### BOYS WILL RUN

The Freshman 440 relay team will run in the time trials Friday during the halftime ceremony of the Lubbock Westerner - Monterey basketball game, to be played in the Lubbock Coliseum. They will compete against two Lubbock teams and one team from Brownfield.

If the Wolverines come through in this trial run, then they will compete Saturday night in the big Indoor Track and Field Meet, also at the Lubbock Coliseum.

The Wolverine team is composed of Jerry Don Sanders, Ken Dawson, Floyd Bennett and Richard Mitchell. Larry Glascock will be alternate.

This week things really started rolling. By this we mean that Springlake, at long last, will have a complete athletic program.

If you do not have anything to do, just mention the new field track to Jodie Mahan and hours will pass before you know it. Jodie is one proud man, to see a dream come true, and that I'm sure is speaking for the entire community.

When the track is completed, it will consist of a bottom surface of 3 inches of No. 5 rock, one inch of sand, and two inches of red dog cinders, (a volcanic ash, chemically treated).

This track is scheduled to be completed in time for the Springlake track meet March 2. Jodie stated that upon completion the track would cost about \$2,500 and that is a small amount, considering the cost that Lubbock spent on their three tracks---\$50,000. Sundown has a similar track that cost in the neighborhood of \$9,000.

This cost is cut to the bare minimum, thanks to the dedicated people of the school district. Our thanks go out to all who have helped in any way to make Springlake one of the best schools anywhere.

Our thanks go out to Ed Haley for making possible extra tickets for the track meet to be held in the Lubbock Coliseum Saturday night. This event will have some of the top stars from all over the country. Some of the entries are C. K. Yong, the 29 year old UCLA student from Formosa, who last week vaulted 16'3 1/4". Others entering in the pole vault will be Fred Hansen, of Rice, Warren Bratloff of Rice, Steve Guyes of Texas, Preston Holsinger of Oklahoma, and Mickey Baller of Oklahoma State.

Others in the field are Don Beattie of New Mexico, Louis Pollard, Texas A&M, Billy Pendleton and Frank Folgeson of ACC, Jerry Northcott and Pat Menese, both of Oklahoma.

With such stars as these, I'm sure all the sports-minded people of this area will have a thrill seeing great competition in this big indoor Track and Field Meet.

### Classes Observe Court Action Tuesday

Approximately 45 Springlake High School students, enrolled in Government Class taught by Clarence Hamilton, went by bus to Littlefield Tuesday to observe county court in action.

The group heard two trials, followed by a tour of the county jail.

They had lunch at Fishers Cafeteria and returned home at 3:40 p. m.

They were accompanied by Clarence Hamilton.

## Open House At Bryant Home In Hite Park Addition

Guy Daughtry and Sammy Hightower, builders of Earth's lovely brick homes in the restricted Hite Park Addition, will stage a two-day open house celebration to show the impressive manganese brick Rustic Ranch home of Mr. and Mrs. Bill Bryant, manager of Rutherford, and Company Department Store in Earth.

The public is invited to tour the 1537 square foot, three bedroom home, beginning Saturday at 9 a. m. through 5 p. m. and again Sunday from 1 to 5 p. m. Coffee and donuts will be served both days by Mrs. Don Watson, secretary for Highlight Homes, Inc. in Earth.

Mr. Guy Daughtry will be anxious to explain any questions concerning the features of this lovely new home, located in the northwest corner of the Hite Park Addition.

The Rustic Ranch design home is trimmed in redwood. It has complete central heating, fully insulated and features aluminum maintenance free windows and screens. It is fully duct for air conditioning. The side-entry double garage is designed with ample storage space. The entire back yard is enclosed with a 6 foot redwood fence.

The front door is inset and opens into the entry which is of natural terrazo tile to avoid muddy feet on the lovely gold nylon carpeting, which covers the floors of the entire home. The spacious 12x18 living room is done in eggshell white with matching woodwork.

A mural covers one wall in the 20x29 family room kitchen combination. This room features double sliding glass doors, opening onto the patio. Walls are of eggshell white, complimented by stained maple paneling. The kitchen is done in lovely birch wood. The custom-built cabinets were designed and built by Highlight Homes custom cabinet makers in Levelland.

To further enhance the beauty of this ideal kitchen, all the appliances and the sink are of copper tone, making them blend in beautifully with the birch wood. Among the appliances is a built in oven, cook top, garbage disposal and food center. The food center is operated electrically from one unit and consists of a mixer, blender and knife sharpener.

The master bedroom is also done in Eggshell white and features double sliding glass doors which open onto the patio. Entrance to a spacious closet is gained through double birch sliding doors. The connecting bath is fully tiled in colors of cocoa and chocolate and features a huge linen closet, which enhances the elegance of the master bath with its beautiful antique finish on both the linen closet doors and dressing table. The dressing table is completed with the ultra-modern no-drip vanity top.

Two moderate sized bedrooms, one in eggshell, the other in shell pink, each with matching woodwork and double birch doors leading into their huge closets, end the tour of the lovely new Bryant Home, except for the second bath, which opens from the hallway. This is fully tiled in white ceramic tile, trimmed in green. The vanity also features the no-drip vanity top and has a spacious linen closet.

## Rodney Balke Purchases Agency

Rodney Balke, manager for Gatewood Ford Sales in Earth for the past two and one half years, announced this week he had purchased the Ford dealership here from Glen Gatewood of Sudan, and will continue to manage the firm under the new name of Balke Ford Sales.

Balke, who has had fifteen years in Ford sales, said he had an efficient staff, equipped to serve the public in the manner in which this progressive area deserved to be served. He added that, their motto would be to bend over backward to satisfy a customer.

Mrs. Balke has been named office manager for the firm. She has had several months of experience in office management.

Fred Adrian serves as Sales Manager. He has had approximately 15 years of experience in Ford sales and service serving with an Amarillo firm for many years, prior to moving to Earth five years ago.

Roy Kimbrell is bookkeeper for Balke Ford Sales, and J. O. Richardson is Service Manager. Richardson has had twenty years in the Ford

### Finance Drive Begins Tuesday For Barn

The Earth-Springlake FFA Advisory committee kicked off what they hope will be the final fund raising drive for paying off the remaining \$2,000 loan on the FFA Show Barn, Tuesday morning, January 29.

