Cancer Drive to Be Completed This Week

Mrs. Norman Ellis, chairman for the Earth Cancer Drive said Tuesday night that approximately \$1000, had been collected and that hopefully if weather permitted the drive would be completed in Earth by the end of the week. Mrs. Lillie Weirfleim, chairman for the Pleasant Valley area has completed the drive there. The drive brought in \$187.00.

Mrs. Phil Neinst, chairman of the drive in the Springlake and Pleasant Valley. Mrs. Ellis said several of her workers have not turned in their money as yet, as the frequent dust storms had caused them to be unable to finish the area assigned them. However, Mrs. Ellis was enthusiastic over the results of the drive this far, and indicated she felt sure the goal of \$1600, would be reached.

Those who have failed to have a part in this fund drive may turn in a check to Mrs. Bill Freeman at Citizen State Bank.

One Act Play To Be Presented

The Springlake-Earth district one act play winners will present the one-act play they will present at the regional contest in assembly at Springlake-Earth high school auditorium today at 10:55 a. m.

The play entitled Anastasia was presented in district UIL contest by Kathy West, Express; Ruth Street, Anastasia and Melissa Ben, narrator, Jerald Head was stage manager.

The public is invited to attend this assembly.

4-H'ers PRACTICE-Speeches and Demos

The Springlake-Earth 4-H Club met Monday night April 15 at the community building.

The meeting was conducted by Glenn Branscum. The inspiration was presented by Lynn Brown and the treasurers report was given by Tommy Graham. The roll call was answered by giving the name of their favorite food.

The program consisted of speeches and method demonstrations, to be given at the County eliminations contest April 23 at Littlefield. Finalists at Littlefield will then go to Lubbock May 4 to compete in district eliminations.

Those giving method demonstrations were: Mayne Stover - clothing demonstration; Tommy and Michael Graham - safety demonstration; Duke Hampton - poultry demonstration; Glenn Branscum presented a speech on "Integrity", Dawn Branscum spoke on "Courtesy" and Wendy Branscum gave a speech on "Giving Yourself A-way."

Members registered for a first aid course to be taught shortly after school is out.

There were 26 members present and one new member, Pam Eagle joined.

Refreshments were served by Jo Eddy Riley and Naomi Brown.

Rev. David Hartman left Sunday afternoon for Logview to be at the bedside of his uncle who had suffered a severe heart attack. Tuesday he was reported to be a little improved.

5 Injured Sunday in Wreck Near Earth

Five people were injured in a two car automobile accident, Sunday afternoon at 5 o'clock. The accident occurred at an intersection three miles north and two miles west of Earth, on a dirt road.

The injured were Mrs. Jerle Taylor, her son Danny and a little friend Mike Green of Muleshoe, also Grant Waddington of Muleshoe and a male companion. Mrs. Taylor's injuries required several stitches to close a wound on her nose. She also received bruises over her body and had two severely black eyes. Her son Danny hit the dash and was knocked unconscious for a period of time and Mike Green received a painful laceration on the forehead. Grant Waddington of Muleshoe received severe bru-

ises over his body and a broken hip. He received emergency treatment at the West Plains Hospital in Muleshoe and was rushed on to the University Hospital in Lubbock where he is still remain hospitalized. His companion received a severe laceration on his right forearm. He received treatment at the West Plains Hospital and was released.

Mrs. Taylor, her son Danny and Mike Green were all dismissed Monday afternoon from the West Plains Hospital in Muleshoe and are resting at home.

The accident occurred as Mrs. Taylor driving west in a '71 LTD with her two children Danny and Tina headed to Muleshoe to return their three little guests, Mike and Mark

Green and their sister Angela Peden, to their home in Muleshoe. The three are children of Mr. and Mrs. Clem Peden of Muleshoe.

Grant Waddington driver of the other car involved in the wreck was driving south with his male companion. The cars smashed at the intersection, totaling both cars.

According to Mrs. Taylor, this is the third accident within the past few years that has occurred at that intersection.

Tina Taylor, Angela Peden and her brother Mark Green were uninjured. Mark ran to a neighbor's home, the Tommy Wheatley residence. Mrs. Wheatley called the ambulance, then rushed Mrs. Taylor and the five children to the West Plains Hospital. Hershel Hulcy, ambulance driver for Parson-Ellis-Singleton Funeral Home in Earth rushed Waddington to the hospital in Muleshoe then on to the University Hospital in Lubbock.

Highway Patrol Robles, of Littlefield investigated the wreck.

Local Music Students Win Bronze Medals

Glenn Craft, son of Mr. and Mrs. Jimmy Craft, and Elizabeth (Libby) Kellar, daughter of Mr. and Mrs. G. E. Kellar won the Bronze Medal in State Theory Test which was given on February 20.

The test papers were sent to the examiners in Austin, for grading. Requirement are that student must obtain above 90 to be eligible to receive a

Bronze Medal. The local twosome will receive this honor at TMTA (Texas Music Teachers Association) convention in June at Amarillo. Jennifer Kellar, daughter of Mr. and Mrs. G. E. Kellar was awarded "Certificates of Achievement" for obtaining a grade of 94 in local level theory test. Jennifer and Elizabeth Kellar are students of Mrs. Jean Craft.

Revival April 21-28 at Sunnyside Baptist

Dr. Strauss Atkinson, Evangelist, will conduct a week-long revival April 21-28 in the Sunnyside Baptist Church. Rev. Mack Turner, Pastor, made the announcement this week.

Services will be held daily at 10 o'clock each morning and 8 o'clock each evening. Prayer meeting and the choir will begin nightly at 7:30 p. m. Buddy Wells, music director for First Baptist Church in Littlefield will direct the singing for each service.

The regular schedule for Sunday services will be maintained. Dr. Atkinson, lives in Plainview and serving as Caprock

Plains area Missionary. He is a noted preacher serving in that capacity for approximately 34 years. He has an Honorary Doctorate from Wayland Baptist College at Plainview. During his ministry he has pastored the First Baptist Church in Canyon, and in Kermit. A large crowd is expected to attend and hear the message the Lord will send through Dr. Atkinson.

Rev. Turner and the Sunnyside community invite everyone in the area to attend services each night.

District and County Clerks Explain Laws

District Clerk, Ray Lynn Britt and Lamb County Clerk, Mary Beth Willey addressed members of the Junior High classes at Springlake-Earth School Wednesday morning. The students had been studying various laws effecting the County, State and Nation.

Mrs. Britt, explained to her audience the various "Laws Concerning the Office of the Clerk". Mrs. Willey related laws currently in effect governing the County Clerk's Office and misdemeanor offences.

Texas ranks second in the nation in total peanut production, surpassed only by Georgia. Agriculture Commissioner John C. White reports.

Weather Modification Fund Still Short \$36,000

At a meeting Monday night in Springlake, of farmers and members of the Board of Directors for Better Weather Inc., the group said they were still \$36,000 short of the \$160,000 fee charged by Atmospheric Inc. for a three plane program of hail suppression and Better Weather Control.

After lengthy deliberation the board voted to go ahead and call Atmospheric Inc., to make ready to start the program. It hopes that the remaining \$36,000 will come in by May 1.

Plans are to begin the program May 1 with a three plane operation. If by May 1 enough funds have not been collected in, the board will then decide whether to have a three plane program for two or three months, then cut back to a two plane program.

The other alternative is to operate with 3 plane program until the money is used up, therefore shortening the season to correspond with the money. The Olson area is said to be lagging in the drive to collect in the fund. It is hoped that those who have failed to pay in and who have not been contacted will see the urgency of the time schedule and deposit their money in one of the banks in the area for the Weather Modification Program.

Junior Rodeo in Earth April 19-20

A Junior Rodeo is slated in Earth Friday and Saturday April 19 and 20.

Books will open for entries on Friday April 19, at 9 a. m. and close 6:30 p. m. Those wishing to enter may call the Rodeo office phone number 257-2125 on this date to enter.

There will be four age groups. They are: 6 years and under, 12 years and under, 13 to 15 years and 16 through 19 years.

The events offered in each age group are: 6 AND UNDER - Calf riding, 12 AND UNDER - Pole bending, ribbon roping (boys and girls), bull riding, barrel race, pole bending, flag race, yearling decorating, team roping, goat race, chute tagging, break-away roping.

