The Springlake-Earth Farmers Chapter invite everyone in the area interested in Agriculture to attend the Symposium.

Trailer House Falls On Lad Friday

David Massey, 13 year old son of Mr. and Mrs. Bill Massey of Earth was seriously injured at 9:30 a. m. Friday when a trailer house he was blocking fell off the jack and landed on the lad.

The lad, working in a sitting position, was pushed forward with his body bent across his legs as the trailer rested across his back.

He was rushed to the Methodist Hospital in Lubbock by an ambulance from Parson-Elis-Singleton Funeral Home in Earth.

Latest reports on the youth indicate his back is broken in three places and he is suffering from internal injuries. Despite his severe injuries, the lad is in good spirits and is expected to be allowed to return to his home here soon. He will be required to wear a back brace for six to eight months.

Mrs. Massey was inside the trailer at the time of the accident. The Massey family had just moved the trailer house the night before from the McNeil Trailer park a couple of blocks away to park it adjacent to Stephens and Sons Equipment Company where Mr. Massey is employed.

City Dads Approve Telephone Rate Increase Up Dump Fees

City Dads met Monday night in regular session and agreed with representatives of General Telephone Company on a telephone rate increase for Earth. The increase will begin with the May billing. The last rate increase for Earth was back in 1959.

The City Council also voted to make a change in the fee for dumping trash in the City dump ground. The charge has been \$1.00 a load, regardless of the size. City Dads will continue the \$1.00 charge for a two-wheel trailer or 1/2 ton pick-up loads. However, the fee for a two-ton truck was increased to \$3.00 a load and a six wheel truck load was set at \$5.00 per load.

Bad Matlock, Fire Chief of the Earth Volunteer Fireman met with the group to get their approval to test the City's Storm Signals on Sunday afternoon. The group okayed Matlock's suggestion for the testing.

The group also discussed the many fire hazards created by carelessness of townspeople toward keeping their property clean. City Dads agreed that steps must be taken to see that these places were cleaned up.

A vote of approval was given on the following items of business: to pay the current bills, fix the lock on the front door, order dog tags for the May vaccination day for dogs and to accept the minutes of the past meeting. They also agreed to have repairs made on the Gate Valve of the City wells # 2.

Former Resident Receives Policeman Of Year Award

Tucson, Arizona--A veteran detective who may have cleared up more robberies last year than any other Tucson policeman was honored today as Policeman of the Year.

The award for 1969 was made to Rex K. Angeley, 40, by the Downtown Exchange Club after his selection by fellow policemen.

Angeley received the award at a luncheon and was lauded for his efforts that led to arrests in eight liquor store robberies last year, including one in which a store clerk was killed.

He also was cited for his 30 days of intensive investigation and arrest of five suspects in a service station robbery last May 20. A station attendant had been wounded in the robbery.

Angeley was chosen from a group of eight policemen nominated by their command officers. A policeman here eight years, he is assigned to the homicide-robbery detail.

Sgt. Larry Bunting, who submitted a written evaluation on Angeley, said he "possesses a strong desire to get the job done."

Bunting said that after the robbery last year of Crown Liquors, 316 E. Grant Road, and the killing of clerk Mason Branch, there were no leads. Angeley, he said, used extensive knowledge of the area he had gained in his police work and after four weeks of investigation had suspects in custody.

A plaque and certificate were presented Angeley at the luncheon by Quentin Bryson, Exchange Club president, as the club opened its observance of National Crime Prevention Week.

REX, K. ANGELEY

Bryson said the award and special week are designed "in an effort to focus more attention on police officers and accomplishments of police departments."

Last year's Policeman of the Year award went to Glenn Hendricks, now a detective. The 1967 award went to Richard L. Czech, now a sergeant in the uniform division.

Old Drugs

"Don't just toss away old medicines," says the Texas Safety Association, "make sure they are completely destroyed."

Harmful medicines left in incinerators or waste boxes in the yard may be a temptation for small children. TSA suggests medicines, discarded insecticides or cleaning aids be buried or flushed down the drain if practical.

IRONSTONE CHINA

Ironstone china was originated in England by Josiah Spode in 1807 and patented by Charles James Mason, Potter in Lane Delph near Stoke upon Trent, in 1813. It fast became one of the most popular and esteemed wares of the time. As one of the magazines of that time wrote, "Ironstone ware is especially adapted for hard usage and long service due to its qualities of extreme hardness and durability. But fitted for grace of line and tasteful relief it is eminently fitted for families of highest rank. It is much used in the houses of nobility and the upper classes and is deserving to be in every home of taste."

RED-CLIFF reproductions are as faithful as research and skillful crafting can produce. The original color has been as closely maintained as possible. The original formula, however, has been altered to create a ware of great thermal properties and strength, together with a fully VITRIFIED body in FINE CHINA.

