chest's \$25 Club lowered requirements for 1952 operating funds from \$700 to about \$350, Wasson said. One lady brought in a check for \$50. The \$490 now is all that is needed for the Chest to fulfill commitments to five participating agencies—the Boy Scouts, Girl Scouts, YMCA, Salvation Army and the servicemen's center now being readied downtown. Contributions plus some \$2,000 left over from last year and saved on this year's fund campaign have placed the five-in-one community fund raising organization almost within touching distance of its goal—\$495 which will be distributed to the various agencies. Wasson again appealed for Big Springers to join in the true Christmas spirit of giving to assure that the goal is attained and work of the member organizations can be carried on without curtailment through 1953. Checks, payable to the Howard County Community Chest, may be mailed or handed to Wasson or some other Chest official. They also may be sent in care of The Herald.

Draft Board Quota In January 30 Men

The local draft board's quota for January induction is 30 men, officials announced today. The group from Howard, Martin and Mitchell Counties will be sent for induction into the Army on Jan. 19-20. Fifteen registrants will be forwarded Jan. 19 and a like number will go the following day. The January pre-induction physical quota for Local Selective Service Board No. 71 is 25 men.

County Schools Close December 19 For Yule

All Howard County schools, with the exception of Elbow and Forsan, will close for the Christmas holidays on December 19. Elbow and Forsan will close Dec. 23. The January Superintendent of Schools Walker Bailey stated that the holiday period at Vealmoor will end December 29th. All other schools will resume classes on Jan. 5.

THE WEATHER

BIG SPRING AND VICINITY: Fair and a little warmer this afternoon and tonight. Not much change in temperature. High today 64, low tonight 46, high tomorrow 61. Highest temperature this date 80 in 1917; minimum 14 in 1917; maximum 94 in 1941. This date 37 in 1941.

Truman Rips Into Mac, Ike On Korea Solution

New Members Due For WSB

WASHINGTON, Dec. 11 (AP)—President Truman said today he expects to replace the resigned industry members of the Wage Stabilization Board (WSB) before the end of the week. All seven members representing industry quit last week in protest against the President's action in overruling the board in the coal mine wage case. Truman told a news conference that economic controls should be extended beyond April 30. He said he not only expected to announce industry members for the wage board, but that he expected to have a replacement for Roger Putnam when Putnam steps out as economic stabilization administrator. He verified reports that former Price Administrator Michael V. DiSalle was under consideration for Putnam's post. Truman's announced intention to get the wage control program functioning again has run into opposition from elements of organized labor, as well as business organizations. The U. S. Chamber of Commerce has openly urged all businessmen to refuse posts on the WSB and both the Chamber and National Association of Manufacturers demanded that Truman kill off both wage and price controls. Other government curbs, meanwhile, were being relaxed. R. A. McDonald, chief of the National Production Authority, last night ordered curbs on use of scarce metals for construction eased considerably beginning Jan. because of an improving supply. He also ruled the automobile industry may plan 1 1/2 million units in the April-May-June period next year, compared with 1 1/4 million allotted for the January-March quarter. Walter Reuther, new president of the CIO, arrived in town to try to put over the CIO's new anti-wage controls policy. The nation's other big organized labor group, the AFL, so far is saying controls should be continued. Truman, faced with this growing clamor for an end to economic curbs, has been insisting he should turn over a functioning stabilization program to President-elect Eisenhower next month. There was no indication that Truman's attitude has changed. He and his economic stabilization chief, Roger L. Putnam, have been trying to round up enough businessmen to serve in the vacated industry posts on the WSB. The wage board has been stymied in its work, with more than 2,000 applications pending for approval of wage increases, since Chairman Archibald Cox and industry members resigned last week in protest over Truman's handling of a coal pay increase. The WSB had ruled part of the increase was inflationary, but Truman okayed the full amount. The NAM's call for ending all controls was issued late yesterday by its new president, Charles R. Sligh Jr., who said: "The resignation of the chairman and industry members of the (wage) board underscores the futility of any further continuation of the whole wage-price stabilization fiasco." In giving the auto industry a greater quota for the second quarter of next year, McDonald expressed doubt that producers would get enough metal to build 1 1/2 million cars. But NPA allowed them to do so if they can find the metal. Beginning Jan. 1 construction of such recreational and amusement projects as bowling alleys, baseball parks, night clubs and theaters may go ahead on a restricted basis without government approval. For more than two years such construction has been banned unless the government gave a specific okay. The NPA's new rules also provide that in the category of such projects as schools, hospitals, public utility plants, transportation facilities and hotels, builders may use 25 tons of steel and 2 1/2 tons of copper. They have been limited to five tons of steel and a half-ton of copper. Also, after next May, they may use two tons of aluminum, instead of one ton as at present. The amounts of steel, copper and aluminum which may be used in building homes and apartment buildings also were increased.

Armored Shorts

The Army announced in Washington it is ordering these armored shorts for its troops in Korea, weighing four pounds and capable of deflecting about 65 per cent of all types of missiles. The shorts are modeled with the armored vest. They are held up by suspenders. Both are made of 12 layers of laminated nylon duck in water-resistant plastic layers with nylon fabric covering. (Army Photo via AP Wirephoto).

UN Seeks Arab, Israel Meeting Over Palestine

UNITED NATIONS, N. Y., Dec. 11 (AP)—The U. N.'s Special Political Committee today approved an eight-power proposal calling on Israel and the Arab countries to begin direct talks aimed at a final peace in Palestine. The proposal was approved, 22 to 13, with 13 countries abstaining. The plan also called for the U. N. Palestine Conciliation Commission to continue its efforts to aid in bringing the bitter controversy to a settlement. Israel agreed to support the eight-nation proposal but the Arab countries told the committee it was completely unacceptable. The Arabs favor a proposal, introduced by Pakistan, Indonesia, Iran and Afghanistan, calling for U. N. Palestine Mediation Commission to five members and location of its headquarters in Jerusalem. The commission now is made up of the U. S., Turkey and France. The Arab nations also have complained that Israel has ignored past U. N. resolutions calling for the internationalization of Jerusalem, the right of some 600,000 Arab refugees to return to their homes in Palestine and final settlement of Israeli frontiers. They claim that the Western backed resolution—proposed by Canada, Cuba, Denmark, Ecuador, The Netherlands, Norway, Panama and Uruguay—waters down this issue by merely calling attention to those resolutions and urging the two parties to agree on a final settlement. Debate also continued in the Assembly's No. 1 Political Committee on the explosive Tunisian issue.

THREE CITIES JOIN Police Move Fast To Grab Burglar

Rapidly-moving events, involving peace officers in Big Spring, Stanton and Midland, last night resulted in recovery of a new car and office equipment stolen in Big Spring less than two hours earlier. Two charges of burglary and one of car theft were filed this morning in justice court against William Robert Rogers, 25, Texasiana. He waived examining trial and Justice of the Peace W. O. Leonard set bonds of \$5,000 each on the three counts. Rogers also was charged with forgery. Bond of \$1,000 was set on that complaint. District Attorney Elton Gilliland said the burglary and theft charges resulted from burglary of Nash Big Spring and Rowe Motor Companies, and theft of a new Packard here last night. The district attorney said the forgery charge resulted from passage of a bogus \$25 check at Toby's Fast Chick about a week ago. Rogers was arrested by Midland police about 11:30 o'clock last night, about an hour and a half after the burglaries were committed, according to Big Spring Police Detective C. C. Aaron. He was in possession of a 1953 Packard hard-top convertible, the officer said. Local police described the fast-moving chain of events which they said resulted in the arrest. An unidentified motorist discovered a cash box containing Rowe Motor Company business papers on the side of the highway between Big Spring and Stanton. The motorist turned the box over to Martin County sheriff's officers who immediately contacted Big Spring police. Meanwhile, local officers, finding an alley blocked by parked automobiles at the rear of Rowe Motor Company, had discovered a break-in. They learned the car was stolen and radioed an alert to Midland Police Department. The Midland radio dispatcher relayed the message to his local officers and one spotted the Packard, taking the

Title Transfer Of Land By 4 Counties Due In A Few Days

Transfer of title to approximately 35 acres of land which four counties have agreed to sell to Otis Griza and associates probably will be made within a few days, County Attorney Hartman Hooser reported this morning. Griza was the successful bidder at a public auction conducted last summer. The property is located on the north side of Stadium Street, immediately east of Central Park Addition. Howard, Martin, Midland and Ector Counties had owned the property for some 30 years. The counties had acquired the land as a source of gravel for use in road building projects back in the twenties. All four counties had expressed interest in disposing of the property at various times since the war, but steps for actual sale of the land were not taken until this year. Hooser said he was preparing the deeds, which must be approved by commissioners courts in all four counties before the transfer becomes final.

Shoppers Warned To Take Care Of Their Packages

Police Chief E. W. York this morning warned Christmas shoppers against possibility of losing Yule parcels to thieves. Packages should not be left in unguarded automobiles, particularly unlocked one, he cautioned. Shoppers also should be careful about laying parcels on counters or other places where they might be stolen while owners are paying attention to other problems. Caution on the part of every shopper can eliminate the possibility of considerable pre-Christmas thievery, the chief declared. Maybe The P-TA Will Be More Quiet COULLEE DAM, Wash. (AP)—Members of the local parent-teachers association couldn't even spell some of the words they had to eat after criticizing present day public schools for not teaching fundamentals. Some Coulee Dam high school sophomores heard their criticism and challenged them to a spelling match this week. The sophomores won by a score of 10 to 6.

De Gasperi Named

ROME, Dec. 11 (AP)—Prime Minister Alice De Gasperi today was re-elected president of the ruling Christian Democrat Party's Council.

Eisenhower Guilty Of 'Demagoguery'

WASHINGTON, Dec. 11 (AP)—President Truman said today he doubts that Gen. Douglas MacArthur has hit upon any new solution of the Korean War, and declared that in 1950 the general told him he was sure the war was over then. Truman, in an unusually stern mood, also told his news conference that Gen. Dwight D. Eisenhower was guilty of demagoguery when he said in the presidential campaign he would go to Korea. Truman summed up that he doesn't see how any good could come of any White House meeting with the two to talk about Korea. Sen. Watkins (R-Utah) had suggested earlier today that Truman "set aside rancor" and invite MacArthur and President-elect Eisenhower to a White House parley. The President unbent only a little. He said that as a matter of courtesy he would be glad to see either of them, if either had anything to discuss. He said, too, he would be happy if any good came out of the Korean trip Eisenhower has now concluded. Also on the subject of courtesy, he said MacArthur should have reported to him on the situation in Korea when he came back from the Far East last year—even though Truman had fired him. Any decent man would have done that, Truman added. He said it was called for in military etiquette. When he did get a report from MacArthur in 1950—that was at their Wake Island conference six months before Truman recalled his Far East commander—about all he got was misinformation, the President said. He said MacArthur told him: 1. The Chinese would not move into Korea. 2. A U. S. division could be

Ike Has No Comment On Truman's Words

BULLETIN HONOLULU, Dec. 11 (AP)—The cruiser Helena, carrying President-elect Eisenhower, entered the channel to Pearl Harbor at 8:20 a.m. 12:30 p.m. (CST) today and was due alongside the wharf 30 minutes later. By DON WHITEHEAD ABOARD USS HELENA, En Route to Hawaii (AP)—Rested and relaxed, President-elect Dwight Eisenhower arrives in Honolulu today for more of the vital conferences that will shape America's policy in the Far East. Eisenhower will remain until the week end, then fly to his New York headquarters. Shortly thereafter he will meet with Gen. Douglas MacArthur to discuss the latter's plan for shortening the Korean War. That meeting probably will be held early next week, said a source close to the President-elect. Eisenhower did not comment on President Truman's statement "if any man has a reasonable plan for ending the Korean fighting x x x that plan should be presented at once to the President." He did not name MacArthur, but his press secretary, Roger Tubby, said there was no question that the general was meant. Last Friday MacArthur told the National Association of Manu-

Oil Well Fire Extinguished

An oil well blaze in the bed of Lake J. B. Thomas about 25 miles northeast of Big Spring was extinguished last night after burning for six hours. The well, Magnolia's No. 1-D Conrad, is located about two and a half miles from the dam of the huge Colorado River Municipal Water District reservoir. The blaze flared Wednesday when a pumping unit was being installed. The well had previously been flowing and workers were installing a tree in place of the Christmas pump which had been used. Firemen from Snyder and oil field workers extinguished the blaze. Magnolia officials did not estimate the damage, but indicated that it was confined to a limited amount of surface equipment at the well site. Lee Denson, 48, trucking firm employe, was slightly injured when a 100-barrel water truck he was driving turned over. He was holding water to the fire at the time. Denson was reported in good condition at a Snyder hospital this morning.

Writer's Case Is Probed By Army

TOKYO, Dec. 11 (AP)—The American Embassy said today that it is proved that Wataru Kaji, Japanese leftist writer, was mis-treated by American personnel. "No effort will be spared to mete out justice to the responsible persons." An Embassy statement said the Kaji case is under investigation. Kaji told Parliament that American agents kidnaped him Nov. 25, 1951, beat him, gave him a choice of becoming a spy or death, and held him prisoner until last Sunday. The Embassy said it had learned Kaji was detained because of his involvement as a spy for a foreign power in Japan.

CHEER FUND GROWS TO \$70

The Christmas Cheer fund grew to \$70 this morning with four additional contributions. Fire Chief H. V. Crocker, fund custodian, reported. Latest donors are Bill Early, \$5; R. V. Jones, \$2.50; Co-op Gin, \$5; and Anonymous, \$10. Crocker said \$250 or \$300 is needed for parts and supplies to be used in repairing used toys to be distributed to needy children at Christmas time. City firemen are reading nearly 100 tricycles, about 10 bicycles, and numerous other playthings for Christmas Cheer distribution. Crocker said money is needed and will be used solely for purchase of parts, tires, paint, and other items needed in the toy renovation work. Contributions may be sent to The Herald or to Fire Chief H. V. Crocker. Checks should be payable to the Christmas Cheer Fund.

Oil Talks Up Again

LONDON, Dec. 11 (AP)—Paul Nitze, U. S. State Department policy expert, arrived today to sound out the British government on ways of solving the Anglo-Iranian oil stalemate.

11 SHOPPING DAYS LEFT BUY CHRISTMAS SEALS

Plane Seizure Case May Go To World Court

WASHINGTON (AP) — The United States may take to the International Court its complaint against Russia and Communist Hungary for the 1951 seizure of an American Air Force cargo plane.

The plane was forced down in Hungary by Soviet fighters on border patrol. After being held for six weeks the four Air Force crewmen were released, but only after the U. S. paid a fine of \$123,605 imposed by the Hungarians on a charge of illegally crossing the frontier.

The U. S. yesterday served a formal demand on Moscow for return of the plane and its cargo, or payment of its \$36,779 estimated value, plus interest. Hungary was asked to turn over court records of the secret trial. Nothing was said about refunding the fine.

The demand appeared to be a futile gesture. Hungary has ignored such requests in the past, and the U. S. has never been able to get a satisfactory settlement of border incidents with Russia.

But the State Department said this government is "considering appropriate legal action" and the formal notes were deemed a necessary preliminary step.

If Russia and Hungary refuse to settle by negotiation, the next step presumably would be an appeal to the International Court at The Hague. Russia, however, has refused to be bound by decisions of this tribunal.

In any event, the State Department is building up a careful record, for a reckoning in the United Nations or elsewhere, which would serve also to refute Communist propaganda.

Russia has contended the plane was forced down while trying to deliver supplies to anti-Communist guerrillas. The State Department says it was on a routine flight taking supplies from Germany to the U. S. Embassy at Belgrade, Yugoslavia, and that the plane lost its bearing.

Russia has kept armed forces in Hungary ever since World War II.

November Fines Are Down From October Figure

A slump in police work was noticeable in November, monthly report of the Police Department shows.

Fines assessed in Corporation Court as a result of officer activities amounted to \$2,969. In October, the fines totalled \$4,053.

Fewer arrests also were made in November—170, compared to 221 during the previous month. Tickets issued, other than for overtime parking, totalled 109 in November and 159 in October.

Including tickets issued for parking violations, the total was 541, however.

November fines included 120 for offenses other than traffic violations. These totalled \$1,825.50 with 108 drunkenness fines accounting for \$1,624 of the aggregate.

Eighty-seven traffic fines were levied for a total of \$1,043.50. Eleven cases of driving without license resulted in fines aggregating \$265, and 59 fines for moving traffic violations totalled \$612.50. Six mechanical defects in motor vehicles, mostly gutted mufflers, were responsible for fines totalling \$48.

In the arrest column, the department accounted for seven intoxicated drivers, three persons charged with theft, six accused of burglary, four charged with carrying deadly weapons, two charged with forgery and passing, two charged with robbery, one with attempted murder, and one with aggravated assault.

Police clocked a total of 14,852 miles on three police cars during the month and received and transmitted some 1,500 radio messages.

Of the fines assessed, \$1,626 was paid and the remainder was either laid out or is pending.

AF Transport Is Missing With Six

RENO (AP) — An Air Force C47 transport with a crew of five and one passenger is missing in the Nevada-Utah border region but the assistant commander of Stead Air Force base is hopeful they made an emergency landing.

"The plane is a tough old bird and the crew is experienced," said Col. Dimitrios Stampados. The C47 is the Air Force version of commercial airlines' veterans DC3. "I feel they've probably put down on some prairie and we'll find them this morning."

Air Force and Civil Air Patrol planes begin a search at dawn for the C47.

Names of the six on the C47, all from Stead AFB, were withheld.

The Air Force transport vanished in a blinding snowstorm on a flight from Peterson Field, Colorado Springs to Reno.

Texas Weather Is About The Same

Texas' pre-Christmas weather, brisk and bracing, maintained the status quo Thursday.

Temperatures might have been just a little bit warmer than Wednesday's when Brownsville had the top maximum of 67 and Dalhart had a chilly 49 degrees.

Winds remained gentle zephyrs, there was no rain, and only a few high clouds.

The perfect shopping weather had merchants rubbing their hands with delight.

Young 'Millionaires' Are Now Friendless

OKLAHOMA CITY (AP) — Every one has a yin to live like a millionaire. And no one had the desire more than two young Oklahoma City brothers.

The boys, age 11 and 12, found temptation too much of a foe as they sat near a woman with a bulging purse Monday night at the Bethel Center. Later, when they looked inside the purse, they found what appeared to be a million dollars—or, even better, \$100 cold cash.

The next day they skipped to school loaded. Police recapping their adventure, said they threw handfuls of dollar bills in the air and watched their schoolmates scramble for the money.

One of them tipped a playmate

\$1.25 for a shoeshine. He also handed a lad a quarter to brush his coat.

As the day wore on, and spending money became dull, the 12-year-old found a way to liven things up. He gave a girl \$2 for four kisses.

The brothers handed a schoolmate a \$20 bill and ordered: "Here, son. Go get me some change." When the friend returned he was tipped \$5 for his trouble.

Hot dog stands in the neighborhood suddenly found they were doing a banner business. At one point the boys got brave enough to ask their homeroom teacher if they could throw a big Christmas party. The suspicious teacher turned thumbs down on the proposal.

When the boys ran out of cash—they also ran out of friends. By that time police had been informed of the spending spree and collared them.

