> STATEWIDE RAIN BACKED A statewide rain making effort may be launched to com-

bat Texas' prolonged drought, Sen.George Parkhouse of Dallas has called a September meeting of the Texas Water Resourses Com-

mittee to study this possibility. First to advance the idea publicly was O. G. McClain. Corpus Christi member of the committee, A petroleum geologist, McClain contended that rain faking is the "most economical, permanent and equitable way to get more water.

Even "with complete conserve vation and development," he said, "the water supply still would be terribly inadequate. What we need are some good rains. We cannot legislate them. They are coming naturally. The only alternative is to work for them."

EXPLANATION

Some May Ask . . . Why The Votes
The Answer Is This:

If the winners were determined merely by the ones who se cured the greatest number of subscriptions, then the number of years could not be figured in, but with bonus votes given in this manner, new subscriptions, renewals and the greater number of years can all figure in to give each candidate a better opportunity. This is the most attractive offer ever made in this community and if you do not thoroughly understand the plan, cofe in at once or Phone 4371, Earth, and have it explained without obligating you in any way.

Advisory Board

It is the sincere desire of this newspaper to conduct this drive from start to finish in a fair, honorable and impartial manner. Every precaution has been taken to safeguard the interests of particpants and absolute honesty in all dealings is guaranteed. However, not all wisdom lies with one man or institution; for that reason an Advisory Board has been selected whose function shall be to decide any question of sufficient moment that might arise furing the campaign, and from which a committee shall be selected to act as judges and count the votes the last night of the campaign.
