Statewide FB Membership Drive

STATEWIDE FB MEMBERSHIP Waco-(Sp1)-Farm Bureau membership workers will be calling on their fellow farmers and ranchers all across Texas in mid-January to help boost membership in the state's largest farm organization, according to Sidney Dean of Victoria, TFB president. Governor John Connally, in one of his last official acts, designated the week of January 13-18 as "Farm Bureau Membership Week" in Texas and urged Texans to "cooperate in the recognition and observance of this week." Dean said teams of membership workers in many of the 203 organized county Farm Bureaus are planning to stage concentrated drives for new members during this period. The TFB ended its 1968 year with 110,689 members, making it the third largest state Farm Bureau in the nation. The Governor praised the productive efficiency of today's farmer, explaining that Americans enjoy the highest standard of living the world has ever known, in part, because of it. The average U. S. family spends less than one-fifth of its income for food, he said. A statewide membership report meeting will be held January 22 in Austin in conjunction with the TFB's legislative conference. County presidents, membership and legislative committee chairmen are invited to attend. About 40 percent of all Texans depend upon agriculture, either directly or indirectly, for their livelihood, he said.

Second Class, Controlled Circulation Postal Rates Increased January 1

Postal rates for newspapers and magazines and other material mailed at the second-class rate will be increased January 1, Postmaster Harold D. Miller reminded second-class mailers today. The increase results from the postage rate law enacted in December 1967, which raised most second-class rates in three annual steps. Postmaster Miller pointed out, The January 1, 1969 hike is the second phase of the increase. The first phase took effect January 7, 1968, and the third step will go into effect January 1, 1970. The second-class rate increase affects general interest, nonprofit and classroom publications. Rates also went up January 1 for controlled circulation publications. These are primarily trade, technical and industrial journals which generally do not charge a subscription fee and are not eligible for second-class rates. The 1967 postal rate law called for a three-step raise for controlled circulation publications, to be effective the same dates as the second-class increases. Except for home-county mailings, postal rates for newspapers and magazines mailed second-class are based on the weight of the publication, the amount of advertising it contains, and the distance it is mailed. Effective January 1, rates for editorial or non-advertising matter in commercial publications will be increased from 3 to 3.2 cents per pound. Rates for advertising content depend on the distance the publication is mailed. These zone rates range from 4.6 to 15 cents per pound of advertising content. The new advertising zone rate range will be 4.9 to 16 cents. There are special lower second-class rates for classroom publications and publications of nonprofit organizations. These rates also will be increased January 1. Postmaster Miller said that second-class or controlled circulation mailers who need more detailed information on the new rates should contact the Post Office where their publications are mailed.

His first two terms, 1952-54, 1954-56, were two year terms. Since then he has been elected to three consecutive four-year terms. He withdrew from the race early in 1968 on the advice of his physician. Although he has no immediate plans for the future Dyer intends to remain in Littlefield.

Terri Miller In Greece With Study Travel Group From Wayland

Saturday, January 4, a study travel group from Wayland Baptist College, Plainview, boarded a plane at the Lubbock Municipal Airport bound for Athens, Greece. The purpose of the trip was to spend three weeks in Greece, corresponding to the three-week micro term of the college, traveling and studying at first hand places and things of unusual significance in literature, the theatre, and Western history. Among the students in the study travel group, was

Miss Terri Miller, daughter of Mr. and Mrs. W.E. Miller of Springlake. Miss Miller is a Senior English Major at Wayland.

This type of study tour is promoted by the college as a means of making more meaningful the courses which are being studied. Last January a group from the Department of Biology went to Jamaica, where they studied unusual plants found only in that part of the world. This year another group from the Department of Biology will travel into Mexico, where they will study

desert plants in their native habitats. Such trips can obviously add interest and zest to a particular study. J. Hoyt Bowers and Gerald Thompson will jointly conduct the tour to Mexico.

The group in Greece is the first to take such an extended trip, not returning until January 25. Greece is the cradle of Western Civilization, there is no place in the world which carries more meaningful history for us in America. Medicine, art, philosophy, theatre, public address, literature, mathematics, and democracy all developed in Athens in the fifth century before Christ, and they provide us with our background in all of these areas.

