NUMBER 10

South Plains Hospital Clinic

In order that we might clarify our part in the Lamb County Hospital Authority's Certificate of Need Application we would like to release this information. The board of directors of South Plains Hospital-Clinic bears no ill will toward any facility or organization. We feel that the residents of Lamb County are interested in the plans that are being made for their future health care needs and they deserve to be fully informed.

Our participation in this hearing is out of concern for the health care needs of the entire county, the patients in the area that we serve and our own facility's relationship as a whole. We contend that the people are entitled to responsible representation by those who have accepted the grave responsibility of making decisions concerning the health care needs of our entire county. They should have a general knowledge of the health care planning law, P.L. 93-641. They should be aware of current DHEW regulations and proposed regulations that could affect health delivery.

The people should be given accurate information

about the number of beds requested in the project, as well as the total cost. The certificate of need application was for a 75 bed hospital at a cost of \$6,900,000. The financial statistics reveal that \$200,000 will be paid to HAI for a development fee, \$75,000 for the hospital land, and \$225,000 annually to HAI for management fee. \$425,000 will leave our area in the first year and \$225,000 every year thereafter.

The semi-private room rates for 2 or more beds will be \$82.00 per day. Residents should preview their hospital insurance coverage. It's unlikely that adequate coverage will be provided in this area.

Contrary to expressed opinions, we are not opposed to facilities that will provide adequate coverage for the health needs of the entire county. We are opposed to the lack of health care planning. Testimony in the hearing revealed that the north two-thirds of the county was never consulted in the health planning effort. We do not feel that the potential economic prosperity of one city should be the deciding factor in the health care planning of the

entire county.

Never before in the history of health care has government influence been so strong. We are violently opposed to the DHEW proposed regulations published in the Federal Register on September 23rd. Yet, we must respect the possibility of these regulations becoming a reality. O. Ray Hurst, President, Texas Hospital Association, Austin, said in a THA news release on September 29, 1977, that hospital beds and services will be rationed if Department of Health, Education and Welfare proposed "standards" are adopted. Hurst went on to point out that these proposed regulations mean that within five years Texas will be required to reduce the number of hospital beds by approximately 17,500. He said that this will be accomplished by forcing the closure of entire hospitals or portions of hospitals.

Statistical data from all the hospitals does not indicate a sufficient number of patients to ensure the economic health of a new 75 bed hospital at a cost of \$6,900,000.

In light of all this we must be realistic. We are also currently engaged in capital expenditures for renovation replacement. The transcript of the hearing will verify that our facility's future existence has been tossed about publicly and lightly in the past by those directly involved with the proposed new hospital. We would be naive to discount the power of a large corporation such as HAI, after hearing testimony of their past persuasive strength.

We acknowledge that Amherst is small, as are Sudan, Springlake, Earth, and Olton when compared to Littlefield. Small as we are, we are still an integral part of the county. Because of the conditions set forth in Article IX of the Texas Constitution this will probably always be. We do not apologize in demanding recognition as part of the county. We do ask that our positions and situations be included and considered in all political decisions.

All references to the Certificate of Need Application may be verified from the application, which is now available, and the transcript of the hearing which will be available shortly.

NOTICE

The Earth Chamber of Commerce will hold their monthly meeting Friday, November 4 at 8:00 at the Citizens State Bank.

NOTICE

Wednesday, November 9, at 10:00 a.m. a luncheon will be held at the Fellowship Hall of the First Baptist Church of Springlake.

Prior to the luncheon Mrs. L.C. McLain will speak on ERA and IWY.

All area ladies are invited.

NOTICE

Mrs. L.C. McLain will speak Sunday, November 6 at 8:00 p.m. at the Dimmitt High School Auditorium.

Men and women are all invited to attend.

Clayton Coursey To Speak

Clayton Coursey, a Southern Baptist missionary to Kenya since 1969, will speak at the First Baptist Church on Sunday night. Rev. Coursey received a B.A. degree from Wayland Baptist College and a Master of Education from North Texas State University. He has also attended Southwestern Baptist Theological Seminary. He has pastored churches in Texas and Idaho.

In 1969 he went to Kenya to teach in the Mombasa Baptist High School. In 1974 he was transferred to general evangelism, opening a mission station in Malindi, Kenya. He has been involved in church development since that time.

