A most thought-provoking article appeared a few weeks ago in the Plainsman column of the Lubbock A-J, and since then I've tried to get a copy of it to reprint in this column. Other publishers apparently had the same idea, for since then it's been used by many newspapers all over the state. If you have already read it, read it again, . . . if you haven't then take time to read it and absorb it. If it doesn't give you "goose bumps", nothing will.

"On a cold blustery morning in January, a young man took the oath of office as Chief Executive of his Nation. He was 43 years of age, standing at his side his predecessor, a highly respected General of the Armies who just 15 years before had been in command of his country's forces when the German were defeated. The new Executive celebrated his ascension to office by sponsoring a party that lasted until 3 A. M. This Chief Executive owed his position to a small minority. "As soon as he took office this Chief Executive began to harass the big business firms of his nation by threats. Later, ignoring the Legislative bodies of his country, he sought to regulate all activities by executive order.

"Constitutional Government was being replaced by executive decree. "In order to satisfy the demands of his minority the Chief Executive condoned mob violence and endorsed street demonstrations which inevitably resulted in mass arrests. The Government courts invariably ruled in favor of the mob and their leaders, who were released for further use in later unlawful activities.

"Encouraged by his successes this chief Executive introduced legislation favoring his minority group. Each piece of legislation was introduced with a background of mob violence and the threat of vast street demonstrations accompanied by singing and civil disobedience.

"This Chief Executive established a direct communication with the Russian Dictatorship and actively supported a non-aggression pact with his nation's enemies to the East - The Russian Reds. "Who was this man? . . . think."

Answer to the above question on the Chief Executive; He was Adolf Hitler, the year was 1932. The General was von Hindenburg.

## Rep. Bill Clayton of Springlake Opposes Repeal of Poll Tax

Rep. Clayton was one of 27 members of the house of Representatives who voted against submitting the Constitutional amendment to repeal the poll tax to the voters. Clayton gives the following reasons for opposing the repeal of the poll tax.

Payment of the poll tax as a prerequisite to voting prevents ignorant, corrupt and disinterested citizens from voting, but the low fee levied (\$1.75

ent. The poll tax prohibits the purchase of votes by corrupt candidates and political machines and helps preserve the purity of the ballot box. If the poll tax is repealed the voter would not even be required to read or write the English language. In 1960 Texas had 5,831,000 inhabitants over 21 and 40 per cent of that number voted in the general election. The State of Ohio with a comparable 5,839,000 inhabitants over 21 and no poll tax had a 38 percent voting record at the same election.

Apparently, the poll tax as a prerequisite for voting has not resulted in decreased voter interest in Texas. The question of having to pay to vote carries no weight because if the poll tax is repealed we only substitute 25 cents for \$1.75 so you still pay to vote. It is possible that if the Federal Constitution is amended

ate confusion as some might lead you to believe. Abolition of payment of the poll tax could result in depriving the public schools of Texas between 1.5 to 2 million dollars annually. \$1.00 of the poll tax goes to Public Schools and 50 cents goes to the State general revenue fund with the remaining 25 cents staying in the county. Loss of this would result in other taxes. Re-

To keep the party lively, confetti was thrown on them in another part of the house. They even shook hands with a cold, cold hand, which was Debbie McAlpine, holding a globe filled with ice.

# WOLVERINES TAKE HOOT OUT OF OWLS 39-14

By Eldon Trotter

Friday night was parents night at the Wolverine Stadium, and the parents of our local Wolverines really had something to cheer about before the night was over, as the Wolverines demonstrated top quality ball playing. Yes indeed parents and fans alike were proud of the squad, proud of the sportsmanship they displayed in the face of odds. However it will be a long time before the excitement of the game with Hale Center dies completely down.

The game started with Springlake kicking off to Hale Center, but on the third play from scrimmage the Wolverines recovered a fumble on the Owl 25 yard line. The Wolverines fans had no more than got settled back in their seats, when Richard Mitchell broke loose for a nice 13 yard run up the middle of the field.

Mitchell hit the line once again for one yard and Thomas Gregory countered with 4 yards. Again Mitchell tried the center of the line and picked up three yards and on fourth down and the goal to go, Been unrolled razzle-dazzle play that started with a pitchout to Jerry Don Sanders, who started around left end but found a solid pass of Owens waiting for him and politely tossed a pass to Thomas Gregory in the End Zone for a touchdown.

Jerry Don Sanders tried for the extra point but failed when the ball went to the right side of the uprights.

Sanders kicked off to Hale Center and Larry Well took the ball on the goal line and returned it out to the 20 yard line before being dropped. On

three plays that netted Hale Center a loss of 8 yards, the Owls punted the ball dead on the 45 yard line.