The father promised full restitution, but the police decided they would get back as much money as they could. Juvenile Officer G. E. Bailey reported so far they have collected \$14.90.

One boy, he said, had only a nickel left—but he generously returned it. Several others also explained they had already spent their money.

In the meantime, the young millionaires found themselves penniless, friendless and facing the wrath of their angry father.

Homeless Mare Now Back Home

YONKERS, N. Y. (AP) — Dagsworthy Lola, the homeless mare of Yonkers Raceway, was back in Delaware today munching oats in her owner's barn after an experience that shouldn't happen to a dog—let alone a harness horse.

Seems that when Yonkers closed for the season Nov. 15 and the horses were shipped off to winter quarters or other destinations, Dagsworthy Lola was left behind quite by accident.

William Tinkler, resident caretaker, was making the rounds of the deserted barn area one day, and lo and behold, here was a horse just begging to be found.

Tinkler's 12-year-old son Jack fed and watered the mare, but nobody knew who she was, or her owner.

Yonkers called in the Pinkerton horse identification bureau, and experts went to work. Checking the "night-eye" or "chestnut" markings on the legs against records of all horses racing here, they finally identified the horse.

Truman L. Campbell of Dagsboro, Del., had sent the horse to trainer Del MacTavish with instructions that he take her to Canada for training this winter.

Dagsworthy Lola had been converted from trotter to pacer this year and MacTavish didn't consider her satisfactory. He arranged with a trucker to ship the horse back to Delaware and left for Canada.

But something went wrong. The trucker didn't pick up the horse. Campbell thought his mare was in Canada, MacTavish thought she was in Delaware.

Fair Weather Seen For Ike Inaugural

LANCASTER, Pa., Dec. 10 (AP) — Fair weather is forecast for the Jan. 20 inauguration of President Dwight D. Eisenhower in the 1953 edition of Baer's Agricultural Almanac.

The almanac, predicting "fair weather, clear skies and warmer" for that date, notes that it has been making such forecasts for 125 years.

Not disclosed is the degree of success in past predictions. The almanac explains that its long-range weather forecasting is based on the stars, moon phases, past weather records and the "character of the constellations."

Plans Completed For Big Justice Cleanup

By DON WHITEHEAD
ABOARD USS HELENA. En Route to Hawaii — An authoritative source disclosed today that Atty. Gen. designate Herbert Brownell has completed plans for a giant housecleaning in the Department of Justice.

Brownell, the informant said, plans to fire anyone whose name has been even remotely linked with government scandal.

Brownell's first move after taking office Jan. 20, the source said, will be to sweep out of office virtually all those in the policy-making level of the department. The cleanup also will affect attorneys in the Washington offices, and U. S. district attorneys and U. S. marshals.

"If he finds a good career man who has been doing a good job, Brownell will keep him whether he's a Democrat or a Republican," the informant added.

Brownell was one of President-elect Dwight Eisenhower's top political advisers in the presidential campaign.

It is understood he will give top priority to investigating cases dealing with communism and subversion.

Next on the list will be a wholesale review of tax fraud cases in

which no action has been taken. He also will dig into pending antitrust cases.

Brownell has told friends he intends to prosecute wherever there is any evidence of fraud.

He is said to feel that the office of attorney general has been permitted to sink in prestige and he intends to restore it to a new and higher level.

The Justice Department has about 31,000 employees. Most of them are civil service workers who will not be affected by the turnover.

Those who have done a good job and have not been involved in scandal will be retained, one source said.

But, "if their name has been connected with a scandal, they will be out automatically."

Brownell has made only two appointments—William Rogers to be his deputy and J. Edgar Hoover to continue as FBI chief. His next major appointment will be a solicitor general—the man who will handle appeals to the Supreme Court.

Brownell, on returning to the mainland from Hawaii, will confer with justices of the Supreme Court and get their views on the type of man best suited for this work.

Chances Better For Bridges To Get Top Posts

By JOE HALL
WASHINGTON (AP)—Sen. Bridges (R-NH) appeared today to have an increasingly good chance to become Republican floor leader and appropriations committee chairman in the new GOP Senate.

This was pictured by a key Republican source as the likely outcome of the behind-the-scenes tussle now going on over the top jobs to be parceled out when the Republicans take over control of the Senate Jan. 3.

This source, who specified that he not be named, told newsmen Bridges was under pressure from Republican senators to take the floor leadership in a move to avoid starting the new administration off with a first-class row.

These senators are willing for the New Hampshire senator also to have the coveted appropriations post to avoid a fight, this man said. It is unusual for one senator to hold two jobs of such importance.

Bridges returned to Washington yesterday after a vacation and told reporters he had no comment on the leadership situation. He said the same as before he left town: that he was not after the leadership post and would take it only to avoid an intra-party battle.

The whole matter may be threshed out at an informal meeting over the week end when several influential senators will be in town to attend the Gridiron Club Dinner Saturday night.

Sen. Taft (R-Ohio), who has been widely discussed as a possibility for majority leader and has declared himself available for the post plans to attend this dinner.

The indications are that, if Bridges becomes leader, Taft will remain as chairman of the Republican Senate Policy Committee and Sen. Millikin (R-Colo.) will again be chairman of the Conference of all GOP Senators. These are the party's "big three" Senate jobs.

Sen. Hugh Butler (R-Neb.) is a strong possibility, in that event, for the largely honorary post of president pro tem of the Senate, the presiding officer when the vice president is absent.

Some Confusion Is Noted Over Government Jobs For Texans

WASHINGTON, Dec. 11 (AP)—Several scores of Texans in government jobs not covered by Civil Service face a job-hunting chore, it appeared today.

Ben Gull of Pampa, Tex., talked with Wesley Roberts, who is considered a likely prospect for the Republican National Committee chairmanship, yesterday. After the conference, Gull said he and Roberts went over the range of federal jobs in Texas not covered by the Civil Service statutes.

Republicans hope to take over some of the jobs now held by Democrats. The positions pay from \$5,000 to \$15,000 annually, but Gull said, "We are not sure just what positions are available."

Gull said that Jack Porter, Texas GOP National Committeeman from Houston, would be in Washington next week to confer with party leaders.

"All I know," the former Panhandle Congressman added, "is that inquiries are pouring in daily on the subject. I asked if the committee would help us find out exactly what's in the picture."

The former Congressman, a leader in the Eisenhower-for-President drive in Texas, had no comments about his personal outlook. He has been mentioned as a likely appointee to such a position as commissioner of the Interstate Commerce or Federal Power Commissions.

Gull also expressed optimism over the future of the Republican Party in Texas, but added:

"We have no illusions about winning a lot of elective positions in the state two years from now nor four nor six years. Our plan is to concentrate on various localities and get good men elected in those

areas. If in 20 years we have Texas a strong two-party state we will have done something of lasting good to both the state and the nation."

Another item on the former Congressman's agenda here was the Jan. 20 inaugural ceremonies for President-Elect Eisenhower. He discussed the possibility of having the colorful Kilgore, Tex., College Rangerettes to take part in festivities.

Price Campbell of Abilene yesterday was named chairman of a selection committee for recommending Texas units for the presidential inaugural parade.

Porter, in Houston, said he asked Campbell's committee to give serious consideration to each application provided it is received from a person who "stood up and was counted during the convention and election in behalf of General Eisenhower."

Porter also asked that recommendations be considered on a "Texan rather than partisan basis."

Members of the 24-man Texas

Black Fly Inspection Being Made

BROWNSVILLE, Dec. 11 (AP)—An intensive inspection is being made in Mexico to determine if the black fly infestations have spread northward along the Rio Grande from the Matamoros.

Last week the 90th case of infestation was found in Matamoros, just across the border here all vegetation in a six-block area was ordered sprayed thoroughly until the area is considered clean.

No infestations have been found on the U. S. side of the Rio Grande.

B. C. Stephenson, U. S. Department of Agriculture official here,

said yesterday that Mexican inspectors have completed their search for the fly which attacks citrus fruit in San Fernando, south of Matamoros, and found no infestation.

Stephenson said this indicated the flies found in Matamoros got a start by being carried in by motorists.

Inspectors are now checking small communities between Rio Bravo and Reynosa, across the border from Hidalgo, Tex.

He said roadside check stations in Mexico have been doing a good job of inspecting all vehicles moving toward the border "but it is impossible to prevent a fly from slipping through now and then."

Needy People Are Urged To Apply With Salvation Army

People who need aid for Christmas were requested today to apply at the Salvation Army headquarters by Saturday.

A total of 105 families are now on the aid list, it was announced by Lt. Robert Hall, commander of the Big Spring Army post.

He said that about 25 other families are now being investigated to determine if they really need aid. About 12 families have been turned down, he said.

"Organizations and groups in Big Spring have really been co-operating with us on this project," Hall said. "About 45 of the families have already been adopted."

Hall explained that the Salvation Army was being used as a clearing house for aid. Other organizations wishing to help needy families are working through the aid list at the Army.

"We take applications from those needing aid and list the deserving cases. When other organizations want to help, we assign families to

them. All those families not adopted by other groups by Christmas will be taken care of by our headquarters," he said.

Although families in need should apply by Dec. 13, all needy families will be helped, Hall said. The Saturday deadline has been set so investigations can be completed and supplies ordered.

Each basket furnished to needy families will contain the makings of a Christmas dinner and gifts for each member.

Hall emphasized the need of groups doing charity work to work through the Salvation Army.

"We've found some families here on several charity lists," he said. "When all charity cases go through one headquarters there is a better chance that everyone needing aid will get it. The other way some families get aid from several sources while others are left out."

Army Changes Rules At Burial Ceremonies

WASHINGTON (AP)—The Army has lifted its ban which kept relatives from viewing the bodies of dead servicemen at burial ceremonies at Arlington National Cemetery.

Charles E. Burnett, who resigned as an Arlington cemetery funeral director in protest to the original order, said: "This is pretty much what I have been fighting for."

The Army, announcing yesterday that it would permit bodies to be viewed at Arlington under certain "very liberal" conditions, said the ban still stands at other military cemeteries because it lacked personnel and facilities to handle the job.

Vice-President Named

HOUSTON, Dec. 11 (AP)—E. R. Filley, Houston, yesterday was announced as the newly-elected vice president in charge of domestic production for the Texas Company.

Wake Up To More Comfort

Without Nagging Backache
 Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to acid or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 million kidney tubes and filters flush out waste. Get Doan's Pills today!

Appeals Court Gets Cases Of Alaniz, Sapet

AUSTIN, Dec. 11 (AP)—The question of bail in the South Texas political slaying of Jake (Buddy) Floyd Jr. was back under study of the Court of Criminal Appeals today.

Attorneys asked the court in oral arguments yesterday to reconsider its two earlier decisions that granted bail to Nago Alaniz but refused it for Mario (El Turco) Sapet.

Both are being held in Jim Wells County Jail charged with murder in the ambush slaying of young Floyd, mistaken for his politically prominent father. The son was fired on in the garage of the Floyd's home in Alice after his father left the house by taxi, warned by Alaniz that he was the target of an assassination plot.

"It was Alaniz's purpose to lure Floyd (Sr.) out of his house and bring him into this assassin's line of fire," Dist. Atty. Homer Dean told the appeal court in his argument opposing bail for the Alaniz attorney.

Attorney Spurgeon Bell, special prosecutor, contended that Alaniz's refusal to go to the Floyd home and instructions to Floyd to meet at a drive-in instead showed "it was his job to get the man out of his house."

The appeal court was told it erred also in refusing bail to Sapet because of a prior conviction.

"We are unable to find any where in the law where a man accused in 1952 can be refused bond because he committed an offense in 1955," said Sapet's attorney, Fred Semann, San Antonio.

The appeal court's refusal to Sapet had noted that part of the indictment against Sapet also alleged he was convicted March 3, 1936, on a plea of guilty to a charge of murder without malice.

There were no oral arguments contesting the appeals for rehearings.

'Twas Their Idea Payroll Cut Device May Haunt GOP

By WILLIAM F. ARBOGAST
WASHINGTON (AP)—A Republican-fathered device to trim the number of federal payrollers when most of them were Democrats may haunt the GOP when it takes over the reins of government next month.

It may have the effect of forestalling plans any Republicans might have to replace Democratic jobholders with Republicans after President-elect Eisenhower's inauguration.

Known as the "Jensen rider," it has been tacked on to most departmental money bills in the last two years. By current law, it is operative in most departments at least until next June 30.

In effect it says the federal payroll shall be cut about 10 per cent each year by forbidding the filling of more than one out of every four vacancies that occur. There are some exceptions.

Its author, Rep. Ben Jensen (R-Ia.), said he realizes the plan might pose some difficulties for the incoming Republican administration.

But Jensen said in an interview that if the plan was equitable and fair when Democrats were running the show, it ought to be equitable and fair for the Republicans.

"It isn't a political program at all," he said. "Most of the jobs affected are civil service jobs anyway, so they aren't political in nature."

He conceded that under a Democratic administration Democrats applying for civil service jobs might fare better than Republicans, and vice versa.

"There have been and there still

are just too many people on the federal payroll and we have got to start cutting down if we're ever going to have real economy," he said.

"You just don't cut down by wholesale firings of people with families and long tenure of good service. You do it through the process of attrition—by not filling vacancies when these people quit their jobs, which they do by the thousands every year. It's a very fair system and if I have my way it will remain in effect until we get this thing in hand."

Jensen estimated that around 300,000 federal jobs become vacant each year and, under provisions of his rider to appropriation bills, only about 75,000 of them may be filled.

The present payroll of approximately 24 million employees is at least 10 per cent too heavy, he said, adding:

"And unless the agencies themselves and a Budget Bureau take steps to cut down on employment, the Congress will have to keep cutting it down through an amendment such as mine."

Santa Makes Appearance At WAFB

Santa Claus, replete with whiskery and paunch, made his first appearance in Webb Air Force Base's Christmas Toyland Tuesday and all to the very evident happiness of a host of children that had assembled for the occasion.

He handed out a variety of candy, marbles, jacks, and other small items that made a bigger hit than you could ever imagine. When Old Saint Nick walked into the room there was such a chorus of welcomes as to leave the overhead decorations shimmering.

The Toyland will feature Santa every evening from 7 to 8 until Dec. 20. He will also be on hand to deliver the presents at Webb's gala Christmas party for children of Air Force personnel. Over 650 kids have already signed up for the fun, which is to be held on Dec. 20.

Webb's Toyland continues to serve Air Force personnel and will now be open from 10 a.m. until 8 p.m. The shop will be dismantled after Christmas. Over 50 per cent of the stock has been sold, according to A. A. Walker, general manager.

Dentists' Seminar Set At VA Hospital

A two-day seminar for West Texas and New Mexico dentists opens Friday morning at the Big Spring VA Hospital.

Between 60 and 100 dentists and their wives are expected to attend, according to Dr. Jackson H. Friedlander, chief of professional services for the hospital. The clinic is being sponsored jointly by the Permian Basin Dental Society and the hospital.

Program will feature lectures by three experts in the fields of oral surgery and prosthesis. All are associated with the Baylor University College of Dentistry, Dallas.

Dr. Phillip E. Williams, instructor in oral surgery, will discuss "Every Day Oral Surgery" at the opening session, 10 a.m. Friday.

Dr. Horace Beachum, instructor in prosthodontics, will lecture on the subject, "Full Denture Prosthesis," at 2 p.m.

Saturday's program will include repetition of the Beachum lecture at 9:30 a.m. and an address on "Practical Periodontia" by Dr. Samuel R. Parks, professor of periodontia, at 2 p.m.

All lectures will be presented in the recreation hall at the VA Hospital. Luncheon each day will be

served in the hospital dining room.

A buffet dinner and other entertainment is to start at 5 p.m. Friday at the Settles Hotel. In addition, special entertainment will be provided each day for visiting ladies.

Registration for the seminar starts at 9 o'clock Friday morning. Welcoming address by Willis O. Underwood, VA Hospital manager, is set for 9:45 a.m. Dr. Friedlander will introduce the program.

Chairman will be Dr. Calvin J. Guilliams, chief of dental services at the hospital.

Actress, Hubby Are Reconciled

HOLLYWOOD (AP)—Actress June McCall said yesterday that she and her husband, film director George Carl Meek, have become reconciled.

"Actually this happened nearly three months ago but we kept it a secret until we were sure that everything would work out," she told newsmen. "It took us some time to reach a happy solution and

now we are sure that we have arrived at that."

The Meeks were married in July, 1951, when she was 17 and he 24. They separated a month later and both filed suit for divorce. The actress obtained an interlocutory decree but no final decree will be entered.

Plans Are Approved

HOUSTON, Dec. 11 (AP)—The city council yesterday approved plans for \$2,500,000 worth of municipal projects.

"NERVES"

Skipper Taken Off Vessel After Threat To Sink Ship

HALIFAX, N. S. (AP)—Capt. Adan Graetz, Israeli shipmaster who threatened to sink his vessel unless his father were given a post in Israel's Cabinet, was landed here last night and taken to a hotel. Officials described him as "mentally ill."

The 24-year-old captain was removed from the 5,686-ton freighter Abraham Graetz at the request of the vessel's owners and her agents here. Immigration officials said he would be "treated as a sick mariner."

His father, H. R. Graetz of New York, arrived in Montreal last night and was expected to proceed to Halifax today to see his son. He is the owner of three ships that sail under the colors of Disengoff and Company, an Israeli steamship firm.

The freighter, carrying a crew of 34 Israelis and five others, was expected to come into port here. It sailed Dec. 6 from New York for Canadian ports and Israel.

Young Graetz was taken off the freighter without incident 16 miles off Halifax by the tug Foundation Vera. The tug's master, Capt. Fred

Turner said Graetz appeared "quite normal" during conversation while the tug was returning to port.

Last Saturday, in a radio message to Israeli Premier David Ben-Gurion, Graetz threatened to sink the ship unless his father was given the job of minister of communications. The ship's radio operator reported Graetz was holding him at pistol point.

Bing Crosby Signs Up For Courses At Wash. State College

PULLMAN, Wash. (AP)—Crooner Bing Crosby has joined his twin sons in animal husbandry courses at Washington State College.

He was on the registration rolls today for the annual WSC short course for stockmen. His 18-year-old sons, Dennis and Phillip, are in the department working for a degree.

Nurses Hold Yule Party

District No. 21 members of the Texas Graduate Nurses Association held their annual meeting and Christmas party in Stanton Tuesday evening.

Nurses were present from four West Texas cities, including 14 from Big Spring, Stanton, Midland and Odessa were represented.

Program concerned improvement of nursing and nursing services, and encouragement of membership in district, state and national nurses' organizations. Nursing needs much improvement and we all were urged to work toward that end, said Jewel Barton, Big Spring, a district official.

District, state and national associations are in the process of reorganization. In the future they will be known as the American Nurses Association and the League for Nurses, the latter a combination of the League of Nursing Education and the Public Health Association.

Nurses in District No. 21 are engaged in private duty, office nursing, institution, public health and industrial nursing, psychiatric and Veterans Administration work.

Here Tomorrow! The '53 FORD

The new Standard of the American Road

With 41 "Worth More" features, it's worth more when you buy it...worth more when you sell it!

Search no more: the car that exceeds your every driving need is making its bow at your Ford Dealer's!

