in Sterling City.

ations are going forward to
drilling at the Hull well. A
urvey of the land on which
is located is being made by
y surveyor.

well No. 2 was cleaned
first of the week and will
put on the pump. Drilling
on No. 1 has been held up
at day or two pending the
a new drilling cable and a
six-inch casing. Drilling
summed as soon as these ar-
ch we are told would only
or two. We have it on
thority that two more new
be drilled in the vicinity
urham wells in the near fu-
ring City News-Record.

gona County Oil News

Big Lake oil field continues
production and will make
in the bringing in of new
now on. Each week brings
wells and are a material in-
the production of the field
figures are now becoming

The latest oil well to be brought
in is one of the largest producers in
the field that is that of the Big Lake
Oil Company. It is No. 19 which
was drilled in Tuesday of this week
and telephone messages from the
company's office at Texon this morn-
ing gives the production as 6,800 bar-
rels per day. It is located in the
southeast quarter of the southeast
quarter of section 12, block 2.

No. 27 of the Big Lake Oil Com-
pany was drilled in yesterday as a
gasser and shut in for the present.

The next well of this company to
be drilled in is No. 25 which is now
down to 2820 feet and should be
drilled in within the next day or so.
Other wells are getting down to an
interesting depth.

No. 17 is drilling at 2744 feet; No.
20 at 2495; 26 at 2452; 28 at 227;
29 at 1980; 35 at 120; 36 at 542;
37 to 450; 38 to 120; 39 is down
265; and 42 is down 75 feet. Rigs
are now being built for 40, 41, 30,
31, and 32. Material is on the
ground for No.'s 30, 33 and 34.

The above report will show that
the Big Lake Oil Company is active
and are really doing something which
will keep up the weekly average of
bringing in wells in the field. They
are really pushing things and we may
expect that the production will con-
tinually increase each week.

The daily production of the Texon
Oil & Land Company is now 12,000
barrels with several other wells near-
ing the sand which will materially
increase their daily production. The
deepest of the wells and the one ex-
pected in first is No. 10 which is now
2909 feet and should be drilled in
within the next day or so. No. 11 is
fishing for tools.

Other wells of the Texon Oil &
Land Company drilling are as fol-
lows: No. 12, 2496; 13, 2090; 14,
2420; 15, 1617; 16, 1620; 17, 1617;
18, 420; 19, 215.

Rigs are now being constructed for
Nos. 20, 21, and 22 and locations
have been made for 23, 24 and 25.

Owing to the bad weather and
the accounts being out of town during
the week or a part of it the News
has been unable to get a report on
the various "wildcats" drilling in this
section this week. However, it is
understood that the Bell-Regan is
down to 3220 feet; the McGuire 3129
and shut down temporarily for fuel.
The Mid-Kansas is expected to start
at an early date. Big Lake News.

WEDNESDAY LUNCHEON CLUB

The regular weekly meeting of the
Wednesday Luncheon Club was held
at the auditorium of the Y. M. C. A.
Wednesday. A fine meal prepared
by the ladies of the Methodist
church was enjoyed.

Grover B. Cunningham acted as
toastmaster and called on eight mem-
bers to tell what they had on their
minds.

M. H. Morrison started the dis-
cussion by announcing that the State
Highway Department needed about
one acre of ground to erect a perma-
nent warehouse to care for the vast
amount of road building machinery
and material they expect to concen-
trate at this point. It was Mr.
Morrison's idea that the land be pur-
chased thru a cooperative effort of
City and County and the Chamber
of Commerce and it was urged that
the land be secured without delay.

Those talking in favor of this
proposition were B. Reagan, Wm.
Fisher, S. H. Hall, J. F. Wolcott,
Clyde E. Thomas, J. R. Creath and
W. W. Rix.

Wm. Fisher was appointed to have
charge of the next meeting and the
subject to be discussed will be
changing the form of government of
our city.

TO ENLARGE GRANDSTAND
AT BASEBALL PARK

If enough generous hearted base-
ball fans will "kick in" about five
dollars around, an additional fifty-
foot section will be added to the
grandstand at the baseball park.

This addition will be made on the
west end of the present structure.
This addition will give much more
room and will also add to the com-
fort of the fans as many are now
compelled to suffer from the sun hit-
ting them when the grandstand is
filled to capacity.

The ball park is a cooperative
ownership; no dividends have ever
been paid; every dollar secured be-
ing expended for repairs, upkeep
and improvements.

Make it possible to secure this ad-
dition by making a donation to F. F.
Gary, J. M. Morgan, or Joye Fisher.

Paving Program to be Considered

Now is a Good Time to Find Out
Whether or not We are to Pave
Streets in Business Section

The citizens of Big Spring can se-
cure a big lift from the State High-
way Department if they will go for-
ward with a real paving program.

Instead of putting an eighteen-foot
strip of asphalt topping on the two
highways thru Big Spring it is sug-
gested that our city vote on a bond
issue and do the job up right.

This little narrow strip of paving
thru the city would look rather
skimpy. Furthermore this type of
paving is too light for the heavy
traffic in the business section. It is
thought that the heavy usage would
wear it out in a brief time so the
sensible and practical plan is to put
paving that will last in the business
section and use this lighter asphalt
topping from the business section to
where the highways enter the city.
If this asphalt topping could be
spread entirely across Third street
and Main street outside of the busi-
ness district to where the highways
are looked after by the Highway De-
partment it would prove a wonder-
ful improvement.

Rather than go to the expense of
paying for this narrow strip thru the
city of Big Spring, the Highway De-
partment would prefer to donate the
\$8,000 or \$10,000 toward permanent
paving.

The time to thoroughly consider
this proposition is right now and the
city officials should give the citizen-
ship an opportunity to decide
whether or not they are in favor of
a paving program. It is going to be
necessary to pave and we are not
gaining anything by postponing the
job.

If the city officials will go into
the proposition, decide the number of
blocks that could or should be paved,
and then submit their plans to the
citizenship for a decision thereon,
the matter could be settled in
short order.

We are going to have a real high-
way thru our city and it is to be
hoped that the section thru Big
Spring city limits will not be left un-
improved.

FINE RAIN BOOSTS PROSPECTS.

A slow rain which set in about
9:30 o'clock last Friday night and
continued practically throughout the
night put the finishing touches to
ideal agricultural conditions in this
section.

The rainfall here measured 0.85
of an inch but some portions of the
county claim from one and one half
inches to three inches.

Coming as it did, slow and steady
it did worlds of good and the crop
prospects were given a big boost. Our
farmers say conditions could not be
better if they were made to order.
Crops that were up when this rain
fell have been growing like weeds
and the seed that had been planted
came to life with this splendid mois-
ture to give them a boost. The few
sections where it had become too
dry to plant received plenty of mois-
ture to warrant the going forward
with planting. If we could just
count on a rain once a month from
now on, Howard county would make
a crop that would make them sit up
and take notice. Insect pests or hail
storms are about the only thing to
prevent our county making a fine
crop this year.

FIRE DESTROYS RESIDENCE

A residence on East Sixth street,
owned by Mrs. A. G. Mills and occu-
pied by J. E. Benson and family was
practically destroyed by fire about
6:15 o'clock Tuesday morning.

The building was a mass of flames
before the fire was discovered and
the alarm turned in.

The fire department did good work
in preventing the flames from spread-
ing to nearby dwellings. A metal
shingle roof on the J. T. Bell resi-
dence, about fifteen feet east of the
burned structure also served to pre-
vent the flames from damaging that
structure.

Just how the fire originated will
never be known as Mrs. Benson had
spent Monday night with friends in
the country, and none of the family
had been there. Mrs. Mills, owner
of the building was spending the
week in Baird when informed of the
loss of her property.

ASPHALT TOPPING BEING
PLACED ON HIGHWAY

Limestone chat, the material need-
ed to mix with asphalt to make a
real surface for the gravelled high-
ways thru our county is now arriv-
ing daily from Ranger, Waco and
Oklahoma. Division Engineer R. W.
Baker states they expect to have it
rolling in regularly from now on so
the road work can be carried for-
ward without interruption.

The first of this material was laid
Monday morning about one mile west
of Big Spring. From a mile to three
quarters of a mile can be completed
each day. The asphalt topping is
laid on one half the roadway and
when this is covered with the lime-
stone chat the traffic is permitted to
use the completed half of the road
while the other nine-foot strip of
highway is completed. In this way
no detours are necessary and traffic
is not interfered with.

By the time you read this the
highway will be completed to the
railroad crossing seven miles west of
Big Spring.

Some thirty-five men are now at
work here on this good roads work
and another crew is working east-
ward from Midland. Mr. Baker esti-
mates it will require about sixty days
to complete the one hundred and
twenty mile section of the Bankhead
Highway thru Howard, Martin,
Midland and Ector counties.

We are going to be mighty proud
of this highway thru our section.

As this material makes a perfect
binding and is impervious to water
it should make a highway which can
be maintained at a low cost.

FISHERMAN'S LUCK

R. E. Lloyd, O. P. Miller, S. M.
Barbee, J. M. Simmons, J. S.
Hishop and J. R. Munton returned
Sunday from a fishing trip on the
Devils River. According to R. E.
Lloyd all the luck they had was hard
luck. In the first place the fish
were the queerest fish in the world.
Great big whoppers would appear in
plain sight as the water was clear,
but would turn up their noses at any
and all tempting bait the fisherman
could produce. Next it started rain-
ing and the fishermen had to break
camp and make a race for life to
get out of the river bed and just
did make it. Then they had to nav-
igate newly made roads after an
eight or ten inch rain had made them
good and soft. Aside from all the
troubles enumerated they had a
fairly good trip.