The entry fees for bareback

bronc and bull riding is \$10.00 per person. The fee for roping events will be \$5.00. Calf riding for entries 12 years and under will be \$4.00. All other events will be \$4.00.

Rules for the events are: POLE BENDING - Six poles will be run, boys and girls.

FLAG RACE - rider will take flag from bucket.

BREAK AWAY ROPING - Rope must break from saddle horn.

BARRELL RACE - clover leaf pattern for boys and girls.

RIBBON ROPING - girl must run for boy-if girl is roper, boy may run.

RESCUE RACE - entrant rides horse and rescues partner from barrel, who must be astride horse when crossing finish line, also of same age group.

YEARLING DECORATING - con-

testant must leave from behind barrier and make paint mark on yearling with a paint stick, which will be furnished.

Boys must enter at least 3 events, including a riding event to be eligible for all-around buckle. Girls must enter at least 3 events to be eligible for all-around buckle. Buckles will be presented to first place winners in each event. Ribbons will be given through fourth place. Buckles will be present to all-around best, in each age group.

Each contestant must have parents signed consent to participate. Participation will not affect interscholastic league standings.

Estacado Industries Set Anniversary Celebration, Saturday

Saturday, April 20 marks the Second Anniversary Celebration of Estacado Industries Lamb Division, located two miles south of Sunnyside. Don Weiland, manager, invites area people out to look over the big modern feeding lots.

In connection with the 2nd anniversary celebration the Sunnyside Lions Club will sponsor and serve a barbecue Lamb dinner, with all the goodies that go to make a dinner, fit for a king.

Serving will begin at 8 p. m. The charge is \$2.50 for adults and \$1.50 for children under 12 years of age.

M. Weiland and members of the Sunnyside Lions, invite everyone in the area to attend.

Absentee Balloting Now In Progress Through April 30

Absentee balloting for the May primary began Monday, April 15, in the County Clerk's office of the Lamb County courthouse.

Balloting will continue through 5 p. m. Tuesday, April 30. Office hours are 9 a. m. to 5 p. m. week-days.

A form may be clipped from an inside page of the News-Sun, filled out and mailed to the County Clerk's office, Box 351, to apply for an absentee ballot through the mails.

Little League Meet Set

A meeting for parents and players of Little League and Pee Wee baseball teams have been set for 8 p. m. Thursday, April 25 in the Scout Hut in Earth. The purpose of the meeting is to finish signing up players and to add a few new officers to the Little League Association staff.

Gary Bulls, president of the local Little League Association stated that parents of boys who planned to play ball this summer should attend the meeting. He indicated a desire to see many parents at the meeting and stated that he hoped this would be an exceptionally good ball playing season.

Students Place in UIL

P.C.G. President Says Wage Law is "Planned Inflation"

The new minimum wage bill signed into law April 8 by President Richard Nixon can only be called "planned inflation" according to P.C.G. President Don Marble of South Plains. "As is any forced wage increase which is unrelated to increased productivity."

The law, enacted over PCG objections, increases minimum wages for various groups of workers from 19 percent to 38 percent beginning May 1 of this year. By 1978 the percentage increase over 1973 minimums grows to from a low of 54 percent to a high of 77 percent under the statute.

Farm labor, Marble points out, will register the biggest increase, going from a current \$1.30 an hour to \$1.60 on May 1, to \$1.80 for all of 1975, to \$2.00 in 1976, \$2.20 in 1977 and to \$2.30 in 1978. Farm workers covered, as under previous law, include those employed on farms using 500 or more man days in any calendar quarter of the previous year.

A "man day" is defined in the law as any day on which an employed performs as much as one hour of agricultural labor. The minimum for all non-agricultural workers covered by minimum wage laws prior to 1966 will jump from \$1.60 an hour to \$1.90 beginning May 1, go to \$2.10 in 1975 and to \$2.30 in 1976.

Cotton ginners, whose workers were first covered by the minimum wage law of 1966, will be hit by both an increased minimum and a reduced overtime exemption. The minimum wage for gin workers on May 1 will be raised from \$1.60 to \$1.90, then to \$2.00, \$2.20 and \$2.30 in the next three years.

Last year ginners could choose 14 weeks of the peak ginning season during which they were exempt from the law's overtime requirements on members of the active gin crew. Gin employees not on the active ginning crew could work up to ten hours a day and 50 hours a week during the same 14 week period without falling under overtime provisions.

Beginning in 1974 those overtime exemptions will be steadily whittled away. Ginners in 1974 will have a six week period during which they can offer employment of 72 hours per week without paying overtime, a four week period with up to 64

hours exempt, two weeks of a 54-hour exemption, and a 48-hour exemption for the remainder of the work weeks in the year. For 1975 the corresponding figures will be six weeks and 66 hours, four weeks and 60 hours, two weeks and 50 hours, an additional two weeks with a 46-hour exemption and a 44 hour exemption the remainder of the year. By 1976 the exemption will be cut to six weeks with 60 hours, four weeks with 56 hours, two weeks with 44 hours, and no exemption at all for the remaining work weeks for the year.

Gin employees who are not a part of the active gin crew must be paid overtime compensation in 1974 for all hours in excess of 10 hours per day and 48 hours per work week for a period or periods not to exceed 14 work weeks in the calendar year.

Traditional overtime exemptions for cottonseed oil mills will be completely phased out in four steps, ending December 31, 1976. Congress and warehouse exemptions will be in effect 14 weeks in which workers can work a maximum of 48 hours per week, 10 hours per day. In 1973 this was 50 hours per week, 10 hours per day.

Preliminary calculations of PCG indicate that the cost of producing cotton under the new wage minimum will go up about \$2.00 a bale, and that inflated ginning and other processing cost will bring the total increase to the neighborhood of \$3.00 per bale.

PTA Officers Elected Tonite, Style Show

New P. T. A. officers for the forthcoming school year 1974-75 will be elected at a P. T. A. meeting at 8 p. m. Thursday, (tonite) in the Homemaking Cottage.

A mock style show will be presented by the local F. H. A. girls, under the direction of Mrs. Marie Stover and Mrs. Synthie Lawrence.

Refreshments will be prepared and served by the local F. H. A. Chapter.

All patrons and teachers in the Springlake-Earth district is invited to attend.

Industrial Arts Instructor Attends Conference

Jesse Green, instructor at Springlake-Earth school, attended the fifth annual Industrial Education Conference in Portales, New Mexico, Friday and Saturday, April 5 and 6. The theme of the two-day conference centered around "Industrial Education--Passport to the World of Tomorrow." Those present at the conference included trade and industrial-arts teachers, counselors, and school administrators throughout the state of New Mexico and the Texas Panhandle.

Association and the New Mexico Trade and Industrial Association. Dave Goin, conference chairman and Associate Professor of Industrial Education, Eastern New Mexico University, summarized the conference by the following comment: "This was the first time the conference has been held outside the city of Albuquerque. I was very pleased with the state wide participation of industrial teachers. We had excellent facilities, many educational and commercial exhibits, and some outstanding speakers."

TSTA Has Established Offices in Plainview

PLAINVIEW--A new source of assistance to teachers in Lamb County on school-related problems is now available from the newly established Region 1 office of the Texas State Teachers Association.

Nine such regional offices have been established by TSTA, to extend services of the Association's state headquarters in Austin.

Lamb County will be served by the regional office at Plainview, with Bill Potts as regional consultant to assist the teachers in the area.

Potts directs the Region 1 office at 2700 Youkers Street,

Suite D, Plainview. The telephone number is 806-293-4606.

In the past, TSTA field service personnel have operated solely out of the Austin headquarters office. This office will continue to serve members on a state-wide basis.

Function of the local office at Plainview, which will serve a 55-county area, will be to coordinate programs, supply information, help TSTA local associations with member services and benefits and assist in workshops.

We hope to be able to serve the teachers of Region 1 on any matter relating to their profes-

RAY LYNN BRITT - District clerk, was one of the guest speakers who spoke to the S-E student body Tuesday morning. Her topic was the various "Laws Concerning the Office of the District Clerk."

ATTEND CHURCH SUNDAY

Party Line

Mrs. Connie Clifton and son Mark arrived from Nigeria Saturday for an extended visit with her parents, and other relatives in Texas before returning home.

