

## Cut Weeds Or Pay....

Mayor E. C. Kelley announced today that the weed ordinance would be strictly enforced, within the city limits of Earth. He explained that with recent abundance of rainfall, the city seemed to be swarming with mosquitoes, regardless of semi-weekly spraying of the city. "In fact," he said, "we seem to be spinning our wheels. The excess amount of rain, coupled with the excessive amount of weeds growing on vacant lots, and in alleys, have held the effectiveness of chemicals almost to zero. The rain we can't control, but the weeds, we must do away with."

Letters were mailed Wednesday, asking property owners to destroy weeds on their property. If cooperation has not been accomplished within the week, these persons will be fined, according to the city weed ordinance. "This," he said, "must be done to the few, to protect the health of many."

## City Dads Approve Pioneer Natural Gas Rate Increase

★★★★★★★★★  
★ **NOSIN...** ★  
★ **With Polly** ★  
★★★★★★★★★

City dads met Monday night in a regular session to discuss various items of business on the agenda. Among the items included was the general service rate increase requested by Pioneer Natural Gas, also the selection of a shredder to purchase, and the mosquito menace to the city.

"Allah-Allah" are perhaps the words most prominently used by Mr. and Mrs. Weldon Barton this week, if their two youngest make any requests.

The Bartons, who have four children, found themselves suddenly living alone in one of the largest houses in Earth, which, perhaps, got larger and larger, as it became empty, emptier and emptier.

The Barton's oldest daughter is married, the number two daughter graduated in May, and enrolled in Tech for the summer sessions. Then, the two youngest Bartons attended a horseman's camp for youngsters in Oklahoma for a month....

There they were, just Helen and Weldon, with no sign of life left around the Barton stronghold, except their dogs.

Last weekend, the month was up, and without any prodding at all, the Bartons went down and retrieved their youngsters from camp. This week, I would bet those two Barton children are in A-One standing with their parents, and noise is perhaps music to the Barton's ears.

The Leon Fosters, whose son also attended the camp, found their house so empty that Mary just went to work until David came home.

Seemed David had grown a foot, when he returned. "Wow! Now watch it, folks, don't be eager to twist this statement around, to say we said David had three feet."

'NOSIN'

The early morning press conference in the lovely home of Mr. and Mrs. Bill Clayton was well worth the effort of jumping out of bed an hour earlier.

Ben Barnes, Speaker of the State House of Representatives, was very informative in his briefing of current work now going on to solve the water problems. He was quite eager to answer all questions, seemingly without veering from a direct answer, as is the custom of many politicians. But rather seemed to appreciate the opportunity to meet and talk with the approximately 40 people attending.

He praised Bill Clayton for his work on various committees during the last session. And termed the last session as a busy and most successful one.

He seems quite interested in higher education for the masses of this land.

He didn't seem to worry too badly about taxing liquor or cigarettes, since as he said, they are not necessities. But would give much more thought to taxing essentials.

We met many friends whom we do not see often, because of long hours involved in producing a paper.

If Ben Barnes does decide to become a candidate for governor, he might just be hard to beat.

## Equalization Board To Meet

The Board of Equalization for the City of Earth will meet in the City Hall from 8 p. m. to 10 p. m. on Friday, July 14, to determine, fix and equalize the value of all taxable property in the City of Earth.

Any and all persons interested or having business with the board should be present at the meeting.

Members of the Equalization Board are Perry Martin, W. C. Maxcey and Harold Miller. Alternates to the board are Bob Belaw and Rex Clayton.

Mr. and Mrs. Darrold Baldwin and daughter of Brownfield were dinner guests of the M. B. Baldwin's Saturday evening. The couples enjoyed a cook-out in the backyard, Darrold, who is a nephew of the local First Baptist pastor, is pastoring the Emmanuel Baptist Church of Brownfield.

Phil Raught, local office manager for the Pioneer Natural Gas Company, met with the group to explain the amount of the rate increase requested by his company. He also pointed out the necessity for the rate increase, by explaining the present revenue was insufficient and did not yield the company a reasonable return on its investment.

Following a lengthy discussion the group voted unanimously to approve the rate increase requested.

The group checked prices on shredders, submitted by three local implement dealers, for consideration of the council. They voted to purchase an Allis-Chalmers mower from Stephens and Sons Farm Equipment, at an approximate cost of \$335.00.

A lengthy discussion on maintenance equipment for the city resulted in a group decision to investigate the cost of new equipment. Since the idea that it was no longer feasible to repair the old worn out equipment seemed to be unanimous.

The group plans to investigate the price of maintenance equipment that is versatile, and can be used for more than one phase of maintenance work. They are hoping to find equipment that will serve as a grader, dirt mover, ditch digger and for various work projects needed in the city.

The group heard the reading of minutes of the previous meeting and approved them. They also checked over, and voted to pay current bills.

The mosquito menace, City dads agreed, has reached an all time high, since recent rains. Though the sprayer is being used twice weekly, this still has failed to combat the hazard.

City dads agreed the weeds must be controlled within the city limits, before the mosquitoes could be controlled. The weed ordinance, of necessity, will be enforced.

Those attending were Mayor E. C. Kelley, City Attorney, Andy Stroebel, City Secretary, Mrs. Betty McAlpine, Aldermen Bill Bryant, Eldon Parish, Dud Chesney, Doug Parish and Neil Pounds; also Phil Raught and Ross Middleton.

## Glen Vaughn Injured In Farm Accident

Glen Vaughn, a colored man, was injured Saturday morning at 10 a. m. on the Fred Clayton farm, northwest of Earth.

Vaughn was grinding feed when his foot was caught in the drive shaft of a tractor. He called for help, and a man working nearby, Junior Lewis, came to his aid. When Lewis arrived, Vaughn had turned off the motor, had freed himself and was standing by the tractor. He was rushed to the Methodist Hospital in Lubbock, by a local ambulance, where the foot had to be amputated just above the ankle.

It is not known how Vaughn's foot got caught in the drive shaft, or how he freed the foot before Lewis reached him.

Vaughn has worked for Fred Clayton about three months, and is the father of two children.

## Mr. and Mrs. Willis White Improving

Mr. and Mrs. W. C. White of Springlake, who were injured in a car wreck in Lubbock in mid-June, are reported to be improving slowly. Mr. White is said to be considerably improved, as he is allowed to be in a wheel chair a short time each day. Mrs. White, though still in serious condition, has been removed from the intensive care room, into the room with Mr. White.

MAYOR KELLEY SIGNS PROCLAMATION declaring June 10-15 as Western Week in Earth, to coincide with the big Earth Rodeo.

## Mayor Declares July 10-15 Western Week In Earth

Residents of the City of Earth and surrounding area are planning to take part in promoting the big annual rodeo this year, by dressing in old-fashioned and western attire.

Mayor E. C. Kelley signed a proclamation this week, declaring July 10 through July 15 as Western Week in Earth. Ladies are expected to wear old-fashioned attire, using the early day pioneer long dresses and bonnet and the men will garb themselves in western attire.

There will be two winners in the contest. The lady winner will be presented a dozen long stemmed red roses from the Earth Floral, and the gentleman will receive a straw hat from the City Shoe Shop. The Roping Club will present each of the winners with a plaque. Winners will be announced and presentations made during the rodeo performance Saturday night.

Contestants will be judged on consistency in their dress throughout the week, as well as being the best dressed.

Judges include Mrs. Melton Welch, Mrs. Eldon Parish, and members of the Roping Club. Earth merchants, businessmen and employees are asked to cooperate with the Western Week fad and dress in early day and western garb throughout the entire week.

A downtown parade which will begin at 4 p. m. Thursday, is expected to include several area roping clubs, as well as floats from clubs in the area. The Earth Chamber of Commerce will present trophies to three top performing sheriff's posses in the parade. The

Chamber will also give a \$15 check to the best float entered in the parade. The float judged second will receive \$10 and \$5 will be given to the one judged third best.

Following the big downtown parade, a pancake supper sponsored by the Earth Lions Club will begin at 6 p. m. in the Earth Community Room. The club will charge \$1 per plate for all anyone can eat.

The big rodeo performance will begin nightly at 8:30 p. m. featuring top rodeo performers in every event. Events include calf roping, bareback riding, saddle bronc riding, girl's barrel racing, bulldogging, bull riding, team roping. Also junior roping for cowboys under 16 years of age.

A specialty act by George Taylor, Fort Worth, famed trick and fancy roping artist is expected to draw much acclaim from his spectators nightly. He has performed in various cities across the USA, as well as in Canada and South Africa.

Glen Greene, Amarillo, will be producer of the big Earth Rodeo.

A handmade saddle will be given away during the last performance of the rodeo. Those wishing to purchase a ticket on the saddle may do so from any member of the Earth Roping Club, or member of the local Oddfellows Lodge.

The Rodeo office located at the Earth Arena, will be open Wednesday, July 12 from 9 a. m. to register entries in the rodeo. The rodeo is expected to be one of the largest ever produced in Earth. Tickets will be sold at \$1.50 for adults and 75¢ for children.

## Douglas Walden New Manager For Farmers Co-op Gin In Springlake

Douglas Walden, Littlefield, has been secured as manager for the Farmers Cooperative Gin, in Springlake. He and his family moved to Springlake, Saturday.

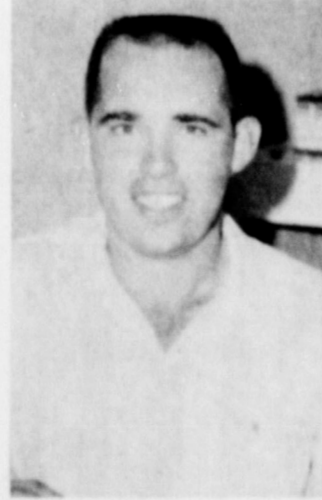

Walden has had eight years of ginning experience, having been employed by the Littlefield Coop Gin and Elevator for two and a half years, and at Spade five and a half years. The past three years, he has been engaged in farming near Littlefield.

Walden is a native Texan, having grown up in Littlefield, where he graduated from high school.

The Waldens have two sons, who will enroll as third and fourth grade students in August. The family is affiliated with the Baptist Church.

The Walden family is looking forward to becoming acquainted with Springlake-Earth area people.

Mrs. Sarah Clark returned Saturday night from Seagraves, where she had been visiting her daughter and family. Mr. and Mrs. Denison Dudley for the past two weeks.