The committee met Monday night at the community room to discuss plans and map out the final drive.

Early Tuesday morning, the Drive began with Lion club members from both Earth and Springlake canvassing the area for donations to erase the indebtedness. The Drive will end Monday, February 4.

We should exercise patience in everything we do, particularly in our relations with others. Patience should be the constant benchmark of our attitude toward those with whom we work or associate with.

JAMES RINKER

### Junior High Tilt Begins Today On Springlake Court

The Springlake Junior High Invitational Basketball tournament gets underway today at the Springlake Gym beginning at 2 p. m.

The Springlake 8th grade girls meet the Sudan girls in the first game of the 3-day contest.

Merchants of the Earth and Springlake area have donated trophies to be awarded to the winners Saturday night.

During the six sessions there will be twenty games played. Admission will be 25 cents with the proceeds to be used for athletic equipment in the Junior High School.

PROUD SEVENTH GRADERS stand behind the six trophies to be presented in the coming tournament. All these four ball players want is the two first-place trophies; they will gladly share the remaining four. Pictured are Bill Gover, Becky Parish, Susan Britton and Donald Huff.

### It's the Law in TEXAS

Three out of four families who buy houses in the \$11,000 to \$15,000 price range jeopardize their investment, because they do not protect their cash and ownership with commensurate title insurance.

These financial risks from insufficient knowledge of the difference between an "owner's policy" and a "mortgage policy", and lack of information about title insurance.

The main point is that the usual title insurance taken out by the purchaser of a home in the up-to-\$15,000 bracket serves only to protect the bank or lending institution. It is often compulsory for the buyer to purchase this insurance, known as the "mortgage policy", since some mortgages insist upon this particular safeguard as one of the loan conditions. The "mortgage policy", however never protects the home owner's equity. This is so even after the mortgage is fully paid.

A course remains open for the purchaser who wants to cover himself for the entire price of the home. He should, at the time of application for the required "mortgage policy" check with his attorney about simultaneously obtaining an "owner's policy". The "owner's policy", in contrast to the "mortgage policy", protects the home buyer as long as he owns the property. In many instances, it also protects an owner even after he sells, if he has a warranted title.

Owners of higher-priced homes usually take out both title policies. Thus, they purchase peace of mind on their substantial equity instead of trying to "save" a few dollars, a false economy which may later invite trouble.

Title insurance took on a greater significance after World War II. It is a requisite today by many banks and lending institutions for those applying for mortgage loans, and is for the lender's protection. A defective title, it was shown, may cost the "owner" not only the price of the home, but considerable greater sums if the new owner "inherits" previously undiscovered liens, back taxes, or defects of title that do not appear on the records.

The purchaser of the \$11,000 to \$15,000 home often withholds taking the "owner's policy", which protects his equity continually, "in order to save a few dollars". An element of risk enters, however, if flaws are subsequently found. The owner without title insurance would not be reimbursed to the extent of the defect. To compound his difficulties, the owner would be burdened with the cost of correcting the title defect and legal costs.

To illustrate the difference in an "owner's policy" and the "mortgage policy", the following case was cited: Mr. Smith buys a home for \$15,000. He places \$2,000 down and takes

a \$13,000 mortgage loan. Pursuing the course of many home buyers, his only title insurance purchase is a "mortgage policy" for \$13,000, which the mortgagor demands and which protects only the lending institution. Each year Mr. Smith's equity increases as his mortgage decreases. Nevertheless, knowingly or not, Mr. Smith is not carrying any title insurance which protect Mr. Smith.

If a faulty or fraudulent title should be discovered, or if previously unknown liens against the property were to be established during the life of the mortgage, or after it was paid, Mr. Smith would have no protection.

### Pre School English Instructional Program Authorized By Legislature

Of each 100 students who entered first grade in Texas public schools in 1961 with no knowledge of English, only 18 completed Grade I in one year. The 82 who remained in Grade I for a second year cost the State around \$25,000--figured on an annual instructional cost of approximately \$300 per student.

A preschool instructional program, authorized by the Legislature in 1959, may prove to be a partial solution to this economic and academic problem.

The program has been in existence for the past three summers. It is administered by local school systems and is financed by the State Minimum Foundation Fund and the participating school districts.

In this preschool program, children have had opportunity to learn to speak and understand English and 76 of each 100 enrolled in the 1961 program completed the first grade in the 1961-62 school year and were promoted.

Of each 100 students with preschool instruction, 58 more

successfully completed Grade I than did students from a similar-sized group who lacked this training.

During the past summer (62) almost 19,000 children enrolled in 154 schools. If 70% of these students complete the first grade in 1962-63 as compared with 18% completions by those with no special training, this 58% bonus of 19,000 (11,020 at \$300. per person) will total \$3,306,000.

The preschool program in 1962 cost the State and the participating district \$371,748. Deducting this figure from \$3,306,000 indicates saving of almost three million dollars on the experimental group of 19,000.

The potential saving of the program is difficult to estimate as there are no exact figures on the total number of non-English speaking children.

The Texas Education Agency report gave special acknowledgment to the League of Citizens for its assistance in informing interested parents of the program and its objectives.

### Water Used In Farm Production Declared Depletable By Judge

A spokesman for the High Plains Underground Water Conservation District has said that in a letter received last week by attorneys for the Water District, Joseph B. Dooley, Judge of the United States District Court for the Northern District of Texas, stated that ground water used in the production of agricultural crops in the Southern High Plains of Texas is a depletable natural deposit under the federal tax laws, and that he has so ruled in a case pending before his Court.

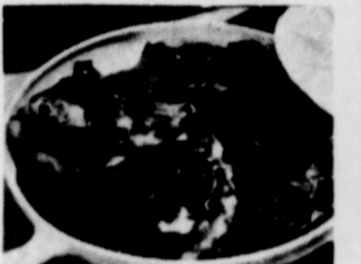

The spokesman, Tom McFarland, Manager of the High Plains Water District, said Judge Dooley's comments were in regard to a case tried before his Court during January 1962. The suit is a test case filed by a Floyd County farmer, Marvin Shurbet, in behalf of the High Plains Underground Water Conservation District and is styled, Marvin Shurbet et ux v. United States of America. It seeks an income-tax refund of about \$300. for the tax year 1959.

