CITY ELECTION, First Tuesday is April-

CLYDE E. THOMAS. For City Marshal:

J. H. HEFLEY. This Silver Platter Bears Success

It is time for our civic philosophy to pursue a line of retrenchment, getling back to the truism that a State's or Nation's progress may be wrought only by the utilization of the educational, industrial and agricultural that lie within itself. Retiance on an all-competent Legislature or Congress to make existence satisfactory can result only in mental laziness and material poverty. Resources, plus intelligence, plus energy, equals prosperity, for one or, for many. And the only silver platter which carries success is the one labeled "Hard Work."-Farm and

ABOUT 1,000 CANDIDATES. 'VENGANCE IS MINE." COPPER NEEDS SALESMEN FORD, NOT INTERESTING. IF DAUGHERTY TALKED.

How many sturdy Americans willing to serve their country are now planning to be President, do you sup- is in had shape. pose? There was a general feeling that McAdoo had the Democratic nomination unless Al Smith could get it away from him, It seemed certain that Mr. Coolidge had the Republican nomination by an overwhelming majority on the first ballot.

But a little oil makes a great difference in the political situation, and now anybody has a right to hope.

Many an ambitious American is spending his dollars now, handing them to "political experts" in return for Presidential promises.

There are probably at the least one thousand "serious" candidates at this moment.

little stockholders in revenge for the consideration. Senate oil investigation.

DON'T DO IT. It won't pay you in the long run, to supply new swimming pool. and, besides, it is written, "Dearly the Lord."

Public officials have had a warnmore than a lesson. Valuable truths have come out; others are coming.

On the whole it's a small thing, which really doesn't amount to much; more than catching little Willie tellthe family. Send Willie to bed and 9-story bank and office building. let business go on.

. . . . Another copper concern, the Inspiration Copper Company, followed the example of the big Anaconda, and skipped its dividend. That means bad salesmanship and not enough advertising. If the copper men would explain, through advertising in plain language, what copper means and what it SAVES in building, no comcents a pound, or better, need lack

The House at last will take up Henry Ford's Muscle Shoals offer. It seems hard to get anything moving when no gentleman "on the inside" is to get any money in a satchel or any "loan" from a friend.

Ford offers millions to the Government, cheap fertilizer to the farmer and, most important, demonstration of the use that can be made of water power. But that isn't enough to interest gentlemen accustomed to 'private talks," -"private codes" and 'private financial arrangements."

. . . . Mr. Mellon, Secretary of the Treasury, says the national debt has been reduced \$933,000,000 in the last year, and four thousand eight hundred millions in four and a half years, Your glorious country now owes \$21,-781,966,852. It takes a big prosperous country to owe as much as that. And while we ought to pay off rapidly, we COULD owe five times that amount, and more, too, and not be bankrupt.

Men and women with more selfconfidence than intelligence intend to produce in New York a play, "All God's Chillun Got Wings."

In this play a white woman falls in love with a negro, marries him, and, kneeling before him, kisses the negro's hand. A full-blooded negro of unusual intelligence will play one part, a white woman will play the

There is perhaps no law that can stop this foolishness, but common intelligence and decency should stop it, IF ONLY FOR THE SAKE OF THE NEGRO RACE.

The dullest mind connected with that theater must know that to show a white woman falling on her knees passed \$1,000,000 mark. and kissing a negro's hand is a bad thing for the colored people, of whom there are tens of thousands in New York to say nothing of millions elsewhere.

Attorney General Daugherty declares that "if some Senators do not resign he, Daugherty, will cause some splash,"

Mr. Daugherty knows the difference between a "splash" and a little ripple. The public will watch for the splash with interest. The Attor

the real character of certain officials BELLE than half a dozen oil investigations. He knows what senators and others are trying to do, whom they are trying to shield, and whom they seek to prosecute.

Publication of Mr. Daugherty's private information would cause a 'Splash" indeed,

There is even worse news about whales than about bees. Whales are not coming up from the South Pole as they used to come, offering oil from blubber, whalebone from their mouths, and proof of evolution, in the two little hip bones concealed in their fat carcasses although they no longer use the legs to which those hip bones were once attached.

The whalebone doesn't matter, for ladies now go loose around the waist, as a rule. But the whaling industry

M. V. Santos BIG SPRING, TEXAS

THE DEVELOPMENT OF OUR

Railroad Commissioner of Texas.