DOUGLAS WALDEN

## NOTICE

The Board of Equalization for the Springlake-Earth School District will meet Monday in the school business office from 8:30 a. m. until noon. Any and all persons interested in school taxes are invited to be present.

## Barnes Speaker At Early Morning Press Conference

By Phil Middleton

At a press conference Wednesday in the home of State Representative Billy Wayne Clayton, Speaker of the House of Representatives of Texas, Ben Barnes discussed his views on various subjects of interest to people of this area.

Barnes opened the conference with comments on some of the things that the state government, in his views, needs more work to improve. After his opening talk, Barnes was asked questions by some of the many guests.

In his opening remarks, Barnes complimented the Springlake-Earth School System on the fine job it has done. He stated that it is a fine example of the kind of consolidated schools Texas needs.

Agriculture was another of the topics Barnes commented on in his opening. Barnes indicated that Texas has a poor program in marketing agricultural products. For example, Texas spent only around \$40,000 on this, the past two years, while California spent \$6,500,000 and Florida spent \$4,500,000 on marketing their agricultural products last year. This was given as one of the main reasons why California and Florida fruit is more popular than Texas' own fruit. Florida and California grapefruits bring about one or two cents more per pound in supermarkets than Texas grapefruits. As soon as Texas spends more money on marketing its agricultural products, some of the poverty in south Texas will come to an end, Barnes said that Texas will spend over \$1 million on research for more economical agricultural products, which will be a great help.

Water is the key to better and more economy in this area, and Barnes said Congress has been working on how to get more water into Texas. Billy Wayne Clayton was praised by Barnes for his great work in the attempt to solve the water problem.

Tourism is a great help in the economy of Texas, Barnes explained that tourists added an additional \$1 billion to Texas' economy last year. Barnes anticipates that the HemisFair in San Antonio and even the Olympics, to be held in Mexico City, will boost the economy of Texas greatly.

The question was asked about how far away is Texas from liquor by the drink, Barnes said that the 1971 session of the legislature in Texas would probably pass this bill. The explanation given for the 1971 session to pass the liquor-by-the-drink law, was because of the redistricting. If this takes place, the state will be run chiefly by representatives from the four metropolitan areas of Texas, and they will then probably pass it.

Barnes stated that he voted against this bill.

The main concern of Barnes on this issue is that Texas should more strictly enforce its present laws concerning liquor.

He said we already had liquor by the drink in private clubs in Texas. He was opposed to the teen-age consumption of liquor. He explained it was the cause of most juvenile crimes.

Next, a question about minimum wage laws was asked. Due to the federal law on minimum wages, Barnes thought this problem had been much

EARLY MORNING PRESS CONFERENCE WEDNESDAY hosted by Mr. and Mrs. Bill Clayton was attended by representatives of the area press, television and radio. Ben Barnes, Speaker of the State House of Representatives, answered questions of all sorts, pertaining to state affairs. Pictured left to right, Speaker Barnes, Judge Jim Mangum and Polly Middleton, News-Sun reporter.

improved, Barnes insisted that the real key to this problem in Texas was to get the Mexican-American children, whose parents are migrant workers, out of the fields and into school. He strongly emphasized the need for teaching these children English in the lower grades, so they would not get behind and drop out later.

Barnes was asked about the possible sources of a raise in taxes. Barnes stated that there are many sources of a tax raise without hurting the people of Texas very much, including a larger tax on beer and whiskey, and an amusement tax. Texas rates 43rd in the nation in taxes paid per person. Texas people pay only \$208 per person per year in taxes. The natural resources of Texas have kept taxes down in the state. Barnes feels that the economic future of Texas is exceptionally bright because of these natural resources and other factors. Barnes also stated that education is definitely on the rise in Texas.

A question about the possibility of getting a medical school in the area was asked. Speaker Barnes said that chances for this area were very good, and that Texas needs more medical and dental schools. He indicated, however, that preparations had to be made before a medical school could be successful. In San Antonio, the people were not ready for a medical school when they got it, and this area must show that it is ready for a medical school.

Barnes was asked who he thought might run for Governor in the next election, and if he might possibly run. If Governor Connally does not run, Barnes stated that he might run for Governor. He felt that probably Franklin Spears, Don Yarborough, and the Lieutenant Governor were probably some of the prime candidates for the next governor's race.

Following other questions, Speaker Barnes left for Waco, where he was scheduled to give a speech at noon.

## Petition Filed In Protest Of Hospital District Election

A group of 22 men filed a petition in the 154th District Court on Friday, June 30, contesting the May 27 election, which created an Earth-Springlake Hospital District.

The suit entered against County Judge Jim Mangum and County Attorney C. R. Wilkinson, alleged that there were several irregularities concerning the election, and called for a new election to be held.

On the petition, alleged claims that improper conduct of the election resulted in many voters being denied the privilege of voting. Thus causing the hospital district election to be approved.

They also alleged that the election judge was not furnished with a list of owners of taxable property, and as a result of this, the contestants also alleged that 60 persons were permitted to vote that were not qualified.

A representative of the Hospital Board said Wednesday that a list of registered voters was presented to the election judge and no one was, or can be denied the privilege of voting if they are qualified.

The petitioners also claimed that the county commissioners court had no authority under the law to establish only one voting place, and that under the law, the voters should have been able to vote in the precinct of their residence.

A reply from a member of the Hospital Board said that when HB 768 was passed by the legislature, and signed by the governor, a statute was enacted, stating that one or more polling places may be used. One provision in the act declares that the district is to be a political subdivision of the State of Texas, and there is a question as to whether this election would or would not be subject to election codes of the county. To have more than one voting place would require a division of the district into precincts. Because of the time required and expense involved, the election had only one voting place.

Added to the claims made by the 22 men asking for another election, was the charge that notice of the election was not publicized enough to inform all the people in the district that an election was being held.

The spokesman for the Hospital Board said that all requirements for publication were met, and the board of directors tried in every manner to be fair, and made every effort to inform all the people of the election, and the issues that were involved.

The election story was carried in three or more papers in Lamb

County, plus others. The election was also announced on a television station serving the hospital district.

The petition further claimed that the absentee voting period was of shorter duration than allowed by law.

County commissioners ordered the original vote after receiving an election petition May 8, containing what the court adjudged to be more than 100 signatures of resident, qualified property-taxpaying electors in the proposed district.

Those contesting the election claim that people signing the petition presented to the commissioners court requesting the calling of the election were not qualified electors.

They too claimed that the

County Clerk was not legally qualified to conduct the absentee balloting nor was the absentee polling place in the proper location.

It also asked an injunction against the new district's board of directors preventing them from conducting financial business on behalf of the hospital until the election contest is resolved.

In the near future, a hearing will be held to determine if the charges brought against the election are to cause the election to become void or invalid.

The board said they had in no way planned to antagonize any one, and tried at all times to give out information to any and all interested in the hospital district.

## Bank Deposits Up Over Same Period Last Year

Bank President, Joe Temple said this week that deposits in the local Citizens State Bank on June 30 showed an increase over the same period of time last year.

Current deposits at the bank now total \$2,990,308.88, as compared to \$2,595,684.15 on June 30 in '66. These figures show a deposit increase of \$394,624.73.

In speaking of the loan figure at present, as compared to the same period of time last year, Temple said, "They're up, too, by a total of \$250,824.04. He gave the two figures as \$2,281,517.56 in 1966, and a total of \$2,532,341.60 at present.

Temple said though we have and are yet receiving lots of rain, it seems to have been quite profitable for the most part, where hail damage has not been received. "In fact," he said, "The crop outlook seems to be better than usual at this time of year."

## Sirens Sunday Night Sends Area People Scurrying To Cellars

Low hanging black funnel-type clouds reported in the area were the cause of blasts from the local siren, Sunday night about 10:30 p. m. that sent local people scurrying to cellars.

At approximately the same time, sirens were sounded in Littlefield, and people reacted in quite the same manner, seeking shelter in the nearest cellar.

Though residents in Earth and Littlefield were unaware of the dangerous clouds, few stopped to ask questions, before taking refuge in cellars.

However, high winds or damage has not been reported in the Earth-Springlake area, as the clouds dissipated or passed over without swooping to the ground.

Mrs. Bonnie Haberer in Pleasant Valley said she received 3.15 inches of rainfall over the weekend, Monday afternoon, water still covered places on Highway 70 between Earth and Milesheo.

Rain fell again early Tuesday morning, and continued for about two hours. Rainfall in the amount of from 10 to 11 inches has fallen in the area through June and including the first four days of July, June went out with a splash and July came in likewise.

Mrs. Sonny Hitt and children moved to Post, Thursday, where they are residing with her parents, Mr. and Mrs. A. T. Nixon.

## Smith-Parish Engagement Told

Mr. and Mrs. Howard L. Smith, of 683 No. Villa, Dinuba, California, announced the engagement of their daughter, Miss Marsha Lynn Smith, to Dennis Payton Parish, of Earth.

The wedding will be August 19 in the First Baptist Church of Dinuba.

Miss Smith is a graduate of Dinuba High School. She is enrolled in Fresno State for the fall semester.

The prospective bridegroom is a 1964 graduate of Springlake-Earth High School, and is a student at Fresno State College.

MARSHA LYNN SMITH

## Junior GA's Make Gifts For The Sick

The Junior GA's met Monday July 3, at 10 a. m. in the home of Mrs. R. S. Cole.

Debbie Green, president, opened the meeting, and led the group in repeating the GA Allegiance.

Leah Galloway read an article on prayer, urging everyone to pray for our country.

The Scripture from Genesis 15:1-15 was read by Regina Cole with Cynthia Raught reading the prayer calendar. Debbie Green led the prayer for missionaries.

Plans were made to attend the camp at Plains Baptist Assembly for Juniors on July 10, 11, 12, and for Intermediates July 12, 13, 14.

Each girl present carved a poodle dog from bars of soap. These, with a wash cloth, tied with a ribbon, are to be given to sick people, and shut ins the girls visited this week. Those present were: Debbie, Regina, Leah, Cynthia, La'wana Marshall, Teri Carol Smith, Kathleen Anderson and a visitor, Donna Stove of Lubbock, and Mrs. Cole.

## Sherian McAlpine Feted With Lovely Wedding Shower

Miss Sherian McAlpine was honored with a bridal shower in the lovely home of Mrs. Billy Hodge, on Saturday afternoon.