Those of you who have owned Fords in recent years have a hint of the many ways in which this new 1953 Ford is out front. Year after year, Ford has gained in preference with the public. But that is merely a clue to the many ways in which this '53 Ford sets an entirely new standard for the American Road.

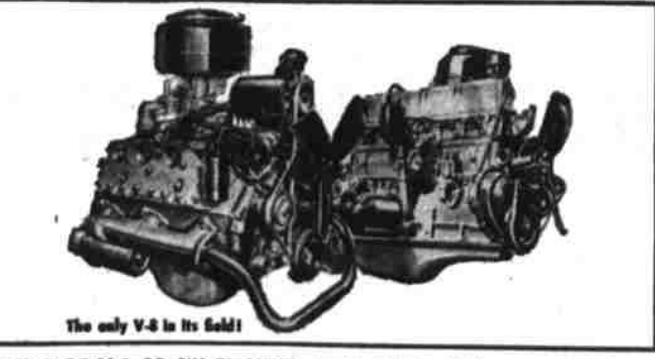

For in this new Ford you'll find new, long, low, massive beauty that can hold court in any company. You'll find a new Miracle Ride that sets a new standard of smooth, quiet comfort on level highways or roughest byways. You'll find the easy handling and great visibility you need for today's fast-moving traffic... the "Go" to master today's long-distance driving. And you'll find that this new Ford not only has a small appetite for fuel, but it thrives on regular gas.

See this Ford... Value Check its 41 "Worth More" features... and Test Drive it. You'll see why this new standard-setting car is worth more when you buy it... worth more when you sell it.

WORTH MORE

New Miracle Ride brings you riding comfort at its level best! Not just softer springs and new shock absorber action, but a smoothly coordinated system of ride control elements that adjusts instantly and automatically to changing road conditions. It's a completely balanced ride... a ride that seems to lay a carpet of smoothness on any road you drive.

WORTH MORE

CHOICE OF V-8 OR SIX ENGINES—Ford's 110-h.p. high-compression Staro-Star V-8 has a partner for thrifty "Go" in the 101-h.p. low-friction, high-compression Mileage Maker Six—the only completely modern Six in its field.

WORTH MORE

Full-Circle Visibility gives you an unobstructed view of the road... and all the scenery. I-REST tinted safety glass makes driving easier on your eyes, day or night.

WORTH MORE

Shift to Fordomatic... and you'll never shift again. It's the finest, most versatile automatic drive ever. Ford also offers the smooth, thrifty Overdrive.

WORTH MORE

Key-Release Deck Lid opens automatically on counterbalancing hinges when you turn key. Note extra luggage space! Ford's hood is counterbalanced, too!

WORTH MORE

Center-Fill Fueling prevents hose marks on the finish of your car. No gas spill on fenders. Short, out-of-the-way fill pipe gives you trunk space for an extra suitcase.

WORTH MORE

Power-Pivot Pedals are suspended from above to operate more easily... to eliminate dusty, drafty floor holes and make foot space of the entire floor space.

WORTH MORE

Automatic Power Pilot saves you money because it gives you high-compression "Go" with regular gas. An economy feature on both V-8 and Six.

Farm Bureau Meet Plots Policy Course

By JIM HUTCHESON
SEATTLE (AP)—Delegates to the American Farm Bureau Federation Convention get down today to the No. 1 business of their 34th annual session—charting the organization's policy course for 1953.

Members of the Resolutions Committee reported their recommendations to the voting delegates will emphasize more strongly than ever before the advisability of a national policy of expanding world trade.

A brief in the necessity of foreign trade as a two-way street, by which farm products can be moved to foreign markets, has been emphasized repeatedly since the convention opened Monday. It has been expounded by economists on the convention rostrum and by the federation president, Allan B. Kline.

Other points listed for emphasis by the Resolutions Committee include a need for decentralization of government, research in agriculture and control of inflation.

A committee member said the resolutions prepared for action at the final afternoon session follow generally the principles set forth in previous annual platforms.

"The change is on emphasis," the federation, the nation's largest farm organization with nearly 1 1/2 million families, is generally recognized as a conservative farmers' group.

The normally controversial resolution on price support levels for farm products is de-emphasized this year, committee members indicated, by the premise that leaders of both major political parties are committed to a "hands-off" approach to the existing law, which runs through the 1954 crop year.

Research, to be emphasized by resolution, was described to the convention yesterday by Sen. Clinton P. Anderson of New Mexico, former secretary of agriculture in the Truman administration, as the reliable key to the agricultural future.

He discounted price support programs as a long-range solution. He cited a campaign statement by President-elect Eisenhower in support of developing "an agricultural research and extension program to meet present and future needs," and asserted, "It should be a matter of great comfort to us to note what the winning candidate said on the subject."

12 Bad Security Risks Still Hold Jobs In The UN

NEW YORK (AP)—A State Department official says 12 out of 40 American termed bad security risks by the department still are holding down their jobs in the United Nations.

The official, John D. Hickerson, assistant secretary of state for U. N. affairs, testified yesterday before the U. S. Senate Internal Security Subcommittee probing allegedly subversive Americans working for the world organization.

Two more out of the 40—making a total of 14—were blackballed by the department "on a basis of morals," Hickerson said.

Hickerson's oral and written testimony—from notes inserted in the record—was heard by Sens. Herbert O'Connor (D-Md.) and Homer Ferguson (R-Mich.).

Of the 28 American U. N. employees dropped after his department questioned their loyalty, Hickerson said, 14 were fired before Oct. 1, and 14 more since then as a result of the State Department reports or Senate and grand jury probes. Up to now, the U. N. has admitted firing 18 Americans on loyalty grounds.

Hickerson declined to name any of the 40 cases publicly, saying that the matter was "confidential" between the State Department and the U. N. The State Department is not responsible for U. N. personnel, he said, beyond checking their loyalty, and the actual firing was solely up to the U. N.

Hickerson also told the subcommittee members: "The State Department has not had evidence justifying the conclusion that espionage activities are being conducted by Americans employed in the U. N."

He added that he believed the Secretariat would be "one of the last places" where Soviet agents would be placed since that agency dealt in "generally public and unclassified data."

Man Is Injured In Highway Accident

GARDEN CITY, Dec. 11—Sanders (Doc) Chaney is in Midland Memorial Hospital after being injured in a car accident Tuesday afternoon. The accident occurred on the Midland-Rankin highway. A buzzard, that had been eating a dead rabbit on the highway, flew up in front of Chaney. Fearing the impact would break his windshield, he swerved to the right but hitting loose gravel rolled over six times. Chaney had a shattered pelvis bone, and doctors said there was a possibility of internal injuries. His car was a total loss. Doc, a former resident of Garden City, is the son of Fred Chaney of Garden City. He has been living in Midland for the past few months and had gone to Rankin where he got a job. He was to have gone back to Rankin Tuesday night to begin work.

Mrs. Bloomer To Fill Term Of Late Husband

STANTON, (SC)—Mrs. D. E. Bloomer has been appointed to fill out the unexpired term as county commissioner of her late husband, Daniel Edgar (Ed) Bloomer, who died Dec. 1. It has been announced by County Judge James McMorris. Mrs. Bloomer will serve during this month and will thereby complete a continuous term of 12 years service in the office by the family.

Texans Selected As Rhodes Candidates

HOUSTON, Dec. 11 (AP)—Two Texans attending Yale University have been selected as the state's candidates for Rhodes scholarships. They are Charles A. Perlit, 21, and James P. Garner, former football star at Amarillo High School. They were chosen yesterday by the state selection committee in a meeting here.

WITH WAGE BOARD

Industry Members Quit Region Posts

DALLAS, Dec. 11 (AP)—Some 100,000 workers in the Southwest can forget—for the time being—any hope of wage increases.

The eight industry members of the regional Wage Stabilization Board here resigned yesterday halting action on applications affecting about 25,000 workers over the Southwest.

Regional WSB Chairman Byron R. Abernathy said applications now being processed and not yet

ready for WSB action would affect "several times the 25,000 workers."

The industry members of region 10—covering Texas, Oklahoma, Arkansas and Louisiana—quit yesterday in protest over recent soft coal wage boosts granted by President Truman.

The statement of resignation said the industry members believed "no self-respecting, qualified individual can truly represent industry under the prospect of a 'captive' program."

The action followed a pattern set by the resignation of industry members of the national WSB and of industry members of several other regional boards.

Those quitting here yesterday included Sam B. Dunbar, head of the industry section; Victor F. Frima, Curtis G. Condra, E. J. O'Connor, Frank Cantrell, Inge Grant, Erben Mabon, and Clem White.

"What happens next," Abernathy said last night, "rests with the National WSB and Economic Stabilization Administration in Washington."

Abernathy said route matters—merit, length of service and cost-of-living pay raises—which do not require the regional board's approval would continue to be handled without interruption.

Labor members of the board were not happy about the developments. They said they were surprised "and disappointed in the failure of the industry members to recognize the obligations they owe the public."

Auction Prices Seen As Down

West Texas auction prices for registered Aberdeen-Angus appeared to be following the declining trend set by Herefords when 94 head sold at San Angelo Wednesday for an average of \$637.12.

Last year 82 head in the same sale brought an average of \$1,192. Many of the Blacks sold yesterday went to out of state buyers.

Tom Owens of Big Lake paid the top price, \$2,800, for a bull consigned by Morgan and Lemley of San Angelo. This bull is a full brother of the steer that wore the grand championship crown at the 1947 edition of the Houston Fat Stock Show.

Morgan and Lemley also consigned the second to top priced bull, a sire that joined the herd of Ben Snure of Rodeo, New Mexico, on a \$2,000 bid.

Sol Mayer of San Angelo was the buyer of the largest number of bulls taking 16 head at a total of \$8,600. Koy and Childress of Roswell, N. M., bought 10 bulls for a total of \$7,225.

The 94 head were run through the ring in a little less than three hours.

Committees Named For Hegyi Concert

Committees for the guest tea and concert to be given Monday evening by the Music Study Club were appointed Wednesday afternoon by Mrs. Harold Talbot, president.

The group met in the home of Mrs. C. C. Jones, 603 W. 17th, with Mrs. H. M. Jarratt and Mrs. R. V. Middleton as co-hostesses.

The committees are Mrs. Omar Pitman and Mrs. Chester Barnes, table setting; Mrs. Leslie Green, Mrs. J. W. King Jr., Mrs. Don Newsum, Mrs. C. A. Boyd, Mrs. Leonard Shipman and Elizabeth Cope, program and ushers; Mrs. Fred Beckham, Mrs. Jones, Mrs. Jarratt and Mrs. Nell Frazier, decoration of tea room; Roberta Gay, Elsie Willis and Edith Gay, stage decorations.

Mrs. B. J. Wiss was welcomed as a new member. Refreshments were served to about 17.

Child Study Members Are Entertained

Members of the Child Study Club were entertained Wednesday at their annual Christmas luncheon in the home of Mrs. Toots Mansfield, 100 Virginia.

Co-hostesses were Mrs. Jack Y. Smith, Mrs. James Johnson and Mrs. W. H. Bain.

Mrs. Gaylon Cothran, a guest, spoke on "What Our Children Can Mean To The World."

A group voted a donation of \$25 to the Christmas Cheer Fund.

The dining table was centered with an arrangement of fruit, dark green candles and Christmas balls, and individual tables held Santa Claus figurines containing sprigs of holly. Other arrangements in traditional Christmas red and green colors decorated the radio, coffee table and hutch.

About 19 members attended.

Suit For Debt Filed

B&T Drilling Company filed a \$2,656.25 suit for debt against E. J. Muth in 118th District Court today. The company alleges that Muth owes the money as a result of labor and material furnished between April 26 and August 1. The bill was originally \$42,069.35 and Muth paid only \$39,413.10, according to the petition.

Driver Spraberry Completion In Glasscock County Is Noted

A completion in Glasscock County's Driver Spraberry field and locations in the Fluvanna field of Borden County and the McCabe field of Mitchell County top today's oil news.

The Atlantic Refining Company's No. 4-37 W. H. Lane came in for 281.65 barrels of 37.5 gravity oil per day.

Borden

Superior and Intex No. 1-535 J. H. Jones, 1,980 from south and east lines, section 335, block 97, H&TC survey, Fluvanna field, is a 640-acre rotary location on a 640-acre lease.

Glasscock

Atlantic Refining Company No. 4-37 Lane, 1,980 from north and east of lines, section 37, block 37, T&P survey, flowed 24 hours for 281.65 barrels of 37.5 gravity oil and 5 per cent water.

Dawson

Seaboard No. 1 King, 2,335 from north and 660 from east of lines, northwest quarter, section 1, block 35, top, 6-north, T&P survey, is now at 8,743 feet in shale.

TRUMAN

Truman at Wake Island and about all he got for that was a lot of misinformation.

Asked what this misinformation was, Truman said MacArthur told him at their historic meeting at Wake Island, Oct. 14, 1950:

1. The Chinese would not move into Korea. 2. It would be possible to send a division of the regular U. S. Army from Korea to Germany for occupation purposes to relieve another division by January, 1951.

MacArthur gave no details of any Korean peace plan in his New York speech Friday. He did say it would not lead to unduly heavy Allied casualties.

The news conference opened with a question asking the President's reaction to a suggestion by Sen. Watkins (R-Utah) that he invite Eisenhower and MacArthur to a conference on Korean strategy.

But, he said, he rejected the suggestion, deciding it would serve no good purpose and it would be just a piece of demagoguery.

L. R. McIntosh Rites Scheduled For Today

Services for L. R. McIntosh Sr., who died Tuesday, were to be held at 3 p.m. Thursday at the Eberley Chapel.

and total plugged back depth was 7,592 feet. The 7-inch oil stringer was set at 6,873 feet. Perforations were made from 6,924 to 6,954 feet.

Glasscock

Atlantic Refining Company No. 4-37 Lane, 1,980 from north and east of lines, section 37, block 37, T&P survey, flowed 24 hours for 281.65 barrels of 37.5 gravity oil and 5 per cent water.

OIL WRITER IS CRITICALLY ILL

Johnny Brewer, veteran oil editor for the San Angelo Standard Times, remains in a critical condition in a San Angelo hospital.

Liberal Applause Given To Comedy

A small gathering gave liberal applause to the Civic Drama presentation of "Glad Tidings," which was presented on the city auditorium stage under sponsorship of the Big Spring Kiwanis Club Wednesday night.

The light comedy, which gained considerable acclaim in New York, was the story of a "modern generation" family.

Temperature Control Due For Courthouse At Mitchell County

COLORADO CITY — Mitchell County Commissioners voted Wednesday to install an automatic pilot to control temperature at the Courthouse.

Parker Is President Of Men's Brotherhood

J. E. Parker was elected president of the newly organized men's brotherhood of the first Church of God in a special called meeting Tuesday night at the parsonage.

Ex-Resident Dies At His Home In Spur

Sherwood I. Powell, 73, one-time resident of Big Spring, died unexpectedly at his home in Spur at 4:40 p.m. Wednesday.

He was a brother to two local people, U. G. Powell and Mrs. D. W. Dennis.

Arrangements are incomplete but the funeral will probably be held Saturday in Spur.

In addition to his wife, he is survived by a daughter and a son, and another sister, Mrs. R. L. Cole, who resides in Roswell, N.M.

Thefts Are Reported

Theft of an automobile wheel and tire was reported to police Wednesday by Homer Leland, 509 Runnels. The spare tire and wheel was stolen at Leland's home or while the car was parked Tuesday night at 1109 E. 12th.

Christmas Caroling Campaign Underway

Salvation Army personnel started a Christmas caroling campaign in Big Spring Thursday night. Six workers knocked at doors for contributions while carols were played from a truck loudspeaker.

The area covered last night was in the Edwards Heights-Mountain View district. Workers canvassed a six-block strip while singing such songs as "Silent Night," "Jingle Bells," and "Will Santa Come to Shanty Town" were played.

Howard

Laughlin-Porter and Texas Crude No. 1 Fisherman, 660 from north and west of lines, east half, section 10, block 23, top, 2-north, T&P survey, took a drillstem test from 8,940 to 8,970 feet, and the length of test was not reported.

Man Fined \$45 On Drunkenness Charge

A plea of guilty to a drunkenness charge plus evidence of assault upon a policeman resulted in a \$45 fine in Corporation Court this morning.

The defendant was arrested on a northside street by Patrolman Jack Shaffer last night on the drunkenness charge. Shaffer took the man to the police station, but a scuffle ensued when he refused to enter the jail.

Airman Is Charged In Case For Forgery

W. H. Hardisty, Negro airman from Webb Air Force Base, was charged in Justice of Peace W. O. Leonard's court today with forgery.

The complaint alleges that Hardisty passed checks for \$50, \$32 and \$5. Two of the checks which he allegedly forged are signed "Willie Madaro."

The checks were passed at Piggy Wiggy and Prager's Men's Store. Hardisty was arrested by WAFB officials and turned over to county authorities. He is now in County Jail.

Martin

Plymouth No. 1 Millhollon, C SE NW, section 7, block 35, top, 1-south, T&P survey, is shut in to install pump.

Tide Water No. 1-B Dickinson, 660 from south and west of lines, section 5, block 37, top, 1-south, T&P survey, is reported at 10,847 feet in lime and shale.

Phillips No. 1-C Schar, 1,320 from south and 7,000 from west lines of lease, section 324, LaSalle CSL, has total depth of 10,044 feet in lime. Operator is still trying to take drillstem test.

Pan-American No. 5 Breedlove, 5,280 from east and 2,640 from south of lines, league 258, Briscoe CSL, got down to 9,604 feet.

Mitchell

Richardson and Bass No. 1 J. H. Hall, 660 from north and 330 from west of lines, southwest quarter, section 7, block 12, H&TC survey, is a rotary location in the McCabe field set for depth of 7,000 feet. Estimated elevation is 2,250 feet. Located about 20 miles southeast of Colorado City on a 640-acre lease, the well is a northeast step-out to the one well field.

Standard No. 1-I Dunn, 660 from south and west of lines, northwest quarter, section 64, block 20, LaVaca survey, is fishing.

Humble No. 1 Coleman, C SW NW, section 78, block 97, H&TC survey, got down to 2,818 feet in lime.

F. Kirk Johnson and Edwin L. Cox No. 1 Bomar, 660 from south and east of lines, section 10, block 12, H&TC survey, is reported at 8,464 feet in shale and lime streaks.

IKE

(Continued From Page 1) side Heights residence in New York.

The source added that Eisenhower would consult frequently with MacArthur, but there are no plans to give him a formal post in the new administration.

James Hagerty, the President-elect's press secretary, said it is uncertain when Eisenhower will leave Honolulu. Earlier it had been announced he would leave Saturday night, arriving in New York.

The main Helena conferences ended at noon yesterday, although there were brief and informal discussions last night. The entire party relaxed during the afternoon.

Eisenhower, looking fit and tanned and more relaxed than at any time since he entered the presidential campaign, took a nap in his cabin.

Others sunned themselves on the deck and rested from the long discussions.

ROKs Thrown Off Western Front Hill

By GEORGE MCARTHUR SEOUL, Dec. 11 (AP) — Chinese Communists stabbed through withering Allied artillery fire today to hurl South Korean defenders from Little Nori Hill on the Western Front for the second time in 17 hours.

