Sanders Head Cheerleader

Sanders, daughter of [unclear], was elected by the student body as head cheerleader for the 1972-73 school year.

TONI SANDERS

will be a senior and this is her second year as a cheerleader. She has been active in sports, playing basketball, volleyball all through high school, and running track. She played in the 1971-72 school year. She is a member of FTA 2 years, a secretary, belonged to the Student Government and was vice-president of the Speech and Drama Club. She was elected class favorite and was candidate for homecoming queen.

Softball, Ladies?

Women ladies in Springlake formed a softball team, named the Springlake Polka. The team is interested in getting up a team so please call Shirley [unclear] at 986-3051. Shirley [unclear] that several ladies had [unclear] they would like to [unclear]

Fun-Fun-Fun

Fun-Fun is the only word that describes Friday for the S-E High School. They left the school Friday morning at 7:30 for Lubbock. They spent their fun day by skating, then went to Mack State Park, where a lunch was catered by [unclear].

with clean clothes and used the dorm facilities for cleaning up before going to the Town Center for their evening meal. Their destination after eating was the Sonny and Cher show, held at the Municipal Coliseum, which was a big hit with all of them.

Sponsors for the class of seniors are Marie Slover and Bill Anderson, Robert O'Hair drove the bus.

Bands Have a Rewarding Day

Senior high and sixth grade bands were in Dimmitt for the Festival Contest. They received a superior rating in all categories. Other bands entered in the festival were from Abilene, Abilene, Hale, Kress and Dimmitt. Bands did not compete for ratings only, from each other but were rated on their own merits. This is the first year that grade bands played. Everyone who heard them said they played beautifully.

A number one or superior rating was also given to a coronet trio composed of [unclear], Scott Cooksey, Mark Barton, Dickie Brown and a flute trio of three girls - L'Anna Sulser, Cindy Dent and Dawn Barden. Groups making a 2 or good rating were Margaret Street, Kim Jones, Kelley Haydon, Jerold Head and Dawn Branscum playing a clarinet quintet and a baritone quartet played by Lee Brown, Teresa Lively, Jim Fuller and Joe Fuller. Solos receiving a two were Lee Brown, Larry Dear, Steve Green, and Kirk O'Hair.

We congratulate all these fine students as well as Tom SoRelle.

Check Your Fire Extinguisher

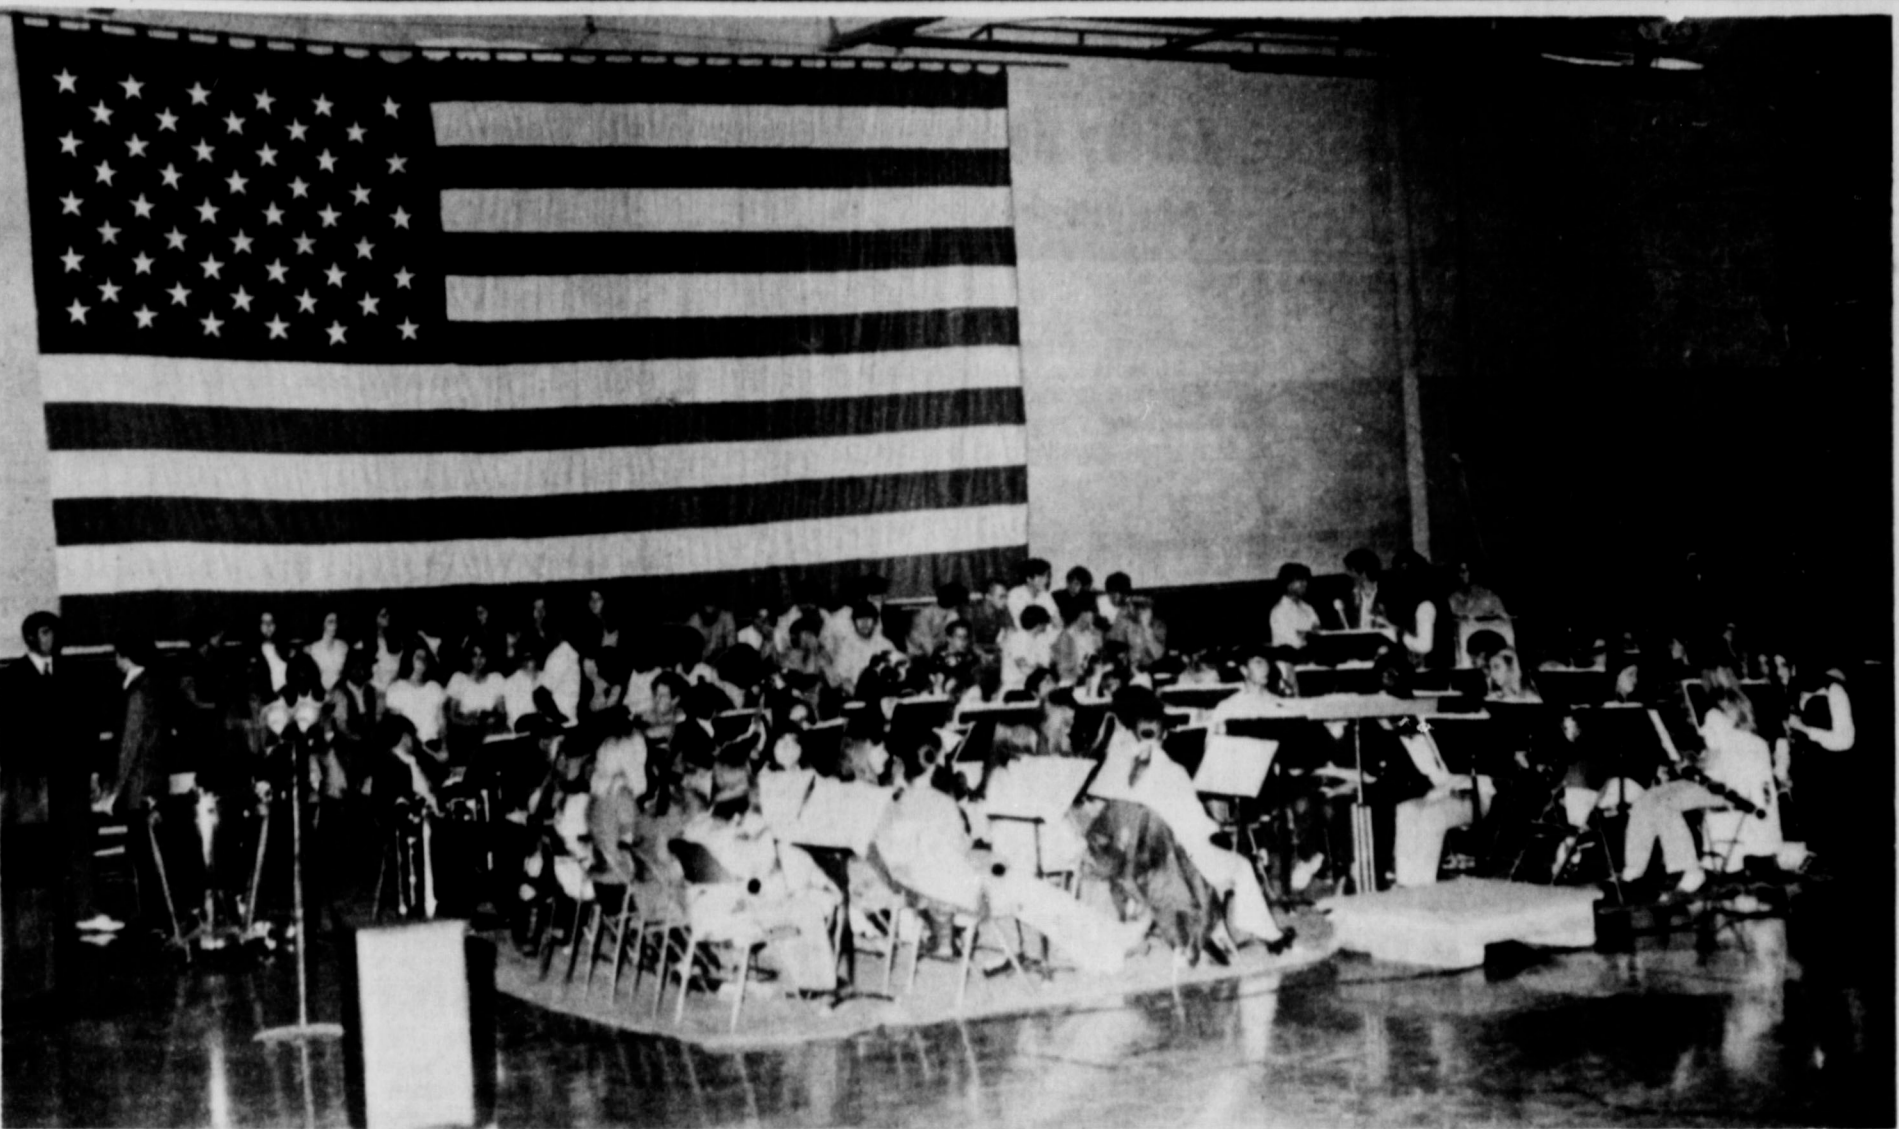

Under a new state law, no fire extinguisher or fire extinguisher system, sold or installed in the state of Texas unless it carries approval of a nationally recognized testing laboratory or a testing laboratory approved by the state fire marshal.

they can be sold in the state of Texas. If you have a fire extinguisher in your home, check to see if it meets with these approvals. One brand of an aerosol extinguisher contains a highly toxic fume, trichloro monofluoromethane, which could cause serious damage to a person's respiratory system if inhaled in any quantity. It is against the law for any merchant to sell this brand but some have been put on the market.

The Ruth Team Plays Saturday

The Babe Ruth Baseball team will play their first game Saturday night, against Olton Butane. Game time is 8 p.m.

May 26-Olton Butane, 8 p.m.
May 30-Olton Butane, 8 p.m.
June 1-Olton Grain Coop, Inc. 8 p.m.
June 6-Halfway, 6:30 p.m.
June 8-Olton Butane, 8 p.m.
June 13-Halfway, 8 p.m.
June 16-Olton Grain Coop, Inc. 8 p.m.
June 20-Olton Butane, 8 p.m.
June 23-Halfway, 8 p.m.
June 26-Halfway, 8 p.m.
June 29-Olton Grain Coop, Inc. 8 p.m.
July 3-Olton Grain Coop, Inc. 8 p.m.

PRACTICE MAKES PERFECT, as everyone will find out Thursday night, May 18, at the school program, "From Sea to Shining Sea".