RED-CLIFF Ironstone is TRUE OVEN WARE, doing double duty as a casserole in the oven and a beautiful service piece on the table. It will retain heat and keep the food warm well beyond the normal serving period. Dishes and beverages may be kept warm on top of the stove over a medium heat if an asbestos pad is used. All Red-Cliff fine Ironstone dinner ware and service pieces are completely detergent and dish washer safe. Give them hard usage and they will repay you with a lifetime of service.

Apply Terraclor Super-X the first time you plant cotton.

Think for a minute what it costs to replant an acre of cotton that doesn't make a stand. There's the cost of seed, fertilizer, herbicides, insecticides, equipment, operators and the precious time. Multiply that by the number of acres you could lose to seed and seedling disease.

Now think about Terraclor Super-X Soil Fungicide. It could very well eliminate replanting. Here's why: Terraclor Super-X is a combination of two Olin discoveries that effectively control the fungi that cause cotton seedling disease.

How important is this to you? The regional Cotton Disease Council reports that losses average \$60,000,000 a year to seedling diseases alone.

Terraclor Super-X is applied while you plant. Your cotton seed is surrounded by protection in the furrow, where it counts. As the seed germinates and the seedling emerges, the fungi that kill un-

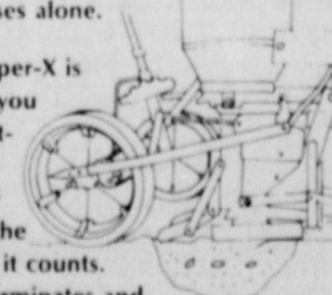

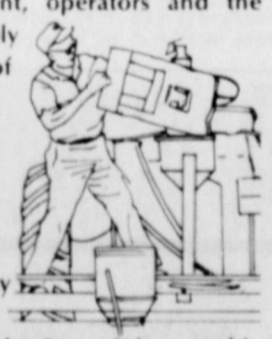

protected plants are held off by Terraclor Super-X. You get a healthy, vigorous stand from only one planting.

About seed treatments: They are great... as far as they go. But seed treatment protection lasts only until the seed coat opens and the seedling grows into untreated soil. That's when you need Terraclor Super-X in the furrow.

Terraclor Super-X is available from your Olin dealer in three formulations: granular, liquid and dust. A special formulation is available with a quality soil systemic insecticide impregnated in the granules for combination fungus and insect control.

If you don't know your local Olin dealer, write to Terraclor Super-X, P. O. Box 991, Little Rock, Ark. 72203 for his name.

You ought to get to know him. He can help you get a good stand from only one planting. That's one good reason he is known as the rare bird in the business. **Olin**

Sunnyside News...

By Tenny Bowden.

Mrs. James Foushee and Lori, a little friend of Lori, all of Lubbock spent last week-end with Mr. and Mrs. John Moore. Mr. and Mrs. John Moore and Mrs. Ila Haydon and Susan Sadler were all on the sick list this week and last week with the flu. Mr. and Mrs. Larry Odom of Hereford spent last Sunday with Leslie Louder. She also visit-

ed with Mrs. Moore after Mrs. Foushee had gone home. Paula Jean Louder of Dallas came in about 4:00 Monday morning to visit with her daddy and with the Odoms and Kirbys in Hereford. She works for the Civil Service.

Mrs. Bill Baker, the former Verdona Curtis, earned her bachelor of Arts degree at San Angelo State University in Jan-

uary. Debbie Curtis is in college there now. Clint Dawson placed 3rd, and 5th, and Tommy Graham placed 4th in the Springlake-Earth Junior Livestock show last Saturday.

Mr. and Mrs. Orville Thompson of Hobbs visited last Saturday with Mr. and Mrs. Ed Thompson. They are twin brothers. The Ed Thompsons were also on the sick list last week.

M. and Mrs. Clarence Baggett of Hereford visited Monday morning with Mr. and Mrs. W. E. Louder, Mrs. L. B. Bowden, Leslie and Alton Louder and Ramona Dones.

Mr. and Mrs. R. E. Duke received word last Saturday that the Wendell Paytes were taking their two month old son to Dallas last Sunday to see if open heart surgery was advisable.

The doctors at Big Springs said it was having some heart trouble. This is the Duke's only grandson. The baby is the grandson of Vivlene Duke who was a Murphy, and has been staying in Dimmitt for treatment. The report was that it would possibly have to have the surgery, but not immediately.

Mrs. Danny McGowan was honored with a bridal shower at the fellowship Hall of the church Tuesday afternoon. Hostesses for the occasion were: Mrs. Gale Sadler, Mrs. J. Paul Waggoner, Mrs. E. R. Sadler, Mrs. Garner Ball, Mrs. Larry Sadler, and Mrs. Roy Phelan.

Mr. and Mrs. R. V. Bills went to Methodist Hospital in Lubbock Monday to see their son, Richard Bills of Earth who broke his leg in a recent fall from a ladder. The bone was splinted badly. He was dismissed Thursday and they went to Earth to see him. He will have to walk on crutches for several weeks, perhaps months.

Mrs. Lowell Westmoreland was honored with a birthday dinner at the home of her parents, Mr. and Mrs. Alton Louder last Sunday. Mr. Westmoreland, Lori, Gena, and Zane of Littlefield and Mr. and Mrs. Doug Louder, Lyle and Dara were present.

