News-Sun To Produce Two Issues This Week

This week personnel of the News-Sun are producing two issues, instead of the usual one.

The June 15 issue will be mailed as usual at 8 a. m. Thursday morning. However the June 22 issue will be printed Saturday evening in order that the entire staff can take a week off to visit their relatives in Oklahoma, Missouri and Arkansas.

The issue printed Saturday evening will carry the dateline June 22 and be mailed out that morning at 8 a. m. so readers will not miss their usual Thursday morning issue.

Those having news and a copy are asked to cooperate with the staff so that they can meet the Saturday deadline.

HELP!

Subscribers of the News-Sun will find in the future that only one notice will be mailed out to inform them when their subscription is expiring. This policy was not put into motion to be cantankerous to anyone but is necessary because of the time and cost involved in mailing out two or three notices.

We, the personnel of the News-Sun, dislike pulling anyone's stencil and thus discontinuing their paper. However, since postal costs, printing costs and costs on every hand have increased, we find it absolutely necessary that the News-Sun cut these costs to the very minimum, thus mailing out only one notice when subscriptions are expiring.

We ask your cooperation and consideration in this matter.

Chamber Completes Plans For Rodeo Parade

In a called meeting of the Directors and members of the Earth Chamber of Commerce June 9, at 7 a. m. at the Waverline Drive Inn, more complete plans were made for the Caravan to publicize the Rodeo. It is to leave here on Tuesday, July 11, at 7:30 a. m. for surrounding towns.

The group is to gather at the bank corner parking lot to get started.

It was decided that the Chamber would give a plaque for the best Business Float this year, and that the plaque would be passed annually to the winner in next year's parade.

W. B. McMillan is in charge of the business float project, with Robert Gossett, assistant. Gossett stated that he hoped every business in town would make a float for the parade. He challenged all businesses to make a float comparable to the float Macky McCarty was expected to make.

The streamers for the Rodeo, Welcome signs, would be put up on July 1. Everyone is expected to assist in this project.

race and nationality in the world, and they were all there. No one was missing. In Vicksburg, like in Jefferson Davis Museum, we fought the Civil War all over again, and I came out, after reading all those poems, papers and Bible quotations on the wall, just weeping. Polly looked like it had happened only yesterday and was just dying to cry - and Pat was fairly ashamed of both of us, that we should become so sad over something that had already passed so many years ago in history. We stayed too long and the

last day was hectic. We drove 600 miles after 1 p. m. to get me to Oklahoma City where I caught the bus at 12:45 a. m. for Amarillo and at 7 a. m. reached Amarillo. Like I said, next year if we take a tour and try to see every thing - something has gotta give, like maybe more self-discipline, 2 minutes here, 5 minutes there etc., but preferably more time for the vacation. I'm still thankful that Pat and Polly Jr. didn't find Polly Sr. too old to go with them and enjoy every minute of a fun filled vacation.

**Trustees Study Proposed Changes In Board Policies**

The Springlake-Earth school board of trustees met in regular session Monday evening in the high school library.

The meeting was opened by reading the minutes of the previous meeting.

Among items of business conducted was approval and paying of bills.

The average daily attendance for 1971-72 school year was reviewed. Average attendance for 1970-71 was 722, compared to 716 for 1971-72 - a drop of only six students.

"The drop in average daily attendance was not enough to effect the number of teachers the school is authorized," Bill Mann stated.

Following the review of attendance, the trustees discussed proposed changes in school policies, concerning qualifications and requirements of valedictorian and salutatorian of the senior class. They also discussed the dress and grooming policy of students.

The present plan for election of the salutatorian and valedictorian is based on grade average for all work throughout the junior and senior years.

In the new proposal, students would be judged on grades for the four years in high school, taking into consideration only those required courses for graduation under plan I.

After discussing the two subjects thoroughly, and hearing from five youths who were present,

the board came to the decision that more thought should go into the proposals and additional study before voting on them at the next scheduled meeting of the board.

The trustees also studied a report from the Texas Education Agency, which indicated that property in the school district is taxed at approximately 22.3% of its market value.

Realizing that future state aid might be influenced by this percentage, the board agreed to submit to the state a statement of itemized reasons why this figure would not be accurate or fair.

The board agreed to purchase new chairs for the band and choral departments. Then reviewed the monthly lunchroom financial report, and budget progress report.

In executive session the trustees approved the following teachers for the 1972-73 school year: Mrs. Charles Summers, kindergarten; Mrs. Robert Gossett, junior high school; Mrs. Bertha Howell, junior high school and Mrs. Arden Fields, assigned to special education.

In order to allow Supt. Bill Mann to attend the superintendent's workshop in Austin, at the time of the regular scheduled July school board meeting, the board rescheduled the meeting for Friday, July 7, at 8:30 p. m.

