## Wolverines Picked Third

Dave Campbell's Texas Football Magazine hit the news stands Tuesday, picking the Springlake-Earth Wolverines to finish third in the District 3-A football race this fall. Sudan has been picked to repeat as district champs, followed closely by Farwell, Kress, Bovina and Vega are picked to bring up the rear, in that order. The magazine had this to say about the Wolverines: "Springlake-Earth will count heavily on experience (7 offensive and 8 defensive veterans). Tackles David Templeton and Wayne Henderson, guard Gary Haberer and center Ricky Byers are all seniors and all turn in big plays in the line both ways. Fullback Terry Bridge (6-0, 150) and halfbacks Jerry Barden and Neal Armstrong spearhead the backfield." Mrs. Elvis Hestand of Portales and Kim Foster of Amarillo were Sunday guests of Mrs. B. J. Brockette.

Say, which way did he go? This cowboy took quite a spill but he looks forward to another chance to prove his ability.

## Frank Ford Calls For Greater Effort In Providing Skills Training

Frank Ford, Republican candidate for State Representative, has called for greater effort in providing skills training for the underemployed. Stating that "Jobs are the best answer to poverty," he has proposed a plan to utilize existing school facilities and volunteer teachers to step up adult education in Texas that will meet the needs for those skills that will be required for jobs in the 1970's. "With increasing mechanization of farm labor and other low skill jobs in Texas," said Ford, "the need for job training is well recognized, and I am not satisfied with the current progress in education." "Industry must continue to assume a greater role in education, and there must be greater state appropriations for learning as well as increased local effort for education and vocational

training. However, with our rapidly increasing tax burden, we find ourselves walking a tightrope. This points up the need for mobilizing those who are willing to volunteer their time and talents to help others become more productive, self-supporting citizens."

"We have many talented retired individuals and others with great ability and a thorough knowledge of a productive skill," Ford concluded, "who have voiced a willingness to offer their services in a well-planned, practical program to meet this pressing need. With this volunteer teaching corps, the utilization of existing facilities during idle hours, and only a token increase in tax cost, giant strides forward can be made in Texas education."

Ford is a candidate in the 72nd Legislative District, including Cochran, Lamb, Bailey, Castro, Parmer and Deaf Smith Counties.

## Red Cross Begins Work On Gift Bags

Christmas is coming six months ahead of time to the Lamb County Chapter of the Red Cross in 1968.

The Red Cross chapter here is joining with others across the country in a nationwide project to make and fill gift bags to be distributed to U.S. servicemen and servicewomen stationed in Vietnam at Christmas time.

The Chapter is filling 100 bags. The bags are made of sturdy red and green cotton material, so they will be serviceable to their owners after the original contents are used.

"Red Cross Shop Early, Vietnam 1968", is intended to be a tangible way for Americans to say we care about our troops in Vietnam," Mrs. Ophelia Stone, Chairman of the project, said. Work on the bags already has begun and will continue until our 100 quota is finished. "With October 15 as the final deadline for shipping, the Lamb County Chapter is aiming at completion of the project by August 1," Mrs. Stone said.

Ten members of the local Baptist Brotherhood met at 6:30 a. m. on Friday, July 12, in the fellowship hall of the First Baptist Church. Troy Blackburn, president of the group, presided over the meeting.

After enjoying a breakfast of bacon, eggs, pancakes and coffee that had been prepared by J. B. Thomas and Paul Wood, the group was given an inspiring program by Bill Anderson on "Christian Men Working With Alcoholics."

Visiting in the homes of W. R. and Harold Britton the past week were Mr. and Mrs. Byrl Hardey and family of Perryton, M., and Mrs. Wenston Britton and family of Clayton, New Mexico, Mr. and Mrs. John Britton and family of Bloomfield, New Mexico, M., and Mrs. Bill Britton and family of Alameda, California, Mrs. Maxine Serman and family of Pencoala, Florida, and Mr. and Mrs. Troy Ellis and family of Plainview.

Rev. Don Holmes, pastor of the church, will bring the evening message.

All members, former members, and guests are urged to attend this day of inspiration at the Springlake Baptist Church in order to help them observe their 20 years of service.