Dr. Raymond Perkins Jr. of the First Baptist Church of Dimmitt left Monday for Oregon to preach one week of a two week revival. Rev. Mack Turner was scheduled to preach and had to cancel because of his illness.

Rev. Turner will go for a week's revival this fall. The Sunnyside church has supported the work in Oregon since 1957-58. At that time we gave 3% of the gross income to the Toledo church each month. When they were able to support themselves they ask we transfer our help to a mission they had started at Newport. This amount was

raised to 5% in 1969 and continues at this rate today.

Lee and Lynn Brown, Brent and Jeffrey Washington, Tommy and Michael Graham Clint Dawson and Kent Hinson will be entered in the Lamb County 4-H Food Show at Littlefield this coming Saturday. They have completed the first year nutrition project in 4-H, and met weekly during the winter at the home of their project leader, Mrs. Gerald Graham, Sheila Lewis assisted as a junior leader.

Mrs. James Powell of Dimmitt spent the day Wednesday with Mr. and Mrs. Ezell Sadler and had dinner with them. Beckie Odom also of Dimmitt came with her. They visited in the afternoon with Mr. and Mrs. W. E. Louder, Mrs. L. B. Bowden, and Ramona Dones.

Mrs. Dean Kirby and Mrs. Larry Odom, of Hereford, and Paula Jean Louder of Dallas, visited Wednesday with Leslie Louder.

The Springlake-Earth Wolverines lost to Iraan in the regional tournament last Saturday in Lubbock, 50-58.

The shop belonging to Larry Sadler was moved to the back of the lot this week, and raised about six foot. He will move the two bedroom house he bought from the Odell James to

the location, in the near future, and put it where the shop use to be, keeping the houses in a straight line. He will farm with his daddy another year.

Rev. Mack Turner was able to attend the Wednesday night services which was regular church conference. He stated his regrets at having to miss the revival in Oregon this week.

Several attended the meeting at the community building, Thursday night and after making it decent, had a business meeting and determined that in the future we would not neglect the building or the meetings any longer. The men tried to find the trouble with the pump at the park and think it will be minor repair, but without water at the building all other events were hampered, so with the money on hand we will fix the pump. It was decided to have the July 4th Homecoming again this year. New officers were elected. Garner Ball will be the new President, Gale Sadler was elected Vice-President. Mrs. Cecil Curtis was elected sect. -treas., and Mrs. Lloyd Blanton her assistant. We decided to not lag with the meetings so the first one will be this Friday night the 6th of March at 7:30 p.m. Everyone is invited to come and every family is ask to bring a package of

cookies. It will be a musical program so everyone who has a stringed instrument be sure to bring it. More detailed plans will be made at this meeting. If you can play dominoes or other games with the music going on bring your favorite game and a card table.

Mr. and Mrs. Bob Ott returned home last Sunday evening from their fishing trip to Lake Sam Rayburn. They did not go to Lake Falcon as reported last week.

The choir did real good in the festival in Earth last Sunday. They sang two songs, "Follow Me" and "Redeemed." One judge gave them a 90 which is excellent and the other judge gave them a 96 which is superior. Carl Bradley sang a solo "Never Alone" and received an 86 or excellent on it.

Mrs. Roy Phelan finished teaching the book, "The Northeast" to the WMS Wednesday night.

Mr. and Mrs. Charlie Knoyer, friends from Youngtown, Ohio visited with Mr. and Mrs. E. R. Sadler Thursday through Saturday.

Mr. and Mrs. Billie King and family brought Mrs. Irving King home Sunday after her visit with them.

Mrs. Bonnie Swinney of Lubbock taught the painting class in the community Saturday afternoon.

Mr. and Mrs. Grady Epperson of Ropesville visited Sunday with their children, Mr. and Mrs. Johnny Epperson and family and Mr. and Mrs. Hershel Wilson and family, and attended the morning worship services.

Mr. and Mrs. Cliff Brown and boys visited with relatives in Lubbock Saturday, and attended the wedding of Cliff's niece.

Mr. and Mrs. Weldon Bradley visited in Hart Saturday night with the Newman family after hearing the tragedy in which Mrs. Joe Newman lost her life, in a train-car accident Friday night.

Mr. and Mrs. David Sadler and Melody of Lubbock arrived Friday night to spend the week-end with Mr. and Mrs. Ezell Sadler.

Mr. and Mrs. Larry Odom of Hereford spent Saturday night with Leslie Louder, and visited Sunday morning with Mr. and Mrs. W. E. Louder, Mr. and Mrs. L. B. Bowden, and Mrs. Ezell Sadler.

Seventy attended Sunday School with 26 in Training Union Sunday. The Week of Prayer program will start Monday morning, and cottage prayer meetings for the revival.

Financial Facts

By Norlan Dudley

The emperor Constantine the Great reorganized the monetary system of Rome. His reforms included the reduction in weight of the gold coin, called the solidus, to 1/72 of a libra or pound.