Mr. and Mrs. Marvin Sanders and Mr. and Mrs. Clarence Kelley visited Sunday in Amari Ilo in the home of Mr. and Mrs. George Nichols.

ATTEND CHURCH

sion," Potts said. "If we cannot give them the information or service they need, we will refer them to those who can supply it from the Austin headquarters," he said.

USDA Lifts Cattle Scabies Quarantine in County

A quarantine for psoroptic cattle scabies was removed on Monday (April 8) from Lamb County, Texas, by the U. S. Department of Agriculture (USDA).

Officials of USDA's Animal and Plant Health Inspection Service (APHIS) said that cattle shipped to the Olton feedlot in that county were found to be infected with scabies upon arrival on March 21. The federal quarantine was placed on April 1, following positive laboratory identification. The cattle infected and exposed to scabies were treated twice with a pesticide, which eliminated the infestation.

Scabies is caused by tiny, parasitic mites, which puncture the skin of cattle and feed on the body fluids released through the wounds. Cattle with scabies lick, rub and scratch themselves to relieve the intense itching. Heavy infestations cause scabs on the wounds-hence the name "scabies." The infestation does not affect the quality or wholesomeness of meat, but it increases production cost because

of loss in weight and feed efficiency in infested cattle.

APHIS and state officials have been working to halt scabies outbreaks and eliminate the disease. Disease eradication

measures include area quarantines by state and federal animal health officials and the inspection and treatment of infected and exposed cattle within the quarantined areas. Texas officials assisted in the eradication effort in Lamb County and concurred in the decision to lift the quarantine there.

**GO FORWARD WITH GOD
FOR YOUR GUIDE**

Senior athletes, we, like you, are aware that all sports events for you as a representative of dear old Springlake-Earth School has ended, for you are now stepping into the last month of your school work in preparation for the Big milestone in your life--Graduation from high school.

Thinking of you as a mountain climber ascending slowly up the rugged side of the mountain of life, we see you on Graduation Day as reaching the first ledge where you tarry briefly for a period of self analysis to observe your accomplishments thus far and plot your course up the rugged mountain side toward the top of the mountain--your goal in life. Carefully you start by selecting the spot to obtain the best hand grip, then carefully and cautiously you follow selecting solid footing for your feet, thus gaining another round higher.

In this way work your way through life, not looking down in fear, but using your energy to push upward to your goal --the top of the mountain.

Athletes, we have watched your determination to push onward in various ball games, on the trackfield, etc. We were proud of you for your tireless efforts in behalf of your school, your team and your fans. We knew that you will continue to expand your efforts toward a full and fruitful life, refusing to give up when the going gets rough.

We the undersigned, wish to express our love and appreciation of your great school spirit and your helpful community attitude. Our prayer for you is that you will go through life playing tirelessly on God's team.

Easter Dinner, Anniversary Celebration Hosted by Carpenters

Mr. and Mrs. Jerry Carpenter were hosts Sunday to a combined family Easter dinner, and 30th wedding Anniversary Celebration honoring her parents Mr. and Mrs. Carl Gregory. Twenty-six were present for the Easter dinner and the celebration that followed.

The honored couple were happily surprised when a lovely cake iced in light blue and decorated in darker blue was brought out and placed on the table bearing the inscription "Happy 30th Anniversary, Mother and Daddy". The couple were presented many lovely gifts.

Cake and punch was served from crystal appointments. The afternoon was spent in a "Big family" style, playing games of horse shoe, volleyball while the children enjoyed an Easter egg hunt.

Those present were Mr. and Mrs. Gayland Stephens, Vonda and Sharman of Earth, Mr. and Mrs. Thomas Gregory, Kim and Karl of Stanton, Mr. and Mrs. Phillip Short and Shawndi of Calera, Oklahoma, Mr. and

Mrs. Mike Bean, Tamara and Amy, Mr. and Mrs. Gary Glover, and Mrs. Janis Killough all of Muleshoe, Mrs. Joe Lee Truelock, the honored couple

Mr. and Mrs. Carl Gregory and the hosts Mr. and Mrs. Jerry Carpenter and Cristi all of Earth.

Party Line

Tim Arnett of Modesto, California, currently a student at Abilene Christian College spent the week-end in the Norman Ellis home as guest of Gay Ellis.

Mrs. Minnie Parish was dismissed from the Amherst Hospital Friday.

John Welch was admitted to the Amherst Hospital Sunday night. His condition at last report was critical.

Mrs. Goldie Drake was admitted to the Amherst Hospital Monday.

HAPPY 49th
BIRTHDAY
TO JEAN

MARY LOU De La CERDA

Engagement Told

Mr. and Mrs. Paul De La Cerda of Earth, announce the engagement and approaching marriage of their daughter Mary Lou De La Cerda to Raymond Camarena the son of Mr. and Mrs. Leopoldo Camarena of Plainview. Vows will be exchanged in the Immaculate Conception Catholic Church in Muleshoe on April 27 at 11 a. m.

Miss De La Cerda is a 1970 Springlake-Earth High School graduate and also a graduate of T.S.T.I. in Amarillo where she is currently employed as secretary.

The groom is a 1970 graduate of Plainview High School and a graduate of T.S.T.I. in Amarillo. He is currently employed in Dumas.

Camille Haberer Named to "Who's Who Among Students"

LEVELLAND --- Twenty-two students at South Plains College have been named to the 1974 "Who's Who Among Students in American Junior Colleges."

The students' names and biographical information will be listed in the 11th edition of "Who's Who" and they will receive personalized certificates. Now in its seventh year, the national "Who's Who" program annually honors outstanding campus leaders for their scholastic and community achievements.

Nominees for the honor were selected by an SPC committee, which submitted the names to the "Who's Who" staff for a final decision. More than 1,800 schools throughout the nation participate each year in the "Who's Who" program. Among the outstanding students from SPC named is a former Springlake-Earth student Camille Haberer, daughter of Mr. and Mrs. Roger Haberer of Earth.

XIT Study Club has Program on Beautiful Hawaii

Members of the local XIT Study Club met Tuesday night in the home of Mr. and Mrs. James Packard for a regular meeting.

During a brief business meeting the group voted to contribute \$150.00 to the Springlake First Baptist Church. The money will be applied toward the purchase of carpet for one room of the nursery. The group voted to do this in appreciation for their use of the church facilities in printing the Club's Cook Book.

The group made plans for a tour through the Texas Tech Museum on Sunday May 5. This will be a family outing. The group will attend church then drive to Lubbock and dine at Furr's Cafeteria prior to touring the Museum.

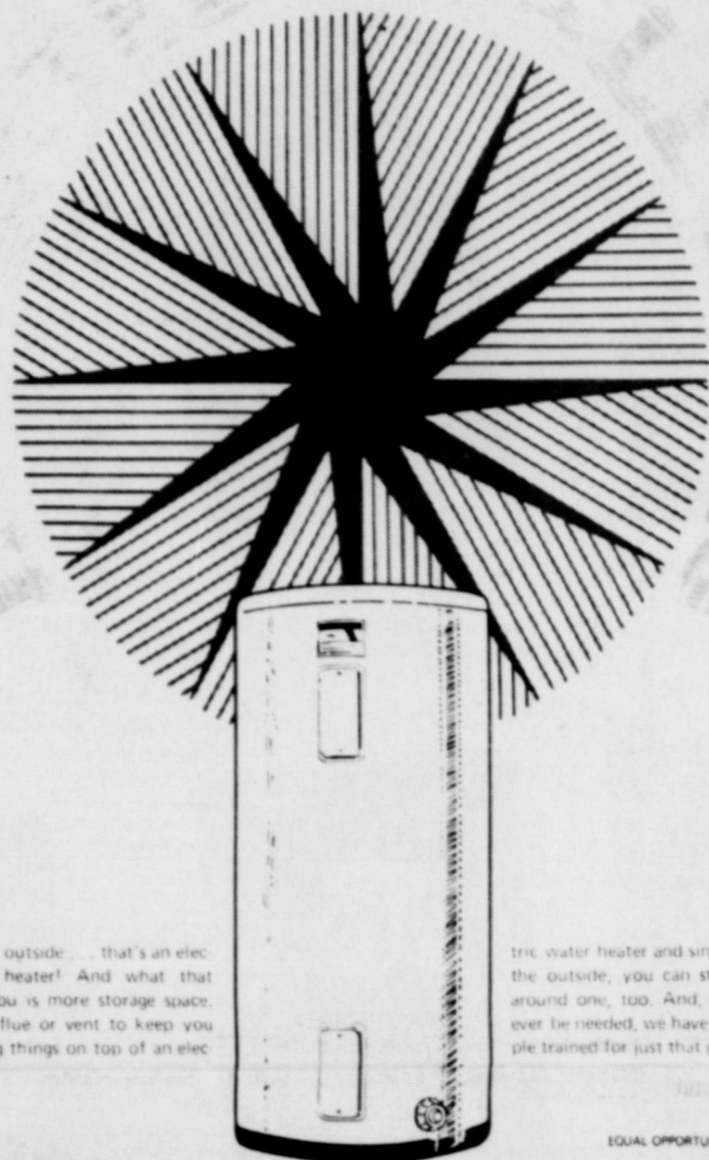

A delightful program was presented by Mrs. Ernest Baker. She related events and experiences on her recent trip to Hawaii and showed pictures and souvenirs of the trip.