McFarland said that the favorable decision in the Shurbet case, upheld on appeal, will ultimately mean millions of dollars in tax savings for persons in the Southern High Plains of Texas who can show a cost in the ground water beneath their land and who are using the water to produce income.

McFarland pointed out that in 1954 the Board of Directors of the High Plains Water District first authorized the District's staff to seek a depletion allowance on ground water. The Board felt that if such a program were allowed on ground water by the Internal Revenue Service, then a great many more persons would realize first hand that their supply of water is truly exhaustible and would then become conscious that "water conservation" is a necessity for continued prosperity.

McFarland continued, "in the beginning, our Board had the feeling that too many people are not really convinced that the ground water is not being replaced, or that they accept the fact of decline only in an abstract sort of way. The Board thought that if each person had to physically check the water level in his own wells in order to take the tax deduction, that then the decline in water level would be a personal thing and would make him cognizant of his plight. On y when some men reach this point are they ready to discover ways and means of using water as efficiently as possible."

### CANNED GRAVY TOPS CHOPS

**Baked Stuffed Pork Chops**  
4 double pork chops (about 1 1/2 pounds), cut with pocket  
1/2 cup chopped onion  
1 tablespoon butter or margarine  
1 cup dry bread cubes  
1/2 cup chopped green apple  
1/2 teaspoon salt  
Dash pepper  
Dash ground nutmeg  
Dash ground cinnamon  
1 can (10 1/2 ounces) mushroom gravy  
Trim pork chops well. In saucepan, cook onion in butter until tender. Remove from heat. Lightly mix in bread cubes, apple, salt, pepper, nutmeg, and cinnamon. Stuff mixture into pockets of chops. Fasten open edges with toothpicks or skewers. Rub oven-proof skillet with pork fat; brown chops. Pour off excess fat. Add gravy. Cover; bake in a moderate oven (350° F.) for 45 minutes. Uncover; bake 15 minutes longer or until chops are tender. Makes 4 servings.

### Samples Still Run High At Lubbock Classing Office

Receipts continued to run 4,000 - 5,000 samples per day at the Lubbock Cotton Classing Office over most of the past week. Mr. Palmer reported that receipts dropped to about 2,000 samples on Friday.

For the week ending January 25, the Lubbock Office classed 31,000 samples. This pushed the season total for that office to 1,766,000 samples.

For the season the Brownfield Office classed 263,768 samples and the Lamasa Office classed 205,728 samples.

The total samples classed to date in the three South Plains Classing offices is 2,235,500 samples. Last year at this time 2,255,000 samples had been classed.

The white grades accounted for 24% of the cotton classed. Fourteen and one-half per cent of the samples was Strict Low Middling, 9 percent was Low Middling and 1 percent was

Strict Good Ordinary Plus or lower.

The Light Spotted grades accounted for a large volume with 57% Middling Light Spotted accounting for 6%, Strict Low Middling Light Spotted had the largest number of samples with 4% and there was 11% Low Middling Light Spotted. The percentage for the Spotted grades were: Middling Light Spotted 2%, Strict Low Middling Spotted 6%, and Low Middling Spotted 2%. Two percent of the samples was classed as Tinged in grade and 1% of the samples received were reduced in grade because of bark.

For the third week in a row, the average staple length was 29.8 thirty-seconds of an inch.

Seven-eighths of an inch accounted for 7%, 29/32" 20%, 15/16" 7% and 31/32" 4%. Only a trace of 1 inch and longer cotton was classed.

The micronaire readings remained the same with 70% of the samples classed miking 3.4 or below and 30% miking 3.5 or above. Cotton classed as wasty continued to increase with 20% as compared to 17% for the week before.

Sales of 65,800 bales were reported by the Lubbock Cotton Exchange for the week ending January 24. This is a slight increase over the preceding week when 63,000 bales were reported. For the same week a year ago 118,000 bales were reported.

The Middling 1 inch price increased this past week to 32.85. This compares with 33.00 at the same time last year. Quotations were raised on Low Middling Plus and Low Middling and were lowered on Strict Low Middling Spotted and all Gray Cotton. The Lubbock Quotations for the predominant grades are: Strict Low Middling 29/32, 29, 60; Middling Light Spotted 29/32 29, 70; Middling Light Spotted 15/16, 30, 20; Strict Low Middling Light Spotted 29/32; 28, 90; and Strict Low Middling Light Spotted 15/16, 29, 40.

# Adequate Gas Supply Kept Workers Busy Around The Clock

The severely cold weather of this past week kept many Pioneer Natural Gas Company employees on the job around-the-clock throughout the system. Although the 24-hour period ending Saturday (January 12, 1963) at 8 a.m. was the most severe that the Pioneer system has experienced, gas supplies were adequate and there were no failures of

a critical nature, according to T.S. Whitis of Amarillo, vice president in charge of transmission.

Late Thursday afternoon Pioneer began a constant surveillance of pressure regulation equipment. Engineering department personnel were busy placing extra portable gauges at additional points on the gas system where pressures could be observed. Men were sent to town border stations in the field to keep in constant touch with dispatching offices so that adjustments in pressures could be made immediately as required. Gas wells were being turned on, and compressors were being added to the lines. To assure complete control over the movement of gas all work was coordinated by central dispatchers, who, with the aid of modern telemetry and communications, compressor station operators and production and distribution workers, maintained a round-the-clock check on gas supplies and pressures.

paralysis within four to 30 days after feeding; (2) an illness clinically consistent with paralytic polio; and (3) laboratory findings that do not exclude a relationship with administration of the vaccine itself.

The committee also considered four additional cases of paralytic polio in unvaccinated persons in household contact with vaccinees. Two were judged to be "compatible" with being induced by the vaccine and two were excluded as incompatible. An additional compatible case occurred in a nonhousehold contact.

"Considering the large amount of vaccine administered and the known frequency of vaccine virus spread from vaccinated to unvaccinated persons particularly within home it is concluded that contact spread has posed no significant hazard," the committee reported.