Band To Perform At Tech Homecoming

Members of the Springlake-Earth High School "Pride of the Wolverines" Marching Band, have been invited to perform at the Texas Tech Homecoming Parade and game this Saturday at Jones Stadium in Lubbock. Members will march the parade down Broadway, which starts at 10:00 a.m. and then will attend the game later that afternoon.

At marching contest Tuesday, the Wolverines Band received a Division III rating. Only 4 bands of the 16 Class A bands received a Division I rating, 2 bands received Division II ratings; 7 bands received a Division III rating; and 2 bands received a Division IV rating. The contest was held in Jones Stadium, where the winds were gusting to 30 m.p.h. The judges comments were mainly about our playing problems; however, they were pleased with our marching ability.

Successful Grand Opening

The grand opening Monday at the Farmers Co-op was quite successful with some 107 people registering and approximately 150 persons calling throughout the day.

Cookies, punch and coffee were served to those who called and Yo-Yos and candy were given to the children.

Those winning door prizes included Benny Sufree, a maintenance-free battery; Smoke Detector, Carl Jones, High lift Jack, Billy Hodge; Trouble lamp, Jimmy Nix, Whole ham, Dallas Henderson; Case of Diesel Engine oil, Pete O'Hair; Growers Jacket, Kim Bock; 5 piece Husky screw driver set, Dan Carter; Case of six gallons Anti-freeze, Ruby Shelly; Case of oil filters, C.L. Houchin; Gallon of Latex white paint, Tommy Wheatley; Growers Jacket, C.W. Meeks; 6 Amp Battery Charger, Dewayne Jones; 10 No. Laundry Detergent, Elzee Anglin.

Special guests included Guy Bell, and Jackson Ashburn, Farmland Representatives from Amarillo, Martin Man Warner, Assistant General Manager of the Southwestern Division from Amarillo, John Barnes and Ed Briham of Lubbock, Dan Pope FMC of Lubbock, Grower Seeds Salesman, Jim Myers of Lubbock, Don Riggs of Tusha Builders of Lubbock.

It has been announced that David Brittain of Olton has been named Manager of the Farm Store and Warehouse. He and his wife, Kathy have a four year old daughter, Melissa and a 2 year old son, Kris. They hope to be moving to Earth in the very near future and are looking forward to helping all former and all new customers. Brittain states that the main purpose of being in this business is to be of service to everyone and asks that if you have a problem relating to Farm business, please come by and let them know and see if they can be of service and help to you. They will be providing the best possible service to all.

Industrial Arts Club

The 1977-78 Springlake-Earth Industrial Arts Club, Chapter 269 of the Texas State Industrial Arts Association (TSIAA) has 24 members.

The following officers have been elected: President, Tom Graham; Vice President, James Hanson; Secretary Treasurer, Lindsey Field; Parliamentarian, Roy McGowen; Reporter, Michael Graham. Wendell Horn is the club sponsor.

The club is currently working on a scrapbook and individual projects for the regional fair in April. They will also have small wooden projects

available for sale for Christmas. These will consist of chopping blocks, wooden bowls, cuspidors, simple toys, puzzles, and odds and ends.

The money will be used to finance the trip to the State Industrial Arts Fair.

If you would like to order any of these items which will be on display at the school, please contact Mr. Horn, or any club member.

We have a new club, and will appreciate your support.

Awards Presented to SWPS Employees

Two employees of Southwestern Public Service Company from Earth were presented awards Thursday (October 27) for service for twenty and twenty-five years.

The award certificate for twenty-five years was presented to Billy M. Pittman and the award for twenty years was presented to Melvin A. Kinnison. The awards were presented by Berl M. Springer, SPS president and chief operating officer, at a service awards dinner at the Lubbock Country Club.

One hundred three employees from Southwestern's Southern Division were honored. This was the first of four service award dinners to be held throughout the company's territory. A total of 318 employees from the entire SPS system, with a combined service of 5,105 years, will be honored.

PUBLISHERS NOTICE

We wish to apologize for the appearance of the paper this past few weeks. We have just recently installed a new offset printing press. We felt sure that the transition would go unnoticed, but much to our regret, we have encountered much difficulty in learning the intricacies of this sophisticated piece of equipment. We feel sure that a few weeks of experience will more than make up for the hardship and our readers and advertisers will benefit from this installation. Thank you for your patience during this changeover.

Hospital Admittance To Be Rationed

Hospital beds and services will be rationed if the Department of Health, Education and Welfare (DHEW) proposed "standards" are adopted.