Frontline officers said the Reds hurled 3,000 men into the attacks — their biggest in a month.

South Korean troops withdrew at dusk in the face of a two-company (300 to 350 men) Communist attack. The Chinese advanced through a thundering 1,000-round artillery barrage from their own guns.

Associated Press Correspondent Milo Farnet reported from the front that Communist big guns were stepping up the savage bombardment that began just before the Reds opened the see-saw battle shortly after midnight.

An estimated 10,000 rounds of artillery and mortar fire fell on Allied positions.

Farnet said the Reds suffered an estimated 270 casualties — 152 killed and at least 118 wounded. The Chinese had captured Little Nori earlier, but the South Koreans stormed back up the slope in fierce counterattacks despite a barrage of 2,000 Red shells.

Some 200 Allied warplanes hurled heavy bombs at Red positions on the Western Front.

For the first time in five days, no Russian-bull MIG jet planes came out to fight.

Reports from the front said the Communists wrested the south slope of nearby Big Nori Hill from the South Koreans, who were making no effort to regain that ground. The Reds already held the north slope.

An estimated 8,000 rounds of Communist artillery and mortar fire pounded the South Koreans since the Red attacks jumped off. Front-line reports said Allied and Chinese big guns were engaged in a thunderous duel Thursday afternoon.

Both Big and Little Nori are located along the Imjin River in the freezing Kelly Hill area, where gnarled knobs rise irregularly to form stepping stones in the bloody Battle of the Hills.

The Chinese Reds hurled three main assaults in the area early Thursday, with the Nori heights the principal targets.

No Injuries Noted As Truck Overturns

A large refrigerated truck turned over on Highway 80 about five miles east of Coahoma Thursday night. No injuries were reported.

Highway Patrolman Amos Johnson, who investigated the incident, said the truck turned over after its headlights failed.

He said that the driver did not see a curve in the road after the lights went out and turned the truck over on a culvert before he could stop.

The truck was hauling grapes from California to Dallas. The driver was Ray Binder.

Man Is Injured In Accident Near Here

James A. Norwood, of Bedias, roughneck working in a Borden County oil field, suffered cuts, bruises and possibly other injuries in a mishap about 28 miles north of Big Spring last night.

Norwood said he became entangled in part of the drilling equipment. He was to undergo X-ray examination at Cowper Hospital today.

Cars In Collision

An accident at 15th and Lancaster last night involved cars driven by Ruth Davis Durham, 606 W. 15th, and Wayland Gerald Clanton, 423 Dallas, police said. No injuries were reported.

Dismissals — G. E. Fleeman, 901 Lancaster; Mrs. Margaret West Snyder; Mrs. Montez Owens, 507 W. 6th; Gene Thompson, Snyder; Charley Sullivan, 802 Gregg; Mrs. Eleanor Seward, Rt. 1; Mrs. Earlene Fikes, Stanton.

Youths Warned About Firecrackers Being Exploded in Mail Box

Big Spring youths were warned today by County Juvenile Officer A. E. Long that it is a federal offense to explode firecrackers in mail boxes.

Long said that two mail boxes on East 14th Street have been reported damaged as a result of firecrackers being exploded in them.

"The boys who exploded the firecrackers are not just dealing with juvenile authorities," Long said. "They are tampering with federal property."

Long also emphasized that a city ordinance prohibits the sale or discharge of firecrackers within the city limits.

R. H. West Rites Slated On Friday

Funeral services for Raymond H. West, 38, found dead in his home here Tuesday morning, will be conducted at the Nalley Chapel at 2:30 p.m. Friday. Burial will take place in the Trinity Memorial Cemetery.

Rev. R. B. Howze will officiate. Pallbearers will be Buck Rogers, J. M. Dalton, S. L. Lockhart, Alton Lewis, Estes Smith, Maron Fairchild, Lee Hazen, R. B. Hood and F. W. Sides.

Stanton Schools To Dismiss On Dec. 19

STANTON, (SC)—Stanton schools will be dismissed for the Christmas holidays on Friday, Dec. 19, according to Superintendent O. W. Winstead, and classes will be resumed Jan. 5.

Previous to being dismissed, each room, Winstead said, will have its own Christmas tree and the parties will be held at 1 p.m. on the last school day before the holidays. Parents are invited to attend. The High School tree will be located in the gymnasium, with the grade trees in their own rooms which are located in various buildings over town during the rebuilding program now going on.

THE WEATHER

LIVESTOCK — FORT WORTH, Dec. 11 (AP)—Cattle 900; calves 500; sows, wean. Choice 77 pound steers \$11; other good slaughter steers and yearlings \$10-12; common and medium \$8-10; fat cows \$11-12; good and choice slaughter calves \$12-15; common and medium \$10-12; stocker calves and yearlings \$10-12; choice 300-325 pound hogs \$12-15; medium to choice 150-180 pound hogs \$11-12; sows, wean. \$11-12; utility to choice slaughter sows \$6-8; good feeders scarce common stocker lambs \$11.

Lounging And Boudoir Shoes

House shoes and other casuals for lounging make practical gifts for every member of the family. Here Mrs. Bob Wren at J & K Shoe Store shows Mrs. Vernon Baird a moccasin from the store's stock of gift shoes.

Ellouise Carroll Is 1952 Gold Star Girl

Ellouise Carroll, Cloverleaf 4-H Club girl and daughter of Mr. and Mrs. Wesley Carroll of Gall Rt., has been announced as winner of the Howard County Gold Star award for 1952.

The award to Ellouise and those to other outstanding 4-H Club girls were made at the 1952 Achievement tea held in the Center Point gym.

Others receiving awards were Connie Crow, county-wide winner; Betty Davis, senior best dress, senior play dress and senior school dress; Beverly Shockley and Ann Rogers, junior school dresses. A special award of a 4-H pin case was made to each of 14 girls who turned in achievements.

Now 17, Ellouise has been in 4-H work for eight years. She has won a home improvement award the past two years for bedroom demonstrations, and in 1950 won first in her division in dress revue. With Barbara Davidson she made a team that won first in the district in 1951 in dairy foods demonstration, and the two gave the demonstration at the State Round-Up.

She has served as a crafts leader at District 6 encampment and as a leader in the "Mind Your Manners" session in Dist. 2 encampment in 1952. Selected as a delegate to the State Round-Up for the past two years, Ellouise also was elected treasurer of the 1953 Dist. 2 4-H Girls camp.

In addition to her 4-H Club work, Ellouise served this past year as president of Dist. 4 Future Homemakers of America, is a member of the Majors Club, of the Girls Choir and of the pep squad. She made the "A" string in volleyball and received the "best all-round" trophy last season in the 24-team tournament.

Mrs. Eugenia B. Toland, county home demonstration agent, has announced that Ellouise will be the Howard County nominee for the Dist. 2 State Fair Honor Award. Also presented to Beverly Shockley at the tea was the Foley Foods Award in a food preparation. The award was a complete set of Foley equipment, including: sifters, food mill, chopper, fork, juicer and a number of other items.

Mrs. J. B. Shockley of Knott was in charge of the program at the tea, and Mrs. Ted Fields, assisted by Mrs. Holbert Fuller, was in charge of refreshments.

Barbara Lewter presided at the guest register, and Jan Fields gave a plans number. A skit, with Betty Davis as reader, was presented by Rosalee DeVaney, Joan Davis, Judy Brooks, Beverly Baker and Zena Kay Robinson.

Refreshments were served to 37 girls and their mothers from a table laid with a white cloth and centered with a large square white candle on a mirror encircled with greenery and decorated with the four 4-H symbols.

Other committees included Mrs. W. E. Hanson and Mrs. Wesley Carroll, arrangements; and Mrs. L. J. Davidson, Mrs. Holbert Fuller and Mrs. Shirley Fryar, table and centerpieces.

Julius Hegyi, who organized "Music in the Round" for concert series in various string, piano and wind ensembles at Lubbock, will be presented in a violin concert by the Music Study Club Monday at 8 p.m. in the Howard County Junior College Auditorium.

The public is being invited to attend the concert and no admission will be charged. Hegyi, a graduate of the Juilliard School of Music with highest honors in all subjects, made his New York Town Hall debut in 1945. He became an orchestra soloist when he was 11 and since that time he has been a soloist with the CBS Symphony, a member of the NBC Symphony under Toscanini and a member of the New York Philharmonic under Mitropoulos. The appearance of a guest artist at one of the Music Study Club's programs each year has become an annual custom.

ELLOUISE CARROLL

Ellouise served this past year as president of Dist. 4 Future Homemakers of America, is a member of the Majors Club, of the Girls Choir and of the pep squad. She made the "A" string in volleyball and received the "best all-round" trophy last season in the 24-team tournament.

Mrs. Eugenia B. Toland, county home demonstration agent, has announced that Ellouise will be the Howard County nominee for the Dist. 2 State Fair Honor Award. Also presented to Beverly Shockley at the tea was the Foley Foods Award in a food preparation. The award was a complete set of Foley equipment, including: sifters, food mill, chopper, fork, juicer and a number of other items.

Mrs. J. B. Shockley of Knott was in charge of the program at the tea, and Mrs. Ted Fields, assisted by Mrs. Holbert Fuller, was in charge of refreshments.

Barbara Lewter presided at the guest register, and Jan Fields gave a plans number. A skit, with Betty Davis as reader, was presented by Rosalee DeVaney, Joan Davis, Judy Brooks, Beverly Baker and Zena Kay Robinson.

The appearance of a guest artist at one of the Music Study Club's programs each year has become an annual custom.

The Reserve Officer Wives of Big Spring are to entertain the Officers Wives of Webb Air Force Base with a cocktail party Thursday from 3:30 to 5:30 p.m. at the Athletic Club in the Settles Hotel. All wives of officers are invited to attend.

Does Elect New Officers At Meeting Wednesday

New officers were elected at the meeting of the BPO Does Wednesday evening at the Elks Hall. The officers include Alice Gale, president; Mayfair Hogue, first counselor; Alma George, senior counselor; Evelyn Davis, junior counselor; Lorena Lynch, treasurer; Helen Pierson, inner guard; Dora Higgins, outer guard; Ruby Culver, conductress; Othafae Nevins, three year trustee; Mary Morgan, two year trustee; Bea Viererge, one year trustee. Serving as tellers for the election were Lillie Bloom, Nellie Zodin and Emily Clark.

The public installation ceremony will be held Jan. 14 with Othafae Nevins as installing officer. During the meeting the group voted to make doll clothes and dress dolls for five underprivileged children. The members will meet Wednesday in the home of Mrs. W. D. Berry to make the clothes. Sunday afternoon, Does will decorate a Christmas tree for the children of members. Twenty-four attended.

Garden Club, Rebekahs Plan Christmas Parties

STANTON, (Spl) — Mrs. Morgan Hall was hostess to members of the Stanton Garden Club recently at the home of her mother, Mrs. W. Y. Houston.

Twelve members answered roll call with an original idea for Christmas decorations. Mrs. Edmund Tom spoke on "Decorate For Christmas." Assisted by Mrs. J. A. Wilson, Mrs. Tom made arrangements suitable for mantels, tables and other points about the home. She stressed the importance of using two types of greenery in making Christmas arrangements to produce a better effect.

The club's Christmas party will be Dec. 16 in the home of Mrs. Paul Jones, with Mrs. T. Y. Allen as hostess. Mrs. P. M. Bristol and Mrs. Elmer Long will have charge of the program.

Plans for the Rebekah Christmas party to be held Dec. 15 at the IOOF Hall were made at the Monday night meeting of the lodge. Each member is to bring a gift not to exceed \$1 in cost.

Naomi Yell, noble grand, presided, and Thelma Fred of Artesia, N. M., was accepted into the lodge by transfer. Mrs. Jennie V. Sharp, a member of the Sulphur Springs lodge, was a visitor.

A group of girls were presented in folk dances when the Stanton Music Club met in the Humble recreation hall, with Mrs. Sonnie Umberson as hostess.

Participating in the dances under the direction of Mrs. James Eiland were Rebecca Riley, Jean Mott, Janelle Jones, Sandra Sale, Sharon Sale, Carolyn Stone, Carolyn Duncan, Sharon Ann Marsales, Glenda Henderson, Betty Berry, Glea Ingram and Johnnie Rhodes. Jo Jon Hall and Tom Ed Angel entertained the club with the "Jesus Pickle" and "The Rye Waltz."

Joe Pickle of Big Spring was guest speaker at the meeting of the Stanton P-TA Tuesday in the High School study hall.

Using as his topic "Lead Kindly Light," Mr. Pickle named three lights as important to the world—the light of leadership, the light of liberty and the light of love. At the close of his talk he read the poem, "Lead Kindly Light."

Elmore Johnson gave the invocation, and the Choral Club, under the direction of Bandmaster Hornbeck sang "Silent Night," "Chop Chips," and "Beautiful Savior." Mary Lynn Hamilton accompanied the group on the piano. Members of the Choral Club are Jerry Coon, Lee Coon, Larie Fisher, Jeanette Graves, Eula Belle Mott, Beanie McCoy, Yvonne Ory, Jimmy Lou Huffman, Marlene Kelly, Mary Beth White, Sabra Wisely and Mary Lynn Hamilton.

The unit voted to buy a duplicating machine not to exceed \$225 in cost. The executive committee will vote at the next meeting on what reference books to buy for the grammar and high schools.

Mr. and Mrs. Roy Mitchell of Odessa were week-end visitors in the home of Mr. and Mrs. Marion Yell.

Mrs. E. L. Swaim of Midland spent several days with Mr. and Mrs. Ivan White and Virginia.

Mr. and Mrs. Tom Adams are the parents of a new daughter born at the Stanton Memorial Hospital Monday morning.

Mrs. Lynn White and son have returned from a visit with her parents at Clyde.

Mrs. Ivy Davis returned Monday night from Dallas.

Mrs. Elmore Johnson and daughter were Big Spring visitors Tuesday.

Thomas L. Payne, son of Mr. and Mrs. Leo H. Payne of Stanton, received third place in a national essay contest on agronomy among 61 contestants.

Mrs. and Mrs. Elmo Johnson visited recently in Turkey and Amarillo.

E. M. Massey and Loree had Mineral Wells visitors recently.

Mr. and Mrs. John Atchison were Odessa visitors recently.

TRAMPOLINE STARS

MENU FOR TOMORROW

FRIDAY FARE
Pat's Tuna-Noodle Casserole*
Snap Beans
Bread and Butter
Pear and Cream Cheese Salad with Crisp Romaine
Beverage
(Recipe for Starred Dish Follows)
PAT'S TUNA-NOODLE CASSEROLE
Ingredients: 6 ounces fine noodles, 1 can condensed mushroom soup, 1 cup milk, one 7-ounce can tuna fish, ½ pound processed yellow cheese (finely diced or coarsely grated).
Method: Cook noodles in large amount of salted boiling water until tender; drain. Stir soup and milk together in baking dish. Add noodles, tuna and cheese; stir gently to mix. Bake in moderate (375F) oven 25 to 30 minutes. Makes 4 servings.

Trampoline Artists On HS Program

Ed Steinmetz and Don Reed, the wizards of the bounding bed, will be presented at 11:15 a.m. Friday in assembly at the Big Spring High School under the sponsorship of the Student Council.

Admission will be 9 cents plus a can of food for the Christmas welfare project. The two stars will present their interpretation of fun on the trampoline. Steinmetz and Reed are considered among the foremost trampoline artists of the country and have worked in all phases of show business from coast to coast. One of the highlights of their performance is having volunteers from the audience learn the simple stunts and routines before the eyes of the spectators.

They also give a brief history of the development of the trampoline while presenting with ease the most difficult and intricate performance of co-ordination, timing and balance.

Hot Dog Supper

It has been announced that the Carpenters' Local will entertain this evening at 7:30 with a hot dog supper at Carpenter's Hall honoring all members and their families.

Yule Concert Set Tonight In Auditorium

The Big Spring High School Band and A Cappella Choir will join forces tonight for the annual Christmas concert to be presented in the High School auditorium beginning at 8 p.m. The public is invited.

A guest attraction will be the Junior High Choir under the direction of Mrs. Mary Christensen. Special numbers will be presented by the Men's Choir, including "Stout-hearted Men," and by the girls triple trio. The A Cappella Choir will sing seven numbers and the Band will play six selections.

The climax will be a finale by the combined band and choirs in a presentation of "Adeste Fideles," "O Little Town of Bethlehem" and "Jingle Bells."

The band will be under the direction of J. W. King Jr., and Harry Lee Plumley will direct the choir and trio.

P-TA Has Meeting

The East Ward P-TA was to have met this afternoon at 3:30 at the school for a regular session followed by a Christmas tea.

Annual Holiday Formal Held By Dance Club

The Wednesday Night Dance Club entertained Wednesday evening with their annual Christmas dance at the Country Club.

Hosts were Mr. and Mrs. Doug Orms, chairman; Dr. and Mrs. G. E. Peacock, Mr. and Mrs. E. L. Powell, Mr. and Mrs. Champ Rainwater, Mr. and Mrs. John Ratliff, Mr. and Mrs. Shelby Read, Mr. and Mrs. Jack Y. Smith, Mr. and Mrs. J. Y. Robb, Mr. and Mrs. Roy Townsend and Mr. and Mrs. Joe Pickle.

Jack Free and his orchestra of Abilene played for dancing. At midnight, a buffet supper was served from a table laid with a Christmas red satin cloth. At one end of the table was a silver tiered bowl filled with a harvest arrangement of green and purple grapes, limes, oranges, blackberries, cherries and other fruit. Behind the arrangement was a white wrought iron candelabra with tall white tapers. A cut glass punch bowl was used and other appointments were silver.

Mistletoe bells hung over the table and on the mantle was an arrangement of cedar, pine cones and large red candles. Elsewhere in the entertaining rooms arrangements of Christmas balls, silver foil and cedar boughs were used. Among the out-of-town guests were Mr. and Mrs. Owen Ingram and Mr. and Mrs. Gordon Stone of Stanton and Mr. and Mrs. W. R. Powell of Colorado City.

Miss Ramsey Will Marry J. L. Mason

Mr. and Mrs. T. A. Ramsey of Plainview have announced the engagement and approaching marriage of their daughter, Wanda Louise, to Jimmie Lee Mason, son of Mrs. J. E. Cook of Plainview and Jimmie Mason of Big Spring.

The wedding will be held Dec. 26 in the chapel of the First Baptist Church in Plainview.

The bride-elect is a senior home economics major at Texas Tech where her fiancé is taking graduate work in accounting.

Miss Ramsey is among the Tech students to be included in this year's edition of "Who's Who Among Students in American Colleges and Universities." The prospective bridegroom received the same honor last year.

Miss Ramsey and Mason will be house guests of Mr. and Mrs. Roxie Dobbins over the week end.

DeMolays, Rainbows Plan Party

An old-fashioned Christmas party with a tree and Santa Claus will be given Saturday evening, beginning at 7:30, by the local chapters of DeMolay and Rainbow Girls.

The semi-formal party and dance will be held in the Shrine Club, Eighth and Scurry. Rainbow Girls will decorate the tree Saturday morning.

A 30-minute floor show is being planned by Joyce Anderson, Ann White and Mary Ella Bigony, after which gifts will be distributed. Each boy and girl is requested to bring an inexpensive gift for the exchange. The tree already has been taken to the Shrine Club by Leon Moffett, DeMolay Dad.

