## 91 Receive Diplomas At Dunbar

Diplomas were conferred to ninety-one students of the Paul L. Dunbar High School on last Thursday evening the 27th of May, in the high school auditorium. The theme for this year's exercises was "Let us continue."

With this particular theme in mind, several students of the graduating class spoke their opinion toward the matter. For the topic, John Wayne Robertson gave the introduction while Chester Griffin spoke on "Seek" and Martha Edwards chose "Select". Lola Castilow discussed "Serve" and Robertson concluded the discussion.

The 1965 graduating class was presented to Mr. Nat Williams, superintendent, by Dr. E. C. Struggs, principal. The presentation of diplomas was made by Mr. Owen Gilbreath, a member of the board of trustees.

The honor students for this class are as follows; Lola Castilow, highest honor student, Chester Griffin, second highest honor student, and John Wayne Robertson, third highest honor student.

Special selections were presented by the Dunbar A Choir, under the direction of Mr. Joseph Addison.

# QUALITY EDUCATION A NEED

Few topics are so widely discussed as education, in all its many ramifications. Just about everyone agrees that, in this age of amazing and almost unbelievable advances in technology and the sciences, it is more vital to the national future...to say nothing of the futures of individuals...than it ever was before. At the same time, there is endless controversy over the quality of education, particularly as it involves economics and the roles of law and government in our national life.

That fact gives particular interest to a survey among American high school juniors and college juniors conducted by Northwestern University, Purdue University, The University of Wisconsin, and U. S. News and World Report. Its purpose was to determine political trends among young Americans. The results were reported in a recent issue of Action Magazine, which is a publication of the U.S. Junior Chamber of Commerce.

To put it mildly, the opinions expressed were startling and unsettling. They leave a big question mark as to the character of our educational methods.

Among students surveyed:

71 per cent deny an accused person the right to confront his accuser.

40 per cent believed certain groups should be denied the right to peaceful assembly.

41 per cent believe freedom of the press should be cancelled.

34 per cent favor denying free speech to certain persons.

26 per cent would allow search and seizure without consent.

56 per cent voted for close government regulations on all business.

53 per cent believe in government ownership of banks, railroads, and steel companies.

62 per cent said government has responsibility to provide jobs.

62 per cent thought a worker should not produce all he can.

61 per cent rejected the profit incentive as necessary to the survival of free enterprise.

84 per cent denied that patriotism is vital and plays an important role in our lives.

These concepts, obviously, would, if adopted, totally revolutionize the American economic and political systems. Some...such as the search and seizure and the right of the accused to face the accuser opinions...would demand outright repeal of fundamental protections laid down in the bill of rights. A great many people undoubtedly agree with a view expressed by Robert R. Carey, president of Associated Oregon Industries, when he said; "A number of writers, analyzing these figures, believe they provide additional proof that the doomsayers are not far wrong in their predictions of a welfare state in this country. But more importantly the results also reveal the quality of courses in history, economics and American government offered in most high schools and colleges these days. Then, too, the results offer an eloquent rebuttal to the thesis that the minimum age for voting should be lowered. If a majority of those under 21 do not know what American government is all about, as the results of this survey would indicate, it is doubtful that they could intelligently exercise a right to vote. More than anything these shocking figures tell us of the massive job to be done in the education of our youngsters...not only in the schools, but also through the business community."

Quinton Howard told police he had left a check for \$23.49 he had received from Smithers-Sweet Construction Company, under a locker in his closet. He went

to the laundry after putting his check away and upon returning he discovered the check missing. Also gone was a \$10.00 bill that was under a shoe box on the dresser. He told police that the room was locked, and the only person with a key to the room was Orel Moore, who Quinton rents the room from.

Mr. Moore stated that no one had been in the room.

**AGGRAVATED ASSAULT**

A Lubbock mother told police that her boy had been hit by another lad with a piece of pipe. After talking to her, the report was that her son was walking his girl friend home. They were crossing the Booker T. Washington Park when two other boys came up to them and started giving the girl a hard time. Her son told them to leave her alone and a fight started between him and one of the two boys. One of the boys found

a piece of iron pipe and hit her son under the eye with it. Her son finally took the pipe away from him and the boy ran, but was hit by the pipe as he ran away. Her son received several stitches. Both boys were fifteen years old.

# Sports In Brief

By JAMES ROY LEWIS

Pictured above is Elmore Hollis of 4114 St. Emanuel Street, Houston, Texas, caught behind the station wagon of James Roy Lewis, just before entering the fabulous Astrodome, the

world's greatest and most complete arena, to witness the seventh and final baseball game between the Astros and San Francisco Giants. James Roy Lewis was the house guest of Mr.

Hollis while in the space city. They have been friends since 1937 while both lived in Galveston. Mr. Hollis operates a dining room for Mr. Claude Pallus in Houston.

I had a chance to see the Dodgers in three games and the Giants of San Francisco in four games down in Houston last month.

It's really hard for any person to pick a pennant winner in the National League because you can't tell about injuries, pitching and key players, all three play a big part and must hold up through the entire season.

All the teams have had winning streaks, only Pittsburg came when they were almost in the cellar.

The Houston Astros have been getting good pitching and a hit here and there at the right time; say in the last of the 8th inning through

the 14th in extra inning games could have been the difference between five or six wins instead of losses. If that had been the case they could have been up around second place now.

There's no doubt about it the Dodgers are going to be tough all the way with the good pitching plus speed and defense they possess, although they could use more hitting power.

Other teams who will be tough are Cincinnati, Milwaukee, St. Louis, and the Phillies. The Dodgers and Giants are holding the number one and two spots now.

Our own Houston Astros with the speed of Jim Wynn, Joe Morgan, Joe Gaines and the ad-

dition of Lee Maye can and should make trouble for opposing catchers. The hit and run can be-

come a good weapon for the Astro's also, when it comes to getting that extra base hit. With baserunners running, hitters hitting, infielders moving out of their positions and catchers trying to throw in a hurry, things are bound to happen in your favor in the long run.

The Astros are good defensively and in pitching. They could use more power at the bat, but there's no way to get it without giving up your number one weapon, pitching.

Watch this column for more pictures and stories about the world's first air-conditioned domed stadium where baseball is played indoors.

fore and he made several remarks about the record player. This man

has been in trouble before for stealing. The value of the record player was set at \$170.

**AUTO CLINIC LOOTED**  
Mr. John Walker, owner of Walker's Auto Clinic, 1016 East 34th Street, told police that someone had broken in-

to the clinic while it was closed. The floor was pried from the hasp on the south rear and the shop was entered. Once inside they removed an ARA record player from an Imperial sitting inside the shop. Also taken was a battery and four radiators. Sitting on a table in the shop was a new twelve volt battery. Mr. Walker believes the thieves had been in the shop the night before.