Been started the Wolverines moving once again on the ground, and a third down, connected on a pass to Jerry Don Sanders who had gotten behind his defender, and outraced him for a 33 yard touchdown run.

Richard Mitchell was called on to carry the ball and he did just that by plowing up the middle of the line for the 2 point conversion and the Wolverines took the lead 14-0.

The Wolverines started rolling in the second quarter and rocked up 19 points with Thomas Gregory breaking loose for nice 48 yard run for the third trolley, the running play by Gregory failed on the extra point.

The fourth touchdown came on a 5 yard smash up the middle of the line by fullback Richard Mitchell, with Sanders kicking the extra point.

With only 21 seconds left to play in the second quarter, Richard Mitchell again bulled his way over center for his second touchdown of the night. Sanders kicked for the extra point but failed and at half-time the Wolverines enjoyed a nice 33-0 lead.

Beginning with the third quarter the second string played most of the remaining game. We can say one thing, as rough and hard fought as the game was, we were proud of every player that went on the field wearing the green and gold.

With six minutes and 49 seconds left in the third quarter Jerry Been broke loose for a nice 9 yard run around right

end for the final touchdown by the Wolverines, Jerry Don Sanders' kick was no good and the score was 39-0.

Hale Center broke the ice with a touchdown by Ken Ray Davis the left end, who scored from 12 yards out against the second string. The try for an extra point failed. The Owls scored again in the final frame when Townsend connected with Brooks on a 29 yard pass. Ronnie Sherrod ran the ball over for the 2 points. The second team kept possession of

the ball and moved it well against the Owls for the rest of the game, the game ended with the score 39-14 in favor of our local team.

Springlake is 7-2 for the season and 3-0 in district play. Hale Center is 1-6-1 for the year and 0-2 in the district.

This week the Wolverines enjoy a week off, but one thing for sure their spirits are high and if things go right, you will see the game of the year in Farwell Friday November 15. This game will decide who will represent District 3-A in the playoffs. We expect it to be the Wolverines!!!!!!!!!!!!

## Eighth Grade Clashes With Olton Today

The Junior High Eighth Grade football team will journey to Olton, this afternoon at 4:30 P.M. for District football play with the eighth grad team of that school.

The team, composed of 17 eighth grade boys, are coached by Alvin Lynn, assisted by Danny Smith. The group has played one good football this season, losing only one game, their first one to play, on Sept. 24 to Muleshoe, losing by a close margin.

With three wins and one last the boys are standing in a good position to win district this year.

The boys are looking forward to a clash with Farwell, there at 6 P.M. on Thursday Nov. 14, to determine who wins district.

Coach Lynn stated that the boys have shown great improvement in playing this season. Mark Holt has done a great job in calling plays for the team, and Donald Huff is one of the most improved players.

There is also a good group of seventh graders and they are showing good playing on the field.

## Wolverines Of The Week

No one player on the squad could have possibly been singled out as player of the week Friday, as everyone played an outstanding game. This was doubtless the week that the entire squad demonstrated "All out team effort" to rack up their 3 district game. Fellows keep up that type of playing and we'll take district!!!!!!!!

**REP. BILL CLAYTON OF SPRINGLAKE (Cont. from pg. 1)**

peal of the poll tax would remove registration of voters from the Constitution and place in the hands of the Legislature. Any future Legislature could weaken requirements for voting or allow registration so near to election dates as to invite problems the reform elements sought to end in 1902. It took a long time and hard struggle to get a statewide system of voter registration in Texas and it was not achieved until it was written into the Constitution in mandatory form. The poll tax receipt is a badge, both to the responsible citizen and the qualified voter. The kind of people we elect to public office is only as good as the voters themselves. To repeal the poll tax would not upgrade the caliber of the voter but would have the opposite effect--then it can be assumed that the caliber of people we elect to public office will be reduced.

If the poll tax is repealed, Rep. Clayton predicts the following things to happen in the next ten years to our State Government,  
1. Repeal of the Texas Right-to-work Law.  
2. Personal or Corporate State income tax, maybe both.  
3. A stronger civil rights measure than is pushed by the Federal Government.  
4. Liquor by the drink.  
5. Pari-mutuel gambling.  
6. Enact a State wage and hour law.  
7. Repeal of the 1963 registration law.

If these things happen we will see a further decay of the moral standards in Texas. It will discourage industry from coming to Texas and it will leave avenues open to corrupt State Government.  
For 60 years the Texas voter has voted as a free individual with a sense of obligation to his government and with appreciation of the value and importance of his right to vote. That is Democracy in its best form; it is Democracy through which a wonderfully fine, clean and solvent State Government has been established.  
Both the Democratic process and our State Government can best be defended if you will join hands in voting against the repeal of the poll tax Saturday Nov. 9th.