At 9 p.m. the DeMolays will hold their regular inter-club, and after this the dance will start. Festivities will end about midnight.

All DeMolays and Rainbows are invited to attend the party.

Send 25 cents for the Multicolor Bunnies for Children (Pattern No. 377) complete transferring and ironing instructions, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS, Big Spring Herald, Box 228, Madison Square Station, New York 10, N. Y. Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

Garden City FMS Plans Yule Party

GARDEN CITY, (Sp1)— The WSCS met with Mrs. W. K. Scud-day Monday afternoon for yearbook study. Topic of the lesson was "Let Every Heart Prepare Him Room." The hostess brought a devotional on "Mary, the Mother of Jesus." Mrs. W. W. Kitterman, a guest, told of various women down through the ages who had given room to the Lord. Mrs. J. P. Boswell spoke on "Christian Martyrs," which she followed with sentence prayers.

Mrs. Tom Asbill had charge of the business meeting when plans for the Federated Missionary Society were discussed. The Methodist ladies will be hostesses with Mrs. Charlie Cox as chairman.

The Federated Christmas party will be Thursday, Dec. 18, at 2:30 p.m. in the recreation room of the Methodist Church. All members are being asked to bring a gift for a needy family in the community.

Mrs. Edward Teele, a guest, led the closing prayer. Mrs. G. A. Young joined the society.

Mr. and Mrs. Reggie Morgan were in Seminole over the week end to see their new grandbaby, Timothy Edward Morgan. He is the son of Mr. and Mrs. Tommy Morgan of Denver City and was born Dec. 6 in the Gaines County Hospital. His weight was given as 5 pounds and 7 ounces. Mrs. Morgan is the former Gay Underwood of Big Spring.

Mr. and Mrs. Ronnell are the parents of a new son who arrived at a Big Spring hospital Sunday at 5 p.m. He weighed 7 pounds and 4 ounces.

Band Pupils To Perform In Clinic

Twenty-two members of the Big Spring High School Band will participate in the 10th annual Texas Tech band clinic Friday and Saturday in Lubbock.

The Big Spring students will perform in a composite band of AAA and AAAA High School students from Pampa, Lamesa, Plainview, Midland, Borger and Lubbock, and will study music from Grades V and VI on the University Interscholastic League Contest lists. The bands will be under the direction of Chief Bob Davidson, director of the Plainview High School Band.

J. W. King Jr., director of the Big Spring Band, will be in charge of the clinic band made up of Junior High students from a large area of West Texas. Dr. D. O. Wiley of Tech and his assistant, Prof. Joe Haddon, are in general charge of the clinic.

Mr. and Mrs. R. Fitzgerald had as their guests recently Mr. and Mrs. Jack Warrington and son of San Angelo.

Extra Feature

This two-piece comes with a mix-match weskit — a second smart top for the simple six-gore skirt! Long sleeve jacket version is diagonally buttoned, stresses the season's shorter length. The weskit has wing-rever styling, too!

Dibrell, Toby And Wizards Achieve Wins

Dibrell's Sporting Goods, Toby's Drive-in Medic and the Western Auto's Wizards chalked up wins in the opening round of play in the YMCA Industrial Basketball League at the Junior High Gymnasium Wednesday night.

Dibrell's vanquished Knott, 42-32; Toby's humbled Coca-Cola, 28-14; and Western Auto outlasted the Forsan Oilers, 33-32.

Knott played a strong second half against Dibrell's but had too much of a disadvantage to overcome. Western Auto's ability to hit from the free throw line turned the tide against Forsan in what proved to be the best game of the night.

Haney Decision Up To Rickey

PITTSBURGH (AP)—Fred Haney, skipper of the highly successful Hollywood Stars of the Pacific Coast League, put it squarely up to General Manager Branch Rickey

Lamesa Plays Ysleta Quint

LAMESA — The Lamesa High School basketball team has gone to Ysleta, where tonight it plays the Ysleta Indians in an exhibition game.

The Tornados have dropped their only start of the season. They yielded to Odessa, 52-40, but were not at full strength.

Carlos Berry is the only returning regular back from the 1951-52 team, which won the District 1-AAA crown.

Berry recently turned his attentions from football to basketball, along with Sherrod Dunn, Glynn Creechellus, Jimmy Robison, Johnny Jones, Willie Burleson, Kenneth Bartlett and others.

The Tornados play Bowie of El Paso at Bowie Friday night, Brownfield in Brownfield Monday and Lubbock at Lubbock Tuesday.

They will also compete in the Odessa Tournament Dec. 18-19-20 before recessing for the Christmas holidays.

Snead And Boros Out Of Tourney

MIAMI, Fla., Dec. 11 (AP)—The wide open scramble for the \$10,000 Miami Open golf championship begins today over the 7,010-yard Miami Springs Course with 145 pros and 21 amateurs competing.

With defending champion Sam Snead in California making a motion picture, together with National Open Champion Julius Boros, there is no outstanding favorite.

Snead, five times winner of this medal play event, took last year's top money of \$2,000 with his 268 for the 72 holes.

The University of Miami went through the entire game against the U. of Richmond this season without punting.

of the Pittsburgh Pirates today whether he will sign as Buc field manager.

After flying here from the West Coast for a meeting with Rickey, Haney was asked bluntly if he will sign with the last-place Bucs. He replied:

"If Mr. Rickey wants me to do it may, it's up to him. I would do it for him, because I feel I owe him an obligation for helping my Hollywood team."

Rickey invited Haney to his palatial suburban home for a 10 a.m. conference. Although Rickey has been hinting for weeks that he's tabbed Haney to succeed Bill Meyer, the Pirate executive said:

"There are several things dependent on the decision, the main one being if he wants to become the Pirate manager."

There has been considerable conjecture that Haney wants more than a one-year contract, the kind preferred by Rickey. However, Rickey said:

"We have never reached the point of talking in terms of salary and length of contract. I am sure that we will have no trouble along that line."

When Rickey was in the front office of the Brooklyn Dodgers he sent several players to Hollywood. Rickey has done the same with Buc players and Haney has profited. He won the Coast League pennant in 1949 and again in 1952.

Steers, Borger To Square Away At 6 P. M. Friday

The Big Spring Steers and the Borger Bulldogs get the annual Hardin-Simmons University Basketball Tournament underway in a game beginning at 6 p.m. Friday in Abilene.

Borger is favored to cop the decision. In fact, the Bulldogs are considered to be one of the toughest teams in the state.

However, the Steers showed much improvement in their game with Colorado City, a which time they handed the Wolves their initial setback of the 1952-53 season.

Other first round pairings in the HSU Meet will send San Angelo against Coleman at 7:15 p.m., Abilene against Birdville at 8:30 p.m.

1953 Queen

Leah Feland (above), 17-year-old John Muir College student, has been named Queen of the 1953 Tournament of Roses in Pasadena, Calif. The brown-eyed miss will reign over the colorful rose parade on New Year's Day and then sit in a seat of honor at the Rose Bowl game between Southern California and Wisconsin. She was selected from 2,500 Pasadena coeds who sought the much-desired crown. (AP Wirephoto).

JAYHAWKS CARD BEARDED CLUB

Three games have been added to the Howard County Junior College basketball schedule, including a Jan. 21 outing here with the famed Whiskered Wizards of San Augustine, Fla.

The Jayhawks, still unbeaten after four exhibition starts, will also play the McMurry B team here Jan. 24 and in Abilene Feb. 5.

The Wizards, a troupe of clowns with amazing basketball talent, have shown here in the past and always made a great hit with the fans.

The Hawks will next see action against San Angelo College here Friday night. They return to action on Saturday evening, at which time they square away with Cisco J.C.

San Angelo lost a ten-point decision to Odessa J.C. Tuesday night but invariably rises to the heights against H.C.J.C. The Rams beat the Hawks twice in three starts last year.

Coach Harold Davis of the locals

is undecided whether to start Don Stevens, Lonnie Muse or Richard Gilmore along with his sophomore regulars against San Angelo. He's leaning slightly toward Muse, the Odessa lad who has developed well since arriving on the H.C.J.C. campus.

Stevens opened against Ranger and, looked to advantage, though Gilmore has been a consistent performer all season and led the Hawks in scoring in their opening game.

In any event, all three of the youngsters will see lots of action against SAC, along with Bobby James, Charley Warren, Clarence Jones and Bobby Williams.

When the Cisco team plays here Saturday night, local fans will be occasioned to see one of the best junior college cagers in Texas in Peck Hall.

Hall, a transfer from Decatur J.C., gave the locals fits in a game at Cisco recently. 1

Kozar Will Remove Body Cast Friday

KNOXVILLE, Tenn., Dec. 11 (AP)—Andy Kozar, star of the Tennessee Vols, may know tomorrow whether he will be able to play in the Cotton Bowl against Texas.

The talented fullback will enter the university's hospital to have a cast he has been wearing for a fractured pelvis removed.

Kozar was injured in the Florida game Nov. 15 and missed the last two games of the season.

Sutton, Pridgeon In South Lineup

MOBILE, Ala., Dec. 11 (AP) The South added a pair of backs from Arkansas and the University of Houston today for its Jan. 3 Senior Bowl meeting here with the North.

The new additions are Buddy Sutton, co-captain and halfback of the Arkansas Razorbacks, and Ken Pridgeon, workhorse of the Houston backfield.

Third baseman Ed Mathews of the Boston Braves is the only rookie in the National League history to hit three homers in one game.

A Bible Thought For Today—

God knows and protects His own. Socrates said that no bad thing could befall a good man in this life or the next. The psalmist said it before him. It is still true. The Lord is my shepherd I shall not want. — Ps. 23:1.

Don't Allow Yourself To Become An X In Seasonal Traffic Toll

The smoking wreckage of an automobile superimposed on the X of the legend "Xmas Traffic" is the contribution to safety offered in a current cartoon by Here Ficklen, cartoonist of the Dallas News.

The point is well taken. For hundreds every year the X in Xmas marks the spot where somebody or several somebodies together died on the funeral pyre of carelessness, haste and—in some cases—too much of the wrong kind of Christmas spirits.

The shortest day of the year falls just before Christmas, at the winter solstice. It is the period when traffic hazards are greatest. Darkness falls fast, and the daylight is slow in coming. The period between sunset and full darkness is the most dangerous time of the year, especially for pedestrians. Unless he is extra careful a driver cannot see a pedestrian until he is almost upon him, especially if the walker wears dark clothing.

Around this time of year, and in the gloaming, the pedestrian should use extra care in crossing the street, or walking along a highway. On the highway, he

should face oncoming traffic, by traveling the left side of the road; that is the law in some states, and should be in all. Even if he jaywalks in daylight, he should not do so, for his own safety, after sunset, particularly at this time of year.

It can be taken for granted that no driver would deliberately run down a pedestrian, yet unless he exercises extra care during these short days he is liable to do so at the most unexpected time and place. The carelessness of a pedestrian does not excuse a driver's carelessness. When two careless people meet, there is apt to be an accident.

If you plan a holiday trip, allow yourself plenty of travel time to avoid fast driving. Let your "one for the road" be black coffee, to keep you alert. The drinking driver is a real problem. In the East this year even the liquor dealers and tavern keepers have worked out a program to minimize the evil of their handiwork. Drink emporiums offer departing guests a cup of coffee; if the guest is obviously unfit to drive they will undertake to seize and hold the keys to his car. No comment.

Judd Right In Summation, But Not Necessarily Right In Conclusion

Rep. Walter H. Judd, who was a medical missionary in China for more years than he has been a congressman from Minnesota, thinks we are in a crisis in which the odds are against the survival of our free society. He so told a dinner group of United Churchmen of the National Council of Churches in Denver.

"All civilization has been put on the defensive, and communism is on the march," Judd asserted. He said there is no hope for Korea, and "the Koreans all know it." One reason for that situation, he said, is that "we are following an old habit of trying to make a deal with the enemy."

People talk about Japan being a bastion, he went on, but it can't be—economic conditions are putting Japan on the ropes and forcing her to look to Red China. "The Philippines is 'a dead duck,'" and Indo-China is tottering. "There was never any consolidated power in China," Americans may be having a tough time in Korea, he said, but "it's worse in Indo-China—and they'll be there."

He said 135 years of missionary work in China was lost because the Christian

missionaries wouldn't believe "that the devil is the devil." The roots of our failure, he went on, "is that America tried to 'make a settlement, an arrangement with the devil (communism)' instead of spurning him as Christ did when he was tempted."

Any literate American is aware of the threat to our free society as long as communism is armed and on the prod. The struggle is not merely one of guns and planes and bombs, but for the souls of men. Dr. Judd correctly sums up the situation as it exists, but he does not necessarily reach the right conclusions as to where the world is headed.

He is right, of course, unless the free world fights back with every weapon in the arsenal of civilization. The Communists are not supermen. They are not miracle workers. By their own strength they can never overthrow our civilization. By our own weakness they can.

It is necessary for our survival, first to recognize the nature and imminence of the threat against us, and second to do everything in our power to ward it off. If we weaken we are lost. If we fight with everything we have, we will win.

Washington Calling—Marquis Childs

Problems Of Government Look Lot Different From The Inside

By THOMAS L. STOKES
(for Marquis Childs)

WASHINGTON.—Responsibility is, indeed, sobering.

New proof of this is found here as Republicans who are to occupy key administrative and legislative posts are taking a real look into problems that will confront them in the Eisenhower administration soon after the new year. Overly glib campaign promises about removing all economic controls, making big reductions in defense appropriations, cutting taxes, ending the war in Korea, and such are rapidly being discarded or sharply scaled down.

It looks different once you view it from the inside.

The silencer suddenly clamped on the once-roaring guns of campaign oratory, which was most graphically exhibited in the more-subdued appraisal of Korea by President-elect Eisenhower, previously commented on here, extends in all directions and to all issues for which easy and simple solutions were offered from the stump only a few short weeks ago.

Frankly, a "fessing up" to campaign oratory was an experienced political hand, Harold Stassen, designated as Mutual Security administrator in the incoming Eisenhower administration. During the campaign, and long before in fact, Mr. Stassen went and he said that no economic aid should be extended to nations with socialist governments.

When he was asked about this by reporters after his selection for the important international assignment, he said candidly that there is much difference between what a private individual may say in the heat of a political campaign and what a responsible administrator must do when he has administrative responsibility. True—if late.

Mr. Stassen was only recognizing the fact that some of our staunchest Western European allies, which are democratic in their governmental organization, in their

parliamentary setups and the sharing of power by the people, yet are socialist in their economic structure. To cut them off from our anti-Communist orbit would be like cutting off our noses to spite our faces.

As for price, wage and other economic controls, there is a very noticeable change of attitude, for example, in the man who will be directly in charge of legislation on this subject in the Republican Senate as chairman of the Banking and Currency Committee, Senator Homer Capehart (R., Ind.), who not long since was crying loud against such controls, now indicates he will move slowly and cautiously with the formulation of controls legislation, with no rash and quick abolition.

Businessmen who listened happily to campaign oratory about removal of controls, tax cuts, economy, peace in Korea and so on, since have heard from those directing the "transition" conferences here some very serious reminders that these are not problems easily and quickly resolved.

What they are discovering is what anybody who has followed events here and in the rest of the world closely long had known. Which is, simply, that these things are not isolated, but are parts of an overall pattern necessary to meet the threat of the Soviet menace to the free world, and, therefore, cannot be treated as if they were isolated.

As easy a way as any to explain this is to begin with Korea, since that is foremost now in the news. Korea happens to be the salient under attack with which we are most directly identified, though it is only one of several. Korea requires men and munitions constantly, of itself. But if peace should come to Korea tomorrow—which it won't—that would solve nothing in the world-wide struggle. For the pressures exist all around, and we might expect increased pressure then on another front somewhere, or at least we have to be prepared always for another move. It might possibly be another outbreak cloak-and-dagger behind a satellite, as was Korea. We have learned not to trust Russia speaking softly of peace, or to trust a withdrawal here or there. There might be such a withdrawal in Korea at what Russia might consider a strategic time to lure us into pulling down our guard.

We must keep up our guard, and that requires constant attention to our defenses, military and otherwise. That requires money, and money means taxes. Our defense program also requires controls, not only for routing essential raw materials into defense industry, but so that any shortages in civilian goods caused thereby do not create inflation. Inflation not only is a hardship on our people, as we all know, but inflation could wreck our economy, and that is just what the Russians would like most of all.

No politician can just wave his hand and wave away our necessary sacrifices. They are not separate, but parts of the pattern, and we may have to keep the pattern for a long, long time.

OVER THE WASHINGTON POST

Notebook—Hal Boyle

Now All We Need For That Trip To The Moon Is A Trifling Few Billion Dollars

NEW YORK, Dec. 11 (AP)—A pavement Plato views the news: Plans for the first commercial rocket flight to the moon are going steadily forward at the Hayden Planetarium.

Thousands of prospective passengers have signed up for the initial voyage, including a number of canny real estate dealers anxious to open new areas of suburban development for metropolitan New York.

The long waiting list also has on it the names of a number of spinsters who wish to see what the man in the moon is like. Others want to go simply because they have a desire to go anywhere out of this world.

All that is really holding up the project now is the lack of a few billion dollars to build a proper space ship. Uncle Sam, the only guy around with that kind of money, is still investing it in jet bombers and other earth-bound toys.

Margaret Phelan, the beautiful Texas night club warbler, who also is a handy gal with a skillet, recently volunteered to act as official songstress and cook for the proposed lunar voyage.

Dr. Robert R. Coles, chairman of the Hayden Planetarium, accepted the offer with alacrity, but pointed out some of the problems Miss Phelan would face in her double role:

"We have already signed up a good fiddler, and I think we could use you, too, in view of the long, frigid nights (two weeks from sunset to sunrise). We shall need plenty of hot music. The big difficulty is that there is no atmosphere on the moon, and therefore no one could hear your stuff unless you retired to the pressurized cabin of the space ship.

"Your offer to serve as cook, also, is particularly welcome, especially if you can make flapjacks.

This Day In Texas

By CURTIS BISHOP

The inhabitants of the Texas town of Sonora were very disturbed on this day in 1891. So would be any home owner who faced the same plight.

They had just learned that, because of a surveyor's error, their town had been located not upon land acquired for the state by its founder, but upon a private tract owned by a New York land company. Thus the residents literally had to buy back their own holdings, for technically all improvements were the property of the New York investors.

The town suffered another problem—personal preferences would determine its seriousness—early in its history. All the deeds to lots subdivided out of the supposed state tract carried the provision that whiskey could not be sold on the premises. So the town had no saloons. Such an omission could have completely stunted the growth of the town. But before long, either by accident or design, someone omitted the "dry" clause from a deed to a lot. And to no one's surprise, within a very short time the "Maud S Saloon" opened for business on that lot.

Its titles clear and its saloon operating, the town of Sonora had a firm grip on life. The county seat of Sutton County, it now stages an annual wool and mohair show which has attracted nationwide attention.

"It is so hot on the moon by day (about 212 degrees Fahrenheit) that you could fry them directly in the sunlight on the floor of a lunar crater. And flapping them would be most fun of all since, due to the moon's lesser gravity, they would rise six times as far into the sky before coming to rest."