This system was adopted in the Eastern Empire by the Byzantine monarchs and for centuries the Byzantine solidus remained the principal medium of exchange throughout the Mediterranean area. The solidus was used for international exchange and also for domestic transactions which involved large sums. Silver and copper coins continued to be used in local and petty trade.

The monetary system in western Europe was in a state of chaos and the barbaric rulers of the west were glad to adopt the solidus for their own use.

Installing Gas Air Conditioning in the Winter is for the

and the Joneses and the Smiths...

and just about everybody who loves comfort and knows a wise move when they see one. Installing gas air conditioning now will allow you to beat the spring rush that always comes with that first hot or dusty day. So, while others are waiting for the overworked installers, you'll be cool, calm and collected... already enjoying the benefits of your winter air conditioning buy. Gas quietly cools your whole house for what you may have been paying to cool two or three rooms before. And, you'll save on repairs, too, because gas air conditioning has no compressor to break down or wear out, and a com-

pressor is a usual source of failure in other air conditioning systems.

So, join the smart ones. Call Pioneer today and tell them you'd like to find out more about installing gas air conditioning in winter. A representative will come tell you just what it will take to convert your present forced air heating system to gas air conditioning. It costs you nothing to get a complete cooling survey of your home or business.

Teachers To Meet In Lubbock

Local Springlake-Earth teachers will attend the Second Annual Convention of District XVII Texas State Teachers Association in Lubbock Friday, March 6.

Bill Anderson and William Verden, Springlake-Earth delegates, will attend a banquet at 6:30 p. m. Thursday in the Coronado High School Cafeteria, and the business of the association will be conducted when the House of Delegates convenes in the auditorium following the banquet. Committee reports will be heard and officers will be elected at the meeting. The theme of this year's program is "The Educator's Responsibility... Prepare The Youth."

The general session will be held Friday morning at 9:30 a. m. in the Lubbock Municipal Coliseum, with E. C. Leslie, president, presiding. Special music will be provided by the Plainview High School Band under direction of O. T. Ryan, and the invocation and National Anthem will be by Nat Cooper, minister of the Lubbock Monterey Church of Christ. Dr. Ishmael Hill, assistant superintendent of Lubbock schools, will welcome the educators to Lubbock and Mrs. Dorothy McGregor, Chairman of the Necrology Committee, will pay tribute to members recently deceased. L. P. Strugen of Austin will bring greetings from the Texas State Teachers Association in Austin; Mrs. Inez Moore, membership chairman, will give a District XVII membership report, and Gordon Deering, membership chairman will also give a membership report. Conferees will hear an address by Dr. Tom Shipp, minister of the Lovers Lane Methodist Church in Dallas.

Platform guests at the general session will include local unit presidents, TSTA Executive Committee, 1970-71 officers-elect, and the president, District XIV, Texas Congress of Parents and Teachers.

Several groups have scheduled luncheons. School administrators will meet at the Holiday Inn East to hear Dr. Tom Shipp. Art teachers will attend a luncheon at the Garden and Art Center. The Classroom Teachers Association will hear Captain Cox at a meeting at the Red Raider Convention Center.

His subject will be "Drugs in the Schools". The Council for Exceptional Children will hear Dr. Don Shane, of Texas Tech University, at a luncheon at the Johnson House. His subject will be "Trends in Special Education." Educational secretaries will meet at Smylie Wilson Jr. High and foreign language teachers at the Town Crier. Other luncheons scheduled include Librarians, El Sombrero; Personnel and Guidance, Hemphill-Wells; Physical Education, Board Room, Lubbock Public Schools; School Health and Nurses, Red Raider Inn; Science Underwood's Cafeteria; Texas Business Education Association, Red Raider Inn; and Texas Elementary Principals and Supervisors Association, Red Raider Inn.

Concurrent sectional meetings will be held at 2:15 Friday. Dr. Robert S. Fleming, Professor of Education, Virginia Commonwealth University, Richmond, Virginia, will speak on "The Kindergarten-Its Effect on the Total School" at the Coronado High School Auditorium. Dr. C. G. Gray, National Sales Director, Science Research Associates, Chicago, Illinois, will address a group at the Lubbock High School Auditorium on "Education and Change." Harold P. Plumer, author, speaker, and consultant from Minneapolis, Minnesota, will conduct the third session entitled "The Frontiers of Our Time" at Monterey High School. District XVII includes seventeen counties with a total membership of 4,446 teachers.

The local Springlake-Earth Schools will dismiss at 3:00 p. m. Thursday afternoon and remain closed until Monday, March 8.

11% Of Annual Goal Reached In January

According to C. C. Stone, Chairman of the Lamb County Savings Bonds Committee, the 1970 Savings Bonds goal for Lamb County is \$130,000. January sales totaled \$14,823, for 11 per cent of the sales goal. The 1970 sales goal for Texas is \$179.9 million. During the month sales were \$15,862,542 with 9 per cent of the state's goal achieved.

