

2 A.M. SUNDAY IS TIME TO CHANGE BACK TO STANDARD TIME.

NOSIN... WITH POLLY

I cannot remember the very first time I heard the descriptive expression "Bull Headed", but off hand, I'd say it seems to be one of those descriptive expressions occasionally used by a loser of a somewhat heated discussion, when he later attempts to describe his opponent to a dear sympathetic friend whom he believes to see eye-to-eye with him.

In looking back, I do believe that the greying old chief on the Middleton stronghold has, under his breath of course, mumbled those same words in reference to yours truly, during, or following an exchange of opinions which seemed to differ to the point they clashed.

I always took a dim view of that "Bull Headed" expression and felt it quite unjust when directed at me. However after Tuesday, I am quite sure that his point has been proven and that it is a fitting and proper description of me.

He reached his decision Tuesday morning when I stumbled into the office wet and muddy, hose torn, knees and hands bleeding and an over-all shooke-up appearance in general.

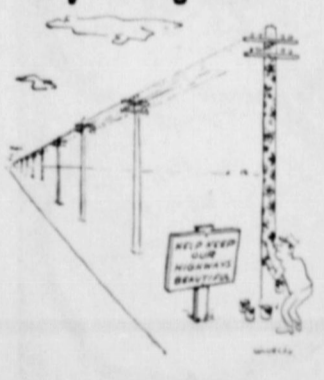

Following my sudden flash of hot tears we finally attempted to analyze the extent of my injuries. To my great surprise my head wasn't bleeding and that was the portion that had collided with the small barber pole next door with such force it knocked me off my feet and sent me gliding down the muddy sidewalk. Then and there I decided I was hard headed, but when he heard I was charging down the street with my head down while running at my very top speed trying to get in out of the rain, he change it to "Bull Headed." (Guess that's the way a fighting bull charges).

I sure didn't know ones head could hurt so bad and fall to bleed. It's a bit disgusting.

It has always been said that truck drivers are "Knights of the road" so to speak, always willing to assist anyone in distress, now in wondering why anyone hasn't thought to give recognition to those wonderful "Knights of the Sidewalk" who pick you up after a hard fall.

Recommend Norman Hinchliff.

fe and Carolyn Kelley for the outstanding award in that capacity.

Wednesday when I came to work it was still raining, but this time I held my head high and walked down the street as though the sun was shining, and low and behold the barber pole mounted on the front of Gerald's Barber Shop, not high enough for pedestrians on the street to walk under it without bumping their heads, was gone.

Reason is, Gerald was afraid I'd break it next time. . . .

Miss Stephens was named winner Monday morning by J.W. Solis, principal. He announced that the Senior class was responsible for gathering the greatest percentage of wood, according to the weights recorded.

Toni Sanders freshman candidate was runner-up for Miss Flame.

The junior class had named Karen Armstrong as their candidate. Miss Armstrong came in third and Suzy Temple, sophomore, candidate was fourth place.

The four classes, showing exceptional school spirit gathered wood from 9 a. m. to 5:30 p. m. Saturday.

Miss Stephens will ignite the bonfire tonight at 7:15 p. m. on the Barton Bros. Gin lot, following a snake dance parade through town.

The High School Band, Pep Club, Twirlers and Cheerleaders will perform during the program.

Large Crowd Expected For 1969 Homecoming

Former student's of Springlake-Earth High School are expected to return to the old Alma-Mater Friday, October 24 for the 1969 Homecoming festivities. Highlight of the event will be the Wolverine vs Bovina clash at 7:30 p. m.

A dinner sponsored by the Ex-Students Association will precede the game. Serving will begin at 5:30 and continue until 7:30 p. m. The menu has been announced as barbecue with all the trimmings.

This year there will be a door prize for ex-students. Ex-grads may register for this at the cafeteria.

Tickets for the dinner are priced at 75¢ and for children under twelve years of age, and \$1.75 for adults. Tickets are on sale at Pounds Rexall Pharmacy, Earth or from any Ex-Student Association member. The dinner is open to the public

and all are invited to attend and enjoy the fellowship with the ex-students and teachers.

Ex'es will enjoy the crowning of the 1970 Queen, Wolverine Marching Band, the Wolverine-Bovina clash on the gridiron.

Immediately following the game the ex-students and other interested parties will meet in the Springlake-Earth School Cafeteria for a program and refreshments of coffee and hot chocolate.

The program will be centered around honor classes from the years 1929-'39-'49-'59 and '69. The door prize will be drawn, following the program and the ex-student must be present to win.

This year's Homecoming activities are designed for not only the ex-students and teachers, but for everyone.

3 Inch Rain Falls In Area

Slow soaking rains in amounts up to three inches fell Tuesday and Wednesday in the Earth-Springlake Community and other surrounding areas.

One area farmer reported that the rains should not cause any further damage to the cotton crop, but if the rain should continue for several days cotton grades and prices could be lowered somewhat. The rain will definitely slow down cotton harvest, since it will take at least a week or longer of dry weather to make conditions suitable for cotton harvest.

Farmer's are hoping for a change in the weather trend so that remaining grain sorghum can be harvested and the 1969 cotton harvest can get underway.

Grain Holding Discussed By County NFO

A county-wide meeting of the National Farmer's Organization was held Thursday night in the Willie Wirehand Room in the Lamb County Electric Cooperative Building at Littlefield with a large number of member interested farmers, and business men attending.

Don Kimbell, N.F.O. State President, was guest speaker for the event. Kimbell gave an instructive lecture on the purpose of area grain holding action and the procedure for getting a unified price on grain sorghum. A question and answer period on the subject was also conducted by Kimbell.

N.F.O. business conducted was the election of Mr. and Mrs. Benny Dickson as secretary-treasurer.

Refreshments of cookies, coffee, and punch were served to those attending.

Among those attending from the local area were Mr. and Mrs. Wilson Lewis, C. L. Houchin and Mr. and Mrs. R. O. Dickson.

Jr. High Choral Group Elect Leaders

Thirty-two members of the Jr. High Choral Group met Thursday, October 16, in the Elementary Building to elect officers and section leaders for voice groups.

Jimmy Coker will serve as president, Tommy Clayton as vice-president, and Terri Ingis will serve as secretary for the group.

Section leaders are Marianne Messer, soprano; Darlene Sulser, alto; Dickie Bradley, tenor; and Steve Stevens, bass.

Instructor for the Jr. High Choral Group is Miss Donna Benki.

Candidates Are Nominated For 1969 Football Queen And King

Five lovely lasses and five handsome young men have been elected as nominees for the coveted titles of Football Queen and King.

Selected for the Queen contest at a meeting of the high school football squad last week were Joan Dudley, junior; Gloria Stephens, senior; Lauren Ernest, senior; Jan Hedges, senior; and Becky Sanders, senior.

In a like meeting Monday the Pep Squad chose their King candidates. They are Steve Busby, Steve Sanderson, Terry Ott, Danny Parish, and Terry Bridge, all members of the senior class.

The King and Queen will be crowned in an impressive ceremony during the Pep Rally Friday afternoon at 3:30 p. m. in the Springlake-Earth Gymnasium.