Science marches on! This dismaying era has been made even more burdensome by an endless rash of "talking dog" stories. Now, truth being ever stranger than fiction, a real life spelling horse has broken 'nto the news.

The animal in question, "Lady Wonder" of Richmond, Va., for a buck will answer any three questions posed to her by a human being. She painstakingly muzzles out her replies letter by letter on a big spelling machine.

What is so wonderful about that?

She is 28 years old after all and her spelling is even worse than that of an 18-year-old stenographer with a progressive school education.

Personally, I see no reason why any adult should let a semi-literate horse poke her nose into his problems. One of the most comforting things about animals through the centuries has been the fact they haven't learned to talk and give advice. Talk is cheap, and perhaps that is why they have wisely and loyally remained silent for so long.

If Lady Wonder had any real horse sense, she wouldn't be answering questions. She'd ask them. And the first one she would spell out would be the one that has plagued all non-human creatures through the ages:

Why do people act the way they do? What's wrong with you all anyway?"

World Today—James Marlow

MacArthur Is Not Saying He Himself Has Solution

WASHINGTON (AP)—Just in case anyone has the impression Gen. MacArthur said he has a plan for ending the Korean War, the fact is, he didn't. At least he didn't in so many words.

"That he said was: 'I am confident there is a clear and definite solution to the Korean conflict.... A present solution involves basic decision which I recognize as improper for public disclosure or discussion.'"

He didn't even say there that he himself has a solution. He said "there is" a solution. That he expressed himself as he did, instead of saying flatly he has a solution or plan, may be only a matter of literary composition.

But MacArthur is credited with real consciousness of the language and the fact that he used the phrases he did, and in the way he did, may have some significance for the future.

Since Gen. Eisenhower listened to Sen. Taft's recommendations for his Cabinet and then rejected them, it would seem he's willing to listen but determined to make up his own mind, no matter who likes it.

Eisenhower and MacArthur have now agreed to meet. The very language MacArthur used should save him from any feeling of loss of face if Eisenhower listens to him, as he did to Taft, and then goes his own way, anyway.

MacArthur talking with Eisenhower about some of his views on a solution—without claiming in so many words that he has the solution—is not quite the same as MacArthur apparently is not thinking of precisely the same remedy he offered in the spring of 1951:

Bombing Chinese bases in Manchuria; blockading the China coast; and using Chiang Kai-shek's Formosan troops on the Asia mainland against China. It was that plan, or rather his outspoken espousal of it, that cost MacArthur his job in 1951 when President Truman relieved him of his command.

How to Torture Your Wife ::::

Around The Rim—The Herald Staff

It's A Mighty Fine Idea To Seek Way To Cut Down Hospital Costs

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

A Tulsa banker told Oklahoma hospital administrators they should do something about protecting the patient's pocketbook as well as his health.

He proposed voluntary ceiling prices that hospitals of certain sizes would charge for specific services.

Sounds like a good deal — for the patient, as well as for the people who're worrying themselves sick over prospects for socialized medicine.

Glen Leslie, Tulsa, wasn't concerned about socialization of the medical business when he spoke to the Oklahoma State Hospital Association recently. He was interested in tax money Oklahomans are to invest in medical attention for the indigent.

Baker Leslie is chairman of the Oklahoma governor's hospital committee, which has to do with recommending ways of paying the doctor bills when penniless people have to go to the hospital.

He told the hospital managers that chief purpose in making tax money (\$1,200,000 per year in Oklahoma) available to pay hospitalization of the indigent would be to reduce the hospital bill of the patient who can afford to pay.

"I've wasted my time if a reduction in the high cost of sickness does not result," he declared.

Actually, Oklahoma hasn't paid out anything on hospitalization yet, but three proposed bills would put the state into that field. Leslie says state money the hos-

pitals will receive "will not pay the whole cost of indigent care but it certainly will ease the burden and enable you to reduce the cost to John Q. Public."

He said imposition of ceiling prices is the hospitals' obligation. He said the association should "discipline its own child" before someone else takes on the job.

Reduced operating costs and greater efficiency were recommended as steps toward lower charges. Lending high service standards, Leslie warned that some may be too high. He said the 40-hour week for hospital employees has resulted in higher costs to patients.

"The public is increasingly conscious of higher costs," he said. "You've got to be realistic about the standards you set."

Of course it's no snap for hospitals in Oklahoma, here, or anywhere to reduce costs and, consequently, charges for their services. A 155-hospital survey shows hospital costs have gone up 107 per cent in the last six years while the expense to patients has advanced only about 62 per cent. That's holding the line in an admirable fashion.

Helping to lower the per patient cost have been the wonder drugs, new techniques and better care, which have sent the patient home sooner.

But it still takes a month's earnings to pay for a couple of days' illness. If a banker thinks something ought to be done, I'll go along.

—WAYLAND YATES

These Days—George Sokolsky

McGranery Re-Establishes Faith In The Department Of Justice

When James P. McGranery was appointed Attorney General of the United States last April, I said in a radio broadcast:

"McGranery... is a likable person and a friend of mine, and although we have been on opposite sides of most questions, I would say that he will try to do a decent job."

I immediately received a large mail attacking my judgment of the man. Yet, the fact is that he has established an enviable record of having restored the reputation of the Department of Justice as the law enforcement arm of the government. It would be too much to say that he has been able, in this short time, to clean out all the corrupt personnel and the incompetent time-servers who settled the incoming berths over a 20-year period.

But for the first time since Harlan Stone was Attorney General (1924), the FBI has been properly used by an Attorney General. For 20 years, at least, this most effective agency of government, limited as to its functions by law, subordinate to the Attorney General, has diligently been gathering data on criminals, spies and subversives only to find that adequately prepared cases got lost in the Department of Justice.

James McGranery has resurrected many of these cases, and either put them on the docket, or if the statute of limitations had already run, he has handed the cases to Congressional committees for investigation. He has co-operated with the Chief Committee of Congress in this manner as he has with the McCarran Committee.

It had been the habit of the Department of Justice heretofore to resist the search by Congressional Committees for data.

In the matter of American employees of the United Nations who are subversives or who engage in espionage, the Department of Justice did an amazingly swift and competent job since James McGranery became Attorney General. He appointed Roy M. Cohn a special assistant to ferret out these cases. Roy Cohn is one of a handful of lawyers who are expert in this field.

The story goes that the Federal Grand Jury ran away in this case and resisted interference by the Department of Justice. It will be found, if the subject is ever investigated, that tremendous pressure was put on the Attorney General to drop the investigation of UN subversives and even to dismiss Cohn. However, Cohn remained on the job; the co-operation between the Department of Justice and the McCarran Committee was a wonderful example of teamwork against subversives. Had a similar effort been made years ago, the spy Arthur Adams would not have escaped.

I once heard James McGranery say

that he would not be Attorney General long enough to try the cases that he left their day in court, but that before he left office, he would put them on the docket for his successor to handle. The case of Owen Lattimore is in point. Anyone who has read the full testimony before the Tydings Committee and the McCarran Committee must have felt that the confusions and contradictions required further investigation. Senator Pat McCarran recommended that the Department of Justice deal with the Lattimore Case before a grand jury.

It would be wrong in the American sense of justice to assume that Lattimore cannot clear himself or that he is guilty of anything, even perjury, before it is so proved. On the other hand, when contradictions give rise to the assumption of perjury, the place to deal with the matter is not in the State Department or the President's office, but before a Federal grand jury. This is now being done.

Usually, when a Cabinet officer passes into retirement, after the opposite party has been elected, no one sheds a tear and the farewell is none too fond. However, McGranery's short tenure in office has been so exceptional that it has attracted attention.

He came in as a makeshift to save President Truman embarrassment when his predecessor, J. Howard McGrath, was forced out under circumstances which still require clarification. He could have sat on his hands waiting for the appointment of his successor. He had no prospects of re-appointment by either Adlai Stevenson or General Eisenhower.

Yet, he has exposed and dismissed crooks, brought cases to the light of day, fought subversives, put the limelight on spies, and created a host of personal and political enemies who will not forget that he smashed their nefarious careers.

He has exposed and dismissed crooks, brought cases to the light of day, fought subversives, put the limelight on spies, and created a host of personal and political enemies who will not forget that he smashed their nefarious careers.

Uncle Ray's Corner

Romans Went Without A Hat

Men of fashion in ancient Rome were in the custom of going without hats. They could have afforded to buy any headgear or other clothing they wanted, but they felt that the head hardly needed a covering in good weather.

A long shawl, made of wool, was worn by many Romans over their togas during cool weather. Often this was fitted with a hood, and the hood was put on the head if rain came down.

Caps, in the shape of short cones, were worn by some elderly men, and by workmen. These caps guarded the head against strong sunshine while a workman was toiling outdoors.

Roman farmers had hats with brims to guard them while they worked in the fields. A wealthy Roman was likely to put on one of these hats if he spent a week or two in the country, or went on a long trip. Sometimes a farmer wore his hat when he went to the city.

Not having buttons to fasten their clothing together, the Romans used pins and cords where necessary. Thanks to long practice, they were able to drape their togas in such a manner that little fastening was required.

Slaves in ancient Rome walked about the streets barefooted, but free Romans almost always covered their feet when they appeared in public. Even a very poor man was likely to own at least one pair of shoes or sandals.

Leather shoes with thick soles were in common use in Rome, but poor men often wore wooden shoes. Some of the leather shoes, worn by men of wealth, were of red color. It was the custom for a Roman to let a slave take off his footgear just before he started to eat dinner.

Both boys and girls in Rome let their hair grow long. The girls kept their hair long all through their lives, but a boy was likely to have his hair cut for the first time at the age of about 15. Roman women "put their hair up," and had many styles of dressing it.

For HISTORY section of your scrapbook.

Tomorrow: Roman Noses. Facts about Mexico's people and their strange customs, also about the ancient Aztecs, appear in the leaflet called MEXICO AND THE MEXICANS. This leaflet will be sent to you without charge if you enclose a stamped, self-addressed envelope. Send your letter to Uncle Ray in care of this newspaper.

LEGAL NOTICE

CONTRACTOR'S NOTICE OF TEXAS HIGHWAY CONSTRUCTION
Sealed proposals for constructing 11.77 miles of Cr. 212, 213 & Surf from US 87 to Borden C.L. (Howard Co.) and from Howard C.L. to US 87 (Borden & Dawson Co.) on Highway No. 212, 213 & Surf, covered by S 1120-3, V 1203-1, & C 1203-2, in Howard, Borden, & Dawson County, will be received at the Highway Department, Austin, until 9:00 A.M., Dec. 17, 1952, and then publicly opened and read.

This is a "Public Works" Project, as defined in House Bill No. 94 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions herein intended to be in conflict with the provisions of said Act.

In accordance with the provisions of said House Bill, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates. Plans and specifications available at the office of Clarence Rea, Resident Engineer, Colorado City, Texas, and Texas Highway Department, Austin. Usual rights reserved.

Livestock Judging Contest Is Set At Stanton Saturday

STANTON, (SC) — An FFA Invitational Livestock judging contest will be held here Saturday, it has been announced by Elbert Steele, vocational agriculture instructor in the Stanton High School.

Schools invited to send teams are Big Spring, Lamesa, Odessa, Midland, Bronte, Coahoma, Garden City, Flower Grove and Stanton. The work of the teams will be judged by L. M. Hargrave of Texas Tech at Lubbock.

Sack lunches will be served at noon by the senior class of the Stanton school. The contest will begin at 9 a.m. Saturday at the Martin County Show Barn with the sheep and swine classes, and one class of steers. The afternoon session will be at the J. C. Sale Ranch where the boys will judge fat steers, Hereford bulls and cows, and will grade steers.

Members of the team representing the Stanton High School FFA team are Bennie Joe Bilsard, Gordon Stone, Bobby Carlisle, Homer Lee Hull and W. A. Douglas.

Lodge Warns Discriminations Endanger Our Foreign Policy

By EDWARD O. ETHELL
DENVER (AP)—Sen. Henry Cabot Lodge Jr. believes America must end discrimination and human indignities at home before it can lead the world to lasting peace.

Lodge, one of the architects of President-elect Dwight D. Eisenhower's still-forming foreign policy, last night asked leaders of 30 Protestant churches to work for "a durable peace based on justice" in this way:

"Work for an America that is strong militarily, economically and politically; support the United Nations; work to make it stronger; advance tolerance and human rights; encourage private American activity abroad and hold out to all of suffering humanity the hope of liberty."

"Our discriminations," Lodge added, "are not only in conflict with Christian ideals, but they are a real danger to the success of our foreign policy."

The United States cannot defeat the idea of communism with dollars or bullets, Lodge said. It must do it by putting into practice the American ideal of equality and justice for all, he said.

Lodge, a Massachusetts Republican, has been designated by Eisenhower as ambassador to the United Nations. He said the U. N. "has not lived up to all that was hoped for it." He added the U. S. can and must work to make the U. N. better, saying:

"Without world order, our ultimate destruction is only a matter of time."

He said world opinion, generated in the debates of the U. N., has been a powerful deterrent to armed aggression by Russia, which he said has "overwhelming military power in Europe and Asia."

Another major foreign policy speech is to be heard by the more than 2,000 church leaders here late today. John Foster Dulles, designated Eisenhower's secretary of state, recorded the speech before leaving for conferences in the Pacific. It will be played at the church meeting and later broadcast (CBS, 10:30 p. m., EST). Meanwhile, these were other

developments at the General Assembly of the National Council of Churches of Christ in the U. S. A.:

1. The 30th denomination, the Greek Orthodox Church with its million members in this country, was admitted to the council. It brings council representation to 34,600,000 persons. Only two of the larger Protestant denominations—the Missouri Synod of the Lutheran Church and the Southern Baptists—do not belong.

2. Methodist Bishop William C. Martin, 59, of Dallas reportedly was favored to succeed Episcopal Bishop Henry Knox Sherrill of New York as council president. The election is tomorrow.

3. The division of Christian Education outlined an experimental project to educate young people in Christian communities. Set at the local level, it would concentrate on ethical conduct, democratic practices, community programs and stronger home life.

4. The Division of Christian Life and Work recommended churches play a more active role in community projects, participate in world affairs and lead in social welfare work.

5. The council's General Board was instructed to make a study to determine if the International Council of Community Churches meets qualifications for membership in the larger National Council. Further action on the group's application was deferred two years.

6. The council moved to carry out recommendations of leaders for greater participation in council affairs by lay members. It voted to increase membership in the General Board, the governing body, by allowing member churches to name more delegates and split their votes.

7. A budget committee recommended giving more attention to soliciting gifts from foundations, business organizations and individuals to pay for council work.

It said \$5,384,000 was received during the first 11 months of 1952.

Needy Youth To Be Given Yule Parties

The Big Spring post of the Veterans of Foreign Wars will give two Christmas parties this year for underprivileged children.

J. B. McKinney, commander of the post, stated that one party would be given for white children and another for Negroes and Latin Americans.

The first party will be held at the VFW post, 901 Goliad, at 8 p. m. Tuesday, December 23. McKinney stated that approximately 150 children would attend.

Gifts will be given to each child attending, and fruits, nuts and candy will be plentiful, he said. The Salvation Army is co-operating with the VFW personnel by furnishing names of needy children.

McKinney stated that invitations will be sent to the needy, and that transportation will be furnished to and from the party.

The party for Latin-Americans and Negroes will be held on the north side on Dec. 24. Complete arrangements have not yet been made for it, but 150 children are expected to attend.

Donations from any group of individuals wishing to help with the party will be accepted, McKinney said.

Whites Pay Tribute To Dead Negro, 111

TALLADEGA, Ala. (AP)—A 111-year-old Negro who began his life in slavery will have eight prominent white men as pallbearers at his funeral today.

Mayor Wallis Elliott leads the eight who are joining in paying tribute to Jack Riddle, who died Saturday.

Year-End Payment Due For Penney Store Employees

Big Spring employees along with those in the 1,620 J. C. Penney Company stores will share in a special year-end payment.

The payment will equal two weeks' pay for all full time associates who have been employed for the full year of 1952, according to C. W. Norman, head of the Big Spring store. Proportionate amounts for extra and part-time associates and those employed less than a year will be provided.

Announcement of the payment to some 50,000 employees across the country was made by A. W. Hughes, president of the company. It is based upon results during 1952.

"We are particularly happy to be

able to make this payment as a result of what has been accomplished in our 50th anniversary year," he said. "The possibility of future payments, of course, will continue to depend upon year-to-year results."

Management staff members, whose earnings are determined largely by the company's long-standing profit-sharing plan, do not share in the payment. Checks will be issued Dec. 15 at each associate's Dec. 15 rate-of-pay. It is in addition to benefits for sickness, dismemberment, death, etc.

Tim Parker Selected

DALLAS, Dec. 11 (AP)—The Texas State editor of the Associated Press, Tim Parker, is the new president of the Press Club of Dallas.

Screening Of Crews From Foreign Vessels Set To Be Undertaken

WASHINGTON (AP)—The political complexion of crew members of some big foreign ships—including British and French—is to be screened by U. S. immigration inspectors before the men are allowed ashore at American ports. Communists are automatically barred.

The Justice Department said yesterday this is one of the steps being taken to comply with the new McCarran-Walter Immigration Act, which goes into effect, Dec. 24.

The British, reportedly concerned about delays which could be caused by questioning the 2,000-member crews of such ships as the Queen Mary and Queen Elizabeth, are expected to lodge a protest with this government.

Educational Program Scheduled Today At Veterans Hospital

Second in a series of monthly educational programs at the VA Hospital was scheduled for 1 p. m. today.

Dr. Arthur Grollman, director of the department of experimental medicine at Southwestern Medical College, was to lecture on present-day status of ACTH and cortisone. Local and area physicians were invited.

The series of programs was planned and initiated last month by Dr. Jackson H. Friedlander, new chief of professional services for the hospital. January program has not been announced.

Jet Instructors Receive Awards

Lt. J. R. Douglas (left) and Lt. C. J. Killelea, T-33 flying instructors of Webb's 3561st Pilot Training Squadron were selected for a quarterly award recognizing them for proficiency in flying training. The selection is based on ability, neatness of records, qualities of leadership and advancement of students. (Air Force Photo).

Local Teacher Co-Inventor Of Device That Foils Car Thieves

Car thieves at this moment may be cursing Eugene Anderson, Big Spring Junior High School science teacher, and his uncle, Marion McCoy, research and development engineer for an automobile accessories firm.

Anderson and McCoy are inventors of a fool-proof, electromagnetically operated brake lock which can foil thieves as thoroughly as it performs its more conventional task of keeping an auto at a standstill when it is supposed to be.

The inventors perfected their patented "Roll Holder" several years ago and it has become an extremely popular accessory with auto owners in the northern and eastern sections of the country.

The device operates in conjunction with the standard hydraulic brake system of any car. It simply maintains braking pressure in the system without necessity of the driver keeping a foot on the brake pedal.

Say you had to stop on the steep grade of Tenth Street, leading down to Main from the Junior High school. You bring your car to a stop in the regular manner, by depressing the brake pedal.

Then you can let the Anderson-McCoy Roll Holder take over. Turn on an electrical switch, with your hand or free foot, whichever you prefer. Take your brake foot off the pedal, the holding device maintains pressure in the hydraulic system and your car sets in its tracks.