The Treasury Department announced that sales over the nation totaled \$407 million—3.8 per cent below January a year ago. Exchanges of Series E for Series H Savings Bonds during the month amounted to \$17.2 million—3 per cent above the \$16.7 million exchanged in January 1969.

Easter Seal Appeal Letters Being Delivered

Easter Seal Appeal Letters are being delivered this week in Lamb County, according to Joe Montgomery, who is the County Easter Seal Representative for Crippled Children and Adults of Texas.

As Representative, Mr. Montgomery serves as local contact for disabled persons needing Easter Seal rehabilitation services and also is treasurer of the Easter Seal Appeal in Littlefield.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps. These services are financed by the Annual Easter Seal Appeal.

The Society also provided for research into the causes and cures of crippling conditions, finances public education programs, and provides scholarships for training of professional personnel to staff rehabilitation centers.

He pointed out that all of these programs are important if Texas is going to continue to provide the best in rehabilitation services for its own disabled citizens.

During 1969, the Texas Easter Seal Society helped to provide treatment and services to 20,378 children and adults who were in need of rehabilitation services. These services are available to any disabled person who can benefit from help provided by the Easter Seal Society, Montgomery added.

The 1970 Easter Seal Campaign will run through Easter Sunday, March 29. He urged increased support for the Easter Seal Society and its program of services to crippled children and adults.

Visitation Seminar Concluded

A Visitation Seminar conducted by Rev. David Hartman, pastor, of the First Baptist Church in Earth, was concluded Sunday night with the fourth and final topic in a four-part seminar, conducted weekly, each Sunday at 6 p. m. in the Fellowship Hall. "Recognizing Opportunities For Ministry" was the topic discussed by Rev. Hartman.

Plains Cotton Production Below '68 Crop

Cotton production for the 1969 crop year from the 25 High Plains counties represented by Plains Cotton Growers, Inc. will total approximately 1,393,650 bales, almost 247,000 bales below ginnings from the 1968 crop.

The U.S. Bureau of Census reports that 22 of the 25 counties had ginned 1,352,299 bales through January 16. PCG estimates production from the three counties not reported by the Bureau of Census at 22,850 bales, and another 18,500 bales have been classed from the area since January 16 are reported at 2,731,120 bales compared to 1968 ginnings of 3,450,950.

The High Plains total, though far below the 2 million bale plus years prior to the inception of the present cotton program, still topped the entire production from any state in the nation, excepting Texas, California, with 1,335,314 bales, and Mississippi with 1,314,416 bales. The Plains area a close race however.

Acres originally planted to cotton in the Plains in 1969 came to over 2,100,000, but early season hailstorms, insects and a freeze on October 13 cut harvested acreage to an estimated 1,600,000 or less.

Even as late as the first of September the joint production estimate of the Lubbock Cotton Exchange and PCG came to over 1.9 million bales. But by December 1 the estimate had been cut to 1,537,000. And even that guess proved over 10 percent above actual production--the first time the December 1 estimate has ever erred over 5 percent.

The reduction of projected yields on a number of farms in 10 High Plains counties below

the yields assigned last November by USDA's Agricultural Stabilization and Conservation Service is still being widely and loudly protested.

Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., again took issue with USDA officials in Washington last week and consulted with interested Senators and Congressmen as to possible means to relief.

He reports that USDA, including Secretary Clifford Hardin, so far has refused to budge from their announcement that yields will be adjusted downward on farms unable to prove actual average yields for 1966, 1967 and 1968 equal to or above the projected yields assigned in November.

"They have a multitude of charts and figures with which they attempt to justify their actions," he said, "but the fact remains that there is no justification for their breaking faith with producers."

At least three "protest" meetings have been held by farmers in the affected counties on the Plains, and there is talk that a delegation of farmers from Gaines County, one of the most severely hurt areas, may go to Washington to personally voice their complaint.

Other Plains counties where yields are being lowered include Bailey, Briscoe, Cochran, Crosby, Floyd, Hockley, Lamb, Lubbock and Terry.

"While I wouldn't want to give anyone false hopes," Johnson concluded, "we are continuing to do everything we can to get the Department to stick with the yields announced last November."

To Insure Safety On Highway, Be Courteous

The next time you get behind the wheel of your automobile, take courtesy along for the ride. Your life--and somebody else's--may depend on it!

"Bad manners cause more accidents than bad automobile parts," says Mr. Paul Graham, President, Texas Motor Transportation Association. "It has become almost a joke in our society that a man who will hold the door open for a sweet little old lady will run that same little old lady off the road when they are both driving."

Not that all the offenders are men and all the victims are little old ladies. Bad driving manners--and good--are exhibited every day by both sexes and all ages--from 16 on up.

There is no way of knowing how many accidents are caused by bad highway manners. "We do know that the majority of accidents on our highways occur under what might be considered perfect operating conditions," Mr. Graham says, "and only a small percentage are caused by mechanical failure."