So said O. Ray Hurst, President, Texas Hospital Association (THA), Austin, as he described the DHEW proposals published in the Federal Register on September 23, 1977.

Hurst stated that such loss of beds coupled previously announced ceilings on

allowable patient days means that one in every four patients that need to be admitted to a hospital will be turned away."

He pointed out that this will be accomplished by forcing the closure of entire hospitals or portions of hospitals.

The proposed guidelines as published will require hospitals to have an occupancy rate of at least 80 percent over all. Also a hospital must have, in order to maintain obstetrics

services, a minimum of 500 deliveries per year (2,000 in or near cities over 100,000). Hospitals will be required to comply with special restrictions on open heart surgery, cancer therapy, renal dialysis and cardiac diagnostic procedures. In addition, there are geographic restrictions on services that are available to a community within 45 minutes travel time.

Hurst pointed out that "a part of the stated purpose of these proposed guidelines is to reduce health care cost while improving the care of the patients, yet no consideration is given to the medical needs of the community. The THA Statewide Hospital Productivity Center that has been in operation for two (2) years has saved Texas patients over \$100 million dollars. This type of voluntary system could be used as an example of efficiency

by the private sector without Federal mandates for limiting and rationing of quality health care."

DHEW is giving the public, hospitals and physicians until November 22, 1977, to comment on these proposals. Comments will be received by Health Resources Administration, Room 10-22, 3700 East-West Highway, Hyattsville, Maryland 20782.

Hurst said "THA is encouraging all persons interested in the continued availability in Texas of quality health care to respond to these proposed limitations. Although these proposals are from the bureaucrats, no doubt U.S. Senators and Congressmen will be

interested in the public's views on these limitations and the rationing of health care."

THA is the Austin based trade association of hospitals in Texas with over 700 institutional members.

There are said to be two million comets in the solar system!

The **heat pump**
"THE ELECTRIC SAVINGS MACHINE"
HOW MUCH HEAT DOES THE HEAT PUMP PUMP?
Neither glacial January winds nor a simmering August sun can affect the heat pump's year round circulation of air, at just the right temperature.
Now you can stop fussing with the thermostat on those in-between days, too. The heat pump is an automatic climate control system that switches from heating to cooling to maintain the precise temperature you want. On very cold days, resistance heating coils (installed with the heat pump) automatically supplement the heat extracted from outside air. THE HEAT PUMP IS AN ELECTRIC SAVINGS MACHINE. LOW ON COST. SLEW CREW

SLEW Crew Loses

The SLEW went against the Hart Longhorns and lost 48-6. The game saw Hart move the ball very well. They scored points in every quarter. The SLEW were able to move the ball between the thirty yard lines, mistakes stopped several SLEW drives. Ricky Smith and Ronnie James had a very good night running the ball. In the fourth quarter the SLEW moved the ball 68 yards for a score

by Tim May from 7 yards out. The Defense which has played very well at times this year played well in the 4th quarter. The defense blocked a field goal, Keith Clayton blocked it and Lexie Fennell recovered. The SLEW ran a kick off reverse with James Herriage nearly going all the way.

Jim Gonzales came in and played well at Quarterback. Lonnie Nienast caught the ball

well. Mike Smith had a good night at defensive back. Allan Moore did a good job as center.

This was our last game at home. The SLEW will travel to Kress this Friday at 7:30 to go against a good team. The support of all the fans is encouraged.

The Junior High School and JV play Kress here at 5:00 Thursday. Come out and watch these young people.

JV Loses

The Junior Varsity came out on the short end of the score last Thursday night at Hornet field; the final score being 19-6.

The Sudan J.V. scored first after an errant pass from Kevin Riley to Melvin James was intercepted and run back to the SLEW CREW 12 yard line.

Sudan opened the second quarter with a touchdown drive; the extra point was no good and the score was 13-0 Hornets favor.

The next drive, a SLEW CREW touchdown was called back as a 75 yard pass play from Elizar Ontiveras to Bobby Gover was nullified on a questionable clipping

penalty.

However a few moments later linebacker Kenny Wright grabbed a stray Hornet pass and scampered 45 yards for a SLEW CREW touchdown thus ending the 1st half scoring with the scoreboard reading 13-6.

The 3rd quarter saw a defensive battle as only one scoring opportunity presented itself for the SLEW CREW however a mismanaged snap saw the ball fumbled away.