School Program Called Off, Rescheduled for May 18

Just five minutes before starting time Thursday night, the school program which was being presented by the S-E High School band and choirs from high school and junior high was called off due to bad weather. The students were already in their places and a large crowd was in the bleachers, just waiting when word was received that a tornado had been sighted close to Plant X, so to be on the safe side, everyone was told to go home. Happily, nothing developed from the clouds, but one just never knows and it does take time for a crowd the size of the one at the school house that night to get out of the building and away from the traffic. The program is scheduled for tonight, Thursday, May 18, at 8 p.m., and we certainly hope nothing happens as there has been a lot of time and work put into this program by Tom SoRelle and Wayne Anderson, as well as all the participating students.

NOTICE

A benefit luncheon will be held Sunday, May 21, at the school cafeteria immediately after church. This luncheon is being held to raise money to help pay for blazers for the junior high and stage bands. Entertainment will be provided by the S-E stage band. All parents of band members are asked to bring a large salad and a dessert. Please have them at the cafeteria by 11 a.m. Tickets will be \$1.00 for children under 12 and \$1.75 for adults and may be bought from any band member or at the door on Sunday. Everyone is urged to attend, especially bandparents and help get the youngsters the blazers. The luncheon is being sponsored by the Band Boosters.

Memorial Day Services To Be Held May 29

The Annual Memorial Day Services will be held Monday May 29 at 10 a.m. at the Earth Memorial Cemetery. Boy Scout Troop 614, led by Freddie Kelley, will start the services with a flag ceremony and will decorate the 28 veterans graves in the cemetery with flags. A devotional service will follow the decorating of the graves. Reverend Charles Dunnham of the United Methodist Church will be the speaker. A business meeting will be conducted after the services to discuss the changing of the by-laws on the election of officers.

Jr. High Awards Assembly Friday

The junior high awards assembly will be held Friday, May 19, at 2:45 p.m. in the high school auditorium. The program will be dedicated to the 8th grade students. Entertainment will be provided by the junior high choir under the direction of Wayne Anderson. Various awards will be presented to deserving students including scholastic and activity awards. Mr. Slover and the student body would like to extend an invitation to the public to attend the assembly.

Award Assembly to be Held

The annual Awards Assembly will be held Monday, May 22, in the S-E School auditorium. Awards presented will be activity awards for cheerleading, office practice, and library work. Perfect attendance certificates will be presented to students who have been neither absent nor tardy for classes. Other awards will be presented to students earning achievement awards, scholarship awards and honor society awards. The public is invited to attend the assembly.

Momentum Going For Cotton Riley Declares

Hart, "Momentum is going for cotton," a leader of the industry declared today in calling for support of the USDA-National Cotton Council campaign to achieve "Better Yields of Quality Cotton for Profit and Market Growth." Ray Joe Riley of Hart said cotton is the leader of the trend to more casual clothing and pointed out that cotton denim, corduroys, prints, etc., are "going strong." Mr. Riley and Dr. John E. Hutchison, director of the Texas Agricultural Extension Service, are co-chairman of the "Better Yields" campaign in Texas. Mr. Riley said that providing adequate supplies will let cotton's mill customers cash in on its popularity and encourage them to keep using it. He noted that adequate supplies also are needed to restore customer confidence in the ability of growers to meet market needs. "Better yields of quality fiber express the grower's determination to compete and protect his dollar-per-bale investment in research and promotion," Mr. Riley said. "Textile demand is increasing worldwide. It more than doubled in the past 20 years. Cotton's ability to share in this growth, halt the swing to man-made fibers, and discourage foreign production depends on an adequate supply and profitable farm production."

Jo Ann Wins First At State Meet

JoAnn Coker won first place in long jump competition at the Girls UIL State Track Meet, held Saturday, May 13, in Austin, Texas.

4-H Club Elects Officers

The Earth-Springlake 4-H Club met Monday night at the Earth Show Barn. The program was the election of new officers. Also Dawn and Glenn Branscum gave speeches. The new officers are: Kent Lewis, president; Glen Branscum, vice-president; Dawn Branscum, secretary; Jennifer Templeton, treasurer; Sheila Lewis, council delegate; and Wendy Branscum, reporter. There were 20 members present and one new member, Vicki Freeman. Recreation was led by Rosie Lewis and refreshments served by Neil Founds and Helen Hulcy.

Junior High Cheerleaders Chosen

Cheerleaders for the 1972-73 school year were chosen by the S-E junior high school Friday, at the conclusion of a fun day for them all. Friday was play day for junior high and the day was enjoyed by all. Tryouts for cheerleaders were held in the gym and the winners were announced Monday. For the 1972-73 eighth grade class the winners were: Cindy Dent, Kim Jones and Lydia Smith. Seventh grade winners were: Kim Dent and Kristi Thomas. Dae Anne Clayton was chosen from the sixth grade.

CHEERLEADERS CHOSEN FOR JUNIOR HIGH for the 1972-73 school year are: standing 1 to 7, Kristi Thomas, Cindy Dent, Kim Jones, (head cheerleader), kneeling: Kim Dent and Dae Anne Clayton. Not pictured is Lydia Smith.

Playday Held for Jr. High

Friday, May 12, was a day of fun and games for junior high students, who were dismissed from classes at 12:30. After eating their picnic lunches, the students went to the gym for the election of the junior high cheerleaders for next year. The rest of the afternoon was spent playing volleyball, soccer, softball, and other games. Cokes were served in the afternoon by the Honor Society.

High School Assembly Friday Morning

Friday will be fun day for students at S-E high school. An assembly will be held at 11:30 a.m. at which time the seniors will be honored. Picnic lunches will be enjoyed by the students before an afternoon of games, races and frolics. The public is invited to attend the assembly Friday morning.

EIGHTH GRADE BOYS TRACK TEAM with trophy won in district competition. Back row: Coach Phelps, Emilio Ramon, Lee Brown, Armando DeLeon, Brad Bridges, Ignacio Gonzales, Randy Latham, John Cleavinger, Freddy Galan, Salvador Padilla, Randy Bills. Bottom row, l to r: Chuck Dunnam, Lupe Rivas, Larry Dear, Bill O'Hair, Brad Barden, Cliff Wood, Ronnie Thomas, Jerald Head, and Oscar Castillo.

Kelley New Scoutmaster

Freddie Kelley, son of Mr. and Mrs. Clarence Kelley of Earth has been appointed Scout Master for Boy Scout Troop 614, taking the place of Travis Jacques. Larry Tunnell will be assisting Freddie with the group of scouts. Freddie has just recently returned to Earth after serving four years in the U.S. Navy. Freddie said the boys would meet each Tuesday at 6 p.m. throughout the summer and they plan to go to summer camp.

Area Reaches Goal in Cancer Fund Drive

A goal of \$1600 was set for the Earth, Springlake and Pleasant Valley area in the annual American Cancer Society Fund Drive. A total of \$1708.33 was collected, \$45.06 of this amount was donated by school children in the "Send a Mouse to College" drive. Lamb County set a goal of \$8000 and at this time they are about \$1500 short of the goal. Last count showed \$6563.12 had been collected in the county.

B. Campbell remains in South Plains Hospital and the last report was that his condition was gradually weakening.

Attend the Band Luncheon Sunday!

Weeds May Become Problem in Wheat

Excellent ground moisture gives promise of one of the best wheat crops in several years, but this moisture may also result in weed problems, says Dr. Frank Petr, Extension area agronomist at Amarillo. "Favorable moisture last fall resulted in the germination and establishment of large numbers of winter annual weeds in wheat and other fall-sown grains," Petr reports. The most common of these moisture-robbars are tansy mustard and pepper weed.

The agronomist warns that large amounts of stored moisture and plant nutrients are being used by these fast-growing species, and that producers should consider herbicide treatment if fields are infested. He suggests one-half pound of 2,4-D per acre in a low volatility ester or amine form. With ground equipment, the chemical should be mixed with five to ten gallons of water. For aerial application, two to five gallons of water is recommended. Petr emphasizes that herbicides should be applied before March 15 to conserve moisture. Also, if application is delayed there is more risk of wheat

yield loss from the herbicide as the crop gets older. Spraying should not be done after the wheat reaches the boot stage.

Fields should not be grazed for two weeks after spraying with 2,4-D, which may cause some inconvenience on dry-land acreage.

"But with irrigated wheat, the spraying can be done when the field is irrigated," Petr says, "herbicides are more effective on succulent weeds and it is usually desirable to keep cattle out of wet fields to prevent soil compaction."

The agronomist adds that tests have shown spraying to be economically justified. Research by Dr. Allen Wise of the USDA research station at Bushland indicated that one tansy mustard plant per square foot can reduce wheat yields by ten per cent.

"On dryland wheat that has a potential of 20 bushels per acre, the extra two bushels would easily pay for the spraying," Petr says. He adds that on irrigated land with an expected 40-bushel yield, spraying would be justified with one weed per two square feet.

Oletha VP of Secretaries Assn.

Mrs. Oletha Sanders attended the "Peak of the Panhandle" Educational Secretaries Association meeting, Monday night May 15, at Dimmitt and was elected as Vice President of the Association.

The ladies enjoyed a salad supper before having an installation of officers, presided over by Mrs. Roy Hartman of Hereford.

Installed as President was Mrs. Yvonne Simpson, Hereford; Vice President, Mrs. Oletha Sanders, Springlake-Earth; and Secretary-Treasurer, Mrs. Jan Womble of Hereford.

Towns which were represented at this meeting were Springlake-Earth, Farwell, Hereford, and Dimmitt. Mileshoe joined the Association Monday night.

Man Burned At Plant X

Noel Moore of Monahans, an employee of Halliburton Services was burned Tuesday morning during an industrial accident at Plant X. He was burned over 90 per cent of his body and the first report was of second degree burns. The Halliburton crew was acidizing a boiler when a pump broke, allowing the acid to spray on the man.

He was first taken to South Plains Hospital after being washed off with water by men working at the time but was sent on to West Texas Hospital in Lubbock. His condition late Tuesday was listed as "stable and satisfactory."

Eleanor Haberer was admitted to the hospital Tuesday and underwent surgery Wednesday morning.

A free leaflet on common poisonous plants is available from the State Health Department upon written request.

Carroll Blackwell has been moved to a private room after being in intensive care at Methodist Hospital. He is getting along real well and may be dismissed at the end of the week.

Noted Heart Surgeon Doesn't Believe Cholesterol Theories

A noted heart surgeon, Dr. Michael DeBakey, president and chairman of surgery of Baylor college of medicine, said at a cardiovascular disease seminar presented by Danciger Institute of Memorial Medical Center, Kansas City, Mo., that he and his associates have found very little relationship between diet, cholesterol levels and coronary artery disease progression.