MRS. T. G. HENRY BURIED HERE

Mrs. Nancy Jane Henry, aged sixty
nine years and five months, was
claimed by death at Austin, Texas,
at 11:30 a. m. May 26th, and funeral
services were conducted at the home
of her daughter, Mrs. Alex Roberts,
in Big Spring, Texas, at 2:30 o'clock
Friday afternoon, May 29th, by Rev.
M. Phelan, pastor of the Methodist
church.

Mrs. Henry had made her home in
Howard county for more than thirty
years and was the mother of eight
children.

She is survived by her husband, T.
G. Henry and the following sons and
daughters, Mrs. Alex Roberts, Mrs.
Pete Jones, Elmo Henry and Jetty
Henry of Big Spring; Zeno Henry of
Amarillo, Mrs. V. L. White of Bis-
bee, Arizona, Mrs. Edna Lightfoot of
San Francisco, Calif.

LARGE CROWD
WELCOMES SHRINERS

About one thousand of our citi-
zens headed by the Big Spring band
were at the T. & P. depot on last
Friday evening at 7:10 o'clock to
welcome the Shrine Special which
was headed for the annual Shrine
convention at Los Angeles, Califor-
nia. The special train of fifteen
cars was transporting the Fort
Worth delegation and it was one live
bunch. Their band gave a concert
during the brief stop made in our
city. As many of the Fort Worth
men were known here a regular re-
union was enjoyed during the time
the train was here.

A close watch should be kept for
insect pests so that crops in our
county can be saved from damage.
Should worms or hoppers appear, a
concerted campaign should be staged
at once. We are due to make fine
crops this year if worms and grass-
hoppers do not appear.

While they are suffering from ex-
cessive heat in the north we are
being treated to as pleasant weather
as one could wish for.

The Chautauqua Closed Tuesday

Our People Well Pleased With Pro-
gram and More Than 100 Sign
for Its Return Next Year

The week's program of the Red-
path-Horner Chautauqua came to a
close on Tuesday night with a splen-
did program, and our folks were
mightily well pleased with the chautau-
qua this year. Every program
found boosters and the list of fea-
tures is declared by most of our
folks to be way above the average
for the past few seasons.

So well pleased with this year's
chautauqua that one hundred and
nineteen folks signed the guarantee
necessary to secure their return next
year.

There were but four lectures this
year and any one of them was worth
the price of a season ticket to chautau-
qua. Herbert Leon Cope, Judge
George D. Alden and James A. Burns
gave lectures that were indeed ap-
preciated.

The lecture of Ex-Gov. Chas. A.
Bryan was fine but could be better
appreciated by business men than by
the average chautauqua fan.

The two plays, "Give and Take"
and "45 Minutes From Broadway,"
made big hits with the crowds. These
were presented by clever artists.

The Marimba Band was a novel
feature and treated our folks to
some wonderful music.

The Cathedral Choir, Clayton
Staples and Co. in their beautiful
achievements in Art. Joseph H. Fox
with his musical accordion and Her-
bert A. Taylor, Prince of Magic,
Clown, Juggler and Ventriquist
and Army Ambrose and his amazing
experiments with electricity, all
made good and gave the folks real
entertainment.

With purchasers of adult season
tickets getting such fine entertain-
ment at about twenty-five cents for
each entertainment you must admit
this is about the finest and most en-
joyable entertainment that can be se-
cured at such a reasonable price.

JULY 3-4 CELEBRATION

The 4th Annual Celebration of
the American Legion will be staged
in Big Spring on Friday and Satur-
day, July 3rd and 4th and plans to
make this the biggest event of the
kind ever held in West Texas are
now being made. \$2,000 in prizes
are to be awarded during the two
days Rodeo program. There will be
broncho busting, wild steer riding,
calf roping, bulldogging, wild cow
milking and other wild and woolly
stunts. A big platform dance will
be held both nights. Baseball games
between two fast teams are scheduled
for the two days.

A full program of events is to be
arranged so there will not be a dull
moment for the visitors.

You might just as well plan to
come and bring the entire family and
be prepared to stay thruout the two
days' celebration.

The Big Spring Booster Band will
furnish peppy music for the big cele-
bration.

Invite your friends to spend July
3rd and 4th in Big Spring.

WOMBLE-THOMAS

Misses Gladys Thomas, Goldie
Thomas, Letitia Purser, and Roy Sat-
terwhite and V. E. Jones left Thurs-
day morning for Lubbock, Texas,
where Miss Gladys Thomas and El-
mer Womble of Hereford, Texas,
were married at 2 o'clock Thursday
afternoon, June 4th. The cere-
mony was performed by Rev. W. A.
Bowen, pastor of the Baptist church
of that city.

Mr. Womble is a well known
ranch man and breeder of Registered
Herefords and is held in high esteem
by everyone who knows him. The
bride is the daughter of Mr. Gus
Thomas of this city, a charming and
accomplished young woman loved
and esteemed by a wide circle of
friends in this city. She has been
one of the efficient and popular
teachers in the Big Spring Schools
the past two years.

We join a host of friends in ex-
tending to these worthy young peo-
ple best wishes for an ideal wedded
life.

Miss Rose Morgan arrived last
Friday from Fort Worth where she
had been attending school. She was
a member of the 1925 graduating
class of Our Lady of Victory College.

MRS. MARGARET ANN
ANDERSON DEAD

Mrs. Margaret Ann Anderson,
known to most of our folks as
Grandma Anderson, was claimed by
death at the home of her son, W. G.
Anderson in the Midway community
at 10:20 o'clock, Wednesday night,
June 3rd.

Deceased who was aged 84 years,
11 months and 27 days had made
her home in this county for many
years and was loved and esteemed
by friends throughout our county.
She was a good Christian woman
and a true friend to those in need
or in time of sorrow.

Funeral services were conducted
at 4 o'clock Thursday afternoon, the
remains being laid beside those of
her husband in the Lutheran cemetery.
Mr. Anderson died several years ago.

To the sons, daughters and grand
children who mourn for one dearly
beloved is extended the deep sympa-
thy of many friends thruout this
county.

SCURRY COUNTY MEN

BUY LAND HERE

J. R. Mallett and two sons of
Scurry county who have relatives and
friends at Vealmoor, the new town in
the heart of the C. C. Slaughter
ranch, twenty miles north of Big
Spring, were here this week and pur-
chased four quarter sections of land
from the Lone Star Land Co., near
the town of Vealmoor.

They will start improving these
farms this summer and have every-
thing in fine shape by fall when they
will move here.

All the newcomers are well pleas-
ed with this section, find crops doing
exceptionally fine, and predict a
large immigration into this section
during this summer and fall.

OLD SETTLERS PICNIC

HERE JUNE 26th and 27th

A picnic will be held at City Fed-
eration Park, just east of Big Spring,
June 26-27 for the old settlers of
Howard county and their families.
All folks who have resided here for
twenty-three years or more are con-
sidered charter members of Howard
County's Old Settlers Association.

Committees have been appointed
for the different entertainments and
every effort will be put forth to make
this one of the jolliest occasions ever
held in Howard County.

I. B. Cauble has been appointed to
round-up all the old time fiddlers to
furnish music during the two days.

Make your plans to spend two
happy days at this picnic.

NO SURPLUS BULLS

E. T. Cobb, breeder of registered
Hereford cattle, Garden City, Glass-
cock county, who maintains a herd
of about 100 breeding cows, sold his
1924 crop of bull calves at weaning
time last fall to a ranchman near
Big Spring. They were sired by Mr.
Cobb's three herd bulls, two of
which are of Beau Donald and Saga-
more breeding from the herd of
Henry M. Half, and one of Gay
Lad breeding from the herd of John
M. Gist. Mr. Cobb reports around 8
inches of rain during the past few
weeks in the Garden City territory
and farming and range conditions im-
proving rapidly. Livestock Reporter

"M" SYSTEMS STORE

TO OPEN JULY FIRST

W. C. Smith of Sealy, Texas, was
here Monday and Tuesday complet-
ing arrangements for opening the
new M Systems grocery store in this
city, and find a home so he could
move his family to Big Spring.

Mr. Smith states it will probably
be July 1st before he is ready to
open this new establishment.

He is more than pleased with Big
Spring and is certain he made a wise
move in selecting this as a place to
open one of these up to date stores.

Mr. Smith was accompanied by his
father in law W. T. Branch of Brown-
wood.

FARM LABOR UNION

OFFICE MOVED

The Howard County Farm Labor
Union offices were moved on June 1
from the space in the Ellis building
to the upstairs of the same building
where they now have three large
office rooms.

Larger and more comfortable quar-
ters are secured by the move.
A firm from Lubbock has rented
the space vacated by the move and
they will put in a stock of auto ac-
cessories.

H. L. Rix made a business trip to
Colorado Wednesday.

\$2.00 A YEAR IN COUNTY
\$2.50 A YEAR OUTSIDE COUNTY

Entered as second class matter at
the Postoffice, Big Spring, Texas,
under Act of Congress, May 8, 1897.

Big Spring, Friday, June 5, 1925

"American styles for American men; styles without the monocle, styles that owe no allegiance to foreign designing; styles that are purely and truly American"—that is the big thought in connection with men's styles for fall, according to C. H. Nowell of Albert M. Fisher Co.