Miss Norma Kelley registered the guests.

The serving table was covered with an orchid cloth with a white net overlay, dotted with colorful sequins and centered with an arrangement of white and orchid flowers. A miniature bride and groom stood in the foreground.

A cluster of white bells, tied with orchid bows, decorated the entrance to the dining room, to further carry out the bride's chosen colors of orchid and white.

Corsages of white mum petals were presented to the honoree, her mother, Mrs. E. R. McAlpine, and to Mrs. Clark, mother of the prospective bridegroom.

Dianne Hodge and Teresa Jo Vining served cake, pineapple

## Debbie Hitt Honored With Farewell Party

La Donna Sigman was hostess at a farewell party honoring Debbie Hitt, recently in the home of her parents, Mr. and Mrs. V. J. Sigman.

The group enjoyed a cook-out on the lawn of the Sigman home and played games of volleyball and twister.

Following the party, the group attended the Little League ball game, at the City Park.

Those attending included Criss Dent, Janet Britton, Marian Dawson, Becky Littleton, Susie Temple, Camille Haberler, Karen Dear, the hostess, La Donna, her parents and the honoree.

MRS. BOYD CLAYTON (Jerrolyn Elza)

## Elza-Clayton Exchange Vows

South Texas, the Gulf Coast and Mexico were the honeymoon destination of Boyd Lee Clayton and his bride, the former Miss Jerrolyn Elza of Temple. They were married Thursday evening, June 15, at the Western Hills Church of Christ in Temple.

James LeFan was the officiating minister. The A Capella Chorus presented nuptial music. Soloist was Mrs. Johnny Boren of Belton.

Flower girls were Cindy Clayton of Earth and Jennifer Martin of Abilene. Ted Presley of Abilene and Gary Tucker of Sundown were candlelighters and ushers.

Ring bearers were David Driver of Temple, and Melody Martin of Abilene.

The bride is the daughter of Mr. and Mrs. W. H. Elza, R. 2, Temple. Mr. and Mrs. F. D. Clayton of Earth are parents of the bridegroom.

Mr. Elza escorted his daughter to the altar. She selected a floor-length silk peau de sole sheath, caged in handclipped rose point Chantilly lace, with bishop sleeves and a detachable Watteau train. Sequins accented the neckline. A caplet of organza leaves, outlined with seed pearls, held a chapel length veil of silk illusion. She carried a bouquet of stephanotis centered with a white orchid.

Attending the bride, as maid of honor was Miss Barbara Wadle of Big Spring. Bridesmaids were Miss Brenda Money of Little River, and Miss Sandra Henderson of Earth. Junior bridesmaid was Robin Driver of Temple. The bride's attendants wore floor length gowns of yellow peau de sole with a panel in the back. The carried single long-stemmed yellow roses. Their headpieces were yellow organza bows, with veils of yellow illusion.

Norman Clayton served his brother as best man. Groomsmen were Dale Dent, Jerry Bean, both of Earth, and Gary Tucker of Sundown.

The Fellowship Room of the church was the setting for the reception. The bride's table was laid with a white Chantilly lace tablecloth, over yellow satin. Punch was served from a silver punch bowl. The cake was a three-tiered collared cake, topped with a bride and groom, and accented with yellow roses. Silver candelabra and the bride's bouquet formed the centerpiece for the table. Serving at the bride's table were Miss Ellen Colley, Mrs. C. B. Driver, of Temple; Mrs. Bob Martin of Abilene, and Miss Geneva Cobb of Rogers.

The groom's table was laid with a dark brown cloth. Coffee was served from copper appointments. The groom's cake was a chocolate wedding ring. Serving at the groom's table were Mrs. Jim Beck of Temple, Mrs. Lee Roy Kohring of Buckholts, Miss Bonnie Garfield of Belton, and Miss Vickie Lowrey of Earth.

Presiding at the bride's book were Miss Peggy Wierth of Ben Arnold and Mrs. Delbert Jeter of Grand Prairie.

Others in the houseparty were Mrs. Arnold Lips of Austin, Mrs. Ed Henson of Temple, Mrs. Leon Henderson, Mrs. Boyd Lowrey and Mrs. Norman Clayton, all of Earth.

For travel, the bride chose a yellow linen suit with beige accessories. The orchid from her bouquet was her corsage.

The bride is a 1964 graduate

## Padon Family Reunion Held In Springlake

By Mrs. Tom Stansell

The Padon family recently held its annual reunion in Mr. and Mrs. Almon Whitford's home, with its beautiful shady back yard, and its basement, containing children's playroom, including a mysterious and fascinating tunnel.

Relatives attending the event were Mr. and Mrs. Raymond Padon and their daughter and family, Mr. and Mrs. Johnnie Firestone, Beverly, Delores and Brenda, all of Portales, N. M.; Mr. and Mrs. Almon Whitford, daughters and families, Mr. and Mrs. A. J. Jones, Mike, Gayle, Sharon and Karen of Jal, N. M.; Mr. and Mrs. Richard McCaskill Judy and Justin of Lubbock; Mr. and Mrs. Earl Kellar, Elizabeth and Jennifer of Earth; Mr. and Mrs. J. E. Bailey (Ola Padon) of Ft. Sumner, N. M.; Mr. and Mrs. Frank Phillips (Geraldine Bailey) Jimmie and Mark of Clovis; Mr. and Mrs. J. E. Padon from Anton and daughters, Mr. and Mrs. George Clark, Roger and Carla, Olton; Mrs. Ina May McQuarters of Littlefield; Mr. and Mrs. B. V. Padon, daughter and family, Mr. and Mrs. Jimmie Banks, Dalpha, Jimmie and Ray Van, all of Springlake; Mr. and Mrs. E. W. Johnson (Wilma Walters and husband) of Amarillo; their daughter and family, Mr. and Mrs. Roy Armstrong, Mitchell, Shirley and Shelley, also of Amarillo; Mr. and Mrs. Curtis Jackson of Lubbock; Mike Walters of Cherokee, and Mrs. Bill Crydermen, Wanda and Rhonda of Boulder, Colorado, (daughter and granddaughters of Jess Padon of Washington.)

Friends who attended were Mr. and Mrs. Walter Mathis and Mr. and Mrs. Gus Sherrill and Paula of Tahoka, and Miss Kathie Bibby, daughter of Mr. and Mrs. Orlan Bibby, of Springlake.

member of the Business Administration Club.

After returning from their wedding trip, the couple will live in Alpine, where the groom is enrolled in graduate school at Sul Ross State College.

The groom's parents were hosts Wednesday night, for a rehearsal dinner, held at the Holiday Inn in Temple. Gifts were presented to the attendants by the bride and groom.

ALICIA WASHINGTON

## Engagement Announced

Mr. and Mrs. James Washington of Springlake announce the engagement and approaching marriage of their daughter, Alicia, to Tommy Gregory, son of Mr. and Mrs. Carl Gregory of Earth.

The wedding is slated for 8 p. m., August 18 in the First Baptist Church in Springlake, with Rev. M. B. Baldwin officiating.

The public is invited to attend the wedding.

## Talbutt-Barker Exchange Vows In Home Ceremony

Mrs. June Talbutt and Douglas Eugene Barker, both of Lubbock exchanged wedding vows Thursday, June 29 at 6:30 p. m. in the home of the bride's parents, Mr. and Mrs. C. O. Taylor of Earth.

Rev. Walter E. Driver, pastor of Earth Methodist Church, officiated in the double ring ceremony.

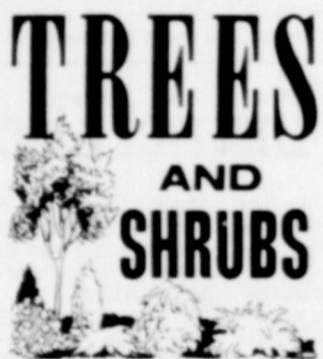

The groom is the son of Mr. and Mrs. E. E. Barker of Lubbock,

and is employed by Baldridge Bakery in Lubbock. He was previously in the Navy, serving in Viet Nam, and attended school in Colorado Springs, Colorado.

The bride is a student at Texas Tech.

The couple is at home at 302 E. Purdue, in Lubbock. A reception was held in the home of the bride's parents, following the ceremony.

## Glue Sniffing Considered Serious Problem Among Today's Youth

"Big Trouble in a Tube" a book on glue sniffing, will soon be released by Texas Alcohol Narcotics Education (TANE) Rev. Albert Tucker, Executive Director announced today.

Citing glue sniffing as a most serious problem, causing crime, sickness and death, and leading to hard narcotics addiction, the new book explains in words and pictures glue sniffing's effect on the body and the mind.

It also gives symptoms that might lead parents to suspect that their child might be sniffing glue. These include "unpleasant breath odor, frequent spitting or large amounts of saliva, nausea, loss of weight, irritability, inattentiveness, drowsiness, sudden loss of consciousness, buying large amounts of glue or plastic cement, and loss of interest in normal activities of youth."

The book is written by Lindsay R. Curtis, M. D. and is illustrated by Paul Farber. It is geared for the juvenile audience.

TANE, a non-profit organization supported by Texas churches of 19 denominations, hopes to put the books in every Texas school, Rev. Tucker said.

Of children who have died as a result of sniffing glue, six died after inhaling the vapors with plastic bags over their heads.

The sniffer's brain is affected, along with his kidneys and even the bones, according to "Big Trouble in a Tube."

## Foods Suggested For Appetizing Summer Meals

Summer weather calls for something refreshing at meal time. Why not try cool, tasty melons? Ask Gwendolyn Clyatt, Texas A&M University Extension consumer marketing specialist.

Supplies of cantaloupes are good; the watermelon season is moving into full swing and honeydeys are also available, says the specialist.

For a refreshing starter on a summer morning, she suggests wedges of lime, generous spoonfuls of chilled canned fruit cocktail or fresh fruits and cantaloupe half-shell for a delightful breakfast treat. Put the assorted fruits in chilled cantaloupe and squeeze lime juice over all.

Fresh peaches are more plentiful and flavor is improved. Oranges and grapefruit are still available as are fresh strawberries. A wider variety of soft fruits are available including grapes, plums, cherries and nectarines but quality and price vary considerably, points out Mrs. Clyatt. Pineapples, bananas and avocados are also suggested as worthy of consideration.