Meanwhile, your right foot is free to operate the accelerator. When the way is clear, turn off the electric switch, brakes are released and you're on your way.

Anderson modestly gives his uncle credit for the invention. The solenoid-operated hydraulic pressure maintenance device was conceived by McCoy in 1948.

But there was one hitch. To actuate the brakes, hydraulic fluid had to flow through the solenoid-operated valve, a slow process

which made the brake lock impractical.

So Anderson went to work on the device and developed a by-pass valve that permitted application of braking pressure instantaneously. The two ideas were combined and

Armored Shorts Due For Troops

WASHINGTON, Dec. 11 (UP)—The Army said today it is ordering armored shorts for its troops in Korea. Together with the armored vest the two garments will give protection to the entire torso.

The Army said the armored shorts resemble a prize fighter's trunks and weigh only four pounds. The vest weighs eight pounds.

Specifically designed to protect the hips, abdomen and groin, the garment has been tentatively designated "armor, lower torso."

It is made of 12 layers of flexible, laminated nylon duck encased in a water-resistant plastic layer with an outer covering of nylon fabric.

The vest, made of the same materials, has been demonstrated in Korea to deflect about 65 per cent of all types of missiles and to reduce chest and upper abdominal wounds by about 60 per cent.

The Army said 1,000 of the new armored shorts will be ready for delivery to Korea in February.

Both the Army and Navy have been working on armored garment. Most of the men under fire in forward areas of the Korean battle line now wear the Navy type, originally issued to the Marines. The Army ordered a number of the Navy-Marine vests for immediate use while experiments continued on the type being developed by the Army Quartermaster Corps.

the Anderson-McCoy team put their Hill Holder on the market.

The device attaches to the rear of the automobile master brake cylinder, so that fluid flows from the cylinder through the by-pass mechanism and on into the hydraulic system.

With the roll holder switch on, the solenoid in the instrument keeps a valve closed so that maximum pressure applied to the brake pedal is maintained in the hydraulic system, even after the pedal is released. With the electric switch off, the solenoid opens its valve and fluid returns to the master cylinder, releasing the brakes.

Here's the way it messes up the car-stealing racket. The auto owner installs the roll holder with a hidden switch hooked up so that when ignition is turned on or by-passed the brake attachment goes into action. The first time the car thief applies the brakes, he finds the vehicle all but locked to the pavement. Likely he won't hang around.

The owner simply turns off the roll holder switch and the car is ready to go.

Only two of the instruments are in operation in Big Spring—one on the Junior High driver education automobile and the other on Anderson's machine.

You can't buy them here, either. General Armature & Manufacturing Company says it can't make the brake attachments fast enough to satisfy the northeastern demand. However, when they are marketed here, it'll be through regular auto parts and accessories channels.

McCoy is research and development worker for the Purolator Company, Newark, N. J. Anderson worked for the same concern in 1946. He later became associated with Cabot Carbon Company, returned to his hometown, Big Spring, and started teaching in the Junior High school last fall.

He graduated from McMurry College in 1946 with a major in Chemistry. The inventor resides at 1309 Eleventh Place.

Feed Supplies Short In West Texas Area

AUSTIN, Dec. 11 (AP)—Recent rains and snow have sprouted dusted-in wheat and that already germinated is beginning to grow. Green is showing in natural pastures in East Texas and other areas, the U. S. Department of Agriculture said Wednesday.

Its crop survey for the week ended yesterday noon also found that moisture penetration was so little in some extra dry counties that the wheat wasn't helped much.

"All the northwestern area needs more moisture to establish plants and warmer weather to stimulate growth," the USDA said.

Winter range and pasture feed prospects generally have been helped by the rain but supplemental feeding continues because the new growth has not reached the grazing point, even in East Texas. West Texas continues dry and feed supplies are short.

Harvest of commercial vegetables was active during the week on both fall and winter crops, except tomatoes. There was some movement of tomatoes to nearby markets, but shipping generally has not begun. The winter potato crop in the Valley was in good condition, but later than usual.

AUSTIN, Dec. 10 (AP)—November's drought-dinting rainfall still left Texas' reservoirs averaging only about half full, the State Board of Water Engineers has reported.

Although the rainfall was about 150 per cent of normal, it was slow and soaking without excessive runoff. It added only about 10 per cent to waters in storage.

Red Bluff reservoir was only 6.2 per cent full; Medina Lake, 8 per cent; Lake Dallas, 11 per cent; Lake Kemp, 13 per cent; Bridgeport, 25 per cent; Possum Kingdom, 39 per cent; Buchanan, 61 per cent; Eagle Mountain, 71 per cent; Lake Travis, 92 per cent.

The greatest excess in rainfall was measured in Central Texas while rainfall in the Panhandle and in far West Texas was barely above average.

African Visitor

A savage native approaches Susan Hayward and Gregory Peck in this scene from "The Shows Of Kilimanjaro," one of the standout pictures of the year. It is booked as a roadshow attraction at the Ritz Theatre for three days beginning next Tuesday. Ava Gardner also is starred in the Technicolor production by Darryl F. Zanuck, from an Ernest Hemingway story. It deals with the adventures of a novelist and big game hunter in Africa.

About 39 million people, about a quarter of the population of the United States, live in or near the 12 biggest cities of the country.

Yacht Seen Out Since Ike Likes Golf, Fishing

By DON WHITEHEAD
ABOARD USS HELENA, En Route to Hawaii (AP)—It looks as if President-elect Dwight Eisenhower's passion for golf, fresh-water fishing and frugality in government will leave no place for the ocean-going yacht, the Williamsburg, as a presidential retreat in the next four years.

The chances are, friends say, that Eisenhower will try to find a mountain retreat somewhere near Washington—one with a small golf course—as his hideaway from White House duties.

And they say his plans rule out the Williamsburg not only as being too expensive a luxury but one not suited to his ideas of recreation. The ideal summer White House in Ike's book would be a mountain retreat at about 2,500 feet altitude, not too far from Washington. Good fishing water would be a must and also the golf course.

It would have to be close to the White House because Ike might want to sneak away on Fridays and not return until Sunday night. Some say he has thought that maybe former President Herbert Hoover's old retreat at Rapidan, Va., might fill the bill—or some place similar. He doesn't want anything fancy. President Truman preferred Key West for his vacations and he liked to have the Williamsburg around for week-end cruises from time to time.

The Williamsburg has a crew of more than 100 and like all yachts it costs a lot to run. Nobody knows just how much, because in government bookkeeping it's a training ship for the Navy.

The yacht was sold to the government by Hugh Chishom, head of the Bath Iron Works, and was used in World War II as a convoy flag ship in the North Atlantic. It was converted as a White House yacht in 1946.

THE SPRINGBOARD

News From Webb Air Force Base
 By A-2C FERD J. BORSCHE

KIDDIES' YULE PARTY

Final plans are being whipped up for Webb's first annual Kiddies' Christmas party to be held on the base the morning of Dec. 20, it was revealed by Chaplain (Maj.) Grant E. Mann, custodian for the event.

While last-minute preparations are in progress, the ticket sale sponsoring the event closed today.

At last report the party Christmas list promises to break the 700 mark, Chaplain Mann said. Each of the children invited will receive a present from Santa Claus in addition to candy, nuts, fruit, and balloons.

Old Saint Nick will arrive at the party by jet aircraft.

CHRISTMAS CARDS

An entry submitted by Capt. Bo Hickman and Lt. Dave Curtis of Flying Safety won the base Christmas card design contest which closed Monday.

The \$10 cash award given as first place prize was immediately turned over to the Kiddies' Christmas Party fund by the winners.

The card, drawn up by Lt. Curtis, shows Santa crashing through the 3500th Pilot Training Wing emblem in a T-33 jet trainer.

Judges for the contest were Maj. W. C. Whalin, Lt. Billy Pitts, Lt. Dennis E. McClelland and M-Sgt. Charles W. Cameron.

MUSIC CONTEST

Next Tuesday is final deadline for Webb entrants in the Air Training Command-wide tape recorded music competition. To date, four Webb airmen have applied for recording sessions, all in the male vocal field.

The contest, consisting of eight categories, offers \$875 in prizes.

PROMOTIONS

A total of 80 promotions in non-commissioned officer and airman ranks have been allotted Webb for the month of December. Advancements include one to master sergeant, five to technical sergeant, eight to staff sergeant, 12 to airman first class, and 54 to airman second class.

FORMAL DANCE

Webb will have its first formal officers' dance Saturday since the re-activation of the base. The dance will be held in the Officers Field Ration Mess building from 9 p.m. to 1 a.m.

Officers' wives and dates will have their first opportunity to see the Webb officers in formal attire. The men will wear their regular dress blues, but for evening wear they will sport white shirts and black bow ties.

TESTS

Eight Webb airmen seeking warrant officer ratings took the first in a series of tests at Goodfellow Air Force Base last week.

NCO WIVES

The NCO Wives Club has completed arrangements for its Christmas party December 15 at the NCO Club. The planning committee has asked members to bring a gift costing no more than \$1.50 for the gift exchange.

Bandit Really Must Have Shaken Hard!

BALTIMORE (AP)—The would-be bandit who entered an East Baltimore grocery last night because so nervous and shook so violently that his revolver came apart in his hand and the lone bullet fell to the floor.

Mrs. Fannie Beall, clerk in the grocery, told police the bandit got down on his hands and knees to retrieve his bullet.

At this point, Mrs. Beall charged the man with a butcher knife and he fled—without the money, his bullet and parts of his gun.

AUNT JEMIMA FAMILY FLOUR

JUST A LITTLE PRACTICE

... while no one is around thinks Mrs. A. W. Page as she practices with her movie camera.

Mrs. Page Chronicles Events At Gatherings

When a group of her family and friends go fishing, Mrs. A. W. Page can always be counted on to sit on the bank.

But while she's soaking up the fresh air she is also chronicling the events, as they happen, with a movie camera.

The Pages care little for Hollywood productions but they never miss a chance to see home movies. Mrs. Page, an attractive grandmother, has been married to her railroad conductor husband for 26 years. They have lived in Big Spring 25 years.

Although Mr. Page is away from home much of the time, Mrs. Page always prepares a well-balanced meal for herself at least once a day. "And then I have company often," she said with a twinkle in her eye. Mr. and Mrs. C. E. Gressett and children, Mike and Cindy, live directly behind the Pages. Mrs. Gressett is the Pages' only child.

The Pages and Gressetts will all have Christmas dinner at the Page home. And soon Mrs. Page, a Brownwood native, will begin her preparations. One of the favorite foods she likes to have on hand, particularly at this time of the year when friends drop in, is Orange Chiffon Cake.

ORANGE CHIFFON CAKE

Ingredients:
2 1/2 cups cake flour (sifted lightly do not pack)
1 1/2 cups sugar
3 teaspoons baking powder
1 teaspoon salt
1/4 cup salad oil
5 unbeaten egg yolks
Juice of two medium-size oranges
Grated rind of two oranges (about

2 tablespoons)
1 cup egg whites (seven or eight)
1/4 teaspoon cream of tartar

Method:
Measure and sift into bowl the cake flour, sugar, baking powder, and salt. Make a well and add in order, salad oil, egg yolks, orange juice, grated orange rind. Beat with a spoon until smooth. Whip egg whites and cream of tartar until whites form very stiff peaks. They should be much stiffer than they should be for angel food cake or meringue. Do not under beat. Pour egg yolk mixture gradually over whipped egg whites, gently folding with rubber scraper until just blended. Do not stir. Pour into ungreased pan, either a 10-inch tube pan or a 9x13x2 oblong pan. If using a tube pan bake in a 325-degree oven 65-70 minutes. If using an oblong pan bake in a 350-degree oven 45 to 50 minutes. When cake is done remove immediately from oven and let cool. Remove from pan and ice with orange cream icing.

ORANGE CREAM ICING
Ingredients:
1/2 cup shortening (part butter adds flavor)
4 tablespoons cake flour
1/4 teaspoon salt
1/4 cup orange juice
3 cups sifted confectioner's sugar
Method:
Melt shortening in a sauce pan. Remove from fire and blend in cake flour and salt. Add orange juice. Bring to boil, stirring constantly. Boil one minute. If mixture curdles do not be alarmed. Stir in confectioner's sugar. Set sauce pan in bowl of cold water. Beat until of consistency to spread. Stir in one tablespoon grated orange rind. Spread on cake.

Here Is Fruit Cake Magic Ready For Baking In Minutes

Around the first part of December, thoughts turn to the making of the traditional holiday fruit cake. But many times, despite early resolutions to get holiday baking done well in advance, the day arrives when you realize that time has run out.

But here's the real help—a recipe for a delicious fruit cake that takes—no hours—but fifteen minutes to prepare. It will not only prove a holiday time saver, but will also make this delicacy your year-round favorite. You'll enjoy making it anytime the urge for fruit cake presents itself.

This cake is made with condensed milk, mince meat and candied fruits and nuts. Its keeping qualities have been tested by home economists in New York, where this cake was developed.

Fruit cakes have been high on gift lists for ages, and this one has been tested for its gift possibilities also. It was ready for mailing, sent across the country 3,000 miles and then returned to New York for a 6,000-mile round-trip. Inspected and tasted after its return, it was found to be an excellent traveler. Its flavor was unimpaired through the long journey and its contour remained intact.

Canape Spread

Let your own taste for decorating the top of the cake or flavoring it with additional flavorings after

Almond Spread

1/4 cup chopped roasted, blanched almonds
1 3-ounce package cream cheese
1/4 teaspoon curry powder
Dash of black pepper
1/4 teaspoon grated onion
1/4 cup chopped ripe olives
Crackers
Combine cream cheese and milk to give spreading consistency. Add remaining ingredients and blend. Spread on crackers. Yield: Approximately 1/2 cup spread.

Seafood Spread

1 (7 1/2-ounce) can salmon
1/4 cup mayonnaise
Salt and pepper
1 teaspoon lemon juice
1 teaspoon grated onion
Combine all ingredients, mixing well. Spread on crackers. Garnish with sprigs of parsley.

baking, guide you in baking the holiday fruit cake.

MAGIC FRUIT SURPRISE CAKE

(Makes a 9 x 4 x 3-inch loaf cake)

1 9-oz. package mince meat
1/2 cup water
1 cup walnut meats, coarsely chopped

2 3-oz. cans (3-4 cup) mixed candied fruit, coarsely chopped
1-3 cups (15-oz. can) sweetened condensed milk
1 egg, beaten
1/4 cup flour
1/4 teaspoon baking soda

Break mince meat into small pieces; place in 2-quart saucepan. Add water. Place over medium heat and stir until lumps are thoroughly broken. Boil briskly one minute, stirring constantly. Remove from heat and cool. Add nuts, candied fruit, sweetened condensed milk and egg; blend well. Stir in flour and baking soda, until just blended. Pour mixture into 9 x 4 x 3-inch loaf pan which has been greased, waxed paper lined and greased again. Bake in a moderate oven (350 degrees) 1 hour and 30 minutes or until center springs back when lightly touched with finger and top is golden brown.

Note: If a glass type baking dish is used, reduce oven heat to (325 degrees F.).

CRANBERRY MACAROONS

1 package prepared pie crust mix
1 cup water
1 1/2 cups fresh cranberries
1/4 cup sugar
1 tablespoon cornstarch
6 tablespoons cream cheese, softened
6 tablespoons prepared macaroon mix

Prepare tart shells according to package directions. Bake in hot oven 425 degrees about 10 minutes or until lightly browned. Cool. Bring water to a boil. Add cranberries and cook 5 minutes. Combine sugar and cornstarch in saucepan; mix thoroughly. Gradually add cranberries to sugar mixture, stirring constantly. Cook until mixture is thickened and smooth. Remove from heat. Cover with wax paper; set aside to cool. Blend cheese and macaroon mix. Fill bottom of shells with cheese mixture. Top with cranberries. Chill thoroughly before serving. Makes about 8 tarts.

HEARTY CRANBERRY MUFFINS

2 cups bran cereal
2-3 cups dark molasses
1/4 cup milk
1 egg, beaten
1 cup flour
1/4 teaspoon salt
1/4 teaspoon cinnamon
1 teaspoon baking powder
1 cup chopped cranberries
Combine bran, molasses and milk; let stand 20 minutes. Stir in beaten egg. Sift dry ingredients together and sift into bran mixture. Fold in chopped cranberries. Fill greased muffin tins about 2-3 full and bake in moderately hot oven (400 degrees F.) 20 minutes, or until done. Makes 9 to 12 muffins, depending on size tin used.

Traditional cranberry sauce in a simple manner can be made in as little as 10 minutes. Many cooks may prefer to serve cranberries

Use Cranberries In Pastries And Relish

Steamed puddings were well known in grandmother's day for their fruity, rich flavor. She found them as easy to make as most cakes and as popular with her family.

With cranberries plentiful in the market this month the cook for a dessert-loving family could surprise them with a steamed cranberry pudding. If any is left over, steam again the following day, for steamed puddings should always be served hot.

The topping for the pudding might vary when served the second time, for both whipped cream, foamy lemon sauce or hard sauce are equally good toppings. Simple hard sauce is made by creaming 1/4 cup butter or margarine, gradually adding 1 1/4 cups confectioner's sugar and beating well. Add 1 teaspoon of flavoring extract.

For this pudding use standard cake methods. Pour the batter into desired molds, fluted ones making especially attractive puddings.

STEAMED CRANBERRY PUDDING

2 cups sifted enriched flour
2 teaspoons soda
1/2 teaspoon salt
1/4 cup shortening
1/4 cup sugar
1/4 cup molasses
2 eggs
1/4 cup water
1 cup whole cranberry sauce
1/2 cup chopped walnuts.

Sift together flour, soda and salt. Cream together shortening and sugar until light and fluffy. Add molasses and eggs and beat thoroughly. Combine water and cranberry sauce. Stir in nuts.

Four into greased 1 1/2 quart mold or 8 individual molds. Cover, or if molds have no covers, the double layer of waxed paper securely over top. Set on rack in large pan. Pour 2 qts. of water into pan. Cover. Bring water to boil and let boil until steam escapes, then reduce heat to low. Steaming should be steady but gentle.

Steam 1 hour and 15 minutes for large mold or 45 minutes for individual molds. Unmold. Serve warm, with whipped cream, lemon sauce or hard sauce. Makes 1 large pudding or 8 individual puddings.

Apple is a typical winter fruit, blended deliciously with cranberries in pie. Tapioca can be used to the right consistency without loss of the natural bright fruit color.

CRANBERRY-APPLE PIE

1 1/2 cups cranberries, ground
2 1/2 cups chopped pared apples
2 tablespoons quick-cooking tapioca
1 1/2 cups sugar
1/4 teaspoon salt
2 tablespoons butter

Combine fruit, tapioca, sugar and salt; let stand 15 minutes, or while pastry is being made. Line a 9-inch pie pan with half of the pastry rolled 1/4-inch thick. Roll top crust 1-8-inch thick, fold in half, and cut several 2-inch slits near the fold. Fill pie shell with fruit mixture and dot with butter. Moisten edge of bottom crust with cold water. Adjust top crust on pie, opening slits with a knife to permit escape of steam.