"The typical American figure is distinct and different from that of our cousins across the sea," says Mr. Nowell, "which, of course, is due to the vigorous and energetic life we lead, contrasted with the more sedentary existence of the European. We are an athletic and outdoor nation. Beginning with the youth and his devotion to the great national game of baseball, through high school and college with his more strenuous participation in football, basketball and track, and on to his business life with its push and go, its diversions of tennis, golf and motoring—the typical American figure is moulded and developed.

"It is interesting to note," continues Mr. Nowell, "how the styles for fall interpret the characteristics of American life, thought and action. Broad, vigorous shoulders, squarely and staunchly built, that suggest the American idea of tackling a job and seeing it through; a smooth, supple drape to trim fitting hips that typifies the lithe figure of young America; balanced, symmetrical lines which take their inspiration from the grace and agility, poise and self-confidence of American manhood at play or in business."

Commenting further on the origin and development of the American

style idea in men's clothes for fall, Mr. Nowell had the following to say:

"Perhaps your readers would be interested in taking a peek behind the scenes to see how these styles were actually created and developed.

"Designers of men's clothing are very close students of human nature—they must be. The styles they create are not mere fanciful ideas of the imagination but they are produced only after exhaustive study and research. And so it was with the American style idea in men's clothes for fall, originated by the House of Kuppenheimer, Chicago, one of the world's largest clothing manufacturers.

"The designing staff of this institution in its close observation of American life sensed the fact that the Anglo-manic wave in men's fashions had run its course. A close study of styles in Europe added further conviction to their belief that American designers were hiding their light under a bushel.

"In truth, England is not the directing genius of men's clothing. The product of American skill in style and production is far superior to that of England or any other country and it is so realized over there. They look to America as setting the standard in the production of men's clothing.

"While the aristocratic element of Europe is notably well-dressed, a comparison of European cities with those of America, clearly demonstrates the fact that America is a much better dressed nation.

"Then why should we look to Europe for style leadership? Why not give to American designing art the rightful place it has won through sheer merit. And why should American men, characteristically of an independent nature, wear styles of foreign flavor and thus take a secondary position in the matter of dress?

"The House of Kuppenheimer felt that the need was great and that the time had come for the creation of styles which proudly proclaim the fact that they are truly and typically American, styles that borrow nothing from the European.

"As the great artist studies the subject to be portrayed on canvas, designers in creating true American styles have studied the lines, the form, the action of representative American manhood. They have taken their inspiration from such men as Red Grange, Jole Ray, Will Rogers, Douglas Fairbanks, William Tilden, and others who represent characteristic phases of our national life. A study of the fall styles will show how the American idea has been brought out in every line and contour.

"Prominent men throughout the

industry have enthusiastically acclaimed the movement, noted editorial writers have lauded it and comments far and wide strongly indicate that the public will wholeheartedly welcome true American styles for American men and expressions of opinion I have had from a number of our city's most prominent men show that Big Spring will be no exception."

GRADUATES AT TEXAS MILITARY COLLEGE

Kin Barnett arrived this morning from Terrell where he has successfully completed the work in the Texas Military College and received his diploma at the graduating exercises held Wednesday, June 3rd. The "Texas Bayonet," the college paper, pays the following tribute to Kin:

GILL ALFRED BARNETT

"Kin" came to T. M. C. from Big Spring in '21 and then after having been out of school for three years he returned to T. M. C. to finish his degree. He was a high school graduate from Big Spring in '20, from there he went to Texas U for a half year and then in '21 he became a T. M. C. Cadet for the first time.

We all find "Kin" a very pleasant sociable, young gentleman with plenty of pep wherever you see him. There is one very important phase of school life in which he has always played a prominent part and that is in athletics. Before entering T. M. C. he lettered three years in football, two years in basketball, two years in baseball and one year in track. He lettered one year on the Fish football team at State U. "Kin's" career here as an athlete has been a successful one. He has been a two letter man in football, one letter man in basketball, one letter man in track, a letter man in baseball and a letter man on the championship rifle team of T. M. C.

Socially, Kin's career here has been a success. He was elected president of the Texan Literary Society for the '25 term. In '21 he was selected as the most popular man on the campus. He is a member of the T. K. O. fraternity and a leader in all social activities.

There is nothing lacking in Kin's success both in high school and in the Old War College and as we look back on his past we will often wish that there were more like him that we could claim as graduates of T. M. C.—(W. T. F.)

TIN-ROOF PROTECTED HOUSE

An example of the worth of a non-combustible roof in preventing the spread of fire can be noted on East Sixth street. Here the residence belonging to Mrs. A. G. Mills was practically destroyed by fire and a residence about fifteen feet east of the burned structure is practically unharmed. The flames came down on the tin roof of the Bell residence but did not phase same. We have often heard of serious fires being checked by a few tin roofed buildings but this is the first time it has been so forcibly demonstrated right here at home.

PIANO AND FURNITURE FOR SALE

Having sold my home, I have for sale a piano, bed room suite, dining room suite and other household goods all practically new. Phone 303-R. W. A. RICKER. It

CITY FEDERATION CARNIVAL

On June 20th the City Federation will present the annual Carnival that has become a regular feature of their activity. These Carnivals are always gala days, and the present one will possibly surpass all the others. Let all Big Spring plan to attend. The City Federation expends all funds in the interest of civic improvement and town growth.

INCH COTTON, STAPLE

URGED FOR SOUTH

Washington, June 1.—Every cotton planter in the South can raise cotton of at least one-inch staple, officials of the Bureau of Plant Industry of the Department of Agriculture declared Monday, following a series of experiments throughout the belt.

If this is done, they contend there need be no fear of foreign competition, because American cotton would be far superior to cotton that can be produced in any other country.

Tremendous quantities of short staple now are produced in the United States, the officials assert, due to the mixing of seed at ginning and is brought directly in competition with short staples produced abroad. The seed mixture at gins can be eliminated only by community cooperation with local gins, so that only a uniform quality of seed cotton will pass through the gins.

C. B. Dyle declared that recent experiments showed that a farmer receives only 74 per cent of his own cottonseed from the gins and 26 per cent of the seed from cotton ginned by preceding customers. Unless all of the seed is of high grade, he said, the ginning would return to the farmer a seed mixture for planting that probably would result in an inferior crop.

The present practice of cotton growers, he added, results in a bale of mixed staples and the buyer sets his prices on the basis of the shortest link. Therefore, the farmer loses the value of his better cotton, whereas he would receive a higher price if the bale contained uniformly longer staples.

A Southwide campaign is being launched by the Department, cooperating with the extension forces of the state agricultural colleges, to discourage the production of short staple cotton and to grow cotton of standard length of an inch or more.

Mrs. Bernard Fisher and son, Julius, and Mrs. Julius Eckhaus left Thursday morning for a two months visit with relatives in Chicago, La Fayette, Ind., and Cincinnati, Ohio.

FANCY AND PLAIN SEWING

of all kinds, WANTED. Reasonable prices. Phone No. 457-R. MRS. A. E. HENDRICKS, on west side. 1p

SEE CREATH FOR

bargains in new and used furniture

I have now on hand a nice lot of used oil stoves and some coal and wood cook stoves; used cabinets, bedsteads and springs, both new and second hand dressers, chairs, chiffonettes, chifoneers, library tables, etc. A good office desk, lots of dining and kitchen tables, cream separators, a Daisy churn, refrigerators and ice boxes; one big square grand piano, a lot of good sewing machines, one big hotel range double oven; a small meat market refrigerator; an Indian two-cylinder motorcycle, one good computing counter scales; one silver tone phonograph; a big electric fan; an electric washing machine, and one hand power washing machine; library tables and hundred and one other things.

I have cheap ready made mattresses and make any kind you want, also work over the old ones. I can save you over half on a good mattress.

Come in and let's talk it over. I need the money and you need to save money. Yours truly, J. R. CREATH

Many a small boy is kept in after school because his father worked his arithmetic wrong.

LOCKING THE SCHOOL HOUSE DOOR

It takes but a few seconds for the rural teacher to turn a smoothly working key in the schoolhouse door at the end of her year's work. If she thinks as she does it "I am glad this year is over and I hope I never spend another day teaching a country school," the momentary act and thought may well set us thinking. For in spite of the young woman's dislike she may spend some years as a country teacher; city schools demand extended professional preparation and many rural teachers are not eligible to city positions. Only the initiated appreciate how little the teaching done by those who are not happy in doing it amounts to, or remember that every child taught by such a vocational misfit fails to get a square deal.

The two main reasons for disliking any worth while job are natural unfitness and lack of opportunity to learn how to do the work well. The available means for preventing the tragedy of subjecting children to teachers who are vocational misfits are selecting professionally prepared teachers for all teaching positions and supplying a sufficient number of supervisors to guide them during the apprentice or beginning years. The former means should prevent vocational misfits in teaching; the latter, discouragement because of isolation or failure to meet the difficulties of a new situation.

Rural schoolhouse keys will turn regretfully in the locks at the end of the school year in just about the proportion in which a State provides good buildings and equipment, definite preparation and adequate supervision for its rural teachers.

SOCIALISM THAT WORKS

Under the caption, "Socialism and How It Works Today in America," the San Francisco Chronicle says:

"Socialism and its more radical brother, communism, in its wildest imaginings has never contemplated the distribution of wealth in the manner and by the means by which it is now being distributed. There is now among us an era of distribution of wealth by dividing and selling vast corporations in small pieces to the 'man on the street,' the wage earner and the house maid.

"The great railroad systems of this country, the public service corporations and street railroads, and even great oil corporations today have their hundreds of thousands of small stockholders who have obtained, through husbanding their frugal savings, 'their portion' of the wealth of this country. This far seeing and far-reaching movement, this distribution of the \$25 share of stock and the \$100 bond, is the conservative's answer to the socialist.