In commenting on the report, Dr. Terry said: "The committee feels and I wholeheartedly agree that of greatest importance is planning for the continuing vaccination of oncoming generations. This is the only way we will succeed in eradicating polio permanently."

He added that "in the oral and the Salk vaccines we have two established weapons against polio and we can, I believe, look forward to the day when polio is finally eliminated in this country. With a total of around 650 cases reported this year, compared to almost 58,000 a decade ago, it is clear we are well on our way."

## USPHS Endorses All Three Types Of Sabin Vaccine

Medical Tribune—World Wide Report Washington Bureau

Unqualified endorsement of all three types of the Sabin live oral polio vaccine for persons under 30 has been given by the U. S. Public Health Service thus clearing the way for community immunization programs throughout the nation.

Surgeon General Luther L. Terry, acting on recommendation of his special advisory committee on live oral poliomyelitis vaccine, urged communities to move ahead with their programs, giving special emphasis to children, adults under 30, pregnant women, persons in epidemic areas, those planning to travel abroad and other high-risk groups.

Vaccination for persons over 30 in the general adult population should be undertaken with the knowledge that the need for immunization diminishes with advancing age and that some believe a potential small risk of vaccine-associ-

ated disease may exist in adults, the committee reported.

The same committee had recommended last September 15 that type 3 of the live vaccine be restricted to preschool and school age children under 18 after a few cases of paralysis developed among millions of adults who had received type 3 strain.

After reviewing the latest data, however, the committee found that the "maximum potential risk" of developing paralytic polio after receiving types 1 or 3 was one, or less, in a million and that this risk was not great enough to justify any restriction. For type 2 the committee found no measurable risk at all.

An estimated 15,000,000 doses of type 3 vaccine were administered in non-epidemic areas during 1962. Of that group, the committee major-

ity found only 11 cases of paralytic polio to be "compatible" with being induced by the vaccine. Of these, 8 were over 30.

About 31,000,000 doses of type 1 were administered, and seven paralytic cases were considered "compatible" with the vaccine administration, including four in persons over 30 years of age. There were no cases of paralysis with type two.

The committee established three criteria for "compatibility". They were: (1) onset of

## Boy Scout New

Pack 614 held their monthly pack meeting in the Spring-lake lunchroom on January 22 with a good number present, considering the weather. Den I led the opening pledge to the flag, with patriotic music preceding. Announcements were made by Mrs. Wilson Lewis who served as mistress of ceremonies in the absence of S. H. Salley, Cubmaster. The parents gave their approval of garden seed selling as a means of financing the pack for the coming re-chartering. It was also decided to let the den mothers decide on the program and menu for the Blue and Gold Banquet to be held in February.

Den II gave a skit on the Liberty Bell. Den IV had a very nice display of items made during the month, also a large painter made out of a bleach bottle by Den IV was to be taken to the Old folks' home in Amherst for use in the lobby.

Den VI had the closing with the audience participating in the Cub Scout Promise. John-

ny Dale McNamara received his bear badge and pin. Boys passing bobcat requirements this month were: Dale Wheatley, Vaughn Hazlett and Gary Ballard.

The den mothers meeting was announced for the morning following the pack meeting. Den IV served refreshments, Den VII received the attendance banner for the month.

### DEN MOTHERS MEETING

Den mothers met in the home of Mrs. J. C. Randolph Wednesday morning to make plans for the coming month and the Blue and Gold Banquet. A menu was planned and parts of the menu were assigned each den. Notes will be sent later in February to parents with assignments. Program parts were also distributed among the 7 dens that are now active.

Den IV is in need of an assistant den mother. Mrs. Barney Scheller is replacing Mrs. O. D. Scheller as den mother. Boys who are in this den are: Dean Scheller, Aaron Scheller, Gary Ballard, Donald Templeton, Vaughn Hazlett, Danny West, Eddie and John Alair. Any of these mothers who could serve as assistant den mother until school is out in May is asked to please contact Mrs. Barney Scheller. This den

meets at the Scout Hut on Wednesday afternoon after school, from 4 to 5 p. m.

Mrs. Jerry Barden will serve as den mother again for den VI replacing Mrs. Edwin O'Hair who had served as assistant den mother for several months and as den mother for the past month. Mrs. Jay Winders will serve as assistant den mother.

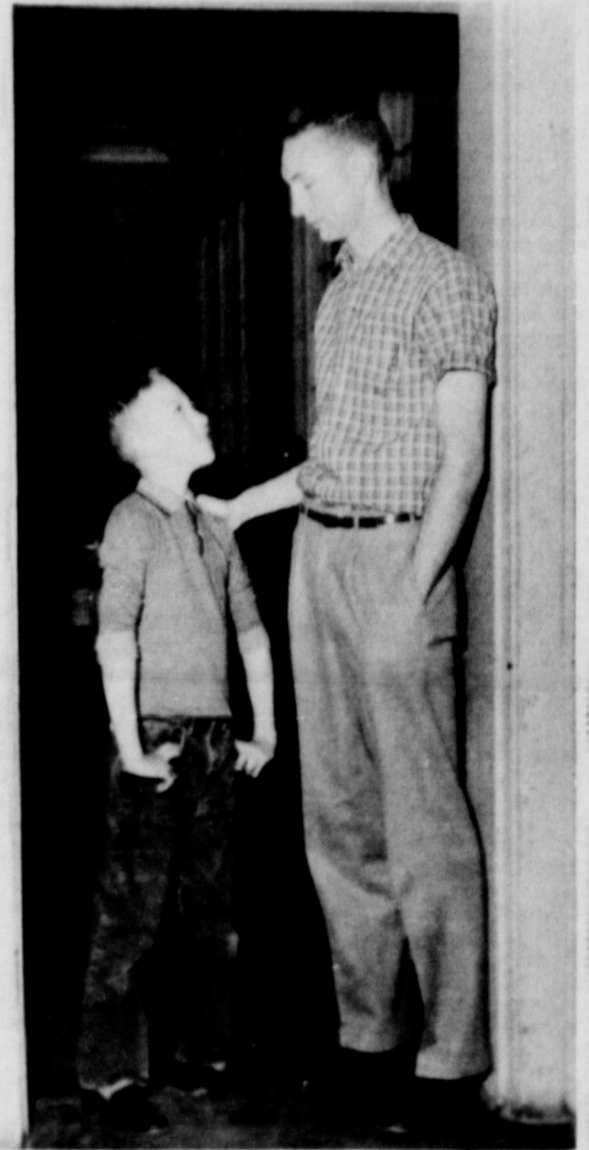

If a schedule of all mothers in each den could be worked out for the purpose of serving as den mother, the task would not be so burdensome to the ones who are willing to work for a specified time. The suggested method that has been used by some of the dens and very successfully, is for a mother to serve for 3 months as assistant, and then move up and serve as den mother for another 3 months. If you have not served as a den mother and your son is in Cub Scouting, please see your son's den mother and offer your assistance. Den mothers have other duties the same as all mothers have, so if you have not taken a turn make arrangements to do so when you are asked.