As a result of the weather, vegetable prices vary and quality is not always up to standard, says the specialist. Among the best choices are eggplant, blackeye, purple hull and crowder peas, okra, bell peppers, squash, corn, tomatoes, carrots, cucumbers, collards, mustard and turnip tops. Head lettuce quality is some better but prices are relatively high, she adds.

Frying chickens are wearing reasonable price tags and in addition, chicken hens and turkeys represent good values. Turkey rolls and roasts in foil pans are gaining favor as

tempting convenience items. Eggs are a bargain, says Mrs. Clyatt.

Chuck cuts continue to be good choices at most meat counters. Boneless rolled roasts, excellent for roasting cooking, are featured in some markets. Hams and cured picnic are good pork values. Weiners and cold cuts are reasonably priced convenience meats and frozen fishery items are plentiful, says Mrs. Clyatt.

## Our Boys In Service

PHU BAI, VIETNAM (HTNC) -- Marine Corporal William A. Coon, son of Mrs. John A. O'Neill of 3920 Wentworth Avenue, Port Arthur, Texas is serving with the Communications Company, Headquarters Battalion, Third Marine Division at Phu Bai, South Vietnam.

His unit forms part of the element of the Marine Corps air-ground team which conducts large-scale search and destroy operations against the enemy in South Vietnam.

His unit is also involved in a large civic action program. This program is designed to assist the Vietnamese people in completing self-help projects to better their way of life, and makes use of equipment and materials made available through the Marine Corps Reserve Civic Action Fund. Marines in Vietnam provide the know-how and guidance to the people carrying out these projects.

CHAMPIONSHIP TEAM HONORED with back yard hamburger cook-out Saturday evening at the Ardis Barton home. The Babe Ruth team will play in the championship tourney July 11-15. Back row, left to right are: Jimmy Banks, coach, Steve Jones, Johnny Eagle, Freddie Helms, Hoyt Glasscock, Steve Sanderson, Terry Bridge, and Kent Parish. Front row, left to right, Nicho Triana, Donnie Wheat, Eddie Alair, Tony Barton, Chris Brock and Greg Slover.

## Babe Ruth Team Honored With Cookout

A cook-out was held Saturday evening at 7:30 p.m. in the back yard of Mr. and Mrs. Ardis Barton's home, honoring the Babe Ruth team, which won the championship of its league. Hamburgers, ice cream and cookies were served to members of the team attending.

Providing the food for the team were the parents of the boys. Parents attending the cook-out were, Mr. and Mrs. J. B. Eagle, Mr. and Mrs. Cecil Slover, Mrs. Vivian Parish, Sandy Sanderson and the hosts, Mr. and Mrs. Barton.

In appreciation of the job done by the coaches, Jimmy Banks and Joe Neil Ellis, the team purchased shirts for the two. Ellis was unable to attend, but did receive a shirt.

Members of the team who attended were Terry Bridge, Steve Sanderson, Hoyt Glasscock, Eddie Alair, Kent Parish, Greg Slover, Chris Brock, Steve Jones, Freddie Helms, Johnny Eagle, Nicho Triana, Donnie Wheat and Tony Barton.

## Group Takes Steps To Improve Cotton Classing Procedure

Another step toward improvements in cotton classing procedures was taken June 15 when representatives of Plains Cotton Growers, Inc. and other cotton producer and ginner groups met in Dallas with USDA officials.

Discussion centered around instrument classing of cotton in future years, but there was also assurance that USDA in 1967 would place added emphasis on the accuracy of its human classers, especially in the High Plains area where quality improvement is on the upgrade.

Stanley Rademaker, Director of the Cotton Division of USDA's Consumer and Marketing Service, said extra care would be taken in the assignment of classers to the Lubbock, Brownfield and Lamesa offices and that current plans call for doubling the number of classing supervisors.

A report on work in the field of instrument classing gave hope that instrument classing of cotton is closer at hand than many people realize and could be effected in the near future, according to Donald A. Johnson, PGC Executive Vice President, who represented PGC at the meeting along with J. D. Smith of Littlefield, President.

Johnson reported that at least one, and possibly as many as three, instrument classing

"lines" will be set up this fall in Memphis, Tennessee to evaluate both individual instruments and the system. He said all instruments which are sufficiently developed at that time will be tested in the lines.

Machines likely to be included are a combination colorimeter-trasher, length analyzer, improved micronaire tests and possibly strength and uniformity instruments.

Another meeting with these same USDA officials and others is being planned for next spring when the results of this fall's operations, as well as the latest developments from other sources, are known.

"At that time," Johnson said, "we will be in a much better position to determine which, if any, of the instruments can be put into actual classing-office operation in the fall of 1968."

He pointed out that use of instruments to more exactly define the spinning value of cotton fibers will eventually be of great benefit to cotton producers. "And, incidentally, the use of instruments will have to be the result of producer and ginner efforts. No help at this time at least can be expected from other segments of the industry," he added.

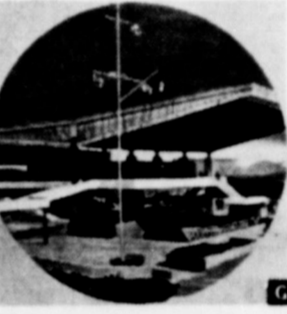

## NOTICES

Girls between the ages of eight and sixteen, who want to play softball are asked to sign up at the Earth Oil and Gas Co. There will be two age groups, 8-12 and 13-16. It is hoped that enough girls to make four teams will sign up.

The Earth-Springlake Business Men's Association meeting has been postponed from Thursday, July 13 to July 20. The postponement was made in order to prevent conflict with the rodeo performance. Everyone in the community is invited to these meetings.

Friends and relatives are invited to attend the wedding of Miss Sherian McAlpine of Earth and Dwight Clark of Okton, at 3 p.m. Sunday, July 9 in the First Methodist Church of Earth.

## SEA FARE AT EXPO '67

While sampling any of 90 seafood dishes at the Atlantic Provinces Pavilion, Expo '67 diners can look out the window and watch the construction of a 47-foot schooner!

## 148 Million In Rural Loan Funds Available

The Farmers Home Administration has been authorized to insure an additional \$148 million of rural loans according to word received by Mr. L. J. Capplemann, Farmers Home Administration Texas State Director.

This action, announced in Washington by Secretary of Agriculture Orville Freeman, will enable USDA's Farmers Home Administration to commit an additional \$30 million in Farm Ownership loans and \$118 million in Rural Housing loans to low and moderate income families.

Previous allocations of funds for Farm Ownership loans were exhausted in February. There are some 20,000 applications and unfunded loan dockets currently being held by the Farmers Home Administration.

Funds for Rural Housing loans to low and moderate income families were exhausted in April. The Farmers Home Administration is now holding some 42,000 applications and unfunded loan dockets for Rural Housing loans.

to farmers and other rural residents in open country and small rural communities with populations of not more than 5,000. Loans are made to construct and repair needed homes and essential farm buildings, purchase homes or buy sites on which to build homes. The maximum term is 33 years. The interest rate on loans to families with low and moderate incomes is 5 per cent.

Farmers Home Administration services are made available through more than 1,000 county offices serving the 3,000 rural counties in the United States, Puerto Rico, and the Virgin Islands.

The county office for Lamb County is located in the basement of the Post Office Building in Littlefield, Texas. The county supervisor is Truman J. Jones. Office hours are from 8 a.m. to 5 p.m. every Monday and Thursday. Mr. Jones will be glad to discuss the Farmers Home Administration loan programs with interested individuals.

Both the funds for Farm Ownership and Rural Housing loans are being made available immediately.

Farm Ownership loans are made to buy land, construct or repair buildings, improve land and refinance debts. They are repayable over 40 years and bear 5 per cent interest.

Rural Housing loans are made

## Local Impact Of FHA Credit Felt In Lamd Lamb County

Loans made by Farmers Home Administration is having a strong economic impact in strengthening the rural economy in Lamb County. This was pointed out by Truman J. Jones, local county supervisor, when a recent review of the Farmers Home Administration supervised credit program revealed that \$156,055 was loaned for the purchase of fertilizer and other chemicals in Lamb County for this current crop year. This is just one example of the improved farm management practices that is financed by Farmers Home Administration that affects most business firms in every local rural community.

It is estimated that 90% of the total amount of \$156,055 loaned this fiscal year by the agency has been spent by borrowers doing business with local merchants in this county.

This impact on the local economy is in addition to the added income that will result at harvest time when improved farm management practices will increase total income. The Farmers Home Administration policy is to strengthen the family farm as well as strengthen the local rural communities.

This policy is being implemented in this area by furnishing credit for improved farming practices and making loans to establish young farmers in the farming business.

Truman J. Jones, County supervisor and Neil Wood have been busy the past few weeks in making on-the-spot farm visits in an effort to cooperate with all the Farmers Home Administration borrowers in Lamb County in carrying out good farm management practices.

MR. and MRS. CLIFFORD HOPPING

## Hoppings Hop Plane For Convention

Lion Boss, Clifford Hopping of the Springlake Lions Club and his wife, Eva, are currently in Chicago, where they are attending the Lions International Convention this week.

The twosome left from Lubbock by jet Sunday, and plan to return home Sunday, July 9.

The convention began in Chicago on Monday, and will continue through the week.

Cokie, Scottie and Corey, sons of the couple, are spending the week in Littlefield visiting their grandparents, Mr. and Mrs. Sid Hopping.

## Three Earth Youths Return From Horsemanship Camp

David Foster, Craig and Weida Barton returned home July 1st from a month of roping, riding, barrel racing and goat tying at the Youree Horsemanship Camp in Addington, Okla.

Dale and Florence Youree own and operate this unique school for young cowboys and cowgirls, on their ranch west of Addington. This is the 6th year the school has been in session.

The young cowboys and cowgirls receive instruction in roping, barrel racing, western pleasure riding, grooming and care of their horses and the increasingly popular event of goat tying. The instructors are all highly qualified and experienced. Donna Davis, the National Champion Intercollegiate goat-tyer was part-time instructor in this event at the camp. Dale Youree, roper and horseman, has been an active member of the Rodeo Cowboys of America, since 1953.

The Camp accommodates about 75 campers and personnel. A beautiful new ranch style building featuring 3,160 square feet, housed the group for the first time this year. A large dining and recreation area is in the center with dormitory type rooms on either side.