"This distribution of wealth is the true scholastic paradise. Each day this millennium of wealth distribution is being more nearly perfected, and every home owner, every stock owner, and every bond owner, as the numbers increase, answer the socialistic problem of the division of wealth with unanswerable argument.

"This is why today America is fundamentally sound. This is why, with approaching years, men may look forward with satisfaction and contentment to the prospect that this country, the home of their children for generations to come, will provide a sanctuary of safety for all times. Such assurances for the future make the vista of coming years for American citizenship one to contemplate with satisfaction."

RESOLUTIONS OF CONDOLENCE

Resolutions on the death of Miss Josie Hoefle:

Whereas God has called our esteemed friend and member of the Altar Society of the Catholic church.

Be it resolved that the ladies of the Altar Society express to the bereaved family deepest sympathy in the loss of their loved one, whom God has called.

Miss Hoefle's christian life exerted enables us to realize the pain her sorrowing family have been called upon to bear in their loss but may they be comforted in the hope that happy reunion in the kingdom prepared by Him for those who love Him and keep His commandments.

Be it further resolved that a copy of these resolutions be sent to her sister, Mrs. Weeg and a copy spread upon the minutes of this meeting and a copy published in The Herald. Mrs. Annie Vines. Miss Catherine Currie.

"Medical science has been able to check a great many of these children's diseases." "Yes, but children today, instead of getting scarlet fever or diphtheria, get a motor car, so we really are not much better off than we used to be."

Ideas are queer things. They won't work unless you do.

TEXAS INDUSTRIAL REVIEW

Jacksonville — Texas legislature turns over to A. & M. College, for forestry demonstration purposes, approximately 2,150 acres of timber land in Cherokee county, formerly owned by Texas prison system.

Dallas — Plans made for erection of 2-story garage building for Perry Motor Company.

Kerrville — 36-acre tract on Johnson Fork of Guadalupe river designated as site for state fish hatchery.

Dallas — Contract awarded for \$130,000 University Club building, to be erected on roof of second unit of Santa Fe Terminal structure.

Anahuac — Heavy cattle shipments being made from here.

Dallas — Baker hotel rapidly nearing completion.

Midland — Henderson Horton ranch sold to Christie Cotton Company of Waco; the ranch will be cut into 36 cotton farms.

Fabens — Cornerstone laid for new high school building.

Double Bayou — Oil discovered on Jackson JK ranch, south of here.

Eleven million Bermuda onion slips set out in Farmersville and Princeton districts this season.

Dallas — Site being cleared for construction of 18-story office building at corner of Commerce and Ervay streets.

Houston — Three new steel bridges to be constructed by Southern Pacific Railway on their track from Lufkin to this place.

One hundred thousand barrels of oysters produced along Texas coast during 1924.

Lufkin — New Braunfels Company, with mills at San Marcos and New Braunfels, proposes to build cotton mill here.

Yoakum — Southern Pacific Railway to enlarge local shops.

Port Arthur — Contracts aggregating \$36,650 awarded for purchase of one city service truck and two new pumps for fire department.

Dallas — Administration building being planned for Southern Methodist University.

Pipe line runs from north Texas district and other pools in north central Texas division showed average of 97,055 barrels daily during week ending May 4.

Port Arthur — Country club spending large sum to improve its plant.

Childress — \$65,000 street-improvement bonds to be issued; 60 blocks of paving to be laid in residence section.

Galveston — \$1,000,000 cotton factory to be built.

Dallas — "White Way" installed on Jefferson avenue and Taylor street in Oak Cliff district.

Spur — Work started on construction of new 180,000-gallon reservoir.

Bonham — Compress to be erected.

Dallas — Work started on Lake Dallas causeway; to cost \$75,000.

Clint — Cottonseed mill to be built here.

Austin — Provision made for installation of 28 fire escapes at state institutions.

Dallas — Contracts awarded for erection of warehouse and commercial structure; aggregate cost of the two to be about \$90,000.

Lockhart — Gulf Production Company's No. 4 well comes in with production estimated at 700 barrels.

Austin — New biology building dedicated at University of Texas.

Clint — Large addition to be built to local school building.

Clisco — New triple combination LaFrance pumper installed by fire department.

Big Spring — Building construction active.

Jacksonville — Southern Pacific Railway to build track downtown to be used for freight depot and freight-loading facilities; improvements would aggregate \$150,000.

NOTICE

"Our state is among the few fortunate ones which have laws providing for the establishment of kindergartens upon petition of parents.

"Notwithstanding our splendid law less than five per cent of our children are having the privilege of kindergarten training, according to the latest figures issued by the United States Bureau of Education.

"Petitions should be circulated at once to get kindergartens opened in September. Blank petitions and propaganda material may be obtained by writing the Texas Field Secretary of the National Kindergarten Association, Miss Grace Montague, 2233 Sixth Avenue, Fort Worth, Texas."

TEXAS POTASH

The prospect of a larger fortune than its off wells promise is held up to the imagination of the University and its alumni by an article in the June number of the *Albion*. The author is an alumnus, Nowlin Randolph, who seems to have written somewhat under the inspiration of Dr. Udden, which circumstance should allay any skepticism that may be occasioned by lack of knowledge of the writer's competence to discuss the subject.

That potash underlies a great area of West Texas has of course long been known. A well drilled by the Swensons in Dickens county as far back as 1912 discovered the presence of it. Since then it has been discovered in numerous other sections of West Texas. In 1914, Mr. Randolph shows, potash was found in Potter county near Amarillo. In 1924 it was found in Midland, Dawson, Reagan, Loving and Ward counties, and in some instances at least, notably in Reagan county, where the University is getting its oil royalties, on land belonging to that institution.

The big question is whether the potash exists in sufficient quantities and in circumstances to make it of economic importance. Tests so far made have excited rather than satisfied curiosity. Mr. Randolph's article in the *Albion* is given over chiefly to a consideration of the ways and means of bringing about such tests as will answer that big question. He takes note of the fact that a proposal has been made in Congress to give the United States Geological Survey \$7,500,000 with which to make explorations. But he seems to be but little hopeful that much testing in Texas will come of that proposal.

Mr. Randolph suggests what he regards as a better method of bringing about the necessary tests. He says (writing while the Legislature was in session) the existing law allows only 80 acres of land to be leased as a unit for mineral exploration and exploitation. "While 80 acres would offer an attractive proposition to a gold miner," Mr. Randolph writes, "it is not, Dr. Udden believes, sufficient to tempt any sensible seeker for potash. At least ten sections would be demanded by a properly financed and controlled mining company, and this much the law will not allow the University to rent to one company. Speedy repeal of the statute by the present Legislature is the only thing which can render University land attractive to the investor."

If the repeal he urged was not enacted, it ought to be at the first opportunity. It might not assure an exploration of the University's lands for potash, but at least it would make exploration less unlikely, without cost to the University in any case, and to its and the State's great profit if tests should disclose deposits of potash that may be economically exploited. —Dallas News.

ROADS IN TEXAS TO BE HARD-SURFACED

Austin, Texas, May 27.—The State Highway Department is to spend \$3,500,000 in hard-surfacing every designated graveled or macadamized highway in Texas, according to announcement made Tuesday by Joe Burkett, member of the State Highway Commission.

"It has been decided to place a hard surface on the designated graveled or macadamized highways, said Mr. Burkett, "to retain the values placed in those roads as well as to make them better for the traveling public, and it is to be done as rapidly as possible.

"If these roads are not surfaced with asphalt or similar materials they will grind up and blow away, thereby causing a heavy loss to the taxpayers who voted the bonds. There are approximately 1,200 miles of such roads to be hard-surfaced and it will cost about \$2,000 a mile to do it."

As a result of the commission's maximum allotments, no material amounts will be allotted for road construction for some time, and no new designations will probably be made before the September meeting of the Highway Commission, Mr. Burkett explained.

How Often Do You Take a Bath?

WHY NOT GIVE YOUR CLOTHES THE SAME CHANCE

—suppose you only bathed once every month!

We may be getting a bit personal inquiring how often you bathe—but just suppose you only indulged once every month. Gives you a rather disagreeable picture, doesn't it?—a picture of unhealthfulness and insanitary conditions.

—but what of your clothes?

Think how many people let their suits or their dresses get two or sometimes three months without ever paying a visit to the cleaner.

—and your clothes get just as dirty as your skin!

Germs and disease lurk in unclean clothing. The only way to eliminate these is to have your garments cleaned regularly by a reputable cleaner.

—and clean clothes give you so much more service. Cleaning soon pays for itself in the added wear that comes from your garments.

Wild Bill's Last Spree
By ELIZA M. HARVEY
(© 1925, Western Newspaper Union.)

YOUTH sat heavily upon Wild Bill Wasson. Just now Wild Bill was learning—not to his taste, exactly—but learning, for all that.

His girl had thrown him down for the measly Kelly, who hadn't the courage to be so wild as he. His career in life was wrecked—just as his motorcycle had been wrecked in the last race. If he hadn't hit that skid he would certainly have walked away with nine thousand dollars, a perfectly good pair of legs, and a perfectly good girl.

But the chap who did win the nine thousand—Wild Bill—cursed him under his breath, then he suddenly said aloud, defiantly—to no one and no thing in particular—

"I'm going on one wild spree! They call me Wild Bill—just because I drove a motorcycle hell-bent where any other guy is afraid to make more than forty miles. Well—I got mine, all right! But I'm not done yet, just because I've got a game leg. Wait till I get on my feet."