## Bill Clayton Resumes Water Travels

Since the called special session of the 60th Legislature of Texas was concluded July 3, 1968, State Representative Bill Clayton of Springlake, Texas, has been traveling extensively in behalf of water and water related problems.

Early in the month he attended the 2nd Annual National Conference of State and Federal Water Officials in Detroit, Michigan; the week of July 10th he will be attending the Texas Water Code Revision Advisory Committee meeting in Austin; He will be in San Antonio, Texas, July 20, to preside at a public hearing of the House Interim Water Study Committee; and he will be leaving July 30th to attend the Southern Region of the Council of State Governments Water Resources Conference in Miami, Florida.

## All-Stars In Area A Finals

The Springlake-Earth Little League All-Stars have done a tremendous job at the Area A Little League Tournament that was held at the Roger Miller Baseball Field in Milesheo on July 15, 16 and 17.

The All-Stars trounced Anton 11-0 in their first tournament game at 6:00 p.m. on Monday, July 15.

Hal Wood, winning pitcher, hurled a one-hit game against Anton. He was assisted in winning the game by Jim McCurry who hit a grand slam homer and by John Briggs who batted in two runs on his homerun hit.

The Springlake-Earth fielders

enjoyed a rather peaceful night since only three Anton men were lucky enough to get on base. The Tuesday night game against the Plainview National Team was a fast-moving game, but the Springlake-Earth Team held its own and won the game 8-6.

David Wheat and Jim McCurry combined efforts as winning pitchers. However, Coach Calvin Wood stated that the whole team played exceptionally well. He went on to say that the team never lost their confidence even when the score hobbled back and forth.

The game played Wednesday night at 8:30 p.m. between Springlake-Earth and Sudan-Amherst determined the Area A Champion.

The Sudan-Amherst Team entered the Wednesday night game with a 3-2 win over the Plainview American Team and a 11-4 victory over Olton.

The team that took the Wednesday night game will advance to the District Play-off on Friday night.

The Little League District containing this area was split into two areas with eight teams in each area. The two winners of Area A and Area B competition will compete for District honors.

The site and time of the District Play-off has not been set by the Little League Association, but the game will be played on a neutral field on Friday night.

### Texas Swine Production On Upswing

COLLEGE STATION -- Swine production in Texas has been rather limited in the past, but is on the upswing and could become very profitable for growers if they follow a few guidelines, Dr. Donald B. Hudman, Extension swine specialist at Texas A&M University says. The litter size at weaning is an important consideration in raising hogs, and the more pigs produced, the more return to the producer. An average of nine pigs per litter is a realistic and profitable goal. By raising the average from seven to nine pigs at weaning it is possible to lower costs by \$1-2 for each pig, he says. "Market hogs should weigh 200 pounds at 154 days of age for economic production in Texas. Not more than 375 pounds of feed should be required per 100 pounds of gain in the herd, including sows," the specialist points out. A desirable product must be produced by the hog raiser and it should be what the consumer wants and demands. Approximately 90 percent of the market hogs should grade "Number One." "Today Texas producers must shoot for the meat-type hog with a loin-eye area of about four and one-quarter square inches. An even better indication of the amount of meat a hog is carrying is the back-fat probe--an ideal hog is one with a back-fat measurement of about 1.4 inches or less," Hudman says.