The day started about 6:30 with a good breakfast of hot biscuits, meat, eggs, jelly and milk. The youngsters fed and groomed their own horses. Roping, barrel racing and riding were on tap for the morning session. Lunch and rest from 12 until 2 p.m. Barrel racing, goat tying, roping and western pleasure riding were on the agenda for the afternoon session. The evenings consisted of rodeo, trail rides, swimming and just relaxing. The Youree Camp bus transported the campers to church in Addington on Sunday.

There were 60 campers from twelve states attending this year. Young cowboys and girls from the ages 9 through 19, stayed from one to four weeks. Campers came from states as far away as California, New Mexico, Kansas, Arkansas, Mississippi, Missouri, Louisiana, Michigan, Iowa and of

course, Earth, Texas.

June 30, the last day of the school, featured a camp rodeo with the campers entering as many events as they wanted to. Craig Barton won first place trophies in flag racing and roping. Weida Barton and David Foster won ribbons in events they entered.

## Area Trio Named As Jury Commissioners

Three area men were named recently by County Commissioners for the July and October terms of county court.

The trio named are Basil Sherman, Olton; Marvin Wagner, Amberst and Pat Downs of Littlefield.

The lone bid of \$6,500, with trade-in, from West Texas Equipment Company of Lubbock on a Caterpillar diesel motor grader for Commissioners Precinct 2 was accepted by the court.

For construction of curb and gutter along the south edge of the Springlake Cemetery road, recently completed, commissioners voted to pay \$236,10. Springlake-Earth High School, which is bordered on one side by the proposed curb and gutter, will reimburse the county for a portion of the bill.

Close examination of the annual audit, which the commissioners voted unanimously to accept, took up most of the court's long day.

JULY BIRTHDAYS

July 1, 1731—The first circulating library in America was established by Benjamin Franklin, in Philadelphia.

July 8, 1907—Florenz Ziegfeld opened his first "Follies" on the New York Theatre roof. Weekly payroll: \$1,800. Reviews listed it under "New Vaudeville Acts."

July 15, 1606—Rembrandt Van Rijn, the Dutch painter, was born in Leyden, Netherlands on St. Swithin's Day.

July 16, 1945—The first atomic bomb exploded on the New Mexican desert.

July 22, 1933—Flying in his plane, the Winnie Mae, Wiley Post completed the first round-the-world solo flight. He flew 15,596 miles in 7 days, 18 hours and 45 minutes.

July 24, 1847—Brigham Young and his Mormon followers arrived at Great Salt Lake Valley, Utah; the date is now celebrated throughout the state as Pioneer Day.

July 27, 1777—The Marquis de Lafayette, the Baron Johann deKalb, and other foreign officers sympathetic to the cause of American liberty offered their services to the Continental Congress.

July 29, 1924—A successful telephone conversation between two people in New York and San Francisco heralds the construction of the first transcontinental telephone line in the United States.

## COMMUNITY LENDS A HAND...

"With God's help, and with the wonderful cooperation and assistance from the Springlake-Earth area people, Jimmy will in all probability have a better life", Mrs. Bill Mann said Tuesday, while speaking of the treatments given their son.

She explained that when Jimmy recently underwent observation and tests at the Institute for the Achievement of Human Potential in San Antonio, the doctors there allowed them to bring their son home, but were given strict instructions for treatments they must follow daily.

When area people heard of Jimmy's need for help, men and women from practically every church, civic club and organization volunteered their assistance and have become enrolled to help with treatments for the lad.

School nurse, Dorothy Wood, is scheduling the names and times for people to help with the therapy. Those wishing to help may contact her.

Five people meet at 9 a.m. and five at 4 p.m. daily, to give the lad patterning treatments. These are rhythmic movement of his arms, legs and head. These are given for a five minute period. The lad is then required to crawl flat on his stomach for 15 minutes, and rest for 15 minutes before the patterning treatments are resumed for an additional five minutes.

His treatment also requires two hours of creeping on his hands and knees each day, as well as eye exercises three times a day. He is also required to breathe inside a mask for one minute, out of every thirty minutes, during the day.

Jimmy is required to be kept quiet during the patterning lessons; also has no music at all, very little television viewing. He is only allowed 20 ounces of liquid daily, while being kept on a high protein diet to prevent thirst.

Mrs. Mann is required to give him reading and writing lessons daily. Karon Koeninger has been assisting in giving Jimmy daily lessons.

Among area children crawling with Jimmy to prevent monotony are Steve Hay, Terry Blanton, Dallas Lynch, Stacey Koeninger, Cindy and Kim Dent.

Jimmy will be taken to a "re-visit center" in Hereford in August, where they will re-evaluate his progress. Both Mr. and Mrs. Mann feel the progress is promising, since he is now reading on the primer level. However, treatment is sometimes required, doctors informed them, from one to three years, depending on the child, the extent of the injuries and

the age when treatment is begun. Jimmy is a victim of brain damage.

In summing up the strict time table set for Jimmy's treatments, Mrs. Mann said, "I'm sure God knows all our problems in life, and is a just God. He has already provided us with lovely, kind people who have come to our aid. Living in this small community is an asset, because everyone is aware of other's needs in the community, whatever they may be. We are indeed thankful for all the prayers and kindnesses shown our Jimmy."

## Son Of Local Resident Recovering From Recent Hunting Accident

Harrel W. Terrell, 29, son of Mrs. Floyd Bills, was dismissed from a Fort Worth Hospital Saturday, and is reported to be in good condition, following a hunting accident on June 29, when Terrell was accidentally shot.

The bullet, from a long-nosed pistol, struck Terrell in the lower abdomen, puncturing an intestine. He was in a serious condition for three days.

Mrs. Bills said the accident occurred as Terrell, standing behind a pickup, dropped his gun. The weapon struck the back of the pickup as it fell, causing it to discharge.

Mr. and Mrs. Bills returned Monday afternoon from Fort Worth, where they had visited Terrell. They also visited relatives in Dallas, Commerce, Garland and Wichita Falls before returning home.

Mr. and Mrs. Bill Rudd and family spent Saturday night and Sunday visiting his parents, Mr. and Mrs. Ralph Rudd of Springlake. Mr. and Mrs. Ledford Enloe joined the group for Sunday dinner.

Mr. and Mrs. Cecil Sigman and Kathy of Odessa visited Sunday with the V. J. Sigman family of Earth.

## Water Board Has Planning Meet In Amarillo

The second regular meeting of the Board of Directors of Water, Inc., was held at 10:00 a.m. Tuesday, June 27 in the Pioneer Natural Gas Board Room, 301 South Taylor, Amarillo, according to John J. Kendrick, Water, Inc. President.

Kendrick said a report to the Board on the new organization's activities to date was given and a discussion of plans for the immediate future, including a membership drive.

Water, Inc., was formed recently as a study and planning association which will work toward the importation of both in-state and out-of-state multiple-purpose water to West Texas, Eastern New Mexico and the Oklahoma Panhandle.

It is expected to coordinate the activities of the Texas Water Development Board, private engineering firms, the U.S. Bureau of Reclamation and the

U.S. Corps of Engineers, all of which will be involved in the final project, Kendrick said.

With respect to the membership drive, Kendrick noted that application forms are being printed and will be mailed initially to some 27,000 individuals, businesses and agencies. Also, he said a supply of the forms would be given to each of the 33 directors for distribution to banks, chambers of commerce offices and other locations throughout the 23 districts.

"A tentative budget of \$200,000 has been set by the Executive Committee for the first year operation," Kendrick stated, "and one of our first jobs will be to raise the necessary funds through membership dues."

The non-profit corporation has set minimum dues at \$25 per year, with dues on land, businesses and agencies established to reflect the size of individual or company operations.

Dues for landowners, farmers and ranchers were suggested on a per acre basis. Irrigated farmers 5 cents and ranchers 2 cents.

Commercial enterprise and agency dues were fixed at 50 cents per \$100,000 of capitalization and surplus up to \$250 in dues on \$500,000 capitalization. Above that figure, dues are to be set by the Executive Committee on receipt of the application for membership.

## WORTH TALKING ABOUT

"In recent years the world has experienced a tremendous growth in knowledge. But this has brought a corresponding problem—how to handle the information we amass. Today improved methods for collecting, storing, retrieving and distributing information are essential. We are deeply challenged to provide systems and services that will put the right knowledge in the right place at the right time."

Frederick R. Kappel  
Retired Chairman of the Board  
American Telephone & Telegraph Co.

## George Taylor, Famed Entertainer Will Provide Specialty Act At Rodeo

George Taylor was born in Chickasha, Oklahoma and was raised in Seminole, Oklahoma. His love for rodeo started at an early age. At the age of 14, with hard work, practice and the will to make good on his own, he made his first trick roping appearance in his home town at the Seminole Rodeo. For these first three performances he drew the total of \$10. From there to help support himself, he went to saddle broncs, bare back broncs and bulldogging. While still perfecting his trick roping and riding.

During the Korean conflict, George joined the U. S. Air Force for four years. After his discharge, he went back to rodeoing. It was not long after this George purchased Ruben, Ruben is a 2000 pound Brahma bull. George trained him as a trick animal and broke him to ride. At 13 years of age, Ruben jumps a wall of wire, jumps through a flaming hoop, drinks Coke and stands on a small platform to perform the famous "End of the Trail". All this is not enough for George. He is also a rodeo clown, trick roper under black lights, and performs with a midget Brahma bull, a trained mule and many more fill-in acts. He has traveled throughout the U.S., Canada and South Africa.

George is now residing in Fort Worth, with his wife, whom he met while performing in Canada, and four children, Deena 12, Kevin 11, Tommy, 10 and Darryle, 3 years. George is looking forward to coming to the Earth rodeo.

## Lions Club Officers Installed Tuesday

Don Avery, Littlefield, Zone Chairman for the Lions Clubs, was installing officers for the Earth Lions Club, at a noonday luncheon Tuesday in the Community Building.

Norman Hinchliffe was installed as president of the local club. Hinchliffe said "I hope this year will be a challenge to every member of the club to be a better community service organization. In order to accomplish this, we will have to expand our membership, promote new and additional projects and be active in all phases of lionism."

Others installed were L.K. Anderson, 1st vice president; M. H. "Dutch" Been, 2nd vice president; Leroy Wilkinson, 3rd vice president and J.H. Angeley as secretary.

Neil Pounds was installed as treasurer, with Ross Brock as Tail Twister and Henry Lewis as Lion Tamer. Directors installed included Roger Haberer, Bob Belew, Norman Sulser and Edwin O'Hair.