In a story appearing in the April 7, 1971, issue of the Kansas City Times, Dr. DeBakey said, "Much to the chagrin of many of my colleagues who believe in this polyunsaturated fat and cholesterol business, we have put our patients on no dietary program and no anti-cholesterol medications."

He said he had found that 80% of his patients with severe occlusive coronary artery disease had had blood cholesterol levels comparable to the levels of normal people.

"When the levels are comparable it just doesn't make sense that elevated cholesterol levels are the cause of coronary artery disease," he said.

The surgeon, who claims he eats only one meal a day-late at night-sleeps only four or five hours a day and practices no exercise regimen except "avoiding elevators at all possible times". He advises his

fruits, vegetables and meats, keep their bodies in good tone with moderate exercise and avoid anything in excess, particularly alcohol and cigarettes. "I personally think most people eat too much and sleep too much," he said.

Dr. DeBakey thinks hearts damaged by coronary artery disease will be repaired surgically in the future, instead of being replaced.

Surgical techniques either bypass the clogged artery or mechanical. It has been performed. He believes this approach promising.

Mrs. L. T. Smith of South Plains Hospital has been no change in condition reported.

-NOTICE TO BIDDERS-

Sealed bids for a used backhoe equivalent to a used John Deere Model J. D. 400 tractor-loader backhoe unit.

Marian Dawson to Twirl for Texas Tech

Marian Dawson, daughter of Ed Dawson, was in recent tryouts with Tech to be a twirler with the Twirler Marching Band, a 400 piece band, which performs at all home football games. Three twirlers were chosen for the marching season. Marian was one of four of her high school years with the S-E band, and she was chosen as head twirler. Other twirlers chosen with Marian were Jo of Plains and Charlotte of Lubbock and an of Monica Griffin of

Marian Dawson

GSPA Advocates Use Of Reseal For 71 Grain

The reseal program offers farmers the opportunity to hold their grain for higher prices later in the year, with CCC paying the storage after June 30. The farmer has to sign up for reseal to take advantage of it. If the drought continues to cut wheat production so that it will not compete with grain sorghum in feed lots; if 1972 corn and sorghum crop prospects deteriorate; and if overseas sales of grain to Russia and other countries materialize, there should be some strength in grain markets this summer.

Continuation of "orderly marketing" of grain is encouraged by the Grain Sorghum Producers Association. Elbert Harp, GSPA Executive Director, reminded farmers that they need to sign up to "reseal" their grain sorghum that is in government loan by June 30, or it will become property of Commodity Credit Corporation.

Harp stated, "The grain sorghum farmers are to be commended for their determination to distribute the sale of grain throughout the year. This practice kept the market prices in most areas from dropping back to the loan level, as they did throughout the corn belt."

TAKING ALL OF THIS MUSIC MIGHTY SERIOUSLY is the beginners band, made up of 5th grade students.

Historical Marker To Be Erected For Rocky Ford Crossing

An Official Texas Historical Marker for Rocky Ford Crossing will be erected on May 15, 1972. It was announced today by Mr. V.M. Peterman of Amherst, chairman of the Lamb County Historical Survey Committee.

The name and location of the present marker will appear in the next edition of the GUIDE TO OFFICIAL TEXAS HISTORICAL MARKERS in order to stimulate tourist travel in this area, to arouse interest in historical tours, and to acquaint the people of this locale with their unique heritage.

The marker will be placed at U.S. 385, 12 miles north of Littlefield. Dedication plans will be announced in the near future. Made of cast aluminum with Swedish steel effect, the marker measures 14" by 24" and is sponsored by Lamb County Historical Survey Committee. The marking of local historic sites and landmarks is part of the Texas State Historical Survey Committee's program of preservation activities. These include archeological investigations, small museum consultation, and administering the National Historic Preservation Act in Texas. As of 1970 the Survey Committee had erected more than 5,000 official markers.

A goal of \$1600 was set for the Earth, Springlake and Pleasant Valley area in the annual American Cancer Society Fund Drive. A total of \$1706.33 was collected, \$45.95 of this amount was donated by school children in the "Send a Mouse to College" drive.

Lamb County set a goal of \$8000 and at this time they are about \$1500 short of the goal. Last count showed \$6563.12 had been collected in the county.

B. Campbell remains in South Plains Hospital and the last report was that his condition was gradually weakening.

Attend the Band Luncheon Sunday!

Oletha VP Of Secretaries Assn.

Mrs. Oletha Sanders attended the "Peak of the Panhandle" Educational Secretaries Association meeting, Monday night May 15, at Dimmitt and was elected as Vice President of the Association.

The ladies enjoyed a salad supper before having an installation of officers, presided over by Mrs. Roy Hartman of Hereford.

Installed as President was Mrs. Yvonne Simpson, Hereford; Vice President, Mrs. Oletha Sanders, Springlake-Earth; and Secretary-Treasurer, Mrs. Joan Womble of Hereford.

Towns which were represented at this meeting were Springlake-Earth, Farwell, Hereford, and Dimmitt. Maleshoe joined the Association Monday night.

Man Burned At Plant X

Noel Moore of Moshans, an employee of Halliburton Services was burned Tuesday morning during an industrial accident at Plant X. He was burned over 90 per cent of his body and the first report was of second degree burns. The Halliburton crew was acidizing a boiler when a pump broke, allowing the acid to spray on the man.

He was first taken to South Plains Hospital after being washed off with water by men working at the time but was sent on to West Texas Hospital in Lubbock.

His condition late Tuesday was listed as "stable and satisfactory."

Eleanor Haberer was admitted to the hospital Tuesday and underwent surgery Wednesday morning.

A free leaflet on common poisonous plants is available from the State Health Department upon written request.

Carroll Blackwell has been moved to a private room after being in intensive care at Methodist Hospital. He is getting along real well and may be dismissed at the end of the week.

Noted Heart Surgeon Doesn't Believe Cholesterol Theories

A noted heart surgeon, Dr. Michael DeBakey, president and chairman of surgery of Baylor college of medicine, said at a cardiovascular disease seminar presented by Danciger Institute of Memorial Medical Center, Kansas City, Mo., that he and his associates have found very little relationship between diet, cholesterol levels and coronary artery disease progression.

In a story appearing in the April 7, 1971, issue of the Kansas City Times, Dr. DeBakey said, "Much to the chagrin of many of my colleagues who believe in this polyunsaturated fat and cholesterol business, we have put our patients on no dietary program and no anti-cholesterol medications."

He said he had found that 80% of his patients with severe occlusive coronary artery disease had had blood cholesterol levels comparable to the levels of normal people.

"When the levels are comparable it just doesn't make sense that elevated cholesterol levels are the cause of coronary artery disease," he said.

The surgeon, who claims he eats only one meal a day—late at night—sleeps only four or five hours a day and practices no exercise regimen except "avoiding elevators at all possible times". He advises his

fruits, vegetables and meats, keep their bodies in good tone with moderate exercise and avoid anything in excess, particularly alcohol and cigarettes. "I personally think most people eat too much and sleep too much," he said.

Dr. DeBakey thinks hearts damaged by coronary artery disease will be repaired surgically in the future, instead of being replaced.

Surgical techniques either bypass the coronary artery or mechanically dilate it. It has been performed with promising results.

Mrs. L. T. Smith, South Plains Hospital, has been no change in condition reported.

Believe Marian Dawson to Twirl for Texas Tech

Dawson, daughter of Mrs. Ed Dawson, was in recent tryouts at Tech to be a twirler with the Raider Marching Band. The 5-foot-10 piece band, which competes at all home football games, has eight twirlers. Three were filled for the marching season. Marian was one of the four of her high school years with the S-E band, and she was head twirler. The other two twirlers chosen with Marian were Jo of Plains and Charlotte of Lubbock and an unnamed, Monica Griffin of Lubbock.

Marian Dawson

GSPA Advocates Use Of Reseal For 71 Grain

The reseal program offers farmers the opportunity to hold their grain for higher prices later in the year, with CCC paying the storage after June 30. The farmer has to sign up for reseal to take advantage of it. If the drought continues to cut wheat production so that it will not compete with grain sorghum in feed lots; if 1972 corn and sorghum crop prospects deteriorate; and if overseas sales of grain to Russia and other countries materialize, there should be some strength in grain markets this summer. Continuation of "orderly marketing" of grain is encouraged

by the Grain Sorghum Producers Association. Elbert Harp, GSPA Executive Director, reminded farmers that they need to sign up to "reseal" their grain sorghum that is in government loan by June 30, or it will become property of Commodity Credit Corporation.

Harp stated, "The grain sorghum farmers are to be commended for their determination to distribute the sale of grain throughout the year. This practice kept the market prices in most areas from dropping back to the loan level, as they did throughout the corn belt."

TAKING ALL OF THIS MUSIC MIGHTY SERIOUSLY is the beginners band, made up of 5th grade students.

Historical Marker To Be Erected For Rocky Ford Crossing

An Official Texas Historical Marker for Rocky Ford Crossing will be erected on May 15, 1972, it was announced today by Mr. V.M. Peterman of Amherst, chairman of the Lamb County Historical Survey Committee.

The marker will be placed at U.S. 385, 12 miles north of Littlefield. Dedication plans will be announced in the near future.

Made of cast aluminum with Swedish steel effect, the marker measures 14" by 24" and is sponsored by Lamb County Historical Survey Committee. The marking of local historic sites and landmarks is part of the Texas State Historical Survey Committee's program of preservation activities. These include archeological investigations, small museum consultation, and administering the National Historic Preservation Act in Texas. As of 1970 the Survey Committee had erected more than 5,000 official markers.

The name and location of the present marker will appear in the next edition of the GUIDE TO OFFICIAL TEXAS HISTORICAL MARKERS in order to stimulate tourist travel in this area, to arouse interest in historical tours, and to acquaint the people of this locale with their unique heritage.

UMYF Elects Officers

The junior UMYF met Sunday evening and after the program given by Brene Belew and a scripture reading by Clint Dawson, officers for the coming year were elected. The officers are: Charla Dunnam, president; Kim Jones, vice-president; Craig Holland, secretary-treasurer; and reporter is Brene Belew.

Refreshments were served to Clint Dawson, Chuck Dunnam, Pam Ott, Charla Dunnam, Kim Jones, Craig Holland, Brene Belew and the sponsor, Mary Kate Belew.

GA's Have Final Meeting

The Earth GA's had their final meeting last week until school resumes next fall. The girls spent their time at the meeting making Mother's Day gifts for the TEL Sunday School Class. They covered and

decorated coffee cans for the ladies.

Carmen Kelley served refreshments to Lisa Laing, Kelley Criswell, Tammy Landis, Mrs. Smithie Lawrence and Mrs. Dennis Criswell.

