WHERE DO WE STOP?

David Lawrence recently wrote in U.S. News and World Report: "...no 'great society' will ever be maintained unless individual responsibility is recognized as the paramount obligation of the citizen, even as government expands and population grows."

"Government may guide and help its citizens but cannot supply talent to those who do not have it--or bestow ambition or initiative or creative ability on those who are not born with these qualities. And the individuals who do have these God-given capacities will not require governmental stimulus as they strive to improve the 'great society' of yesterday."

This goes to the heart of the matter. Whatever the programs, whatever the dramatic names given to them, they must rely primarily on individual initiative, individual ambition, individual risk taking, and the desire of the individual to progress and to serve. Only in that way can we make material gains without sacrificing those freedoms and spiritual qualities which are the roots of true greatness.

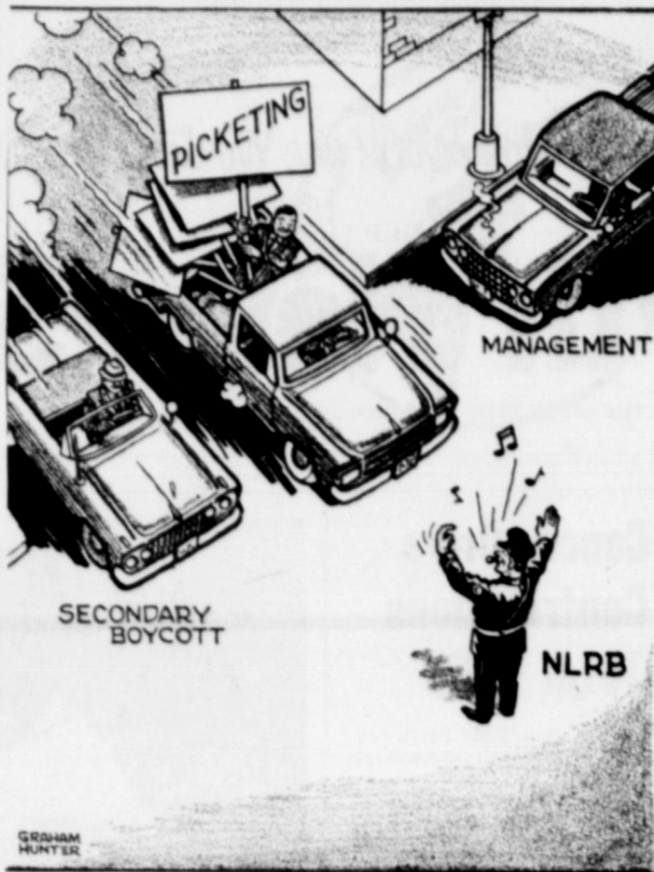

WHAT MIGHT HAVE BEEN?

There is a somber irony in the fact that this year marks the 20th anniversary of the founding of the United Nations and that commemorative medals are to be sold to observe what is called International Co-operation Year 1965.

That brave phrase brings back the high hopes that were held the world over when the UN came into being in San Francisco. Once again, there was the feeling that was born in 1918--that the war to end wars had been fought. From now on the nations, meeting together, would see that reason, justice, truth and understanding prevailed.

We all know what has happened. How much of this may have been the fault of the UN is a matter of opinion and interpretation, and there is no profit in raking over tortured ground. But the world was never more disordered and that, tragically, is true at a time when its resources and incredible scope of knowledge are more than sufficient to make possible a civilization brilliant almost beyond imagining. The UN medal is a tribute to what might have been--not what is.

IT'S TIME TO CHANGE SIGNALS

N.L.R.B. SHOULD BE CURBED

Everybody knows a worker has a right to quit his job anytime he wants to. It would seem logical that an employer would have a similar right to go out of business if he wants to.

But under the tortured thinking of the National Labor Relations Board, this is not always possible. The NLRB has ruled, "An employer does not have the right to go out of business without negotiating with the union."

To remedy this situation, Sen. John Tower (R-Tex.) presented a bill to Congress which clearly states management's right to close down a business. The Senator states the case simply: "Just as a worker has the right to quit his job, so the most fundamental right of an employer is that he is free to quit."

There is no doubt that the NLRB has gone far afield of the original intent of Congress by assuming policy-making functions and invoking life-and-death prerogatives over a business. Concerned also over the NLRB decisions which have permitted secondary boycotting and encourage blackmail picketing, Sen. Tower has filed a second bill to "divest the board of its judicial function, and transfer unfair-labor-practice cases to federal district courts."

It seems that in fairness to all parties concerned, this remedial legislation should pass.

C of C Meets

It was mentioned that the dates for this year's rodeo will be July 8-9-10. Neil Pounds and Perry Martin are to inspect the old banners, and decide if there is a need to purchase new ones, obtain prices, etc.