First vice president L. K. Anderson announced the selection of committees as follows. For the Finance Committee, he chose Neil Pounds as chairman, with Bill Bryant and Melvin Beck.

The program committee consisted of two chairmen; they are Leroy Wilkinson and Bob Belew. The membership committee is headed by M. B. Baldwin, with Roger Haberer and Norman Hinchliffe to assist.

Outlets been selected members of five committees. His selections for the Lions Information Committee were Jarvis Angeley, chairman, with Roger Haberer as assistant.

The Sight Conservation Committee will be headed by Bill Mann, with Fred Clayton as assistant.

Pete O'Hair was selected as chairman of the youth committee, with Phil Knight as his second in command.

The Committee for Citizenship, Patriotism and Public Relations International is steered by Bill Bryant, with Ross Middleton as his assistant.

The Greetings Committee is headed by Roger Haberer, with M. B. Baldwin as his helper.

Third vice president, Leroy Wilkinson, selected M.E. Kelley

and Henry Lewis for the Local Public Relations, Civic Improvement and Community Betterment Committee. Kelley will serve as chairman.

The Education, Health and Welfare and Agriculture Committee will be manned by Joe Temple, with Norman Sulser and M. H. Been as aides.

Donie Parish was selected as Ladies' Nite Chairman, with

Wendell Clayton to help carry out plans.

The twosome named on the Lions Queen Committee is chairman Phil Haberer and Rex Clayton. The Attendance Committee is composed of Edwin O'Hair as chairman with George Bloodgood as his aide. L. K. Anderson was named chairman of Special Projects Committee to serve with Ross Brock and J. H. Angeley.

## Joan Gover Currently Attending University Of Hawaii

Joan Gover is currently a student at the University of Hawaii. She left Earth June 17 and enrolled in classes there on June 19, for the first summer session. She is due to return here August 1.

Miss Gover, a business major received a B.S. degree from West Texas State University in May, 1966, is currently working

on her masters degree in Hawaii. She graduated from Springlake-Earth High School with the class of '62.

This past year, Miss Gover taught business administration in the Clarendon High School. Letters to her parents, Mr. and Mrs. A. W. Gover of Earth, indicate she loves every minute in Hawaii, and is fascinated with its beauty.

## Men, Too, Have That Total Look

Men's fashions have come into their own, says Miss Rheba Boyles, Extension clothing specialist at Texas A&M University. There is a new look—more color, higher styling, more attention to detail and accessories.

England started the "mod" trend, youthful Americans picked it up, and even conservative men's fashions have been influenced by the young London Look. Some of the fashion features of this "look" include colors in everything, blazers and double breasted jackets, white collars and cuffs on colored and printed shirts, plushy cotton velour and wild paisley prints, trousers in fabrics with large scale plaids, and corduroy for every season.

A Total Look has become important and attention to coordination is now a must. This, says Miss Boyles, is another influence of affluence on the growing importance of grooming and appearance. Technology, too, plays its part in men's

clothing. Durable press shirts and suits, and accessories of synthetic fibers go hand in hand with fashion, so that consumers have the best of two worlds—fashion and function.

The "mod" look includes a corduroy cap, flowered tie, solid colored shirt with a tapered body, a jacket with flap pockets, and deep side vents, color-coordinated glen plaid durable press slacks with legs straight from the knees, large enameled cuff links, and black zip boots. Typical "mod" accessories include wide striped belts with brass buckles, large jeweled cuff links, bright print shirts, and white French cuffs and collar.

### PARTY LINE

Mike Green, son of Mr. and Mrs. Terry Green of Lubbock, and grandson of Mrs. Bonnie Green and Mrs. C. W. Terry of Earth, will be admitted to a Lubbock hospital Thursday, for a tonsillectomy.

## Earth Babe Ruth Places Six Players On All-Star Team

The Earth Babe Ruth team ended its season by splitting a doubleheader with Parsons Funeral Home in Olton Sunday. Earth won the first game 13-4, but dropped the second game 7-6 in 5 innings. Winning pitcher in the first game was Steve Sanderson; the losing pitcher for Parsons was Nelson. In the second contest, Terry Bridge was the losing pitcher, and Lewis Ray was the winning pitcher.

On Monday, June 26, Hoyt Glascock was the winning pitcher in a 19-18 victory over Halfway. Gaitner was the losing pitcher. Earth beat Parsons Funeral Home on Friday, June 30, by a score of 8-4. Nelson was the losing pitcher for Parsons, and Steve Sanderson was winning pitcher.

The closing of the season ended a successful league championship bid by Earth. They ended up by winning ten games, while losing only two. Jimmy Banks and Joe Neil Ellis coached the team to its championship. Players on the team are Terry Bridge, Steve Sanderson, Hoyt Glascock, Kent Parish, Freddy Helms, Steve Jones, Terry Key, Donny Wheat, Eddie Alair, Nicho Triana, Greg Slover, Tony Barton, Chris Brock, Johnny Eagle, and Gil Vining.

Chosen from Earth to be on the All-Star team representing Olton's league and to begin play in the championship tourney on Monday, July 10, were Steve Sanderson, Tony Barton, Terry Bridge, Freddy Helms, Steve Jones and Hoyt Glascock. The remaining players on the team are Mike Parsons, Joel Nelson, Jason Latimer and Gary Kelley, all from Parsons Funeral Home; Randy Gaitner, Mark Gaitner, and Selbo Garcia from Halfway; and Mickey Crowder and Pat Trotter, both of Jack Straw Gin.

Coaches for the All-Star team are Jimmy Banks from Earth and Jim Melton of Olton. The Olton All-Stars will meet the Dumas All-Stars Monday, July 10 at 8 p. m. in Olton. The winning all-star team of the tournament will be eligible for the State Tournament in Pampa, July 18-25.

EARTH BABE RUTH CHAMPIONSHIP TEAM won the league championship with a season record of 10-2. They are, back row, left to right, Joe Neil Ellis, coach, Terry Bridge, Steve Sanderson, Hoyt Glascock, Kent Parish, Freddy Helms, Steve Jones and Jimmy Banks, coach. Front row, Terry Key, Donny Wheat, Eddie Alair, Nicho Triana, Greg Slover and Tony Barton. (Unavailable for the shots were Chris Brock, Johnny Eagle and Gil Vining.)

## Hightower Appointed To Legislative Council

AUSTIN -- Lieutenant Governor Preston Smith today announced the appointment of Senator Jack Hightower of Vernon to the Texas Legislative Council.

The Legislative Council is a permanent legislative service agency with a full-time professional staff, which conducts studies requested by legislative resolution, provides bill-drafting services during sessions, and is also charged with the statutory revision function. Members of the Council, who determine policy and direct the work of this important agency, are appointed after the adjournment of each regular session by the presiding officers of the two houses, who also serve on the Council, with the Lieutenant Governor as chairman and the

Speaker of the House of Representatives as vice chairman.

Hightower began his first term in the Senate with the 59th Legislature and was a member of the House of Representatives of the 53rd Legislature in 1953. He is chairman of two important committees of the Senate of the 60th Legislature, Contingent Expense and Game and Fish, and is also a member of the following additional standing committees of the upper house: Agriculture and Livestock Counties, Cities and Towns; Finance; Insurance; Labor and Management Relations; Legislative, Congressional, and Judicial Districts; Oil and Gas; and Water Conservation.

### AMONG THOSE WHO ARE ILL

Mrs. Howard Cummings was admitted to the Medical Arts Hospital in Littlefield, Sunday where it was thought Mrs. Cummings was suffering from encephalitis. Following tests, doctors diagnosed her illness as a virus and she was reported to be improving, Tuesday afternoon.

Ray Glascock, Truscott, formerly of Earth, is reported to be improving in the Methodist Hospital in Lubbock, following a car wreck in mid-June. Glascock was reported to be able to sit up some, each day.

## Peace Corps To Test On July 15

Earth area residents interested in helping the people of developing nations to help themselves are invited to take the Peace Corps Placement Test at 1:30 p. m. on Saturday, July 15 at Room 16A in the Post Office Building in Lubbock.

The test measures general aptitude and the ability to learn a foreign language, not education or achievement. It is given to determine where and how an applicant will be happiest and best utilized overseas. The test requires no preparation and is non-competitive; an applicant can neither pass nor fail. The test takes about one hour and a half.

The application form, available from local post offices or from the Peace Corps in Washington, D. C., 20525, is the most important factor in the selection of Volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test.

Over 15,000 Peace Corps Volunteers are now at work in 53 developing nations. They come from every conceivable background, but are united in their efforts to improve the food production, health, education and life of the millions whose governments have asked the Peace Corps to help.

Many Americans will be amused to read that an Australian firm is seeking a supply of gasoline-operated washing machines and kerosene refrigerators. It will be a nostalgic reminder for others to learn that an American firm is still the largest manufacturer of gasoline and kerosene stoves in the world, and sells the bulk of its production to women within the United States.

## Brownd Family Returns From Vacation In Hawaii

"Describing in part, the beauty of the many kinds of flowers growing in Hawaii is an impossibility, for one with only the ordinary usage of descriptive words," said Mrs. Gene Brownd, following the recent return of the Gene Brownd family from an eight day tour in Hawaii. For one whose eyes are so accustomed to the cotton and maize fields of West Texas, the change was, as one could rightly say, "out of this world".

She named over various species of orchids growing wild on the islands, along with various other beautiful flowering plants and trees. The flame tree was one of her favorites. She described it as a huge tree, covered solid with bright red blossoms, like a giant bouquet.

The Brownd trip was a combined memorable vacation and a chance to visit with Mrs. Brownd's brother and family, Lt. and Mrs. R. H. Fulfer, Lt. Fulfer is commanding officer of enlisted personnel at Pearl Harbor Naval Base.

The Fulfers met the Brownnds and Mr. and Mrs. Bill Morris, of Lubbock, formerly of Earth, at the airport. As they descended from the plane, they were given the Hawaiian royal welcome, using beautiful leis made from orchids and palmleaves from the yard of the Fulfer home.

The Fulfers and Brownnds drove around the island of Oahu one day, stopping to view the places of interest. They toured the Polynesian Cultural Center, located in Honolulu. She described the setting as a group of little grass huts in an area, each occupied by a different nationality of people. Included in these were people from Tahiti, Samoa, Japan, Hawaii, and various other places. They each wore their own native dress, and performed their native dances.