Texans early recognized their need for adequate transportation facilities. As early as 1836, the first year of Texas' Independence, the Congress of the (infant) Republic proposed the Texas Railroad, Navigation, and Banking Company. Its capital was to have been five million with possible increase to ten million dollars through the Forty's there was constant talk of railroads. A number of railroad companies were chartered during that decade, but Texas was too poor to build the desired railroads,

It was not until 1853 that twenty miles of railroad track were completed and put into operation near Houston. By 1861 there were about 500 miles of railroad completed in Texas, and about four-fifths of this mileage was built out from Houston.

The following summary of railroad construction in Texas before 1861 has been made:

Name, Buffalo Bayou, Brazos & Colorado; Origin, Harrisburg; Terminus, Alleyton; Miles, 80.

Name, Houston and Texas Central; Origin, Houston; Terminus, Millican;

Name, Washington County Railroa; Origin, Hempstead; Terminus, Toward Brenham; Miles 21. Name, Galveston, Houston & Hen-

derson; Origin, Galveston; Terminus, Houston; Miles 50. Name, Houston Tap and Brazoria;

Origin, Houston; Terminus, Columbia; Miles, 50. Name, Texas & New Orleans; Ori-

gin, Houston; Terminus, Orange; Miles, 111.

Name, Eastern Texas Railroad; Origin, Sabine Pass; Terminus, Beaumont; Miles, 25.

Name, San Antonio and Mexican Gulf; Origin, Port Lavaca; Terminus, Victoria; Miles, 28.

Name, Indianola Railroad; Origin, Indianola; Terminus, Junction Point; Miles, 15.

Name, Southern Railroad; Origin, Marshall; Terminus, State Line; Miles, 27.

Name, Memphis, El Paso and Pacific; Origin, Jefferson; Miles, 5

Total mileage 492. These railroads, built before the

and sugar lands. They furnished more dependable means of transportation than the Texas rivers.

\$24,000.00 of this amount was given outright by citizens of five counties served

route. Of the \$1,209,000 expended by the Harrisburg line before 1860, \$312,000 had been procured in this manner. Frequently, planters would teams and take stocks of the company in payment.

authorized such use of municipal suit at the April Term of the Discredit. Under this law, San Antonio State of Texas, and show cause why issued \$50,000 of bonds and Bexar judgment shall not be rendered con County, in which San Antonio is lo- demning said land, and ordering the cated, anothe r\$50,000. This was used in building 28 miles of road from Port Lavaca to Victoria.

Sick Headache

"I have used Black-Draught when needed for the past 25 years," says Mrs. Emma Grimes, of Forbes, Mo. "I began taking it for a bad case of constipation. I would get constipated and feel just miserable—sluggish, tired, a bad taste in my mouth, . . . and soon my head would begin hurting and I would have a severe sick headache. I don't know just who started me to

Thedford's

but it did the work. It just seemed to cleanse the liver. When I found Black-Draught so easy to take and easy-acting, I began to use it in time and would not have sick headaches.'

Constipation causes the system to re-absorb poisons that may cause great pain and much danger to your health. Take Thedford's Black-Draught. It will stimulate the liver and help to drive out the poisons.

Sold by all dealers. Costs

THE END. THE ONE YOU LIKE CUN- TWO-MINUTE BIOGRAPHIES

Where-Froms of Those Principals Now in Washington Spotlight

Senator Thomas James Walsh Thomas James Walsh, from Montana, was born at Two Rivers, Wis., June 12, 1859. He was educated in the public schools and graduated from the University of Wisconsin. During his early manhood he was a school teacher. He located in Helena, Mont., as a lawyer in 1890, and immediately became identified with the Democratic organization. ran for Congress in 1906 and for the United States Senate in 1910. He was elected to the Senate in 1912 and re-elected in 1918. He has a national reputation as a thoroughly grounded lawyer and is an authority on the United States Constitution. He is noted for his initiative and perseverance and never starts anything he thinks he can't finish. He is acknowledged to be chiefly responsible for the progress of the Teapot Dome scandal inquiry. He is respected by all his colleagues in Congress and admired by many. Mr. Walsh is a widower and a Catholic. He wears a stubby mustasche, stiff bosomed white shirt and suspenders.