Trim off excess pastry, allowing it to extend 1/4 inch over rim. Fold excess under the bottom crust and flute rim with fingers. Bake in hot oven (425 degrees F.) 50 to 55 minutes, or until syrup boils with heavy bubbles that do not burst.

Macaroon tarts are another way fresh cranberries can be used with pastry. Made with prepared pie crust they will be made simple to bake.

CRANBERRY MACAROONS

1 package prepared pie crust mix
1 cup water
1 1/2 cups fresh cranberries
1/4 cup sugar
1 tablespoon cornstarch
6 tablespoons cream cheese, softened
6 tablespoons prepared macaroon mix

Prepare tart shells according to package directions. Bake in hot oven 425 degrees about 10 minutes or until lightly browned. Cool. Bring water to a boil. Add cranberries and cook 5 minutes. Combine sugar and cornstarch in saucepan; mix thoroughly. Gradually add cranberries to sugar mixture, stirring constantly. Cook until mixture is thickened and smooth. Remove from heat. Cover with wax paper; set aside to cool. Blend cheese and macaroon mix. Fill bottom of shells with cheese mixture. Top with cranberries. Chill thoroughly before serving. Makes about 8 tarts.

If the menu doesn't call for cranberries in some other form, hearty cranberry muffins would make a good hot bread for any winter meal.

HEARTY CRANBERRY MUFFINS

2 cups bran cereal
2-3 cups dark molasses
1/4 cup milk
1 egg, beaten
1 cup flour
1/4 teaspoon salt
1/4 teaspoon cinnamon
1 teaspoon baking powder
1 cup chopped cranberries

Combine bran, molasses and milk; let stand 20 minutes. Stir in beaten egg. Sift dry ingredients together and sift into bran mixture. Fold in chopped cranberries. Fill greased muffin tins about 2-3 full and bake in moderately hot oven (400 degrees F.) 20 minutes, or until done. Makes 9 to 12 muffins, depending on size tin used.

Traditional cranberry sauce in a simple manner can be made in as little as 10 minutes. Many cooks may prefer to serve cranberries

HEARTY HOT BREAD ... Cranberry Muffins With A Winter Dinner

this old-fashioned way, either for Christmas or a Sunday dinner.

OLD-FASHIONED CRANBERRY SAUCE

2 cups sugar
1 cup water
1/2 cup cider or apple juice
Few whole cloves
4 cups fresh cranberries
Combine sugar, water, juice and

cloves in saucepan. Cook rapidly for 5 minutes. Add cranberries and continue cooking until berries pop, about 5 minutes. Remove from heat and cool in saucepan. Serve chilled.

An easy variation of this sauce is made by stirring in one cup of orange segments just before serving.

Cranberry relish is as necessary to some families to make a turkey dinner complete as the old-fashioned cranberry sauce is to others. Raisins and a lemon, rind and all, form an interesting flavor combination with the cranberries.

CALIFORNIA CRANBERRY RELISH

1 lb. cranberries
1 cup seedless raisins
1 lemon
1 cup granulated sugar
1/4 teaspoon salt
Rinse cranberries, raisins and lemon. Cut lemon into lengthwise wedges and remove seeds. Put fruits through food chopper, using medium knife. Blend in sugar and salt. Allow to stand an hour or longer before serving. Makes about 1 qt.

Several variations of cranberry relish have been found appetizing. Try relish with other fruits or horseradish.

CRANBERRY HORSE RADISH RELISH

2 cups fresh cranberries
1 large apple, pared

1/4 teaspoon salt
2 to 4 tablespoons prepared horseradish
Coarsely chop cranberries and apple. Sprinkle with salt. Add 2 1/2 tablespoons horseradish, depending on taste. Chill several hours before serving. Makes about 1 1/4 cups.

SUPER CRANBERRY RELISH

2 cups chopped fresh cranberries
1-3 cups well-drained pineapple tidbits
1/4 cup sugar
1 cup moist shredded coconut
1 cup shredded toasted almonds
Place ingredients in a bowl. Mix lightly with a fork. Chill thoroughly. Makes about 4 cups.

MARSHMALLOW RELISH

1 lb. cranberries
1 orange
1 doz. marshmallows
Chop cranberries and orange, including rind. Combine with chopped marshmallows. Place in mold and let set over night.
Cranberries combined with other fruit juices make a punch both colorful and refreshing. For entertaining through Christmas this cranberry cooler should make a hit with guests.

CRANBERRY COOLER

1/2 cup white syrup
1/4 teaspoon salt
2 eggs, well beaten
1 cup orange juice
2 tablespoons lemon juice
2 cups cranberry juice
Add white syrup and salt to eggs; mix thoroughly. Add orange, lemon and cranberry juices. Place in

quart jar. Cover and shake to mix thoroughly. Chill. Pour into tall glasses half filled with cracked ice. Makes about 3 cups.

Cream Pie Filling

(8-inch pie)

1 cup sugar
3/4 tablespoons cornstarch or 5 tablespoons flour
1/4 teaspoon salt
2 1/2 cups milk
3 eggs, separated
1 teaspoon vanilla
Graham Cracker pie crust
Thoroughly mix 2-3 cup of the sugar, cornstarch or flour, and salt in top of a double boiler. Stir in cold milk. Cook over boiling water until thickened, stirring constantly. Cover and cook 15 minutes longer without stirring. Stir a little of the hot mixture into the slightly beaten egg yolks; add gradually to remaining mixture in double boiler and cook 2 minutes over hot, not boiling water, stirring constantly. Cool thoroughly, stirring occasionally; add vanilla. Pour into baked graham cracker pie crust. Beat egg whites until stiff but not dry; gradually beat in remaining 1-3 cup sugar. Pile lightly on top of thoroughly cooled crust (baked pie shell). Bake in a hot oven (425 degrees) 5 minutes or until lightly browned. Let pie stand until firm before cutting.

Coconut Cream Pie Variation

Sprinkle 1-3 cup shredded coconut on top of meringue before baking.

GRIN AND BEAR IT

BURPLEY BILGE AND HIS KEEN ANALYSIS OF POLITICAL EVENTS

"I hear he's got quite a background for the job... 3 years a fortune teller... 5 years a public opinion poll taker and 7 years a weather forecaster..."

Riding THE GRUB LINE

With Franklin Reynolds

All stockmen who placed orders for drought disaster hay after November 7, and put up deposits on the orders, are now asked to call at the Howard County PMA office in order that their deposits may be refunded, since the national fund has been exhausted and no more of the hay is available.

Whether or not the President will order more funds set aside for a continuance of the program has not been announced, but those who have been in charge of the buying and distribution of the hay in the drought-stricken areas are not too optimistic about it.

The County Mobilization Committee will meet tomorrow (Friday) to review farmer and rancher applications for 1953 practices under the Agricultural Conservation Act.

Hereford auction averages in West Texas recently have not been so far out of line when compared with sales elsewhere.

Buyers from 18 states invested an average of \$1,104 in 64 head of registered Whitefaces at the breed sale during the International at Chicago. The 22 bulls there averaged \$1,232 and the 42 females averaged \$1,037.

In one of the year's largest West Coast sales, that of the Crowe Hereford Ranch at Millville, California, last week, 43 bulls averaged \$1,252 and the 28 females averaged \$772.

There is reason to believe, or at least hope, that the Hereford show after Christmas may show ever better averages, quality of cattle considered. The first two of these will be the Howard County South Plains Association sale here, Jan. 8, and the San Angelo sale two days later. Grass may get better during the Christmas season.

As Frank Reeves has pointed out several times recently it has been indicated rather conclusively that fair to good cattle have declined much more than top quality cattle; that there is a preference for cattle of servicable age, and that commercial breeders have sold down their cow stuff and don't need as many bulls. Demand for good cows should rise with the grass once the area gets some moisture.

Painter Wylie of Colorado City, one of the Soil Conservation Service's most active and efficient workers, points out that there are many things to be considered when the construction of a stock tank is being planned.

One of the most essential considerations, he says, is the selection of a site, which in a large measure depends on a knowledge of the geology of the spot, particularly information on the underlying rock. Care should be exercised in selecting the site, he warns, because the construction should be made as simple as possible and at the same time the tank should be located where the underlying soil and rock will hold water.

Another important point to keep

in mind, according to Wylie, is the matter of siltation. In this connection he suggests a watershed covered with grass.

The stockman planning the tank, Wylie explains, is going to be faced with many technical problems. Some tanks never fill up, he points out, because they have been constructed where there isn't enough watershed to fill them. Other tanks fail because the spillway and dam aren't properly designed for the amount of the runoff.

Accurate information about the watershed is most important. The stockman should know how much he can expect from the proposed watershed, and this will depend on its size, the slope of the land, the amount and kind of cover, and how fast and to what extent the soil of the watershed will absorb water.

"The stockman," says Wylie, "must have accurate plans for the construction of both dam and spillway. The dam may need a core trench, depending on the type of soil used. If the builder has any cultivated land in the watershed, he will probably need a desilting basin. In many instances he will need to plan for a water pipe to get the most satisfactory and economical use of the water for livestock or irrigation. If the site will justify the use of pipe.

Then Wylie brings up the subject of fish and fishing. "If the owner plans to raise fish in the tank, he needs to know the best kinds and how many to stock it with," says the conservationist. "He also needs to know how he can fertilize the tank for greater fish production. These are just some of the things a man should think about when he starts planning a tank."

Trulock Bros., who farm four miles northeast of Colorado City, have planted about three acres of

alfalfa. This was broadcast with a cyclone seeder at 20 pounds to the acre. They plan to use it for hay and grazing.

This is the second time they have planted alfalfa on their farm having made a small planting about four years ago.

Albert Young, who lives in the Westbrook area of Mitchell County, has also put five acres of cropland in alfalfa at the same rate and broadcast. He has planned his planting, he says, for cover, soil building, hay and grazing.

J. C. Pritchett, Colorado City banker, who farms about three miles northeast of town, has sown about three acres of sandy cropland in alfalfa this fall. He too used 20 pounds to the acre and plans to use it for hay and grazing. Pritchett has another five acres of small grain for cover and grazing.

Safety Meeting Set

AUSTIN, Dec. 11 (AP)—The governor's traffic safety committee will meet here Dec. 12 to hear recommendations of its subcommittees for improvements in the state's highway safety problems.

UT Acting President To Head Austin Bank

AUSTIN, Dec. 11 (AP)—Dr. James C. Dolley, University of Texas acting president, will become president of the Austin National Bank Feb. 1.

His election to the bank post was announced yesterday along with the resignation of present President T. H. Davis who is quitting Feb. 1 to devote his time to private business affairs.

Dr. Dolley had announced his resignation from the university staff several months ago, effective with the arrival of the university's new president, Dr. Logan Wilson.

Expansion Is Vetoed

DALLAS, Dec. 11 (AP)—The Dallas City Council voted yesterday against a plan to expand city-owned Radio Station WRR by building a television station. WRR profits pay the cost of operating the Dallas police radio.

Tax Write-Offs OK

DALLAS, Dec. 11 (AP)—Seven Texas defense facilities have received approval from the National Production Authority for rapid tax write-offs on \$11,944,014 in construction.

42 Languages To Tell Story Of Coronation

LONDON (AP)—The coronation of Queen Elizabeth II next June will be described to the world in 42 languages by 250 radio and television commentators and observers, the British Broadcasting Corporation announced today. Britain's coronation committee said Monday that all but the key religious parts of the coronation—the anointing, the communion prayers and the administration of the sacrament—would be televised from historic Westminster Abbey. The Queen's colorful procession to and from the ceremony also will be shown on TV.

Hunch Works To Aid Study About Disease

By ALTON L. BLAKESLEE
Associated Press Science Reporter

ST. LOUIS, Dec. 10 (AP)—A medical hunch, put to a test on human volunteers, cracked a mystery about a serious bleeding disease. And that in turn led to discovery of new kinds of blood types—a hitherto unsuspected secret of nature.

The new blood types are types of platelets, the blood cells that prevent bleeding. Their discovery gives hope for more effective blood transfusions—and help for people sick from rays from X-rays used to treat cancer or A-bombs.

This medical detective story begins with a hunch of Dr. William J. Harrington of Washington University Medical School.

He was studying a bleeding disease, thrombocytopenic purpura, in which people lack platelets, the cells that help form blood clots. People with this illness bleed into the skin and internal organs. They become weak and anemic. If the bleeding occurs in the brain, they get strokes or die.

Some causes of purpura are known. But many were unexplained. Dr. Harrington, a hematologist, reasoned that perhaps people with unexplained cases had something in their blood which was destroying platelets as fast or faster than they could be made in the body.

The test was to inject some blood from patients with unexplained thrombocytopenic purpura into healthy persons. The young physician was his own first volunteer, followed later by other men and women in the medical school.

His hunch was right. Within a few hours, healthy persons got the bleeding disease. Some "X" stuff in sick people's blood began destroying the platelets in healthy blood.

What was the "X"? It turned out to be antibody against platelets.

The researchers learned there are types of platelets, just as there are types of red cells which determine your blood type.

If people had had many blood transfusions and got the platelets of a different type than their own they could make antibodies against platelets. There is, however, apparently no danger from different types of platelets in routine blood transfusions.

Transfusions of blood of the right platelet type helps some victims of purpura. The standard treatment for purpura now is to remove the spleen, which filters out damaged platelets. The damaged platelets are still good enough to prevent bleeding. The spleen is removed to keep it from taking out too many platelets.

The bleeding disease can also come from radiation, or sometimes from drugs which damage bone marrow, the factories of blood cells.

Prices Down On Vegetables In Weekly Survey

By The Associated Press

Eggs, butter and frying chickens were a little lower priced in most retail food stores this week. So were oranges, tangerines and a long list of fresh vegetables.

Only a handful of foods were higher. Snap beans and carrots were up slightly in many places as supplies tightened, reflecting adverse growing weather several weeks ago. Emperor grapes, pears and lemons edged higher.

Fryers were down 2 to 4 cents a pound in widespread areas, being a popular item for special pricing to attract customers. Also in this category in many independent markets and chain stores were beef ribs and round roasts, lamb shoulder roasts, pork loin chops and roasts, several cuts of veal including legs, chops and shoulder roasts, beef liver, smoked picnic hams and several varieties of fresh and frozen fish.

Eggs dropped 2 to as much as 8 cents a dozen and in many places were selling at the lowest levels since last June.

Butter was off about 2 cents a pound, with output up sharply and a heavier-than-normal storage supply available.

Tangerine prices were trimmed sharply as shipments from Florida reached the big volume stage. Good supplies of navel and other types of oranges for the holidays also were assured, and grapefruit was a produce special in many places.

Good buys in vegetables in most cities included beets, broccoli, brussels sprouts, cabbage, several kinds of greens, escarole and endive. All were a little lower this week, as were artichokes, cauliflower, celery, cucumbers, onions, peppers and squash. Lettuce and tomatoes were offered in a wide range of quality, condition and price.

Wholesale food prices, as measured by the Dun & Bradstreet food index, scored their sharpest drop since early September and were at the lowest average level since two days after the beginning of the war in Korea. At \$6.15 the index compared with \$6.22 last week and \$6.09 a year ago. The wholesale costs of a pound each of 21 general use foods are totaled to establish the index.

Japan Economy Review Seen By Dodge Being In Ike Party

(Editor's Note: This is the last of a series of interpretive articles by an Associated Press editor who has joined the AP Texas staff after more than three years in Korea and Japan.)

By O. M. P. KING
Associated Press Staff

The presence of Joseph Dodge, Detroit banker, among the few civilians on the U. S. Cruiser Helena with President-elect Eisenhower and State Secretary-designate John Foster Dulles, is evidence serious attention is being given to America's role of "Uncle Sugar."

Dodge, it will be recalled, has been acting as Eisenhower's representative in President Truman's Budget Bureau and probably will head it under the new administration.

But in the last few years Dodge a financial genius, when called in by General MacArthur to administer Japan's ailing economy. He drafted the "Dodge Plan" which was to have taken Japanese industry off "occupation illness" and put it on its own feet.

Some Japanese quarters later balked at the austerity features of the program and partially undermined it.

They refused to recognize that science has all but eliminated the pre-war demand for Japanese silk by producing synthetics. Silk had been Japan's mainstay.

Eisenhower certainly has been told that Japan still is far from being economically self-sufficient, that her normal markets are closed to her. America objects to her dealing with Red China and British in competition in some fields in Southeast Asia, and resents vying with Japan's cheaper but high quality chinaware.

Revived Japanese fishing brings protest from West Coast States. Japanese industry is being nursed back to heavy production with U. S. help at a prohibitive cost—the wheels spin with thermal power from American coal costing \$20 to \$24 a ton whereas coal from Red China would cost from \$6 to \$8 a ton.

American taxpayers make up the difference—that's where "Uncle Sugar"—as Uncle Sam is called by the beneficiaries—comes in.

How long can this keep up—this and similar contributions to other countries coveted by Soviet Russia?

The new administration ambitiously hopes to stop deficit spending and eventually achieve a balanced budget, it has proclaimed in campaign speeches. Eisenhower has indicated in his

talks that private capital can lend a hand abroad. In a speech in Dallas on United Nations Day late in October Dulles said more good will is engendered for the U. S. in Asia and Europe by activities of private U. S. citizens, such as missionaries, merchants, doctors, etc., than by government grants.

He said friendship could not be bought—in fact, the recipients actually grow to dislike the giver as time passes—due to loss of "face."

Under the Republicans, private enterprise probably will be given more chance, with some encouragement from government.

This is not playing in the hands of Communists. First, it would spike effectively

their arguments that the American "imperialists" want to buy allies.

Second, it would conserve American resources and avoid what the Reds smugly have predicted and been waiting for—economic collapse of the capitalistic system.

This would occur through repudiation of government bonds or devaluation of currency, as occurred in Germany after World War I and in China after World War II.

Dodge is a sound-dollar man. Dulles seems eager to junk the "containment" policy for an aggressive propaganda drive that will win rather than buy converts.

From his selection of these men as his advisers, it seems certain Ike is lending both a sympathetic ear.

Akihito To Take His First Plane, Ship Trips To Coronation

TOKYO (AP)—Crown Prince Akihito will travel by ship and plane for the first time when he goes to the coronation of Queen Elizabeth II in London next spring. Court officials plan for the 18-year-old prince to go to Hawaii and San Francisco aboard the 23,000-ton transpacific liner President Wilson.

From San Francisco he will fly to Vancouver, B. C., where he will remain a day or so. He will go via train across Canada to Winnipeg and Toronto, Detroit and New York.

On April 22 he will board the Queen Elizabeth, and arrive in Southampton April 27.

British Officers Are Claim Picked For Their Accents

LONDON (AP)—A Laborite member of Parliament says that British Army officers are selected for their accents and not for their competence.

The charge was made in the House of Commons yesterday by George Wigg, a onetime regular Army private who rose to the rank of colonel. He quoted an Army statement to the effect that 80 per cent of draftees granted commissions live south of a line drawn across the country through the Midlands industrial center of Birmingham.

British accents vary according to geographical locations. Wigg, himself, is from Dudley—a mile

or two north of the Birmingham line. War Minister Antony Head agreed that most of the commissions were granted men from south of the Birmingham line. This is "a fact that has been known for years," he declared but gave no explanation.

There were about 21 million grade school pupils in the United States in 1951.