The Queen and her court will be recognized at the highlight of the Homecoming activities, the Springlake-Earth vs Bovina game. The Queen and her court will be seated near the pep squad, and the King and four candidates will take their positions on the field for the gridiron clash beginning at 7:30 p. m.

No other information was available at press time Wednesday.

Explorers Attend Conference

Three members of the local Explorer Post 614 and their advisor were among the South Plains Council's 30 Explorer Posts that gathered for an Explorer planning program at the Tech Student Union Building Saturday.

The event opened with registration at 9:00 a. m.

Leaders were instructed as to how they can select programs for meetings and how these can encourage full participation by Explorer members.

The 30 Posts also voted on several events that will be conducted during the coming year at all levels including Post, District, Council, and National.

Participants concluded the activities with attendance at the Tech-Mississippi State Game.

Local Explorers attending were Jerry Barden, Jimmy Littleton, Johnny Kelley, and Dale Riggs, Advisor.

Young Farmers Have Program On Harvest

The Springlake-Earth Young Farmer's Organization met at 8:00 p. m., October 16 in the Agriculture Room on the Springlake-Earth School Campus for their regular monthly meeting.

An educational program was conducted by James Lot, Representative for the Hesston Farm Implement Company in Levelland. His address was entitled, "Better Cotton Harvest - Better Grades and Quality." Lot gave facts on the cotton harvest and new machines for better cotton grades. A film on the new machines was also shown to Young Farmer's and guests present.

Following the program Dean Jones, president, presided over a short business meeting.

Refreshments of cookies, coffee, and Cokes were served to those attending by the Young Farmers.

The next scheduled meeting will be November 20 at 8:00 p. m. in the Agriculture Room on the Springlake-Earth School Campus.

Lions Clubs To Sponsor Turkey Shoot Saturday

The Springlake and Earth Lions Clubs are co-sponsoring a Turkey Shoot Saturday, October 25, beginning at 10:00 a. m. The event will be held west of Farm Chemical Company in Earth on Highway 70.

Proceeds from the turkey shoot will be divided between the two Lions Clubs and will be used for selected projects such as their conservation for the blind program, crippled childrens program, and other worthwhile projects.

A refreshment stand serving donuts, coffee, and soft drinks will also be sponsored jointly by the two Clubs.

Lions members wish to encourage those interested to support the local Club's by participating in the turkey shoot.

Booster Club Holds Weekly Meeting

A large number of Wolverine fans were present for the weekly Monday night meeting of the Springlake-Earth Booster Club in the Springlake-Earth School Cafeteria.

Coach, Travis Suris, gave a scouting report on Bovina, followed by the film of the Farwell-Wolverine gridiron clash. Coach Dean Wright gave his comments on the game. He also included a brief report on the current condition of the Wolverines.

A short business meeting with the sale of Booster Club "Snag Bugs" as topic for discussion was presided over by Ardis Barton, president.

Barton announced that the Booster Club will meet Monday, November 27 at 7:00 p. m. instead of the regular 8:00 p. m. meeting.

Sanders Are Top Winners In Grid Contest

Mrs. Tom Sanders took first place in this week's Earth News-Sun football contest. Barely nudging out Larry Price and Doug Freeman who came in second and third respectively.

Each of the three top winning contestants had nine games picked correctly with the tie breaker score making the difference in their placing in the contest.

Although Tom Sanders did not win in the weekly contest again this week, he continued to maintain his position of first place in the season's standings with 490 points. However his point margin over other contestants is so small, it could change anytime.

Mark Barton is trailing behind with only five points between he and Sanders, with 485 points. A threesome including Wanda Sanders, Larry Price, and Floyd Henderson, are tied for third place with 470 points each.

Standings for the top 35 contestants for the six weeks are as follows:
Tom Sanders-490 points
Mark Barton-485 points
Wanda Sanders, Larry Price and Floyd Henderson-470 points
Karen Layman-465 points
Richard A. Moore and Bill Freeman-435 points

Alma Stockstill and E. C. Hudson-430 points

Local Ladies Attend State Cancer Society Program

Mrs. C. L. Houchin, vice-president of the American Cancer Society of Lamb County, and Mrs. Lucy Lewis of Earth attended the 29th Annual Texas-American Cancer Society Training Program, October 15 and 16 at the Rice Hotel in Houston.

Registration Wednesday at 1:00 a. m. marked the beginning of two days of vigorous training and instruction on cancer.

A leadership dinner was held in the Crystal Ball Room, with the president of the American Cancer Society of the California Division as guest speaker. His inspirational talk included high lights of work begin done in the state of California. He also gave suggestions for improvement in the work in other areas and pointed out that more people should be educated about cancer. He advocated that additional service be available for cancer patients, and additional research was necessary for a successful fight against the dreaded killer which is second only to accidents in killing young people.

A large number of volunteer workers are also needed to cut down on the paid medical staff. A panel of seven physicians presented two cancer case histories, Thursday afternoon at 2:15. One girl from Austin who was cured of cancer at the age of eight and a girl, twelve, from Dallas who has very little hope of being cured was examined on the stand. After the child and mother were dismissed from the room a questions and answer period was conducted

dealing with what would be done for the child.

District meetings were then held at 3:30 Thursday afternoon. Those attending the local District III South Meeting were Mrs. J. F. Intush, Memphis; Mrs. Roger Kelly, Lubbock; Mrs. T. L. Posey, Memphis; Ed Low, Lubbock; Dr. and Mrs. Calman Choppin, Lubbock; Mrs. Beth Kropp, Lockney; Mrs. O. W. Hancock, Tulla; Mrs. Franky Dean Mills, Plainview; Mrs. Lucy Lewis, and Mrs. C. L. Houchin, Earth; and Mrs. Oewin Thornton, Lockney.

A reception in the Trinity Room followed by a dinner in the Crystal Ball Room climaxed the two-day activities. Outstanding speaker for the dinner was Edward Rannis, past president of the American Medical Association. He reported that even though forty per cent of the Texas crusade money goes to the national fund, Texas has such an outstanding medical center it receives forty percent or more back in grants to further the work in Texas. Texas will need twenty-five percent more money for the year 1969 than last year. This will mean that there will be a greater need for volunteers and to reach more people to attain the three million dollar goal for Texas.

The president of the American Cancer Society of Texas will be Dr. George Race M. D. of Dallas. The next meeting of the Lamb County Cancer Society will be early November at Olton. Anyone wishing to donate to

Quail Hunting Season In County Set December 1 - January 16

Quail Hunting season in Lamb County will begin on December 1 and come to an end on January 16.

The County Commissioners met recently and made a decision to settle the long disputed question regarding the length of the quail hunting season in this county and set the above dates as official.

The group voted to return to the general law which is 47 days for quail season, according to County Commissioner Hubert Dykes.

The Commissioners also voted to keep regulations regarding the quail hunting season in this county under their jurisdiction rather than return the regulations of Lamb County Quail

WATCH NEXT WEEK FOR "ROMAN BANKING PRACTICES"

An ancient Roman bank consisted of a large, solidly constructed apartment. The money changer sat on a high stool. Coins were spread out before him behind a bronze mesh screen.

His clients entered from the porticos in front. Perhaps one client was a lawyer depositing a fee won in the Forum. Or it might have been a young patrician on his way to the circus. He would draw a thousand rest-cattil to bet on his favorite gladiator. Even a Thessalian slave could enter. He would add to a growing sum for purchasing his freedom.