Those present for the meeting were P. A. Washington, Jimmie Craft, Ed Dawson, Ardis Barton, Dwane Jones, and Ray Joe Riley, trustees, Bill Mann, school superintendent, Marian Dawson, Renae James, Lisa Morgan, Tracy Lee, Carl Sulser and Ross Middleton.

**RAIN WELCOMED**

A good cotton shower fell for about two hours Monday night, June 12. Farmers reported that the rain was helpful because it would stay on the crops where it fell and not run off.

The rain fell evenly over this area of the country. In general, Springlake received 7/10 of an inch of rain and Earth received only 6/10".

Residents of the Springlake-Earth area realized that rain can be enjoyed without hailing or damaging the crops. Probably everyone did enjoy the smooth falling rain.

Dear Friends,  
 It's hard to adequately say "thank-you" for all the many kind deeds and expressions of concern shown to me and my family during my illness and hospitalization. We are grateful you folks allowed us to be a part of this community. For your prayers, flowers, cards, letters, gifts, telephone calls, food and general concern, I will be eternally grateful.  
 Frankie Hartman

I would like to express my appreciation to my friends and neighbors for the many cards, flowers, prayers, calls, food, and visits during my recent hospitalization.

Again, thank you very much for your many kindnesses.  
 Wayne Rutherford

Mr. and Mrs. T. L. Free spent the week-end in the L. L. Boyles home in Aspermont, Texas.

**WSCS Meet**

The WSCS met at the church at ten o'clock on Tuesday, June 13. Mrs. Bessie Cearley brought the devotional, "Faith Means Humble Obedience."

A business session was then held presided over by Mrs. Doug Lewis in the absence of the president, Mrs. R. A. Axtell.

Attending the meeting were Mrs. Gladys Goodwin, Mrs. J. J. Coker, Mrs. Bessie Cearley, Mrs. Beula Coker, Mrs. Jack Hinson, Mrs. Doug Parish, Mrs. Bert Leaverton, and Mrs. Doug Lewis.

### NEW WAY TO HEALTH

CHIROPRACTIC is simple, common sense and effective. It does nothing to, nor does it take anything away, from the body. It simply clears the nerve channels.

#### -- Nervous Headaches --

A woman, age 38, suffered with dizziness, headaches, nervousness, high blood pressure, pains between her shoulders and down her arms and spine. After a nerve analysis at SIBLEY'S CHIROPRACTIC CLINIC, a defective innervation was located, and through Chiropractic adjustment the innervation was removed. Her health gradually improved.

#### -- Nervous Disorder --

A man, age 30, started to have NERVOUS SPELLS. Couldn't swallow, difficult swallowing, had strange ideas, palpitation of heart, gas on stomach, tired feeling, weak, no energy, pains under her shoulder blades and in her neck at the base of her skull.

After the NERVE TEST and SPINAL X-RAYS were made at Sibley's Chiropractic Clinic, she was told she had a chance to recover providing she would stay under chiropractic for a certain length of time. Corrective adjustments were given and health was the natural outcome.

A letter recently received from this patient, she states: "Sibley, I feel better than I have felt in years. Thanks for saving me from a lifetime of suffering and pain."

# Connie Kelley-David Jaquess Exchange Vows

Miss Connie Kelley became the bride of David Jaquess in an 8 p. m. ceremony Friday, June 9 at the First Baptist Church in Earth with David Hartman, Pastor, officiating. Parents of the couple are Mr. and Mrs. Donald Kelley of Earth and Mr. and Mrs. Travis Jaquess of Lubbock.

The front of the church was decorated as a garden scene in the center of which stood an archway entwined with greenery, blue and white flowers and glistening white wedding bells. The archway, made by the bride's father was used at her Rainbow Installation as Worthy Advisor of Earth Assembly. In the archway, on a stand was a large Bible belonging to the bride's late grandfather which was opened at the Love Chapter. Streamers from the Bible fell to the floor.

The Unite candle was placed near the open Bible. Candelabras were decorated with white bows, flowers and greenery and placed behind the archway, with a bouquet of roses on each side.

On small white garden tables, which were placed on each side of the archway, were the bride and groom's childhood Bibles beside their individual candles. Garlands of greenery, white flowers, blue ribbons complimented by baskets of white gladiolas completed the garden scene.

Blue bows centered with lilies of the valley, marked the church pews. In the windows were flowers, greenery and blue bows and candles. The church foyer was decorated with candles and an open Bible, greenery, and blue and white flowers.

The bride, presented in marriage by her father, wore a traditional formal length gown of chantilly lace and organza, with a long bodice, rounded neckline, long lace sleeves, with petal point cuffs. On the tiers of scalloped lace, the bride had sewn on pearls belong-

A reception followed the ceremony. The bridal table, covered in white lace, featured the lovely centerpiece used at the bride's shower. Beside the centerpiece was the bride and groom used at her mother's wedding and the bride's bouquet was placed beside it.

For a wedding trip to Colorado, the bride wore a long sleeve blue knit dress and white accessories. A white corsage lifted from the bridal bouquet completed the dress.