One driver will cut in front of another. The second driver--

his feelings wounded--loses his temper and steps on the gas. Or, one driver attempts to pass another; the second driver doesn't like it and increases speed. The passing car can't get back into the right lane. Or, a driver--knowingly or unknowingly--has his bright lights on. An oncoming driver, angered by the blinding lights, retaliates. The result--two half-blinded drivers.

"Weaving in and out of traffic, turning without giving a signal, tailgating, stopping suddenly without warning--these and other acts of discourtesy are irritating but, more than that, they're extremely dangerous," Mr. Graham warns.

"A courteous attitude is not only a much safer attitude," Mr. Graham says, "it makes for more pleasant driving. And it is contagious. Professional truck and bus drivers--who have the safest of all driving records--have found that a courteous act by one driver almost always will lead to a similar act by another driver."

Air Force ROTC Scholarship Program Told

High School Juniors--Within the next year you will be giving very serious thought to your future, and in particular the first step--a college education. For many of you, finances may be a factor as to which school you are able to attend. Perhaps the United States Air Force ROTC program can be an assist to you. The Air Force offers a four year scholarship program for selected freshmen. The scholarship consists of full tuition, laboratory and associated fees, an allowance for books, plus a tax-free allowance of \$50 a month as long as the scholarship is in effect.

If the college of your choice has the four-year AFROTC program, you may want to consider applying for the scholarship. The training you get while in

AFROTC cannot be matched. It will help you develop your leadership potential, create a disciplined personality, and generally prepare you for entrance into the Air Force Officer Profession upon completion of your college work.

The cut-off date for application is normally the 14th of November of the Senior year. For further details, see your high school counselor. If he doesn't have the detailed information concerning the program, ask him to write or you write directly for it. Address your inquiries to Air Force ROTC (ARTO), Maxwell, AFB, Alabama 36112, and ask for the "Air Force ROTC Scholarship Program."

Committee For Marketing - Branding Of Livestock Named

Lieutenant Governor Ben Barnes today announced the appointment of three senators to the Committee on Marketing and Branding of Livestock.

Named by Barnes were Senators Jack Hightower of Vernon; W.E. (Pete) Snelson of Mid-

land; and, Murray Watson of Mart.

Created by Senate Concurrent Resolution 74, the Committee will study laws regarding the marketing and branding of livestock, with the view of modifying and updating the present law in Texas to give the state a more modern and uniform branding and marketing system.

"Because Texas has almost 11 percent of all beef cattle in the United States, our farmers and ranchers must work under the most up-to-date laws possible. I consider this a very important committee and I know the appointees will do an expert job," said Barnes.

The three members to be appointed by the Speaker and the Governor have not yet been announced.

MOST EXPENSIVE SPICE is Mediterranean saffron which retails for \$82 a pound.

Onions Don't Show

Onions and other strong smelling foods or beverage have no effect on the newly approved breath test which scientifically measures the amount of alcohol in a driver's blood.

The Texas Safety Association says only the amount of alcohol present in the blood is shown by the test thus helping to tell the difference between drunk and sober drivers.

4-H Food Show Set For March 7
The four food groups are Meat, Vegetables and Fruit, Bread and Cereal and Milk. The highest scoring individual in each of the four food groups in both the Senior and Junior Division will be eligible to participate in the District Food Show April 4 in Lubbock. Judging will begin at 1:30 and the public is invited to view the exhibits at 2:30. 4-H boys and girls over the county are preparing for the annual food show to be held at the community center, March 7. Judging is done on the basis of exhibitors knowledge of food and nutrition, the food exhibited, the exhibit, the recipe, the menu and the food record. Senior members will exhibit a foreign food. The country chosen is Switzerland. Judges for the event will be Mrs. Robin Raylor, County Home Demonstration Agent, Milesheer and Leader and Mrs. Norma Davis, Asst. Co. Home Demonstration Agent, Levelland and leader.

A weekly public service feature from
the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Two things are said to be certain in this world: death and taxes. To this add a third certainty: If you live in Texas--or the United States for that matter--chances are about one in two that you will die of a circulatory disease--a disease of the heart or blood vessels, reports the Texas State Department of Health.

Despite the prevalence of newspaper stories and reports you see and hear on radio and television about accidents and other violence, heart disease continues to be the number one killer of Texans. Among the top ten are apoplexy--commonly called "stroke"--and generalized arteriosclerosis, known as hardening of the arteries.

CHEMICALLY, a diamond is pure carbon. It is 90 times harder than the next hardest mineral, corundum.

EPOXY RESIN is the most powerful adhesive known. After being cooled to -450 C. It can withstand a pull of 8,000 lbs. per square inch.

Local Band Festival To Be Big Job

Getting ready for the Elementary-Junior High Band Festival will be a big chore for the Springlake-Earth Band. Thirty-six Bands have already entered the contest to be held by our school on May 8-9. The festival is sanctioned by UIL Region XVI and was held in Priona, Abemathy, and Dimmitt in preceding years.

The Band Boosters will be operating a concession stand in the cafeteria. Many parents will be donating their time and prepared foods to help feed the 1200 students who will be visiting our city. This will be the Band Boosters main money-making project of the year.