Those present were Mrs. Bud Matlock, Mrs. Bryan Hucks, Mrs. James E. Jones, Mrs. Jim Winder, Mrs. Jim Stephens, Mrs. Baker and the hostess.

Refreshments of coffee and cakes were served to those attending.

Here's a mouth-watering myth: it was once believed that agates relieve thirst when held in the mouth!

Cool on the outside... that's an electric water heater! And what that means to you is more storage space. There's no flue or vent to keep you from storing things on top of an elec-

tric water heater and since it's cool on the outside, you can store things all around one, too. And, should service ever be needed, we have over 100 people trained for just that purpose.

Rainbow Girls To Host Area Assemblies

The Earth Order of Rainbow For Girls met in the Lodge Hall Monday, with eleven girls and five adults present. During the business session, presided over by Miss Fonda Goodwin, Worthy Advisor, plans were made for the Mother's Day Tea. It was announced that the tea would be held in the home of Miss Goodwin May 5 from 3 to 5 p.m. The local assembly will be

hostesses for area Assemblies of Rainbow, Monday, May 6 in the local Lodge Hall. The meeting will be under the direction of Mrs. Lois McEachern, grand visitor of Plainview. Elaine Bills gave report on Sunday activities and the church visitation, April 7 during the business session. Other business included plans for Grand Assembly to be held in San Antonio June 16, 17, 18,

and 19. Mr. Fanning gave a report also about the program presented by the girls to members of the Masonic Lodge April 6. The meeting was concluded with humorous readings. The girls also wrote invitations to mothers and grandmothers for the Mother's Day Tea. They also presented short skits prior to serving refreshments of cakes and cookies.

Study Club has Program on T.F.W.C.

Eleven members were present when the Town & Country Study Club met Thursday in the home of Mrs. John Welch. Roll call was answered by "when I became a member of T.F.W.C."

Mrs. Lena Hite gave the Federation Creed. Federation History and Responsibilities, was the topic used by Mrs. Wayne Rutherford as a subject for discussion. Mrs. Marie Ross gave a Federation quiz. The Club collect was led by Mrs. B. Campbell. During a short business session plans were made to tour the Lubbock Museum April 27th. Delicious refreshments of coffee and fruit cake topped with whipped cream were served to Mrs. B. Campbell, Mrs. Sam Cearley, Mrs. R. W. Fanning, Mrs. Lena Hite, Mrs. Ray Kelley, Mrs. John Laing, Mrs. Carra Morgan, Mrs. C. P. Parish, Mrs. Marie Ross, Mrs. Wayne Rutherford and the hostess Mrs. John Welch and guest Mrs. Minnie Parish.

H.D. Club Meets In Home of Mrs. Packard

The Springlake Home Demonstration met Thursday April 11 in the home of Mrs. James Packard.

The meeting was opened with a devotional by Mrs. Packard, entitled Recipes for Happy Living.

The program, How to Properly Elect Officers and Conduct a Business Meeting was presented by Mrs. Ed Biles.

RICKY DOUGLAS OLDFIELD and TERI INGLIS

Engagement Announced

Mr. and Mrs. Gerald Inglis announce the engagement and approaching marriage of their daughter, Teri Jan to Ricky Douglas Oldfield, son of Mr. and Mrs. Macky Oldfield of Dimmitt.

The couple will exchange vows on Saturday, July 20th, at 4 p.m. in the First Baptist

Church of Earth.

The bride-elect is a senior at Springlake-Earth High School. The prospective bridegroom is a senior at Dimmitt High. Both plan to attend W. T. S. U. in the fall.

All friends of the couple are invited to attend.

Following the program and business session, refreshments of spiced strudel swirls, dainty sandwiches, soft drinks and coffee were served to those present.

Present for the meeting were Mrs. Bruce Higgins, Mrs. Ruel Fanning, Mrs. Ed Biles, Mrs. A. Hollingsworth, Mrs. Bob Boone, and Mrs. James Packard. Guests present were Mrs. Jerry Riley and daughter, Nancy and Jana Lynn Packard.

Mrs. Riley received the hostess gift. The next meeting of the club will be Thursday, April 25 in the home of Mrs. Keith Boone.

My heart is filled with love and gratitude for all you kind, sweet people who made my stay in the hospital a little easier.

Thanks so much for your cards, calls, flowers, visits and prayers, they were all sincerely appreciated. May God bless each of you.

MRS. MINNIE PARISH

Thoughts

From The Living Bible

And you husbands, show the same kind of love to your wives as Christ showed to the church when he died for her, to make her holy and clean, washed by baptism and God's Word; so that he could give her to himself as a glorious church without a single spot or wrinkle or any other blemish, being holy and without a single fault. That is how husbands should treat their wives, loving them as parts of themselves.

The Gary Haberers Honored With Good-Bye Party

Mr. and Mrs. James Packard of Springlake honored their daughter and her husband, Mr. and Mrs. Gary Haberer with a "Going Away Dinner Party"

Sunday in their home. The Haberers will fly to Hawaii Monday, April 22 where they plan to reside for the next few years.

Those present for the event

were Mr. and Mrs. Mike West, Mr. and Mrs. Buck McClure all of Lubbock, Mrs. Bill Perkins of Gruver, Mr. and Mrs. Larry Reese, Hereford, Mr. and Mrs. Frank White and Greg of Littlefield, Mr. and Mrs. Ray Tom Packard, Jana and Tim of Amarillo, Orlan Bibby, Mr. and Dolan Fennell, Lexie and Rex of Springlake, the honored couple and the hosts.

Milk In Babys Formula

Although proportions vary, all baby formulas contain three basic ingredients--milk, sugar and water.

"Several types of milk are used--the most common being evaporated, dried and whole fluid," Frances Reas onover, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System, noted.

Each has advantages and disadvantages, she pointed out.

"An unopened can of evaporated milk keeps indefinitely without refrigeration. 'Evaporated' means it contains only about half the water of whole milk.

"During evaporation, milk fat breaks into small particles and protein is modified--making them easily digested.

"Although sterilized during canning, additional sterilization procedures remain necessary when preparing formulas," Miss Reasonover added.

Dried milk--a second major type--comes either whole or skim, the specialist continues.

"Since both require reconstitution with water to make fluid milk, they cost less than other types.

"The dried whole form is canned--and requires refrigeration after opening the container and after it's reconstituted.

"Dried skim milk--which has all fat removed--doesn't require refrigeration until after reconstitution. However, unless prescribed by a doctor, don't use this milk in baby's formulas."

Whole fluid milk--most expensive of the three--may be

pasteurized or pasteurized-homogenized, Miss Reasonover said.

"Pasteurization involves heating milk to a temperature high enough to kill harmful bacteria.

"Homogenization, in contrast, breaks fat into smaller particles--making it easier to digest."

Babies on special diets or with certain physical conditions--such as diarrhea--utilize other milk types. These include two per cent milk, lactic-acid milk and skimmed milk.