Webelos Den met Monday night at the Scout Hut with 3 members present and the den chief, Eddie Mitchell. Jim Glasscock and Jack Rylant, Sr. met with the boys. Webelos requirements were studied by the boys.

Den I met Monday afternoon at the Scout Hut with 6 members present, including one new member, Mike Bell who has transferred from Plainview. Bobby Glasscock instructed the boys in flag folding, Chris Brock led the pledge to the flag. Gregory Slover told a story. Bobby Glasscock led the boys in several games and plans for next month's theme were discussed. Steve Randolph served refreshments.

Den IV met last Wednesday afternoon at the Scout Hut with 6 members present and the den chief. The boys started making planters out of pop sicle sticks and coffee cans. Aaron Scheller served refreshments. Mrs. O. D. Scheller met with the boys.

WELL, WILL I EVAH BE as tall as Mr. Rinker, elementary faculty member, seems to be the question utmost in the mind of Bill Gover, smallest lad in his seventh grade class, and equally the smallest basketball player on the seventh grade team. According to the faculty and his teammates he is small in size but great when it comes to determination, effort and go power.

# Lazbuddie News.

by Mrs. C. A. WATSON

We wish to take this means to thank the Fire Departments from Muleshoe and Friona, the electricians and all who have helped us in any way when our home burned Friday evening. We know the out-buildings could have burned had we not had your help--your kind words and deeds have helped us bear the loss.

The Lazbuddie Birthday calendar burned in the fire Friday. Since so many people have said they liked the birthday paragraph, I would appreciate it very much if you will mail me a card on Rt. 3 Muleshoe, with your family's names and birthdays.

Mr. and Mrs. Andy Fuquay were in Ft. Worth over the week-end attending the Fat Stock Show.

Don Schumann is in California visiting his mother and other relatives this week.

John and Sharon Agee are here from Lubbock visiting her parents, the E. A. Parhams and his parents, the John Ages.

Cooper Young from Baylor is visiting a friend, Don Parker in Corpus Christi this week. Cooper is the son of Mr. and Mrs. J. B. Young, Jr.

David Smith left Monday for Baylor where he will enter college.

Mr. and Mrs. Dee Chitwood, Jr. are in Ft. Worth for a vacation and to see their son Dick, who is attending a district 4-H meeting there. Dick plans to return with his parents for a short visit before returning to

college at Bryan. Paul Wilbanke, Tommie Ketchum, Don Watson, Dale Vice and Donnie Smith are home from WTSC visiting for a few days before returning for the second semester.

James Brown plans to enter WTSC, Canyon when school resumes classes, James previously attended Texas Tech at Lubbock.

Pat Chitwood is visiting her aunt and uncle, the J.B. Youngs while her parents are in Ft. Worth.

Mr. and Mrs. Tommie Byrd were in Amarillo over the week-end on business.

Mr. and Mrs. Claud Blackburn were recent visitors in Lubbock with relatives.

Mr. and Mrs. E. A. Parham were in Lubbock on business Monday.

Quite a bit of damage was done during the week-end to the Lazbuddie School buildings. It is reported that 33 windows were broken out. Suspects were being questioned in court in Farwell Monday.

# Letter to the Editor

Dear Sir:

I'm sending the gift certificate for the six months' subscription to you for your paper, which you gave us at your Chamber of Commerce breakfast that we attended on January 4 of this year.

We enjoyed being there and meeting all your nice people in Earth, Texas. We'll never forget your hospitality while there.

We never did receive the paper for that week, with the pictures that were made that morning. We wanted to give it to our little Valley Independent and Times Herald paper, in our community. So if you still have a copy, please send it.

The editor is holding the story for the picture and paper. They thought the idea was clever, and perhaps we could use that kind of idea for their Chamber of Commerce meeting here sometime.

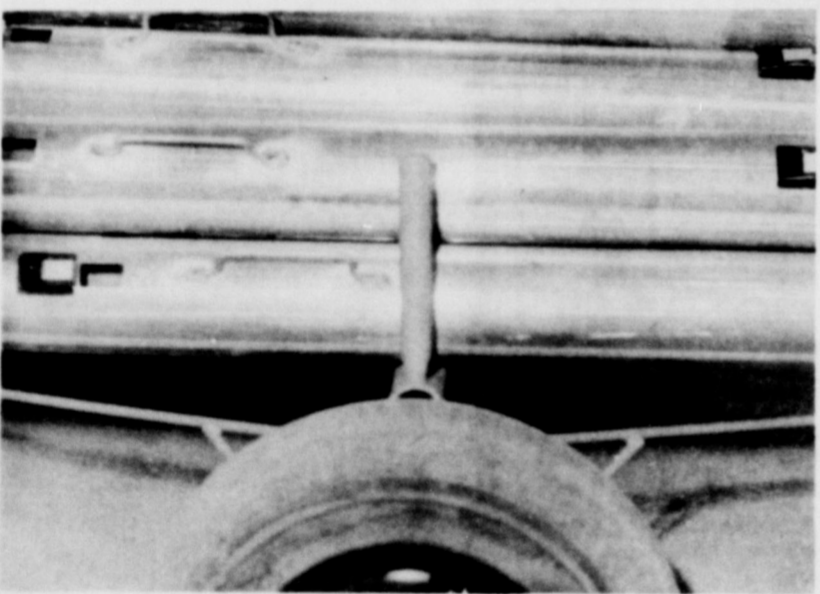

Sincerely, Nana Carroll

## County Savigs Bond Sales For '62 Reached On 47.4% Of Goal

December Savings Bonds sales in Lamb County were \$11,936 according to Mr. C. O. Stone, Chairman of the Lamb County Savings Bonds Committee. During 1962 the citizens of this county purchased \$175,329, which represents 47.4% of the 1962 sales goal of \$370,000.