Ancient Roman bankers were not merely money-changers. Their daily routine included: opening accounts, receipt of deposits, issuing bills of exchange, making loans, and purchasing mortgages.

Money spent at home, builds your community, lets all be builders.

Cox Speaks On Alcohol and Drugs At Tuesday Assembly

Captain Cox, of the Juvenile Department at Lubbock was guest speaker at an assembly held at 2:30 p. m. Tuesday afternoon in the Springlake-Earth High School Auditorium. The program was sponsored by the Springlake-Earth PTA for the benefit of high school and junior high students.

Captain Cox started the program with the question "What do alcoholics drink?" He showed the group various bottles containing vanilla extract, hair oil, and shaving lotions telling the students that the majority of alcoholics consume products that contain alcohol rather than purchasing alcoholic beverages. He particularly stressed a point to the boys in the audience telling them that just because they drink alcohol it doesn't make them a man.

He also told the effects of drugs and medicines that contain drugs and stated that LSD is becoming the most commonly used drug. Mental institutions are becoming filled with drug patients. Cox concluded by asking the

Following the service Mrs. Kenny Hamilton, also Past Worthy Advisor of the Earth Assembly, sang "Climb Every Mountain." She was accompanied by Becky Littleton. Connie Kelley, Worthy Advisor, closed the meeting with a poem to the two new members and presented them with their choir pins.

Following the beautiful retiring march refreshments were served by Kathleen Anderson and Alice Faye Adrian to thirty-eight members and guests. The table was covered with a lovely orange cloth and decorated with a Halloween centerpiece and matching napkins.

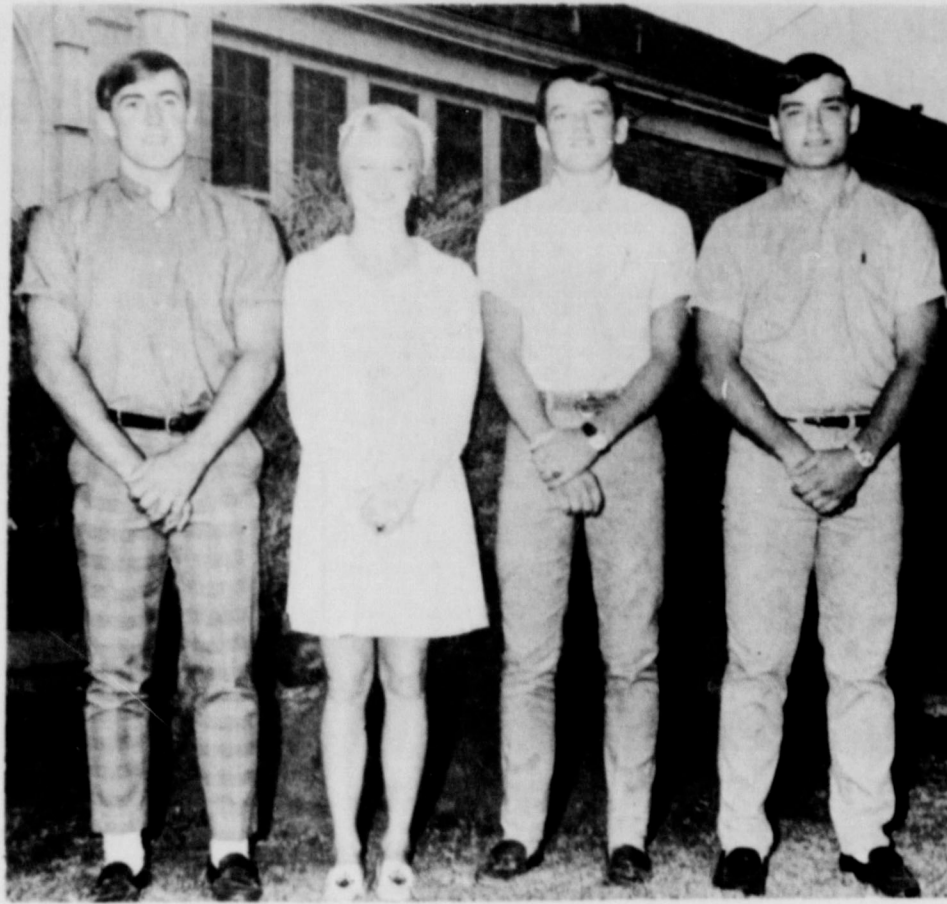

Halloween cookies, mints, and orange punch were served from lovely milk glass appointments. Eastern Star members and Messers present were Mrs. R Campbell, Mrs. Lena Hite, Mrs. M. W. Messer, Mrs. Kenny Hamilton, Mrs. Ray Burgess, Mrs. John Laine, Mrs. Donald Kelley, Miss Pansy Been, Mrs. Homer Starkey, Mr. and Mrs. Roney Smith, Mr. and Mrs. M. H. Been, and Clinton Green.

Wesleyan Service Guild Hold Bible Study

Eight members of the Wesleyan Service Guild met Monday in the United Methodist Church in Earth for their regular meeting with Mrs. Beulah Newton, as hostess.

The program was conducted by Mrs. B. T. Hamilton. The group is currently involved in a thorough coverage of the Bible with all members sharing in the explanation and discussion of various portions of the Bible. Refreshments of baked apples with whipped cream, relish tray, and coffee were prepared and served by the hostess.

Those attending the study were Mrs. Bud Matlock, Mrs. Hershie Below, Mrs. B. T. Hamilton, Mrs. Aurelia Sanders, Ruby Jones, Mrs. Beulah Newton, Mrs. W. D. Martens, and Mrs. David Kelley.

JUNIOR CLASS OFFICERS were elected by popular vote, during a class meeting recently. Those named to the executive positions were Jerry Barden-President, Joan Dudley-Secretary, Kent Coker-Vice President and Tony Barton-Student Council Representative.

Members Of Local Federation Clubs To Attend Board Meeting

Officers and members of the Town and Country and XIT Study Club are invited to attend the Tenth District Board Meeting of Caprock District, Texas Federation of Women's Clubs, in Muleshoe on Saturday, October 25, to be held at Muleshoe High School, according to an announcement by the president, Mrs. Lane Decker of Floydada.

Caprock District Department Chairmen are to meet with the Division Chairmen at 9:30 a. m. Registration will be conducted and coffee will be served by the Muleshoe Study Club from 9:00 until 10:00 a. m. The formal opening will be directed by Mrs. Decker at 10:00 a. m. Lunch will be served in the Muleshoe High School Cafeteria at 11:45 a. m. State Awards will be presented by Mrs. O. C. Ramsey of Silverton, Caprock District, second vice president, during the luncheon, and an address on "Americanism" will be given by the Texas Federation of Women's Clubs parliamentarian, Mrs. Stahlakos Condos of Dallas.

A Federation Workshop will be conducted by Mrs. Henry F. Shaper, Sr. of San Antonio, president of the Texas Federation of Women's Clubs, during the afternoon session. "This workshop to be directed by Mrs. Shaper should be very informative," Mrs. Decker said. "Mrs. Condos is a very outstanding speaker, and these ladies should provide the District with one of the best Board Meeting programs we have ever had. I urge all federated clubwomen in Caprock District to attend this meeting." Registration fee is \$1.50, and the luncheon tickets are \$2.50.

