

Each year as the month of May rolls around, school activities soar upward to an all time high pitch, but students, more or less are anticipating with eagerness the forthcoming vacation ahead. It takes a patient, determined, interesting teacher to infringe upon the daydreaming students long enough to teach them any semblance of education after May 1.

However, this does not apply to seniors who have by this time dis-covered the sweet taste of school days and are somewhat saddened at the thought of departure from their schoolday buddles and their carefree ways, as they realize that after graduation they are expected to resemble an adult and assume responsibility.

The seniors however, though saddened seem to take the situation in their stride with more grace and ease than do their who suddenly realise that TO SHORT WERE THOSE YEARS THAT THEIR CHILDREN WERE AT HOME, that now all too soon their steps will lead them away from the homestead into the waiting outside world. Some to enroll in various colleges and some will wander off to seek their fortune with jobs perhaps away from this small town that has been home (since no jobs are available to hold our youth of the community) to many for ever so long.

Thus, the month of May has long been a month of mixed emotions for both parents and stud-

This is not however the end of the road, because there are other joys one can look forward to.

No one can quite express how it feels when their child returns home from college on their first dragged by, with each day seeming to gather many more hours than the normal 24 hours a day.

Then it's passed and they are home, it is a joy that I myself now know, whereas last year I was sorely feeling this END OF SCHOOL AND LIFE AT HOME School Stage band under the direct-

### BUY BETTER-THAN-EVER U.S. SAVINGS BONDS

A new 50-star flag now flies over the capitols of 50 states—symbol of a new America that's bigger and stronger than ever before. And there's a better-than-ever U.S. Savings Bond, too, to help keep our new America strong.

Other advantages of U.S. Savings Bonds

You can save automatically with the Payroll Savings Plan. You invest without risk under a U.S. Government guarantee. Your

U.S. Savings Bonds are now better in two

1. They mature 14 months faster than before. In E Bonds \$18.75 now becomes \$25 in just 7 years, 9 months. 2. They continue to earn interest after maturity. If you hold your bonds for 17 years, 9 months, you get \$1.93 back for \$1 you put in.

Government guarantee. • Your money can't be lost or stolen. • You can get your money, with interest, anytime you want it. • You save more than money-you're helping your Government pay for peace.

Hemphill, Noyes & Co., 15 Broad Street, New York 5, N.Y. Members of the New York Stock Exchange

May 3, 1961

RESEARCH REVIEW This week we have singled out five stocks which appear partic-

ularly attractive in today's market. Four of these have been specifically singled out in our new Sentinel Service for the individual portfolio.

Amerada Petroleum has been acting well in the revitalized oil group, as rated by Sentinel Service. The stock is at a low level both bright future for this aggressive bright future for this aggressive

treatment industry. It is also the largest producer of corrosion resistant, glass lined steel processing equipment. It is highly rated by Sentinel Service. Earnings in 1960 were \$3.62 per share and this year \$4.00 seem a possibility, which may lead to liberalization of the \$1.40 dividend.

Scott Paper is one of the real growth stocks of the U.S., listed in Sentinel Service. It is a blue chip which has increased its dividend in every year in the last ten Worcester, Mass.; York,

ice. The stock is at a low level both historically and in regard to its asset value. In addition to large reserves in the U. S. the company has an exciting potential in its Libyan acreage in partnership with Continental Oil and Ohio Oil.

Detroiter Mobile Homes appears to be an outstanding value. The stock is selling at about 16 and had earnings of \$1.59 last year. It appears possible that 1961 will yield per-share results of over \$2.00 a pears possible that 1961 will yield per-share results of over \$2.00 a share. Mobile homes in the past five years have accounted for over \$2-million to \$6.6-million and are estimated as better than \$9-million to \$6.6-million and are estimated as better than \$9-million to \$6.6-million and are estimated as better than \$9-million to \$6.6-million and are estimated as better than \$9-million and \$1.00 million an 10% of total housing starts and predictions are that by 1964 over this year with a possible 75¢ a 200,000 will be sold by the industry.

Pfaudler Permutit is a most important factor in the water in earnings. This is an attractive capital gains speculation, in our opinion.

# Resident Reported Missing At Sea

Ned J. Painter, 43, of Pittsburg, Calif., a brother of Mrs. Marcus Messer of Earth, has been miss-ing off the coast of California since last Thursday.

Painter a former resident of Marth, had also lived in Sunray and Dumas.

He and his 4 year old son, Ricky were bass fishing off the shore when Painter apparently felt overboard.

Mr. Painter and his son left for a fishing trip early Thursday and Ricky steered the 20-foot skiff into Suisan Bay, three miles west of Pittsburg at 5:30 p.m.

Tuesday a Coast Guard search still had not turned up a trace of the man.

Mr. Painter, born March 17, her father, hit her in the head. 1918, operated a bakery in Dumas between 1951 and 1955 prior to moving to California.

CLASS IN REVIEW

By Nancy L. Alair Our class in review this week is 5-C. Every morning when the time for school to begin, Mrs. Morris reads a passage from the Bible. The children say "The Longie likes to collect pennies Lodrs Prayer" together and some and also marbles. His favorite one closes the prayer. They also subject in school is arithmetic. Lonnie's favorite color is blue, Flag and sing the Star Spangled Banner. The class has been learning different kinds of safety in their health class. Some of these Lonnie's teacher says that Lon- safeties are; safety at home, on nie is a very capable student. He the street, camp safety, water and has a very good personality and winter safety. In their art class can get along exceptionally well they are working on crafts. Some of these crafts that the children are making are: papermache, wood burning and carving, knitting, and plaster paris. In reading class the students have finished their reading book. They are reading from the S. R. A. laboratory and the Reader's Digest. In Geography they are studying about their northern neighbors. We are glad that the 5th grade is learning so much. -PL