The study group will spend the first week in Athens, visiting places of importance. The most important place in all of Greece is the Acropolis, located on a high hill overlooking the city. This was the seat of government of ancient times, and ruins of remarkable buildings are to be found there, including the Parthenon. Near this promontory is the location where the Apostle Paul delivered his Mars Hill address. In addition to the various places on the Acropolis, there is the most important theatre of ancient Greece the Theatre of Dionysus. Here great drama festivals were held as the populace viewed play competitions, which were equally as important as the physical progress displayed in the Olympic

competitions. Museums filled with ancient relics and artifacts are to be found in Athens, also. The second week the tour will continue by deluxe motor bus through the historic Peloponnese. Such places as ancient Corinth (It was to the church there that Paul sent his magnificent letter on love), Sparta

Health Officials Wage War On Measles

(which eventually controlled all of Greece, Mycenae, and Olympia (where the Olympic games originated in 776 B.C.) will be visited. On the return to Athens the tour will include Delphi, the most important oracle of ancient times.

The third week the group will keep headquarters in Athens, but it will take daily excursions to other interesting places. The islands of Evvia and Aegina will be visited on different days. Other places will include Marathon and Thermoplae, two places every American school child reads about because of the critical battles fought there 500 years before the birth of Christ.

The group will return home Saturday, January 25. The tour director is Dr. McDonald W. Held, Chairman of the Division of Fine Arts and Head of the Department of Speech at Wayland Baptist College.

"Let's Keep Lamb County Spots" is the cry as school and county health officials launch an all out campaign against the dreaded disease, measles. Mrs. Dorothy Wood, nurse at the local school stated that she would be taking a bus load of children to the Migrant Health Project Clinic in Littlefield today in order that they might receive the necessary vaccines. Mrs. Wood has made the trip with the elementary students two other times this year.

The Migrant Health Clinic is open each Thursday from 8 a. m. to 5 p. m. for those wishing to take their children to receive immunizations. The clinic is located at 605 East 5th Street in

Littlefield. Medical authorities have issued a word of caution on who should have, and who should not receive, the measles vaccine.

Those who should have it are children 12 months through 10 years of age who have not had regular (10 day) big, red measles or previous measles vaccination.

Those who should not receive the vaccine include: Children sick with high fever on the day of the vaccination program.

Children who are highly allergic to eggs and feathers.

Children who are begin treated for cancer, Leukemia or tuberculosis.

Highlights Of My Trip To National 4-H Club Congress

BY LYNA PITTS

A trip to National 4-H Club Congress is perhaps the dream of every 4-er. That dream comes true is the opportunity and thrill of a lifetime. Out of 3 1/2 million 4-Hers only about 1600 are qualified to attend each year. New experiences await each delegate. If being in Chicago isn't enough for most, then staying at the largest hotel in the world might qualify. Most of the delegates find the windy city to be friendly and accommodating as it spreads out along the shoreline of Lake Michigan; a glimpse of the skyline from the Adler Planetarium offers a look at aging south Chicago and modern powerful north Chicago. 4-Hers are usually traffic stoppers during Congress week as they stroll up Michigan Avenue for meetings and tours, with the assistance of the Chicago Police Department. Chicago welcomes this group of patriotic young individuals, and appreciates the way they demonstrate their ideas.

The week of Congress is packed with meetings, tours, banquets, press conferences and new acquaintances. There is something meaningful for everyone to do the entire day and so little time to do it. The day starts early and usually in style. Style being perhaps a breakfast fit for a king and 2500 others sponsored by a leading corporation in America like Firestone, Ford, General Motors or International Harvester. The hosts for the affair might be 31 major executives out of 34 in the company. Yes this is the way it is all week for almost every breakfast, luncheon, and dinner. This is how business and industry feel about the group. They invest almost \$25,000 at each affair to encourage young people to achievement. Not only do they invest their time and of themselves. The programs feature world renowned speakers entertainers, and orchestras. Each delegate attends in a certain awards program. Major companies sponsor award dinners and programs for the various awards. The Simplicity Company sponsored the Dress Revue awards program. Their executives,

designers, and educational directors were there to host and consult with each state winner. The winners had the opportunity to discuss their future and many careers with people of experience.

Other than the banquet affairs and the awards programs there were various delegate assemblies starting with worship services in the Central Church of Chicago on Sunday morning and ending with a farewell dinner and ball Thursday evening, featuring an orchestra and band. In between was a Pop Concert with the Chicago Symphony and guest conductor Arthur Fiedler, a concert featuring the Cowsills, the International Livestock Exposition, an International Horse Show and Rodeo in the Coliseum. Tours arranged for the group included the Museum of Natural History, The Museum of Science and Industry, The Institute of Art, a bus tour of Chicago, a tour of the Chicago Police Department, and an endless list of others. On one occasion the youth took over the entertainment when the Dress Revue winners presented a "Fashion Campaign" for Congress and modeled their winning outfits.

each state delegation wore insignia to represent their state and as the week progressed each delegation indulged in friendly competition between the states. The Texas delegation consisted of 39 boys and girls and six chaperones. They grew like one big happy family, proud to be Texans and interested in filling every minute with fellowship and meaningful experiences. Each delegation usually got travel experience to and from Chicago either by train or plane. The Texas group traveled by route of Santa Fe Railroad with two pullmans chartered especially for them.