Sales in Texas during 1962 totaled \$143,146,965, which is 86.7% of the state goal of \$165,100,000.

U. S. Treasury records disclose that the number of individual bonds issued during

1962 set a five-year record with over 73 million individual bonds issued during the year. The number of \$50 bonds purchased was the highest amount since the war years, and the sale of \$25 bonds was at a five-year record.

"The increased sale of the smaller denomination bonds are a direct result of the Freedom Bond Drive, when over one million American workers enrolled in the Payroll Savings Plan for bond buying. This was a 15% increase over 1961," Chairman Stone reported.

## Red Cross To Fete Spouses

The Littlefield Board Members of the Lamb County Chapter, American Red Cross will entertain husbands and wives of surrounding town board members with a dinner Friday February 1 at 7 p.m. in the home of Mrs. Norman Frey.

last of more than eleven million (actual count 11,094,268) individual vehicle plates were shipped to the distributing centers on January 15, 1963, one full month ahead of the deadline established by the Texas Highway Department.

Since July 1962 when the plant started producing 1963 license plates, inmates and employees have worked a day and night shift.

Reuben Blagrove, 17-year veteran employee of the Department of Corrections, said, "This was our busiest year. We got started late due to installing new equipment, and we had one million more plates to produce, but we got caught up and finished well ahead of time."

Blagrove gives credit to the inmates who operated the presses, cutters, ovens, and other machinery in the plant. "They are the boys who turned out the work," he said. The job of providing inmates for the staffing of the License Plate Plant falls on Leon Hughes, Director of Classification. Hughes said, "When the plant went on double shifts, we transferred more than 150 inmates from the farm system to the plant. We consider this a job promotion for the inmates. When the plant closed last week, we reassigned many of the inmates to trusty jobs on construction and on special State Approved Trusty jobs. The inmates proved themselves, and we were pleased to promote them."

The Huntsville plant produces 29 varieties of license plates for the vehicles of Texas. The 1963 order called for 7.8 million individual plates for automobiles. The smallest single order was for the special plates used by members of the United States Senate from Texas. The Huntsville inmates produced six sets of license plates for the senators.

The largest order for license plates came from Harris County, with the second largest order being from Dallas County. Harris County was shipped a total of one and one-third million plates (actual count 1,353,410) and Dallas County received a total of 1.1 million (actual count 1,105,597).

Kennedy County in the Rio Grande Valley region received license plates for a total of 451 vehicles, including two sets for house trailers.

The Texas Department of Corrections manufactures the license plates for the Texas Highway Department on a con-

## A Report From Bill Clayton

According to reports from persons who have seen our State Government function for many years, the present session of the State Legislature has begun work and accomplished more in the first weeks than at any previous sessions. By the end of last week, there had been two hundred sixty bills introduced in the House of Representatives and one hundred and fifty-seven bills introduced in the Senate. All of the Committees have organized, and have begun regular meetings. The Appropriation Committee, of which I am a member has had meetings, daily for two weeks, and we have heard the budget requests that were presented by all the State supported colleges and universities and the requests from the Judicial Branch. This Committee will continue the daily meetings until all budget requests from the various State agencies have been heard. At the end of these hearings the Committee will present a bill to the House of Representatives, and this bill will be the recommendations of our Committee for the financial operations of the State for the next biennium.

I have introduced House Bill 15, which is a part of Governor John Connally's legislative program, and if passed will outlaw future common law marriages in Texas. I am cosponsoring House Bill 50, which is of particular interest to our section of Texas, and legislation which I think is needed in all of the State. This bill, if passed, would provide for the raising of the speed limit on such roads as it is appropriate, not to exceed seventy miles per hour.

Legislation will be considered that will give some relief to the license fee charged for anhydrous ammonia tanks, and of course this is of primary interest to many people in our area. You may be assured that I am mindful of this problem and think that a satisfactory solution will be worked out.

As the session of the legislature progresses and issues, in

which many of you are interested, come up for consideration, I hope that you will let me hear from you, the people of the district I represent. It is important to me to know you thinking about the various issues.

## Wolverettes Clip With A 50 to Owlettes' Wings 36 Victory

The Springlake Girls Basketball team apparently decided that the Kress victory wouldn't discourage them, because on Friday night they clipped the wings of the Hale Center Owlettes for a 50 to 36 victory.

Springlake warmed up in the first quarter with a 9 to 5 lead. Carolyn Gregory, one of the star forwards for Springlake, made 5 points; Julia Jones hit 2 and Bethie Dent 2 points.

Grimmick, Tiffin and Roberts made the Owlettes 5.

The Wolverettes really hit in the 2nd quarter, but Hale Center seemed to be rolling with the punches. Twenty points were made by the rising Wolverettes, but Hale Center kept hitting for 17 points. The score at the end of the half, Springlake 29 to Hale Center's 22 points.

Bethie Dent hit 3 and made 5 out of 8 free throws for a total of 11 points. Jones made 5 and Gregory, 4 points.

Tiffin, Hale Center forward, wasn't going to be out done, for she racked in 10 points and the other 7 points were made by Warren and Grimmick.

The beginning of the 2nd half, Springlake was still punching, and Hale Center began feeling it. The Green and Gold made 14 points, thanks to Gregory's 5, Jones' 3 and Dent's 6 points. Hale Center hit 4 points. The score at the end of the third quarter 43 to 26.

The Owlettes were not ready to give up in the 4th quarter.

LET'S NOT ALL LEAVE AT ONCE... Barbara Barlow (43) one of Springlake's guards ties the ball in the Hale Center half of the court. Helen Phillips (31) watches the battle.

They managed 10 points and out-scored the Springlake girls by 3 points.

The score at the buzzer was Springlake 50 and Hale Center had 36.