Mr. and Mrs. Earl Walker, Earline and Mary Nell enjoyed a picnic lunch at the Clovis park and zoo Sunday. Mary Nell, of Amarillo, spent the week-end visiting her parents.

CYNTHIA DIANE SIKES

Engagement Told

Mr. and Mrs. James K. Sikes of Lubbock, announce the engagement of their daughter, Cynthia Diane, to William Blanton Street. Parents of the future bridegroom are Mr. and Mrs. William Donald Street of Earth. The couple plan an August 10th wedding in the Broadway church of Christ Chapel in Lubbock. The bride-elect is a 1970

graduate of Lubbock Christian High School and is a junior elementary education major at Texas Tech.

The prospective bride-groom attended Springlake-Earth High School for three years and is a 1969 graduate of Lubbock Christian High School. He presently attends Texas Tech University as a junior civil engineering major.

MRS. FRANK RODRIQUEZ

Rosita Pasado Marries

Miss Rosita (Rostie) Pasado, a 1970 graduate of S-E High School, became the bride of

Joe Frank Rodriguez of Plainview, Friday, May 12, at her home in Plainview. Rosita is the daughter of Mr. and Mrs. Rosindo Pasado of Earth and her husband is the son of Mr. and Mrs. Marcelo Rodriguez of Plainview.

Attendants for the couple were Jessie G. Barrera and Mrs. Lupe Barrera of Plainview. Mr. Rodriguez is employed at Central Plains Hospital in Plainview and the couple reside at 2211 W. 24th St.

Messers Attend Reunion

Mr. and Mrs. Marcus Messer and Myrienne attended the Painter family reunion held each Mother's Day at the Thompson Park in Amarillo. Mrs. Painter had all her children present but one, and several grandchildren and great grandchildren. There were approximately 45 attending from New Mexico, Oklahoma, and Texas. Mr. and Mrs. Glenn Weed and children and Mr. and Mrs. Doug Messer of Midland visited their parents here and attended the reunion on Sunday.

GOD IS LOVE

Tresea Glasscock Honored With Shower

Miss Tresea Glasscock, bride-elect of Gary Don Thomas, was honored with a bridal shower Saturday, May 13 at the home of Mrs. Doug Parish.

Shades of blue and green were used throughout the house which was beautifully decorated. The serving table was centered by a milk glass candelabra.

Cake, punch, nuts and mints were served by Mrs. Tess Thomas and Sharla Haberer. They were assisted by Cindy Barton and DeAnne Brock.

Hostesses gifts to the bride-elect were a vacuum cleaner, mixer, bean pot and pressure pan.

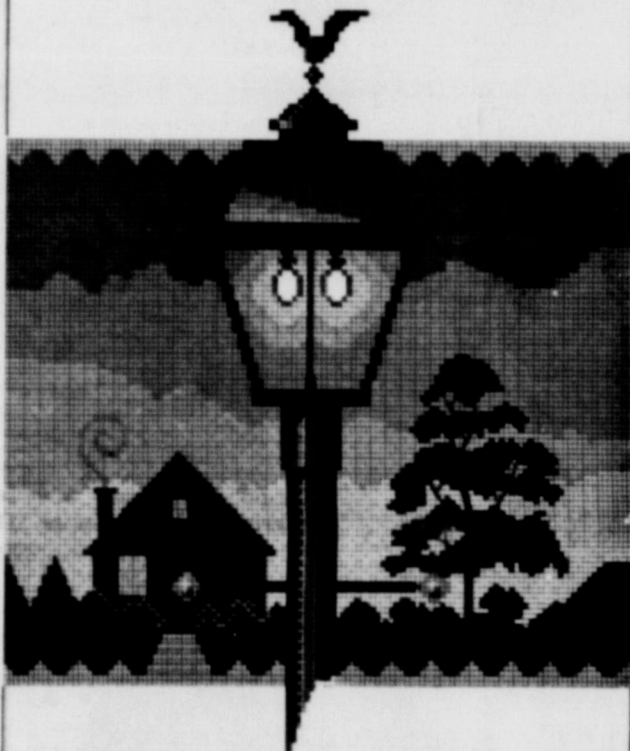

Hostesses for the occasion were: Mrs. Melton Welch, Mrs. Richard Bills, Mrs. Phillip Haberer, Mrs. Weldon Barton, Mrs. Charles Parish, Mrs. Norman Sulser, Mrs. W.O. Jones, Mrs. Wayne Rutherford, Mrs. Doug Parish, Mrs. Ronnie Smith, Mrs. Macky McCarty, Mrs. Ed Haley, Mrs. Jack Ar-

geley, Mrs. Robert Bridge, Mrs. Orville Cleavinger, Mrs. Arnold Shelby, Mrs. Sandy Sanderson, Mrs. Burl Hamilton, Mrs. Truman Layman, Mrs. W.O. Wood, Mrs. Ardis Barton, Mrs. C.C. Dumbfounded, Angry and Sad

By DAVID HARTMAN

Yes, I am dumbfounded, angry, and sad about the cold blooded gunning down of Alabama Governor, George Wallace. It's a shame and disgrace before God and to this country for such a thing to happen.

Politically I am not in the Wallace camp. Neither was I in the Kennedy (John F. or Robert) or King fold. Anyway you want to spell it injustice has been illustrated. The rights of the Kennedy brothers and Martin Luther King to live out a normal life span on this earth and to have the freedom to express their political philosophy without fear for their lives were violated.

The same is also true in Governor Wallace's case. Regardless of whether we agree or disagree with his political stance he still has the right to state it without fear of attempted assass-

ination. It is indeed an injustice when a man can't run for public office for fear of being killed. It is as someone said, "You get to wondering who will be killed this election." It makes me wonder where we are headed when this kind of atmosphere prevails.

The last few weeks I have been writing about Christian love. This is what is so desperately needed throughout our world. Why do people have to hate one another? Even in the Earth-Springlake area. Why do races have to hate one another? The same God made us all. Why do people of different religious backgrounds have to hate one another? Look at what religious hatred is doing to Ireland. Hate is not of God! Love is of God. And Christian love "is never glad about injustice, but rejoices whenever truth wins out."

Mobile Home Tie-Downs

"Mobile homes are like popcorn in a whirlwind when a major storm such as a tornado, severe windstorm or hurricane strikes unless they are properly tied down," Tom B. Lee, general manager of the Texas Insurance Advisory Association (TIAA) said today in advising the owners of mobile homes to anchor their dwellings securely and take proper precautions prior to the storms.

Mr. Lee pointed to the 1970 census which showed a great and growing expansion in the purchase of mobile homes. He also stressed that when a storm such as occurred in both Hurricane Celis and the Lubbock tornado hits a trailer court or park where the tie-down procedures have been less than adequate the effect is one of utter destruction.

"In Hurricane Celis, which swept through Corpus Christi in 1970," Mr. Lee said, "85% of the estimated 7,000 to 9,000 mobile homes were damaged; half were total losses. The dollar value was estimated at nearly \$16 million."

Mr. Lee urged that all trailers be securely anchored by means of high strength cable which can be attached at a nominal cost without detriment to the appearance of the mobile home. He also indicated that, in addition to the cables, mobile homes can be anchored by a clamp on the I-beam under the unit which can be sunk into trailer court foundations. "This kind of protection could be ideally provided by the trailer court owners and builders," Mr. Lee said. "If it is done while the concrete is being poured the cost is negligible."

While stressing the need for such undertakings on a major scale, Mr. Lee acknowledged that some areas of Texas have ordinances pertaining to mobile home tie-downs. "Ideally, the most effective way of ensuring proper safety measures would be to have some form of state law," he said, "however, until that time, we would like to urge all mobile home owners and trailer park managers to install some sort of tie-downs for the safety of their residences."

Blue Bells Win 10-7

An exciting game was played Friday night between the Bluebells and Purple Orchids. The Bluebells scored 10 points. Sue Jones made 8 and Beverly Hood, 2.

There were 6 fouls called against the team. Sharon Jackson scored 4 points for the Orchids and Kim Hayden 3. The Orchids had no fouls against them.

Bluebonnets Beat Orange Blossoms

The Bluebonnets coached by Marie Slover and Diane Billington, beat the Orange Blossoms by a score of 26-18 last Friday night.

Pam Eagle made all 26 points for the Bluebonnets. Kim Dent was the top scorer for the Orange Blossoms with 10 points. Petra Lewis made 6 and Vicki Freeman, 2.

Each team had 2 fouls called against them. Coaches for the Orange Blossoms are Joan Branscum and Pat Lewis.

THIS GROUP OF BOYS AND GIRLS are members of the 6th grade choir led by Wayne Anderson, choral director.

Roses Down Susans 19-16

The Rambling Roses won their ballgame Friday night by only 3 points. This was a real exciting game as the score was close throughout the game.

Pam Ott scored 9 points for the Roses, Sue Bradley, 6 and Debbie Pittman, 4.

For the Blackeyed Susans, Susan Clayton led the scoring with 10 points, Lindsey Field, 4 and Brene Belew, 2.

Eight fouls were called against the Roses and 4 against the Susans. Coaching the Roses was Jane Bradley and the Susans were Billy Jean Field, and Mary Clayton.

Roses Over Bonnets Blossoms Beat Susans

The Little Dribblers finished the season Tuesday night without the All-Stars. The Orange Blossoms won over the Blackeyed Susans by a score of 11-7. Petra Lewis did all the basket making for the Orange Blossoms. For the Blackeyed Susans, Tammy Davis made 5 points and Brene Belew, 2.

The Rambling Roses beat the Bluebonnets who had not been beaten this year by a score of 25-6. Pam Ott scored 12 points for the Roses, Ramee Winder, 9, Debbie Pittman, 2 and DeAnne Clayton, 2.

There were 7 fouls called against the Bluebonnets and 5 against the Roses.

Coaching the Roses were Dickie Bradley and Marilyn Eagle. The Bluebonnets were coached by Marie Slover and Diane Billington.

Blue Bells Over Orchids 3-0

The Bluebells and the Purple Orchids played a low scoring game Tuesday night to end the Little Dribblers season.

The Bluebells won by a score of 3-0. Shella Jordan scored 2 points and Sue Jones, 1. There were 6 fouls called against the Orchids and 4 against the Bluebells.

Coach for the Bluebells is Mrs. Earl Kellar and for the Orchids is Mrs. Gene Templeton.

Poisonous Plants Kill Children And Adults

While vegetation helps sustain life, some common plants, trees and shrubs are potential killers, says the Texas State Department of Health.

We eat herbs and the fruits, leaves and roots of many plants in our daily diet, but some plants we deliberately cultivate are deadly.