Edward B. M'Lean

Edward Beale M'Lean is the owner of the Washington Post and Cincinnati Enquirer which he inherited from his father. He is 43 years old. Was outside pale of Washington's inner political society until President Harding took office when he became the President's most intimate Washington friend. He is free and easy in manner and is fond of sports. He lives in a palace in Washington that resembles a public library. When the Teapot Dome scandal broke he admitted that he had loaned Albert B. Fall \$100,000, but "remembered" later that he did NOT loan Fall the \$100,000. He married Evelyn Walsh, daughter of Thomas J. Walsh, mining magnate.

Harry M. Daugherty

Harry Micajah Daugherty, U. S. Attorney General, was born at Washington Court House, Ohio, on January 26, 1860. He had a High School education and was graduated from President Coolidge comes from the the University of Michigan with the degree of LL. B., in 1881.

He began the practice of law in his pative town and moved to Colone of the largest practices in the State. Always active in politics, but He directed President Harding's prinary campaign for President in 1920 Lost his own State. He predicted folks in the South: ... "They belong to that Harding would be nominated by a little party of bosses in a smokefilled hotel room when 1920 Chicago a glorious day for the South. It will Convention reached a deadlock. His prediction was fulfilled. He was made Attorney General of the United States on March 4, 1921. He aided in getting Morse out of the Penitentiary for a fee. He is married and a Methodist.

> (Note: Micajah is a Hebrew word and means "who is like Jehovah.")

Harry F. Sinclair

Harry Ford Sinclair, petroleum magnate, was born at Wheeling, West Virginia, on July 6, 1876. Moved to Kansas with his parents when a baby. He was educated in the public schools of Independence, Kansas, and graduated from the School of Pharmacy, University of Kansas in 1898. He clerked in his father's drug store in Independence, and in 1901 got into the oil business on the ground floor when the oil boom started in Kansas and Oklahoma. He displayed a genius for organization and exploitation of oil properties. He consolidated all of his properties into the Sinclair Consolidated Oil Corporation in 1919. He served as a 'dollar a year man" in Washington during the war. He moved to New York after amassing a huge fortune and bought a racing stable. He developed Zev and built up the most profitable establishment on the turf. His oil interests are now international He is married and is an Episcopallap. His home is at Great Neck, L. L.

Edward L. Doheny

Edward Laurence Doheny, pe troleum magnate, was born at Fond The D. Philips home 7-room, partly due Lac, Wisconsin, on August 10, 1856. He was graduated at the Fond due Lac High School in 1872. Went Self-educated with some assistance West and prospected for gold and from country schools. He went to silver in the mountains and in the the Southwest as a boy and taught plains for twenty years with indifferent success. Met Albert B. Fall admitted to practice in 1889. He prospecting in the Southwest in the worked as a cowboy, farm hand, pros-80s and got into the oil business in pector and miner in Texas and New 1892. He started on the road to for- Mexico. What Enforcement of Law Cost on a Commission Basis

Few people realize the enormous cost of law enforcement in Texas. We have carefully examined the records of the Comptroller's office showing the net amount, twenty-five average counties located in different parts of Texas paid into the general revenue of the State for the year 1923. We also give the amount paid out by the State to these counties to all peace officers and for witness fees for the same period. These payments are for the enforcement of the criminal laws only and does not take into account the amount of money spent by counties in law en-

The principal character of crimes committed are: Murder, Arson, Theft and Bootlegging. SIXTY PER CENT BOOTLEG.

GING CASES.

It will likely be surprising to those who have not kept up with this phase of our expenditures to know that around 60 per cent of the cases tried in our criminal courts are liquor cases or caused directly by liquor. This fact was ascertained upon examination of the records of the Comptroller's office. Another fact shown by the records is that the number of liquor cases are on the increase. We are not giving these facts to disturb any one's views on the subject of prohibition, but they are given to show to the tax payer the heavy drain on him from this source and the disturbing phase is it is on the increase instead of on the decrease. It is hoped within a few years the tide will turn to that of more obedience to the prohibition laws of Texas which will save taxpayers much money

The list of the twenty-five counties, the amount each paid into the general fund of the State for the year 1922-23, and the amount the figures released by the Na- State paid out for law enforcement omobile Chamber of Com- in each county and the per cent of cost is as follows:

Pay As You Go

The wealth that has been produced in the United States amounts, it is said, to \$300,000,000,000. More than one-twelfth of that amount more than \$21,090,000,000 - is owed as the national debt. Another onetwelfth probably as much, indeed, as \$40,000,000,000,000 is owed by e a thousand dollars or cities, counties, States and other governmental bodies, for past expenditures. In other words, we have mortgaged our earning capacities of tomorrow to pay the accounts of yesterday, to the extent of at least one-sixth of all the wealth we have been able to accumulate in this country throughout its existence.