The SLEW CREW again saw another scoring opportunity fall short as another fumble occurred on Sudan's 1 yard line ending a late 4th quarter rally.

Sudan lacked on another touchdown late

in the game as the Hornet ball carriers eluded the ball tackling J.V. making the final score 19-6.

Outstanding plays were made by Kenny Wright, an interception and fumble recovery, Lupe Duran an interception, and Biff Belew made a fumble recovery.

The player of the week for the Junior Varsity was Rex Fennell. Coach Ramsey stated that Rex played a consistent offensive ball game and did an outstanding job containing Sudan's outside running game from his defensive end position. Rex is a freshman for the SLEW CREW.

8th Grade Loses

The score 24-20. The winner Hart. A good contest between two almost evenly matched teams. The S-E 8th went into halftime with a 20-6 lead with scores from Frank DeLeon on 3 different occasions.

The offensive line blocked well opening holes up for his 3 spurts for TD. Ramon Olivaras scored 2 points for the

extra point.

S-E had the defensive and offensive game the first half holding Hart to only 1 TD and the offense scoring 3.

The 2nd half was a complete turn around, with S-E not being able to stop harts offense like they did the 1st half.

Sam Ott had a good defensive and offensive night on the line this

week also Danny Garza who helped open the holes for the back.

This game was a disappointment to S-E to have lost but it was a well fought contest between both teams. Hart and S-E should be very proud of both their teams.

This drops the 8th grade to a 1-2 overall in the district.

7th Grade Loses

Hart's 7th grade proved to be too strong for the S-E's 7th grade scoring 18 points to S-E's 0.

Hart's Washington was a man among boys Thursday night as he ran and scored around

and through the young 7th graders.

The size of Washington did tell the tale, for his size was much bigger than S-E could handle. Showing some outstanding play for S-E was Lorenzo Monreal on offense and

Danny DeLeon on defense.

Clifford James also had a good night at QB in trying to move his team down the field but unable to do so because of the strong defense of the Longhorns.

New Members Inducted

Fall induction for the Springlake-Earth National Junior Honor Society was held Wednesday, October 26, at 1:00 in the Junior High Library. It was a candlelight ceremony with the four officers lighting a candle and explaining the meaning of each. The candles were gold for scholarship, white for character,

red for service, blue for citizenship, and green for leadership. Mrs. Verden read a passage from Proverbs. Mrs. Roper read the poem "The Builders" by Longfellow, and Mr.

Slover read the poem "Opportunity" by Sill. Refreshments were served following the ceremony. About 30 parents and guests attended. Membership in Honor Society is based upon scholastic achievement and leadership in the school. The following students met the requirements and were inducted into Honor Society:

They are 7th graders: Scotty Baucum, Irma Garza, Dyan Jones, Tracy Lackey, Nancy Kendall, Roan Nix, Joy Parish, Darcy Randolph, Vonda Stephens, Melinda Zamora, and

Carmen Kelley. Eighth graders were: Sheryl Clayton, Dave Cleavinger, Ricky Dutton, Susie Duran, Merri Hausmann, Lyle Loudder, Todd Moore, Jana Pittman, Debbie Sisneros, and Joe Jaloma.

The Junior High Honor Society is selling pecans for \$4.00 a pound. The deadline is November 7 for the first order. They will arrive in time for Thanksgiving. If interested, please contact any Honor Society member, Evelyn Verden, or Melody Roper.

Lazbuddie

Longhorn Stampede

BY JUDY GARD

The Lazbuddie Longhorns beat the Silverton Oxys last Friday night by a score of 55-0. The Horns had a good passing game and the younger members of the team got in a lot of playing time.

The first touchdown of the night was scored by Mike Windham on a 1 yard run and Darnis Steinbeck kicked the extra point. The Horns then kicked an onside kick and recovered the ball. Mike Windham scored again on a 25 yard run and Johnny McDonald ran over the extra points making the score 15-0. This all

happened in the first 1:45 seconds of the ballgame. In the second quarter, Quarterback Charless Steinbeck scored on a 25 yard run and Mike Windham ran in the 2 extra points. Russel Windham then scored on a 22 yard pass from Andy Rodgers with 20 seconds left in the

half but the PAT attempt failed. This made the score 25-0 at half time.

With 8:35 left in the 3rd quarter, Mike Windham made his 3rd touchdown of the night on a 14 yard run but they missed the extra points. Johnny McDonald then scored on a 24 yard run and Smith kicked the extra point making the score 49-0. Mike Windham then scored on a 22 yard run and the PAT was not good.