Bethie Dent (21) was high point girl for Springlake with 22 points. Carolyn Gregory (41) made 14, Julia Jones (35) 2 and Brenda Townsend (15) hit two points.

Tiffin was high point girl for Hale Center with 21 points, Warren 6, Grimmick 7 and Roberts made 2 points.

Hale Center and Springlake played January 8 at the Hale Center gym; the victory of that exciting game was again Springlake 50 and Hale Center had 35.

At that time, Gregory was high point girl with 20, Jones 15, Dent 8, and Townsend had 5 points.

The next Springlake basketball game is at Sudan, February 1 at 7:00 p. m. Let's all go and support the Springlake teams. It will be a very exciting game, I'm sure.

## Springlake Out Shoots Hale Center 44 to 42

Springlake Wolverines added another victory to their record in the district by defeating Hale Center Friday night.

So far this year the Wolverines have lost two and won two. The two lost were to Farwell 46-43 and to Kress, 55-51. SHS won over Sudan 35 to 23 and Hale Center, last Friday, 44 to 42.

The Wolverines flew over the Owls in the first quarter with 15 points to the Owls 6. Dent hit 6, Been 3, Gregory 4 and Stephens, 2 points.

It looked as though Springlake was going to have the best of Hale Center until the 2nd quarter when the Owls really snapped out of it. Hale Center came up with 17 points, tying the ball game at the half 23 and 23. Springlake's only 8 points were made by Thomas Gregory.

From the end of the first half, to the end of the game, the score was tied or one team was one point ahead. The crowd went to complete silence or to roof raising screams through the whole last half.

Springlake out-shot Hale

Center by one point in the 3rd quarter, making the score 33 to 32 in favor of Springlake. Dale Dent made 8 points, and Thomas Gregory 2. The Owls 9 points were made by Berry, Byrd, Weil, Brooks and Douglas.

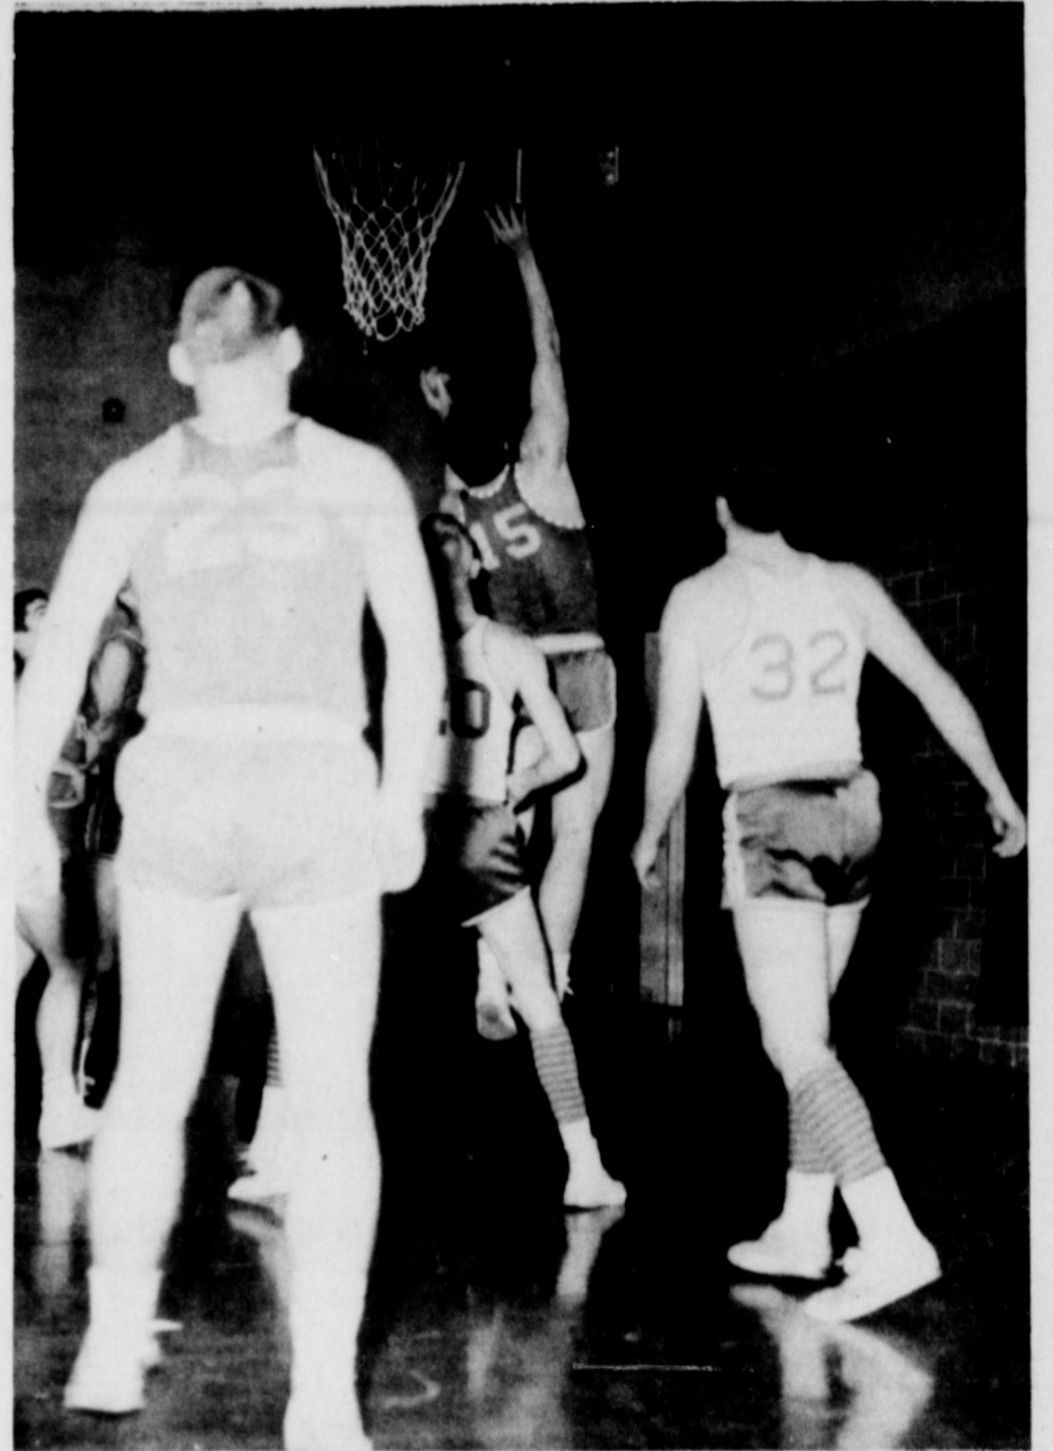

Springlake fought hard to win in the last quarter and finally did it but not without cost. Dent and Stephens fouled out, but this didn't stop the grand old Gold and Green. Rocky Cain made 1, Been 2 Dent 4, Gregory 2 and Clayton 2 points for SHS. The victory went to Springlake 44-42.