Bob Bundick Speaker At WMU Meeting

Members of the Springlake Women's Missionary Union of the Springlake First Baptist Church met Tuesday morning for their weekly meeting.

Guest speaker for the occasion was Rev. Bob Bundick, pastor of the First Baptist Church in Grand Forks, North Dakota. This is a church which the Springlake WMU and church have aided in mission work.

Rev. Bundick presented an interesting discussion on a new form of religion called, Sokle Gaukie, which is becoming very wide spread in that section of the country. Members of this religion worship a scroll which is called Gahonda. The convey their prayers to Gahonda through beads with three tassels representing the head and two arms, an additional string with two tassels represents the legs. The religion is so evolved that once a person becomes a member threats may be made if he try to cut away from the religion.

Bundick also gave a report on the construction of an Airman Center in Grand Forks and the

missionary work carried on by the local church to these service men.

Those attending the program were Mrs. Don Holmes, Mrs. Herbert Miller, Mrs. Elo Sanders, and Mrs. Lowell Walden.

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, preparing and serving the food and other kindnesses, we are deeply grateful.

Mrs. H. C. Chapman, Mr. and Mrs. W. H. Jones, Earl McNeill, Mr. and Mrs. John Bridges, Mr. and Mrs. A. J. Phillips, Mr. and Mrs. Dewitt Kelley, Mr. and Mrs. Gary Latham.

Mrs. Beavers Designer At Floral Conference

Mrs. Spencer Beavers, of Beavers Flowerland of Muleshoe, attended the Annual Colorado Floral Conference and Design Pageant in Colorado Springs, Colorado October 17-19.

Mrs. Beavers had been invited to attend the annual meeting and show her creative work with flowers. It was reported that Mrs. Beavers was the only designer invited from Texas.

The Design Pageant that began Sunday, October 19 was of great originality and beauty.

Chuck Codner, commentator for the event, praised Mrs. Beavers for her design entries. Of designs entered by three men and two women, Mrs. Beavers design of the United States Flag was the most unusual. It was scheduled to be shown last for effect. The flag was constructed on a styrofoam base and designed in flowers and velvet

ribbons in the respective colors of the flag. It was so arranged as to give a waving appearance as if blowing in a gentle breeze.

The Wedding Extravaganza was also an interesting feature of the meeting. Brides and bridesmaids were featured in dresses of the mini skirt length with appropriate flowers. The traditional wedding gown and flowers were also shown.

Accompanying Mrs. Beavers to the annual meeting and combined sight seeing trip were her husband, Spencer Beavers, son Chester Clay, and his mother, Mrs. Jane Beavers of Earth.

Earth GA's Has Bible Study On Personalities

Members of the Intermediate GA's of the First Baptist Church met Tuesday afternoon under the supervision of Mrs. Jerry Starkes and Mrs. R. S. Cole.

The theme of the meeting was entitled "Personalities Plus." The aim of the meeting was to learn how God used individuals in developing New Testament Churches.

Rules of various Christian leaders were assigned to the members and each girl told the characteristics and contributions of the character she represented.

Those taking part were Margaret Rivers at Peter, Barnabas, and Lydia; Margaret Hood as Paul and Luke; Alice Johnson as John and Mark; and Mrs. Starkes as James. The purpose of the study was to point out the personality differences of Paul, Peter, Barnabas, James, Mark, and other early Christian leaders.

Methodist Women To Observe Call To Prayer

Members of the Women's Society of Christian Service and the Wesleyan Service Guild of First United Methodist Church of Earth will participate this week in one of the most important annual observances of United Methodist women throughout the United States.

The "Call to Prayer and Self-Denial" of United Methodist women focuses on mission study, a much needed offering for special world and national projects, and a deepened spiritual life. More than 1,250,000 in 36,500 local societies and guilds in all 50 states will join in the observance.

The Call is sponsored by the Women's Division of the Board of Missions of The United Methodist Church. The Division, one of the four major units of the Board of Missions, is the national body through which all local Women's Societies and Guilds function.

The theme of the 1969 Call to Prayer and Self-Denial, "Let the Earth Bring Forth," from Genesis 1:24, emphasizes not only the need to feed the hungry today but also to teach them new ways to bring forth from the earth food to meet their needs in years to come.

Two major events are the Call to Prayer Service for Interpretation of the mission projects for which a special offering will be made and the Call to Prayer Quiet Day for meditation, prayer, and a Silent Meal.

The special Program Meeting for women of United Methodist Churches will be held at 5:30 p.m. o'clock October 30 at United Methodist Chapel.

Since 1960 serious crime has risen in the United States 106 per cent, while the population has increased only 12.4 per cent.

Mrs. Gerald Inglis was named Queen at the regular meeting of the Happy Losers TOPS Club Thursday night at the Earth Goodwill Centre with a record weight loss of 24 pounds.

Mrs. Cullen Hay was runnerup with a weight loss of 2 pounds. Sixteen members were weighed in to record a total loss of 11 pounds.

The meeting was called to order by Mrs. Gerald Inglis and plans were made for local TOPS to attend Area Recognitions Day in Sunday, October 17.

Mrs. A. W. Gover made written comments on each member on how they were progressing toward their TOPS goal for weight loss.

Mrs. H. L. Patterson received a TOP pin for losing ten pounds and Mrs. Rayford Daniels received her fourth showing she had lost forty pounds.

Mrs. Cullen Hay and Mrs. Ted Haberer received their KIW TOPS (Kop in Waiting) for reaching their set goal.

The meeting was adjourned by Mrs. Inglis.

Springlake Sunbeams Study Foreign Countries

The primary and beginner Sunbeam groups of the First Baptist Church of Springlake met October 15 for their weekly meeting.

Both groups are currently involved in the study of countries of the world with the primaries studying Brazil and the beginners conducting a study of Japan.

The leaders induce interest by telling stories about the missionaries and their work in these countries.

The beginners enjoyed an activity period working with paints and a discussion on harvest time.

Plans are also being made for the Lottie Moon Christmas Offering. This is an annual Sunbeam project and the group will collect for missions and missionary workers around the world.

Refreshments of cookies and punch were served to the group by members of the Women's Missionary Union of the church.

Air-Conditioned Shoes Fit Comfortably

COLLEGE STATION, -New air-conditioned tennis shoes and sneakers fit comfortably into the warm Texas fall picture. Woven from Cordura nylon the shoe uppers are light weight and durable.

Fannie Brown Eaton, Extension clothing specialist, explains that Cordura, an abrasion-resistant textile, is more than twice as strong as cotton duck of comparable thickness but weighs only half as much.

The fabric is cool to wear because it breathes through hundreds of tiny openings which let air in to the feet. Shoes are machine washable in medium water temperature, non-shrinking and quick-drying.

The casuals, called Jeppers, are available in sizes for women, misses, children, men and boys in several colors, Miss Eaton says.

Soil Chemist Takes Look At Fertilizer Application

COLLEGE STATION-Fall fertilization for spring crops offers several advantages as contrasted to fertilizer application in the spring.