With 2 minutes left in the 3rd quarter, Andy Rodgers scored on a 2 yard run but they missed the extra point. In the 4th quarter, Rayburn Warner scored on a 62 yard pass from Appolito Sanchez and Appolito then kicked the extra point making the final score of 55-0. The Longhorns had 286 yards rushing and 142 yards passing while

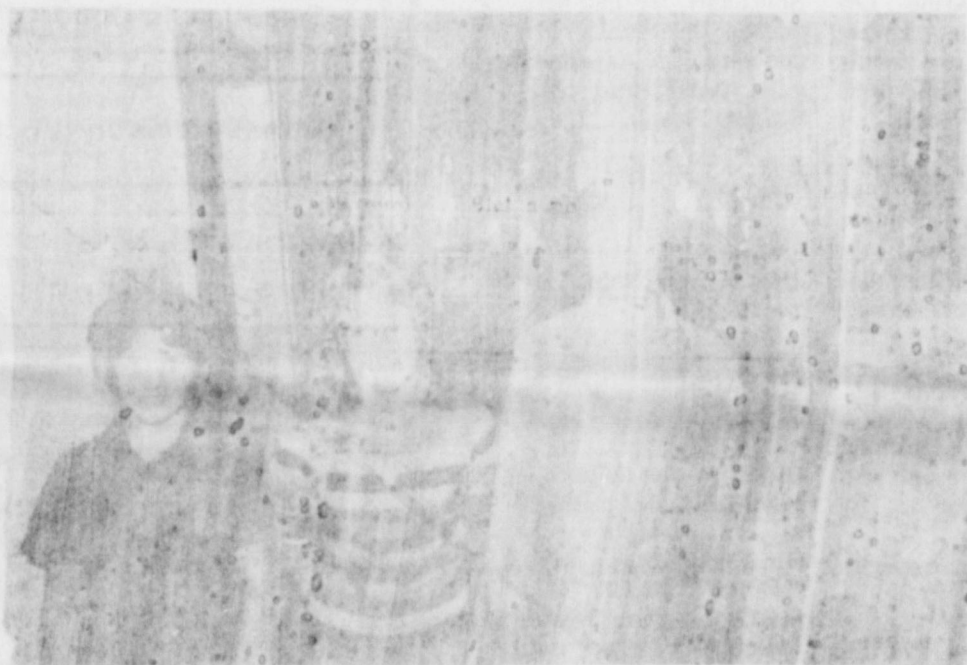

the Oxys had 107 yards rushing and 27 yards passing. Silverton gave up 4 interceptions and Lazbuddie had 2 fumbles and 1 pass intercepted. The Horns made 2 punts down to Silverton.

The Offensive Player of the Week was Mike Windham. Mike had 201 yards rushing, 10 passes, 2 touchdowns and 1 interception. The Defensive Player of the Week was Andy Rodgers. Rodgers had 15 unassisted tackles, 15 assisted tackles and 1 fumble recovery.

The Strike Squad for this week went to Andy Rodgers.

The Horns will play their last home game next Thursday night at Valley. Everybody is urged to support the Horns in the last game of the season.

The Junior High team also played Silverton at Silverton last Thursday and got a 1-0 score at 3:30.

The Springlake Home Demonstration Club met Thursday, October 27 in the home of Beulah Danforth.

The devotional entitled "Life is a Patchwork" was presented by the hostess, and she also said prayer.

Roll call was answered with "Why I'm Proud to be a Woman".

The members read the Home Demonstration creed and prayer.

The hostess gift was received by Mrs. Mae Boone.

Mrs. Leon Foster presented the program. She read a report on

I.W.Y. which was very interesting and informative.

Mrs. Holbert Wisian gave a report on council. Refreshments of brownies, carrot cake, coffee and tea were served to the following members: Mrs. Hilbert Wisian, Mrs. A. Hollingsworth, Mrs. Herman Cooper, Mrs. Mae Boone, Mrs. Myrtle Steinbock, Mrs. Paul Fanning, one visitor, Mrs. O.B. Whitford and hostess Beulah Danforth.

The next meeting will be Thursday, November 10 in the home of Mrs. Mae Boone.

PTA's First Meeting

Miss S. Edwards (Mrs. Bryan Edwards) will be the guest speaker for the first Springlake-Earth PTA meeting Monday night, November 14, 1977.