### Texas Travel Trails Folders Now Available

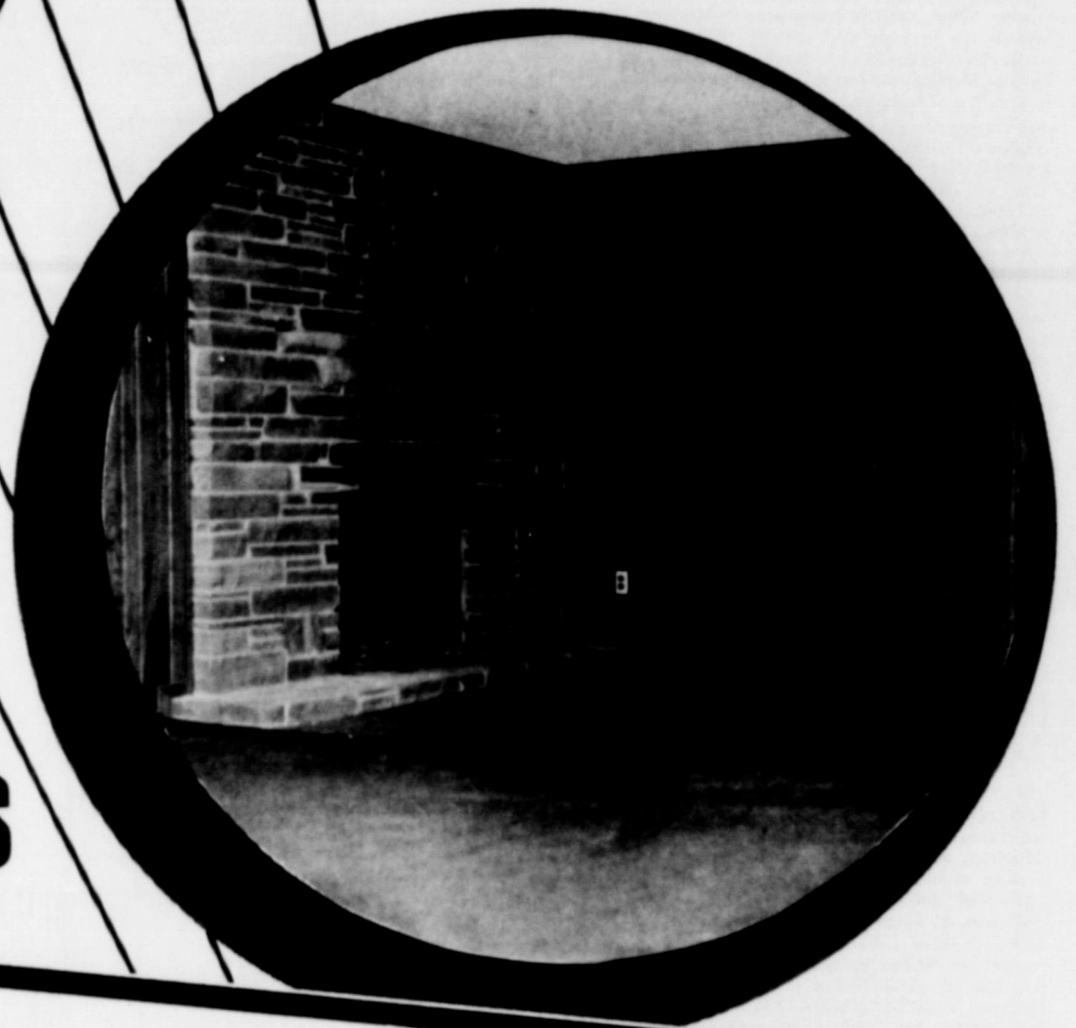

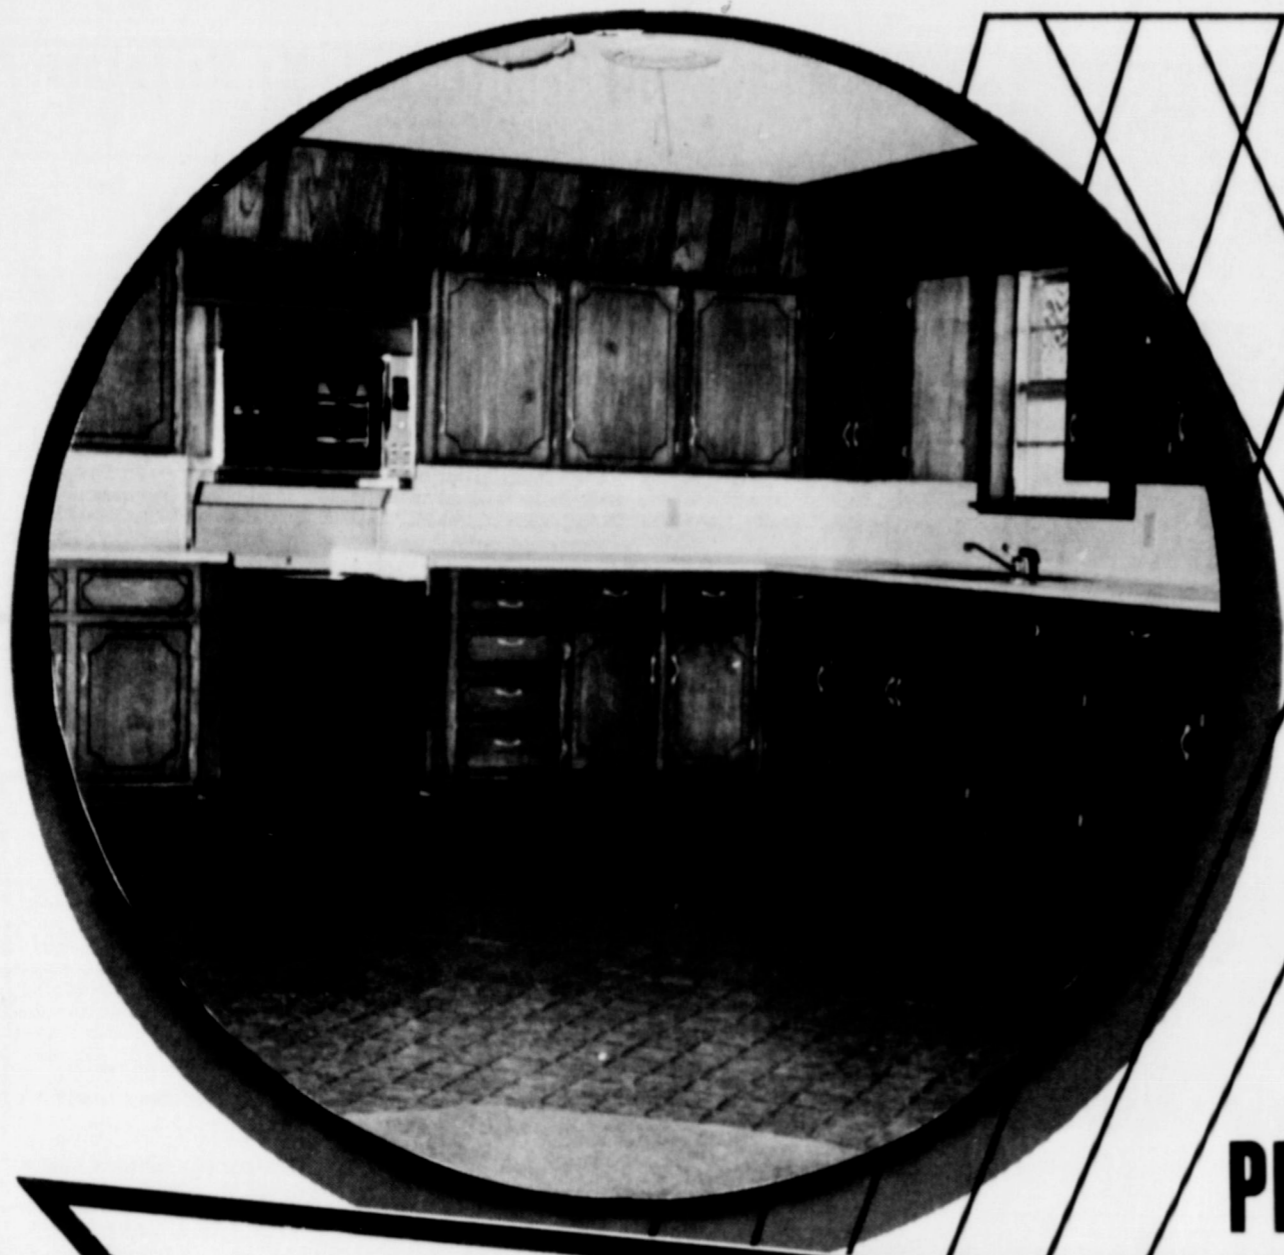

AUSTIN--Governor John Connally today announced the publication of detailed folders for two of the Statewide system of Texas Travel Trails. The folders, published by the Texas Highway Department, will serve as guides and detail numerous points of interest along the Texas Mountain Trail in far West Texas, and the Texas Forest Trail in deep East Texas. The folders will lead travelers through picturesque landscapes, by historic sites and to colorful cities and towns on the two official State trails. Connally announced the new Statewide system of trails last January. Each county erected special Travel Trail signs along the 10 official trail routes. The Mountain Trail folder guides travelers through the tallest region of Texas where 90 peaks thrust above a mile high. The route goes past the nation's newest national park, to be developed in the Guadalupe Mountains, and to Davis Mountains State Park. Those following the Mountain Trail will visit Big Bend National Park, the scenic El Camino del Rio from Big Bend to Presidio, and through the cities of Van Horn, Fort Davis, Marfa, Alpine and El Paso. The Texas Forest Trail explores a 790-mile loop through the vast Piney Woods region. It goes through four national forests and past scores of federal, State and county recreational areas. Other spots of interest include the East Texas oil field, the State's only Indian reservation, the Big Thicket and such popular water sport areas as Lake O' the Pines, Caddo Lake and Sam Rayburn Reservoir. Travel Trail literature is available from the Texas Highway Department tourist bureaus and district offices, and at chambers of commerce along the Travel Trail routes. Individual folders for the remaining eight Travel Trails will be released during the next few weeks as soon as printing is completed.