In order for the festival to be a success, all band students will be helping with various jobs before, during and after the festival. The festival will take the place of the band's annual 'slave day.' Each judge will need a student monitor; student secretaries will prepare rating sheets, hand out medals and trophies, and finalize criticism sheets; a stage crew will prepare seating arrangements before each band performs; students will hand out sightreading music and give instructions to the directors; each band will be recorded on tape; a student will announce each band and their music to be performed; students

will operate a concession stand to sell Cokes; and directors will need to be filled with coffee and donuts.

Before the contest is ever started, chairs and music stands must be placed in the warm-up room; pianos must be moved to the rooms where solos will be played; news releases prepared; and, programs printed. After the contest, everything must be moved back to their normal places.

Finding judges who are available on the contest date is in itself quite a task. Concert judges will be Gary Zook and O. T. Ryan. Mr. Zook is the director of Canyon High School Band, this year's Texas Class AAA Honor Band. Mr. Ryan took his Plainview band to the Cotton Bowl and entertained the Dallas Cowboy fans with a Christmas Special.

Sightreading judge will be Jim Sidduth of Lubbock Coronado High School. He is well-known throughout the state for his arranging, clinics, and directing abilities.

Solo and ensemble judges will be Orlan Butler of Lubbock Atkins, Kyle Ellison of Lubbock Estacado, Sam Knepley of Lamesa, and Mickey Owens of Spearman. Mrs. Mickey Owens will be a twirling judge.

One of the hardest jobs will be the one of scheduling band and

age, playing experience, school classification, and daily rehearsal lengths will determine the order. Solos and ensembles must be scheduled so that they do not conflict with their band's concert performance. There

will be about 500 solos and ensembles to schedule. Many schools, including our own, will enter more than one band. Some will enter a Beginners band, Intermediate band, and Junior High Band

Bands have been entered from as far away as Coleman (near Abilene), Memphis, Clovis, Morton and Vega. Judges will give each band criticism sheets and a rating. All Division I rated bands will

receive a nice trophy. First Division solo and ensemble winners will receive a medal. Each solo judge will name the most outstanding soloist he has heard during the entire day. Hosting the Region XVI-Jun-

ior High Festival, the 1200 students, and their parents will offer many opportunities well worth the time and effort that will be required to make the Springlake-Earth Band Festival a success.

Annual National Invitational Tourney March 19-21

Amarillo--The second annual Amarillo National Invitational will again be held here, March 19-21 at the Civic Center with the Hutcherson Flying Queens of Wayland Baptist College, Plainview, defending their title. Six of the eight teams that competed for the crown last year will again be back to bid for the championship.

In addition to the Queens, who are currently 18-4, Midwestern College of Denton, Iowa; Ouachita Baptist of Arkadelphia, Ark.; John F. Kennedy College of Wahoo, Neb.; Temple Junior College and Ranger Junior College again will be in the tourney. Newcomers are West Texas State and possibly Belmont College of Tennessee.

Sponsored by the Amarillo Chamber of Commerce, the tourney drew good crowds last year and indications are that attendance will be considerably higher this year.

The colleges have gone to the five-player rule like men's basketball, which makes for a more exciting and higher scoring game. The 30-second clock also helps speed up the game.

College officials are hoping that the prestige of the Amarillo tourney will in the next few years make it "the tournament" in the nation.

Many area schools are making plans to send their teams to see the tournament.

Debreah Curtis Junior Hi Honor Roll

Debreah Elene Curtis of Earth is listed on the Dean's Honor Roll at Angelo State University, San Angelo, as a result of her outstanding academic record during the fall semester.

Letters to the Editor

FEBRUARY 1
February 18, 1970

Mr. Ross Middleton, Editor
The Earth News-Sun
Earth, Texas

Dear Ross:
With the solar eclipse due March 7, 1970, there will be scores of people across the nation who will be either partially or totally blinded trying to see this rare phenomenon. You might wish to warn your readers of some of the hazards since many people still believe that they can view an eclipse comfortably and safely with various home-made devices all the way from a smoked glass to dark photographic film sheets. This simply is a mistaken idea. The only safe way is to wait and view it on television after professionals have made pictures of the event.

The real danger comes from the invisible infra-red rays which can cause damaging burns to the eye's light-sensitive retina in a manner similar to the way a magnifying glass will focus the sun's rays on a piece of paper and burn a hole in it. The retina, not being sensitive to pain, would hardly feel a retinal burn at the time. However, all vision specialists realize retinal burns are incurable and produce a blind spot. Should the burn be in the vital macula area (point of most central vision) the patient would most likely lose all usable central vision in that eye permanently.

Other complications of solar damage seen by eye specialists following the last partial eclipse of the sun on May 20, 1966, include bilateral central scotomata, macular hole, severe macular edema, persistent paracentral scotomata, bilateral macular lesions, macular burns, obstruction of central retinal vessels, retinal hemorrhages, etc.