Dr. C. D. Welch, Extension soil chemist, lists these advantages for fall fertilization. Avoids periods of unfavorable weather immediately prior to planting season which may prevent getting into fields when fertilizer must be applied. Applying fertilizer in the fall leaves soil undisturbed and thus conserves moisture for planting. Utilizes labor and equipment during periods when not needed for other farming operations.

Also, takes advantage of "off-season" prices and aids in avoiding temporary shortages of some fertilizers.

But Welch points out that it is difficult to generalize about fall fertilization and individuals must weigh advantages against such factors as lost nutrients from early application, soil characteristics and cropping systems and environmental factors such as temperature and rainfall.

Application of nitrogen in the fall should be considered only if ammonium forms are used, if soil temperature remains below 50-55 degrees F. during the period before planting and if

Space Meals May Appear In Grocery Stores

COLLEGE STATION-"Spoon-bowl" and "wet pack" meals like those used by Apollo astronauts may someday appear on the supermarket shelf.

Spoon-bowls, explains Gwendolyn Clyatt, Extension consumer marketing specialist, are bowl-like zipper topped plastic bags from which freeze-dried foods are eaten with a spoon.

Wet-pack meals consist of regular undehydrated foods wrapped in aluminum foil.

Soups, prepared foods and other away-from-home specialties may soon be packaged in the "Eat-Fast-Tube," a flexible plastic tube with a closed seal across the top," Mrs. Clyatt reports. The consumer places

Veterans Taking Flight Training Under GI Bill

More than 25,700 veterans are currently taking flight training for a commercial pilot's license under provisions of the GI Bill. Jack Coker, Manager of the Veterans Administration Regional Office in Waco, disclosed today.

Since flight training was approved by Congress in October of 1967, a total of 38,588 veterans have taken advantage of the course.

Provisions under the GI Bill require that a veteran must first possess a private pilot's license, or its equivalent, and must meet the medical requirements for a commercial license, Coker said.

An eligible veteran entered into an approved flight course will be paid an educational assistance allowance computed at the rate of 90 percent of the established charges for tuition and free which non-veterans enrolled in the same flight course are required to pay.

According to Coker, these allowances may be paid monthly by the VA upon receipt of a certification from the veteran and the school as to the flight training received and the cost to the veteran during such month.

The eligible veteran will be charged one month's educational entitlement under the GI Bill for each \$130 which is paid to him as educational assistance allowance for a flight course.

Coker said that flight training as a part of an approved college degree program is also available to veterans.

AUCTIONEERS CRY PIG SALE. A large crowd was on hand Saturday for the Seventh Annual FFA Pig Sale. A total of \$11,000 was taken from the sale of 250 head. Auctioneers were L. D. Henderson, Quinton Jenkins, and L. C. Kelley.

Miss Avery Excels In Scholastic Activities

Pam Avery, senior student at Altus High School, and former student at Springlake-Earth, has combined her beauty and brains

to make a success of her two and a half years of school at Altus High.

Pam moved to Altus, Oklahoma, a sophomore from Earth and lives with her parents Mr. and Mrs. Doug Avery in Altus. She was a member of the Student Council, Future Homemakers of America, and band when she moved to Altus.

Pam has been announced as one of the Merit Scholarship Commendation winners by rating in the top two percent in the nation in the tests.

She is also in the top one percent of the ACT test with a composite score of 30. This was a score that she achieved as a junior because circumstances would not allow her to take the test as a senior.

Pam has been awarded superior rating as a twirler for the Altus Band and first in Spanish I and third in the state on the National Spanish test.

When she noticed a news story announcing the Rural Electric Cooperative contest last year she entered and won a trip to Washington D.C. in June.

With all of the band activities, and outstanding grades at Springlake-Earth High and now at Altus High, Pam is making preparations for a full college load.

Pam is the granddaughter of Thelma McClanahan of Springlake.

Training Union Tour County Jail

Members of the Intermediate Training Union of the First Baptist Church in Earth were privileged to tour the Lamb County Jail in Littlefield Sunday, as an extended education on the subject of crime.

Gary Lightfoot, jailer, gave statistics on the increase in crime. He also showed the group the system of filing for the Lamb County Jail and the procedure when making an arrest. The group was then permitted to view the jail.

Those attending were Kathleen Anderson, Cindy Wood, Terri Inglis and Mr. and Mrs. Hershul Hulcy and David Routon, sponsors.

October 16, 1846—The first painless surgery demonstration with anaesthesia was performed in Boston, Mass.

October 20, 1862—The First Presidential Executive Order to be numbered was issued by A. Lincoln.

The United States spends almost as much money to build, maintain and operate its highway systems as the rest of the world combined, according to the International Road Federation. This year, highway outlays are expected to exceed \$17 billion.

Steers Trample Wolverines In District Play

The Wolverines lost a heart breaker to the Farwell Steers Friday night in the first district game of the season for either team.

Scoring began in the first quarter with a 12 yard touchdown pass from Hargrove to Danny Prince. The point after was kicked by Bob Wiman.

The Wolverines scored next on a 7 yard run by Hoyt Glasscock with the point after missing.

The Steers came back with a Glasscock pitchout interception by Frank Galvan, who ran 24 yards for the score. Wiman added another point, making the score at the end of the first quarter, Farwell 14-Springlake-Earth 6.

The only scoring in the second quarter was on a 3 yard run by Dean Stovall, with point after kick failing.

The score at halftime was Steers 20-Wolverines 6.

The second half started with Glasscock scoring from the one yard line. The pass for extra points failed.

Farwell came back with a 4 yard run by Barry Williams with Wiman kicking the point after making the score Steers 27-Wolverines 12.

The Steers did their final scoring in the fourth quarter, with Hargrove scoring from 2 yards out. Wiman kicked the final point.

The final score was Farwell Steers 34-Springlake-Earth Wolverines 12.

In statistics the two teams were pretty evenly matched.

Jr. High Teams Win One, Lose One

The seventh and eighth grade Jr. High Football Teams, under coaching direction of Travis Sura, met the Farwell Jr. High Teams October 16 in Wolverine Stadium.

The games began at 5:00 p. m. with the Wolverine seventh graders upsetting the Farwell team. The local team took their first win of the season. The final score was Springlake-Earth 14 and Farwell 6. Doug Jones, seventh grader, scored both touchdowns for the local team.

Members of the eighth grade were unsuccessful, but did manage to score six points against Farwell. Richard Gauna made the score for Springlake-Earth. The game ended with the score board showing 7-6. Both teams will meet the Bovina Jr. High Teams Thursday, October 23 at 5:00 p. m. in Bovina.

Watch For Prussic Acid Poisoning In Livestock

The recent freeze over much of the High Plains brought an abrupt halt to cotton and vegetable production and may also prove detrimental to livestock producers if certain precautions aren't followed. Caution should be exercised when grazing livestock on johnsongrass, sudan, sorghum-sudan hybrids, grain sorghum and forage sorghum because of prussic acid poisoning, points out Buddy Logsdon, Lamb County Agricultural Agent. "When the growth of any type sorghum is slowed or stopped by freezing temperatures or drought stress, certain chemical changes occur in the plant and sometimes a high prussic acid content develops, especially in young growth," explains the agent. "An animal that feeds on such plant material can be poisoned and can die in a very short time. Whether or not an animal can be saved depends on how soon a veterinarian can get to it."