## A Child Communicates Through Behavior

A child is not a lump of clay to be molded or a pitcher to be poured into but a growing plant to be nurtured, loved and cared for. This is the first step in understanding young children, according to Jennie Kitching, Extension family life education specialist.

But also learn to understand their behavior, says the Texas A&M University specialist. Parents must be aware of what their children are telling by their behavior yet they should not put every little act or expression under a microscope.

A child's behavior communicates more than his talk, according to Miss Kitching. The keys to understanding this are reserving judgment, avoiding labels, accepting personality differences and being aware that the apparent cause of an incident may not be the real one.

In trying to discover the meaning of behavior, Miss Kitching points out some of the obstacles. Common is labeling automatically a kind of behavior which doesn't tell why he is behaving as he is.

For example, if he rejects a suggestion it may not be "stubborn" or if he fails to be up and doing it may not be "lazy." Perhaps he is stubborn about getting dressed in the morning because he is not eager to go to school.

Giving labels to behavior and putting actions into categories prevent understanding and give us too easy an out, says Miss Kitching. Relieving anxiety and worry with a handy phrase often drains the need to do something more constructive than to praise or blame.

"She just wants attention." "He'll grow out of it" are common phrases that may block further exploration of a child's actions.

Yet, the specialist points out another factor in understanding children and deciphering their behavior: the parent's makeup. Everyone is in trouble if the parent's emotion's differ from the child.

Too, the connection between a behavior and its cause is not always obvious.

Have a wide-angle approach to understanding children, suggests Miss Kitching. A certain behavior may have several possible causes. A nightmare could be caused by too much candy or a television program—or something else.