He got on his feet several months later, with a slightly perceptible limp—a bitter heart—and a recklessness that boded ill for anything that stood in its way. Money had been showered on Wild Bill with lavish hand by the fates—and an indulgent parent. He was like any other man who had come too early to the age of twenty-four.

If any man ever earned a sobriquet, Wild Bill earned his from then on. Wild parties and wild women knew Wild Bill as a thick-as-thieves intimate; till Wild Bill's old girl, being selfish and a coward at heart, shook inwardly at the havoc she had wrought and wondered what would be the end.

There's no knowing what the end might have been—if Kelly's old girl hadn't been in the Blue Owl that night. She danced with Bill as a silvery curtain dropped from nowhere around the dance floor—cutting the revelers at the tables completely from sight. The huge shaded chandelier over the dance floor went dark. Wild Bill hugged the girl up to him and said under his breath:

"Give us a kiss." The girl pulled back quickly, and answered with a sharp intake of breath.

"Not unless you take me away from here in that big blue car outside."

Bill kissed her with a grin. And five minutes later they were tearing down the long smooth road. There was a careening silence, till Bill said abruptly:

"You're here—what'll you have?"

"You!" the girl spoke sharply. "You're too good a man to go like this. You think that girl broke your heart and wrecked your life just because she threw you down for Kelly. Kelly threw me down for her. You're worth ten of Kelly. You've got to stop before it's too late."

"Wow! Got to, eh? Where do you get off? What have I got to stop for? Nobody cares for me, my girl!"

"I do. I've been mad about you ever since you first started racing, but I was promised to Kelly—and I kept my word. She never cared for you in a minute like I do. You know there's other things in life beside racing. You're just off on the wrong foot. Take some of that coin you're wasting and start round the world in this car—with me. Get into a decent business, marry me and settle down and try the other side of life. If it's no go—you can step out, say 'I'm through—good-by and good luck,' and you won't hear a word from me. If it pans out—well, who knows? Anyhow—I'm willing to try—and I'll stick—and I keep my word."

The big blue car slowed down to a creeping pace. Bill looked at the girl with eyes and brain cleared by the shock of what she was saying. Suddenly he laughed uproariously. He stepped on the gas—and Wild Bill yelled over his shoulder:

"Well! That's one kind of spree I've never tried! But I'll try anything once. You're on—let's go!"

He was still laughing when the justice of the peace sighed sleepily over the words that made them one, hours later. The girl's face was set. She had made a grandstand play—but she was not afraid to race it out with him.

There's a quiet little town in the West where business is booming under the hand of a keen-eyed, clear-brained chap. Everybody in town swears by him. He has a wife that he wouldn't take all the kingdoms of the world for, and who rules his life with her slightest smile. He has two children that are the pride of his heart. He leads a cool, sane, steady life that many a man points out as a top-worthy existence for example to his growing sons.

Wild Bill Wasson is still on his last spree.

What Else Could He Do?

She was a practical young woman, and he had been flirting with her for a long time. When they met at the party she thought it was time she brought him up to the scratch.

Games were in progress after dinner, and he, searching for her, discovered her in the conservatory.

"Come along," he said, "we're just going to play 'Kiss-in-the-Bing,' and I shan't enjoy it unless you play."

"Let's play it out here," she answered. "I'll give you the kiss and you give me the ring."

And another young engaged couple.

PREFERRED STOCK OF PUBLIC UTILITY IS PLACED ON SALE

Preferred Stock of the Southwestern Power & Light Company, a large public utility corporation, was offered for sale today by L. J. Geer and employees of the West Texas Electric Company which operates in Sweetwater, Big Spring, Colorado, Roscoe, O'Donnell, Lorraine, Lamesa, Westbrook and Coahoma.

Because of its unusual record of prompt dividend payment the stock is considered one of the most attractive investments offered to the local public in some time. In order to make it possible for every consumer to become a Preferred Stockholder and thus share in the money paid out in dividends every three months, shares are being sold on a liberal Partial Payment Plan as well as for cash.

During the last week meetings of Company have been held at all the employees of the West Texas Electric Company offices and the merits of the stock explained to the men and women who today offer it to the general public. Most of the employees have already invested in the Preferred Stock, realizing that it offers great safety and a substantial return on the money. Many of these men and women took advantage of the Partial Payment Plan while others purchased the stock outright.

This morning the sale of the stock was started and encouraging receptions were given to the salesmen by virtually all those approached. While the results have not yet been fully tabulated it is known that a large number of shares were sold.

Selling for \$100 a share the stock pays dividends every three months amounting to 7 per cent a year. Its safety is shown both by the character of the business of its subsidiaries and its unusual record of prompt and uninterrupted dividend payments extending over more than 12 years.

The Southwestern Power & Light Company owns the entire outstanding securities of 11 public utility companies and a substantial interest in two others. All serve necessities of every-day life and are situated in one of the most prosperous and substantial sections of the Lone Star State. These Companies serve more than 144,876 customers and without their service the communities in which they do business could hardly exist.

The 11 companies are: The Oil Belt Power Company of Eastland, the Oil Cities Electric Company of Eastland, DeLeon, Gorman, Ranger, Breckenridge and Graham; the International Electric Company, and the Eagle Pass Water Company, both of Eagle Pass; the West Texas Electric Company, operating in Sweetwater, Big Spring, Colorado, Roscoe, O'Donnell, Lorraine, Lamesa, Westbrook, and Coahoma; the Sweetwater Ice and Cold Storage Company, serving Sweetwater and adjacent territory; the Wichita Falls Electric Company, which serves Wichita Falls, Electra, Burkburnett, Iowa Park, Henrietta, Bellevue, Holliday, Seymour, and Bomarton; El Paso Gas Company, which sells gas in El Paso, Texas, and Juarez, Mexico; the Galveston Gas Company of Galveston; the Texas Public Utilities Company, which operates in Annona, Lufkin, Bowie, Clarksville, Cooper, Crockett, Sulphur Springs, Smithville, Lockhart, Lamesa, Seymour and Eagle Pass, and the Paris Transit Company of Paris.

The Southwestern Power & Light Company also owns a substantial interest in the securities of the Fort Worth Power & Light Company and the Texas Power & Light Company. Shares of the stock may be bought for time payments of as little as \$10 a month. For the benefit of stockholders who may later wish to sell their shares a resale department will be maintained.

CITY FEDERATION NOTES
Preparations are going busily on for the big all-home-talent carnival on June 20th. Brand new attractions never seen in Big Spring before will be ready for you. It is not too early for everybody to plan to make that date a big get-together occasion for Big Spring and Howard county, and incidentally by spending a few dimes and quarters help the City Federation put over Bigger and Better things for the old home town. Watch for further particulars. The City Federation did not hold its regular meeting on Tuesday on account of chautauqua, but the meeting will be held on Friday, June the 5th at the rest room. All members are urged to remember this change of date and be present to discuss important business concerning the Carnival. All Chairmen are especially urged to be present.

HONORING JUDGE AND MRS. J. B. LITTLER
(Received too late for last week)
There was a gathering of Presbyterians at the attractive home of Mr. and Mrs. S. A. Hathcock last Tuesday night in honor of Judge and Mrs. J. B. Littler whose removal from our city is so keenly regretted. Altho this was a farewell party, it was determined to eliminate the sorrow of parting, and to make this last coming together one of gladness and happy association. There was a program of music, both vocal and instrumental and readings and a speech or two. Rev. Mr. Owen presented Mrs. Littler with a small remembrance from the members of the church in token of the love and appreciation felt for her. After the program a series of most amusing games kept all interested. Refreshments of brick cream and angel food cake were served. This was a delightful social occasion and came to a close all too soon. The friends of Judge and Mrs. Littler are expecting and demanding frequent visits from them when such pleasant occasions may be repeated.

Wm. G. McAdoo Calls Memorial Coins South's "Badges of Honor"

Stone Mountain Memorial
Must be Completed, De-
clares Ex-Governor Frank
O. Lowden of Illinois.

"The campaign for the distribu-
tion of the Confederate Memorial
Half-Dollar, minted under special
Act of the Congress of the United
States as souvenir of Stone Mountain
Confederate Memorial deserves
the support of all who love to honor
the great deeds of the South and the
heroes who performed them," says
William G. McAdoo, and continues:
"The proceeds of the sale of these
coins are to be used for the com-

WILLIAM G. McADOO

the common heritage of all.
"Let the people of the South in
particular accept the present oppor-
tunity to buy these coins and there-
by assure the completion of this
great Stone Mountain Memorial as a
tribute to their heroic sons."

Ex-Governor Frank O. Lowden,
of Illinois, says:

"I have noted with interest the be-
ginning of the campaign for the sale
of Confederate Memorial coins is-
sued by the National Government
for the benefit of Stone Mountain
Memorial."

"I have seen the beginnings of
this marvelous Memorial to Amer-
ican valor and I should like to see
the great work completed. When
other monuments erected by men's
hands have crumbled into dust this
Memorial to brave and devoted men
will stand as eternal as the hills."

"It will be a source of inspiration
to uncounted generations of the chil-
dren of men. I hope that the cam-
paign may have the success it de-
serves and that these souvenir coins
may find eager and willing pur-
chasers everywhere."

FRANK O. LOWDEN

pletion of the Stone Mountain Con-
federate Memorial. Each purchaser
of one of these Historic coins se-
cures a badge of honor and helps to
commemorate the valor of the men
of the South who sacrificed and died
for what they believed to be right.

