C of C Appreciation Dinner Huge Success

The Earth Chamber of Commerce appreciation dinner held Tuesday, August 1, at 7:30 p.m. on the parking lot and street, east of the Citizens State Bank, was a huge success. Leon (Tuffy) Dent, Master of Ceremonies, extended a hearty welcome to the 600 guests that attended.

A special guest for the evening was Mr. V. M. Patterman of Littlefield, chairman of Lamb County Historical Society. He gave a brief talk on the settlement of Earth which is a portion of the Panhandle-South Plains and was carved from the XIX after its division in the 1880's and 1890's. Earth is a part of the Springlake division whose headquarters still remain 4 1/2 miles west of town. This division was bought by Col. W. E. Halsell of the Indian Territory of Oklahoma, early in the 1890's and has remained with that family since, under the Halsell brand of Mashed O.

The rich farm lands you see around this area has been sold from this ranch beginning in 1923 and settlements have surely flourished from then on. Mr. Patterman also stated that the Historical Society was looking forward to placing a marker in Earth perhaps in the near future. Seeing so many people interested in the town would entice him to work even harder on this project.

A delightful evening of entertainment was furnished by Mrs. Faye Washington and her brother, Jack Morrison of Plainview, and Jesse Fondren, talented young vocalist accompanied

by Mr. Garland Crouch, all local citizens.

A delicious meal, including 400 pounds of catfish, french fries, cole slaw and all the trimmings was served by men of this community.

Every citizen of the Earth trade territory that attended the dinner want to salute the Chamber of Commerce for their tremendous job they performed by hosting this evening of entertainment and fellowship. They are doing a very good job of promoting Earth and assisting in every way they can to make it a better place to live.

Local Horse Club Attend Morton Show

Not only is our Earth-Springlake territory noted for its rich abundant farming, but now our younger generation is taking a fast lead with the horse shows.

Our local girls attended the Cochran County 4-H Horse Show at Morton, held Saturday, July 29, and came home with many trophies and ribbons. There were 100 entries with 19 counties represented so therefore the competition was really there.

Carrie Been came home with the Reserve Grand Champion Gelding trophy and Brandie Nicholson, 3rd place, regular or any breed, 4 years and under. These prizes brought in 7 points for Carrie for the

Springlake-Earth Horse Club and 2 for Brandie.

Lacretia James won 3rd in pole bending and 5th in barrel racing in the young juniors division with 24 participating, bringing in 6 points for the club.

Cliff James entered the Pee Wee's with 14 in the class and won 1st in pole bending, 2nd in barrel racing and 4th in reining. This brought in 13 points. Total points for the surrounding counties were: Progress - 981 points, Dawson - 66, Lubbock - 50, Garza - 30 and Springlake-Earth - 26. Other girls attending were Lisa Brimhall, Bonacia Nicholson and Dina Jo Hampton.

CLIFF AND LACRETIA JAMES, children of Mr. and Mrs. Jeal James, have all smiles after winning several ribbons and trophies in Morton Saturday, July 29.

Local Church To Host Youth Group

The public is invited to attend a special program, presented by the Bethel Baptist Church from Houston, at the First Baptist Church auditorium Thursday night, August 3, at 8 p.m.

The program entitled, "Real" is to be presented by approximately 52 young people that are traveling with the group. The young people will arrive here Thursday evening and will

be served a delicious meal at six, by the women of the church.

It is with pleasure that we welcome this talented young group into our church, and homes, and to share the enjoyment of their visit with the public.

Mrs. Dub Martens was taken to the Littlefield Hospital Tuesday suffering with pneumonia.

MISS CARRIE BEEN proudly displays the trophies that she won at the Cochran County Horse Show on Saturday.

When 33 from the Methodist Church and 1 from the Baptist Church spent a day on the mountain top (8,000 feet above sea level), near Wyoming, our closest seemed to be God as we were so high above the rest of the world we felt like we were in Heaven's court.

During the trip were Mrs. David Hartman, Mrs. Pete O'Hair, and Kirk, Mr. and Mrs. Terry and Teresa, Mr. Hershel Hulcy, and Greg, Freddie Polly Middleton, Mr. Guy Kelley, Johnny Edwards, Melissa Lynn Davis, Billy Regina Cole, Larry Camille Haberer, and Tommy Lansford, and Kathleen Anderson. The group were accompanied by Danny O'Hair.

Several of our flock developed sore throats and fever, so we ended up running a full time hospital, along with other chores.

Like every place else in the U.S.A., in the survey we met all kinds of people. The ones I met were especially nice, they sometimes started out being indifferent and no time for us, but ended up friendly as West Texans.