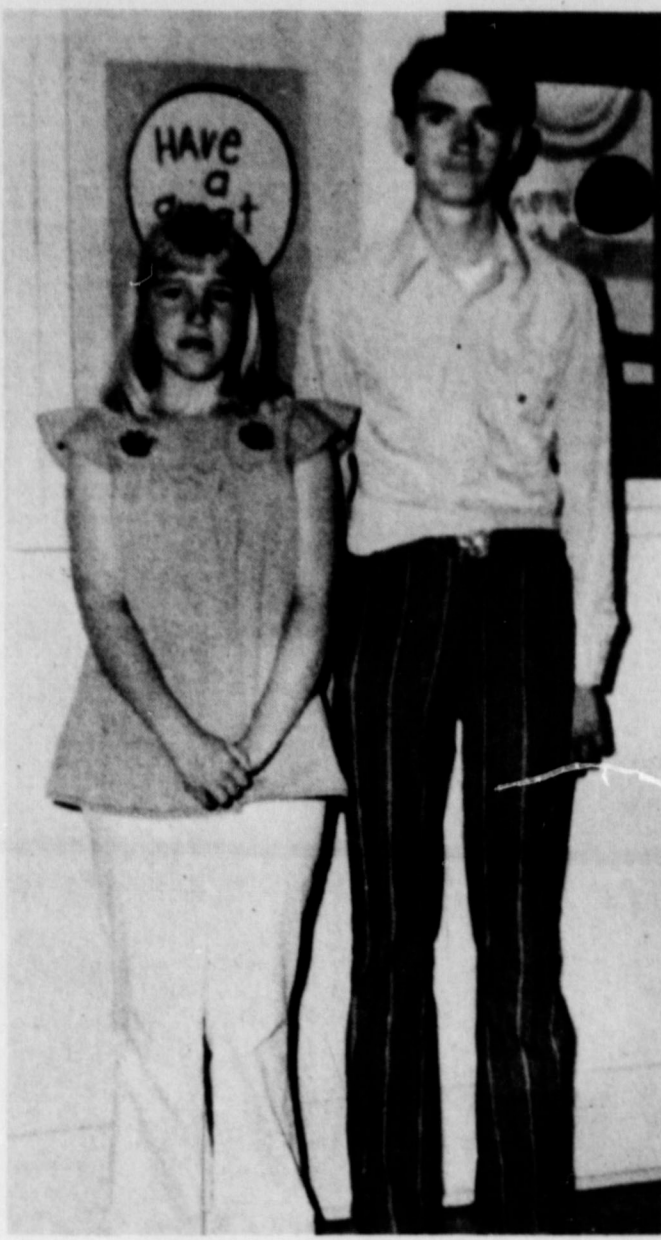

"But use these only under a doctor's supervision," the specialist emphasized.

Whatever milk form chosen, it must be further modified--using the two formula constituents.

"Water dilutes the milk and makes protein more digestible. Sugar, on the other hand, adds energy while making the formula more like human milk," she concluded.

YOU CAN WIN A WINGED VICTORY OVER MEALTIME MONOTONY, AND SAVE YOURSELF TIME AS WELL, BY PICKING UP DELICIOUS KENTUCKY FRIED CHICKEN AND SERVING IT TO THE FAMILY. THERE'S THE KERNEL OF A GOOD IDEA!

BELINDA HAMPTON and ROBERT COZBEY

Jr. High Citizen Of The Week

The two Junk Hi students chosen as "Students of the Week" are Belinda Hampton and Robert Cozby.

Belinda is a seventh grade student and the daughter of Mr. and Mrs. Jerry Ray Hampton of Springlake. She is 13 years old, has green eyes accented by blond hair. Her favorite subject is math. The goal in her future is to be a police woman. She was manager of the 7th grade basketball team this past season. Her favorite color is blue and the food she chooses when the opportunity arises is Mexican food. Belinda has been a member of band for 3 years, choir 1 year, and 4-H 2 years. Robert is an eighth grade student whose parents are Mr. and Mrs. R. M. Cozby of Earth.

He is 16 years old and has brown hair with dark green eyes. Besides being a good student, Robert is a busy person. He likes to raise many different animals. Robert loves to eat, especially shrimp, every chance he gets. Black is his choice of colors and his favorite subject is history. For the future, Robert has hopes of becoming a veterinarian.

A Fireplace Must Have A Tight-Fitting Screen

Young Marrieds Face Changes, Challenges

Exchanging "I do's" brings young couples face-to-face with many changes.

This change in marital status also calls for different responsibilities and developmental tasks (growth needs), Jane Fleischer, specialist in family life education, Texas Agricultural Extension Service, Texas A&M University System, noted.

"While the husband attempts new developmental tasks as a young adult male, his wife works out her growth responsibilities as a young adult female.

"Each learns what it is to be married--and what's expected of them as a husband or wife.

"Both must learn what it means to be an adult--with

adult responsibilities--at home and in the community," the specialist added.

"However, several factors influence the development of young marrieds.

"These include physiological maturation, with its adult drives for ongoing sexual fulfillment, and personal aspirations of each partner to establish their marriage according to dreams built through the years."

Although developmental tasks of the married couple are basic to establishing a family, they differ somewhat in each family, class and culture, Miss Fleischer said.

"Nevertheless, general aspects include: --establishing a home base to

call their own --establishing a satisfactory system for earning and spending money

--setting acceptable patterns of who does what and who's accountable to whom

--mutually satisfying sex relationships

--developing systems of intellectual and emotional communications

--workable relationships with relatives

--establishing interactions with friends, associates and community organizations

--facing possibilities of children, planning for them, and --establishing a workable philosophy of life as a couple."

ple." For example, what the couple desires and what their culture expects don't always coincide.

"Also, often the reality of a situation conflicts with the couple's dreams. When a couple builds up extravagant ideas of what they want, they may be disappointed if something turns out less than expected.

"In addition, the dreams of a husband and wife may mesh in many respects, but be miles apart in others," the specialist concluded.

However, difficulties sometimes arise--largely due to the task complexity and origin, the specialist continues.

County Lists 8 Wrecks

The Texas Highway Patrol investigated eight accidents on rural highways in Lamb County during the month of March, 1974, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area. These crashes resulted in no persons killed and one person injured.

The rural traffic accident summary for this county during the first three months of 1974 shows a total of 28 accidents resulting in one person killed and 12 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for March, 1974, shows a total of 395 accidents resulting in 23 persons killed and 172 persons injured as compared to March, 1973, with 468 accidents resulting in 19 persons killed and 263 persons injured. This was 73 less accidents, four more killed, and 91 less injured in 1974 at the same period of time.

The 23 traffic deaths for the month of March, 1974, occurred in the following counties: five in Lubbock; four in Hale; two each in Parker and Wichita; and one each in Deaf Smith,

MRS. MARY BETH WILLEY is shown commenting on one of the text books used by students in S-E Junior High. Mrs. Willey's subject for her talk to the students was "Laws Governing the County Clerk's Office." Mrs. Howell, junior high teacher, in the background, introduced Mrs. Willey.

Foard, Gray, Hutchinson, Randall, Wheeler, Bailey, Palo Pinto, Terry, and Young counties.

Age, Identity, Citizenship Needed for S.S. Number

People may be asked to prove their age, identity, and citizenship to get social security number when applying for the first time, according to Clyde W. James, social security district manager in Lubbock.

The proof is required under an amendment to the social security law. "The requirement affects native United States citizens, naturalized citizens, and aliens," James said.

People can apply for a social security number by writing or visiting any social security office. Application forms are available at social security offices and post offices.

"Age can usually be proved with a birth or baptismal certificate," James said. "Identity can generally be proved with a driver's license, voter's card, or similar evidence—preferably something that carries your signature."

People born in the United States can usually establish citizenship with the same papers they use to prove their age and identity, he said.

People applying for duplicate social security numbers because they've lost their social security cards or changed their name generally aren't affected by the proof requirement, according to James.

The proof requirement is intended to help prevent people from obtaining more than one social security number or obtaining or using a social security card under a false identity, James said.

A fine of up to \$1,000, imprisonment of up to one year, or both may be imposed for

fraudulent use of genuine or fake social security numbers to hide true identity or to get benefits from Federally funded programs.

"Your social security number is yours alone and remains the same for life," James said. "You build retirement, disability, survivors, and Medicare protection for yourself and your family by work and earnings credited to your social security number. Using more than one number could mean you're not getting full credit, which could adversely affect your social security payments in the future."