To the average person, the term "poisonous plant" usually brings to mind visions of poison ivy, or some similar plant that poisons or irritates upon contact. But most poisonous plants are harmful only when they are eaten. In fact, more than 700 species of plants in the United States are known to have caused death or illness. Every year about 12,000 children in this country chew or swallow potential ly poisonous plants. A study conducted several years ago revealed that 10 per cent of all child poisonings were caused from eating toxic plants--yet over half of the parents were unaware of the dangers of the plants. Eighty-five per cent of all poisoning cases involving poisonous plants involve children.

It is difficult to believe that one leaf of the graceful poinsettia could kill a child, or that tea made from mistletoe berries has killed adults. Who would expect that the beautiful oleander bush--grown indoors and outdoors all over the country--contains a deadly heart

stimulant, similar to the drug digitalis? So powerful is this poison that a single leaf of an oleander can kill a child. And many people have died merely from eating steaks speared on oleander twigs and roasted over a fire.

It's easy to be deceived by plants, for one part may be edible while another is poisonous. All parts of the buttercup, rhododendron, and laurel are harmful. In other plants, only certain parts are toxic. A classic example is the rhubarb which has a perfectly edible stalk, but the leaf contains a deadly poison.

In the strict sense of the word, poison ivy and its cousins are not really poisonous. They contain no poisonous substances and are termed "allergens" because, like goldenrods, they affect only persons who are allergic to them. But over 50 per cent of those who handle these plants will develop mild to severe dermatitis, or skin irritation.

The "poisonous" plants do contain toxic agents which can cause direct harm when in contact with the skin or absorbed by the body. Poisonous saps and juices of some plants cause severe irritation on contact, actually burning the skin. However, most poisonous plants must be eaten to cause adverse effects.

Teaching About Nature

Whether a child lives in a city, town or rural area, he has an opportunity to experience nature.

"A child's outside world includes the immediate neighborhood, the corner grocery, the church or the home of a nearby relative," said Dorothy Taylor, family life education specialist with the Texas Agricultural Extension Service.

"And with ecology receiving so much emphasis, every child needs to be aware of the natural world around him."

It's simple to teach a child about nature. Help him learn about the seasons and the changes created in the environment when winter ends and spring arrives.

When children see seasons change, it helps them learn that the world is constantly in transition, according to Miss Taylor. They understand winter, spring, summer and fall when they actually see how each season is different.

"In Texas, the spring presents a good time to go on walks with your child," the specialist said. "Both you and your child should enjoy observing and talking about the different birds, the fresh wild flowers in the open fields or the various shades of green leaves just now budding."

People change with the seasons, too. On these walks, notice the people are out walking or playing especially older adults. They are part of the world, so help the child understand this.

Start simple nature projects. Choose a tree or plant in your neighborhood and visit it. Notice how its branches occur at different times of the year. With an enlarging magnifying glass, look at the new spring buds.

The specialist suggests that you grow potatoes in a potato bin to illustrate the changes on top of the soil. Soon the funny-looking start to grow "hair."

"Time, experience and composition are part of the world," Miss Taylor said. "A child can learn much about nature from the small backyard or neighborhood. But it's the responsibility of adults to see that the child gets the benefits from these walks with his natural world."

Some prehistoric skulls are at least 80 feet long.

Tornado Season Is Here, Oklahoma-Kansas Top List

Spring in Texas brings warm breezes, greening fields and trees and -- too often -- tornadoes.

In an average year 96 tornadoes hit Texas. They occur most often in the northeastern portion of the Low Rolling Plains and in the northern half of North Central Texas.

The National Oceanic and Atmospheric Administration in Austin reported that tornadoes occur at any month and during all hours of the day. However, they occur most often during late spring and early summer.

In a 20-year period, 1950-70, three-fifths of all Texas tornadoes occurred in May. More tornadoes hit Texas than any other state, partly because of its size. However, Texas ranks ninth in the number of tornadoes per square mile, with Oklahoma and Kansas topping the list.

The Environmental Data Service reports that 1,907 tornadoes struck Texas from 1950-70.

The greatest tornado outbreak came in September, 1967, when Hurricane Beulah spawned 115. The worst outbreak of spring tornadoes was in 1957 when 69 were reported. The costliest tornado in Texas occurred May 11, 1970, when Lubbock suffered 26 deaths, 500 injuries and \$135 million in damage.

What can you do when a tornado approaches? Immediate action can save lives, says Wayne Keese, agricultural engineer with the Texas Agricultural Extension Service.

A tornado watch is given when the storms are likely to develop in a given area. Stay tuned to newscasts and advisories even if the sky is clear.

A tornado warning means tornadoes have been sighted. Seek shelter in a storm cellar or reinforced building. Stay away from windows. Curl up so that your head and eyes are protected.

When tornadoes are likely, leave mobile homes. They are particularly vulnerable. "If you're in a car, get out and lie in a depression," says the Texas A&M University engineer. "If there are no low spots or depressions, turn the car at a right angle and proceed away from the tornado as quickly as possible."

Farm animals are vulnerable to tornadoes whether in a barn or on open range. However, if they are scattered, the chances are much greater that only a few animals will be lost.

Nature Town and Country Officers Installed

...change with... too. On the... notice the... out walking or... ally older adu... are part of the... help the... this.

A delicious salad supper was served to eleven members. Mrs. N. Ray Kelley presided at a short business meeting. Marie Ross installed the following officers for the coming year:

President, Mrs. Lottie B. Orteg; Vice President, Mrs. Wayne Rutherford; Secretary, Mrs. Carra Morgan; Treasurer, N. Ray Kelley; Parliamentarian, Mrs. Lena Hite.

Roll call was answered with Backward Glances.

Those attending were Mrs. B. Campbell, Mrs. Sam Cearley, Mrs. Lena D. Hite, Mrs. M. E. Kelley, Mrs. John Laing, Mrs. Carra Morgan, Mrs. C. F. Parish, Mrs. Marie Ross, Mrs. Wayne Rutherford, Mrs. John Welch, and hostess, Mrs. N. Ray Kelley.

DISTRICT WINNERS IN TRACK ARE THE 7TH GRADE GIRLS TEAM. Pictured left to right, back row: Coach Phelps, Donna Smith, Dawn Branscum, Kim Clayton, Sherry Winden, Cindy Dent, Carman Wimberly, Kneeling, 1 to r: Teresa Lively, Charla Dunnam, Kim Jones and Debbie Daniels. Not pictured is Lydia Smith.

All-Stars To Play At Hale Center

The Little Dribblers played 3 exciting games Tuesday night to finish up the season for this year. The All-Stars, picked from the four teams, will play a practice game Monday night, May 22, at Hale Center in preparation for the All-Star Tournament to be held at Levelland June 8, 9, and 10.

Girls who made the All-Stars did not play Tuesday night.

Chosen for the team were: Pamela Eagle, Susan Clayton, Sue Bradley, Vicki Freeman, Alayne Slover, Jill Barden, Christy Pittman, Lindsey Fields, Nelda Garza, Connie Dear, Kristi Thomas and Kim Dent.

the mobile X-ray unit. Personnel from Hart and Olton Independent School District also came through the line at the X-ray unit.

Mrs. Tom Lively, Mrs. Bob Belew, and Mrs. Larry Hausmann from the S-E PTA helped with the X-ray unit.

The chest X-ray unit discovers many other abnormalities other than tuberculosis. In the past year it has located emphysema cases, lung cysts and cardiovascular abnormalities. The association bears the cost of having the film read and reported to each person in the survey.

Also a new "Junior Copy" Body shirt with a skirt that buttons over it. Mr. Fine" long dress with hot pants.

OPEN MONDAY-SATURDAY
10-6 P.M.

County Has 1279 Farms

Lamb County showed a total of 1,279 farms in the 1969 Census of Agriculture, according to

figures released by the U.S. Department's Social and Economic Statistics Administration (SESA).

In the last previous Census of Agriculture (1964) the number of farms reported in the county was 1,294.

Of the county's total farms in 1969, 1,160 are reported as selling \$2,500 or more of agricultural products in the year, as compared with 1,228 in 1964.

The report also shows average farm size in the county was 558.1 acres, and average value of these farms (land and buildings) was \$166,769.

Other figures from the report are:

1. Value of all farm products sold in 1969, \$32,571,955; in 1964, \$47,797,500.
2. Value of all crops sold in 1969, \$17,136,187; in 1964, \$35,800,454.
3. Value of all livestock, poultry, and their products sold in 1969, \$15,435,718; in 1964, \$11,991,791.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of farms from which agricultural products totaling \$2,500 and over were sold. Including family farms using this type of business structure, 3 of the county's \$2,500 and over farms are incorporated.

Attend Church Sunday
Then Go To the Band Luncheon!

Census On Adult Education And Dual Job Holding 95 Persons Have X-Rays

How many people are supplementing their regular pay checks with second jobs? How many people are enrolled in adult educational courses or are taking vocational training?

Percy R. Millard, Director of the Bureau of the Census Data Collection Center in Dallas, announced today that information on these subjects will be collected during the week of May 15 from a sample of households in this area. The questions are in addition to the usual ones asked in the monthly survey on employment and unemployment conducted nationwide by the Bureau for the U. S. Department of Labor.

Results of this monthly survey provide a continuing measure of economic conditions in the country. The March survey showed that employment had increased by 620,000, bringing the total to 81.2 million, seasonally adjusted, the largest monthly gain since June 1967. The overall unemployment rate was 5.9 percent in March.

Phi Beta Kappa is America's oldest Greek letter college fraternity.

slightly higher than the 5.7 percent in February.

Facts supplied by individuals participating in this voluntary survey are kept strictly confidential and results are used only to compile statistical totals.

Approximately 95 persons went through the West Texas TB and RD X-ray unit held at the school May 16, 1972.

All personnel at the school are required to have an X-ray. Most of the Springlake-Earth school personnel made use of

Dumbfounded, Angry and Sad

By DAVID HARTMAN

Yes, I am dumbfounded, angry, and sad about the cold blood gunning down of Alabama Governor, George Wallace. It's a shame and disgrace before God and to this country for such a thing to happen.

Politically I am not in the Wallace camp. Neither was I in the Kennedy (John F. or Robert) or King fold. Anyway you want to spell it injustice has been illustrated. The rights of the Kennedy brothers and Martin Luther King to live out a normal life span on this earth and to have the freedom to express their political philosophy without fear for their lives were violated.

The same is also true in Governor Wallace's case. Regardless of whether we agree or disagree with his political stance he still has the right to state it without fear of attempted assass-

ination. It is indeed an injustice when a man can't run for public office for fear of being killed. It is as someone said, "You get to wondering who will be killed this election." It makes me wonder where we are headed when this kind of atmosphere prevails.

