

****** NOSIN..

I know now fully well what is meant by the statement "The hurrieder I go, the behinder I get" because getting back to work following a vacation is sheer agony.

Sometime I think a vacation is not worth the resulting consequences. . . But, lucky me, I always seem to remember that following a vacation, never before. I wouldn't be so dead set against vacations, but since I've already had mine... What do you expect? Oh well,

Speaking of fun in the sun, we flat had it, and as a result I rode all the way home from Port Aransas sitting at an angle that didn't allow any sort of relaxation. My sun bal-ed well done blistered back was thumbing its nose at the back of the seat, every mile of the long ride, just daring the two to make contact.

So accustomed to being either inside the office or inside the house and so seldom in a bathing suit, my back seemed to soak up all that sun, and immediately took that same deadly dislike for coming into contact with the bed too...sleepless nights, no rest. . . Ho Hum. . .

Seriously though sun burns didn't keep us from having a wonderful vacation. On Sunday we watched the Astros beat the Chicago Cubs in the Astrodome in Houston, We sat in sheer comfort while the rain and wind beat outside and watched Jim Gentile let his temper get the best of him and cause the unsightly per-formance that may have cost him his career in the major league, ashe was sent back to minors in Oklahoma City

the following day. Of considerable importance to the Middleton clan was meeting Nelson "Nellie" Fox, who was formerly second base-

man for the White Sox and is presently one of the coaches for the Astros. Nellie through ears has been ball" to Phil, who finally met and shook hands with his favorite baseball player. We went to Corpus Christi but decided Padre Island offered a greater variety of things to do, so we rented the guest house at the beautiful Sea Horse Motor Inn in Port Aransas and swam and played in the warm huge waves in the Bay. While exploring Padre Island we walked into the Sea Arama to view the sea animals display there, and to our sur-prise we found Bill and Estelle McBride, former Earthites, wer operating the place. They had recently leased the place and seemed to be having a tremendous business. BeGee McBride the oldest daughter had recently married and there younger daughter Lu Lu and their two sons were quite talented in surfing and swimming. The family seemed to be enjoying life on the island. They do miss their friends in Earth but still keep abreast with happenings in Earth as they have been a subscriber of the News-Sun all through the years they have been away.

Board Employs 4 Teachers, Accepts Federal Supported Work-Study Program

Springlake- Earth School Trustees Monday night em-ployed four teachers and accepted the resignation of two others, leaving the faculty still short by three or four teachers,

The two resignations accepted were those of Bill Lattimore and Mrs. Denny Barnette. New teachers employed were

Don Ray Ford, his wife, Mrs. Monarae Cummings and Dixie Huffman. The four have not as yet, been appointed to the osition they will file on the local school faculty. A report to the trustees on

the average daily attendance showed a point average of 913, 749 for the past nine months, indicating a decrease in attendance, as the point average the 949.76. the previous year was

The new federally supported work study program was reviewed and approved by the group this study program allows school to hire students to do various maintence jobs on the campus throughout the summer months. Requirement for students, to be eligible for the work program are as follows; they must be enrolled in agri-culture and must be from low income families,

The annual calendar for the 1966-'67 school year was studied and adopted by the group.

School is scheduled to begin on August 29; on November 24-25 students and the faculty will be allowed a Thanksgiving Holiday; December 22, Iast day of School before Christmas Holidays, January Holidays; March 10, holiday for District teachers meeting; March 24-28, Easter holidays; May 19, last day of school; May 20, Junior high grad-uation; May 21, High School Baccalaureate; and May 22, High School Commencement. Season tickets for reserved stadium gym seats will be

WHEAT HARVEST is currently in progress in the Sunnyside area with golden crops looking beautiful as they sway back and forth in the breeze.

Alicia Galloway Invincible Worker For VBS **Pittman Is New**

Alicia Galloway, daughter of Mr. and Mrs. L. H. Galloway. has been selected as an invincible worker by the Llanos Altos Baptist Association to conduct Bible Schools in the various churches in the association during the summer months. Marcella Mayfield from Lazassisting Alicia with her class-

Miss Galloway and Miss Mayfield sent applications for the position to Calvin Beach associational Vacation Bible School Superintendent, He, along with an appointed com-mittee, studied their qualfications and secured the two some as invincible workers. The association pays the girls \$25 weekly, and the Sunday School Board of the church where the girls will be working pays an additional \$5 per week, plus furnishing them with food and lodging. The girls have classes at nine churches on their schedule for the summer months. The Old Timer "Folks who know least seem

o know it fluently!"