The only way to reduce taxes is to Two Accidental Deaths at Colorado quit spending money. The only way to put government on a sensible basis is to put it on an economical basis. to clip them from our shipping list. Once we liquidate our bills of yesterday, we can begin charging up new accounts; it is, however, a hundred farmer residing three miles west of years or so too early to give serious Ira in Scurry County, was found thought to a contingency like this.

CUNNINGHAM &

Among the glories of the West, not the least is superb coffee

RAVELERS returning from the West (when they do!) speak of the gorgeous scenery, the whole-hearted hospitality, and-wonderful western coffee! With all the zeal of a discoverer, they are spreading this tradition which had its birth in the West's homes of wealth and instinctive discrimination.

To-day, the tradition is the common property of the great western empire. A tradition to treasure! Puncture the vacuum seal of a tin of Hills Bros. Red Can Coffee, inhale that rare aroma and know the coffee reputation of the West is in safe hands.

The intriguing aroma of "Red Can" is but the trumpeter of a marvelous flavor to come. And that flavor is sealed in vacuum, that it may lose none of its charm and strength. It is still fresh days, weeks, even years from now-whenever you decide to break the seal!

With all its high quality, Hills Bros. Coffee is not high-priced. It is economical to buy-and economical to use. Hills Bros., San Francisco.

Planting the Home Grounds Adds Beauty and Increases Value

It takes more than a house to make a home. Likewise it takes more than a beautiful building to make an attractive place. A simple cottage or bungalow beautified with shrubbery, trees, grass and flowers is far more attractive and homey in appearance than the most luxurious and costly mansion without these planting's

It is positively pitiful to see the many homes that are without plantings of any kind. Such places may often be seen not only in the country, but in the cities and towns as well. When one can so easily and so inexpensively beautify these bare places with a small amount of shrubbery and trees, grass and flowers, it is nothing short of a calamity for it not to be done.

Everyone Likes Beautiful Grounds.

It is true that one may live just as long in a home that is not properly beautified with trees, shrubbery, etc., but in such a place, one can never get the most out of life. It matters not how little beauty may mean to some people, the person never breathed who would not think more of s home properly beautified with trees. shrubbery, etc., than one built out in the open, with nothing in the way of shrubbery and grass to tie it to old mother earth. We would therefore make an earnest plea that the home grounds be planted. Do it now, as this planting work can be done any time during the winter or early spring before buds in the plants begin to swell.

Many people imagine that it is very expensive to properly plant the nome grounds. We believe this is one of the outstanding reasons why so many homes are not planted. It is a mistake to think that a large amount of money is necessary to beautify the home grounds. Of course much money may be spent for this purpose if one has large grounds and wishes an elaborate planting. But the small home or even the large one, may be properly planted with trees, shrubbery, etc., at a price that is well within the reach of everyone

We have seen many small cottages and bungalows practically remade in appearance by the planting of only \$5 to \$10 worth of shrubbery and trees about the place. True, more than this amount should be spent if possible, but if more than \$5 or \$10 cannot be spared for this purpose, then by carefully selecting the kinds of shrubbery and trees one can make a very good showing with this small amount of money. By spending \$25, \$50 or \$75 one can get enough shrubbery and trees to make a most cellent planting about the home. If something elaborate is desired, then a few hundred dollars will bring the desired results.

Planting the Grounds Increases Value of Property

When looking at this matter from the dollar and cents standpoint only, it pays to plant the home grounds. The very minute one properly plants \$25 to \$100 worth of shrubbery, trees, flowers and grass on the home grounds, the value of the property is increased anywhere from \$500 to \$1,000. This has been demonstrated over and over again, and even if beautifying the home grounds means little to one, they should be beautified from the standpoint of making the property more valuable in case it is sold.