The last few weeks I have been writing about Christian love. This is what is so desperately needed throughout our world. Why do people have to hate one another? Even in the Earth-Springlake area. Why do races have to hate one another? The same God made us all. Why do people of different religious backgrounds have to hate one another? Look at what religious hatred is doing to Ireland. Hate is not of God! Love is of God. And Christian love "is never glad about injustice, but rejoices whenever truth wins out."

Tornado Season Is Here, Oklahoma-Kansas Top List

Spring in Texas brings warm breezes, greening fields and trees and -- too often -- tornadoes.

In an average year 96 tornadoes hit Texas. They occur most often in the northeastern portion of the Low Rolling Plains and in the northern half of North Central Texas.

The National Oceanic and Atmospheric Administration in Austin reported that tornadoes occur at any month and during all hours of the day. However, they occur most often during late spring and early summer. In a 20-year period, 1950-70, three-fifths of all Texas tornadoes occurred in May. More tornadoes hit Texas than any other state, partly because of its size. However, Texas ranks ninth in the number of tornadoes per square mile, with Oklahoma and Kansas topping the list.

The Environmental Data Service reports that 1,907 tornadoes struck Texas from 1950-70.

The greatest tornado outbreak came in September, 1967, when Hurricane Beulah spawned 115. The worst outbreak of spring tornadoes was in 1967 when 69 were reported. The costliest tornado in Texas occurred May 11, 1970, when Lubbock suffered 26 deaths, 500 injuries and \$135 million in damage.

What can you do when a tornado approaches? Immediate action can save lives, says Wayne Keese, agricultural engineer with the Texas Agricultural Extension Service.

A tornado watch is given when the storms are likely to develop in a given area. Stay tuned to newscasts and advisories even if the sky is clear.

A tornado warning means tornadoes have been sighted. Seek shelter in a storm cellar or reinforced building. Stay away from windows. Curl up so that your head and eyes are protected.

When tornadoes are likely, leave mobile homes. They are particularly vulnerable.

"If you're in a car, get out and lie in a depression," says the Texas A&M University engineer. "If there are no low spots or depressions, turn the car at a right angle and proceed away from the tornado as quickly as possible."

Farm animals are vulnerable to tornadoes whether in a barn or on open range. However, if they are scattered, the chances are much greater that only a few animals will be lost.

ATTEND THE BAND BENEFIT LUNCHEON

Mobile Home Tie-Downs

"Mobile homes are like popcorn in a whirlwind when a major storm such as a tornado, severe windstorm or hurricane strikes unless they are properly tied down." Tom B. Lee, general manager of the Texas Insurance Advisory Association (TIAA) said today in advising the owners of mobile homes to anchor their dwelling securely and take proper precautions prior to the storm.

Mr. Lee pointed to the 1970 census which showed a great and growing expansion in the purchase of mobile homes. He also stressed that when a storm such as occurred in both Hurricane Celia and the Lubbock tornado hits a trailer court or park where the tie-down procedures have been less than adequate the effect is one of utter destruction.

"In Hurricane Celia, which swept through Corpus Christi in 1970," Mr. Lee said, "85% of the estimated 7,000 to 9,000 mobile homes were damaged; half were total losses. The dollar value was estimated at nearly \$16 million."

Mr. Lee urged that all trailers be securely anchored by means of high strength cable which can be attached at a nominal cost without detriment to the appearance of the mobile home. He also indicated that, in addition to the cables, mobile homes can be anchored by a clamp on the I-beam under the unit which can be sunk into trailer court foundations. "This kind of protection could be ideally provided by the trailer court owners and builders," Mr. Lee said. "If it is done while the concrete is being poured the cost is negligible."

While stressing the need for such undertakings on a major scale, Mr. Lee acknowledged that some areas of Texas have ordinances pertaining to mobile home tie-downs. "Ideally, the most effective way of ensuring proper safety measures would be to have some form of state law," he said, "however, until that time, we would like to urge all mobile home owners and trailer park managers to install some sort of tie-downs for the safety of their residences."

Blue Bells Win 10-7

An exciting game was played Friday night between the Bluebells and Purple Orchids. The Bluebells scored 10 points. Sue Jones made 8 and Beverly Hood, 2.

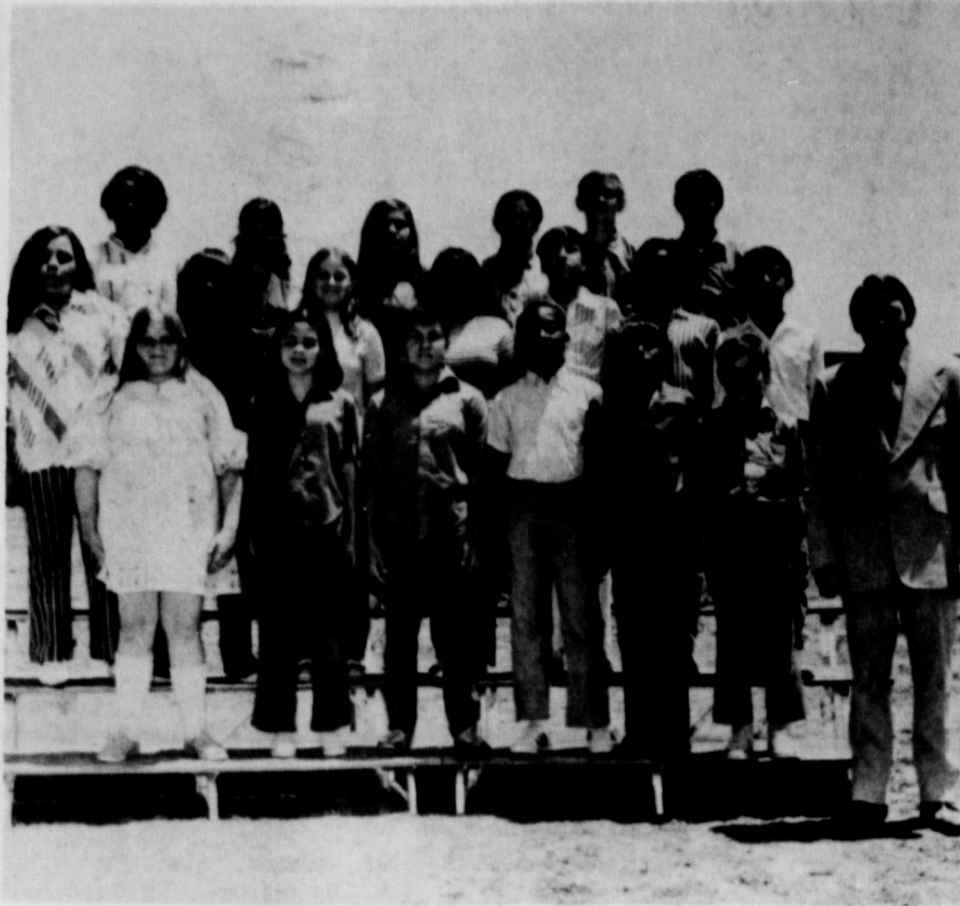

There were 6 fouls called against the team. Sharon Jackson scored 4 points for the Orchids and Kim Haydon 3. The Orchids had no fouls against them.

Bluebonnets Beat Orange Blossoms

The Bluebonnets coached by Marie Slover and Diane Billington, beat the Orange Blossoms by a score of 26-18 last Friday night.

Pam Eagle made all 26 points for the Bluebonnets. Kim Dent was the top scorer for the Orange Blossoms with 10 points. Petra Lewis made 6 and Vicki Freeman, 2.

Each team had 2 fouls called against them. Coaches for the Orange Blossoms are Joan Brancum and Pat Lewis.

THIS GROUP OF BOYS AND GIRLS are members of the 6th grade choir led by Wayne Anderson, choral director.

Roses Down Susans 19-16

The Rambling Roses won their ballgame Friday night by only 3 points. This was a real exciting game as the score was close throughout the game.

Pam Ott scored 9 points for the Roses. Sue Bradley, 6 and Debbie Pittman, 4.

For the Blackeyed Susans, Susan Clayton led the scoring with 10 points, Lindsey Field, 4 and Brene Belew, 2.

Eight fouls were called against the Roses and 4 against the Susans.

Coaching the Roses was Jane Bradley and the Susans were Billy Jean Field, and Mary Clayton.

Roses Over Bonnets Blossoms Beat Susans

The Little Dribblers finished the season Tuesday night without the All-Stars. The Orange Blossoms won over the Blackeyed Susans by a score of 11-7. Petra Lewis did all the basket making for the Orange Blossoms. For the Blackeyed Susans, Tammy Davis made 5 points and Brene Belew, 2.

The Rambling Roses beat the Bluebonnets who had not been beaten this year by a score of 25-6. Pam Ott scored 12 points for the Roses, Raneé Winder, 9, Debbie Pittman, 2 and DeAnne Clayton, 2.

There were 7 fouls called against the Bluebonnets and 5 against the Roses.

Coaching the Roses were Dickie Bradley and Marilyn Eagle. The Bluebonnets were coached by Marie Slover and Diane Billington.

Blue Bells Over Orchids 3-0

The Bluebells and the Purple Orchids played a low scoring game Tuesday night to end the Little Dribblers season.

The Bluebells won by a score of 3-0. Sheila Jordan scored 2 points and Sue Jones, 1. There were 6 fouls called against the Orchids and 4 against the Bluebells.

Coach for the Bluebells is Mrs. Earl Kellar and for the Orchids is Mrs. Gene Templeton.

Poisonous Plants Kill Children And Adults

While vegetation helps sustain life, some common plants, trees and shrubs are potential killers, says the Texas State Department of Health.

We eat herbs and the fruits, leaves and roots of many plants in our daily diet, but some plants we deliberately cultivate are deadly.

To the average person, the term "poisonous plant" usually brings to mind visions of poison ivy, or some similar plant that poisons or irritates upon contact. But most poisonous plants are harmful only when they are eaten. In fact, more than 700 species of plants in the United States are known to have caused death or illness. Every year about 12,000 children in this country chew or swallow potential ly poisonous plants. A study conducted several years ago revealed that 10 percent of all child poisonings were caused from eating toxic plants--yet over half of the parents were unaware of the dangers of the plants. Eighty-five per cent of all poisoning cases involving poisonous plants involve children.

It is difficult to believe that one leaf of the graceful poisonetta could kill a child, or that tea made from mistletoe berries has killed adults. Who would expect that the beautiful oleander bush--grown indoors and outdoors all over the country--contains a deadly heart

stimulant, similar to the drug digitalis? So powerful is this poison that a single leaf of an oleander can kill a child. And many people have died merely from eating steaks speared on oleander twigs and roasted over a fire.

It's easy to be deceived by plants, for one part may be edible while another is poisonous. All parts of the buttercup, rhododendron, and laurel are harmful. In other plants, only certain parts are toxic. A classic example is the rhubarb which has a perfectly edible stalk, but the leaf contains a deadly poison.