Mrs. Edwards is from the Department of Home and Family Life (College of Home Economics) of Texas Tech University in Lubbock. She teaches classes on preparation for marriage and the family in the community.

Mrs. Edwards is married and has three children and six grandchildren. She has written articles published in the Journal of Home Economics and What's New in Home Economics.

She has served as chairperson of National Council on Family Relations Board of Directors and the President of the Texas Council on Family Relations. She is a consultant in the area of family relations and a frequent speaker.

Mrs. Edwards has been awarded many honors such as Who's Who in American Women and Personalities of the South. She is a member of numerous professional organizations.

The PTA of Springlake-Earth is honored in having Mrs.

Edwards for our program Monday, November 14. The exact time of the meeting will be set soon. The officers of PTA invite you and all of your friends and neighbors to the S-E cafeteria for this our first PTA meeting for the 1977-1978 year.

A playroom will be provided for all children and nursery for the younger ones. Refreshments will be served following the program.

HALLOWEEN Hi Jinks for all!

Approach To Making Out A Will

The drawing up of a legally recognized will is one of those somber chores that many of us put off indefinitely. Others, having performed the task once, fail to recognize the need to constantly update and revise the document as their financial life changes.

More importantly, as federal and state tax statutes change, even the most recently revised wills can be rendered ineffective.

"I'd say that anyone who had a will drawn up before the 1976 Tax Reform Act should at least have his or her will looked at by a lawyer", said John D. Goethel, associate counsel for the law department of the John Hancock Mutual Life Insurance Co.

Contrary to popular belief, drawing up or revising a will is usually a simple and inexpensive procedure. Yet, in 1975, 70 percent of the 1.9 million Americans who died left no will.

According to Mr. Goethel, even people on the lower end of the economic ladder can point to estate potential far exceeding what one would normally estimate. You don't have to own a palatial home to have an "estate". Group life insurance, company profit-sharing, pension plans and social security benefits all constitute estate potential that should be considered in drawing up a will.

Although the restructuring of the tax rate system in 1976 eases the tax burden of smaller estates, the consequences of a poorly outlined will may substantially diminish the value of your estate. Goethel lists three steps that can be taken now to ensure your wishes are carried out at the time of death.

Retain the services of a trusted family lawyer or contact a local professional lawyers' organization for the names of lawyers who can assist you in drawing up a will. Fees vary, but a basic will is relatively inexpensive. Don't hesitate to inquire in advance about the lawyer's fees. You'll need a complete inventory of assets. Include: savings, stocks and bonds, life insurance, all property (home, car, furniture, etc.) or anything else that may be of value to the heirs.

After a review of

your list of assets, the lawyer will need to know your plan for distribution. He should be shown deeds, bank books, stock certificates and other documents to best advise you whether a change in title might be prudent in order to save taxes. Also, in the event of the death of your chief beneficiary and your wife are killed in an accident, for instance—who will receive the benefits?

The lawyer will also ask you to appoint an executor whose chief responsibility is overseeing distribution according to terms of the will. A simple, modest estate could be served, in the interest of economy, by your spouse or trusted relative. A more complex estate frequently requires the services of a co-executor, such as a bank.

In the case of a substantial estate, it might be wise to consider the services of a qualified estate planner. All lawyers can draw a

simple will, but a lawyer who specializes in estate planning may be more versed in the ramifications of estate and inheritance taxes.

If you already have a will, it should be reviewed from time to time. A revision may be necessary if any of the conditions listed below have occurred:

- Sale of property.
- The death of the will's executor.
- You've moved to another state or country.
- Acquisition of new assets.
- A change in the state inheritance laws.
- Federal estate tax laws are altered.
- your marital status has changed.

A child, now grown, no longer needs as much help, or another child may need more help than his brothers or sisters.

Finally, Goethel pointed out that the will should be viewed as a living document. It reflects your situation today and ability to provide for loved ones in the future.

Clinic Fights Hypertension

"Hypertension in the southeastern section of the United States is like an epidemic," says Neil B. Shulman, MD, director of an Atlanta hypertension clinic, in an article published in the September issue of the Bulletin of the American College of Physicians. "Savannah is known as the stroke capital of the world and we don't know why. On the wards at Grady Memorial Hospital, Emory University's

teaching institution, you see all these horrible sequela: young people with stroke, congestive heart failure, or renal failure in a poor hypertensive population and there are very limited resources and funds available to tackle the problems. If they would let us have an amount equal to the money it takes to treat 10 dialysis patients, we could screen and care for hundreds of hypertensives and prevent

many from future dialysis," he says.