They saw the Sea Life Park, which is similar to Marineland in California. There were porpoise, whales and all kinds of sea animals.

The Brownnds told of the Princess Iolani's palace, which was a famous landmark, preserving memories of former monarchs of Hawaii, being currently used as the 50th state's capitol building. It was beautiful, but in many ways resembled a capitol building on the mainland.

They toured the National Memorial Cemetery in Honolulu, sometimes referred to as the Garden of the Missing. Engraved on tiny stones are the names of 26,280 missing in World War II and the Korean War. The cemetery is situated in an extinct volcano (Punch Bowl) surrounded by the City of Honolulu.

The Brownnds and Fulfers attended a luau on the beach at the Royal Hawaiian Hotel. There were people there from all walks of life, and from many countries. All were dressed in casual wear, men mostly in shorts and women in muu-muus.

They saw a pig, with the apple in its mouth, being removed from the oven. This is called Luau, and is the main dish of every feast in Hawaii. It is cooked with hot stones, in an underground oven. The menu was quite different to anything the Brownnds had ever eaten, and consisted of many, many choices of foods. They did not like the poi, made from betas and roots. However, they did enjoy the dancers and music presented on an elevated stage.

The Brownnds, accustomed to eating foods and drinking juices and fruit blends they were unfamiliar with, found a drink they really liked. Likewise, so did their son, Dickie and daughter, Kathie. They went up for refills, and casually asked what the drink contained. Much to their surprise, it consisted of rum, mixed with fruit juices.

They shopped at the largest shopping center in the world, in Honolulu. Not only was it large, but it was unbelievably beautiful, with fountains and fish ponds in the center of the area. They had lunch on the 23rd floor of one of the buildings in the shopping center. It was a revolving restaurant, making a complete turn every hour, allowing its customers to view the entire island while they dined 514 feet above the street.

The Brownnds took the Pearl Harbor cruise out to the USS Arizona Memorial Shrine. The memorial structure is an enclosed bridge transversely spanning the hull, which is resting on the bottom of Pearl Harbor, in 32 feet of water. The end wall of the memorial is inscribed with the names of 1177 men who lost their lives when the ship went down, over a concrete slab, with a wreath around it.

THE BROWND IN HAWAII

high as 100 feet. "Surfers are many," she said, "despite the fact that three or four drown daily at the sport." They toured the pineapple fields, banana plantations and sugar fields. Mrs. Brownd was impressed with the extinct volcano, Diamond Head.

The Fulfers had bananas, limes, lemons, oranges and avocados growing in their back yard. The Brownnds said they had never eaten so much fruit, or drunk so much pineapple juice, during any other eight day period in their entire lives. Neither had they feasted their eyes on so much beauty.

## Limitation On Government Payments To Individual Producers Discussed

"The enactment of a \$10,000 limitation on government payments, as advocated by Senator Williams and others, would bring chaos to both the agricultural and industrial economies of the nation, and would wreck the country's chances for maintaining a balanced supply of reasonably priced food and fiber."

This was the reaction of Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., to a proposal by Senator John J. Williams of Delaware that no individual producer of agricultural commodities be permitted to receive more than \$10,000 in price support, diversion or other government payments.

Williams is expected to offer the proposal as an amendment to the Agricultural Appropriations Bill being considered in the Senate. The Bill will be taken up again following the 10-day July 4 recess which began on June 30.

Johnson continued his remarks by saying that such action would not even get a serious hearing in either the Senate or the House if there was a full understanding of the role played by government farm programs in the national economy and the everyday life of its people.

Williams contends that a disproportionate share of government assistance to agriculture is going to large, "corporate" farmers, and that this is unfair to the "family" farm.

In an attempt to make his point, he listed in the Congressional Record the names and addresses of all U. S. farmers who drew payments of \$50,000 or more in 1966, excluding price support loans.

The listing covers almost 10 pages in the Record, and includes 29 of the 50 states. California led all states with 249 listings in this "Who's Who in Agriculture." Texas ran second with 238 names, 120 of them from the 23 High Plains counties covered by Plains Cotton Growers, Inc. These were followed by Mississippi, with 228, Arizona with 160 and Arkansas with 73.

Johnson believes Mr. Williams has lost sight of farm program objectives. These were described on the Senate floor by Senator Herman Talnage of Georgia as "to provide a continuously adequate supply -- but not a burdensome excess -- of food and fiber products at stable prices fair to both producers and consumers, without undue public cost, considering the vital objective of this policy."

And Johnson points out that these objectives cannot possibly be reached by farm programs that limit what a producer can be paid for participating. His cooperation with the program entails the removal of land from production -- and his payments are compensation for this reduction in earning power.

"Putting a maximum on payments," he said, "would in effect put a maximum on the size of the farm which could afford to cooperate with farm programs. It would be foolish to expect a farmer to take 1,000 acres out of production to help keep supplies in line with national policy if the maximum payment he can get is the same \$10,000 that is paid to the man who only idles 200 to 300 acres."

"These larger farms would be forced out of government programs, would produce excess supplies, and prices for the production from large farms and small farms alike would be ruined."

It should be noted that the farms receiving large payments are producing a much larger percentage of the nation's agricultural output than their numbers would indicate. Consequently if they should be excluded from taking part in the curtailment of production through government programs, the entire plan would be doomed to failure.

"And when it is considered that agriculture is the number one customer of all industry, you can easily see what would happen to the national economy when unmanageable surpluses destroyed the farmer's buying power," Johnson added.

"The basic problem is the failure of farm program opponents and those who would limit payments to understand three major points," Johnson contends. "First, government payments are not a part of a poverty program designed to help some farmers who are less fortunate than other farmers. They are not welfare payments. They are a payment made to farmers for idling a part of capital investments in the interest of reaching national farm policy objectives, to the ultimate benefit of both consumers and producers."

"Second, payments are a logical, justifiable, necessary means to induce farmers to cut production. Farmers, large and small, are paid in direct proportion to their productive capacity, hence in proportion to their contribution to the national well-being. The farmer with more productive capacity gets more than one with less, just as he would earn more if he produced to the maximum. He gets more because he contributes more, just as the president of a company gets more than the file clerk."

"Third, the purpose of government programs is to keep commodity production in line with commodity demand, to the end of (A) adequate but not surplus supplies, (B) fair and equitable returns to efficient producers and (C) prices in line with consumer ability to pay."

"In view of these facts," Johnson concluded, "Senator Williams has accomplished nothing with his list of larger farmers in the Congressional Record. It is certainly not an indictment of the farmers named, nor is it legitimate criticism of current farm programs."

Let patience have its perfect work, that you may be perfect and entire. --(James 1:4)

Patience is not a do-nothing quality. Some persons feel that patience is like marking time; but this is not so. It takes great strength to be patient. It is a needed quality in all of us. We need patience in little things that annoy or frustrate us. We need patience in handling human relations; we need patience in handling family affairs; we need patience in meeting all the various phases of our life.

# BELOW IS A QUIZ FOR \*SMART PEOPLE

## ANSWER 'YES' OR 'NO' TO THESE QUESTIONS:

1. Are you in your home or office now?
2. Did you buy this paper at a newsstand?
3. Do you read this newspaper often?
4. Are you enjoying today's paper?
5. Do you like convenience?
6. Do you like to save money?

**IF YOU ANSWERED "YES" TO ALL THESE QUESTIONS, THEN YOU SHOULD CALL OUR CIRCULATION DEPARTMENT TODAY —** they'll see to it that you receive every issue of this, your favorite newspaper, at your home or office. ### Seed Testing Program In Full Swing

Texas A&M University's Seed Testing Program is moving forward at a rapid pace with test plots located throughout the state.

Grain sorghum and corn performance tests are presently being conducted, says Harvey Walker, agronomist at the South Plains Research and Extension Center at Lubbock, and coordinator of the program. Observational plots also are established with grain sorghum.

Walker is in the Department of Soil and Crop Sciences at Texas A&M which administers the program.

Commercial seed companies wishing to participate in the program must pay an entry fee for each location for hybrids entered, points out the agronomist. Twenty-eight companies have entered hybrids this year with one having 70 entries. Firms or individuals are not limited on the number of entries.

A limited number of hybrids from the various Agricultural Experiment Stations are also included in the tests, says Walker. These consist of grain sorghum hybrids from the grain sorghum breeding program directed by Darrell Rosenow, agronomist at the Center, and corn hybrids from the corn breeding program directed by Dr. Anton Bockholt, assistant professor with A&M's Department of Soil and Crop Sciences.

These and other researchers, along with county agricultural agents and local farmers, cooperate in conducting the test program at various locations.

Data collected on grain sorghum include bloom date, height, head exertion, yield, test weight, lodging and disease reaction.

Similarly, corn data include silk date, height, ear and shuck characteristics, root and stalk lodging, number of ears per 100 stalks and disease reactions.

Walker points out that data obtained from observational sites are available only to participating seed companies but that information from performance yield trials is published annually for use by farmers, seedsmen, seed dealers, researchers, Extension personnel and other interested individuals.

Tentative dates for such publication is December 1 for data obtained in South and Central Texas and February 1 for High

and Rolling Plains data.

The agronomist explains that each performance trial must consist of at least three replications and five check varieties. Varieties are grouped by maturity with the original maturity designation provided by the entering seed company. However, says Walker, the final decision regarding maturity designation is based on the actual maturity at the specific location.

Field layout, plot size and shape and seeding rate are based upon generally accepted test procedures.

Corn performance tests this year are located at College Station, Holland, Plano, Overton, Martindale, El Campo, Muleshoe and Weslaco.

Areas for the grain sorghum performance trials in 1967 include Weslaco, San Patricio County, Beeville, Wharton County, College Station and Temple, also McGregor, Collin County, Chillicothe, Lamesa, Lubbock, Stratford, Bushland, Runnels, Hall, Swisher and Farmer Counties.

Both irrigated and dryland tests are located at Lamesa, Lubbock and Bushland. Other irrigated tests on the High Plains

### Sturdy Variety Of Wheat Available Soon

Fifteen years of breeding work have provided Texas growers with a "sturdy" wheat for irrigation and other high production areas.

The new variety, named Sturdy, was developed cooperatively by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture by a team of researchers at several stations. The researchers are Dr. I. M. Atkins and Dr. O. W. Merkle of Texas A&M University, Dr. K. B. Porter of the USDA Southwestern Great Plains Research Center at Bushland, and K. A. Lair of the Rolling Plains Soil and Crops Research Station at Chillicothe.