I hope it is possible for the people of our area to get by without a single incident of damage. This is only possible if they fully understand the dangers. The only recommended way to view an eclipse is indirectly. This can be done by taking two pieces of white cardboard and make a pinhole in one, then with the sun at your back focus the eclipse image through the pinhole board onto the second cardboard. Better yet, wait and see it on TV!

Sincerely yours,
B. W. Armistead, O. D.

Dear Editor:

Since the "Ditty Bag" program was completed in the fall, we have wanted to say "thank-you" to the press and the Citizens of Lamb County for their past support in the project. So, in the mail today came the letter which is attached and it says more than any words that we could mention.

Again, we hope you will find space to print it in its entirety.

Thank You,

Dear Sir:

On behalf of all of the men of the Blackhorse Regiment, I want to extend our appreciation for the Christmas gifts provided through your chapter of American Red Cross.

The gift bags were received at our Field Director's office and distributed by regimental project officers and our Red Cross Staff. Not only were all the items useful and practical, but they reminded the men that the American people have not forgotten the fighting men in South Vietnam.

Please be assured that the gifts did much for our troops' morale and provided a pleasant memento of the Christmas season.

Sincerely yours,
Donn A. Stary

Dear Ross and Polly,

Enclosed is a clipping which was taken from the Tucson Daily Citizen 11 February 1970. Also our check for our 1970 subscription of the paper.

I thought this article might be of interest to a lot of our friends around Earth. It was a real honor for me to receive it out of more than 300 men. I enjoy reading your articles supporting law enforcement. This day and times you don't realize unless you are in it, how much we need the support of all Citizens.

We enjoy reading the local news keeping us informed on the happenings around Earth.

Sincerely,
Rex Angeley

Postal Employees To Play Important Role In 1970 Census

Postal employees will play an important role in obtaining the most accurate population count in history, the Commerce Department's Bureau of the Census and the Post Office Department say.

Postal employees at all levels, especially city letter carriers, will help the Census Bureau with the 1970 count by:

1. Handling census questionnaires going to more than 40 million households in the major urban areas where a mail-out, mail-back census will be conducted.

The contribution of postal employees to help the Census develop a complete and accurate address list is a major improvement in census taking techniques. The pre-census address check got underway last July, has continued through the fall and winter, and will not be finished until the questionnaires have been mailed out.

Summarized, here is how the check is being made:

In Case of Fire

If you smell smoke at night, don't rush from your bedroom to investigate, warns the Texas Safety Association.

Place your palm high against the bedroom door. If it's hot, don't open it. The hall outside is a deadly trap of superheated air and gas and can kill almost instantly.

If the door doesn't feel hot, brace your body against the door and open it a crack, ready to shut it if there's air pressure or the draft feels hot.

Get members of the family to safety quickly and don't waste time getting dressed or picking up valuables, urges TSA.

Watch for SMV

What's triangular in shape, orange in color and calls for immediate safety precautions? The Texas Safety Association says it's the slow moving vehicle emblem required after January 1 on all tractors, tractors, or other vehicles which operate at a maximum of 25 miles per hour or less.

40 million, in all) covering areas served by city postal service was obtained by the Bureau from a commercial source and put on computer tape. Each address identifies a place where someone lives (no names are included, however) by street and number, town or city, State and zip code.

2. Each address was printed by computer on a label which was affixed to a card. The cards were sorted by letter carrier routes and packets were delivered to each city letter carrier last summer, for the addresses on his delivery route.

3. Carriers then matched the cards carefully with actual addresses where people on their routes receive mail. This was done by casing the cards. Each carrier has a metal sorting case with slots for current addresses on his route. In distributing the cards throughout his sorting case, the carrier noted either omissions or wrong addresses. Special care was taken to make out new cards for addresses not on the original list, addresses for which a housing unit actually did not exist or those with wrong street or zip numbers, and to list all households in multi-unit dwellings.

4. Corrected cards were then returned to the Bureau, and corrections are being made on the computer address tapes.

5. About March 10, when mailing packets containing the questionnaires and return envelopes are delivered to post offices for distribution, a second check will be made by each carrier. This time it will be done by casing the mailing packets. The carrier will note any address changes since last summer, or new units for which no census mailing piece is provided. These changes again will be entered on correction cards and sent to the Bureau.

6. Corrections from the second check will be forwarded directly to 1970 census temporary district offices. Questionnaires to be sent as a result of this second check will be hand addressed in district offices and mailed directly to the households involved.

7. When the carrier delivers his questionnaires on March 28, he will make one last check by noting any changes in his route. Cards for these again will be sent directly to district offices, and questionnaires will be mailed out to households not previously identified.

A significant improvement over previous censuses is expected to result from this triple check of household addresses. Census officials believe that a major cause of persons being missed in past censuses has been that census takers, unfamiliar with the structures they canvassed, did not find all the places where people live. Letter carriers, on the other hand, are more likely to know every residence on their routes. By locating all the household units before the census is taken, Bureau officials foresee the opportunity of obtaining the most accurate count of the population ever developed.