July 7-9 Is Date Set For Annual Rodeo

At the regular meeting of the

Earth Roping Club Thursday

night, names of the persons who purchased trophies for the

norseshow were placed in a

box and a name drawn to re-

ceive free box seats for the

three night rodeo performances Dr. Bud Nace of Littlefield,

doner of the Grand Champion

mare trophy, was the lucky winner, and received the free

COTTON LOOKS GOOD in the immediate Earth area where no hail damage has been reported. However, parts of Pleasant Valley, and Lazbuddie has received damage during the recent hail storm,

Hail Damages Area Crops

Area Farmers began to move back into their fields Saturday morning to evaluate the damage caused by a Friday even-

ng hail and rain storm. Early estimates place the loss of crops at approximately 600 acres of early cotton and feed. The heaviest losses in the area appeared to have occurred approximately 10-15 miles west of Earth.

The hail stones fell in the size of marbles, and many growers reported that they will have to replant if it is not too late. On the Thurlo Branscum farm, six miles west and five miles north of Earth, 22 inches of rain were received last week,

with no hail reported. Jimmy Craft reported that he received 3/4 of a inch of rain Thursday, and . 4 Friday, with no hail.

7 Accidents **Occur In Lamb During May**

The Texas Highway Patrol investigated 7 accidents in Lamb County during the mon-th of May according to Sergeant Thurman Keffer Highway Patrol Supervisor of this area.

The crashes resulted in 3 persons injured and an estinated property damage \$5, -425.00

The rural traffic accident ummary for this county during the first five months of 1966 shows a total of 32 accidents resulting in 2 persons killed, 5 person injured, and an estimated property damage of \$16,980.00.

The number of traffic deaths in Texas has risen steadily since 1960 with 2254 deaths to 3028 deaths in 1965. "For the first five months of 1966. 1137 persons have died in traffic compared to 1032 deaths for the same period of 1965," Sergeant stated. This 10% increase is very alarming and when you realize our heavy volume traffic months are still ahead, we must anticipate increasing problems in the accident picture.

The Sergeant appealed to the motoring public to assist in the reduction of this trend, otherwise, the death count at the end of the year will far exceed the record number of 3028 deaths in Texas during 1965.

PARTY LINE

Mrs. Rafe Rogers and boys, Whitharrel were guests Sunday evening in the Carol Black-well home.

TO THE BARN

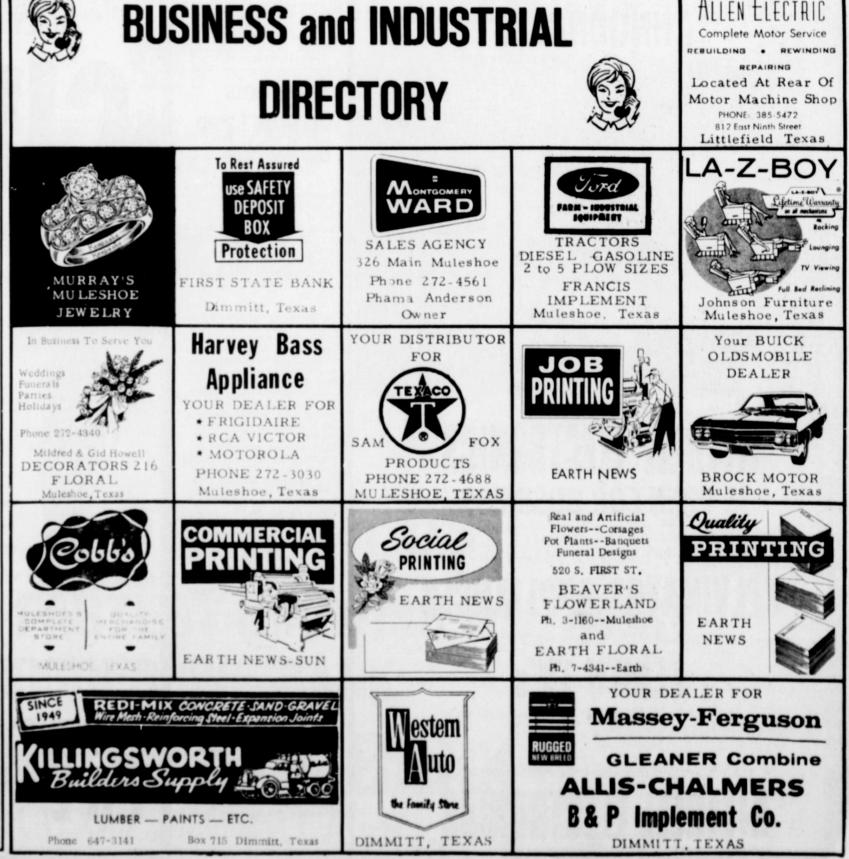

It took 58 years for Thomas Edison's marvelous incandescent lamp to find its way from his laboratory to the rural areas of Texas.

Big cities were electrified quickly. But the job of rural electrification wasn't even started until a few years ago when rural people organized Bailey County Electric Cooperative and built their own electric system.

Today this first-class electric utility has transformed rural life. So versatile are the uses of electric power, it is doubtful even the "Wizard of Menlo Park" could have forseen its great demand.

And as the demand continues to increase, the member-owned Bailey County Electric Cooperative is planning ahead for improved facilities to deliver the power that is Helping Texas Grow.