Dr. Atkins said the variety came from a complex cross made in 1951 involving several hard, red winter wheat experimental strains and a short stature type from Japan.

"While not related to the famous Gaines wheat, developed in the Pacific Northwest, it is similar in that it produces a short, sturdy plant that will resist lodging by storms," he said.

Although sturdy is a hard red winter wheat, Dr. Atkins points

Sturdy for its ability to stand up in storms and with heavy loads of grain, will be available after the 1967 harvest from certified seed growers and seedsmen in Texas.

Sturdy was developed cooperatively by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture by a team of researchers at several stations. The researchers are Dr. I. M. Atkins and Dr. O. W. Merkle of Texas A&M University, Dr. K. B. Porter of the USDA Southwestern Great Plains Research Center at Bushland, and K. A. Lair of the Rolling Plains Soil and Crops Research Station at Chillicothe.

Dr. Atkins said the variety came from a complex cross made in 1951 involving several hard, red winter wheat experimental strains and a short stature type from Japan.

Although sturdy is a hard red winter wheat, Dr. Atkins points

out that its adaptation is more limited than most varieties. Regional and state tests have shown that it probably is not winter-hardy enough in areas north of Texas.

"Furthermore, without irrigation it may not grow sufficiently tall for normal combine harvesting in very dry seasons," the agronomist added.

Plants of Sturdy wheat are six to ten inches shorter than present commercial varieties when irrigated or grown under high fertility levels. The trait boosts grain yields and avoids excessive straw production.

"Heavy straw growth is difficult to combine and decays slowly during the summer, sometimes being detrimental to a fall seed crop that follows," Atkins explained. "Sturdy frequently sets three and sometimes four seed per spikelet, and this contributes to high yields."

The new variety is early maturing, only two or three days later than Triumph wheat. Plants are resistant to present races of leaf rust but not to stem rust.

### Lazbuddie News...

By Mrs. C. A. Watson

The Don Martin family had as guests Sunday afternoon, Mr. and Mrs. Bernard Gowens, David and Mike, Friona; Mr. and Mrs. P. E. Cargile, Cassandra, Karan, Wade and Elaine of Lariat and Elder and Mrs. Kenneth Martin of Muleshoe.

Mrs. J. D. Carpenter returned last week from several days' vacation down south way. Her sister-in-law, Mrs. C. H. Carpenter from Houston, had spent several days with her, and accompanied her on the trip. They were in McAllen, Corpus Christi, Houston, Dallas and were guests at the Bay House. Also they were on Padre Island.

While in Houston, visiting her daughter and family, Shirley Howard, the group went to Six Flays, Danny Howard, Houston and Joyeln Carpenter from McAllen returned to Lazbuddie with Mrs. Carpenter for a summer vacation. On their way to Lazbuddie, they stopped at Olney to visit Mrs. Carpenter's relatives the Jackson families.

Recent visitors in the Jack Smith home were their daughter and family, the Jerry McKenzie's of Plainview.

Mr. and Mrs. Gary Albertson of Kirksville, visited her mother, Loraine Gallman, recently. They also visited his relatives in Muleshoe. He is presently attending medical school in Kirksville. She is the former Twila Gallman, 1964 graduate of Lazbuddie High.

Darla Ivy, Billie Mason and advisor, Miss Eva Dean Ivy attended the Young Homemakers workshop in Plainview, for area one recently.

May Mahan returned last week from a two weeks' trip visiting her children, the Don Jordens also visited relatives in Arkansas, Charleta Treider was sub worker at the Lazbuddie Post Office for Mrs. Mahan.

Mr. and Mrs. Darrell Jennings and son were recent visitors in the home of her parents, Mr. and Mrs. James Robinson and his parents, Mr. and Mrs. J. B. Jennings. They are from Dekath, Texas.

Mr. and Mrs. Harvey Bass, Carolyn and Vina visited Sunday afternoon, in the home of his sister and family, Mr. and Mrs. C. A. Watson.

# "THIS and THAT" From Circle-Springlake-Olton

By Mrs. Tom Stansell

Mr. and Mrs. J. W. Dear, Myrna, Leland, Karen, Darla and Larry left Saturday for an outing at Lake Meredith, Lonnie is caring for the cattle, and Connie is a guest in the Tom Sessions home.

Mrs. Floy Choate was still in Littlefield Hospital Sunday. She has been a patient there since June 19.

Mrs. L. A. George and Mrs. Berniece Smith spent Wednesday night in Anton, in the home of Mr. and Mrs. W. F. Williamson, former residents of Olton and Earth.

Buddy Hedges and Mike returned Friday from a trip to Fort Worth and Dallas.

Mr. and Mrs. Joel Finney and daughter, of Dallas, have been visiting their parents, Mrs. Marvel Caruthers of Springlake and Mr. and Mrs. W. G. Finney of Olton.

Mr. and Mrs. Joe Gibson and Mrs. Maggie Helm of Canyon, were guests Sunday of Mr. and Mrs. J. T. Gibson.

Bro. Jack Dial of Muleshoe preached at the First Baptist of Springlake at the eleven o'clock morning service, and again at evening worship.

Mr. and Mrs. Arnold Locke, Steve, Peter, Paul, Frances, Barbara and David of Lawton, Okla, spent the weekend in the home of Mrs. F. E. Bennett, mother of Mrs. Locke, who was Helen Bennett when she attended school at Springlake.

The Springlake Thursday Bridge Club met last week in the home of Mrs. Billy Wayne Clayton. Guests were Mrs. Jim Stephens, Mrs. Clifford Hopping, Mrs. Jim Winder, Mrs. Dolan Fennell, Mrs. Richard Green, Mrs. Robert Riley and Mrs. Hollis Cain, Jr.

Mr. and Mrs. Tom Stansell were in Dimmitt Saturday consulting Mr. Stansell's physician.

Mrs. J. B. James took Mrs. G. C. Bearden to Lubbock, Thursday, for a physical check-up.

Sunday, Mrs. W. P. Hedges had as guests, her sons and families, Mr. and Mrs. Willis Hedges and family, and Mr. and Mrs. Arthur Hedges and family of Amherst, and Mr. and Mrs. Buddy Hedges and family.

## Wasp Stings Can Be Dangerous

Wasps, as a rule, are beneficial insects, but they can become "tough customers" when disturbed. This often happens, says Phil Hamman, assistant Extension entomologist at Texas A&M University, when the insects build nests in such close proximity to the house, or even in the house, to make the area too confining for both insects and man.

Polistes, hornets, yellow jackets, mud daubers and the cicada killer are all wasps and as a group are beneficial insects. They destroy harmful insects found around homes and in gardens, but they can also attack people. Mud daubers and cicada killers usually will not sting unless touched or get caught in a person's clothing. But stay clear of the nests of hornets, yellow jackets and Polistes, warns Hamman.

A wasp stings by driving its needle-like ovipositor into the flesh and injecting a venomous fluid into the wound. This causes a painful swelling that may last for several days. In some people, a wasp sting results in severe illness or even death, says the entomologist. Because of the probability of serious trouble, Hamman suggests that a sharp lookout be maintained for the insects and especially for their nests.

Nests and insects can be destroyed by applying recommended insecticides. Do the control work at night, he says, when wasps are less active and most are in the nest. Since many nests are found in trees and shrubbery or on the house, Hamman suggests using a water based spray containing DDT, chlordane or dieldrin. If the wasps are nesting in the ground, the same materials in a dust form are recommended.

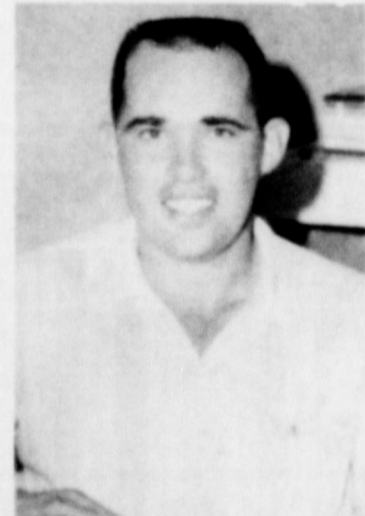

Numerous ready-to-use formulations and aerosol bombs are readily available and will give good results, says Hamman. But, he warns that regardless of the material used, label instructions should be carefully followed. Local county agents, he adds, can supply information on recommended insecticides, including rates of application and directions for mixing and using the materials.

**DONNIE FANCHER TO BOYS' STATE**

Donnie Fancher, son of Mr. and Mrs. C. B. Fancher, recently represented Olton at Boys' State in Austin.

He was selected by the Lions Club and Joe Turner, High School Principal, and sponsored by the American Legion, which holds this event annually in each state in the union.

Two chartered buses took youths from the Lubbock area, who had been selected to attend the event. In Austin, they were housed in men's dormitories on the campus of the University of Texas. Sunday, they were taken in a group to church services.

Monday, the 750 youths were divided into two political parties. Conventions were held and platforms were formed. After addressing the members of their respective parties, young men with the required number of signatures, became candidates for state, county and city offices.

Primary, run-off and general elections were held.

After election, the legislature met in session. Among laws passed was one permitting future citizens of Boys' State to eat in rotation, rather than in strict alphabetical order.

A letter of appreciation was sent to our fighting men in Vietnam.

Dr. Roe Bartle, ex-mayor of Kansas City, Mo., and Jack Cox made impressive addresses in general assemblies. They were made honorary members of Boys' State, 1967. Another speaker was Allan Keys, colored, of San Antonio, who won the 1967 American Legion National oratorical contest. Keys and Sam Hopkins, governor of Boys' State, 1967 are Texas delegates to Boys' Nation, which will be held in Washington, D.C., this month. Sam Hopkins, 1966 governor of Texas Boys' State, became president of Boys' Nation last summer.

Friday, the youths marched in formation to the State Capitol. Those who were state officers met their counterparts in real state government. The other boys were taken through the Supreme Court Building, the Department of Parks and Wild Life, the Governor's Mansion and the Capitol Building.

Friday night featured the Governor's Inaugural Ball.

Last General Assembly was held Saturday morning.

Each afternoon, the boys engaged in swimming, baseball and football.

**MALONE ATTENDS SHORT COURSE**

Max Malone, Vocational Agriculture teacher of Olton High School, recently attended a three week's short course on Ornamental Horticulture at Texas Agricultural and Mech-