High Point man for SHS was Dale Dent (23) with 18 points. Cain had 1, Been 5, Gregory 16, Clayton 2 and Stephens made 2 points.

For Hale Center, Weil and Brooks were high point men with 11 points each.

Springlake had played Hale Center once before at Hale Center. The Owls won that game 55-35.

The boys have really improved since the last game with Hale Center. The next game will be in Sudan, February 1. See you all there.

STRETCH HIGH GAYLAND... Gayland Stephens (15) is shooting the ball for SHS. Dale Dent, (23) is shown starting for the rebound.

FLYING THROUGH THE AIR WITH THE GREATEST OF EASE... is Jerry Been (21), who made 2 points as the photographer snapped the camera. Dale Dent (23) is ready to rebound and shoot again.

JUMPING OFF A TIE BALL is Thomas Gregory (31). Jerry Been (21) and Dale Dent (23) are getting ready to snap the ball away from the Owls.

HOORAY, WE MADE IT!! Carolyn Gregory, shown under the goal, makes 2 more points for Springlake. Julia Jones stands by in case of a rebound.

By—Vern Sanford  
In a few more months Texas will have a wonderful new fishing lake.

One of the reasons is that the Texas Game & Fish Commission just recently has poured thousands of large mouth bass into the new Twin Mountain Lake, west of San Angelo.

Growth rate of bass in West Texas waters is very rapid. This was established only last year when the season was reopened on Lake Sweetwater.

This lake had undergone a complete kill. Then it was restocked. Within something like a year those bass had grown to a catchable size. Now some real "keepers" are being taken

from those waters. Perhaps that is one of the reasons West Texas fishermen are looking forward to the time when the Twin Mountain project will start paying off big.

There are hundreds of fine fishermen in West Texas, and many of them live in and around San Angelo. However, they've had a hard time keeping up with their fishing water. But now it seems they have it made.

In the early days the Angelenos fished in one of the forks of the Concho River, when there was enough water. Their first real good water came something like a half-century ago with the little

Ben Ficklin dam. Then, as San Angelo grew, the Nasworthy dam was built. It created one of the finest crappie lakes in Texas.

Finally San Angelo got tired of being constantly flooded from the North Concho. So, the Corps of Engineers was persuaded to build a dam across this stream. True, it was dry most of the time, but it was a demon during flood time.

So it was that Concho Dam was built just north of San Angelo, barely out of the city limits.

North Concho Lake also produced good fishing. In fact, it was so good it was picked for the 1962 State Bass tournament, and it paid off.

However, this lake is on the desert, so to speak, and is subject to roughness from the high winds that prevail in West Texas. For that reason it really hasn't had the popularity it actually deserves.

But floods persisted in the Angelo area. When rains fell in Western Tom Green and even in Irion county, floodwaters rolled down Spring

Creek and the middle Concho and poured into Nasworthy.

It became evident that another reservoir was needed.

Two years ago engineering work was completed and evidence produced to show a dam was justified at the Twin Mountain site.

The dam now has been finished at a spot only 12 miles west of the San Angelo Courthouse, and rains are awaited to fill the lake.

It was built by the Bureau of Reclamation.

All new lakes afford excellent fishing during their first few years, and no doubt this new San Angelo lake will live up to those traditions.

However, it has more to offer. Not only will it fill up with flood water, but it will be spring fed, too. Many springs along the Mertzon and Spring Creeks flow into the Conchos.

Meanwhile, development work is progressing on Lake Nasworthy. It will be a wonderful little constant level lake.

During recent months developers have been busy running channels from Nasworthy behind some of the lake cabins around it.

This creates a paradoxical situation because generally San Angelo is recognized as a part of that great arid portion of West Texas. Yet it will have the most modern lake in Texas with boat roads behind many of its lovely homes, just like Florida.

So the coming of the Twin Mountain dam will mean a great deal to those west Texas fishermen who have been going a long way for their outdoor recreation.

And it will mean a great deal to San Angelo, too, in the way of flood protection and additional domestic water potentials.

**Research Indicates Best Planting Date For Grain Sorghum**

Research information coming out of experiments conducted on date-of-planting grain sorghum at the High Plains Research Foundation indicates that May 15 is the best planting date. Hybrids planted on May 15 have produced higher yields with less damage from sorghum midge and birds than hybrids planted earlier or later. A Grain Sorghum Date of Planting test was initiated in 1961. The purpose of this test was to determine the effects of planting dates on yields of early, medium and late maturing varieties of grain sorghum. Despite the early planting damage from birds, and the late planting by midge, the results clearly demonstrate some of the advantages and disadvantages of the various planting dates. Six hybrids, two each of early, medium and late maturing types were used in the test. The planting dates for all six were April 25, May 15, June 5, and June 25, at a seeding rate 10 pounds per acre for each. The entire test received a sidedressed application of 100 pounds of nitrogen per acre on June 25. The April 25 and May 15 fields received four irrigations totaling 15.63 acre inches. The June 5 and June 25 fields were watered three times for a total of 12.68 inches. Bird damage on the plots of the first two dates of planting was heavy because there was no source of food for birds in the area. This amount of damage would not occur in large fields so can be discounted. The midge infestation started a week earlier than the 1961 season with greater damage than 1962. The June 25 planting received the largest midge damage in 1962 as it did in 1961. The May 15 planting had fewer plots damaged by either birds or midge and produced the best yields which were also highest for the entire test. The date of planting test