"The issues which led to the Civil
War have been settled happily in
favor of a permanent union of the
states, guaranteeing liberty, equality
and security to all the people under
the protection of Democratic insti-
tutions and the valor of the men on
both sides who made this possible, is

TEXAS TODAY

By Mrs. Phebe K. Warner
Dr. Bizzell.

There is no truer friend to the
young manhood of this State than
Dr. W. B. Bizzell, President of Texas
A. & M. College. There is not an-
other man in all Texas who better
understands the trials of our boys
from the cradle to the presidency of
the greatest college for young men in
America than Dr. Bizzell. And there
is no other man in all this broad
State that has such a hold on the
hearts of our Texas boys as Dr. Biz-
zell. There is no more loved and ad-
mired college president in the State.
Every cadet in that college would
fight to the last ditch for their pres-
ident if an occasion presented itself.
It is universally admitted that the
spirit of loyalty and close kinship
between the president and the stu-
dent body of the Texas A. & M. Col-
lege is one of the best and finest in
the entire State.

The past week the State of Texas
received one of the hardest educa-
tional jolts in history, when the peo-
ple of our neighboring State, Okla-
homa, demonstrated that they re-
cognized and appreciated a great Texan
even more than his own State had
ever realized they did. For more
than ten years Dr. Bizzell has work-
ed and plead and BEGGED for the
necessary means to develop one of
the greatest educational institutions
in this Nation. Born and reared al-
most within the shadow of A. & M.
College he has watched its struggle
to exist and grow for many years. He
understands the needs of his State.
And he has tried in every way pos-
sible to make the training of enough
men to meet the growing demands
in Texas development.

But there is a limit to the patience
and sacrifices of every great man.
And all Texas is truly scared for fear
this limit has been reached in the
person of the President of our Agri-
cultural and Mechanical College. For
a man who has fought his way to
the top in education to have to bow
at the feet of men and women who
have never struggled so very far up
the education ladder and BEG and
sometimes even CRY for means at
the hands of the State officials to
carry on the work of developing boys
and men to direct the business inter-
ests of the State is not only discour-
aging but sometimes humiliating.

It actually looks like Dr. Bizzell
was so tired of begging the State of
Texas to give him a chance to do
his best for her sons that he is being
tempted to give up and sell out for
a few thousand dollars. Dr. Bizzell
is worth a MILLION DOLLARS a
year to Texas. What will Texas do?
As for Oklahoma, she has taught us
a most valuable lesson in human
values and we should at least con-
gratulate the State University of
Oklahoma on its common sense and
good judgment of worth-while men.
Prohibition and Education.

As a rule prohibition and educa-
tion go hand in hand. Look over
your community. How many of the

bootleggers and those who sympa-
thize with them and patronize them
pay much attention to the develop-
ment of the schools in the county?

How many of their children complete
the high school course? How much
does the average bootlegger of today
sacrifice to send his children to some
good school should they finish high
school? Are they the people who
are always in the front ranks work-
ing for better schools and better
teachers, or do most of them pull
back on the ground that "my child-
ren have more than I ever had?"
"Taxes are too high now." "We can't
afford a new school house." Do
you think the average bootlegger of
today is a good sample of school
trustees?

The thing that has discouraged
and disappointed us most in our
woman rule in Texas is simply this:
Turning loose the bootleggers from
the penitentiary because they were
needed at home and vetoing the ap-
propriation that made it possible for
our Texas girls to be taught the
principles of home-making and
economics. If there is anything that
the intemperate man's child needs
most of all it is to be taught how to
make a better home than her father
and how to make a dollar do 100
cents worth of good. Those are the
two things that anybody who wastes
their life and money on booze do not
fully appreciate. And the State of
Texas would be doing most children
a greater favor to keep such fathers
out of the way and give the mothers
and the children a chance to do
their best. Intemperance and ignor-
ance have always been about as
closely associated as prohibition and
education. Where you find the first
you are more than likely to find
the second, for the first naturally
leads down to the second. It's all
right to have a kind, tender heart
providing it don't run away with
your head.

\$150,000,000 for Good Roads.

We haven't the slightest idea what
a hundred and fifty million dollars
mean. But we are for it sight and
unsight for good roads. Because if
Texas should vote such a bond for
good roads she will just be making
herself a present of a like or larger
amount that otherwise will go to
some other State. The good roads
campaigns are all based on that true
scripture, "To him that hath it shall
be given." And to those who do not
vote for good roads their quota of
Federal taxes are taken away and
allotted to some other State that does
vote for them. Because of her great
distances Texas receives more Fed-
eral aid than any other State in the
Union. And because she is FIFTH
in population she receives the fifth
largest amount of that portion that
is distributed in ratio to population.
And certainly because of our great
stretches of highway we need the
best roads to save time and gas and
wear on our autos. And if this
\$150,000,000 can be raised in a few
years by a three-cent gas tax why
not give the people from other States

who chase across Texas to get to
other parts of the world a chance to
help us pay the bill. Since Texas
has the greatest distances she would
naturally sell the most gas to the
people. As it is what do we get
from the tourists? We've no place
much in Texas fixed up for them to
stop. They have to go on until Tex-
as develops some civic and scenic at-
tractions. Texas is used by folks as
a great long bridge to connect the
North with the West and the West
with the East and the South with the
whole nation. Last year the auto-
mobiles within the State of Texas
covered 7,000,000,000 miles. Yes,
SEVEN BILLION MILES. And it
cost more than \$48,000,000 to pay
just for the gas. How many miles
of hard road would a three-cent gas
tax on 7,000,000,000 miles of travel
mean for Texas? Here is something
for every club woman in Texas to
study. If you do not understand the
bigness of this proposition, and none
of us do, let's get busy this year
and try to understand what it will
cost and how the money will be
raised and what it would mean to
OUR STATE to have within five
years a system of hard roads thru-
out the length and breadth of Texas.
And in your study of the good roads

problems don't forget to also esti-
mate how much the average car own-
er and taxpayer would actually
SAVE by a State-wide system of
hard roads.

Knights of Pythias and Less Crowder
of Colorado are to be here tonight.
They will bring a candidate for ini-
tiation by the Big Spring Lodge. A
good attendance of Sir Knights is
requested for this meeting.

HERE'S YOUR CHANCE

All Gents Underwear at Cost.
Clyde Fox.

HOW TO GET 7% on your money

Invest your savings in
Southwestern Power & Light Co.

DO not confuse "investing" with
"speculating." Lots of folks
don't realize the difference. "Specu-
lating" means taking chances; run-
ning risks; subjecting your hard-earn-
ed dollars to perils and hazards—what
many people call "stock gambling."
INVESTING does not consist of plung-

ing or blindly taking chances. Invest-
ing means putting your money to work
in some firmly established business
where they will steadily and surely
earn more dollars for you. And that
is just what happens when you buy
shares of SOUTHWESTERN
POWER & LIGHT COMPANY

CUMULATIVE PREFERRED STOCK

SOUTHWESTERN POWER & LIGHT COMPANY

owns all the outstanding securities
of the following companies

Galveston Gas Company
El Paso Gas Company
Wichita Falls Electric Company
West Texas Electric Company
Sweetwater Ice & Cold Storage Co.
Paris Transit Company
International Electric Company
Eagle Pass Water Company
Oil Belt Power Company
Oil Cities Electric Company
Texas Public Utilities Company
Southwestern Power & Light Co.,

also owns a substantial
interest in the securities of
Texas Power & Light Company
Fort Worth Power & Light Co.

Consider the man who invested in 10
shares of this stock when the first
shares were sold to the public over 12
years ago. It meant an outlay of about
\$1000.00. Since then his shares have
earned dividends for him amounting to
\$880.00.

That amount would have been his
loss if he had let his savings remain
idle instead of investing them.

How much will YOU stand to lose in
1 year, in 2 years, in 10 years if you do
not invest the money you have saved?

The question is NOT, "can you afford
to invest?" but "can you afford NOT to
invest?" Can you afford to stand by
and LOSE the money your saved dol-
lars can earn for you?

This stock has NEVER FAILED to
pay dividends, in HARD times as well
as good times, ever since the first
shares were sold to the public: OVER
TWELVE YEARS AGO.

The dividends amount to 7 per cent a
year on each dollar you invest if you
buy the stock at the present price.

The dates for paying dividends are
March 1, June 1, September 1, and
December 1.

Cumulative. This stock is cumulative,
therefore, the Company must pay the
dividends in full, before one penny of
dividends can be paid to the Company
Stockholders.

Preferred as to Assets and Dividends.
Besides having preference in regards to
dividends, this stock is preferred as to
assets and the Company must pay you,
in case of liquidation, \$100.00 and ac-
crued dividend for each share of Preferred
Stock before anything can be
paid to Common Stockholders.

Fully Paid and Non-Assessable. The
stock is issued as fully paid and is not
subject to assessment.

Voting Rights. Each share of this stock
has equal voting rights with the Com-
mon Stock.

"ALWAYS GO DEAF IN BOTH EARS WHEN A BIT OF GOSSIP FLOATS MY WAY! MOST LIKELY IT ISN'T TRUE, AND ANYWAY, I NEVER COULD GET ANY ENJOYMENT OUT OF THE MISFORTUNES OF MY FRIENDS."

PRESERVING MASTODONS AND ROADS

An interesting article in World's Work for March, written by Frederick Alan Thompson, starts with mastodons in the prehistoric era as the basis of an article on modern road construction. Strange as this comparison may seem, the mastodon stuck in a pool of asphalt and preserved for thousands of years and the application of this water-tight everlasting material as a road covering, have much in common.