"A good way to check grazing safety is to turn one or two animals into a suspect field and watch them for a day or two," says the county agent. "Be sure water is available to them or the symptom may be delayed." If poisoning is suspected, Logsdon advises to consult your local veterinarian at once. However, good grazing management is the best preventive against animal losses from prussic acid poisoning.

Logsdon cautions livestock producers to keep an eye on their stock if the animals are grazing plants that might be potentially dangerous. Animals that have been poisoned may stagger and act sleepy before suddenly dropping dead, he points out. Severe muscular twitching is sometimes seen. Labored breathing and frothing from a wide-open mouth are common symptoms. An animal may grind its teeth and turn its head into its flanks. The breath usually has an almond-like odor and mucous membranes appear congested. The blood is often cherry red. Death results from suffocation, since the poison prevents the exchange of oxygen from the blood to the tissue.

Strength and beauty are his sanctuary.—(Psalms 96:6). Let us cultivate the habit of looking for beauty. Nothing brings us in closer touch with the omnipresence of God than seeing the beauty He has created everywhere. We do many things to develop our mind and our body, but to cultivate the habit of seeing beauty develops the soul.

Crop Week Set For October 26 - November 1

Governor Preston Smith has designated the week of October 26 to November 1 as Texas CROP Week. The designation has been made by Official Memorandum recognizing CROP as "the only statewide community food appeal in our state for the overseas programs of our churches." CROP is the Community Hunger Appeal of Church World Service but also handles designations to overseas relief agencies other than Church World Service such as American Friends Service

Committee, Catholic Relief Service, Lutheran World Relief, Mennonite Central Committee, and others. Church World Service, a relief agency of 31 national church bodies, has served in compliance with the Food for Peace Act, and has carried on programs in 50 countries through programs of the churches. It has responsibly handled over 4 billion pounds of material aid during its 23 years including both Food for Peace commodities and those contributed by the people

of the United States through CROP and other church appeals. CROP in Texas is sponsored by the Texas Conference of Churches, and local CROP canvasses are sponsored by county CROP Boards, local Ecumenical Youth Councils, Jaycees, and local churches, Ministerial Associations, local Councils of Churches and Councils of Church Women United.

NFO Members Advised To Hold Grain For Price Raise

The NFO has conducted a series of meetings in the grain sorghum producing areas and his initiated a grain sorghum holding action. NFO members have been advised to hold their grain sorghum for contracts and for a base price of \$2.30 cwt. in the heart of the grain sorghum producing area with transportation differentials added to the price in other areas. This means up \$2.80 cwt. in the State of California.

The grain sorghum holding action was initiated for three main reasons:

1. It was felt that the government estimate on this year's crop was greatly exaggerated and was being used to try to beat down the gains NFO members had already made in grain sorghum bargaining.

2. Although the NFO collective bargaining program has raised grain sorghum prices 30 to 50 cents cwt. above support prices, this is still not a satisfactory price and must be raised further.

3. This action will step up NFO's action to block grain sorghum together so that grain sorghum can be fed onto the market at a more satisfactory price to the NFO members.

The NFO members are being

asked to contact all non-members asking them to join the NFO and to hold their grain sorghum.

The NFO is advising its members to store and hold all other grains at harvest time. Additional steps will be taken to increase all grain prices. These steps will be announced at a later date.

Particular emphasis will be placed on yellow corn and wheat. Due to the tightness in movement of feed grains, wheat is now being used for feed which will change the position of wheat to a more favorable climate for bargaining.

The Old Timer

"An inheritance is the wealth of a departed relative which brings a family together to be divided."

WOLVERINE MANAGERS—Clifford Daniels, Samuel Lewis, Mike Wages, and Steve Randolph, are serving the Springlake-Earth B Team as managers this season. Managers go a long way to making a good team.

Widows May Be Eligible For Pension

Under current law, according to Jack Coker, Manager, Waco VA Regional Office, qualified widows of wartime veterans who have died of causes not related to their service are eligible if their income is no more than \$2,000 if they have no children, and no more than \$3,200 if they do.

If a widow does not qualify for a pension because of a higher income or because she remarries, her children may still be eligible to receive pensions.

Pensions are based on need, Coker explained. Compensation is paid to the survivors of veterans who die of service-connected causes, and the income of the survivor has no bearing on eligibility or the amount paid.

Persons seeking further information were urged to contact their nearest VA office, Coker said.

SCOUTS STUDY KNOT TYING

Twenty-two members of Boy Scout Troop 614 met Tuesday night at the Scout Hut in Earth for their regular weekly meeting.

The main event of the evening was a session in learning to lash and tie knots, taught by Bill Morgan and Scout Master, Travis Jaquess.

The local Scout's divided into four patrols and selected leader's for each patrol. The four patrols are Panthers, Dyle Gaston, leader; Hornets, Corky Hoppings, leader; Owls, Chris Espinosa, leader; and Eagles, with Kenny O'Hair in charge. The Scout Master, patrol leader and senior and assistant patrol leaders will meet once each month to plan meetings for the Troop.

Curing Phobias By "Flooding" Method

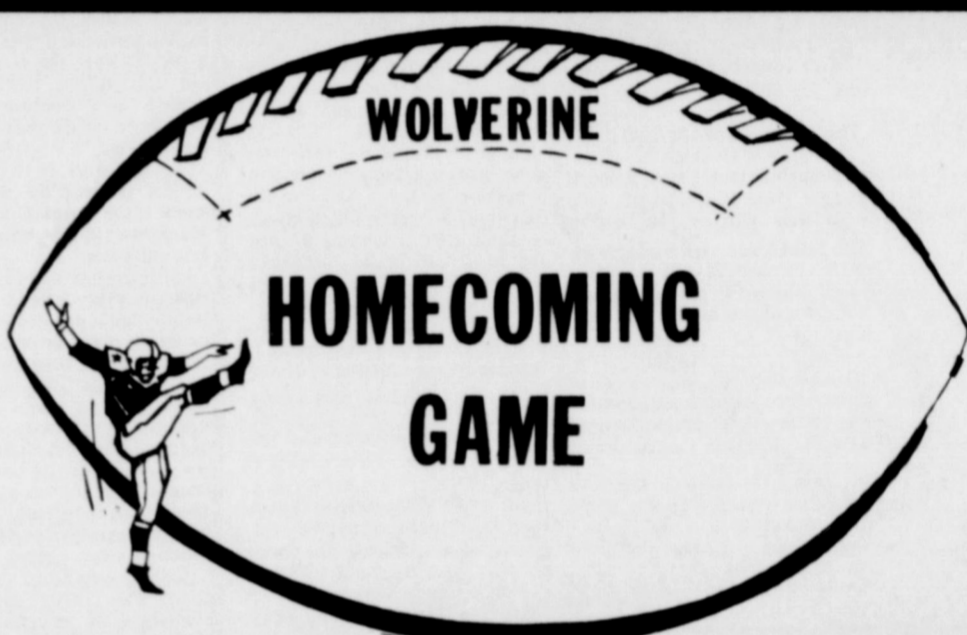

London—The 42-year-old Englishman had been deathly afraid of open spaces for 16 years. Now his phobia was so overwhelming that even with sedation he could not bring himself to leave his house.