Another reason why many people probably do not plant their grounds is because they think it is a difficult job and they do not know how to arrange the trees, shrubs, flowers, etc. so as to secure the desired result. This is not a real difficulty, because expert advice along this line can always be secured free of charge from the Horticultural Department of the various State Agricultural Colleges, Experiment Stations, and Nurserymen growing and handling shade trees and shrubbery. These folks are always giad to supply home owners with information as to the proper location of shrubbery and shade trees, the best kind for the different sections of the country, etc. In other words, this lack of information as to planting and location of the shrubbery and trees need not prevent any-I have thoroughbred S. C. White one from beautifying the home grounds, because this information may be secured from the above and other sources, free of charge, by any home owner.

We would especially urge therefore, that every home owner whose The members of the Wednesday grounds are not planted, make a betouch with the Horticultural Department of the State Agricultural De-College or Experiment Station. Any of them will gladly supply reliable inobt. Piner made guests high score. formation along this line that will A delicious two-course lunch was result in beautifying the grounds and adding \$500 to \$1,000 more in value to the property.

Smart Wraps Revealed by High Colors

-The very new three quarter length wraps come in such lovely colors as Lavin green and Oriental red. Some are trimmed with braid and some with narrow bands of summer ernine or leopard skin. Either the long tuxedo collar or the turned up collar, are very new this spring. Many charming styles \$27.50 and up.

Frocks Achieve Straight Lines

-The newest Frocks have straight slim lines but their pencil-like severity is relieved this Spring by panels, cascades and cape effects. Gay touches of embroidery, the puffed peasant sleeve, the Mandarin collar and other novel effects contribute to their beauty. Prices range from \$17.50 upward to \$85.

There is Nothing More Chic-

-Than the Boyish Suit. It is so very new and its mannish simplicity fits in with all the trends of the new modes. Then there are smart costume suits with three-quarter lengthcoat, tunic blouse and skirt; the blouses are in figured designs or bright colored solid silks. Last, but not least, are the sport suits in bright plaids and fancy mixtures. The prices range from \$32.50 upward.

Decidedly New!

BIG SPRING IS GATEWAY TO BROAD ACRES OF NEW FARM AREA ON W. T. PLAINS

(The second article of a series on immigration to West Texas in daily installments in the Star-Telegram.) - Editor's

> BY MAX BENTLEY. Staff Correspondent

Fort Worth Star-Telegram What we call the ranch country in that portion of West Texas served by the Texas and Pacific Railroad may be said to begin about midway in Howard County; county seat, Big Spring. (There is no "S" to Big Spring, though nearly everybody calls it Big Springs.) When the railroad was built, everything west of Weatherford was either an undeveloped domain or partly developed ranch land. Forty years have elapsed since the construction gang reached Howard County, and it has required that length of time to put the stamp of agriculture definitely on the section between Fort Worth and, say, Sweetwater

Another westward movement is in full swing. We will not have to wait another 40 years to see the Far West claimed by the farmer as his own. The surplus of population in East Texas and South Texas and Middle Texas will see to that. It is not guessing to say that, if the present immigration movement continues for another year, the westward boundary of farming in Texas will be controlled only by soil fertility and rainfall. Wherever tillable land is to be found, wherever an outside chance to make crops exists, (he colonizer will find it. When he finds it his market will come to him.

Big Spring Them and Now

Until a dozen years ago Pig Spring was just a place on the map. Later people thought of it as "a good railroad town (shops and roundhouse and payroll), with a fine Y. M. C. A." Still later it became an important headquarters for ranch outfits. Now it is the center of a colonization movement of large and

growing dimensions. While the immigration movement as a whole is northward from the rection. In the Lucien Wells com-Spring, tractors have been running 16 hours a day, and in one week, so this writer was told, 2,000 acres had been turned under. The land had never before been plowed. One prong of the Concho river heads in that locality, and the land is a singularly rich sandy loam. Very httle of this land is selling for more than \$50 per acre), but blocks of L. S. McDowell's 50-section ranch and W. P. Edward's ranch are coming on the market. The Texas and Pacific Railroad has recently sold 12 1-2 sections west and south of Big Spring in 160-acre tracts, and has more for sale.