Our youths were a credit to our town and to the church; they proved to be interested in working for God. The lively family had a field day, as their daughter, Teresa, was saved and both her parents rededicated their lives. Several from Casper who belonged to Rev. Johnny Tims' Church, and also some from Rockwell rededicated their lives and others were saved.

Our week was a memorable week, some of us will never forget it. And as for me, I can never forget our youth. Their faith in the face of difficulty showed through, indicating a desire to work for Jesus - and I felt that alone was worth the trip.

I had a chance to get acquainted with the youth as well as adults. We finally began calling Lajuana, "Sister", since someone asked her if she was Kenny and Kirk's sister. I followed right behind her and shook hands with the man who had asked Lajuana that, and he asked me, after I had been especially nice thanking them for allowing us to use their dining room to eat in, if I wanted him to help me down the stairs. I was termed as "old" Polly.

Somehow Pete got the name of "Job" since he had the patience of Job while he was the one who seemed always to have to load up our food each day when we went down the mountain as we didn't come back until after church at night.

Everyone had their hands full daily, but if it were to do over again, I'm sure there isn't one who would turn down the opportunity to go work for God again, if it were high up in the mountains of Casper, Wyoming.

A LARGE CROWD is waiting patiently for the fish supper to get started.

## A Week On the Casper Mountain With Christ

"In every thing give thanks," for God is the only one who knows the overall picture of what is best for us. What seemeth best in the eyes of man may not be the best thing at all.

Anyway, the trip last week to Casper, Wyoming, where 34 people from Earth stayed in a two room camp on the tip top of Casper Mountain, 8,500 feet above sea level, is somewhat higher than we in West Texas are accustomed to and was a big undertaking.

As we left Casper to start up the mountains, Rev. Johnny Tims (former pastor of Lazzbuddie Baptist Church) was there to guide us up to the camp. The bus at times could only make five miles an hour and those were the longest miles that any of us West Texans had ever traveled straight up.

Rev. Tims told the group to never stop the bus until they got to an observation point. If it stopped, to have big rocks ready to put under the wheels to keep it from rolling back down the steep curving mountain road.

With Tom Lively at the wheel and Hershel Hulcy standing in the doorway with rocks and Pete O'Hair behind us ready to drive his car up against the bus and throw on his brakes in an attempt to hold it, we started straight up and around curves, with Rev. and Mrs. Hartman in front driving the pickup with our provisions and following Rev. Tims.

At the first stopping place high up in the mountains with high rocks, mountains and trees on one side and cliffs that drop straight down on the other, we saw a drunk woman try to jump off. Her companion, almost equally as drunk, got her back into the car before she could commit suicide.

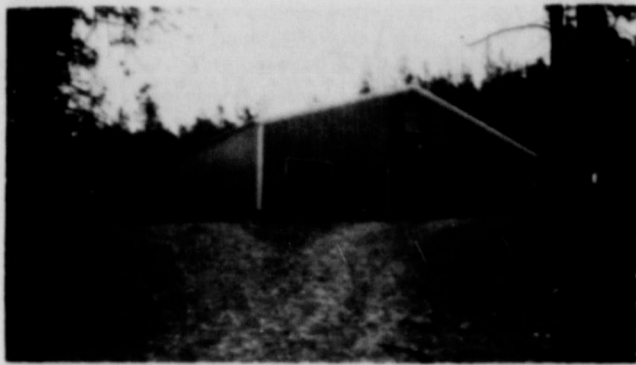

After reviving slightly and cooling the motor off, we boarded again for the Heavenly way upward around each curve. We finally came to a dirt road that wasn't wide enough to get the bus through. Bark was off the majority of the trees on either side of the road where vehicles had hit them.

The mirrors on the bus stuck out so far they would hardly pass between the trees. The bus needed big hinges in the center, as the hair pin curves were so sharp and impossible to turn short enough to get the bus through, but somehow we arrived.

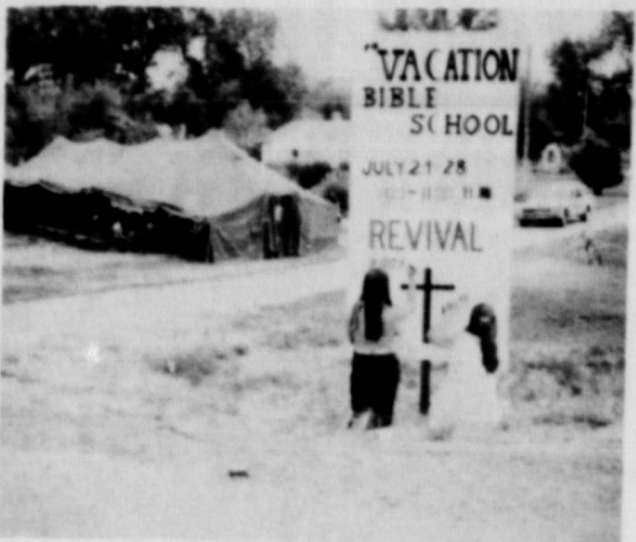

Tom, pale and wringing wet from the responsibility of driving the group up the mountain, asked that we have prayer before we got off the bus.