Mr. Thompson says, "Through the ages... this seemingly deathless material has had practical uses. Now it affords luxurious pavements on 90 per cent of the famous thoroughfares of the world. Appius Claudius made the Appian Way a great causeway of layers of stone three feet thick, because he didn't know what a canny Scotch engineer named Macadam found out eighteen centuries later.

"Macadam's theory was simplicity itself. He said that no matter of what structure you made a pavement, the earth must in the last analysis hold it up, and that the earth, dry and compacted, would ordinarily sustain any reasonable load; therefore, only a shell, if water-tight, was needed over the dry earth. He found that rock dust between angular broken stones into a waterproof shell—and so the Roman three-foot road became a macadam six-inch road. But alas, for all his brains, the Scotchman had not foreseen the coming of the automobile, which, in passing, sucked up the precious rock dust and deftly sprayed it over gardens and fresh laundered curtains. Right here, asphalt came to the rescue. The grim tenacity of the clutch which held the mastodon as though he were a fly, bound tightly together the stones against rending by the juggernauts of the road, and at the same time, shed water like a duck's back.

"Water is a tireless, resourceful, cunning enemy of roads; if a pavement is not waterproof, water penetrates it and softens the underlying earth. Asphalt is so flexible and resilient that the severe stresses set up by nature have no effect on its stability. This flexibility also allows the pavement to maintain contact with the underlying earth with its tremendous supporting power. A rigid material would be forced to bridge every shrinkage of earth foundation or break under the load."

Many states have taken advantage of the lesson taught by the mastodon stuck in the asphalt. They have used thousands of miles of well-packed old gravel and macadam highways and streets as the base for a waterproof covering of asphalt mixed with crushed rock and rolled down under pressure. Such roads and streets have been in use many years. They were built at a minimum expense and have given a maximum of service and taxpayers have been saved millions of dollars.

TOMATO PLANTS FOR SALE

BABY OF MR. AND MRS.

WALTER SULLIVAN DEAD

Mr. and Mrs. Walter Sullivan have the heartfelt sympathy of many friends upon the death of their beloved baby boy, Bobby, aged three months and fifteen days, one of their twins, who was claimed by death about noon, Thursday, May 28th.

The little fellow had been ill for some time, and the parents were bringing him to town for medical attention when his condition became worse and the parents stopped at the ranch home of Mr. and Mrs. Hart Phillips; he died shortly thereafter.

The funeral services were held at the home of Mr. and Mrs. G. L. Brown at 11 o'clock Friday morning, conducted by Rev. Geo. J. Ruth. The remains were laid to rest in Mt Olive cemetery.

FIVE RULES OF LIFE

First—To hear as little as possible of whatever is to the prejudice of others.

Second—To believe nothing of the kind till I am absolutely forced to it.

Third—Never to drink in the spirit of one who circulates an ill report.

Fourth—Always to moderate the unkindness which is expressed towards others.

Fifth—Always to believe that, if the other side were heard, a different account would be given of the matter.—Ex.

They are just as clean as they can be when they leave the Big Spring Electric Laundry.—advertisement.

MIDLAND AND BIG SPRING BASEBALL GAMES

A large crowd was present at the ball park on last Saturday afternoon to see the Midland Colts and the T. & P. shop team tangle up. The local team with Ratliff pitching had easy going and won by a score of 10 to 1.

The same teams played at Midland Sunday afternoon. Midland won the game in the tenth inning 11 to 10 when Wright secured his second home run.

Most of the fans who witnessed Sunday's game were disgusted, and say a few more games, characterized by such fussing and wrangling, will destroy interest in games between these two teams and cause fans to quit attending.

It had its beginning in Midland refusing to permit the Big Spring manager to name one of the umpires. It seems that some of the players were not satisfied with the decisions of the umpires in Saturday's game. While both umpires in Saturday's game were selected by Big Spring. It was not until after the Midland manager and captain were requested to secure an umpire; the manager of the local team even agreeing to pay half the cost of employing a Lamesa man to serve as umpire. A glance at the box score clearly proves that unfair umpiring could hardly give Big Spring such a decisive victory as was won.

Good, clean sport—with bickering and wrangling eliminated—will be necessary if the fans give their loyal support. Look over the box scores: Big Spring—Saturday, May 30th—

DELIGHTFUL DINNER PARTY

(Received too late for last week)

Mrs. J. O. Tamsitt entertained with a very charming 6 o'clock dinner party last Wednesday night. Dr. Currie of Austin was the supreme honor-guest, tho the hostess insisted that Mrs. J. I. McDowell, newly elected president of El Paso Presbyterial, and Mrs. T. S. Currie, new Auxiliary president, and Mr. J. O. Tamsitt, newly elected Elder in the Presbyterian church, were sufficiently in the limelight to be also counted as honorees. These and a few other invited guests thoroughly enjoyed Mrs. Tamsitt's delightful hospitality. Unique place cards guided the guests to their seats at the bountifully laden table. Besides those already mentioned Mr. T. S. Currie, Rev. and Mrs. Owen and little daughter, Mrs. Barrick and Mr. and Mrs. Guy Tamsitt were present.

HOUSE FOR RENT

I will have a 6-room house for rent on June 1st. Call at 108 Scurry street. 37-2pd

PRESBYTERIAN AUX. NOTES

The ladies met at o'clock last Monday for the regular monthly Bible study. Mrs. Cunningham was leader and the Book of James was the study. Not many were present, but a most pleasant and profitable hour was spent in study and prayer.

Next Monday the Auxiliary will meet at the church at four o'clock for the June program, which is as follows:

Hymn—O Zion Haste.
Prayer.
Devotional—The Master Calls—
Mrs. J. O. Tamsitt
Miss Lizzie's Legacy—Mrs. R. L. Owen.
Map study of Assembly's Home Missions by all present.
Prayer for needs as brought out in program.
Hymn—Something for Jesus.
Mizpah Prayer.

Roger Gallemore arrived Monday morning from Galveston where he successfully completed the course in Pharmacy at the State Medical College. Roger stood the examination before the State Board of Pharmacy several months ago and is now licensed to practice pharmacy.

Mrs. Frank Collier was found guilty for complicity in the murder of her 17-year-old son in law, Elzie Robertson, by a jury at Haskell last week. She was given a sentence of ten years in the penitentiary. Motion for a new trial was denied. She was released on \$10,000 bond.

WEST TEXAS' BIG JOB

The West Texas Chamber of Commerce starts its campaign for improved agriculture with the announcement of a series of lecture meetings in 50 cities and towns. Agricultural experts will tour the country with the aim of inspiring farmers to profitable diversification. This is a step of far-reaching importance in carrying out the recommendations of the recent annual meeting of the organization at Mineral Wells.

West Texas' agricultural resources are unlimited. The extent of the progress and prosperity that shall ensue in this great region depends upon two factors: The acquisition of men and money for production, and the establishing of a responsive market. The men and the money are coming into West Texas. The proposition of a market thus becomes of first importance—which brings us to another recommendation of the Mineral Wells meeting, which was coupled with the diversification recommendation—that of standardization of West Texas agricultural products.

The proposition of marketing entails both selection and variety of products and their proper preparation for the trade. Standardization of products is the thing that has made the California agricultural establishment. It will do as much for West Texas—more because as between the resources of West Texas and California there is no basis of comparison.

Every commission man knows that there is a wide difference between just eggs, for instance, and standardized eggs—standard as to size, color and quality. The former bring the lowest prices and a sale of them establishes no chain for another sale. Standardized eggs bring repeat orders from the commission men, and establish a chain of selling which the poultry raiser, the merchant and the consumer can depend upon.

West Texas produces better watermelons than any other section of the country. Yet comparatively few watermelons are exported from that region. West Texas has superior advantages in the production of berries and small fruits, in the production of all kinds of garden truck, in the manufacture of farm dairy products. It is up to West Texas to organize and capitalize these vast resources.—Fort Worth Star-Telegram.

Old Curiosity Repair Shop

China, glassware, furniture, sewing machines, typewriters, guns, bicycles, electric flat irons, electric washing machines, vacuum sweepers, fans, phonographs, automobiles, repaired. Hydrant bibs and cut-outs, renewed. Inner tubes vulcanized. In fact, we are prepared to do all kinds of repair work. Give us a trial. Shop at 504 Jack street. J. R. CRAVEN. 22tf

Paint your own jitney.....Cunningham & Phillips.

Friends are showering Mr. and Mrs. Fontaine Hair with congratulations over the arrival of a charming daughter at their home on Monday morning, June 1st.

Mrs. E. H. Happel and daughter, Miss Margaret, returned Thursday of last week from Ranger. Miss Margaret was a member of the 1925 graduating class of the Ranger High School.

Mr. and Mrs. Joe Stokes arrived Monday morning from Temple where Mr. Stokes had been under medical treatment for some time. Mr. Stokes underwent a serious operation and is now getting along fine.

KILL YOUR RED ANTS WITH A QUART OF CARBON.....CUNNINGHAM & PHILIPS.

"Let George do it" is a general practice in Big Spring. They are not only willing to let George do it, but would be tickled to death if George got stuck while trying to do something that was for the benefit of the entire community.

If everyone who is now being pestered with flies would join in a campaign to poison, swat and otherwise wage war on them we might be able to reduce their number before summer is over. Buy some dope and go after the pesky things.

Chewing gum is all right in its place, which isn't under a chair.

A RAZOR AND A BOX OF TAL-CUM FOR TWO BITS.....CUNNINGHAM & PHILIPS.