Desperate, unemployed, he finally agreed to submit to an experimental technique where, in his imagination, he would face what he most feared, he would picture himself outside, surrounded by searing people, while the psychiatrist would continuously embroider the fantasy so as to maintain terror at the highest possible pitch for the longest possible time.

In the British Medical Journal, the psychiatrist, Dr. J. M. Marks, reported striking success. By the tenth session, the patient forced himself to cope with the reality of his phobia by living through the same horrifying scenes he had imagined. After 16 sessions, he was dismissed as "more confident (and) no longer miserable."

Two other patients, including a young woman terrified of spiders, showed even more striking improvement. A fourth patient was not helped.

Dr. Marks believes the "flooding" technique needs further testing but he hopes that enduring the hitherto unendurable will teach people with phobias that their fears are truly baseless.

Mutscher - Clayton To Continue Support Of Water For Texas

AUSTIN -- Speaker of the House, G.F. (Gus) Mutscher said that he and Springlake Representative Bill Clayton will continue their active support for adequate water for Texas during the interim. The Speaker named Rep. Clayton to the Water Study Committee, that was created by Clayton's House Concurrent Resolution 12, along with John Allen of Longview and Rex Braun of Houston.

"Mr. Clayton has served as a member of the Committee on Conservation and Reclamation since he was a freshman legislator in 1963," Mutscher said. "Every major piece of water legislation since that time has had Bill Clayton's name as author, co-author, sub-committee chairman or conference committee member."

Texas Water Development Bond to \$3,500,000 in no way meant that Texans are unwilling to accept their responsibility to the future and its needs.

"There is no question of the importance of planning today for the population and economic growth of Texas nor is there doubt that much of the development of our state is dependent on sufficient water," Mutscher said. "How best this vital goal of adequate water can be developed and financed will be the work of the Interim Study Committee on Water. The Speaker said that he expected the committee to be especially interested in finding alternative means for financing this important project of water needs of the citizens of Texas in the years to come."

"The Committee will take a detailed, close look at all the ramifications of the Texas Water Plan in relation to its benefits to each area of the state," Mutscher said. He added that the committee will hold hearings throughout the state in an effort to explain existing water

Need-To-Know About Drug Abuse:

EDITOR'S NOTE: In this fast-paced, quick-changing world with information exploding all around, we hear much about narcotics and drug abuse. But what are the facts as science knows them today?

Everyone has a right and a personal "need-to-know." In this series of five articles based on scientific information from the National Institute of Mental Health, up-to-date facts are presented about LSD, marijuana, narcotics, pep pills, sleeping pills, and other abused, dangerous drugs. The series gives you the fundamentals you need-to-know about drug abuse today:

LSD: WILL IT TURN YOU ON OR WILL IT TURN ON YOU?

No drug has caused more controversy, with the possible exception of marijuana, than the strange compound known as LSD.

Is LSD dangerous? Definitely yes, says the National Institute of Mental Health, Federal agency focus of a new nationwide attack on the abuse of dangerous drugs and narcotics.

Hospital and other medical studies show that LSD can cause panic, paranoia, and accidental death.

Reactions to taking LSD range from worry, panic, and depression to severe mental derangement.

Days, weeks, even months after a dose of LSD has been taken, the things the user thought that he saw and felt may recur in his mind and make him fear he is going insane.

The physical effects LSD can produce are far from pretty. Eye pupils dilate, hands and feet shake and tremble uncontrollably, palms turn cold and sweaty, the body shivers and turns chilly, goose pimples pop out, breathing is irregular. There is loss of appetite and nausea; and the pulse and heart rate rise, as does blood pressure.

LSD is short for lysergic acid diethylamide. A man-made chemical first produced in 1938, it was accidentally discovered in 1943 to produce bizarre effects on the mind when a Swiss chemist swallowed some LSD while working in his laboratory. He had strange sensations and felt as if he were flying.

Despite this soaring start, LSD was little explored in following years as far as definitive pharmacological studies in man were concerned. The weird compound lay around, studied by some drug researchers but ignored by most. Then the wave of far-out experience seekers washed up a few years ago, LSD became the darling of the daring. It was claimed to give you great feelings and increase many capacities, like sex and creativity.

None of this has proved out. In fact, the reverse may be true. But many fables and fallacies like these have spread about LSD. The following facts come from research, not from fantasy and rumor.

Studies have shown that LSD is more likely to decrease sex interests than to increase them. Paintings, writings, and other works by LSD-users fail to show greater talent; rather, the works are poorer when done "under the influence."

Worse, LSD is dangerous. It can cause panic (fear of losing one's mind), mental derangement, and accidental death. It has been called the most powerful drug in the world. No wonder: 25 micrograms is an amount almost invisible to the naked eye. Yet this amount will produce an effect in most people.

Classed as a hallucinogen and psychedelic—which mean mind-affecting or mind-altering—LSD is a member of a group

Ever wonder why your kid doesn't take you seriously when you lecture him about drugs?

EL TORO, CALIFORNIA—October 3—Marine Sergeant David C. Kersh, son of Mr. and Mrs. Alva Kersh of Route 2, Olton, was promoted to his present rank while serving with Marine Light Helicopter Squadron 267, Mar-

ine Corps Air Station, El Toro, California.

His promotion was based on time in service and rank, military appearance, and his knowledge of selected military subjects.

Squadron pilots fly the UH-1E "Huey" and OV-10A "Bronco" helicopters, to conduct aerial reconnaissance, medical evacuation and transition pilot training.

SAN DIEGO—September 30—Hospitalman Apprentice Walter B. Little Jr., USN, son of Mr. and Mrs. Walter B. Little of 502 W. 20th, Maleshoe, was graduated from the 14-week basic Hospital Corps School, San Diego, California.

The school is located at the Naval Training Center here and is designed to train both men and women of the Navy and Coast Guard.

Taught by Navy nurses and senior hospital corpsmen, the curriculum covered instruction in patient care, the study of anatomy and physiology, minor surgery, the nature and prevention of communicable diseases, and the administering of medicines.

In addition to attending classes, he worked with doctors and nurses at the Balboa Naval Hospital where he put to practical use the knowledge gained in the classroom.

USS CONCORD—Machinist Mate First Class Robert G. Parish, USN, son of Mr. and Mrs. Clyde D. Parish of Earth, and husband of the former Miss Audrey L. Kooy of Norfolk, Va., participated in relief operations in the flood isolated areas of Central Tunisia.

He is serving aboard the Sixth Fleet supply ship USS Concord in the Mediterranean.

With its two CH45A helicopters, the Concord airlifted food and medical supplies to aid flood victims in four inland cities and towns. In addition to supplies, 16 medical personnel from the S. S. Hope at Tunis were flown in to administer inoculations against threats of epidemic.

of drugs which include other compounds like marijuana, peyote, mescaline, psilocybin, DMT, and STP. Except for government-approved use for research, LSD is illegal in the United States.

Because LSD is dangerous when not used for careful research under close medical supervision, it is closely regulated by Federal and State laws. These provide stiff penalties for illegal production, sale, other disposition, and, in some cases, for possession or use.

Because more knowledge is needed about this powerful compound, broad scale research is underway to learn fully about its chemistry, animal and human effects, and whether it can have any medical or other real values.