Roughly one-third of Atlanta's low-income blacks are victims of high blood pressure and hypertension and they do not know it. Even more perplexing is that researchers have not been able to determine the causes—although they have some pretty good hunches—and clinicians have difficulty trying to deal with the epidemic. That is until recently.

Under the auspices of Emory University School of Medicine, Project Control-as the clinic is called—is fighting hypertension in the Atlanta ghetto and getting results. In a program characterized by Dr. Shulman as a group practice of nurse clinicians and physicians' assistants with doctors serving as consultants, only about 10 percent of the hundreds of patients seen have refused to schedule an appointment or keep one that is made.

Hypertension is at least twice as prevalent in blacks as in whites and is commoner in the South than the North. Dr. Shulman says that about 1.5 out of 10 blacks need care while, in the same sampling among whites, only 0.75 out of 10 need drug treatment. It is a persistent problem, requiring constant effort, and thus Project Control's therapists provide personalized total care, seeing the same patients over and over again.

The program has a 24-hour answering service, there are evening office hours, and a van for door-to-door service.

The nurse clinicians are available for call anytime and some have even given out their home phone numbers. As a result, more than medical care is provided. Attachments are formed on both sides and therapists come to feel responsible for their patients—tracking them down, chastising them for missed appointments and encouraging them to take their medicine.

"One of the toughest problems we have had to overcome is getting the patients to deal with a disease they cannot see as opposed to one that they can: bunions, tumors, gunshot wounds," says nurse practitioner Vickie Grimes. "We must convince them they have

high blood pressure, convince them they need medication, and then—the hardest of all—convince them to take it."

Many hypotheses have been offered as to the cause of hypertension and Dr. Shulman believes that one which combines the roles of social pressure, nutrition, and perhaps genetic factors, seems to hold the most merit. Alcoholism is possibly a contributory factor, one that is very much in evidence in the neighborhood, as is personal hardship and social pressure. And then there is diet—soul food dishes like pork ribs, ham hocks, and fatback

bacon are heavily laced with salt.

It is a real paradox, explains Project Control's social worker, Joann Morrow. Most of the patients can't afford better cuts of meats, vegetables, and staples which would help in controlling their hypertension. One reason they can't buy better food is because they can't get jobs. One of the reasons they can't get a job is because no one will hire them with such high blood pressure. Combating this problem has been a matter of teaching proper eating habits along with educating them about health.

AROUND THE HIBACHI

SPREAD ENJOYMENT while the hibachi is warming with a tasty spread served with crackers.

For casual outdoor gatherings, simple and tempting dishes like Confetti Surprise Spread are a special treat. While the hibachi is warming, and you're all sitting informally around the fire, you can enjoy this tasty spread as it is served. Encircle the ham and cheese mold with some of your old favorites, TRISCUIT Wafers and the Buttery Flavored Sesame Snack Crackers. You also might want to try the just new Cheese SWIRLS Parmesan Snack Crackers for a crunchy treat.

CONFETTI SURPRISE SPREAD

- 1 (8-ounce) package cream cheese
- 1 (4 1/2-ounce) can deviled ham
- 2 teaspoons spicy prepared mustard
- 1/8 teaspoon liquid hot pepper seasoning
- 4 hard-cooked eggs, finely chopped
- 1 (2-ounce) jar DROMEDARY Diced Pimientos, drained
- 2 tablespoons chopped parsley
- Parsley sprigs, optional
- Buttery Flavored Sesame Snack Crackers
- TRISCUIT Wafers

Beat together first four ingredients. Blend in next three ingredients. Line a small bowl with plastic wrap. Pack in mixture. Chill 4 hours, or overnight. Invert onto serving plate; remove plastic wrap. Garnish with parsley sprigs, if desired. Serve with Buttery Flavored Sesame Snack Crackers and TRISCUIT Wafers. Makes about 2 1/2 cups spread.

GHOST TOWNS—During the 1850s the fabulous gold deposits discovered in California began to run thin. One after another, the booming towns that had sprung up around the mine fields were deserted as prospectors and their hangers-on followed new dreams and rumors of riches, leaving the communities to dust and decay.

Insurance Photographs

For insurance purposes, photograph your property—all of it, advises Mrs. Dorothy Powell, county extension agent.