"You should apply for a social security number several weeks before you need it," James said. "Applications are generally screen takes time. When you get a job covered by social security," he said, "make sure your employer copies your name and number correctly from your social security card to his records."

The Lubbock Social Security office is at 1205 Texas. The phone number is 762-7381.

KNITTING YARN of 100 percent machine washable wool is now available for hand knitting enthusiasts.

AS SOON AS WARM temperatures are here to stay, for most of Texas, late April or May, many homemakers like to "send" houseplants outside. But place them in a shady location. Most grow naturally in the shade of other plants, and are damaged by strong, direct sunlight.

Screwworm Warning Issued

Livestock owners of the southwestern United States should redouble their efforts this spring to find, treat and prevent screw-worm cases, since the livestock parasite is expected to reach record numbers due to the unusually mild winter just ended.

This warning comes from Dr. M. E. "Cotton" Meadows, Jr., director of the Mission-based screwworm eradication program of the U. S. Department of Agriculture.

Meadows also cautioned producers to refrain from livestock surgery or other manmade wounds to prevent screwworm infestations.

"Thirty per cent of all laboratory confirmed cases so far in 1974 have been collected from manmade wounds (dehorning, branding, docking and the like), and every effort should be made to prevent wounding animals during the screwworm season," Meadows said.

The USDA veterinarian emphasized that the Texas and Southwestern Cattle Raisers

Association also solicits the cooperation of all livestock owners in an all-out effort to eliminate the screwworm fly. In a special resolution approved by the industry organization at its recent annual meeting in Dallas, all livestock owners of the southwest were urged to support the eradication effort by:

1. Inspecting their animals frequently.

2. Treating all wounds with an approved product.

3. Collecting and submitting worm specimens to the Screwworm Laboratory at Mission, Texas, for identification. Positive cases then can be given sterile fly treatment, officials reminded.

Screwworm cases are off to a fast start this spring, with 23 new Texas cases confirmed last week from counties as far north as Brown and Haskell. Others reporting first '74 cases last week were Atascosa, Brooks, Frio, Jim Hogg, Willacy and Zavala.

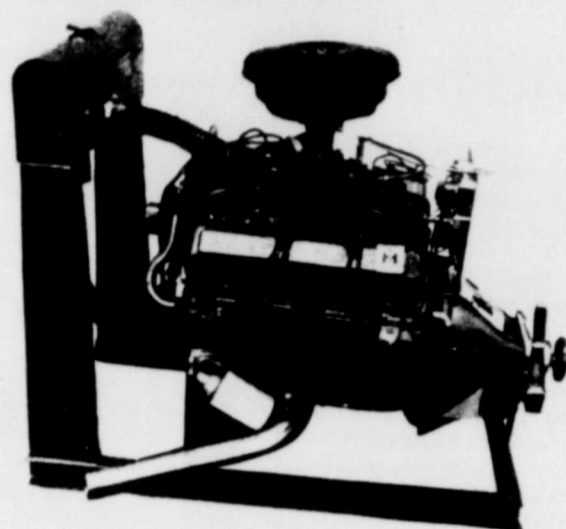

WHEN USING CLOTH diapers for baby, save time, and your hands, by letting the washing machine "wring out" the soiling solution. Empty container, solution and all into the machine and set it for final spin. Then launder as usual.

GIVING A CHILD an allowance before he's five-years-old probably won't have much training value. Most preschool-ers really can't understand how money operates. FOR LOW-COST recipes, substitute canned mackerel for the more expensive canned salmon.

TRIPLE-GROW
IS VERSATILE

TRIPLE-GROW may be added to pesticide sprays so that special applications of insecticides are not necessary.

By applying TRIPLE-GROW and insecticides in the same operation, LABOR COSTS are greatly reduced. TRIPLE-GROW is 100% water soluble.

TRIPLE-GROW is a super-concentrated formula. Dilute TRIPLE-GROW with the recommended amount of water, then add the pesticide, herbicide or insecticide and you are ready to apply.

TRIPLE-GROW IS ABSORBED INTO THE PLANT, THEN INTO THE ROOT SYSTEM.

TRIPLE - GROW quickly and easily applied

FACTS ABOUT TRIPLE-GROW

The complete liquid fertilizer that is in concentrated form that you simply dilute with water and spray on. TRIPLE-GROW is 100% water soluble and 100% available to the crop. It goes into the plant and never gets "locked-up" into the soil as dry fertilizer sometimes does — any plant food must become liquid before it can be assimilated.

TRIPLE-GROW is a perfectly balanced formula that gives plants all of the nutrients needed to complete all of its cycles of growth and production. A perfectly balanced formula naturally boosts yield and gives earlier maturity.

TRIPLE-GROW is a neutral formula with a PH of 6.7

NITROGEN - Magnesium - Boron - Manganese

Gem and Mineral Show set April 20-21

A gem and mineral show has been slated for April 20-21 at West Texas State University Activities Center located on north 3rd Avenue in Canyon. The event is sponsored by WTSU Geology Club. Exhibits will be from various members of the Golden Spread Gem and Mineral Society of Amariillo, and High Plains Rock Club of

Plainview and various other will be given each hour of the day. There will be gem and mineral dealers present at the event. A two day schedule has been worked out to hold the interest of anyone interested in gem and minerals. Admission is \$1.00 for adults and .50 for students.

Junior Hi Honor Roll

Cecil Slover, Principal for Junior Hi announced the names of students making the "A" honor roll, also those students listed on the "A and B" honor roll. EIGHT "A" honor students are Connie Dear and Clint Dawson. EIGHT "A & B" students include Jill Bardeen, Kristi Thomas, Vickie Freeman, A Layne Slover, Kim Dent, Daneen Wilson, James Hanson, Baldomero Sauseda, Lloyd Smith.

In the seventh grade there were no "A" students. 7 GRADE A & B include Tim Craft, Laurinda Bulls, and Arjella Sauseda. 6th GRADE "A" students are Sue Jones and Paula Verden. 6th GRADE "A & B" students are Kim Hayden, Gayland Conner, Michael Graham, Kyle Kelley, Tamara Jones, Kevin Riley, Jimmy Robbins, and Donna Fulenwider.

U. I. L. LITERARY MEET THIRD PLACE WINNERS - in picture memory are Kim Locke, Jeanne Haydon, Lisa Templeton, Glenn Craft, Lance Phelps and Jennifer Kellar.

Right-turn-on-red Law Saves Time-Gasoline

The new right-turn-on-red law in Texas may be great for saving time and even for cutting gasoline consumption, but the Texas Society for the Prevention of Blindness warns that it poses serious problems for Texans with peripheral vision problems. Drivers now need to be especially alert at intersections for pedestrians who might be in the

crosswalk or for fast-moving automobiles speeding up to "beat the light". If any driver is limited in ability to see to either side, then the risk is aggravated. TSPB has no exact statistics on the number of licensed Texas drivers with side vision problems, but says it is well over 100,000. Older drivers particularly are

prone to glaucoma and other diseases that cause a narrowed field of vision (TSPB conducts glaucoma screening drives throughout the state). The Texas Society for the Prevention of Blindness maintains that no one with peripheral sight loss-drivers with so-called "tunnel" vision--should be allowed to drive, because the risk is too great and urges drivers who have any personal doubt about their side vision capabilities to seek an examination by an eye doctor. For all drivers, TSPB says, even those with excellent eyesight, the right-turn-on-red rule means visual alertness is more important on the highway today than ever before.

Mrs. Allie Houchin and three daughters of Garland, Mrs. Connie Clifton and son Mark of Nigeria and Mr. and Mrs. Terry Houchin and son Jason of Muleshoe spent the Easter holidays as guests of their parents Mr. and Mrs. C. L. Houchin of Earth.

Check House Plants for Problems

So you've got a house plant that just isn't growing like it should. A brief diagnosis could shed some light on the problem. "House plants often suffer from foliar and root diseases, restricted root growth, improper watering, and poor light and fertility management," says Dr. Walter J. Walla, plant pathologist for the Texas Agricultural Extension Service.

Yellowing or dead lower leaves can mean nitrogen deficiency or a "pot-bound" condition in older plants. Woody plants such as rubber plants, dieffenbachia and dracena are especially susceptible. Applying nitrogen fertilizer and re-potting can solve this problem, says the Texas A&M University System specialist.