Big Spring, Friday, March 14, '24

THE PASSING DAY By WILL H. MAYES

Department of Journalism, U. of T. According to figures from the treasury department, Texas country banks rank fourth in deposits, being outranked only by those of New York, New Jersey and Pennsylvania. Texas country banks show nearly as much in individual checking accounts as the seven Pacific states combined, including California, Oregon, Washington, Idaho, Utah, Nevada and Arizona, these having a total of \$278,283,000 as compared with Texas country bank total of \$256,497,000. Bank deposits are the best evidence of a country's prosperity. If you have been thinking about striking out for the "Golden West," you had better stop and think over these

Another indication of the general prosperity of Texas is that manufacturing enterprises are increasing throughout the State more rapidly than ever before. Texas has been sending North and East for most of its manufactured products because it has not had enough capital to establish the necessary factories. The money here has been needed to buy homes and to carry on the necessary commercial enterprises. Conditions are changing; farmers are getting out of debt; merchants are getting enough money to conduct business; banks have more money than they can lend; and capital is seeking investment. Especially is Texas beginning to see the folly of sending cotton to Massachusetts or to England to be manufactured and shipped back. More cotton mill enterprises are under way now in the State than in all the past years together. When Texas goes to manufacturing the products of its fields and forests and mines, it will be rich beyond the dreams of a Midas.

About ten years ago Richard Lynn, an educated musician, then nearly 70 years old, arrived in Pecos, day. Every farmer will be invited strength, he was unable to play the other expense of the sale will be endeared himself to the community through his love of music and his kindly interest in every one about him. He set about to cultivate in others the same musical spirit that chestra, composed of the musical Tolah and Barstow. He gave the last ten years of his life to that service and built up in those West Texas towns a musical interest that has that cannot be measured. Would

FORCE Tonic

The Dead Letter office in Washngton stands as a testimonial of the common human failing __carelessness.

If everyone were careful in addressing mail, there would be little need for this branch of the postoffice

More than two hundred million pieces of mail matter pass annually through the postoffice improperly or carelessly addressed, and seventeen million of these ultimately go to the Dead Letter office

If there is such a loss in the postoffice department through carelessness, it is difficult to imagine what vast sums can be charged up against this besetting sin of practically every individual.

Material loss through carelessness might be estimated, but what of the irreparable loss which affects the destiny of lives and souls?

The careless deed or word that costs a life or causes human wreckage on the sea of life would probably have been left undone or unsaid, if they had been given more thought.

Addressing mail carelessly or il legibly is bad enough, but infinitely worse is the careless act or words that lead to tragic results.

Joe E. Adams for Commissioner

We are authorized to announce Joe E. Adams as a candidate for reelection to the office of County Commissioner of Precinct No. 2 of Howard County. Texas. He announces subject to the action of the Democratic primary and his name appears in the announcement column of this

Mr. Adams is a long time resident of the Coahoma community a good substantial citizen, honored and esteemed by everyone who knows him. He is henest as the day is long and will look after the interest of our county in an efficient manner. He is now serving on his first term, having been appointed to fill out the unexpired term of J. G. Arnett. He has taken hold of the duties like an old head and deserves to be continued

If honored by reelection he can be depended upon to perform the duties of the office to the very best of his ability; and fairly and impartially, The voters of Precinct No. 2 are

requested to duly consider his claims and qualifications when cast-

Texas Needs More Factories

Texas should build and operate hundreds of cotton mills, hundreds of allied industries to consume the products of these mills, not only should Texas operate packing house to handle our livestock, but we should have factories of all kinds dotting the State here and there in which the products of farm, ranch and orchard should be utilized to enrich the people of this State, and in order that those who depend upon us for those commodities might be given cheaper goods as a result of the avoidance of double freight and handling charges.

Not one single bale of Texas cotton should be spun outside the State. All surplus fruits and vegetables should be conserved through a large number of canning plants. Our grain products should rapidly assume their rightful place on the tables of the nation. Texas with her wonderful climate, with her wonderfully rich soils and her natural productive facilities, through diversification, through manufacture, through conservation, should treble agricultural values to those who make this great industry possible.-Marketing Bulle-

PLANTING SEED

I have some early gin run seed for sale at \$1.00 per bushel. Have some Pure Mebane Seed that have not been treated by heating at \$2.10 per bushel. I will have a small quantity of Salsbury Seed soon.

This cotton made better than bale to the acre in Howard County last year. These seed have been delinted and come 100 pounds in a sack and will cost \$8,25 per sack. L. F. KEISLING.

The Rest Room at the Courthouse established and maintained by the City Federation was intended mainly for the comfort and convenience of women residing outside our city. Likewise the parks the City Federation have established are for the use and pleasure of every citizen in our

In union there is strength, but it depends in some measure on what is being united.