No story could tell of the joy and honor it was to be a delegate to the 47th National 4-H Club Congress. The delegates can only share their experiences available for all that follow them. For any 4-er who is fortunate to attend it is a wonderful dream come true.

Census Survey Of Buying, Home Improvement Here

Families and households in this area will be included in a nationwide survey of home repair and buying plans in January, according to Francis H. Wilmer, Director of the Census Bureau's regional office in Denver.

Census Bureau interviewers will ask householders about any plans to buy a house, a car, or major household appliances during the next year. Questions about home repairs and alterations will concern those made during the past three months and those planned to be made in the near future.

The Census Bureau conducts a survey of buying expectations and home repairs every three months to serve as a guide to economic growth. A mathematically selected group of households throughout the nation serves as a measure of what U.S. families own and what they expect to buy in the near future.

For example, a similar survey taken last July indicated that about 32 percent of all households owned the ir home, 27 percent owned two or more cars,

and about 24 percent owned color TV. Ownership, however varied according to family income: For households with incomes under \$3,000, 50 percent owned their home, 6 percent owned color TV and 4 percent owned more than one car. For households with incomes ranging from \$3,000 to \$10,000, 60 percent owned their home, 23 percent owned color TV and 25 percent owned more than one car.

Households included in the survey will not be identified. Their answers are confidential, and the information obtained will be used only for statistical purposes.

Census Bureau interviewer who will visit households in this area is Mrs. Rosemary McNeese of Amberst.

Mrs. H.J. Gilmore and Mrs. Roy Truelock visited Sunday afternoon with Mr. and Mrs. Leonard Gilmore of Shallowater. The ladies also visited Mrs. Cornelia Truelock and Mrs. Cantrell in the Amberst Manor Nursing Home.

Local Basketballers To Begin District Play

The Springlake-Earth basketball teams will enter into district play next week as they travel to Kress. With the opening of the district battle, the teams have a steady schedule of two games a week until February 14 when they meet Sudan.

The big games next week are at Kress on Tuesday and here against Farwell on Friday. All district games begin at 7 p.m., so come on out and back our fine teams, the Wolverines and Wolverettes of Springlake-Earth. They can't do it alone.

The Springlake-Earth Wolverines and Wolverettes battled with Idalou Tuesday evening and returned home with a 1-1 record. The Wolverines were defeated by Idalou 74-54 while the Wolverettes came through with a 74-62 victory.

High scorer for the Wolverines was Perry Don O'Hair with 16 points. Eddie Jones also made the double figures, shooting for 10 Wolverine points. Idalou had three men in double figures, led by Brad Brunson who tossed in 27 points.

The Wolverines were behind 39 to 24 at the half and were just unable to catch the powerful Idalou team.

The boys won the consolation trophy at the Hale Center Tourney January 2-4 being defeated in their first game against Happy, 57 to 36.

In further competition the Wolverines rallied to defeat Cotton Center 68 to 43 and Kress, 61 to 66.

The Wolverettes returned to their winning ways Tuesday evening in Idalou as they defeated that team 74-62.

Vicky Gregory lead the way, with 33 Wolverine points while Marsha Dawson and Becky Sanderson both ended the game in double figures with 24 and 17 respectively. Janice Foreman of Idalou, however, was high scorer for the game, hitting for 42 of their 62 points.