In the strict sense of the word, poison ivy and its cousins are not really poisonous. They contain no poisonous substances and are termed "allergens" because, like goldenrod, they affect only persons who are allergic to them. But over 50 per cent of those who handle these plants will develop mild to severe dermatitis, or skin irritation.

The "poisonous" plants do contain toxic agents which can cause direct harm when in contact with the skin or absorbed by the body. Poisonous saps and juices of some plants cause severe irritation on contact, actually burning the skin. However, most poisonous plants must be eaten to cause adverse effects.

Teaching About Nature

Whether a child lives in a city, town or rural area, he has an opportunity to experience nature.

"A child's outside world includes the immediate neighborhood, the corner grocery, the church or the home of a nearby relative," said Dorothy Taylor, family life education specialist with the Texas Agricultural Extension Service.

"And with ecology receiving so much emphasis, every child needs to be aware of the natural world around him."

It's simple to teach a child about nature. Help him learn about the seasons and the changes created in the environment when winter ends and spring arrives.

When children see seasons change, it helps them learn that the world is constantly in transition, according to Miss Taylor. They understand winter, spring, summer and fall when they actually see how each season is different.

"In Texas, the spring presents a good time to go on walks with your child," the specialist said. "Both you and your child should enjoy observing and talking about the different birds, the fresh wild flowers in the open fields or the various shades of green leaves just now budding."

People change with the seasons, too. On these walks, notice the fashions out walking or gardening especially older adults. People are part of the world, so help the child understand this.

Start simple nature projects. Choose a tree or plant in the neighborhood and visit it. Notice how its transformation occurs at different times of the year. With an inexpensive magnifying glass, look for new spring buds.

The specialist suggests getting your child growing a potato vine to illustrate the side the shell, and plant seeds on top of the potato. Soon the funny-face starts to grow "hair."

"Time, experiences and composition part of the world," Miss Taylor says. "A child can learn much about nature from the confines of a small backyard or neighborhood. But it's the responsibility of adults to see that benefits from these experiences with his natural world."

Some prehistoric sharks were at least 80 feet long.

OPEN MONDAY-SATURDAY 10-6 P.M.

County Has 1279 Farms

Lamb County showed a total of 1,279 farms in the 1969 Census of Agriculture, according to

figures released by the U.S. Department's Social and Economic Statistics Administration (SESA).

In the last previous Census of Agriculture (1964) the number of farms reported in the county was 1,294.

Of the county's total farms in 1969, 1,160 are reported as selling \$2,500 or more of agricultural products in the year, as compared with 1,228 in 1964.

The report also shows average farm size in the county was 558.1 acres, and average value of these farms (land and building) was \$166,769.

Other figures from the report are:

1. Value of all farm products sold in 1969, \$32,571,952; in 1964, \$47,797,500.
2. Value of all crops sold in 1969, \$17,136,187; in 1964, \$35,800,454.
3. Value of all livestock, poultry, and their products sold in 1969, \$15,435,718; in 1964, \$11,991,791.

Reported for the first time in an agricultural census is information on the extent to which the corporate structure is being used by operators of farms from which agricultural products totaling \$2,500 and over were sold. Including family farms using this type of business structure, 3 of the county's \$2,500 and over farms are incorporated.

Attend Church Sunday Then Go To the Band Luncheon!

Census On Adult Education And Dual Job Holding 95 Persons Have X-Rays

How many people are supplementing their regular pay checks with second jobs? How many people are enrolled in adult educational courses or are taking vocational training?

Fercy R. Millard, Director of the Bureau of the Census Data Collection Center in Dallas, announced today that information on these subjects will be collected during the week of May 15 from a sample of households in this area. The questions are in addition to the usual ones asked in the monthly survey on employment and unemployment conducted nationwide by the Bureau for the U. S. Department of Labor.

Results of this monthly survey provide a continuing measure of economic conditions in the country. The March survey showed that employment had increased by 620,000, bringing the total to 81.2 million, seasonally adjusted, the largest monthly gain since June 1967. The overall unemployment rate was 5.9 percent in March.

slightly higher than the 5.7 percent in February.

Facts supplied by individuals participating in this voluntary survey are kept strictly confidential and results are used only to compile statistical totals.

Approximately 95 persons went through the West Texas TB and RD X-ray unit held at the school May 16, 1972.

All personnel at the school are required to have an X-ray. Most of the Springlake-Earth school personnel made use of

Small Business Week May 14-20

President Nixon has declared the week of May 14 through May 20 Small Business Week for the purpose of honoring those businessmen who have made the economy and society of this nation what it is today.

Small businesses make up 95 percent of the business population of this country, they contribute 40 percent of our business activity and provide jobs for more than 35 million people. These business firms make

a major contribution to economy and play a vital role in our national welfare. In addition, they offer all members of our society, an open door to participate in the free enterprise system.

The President has asked that all Americans and their business organizations to join with him in paying tribute to the accomplishments of those small businessmen and assisting them toward continued strength and success.

Area Residents Attend Lay Witness Mission

Several area residents were in Hobbs, New Mexico, this past week-end to attend the Lay Witness Mission at the Castle Avenue Baptist Church.

Those attending were: Mr. and Mrs. A. E. O'Hair and Kenny, Ronnie Hucks, Mr. and

Mrs. Marvin Sanders, Ed O'Hair, Gene Gaston, Shelley, Paige and Roberta Gaston, Mr. and Mrs. Elroy Wislan and Gina, Mr. and Mrs. Robert Bridge, Mrs. Myrtle Clayton, Mr. and Mrs. Dud Winders and Mrs. Howard Cummings.

SING OUT!! Sixty one junior high students are members of the choir. They are under the direction of Wayne Anderson.

DON'T FORGET

ATTEND THE LUNCHEON SUNDAY FOR THE BAND!!

Joan Lucus Receives Degree

Joan Dawson Lucas, a 1968 graduate of Springlake-Earth High School was awarded the Master of Arts Degree in Music Theory in ceremonies held May 13, at Texas Tech University.

Joan, daughter of Mr. and Mrs. Ed Dawson, was one of 194 candidates for the M.A. Degree. A total of 1,692 degrees were conferred for the spring semester.

JOAN DAWSON LUCAS

Mr. and Mrs. Phil Middleton and Mr. and Mrs. Doug Messer of Midland spent the week-end here visiting their parents Mr. and Mrs. Ross Middleton, Mr. and Mrs. Marcus Messer and Tom Sanders.

Pointers On Building A Child's Vocabulary

"Building a vocabulary is one of the most important developmental tasks for the two to five year old child," said family life education specialist Jane Fleischer.

Mrs. Fleischer claimed that it's vital to a child's future success to acquire at least an average vocabulary by age five and a half.

"Vocabulary skills learned from family members become crucial to mental growth and to performance in school," the Texas Agricultural Extension Service specialist said.

Acquisition of words depends almost entirely on the amount of feedback the child gets from parents in response to his endless questions. Questions about the objects and events in his world.

Short answers, inadequate answers defeat the child's attempt to learn, according to the Texas A&M University employee.

"Repeat a word time and again to refine the child's almost correct pronunciation," Miss Fleischer advised. "Praise him for putting together words that make sentences. Recognize achievement when he uses compound or complex sentences to express ideas. Or praise him for using an adverb cor-

rectly."

Parents can do much to stimulate the young child's appreciation for a growing vocabulary and his feeling for grammar.

Salem Speaks To Brotherhood

The Baptist Men's organization of First Baptist Church, Earth, met Friday morning for their monthly breakfast.

Joe Salem, a Methodist layman from Sudan, was guest speaker following a meal of country sausage, eggs, pancakes and coffee. Mr. Salem's main thrust was love, service and sacrifice for Christ. He shared some personal experiences to illustrate his emphasis of love in action.

Special guests for the occasion were Norman Sulser, Gene Gaston, and Elroy Wislan from the Earth United Methodist Church. Others present were Pete O'Hair, Tom Lively, J. A. Littleton, Sr., Ward Cooksey, Jay Winders, Bill Verden, Wayne Anderson, Ray Kelley, J. B. Thomas, Larry Thomas, James Thomas, Zeph Robnett, Buddy Robnett, Phillip Haber, Clinton Green, Rex Clayton, Marvin Sanders, Billy Pittman, David Hartman, and Hershel Hulcy.

Special cooks for the feast were Clinton Green, Rex Clayton and Marvin Sanders.

Expressed Opinions On Quail Season

A public hearing was held in Lamb County Court house Tuesday night, May 2, and a request was made to take the quail hunting season out of the Lamb County Commissioners jurisdiction and put it back under the Texas Parks and Wildlife Department. Opinions were expressed by seven or eight persons. Tape recordings were made and taken back to Austin. The texts of these comments will be submitted to the Parks and Wildlife Commission before it takes final action on the proposal.

The statewide quail season under the proposed change would be the Saturday nearest Nov. 15 through the Sunday nearest Feb. 15, or some 92 or 93 days. Bag and possession limits would be standardized at 12 and 36.

The quail season in Lamb County is governed by the commissioner's court following a legislative act about three years ago. If the commissioners' court refuses the season

as set by the Texas Wildlife, the quail season in Lamb County reverts to general law which allows days from Dec. 1 through Feb. 16.

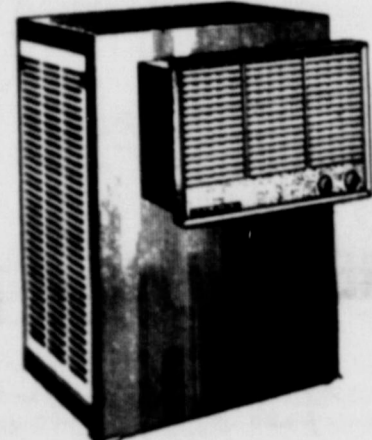

Those present didn't have much to say about the hunting season, but they did have opinions on the quail season under the Wildlife Department.

Because of the late season, the quail season here has three different seasons.

In order to get the quail season in the Hunting Guide, the County commissioners at the 1972-73 quail season regular meeting Monday

the weight of the quail on earth's surface is equivalent to a layer of 34 feet deep!

STATEMENT of NONDISCRIMINATION

Bailey County Electric Cooperative Association and Five Area Telephone Cooperative, Inc. have filed with the Federal Government a Compliance Assurance in which it assures the Rural Electrification Administration that it will comply fully with all requirements of Title VI of the Civil Rights Act of 1964 and the Rules and Regulations of the Department of Agriculture issued thereunder, to the end that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in the conduct of its program and the operation of its facilities. Under this Assurance, this organization is committed not to discriminate against any person on the ground of race, color or national origin in its policies and practices relating to applications for service or any other policies and practices relating to treatment of beneficiaries and participants including rates, conditions and extension of service, use of any of its facilities, attendance at and participation in any meeting of beneficiaries and participants in the conduct of the operations of this organization.