"Leaves yellowing all over the plant might be the result of root rot or too much soil moisture. Root rots often develop in African violets due to overwatering. Prune rotted portions of the root, dust the root system with a fungicide, such as benomyl or captan, and re-pot the plant. Adequate drainage is necessary," points out Walla. A sudden loss of leaves is caused by rapid changes in temperature, dry air, cold drafts or furnace fumes. Moving a plant from a sunny to a dark place can also cause leaf drop. Browning of leaf tips results from hot, dry air and a build-up of salts in the soil due to frequent light waterings. This problem can be solved by flushing the plant with excess water several times in a well drained

place," noted Walla. Fungi, bacteria and direct sunlight may cause brown spots on leaves. Round, target-shaped spots are caused by fungi while bacteria causes spots with a water soaked appearance. Allow adequate air circulation and avoid wetting the plant's leaves during watering to reduce foliage diseases, advises the pathologist. "Good maintenance practices are often the key to healthy house plants," contends Walla.

If you can't get PIONEER Brand 8311

here are some excellent alternative hybrids for High Plains farmers.

Pioneer Brand 8311, the "Golden Bronze Yield Leader," has been our most popular hybrid this year - so popular, in fact, that it may be in short supply in some areas. One reason is that the demand has been so great downstate where 8311's disease tolerance is so important. Fortunately, there are several other Pioneer Brand hybrids that are proven top performers on the High Plains. If you can't get 8311, ask your dealer about these.

PIONEER Brand 8417

This versatile yellow endosperm sorghum is a champion yielder in the medium-late maturity class, for irrigated or non-irrigated land. It has large open heads, uniform head height, strong stalks for easy threshing, good tolerance to smut and anthracnose.

PIONEER Brand 820

This top-notch full-season hybrid, is a consistently high yielder. Excellent drought resistance and standability plus good roots and stalks make it a good choice for irrigated or non-irrigated farming on the plains.

PIONEER Brand 828

One of the highest yielding sorghums you can plant, this full-season hybrid responds well to good management on good land with plenty of water. Plains growers like it because it holds its quality and threshes well even after an early freeze. It produces sturdy stalks with semi-compact heads of dark red grain.

PIONEER Brand 846

Famous for its versatility and adaptability, this medium maturity hybrid yields along with the full-season varieties. Resistant to smut, rust and MDM, its outstanding hybrid vigor and excellent drought resistance help it turn in consistently high yields even under stress.

SUNNYSIDE NEWS

By TUNY BOWDEN

The Llanos Altos Associational Church Library Organization met with the Sunnyside Church Tuesday afternoon for the quarterly meeting. Assisting Mrs. Cliff Brown and Mrs. L. B. Bowden with hostess duties were Mrs. J. Paul Waggoner, Mrs. E. R. Sadler, and Mrs. Milburn Haydon. Mrs. Haydon also attended the meeting. Rev. Mack Turner brought the devotion. Four members of the First Church Littlefield were the only guests, but it was a very profitable meeting and an enjoyable one. Each one present answered roll call with a short report on a book they had read since the last meeting. After the business was taken care of much time was spent on how best to build new shelves in the local library.

Rev. Mack Turner, Mrs. E. R. Sadler, Mrs. Bob Ott, Mrs. J. Paul Waggoner, Mrs. Alton Louder, Mrs. Milburn Haydon and Mrs. L. B. Bowden represented the church at the Golden Spread Nursing Home in Dimmitt Thursday afternoon. Mrs. Clarence Mitchell of Springlake visited as a part of the group. Rev. Turner brought the devotion, Mrs. Milburn Haydon led the singing. Mrs. Alton Louder played the piano.

Gerald Graham, Gale Sadler, E. R. Sadler, and L. B. Bowden attended the hail suppression meeting in Springlake Monday night. They report the program

Mr. and Mrs. Bill Morgan, Lynn Brown, Chris Elkins, Susan Sadler, and Daneen Wilson, Mr. and Mrs. Hershel Wilson, and Mr. and Mrs. Larry Starnes attended the Llanos Altos Associational youth rally at Parkview church, Littlefield Monday night.

is in danger of failure due to lack of cooperation so far as participation is concerned. The money is past due.

Ray Joe Riley was elected president of the Springlake-Earth school board Monday night. Eddie Haydon took the oath of office as a new board member.

Steve Morgan won 1st place in informative speaking in the district 3A UIL Literary Meet last week. Junior Sauseda won 1st in science, and Jerald Head won 2nd in number sense.

Mrs. John Gilbreath, Mrs. E. R. Sadler, and Mrs. L. B. Bowden attended the Plains Memorial Hospital Auxiliary board and general meeting at the hospital Wednesday morning.

Debbie Wilson was one of 15 girls competing in the Springlake and Earth Lion's Club's Queen contest. The winner was announced Tuesday night.

Mrs. Cliff Brown and Mrs. L. B. Bowden attended an all day Genealogical Workshop in Lubbock Saturday, with Mrs. P. P. Robb and Mrs. William Moss

of Dimmitt.

Mr. and Mrs. Cecil Curtis and Mr. and Mrs. Don Curtis and girls of Earth visited last Sunday with Mr. and Mrs. Glenn Curtis of Petersburg and their son Hoyle and his wife of Colorado. They also visited with Mr. and Mrs. M. E. Stephens, Mr. and Mrs. Noah Spencer visited last week-end with Mr. and Mrs. Harold Spencer in Wichita, Kansas. Mrs. Spencer's new grandson born recently in Dallas was named Jason Wade Shive. He weighed 8 lbs. 1 oz.

Mr. and Mrs. C. A. Musgrove of San Diego, California visited last Sunday through Wednesday with Mr. and Mrs. John Spencer. They are cousins.

Mrs. Ruby Brown of San Antonio arrived by plane last Sunday and visited until last Sunday with her daughter, Mr. and Mrs. R. J. Lefevere, Mr. and Mrs. Dale Stice and two of their children. Shay and Scott of Gila Bend, Arizona arrived Thursday and visited until Saturday with them. Mrs. Stice and Mrs. Lefevere are sisters.

The Lion's Club met Monday night for their regular meeting, and to plan for the Estacado Industries Lamb Division's second anniversary celebration. The Lions will serve a barbecue lamb dinner at 8:00 p. m. Saturday at the community building.

The Springlake-Earth one act play won first place in district 3A competition recently. Jerold Head was one of the cast.

Junior Sauseda won 3rd place in long jump and Edwin Fulfer 5th in 330 Int. hurdles in the Springlake-Earth track meet last Thursday. The Springlake-Earth team won the district 3A track meet for the third straight year.

Friday many in the community were reminded of the tornado which was 14 years ago April 12th. We haven't forgotten its effects and we are still thankful for the outside aid we received. The aid came from so many different sources it is hard to remember any one source above another. Those who have not experienced such disaster, have no way of knowing how far years you have a direct way to spend all the money you can spare without going through any organization. Even so I believe the community has contributed to most charitable organizations as much as any community our size.

Mr. and Mrs. Chuck Lay and boys moved from Plainview back to Dimmitt Friday. He will be employed by Goodpasture Fertilizer. Mr. and Mrs. Noah Spencer visited with them Friday morning.

The youth sharing group met with a Lee Street group in Dimmitt Friday night to discuss the youth revival held here recently.

Elaine Bills of Earth spent Saturday night and attended the Sunday morning church services with her grandparents, Mr. and Mrs. R. V. Bills.

Mr. and Mrs. V. E. Bearden of Hart visited Wednesday with Mr. and Mrs. Noah Spencer and Lyle. They are the parents of Mrs. Spencer.

Mr. and Mrs. David Sadler, Melody and Karla of Lubbock, Mr. and Mrs. James Powell and children and Mrs. Pearl Sadler from Dimmitt, Mr. and Mrs. Jake King and children from Hereford, Mr. and Mrs. Tex Conard of Dimmitt and Mr. and Mrs. Larry Sadler and girls had dinner and an Easter egg hunt with Mr. and Mrs. Ezell Sadler Sunday.