A photographic record is a vital supplement to an up-to-date inventory of your household goods. In the event of loss from fire, theft or natural disaster, pictures will help the claims adjuster identify property lost or destroyed and determine quality and condition of the property in question. Take exterior shots too, making sure that the pictures include the entire house plus trees, shrubs and any special landscaping treatments. On the inside,

photograph every room. Start on one wall and continue around the room or take snapshots from opposite corners of the room.

Include the garage, basement, attic, closets and cabinets, as these may contain valuable household items. Be sure to get close-ups of such valuables as art objects, jewelry, or silver, the agent says. Put the finished inventory and picture in your safe deposit box. Some other location available for review of your cover with your insurance agent.

County Agent Report

JOHN FARRIS

COUNTY Lamb crop is being reported with over 94 bales being baled as of Friday, Nov. 28. The number of bales increases daily as long as weather will stay clear.

CROP AND LIVESTOCK REPORTS NEEDED FROM FARMERS AND RANCHERS—On Nov. 15, many farmers and ranchers will receive a livestock questionnaire from the County Agent. Crop and livestock reporting will be personally interviewed by Service's field staff. Accurate estimates have been of great importance to producers. The questionnaire will provide an accurate picture of the livestock for each county and for the state.

of Texas. Each farmer or rancher receiving a questionnaire is urged to fill it out carefully and return it promptly to the Agricultural Statistician in Austin. Individual reports are confidential and used only for state and county estimates.

PROTECT PEACH TREES FROM DISEASES—Peach trees in Lamb County can fall victim to disease problems unless treated by a copper fungicide. A material called Kocide 101 will effectively deter two fungus diseases and bacterial leaf spot when applied in the fall after the first frost.

Most peach trees had a big crop this year, so special care should be taken to protect the trees. Complications brought on by the heavy loads of fruit and drought intensify the need for special care.

Crown blight is a fungus that attacks peach trees and causes a circular purple spot on the foliage and in severe cases, attacks the fruit. Another fungus disease is peach leaf curl. This

disease results in a thickened and misshapen leaf. Bacterial leaf spot attacks both the leaf and the fruit and reduces fruit quality so that it is unsalable.

The important thing is that a fall spray application is necessary to keep these diseases from striking your peach trees next spring. Kocide 101 should be applied as a spray after the first killing frost, which normally occurs on November 4th in Lamb County.

Proper applications for a home garden require 1/2 tablespoon of Kocide 101 per gallon of water, for larger operations, mix two pounds of the copper type fungicide with 100 gallons of water.

For more information, contact your local extension office.

PRUSSIC ACID POISONING IN LIVESTOCK—Frost will be hitting Lamb County before long, and this could lead to prussic acid poisoning in livestock grazing certain pasture grasses and forages.

Although many plants contain the toxic material that causes poisoning, those causing the highest mortality in livestock when grazed after they have been frozen and wilted are Johnson and Sudan grasses and sorghum or hybrids of these.

The most dangerous time as far as the grazing of these plants is

concerned is following frost when the plant material begins to wilt. Livestock should not be allowed access to the wilted material until it has dried completely. This usually takes three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

As far as prussic acid poisoning is concerned, the poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10-15 minutes after eating toxic material and can die in two to three minutes. Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. Stupor (loss of consciousness), difficulty breathing and frequent convulsions may result.

Death is caused by suffocation as oxygen remains in the blood and is not exchanged to the tissues. This also causes the blood to appear bright red.

To prevent prussic acid poisoning in livestock, use the following steps:

1. Do not graze plants until a safe period has passed.

frost to dry thoroughly before grazing. This may require a week of good sunlight.

2. Feed animals hay or a supplement before turning them in on plants that may contain prussic acid. Animals that are not hungry will not be affected as seriously by toxic material since their intake will be limited.

3. Remove all animals from the pasture if one in the herd shows any signs of poisoning.

4. Call a veterinarian immediately if an animal appears to be poisoned. An antidote to treat affected animals is highly efficient if given early. The product is available from veterinarians.

5. Have suspect plant material checked by the Texas Veterinary Medical Diagnostic Laboratories at College Station or Amarillo. Local veterinarians will be happy to submit samples for you.

The overall key to preventing prussic acid poisoning in livestock is to be aware of plant materials that may cause poisoning and then to keep cattle from grazing such plants until a safe period has passed.