If old Howard county don't make a dandy crop this year something will go radically wrong from here out. Never were prospects any brighter than they are just now and all signs point to our county harvesting the biggest crops in her history.

LEAVE YOUR THIRST AT ONE OF OUR SODA FOUNTAINS.....CUNNINGHAM & PHILIPS.

One more big crop on this reasonably priced West Texas land and our East Texas friends are going to come a running. More new home owners are going to flock to West Texas this year than in any single year that has passed. Come to West Texas.

Mr. and Mrs. H. H. Padgett plan to leave next week for an extended visit with relatives in Georgia. Mr. Padgett has three sisters and two brothers in Georgia and as it has been eighteen years since he has seen them he decided it was time he paid them a visit.

TOM'S COMEDIANS ARE COMING NEXT WEEK

Perhaps the biggest treat the show going people of Big Spring and vicinity will have this season is the coming of Tom's Comedians who will open a week's engagement in Big Spring on Monday night, June 8 in their tent theatre beautiful. This company has been continuously on the road for the past three years and has the reputation of being one of the best companies playing West Texas. The plays are all new and put on just as you would see them in the larger cities with special scenery and electrical effects.

Mr. Kalck carries thirty people, a concert band and an orchestra second to none. He has one of the most beautiful tents ever built and invites the public to come down and look it over.

The opening play is "Dora Dean," a new dramatization of Mrs. Southworth's famous novel. A great story full of love, pathos and comedy galore. You are not taking any chances on this show, as it is sold on an absolute guarantee. One lady will be admitted free Monday night with each paid admission.

TEXAS BAPTISTS TO STRESS EVANGELISM

Executive Board Will Name Revivalists on June 19.

Dallas, Texas, June 4.—A call for an evangelistic campaign to embrace every Baptist association in Texas has been issued by the executive board of the Baptist General Convention of Texas following its session in Dallas May 26. Dr. F. S. Groner, general secretary of the board has announced. The board has also requested every denominational school in the state to hold an evangelistic conference for its session just following the close of the present session of school.

In the evangelistic program which has been adopted by the executive board it is planned to appoint six state evangelists who will hold revival meetings at points in the state where they are invited by the local pastors and churches. The evangelistic program, according to the present plans of the board will be followed permanently as a regular policy of Texas Baptists.

Appointment of the evangelists who are to serve through the executive board will be made at the quarterly meeting of the board in Dallas June 19. At this meeting it is planned to have every member of the board attend with a large number of laymen and pastors who are not board members.

The evangelistic program of Texas Baptists has been conducted largely through the associational missionaries and local pastors assisted by special evangelists. Last year the baptisms in Texas numbered 34,507, which was one of the best records yet attained. It is believed, however, that a larger proportion of the members of the Baptist churches of the state can be enlisted in a personal evangelistic campaign through the state-wide cooperation of all the Baptists, Dr. Groner said.

DO YOU REMEMBER WHEN...

Baseball players thought the guy who protected his fingers with a glove was a mollycoddle?

A ride in an automobile was considered a death-defying adventure, and walking a safe pastime?

Parents cautioned their children to be careful not to get hit by bicycles? Tobacco juice was the favorite first aid for cuts?

People thought flies were harmless?

More than one bath a week was considered dangerous to health?

Night air was considered injurious and people were afraid to sleep with windows open?

Accidents were regarded as incidents?

Missing fingers were regarded as badges of an experienced worker?—Anon.

CARD OF THANKS

We want to thank our kind neighbors and friends who kindly assisted us and those who sympathized with us in our bereavement; when death claimed our wife and mother.

We also wish to thank our friends for the beautiful floral offerings.
T. G. Henry and children.

Mrs. H. B. Robb and children, Mabel and H. B. Jr., of Dallas will arrive today for a visit with her parents, Mr. and Mrs. Dell Hatch.

Don't complain about your Doctor bills. Their services are the cheapest you have.... Cunningham & Phillips.

Herald want ads get results.

MUNICIPAL PARKS

Every once in a while you see where some city has voted bonds, or tried to vote bonds, to buy, equip and maintain city parks. Some of these bond issues run into the millions of dollars—and right here let us say that the results probably justify the expenditure.

But how much better it would have been if these cities had taken time by the forelock and done this work years ago! The expenditure of a few thousands of dollars a few years ago would have saved millions today.

This has been the experience of practically every city of consequence in the country. They rack along, growing at a rapid rate, and neglect to take care of the park situation. First thing they know, park sites are in the midst of areas of development, and have skyrocketed in value. Then is when the tax payer either has to dig down or go without parks.

Every city should handle this question of parks intelligently and economically. Unfortunately most of them procrastinate and wake up some fine day to discover that cheap park sites are not to be had.

Abilene is at a stage of growth where parks are more and more important. We have some excellent park sites already set aside, but little has been done to develop them. As time passes it will become more and more expensive to carry out their development.

The Reporter believes the people of Abilene have a right to be heard on this question of park development, and for that reason it would like to see money for park purposes included in the proposed bond issue. A small sum, say \$10,000 or \$15,000, would go a long way in developing our park system, and since the parks will belong to the people and since they must pay for them in the long run, it is nothing but right that they should have the privilege of voting upon the question. If they approve such a bond issue, well and good; if they see fit to turn it down, that is their business. But at any rate they should be given an opportunity to speak on this all-important question of a park system.—Abilene Reporter.

This goes for Big Spring and other growing cities as well as for Abilene. Ideal park sites are now available at from \$10 per acre on up and we should invest in a few tracts that would be appreciated in the years to come.

NOTICE TO FARMERS

Have C. H. EVERETT to repair your harness before you begin your planting. All work guaranteed. Remember, he does all kind of repair work.—advertisement.

Human nature is a funny thing. Why right here in Big Spring we have folks who refuse to purchase a season ticket to chautauqua yet spend three or four times the amount asked for one, in single admissions to chautauqua. You explain it, we can't. It is somewhat on the order of the fellow who is afraid he will aid his own community so he does everything he can to combat the efforts of those who are working unselfishly for the betterment of the community.

Build you a home where the air is pure and your neighbors are select. Build you a home in beautiful Fairview Heights. There is only one crop of these lots. When they are gone they are gone forever. I can show you this property any evening after 5 p. m. EARLE A. READ. 354p

Marvelous Hot Bread

MAKE your next batch of hot bread with Mrs. Tucker's Shortening. You'll notice how light it is—so tender that it seems to melt in your mouth!

Whenever you use Mrs. Tucker's Shortening, you will find that it imparts a wonderful, buttery richness to any food—keeping it fresh longer—and preserving the most delicate flavors. This is because Mrs. Tucker's is a pure, wholesome, vegetable shortening that always comes to you fresh. It is made exclusively of choice cottonseed-oil.

Mrs. Tucker's is the most easily digested cooking fat. It is never coarse or greasy, and it goes much further than ordinary shortening. Ask your grocer for a pail today. You get it in a most convenient container. This pail is air-tight and absolutely sanitary, but it is exceedingly easy to open. Interstate Cotton Oil Refining Company, Sherman, Texas.

CAUBLE SELLS LAST OF YEARLING BULLS

J. B. Cauble, veteran Hereford breeder, Big Spring, has sold the last of his this year's crop of yearling bulls. His last sale comprised eight head, the purchaser being W. T. Roberts, Big Spring, and the price being \$100 per head. Mr. Cauble also recently sold W. B. Currie, Big Spring, 4 bull calves at the same price. Both the yearlings and calves were sired by Beau Panama, Mr. Cauble's main herd bull.

Mr. Currie has bought bulls from Mr. Cauble for four successive years and it was the former, who furnished the Hereford steer calves used in the feeding experiment recently closed at the U. S. Experiment Station, Big Spring, and conducted by U. S. Bureau of Animal Industry and the Texas Experiment Station, cooperating. Most of them were sired by bulls bred by J. B. Cauble. In a 165 days feeding test the 45 head of calves gave a good account of themselves and were a credit to both the man who bred them and to the agencies who directed their feeding. —Livestock Reporter, (Fort Worth)

MAKING IMPROVEMENTS

Quite an improvement is being made in the hardware department of the Rix Furniture & Undertaking Co.'s Store in this city. All shelving is to be of a uniform height and a new row of shelving is being erected to separate the hardware department from the furniture department.

This change will permit a much better display of the immense stock in the hardware department and enable the sales force to give better service to the patrons. A more attractive appearance to the interior of this store is another result of the improvement.

T. & P. TO IMPROVE WESTERN ROUTE

The Texas and Pacific railroad will go ahead with all improvements and extensions along the Rio Grande division as announced, including the laying of heavy track and rock ballast clear through to El Paso, J. A. Somerville, vice-president acting in charge of the railroad, declared Wednesday night when he stopped over in Sweetwater a few hours.

Somerville expressed great confidence in the development of West Texas and declared the T-P had faith in Sweetwater and its progress and growth.

In commenting on plans of improvements the road is carrying out, the vice-president said:

"We will go ahead with our program of laying heavy rail and rock ballast. We expect to make one hundred miles west of Big Spring during this present year and complete the work within the next year or so."

Somerville intimated that the road would carry out all proposed improvements in Sweetwater at the proper time, including the subway and additional track facilities east of the present yards.

With the vice-president were A. E. Pistole, Big Spring, superintendent of the Rio Grande division, Engineer of Maintenance of Way Gains, General Road Master Bettie, and Road Master Pete Johnson. The party came in from the east on Somerville's business car at 6:00 o'clock Wednesday afternoon and departed for El Paso, Wednesday night. They inspected the plant of the United States Gypsum Co., while here. —Sweetwater Reporter.