Mr. and Mrs. Hershel Wilson and girls attended church services in Ropesville Sunday with her parents, Mr. and Mrs. Grady Epperson and the Rogers send a hello with the rest of the family to Sunnyside. Lonnie joined them for dinner at the Eppersons. They visited in the afternoon with his brother, Mr. and Mrs. Junior Wilson and family.

Mr. and Mrs. Grady Herrington of Farwell, Mr. and Mrs. Jack Holland and daughter of Acuff and Mr. and Mrs. John Herrington and family of Lubbock had dinner Sunday with Mr. and Mrs. Winston Waggoner and family. The children had an Easter egg hunt in the afternoon.

Mrs. Larry Starnes entertained in her home Tuesday with a Sarah Coventry jewelry party.

ers lowering wholesale prices in order to widen margins, and past government cautious as having a hand in depressing an already weak market.

"Neither oversupply of beef nor a lack of consumer demand caused the low price levels of the last month," Uvacek says. "Slaughter of cattle was off one percent in January and four percent in February, yet prices fell drastically. On the other hand, retail beef prices in January were up 17 per cent from a year ago and a six per cent above the December, 1973 level.

"The demand is definitely there, and that should help bring up prices to producers in the next few weeks," believes the specialist.

Mrs. Noble Armstrong was admitted to Methodist Hospital in Lubbock Sunday for heart surgery on Tuesday.

Roy Phelan, Thomas Parson, and Hershel Wilson went to Plains Baptist Assembly Monday to investigate the new regulations, and inspect the cabin to see how it needs to be updated to meet the new requirements.

Jack Wolf of Vega visited Monday with Mr. and Mrs. E. R. Sadler. He is a cousin.

Mr. and Mrs. Tommy Fowlkes of Fort Worth and Mr. and Mrs. M. H. Fowlkes of Lubbock, and Mr. and Mrs. Gale Sadler, Cindy and Susan had dinner Sunday and visited in the afternoon with Mr. and Mrs. E. R. Sadler.

Mrs. Katie Waggoner of Dimmitt spent the week-end with Mr. and Mrs. J. Paul Waggoner. Mr. and Mrs. Ben Derrick and family of Dimmitt attended the Sunday morning services at Sunnyside.

The spring revival will start Sunday with Dr. Strauss Atkinson area missionary the evangelist and Buddy Wells of Littlefield, music and education director of First Church there, leading the singing. Everyone is invited.

Cattle Prices Should Rebound

All signs point toward an increase in the prices of both feeder and fat cattle by April or May," believes a livestock specialist for the Texas Agricultural Extension Service.

Feeder cattle prices should reach last year's levels while Choice slaughter steer prices should move up to the \$48-\$50 range, contends Dr. Ed Uvacek.

"The high price for the year may not be much higher than that, and some downward pressure is highly probable thereafter."

In analyzing the present problem of low prices to producers, the Texas A&M University System specialist points to overfat cattle in feedlots, the trucking strike, fuel shortages, retail-

Mrs. Modine Clayton returned Sunday following a six day trip to visit her children and their families. Mrs. Clayton visited Mr. and Mrs. Bill Nichols and children in Boumont, Mr. and Mrs. Ed Fourton and daughter in Abilene and Lt. and Mrs. Carey Leach at Belton.

White Grubs, Hinderance to Sorghum-Wheat Production

White grubs, the number one pest of home lawns in many areas of Texas, has become an obstacle to sorghum and wheat production on sandy-textured soils in some parts of the county reports county extension agent Buddy C. Logsdon.

Reports of damaging in-estations have increased since 1964 and have been particularly prevalent since 1971, according to Dr. Robert B. McIntyre, area specialist for the Texas Agricultural Extension Service. "The situation," he declares, "has reached the point in some localized areas that sorghum and wheat production is almost impossible."

The agent further states that one factor contributing to the current problem has been that over the last few years the white grub has become resistant to the insecticide chlordane.

"For years chlordane has been used by the homeowner and grower when they encountered soil pest problems," he says. "Recent research has shown that rates as high as five pounds of active ingredient per acre of chlordane were ineffective in controlling grubs attacking sorghum."

The development of grubs strains resistant to chlordane has necessitated new research, Logsdon reports. New information about the grub has been brought to light by Dr. George Teestes, research entomologist for the Texas Agricultural Experiment Station at Lubbock, which points up certain keys for proper management of a grub problem.

Understanding the pest's cycle and behavior is essential explains the agent.

The large white grub, overwinters 12 to 18 inches deep in the soil profile. By late May, when grain sorghum is in the seeding stage, grubs have made their way to the upper soil level where they feed on roots, killing the small plants and causing stand loss. These large grubs feed until they pupate in mid-June and emerge as adults in late June and early July.

"Adults are light brown and commonly referred to as June beetles," explains Logsdon. "The males are quite prevalent during late June and early July and can be seen by the hundreds on summer evenings around outdoor door lights. On the other hand, females rarely travel long distances. In fact, most normally mate on the soil surface in the same area in which they developed, and return to the soil profile to lay their eggs. These eggs hatch in about two to three weeks, and the young larvae mature into larger third-instar larvae by late fall.

There is generally one generation per year on the Texas South Plains; however, a few may require more than one year to complete development.

The agent emphasizes that mated females remaining within the infested field is one reason the grub problem has been extremely localized and severe.

The importance of this from a management standpoint is that grubs are likely to reappear in the same field even after insecticide applications. These treatments are not likely to eliminate the entire white grub population. Therefore, a producer with a heavily infested field should anticipate at least a two-year confrontation with the pest," he warns.

In order to control the insect, producers need to know the number of grubs necessary to cause stand loss and use proper sampling techniques to determine infestation levels, Logsdon advises.

"Results from preliminary studies indicate grub populations in excess of one per cubic foot can cause severe stand loss if not controlled," he adds. "Optimum plants population density in irrigated sorghum is considered to be 70 to 90 thousand plants per acre; therefore, one grub per cubic foot would be one for approximately every two plants, and that is significant."

The agent explains that white grubs can be difficult to detect in the field because at the time producers are preparing land in the winter months, grubs are often below the plowing depth. Growers observing seedling loss in past years in a particular field should take samples for grubs, he advises.

"One sample for every ten acres is adequate and should consist of approximately one cubic foot of soil (three heaping shovels full) from which the number of grubs are counted. If a grower finds an average of one grub per cubic foot, he should treat the field."

Knowing the most effective time and method of applying insecticide treatments for grub

suppression is critical, reports Logsdon.

There are three insecticide application techniques, in-furrow, row-band, and preplant broadcast. The preplant broadcast is the one method proven to give sufficient control where populations have been in excess of one per cubic foot. The broadcast application should be applied as near planting as practically feasible. This is critical because the later the treatment is applied, the warmer the soil, the more active the grubs and the closer they are to the soil surface.

The agent reports that Diazinon, the only insecticide currently registered and recommended for grub control in sorghum, has considerable less residual toxic effect than the older chlorinated hydrocarbon insecticide, chlordane. Thus, the insecticide broadcast should be as near to planting as possible and incorporated into the upper 3 to 4 inches of soil by discing.

He says that Diazinon if formulated as either a liquid or granule, and either formulation is equally effective. Most growers are equipped to apply liquids while few have necessary equipment for applying granules; therefore, liquids applied by ground rigs would be the most economical treatment. If an aerial applicator is used, the cheapest formulation will be the least costly treatment.

"Application rates of one to one and one-half pounds of active ingredient per acre have been most effective," he adds. "High total volume of water per acre will likely enhance penetration of liquid insecticides and increase overall effectiveness."

Fred Allison on NTSU Honor Roll

DENTON, Dr. Gustave Ferre, vice-president of academic affairs at North Texas State University, has named 1,272 students to the fall semester honor roll.

Some 287 students earned all "A's" to make the 4.0 honor list, and 985 achieved the 3.5 listing, which includes those students whose grade average is midway between an "A" and a "B."

Among the students placed on 3.5 honor roll is Fred Harold Allison, son of Mr. and Mrs. Harold L. Allison, Star Route 1, Earth.

BEFORE MOVING to a new location, have draperies, rug and slipcovers cleaned. Also get furniture re-upholstered, if needed, and do a general overhaul of belongings.

REFRIGERATE DAIRY products as soon as they're brought home from the market. Their flavors are delicate, and need protection of 40 degrees F. refrigeration to keep a fresh taste.