Folks who spend all of their time it when they get it.

BAPTIST MISSIONS **GREATLY EXTENDED**

THE WORK ON FOREIGN FIELDS SHOWS LARGE EXPANSION FROM FORWARD MOVEMENT

NEW COUNTRIES ENTERED

Southern Forces Now Have Mission ary Fields on Every Side of . Globe With Audience of 900,000,000.

DR. J. F. LOVE, ec. Foreign Mission Board

Indicating the extent to which the foreign mission work of the Southern Baptist Convention has been set forward by the larger proceeds that have come to it from the Baptist 75 Million Campaign, Dr. J. F. Lave, secretary of he Foreign Mission Board, reports that since 1919, when the Campaign was projected, the following increases in the work of that board have been made: Number of foreign missionattes on the field has increased from 328 to 540, number of native work ers from 627 to 2,820, number of churches from 505 to 891, number of church members from 49,659 to 103,328, number of self-supporting churches from 143 to 211, number of baptisms per year from 5.635 to 12,611, number of Sunday schools from 760 to 1.447, number of Sunday school pupils from 36,115 to 67,407, number of day schools from 512 to 796, number of pupils in day schools from 15.722 to 32,789, and contributions per year from \$173,372 to \$437,568

Baptisms Gain Rapidly Nearly as many persons have been baptized by the missionaries on the foreign fields since the Campaign began as had been baptized during all the seventy-five years of missionary operations prior to the inception of this movement, Dr. Love reports. This does not include Russia, where more than one million members have come into the Baptist churches in recent years. Nearly one-fourth as many persons were baptized on the foreign fields last year as there were members, all told, on the foreign fields when the Campaign began.

At the time the Campaign began Southern Baptists were operating only in Mexico, Brazil, Argentina, Chile, Uruguay, China, Japan, Africa and Itiay. As a result of the larger proceeds made avaiable from the Campaign the board has been enabled to enter the new fields of Spain, Jugo-Slavia, Hungary, Roumania, and Russia in Europe, and Palestine and Siberia in Asia. This gives to Southern Baptists a total missionary audience of 900,000,000, or more than one-half the total population of the globe.

Older Fields Re-Enforced But of more significance than the entry into these new fields is the reinforcement that has come to the work in the older fields, in the estimation of the officials of the Foreign Mission Board. This reinforcement consists not only in sending out many new workers but providing larger equipment in the way of church houses, mission residences, schools, hospitals, orphanges, publishing houses and the like. Summarizing the growth that has come in the forces on the older fields since the Campaign began the following results are pointed out:

Number of churches, 76% increase number of church members, 108% in crease; number of church buildings, 45% increase; number of schools, 56% increase; number of pupils, 108% increase; number of residences for missionaries, 94% increase; number of foreign missionaries, 63% increase; number of native missionaries, 264% increase; number of hospital buildings, 21% increase; number of treatments given, 61% fncrease; number of hospital beds, 164% increase.

Much Remains To Be Done With all the increases that have come in the foreign mission work only a portion of the program that was contemplated for foreign missions as a result of the Cambaign has been accomplished as yet. It is in the hope of completing this program through more effectively equipping the work and workers on both the older fields and the new ones that the representatives of the Foreign Mission Board are cooperating with those of the 75 Mfillion Campaign in an effort to complete the payments of al' subscriptions to this movem

SAME HENS--Fed Differently

Ordinary chicken feed will make a good hen lay two eggs a week. PURINA will make the same hen lay four eggs a week, so don't ask for chicken feed. Demand PURINA CHICKEN CHOWDER and PURINA HEN CHOW in checkerboard bags. Please do not feed Chowder without Hen Chow or Hen Chow without Chowder-to do so upsets the scientific balance and loses you extra eggs. Feed as directed on the instructions with each bag and get more eggs.

UNDEMOCRATIC DEMOCRATS

The Democratic party is about to commit political suicide.

In its early history is was the hope and sheet anchor for the plain, average American citizen who enjoyed no special privilege nor pull.

The Democratic party brought a reaction against the excesses, the corruptions in high officialdom and the stealing that followed the Civil

During the Grant administration about every other government official turned thief. Senators and congressmen bribed other senators or were themselves bribed. Public lands were looted and offices were bought and sold. These things were done in the Senate, in the Lower House and in the official family of Grant.