But the family life specialist urged parents not to interpret a child's behavior to him before he has a chance to realize it himself.

Given a little time, he might figure out his own feelings and put them into his own words, a much bigger contribution to growing.

"You must respect a child's rights to some emotional privacy," said Miss Kitching. He should be free to have feelings and fantasies without uncomfortably sensing an ever-watchful eye always ready to read something into every tone of voice or bit of play.

**Four Accidents In Lamb During June**

The Texas Highway Patrol investigated four accidents on rural highways in Lamb County during the month of June, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed, one person injured, and an estimated property damage of \$2,735.

The rural traffic accident summary for this county during the first six months of 1968 shows a total of 44 accidents resulting in five persons killed, 17 persons injured, and an estimated property damage of \$39,085.

"During the first six months of 1968 in Texas there were 1472 traffic deaths, or four less as compared to the 1476 traffic deaths for the same period of 1967," the Sergeant stated. However, if past trends continue the last six months will probably raise the 1968 total to one per cent over the 1967 total of 3,367 deaths.

The Sergeant also stated that a

training school for 120 new patrolmen with the Texas Department of Public Safety will start July 30.

To qualify for employment in the uniformed services of the DPS, a man must be between the ages of 20 and 35, not less than 5 feet 8 inches tall, have a high school education or its

equivalent, be in sound physical condition and be a citizen of the United States.

All interested young men who can meet these qualifications are urged to contact the nearest DPS patrolman of DPS office for complete details concerning the position of a patrolman, training and benefits.