This is another part of the national attack on abuse of narcotics and dangerous drugs of all kinds. On the educational side, newspapers, magazines, radio, and television are enlisting in the fight in a new campaign to provide everyone with accurate information.

CONTEST RULES

The teams that are playing in this week's contest games are listed side by side in the official entry blank on this page.

Use the handy entry and mark out the teams you predict to lose. Print the scores you predict in the tie-breaker game in the spaces provided.

Each week's entry must be turned in or mailed to the Earth News-Sun office. Contestants are given a week to prepare and turn in their entries.

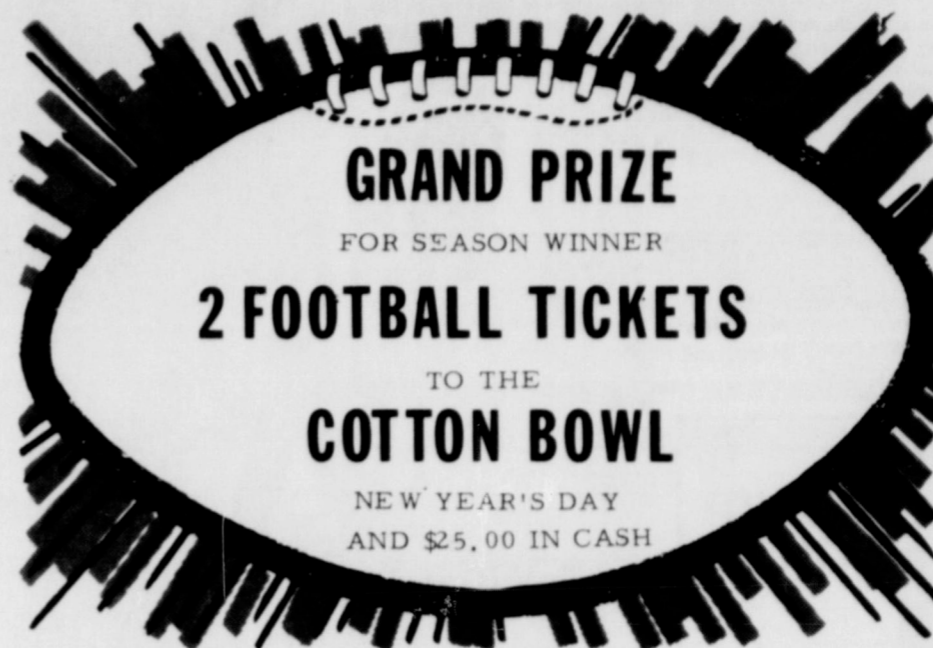

Entries must be in by 4:00 p.m. Friday or postmarked on that date. All late entries will be discarded.

In case of ties, a coin will be flipped to determine the winners.

Each week the number of games correctly predicted will count toward each contestant's season total. The person picking the most games correctly for the entire season will receive the grand prize. In the event of a tie on the season total, a coin will be flipped to determine the winner.

The weekly prizes will be given to the persons picking the most number of games for that week. The tie-breaker will count as one of the games picked, and the predicted scores will be used to determine the top three places in that week's contest, if necessary.

Only one entry per person is allowed.

Llanos Altos Altos Association Holds Annual Meeting

The Ninth Annual Session of the Llanos Altos Baptist Association met at 9:15 a. m. on October 17, in the First Baptist Church of Dimmitt, with 131 elected messengers attending the meeting. Activities for the meeting were based upon the program theme entitled, "Be Ye steadfast-Unmovable-Abounding." The official welcome was given by Raymond Perkins, First

Baptist Church, Dimmitt and the scripture, Ephesians 6:11-18, read by Rev. R. B. Hall, Littlefield.

A memorial service for 62 members of area churches who had died during the past year was conducted by Glen Wilson, of Amberst.

A short business session was conducted by J. L. Bass, moderator from the First Baptist Church, Farwell. Business discussed was the adoption of the Book of Reports, approval of 1969-70 budget, election of officers, adoption of calendar, petition of new churches, and other miscellaneous items.

The highlight of the meeting was the annual sermon at 12:00 noon by J. R. Manning, First Baptist Church Sudan. He gave the summary of the whole Associational meeting by discussing the program topic.

Lunch was served to members of 33 churches in the Llanos Altos Association by the Dimmitt First Baptist Church.

Elected to serve as messenger for the local Earth First Baptist was David Hartman, pastor.

Time To Replant House Plant

COLLEGE STATION. ---It's time to re-pot house plants, says Everett Janne, Extension landscape horticulturist, and here is his recipe for soil mixture for potting:

Mix two parts good garden loam, two parts of peat moss and one part sand. Well rotted manure of shredded leaf mold may substitute for peat moss.

Garden soil usually is not suitable for potting plants, explains the Texas A&M University specialist. It is usually too low in organic matter. The home-made mixture provides the three things most needed by potted plants: support, good soil aeration, and ability to hold adequate moisture and nutrients.

To kill disease organisms, insects and weed seeds, pasturize the soil mixture by placing it in a shallow pan for 30 minutes in an oven preheated to 200 degree F. The soil should be moistened before placing in the oven.

Always use clean tools and new pots or soil may be reinfected with harmful organisms. Used clay pots should be given the

same pasturization treatment as the soil. Plastic pots should be washed thoroughly in hot soapy water, Janne advises. A simpler and much easier way to handle pot plants in the home is to purchase the prepared mixes available in your nursery or garden supply center.

Town Crashes Up In Texas

AUSTIN. --Traffic accidents took almost \$69 million out of the public till during September, the Texas Safety Association noted today.

The total cost of traffic accidents on Texas streets and highways has soared past the half-billion dollar mark during the first nine months of the year, reaching \$589 million when computed according to a National Safety Council formula.

Preliminary reports for September indicate an estimated \$26 million lost from rural fatalities, injuries and property damage. Urban accident costs added another \$43 million to the tab, safety officials estimate.

Noting a six per cent increase in fatalities in urban areas over the same period in 1968, the Safety Association emphasized the continuing need for the constant use of seatbelts as a driver's chances of survival in a crash are five times as great if he is not thrown from the car.

ROOTS

Deep plowing along with fall fertilization stimulates much deeper root penetration than does merely tilling in fertilizer. This markedly improves utilization of soil which are particularly important during dry summers.

LOSS

Fall plowdown of fertilizer provides some very important side benefits: Insect and weed control are improved and decomposition on crop residue proceeds much faster after plowdown of fertilizer. These result in better soil condition for planting next spring.

EFFICIENCY

Soils are usually dry and firm in the fall. Winter's freezing and thawing action tends to overcome any compaction caused by fall plowing and application.

RESIDUE

Fall plowdown of fertilizer provides some very important side benefits: Insect and weed control are improved and decomposition on crop residue proceeds much faster after plowdown of fertilizer. These result in better soil condition for planting next spring.

SEED

Finally, a reminder: Delay a day after optimum planting time and you'll cost yourself a bushel of corn in yield. That's a loss of 100 bushels each day on 100 acres. Apply your fertilizer this fall and use a soil thermometer as your planting guide. As soon as the soil temperature reaches 50 degrees at a four-inch depth, go out and plant. Plant with the knowledge that your crop has plenty of plant nutrients available, thanks to last fall's work.