"Any person who believes himself, or any specific class of individuals, to be subjected by this organization to discrimination prohibited by Title VI of the Act and the Rules and Regulations issued thereunder may, by himself or a representative, file with the Secretary of Agriculture, Washington, D. C. 20250, or the Rural Electrification Administration, Washington, D. C. 20250, or this organization, or all, a written complaint. Such complaint must be filed not later than 90 days after the alleged discrimination, or by such later date to which the Secretary of Agriculture or the Rural Electrification Administration extends the time for filing. Identity of complainants will be kept confidential except to the extent necessary to carry out the purposes of the Rules and Regulations.

Mrs. Edith Blair of Farwell and Mr. and Mrs. Charles Roberts of Fort Stockton spent the day Saturday with Mr. and Mrs. David Blair and boys and had Mother's Day dinner together.

Sixth-four attended Sunday School with 18 in Training Union Sunday. Corsages were presented in the morning services to Mrs. Carl Bradley the youngest mother and Mrs. R. V. Bills the oldest mother present in the services. Mr. and Mrs. Dan Burnett were guests of Rev. and Mrs. Mack Turner.

Cloud Seeding Exciting Dangerous

Pilots for Atmospheric, Inc., a firm that lists as its product the ability to change the weather, live excitingly and dangerously but the three men who are based at Plainview for the purpose of seeding clouds in our area all say they love the job they have. The three men, Wayne Wilkinson, Phil Knowing and Norris Viverka run a terrible risk each time they take off.

They are directed by radar in a small trailer parked at the Hale County airport. They seek out threatening clouds and deposit silver iodine crystals in updrafts. The pilots say they have faced baseball size hail and have returned with their planes heavily damaged by the onslaught.

The pilots are capable of seeding clouds up to four hours but the pilots say a four hour flight is about the maximum for them as updrafts, indicated on the air crafts instruments at more than 2000 feet per minute, glue the pilots to their seats and are usually followed by severe down drafts that ram their heads against the ceiling. Their crash helmets offer little protection and after a long flight the pilots usually have a bad headache.

The pilots watch the radar scope day and night. If clouds are moving into the area, they take to the air when hail is indicated or conditions are right for hail to form in the clouds.

SBA Workshop Scheduled for Today

A Small Business Administration Workshop, co-sponsored by the SBA and the Southwest Public Service Company, will be held in the Reddy Room of the Tahoka office of Southwestern. Registration will begin at 4:30 p.m. with the first session at 2:00 p.m. on Thursday, May 18.

"Money for Your Expansion Plans" will be the theme for the workshop which is designed to point out to present industries in the area the avenues for financial and technical assistance which will aid them in expanding their operations.

The speakers from the SBA, including Phillip J. O'Jibway, district director; Hall T. Martin and Carl Lightner, community economic development specialists and J. B. Hare, from

the procurement and management assistance division, will advise participants on availability of direct government loans and community loans and how to get government contracts.

Frank Alagna of the Texas Industrial Commission in Austin will discuss the sources of assistance in employee training and Don Workman, vice president of the First National Bank of Lubbock, will speak on what a banker wants to know.

The West Texas Business Development Corporation, a new industry-financing plan, will be explained by Bob Brummal, chairman of the new corporation. Brummal is Southern Division manager for Southwestern Public Service Company.

Larry M'Iner, manager of industrial development for Southwestern, said the workshop would be of interest to manufacturers, businessmen and community leaders throughout the area.

"The very heart of industrial development is for area and community leaders to help those industries they already have expand and develop so they can play a bigger role in the economic growth in the region. This workshop is designed to help in that effort by emphasizing the opportunities that are available to existing small industries for financing and technical assistance from governmental and private sources," M'Iner concluded.

ATTEND THE LUNCHEON SUNDAY FOR THE BAND!!

ASCS Gets Approved Of Grazing,

Richard Newman at the Lamb County ASCS office announced Friday afternoon that Lamb County had been approved for emergency grazing and haying of set-aside acreages, effective May 15th.

Farmers must file application with the ASCS office prior to use of the set-aside acreage, however.

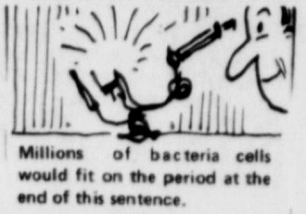

Newman said his office will have details by Monday, the first day applications can be made. The office manager estimated 300 farmers in this county will take advantage of the additional grazing period.

At the present time, the ASCS office here estimates that 180,000 acres will be planted in cotton this year. This is a 5,000 acre increase over 1971 when 175,000 acres were planted. The additional amount is due to cotton transfers in most cases.

The Lamb County ASCS office handled 278 cotton transfers this year.

Continued dry weather will probably reduce this figure, however. Farmers participating in the government programs have until June 5 to plant cotton. Producers who haven't been able to plant because of lack of moisture may be approved without planting if no rain is received by the June

date. Grainsorghum must be planted by June 20 unless lack of rain prohibits planting.

Tennis Team in District Competition

The junior high tennis teams were entered in district competition Tuesday, May 9, at Sudan.

Tennis is beginning to catch on and it is hoped that more interest will be shown in this sport since the boys and girls did so well.

Randy Latham picked up a first place in the 8th Grade Boys Singles. In the 8th Grade Boys Doubles, Cliff Wood and John Cleavinger won 3rd place.

George Flores won 2nd in the 7th Grade Boys Singles and in the Doubles, Ricky Kennedy and Dickie Brown won 4th.

Cindy Dent and Charla Dunnam were entered in the 7th Grade Girls Doubles and they won 3rd.

Diane Billington is the coach for the tennis team and going with her to help transport the youngsters were Mrs. Calvin Wood, Yvonne Jones and Ronald Cleavinger.

JUNIOR HIGH TENNIS TEAMS ENTER DISTRICT COMPETITION. Back row, 1 to 7: Cindy Dent, Randy Latham, Debbie Daniels, John Cleavinger, Kim Clayton. Front row: Ricky Kennedy, Charla Dunnam, Kim Jones, Cliff Woods and Dickie Brown.

Beware Of Out-of-Town Salesmen

Is house cleaning and home repair on your mind?

"Certain times of the year, home improvement schemes may be prowling," said Bonnie Fowler, home management specialist at Texas A&M University.

Mrs. Fowler said these quacks aim to make off with some of your money while leaving unsatisfactory work behind.

"Everybody likes a pleasant and attractive home. Some salesmen prey on this normal human desire as they try to interest the unwary consumer in roofing, siding, chimney work, furnace repairs, driveway surfacing, paint jobs and tree and yard work."

She warned homeowners to be on the lookout for certain home improvement danger signs. For example, the repairman who says his company has been working the area and has materials left over so he can offer a special deal should be regarded with caution.

Beware of the salesman who says he was driving by and noticed a roof or something else that needed repair. Check before you believe the fellow who insists he's a state or local official who has come to inspect your home to see that it complies with a safety code.

Have You The Art For Packing Clothing

Clothes unpacked from a suitcase needn't look like you slept in them.

"The traveler who's carefree, fresh and unrumpled has mastered packing comfortable clothes -- both neatly and sensibly," says clothes specialist Miss Dunlap. "Good packing begins with planning ahead."

The Texas A&M University employee suggested that you determine all the clothes and accessories needed for the climates and activities your trip will include. Visualize every outfit from head to toe, inside to outside. Also itemize the cosmetics and drugs you usually rely on.

"For a greater variety with a minimum of bulk," Miss Dunlap said, "choose a basic color scheme and garments that serve more than one purpose. Pack clothes that you enjoy wearing and that can 'take it.' Easy-care fabrics are ideal for travel. These include such materials as jerseys, no-wrinkle synthetics and blends and knits.

Plastic bottles and jars make ideal containers because of their lightweightness. Leave room at the top to allow for expansion of liquids; then seal with tape.

Miss Dunlap said not to forget the many small gadgets on the market that make life easier for the traveler. Consider such things as folding inflatable hangup miniature clotheslines and pins, sewing and repair kits, spot remover, shoe shine pads and plug-in hot cups.

"It's wise to make allowances for an unexpected separation of you and your luggage by labeling both inside and outside with your name and address," she said. "An unusual decal or strip of colored tape on the outside of your luggage will cut time spent at baggage claim areas to a minimum. The chance of someone picking up your bag by mistake will also be reduced."

Planning ahead for your travel needs will give you that extra amount of confidence as you open your luggage for the first time. When miles from home, you'll find that you did bring that oh-so-important item.

garments that are washable as well as packable. Prints that camouflage spots and wrinkles are also good traveling companions.

Whether using the "roll-up" or "fold-it-flat" method, pack tightly, but without crushing clothes. Too much room allows clothes to roll and shift, thus forming unnecessary wrinkles. Pad out needed folds with crumpled tissue paper or soft garments.

"Use plastic bags for laundry, damp swimsuits, or anything you want to protect," Miss Dunlap advised. "Tissue paper and plastic bags are the tools of good packing."

Pack heavier items such as shoes and less used garments in the bottom of the suitcase. Lighter, frequently used items should be placed near the top.

"Carry cosmetics in a separate case," Miss Dunlap said. "A good method of arranging cosmetics is to pack go-togethers individually. For example, put hair setting items together and soaps and cleaning supplies in another area or package."

Plastic bottles and jars make ideal containers because of their lightweightness. Leave room at the top to allow for expansion of liquids; then seal with tape.

Miss Dunlap said not to forget the many small gadgets on the market that make life easier for the traveler. Consider such things as folding inflatable hangup miniature clotheslines and pins, sewing and repair kits, spot remover, shoe shine pads and plug-in hot cups.

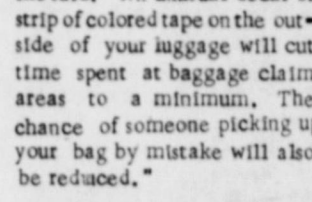

"It's wise to make allowances for an unexpected separation of you and your luggage by labeling both inside and outside with your name and address," she said. "An unusual decal or strip of colored tape on the outside of your luggage will cut time spent at baggage claim areas to a minimum. The chance of someone picking up your bag by mistake will also be reduced."

Planning ahead for your travel needs will give you that extra amount of confidence as you open your luggage for the first time. When miles from home, you'll find that you did bring that oh-so-important item.

Knowing your rights under the law helps, too. Federal law allows you three business days to cancel a contract after signing it when you make a loan for home improvement purposes and create a lien on the home as security.