It was recommended that a letter from our Chamber be written to the Station Chamber, stating that our loss is their gain, as Carroll McDonald's resignation was accepted with regret. Phillip Haberer, who was the runner-up in elections a month ago, was appointed to fill McDonald's term.

Spray new Caparol after cotton is 6 inches high to control weeds.

Control most annual broadleaf weeds and grasses in cotton with new Caparol* herbicide. Simply apply as a directed spray to the base of your cotton when it is six inches or higher.

You'll get good knockdown of weeds and grasses that are less than two inches high... plus some killing action through the roots of later-germinating weeds.

The cost of this treatment, when Caparol is applied in a 10 inch band, can be as little as 85 cents per acre. Compare this with the \$2-3 per acre it would cost you for hoe hands.

Later on in the season, you can go in and make a layby application

of new Caparol to control weeds until the cotton is high enough to shade them out.

With new Caparol, you'll have no reason to worry about soil residue carryover to harm next year's spring-seeded crops.

Ask your supplier for new Caparol.

CAPAROL is a trademark of the Geigy Chemical Corporation for its brand of PROMETRYNE herbicide.

Geigy Agricultural Chemicals, Division of Geigy Chemical Corporation, Ardsley, New York.

Correction

An article, concerning the South Plains College Band Concert, which played in an assembly program at Springlake-Earth School Auditorium last week, was somehow misplaced. It was mentioned in that article that the band was led by Harvey Bulls, a former Earth resident, son of Mrs. Dora Bulls, and brother of Mrs. Gladys Parish. Mr. Bulls has conducted the band since the year the Leveland College began. He was formerly a substitute teacher in the Springlake Schools. He and Mrs. Bulls lived here for some time, prior to 1944, when Mr. Bulls was in the Army. It was a pleasure to the community to welcome Harvey Bulls to Earth again, and to enjoy the music by the South Plains Band, under his leadership.

Local Students Place Fourth In 4H Electric Demonstration

Anita O'Hair and Joe Frank Dent as a team, represented Lamb County at the 20 County District 4-H Contest held at Texas Tech in Lubbock, May 8. The team gave an electric demonstration, which placed fourth, on how to build a trouble light. The two students, Anita, 16 years old, and a sophomore, and Joe Frank 15, and an eighth grade student, have been taught

by Carroll McDonald, South-Western Public Service Co., in the evenings during the past month. They were the youngest team, competing in the Senior Division, compared with students aged 19 to 20 years, who presented electric demonstrations.

McDonald expressed his pride in them for having given such a fine demonstration.

Baseball Coaching Clinic To Be Conducted At Lubbock

Next Sunday a special baseball coaching clinic will be conducted at the Western Pony League baseball diamond by the staff of the West Texas Baseball Camp. The session will begin at 2 p. m. and last about two and a half hours. The clinic, slated to begin, will feature instruction along the same lines as the regular camp instruction—only condensed and presented from a coach's viewpoint. "We would like to invite any coach of a boys baseball team and any interested parent to attend," remarked Bobby Moegle, head baseball coach at Monterey High School and director of the baseball instruction at the camp. "We will cover pitching, hitting, baserunning, catching, and infield and outfield play," Moegle continued. "We feel as though the instruction will be basic enough to be beneficial to anyone interested."

beginning on June 13, June 27, July 11, and a one week session on July 25. "Initial response has been very good," commented Dr. Herman B. Segrest, over-all director of the camp. "We are filling up the first session rapidly so any boy interested should get in his application at once." Last year the camp attracted an average of 40 boys per session and expectations indicate that the total will exceed this number for the four sessions this summer.

Patterson, Fourth In Discus At State Track Meet

John Patterson, son of Mr. and Mrs. A. E. Patterson, and a senior student at Springlake-Earth High School, represented his school in Discus in Class A finals at the State Track Meet in Austin Friday. Patterson placed fourth in State competition, with 153-9. It was a very close race, with only three ahead of him. They were Steve Lane, George West, first with 154-11; and Richard Cadan, Granger, with 154-7; Louis Gillespie, Queen City, 154-5; Richard Windham, Baird was 150-9; and Mike Horn, Waco Midway, 141-61.

Patterson has been an outstanding athlete through his school years. This year in discus he won first in the District, first in the area, and fourth in the State competitions.

He had previously broken the record at track meets here. He was very recently named "Top Wolverine" 1964-65 at the All Sports Banquet. A tour of the state capital was interesting and educational, and the group returned by way of the LBJ Ranch. They met many nice athletes, coaches, and families, and reported a rewarding experience.

Matt Patterson remarked, "For anyone interested in sports, it would be worth while to attend such a meeting, where the majority are seniors, doing their best in a last effort to represent their school."