It was late but we went in to get supper for the group and to get things in order for the night. That took some doing, but everyone pitched in and soon things were liveable and plans were made to have services the next day, which was Sunday, at Mountain View Church. We had to be down there by 8:45 a.m., so getting up at 5 a.m. became our daily routine in order to have time for showers, dressing, eating and the trip down to Casper.

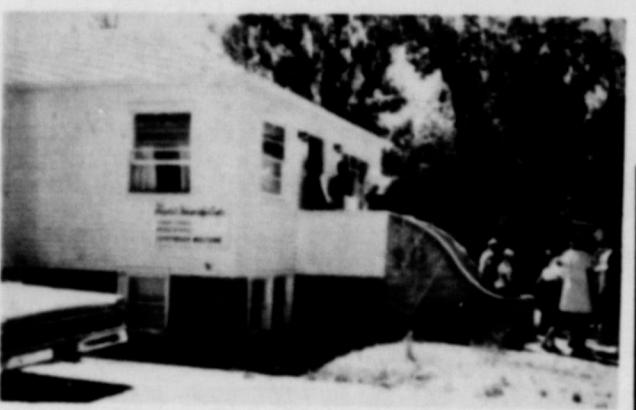

Following Sunday School, the youths had charge of the services, (right here I must stop

and say, that many times God speaks in the Bible of the faith of a child). If everyone could have seen our youths at work then could we understand the FAITH of a child or youth. Their faith was evident and spurred them on to meet all obstacles during the week. Camille Haber, though yet

handicapped from a car wreck, gave a lovely testimony, saying she thought God spared her life for some reason and she hoped she could fulfill the mission on Earth that God had spared her life to do. She then sang, "It Took a Miracle," with youth director, Charlotte Edwards at the piano. This brought much into the service. It is impossible to mention all the things done in both Casper and Glenrock by all the youths, for on Monday the groups were split, some working in each town. There is no church in Glenrock, so they were trying to get enough out to teach Bible School in the morning and take a religious survey in the evening to kindle interest in beginning a mission there.

This same system went on through Friday, with the exception of an afternoon off for a picnic and swimming at a nearby lake following Bible School and being sure to get back to church that night.

Lynetta Lansford gave her testimony of how her mother had died when she was young then how finally she turned to God. She ended by singing a solo, "The Savior is Waiting." Various boys took turns leading singing with Freddie Kelley, Johnny Kelley, Larry Thomas, Terry Lively, and other taking turns, others gave their witness; no one can ever relate everything that went on during that entire week, or who did what, except the Lord Himself, because down there we found ourselves asking not what time it was but what day it was, day after day, it seemed we were there a full month.

Jane and Guy Kelley had joined us there Sunday night, also

the night we arrived, in walked Edward Werflein, Moaty Winters and Danny O'Hair, who had been in Nebraska with the wheat harvest. It rained so that they jumped in their camper and came walking in Saturday night and stayed with us until we left. We also had the Pete O'Hair car and Tom Lively's pickup, so that gave us enough transportation. So we got the bus out of that tight squeeze on the dirt road about 1 1/2 miles from the cabin and parked it so it would be out in case of rain. One night it rained while we were at church and the cars got within 1/2 mile of the camp and could not go farther - we parked. My shoes would not stay on my feet so I pulled them off and tried to walk barefooted. After falling twice with my hands full of 3 loaves of bread, shoes, purse, with LaJuana O'Hair trying to hold me up and Pete trying to flash a light and hold her up, we both fell. We never laughed so much in our lives, but we got so cold - no place in the U.S.A. has had as slick as that mud on the mountain top. Walking on pine cones, needles, and rocks, my feet felt weary to say the least. The men, Hershel, Guy, and Pete gathered up the rain coats and umbrellas from the cabin and walked back to give the others the raincoats and aid them down the mountain. Hot chocolate, cake and ham sandwiches finally made us more comfortable and we settled down for the night. But we had long discovered it didn't take long to spend the night up there, 4 to 5 hours was

about the limit. Getting all the clothing, bath paraphernalia, cosmetics etc., and walking down the hill to the showers and getting back and through eating by 7:45 or 8 was a pretty rough schedule on the youth, but everyone made it without a gripe.