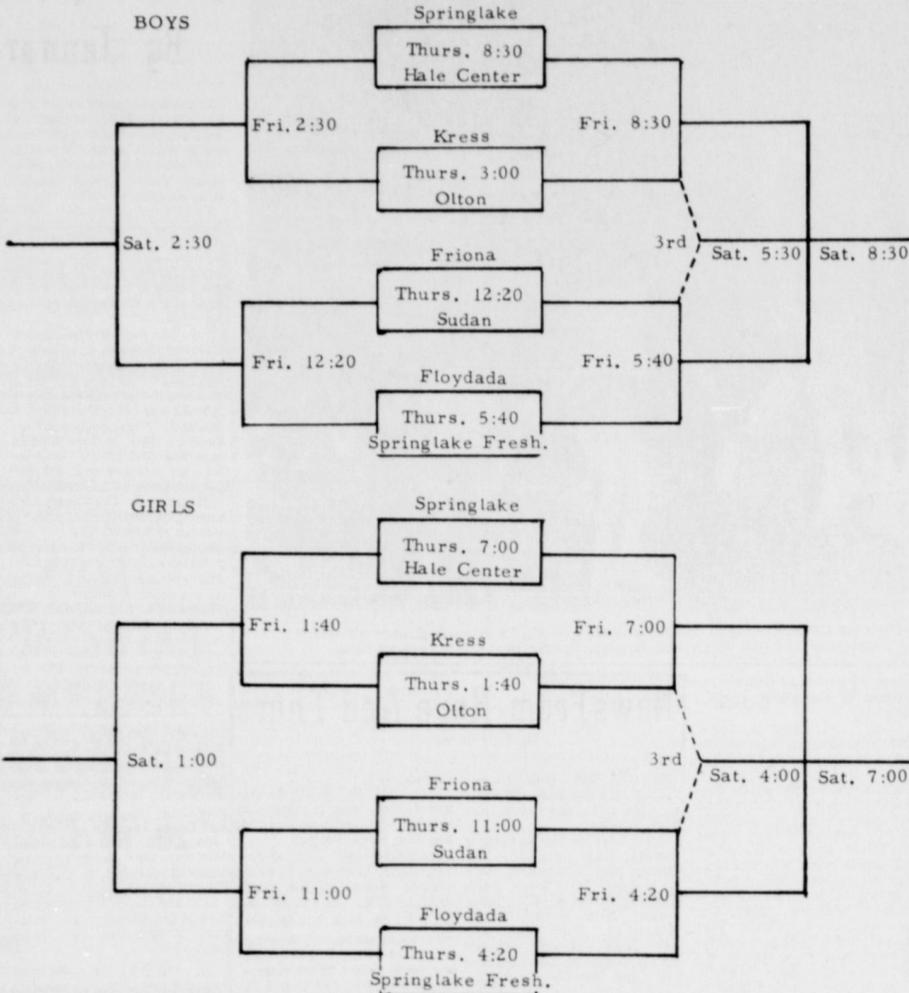

The Wolverettes were behind at the half 40 to 37 but rallied to the cause to win by 12 points.

In the Hale Center tournament last weekend, the Wolverettes began their tournament play by defeating Happy 79 to 26.

On Friday the girls defeated Farwell, 69 to 47 placing them in the finals against Hale Center, Hale Center was tough on their home court and the Wolverettes dropped the Tournament crown, 62 to 48.

Idalou won the B-boys game, Tuesday, 38 to 97.

SPRINGLAKE-EARTH "B" TEAM TOURNAMENT

8th Grade Win And Lose Health Concerns Beating Smoking

The Springlake-Earth eighth grade girls and boys basketball teams played host to Vega Monday evening in the local gym. The girls were defeated in their efforts on the court, but the boys emerged victors in a very tight battle.

Dropping their game 29 to 12, the junior Wolverines were up against a real strong Vega team. Richardson of Vega did the most damage to the local squad, hitting for 12 points.

Renee' Jones was high pointer for the Wolverettes with 4 points. Others scoring for the local team included Leah Galloway and Laura Dudley with 3 points each and Toni Sanders with 2 points.

At the end of the first quarter the Wolverettes were down by 5 points, 9 to 4. The second quarter proved profitable for

Vega as they increased their lead by 7 points, taking advantage of the Wolverines cold spell. By the time the local squad regained their tenique and started hitting the bucket in the third quarter, they were too far behind to catch up.

The eighth grade Wolverines fared better in their efforts on the court Monday evening as they defeated Vega 22 to 20. With this victory the boys are tied for first place in district play and have completed half of the season.

The final score was the result of the shooting efforts of seven Wolverines with Billy De Busk emerging as the teams high pointer, hitting for 5 important points. High scorer for Vega was Pingel with 10 points.

The game was the closest battle the boys have encountered

New York - Self-preservation seems to be winning out over self-indulgence. Americans bought an average of 40 million fewer cigarettes each day in the first six months of this year than in 1967, according to the National Clearing House on Smoking and Health. The agency also notes that since cigarette smoking was linked to cancer and heart disease in the

1950's 21 million Americans have quit smoking. Experts agree that a combination of factors, including labeling that says cigarettes are hazardous to health, spot announcements on television, and numerous anti-smoking drives are responsible for the drop in overall consumption. Surgeon General William H. Stewart observed that "The message is finally getting around."

thus for this year and tagged behind the entire game. The final quarter however proved the boys were out for a victory as they tied the score and went ahead to win. Nicho Triano was the hero of the evening as he hit for the winning two points with only 10 seconds remaining on the clock.