The revolt was lead by Democrats who rallied under the banner of Tilden. Even so, public conscience was so dull that the leaders of the old party held power and inaugurated Haves. But power did return to the people and for a time party leaders were more circumspect.

We had a revival of looting following the Spanish-American War, but the public conscience was alive and the human hogs were quickly driven away from the government swill trough.

So here we are after the great World War with the lids blowing off. The trail of corruption has run into the cabinet that was appointed by Mr. Harding. Men sworn to serve humanity became thieves and dedebauches. Even with the Republican party in power honest Republicans in the Senate and honest Democrats began the work of catching and exposing the wrongdoers.

Everybody knows that in times of great expenditures big profits and high taxes there arises an army of men who want to get something for nothing. They are like the dogs and rats that gather around a provision house when the house is filled to

But somebody has to pay for all the money spent and as long as there is plenty of money in sight somebody s going to make a grab for it.

Mr. Mellon, the Secretary of the Treasury, and the president earnestrecommended that there be a constatutional amendment so as to abolish tax exempt securities. Of course this amendment could not cover past issues. Under the present system certain securities are escaping just

This thing has cursed governments start of Privilege.

In olden days in England property of all sorts was turned over to the church. The church paid no taxes and then there was legislation against this. In some of our own states this procedure is forbidden, tax exemption is one of the reasons though there is a deeper one.

Now all over the country there has been a demand that no more tax free bonds be issued. The reason is plain. It is Privilege. Practically it invites capital to seek inactive harbors.

It enables men to sit down, draw interest, do nothing and produce nothing.

Capital if it can get a non-taxable ecurity goes into it and avoids industrial investment. The country grows through industrialism and labor. The country is great because railroads cut all through it and because there are mines, steel mills, lumber mills, foundries, automobile plants, furniture factories, cotton mills and packing plants. Now if any of these industries issue bonds they are taxed, and, being taxed, they must pay a high rate of interest. The public must, therefore, pay bigger money for the products of these industries, because their taxes are

The public pays the taxes on the so-called untaxed bonds. The man sted coat or two piece effect, and holding the bonds does not pay the tax, but the man not holding them and buying something from a bondtaxed institution pays them.

The government needs money run. The holder of an untaxable

For a year leading Democrats have been clamoring for the abolition of times reaching just below the shoultax exempt securities. Progressive ders, again, waist-length, and some-Republicans have been doing the times falling to the hips. The cape same thing.

When the matter was up in the Lower House of Congress Friday a large group of Democrats voted to continue the practice of issuing tax exempt bonds. Their reasons were varying. Some trotted out the old doctrine of states' rights. Others rics. The colors of these satin and voted this way because the Republican president and the republican

By Lillian Meriwether

The versatile tailored mode has brought a tailored aspect to the new spring frocks. A significant note in the tailored gown is the change from the one piece to the two piece garment. They vary from middy style to tunic length, and are smartly beltless. Whereas the fall season's one piece gowns were mostly black, navy and brown, those of spring present a new picture in light, bright colors. They have also new trimmings, such as Indian wampum, cloth tassels, long silk tassels, shutter borders, novel embroidery, and their edges ment. Besides being worn on

Black Satin Suits

Black satin lends itself so well to the tailored vogue, that black satin suits, after an absence of many years, are with us again, strictly tai Democratic measure was beaten while lored. Also there are black satin thoughtful people were looking at coats, very elaborate in tuckings and the cloud of smoke over the Teapot pleatings, leather applique or braid improved. See WILKE stitching, and some are toned with Optician for smart spring furs.

Black satin just now eclipses all sombre, it is brightened up by its priate for almost every daytime occasion, the afternoon call, the bridge or Mah Jong party, the matinee, the dinner at either the home of a friend or at a hotel or restaurant. It is serviceable and the business woman has adopted it.

The Fob

The severe new tailleurs are less evere when they are decorated with the little fobs that were never meant to hold a watch. They are pinned on the upper left hand pocket of your new suit and left to dangle en ticingly. They are fashioned of onyx, or crystal and embellished with marcasite. They come in any num ber of odd and intricate designs and add a subtle feminine touch of adornare piped in some contrasting color, tailored suit, these little fobs are Some of these tailored dressed re- featured on waistcoats, gilets, blouse