In the afternoon they took the survey, we adults helped some on the survey, but the youths did the majority. Some of the

people were uninterested and told the kids so, and told them to "buzz off."

One of the most memorable replies of the week came from Kevin Anderson. Tired and hot, he knocked on a door and told the lady that came to the door he was taking a religious survey. She said, "I won't answer any questions and am not interested in your survey!" Just as she shut the door in his

face, he replied sweetly, "That's all right, lady, we've been hurt before," and went on to the next house for some of the same.

One of the girls walked until she had blisters and they burst and bled while trying to interest the people in the Bible School and the revival.

After the second night, some people began showing up at Glenrock where a tent had been erected. Several rededications took place and some were saved during the week in the tent revival.

All the people were not like that mentioned above. We also

met many lovely people. Some we would love to know better, but time did not permit. Some that the kids' faces, but they did not stop there, they went to the next house and on Saturday and on Sunday. We got up at 5 a.m. on Saturday and at the way of the mountain the motor work on Saturdays, but men volunteered to do it. The motor work and towing bus up to the station cost \$900.00. We had to park all day while the bus was being repaired. In the

## WYOMING TRIP

(CONTINUED FROM PAGE 2)

noon the kids went bowling - I learned how, but don't ask my score.

At 7 p.m. the bus was ready Saturday and we started home. We only stopped for gas and to eat breakfast and dinner Sunday arriving in Earth about 3 p.m.

The universal joint burned out on the bus going up delaying us about 3 hours. Many, many things happened, no one person can describe the trip thoroughly, because to each it was just a little different, but if the Lord was pleased with the effort, it will be one no one can ever regret.

The Devil worked hard, too. He caused us to become discouraged at times. Although we know FAITH YIELDS POSITIVE RESULTS. The beginning of anxiety is the end of faith, and the beginning of faith is delays. Delayed answers to prayers are not only trials to faith, but opportunities of honoring God by our steadfast confidence in him. Let us continue to remember Casper and Glenrock, Wyoming, and many people who were kind to us there, and to Maxine and family who were nice enough to have the tent placed in their yard, and to Pappy, the man who won my heart, although I'm not sure he came to church.

Wyoming is different to Texas, but God will work in Wyoming if there are enough prayers, and we shall yet see results of the long week in Wyoming.

Sandy Clayton, son of Mr. and Mrs. Norman Clayton, had the misfortune of falling from a tree last Thursday and breaking his arm. It is in a cast now and he is up and around.

# School Openings Keeping Parents Busy

When the month of August rolls around, thousands of Texas mothers suddenly realize that only a few more weeks remain until school begins. Parents with youngsters beginning school for the first time this September look forward to school with a little more excitement, and many mothers whose first-born are going off to school may be a bit bewildered by it all.

and-one chores that must be performed in getting the youngster ready for school--new shoes, clothes, health examination--most school districts require proof of age for beginning students. A certified copy of a birth certificate is usually requested, reports the Texas State Department of Health.

This fall there will be a quarter-million new first graders in schools throughout Texas, with the total public school enrollment expected to reach 2.8 million. Continued growth of the school population is expected for the next two to three years, according to the Texas Education Agency.

Anticipating the rush of birth certificate requests, the Records and Statistics Section of the Texas State Department of Health has been prepared for it. Requests are already pouring in.

It takes sizeable staff just to open the thousands of letters received daily, let alone search out a requested certificate, remove it from the thick volume, make a certified copy, mail it out and then return the original certificate to its proper place.

Years of experience have eliminated nearly every bottleneck. The operation is smooth and fast. Usually the copy is mailed within a day or two after the request is received. One bottleneck still remaining, however, is the individual who makes the last-minute request. Parents are requested to stop now and write for a certified copy of the birth certificate, or contact either the city registrar where the child was born or the county clerk in the county of birth.

If you write the Texas State Department of Health, Bureau of Vital Statistics, 410 East Fifth St., Austin, Texas, be sure to include the child's name, place of birth, date of birth, and the parents' name (including the mother's maiden name.) The State Health Department fee for a certified copy of the birth certificate is \$2.00.

## Emergency Loans Available

U. S. Senator John Tower has reminded farmers who recently suffered severe hail losses to growing crops that they may be eligible for emergency loans through the Farmers Home Administration.

Tower said he had been in contact with Lynn Futch, state director of the FHA in Texas, about the emergency loans that are available through FHA for continuation of farming operations.

Widespread hail damage was inflicted recently in the High Plains region of Texas and many producers lost cotton and milo crops to wind and hail from spring and summer storms.

"Loans of this nature will assure Texas farmers of an opportunity to produce an alternate cash crop and thus keep a portion of our state's largest industry in operation," Tower said.
